**APPROVAL OF AUTHORIZED COMMON STOCK INCREASE**

Pursuant to the requirements of Nevada Revised Statutes ( NRS ) Section 78.2055, on February 1, 2007, the members of the Board of Directors of the Company proposed and recommended to the stockholders the Authorized Common Stock Increase. The proposal is an amendment to the Articles of Incorporation to increase the number of shares of Common Stock authorized up to 100,000,000 shares. The original Articles of Incorporation of the Company filed May 30, 1991 provided for an authorization of 100,000,000 shares of Common Stock. Pursuant to a Certificate of Decrease in Authorized and Issued Shares filed with the Nevada Secretary of State on January 10, 1996, the number of authorized shares of Common Stock was reduced down to 20,000,000 shares authorized. Subsequently, pursuant to an amendment approved by the stockholders, on August 20, 1996, a Certificate of Amendment was filed with the Secretary of State of Nevada again increasing the number of shares of authorized Common Stock to 100,000,000 shares which effectively overrode the January 10, 1996 decrease. Again, in connection with a reverse split of the stock on the basis of one share for each twenty-five shares held, on November 30, 2001, a Certificate of Decrease in Authorized Shares was filed with the Secretary of State of Nevada decreasing the number of shares of Common Stock authorized from 100,000,000 shares down to 4,000,000 shares. The Board of Directors has now determined that in connection with future acquisitions of assets or businesses, it may be necessary to issue Common Stock in payment therefore and the Board of Directors is concerned that, at the present level, there may not be enough shares authorized. Therefore, the Board of Directors proposed to the stockholders an amendment to the Articles of Incorporation to again increase the number of authorized shares of Common Stock to 100,000,000 shares.

The Board of Directors believes that the increased authorized number of shares of Common Stock contemplated by the Authorized Common Stock Increase is desirable to make available shares of Common Stock for future issuance by allowing the Company greater flexibility with respect to general corporate purposes and in considering potential future actions involving the issuance of stock, including, without limitation, raising capital, stock dividends or splits, potentially providing equity incentives to employees, officers and directors. The Company currently does not have any specific agreements or plans that would involve the issuance of additional shares of Common Stock that would be authorized by the Authorized Common Stock Increase although the Company has in the past considered, and intends to consider transactions from time to time that could result in such issuances. The Board of Directors also believes that an increased authorized number of shares of Common Stock would be desirable to make additional unreserved shares of Common Stock available for issuance or reservation without further stockholder authorization, except as may be required by law or by the rules of the American Stock Exchange. Section 712 of the American Stock Exchange ( AMEX ) company guide requires stockholder approval as a prerequisite to approval of applications to list additional shares to be issued where the present or potential issuance of Common Stock (or securities convertible into Common Stock) could result in an increase in outstanding common shares of 20% or more.

Authorizing the Company to issue more shares than currently authorized by the Articles of Incorporation will not affect materially any substantive rights, powers or privileges of the holders of shares of Common Stock. Holders of shares of Common Stock are entitled to one vote per share on all matters submitted to the stockholders and do not have cumulative voting rights or pre-emptive rights for the purchase of additional shares of any class of capital stock. The additional shares of Common Stock for which authorization is sought are identical to the shares of Common Stock now authorized. However, the issuance of additional shares of Common Stock may, among other things, have a dilutive effect on the earnings per share and on equity and voting power of existing stockholders and may adversely affect the market price for the Common Stock. Although the Board of Directors has no present intention of issuing any additional shares of Common Stock or Preferred Stock for such purposes, the proposed increase in the number of authorized shares of Common Stock could enable the Board of Directors to render more difficult or discourage an attempt by another person or entity to obtain control of the Company. However, the Company does not view the Authorized Common Stock Increase as part of an anti-takeover strategy. The Authorized Common Stock Increase is not being advanced as a result of any known effort by any party to accumulate shares of Common Stock or to obtain control of the Company.

If the proposal had not been adopted by the Majority Stockholders, it would have been necessary for this action to have been considered by the Company's stockholders at a special or annual stockholders meeting convened for at least the purpose of approving the Authorized Common Stock Increase. The elimination of the need for a meeting of the stockholders to approve the Authorized Common Stock Increase is authorized by NRS 78.320, which provides that the written consent of the holders of outstanding shares of voting capital stock having not less than the minimum number of votes which would be necessary to authorize or take the action at a meeting of which all shares entitled to vote on a matter were present and voted, may be substituted for the special meeting. According to NRS 78.390, a majority of the outstanding shares of voting capital stock entitled to vote on the matter is required in order to amend the Company's Articles of Incorporation. In order to eliminate the costs and management time involved in the holding of a special meeting, and in order to effectuate the Certificate of Amendment as early as possible in order to accomplish the purposes of the Company, the Board of Directors of the Company decided to utilize the written consent of the Majority Stockholders of the Company.

On February 2, 2007, the Majority Stockholders, by written consent in lieu of a meeting, approved a Certificate of Amendment to the Company's Articles of Incorporation. No further consents, votes or proxies are or were necessary to effect the approval of the Certificate of Amendment to the Company's Articles of Incorporation.

Under Nevada law, any dissenting stockholder is not entitled to appraisal rights with respect to the Certificate of Amendment covering the Authorized Common Stock Increase and the Company will not independently provide stockholders with any such right.

#### **OUTSTANDING SHARES AND VOTING RIGHTS**

As of February 2, 2007, the date of action by the Majority Stockholders, the Company's authorized capitalization consists of 4,000,000 shares of Common Stock, par value \$0.01 per shares, of which 986,954 shares are issued and outstanding, and 10,000,000 shares of Preferred Stock, par value \$0.10 per share, of which 100,000 shares have been designated as the Series B Preferred Stock which presently only has 615 shares issued and outstanding which have the right to vote together with the holders of Common Stock, and not as a separate class on matters to come before a vote of the stockholders, with each share of outstanding Series B Preferred Stock being entitled to one vote per share. Each share of Common Stock outstanding entitles its holder to one vote on each matter submitted to the stockholders. Accordingly, based upon the 986,954 shares of Common Stock

outstanding and the 615 shares of Series B Preferred Stock outstanding, 493,785 votes will constitute a majority of the votes outstanding on any matter brought before the stockholders. As noted below, the Majority Stockholders have voted 577,385 shares (and votes) in favor of the approval of the Certificate of Amendment covering the Authorized Common Stock Increase, which constitutes approximately 58.5% of the Votes in favor of such amendment.
