ROCK-TENN COMPANY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
For the Three and Six Month Periods Ended March 31, 2006
(Unaudited)

*Unless the context otherwise requires, we, us, our and the Company refer to the business of Rock-Tenn Company and its consolidated subsidiaries, including RTS Packaging, LLC, which we refer to as **RTS** and GSD Packaging, LLC, which we refer to as **GSD**. We own 65% of RTS and conduct our interior packaging products business through RTS. We own 60% of GSD and conduct some of our folding carton operations through GSD. These terms do not include Seven Hills Paperboard, LLC, which we refer to as **Seven Hills**. We own 49% of Seven Hills, a manufacturer of gypsum paperboard liner, which we do not consolidate for purposes of our financial statements. All references in the accompanying condensed consolidated financial statements and this Quarterly Report on Form 10-Q to aggregated data regarding sales price per ton and fiber, energy, chemical and freight costs with respect to our recycled paperboard mills excludes that data with respect to our Aurora, Illinois, recycled paperboard mill. We exclude that data because the Aurora operation sells only converted products. All other references herein to other operating data with respect to our recycled paperboard mills, including tons data and capacity utilization rates, includes operating data from our Aurora recycled paperboard mill.*

Note 1. Interim Financial Statements

Our independent registered public accounting firm has not audited our accompanying condensed consolidated financial statements. We derived the condensed consolidated balance sheet at September 30, 2005 from the audited consolidated financial statements. In the opinion of our management, the condensed consolidated financial statements reflect all adjustments, which are of a normal recurring nature, necessary for a fair presentation of our results of operations for the three and six months ended March 31, 2006 and 2005, our financial position at March 31, 2006 and September 30, 2005, and our cash flows for the six months ended March 31, 2006 and 2005.

We have condensed or omitted certain notes and other information from the interim financial statements presented in this Quarterly Report on Form 10-Q. Therefore, these condensed consolidated financial statements should be read in conjunction with our Annual Report on Form 10-K for the fiscal year ended September 30, 2005 (the **Fiscal 2005 Form 10-K**).

The results for the three and six months ended March 31, 2006 are not necessarily indicative of results that may be expected for the full year.

We have made certain reclassifications to prior year amounts to conform such amounts to the current year presentation.

Note 2. Summary of Significant Accounting Policies

For a discussion of our significant accounting policies, see *Note 1. Description of Business and Summary of Significant Accounting Policies* of the Notes to Consolidated Financial Statements section of our Fiscal 2005 Form 10-K. As of the date hereof, there have been no significant developments with respect to significant accounting policies since September 30, 2005.

Note 3. New Accounting Standards

Statement of Financial Accounting Standards No. 151, *Inventory Costs* an amendment of ARB No. 43, Chapter 4 issued in November 2004 was adopted by us on October 1, 2005 (**SFAS 151**). SFAS 151 requires us to recognize abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage) as current-period charges and to base our allocation of fixed production overheads to the costs of conversion on the normal capacity of the production facilities. The adoption of SFAS 151 did not have a material effect on our condensed consolidated financial statements.

We adopted Statement of Financial Accounting Standards No. 123 (revised 2004), *Share-Based Payment* on October 1, 2005, see *Note 8. Share-Based Compensation* .

Note 4. Comprehensive Income (Loss)

The following are the components of comprehensive income (loss) (in millions):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2006	2005	2006	2005
Net income (loss)	\$ 5.2	\$ 0.2	\$ (3.8)	\$ 0.7
Foreign currency translation adjustment	(0.7)	(1.5)	(1.2)	6.6
Unrealized gain on derivative instruments, net of tax	1.4	0.1	3.0	0.3
Total other comprehensive income	0.7	(1.4)	1.8	6.9
Comprehensive income (loss)	\$ 5.9	\$ (1.2)	\$ (2.0)	\$ 7.6

The change in other comprehensive income due to foreign currency translation was primarily due to the change in the Canadian/U.S. dollar exchange rates and the repatriation of a portion of the capital invested in our Canadian operations in the first quarter of fiscal 2006 at an exchange rate of 1.174. The numbers that follow are the Canadian dollar equivalent of one U.S. dollar. The second quarter of fiscal 2006 was impacted as the exchange rate moved to 1.1681 at March 31, 2006 from 1.1628 at December 31, 2005. The second quarter of fiscal 2005 was impacted as the exchange rate moved to 1.2099 at March 31, 2005 from 1.1995 at December 31, 2004.

The six months ended March 31, 2006 was impacted as the exchange rate moved to 1.1681 at March 31, 2006 from 1.1624 at September 30, 2005. The six months ended March 31, 2005 was impacted as the exchange rate moved to 1.2099 at March 31, 2005 from 1.2614 at September 30, 2004.

Note 5. Earnings (Loss) per Share

The following table sets forth the computation of basic and diluted earnings (loss) per share (in millions, except per share data):

	Three Months Ended March 31,		Six Months Ended March 31,	
	2006	2005	2006	2005
Numerator:				
Net income (loss)	\$ 5.2	\$ 0.2	\$ (3.8)	\$ 0.7
Denominator:				
Denominator for basic earnings (loss) per share weighted average shares	35.9	35.4	35.9	35.4
Effect of dilutive stock options and restricted stock awards	0.8	0.5		0.5
Denominator for diluted earnings (loss) per share weighted average shares and assumed conversions	36.7	35.9	35.9	35.9
Basic earnings (loss) per share:				
Net income (loss) per share basic	\$ 0.15	\$ 0.01	\$ (0.10)	\$ 0.02

Diluted earnings (loss) per share:

Net income (loss) per share diluted	\$ 0.14	\$ 0.01	\$ (0.10)	\$ 0.02
-------------------------------------	---------	---------	-----------	---------

Due to the net loss for the six months ended March 31, 2006, the assumed net exercise of stock options and restricted stock awards was excluded, as the effect would have been anti-dilutive. Options and restricted stock awards for 3.9 million and 0.5 million shares of common stock, respectively, were excluded because their effect was anti-dilutive. If we did not have a loss in the period, approximately 0.7 million shares of dilutive stock options and restricted stock awards would have been included in the denominator for the six months ended March 31, 2006.

Note 6. Acquisitions, Restructuring and Other Costs**Summary of Acquisitions**

On February 27, 2006, our RTS subsidiary completed the acquisition of the partition business of Caraustar Industries, Inc. for an aggregate purchase price of \$6.1 million. The acquisition was funded by contributions from us and our minority interest partner in proportion to our respective investments and was accounted for as a purchase of a business. We have included these operations in our condensed consolidated financial statements since that date. We made the acquisition in order to gain entrance into the specialty partition market which manufactures high quality die cut partitions. The acquisition included \$2.4 million of goodwill. We expect the goodwill to be deductible for income tax purposes. The pro forma impact of the acquisition is not material to our financial results.

On June 6, 2005, we acquired from Gulf States Paper Corporation and certain of its related entities (**Gulf States**), substantially all of the assets of Gulf States Pulp and Paperboard and Paperboard Packaging (**GSPP**) operations and assumed certain of Gulf States related liabilities. We refer to this transaction collectively as the **GSPP Acquisition** . We have included the results of GSPP s operations in our condensed consolidated financial statements since that date. The following unaudited pro forma information reflects our consolidated results of operations as if the GSPP Acquisition had taken place on October 1, 2004. The pro forma information includes primarily adjustments for depreciation based on the estimated fair value of the property, plant and equipment we acquired, amortization of acquired intangibles and interest expense on the debt we incurred to finance the acquisition. The pro forma information is not necessarily indicative of the results of operations that we would have reported had the transaction actually occurred at the beginning of fiscal 2005 nor is it necessarily indicative of future results. Pro forma information in the table below is for the three and six months ended March 31, 2005.

Summary of Restructuring and Other Initiatives

On March 17, 2006, we announced the closure of our Kerman, California folding carton plant. We expect to transfer the majority of the facility s production to our other folding carton facilities. We recognized an impairment charge to reduce the carrying value of certain equipment to its estimated fair value.

On October 4, 2005, we announced the closure of our Marshville, North Carolina folding carton plant. We transferred the majority of the facility s production to our other folding carton facilities. We recognized an impairment charge in fiscal 2005 to reduce the carrying value of the equipment retired from service to its estimated fair value less cost to sell and have classified the facility and equipment as held for sale.

In the fourth quarter of fiscal 2005, we announced the closure of our Waco, Texas folding carton plant that we acquired as part of the GSPP Acquisition. We transferred the majority of the facility s production to other plants. We classified the land and building as held for sale and we recorded a liability for \$1.5 million primarily for severance and other employee related costs as part of the purchase.

In the fourth quarter of fiscal 2004, we announced the closure of our Otsego, Michigan paperboard mill. We transferred approximately one third of the production of this facility to our remaining mills and recognized an impairment charge to reduce the carrying value of the facility and certain equipment to its estimated fair value.

During the fourth quarter of fiscal 2003, we announced the closure of our Dallas, Texas, laminated paperboard products facility. We consolidated the operations of this plant into other existing facilities. We recognized an impairment charge to reduce the carrying value of the equipment retired from service to its estimated fair value less cost to sell. We have disposed of substantially all of this equipment and the facility is classified as held for sale.

Fiscal 2006

We recorded aggregate pre-tax restructuring and other costs of \$3.5 million for the second quarter of fiscal 2006. We incurred pre-tax charges of \$2.9 million at our Kerman facility primarily for equipment impairment and severance and other employee costs. We recorded additional pre-tax charges aggregating \$0.6 million primarily for additional costs related to our Waco and Marshville facility closures.

Edgar Filing: Rock-Tenn CO - Form 10-Q

We recorded aggregate pre-tax restructuring and other costs of \$4.5 million for the six months ended March 31, 2006. We incurred pre-tax charges of \$2.9 million at our Kerman facility primarily for equipment impairment and severance and other employee costs. We incurred pre-tax charges of \$0.7 million at our Marshville facility primarily

The following table represents a summary of the restructuring accrual related to the costs to exit an activity of an acquired company. The reserves are for the Waco plant consolidation acquired as part of the GSPP Acquisition (in millions):

Fiscal 2005

We recorded aggregate pre-tax restructuring and other costs of \$2.7 million for the second quarter of fiscal 2005. We incurred pre-tax charges of \$1.3 million for the closure of our St. Paul, Minnesota, folding carton facility. The St. Paul charges consisted primarily of severance and other employee costs of \$1.0 million, equipment removal and relocation of \$0.2 million, and other costs of \$0.1 million. The St. Paul union contract allows more senior folding carton employees from this facility to replace other union employees at our St. Paul mill. The replacement process requires 1-on-1 training for a specific period of time per position. As a result, we have included in the severance and other

employee costs \$0.7 million of duplicate mill labor. At our Otsego, Michigan, specialty recycled paperboard mill, we incurred pre-tax charges of \$0.7 million in connection with the closure. The charges consisted of facility carrying costs of \$0.3 million, equipment removal and relocation costs of \$0.2 million, and other costs of \$0.2 million. During the quarter we recorded a charge of \$0.6 million to expense previously capitalized patent defense costs associated with a patent from our former plastic packaging products division. This patent was not included in the sale of that division. In addition, we recorded a variety of charges on previously announced closings aggregating \$0.1 million in the period. During the six months ended March 31, 2005, we recorded aggregate pre-tax restructuring and other costs of \$3.2 million. We incurred pre-tax charges of \$2.2 million for the previously announced closure of our St. Paul, Minnesota, folding carton facility. The St. Paul charges consisted of severance and other employee costs of \$1.9 million, equipment removal and relocation of \$0.2 million, and other costs of \$0.1 million. Included in the severance and other employee costs was \$0.8 million of duplicate mill labor, as discussed above. At our Otsego, Michigan, specialty recycled paperboard mill we incurred pre-tax charges of \$1.1 million in connection with the closure. The charges consisted of facility carrying costs of \$0.5 million, equipment removal and relocation costs of \$0.4 million, and other costs of \$0.2 million. During the six month period we recorded a charge of \$0.6 million to expense previously capitalized patent defense costs associated with a patent from our former plastic packaging products division. During the first quarter of fiscal 2005, we received proceeds of \$1.5 million from the sale of our Wright

Note 7. Tax Provision

The tax provision for the six months ended March 31, 2006 includes deferred income tax expense of \$1.4 million from a tax law change in Quebec that we recorded in the first quarter of fiscal 2006. The tax provision for the six months ended March 31, 2005 is higher than normal due to an adjustment of \$0.6 million that we recorded in the first quarter of fiscal 2005 related to the acquisition of the Athens corrugator. We originally recorded this adjustment as a reduction of tax expense in the year ended September 30, 2004.

Note 8. Share-Based Compensation

We maintain a share-based compensation plan which allows for the issuance of nonqualified stock options and restricted shares. We also maintain an employee stock purchase plan that provides for the issuance of shares to all of our eligible employees at a discounted price. Prior to fiscal 2006, we accounted for the plans under APB 25. Because all stock options granted had an exercise price equal to the market value of the stock on the date of the grant, no expense was recognized. The employee stock purchase plan was considered noncompensatory and no expense related to this plan was recognized. Expense related to the grant of restricted stock was recognized. Effective October 1, 2005, the Company adopted the fair value recognition provisions of SFAS 123(R). We chose the modified prospective method of adoption in which we recognize compensation expense for the portion of outstanding awards on the adoption date for which the requisite service period has not yet been rendered based on the grant-date fair value of those awards calculated under SFAS No. 123 and SFAS No. 148, for pro forma disclosures. Compensation expense in fiscal 2005 related to stock options and the employee stock purchase plan continues to be disclosed on a pro forma

basis only. In accordance with the modified prospective transition method, we eliminated the balance of Deferred Compensation displayed as a component of shareholders' equity against additional paid-in capital for all periods presented. This item represented unrecognized compensation cost for restricted stock awards.

SFAS 123(R) requires that forfeitures be estimated over the vesting period of an award, rather than being recognized as a reduction of compensation expense when the forfeiture actually occurs. The only share-based compensation that was recognized in our financial statements prior to adoption of SFAS 123(R) was for grants of restricted stock. The cumulative effect of the use of the estimated forfeiture method for prior periods upon adoption of SFAS 123(R) related to the restricted shares was not material.

For the pro forma information we recognize compensation cost over the explicit service period (for retirement eligible employees, this included the period up to the date of actual retirement). Upon adoption of SFAS 123(R), we recognize compensation cost over a period to the date the employee first becomes eligible for retirement for awards granted or modified after the adoption of SFAS 123(R). Awards outstanding prior to the adoption of SFAS 123(R) will continue to be recognized over the explicit service period. If we followed the nonsubstantive vesting provisions

Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)
of SFAS 123(R) for retirement eligible employees, the impact on pro forma net income and pro forma diluted earnings per share would have been *de minimis*.

The following disclosure shows what our net income (loss) and earnings per share would have been using the fair value compensation model under SFAS 123(R) (in millions, except per share data):

	Three Months Ended March 31, 2005	Six Months Ended March 31, 2005
Net income, as reported	\$ 0.2	\$ 0.7
Add: Stock-based employee compensation expense included in reported net income, net of related tax effects	0.2	0.5
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(0.8)	(1.7)
Pro forma net loss	\$ (0.4)	\$ (0.5)
Earnings (loss) per share:		
Basic as reported	\$ 0.01	\$ 0.02
Basic pro forma	\$ (0.01)	\$ (0.02)
Diluted as reported	\$ 0.01	\$ 0.02
Diluted pro forma	\$ (0.01)	\$ (0.02)

We estimate, at the date of grant, the fair values for the options we granted using a Black-Scholes option pricing model. We use historical data to estimate option exercises and employee terminations in determining the expected term in years for stock options. Expected volatility is calculated based on the historical volatility of our stock. The risk-free interest rate is based on U.S. Treasury securities in effect at the date of the grant of the stock options. The dividend yield is calculated based on our historic annual dividend payments.

There were no stock options granted during the three and six months ended March 31, 2006 or for the first quarter of fiscal 2005. We applied the following weighted average assumptions to grants made during the three months ended March 31, 2005: expected term in years 7 years, expected volatility 43.4%, risk-free interest rate 3.9% and dividend yield 2.4%.

Stock Option Plans

Our 2004 Incentive Stock Plan allows for the granting of options to certain key employees for the purchase of a maximum of 2,000,000 shares of common stock plus the number of shares which would remain available for issuance under each preexisting plan if shares were issued on the effective date of this plan sufficient to satisfy grants then outstanding, plus the number of shares of common stock subject to grants under any preexisting plan which are outstanding on the effective date of this plan and which are forfeited or expire on or after such effective date. Our 2000 Incentive Stock Plan, approved in January 2001, allowed for the granting of options through January 2005 to certain key employees for the purchase of a maximum of 2,200,000 shares of common stock. Our 1993 Stock Option Plan allowed for the granting of options through November 2003 to certain key employees for the purchase of a maximum of 3,700,000 shares of common stock. Options that we granted under these plans vest in increments over a period of up to three years and have ten-year contractual terms.

The table below summarizes the changes in all stock options during the six months ended March 31, 2006:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value (in millions)
Outstanding at September 30, 2005	3,986,103	\$ 13.90		
Granted				
Exercised	(78,333)	11.14		
Expired	(33,867)	16.68		
Forfeited	(2,000)	14.01		
Outstanding at March 31, 2006	3,871,903	\$ 13.93	5.5 years	\$ 7.3
Exercisable at March 31, 2006	3,656,243	\$ 13.92	5.4 years	\$ 7.0

Our results of operations for the three and six months ended March 31, 2006 includes \$0.06 million and \$0.1 million of compensation expense for stock options (net of approximately \$0.04 million and \$0.1 million of income taxes), respectively. The aggregate intrinsic value of options exercised during the three months ended March 31, 2006 and 2005 was \$0.1 million and \$0.005 million, respectively. The aggregate intrinsic value of options exercised during the six months ended March 31, 2006 and 2005 was \$0.2 million and \$0.3 million, respectively.

A summary of the status of our nonvested options as of March 31, 2006, and changes during the six months ended March 31, 2006, is presented below:

	Shares	Weighted Average Grant Date Fair Value
Nonvested at September 30, 2005	246,999	\$ 5.75
Granted		
Vested	(29,339)	5.97
Forfeited	(2,000)	5.71
Nonvested at March 31, 2006	215,660	\$ 5.72

As of March 31, 2006, there was \$0.1 million of total unrecognized compensation cost related to nonvested stock options; that cost is expected to be recognized over a period of 2 years. We amortize these costs using the accelerated attribution method.

SFAS 123(R) requires that the benefits of tax deductions in excess of recognized compensation cost be reported as a financing cash flow, rather than as an operating cash flow as required under prior guidance. Excess tax benefits of approximately \$0.1 million were included in cash provided by financing activities for the six months ended March 31, 2006.

A summary of our unvested restricted stock awards as of September 30, 2005 and changes during the six months ended March 31, 2006 is presented below:

	Shares		Weighted Average Grant Date Fair Value
Unvested at September 30, 2005	508,831	\$	13.55
Granted	18,000		13.95
Vested			
Forfeited			
Unvested at March 31, 2006	526,831	\$	13.56

During the second quarter of fiscal 2006, 18,000 shares of restricted stock, which vest over one year, were granted to our non-employee directors. We will recognize a total of \$0.3 million in compensation expense (\$0.2 million and \$0.1 million in fiscal 2006 and 2007, respectively) in connection with these shares. There was approximately \$3.3 million of total unrecognized compensation cost related to unvested restricted shares as of March 31, 2006 that will be recognized over a weighted average remaining vesting period of 1.97 years. We have restricted shares outstanding granted in fiscal 2001, 2002, 2003, 2004, and 2005, each of which vests upon completion of required service in one third increments on the third, fourth and fifth anniversary of the grant date. The grants are subject to earlier vesting upon satisfaction of certain earnings improvement criteria specific to each award in one third increments on the first, second and third anniversary of the grant date. The measurement date for early vesting of all

Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)

of these grants is March 31 of the respective year. None of the early vesting periods for fiscal 2003, 2004, or 2005 grants have been satisfied.

Employee Stock Purchase Plan

Under the Amended and Restated 1993 Employee Stock Purchase Plan (**the Plan**), shares of common stock are reserved for purchase by substantially all of our qualifying employees. In January 2004, our board of directors amended the Plan to allow for the purchase of an additional 1,000,000 shares, bringing the total authorized to a maximum of 3,320,000 shares of common stock. During the three and six months ended March 31, 2006, employees purchased approximately 87,000 and 172,000 shares under the Plan, respectively. We recognized \$0.2 million and \$0.3 million in expense relating to the Plan for the three and six months ended March 31, 2006, respectively. As of March 31, 2006, approximately 402,000 shares of common stock were available for purchase under the Plan.

Note 9. Inventories

We value substantially all of our U.S. inventories at the lower of cost or market, with cost determined on the last-in, first-out (**LIFO**) basis. We value all other inventories at the lower of cost or market and determine cost using methods that approximate cost computed on a first-in, first-out (**FIFO**) basis. Because LIFO is designed for annual determinations, it is possible to make an actual valuation of inventory under the LIFO method only at the end of each fiscal year based on the inventory levels and costs at that time. Accordingly, we base interim LIFO estimates on management's projection of expected year-end inventory levels and costs. Inventories were as follows (in millions):

	March 31, 2006	September 30, 2005
Finished goods and work in process	\$ 129.7	\$ 134.2
Raw materials	70.1	59.9
Supplies and spare parts	33.8	30.7
Inventories at FIFO cost	233.6	224.8

Net inventories	\$ 208.5	\$ 202.0

revolving credit, swing, and term loan facilities in the aggregate principal amount of \$700 million. The Senior Credit Facility is pre-payable at any time and is scheduled to expire on June 6, 2010. At March 31, 2006, we had aggregate outstanding letters of credit under this facility of approximately \$44 million. At March 31, 2006, due to the restrictive covenants on the revolving credit facility, maximum additional available borrowings under this facility were approximately \$94 million. (b) On October 26, 2005, we increased the receivables-backed financing facility (**Receivables Facility**) from \$75.0 to \$100.0 million. The new facility is scheduled to expire on October 25, 2006. Borrowing availability under this facility is based on the eligible underlying receivables. At March 31, 2006, maximum available borrowings under this facility were approximately \$75.8 million. The borrowing rate, which consists of the market rate for asset-backed commercial paper plus a utilization fee, was 5.01% as of March 31, 2006. The borrowing rate at September 30, 2005 was 4.10%.

Interest on our 8.20% notes due August 2011 is payable in arrears each February and August. Interest on our 5.625% notes due March 2013 is payable in arrears each September and March. Our August 2011 and March 2013 notes are unsecured facilities. The indenture related to these notes restricts us and our subsidiaries from incurring certain liens and entering into certain sale and leaseback transactions, subject to a number of exceptions. Three of our Canadian subsidiaries had revolving credit facilities with Canadian banks. The facilities provided borrowing availability of up to \$10.0 million Canadian. At September 30, 2005, and at the time we terminated these facilities in December 2005, there were no amounts outstanding under these facilities.

Interest Rate Swaps

We are exposed to changes in interest rates as a result of our short-term and long-term debt. We use interest rate swap instruments to manage the interest rate characteristics of a portion of our outstanding debt. In June and September 2005, we entered into \$350.0 million notional amount and \$75.0 million notional amount of floating-to-fixed interest rate swaps, respectively, and designated them as cash flow hedges of a like amount of our floating rate debt. These swaps were terminated in February 2006. We realized net proceeds of \$9.9 million upon termination. New swaps for identical notional amounts were entered into concurrently with the termination. Cash flows from terminated interest rate swaps are classified in the same category as the cash flows from the items being hedged. The amount of ineffectiveness recorded in the results of operations for the three and six month periods ended March 31, 2006 and 2005 was minimal. The fair value of our swaps was a deferred gain of \$1.7 million at March 31, 2006.

Note 11. Retirement Plans

The following table represents a summary of the components of net pension cost (in millions):

	Three Months Ended		Six Months Ended	
	March 31,		March 31,	
	2006	2005	2006	2005
Service cost	\$ 2.4	\$ 2.6	\$ 4.7	\$ 4.7
Interest cost	4.5	4.6	9.1	8.8

Amortization of prior service cost	0.1	0.2	0.1	0.1
Amortization of net loss	1.9	1.7	3.9	3.5
Pension curtailment income		(0.4)		(0.4)
Company defined benefit plan expense	4.0	3.8	7.9	7.1
Multi-employer plans for collective bargaining employees	0.2	0.1	0.3	0.2
Net pension cost	\$ 4.2	\$ 3.9	\$ 8.2	\$ 7.3

We have no required minimum contributions for fiscal 2006. During the second quarter of fiscal 2006 we contributed \$9.0 million to our pension plans. We currently expect to contribute an aggregate of approximately \$30 to \$35 million to our pension plans in fiscal 2006 and 2007, including our second quarter contribution and approximately \$10 to \$11 million we expect to contribute in our third quarter of fiscal 2006. During the six months ended March 31, 2005, we made no voluntary contributions to our five defined benefit pension plans.

The Supplemental Executive Retirement Plan (**SERP**) is designed to supplement a participant's benefit under our pension plan for a relatively small number of participants. In November 2005, the plan was amended to provide that the benefit would be paid as a lump sum for participants whose employment terminates on or after November 11, 2005.

The Supplemental Retirement Savings Plan was modified in the first quarter of fiscal 2006 to include a subplan covering certain highly compensated employees who have their contributions to their 401K plan restricted due to the nondiscrimination testing results. Eligible subplan participants can contribute up to a designated unmatched dollar amount on a pre-tax basis.

Note 12. Commitments and Contingencies***Environmental and Other Matters***

We are subject to various federal, state, local and foreign environmental laws and regulations, including, among others, CERCLA, the Clean Air Act (as amended in 1990), the Clean Water Act, the Resource Conservation and Recovery Act and the Toxic Substances Control Act. These environmental regulatory programs are primarily administered by the US Environmental Protection Agency. In addition, some states in which we operate have adopted equivalent or more stringent environmental laws and regulations or have enacted their own parallel environmental programs, which are enforced through various state administrative agencies.

We believe that future compliance with these environmental laws and regulations will not have a material adverse effect on our results of operations, financial condition or cash flows. However, our compliance and remediation costs could increase materially. In addition, we cannot currently assess with certainty the impact that the future emissions standards and enforcement practices associated with changes to regulations promulgated under the Clean Air Act will have on our operations or capital expenditure requirements. However, we believe that any such impact or capital expenditures will not have a material adverse effect on our results of operations, financial condition or cash flows. See

Business Forward-Looking Information and Risk Factors in our Fiscal 2005 Form 10-K.

We have been identified as a potentially responsible party (**PRP**) at 11 active superfund sites pursuant to Superfund legislation. Based upon currently available information and the opinions of our environmental compliance managers and general counsel, although there can be no assurance, we have reached the following conclusions with respect to these eleven sites:

With respect to each of two sites, while we have been identified as a PRP, our records reflect no evidence that we are associated with the site. Accordingly, if we are considered to be a PRP, we believe that we should be categorized as an unproven PRP.

With respect to each of nine sites, we preliminarily determined that, while we may be associated with the site and while it is probable that we have incurred a liability with respect to the site, one of the following conclusions was applicable:

With respect to each of six sites, we determined that it was appropriate to conclude that, while it was not estimable, the potential liability was reasonably likely to be a *de minimis* amount and immaterial.

With respect to each of two sites, we have preliminarily determined that it was appropriate to conclude that the potential liability was best reflected by a range of reasonably possible liabilities, all of which we expect to be *de minimis* and immaterial.

With respect to one of the sites, we have preliminarily determined that it is probable that we have incurred a liability with respect to this site. To date, we have no indication that an estimate has been prepared of the aggregate cost to remediate the site. Therefore, the status of the site is unknown.

In addition to the above mentioned sites, four of our current or former locations are being investigated under various State regulations. These investigations may lead to remediation costs; however, we believe any such costs, if any, would be insignificant.

Contamination was discovered at the time of the GSPP Acquisition at two sites we acquired. We did not assume any environmental liabilities as part of the acquisition and we believe that we have strong defenses under applicable laws with respect to any pre-closing environmental contamination.

One of these sites is one of our former locations that is involved in a clean-up under the State hazardous waste sites program. Investigations of a few areas of concern are continuing.

It is believed that the contamination discovered at one of the sites was due to an oil release by a previous owner. An indemnification was provided by the previous owner in the sale contract and we are pursuing this

matter.

Table of Contents

Notes to Condensed Consolidated Financial Statements (Unaudited) (Continued)

Except as stated above, we can make no assessment of our potential liability, if any, with respect to any such site. Further, there can be no assurance that we will not be required to conduct some remediation in the future at any such site and that such remediation will not have a material adverse effect on our results of operations, financial condition or cash flows. We believe that we can assert claims for indemnification pursuant to existing rights we have under settlement and purchase agreements in connection with certain of these sites. There can be no assurance that we will be successful with respect to any claim regarding such indemnification rights or that, if we are successful, any amounts paid pursuant to such indemnification rights will be sufficient to cover all costs and expenses.

Guarantees

We have made the following guarantees to unconsolidated third parties as of March 31, 2006:

We have a 49% ownership interest in Seven Hills, a joint venture. The partners of the joint venture guarantee funding of net losses in proportion to their share of ownership.

We lease certain manufacturing and warehousing facilities and equipment under various operating leases. A substantial number of these leases require us to indemnify the lessor in the event that additional taxes are assessed due to a change in the tax law. We are unable to estimate our maximum exposure under these leases because it is dependent on changes in the tax law.

Over the past several years, we have disposed of assets and subsidiaries and have assigned liabilities pursuant to asset and stock purchase agreements. These agreements contain various representations and warranties relating to matters such as title to assets; accuracy of financial statements; legal proceedings; contracts; employee benefit plans; compliance with environmental law; patent and trademark infringement; taxes; and products, as well as various covenants. These agreements may also provide specific indemnities for breaches of representations, warranties, or covenants and may contain specific indemnification provisions. These indemnification provisions address a variety of potential losses, including, among others, losses related to liabilities other than those assumed by the buyer and liabilities under environmental laws. These indemnification provisions may be affected by various conditions and external factors. Many of the indemnification provisions issued or modified before December 31, 2002 have expired either by operation of law or as a result of the terms of the agreement. We have not recorded any liability for the indemnifications issued or modified before December 31, 2002, and are not aware of any claims or other information that would give rise to material payments under such indemnities. Because of the lapse of time, or the fact that the parties have resolved certain issues, we are not aware of any outstanding indemnities issued or modified before December 31, 2002; the potential exposure for which we estimate would have a material impact on our results of operations, financial condition or cash flows. Under the terms of the agreements that were issued or modified after December 31, 2002, our specified maximum aggregate potential liability on an undiscounted basis is approximately \$6.2 million, other than with respect to certain specified liabilities, including liabilities relating to environmental matters, with respect to which there is no limitation. We estimate our aggregate liability for outstanding indemnities entered into after December 31, 2002, including the indemnities described above with respect to which there are no limitations, to be approximately \$0.1 million. Accordingly, we have recorded a liability for that amount.

Insurance Placed with Kemper

During fiscal 1985 through 2002, Kemper Insurance Companies/Lumbermens Mutual provided us with workers compensation insurance, auto liability insurance and general liability insurance. Kemper has made public statements that they are uncertain that they will be able to pay all of their claims liabilities in the future. At present, based on public comments made by Kemper, we believe it is reasonably possible they will not be able to pay some or all of the future liabilities associated with our open and reopened claims. However, we cannot reasonably estimate the amount that Kemper may be unable to pay. Additionally, we cannot reasonably estimate the impact of state guarantee funds and any facultative and treaty reinsurance that may be available to pay such liabilities. If Kemper is ultimately unable to pay such liabilities, we believe the range of our liability is between approximately \$0 and \$3 million and we are unable to estimate the liability more specifically because of the factors described above. There can be no assurance that any associated liabilities we may ultimately incur will not be material to our results of operations, financial condition or cash flows.

Note Receivable

We have a note receivable from an obligor who has filed for chapter eleven bankruptcy protection. Based on the terms of the note, we believe it is unlikely that we will suffer a loss. If we ultimately do suffer a loss, we believe the loss could range from \$0 to \$3 million.

Note 13. Segment Information

The following table shows certain operating data for our three segments (in millions). We do not allocate certain of our income and expenses to our segments and, thus, the information that management uses to make operating decisions and assess performance does not reflect such amounts. We report these items as non-allocated expenses. These items include restructuring and other costs and certain corporate expenses.

Table of Contents**PART I. FINANCIAL INFORMATION****Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion should be read in conjunction with the condensed consolidated financial statements and notes thereto, included herein and in the Quarterly Report on Form 10-Q for the quarter ended December 31, 2005, and our audited consolidated financial statements and notes thereto for the fiscal year ended September 30, 2005, as well as the information under the heading *Management's Discussion and Analysis of Financial Condition and Results of Operations*, that are part of our Fiscal 2005 Form 10-K, which we filed with the SEC on December 19, 2005. The table in *Note 13. Segment Information* of the Notes to Condensed Consolidated Financial Statements section of the Financial Statements included herein shows certain operating data for our three segments.

Overview

Operating profit increased \$15.9 million based on strong performance in our two largest business segments. Good demand and pricing improvements for recycled paperboard and the acquisition of our bleached board mill resulted in much higher earnings in our paperboard mills. Sales growth in our core folding carton business and the contributions from the folding carton plants acquired in fiscal 2005 increased Packaging Products segment income 135.1% over the prior year.

Operating profit was reduced by higher energy costs, losses incurred at our previously closed folding carton facilities and the Kerman, California folding carton facility that will be closed in the third quarter of fiscal 2006 due to losses while they are in the process of closure and by increased Sarbanes-Oxley compliance costs and audit fees. Partially offsetting these items were lower fiber prices and the synergies we continue to capture from the GSPP Acquisition. Our Net Debt (as hereinafter defined) was \$846.6 million at March 31, 2006 compared to \$876.0 at September 30, 2005. Net debt has been reduced by \$29.4 million in the six months ended March 31, 2006. During the second quarter of fiscal 2006 we paid \$7.8 million for the purchase of businesses and contributed \$9.0 million to our pension plans.

Net sales in the second quarter of fiscal 2006 increased compared to the second quarter of fiscal 2005 primarily due to the GSPP Acquisition. Excluding the \$126.5 million of net sales from the acquired assets, our sales increased by 2.2%.

Net sales in the six months ended March 31, 2006 were higher than the six months ended March 31, 2005 primarily due to the GSPP Acquisition. Excluding the \$243.2 million of net sales from the acquired assets, our sales declined by 0.4%.

amounts attributable to the GSPP Acquisition, freight costs increased \$2.6 million and group insurance expense decreased \$1.9 million during the second quarter of fiscal 2006 compared to the second quarter of fiscal 2005. Cost of goods sold increased in the six months ended March 31, 2006 compared to the prior year period primarily due to the GSPP Acquisition and higher energy costs, which were partially offset by lower fiber prices. Excluding amounts attributable to the GSPP Acquisition, freight costs increased \$4.7 million, workers' compensation expense increased \$1.3 million, pension expense increased \$0.8 million, and group insurance expense decreased \$2.6 million during the first half of fiscal 2006 compared to the first half of fiscal 2005.

(% of Net Sales)	11.6%	11.7%	11.7%			

Selling, general and administrative (**SG&A**) expenses decreased as a percentage of net sales in the second quarter of fiscal 2006 compared to the second quarter of fiscal 2005 primarily as a result of the synergies we realized following the GSPP Acquisition and our continued focus on cost reductions and efficiency. SG&A expenses were \$14.1 million higher than in the prior year second quarter primarily as a result of SG&A expenses from the GSPP locations we acquired, increased bonus expense of \$2.9 million, and increased amortization expense of \$0.9 million from the GSPP Acquisition.

SG&A expenses decreased as a percentage of net sales in the six months ended March 31, 2006, compared to the same period last year primarily as a result of the synergies we realized following the GSPP Acquisition and our continued focus on cost reductions and efficiency. SG&A expenses were \$25.4 million higher than in the prior year six months primarily as a result of SG&A expenses from the GSPP locations we acquired, the third party costs we incurred to comply with Sarbanes-Oxley compliance including increased audit fees, which were approximately \$2.1 million, increased bonus expense of \$3.9 million, and increased amortization expense of \$1.7 million from the GSPP Acquisition.

Restructuring and Other Costs

We recorded aggregate pre-tax restructuring and other costs of \$3.5 million and \$2.7 million in the second quarter of fiscal 2006 and 2005, respectively. We recorded pre-tax restructuring and other costs of \$4.5 million and \$3.2 million in the six months ended March 31, 2006 and 2005, respectively. We discuss these charges in more detail in **Note 6. Acquisitions, Restructuring and Other Costs** of the Notes to Condensed Consolidated Financial Statements section of the Financial Statements included herein and incorporated herein by reference.

Unconsolidated Joint Venture

During the quarter ended March 31, 2006, our Seven Hills joint venture reported a loss of \$0.2 million compared to income of \$0.2 million for the same quarter last year. During the six months ended March 31, 2006, our Seven Hills joint venture reported income of \$1.4 million compared to income of \$0.3 million for the same period last year. The increase in the six months of fiscal 2006 is due to an adjustment of \$1.2 million to record the allocation of the arbitrator's final ruling with respect to certain services that we rendered to Seven Hills. The adjustment was offset by charges to cost of goods sold. The net impact to our condensed consolidated statement of operations in fiscal 2006 was income of \$0.1 million.

Interest Expense

Interest expense for the second quarter of fiscal 2006 increased \$7.1 million to \$13.9 million from \$6.8 million for the same quarter last year due primarily to our increased debt levels following the GSPP Acquisition. The increase in our average outstanding borrowings increased interest expense by approximately \$6.7 million and higher interest rates, net of swaps, increased interest expense by approximately \$0.4 million.

Interest expense for the six months ended March 31, 2006 increased \$14.6 million to \$27.8 million from \$13.2 million for the same period last year due primarily to our increased debt levels following the GSPP Acquisition. The

Table of Contents

increase in our average outstanding borrowings increased interest expense by approximately \$13.5 million and higher interest rates, net of swaps, increased interest expense by approximately \$1.1 million.

Minority Interest

Minority interest in income of our consolidated subsidiaries for the second quarter of fiscal 2006 increased 157.1% to \$1.8 million from \$0.7 million in the second quarter of fiscal 2005. Minority interest in income of our consolidated subsidiaries for the six months ended March 31, 2006 increased 93.8% to \$3.1 million from \$1.6 million for the same period last year. The increases were primarily due to the acquisition of our 60% ownership share in GSD as part of the GSPP Acquisition.

Provision for Income Taxes

We recorded a provision for income taxes of \$3.2 million for the second quarter of fiscal 2006 compared to \$0.2 million for the same quarter last year. The increase in provision was due to higher pre-tax income in the current year quarter.

We recorded a provision for income taxes of \$0.1 million for the six months ended March 31, 2006 compared to \$1.4 million for the same period last year. The tax provision for the six months ended March 31, 2006 includes deferred income tax expense of \$1.4 million from a tax law change in Quebec that was recorded in the first quarter of fiscal 2006. The tax provision for the six months ended March 31, 2005 is higher than normal due to an adjustment of \$0.6 million that we recorded in the first quarter of fiscal 2005 related to the acquisition of the Athens corrugator. We originally recorded this adjustment as a reduction of tax expense in the year ended September 30, 2004. We estimate that the annual marginal effective income tax rate as of March 31, 2006, was approximately 38%.

Net Sales (Packaging Products Segment)

The 46.1% increase in net sales for the Packaging Products segment for the second quarter of fiscal 2006 compared to the prior year second quarter was primarily due to additional sales related to the GSPP Acquisition. Excluding the GSPP sales, net sales for the packaging products segment increased 5.6% primarily due to strong demand for consumer packaging that more than offset the loss of a portion of the sales from folding carton facilities we have closed in the past year.

The 40.9% increase in net sales for the Packaging Products segment for the six months ended March 31, 2006 compared to the prior year period was primarily due to additional sales related to the GSPP Acquisition. Excluding the GSPP sales, net sales for the packaging products segment increased 1.8% primarily due to strong demand for consumer packaging that more than offset the loss of a portion of the sales from folding carton facilities we have closed in the past year.

Operating Income (Packaging Products Segment)

Operating income of the Packaging Products segment for the quarter ended March 31, 2006 increased 135.1% compared to the prior year second quarter primarily due to the earnings from the Gulf States plants we acquired in the GSPP Acquisition. Return on sales increased despite increased freight costs of \$1.6 million and increased material costs. Operating income was also reduced by pre-tax operating losses of \$0.9 million at our previously closed folding carton facilities and the Kerman, California folding carton facility that will be closed in the third quarter of fiscal 2006 due to losses that were incurred while they are in the process of closure. Additionally, operating income for the segment was decreased by increased bonus expense of \$1.9 million; partially offsetting those costs was a decrease in group insurance expense of \$0.9 million.

Operating income of the Packaging Products segment for the six months ended March 31, 2006 increased 83.6% compared to the prior year period primarily due to the earnings from the Gulf States plants we acquired in the GSPP Acquisition. Return on sales increased despite increased freight costs of \$2.7 million and increased material costs. Operating income was also reduced by pre-tax operating losses of \$2.7 million at our previously closed folding carton facilities and the Kerman, California folding carton facility that will be closed in the third quarter of fiscal 2006. Additionally, operating income for the segment was decreased by increased bonus expense of \$2.4 million and increased amortization expense of \$1.1 million from the GSPP Acquisition; partially offsetting those costs was a

decrease in group insurance expense of \$1.4 million.

Net Sales (Merchandising Displays Segment)

Net sales for the Merchandising Displays segment decreased \$0.7 million in the second quarter of fiscal 2006 compared to the prior year second quarter. The decrease was primarily from lower display sales due to decreased promotional orders from some of our largest customers.

The 2.9% decline in net sales for the Merchandising Displays segment for the six months ended March 31, 2006 compared to the prior year period was primarily from lower display sales due to decreased promotional orders from some of our largest customers.

Operating Income (Merchandising Displays Segment)

Operating income attributable to the Merchandising Displays segment for the second quarter of fiscal 2006 decreased 12.5% compared to the prior year second quarter. The benefit from margin improvement and sales mix were partially offset by increased cost of higher energy and freight. SG&A salaries increased \$0.9 million primarily to support other product offerings.

Operating income attributable to the Merchandising Displays segment for the six months ended March 31, 2006 was relatively flat compared to the prior year period despite lower sales due to margin improvement and a favorable sales mix. The benefit from margin improvement and sales mix exceeded the increased cost of higher energy and freight. SG&A salaries increased \$1.2 million primarily to support other product offerings.

Net Sales (Paperboard Segment)

Our Paperboard segment net sales in the second quarter of fiscal 2006 increased 56.1% compared to the second quarter of fiscal 2005 due to the GSPP Acquisition, strong demand for recycled paperboard and higher pricing. Recycled paperboard tons shipped increased 5.5% compared to the same period last year.

Our Paperboard segment net sales in the six months ended March 31, 2006 increased 51.0% compared to the same period last year due to the GSPP Acquisition and strong second quarter demand for recycled paperboard. Recycled paperboard tons shipped increased 2.8% compared to the same period last year.

Operating Income (Paperboard Segment)

Operating income attributable to the Paperboard segment for the second quarter of fiscal 2006 increased \$12.2 million in the second quarter of fiscal 2006 compared the prior year second quarter due to good demand and pricing improvements for recycled paperboard and the acquisition of our bleached board mill. Our recycled paperboard mills operated at 98% of capacity in the second quarter compared to 93% in the prior year quarter. Lower fiber costs of \$6.8 million more than offset increases in energy, chemicals and freight of \$5.6 million at our recycled paperboard mills. Additionally, operating income for the segment was improved by lower group insurance expense of \$1.1 million.

Operating income attributable to the Paperboard segment for the six months ended March 31, 2006 increased \$6.8 million compared to the same period last year. Operating income was reduced by the sharp increase in natural gas prices following Hurricane Katrina, the annual maintenance shutdown in October and November 2005 of our bleached paperboard mill that we acquired in the GSPP Acquisition, and increased by the higher operating rates in our recycled paperboard mills and income contributed from our bleached paperboard mill. Increased energy and freight costs of \$13.3 million at our recycled paperboard mills more than offset decreases in fiber and chemical costs of \$11.1 million and lower group insurance expense of \$1.5 million.

Table of Contents**Liquidity and Capital Resources****Working Capital and Capital Expenditures**

We fund our working capital requirements, capital expenditures and acquisitions from net cash provided by operating activities, borrowings under term notes, our receivables-backed financing facility and bank credit facilities, proceeds from the sale of discontinued assets, and proceeds received in connection with the issuance of industrial development revenue bonds as well as other debt and equity securities.

Cash and cash equivalents was \$8.1 million at March 31, 2006, compared to \$26.8 million at September 30, 2005, an aggregate decrease of \$18.7 million. Our debt balance at March 31, 2006 was \$866.1 million compared to \$915.1 million on September 30, 2005, a decrease of \$49.0 million. Our debt exposes us to changes in interest rates. We use swap instruments to manage the interest rate characteristics of our outstanding debt. In June and September 2005, we entered into \$350.0 million and \$75.0 million of floating-to-fixed interest rate swaps, respectively, and designated them as cash flow hedges of a like amount of our floating rate debt. In February 2006 we terminated these swaps and received proceeds of \$9.9 million. In February 2006 we entered into \$425.0 million of floating-to-fixed interest rate swaps and designated them as cash flow hedges of a like amount of our floating rate debt. We financed the GSPP Acquisition primarily with debt in June 2005. We have established a goal to reduce our Net Debt by \$180.0 million by September 2007. For this goal, we assumed our debt would equal our March 31, 2005, Net Debt of \$396.3 million plus the purchase price of \$552.4 million and that we would reduce our Net Debt to \$768.7 million by September 2007. Our actual Net Debt at March 31, 2006 was \$846.6 million, implying that we reduced Net Debt by \$102.1 million.

We have a Senior Credit Facility that includes revolving credit and term loan facilities in the aggregate principal amount of \$700.0 million. The Senior Credit Facility is pre-payable at any time and is scheduled to expire on June 6, 2010, and includes certain restrictive covenants. We had \$250.0 million outstanding under our term loan facility at both March 31, 2006 and September 30, 2005. At March 31, 2006, we had aggregate outstanding letters of credit under this facility of approximately \$44 million. At March 31, 2006, due to the covenants in the Senior Credit Facility, maximum additional available borrowings under this facility were approximately \$94 million. In October 2005, we increased our 364-day receivables-backed financing facility from \$75.0 million to \$100.0 million. It is scheduled to expire on October 25, 2006. Borrowing availability under this facility is based on the eligible underlying receivables. At March 31, 2006, maximum available borrowings under this facility were approximately \$75.8 million. At March 31, 2006 and September 30, 2005, we had \$73.2 million and \$55.0 million, respectively, outstanding under our receivables-backed financing facility. At March 31, 2006 and September 30, 2005, we had \$150.0 million and \$216.0 million, respectively, outstanding under our revolving credit facility that is part of our Senior Credit Facility. Net cash provided by operating activities during the six months ended March 31, 2006 and 2005 was \$68.4 million and \$36.6 million, respectively. The increase was primarily due to the proceeds from the termination of interest rate swap contracts, reduced working capital requirements primarily reflecting the creation of tax receivables, higher inventories and accounts receivable offset by higher payables resulting from a change in timing of vendor payments, and increased depreciation and amortization resulting from the GSPP Acquisition.

Net cash used for investing activities was \$34.1 million during the six months ended March 31, 2006 compared to \$23.0 million for the comparable period of the prior year. Net cash used for investing activities in fiscal 2006 consisted primarily of the \$27.1 million of capital expenditures. Additionally, cash paid for the purchase of businesses was \$7.8 million primarily for two Packaging Products segment acquisitions. Net cash used for investing activities in the fiscal 2005 period consisted primarily of \$22.4 million of capital expenditures and net purchases of marketable securities of \$3.0 million, which were partially offset by proceeds from the sale of property, plant and equipment of \$2.5 million, primarily from previously idled facilities and equipment.

Net cash used for financing activities was \$52.6 million during the six months ended March 31, 2006 and \$14.0 million in the same period last year. In fiscal 2006 and 2005, net cash used for financing activities consisted primarily of net repayments of debt, cash dividends paid to shareholders, and distributions to minority interest partners, which were partially offset by issuances of common stock.

Our capital expenditures aggregated \$27.1 million during the six months ended March 31, 2006. We used these expenditures primarily for the purchase and upgrading of machinery and equipment. We estimate that our capital

expenditures will be in the range of \$60 to \$65 million in fiscal 2006. We intend to use these expenditures for the purchase and upgrading of machinery and equipment, including growth and efficiency capital focused on our folding carton business, and maintenance capital.

As a result of the step-up in the tax basis of the Gulf States fixed assets and the future tax depreciation from these assets, we do not anticipate paying any U.S. federal income taxes in fiscal 2006.

We anticipate that we will be able to fund our capital expenditures, interest payments, stock repurchases, dividends, pension payments, working capital needs, and repayments of current portion of long term debt for the foreseeable future from cash generated from operations, borrowings under our Senior Credit Facility and Receivables Facility, proceeds from the issuance of debt or equity securities or other additional long-term debt financing.

In December 2005 and February 2006, we paid our quarterly dividends of \$0.09 per share, indicating an annualized dividend of \$0.36 per year, on our common stock.

Contractual Obligations

For a discussion of contractual obligations, see the *Management's Discussion and Analysis of Financial Condition and Results of Operations Liquidity and Capital Resources Contractual Obligations* section in our Fiscal 2005 Form 10-K. There have been no material developments with respect to contractual obligations.

New Accounting Standards

See *Note 3. New Accounting Standards* of the Notes to the Condensed Consolidated Financial Statements included herein for a full description of recent accounting pronouncements including the respective expected dates of adoption and expected effects on results of operations and financial condition.

Non-GAAP Measures

We have included in the discussion under the caption *Management's Discussion and Analysis of Financial Condition and Results of Operations* above a financial measure that was not prepared in accordance with GAAP. Any analysis of non-GAAP financial measures should be used only in conjunction with results presented in accordance with GAAP. Below, we define the non-GAAP financial measure, provide a reconciliation of the non-GAAP financial measure to the most directly comparable financial measure calculated in accordance with GAAP, and discuss the reasons that we believe this information is useful to management and may be useful to investors.

Net Debt

We have defined the non-GAAP measure Net Debt to include the aggregate debt obligations reflected in our balance sheet, less the hedge adjustments resulting from terminated and existing fair value interest rate derivatives or swaps, the balance of our cash and cash equivalents and certain other investments that we consider to be readily available to satisfy such debt obligations.

Our management uses Net Debt, along with other factors, to evaluate our financial condition. We believe that Net Debt is an appropriate supplemental measure of financial condition because it provides a more complete understanding of our financial condition before the impact of our decisions regarding the appropriate use of cash and liquid investments. Net Debt is not intended to be a substitute for GAAP financial measures and should not be used as such.

Table of Contents

Set forth below is a reconciliation of Net Debt to the most directly comparable GAAP measures, Total Current Portion of Debt and Total Long-Term Debt, Less Current Maturities (in millions):

	March 31, 2006	September 30, 2005	March 31, 2005
Total Current Portion of Debt	\$ 92.8	\$ 62.1	\$ 75.1

Less: Investment in Marketable Securities			(31.2)
Net Debt	\$ 846.6	\$ 876.0	\$ 396.3

Forward-Looking Statements

Statements made in this report constitute forward-looking statements within the meaning of the federal securities laws, including statements regarding, among other things, the impact of operational restructuring activities, including the cost and timing of such activities, the size and cost of employment terminations, operational consolidation, capacity utilization, cost reductions and production efficiencies, estimated fair values of assets, and returns from planned asset transactions, and the impact of such factors on earnings; the ability of insurance carriers to pay potential claims under our insurance policies and our potential liability with respect thereto; potential liability for outstanding guarantees and indemnities and the potential impact of such liabilities; the impact of economic conditions, including the nature of the current market environment, raw material and energy costs and market trends or factors that affect such trends, such as expected price increases, competitive pricing pressures, cost increases, as well as the impact and continuation of such factors; our results of operations, including our ability to address operational inefficiencies, costs, sales growth or declines, the timing and impact of customer transitioning, the impact of announced price increases and the impact of the gain and loss of customers; pension plan contributions and expense, funding requirements and earnings; environmental law liability as well as the impact of related compliance efforts, including the cost of required improvements and the availability of certain indemnification claims; capital expenditures for fiscal 2006; the cost and other effects of complying with governmental laws and regulations and the timing of such costs, including those required under the Sarbanes-Oxley Act of 2002; income tax rates; our ability to fund capital expenditures, interest payments, stock repurchases, dividends, working capital needs and debt for the foreseeable future from available cash and the proceeds from borrowings and security issuances; our estimates and assumptions regarding our acquisition of the GSPP business and our ability to realize expected synergies from the GSPP Acquisition; our estimates and assumptions regarding our contractual obligations and the impact of our contractual obligations on our liquidity and cash flow; the impact of changes in assumptions and estimates underlying accounting policies; the expected impact of implementing new accounting standards; and the impact of changes in assumptions and estimates on which we based the design of our system of disclosure controls and procedures. Such statements are based on our current expectations and beliefs and are subject to certain risks and uncertainties that could cause actual results to differ materially from those expressed or implied in any forward looking statement. With respect to these statements, we have made assumptions regarding, among other things, economic, competitive and market conditions; volumes and price levels of purchases by customers; competitive conditions in our businesses; possible adverse actions of our customers, our

competitors and suppliers; labor costs; the amount and timing of capital expenditures, including installation costs, project development and implementation costs, severance and other shutdown costs; restructuring costs; utilization of real property that is subject to the restructurings due to realizable values from the sale of such property; credit availability; volumes and price levels of purchases by customers; raw material and energy costs; and competitive conditions in our businesses. Management believes its assumptions are reasonable; however, undue reliance should not be placed on such estimates, which are based on current expectations. These forward-looking statements are subject to certain risks including, among others, that our assumptions will prove to be inaccurate. There are many factors that impact these forward-looking statements that we cannot predict accurately. Actual results may vary materially from current expectations, in part because we manufacture most of our products against customer orders with short lead times and small backlogs. Our earnings are dependent on volume due to price levels and fixed operating costs. Further, our business is subject to a number of general risks that would affect any such forward-looking statements including, among others, decreases in demand for our products; increases in energy, raw material, shipping and capital equipment costs; reduced supplies

of raw materials; fluctuations in selling prices and volumes; intense competition; our ability to identify, complete, integrate or finance acquisitions; the potential loss of certain customers; adverse changes in and the cost of complying with extensive governmental regulations; and adverse changes in general market and industry conditions. Such risks are more particularly described in our filings with the SEC, including under the caption **Business Forward-Looking Information and Risk Factors** in our Fiscal 2005 Form 10-K. Further, forward-looking statements speak only as of the date they are made, and we do not have or undertake any obligation to update any such information as future events unfold.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

For a discussion of certain of the market risks to which we are exposed, see the **Quantitative and Qualitative Disclosures About Market Risk** section in our Fiscal 2005 Form 10-K.

Item 4. CONTROLS AND PROCEDURES

Our Chief Executive Officer and our Chief Financial Officer, after evaluating the effectiveness of the Company's disclosure controls and procedures (as defined in the Exchange Act Rules 13a-15(e)) as of the end of the period covered by this quarterly report, have concluded that our disclosure controls and procedures are effective based on their evaluation of these controls and procedures required by paragraph (b) of Exchange Act Rules 13a-15 or 15d-15. There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II: OTHER INFORMATION**Item 1. LEGAL PROCEEDINGS**

We are a party to litigation incidental to our business from time to time. We are not currently a party to any litigation that management believes, if determined adversely to us, would have a material adverse effect on our results of operations, financial condition or cash flows.

Item 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

We held our annual meeting of shareholders on January 27, 2006 at which we submitted matters to a vote of our shareholders:
