Q:
What is the purpose of the annual meeting?

A:
The 2004 annual meeting is being held to elect three directors, to ratify the selection of independent auditors for 2004 and to consider and vote on any other business that may be properly brought before the annual meeting.

Q:
Who can attend the annual meeting?

A:
Anyone that is a shareholder as of the close of business on March 24, 2004, may attend the annual meeting.

Q:
How are directors elected?

A:
A plurality of votes cast at the annual meeting is required for the election of directors (assuming a quorum is present). At the annual meeting, we will be electing three directors. "Plurality" means that the three individuals who receive the largest number of votes will be elected as directors. Shares not voted at the annual meeting, whether due to abstentions, broker non-votes, or otherwise, and votes withheld will not affect the election of directors, except to the extent that the failure to vote for an individual results in another individual receiving a larger number of votes.

1

Q:
What constitutes a quorum?

A:
A quorum is the number of shares that must be in attendance at a meeting to lawfully conduct business. Votes of a majority of the shares entitled to vote will constitute a quorum. As of the record date of March 24, 2004, we had 37,058,632 shares eligible to vote. Votes of 18,529,317 shares will constitute a quorum.

Q:
Are there any other issues to be voted on?

Q:
What happens if additional proposals are presented at the meeting?

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

A: Our By-laws require advance notice to us of any matter to be brought before the annual meeting. We have not received any such notice and, therefore, we are not required to present any late proposal at the meeting. However, if such a proposal is brought up and we decide to allow it to be presented at the meeting, the shares represented by proxy will be voted in accordance with the discretionary judgment of the appointed proxies, Larry L. Weyers and Barth J. Wolf.

Q:
Who tabulates the votes?

A: Our independent transfer agent, American Stock Transfer & Trust Company, tabulates the votes.

ELECTION OF DIRECTORS

Our board of directors is currently made up of nine directors. The nine directors are divided into three classes. Each year one class of directors is elected to a three-year term.

Individuals nominated for election are:

Class A Term Expiring in 2004

Ellen Carnahan was nominated and appointed to the board in 2003 after a nationwide search by a third party search firm.

The board of directors has no reason to believe that any of these nominees will be unable or unwilling to serve as a director if elected. If any nominee is unable or unwilling to serve, the shares represented by proxies solicited by the board will be voted for the election of another person the board may recommend.

The board of directors recommends a vote "FOR" the election to the board of each of the foregoing nominees.

On February 12, 2004, the board of directors reviewed the business and other relationships of all directors of WPS Resources and affirmatively determined that all non-management directors are independent as defined in the New York Stock Exchange listing standards and meet the independence standards adopted by the board of directors (set forth below) and have no other material relationships with WPS Resources. In addition, the board has determined that Richard A. Bemis, Albert J. Budney, Jr. and William F. Protz, Jr. meet the additional independence standards for audit committee members.

Categorical Independence Standards for Directors

A director who at all times during the previous three years has met all of the following categorical standards shall be presumed to be independent:

1. WPS Resources has not employed the director, and has not employed (except in a non-executive officer capacity) any of his or her immediate family members. Employment as an interim Chairman or Chief Executive Officer shall not disqualify a director from being considered independent following that employment.
2. Neither the director, nor any of his or her immediate family members, has received more than \$100,000 per year in direct compensation from WPS Resources, other than director and committee fees, and pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service). Compensation received by a director for former service as an interim Chairman or Chief Executive Officer need not be considered in determining independence under this test. Compensation received by an immediate family member for service as a non-executive employee of WPS Resources need not be considered in determining independence under this test.

3. The director has not been employed by, or affiliated with WPS Resources' present or former internal or external auditor, nor have any of his or her immediate family members been so employed or affiliated (except in a non-professional capacity).
- 4.

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

Neither the director, nor any of his or her immediate family members, has been part of an "interlocking directorate" in which any of WPS Resources' present executives serve on the compensation (or equivalent) committee of another company that employs the director or any of his or her immediate family members in an executive officer capacity.

5.

Neither the director, nor any of his or her immediate family members (except in a non-executive officer capacity), has been employed by a company that makes payments to, or receives payments from, WPS Resources for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million or 2 percent of such other company's consolidated gross revenues.

6.

Neither the director, nor any of his or her immediate family members, has been an employee, officer or director of a foundation, university or other non-profit organization to which WPS Resources gives directly, or indirectly through the provision of services, more than \$1 million per annum or 2 percent of the total annual donations received (whichever is greater).

8

RATIFICATION OF INDEPENDENT AUDITORS

The audit committee selected the firm of Deloitte & Touche LLP, independent auditors, to audit the consolidated financial statements of WPS Resources and its subsidiaries for the year ending December 31, 2004, and proposes that the shareholders ratify such selection. If shareholders do not ratify the selection of Deloitte & Touche LLP, the audit committee will reconsider the selection.

Audit services provided by Deloitte & Touche in 2003 included the audit of consolidated financial statements of WPS Resources and its subsidiaries; reviews of interim consolidated financial information; and consultations on matters related to accounting and financial reporting.

Deloitte & Touche also provided certain audit related and nonaudit services to WPS Resources and its subsidiaries during 2003, which were all reviewed by the audit committee and which are more fully described later in this proxy statement.

Representatives of Deloitte & Touche are expected to attend the annual meeting where they will be available to respond to questions and, if they desire, to make a statement.

Assuming a quorum is present at the annual meeting, to ratify the selection of Deloitte & Touche as independent auditors for 2004; the number of votes cast in favor of ratification must exceed the number of votes cast in opposition to it. Abstentions and broker non-votes will be counted as present in determining whether there is a quorum; however, they will not constitute a vote "for" or "against" ratification, and will be disregarded in the calculation of "votes cast." A "broker non-vote" occurs when a broker submits a proxy card with respect to shares that the broker holds on behalf of another person, but declines to vote on a particular matter because the broker does not have authority to vote on the matter.

The board of directors recommends a vote "FOR" the ratification of the appointment of Deloitte & Touche LLP as independent auditors for WPS Resources and its subsidiaries for 2004.

9

Meetings in 2003	10	4	6	6	4

All directors attended a minimum of 75 percent of all meetings in 2003, including meetings of the board and each committee of which they are members. Under WPS Resources' Corporate Governance Guidelines all directors are expected to attend the annual meeting of shareholders. All of the directors who were directors at the time of the 2003 annual meeting attended the 2003 annual meeting.

The board of directors selected Robert C. Gallagher, to serve as lead director, for a one-year term, effective December 11, 2003. As lead director, Mr. Gallagher will preside at all executive sessions of the non-management directors. An executive session of non-management directors without management present is held at each regularly scheduled board meeting with the lead independent director presiding. Any shareholder wishing to communicate with the lead director may contact the lead director by sending written communications, addressed to the lead director, care of the WPS Resources' Corporate Secretary, WPS Resources Corporation, 700 North Adams Street, P.O. Box 19001, Green Bay, WI 54307-9001. The corporate secretary will ensure that this communication (assuming it is properly marked *to the lead director*) is delivered to the lead director.

Other directorships, in any company registered under or subject to the Securities Exchange Act of 1934, held by our directors include the following:

Richard A. Bemis - W. H. Brady Company, Milwaukee, WI

Robert C. Gallagher - Associated Banc-Corp, Green Bay, WI

James L. Kemerling - Badger Paper Mills, Inc., Peshtigo, WI

John C. Meng - Associated Banc-Corp, Green Bay, WI

Audit Committee

In 2003, the audit committee consisted of three non-management directors of WPS Resources: Richard A. Bemis - Chairman, Albert J. Budney, Jr. and William F. Protz, Jr. The board of directors of WPS Resources has determined that all three members of the audit committee meet the requirements of an audit committee financial expert as defined by regulations of the Securities and Exchange Commission. None of the members of the WPS Resources audit committee participate as members of any other company's audit committee.

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

The audit committee is directly responsible for appointment, compensation and oversight of the independent auditor. The independent auditor is to report directly to the audit committee. The committee is responsible for the resolution of any disagreements between the auditor and management.

The board of directors adopted a written charter defining the responsibilities of the audit committee. The charter is attached as Appendix A to this proxy statement.

WPS Resources' securities are listed on the New York Stock Exchange and are governed by its listing standards. All members of the audit committee meet the independence standards of Section 303.01(B)(2) and (3) of the listing standards of the New York Stock Exchange and Section 10A-3 promulgated under the Securities Exchange Act of 1934.

The information contained in this proxy statement with respect to the audit committee charter and the independence of the members of the audit committee shall not be deemed to be "soliciting material" or deemed to be filed with the Securities and Exchange Commission, nor shall such information be incorporated by reference into any future filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent specifically requested by WPS Resources or incorporated by reference in documents otherwise filed.

Change in Principal Accountants

On May 28, 2002, the Audit Committee of WPS Resources' Board of Directors dismissed Arthur Andersen LLP as the principal accountants of WPS Resources and its subsidiary, Wisconsin Public Service, following the completion of Arthur Andersen's limited review of their results of operations for the first quarter ending March 31, 2002. Prior to this decision, Arthur Andersen had been engaged by WPS Resources and Wisconsin Public Service as their principal accountants to audit their financial statements and those of their subsidiaries.

The reports of Arthur Andersen on the financial statements of WPS Resources and Wisconsin Public Service as of December 31, 2001 and 2000 did not contain an adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principles.

During 2000, 2001, or the period January 1, 2002 to May 28, 2002, there had been no disagreements with Arthur Andersen regarding accounting principles or practices, financial statement disclosures, or auditing scope or procedure, which if not resolved to the satisfaction of Arthur Andersen would have caused them to make reference thereto in their report for those periods.

Effective May 28, 2002, the Audit Committee of WPS Resources' Board of Directors appointed Deloitte & Touche LLP as its new independent accountants, to act as the principal accountants in auditing the financial statements of WPS Resources and its subsidiaries. Neither WPS Resources nor any of its subsidiaries has consulted with Deloitte & Touche regarding any matters described in Item 304(a)(2)(i) or (ii) of Regulation S-K in 2000, 2001, or the period January 1, 2002 to May 28, 2002.

Principal Auditors' Fees and Services

The following is a summary of the fees billed to WPS Resources by Deloitte & Touche for professional services performed for 2003 and 2002:

Fees	2003	2002
Audit Fees (a)	\$ 1,555,124	\$ 1,585,483
Audit Related Fees (b)	142,067	96,865
Tax Fees (c)	0	0
All Other Fees (d)	36,396	35,007
Total Fees	\$ 1,733,587	\$ 1,717,355

- a) *Audit Fees.* Consists of aggregate fees billed to WPS Resources by Deloitte & Touche for professional services rendered for the audit of the annual consolidated financial statements and reviews of the interim consolidated financial statements included in quarterly reports of WPS Resources and its subsidiaries and services that are normally provided by Deloitte & Touche in connection with statutory and regulatory filings or engagements, including comfort letters, consents and other services related to Securities and Exchange Commission matters and consultations arising during the course of the audits and reviews concerning financial accounting and reporting standards. Audit fees reported above include \$800,000 to re-audit the 2000 and 2001 consolidated financial statements, which was required due to changes in accounting principles and external auditors.
- b) *Audit Related Fees.* Consists of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of WPS Resources' consolidated financial statements and are not reported under "Audit Fees." These services include employee benefit plan audits, accounting consultations in connection with potential transactions and consultations concerning financial accounting and reporting standards.
- c) *Tax Fees.* Consists of fees billed for professional services for tax compliance, tax advice and tax planning. These services include assistance regarding federal and state tax compliance, tax audit issues, mergers and acquisitions and tax planning.
- d) *All Other Fees.* Consists of other fees billed to WPS Resources by Deloitte & Touche for products and services other than the services reported above. All Other Fees are for software licensing provided in 2003 and 2002. The nature of the software license fees, which include support and learning services, have been deemed to be permissible non-attest services.

In considering the nature of the services provided by the independent auditor, the audit committee determined that such services are compatible with the provision of independent audit services. The audit committee discussed these services with the independent auditor and WPS Resources' management and determined that they are permitted under the rules and regulations concerning auditor independence promulgated by the United States Securities and Exchange Commission to implement the Sarbanes-Oxley Act of 2002, as well as those of the American Institute of Certified Public Accountants. Since May 6, 2003, the audit committee has approved in advance 100% of the services described in the table above under "Audit-Related Fees," "Tax Fees" and "All Other Fees" in accordance with its pre-approval policy.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-Audit Services of Independent Auditors

Consistent with Securities and Exchange Commission policies regarding auditor independence, the audit committee has responsibility for appointing, setting compensation and overseeing the work of the independent auditor. In recognition of this responsibility, the audit committee has established a policy regarding the pre-approval of all audit and permissible non-audit services provided by the independent auditor.

The audit committee will annually pre-approve a list of select services and a maximum fee per engagement for these services that would not require management to obtain specific approval from the committee on an individual basis. Other services, not on the pre-approved list or individual engagements for services on the pre-approved list that exceed the dollar limit, would require the separate approval of the audit committee, or if necessary to seek pre-approval between meetings, such approval may be made by the audit committee chairman, or his designated alternate. The audit committee must specifically delegate its pre-approval authority to the chairman and any audit committee member designated as an alternate. The decisions of any member to whom authority is delegated must be presented to the full audit committee at its next scheduled meeting. The company's external auditors are absolutely prohibited from performing certain non-audit services, including:

Bookkeeping or other services related to the accounting records or financial statements;

Financial information systems design and implementation;

Appraisal or valuation services, fairness opinions, or contribution-in-kind reports;

Actuarial services;

Internal audit outsourcing services;

Management functions or human resources;

Broker-dealer, investment advisor or investment banking services;

Legal and expert services unrelated to the audit; and

Other services the Public Company Accounting Oversight Board chooses to prohibit.

Compensation Committee

The compensation committee consists of three independent non-management directors. Current members are Kathryn M. Hasselblad-Pascale - Chairperson, Robert C. Gallagher and John C. Meng. Its function is to evaluate the performance of the Chief Executive Officer, to define and establish an executive compensation strategy for WPS Resources and to recommend to the board compensation, bonuses and benefits to be paid directors, officers and other key employees.

Governance Committee

In 2003, the board of directors established the governance committee. The committee consists of three independent non-management directors, as defined in the New York Stock Exchange listing standards. Current members are Albert J. Budney, Jr. - Chairman, Ellen Carnahan and William F. Protz, Jr.

The committee provides oversight on the broad range of issues surrounding the composition and operation of the board of directors, including identifying individuals qualified to become board members, recommending to the board director nominees and recommending to the board corporate governance guidelines applicable to WPS Resources. The governance committee

considers nominees recommended by shareholders for election as directors. Recommendations for consideration by the governance committee should be sent to the Corporate Secretary, WPS Resources Corporation, P.O. Box 19001, Green Bay, WI 54307-9001, together with appropriate biographical information concerning each proposed nominee, as required by our By-laws. For more detailed information regarding the process to submit an individual for consideration as a director nominee and the qualifications necessary to become a director of WPS Resources, shareholders should review our By-laws, corporate governance guidelines and the governance committee charter adopted by the board. The corporate governance guidelines and charter may be accessed on the WPS Resources Web site, <http://www.wpsr.com> under "Investor Relations" then select "Corporate Governance."

If you would like to propose someone to serve as a director, you can do so by contacting the WPS Resources' Corporate Secretary. As provided in the WPS Resources By-laws, any proposed nominees and appropriate biographical information must be submitted to the Corporate Secretary between January 28, 2005, and February 22, 2005, for consideration at the 2005 annual meeting.

In identifying potential nominees and determining which nominees to recommend to the board of directors, the governance committee may retain the services of a professional search firm or other third party advisor. In connection with each vacancy, the committee will develop a specific set of ideal characteristics for the vacant director position. The committee will look at nominees it identifies and any nominees identified by shareholders on an equal basis using these characteristics and the general criteria identified below.

The governance committee selects nominees on the basis of, among other things, knowledge, experience, skills, expertise, diversity, personal and professional integrity, business judgment, time availability in light of other commitments, absence of conflicts of interest and such other relevant factors that the committee considers appropriate in the context of the needs of the board of directors at that time. At a minimum, each director nominee must have displayed the highest personal and professional ethics, integrity, values and sound business judgment. When considering nominees, the committee seeks to ensure that the board of directors as a whole possesses, and individual members possess at least one of, the following competencies: (1) accounting and finance, (2) business judgment, (3) management, (4) industry knowledge, (5) leadership and (6) strategy/vision. In addition, the governance committee believes it is important that at least one director have the requisite experience and expertise to be designated as an "audit committee financial expert." The committee looks at each nominee on a case-by-case basis regardless of who recommended the nominee. In screening director nominees, the committee will review potential conflicts of interest, including interlocking directorships and substantial business, civic and social relationships with other members of the board of directors that could impair the prospective nominee's ability to act independently.

Financial Committee

The financial committee consists of three independent non-management directors. Current members are James L. Kemerling, - Chairman, Robert C. Gallagher and John C. Meng. The committee is to act in an advisory and consulting capacity to management regarding capitalization, dividend and investment policies and other matters of a financial nature. The committee also provides assistance to the board of directors relating to financing strategy, financial policies and financial condition of WPS Resources.

- (6) Joseph P. O'Leary was first employed by WPS Resources in June 2001.

Agreements with Named Executive Officers

Individual employment and severance agreements exist with each of the named executive officers. The agreements are intended to retain the services of these officers in the event of a change in control of WPS Resources. Each agreement entitles the officer to a continuation of salary and benefits for a maximum period of three years after a change in control. Each employment and severance agreement also provides a cash termination payment should there be a termination of the officer's employment after a change of control or in anticipation of a change in control. Generally, total termination payments provided are not to exceed the present value of 2.99 times the executive's average annual salary and annual bonuses for the five years immediately preceding a change of control. Certain named executive officers may receive termination payments, plus a tax gross up payment exceeding 2.99 times average annual salary, portions of which may not be tax deductible by WPS Resources. The termination payments replace all other severance payments to which the executive may be entitled under current severance agreements. In addition, Wisconsin Public Service has provided Joseph P. O'Leary an additional severance plan providing for payment of one times annual salary if his employment is terminated within three years of employment for any reason other than cause or voluntary change of employment. This agreement does not apply in the event of a change of control.

Option Grants to Named Executive Officers in Last Fiscal Year

Individual Grants					
Name	Number of securities underlying options/SARs granted	Percent of total options/SARs granted to employees in fiscal year	Exercise or base price (\$/Sh)	Expiration date	Grant date present value \$

Larry L. Weyers	97,015	28.92%	\$ 44.73	12/10/13	\$ 581,120
Phillip M. Mikulsky	32,032	9.55%	44.73	12/10/13	191,872

Joseph P. O'Leary	17,371	5.18%	44.73	12/10/13	104,052
Charles A. Schrock	14,404	4.29%	44.73	12/10/13	86,280

As of December 31, 2003, WPS Resources had not granted any SARs to any employee.

All options for WPS Resources common stock reported above will vest at a rate of 25 percent per year beginning on December 10, 2004 and ending on December 10, 2007. The year-end closing price of WPS Resources stock was \$46.23. There were no stock appreciation rights granted to any employee in 2003.

The grant date present value in column (f) above is based on option values of \$5.99 per option granted on December 10, 2003. This value was calculated using the standard binomial model. For purposes of determining the value of these options, the following assumptions were made:

<u>Option Value</u>	\$ 5.99
Annual dividend yield	5.68%
Volatility	18.25%
Risk free rate of return	4.65%
Time of exercise	10 years

The annual dividend yield assumption was based on actual dividends and stock prices of WPS Resources common stock over the prior 36-month period to determine an annualized 12-month yield. The risk free rate of return equals the interest rate on 10-year treasuries on the grant date. Due to the lack of experience with the plan, the time of exercise was assumed to be the maximum exercise period of the options. Expected volatility is based on the monthly price of WPS Resources common stock over the three years prior to the grant date.

Performance Share (Long-Term Incentive Plan) Awards to Named Executive Officers

Mark A. Radtke	2,451	3 Years			
Joseph P. O'Leary	2,342	3 Years			
Charles A. Schrock	1,942	3 Years			

Performance shares are a part of the WPS Resources 2001 Omnibus Incentive Compensation Plan. The program sets performance goals, based on total shareholder return, at the start of each three-year period. Comparison of WPS Resources' total shareholder return with the shareholder return of a peer group of major publicly traded energy service companies, for the three-year period, determines if the performance share awards

are ultimately issued, and if so, how many. The number of shares initially awarded individuals within the plan is based on market levels of incentive compensation and competitiveness of the total compensation package. Award levels are targeted to meet the median of the range of similar awards paid by comparable companies.

Compensation for pension purposes differs from the amounts in the annual compensation columns of the summary compensation table for the chief executive officer and all other named executive officers. Pension compensation for the named executive officers is:

Name	2003 Pension Compensation	Years of Service
Larry L. Weyers	\$ 869,567	18
Phillip M. Mikulsky	393,220	33
Mark A. Radtke	336,470	21
Joseph P. O'Leary	325,918	2
Charles A. Schrock	299,233	25

Annual benefits payable from the pension plan were subject to a maximum limitation of \$160,000 for 2003 under the Internal Revenue Code. The amount of compensation considered for purposes of the pension plan was limited to \$200,000 for 2003 under the Internal Revenue Code. The pension restoration plan provides additional pension benefits for pension restoration plan participants to compensate for any loss of benefit payable under the pension plan caused by the maximum benefit limitation, compensation limitation, or any salary deferral under the WPS Resources Corporation Deferred Compensation Plan. Retirement benefits presented in the pension plan tables include the pension restoration benefit.

The WPS Resources Corporation Supplemental Retirement Plan provides supplemental monthly payments to its participants. Certain executive officers, including the chief executive officer and each of the other named executive officers, participate in the supplemental retirement plan. Retirement benefits presented in the pension plan tables do not include benefits under the supplemental retirement plan.

Benefits under the supplemental retirement plan are payable if the participant retires or terminates employment after reaching age 55 and completing at least 10 years of credited service or 5 years in the event of termination following a change in control. An eligible participant with 15 or more years of credited service will receive a monthly benefit equal to 60 percent of the participant's "Final Average Earnings," reduced by the monthly pension plan benefit and restoration plan benefit to which the participant is entitled or would be entitled had the participant elected an annuity form of

payment. "Final Average Earnings" mean one thirty-sixth of the base salary and annual bonus paid to the participant during the month in which the participant's employment is terminated and the immediately preceding 35 months, or during the 3 calendar years immediately preceding the

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

calendar year in which the participant's employment is terminated. If the participant has fewer than 15 years of credited service, the 60 percent target benefit percentage is reduced by 4 percent for each year by which the participant's years of credited service is less than 15 years.

Estimated annual benefits to be received by each of the named executive officers under the supplemental retirement plan based on current employment status are as follows:

Named Executive Officers	Estimated Annual Benefits
Larry L. Weyers	\$ 336,249
Phillip M. Mikulsky	116,430

AUDIT COMMITTEE REPORT¹

March 8, 2004

The audit committee reviewed and discussed with management the audited financial statements of WPS Resources including disclosures under "Management Discussion and Analysis of Financial Condition and Results of Operation" as of and for the year ended December 31, 2003. In addition, we have discussed with Deloitte & Touche LLP, the independent accountants for WPS Resources, the matters required by Statements on Auditing Standards (SAS) No. 61, "Communications with Audit Committees," as amended by SAS No. 89, "Audit Adjustments," and SAS No. 90, "Audit Committee Communications" and Rule 2-07, "Communication with Audit Committees" of Regulation S-X.

The audit committee also received the written disclosures and the letter from Deloitte & Touche LLP required by Independence Standards Board Standard No. 1 and discussed the firm's independence with respect to WPS Resources. We have also discussed with management of WPS Resources and Deloitte & Touche such other matters and received such assurances from them as we deemed appropriate.

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

Based on the foregoing review and discussions and relying thereon, we have recommended to the WPS Resources' board of directors the inclusion of the audited financial statements in the WPS Resources' annual report for the year ended December 31, 2003, on Form 10-K.

COMPENSATION COMMITTEE REPORT¹

The compensation committee of the board of directors establishes and administers the executive compensation programs of WPS Resources and its subsidiaries. The committee consists of three independent members of the board of directors.

The integrated executive compensation programs are designed to:

Establish a connection between executive compensation and increasing shareholder value, customer satisfaction and employer responsibility;

Attract, retain, motivate and develop a highly competent executive staff; and

Achieve a balance between base pay and short-term bonus and long-term incentives.

The committee continues to emphasize the importance of linking executive and shareholder interests by defining stock ownership guidelines to further establish that link.

The current target level for ownership of WPS Resources common stock by the chief executive officer is three times annual salary. The target level for all presidents and senior vice presidents is two times base salary. The target level for vice presidents is one times base salary and for assistant vice presidents and other officers the target is one-half of base salary. All employees subject to the guidelines are expected to achieve the ownership target by the later of January 1, 2006, or within five years from the date on which the employee became subject to the guidelines. Common stock beneficially held in an executive's employee stock ownership plan account, any other beneficially owned common stock, including that earned through incentive plan awards, and common stock equivalents earned through non-qualified deferred compensation programs are included in determining compliance with the guidelines. Shares that executives have the right to acquire through the exercise of stock options or performance shares for which incentive targets have not yet been met are not included in the calculation of stock ownership for guideline purposes until the options are exercised or attainment of the incentive targets are certified by the board.

The executive compensation program consists of:

Annual base salary;

Annual at risk short-term incentive compensation; and

Long-term incentive plan stock options and performance share awards.

Short-term and long-term incentive pay target award levels are based on a competitive analysis of the compensation paid by similarly sized energy services companies and general industry companies that take into consideration the level of long-term incentives in the market, as well as the competitiveness of the total compensation package. Award ranges, as well as individual award levels, are established based on responsibility level and market competitiveness. Generally, award levels were targeted at the median of the range of such awards paid by comparable companies.

The compensation committee reserves the right to recommend revised compensation levels after considering qualitative and quantitative facts and circumstances surrounding actual or projected financial results and the appropriate balance between base salary, annual incentive programs and long-term incentive programs.

Base Salary

Base salary for the Chief Executive Officer, other named executive officers and other officers is determined through a market-based analysis of compensation of similar executive positions throughout the energy industry. The committee targets the 50th percentile of data from comparable

27

energy services companies. In general, any executive's position relative to the market target is a function of that executive's background and experience. Market targets are reviewed annually.

Short-Term Incentive Compensation

For the utility operations, short-term incentive compensation is targeted to the median of equally blended energy services and general industry data of similarly sized companies. For the non-utility businesses, short-term incentive compensation targets were determined analyzing median competitive industry specific compensation data. In 2003, annual incentive compensation bonuses were provided through the 2001 Omnibus Incentive Compensation Plan. The committee bases each participant's bonus on attaining some or all of the defined performance goals at various levels, as established each year. The performance goals relate to:

Operation Goals:

Customer satisfaction - compared to competitors,

System reliability - number and length of energy outages,

Safety - the number and severity of accidents,

Rate levels - a comparison of rates relative to competitors and

Employee diversity.

Financial Goals:

Net income.

The board believes it is important to establish performance targets and incentives that align executive compensation with long-term performance, promote value driven decision-making by executives and provide total compensation levels that are competitive in the market.

Long-Term Incentive Compensation

In 2003, 50 percent of each executive's long-term incentive compensation was provided through stock options and 50 percent was provided through performance share awards. Performance share awards are based on total shareholder return of WPS Resources common stock compared to the return on the common stock of other energy services companies. All long-term incentive compensation is provided pursuant to the 2001 Omnibus Incentive Compensation Plan that was approved by shareholders at the 2001 annual shareholders meeting.

All employee option grants have per share exercise prices equal to the fair market value of a share of WPS Resources common stock on the date the options were granted. One quarter of the options granted vest each year on the grant anniversary date and have a ten-year term from the date of the grant.

Subject to meeting targeted goals, performance shares awarded under the 2001 Omnibus Incentive Compensation Plan are based on total shareholder return over a three-year period. At the end of the three-year period, a comparison of WPS Resources' total shareholder return to the shareholder return on common stock of a peer group of major publicly traded energy companies, for the three-year period, determines if performance share awards are issued, and if so, how many. The number of shares awarded individuals within the plan is based on market levels of incentive compensation and competitiveness of the total compensation package. Award levels are targeted to meet the median of the range of similar awards paid by comparable companies to executives at comparable responsibility levels.

28

Because each year's performance share targets are long-range targets measuring performance over a three-year period, key employees may have three performance share targets running at one time. For example, an employee may have incentive targets set in 2002 for the three-year period ending 2004, targets set in 2003 for the three-year period ending in 2005, and targets set in 2004 for the three-year period ending 2006.

Chief Executive Officer Compensation and Evaluation

The determination of the Chief Executive Officer's base salary, short-term incentive payments and long-term incentive payments followed all of the policies and calculations set forth above. Mr. Weyers' annual base salary was \$546,850 for 2003. The base compensation value for Mr. Weyers was established after reviewing the median of market base salaries of \$565,000, as reported in the 2002 Towers Perrin Energy Services Industry Executive Compensation Data Base of energy services companies with revenues generally comparable to those of WPS Resources. Annual and long-term incentives are targeted to the median of equally blended energy services data and general industry data of similar size companies as provided by Towers Perrin. Many of the utilities in these surveys are members of the EEI 100 Index group, which is reflected on the comparative five-year investment performance graph set forth in this proxy statement. The composition of the two groups, however, is not identical. Based on these two surveys, 2002 reported median total short-term incentive and long-term incentive compensation was \$1,712,000. This compares to the total short-term incentive and long-term incentive compensation received by Mr. Weyers related to 2003 of \$1,374,296. The long-term component for 2003 includes the current values of stock options using the binomial valuation model and the value of performance share awards using targeted goals and the grant date closing price of WPS Resources common stock.

Mr. Weyers short-term incentive compensation for 2003 under the 2001 Omnibus Incentive Compensation Plan was based on corporate and strategic goal achievement measured against predetermined standards. Each plan year, the Committee determines the performance levels and targets for Mr. Weyers. In 2003, that apportionment was 25 percent for corporate operational goals and 75 percent for WPS Resources financial goals. Operational performance is measured based on company-wide targets established at the beginning of the year for:

customer satisfaction,

system reliability,

safety,

Wisconsin Public Service rates versus peer company rates and

employee diversity.

Edgar Filing: WPS RESOURCES CORP - Form DEF 14A

Financial performance is measured based on the achievement of goals related to net income. As a result of the company performance in comparison to the above targets in 2003, the short-term incentive compensation award for Mr. Weyers was 71.3 percent of annual salary or \$389,966.

Mr. Weyers was granted options to purchase 99,027 shares and was awarded 12,965 contingent performance shares on December 12, 2002, as part of his 2003 long-term incentive compensation. The value of the options as of the date of grant was \$492,165. The value of the performance shares as of the date of grant was \$492,165.

29

Policy on Deductibility of Compensation

Section 162(m) of the Internal Revenue Code limits the tax deduction for compensation paid to the Chief Executive Officer or other named executive officers to \$1,000,000 unless certain requirements are met. Those requirements are:

the committee consists entirely of outside directors,

compensation in excess of \$1,000,000 must be based upon the attainment of performance goals approved by shareholders and

the committee must certify the attainment of the applicable performance goals.

The committee intends to meet all these requirements for compensation that may be paid in excess of \$1,000,000; however, it may in appropriate cases make payments even if the compensation is nondeductible under Section 162(m). The committee does consist entirely of outside directors, the shareholders did approve the 2001 Omnibus Incentive Compensation Plan at the 2001 annual meeting, and the committee will certify the attainment of the applicable performance goals to allow WPS Resources to comply with Internal Revenue Code requirements to deduct compensation in excess of \$1,000,000.
