A subsidiary of the Company purchased an insecticide product line from Boehringer Ingelheim Vetmedica, Inc. ("BIV") on December 30, 2002 for \$3.82 million. The Company anticipates the acquisition will add approximately \$4 million in annualized revenue. The product line is sold under the Rabon trade name and is used by domestic livestock and poultry growers to protect animals from flies and other pests. The product line includes oral larvicides, insecticidal powders and liquid sprays all containing the active ingredient tetrachlorvinphos. Rabon oral larvicide is the leading fly control oral larvicide product in the United States.

The Company's acquisition of the Rabon product line included the purchase of pesticide registrations, the trade name and manufacturing equipment necessary to make the oral larvicide. A copy of the Asset Purchase Agreement is attached and incorporated in this report as Exhibit 2.1(iv). The Company also entered into a contract manufacturing agreement with BIV to formulate and package the oral larvicide product. A copy of the Contract Manufacturing Agreement is attached and incorporated in this report as Exhibit 10.29.
