ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION

On January 29, 2004, Phelps Dodge Corporation (Phelps Dodge or the Company) released its results for the quarter and year ended December 31, 2003, and the press release announcing these results was furnished to the Securities and Exchange Commission as an exhibit to a Form 8-K Current Report. Subsequent to the Company's release of these results, management's ongoing review of state and local tax matters identified a probable franchise tax liability in the state of Texas as of December 31, 2003. Additionally, the Company recorded an updated estimate to deferred taxes related to a Brazilian subsidiary (\$1.3 million). As a result, Phelps Dodge is revising its reported results for the three months and year ended December 31, 2003, to reflect the additional after-tax expense of \$9.3 million (10¢ per diluted common share), of which \$8.0 million (9¢ per diluted common share) was recorded as a special item.

After giving effect to these matters, net income for the fourth quarter of 2003 was \$125.3 million (\$1.32 per diluted common share), compared with a loss of \$225.3 million in the fourth quarter of 2002. Net income for the year 2003 was \$94.8 million (91¢ per diluted common share), compared with a loss of \$338.1 million for the year 2002.

The state franchise tax liability that is the subject of this additional accrual would be owed if Phelps Dodge Corporation and certain of its subsidiaries were considered to be conducting business in Texas, where they do not directly operate, due to the processing of copper by affiliates in that state. The Company is analyzing whether any taxes, interest or penalties should be paid, and has applied to resolve the matter through a voluntary compliance program available in the state. Based upon our review, we have estimated a range of reasonably possible loss of \$8 million to \$25 million, and, as no point within that range is more likely than any other, the lower end of the range has been recorded.
