SELLING SECURITYHOLDERS

We originally issued the notes to J.P. Morgan Securities Inc., Merrill Lynch, Pierce Fenner & Smith Incorporated, Wachovia Capital Markets, LLC and Bear, Stearns & Co. Inc. in a private placement on October 12, 2006. The notes were immediately resold by the initial purchasers to persons reasonably believed by the initial purchasers to be qualified institutional buyers within the meaning of Rule 144A under the Securities Act in transactions exempt from registration under the Securities Act. Selling securityholders, including their transferees, pledgees or donees or their successors, may from time to time offer and sell the notes and our common stock issuable upon conversion of the notes pursuant to this prospectus. Unless set forth below, none of the selling securityholders has had within the past three years any material relationship with us or any of our predecessors or affiliates.

The following table sets forth certain information concerning the principal amount of notes beneficially owned by each selling securityholder and the number of shares of common stock that may be offered from time to time by each selling securityholder under this prospectus. The information is based on information provided to us by or on behalf of the selling securityholders on or prior to April 12, 2007.

Because the selling securityholders may offer all, some or none of the notes or common stock issuable upon conversion of the notes, we have assumed for purposes of the table below that the named selling securityholders will sell all of the notes or common stock issuable upon conversion of the notes. In addition, the selling securityholders identified below may have sold, transferred or otherwise disposed of all or a portion of their notes since the date on which they provided the information regarding their notes in transactions exempt from the registration requirements of the Securities Act. Unless otherwise indicated below, to our knowledge no selling securityholder named in the table below beneficially owns one percent or more of our common stock, assuming conversion of such selling securityholder's notes.

To our knowledge, except as described below, the selling securityholders have sole voting and investment power with respect to all of the securities shown as beneficially owned by them.

 - (3) Calculated based on 135,808,459 shares of our common stock outstanding as of April 11, 2007. PLAN OF DISTRIBUTION

The selling securityholders and their successors, including their pledgees, donees, partnership distributees and other transferees receiving the notes or common stock from the selling securityholders in non-sale transfers, may sell the notes and the underlying common stock directly to purchasers or through underwriters, broker-dealers or agents. Underwriters, broker-dealers or agents may receive compensation in the form of discounts, concessions or commissions from the selling securityholders or the purchasers. These discounts, concessions or commissions may be in excess of those customary in the types of transactions involved.

The notes and the underlying common stock may be sold in one or more transactions at:

- fixed prices that may be changed;
- prevailing market prices at the time of sale;
- prices related to the prevailing market prices;
- varying prices determined at the time of sale; or
- negotiated prices.

These sales may be effected in transactions, which may involve cross or block transactions, in the following manner:

- on any national securities exchange or quotation service on which the notes or the common stock may be listed or quoted at the time of sale, including the New York Stock Exchange in the case of the common stock;
- in the over-the-counter-market;
- in transactions otherwise than on these exchanges or services or in the over-the-counter market (privately negotiated transactions);
- through the writing and exercise of options (including the issuance of derivative securities), whether these options or such other derivative securities are listed on an options or other exchange or otherwise;
- through the settlement of short sales;
- through any combination of the foregoing; or
- by any other legally available means.

These transactions may include block transactions or crosses. Crosses are transactions in which the same broker acts as an agent on both sides of the transaction.

Selling securityholders may enter into hedging transactions with broker-dealers or other financial institutions which may in turn engage in short sales of the notes or the underlying common stock and deliver these securities to close out short positions. In addition, the selling securityholders may sell the notes and the underlying common stock short and deliver the notes and underlying common stock to close out short positions or loan or pledge the notes or the underlying common stock to broker-dealers or other financial institutions that in turn may sell such securities. Selling securityholders may also enter into option or other transactions with broker-dealers or other financial institutions that require the delivery to the broker-dealers or other financial institutions of the notes or the underlying common stock or enter into transactions in which a broker-dealer makes purchases as a principal for resale for its own account or through other types of transactions.

Selling securityholders may decide not to sell all or a portion of the notes and the underlying common stock offered by them pursuant to this prospectus or may decide not to sell notes or the underlying common stock under this prospectus. In addition, selling securityholders may sell or transfer their notes and shares of common stock issuable upon conversion of the notes other than by means of this prospectus. In particular, any securities covered by this prospectus that qualify for sale pursuant to Rule 144, Rule 144A or Regulation S under the Securities Act may be sold thereunder, rather than pursuant to this prospectus.

The aggregate proceeds to the selling securityholders from the sale of the notes or underlying common stock will be the purchase price of the notes or common stock less any discounts and commissions. A selling securityholder reserves the right to accept and, together with their agents, to reject any proposed purchase of notes or common stock to be made directly or through agents. We will not receive any of the proceeds from this offering.

Our common stock is listed on the New York Stock Exchange under the symbol UDR. We do not intend to list the notes on any securities exchange or for quotation through Nasdaq. The notes are eligible for trading on The Portal Market. However, notes sold pursuant to this prospectus will no longer be eligible for trading on The Portal Market. Accordingly, no assurance can be given as to the development of liquidity or any trading market for the notes.

The selling securityholders and any underwriters, broker-dealers or agents who participate in the distribution of the notes and the underlying common stock may be deemed to be underwriters within the meaning of the Securities Act. As a result, any profits on the sale of the underlying common stock by selling securityholders and any discounts, commissions or concessions received by any such broker-dealers or agents may be deemed to be underwriting discounts and commissions under the Securities Act. If the selling securityholders were deemed to be underwriters, the selling securityholders will be subject to the prospectus delivery requirements of the Securities Act and may be subject to liabilities including, but not limited to, those of Sections 11, 12 and 17 of the Securities Act and Rule 10b-5 under the Exchange Act.

If the notes and the underlying common stock are sold through underwriters or broker-dealers, the selling securityholders will be responsible for underwriting discounts or commissions or agent's commissions.

Any selling securityholder who is a broker-dealer may be deemed to be an underwriter within the meaning of Section 2(11) of the Securities Act. As a result, such selling securityholders are an underwriter in connection with the sale of the notes or the shares of common stock issuable upon conversion of the notes covered by this prospectus. Credit Suisse Securities (USA) LLC, Deutsche Bank Securities Inc., JPMorgan Securities Inc. and Merrill Lynch, Pierce, Fenner & Smith, Inc. have identified themselves as broker-dealers and are, therefore, underwriters in connection with the sale of the notes or the shares of common stock issuable upon conversion of the notes covered by this prospectus. Such selling securityholders have informed us that they have purchased their notes in the ordinary course of business, and we are not aware of any underwriting plan or agreement, underwriters' or dealers' compensation, or passive market-making or stabilization transactions involving the purchase or distribution of these securities by such securityholders.

The selling securityholders and any other persons participating in the distribution of the notes or underlying common stock will be subject to the Exchange Act. The Exchange Act rules include, without limitation, Regulation M, which may limit the timing of purchases and sales of any of the notes and the underlying common stock by the selling securityholders and any such other person. In addition, Regulation M of the Exchange Act may restrict the ability of any person engaged in the distribution of the notes and the underlying common stock to engage in market making activities with respect to the particular notes and underlying common stock being distributed for a period of up to five business days prior to the commencement of such distribution. This may affect the marketability of the notes and the underlying common stock and the ability to engage in market making activities with respect to the notes and the underlying common stock.

If required, the specific notes or common stock to be sold, the names of the selling securityholders, the respective purchase prices and public offering prices, the names of any agent, dealer or underwriter and any applicable commissions or discounts with respect to a particular offer will be set forth in an accompanying prospectus supplement or, if appropriate, a post-effective amendment to the registration statement of which this prospectus is a part.

We entered into a registration rights agreement for the benefit of the holders of the notes to register the notes and the common stock issuable upon conversion of notes under applicable federal securities laws under specific circumstances and specific times. Under the registration rights agreement, the selling securityholders and we have agreed to indemnify each other and our respective controlling persons against, and in certain circumstances to provide contribution with respect to, specific liabilities in connection with the offer and sale of the notes and the common stock, including liabilities under the Securities Act. We will pay substantially all of the expenses incident to the registration of the notes and the common stock, except that the selling securityholders will pay all brokers' commissions and, in connection with an underwritten offering, if any, underwriting discounts and commissions.
