INDEPENDENT ACCOUNTANTS' REPORT

To the Stockholders and Board of Directors
Escalade, Incorporated
Evansville, Indiana

We have audited the accompanying consolidated balance sheets of Escalade, Incorporated and subsidiaries as of December 27, 2003 and December 28, 2002 and the related consolidated statements of income, stockholders' equity and cash flows for each of the three years in the period ended December 27, 2003. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit

Edgar Filing: ESCALADE INC - Form 10-K/A

includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Escalade, Incorporated and subsidiaries at December 27, 2003 and December 28, 2002 and the results of their operations and their cash flows for each of the three years in the period ended December 27, 2003 in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 5, in 2002 the Company changed its method of accounting for goodwill and other intangible assets.

ESCALADE, INCORPORATED

Notes to Consolidated Financial Statements

NOTE 1 -- NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF OPERATIONS

Escalade, Incorporated and its wholly owned subsidiaries (the "Company") are engaged in the manufacture and sale of sporting goods and office products. The Company is headquartered in Wabash, Indiana and has manufacturing facilities in the United States of America, Mexico, Germany and China. The Company sells products to customers throughout the world.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements include the accounts of Escalade, Incorporated and its wholly-owned subsidiaries, Indian Industries, Inc., Martin Yale Industries, Inc., Indian-Martin, Inc., Indian-Martin, AG, EIM Company, Inc., and SOP Services, Inc. All material intercompany accounts and transactions have been eliminated.

BASIS OF PRESENTATION

Edgar Filing: ESCALADE INC - Form 10-K/A

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The Company's fiscal year is a 52 or 53 week period ending on the last Saturday in December. Fiscal 2003, 2002, and 2001 were each 52 weeks long ending on December 27, 2003, December 28, 2002, and December 29, 2001, respectively.

USE OF ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

CASH AND CASH EQUIVALENTS

Highly liquid financial instruments with insignificant interest rate risk and with original maturities of three months or less are classified as cash and cash equivalents.

INVENTORIES

Inventories are valued at the lower of cost or market. Cost is based on the first-in, first-out (FIFO) method.

ACCOUNTS RECEIVABLE

Accounts receivable are stated at the amount billed to customers. The Company provides an allowance for doubtful accounts, which is based upon a review of outstanding receivables, historical collection information and existing economic conditions. Accounts receivable are ordinarily due between 30 and 60 days after the issuance of the invoice. Accounts past due more than 90 days are considered delinquent. Delinquent receivables are reserved or written off based on individual credit evaluation and specific circumstances of the customer.

24

ESCALADE, INCORPORATED

Notes to Consolidated Financial Statements

PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are recorded at cost. Depreciation and amortization are computed for financial reporting purposes principally using the straight-line method over the following estimated useful lives: buildings, 20-30 years; leasehold improvements, 4-8 years; machinery and equipment, 5-15 years; and tooling, dies and molds, 2-4 years.

INVESTMENTS

Available for sale. Included in other assets on the consolidated balance sheet are marketable equity securities recorded at fair value with unrealized gains and losses, net of tax, reported in accumulated other comprehensive income.

Non-Marketable Equity Securities and Other Investments. Also included in other assets are non-marketable minority equity investments in companies strategically related to the company's business. These investments are recorded at historical cost or, if the company has significant influence over the investee, using the equity method of accounting. The company's proportionate share of income or losses from investments accounted for under the equity method are recorded in

Edgar Filing: ESCALADE INC - Form 10-K/A

other expense (income) on the consolidated statement of income.

FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair values of cash equivalents approximate cost due to the short period of time to maturity. Fair values of long-term investments, non-marketable debt investments, short-term debt, long-term debt and swaps, are based on quoted market prices or pricing models using current market rates. For the company's portfolio of non-marketable equity securities, management believes that the carrying value of the portfolio approximates the fair value at December 27, 2003. All of the estimated fair values are management's estimates; however, there is no readily available market and the estimated fair value may not necessarily represent the amounts that could be realized in a current transaction, and these fair values could change significantly.

EMPLOYEE STOCK OPTION PLAN

The Company has two stock-based compensation plans, which are described more fully in Note 8. The Company accounts for these plans under the recognition and measurement principles of APB Opinion No. 25, Accounting for Stock issued to Employees, and related interpretations. The following table illustrates the effect on net income and earnings per share if the Company had applied the fair value provisions of FASB Statement No. 123, Accounting for Stock-Based Compensation, to stock-based employee compensation.

(In Thousands Except Per Share Amounts)	2003	2002	2001
-----	----	----	----

EMPLOYEE BENEFITS

The Company has an employee profit-sharing salary reduction plan, pursuant to the provisions of Section 401(k) of the Internal Revenue Code, for non-union employees. It is the Company's policy to fund costs accrued on a current basis.

INCOME TAXES

Edgar Filing: ESCALADE INC - Form 10-K/A

Income tax in the consolidated statement of income includes deferred income tax provisions or benefits for all significant temporary differences in recognizing income and expenses for financial reporting and income tax purposes.

INTANGIBLE ASSETS

The Company has various intangible assets including consulting agreements, patents, trademarks, noncompetition agreements and goodwill. Amortization is computed using the straight-line method over the following lives: consulting agreements, the life of the agreement; non-compete agreements, the lesser of the term or 5 years; and patents, 5 to 8 years. Trademarks are deemed to have indefinite useful lives and according are not amortized, but evaluated on an annual basis to determine whether any impairment in value has occurred.

PRODUCT WARRANTY

The Company provides limited warranties on certain of its products, for varying periods. Generally, the warranty periods range from 90 days to one year. However, some products carry extended warranties of seven-year, ten-year, and lifetime warranties. The Company records an accrued liability and expense for estimated future warranty claims based upon historical experience and management's estimate of the level of future claims. Changes in the estimated amounts recognized in prior years are recorded as an adjustment to the accrued liability and expense in the current year. A reconciliation of the liability is as follows:

In Thousands -----	2003 ----	2002 ----

REVENUE RECOGNITION

Revenue from the sale of the Company's products is recognized as products are shipped to customers.

SELF INSURANCE

The Company has elected to act as a self-insurer for certain costs related to

Edgar Filing: ESCALADE INC - Form 10-K/A

employee health and accident benefit programs. Costs resulting from non-insured losses are charged to income when incurred. The Company has purchased insurance which limits its exposure for individual claims and which limits its aggregate exposure to \$1,400,000.

RECLASSIFICATIONS

Certain reclassifications have been made to the 2002 financial statements to conform to the 2003 financial statement presentation. These reclassifications had no effect on net earnings.

NEW ACCOUNTING PRONOUNCEMENTS

In January of 2003, the FASB issued Interpretation No. 46, (FIN 46), Consolidation of Variable Interest Entities, an Interpretation of Accounting Research Bulletin No. 51, and in December 2003 the FASB deferred certain effective dates of Interpretation No. 46. For all variable interest entities other than special purpose entities, the revised Interpretation is effective for periods ending after March 15, 2004. For variable interest entities meeting the definition of special purpose entities under earlier accounting rules, the Interpretation remains effective for periods ending after December 31, 2003. The Interpretation requires the consolidation of entities in which an enterprise absorbs a majority of the entity's expected losses, receives a majority of the entity's expected residual returns, or both, as a result of ownership, contractual or other financial interests in the entity. Currently, entities are generally consolidated by an enterprise when it has a controlling interest through ownership of a majority voting interest in the entity. The Company has determined that it has no such instruments.

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. This statement establishes standards for how an issuer classifies and measures in its balance sheet certain financial instruments with characteristics of both liabilities and equity. The objective of this Statement is to require issuers to classify as liabilities (or assets in some circumstances) three classes of freestanding financial instruments that embody obligations for the issuer. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise shall be effective at the beginning of the first interim period beginning after June 15, 2003, except for mandatorily redeemable financial instruments of a nonpublic company. For these instruments, this Statement is effective for existing or new contracts for fiscal periods beginning after December 15, 2003. Adoption of this Standard is not expected to have a material effect on the Company.

In November 2002, the FASB issued Interpretation No. 45, (FIN 45), Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, which elaborates on the disclosures to be made by a guarantor about its obligations under certain guarantees issued. It also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing the guarantee. The initial recognition and measurement provisions of this Interpretation apply on a prospective basis to guarantees issued or modified after December 31, 2002. The disclosure requirements in this Interpretation are effective for periods ending after December 15, 2002. The Company has product warranties that fall under the scope of FIN 45 and has adopted the requirements of FIN 45.

In July 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standard (SFAS) No. 141, Business Combinations, which requires that the purchase method of accounting be used for all business combinations completed after June 30, 2001. SFAS No. 141 specifies that certain acquired intangible assets in a business combination be recognized as assets separately from goodwill. Additionally, it requires the Company to evaluate its existing intangible assets and goodwill and to make any necessary reclassifications in order to conform to the new separation requirements at the date of adoption. Goodwill and intangible assets determined to have indefinite useful lives that are acquired in a business combination completed after June 30, 2001 will not be amortized. Goodwill and intangible assets acquired in business combinations completed before July 1, 2001 continued to be amortized until December 29, 2001. The Company adopted the provisions of SFAS No. 141 on December 30, 2001.

In July 2001, the FASB issued SFAS No. 142, Goodwill and Other Intangible Assets. SFAS No. 142 requires that goodwill no longer be amortized but instead be tested for impairment at least annually, and that intangible assets other than goodwill should be amortized over their useful lives. The Company adopted the provisions on December 30, 2001. The Company did not have any impairment of goodwill or intangibles assets during 2003, 2002 or 2001.

The Company's directly owned subsidiary, Indian-Martin, Inc., has a revolving line of credit under which it can borrow funds from time to time to purchase eligible accounts receivable from the company's operating subsidiaries which accounts are and will be pledged to secure those borrowings. At December 27, 2003, this line of credit aggregated \$40 million, of which \$17,660 thousand was borrowed. At the company's option, borrowings can be made under the bank's prime interest rate minus 1.25% or LIBOR plus 1.38%. At December 27, 2003, all borrowings under this revolving line of credit were under the prime interest rate option at an effective rate of 2.75%.

The Company's European subsidiaries have revolving credit line agreements with Deutsche Bank that are secured by the Company's real estate holdings in Germany. The combined amount available under these credit lines is 2.5 million Euros (approximately \$3.1 million US Dollars at December 27, 2003), of which 2.1 million Euros (\$2.6 million US Dollars) was used at December 27, 2003. Borrowings under these credit lines bear interest at 6.0%.

The liabilities of Schleicher & Co. International, AG (Schleicher), acquired in 2003, included a note payable to the founder of Schleicher in the amount of \$790 thousand. This note is due on demand and bears interest at bank prime, 4% at December 27, 2003. Interest is payable quarterly.

During 2003, the Company negotiated and executed a debt reduction plan with two European banks wherein the banks agreed to forgive 1.2 million Euro (approximately 1.4 million US Dollars) in debt, in exchange for early settlement of the outstanding debt. The gain associated with this extinguishment of debt was recorded in other income. This transaction was not considered an element of the Schleicher acquisition because it was not contemplated until after the acquisition was completed and it was not part of the acquisition decision criteria.

Maturities of long-term debt outstanding at December 27, 2003 are as follows: \$354 thousand in 2004; \$354 thousand in 2005; \$355 thousand in 2006; \$5,320 thousand in 2007; \$7,000 thousand in 2008; and \$2,700 thousand thereafter.

The mortgages payable and term loan agreements contain certain restrictive covenants, of which the more significant include maintenance of specified net worth and maintenance of specified ranges of debt service and leverage ratios.

INTEREST RATE SWAP AGREEMENT

In May 2003, the Company entered into an interest rate swap agreement having a notional amount of \$10 million and a maturity date of May 19, 2008. This swap agreement is designated as a cash flow hedge, and effectively converts a portion of the Company's variable rate debt to fixed rate debt with a weighted average interest rate of 5.08%. The Company entered into this interest rate swap agreement to manage interest costs and cash flows associated with variable interest rates, primarily short-term changes in LIBOR; changes in the cash flows of the interest rate swap offset changes in the interest payments on the covered

Edgar Filing: ESCALADE INC - Form 10-K/A

portion of the Company's revolving debt. In connection with this interest rate swap agreement the Company recorded an after tax charge of \$685 thousand in Other Comprehensive Income (OCI). There was no impact on net income due to ineffectiveness. The Company's exposure to credit loss on its interest rate swap agreement in the event of non-performance by the counterparty is believed to be remote due to the Company's requirement that the counterparty have a strong credit rating.

NOTE 8 -- STOCK OPTIONS

At the Company's 1997 annual meeting, the stockholders approved two Stock Option Plans reserving 900,000 common shares for issuance under an Incentive Stock Option Plan (ISO) and 300,000 common shares for issuance under a Director Stock Option Plan (DSO). The following table summarizes the option activity under the two plans:

Under the Company's ISO, which is accounted for in accordance with Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations, the Company grants selected executives and other key employees' stock option awards, which vest over four years of continued employment. The exercise price of each option, which has a five-year life, was equal to the market price of the Company's stock on the date of grant; therefore, no compensation expense was recognized. Options are exercisable commencing one year from the date of issuance to the extent vested.

Although the Company has elected to follow APB Opinion No. 25, Statement of Financial Accounting Standards (SFAS) No. 123 requires pro forma disclosures of net income and earnings per share as if the Company had accounted for its employee stock options under that statement. The fair value of each option grant was estimated

As of December 27, 2003, approximately 120 employees of the Company's labor force were covered by a collective bargaining agreement that expires in April 27, 2006. Management acknowledges that differences between Company offers and union demands during negotiations can occur, but has no reason to expect such differences to result in protracted conflicts.

Raw materials for Escalade's various product lines consist of wood, particleboard, slate, standard grades of steel, steel tubing, plastic, vinyl, steel cables, fiberglass and packaging. Escalade relies upon suppliers in Europe and Brazil for its requirement of billiard balls and slate utilized in the production of home pool tables and upon various Asian manufacturers for certain of its table tennis needs and other items. Notes to Consolidated Financial Statements

NOTE 15 -- CERTAIN SIGNIFICANT ESTIMATES

Management's estimates that influence the financial statements are normally based on knowledge and experience about past and current events and assumptions about future events. The following estimates affecting the financial statements are particularly sensitive because of their significance, and it is at least reasonably possible that a change in these estimates will occur in the near term:

Product warranty reserves--based on an analysis of customers' product return histories, current status, sales volume and management's expectations from new products introduced into the market.

Customer allowance reserves--based on agreements for customer purchase rebates and shared advertising, and prior year's shipments.

Inventory valuation reserves--based on estimates of costs of inventory amounts overstocked or obsolete in excess of realizable value.

NOTE 16 -- DEFERRED COMPENSATION PLAN

In October 1985, the Board of Directors approved the adoption of a Contributory Deferred Compensation Plan pursuant to which some recipients of incentive compensation could elect to defer receipt thereof. For each dollar of deferred compensation, the Company provided a 75% matching amount. Amounts deferred earn interest at the rate of 9%. Such amounts are not intended to be recognized for tax purposes until receipt. All deferrals allowed under this plan have been made. Participants have no vested rights in deferred amounts credited to their accounts and are general creditors of the Company until such amounts are actually paid.

NOTE 17 -- COMMITMENTS AND CONTINGENCIES

At December 27, 2003, the Company had standby letters of credit issued by a bank

Edgar Filing: ESCALADE INC - Form 10-K/A

in the amount of \$500,001.

Additionally, the Company has obtained a letter of credit for the benefit of certain mortgage holders. At December 27, 2003, the balance of the letter of credit was \$2,733,750. It is to be used in the event of a default in either interest or principal payments.

The Company is involved in litigation arising in the normal course of its business. The Company does not believe that the disposition or ultimate resolution of existing claims or lawsuits will have a material adverse effect on the business or financial condition of the Company.

The Company has entered into various agreements whereby it is required to make royalty payments. At December 27, 2003, the Company had estimated minimum royalty payments for each of the following five years as follows:

NOTE 19 -- ACQUISITIONS

All of the Company's acquisitions have been accounted for using the purchase method of accounting.

Edgar Filing: ESCALADE INC - Form 10-K/A

2003

On December 30, 2002 the Company increased its ownership interest to 51.2% of the outstanding shares of Schleicher & Co. International, AG ("Schleicher"), a manufacturer and distributor of data shredding equipment headquartered in Germany and publicly traded on the German Stock Exchange. Escalade then initiated and successfully completed in April 2003, a tender offer for all the remaining shares culminating in 100% ownership. The acquisition of Schleicher increases the Company's product offering in the office product industry and expands the Company's presence into Europe.

The value assigned to the Schleicher acquisition is the sum of the per share amount paid to shareholders and amounts expended that directly relate to the tender offer agreement. The per share price was based on the market price of the Schleicher shares on the German stock exchange and valuation studies ordered by the German securities regulators. The total price paid exceeded the fair market value of Schleicher's net assets, resulting in goodwill of \$4,566 thousand. No portion of the recorded goodwill is deductible for income tax purposes.
