

AMERICAN TOWER CORP /MA/
Form 10-Q
July 31, 2018

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One):

☒ Quarterly report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. For the quarterly period ended June 30, 2018.

☐ Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Commission File Number: 001-14195

AMERICAN TOWER CORPORATION
(Exact name of registrant as specified in its charter)

Delaware 65-0723837
(State or other jurisdiction of (I.R.S. Employer
Incorporation or Organization) Identification No.)

116 Huntington Avenue
Boston, Massachusetts 02116
(Address of principal executive offices)

Telephone Number (617) 375-7500
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days: Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check One):
Large accelerated filer ☐ Accelerated filer ☒

Non-accelerated filer ☐ Smaller reporting company ☐

Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act): Yes ☐ No ☒

As of July 24, 2018, there were 440,835,058 shares of common stock outstanding.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

1. DESCRIPTION OF BUSINESS, BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

American Tower Corporation (together with its subsidiaries, “ATC” or the “Company”) is one of the largest global real estate investment trusts and a leading independent owner, operator and developer of multitenant communications real estate. The Company’s primary business is the leasing of space on communications sites to wireless service providers, radio and television broadcast companies, wireless data providers, government agencies and municipalities and tenants in a number of other industries. The Company refers to this business as its property operations. Additionally, the Company offers tower-related services in the United States, which it refers to as its services operations. These services include site acquisition, zoning and permitting (“AZP”) and structural analysis, which primarily support the Company’s site leasing business, including the addition of new tenants and equipment on its sites.

The Company’s portfolio primarily consists of towers that it owns and towers that it operates pursuant to long-term lease arrangements, as well as distributed antenna system (“DAS”) networks, which provide seamless coverage solutions in certain in-building and outdoor wireless environments. In addition to the communications sites in its portfolio, the Company manages rooftop and tower sites for property owners under various contractual arrangements. The Company also holds other telecommunications infrastructure, fiber and property interests that it leases primarily to communications service providers and third-party tower operators.

American Tower Corporation is a holding company that conducts its operations through its directly and indirectly owned subsidiaries and joint ventures. ATC’s principal domestic operating subsidiaries are American Towers LLC and SpectraSite Communications, LLC. ATC conducts its international operations primarily through its subsidiary, American Tower International, Inc., which in turn conducts operations through its various international holding and operating subsidiaries and joint ventures.

The Company operates as a real estate investment trust for U.S. federal income tax purposes (“REIT”). Accordingly, the Company generally is not required to pay U.S. federal income taxes on income generated by its REIT operations, including the income derived from leasing space on its towers, as it receives a dividends paid deduction for distributions to stockholders that generally offsets its REIT income and gains. However, the Company remains obligated to pay U.S. federal income taxes on earnings from its domestic taxable REIT subsidiaries (“TRSs”). In addition, the Company’s international assets and operations, regardless of their classification for U.S. tax purposes, continue to be subject to taxation in the jurisdictions where those assets are held or those operations are conducted.

The use of TRSs enables the Company to continue to engage in certain businesses while complying with REIT qualification requirements. The Company may, from time to time, change the election of previously designated TRSs to be included as part of the REIT. As of June 30, 2018, the Company’s REIT-qualified businesses included its U.S. tower leasing business, its operations in Nigeria, most of its operations in Costa Rica and Mexico, a majority of its operations in Germany and a majority of its indoor DAS networks business and services segment.

The accompanying consolidated and condensed consolidated financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission. The financial information included herein is unaudited. However, the Company believes that all adjustments, which are of a normal and recurring nature, considered necessary for a fair presentation of its financial position and results of operations for such periods have been included herein. The consolidated and condensed consolidated financial statements and related notes should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2017 (the “2017 Form 10-K”). The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the entire year.

Principles of Consolidation and Basis of Presentation—The accompanying consolidated and condensed consolidated financial statements include the accounts of the Company and those entities in which it has a controlling interest. Investments in entities that the Company does not control are accounted for using the equity or cost method, depending upon the Company's ability to exercise significant influence over operating and financial policies. All intercompany accounts and transactions have been eliminated. As of June 30, 2018, the Company holds (i) a 51% controlling interest, and MTN Group Limited holds a 49% noncontrolling interest, in each of two joint ventures, one in Ghana and one in

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Uganda, (ii) a 51% controlling interest, and PGGM holds a 49% noncontrolling interest, in a joint venture that primarily consists of operations in Germany and France, (iii) an approximate 81% controlling interest, and South African investors hold an approximate 19% noncontrolling interest, in a subsidiary of the Company in South Africa and (iv) a 63% controlling interest in ATC Telecom Infrastructure Private Limited (“ATC TIPL”), formerly Viom Networks Limited (“Viom”), in India.

During the three months ended June 30, 2018, the Company purchased approximately 6% of the interest in a subsidiary of the Company in South Africa from one of its local partners for \$20.5 million, which resulted in an increase in the Company’s controlling interest from approximately 75% to 81%. The purchase is reflected in the consolidated statements of equity as a reduction of Additional paid-in capital of \$16.5 million, a decrease in Accumulated other comprehensive loss of \$0.5 million and a reduction in Noncontrolling interest of \$4.5 million.

Significant Accounting Policies—The Company’s significant accounting policies are described in note 1 to the Company’s consolidated financial statements included in the 2017 Form 10-K. There have been no material changes to the Company’s significant accounting policies during the six months ended June 30, 2018, except the adoption of new revenue recognition guidance, as discussed below.

Changes to Prior-Period Amounts—The Company is now disclosing its results in millions rather than thousands and, as a result, certain rounding adjustments have been made to prior-period amounts.

Cash and Cash Equivalents and Restricted Cash—The reconciliation of cash and cash equivalents and restricted cash reported within the applicable balance sheet that sum to the total of the same such amount shown in the statement of cash flows is as follows:

	Six Months Ended June 30,	
	2018	2017
Cash and cash equivalents	\$834.5	\$770.0
Restricted cash	135.6	143.3
Total cash and cash equivalents and restricted cash	\$970.1	\$913.3

Revenue—The new revenue recognition accounting standard requires entities to recognize revenue when control of the promised goods or services is transferred to customers at an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. On January 1, 2018, the Company adopted the new revenue recognition standard using the modified retrospective method applied to contracts that were not completed as of January 1, 2018. Results for reporting periods beginning January 1, 2018 are presented under the new standard, while prior-period amounts are not adjusted and continue to be reported in accordance with accounting under the previously applicable guidance.

The Company recorded a net reduction to opening Distributions in excess of earnings in its consolidated balance sheet of \$38.4 million as of January 1, 2018 due to the cumulative impact of adopting the new revenue recognition standard. The impact is primarily related to the Company’s site inspection revenue, which is now recognized at the point in time when the inspection service is completed. The impact to revenues for the three and six months ended June 30, 2018 as a result of applying the new standard was an increase of \$2.9 million and \$5.5 million, respectively.

The adoption of the new revenue recognition accounting standard did not have a material impact on the Company’s revenue recognition patterns. Most of the Company’s revenue is derived from leasing arrangements and is accounted

for as lease revenue. A small portion of the Company's revenue is either derived from non-lease performance obligations within the lease arrangements or from other agreements with its tenants. This revenue, designated non-lease revenue, is recognized when control of the promised goods or services is transferred to the tenants in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods or services.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Since most of the Company's contracts are leases, costs to enter into lease arrangements are capitalized under the applicable lease accounting guidance. Costs incurred to obtain non-lease contracts that are capitalized primarily relate to DAS and are not material to the consolidated financial statements. The Company has excluded sales tax, value-added tax and similar taxes from non-lease revenue.

Non-lease revenue is disaggregated by geography in a manner consistent with the Company's business segments, which are discussed further in note 14 to the consolidated and condensed consolidated financial statements included in this Quarterly Report on Form 10-Q. A summary of non-lease revenue disaggregated by source and geography is as follows:

Three Months Ended June 30, 2018	U.S.	Asia	EMEA	Latin America	Total
Power and fuel pass-through revenue	\$—	\$113.4	\$32.9	\$4.5	\$150.8
Other non-lease revenue	69.0	1.5	0.1	24.6	95.2
Total non-lease property revenue	\$69.0	\$114.9	\$33.0	\$29.1	\$246.0
Services revenue	31.5	—	—	—	31.5
Total non-lease revenue	\$100.5	\$114.9	\$33.0	\$29.1	\$277.5
Property lease revenue	888.0	193.0	133.7	288.7	1,503.4
Total revenue	\$988.5	\$307.9	\$166.7	\$317.8	\$1,780.9

Six Months Ended June 30, 2018	U.S.	Asia	EMEA	Latin America	Total
Power and fuel pass-through revenue	\$—	\$205.7	\$67.8	\$9.0	\$282.5
Other non-lease revenue	136.7	3.4	0.7	48.3	189.1
Total non-lease property revenue	\$136.7	\$209.1	\$68.5	\$57.3	\$471.6
Services revenue	62.9	—	—	—	62.9
Total non-lease revenue	\$199.6	\$209.1	\$68.5	\$57.3	\$534.5
Property lease revenue	1,751.7	371.8	272.4	592.3	2,988.2
Total revenue	\$1,951.3	\$580.9	\$340.9	\$649.6	\$3,522.7

Power and fuel pass-through revenue—Most of the Company's leasing arrangements outside of the U.S. require that the Company provide power to the communications site through an electrical grid connection, diesel fuel generators or other sources and permit the Company to pass through the costs of, or otherwise charge for, these services. The Company recognizes revenue received in connection with such services as power and fuel pass-through revenue. Many arrangements require that the communications site has power for a specified percentage of time. In most such cases, if delivery of power falls below the specified service level, a corresponding reduction in revenue is recorded. The Company has determined that this performance obligation is satisfied over time for the duration of the arrangement.

Other significant judgments related to this revenue stream are the (i) determination that the Company is a principal in these transactions and revenue is therefore recorded on a gross basis and (ii) service level related adjustments to revenue.

Other non-lease revenue—Other non-lease revenue consists primarily of revenue generated from DAS, fiber and other property related revenue. DAS and fiber arrangements require that the Company provide the tenant the right to use the applicable communications infrastructure. Performance obligations are satisfied over time for the duration of the arrangements. Other property related revenue streams, which include site inspections, are not material on either an individual or consolidated basis.

Services revenue—The Company offers tower-related services in the United States. These services include AZP and structural analysis services. There is a single performance obligation related to AZP, and revenue is recognized over time based on milestones achieved, which are determined based on costs incurred. Structural analysis services may have more

AMERICAN TOWER CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(tabular amounts in millions, unless otherwise noted)

than one performance obligation, contingent upon the number of contracted services. Revenue is recognized at the point in time the services are completed.

Some of the Company's contracts with tenants contain multiple performance obligations. For these arrangements, the Company allocates revenue to each performance obligation based on its relative standalone selling price, which is typically based on the price charged to tenants.

Information about receivables, contract assets and contract liabilities from contracts with tenants is as follows:

	January 1, 2018	June 30, 2018
Accounts receivable	\$ 222.2	\$ 240.8
Prepays and other current assets	79.7	131.2
Notes receivable and other non-current assets	24.2	22.7
Unearned revenue	26.6	32.2
Other non-current liabilities	68.5	56.3

The Company records unearned revenue when payments are received from tenants in advance of the completion of the Company's performance obligations. Long-term unearned revenue is included in Other non-current liabilities. The increase in the Unearned revenue for the three and six months ended June 30, 2018 is due to payments received, offset by \$19.6 million and \$37.5 million of revenue recognized in the three months and six months ended June 30, 2018, respectively, that was included in the Unearned revenue balance as of January 1, 2018. There was \$0.1 million and \$0.2 million of revenue recognized from Other non-current liabilities during the three and six months ended June 30, 2018, respectively.

The Company records unbilled receivables, which are included in Prepays and other current assets, when it has completed a performance obligation prior to its ability to bill under the customer arrangement. Other contract assets are included in Notes receivable and other non-current assets. The decrease in unbilled receivables attributable to revenue recognized during the three and six months ended June 30, 2018 was \$0.3 million and \$0.4 million, respectively. The decrease in contract assets attributable to revenue recognized during the three and six months ended June 30, 2018 was \$0.0 million and \$0.1 million, respectively.

The Company does not disclose the value of unsatisfied performance obligations for agreements (i) with an original expected length of one year or less or (ii) for which it recognizes revenue at the amount to which it has the right to invoice for services performed.

Accounting Standards Updates—In January 2016, the Financial Accounting Standards Board (the "FASB") issued guidance on the recognition and measurement of financial assets and financial liabilities. The guidance amends certain aspects of recognition, measurement, presentation and disclosure of financial instruments. This standard is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2017. The adoption of this guidance did not have a material impact on the Company's financial statements.

In February 2016, the FASB issued guidance on the accounting for leases. The guidance amends the existing accounting standards for lease accounting, including the requirement that lessees recognize right of use assets and lease liabilities for leases with terms greater than twelve months in the statement of financial position. Under the new

guidance, lessor accounting is largely unchanged.

In January 2018, the FASB issued guidance on the treatment of land easements. The guidance provides a practical expedient to not evaluate existing or expired land easements under the new lease accounting standards if those easements were not previously accounted for as leases under the existing lease guidance. The Company does not expect the adoption of this guidance to have a material impact on its financial statements or its adoption of the lease accounting guidance.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

In July 2018, the FASB issued additional guidance on the accounting for leases. The guidance provides companies with another transition method by allowing entities to recognize a cumulative-effect adjustment to the opening balance of retained earnings as of the date of adoption. Under this method, previously presented years' financial positions and results would not be adjusted. The new guidance also provides lessors with a practical expedient, by class of underlying asset, to not separate non-lease components from the associated lease component if the non-lease components would otherwise be accounted for under the new revenue recognition standard and both the timing and pattern of transfer are the same for the non-lease components and associated lease component and, if accounted for separately, the lease component would be classified as an operating lease.

The lease accounting guidance is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018. The Company (i) has established a multidisciplinary team to assess and implement the guidance, (ii) expects the guidance to have a material impact on its consolidated balance sheets due to the recording of right of use assets and lease liabilities for leases in which it is a lessee and which it currently treats as operating leases and (iii) continues to evaluate the impact of the new guidance.

In January 2017, the FASB issued guidance on accounting for goodwill impairments. The guidance eliminates Step 2 from the goodwill impairment test and requires, among other things, recognition of an impairment loss when the carrying value of a reporting unit exceeds its fair value. The loss recognized is limited to the total amount of goodwill allocated to that reporting unit. The guidance is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. The Company does not expect the adoption of this guidance to have a material impact on its financial statements.

In August 2017, the FASB issued guidance on hedge and derivative accounting. The guidance simplifies accounting rules around hedge accounting and the disclosures of hedging arrangements. Among other things, the guidance eliminates the need to separately measure and report hedge ineffectiveness and generally requires the entire change in fair value of a hedging instrument to be presented in the same income statement line as the hedged item. The guidance is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its financial statements.

In February 2018, the FASB issued guidance on the treatment of tax effects that are presented in other comprehensive income. The guidance allows a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects as a result of the December 2017 legislation commonly referred to as the Tax Cuts and Jobs Act. The guidance is effective for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2018, with early adoption permitted. The Company does not expect the adoption of this guidance to have a material impact on its financial statements.

2. PREPAID AND OTHER CURRENT ASSETS

Prepaid and other current assets consisted of the following:

	As of	
	June 30, 2018	December 31, 2017
Unbilled receivables	\$152.6	\$ 107.9
Prepaid operating ground leases	151.1	148.6
Prepaid income tax	103.6	136.5

Value added tax and other consumption tax receivables	65.2	64.2
Prepaid assets	56.3	39.6
Other miscellaneous current assets	40.5	71.8
Prepaid and other current assets	\$569.3	\$ 568.6

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

3. GOODWILL AND OTHER INTANGIBLE ASSETS

The changes in the carrying value of goodwill for each of the Company's business segments were as follows:

	Property					
	U.S.	Asia	EMEA	Latin America	Services	Total
Balance as of January 1, 2018	\$3,379.2	\$1,095.0	\$404.9	\$757.3	\$2.0	\$5,638.4
Additions and adjustments (1)	—	50.6	—	(5.8)	—	44.8
Effect of foreign currency translation	—	(74.3)	(15.8)	(66.5)	—	(156.6)
Balance as of June 30, 2018	\$3,379.2	\$1,071.3	\$389.1	\$685.0	\$2.0	\$5,526.6

(1) Balances have been revised to reflect purchase accounting measurement period adjustments.

The Company's other intangible assets subject to amortization consisted of the following:

		As of June 30, 2018			As of December 31, 2017		
	Estimated Useful Lives (years)	Gross Carrying Value	Accumulated Amortization	Net Book Value	Gross Carrying Value	Accumulated Amortization	Net Book Value
Acquired network location intangibles (1)	Up to 20	\$4,874.1	\$(1,614.5)	\$3,259.6	\$4,858.8	\$(1,525.3)	\$3,333.5
Acquired tenant-related intangibles	15-20	11,417.6	(2,963.4)	8,454.2	11,150.9	(2,754.7)	8,396.2
Acquired licenses and other intangibles	3-20	54.7	(13.3)	41.4	58.8	(8.1)	50.7
Economic Rights, TV Azteca	70	14.5	(11.5)	3.0	14.5	(11.6)	2.9
Total other intangible assets		\$16,360.9	\$(4,602.7)	\$11,758.2	\$16,083.0	\$(4,299.7)	\$11,783.3

Acquired network location intangibles are amortized over the shorter of the term of the corresponding ground (1) lease, taking into consideration lease renewal options and residual value, or up to 20 years, as the Company considers these intangibles to be directly related to the tower assets.

The acquired network location intangibles represent the value to the Company of the incremental revenue growth that could potentially be obtained from leasing the excess capacity on acquired communications sites. The acquired tenant-related intangibles typically represent the value to the Company of tenant contracts and relationships in place at the time of an acquisition or similar transaction, including assumptions regarding estimated renewals.

The Company amortizes its acquired network location intangibles and tenant-related intangibles on a straight-line basis over their estimated useful lives. As of June 30, 2018, the remaining weighted average amortization period of the Company's intangible assets, excluding the TV Azteca Economic Rights detailed in note 5 to the Company's consolidated financial statements included in the 2017 Form 10-K, was 15 years. Amortization of intangible assets for the three and six months ended June 30, 2018 was \$205.2 million and \$407.6 million, respectively, and amortization of intangible assets for the three and six months ended June 30, 2017 was \$192.2 million and \$375.4 million, respectively. Based on current exchange rates, the Company expects to record amortization expense as follows over the remaining current year and the five subsequent years:

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

- Denominated in Indian Rupees (“INR”). Includes India working capital facility, remaining debt assumed by the
- (6) Company in connection with the Viom Acquisition (as defined in note 9) and debt that has been entered into by ATC TIPL.
- (7) Mandatorily redeemable preference shares (the “Preference Shares”) classified as debt. The Preference Shares have a dividend rate of 10.25% per annum. Denominated in INR.
- (8) Reflects balances owed to the Company’s joint venture partners in Ghana and Uganda. The Ghana loan is denominated in Ghanaian Cedi and the Uganda loan is denominated in Ugandan Shillings.
- Includes the publicly issued simple debentures issued by BR Towers S.A. and the Brazil credit facility, which are denominated in Brazilian Reais and amortize through October 15, 2023 and January 15, 2022, respectively, the
- (9) South African credit facility, which is denominated in South African Rand and amortizes through December 17, 2020 and the Colombian credit facility, which is denominated in Colombian Pesos and amortizes through April 24, 2021.

Current portion of long-term obligations—The Company’s current portion of long-term obligations primarily includes (i) 14.6 billion INR (\$212.8 million) of India indebtedness, (ii) \$1.5 billion under its unsecured term loan entered into on March 29, 2018 (the “2018 Term Loan”) and (iii) \$999.9 million under the 3.40% senior unsecured notes due 2019.

Securitized Debt—Cash flows generated by the sites that secure the securitized debt of the Company are only available for payment of such debt and are not available to pay the Company’s other obligations or the claims of its creditors. However, subject to certain restrictions, the Company holds the right to receive the excess cash flows not needed to pay the securitized debt and other obligations arising out of the securitizations. The securitized debt is the obligation of the issuers thereof or borrowers thereunder, as applicable, and their subsidiaries, and not of the Company or its other subsidiaries.

Senior Notes

1.950% Senior Notes Offering—On May 22, 2018, the Company completed a registered public offering of 500.0 million Euros (\$589.0 million at the date of issuance) aggregate principal amount of 1.950% senior unsecured notes due 2026 (the “1.950% Notes”). The net proceeds from this offering were approximately 493.2 million Euros (approximately \$581.0 million at the date of issuance), after deducting commissions and estimated expenses. The Company used the net proceeds to repay existing indebtedness under its multicurrency senior unsecured revolving credit facility entered into in June 2013, as amended (the “2013 Credit Facility”).

The 1.950% Notes will mature on May 22, 2026 and bear interest at a rate of 1.950% per annum. Accrued and unpaid interest on the 1.950% Notes will be payable in Euros in arrears on May 22 of each year, beginning on May 22, 2019. Interest on the 1.950% Notes will be computed on the basis of the actual number of days in the period for which interest is being calculated and the actual number of days from and including the last date on which interest was paid on the 1.950% Notes and commenced accruing on May 22, 2018.

The Company may redeem the 1.950% Notes at any time, in whole or in part, at a redemption price equal to 100% of the principal amount of the notes plus a make-whole premium, together with accrued interest to the redemption date. If the Company redeems the 1.950% Notes on or after February 22, 2026, it will not be required to pay a make-whole premium. In addition, if the Company undergoes a change of control and corresponding ratings decline, each as defined in the supplemental indenture, it may be required to repurchase all of the notes at a purchase price equal to 101% of the principal amount of such notes, plus accrued and unpaid interest (including additional interest, if any), up to but not including the repurchase date. The notes rank equally with all of the Company’s other senior unsecured debt and are structurally subordinated to all existing and future indebtedness and other obligations of its subsidiaries.

The supplemental indenture contains certain covenants that restrict the Company's ability to merge, consolidate or sell assets and its (together with its subsidiaries') ability to incur liens. These covenants are subject to a number of exceptions, including that the Company and its subsidiaries may incur certain liens on assets, mortgages or other liens securing indebtedness if the aggregate amount of such liens does not exceed 3.5x Adjusted EBITDA, as defined in the supplemental indenture.

Securitizations

Secured Tower Revenue Securities, Series 2018-1, Subclass A and Series 2018-1, Subclass R—On March 29, 2018, the Company completed a securitization transaction (the "2018 Securitization"), in which the American Tower Trust I (the "Trust") issued \$500.0 million aggregate principal amount of Secured Tower Revenue Securities, Series 2018-1,

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Subclass A (the “Series 2018-1A Securities”). To satisfy the applicable risk retention requirements of Regulation RR promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act” and, such requirements, the “Risk Retention Rules”), the Trust issued, and one of the Company’s affiliates purchased, \$26.4 million aggregate principal amount of Secured Tower Revenue Securities, Series 2018-1, Subclass R (the “Series 2018-1R Securities” and, together with the Series 2018-1A Securities, the “2018 Securities”) to retain an “eligible horizontal residual interest” (as defined in the Risk Retention Rules) in an amount equal to at least 5% of the fair value of the 2018 Securities.

The assets of the Trust consist of a nonrecourse loan (the “Loan”) made by the Trust to American Tower Asset Sub, LLC and American Tower Asset Sub II, LLC (together, the “AMT Asset Subs”). The AMT Asset Subs are jointly and severally liable under the Loan, which is secured primarily by mortgages on the AMT Asset Subs’ interests in 5,116 broadcast and wireless communications towers and related assets (the “Trust Sites”).

The 2018 Securities correspond to components of the Loan made to the AMT Asset Subs pursuant to the Second Amended and Restated Loan and Security Agreement among the Trust and the AMT Asset Subs, dated as of March 29, 2018 (the “Loan Agreement”) and were issued in two separate subclasses of the same series. The 2018 Securities represent a pass-through interest in the components of the Loan corresponding to the 2018 Securities. The Series 2018-1A Securities have an interest rate of 3.652% and the Series 2018-1R Securities have an interest rate of 4.459%. The 2018 Securities have an expected life of approximately ten years with a final repayment date in March 2048.

The debt service on the Loan will be paid solely from the cash flows generated from the operation of the Trust Sites held by the AMT Asset Subs. The AMT Asset Subs are required to make monthly payments of interest on the Loan. Subject to certain limited exceptions described below, no payments of principal will be required to be made on the components of the Loan corresponding to the 2018 Securities prior to the monthly payment date in March 2028, which is the anticipated repayment date for such components.

The AMT Asset Subs may prepay the Loan at any time provided it is accompanied by applicable prepayment consideration. If the prepayment occurs within thirty-six months of the anticipated repayment date for the 2018 Securities, no prepayment consideration is due. The entire unpaid principal balance of the components of the Loan corresponding to the 2018 Securities will be due in March 2048.

Under the Loan Agreement, the AMT Asset Subs are required to maintain reserve accounts, including for ground rents, real estate and personal property taxes and insurance premiums, and, in certain circumstances, to reserve a portion of advance rents from tenants on the Trust Sites. Based on the terms of the Loan Agreement, all rental cash receipts received each month are reserved for the succeeding month and held in an account controlled by the trustee and then released. The \$75.7 million held in the reserve accounts as of June 30, 2018 is classified as restricted cash on the Company’s accompanying consolidated balance sheet.

The Secured Tower Revenue Securities, Series 2013-2A (the “Series 2013-2A Securities”) issued in a securitization transaction in March 2013 (the “2013 Securitization” and, together with the 2018 Securitization, the “Trust Securitizations”) remain outstanding and are subject to the terms of the Second Amended and Restated Trust and Servicing Agreement entered into in connection with the 2018 Securitization. The component of the Loan corresponding to the Series 2013-2A Securities also remains outstanding and is subject to the terms of the Loan Agreement. The Loan Agreement includes terms and conditions, including with respect to secured assets, substantially consistent with the First Amended and Restated Loan and Security Agreement dated as of March 15, 2013, and as further described in note 8 to the Company’s consolidated financial statements included in the 2017 Form 10-K.

Bank Facilities

2013 Credit Facility—During the six months ended June 30, 2018, the Company borrowed an aggregate of \$1.5 billion and repaid an aggregate of \$2.0 billion of revolving indebtedness under the 2013 Credit Facility. The Company used

the borrowings to fund acquisitions, repay existing indebtedness and for general corporate purposes.

2014 Credit Facility—During the six months ended June 30, 2018, the Company borrowed an aggregate of \$1.1 billion and repaid an aggregate of \$1.5 billion of revolving indebtedness under its senior unsecured revolving credit facility entered into in January 2012 and amended and restated in September 2014, as further amended (the “2014 Credit Facility”). The Company used the borrowings to repay existing indebtedness, including the Secured Tower Revenue Securities, Series 2013-1A, and for general corporate purposes.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

2018 Term Loan—During the six months ended June 30, 2018, the Company entered into the 2018 Term Loan, the net proceeds of which were used to repay \$1.1 billion of outstanding indebtedness under the 2013 Credit Facility and \$445.0 million of outstanding indebtedness under the 2014 Credit Facility.

The 2018 Term Loan matures on March 29, 2019. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity. The 2018 Term Loan may be paid prior to maturity in whole or in part at the Company's option without penalty or premium.

The loan agreement for the 2018 Term Loan contains certain reporting, information, financial and operating covenants and other restrictions (including limitations on additional debt, guaranties, sales of assets and liens) with which the Company must comply. Any failure to comply with the financial and operating covenants of the loan agreement may constitute a default, which could result in, among other things, the amounts outstanding, including all accrued interest and unpaid fees, becoming immediately due and payable.

As of June 30, 2018, the key terms under the 2013 Credit Facility, the 2014 Credit Facility, the Company's unsecured term loan entered into in October 2013, as amended (the "2013 Term Loan") and the 2018 Term Loan were as follows:

	Outstanding Principal Balance	Undrawn letters of credit	Maturity Date	Current margin over LIBOR (1)	Current commitment fee (2)	
2013 Credit Facility	\$ 1,605.0	\$ 3.5	June 28, 2021	(3) 1.125 %	0.125	%
2014 Credit Facility	\$ —	\$ 6.3	January 31, 2023	(3) 1.250 %	0.150	%
2013 Term Loan	\$ 1,000.0	N/A	January 31, 2023	1.250 %	N/A	
2018 Term Loan	\$ 1,500.0	N/A	March 29, 2019	0.875 %	N/A	

(1) LIBOR means the London Interbank Offered Rate.

(2) Fee on undrawn portion of the applicable credit facility.

(3) Subject to two optional renewal periods.

6. FAIR VALUE MEASUREMENTS

The Company determines the fair value of its financial instruments based on the fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Below are the three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Items Measured at Fair Value on a Recurring Basis—The fair values of the Company's financial assets and liabilities that are required to be measured on a recurring basis at fair value were as follows:

	June 30, 2018			December 31, 2017		
	Fair Value			Fair Value		
	Measurements Using			Measurements Using		
	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
Assets:						
Short-term investments (1)	\$—	\$80.8	—	\$1.0	—	—
Embedded derivative in lease agreement	—	—	\$12.0	—	—	\$12.4
Liabilities:						
Interest rate swap agreements	—	\$51.2	—	—	\$29.0	—
Acquisition-related contingent consideration	—	—	\$0.9	—	—	\$10.1
Fair value of debt related to interest rate swap agreements	\$(48.4)	—	—	\$(24.5)	—	—

(1) Consists of mutual funds with a portfolio duration of approximately 90 days and highly liquid investments with original maturities in excess of three months.

As of June 30, 2018, the Company had marketable securities with a cost basis of \$80.2 million and recognized unrealized gains of \$0.6 million on these securities. During the six months ended June 30, 2018, the Company made no changes to the methods described in note 11 to its consolidated financial statements included in the 2017 Form 10-K that it used to measure the fair value of its interest rate swap agreements, the embedded derivative in one of its lease agreements and acquisition-related contingent consideration. The changes in fair value during the six months ended June 30, 2018 and 2017 were not material to the consolidated financial statements. As of June 30, 2018, the Company estimated the value of all potential acquisition-related contingent consideration payments to be between zero and \$0.9 million.

Items Measured at Fair Value on a Nonrecurring Basis

Assets Held and Used—The Company's long-lived assets are recorded at amortized cost and, if impaired, are adjusted to fair value using Level 3 inputs. There were no other items measured at fair value on a nonrecurring basis during the six months ended June 30, 2018 or 2017.

On February 28, 2018, one of the Company's tenants in Asia, Aircel Ltd. ("Aircel"), filed for bankruptcy protection with the National Company Law Tribunal of India. The bankruptcy process is ongoing and the ultimate outcome has yet to be determined. The Company performed an impairment test based on current expectations of the impact of the bankruptcy on projected cash flows for assets related to Aircel. These assets consisted primarily of towers, which typically are assessed on an individual basis, network location intangibles, which relate directly to towers, and tenant-related intangibles. As a result, an impairment of \$40.1 million was taken on the tower and network intangible assets. The Company also fully impaired the tenant-related intangible asset for Aircel, which resulted in an impairment of \$107.3 million during the six months ended June 30, 2018.

The Company recorded an additional \$28.9 million of impairments on tower and network intangible assets related to other carrier consolidation-driven churn in India during the three months ended June 30, 2018. All such impairments were recorded in Other operating expenses in the consolidated statements of operations.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

In October 2017, one of the Company's tenants in Asia, Tata Teleservices Limited ("Tata Teleservices"), informed the Department of Telecommunications in India of its intent to exit the wireless telecommunications business and announced plans to transfer its business to another telecommunications provider. The Company considered the recent developments regarding these events, including ongoing negotiations with Tata Teleservices, when updating its impairment test for the Tata Teleservices tenant relationship, which did not result in an impairment since the estimated probability-weighted undiscounted cash flows were in excess of the carrying value of this asset. However, the Company will continue to monitor the status of these developments, as it is possible that the estimated future cash flows may differ from current estimates. Changes in estimated cash flows from Tata Teleservices could impact previously recorded tangible and intangible assets, including amounts originally recorded as tenant-related intangibles, which have a current net book value of \$386.7 million as of June 30, 2018.

Fair Value of Financial Instruments—The Company's financial instruments for which the carrying value reasonably approximates fair value at June 30, 2018 and December 31, 2017 include cash and cash equivalents, restricted cash, accounts receivable and accounts payable. The Company's estimates of fair value of its long-term obligations, including the current portion, are based primarily upon reported market values. For long-term debt not actively traded, fair value is estimated using either indicative price quotes or a discounted cash flow analysis using rates for debt with similar terms and maturities. As of June 30, 2018 and December 31, 2017, the carrying value of long-term obligations, including the current portion, was \$21.1 billion and \$20.2 billion, respectively. As of June 30, 2018, the fair value of long-term obligations, including the current portion, was \$21.0 billion, of which \$13.4 billion was measured using Level 1 inputs and \$7.6 billion was measured using Level 2 inputs. As of December 31, 2017, the fair value of long-term obligations, including the current portion, was \$20.6 billion, of which \$13.3 billion was measured using Level 1 inputs and \$7.3 billion was measured using Level 2 inputs.

7. INCOME TAXES

The Company provides for income taxes at the end of each interim period based on the estimated effective tax rate ("ETR") for the full fiscal year. Cumulative adjustments to the Company's estimate are recorded in the interim period in which a change in the estimated annual ETR is determined. Under the provisions of the Internal Revenue Code of 1986, as amended, the Company may deduct amounts distributed to stockholders against the income generated by its REIT operations. The Company continues to be subject to income taxes on the income of its TRSs and income taxes in foreign jurisdictions where it conducts operations. In addition, the Company is able to offset certain income by utilizing its net operating losses, subject to specified limitations.

The Company provides valuation allowances if, based on the available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized. Management assesses the available evidence to estimate if sufficient future taxable income will be generated to use the existing deferred tax assets.

The change in the income tax (provision) benefit for the three months ended June 30, 2018 was primarily attributable to the tax effect of an increase in impairment charges in the Company's Asia property segment. The change in income tax (provision) benefit for the six months ended June 30, 2018 was primarily attributable to the tax effect of an increase in impairment charges and a one-time benefit for merger-related activity in the Company's Asia property segment. Both the three and six-month periods ended June 30, 2017 were favorably impacted by a clarification in income tax law in Ghana.

As of June 30, 2018 and December 31, 2017, the total unrecognized tax benefits that would impact the ETR, if recognized, were approximately \$96.3 million and \$105.8 million, respectively. The amount of unrecognized tax benefits during the three and six months ended June 30, 2018 includes additions to the Company's existing tax positions of \$1.5 million and \$3.6 million, respectively, reductions due to foreign currency fluctuations of \$7.5 million in each period and the expiration of the statute of limitations and settlements of \$0.0 million and \$4.3 million,

respectively. Unrecognized tax benefits are expected to change over the next 12 months if certain tax matters ultimately settle with the applicable taxing jurisdiction during this time frame, as described in note 12 to the Company's consolidated financial statements included in the 2017 Form 10-K. The impact of the amount of these changes to previously recorded uncertain tax positions could range from zero to \$8.1 million.

The Company recorded the following penalties and income tax-related interest expense during the three and six months ended June 30, 2018 and 2017:

18

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

	Three Months Ended June 30, 2018	2017	Six Months Ended June 30, 2018	2017
--	--	------	--	------

Penalties and income tax-related interest expense \$0.7 \$1.0 \$1.7 \$2.3

As of June 30, 2018 and December 31, 2017, the total amount of accrued income tax related interest and penalties included in the consolidated balance sheets was \$27.1 million and \$29.0 million, respectively.

8. STOCK-BASED COMPENSATION

Summary of Stock-Based Compensation Plans—The Company maintains equity incentive plans that provide for the grant of stock-based awards to its directors, officers and employees. The 2007 Equity Incentive Plan, as amended (the “2007 Plan”), provides for the grant of non-qualified and incentive stock options, as well as restricted stock units, restricted stock and other stock-based awards. Exercise prices for non-qualified and incentive stock options are not less than the fair value of the underlying common stock on the date of grant. Equity awards typically vest ratably, generally over four years for time-based restricted stock units (“RSUs”) and stock options and three years for performance-based restricted stock units (“PSUs”). Stock options generally expire 10 years from the date of grant. As of June 30, 2018, the Company had the ability to grant stock-based awards with respect to an aggregate of 7.6 million shares of common stock under the 2007 Plan. In addition, the Company maintains an employee stock purchase plan (the “ESPP”) pursuant to which eligible employees may purchase shares of the Company’s common stock on the last day of each bi-annual offering period at a 15% discount from the lower of the closing market value on the first or last day of such offering period. The offering periods run from June 1 through November 30 and from December 1 through May 31 of each year.

During the three and six months ended June 30, 2018 and 2017, the Company recorded and capitalized the following stock-based compensation expense:

	Three Months Ended June 30, 2018	2017	Six Months Ended June 30, 2018	2017
Stock-based compensation expense	\$24.8	\$25.8	\$67.5	\$62.0
Stock-based compensation expense capitalized as property and equipment	\$0.5	\$0.5	\$1.0	\$1.0

Stock Options—As of June 30, 2018, total unrecognized compensation expense related to unvested stock options was \$8.2 million, which is expected to be recognized over a weighted average period of approximately one year.

The Company’s option activity for the six months ended June 30, 2018 was as follows (shares disclosed in full amounts):

	Number of Options
Outstanding as of January 1, 2018	5,557,561
Granted	—
Exercised	(497,008)
Forfeited	(6,872)
Expired	—
Outstanding as of June 30, 2018	5,053,681

Restricted Stock Units—As of June 30, 2018, total unrecognized compensation expense related to unvested RSUs granted under the 2007 Plan was \$147.2 million and is expected to be recognized over a weighted average period of approximately three years.

Performance-Based Restricted Stock Units—During the six months ended June 30, 2018, 2017 and 2016, the Company's Compensation Committee granted an aggregate of 131,311 PSUs (the "2018 PSUs"), 154,520 PSUs (the "2017 PSUs") and 169,340 PSUs (the "2016 PSUs"), respectively, to its executive officers and established the performance metrics for

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

these awards. Threshold, target and maximum parameters were established for the metrics for a three-year performance period with respect to each of the 2018 PSUs, the 2017 PSUs and the 2016 PSUs, and will be used to calculate the number of shares that will be issuable when each award vests, which may range from zero to 200% of the target amounts. At the end of each three-year performance period, the number of shares that vest will depend on the degree of achievement against the pre-established performance goals. PSUs will be paid out in common stock at the end of each performance period, subject generally to the executive's continued employment. PSUs will accrue dividend equivalents prior to vesting, which will be paid out only in respect of shares that actually vest.

Restricted Stock Units and Performance-Based Restricted Stock Units—The Company's RSU and PSU activity for the six months ended June 30, 2018 was as follows (shares disclosed in full amounts):

	RSUs	PSUs
Outstanding as of January 1, 2018 (1)	1,742,725	444,031
Granted (2)	675,985	131,311
Vested (3)	(663,531)	(120,171)
Forfeited	(38,083)	—
Outstanding as of June 30, 2018	1,717,096	455,171

(1) PSUs consist of the target number of shares issuable at the end of the three-year performance period for the 2017 PSUs and the 2016 PSUs, or 154,520 and 169,340 shares, respectively, and the shares issuable at the end of the three-year vesting period for the PSUs granted in 2015 (the "2015 PSUs"), based on achievement against the performance metrics for the first, second and third year's performance periods, or 120,171 shares.

(2) PSUs consist of the target number of shares issuable at the end of the three-year performance period for the 2018 PSUs, or 131,311 shares.

(3) PSUs consist of shares vested pursuant to the 2015 PSUs. There are no additional shares to be earned related to the 2015 PSUs.

During the three and six months ended June 30, 2018, the Company recorded \$6.4 million and \$15.2 million, respectively, in stock-based compensation expense for equity awards in which the performance goals had been established and were probable of being achieved. The remaining unrecognized compensation expense related to these awards at June 30, 2018 was \$35.3 million based on the Company's current assessment of the probability of achieving the performance goals. On July 26, 2018, the Company changed the vesting terms of the PSU award agreements in the event of a participant's death, disability or qualified retirement (each as defined in the applicable award agreement) for all plan participants with the exception of the Chief Executive Officer. As a result, the weighted average period over which the cost will be recognized is less than one year.

9. REDEEMABLE NONCONTROLLING INTERESTS

Redeemable Noncontrolling Interests—On April 21, 2016, the Company, through its wholly owned subsidiary, ATC Asia Pacific Pte. Ltd., acquired a 51% controlling ownership interest in ATC TIPL (formerly Viom), a telecommunications infrastructure company that owns and operates wireless communications towers and indoor DAS networks in India (the "Viom Acquisition").

In connection with the Viom Acquisition, the Company, through one of its subsidiaries, entered into a shareholders agreement (the "Shareholders Agreement") with Viom and the following remaining Viom shareholders: Tata Sons Limited, Tata Teleservices, IDFC Private Equity Fund III, Macquarie SBI Infrastructure Investments Pte Limited and SBI Macquarie Infrastructure Trust (collectively, the "Remaining Shareholders"). During the six months ended June 30, 2018, pursuant to the terms of the Shareholders Agreement, the Company received regulatory approval to merge its

other wholly-owned India subsidiaries into ATC TIPL. As a result, the Company's controlling interest in ATC TIPL increased from 51% to 63%, which resulted in an increase in the Company's additional paid-in capital of \$28.1 million. Similarly, the noncontrolling interest was reduced from 49% to 37%, and a corresponding adjustment to reduce the redeemable noncontrolling interest value by \$28.1 million was recorded during the six months ended June 30, 2018. In addition, the Company reclassified \$78.8 million of previously recorded accumulated other comprehensive loss to additional paid-in capital due to the change in ownership of ATC TIPL.

The Shareholders Agreement also provides certain of the Remaining Shareholders with put options, which allow them to sell outstanding shares of ATC TIPL to the Company, and the Company with call options, which allow it to buy the

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

noncontrolling shares of ATC TIPL. The put options, which are not under the Company's control, cannot be separated from the noncontrolling interests. As a result, the combination of the noncontrolling interests and the redemption feature requires classification as redeemable noncontrolling interests in the consolidated balance sheet, separate from equity.

Given the provisions governing the put rights, the redeemable noncontrolling interests are recorded outside of permanent equity at their redemption value. The noncontrolling interests become redeemable after the passage of time, and therefore, the Company records the carrying amount of the noncontrolling interests at the greater of (i) the initial carrying amount, increased or decreased for the noncontrolling interests' share of net income or loss and foreign currency translation adjustments, and (ii) the redemption value. If required, the Company will adjust the redeemable noncontrolling interests to redemption value on each balance sheet date with changes in redemption value recognized as an adjustment to Distributions in excess of earnings. Due to the impact of impairment charges on net income, the Company adjusted certain noncontrolling interests, which are subject to minimum redemption values, by \$33.4 million for the six months ended June 30, 2018.

The put options may be exercised, requiring the Company to purchase the Remaining Shareholders' equity interests, on specified dates beginning April 1, 2018 through March 31, 2021.

The changes in Redeemable noncontrolling interests for the six months ended June 30, 2018 and 2017 were as follows:

	Six Months Ended	
	June 30,	
	2018	2017
Balance as of January 1,	\$1,126.2	\$1,091.3
Net (loss) income attributable to noncontrolling interests	(48.7) 8.9
Adjustment to noncontrolling interest redemption value	33.4	—
Adjustment to noncontrolling interest due to merger	(28.1) —
Foreign currency translation adjustment attributable to noncontrolling interests	(73.5) 55.7
Balance as of June 30,	\$1,009.3	\$1,155.9

10. EQUITY

Series B Preferred Stock—In March 2015, the Company issued 1,375,000 shares of its 5.50% Mandatory Convertible Preferred Stock, Series B, par value \$0.01 per share (the "Series B Preferred Stock"). During the six months ended June 30, 2018, all outstanding shares of the Series B Preferred Stock converted at a rate of 8.7420 per share of Series B Preferred Stock, or 0.8742 per depositary share, each representing a 1/10th interest in a share of Series B Preferred Stock, into an aggregate of 12,020,064 shares of the Company's common stock pursuant to the provisions of the Certificate of Designations governing the Series B Preferred Stock. The Company paid cash in lieu of fractional shares of the Company's common stock. These payments were recorded as a reduction to Additional paid-in capital.

On February 15, 2018, the Company paid the final dividend of \$18.9 million to holders of the Series B Preferred Stock at the close of business on February 1, 2018.

Sales of Equity Securities—The Company receives proceeds from the sale of its equity securities pursuant to the ESPP and upon exercise of stock options granted under its equity incentive plan. During the six months ended June 30, 2018, the Company received an aggregate of \$40.2 million in proceeds upon exercises of stock options and sales

pursuant to the ESPP.

Stock Repurchase Programs—In March 2011, the Board of Directors approved a stock repurchase program, pursuant to which the Company is authorized to repurchase up to \$1.5 billion of its common stock (the “2011 Buyback”). In December 2017, the Board of Directors approved an additional stock repurchase program, pursuant to which the Company is authorized to repurchase up to \$2.0 billion of its common stock (the “2017 Buyback” and, together with the 2011 Buyback, the “Buyback Programs”).

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

During the six months ended June 30, 2018, the Company repurchased 722,032 shares of its common stock under the 2011 Buyback for an aggregate of \$100.0 million (of which \$1.4 million was accrued as of June 30, 2018), including commissions and fees. As of June 30, 2018, the Company had repurchased a total of 13,078,086 shares of its common stock under the 2011 Buyback for an aggregate of \$1.3 billion, including commissions and fees. There were no repurchases under the 2017 Buyback.

Under the Buyback Programs, the Company is authorized to purchase shares from time to time through open market purchases, in privately negotiated transactions not to exceed market prices, and (with respect to such open market purchases) pursuant to plans adopted in accordance with Rule 10b5-1 under the Exchange Act in accordance with securities laws and other legal requirements and subject to market conditions and other factors.

The Company expects to fund any further repurchases of its common stock through a combination of cash on hand, cash generated by operations and borrowings under its credit facilities. Purchases under the Buyback Programs are subject to the Company having available cash to fund repurchases.

Distributions—During the six months ended June 30, 2018, the Company declared or paid the following cash distributions (per share data reflects actual amounts):

Declaration Date	Payment Date	Record Date	Distribution per share	Aggregate Payment Amount (1)
Common Stock				
December 6, 2017	January 16, 2018	December 28, 2017	\$ 0.70	\$ 300.2
March 8, 2018	April 27, 2018	April 11, 2018	\$ 0.75	\$ 331.2
May 24, 2018	July 13, 2018	June 19, 2018	\$ 0.77	\$ 339.8
Series B Preferred Stock				
January 22, 2018	February 15, 2018	February 1, 2018	\$ 13.75	\$ 18.9

(1) Does not include amounts accrued for distributions payable related to unvested restricted stock units.

The Company accrues distributions on unvested restricted stock units, which are payable upon vesting. As of June 30, 2018, the amount accrued for distributions payable related to unvested restricted stock units was \$9.9 million. During the six months ended June 30, 2018, the Company paid \$4.2 million of distributions upon the vesting of restricted stock units. To maintain its qualification for taxation as a REIT, the Company expects to continue paying distributions, the amount, timing and frequency of which will be determined, and subject to adjustment, by the Company's Board of Directors.

12. COMMITMENTS AND CONTINGENCIES

Litigation—The Company periodically becomes involved in various claims, lawsuits and proceedings that are incidental to its business. In the opinion of Company management, after consultation with counsel, there are no matters currently pending that would, in the event of an adverse outcome, materially impact the Company's consolidated financial position, results of operations or liquidity.

Verizon Transaction—In March 2015, the Company entered into an agreement with various operating entities of Verizon Communications Inc. ("Verizon") that currently provides for the lease, sublease or management of approximately 11,250 wireless communications sites commencing March 27, 2015. The average term of the lease or sublease for all sites at the inception of the agreement was approximately 28 years, assuming renewals or extensions of the underlying ground leases for the sites. The Company has the option to purchase the leased sites in tranches, subject to the applicable lease, sublease or management rights upon its scheduled expiration. Each tower is assigned to an annual tranche, ranging from 2034 to 2047, which represents the outside expiration date for the sublease rights to the towers in that tranche. The purchase price for each tranche is a fixed amount stated in the lease for such tranche plus the fair market value of certain alterations made to the related towers. The aggregate purchase option price for the towers leased and subleased is approximately \$5.0 billion. Verizon will occupy the sites as a tenant for an initial term

of ten years with eight optional successive five-year terms; each such term shall be governed by standard master lease agreement terms established as a part of the transaction.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

AT&T Transaction—The Company has an agreement with SBC Communications Inc., a predecessor entity to AT&T Inc. (“AT&T”), that currently provides for the lease or sublease of approximately 2,340 towers commencing between December 2000 and August 2004. Substantially all of the towers are part of the Trust Securitizations. The average term of the lease or sublease for all sites at the inception of the agreement was approximately 27 years, assuming renewals or extensions of the underlying ground leases for the sites. The Company has the option to purchase the sites subject to the applicable lease or sublease upon its expiration. Each tower is assigned to an annual tranche, ranging from 2013 to 2032, which represents the outside expiration date for the sublease rights to that tower. The purchase price for each site is a fixed amount stated in the lease for that site plus the fair market value of certain alterations made to the related tower by AT&T. As of June 30, 2018, the Company has purchased an aggregate of 88 of the subleased towers upon expiration of the applicable agreement. The aggregate purchase option price for the remaining towers leased and subleased is \$871.3 million and will accrete at a rate of 10% per annum through the applicable expiration of the lease or sublease of a site. For all such sites, AT&T has the right to continue to lease the reserved space through June 30, 2020 at the then-current monthly fee, which shall escalate in accordance with the standard master lease agreement for the remainder of AT&T’s tenancy. Thereafter, AT&T shall have the right to renew such lease for up to four successive five-year terms.

ALLTEL Transaction—In December 2000, the Company entered into an agreement with ALLTEL Communications, LLC, a predecessor entity to Verizon Wireless, to acquire towers through a 15-year sublease agreement. Pursuant to the agreement, as amended, with Verizon Wireless, the Company acquired rights to approximately 1,800 towers in tranches between April 2001 and March 2002. The Company has the option to purchase each tower at the expiration of the applicable sublease. During the year ended December 31, 2016, the Company exercised the purchase options for 1,523 towers and provided notice to the tower owner, Verizon’s assignee, of its intent to exercise the purchase options related to the 243 remaining towers. As of June 30, 2018, the purchase price per tower was \$42,844 payable in cash or, at the tower owner’s option, with 769 shares of the Company’s common stock per tower. The aggregate cash purchase option price for the subleased towers was \$10.4 million as of June 30, 2018.

Other Contingencies—The Company is subject to income tax and other taxes in the geographic areas where it operates, and periodically receives notifications of audits, assessments or other actions by taxing authorities. In certain jurisdictions, taxing authorities may issue preliminary notices or assessments while audits are being conducted. These preliminary notices or assessments do not represent amounts that the Company is obligated to pay and are often not reflective of the actual tax liability for which the Company will ultimately be liable. The Company evaluates the circumstances of each notification or assessment based on the information available and records a liability for any potential outcome that is probable or more likely than not unfavorable if the liability is also reasonably estimable. On December 5, 2016, the Company received an income tax assessment of Essar Telecom Infrastructure Private Limited (“ETIPL”) from the India Income Tax Department (the “Tax Department”) for the fiscal year ending 2008 in the amount of 4.75 billion INR (\$69.8 million on the date of assessment) related to capital contributions. The Company challenged the assessment before the Office of Commissioner of Income Tax - Appeals, which ruled in the Company’s favor in January 2018. However, the Tax Department may appeal this ruling at a higher appellate authority. The Company estimates that there is a more likely than not probability that the Company’s position will be sustained upon appeal. Accordingly, no liability has been recorded. Additionally, the assessment was made with respect to transactions that took place in the tax year commencing in 2007, prior to the Company’s acquisition of ETIPL. Under the Company’s definitive acquisition agreement of ETIPL, the seller is obligated to indemnify and defend the Company with respect to any tax-related liability that may arise from activities prior to March 31, 2010.

Tenant Leases—The Company’s lease agreements with its tenants vary depending upon the region and the industry of the tenant, and generally have initial terms of ten years with multiple renewal terms at the option of the tenant.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Future minimum rental receipts expected from tenants under non-cancellable operating lease agreements in effect at June 30, 2018 were as follows (in billions):

Remainder of 2018 \$2.6

2019	5.0
2020	4.7
2021	4.2
2022	3.4
Thereafter	11.3
Total	\$31.2

Lease Obligations—The Company leases certain land, office and tower space under operating leases that expire over various terms. Many of the leases contain renewal options with specified increases in lease payments upon exercise of the renewal option. Escalation clauses present in operating leases, excluding those tied to a consumer price index or other inflation-based indices, are recognized on a straight-line basis over the non-cancellable term of the leases.

Future minimum rental payments under non-cancellable operating leases include payments for certain renewal periods at the Company's option because failure to renew could result in a loss of the applicable communications sites and related revenues from tenant leases, thereby making it reasonably assured that the Company will renew the leases.

Such payments at June 30, 2018 are as follows (in billions):

Remainder of 2018 \$0.5

2019	0.9
2020	0.9
2021	0.8
2022	0.8
Thereafter	6.8
Total	\$10.7

13. ACQUISITIONS

Impact of current year acquisitions—The Company typically acquires communications sites from wireless carriers or other tower operators and subsequently integrates those sites into its existing portfolio of communications sites. The financial results of the Company's acquisitions have been included in the Company's consolidated statements of operations for the three and six months ended June 30, 2018 from the date of the respective acquisition. The date of acquisition, and by extension the point at which the Company begins to recognize the results of an acquisition, may depend on, among other things, the receipt of contractual consents, the commencement and extent of leasing arrangements and the timing of the transfer of title or rights to the assets, which may be accomplished in phases. Sites acquired from communications service providers may never have been operated as a business and may instead have been utilized solely by the seller as a component of its network infrastructure. An acquisition may or may not involve the transfer of business operations or employees.

The Company evaluates each of its acquisitions under the accounting guidance framework to determine whether to treat an acquisition as an asset acquisition or a business combination. For those transactions treated as asset acquisitions, the purchase price is allocated to the assets acquired, with no recognition of goodwill.

For those acquisitions accounted for as business combinations, the Company recognizes acquisition and merger related expenses in the period in which they are incurred and services are received; for transactions accounted for as asset acquisitions, these costs are capitalized as part of the purchase price. Acquisition and merger related costs may include finder's fees, advisory, legal, accounting, valuation and other professional or consulting fees and general administrative costs directly related to the transaction. Integration costs include incremental and non-recurring costs

necessary to convert data, retain employees and otherwise enable the Company to operate new businesses or assets efficiently. The

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

Company records acquisition and merger related expenses for business combinations, as well as integration costs for all acquisitions, in Other operating expenses in the consolidated statements of operations.

During the six months ended June 30, 2018 and 2017, the Company recorded acquisition and merger related expenses for business combinations and non-capitalized asset acquisition costs and integration costs as follows:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
Acquisition and merger related expenses	\$4.5	\$2.4	\$5.9	\$8.1
Integration costs	\$4.7	\$3.8	\$5.2	\$8.4

2018 Transactions

The estimated aggregate impact of the acquisitions completed in 2018 on the Company's revenues and gross margin for the three months ended June 30, 2018 was approximately \$54.1 million and \$19.7 million, respectively, and for the six months ended June 30, 2018 was approximately \$55.0 million and \$20.3 million, respectively. The revenues and gross margin amounts also reflect incremental revenues from the addition of new tenants to such sites subsequent to the transaction date.

Idea Acquisition—On May 31, 2018, the Company acquired 100% of the outstanding shares of Idea Cellular Infrastructure Services Limited, a telecommunications company that owns and operates approximately 9,700 communications sites in India, for total consideration of approximately 42.8 billion INR (\$635.5 million at the date of acquisition). Of the total consideration, \$22.3 million is reflected in Accounts payable in the consolidated balance sheet as of June 30, 2018 and is considered a non-cash investing activity for cash flow purposes. This acquisition was accounted for as a business combination and is subject to post-closing adjustments.

Vodafone Acquisition—On March 31, 2018, the Company acquired approximately 10,200 communications sites from Vodafone India Limited and Vodafone Mobile Services Limited (together, "Vodafone") for an aggregate total purchase price of 38.3 billion INR (\$587.9 million at the date of acquisition). Of the aggregate purchase price, \$1.1 million is reflected in Accounts payable in the consolidated balance sheet as of June 30, 2018. This acquisition was accounted for as an asset acquisition.

Other Acquisitions—During the six months ended June 30, 2018, the Company acquired a total of 761 communications sites in the United States, Colombia, Mexico, Paraguay and Peru for an aggregate purchase price of \$153.5 million. Of the aggregate purchase price, \$1.6 million is reflected in Accounts payable in the consolidated balance sheet as of June 30, 2018. These acquisitions were accounted for as asset acquisitions.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

The following table summarizes the allocations of the purchase prices for the fiscal year 2018 acquisitions based upon their estimated fair value at the date of acquisition:

	Asia		
	Idea	Vodafone	Other
		(1)	(2)
Current assets	\$ 100.7	\$ 15.1	\$ 2.3
Non-current assets	2.6	5.8	3.9
Property and equipment	161.2	194.6	55.4
Intangible assets (3):			
Tenant-related intangible assets	321.2	309.5	65.2
Network location intangible assets	82.9	88.5	33.3
Current liabilities	(52.5)	(13.1)	(0.7)
Deferred tax liability	(20.7)	—	—
Other non-current liabilities	(10.5)	(12.5)	(5.9)
Net assets acquired	584.9	587.9	153.5
Goodwill (4)	50.6	—	—
Fair value of net assets acquired	635.5	587.9	153.5
Debt assumed	—	—	—
Purchase price	\$ 635.5	\$ 587.9	\$ 153.5

(1) Includes \$1.3 million in acquisition and merger related expenses that were capitalized as part of the purchase price.

(2) Includes 44 sites in Peru held pursuant to long-term capital leases.

(3) Tenant-related intangible assets and network location intangible assets are amortized on a straight-line basis over periods of up to 20 years.

(4) The Company expects goodwill to be deductible for tax purposes.

2017 Transactions

During the six months ended June 30, 2018, post-closing adjustments impacted the following acquisition completed in 2017:

Mexico Acquisition—On November 17, 2017, the Company acquired 100% of the outstanding shares of entities holding urban telecommunications assets in Mexico, including more than 50,000 concrete poles and approximately 2,100 route miles of fiber, for total initial consideration of \$505.8 million, including value-added tax. During the six months ended June 30, 2018, the purchase price was reduced to \$499.7 million.

The following table summarizes the preliminary and updated allocation of the purchase price paid and the amounts of assets acquired and liabilities assumed for the acquisition based upon its estimated fair value at the date of acquisition. Balances are reflected in the accompanying consolidated balance sheet as of June 30, 2018.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

Other Signed Acquisitions

Kenya—On April 3, 2018, the Company, through its recently formed Kenyan subsidiary, entered into a definitive agreement with Telkom Kenya Limited to acquire up to 723 communications sites in Kenya. The transaction is expected to close during the second half of 2018, subject to customary closing conditions, including the satisfaction of regulatory approvals.

AMERICAN TOWER CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED AND CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(tabular amounts in millions, unless otherwise noted)

14. BUSINESS SEGMENTS

The Company's primary business is leasing space on multitenant communications sites to wireless service providers, radio and television broadcast companies, wireless data providers, government agencies and municipalities and tenants in a number of other industries. This business is referred to as the Company's property operations, which as of June 30, 2018, consisted of the following:

• U.S.: property operations in the United States;

• Asia: property operations in India;

• Europe, Middle East and Africa ("EMEA"): property operations in France, Germany, Ghana, Nigeria, South Africa and Uganda; and

• Latin America: property operations in Argentina, Brazil, Chile, Colombia, Costa Rica, Mexico, Paraguay and Peru.

The Company has applied the aggregation criteria to operations within the EMEA and Latin America property operating segments on a basis that is consistent with management's review of information and performance evaluations of these regions.

The Company's services segment offers tower-related services in the United States, including AZP and structural analysis, which primarily support its site leasing business, including the addition of new tenants and equipment on its sites. The services segment is a strategic business unit that offers different services from, and requires different resources, skill sets and marketing strategies than, the property operating segments.

The accounting policies applied in compiling segment information below are similar to those described in note 1.

Among other factors, in evaluating financial performance in each business segment, management uses segment gross margin and segment operating profit. The Company defines segment gross margin as segment revenue less segment operating expenses excluding stock-based compensation expense recorded in costs of operations; Depreciation, amortization and accretion; Selling, general, administrative and development expense; and Other operating expenses. The Company defines segment operating profit as segment gross margin less Selling, general, administrative and development expense attributable to the segment, excluding stock-based compensation expense and corporate expenses. For reporting purposes, the Latin America property segment gross margin and segment operating profit also include Interest income (expense), TV Azteca, net. These measures of segment gross margin and segment operating profit are also before Interest income, Interest expense, Gain (loss) on retirement of long-term obligations, Other income (expense), Net income (loss) attributable to noncontrolling interests and Income tax benefit (provision). The categories of expenses indicated above, such as depreciation, have been excluded from segment operating performance as they are not considered in the review of information or the evaluation of results by management. There are no significant revenues resulting from transactions between the Company's operating segments. All intercompany transactions are eliminated to reconcile segment results and assets to the consolidated statements of operations and consolidated balance sheets.

Summarized financial information concerning the Company's reportable segments for the three and six months ended June 30, 2018 and 2017 is shown in the following tables. The "Other" column (i) represents amounts excluded from specific segments, such as business development operations, stock-based compensation expense and corporate expenses included in Selling, general, administrative and development expense; Other operating expenses; Interest income; Interest expense; Gain (loss) on retirement of long-term obligations; and Other income (expense), and (ii) reconciles segment operating profit to Income from continuing operations before income taxes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Quarterly Report on Form 10-Q contains forward-looking statements relating to our goals, beliefs, plans or current expectations and other statements that are not of historical facts. For example, when we use words such as “project,” “believe,” “anticipate,” “expect,” “forecast,” “estimate,” “intend,” “should,” “would,” “could,” “may” or other words, we are making forward-looking statements. Certain important factors may cause actual results to differ materially from those indicated by our forward-looking statements, including those set forth under the caption “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2017 (the “2017 Form 10-K”), as updated in Part II, Item 1A of this Quarterly Report on Form 10-Q. Forward-looking statements represent management’s current expectations and are inherently uncertain. We do not undertake any obligation to update forward-looking statements made by us.

The discussion and analysis of our financial condition and results of operations that follow are based upon our consolidated and condensed consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”). The preparation of our financial statements requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses, and the related disclosure of contingent assets and liabilities at the date of our financial statements. Actual results may differ from these estimates and such differences could be material to the financial statements. This discussion should be read in conjunction with our consolidated and condensed consolidated financial statements herein and the accompanying notes thereto, information set forth under the caption “Critical Accounting Policies and Estimates” in the 2017 Form 10-K, and in particular, the information set forth therein under Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

Overview

We are one of the largest global real estate investment trusts and a leading independent owner, operator and developer of multitenant communications real estate. Our primary business is the leasing of space on communications sites to wireless service providers, radio and television broadcast companies, wireless data providers, government agencies and municipalities and tenants in a number of other industries. In addition to the communications sites in our portfolio, we manage rooftop and tower sites for property owners under various contractual arrangements. We also hold other telecommunications infrastructure, fiber and property interests that we lease primarily to communications service providers and third-party tower operators. We refer to this business as our property operations, which accounted for 98% of our total revenues for the six months ended June 30, 2018 and includes our U.S. property segment, Asia property segment, Europe, Middle East and Africa (“EMEA”) property segment and Latin America property segment.

We also offer tower-related services in the United States, including site acquisition, zoning and permitting and structural analysis, which primarily support our site leasing business, including the addition of new tenants and equipment on our sites.

The following table details the number of communications sites, excluding managed sites, that we owned or operated as of June 30, 2018:

	Number of Owned Towers	Number of Operated Towers (1)	Number of Owned DAS Sites
U.S.	24,265	15,982	384
Asia:			
India	75,500	—	1,055
EMEA:			
France	2,170	307	9
Germany	2,208	—	—
Ghana	2,252	—	24
Nigeria	4,757	—	—
South Africa (2)	2,575	—	—
Uganda	1,490	—	—
EMEA total	15,452	307	33
Latin America:			
Argentina (3)	12	—	1
Brazil	16,548	2,257	84
Chile	1,295	—	12
Colombia	3,895	777	1
Costa Rica	500	—	2
Mexico (4)	8,985	199	79
Paraguay	1,266	—	—
Peru	677	171	—
Latin America total	33,178	3,404	179

(1) Approximately 98% of the operated towers are held pursuant to long-term capital leases, including those subject to purchase options.

(2) In South Africa, we also own fiber.

(3) In Argentina, we also own or operate urban telecommunications assets, fiber and the rights to utilize certain existing utility infrastructure for future telecommunications equipment installation.

(4) In Mexico, we also own or operate urban telecommunications assets, including fiber, concrete poles and other infrastructure.

We operate in five reportable segments: U.S. property, Asia property, EMEA property, Latin America property and services. In evaluating operating performance in each business segment, management uses, among other factors, segment gross margin and segment operating profit (see note 14 to our consolidated and condensed consolidated financial statements included in this Quarterly Report on Form 10-Q).

In the section that follows, we provide information regarding management's expectations of long-term drivers of demand for our communications sites, as well as our current results of operations, financial position and sources and uses of liquidity. In addition, we highlight key trends, which management believes provide valuable insight into our operating and financial resource allocation decisions.

Revenue Growth. The primary factors affecting the revenue growth in our property segments are:

- Growth in tenant billings, including:

- New revenue attributable to leases in place on day one on sites acquired or constructed since the beginning of the prior-year period;

New revenue attributable to leasing additional space on our sites (“colocations”) and lease amendments; and
Contractual rent escalations on existing tenant leases, net of churn (as defined below).

Revenue growth from other items, including additional tenant payments to cover costs, such as ground rent or power and fuel costs, included in certain tenant leases (“pass-through”), straight-line revenue and decommissioning.

Due to our diversified communications site portfolio, our tenant lease rates vary considerably depending upon numerous factors, including, but not limited to, amount, type and position of tenant equipment on the tower, remaining tower capacity and tower location. We measure the remaining tower capacity by assessing several factors, including tower height, tower type, environmental conditions, existing equipment on the tower and zoning and permitting regulations in effect in the jurisdiction where the tower is located. In many instances, tower capacity can be increased with relatively modest tower augmentation capital expenditures.

In most of our markets, our tenant leases with wireless carriers have an initial non-cancellable term of at least ten years, with multiple renewal terms. Accordingly, the vast majority of the revenue generated by our property operations during the three and six months ended June 30, 2018 was recurring revenue that we should continue to receive in future periods. Based upon foreign currency exchange rates and the tenant leases in place as of June 30, 2018, we expect to generate over \$31 billion of non-cancellable tenant lease revenue over future periods, before the impact of straight-line lease accounting. Most of our tenant leases have provisions that periodically increase the rent due under the lease, typically based on an annual fixed escalation (averaging approximately 3% in the United States) or an inflationary index in our international markets, or a combination of both. In addition, certain of our tenant leases provide for additional revenue primarily to cover costs, such as ground rent or power and fuel costs.

The revenues generated by our property operations may be affected by cancellations of existing tenant leases. As discussed above, most of our tenant leases with wireless carriers and broadcasters are multiyear contracts, which typically are non-cancellable; however, in some instances, a lease may be cancelled upon the payment of a termination fee.

Revenue lost from either cancellations or the non-renewal of leases or rent renegotiations, which we refer to as churn, historically has not had a material adverse effect on the revenues generated by our property operations. This was again the case during the six months ended June 30, 2018, in which loss of tenant billings from tenant lease cancellations, non-renewal or renegotiations represented approximately 3% of our tenant billings.

We are experiencing, and expect to continue to experience, an increase in revenue lost from cancellations or non-renewals in 2018 primarily due to carrier consolidation-driven churn in India, which we expect will continue to result in a higher impact on our revenues, including tenant billings, as compared to the historical average, particularly in our Asia property segment. We also expect this churn will compress our gross margin and operating profit for the duration of the carrier consolidation process, particularly in our Asia property segment, although we expect this to be partially offset by lower expenses due to reduced tenancy on existing sites. In addition, we expect to periodically evaluate the carrying value of our Indian assets, which may result in the realization of impairment expense or other similar charges. For more information, please see Item 7 of the 2017 Form 10-K under the caption “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Policies and Estimates.”

For the six months ended June 30, 2018, carrier consolidation-driven churn in India negatively impacted our consolidated property revenue by \$62.1 million, including approximately \$22.1 million in pass-through revenue, and negatively impacted our gross margin and operating profit by \$38.8 million. We have also recorded impairment charges of \$176.3 million, primarily as a result of Aircel Ltd.’s (“Aircel”) filing for bankruptcy protection in February 2018. For the full year ending December 31, 2018, we expect carrier consolidation-driven churn in India to negatively impact our consolidated property revenue by approximately \$180.0 million, including \$60.0 million in pass-through revenue, and our operating profit by approximately \$115.0 million.

Demand Drivers. We continue to believe that our site leasing revenue is likely to increase due to the growing use of wireless services globally and our ability to meet the corresponding incremental demand for our communications real estate. By adding new tenants and new equipment for existing tenants on our sites, we are able to increase these sites' utilization and profitability. We believe the majority of our site leasing activity will continue to come from wireless service providers, with tenants in a number of other industries contributing incremental leasing demand. Our site portfolio and our established tenant base provide us with new business opportunities, which have historically resulted in

consistent and predictable organic revenue growth as wireless carriers seek to increase the coverage and capacity of their existing networks, while also deploying next generation wireless technologies. In addition, we intend to continue to supplement our organic growth by selectively developing or acquiring new sites in our existing and new markets where we can achieve our risk-adjusted return on investment objectives.

Consistent with our strategy to increase the utilization and return on investment from our sites, our objective is to add new tenants and new equipment for existing tenants through colocation and lease amendments. Our ability to lease additional space on our sites is primarily a function of the rate at which wireless carriers and other tenants deploy capital to improve and expand their wireless networks. This rate, in turn, is influenced by the growth of wireless services, the penetration of advanced wireless devices, the level of emphasis on network quality and capacity in carrier competition, the financial performance of our tenants and their access to capital and general economic conditions.

Based on industry research and projections, we expect that a number of key industry trends will result in incremental revenue opportunities for us:

In less advanced wireless markets where initial voice and data networks are still being deployed, we expect these deployments to drive demand for our tower space as carriers seek to expand their footprints and increase the scope and density of their networks. We have established operations in many of these markets at the early stages of wireless development, which we believe will enable us to meaningfully participate in these deployments over the long term. Subscribers' use of mobile data continues to grow rapidly given increasing smartphone and other advanced device penetration, the proliferation of bandwidth-intensive applications on these devices and the continuing evolution of the mobile ecosystem. We believe carriers will be compelled to deploy additional equipment on existing networks while also rolling out more advanced wireless networks to address coverage and capacity needs resulting from this increasing mobile data usage.

The deployment of advanced mobile technology across existing wireless networks will provide higher speed data services and further enable fixed broadband substitution. As a result, we expect that our tenants will continue deploying additional equipment across their existing networks.

Wireless service providers compete based on the quality of their existing networks, which is driven by capacity and coverage. To maintain or improve their network performance as overall network usage increases, our tenants continue deploying additional equipment across their existing sites while also adding new cell sites. We anticipate increasing network densification over the next several years, as existing network infrastructure is anticipated to be insufficient to account for rapidly increasing levels of wireless data usage.

Wireless service providers continue to acquire additional spectrum, and as a result are expected to add additional sites and equipment to their networks as they seek to optimize their network configuration and utilize additional spectrum. Next generation technologies centered on wireless connections have the potential to provide incremental revenue opportunities for us. These technologies may include autonomous vehicle networks and a number of other internet-of-things, or IoT, applications, as well as other potential use cases for wireless services.

As part of our international expansion initiatives, we have targeted markets in various stages of network development to diversify our international exposure and position us to benefit from a number of different wireless technology deployments over the long term. In addition, we have focused on building relationships with large multinational carriers such as Bharti Airtel Limited, Telefónica S.A. and Vodafone Group PLC, among others. We believe that consistent carrier network investments across our international markets position us to generate meaningful organic revenue growth going forward.

In emerging markets, such as Ghana, India, Nigeria and Uganda, wireless networks tend to be significantly less advanced than those in the United States, and initial voice networks continue to be deployed in underdeveloped areas. A majority of consumers in these markets still utilize basic wireless services, predominantly on feature phones, while advanced device penetration remains low. In more developed urban locations within these markets, data network

deployments are underway. Carriers are focused on completing voice network build-outs while also investing in initial data networks as mobile data usage and smartphone penetration within their customer bases begin to accelerate.

In India, the ongoing transition from second generation (2G) technology to fourth generation (4G) technology has included and is expected to continue to include a period of carrier consolidation over the next several years, whereby the number of carriers operating in the marketplace will be reduced through mergers, acquisitions and select carrier exits from the marketplace. Over the long term, this consolidation process is expected to result in a more favorable structural environment for both the wireless carriers as well as communications infrastructure providers. In the shorter term, as discussed above, we expect the consolidation process to continue to result in elevated levels of churn within our India business as merging carriers rationalize redundant legacy equipment installations and as select carriers exit the marketplace.

In markets with rapidly evolving network technology, such as South Africa and most of the countries in Latin America where we do business, initial voice networks, for the most part, have already been built out, and carriers are focused on third generation (3G) and 4G network build outs. Consumers in these regions are increasingly adopting smartphones and other advanced devices and, as a result, the usage of bandwidth-intensive mobile applications is growing materially. Recent spectrum auctions in these rapidly evolving markets have allowed incumbent carriers to accelerate their data network deployments and have also enabled new entrants to begin initial investments in data networks. Smartphone penetration and wireless data usage in these markets are advancing rapidly, which typically requires that carriers continue to invest in their networks to maintain and augment their quality of service.

Finally, in markets with more mature network technology, such as Germany and France, carriers are focused on deploying 4G data networks to account for rapidly increasing wireless data usage among their customer base. With higher smartphone and advanced device penetration and significantly higher per capita data usage, carrier investment in networks is focused on 4G coverage and capacity.

We believe that the network technology migration we have seen in the United States, which has led to significantly denser networks and meaningful new business commencements for us over a number of years, will ultimately be replicated in our less advanced international markets. As a result, we expect to be able to leverage our extensive international portfolio of approximately 129,100 communications sites and the relationships we have built with our carrier tenants to drive sustainable, long-term growth.

We have master lease agreements with certain of our tenants that provide for consistent, long-term revenue and reduce the likelihood of churn. Certain of those master lease agreements are holistic in nature and further build and augment strong strategic partnerships with our tenants and have significantly reduced colocation cycle times, thereby providing our tenants with the ability to rapidly and efficiently deploy equipment on our sites.

Property Operations Expenses. Direct operating expenses incurred by our property segments include direct site level expenses and consist primarily of ground rent and power and fuel costs, some or all of which may be passed through to our tenants, as well as property taxes, repairs and maintenance. These segment direct operating expenses exclude all segment and corporate selling, general, administrative and development expenses, which are aggregated into one line item entitled Selling, general, administrative and development expense in our consolidated statements of operations. In general, our property segments' selling, general, administrative and development expenses do not significantly increase as a result of adding incremental tenants to our sites and typically increase only modestly year-over-year. As a result, leasing additional space to new tenants on our sites provides significant incremental cash flow. We may, however, incur additional segment selling, general, administrative and development expenses as we increase our presence in our existing markets or expand into new markets. Our profit margin growth is therefore positively impacted by the addition of new tenants to our sites but can be temporarily diluted by our development activities.

Services Segment Revenue Growth. As we continue to focus on growing our property operations, we anticipate that our services revenue will continue to represent a small percentage of our total revenues.

Non-GAAP Financial Measures

Included in our analysis of our results of operations are discussions regarding earnings before interest, taxes, depreciation, amortization and accretion, as adjusted (“Adjusted EBITDA”), Funds From Operations, as defined by the National Association of Real Estate Investment Trusts (“Nareit FFO”) attributable to American Tower Corporation common stockholders, Consolidated Adjusted Funds From Operations (“Consolidated AFFO”) and AFFO attributable to American Tower Corporation common stockholders.

We define Adjusted EBITDA as Net income before Income (loss) from equity method investments; Income tax benefit (provision); Other income (expense); Gain (loss) on retirement of long-term obligations; Interest expense; Interest income; Other operating income (expense); Depreciation, amortization and accretion; and stock-based compensation expense.

Nareit FFO attributable to American Tower Corporation common stockholders is defined as net income before gains or losses from the sale or disposal of real estate, real estate related impairment charges, real estate related depreciation, amortization and accretion and dividends on preferred stock, and including adjustments for (i) unconsolidated affiliates and (ii) noncontrolling interests. In this section, we refer to Nareit FFO attributable to American Tower Corporation common stockholders as “Nareit FFO (common stockholders).”

We define Consolidated AFFO as Nareit FFO (common stockholders) before (i) straight-line revenue and expense; (ii) stock-based compensation expense; (iii) the deferred portion of income tax; (iv) non-real estate related depreciation, amortization and accretion; (v) amortization of deferred financing costs, capitalized interest, debt discounts and premiums and long-term deferred interest charges; (vi) other income (expense); (vii) gain (loss) on retirement of long-term obligations; (viii) other operating income (expense); and adjustments for (ix) unconsolidated affiliates and (x) noncontrolling interests, less cash payments related to capital improvements and cash payments related to corporate capital expenditures.

We define AFFO attributable to American Tower Corporation common stockholders as Consolidated AFFO, excluding the impact of noncontrolling interests on both Nareit FFO (common stockholders) and the other adjustments included in the calculation of Consolidated AFFO. In this section, we refer to AFFO attributable to American Tower Corporation common stockholders as “AFFO (common stockholders).”

Adjusted EBITDA, Nareit FFO (common stockholders), Consolidated AFFO and AFFO (common stockholders) are not intended to replace net income or any other performance measures determined in accordance with GAAP. None of Adjusted EBITDA, Nareit FFO (common stockholders), Consolidated AFFO or AFFO (common stockholders) represents cash flows from operating activities in accordance with GAAP and, therefore, these measures should not be considered indicative of cash flows from operating activities, as a measure of liquidity or a measure of funds available to fund our cash needs, including our ability to make cash distributions. Rather, Adjusted EBITDA, Nareit FFO (common stockholders), Consolidated AFFO and AFFO (common stockholders) are presented as we believe each is a useful indicator of our current operating performance. We believe that these metrics are useful to an investor in evaluating our operating performance because (1) each is a key measure used by our management team for decision making purposes and for evaluating our operating segments’ performance; (2) Adjusted EBITDA is a component underlying our credit ratings; (3) Adjusted EBITDA is widely used in the telecommunications real estate sector to measure operating performance as depreciation, amortization and accretion may vary significantly among companies depending upon accounting methods and useful lives, particularly where acquisitions and non-operating factors are involved; (4) Consolidated AFFO is widely used in the telecommunications real estate sector to adjust Nareit FFO (common stockholders) for items that may otherwise cause material fluctuations in Nareit FFO (common stockholders) growth from period to period that would not be representative of the underlying performance of property assets in those periods; (5) each provides investors with a meaningful measure for evaluating our period-to-period operating performance by eliminating items that are not operational in nature; and (6) each provides

investors with a measure for comparing our results of operations to those of other companies, particularly those in our industry.

Our measurement of Adjusted EBITDA, Nareit FFO (common stockholders), Consolidated AFFO and AFFO (common stockholders) may not, however, be fully comparable to similarly titled measures used by other companies.

Reconciliations of Adjusted EBITDA, Nareit FFO (common stockholders), Consolidated AFFO and AFFO (common stockholders) to net income, the most directly comparable GAAP measure, have been included below.

Results of Operations

Three and Six Months Ended June 30, 2018 and 2017

(in millions, except percentages)

We are now disclosing our results in millions rather than thousands and, as a result, certain rounding adjustments have been made to prior-period amounts.

Revenue

	Three Months Ended June 30,		Percent Increase (Decrease)		Six Months Ended June 30,		Percent Increase (Decrease)	
	2018	2017			2018	2017		
Property								
U.S.	\$957.0	\$897.3	7	%	\$1,888.4	\$1,789.2	6	%
Asia	307.9	294.6	5		580.9	570.1	2	
EMEA	166.7	159.6	4		340.9	310.0	10	
Latin America	317.8	286.6	11		649.6	562.9	15	
Total property	1,749.4	1,638.1	7		3,459.8	3,232.2	7	
Services	31.5	24.4	29		62.9	46.5	35	
Total revenues	\$1,780.9	\$1,662.5	7	%	\$3,522.7	\$3,278.7	7	%

Three Months Ended June 30, 2018

U.S. property segment revenue growth of \$59.7 million was attributable to:

• Tenant billings growth of \$67.4 million, which was driven by:

• \$46.3 million due to colocations and amendments;

• \$16.0 million from contractual escalations, net of churn; and

• \$6.2 million generated from newly acquired or constructed sites;

• Partially offset by a decrease of \$1.1 million from other tenant billings; and

• A decrease of \$7.7 million in other revenue, which includes a \$23.5 million decrease due to straight-line accounting.

Asia property segment revenue growth of \$13.3 million was attributable to:

• Tenant billings growth of \$11.8 million, which was driven by:

• \$30.0 million generated from newly acquired or constructed sites, including \$28.6 million due to the transactions with

• Vodafone India Limited and Vodafone Mobile Services Limited (the “Vodafone Acquisition”) and Idea Cellular Limited (the “Idea Acquisition”) in India;

• \$11.1 million due to colocations and amendments; and

• \$0.2 million from other tenant billings;

• Partially offset by a decrease of \$29.5 million resulting from churn in excess of contractual escalations, including

• \$24.5 million due to carrier consolidation-driven churn in India;

• Pass-through revenue growth of \$13.1 million; and

• A decrease of \$0.5 million in other revenue.

Segment revenue growth was partially offset by a decrease of \$11.1 million attributable to the negative impact of foreign currency translation related to fluctuations in Indian Rupees (“INR”).

EMEA property segment revenue growth of \$7.1 million was attributable to:

• Tenant billings growth of \$9.5 million, which was driven by:

• \$4.2 million due to colocations and amendments;

\$4.0 million from contractual escalations, net of churn; and
 \$1.3 million generated from newly acquired or constructed sites;
 An increase of \$0.6 million in other revenue; and
 A decrease in pass-through revenue of \$2.3 million.

Segment revenue growth was partially offset by a decrease of \$0.7 million attributable to the negative impact of foreign currency translation, which included, among others, \$3.0 million related to fluctuations in the Nigerian Naira (“NGN”) and \$1.7 million related to fluctuations in Ghanaian Cedi (“GHS”), and was partially offset by an increase of \$2.8 million related to fluctuations in the Euro and an increase of \$1.3 million related to fluctuations in South African Rand (“ZAR”).

Latin America property segment revenue growth of \$31.2 million was attributable to:

Tenant billings growth of \$31.8 million, which was driven by:
 \$14.0 million due to colocations and amendments;
 \$8.4 million from contractual escalations, net of churn;
 \$7.3 million generated from newly acquired or constructed sites; and
 \$2.1 million from other tenant billings;
 Pass-through revenue growth of \$7.2 million; and
 An increase of \$13.9 million in other revenue, due to \$14.6 million from our newly acquired fiber business, partially offset by a decrease of \$0.7 million in other revenue.

Segment revenue growth was partially offset by a decrease of \$21.7 million attributable to the negative impact of foreign currency translation, which included, among others, \$16.6 million related to fluctuations in Brazilian Real (“BRL”), \$3.9 million related to fluctuations in Mexican Peso (“MXN”) and \$2.8 million related to fluctuations in Argentinean Peso (“ARS”).

The increase in services segment revenue of \$7.1 million was primarily attributable to an increase in site acquisition projects.

Six Months Ended June 30, 2018

U.S. property segment revenue growth of \$99.2 million was attributable to:

Tenant billings growth of \$126.3 million, which was driven by:
 \$83.9 million due to colocations and amendments;
 \$31.3 million from contractual escalations, net of churn; and
 \$13.6 million generated from newly acquired or constructed sites;
 Partially offset by a decrease of \$2.5 million from other tenant billings; and
 A decrease of \$27.1 million in other revenue, which includes a \$48.8 million decrease due to straight-line accounting.

Asia property segment revenue growth of \$10.8 million was attributable to:

Tenant billings growth of \$5.5 million, which was driven by:
 \$31.7 million generated from newly acquired or constructed sites, including \$28.8 million from the Vodafone Acquisition and the Idea Acquisition;
 \$22.7 million due to colocations and amendments; and
 An increase of \$0.2 million from other tenant billings;
 Partially offset by a decrease of \$49.1 million resulting from churn in excess of contractual escalations, including \$38.8 million due to carrier consolidation-driven churn in India;
 Pass-through revenue growth of \$8.5 million; and

A decrease of \$4.2 million in other revenue, primarily due to an increase of \$5.4 million in revenue reserves.

Segment revenue also increased by \$1.0 million attributable to the positive impact of foreign currency translation related to fluctuations in INR.

EMEA property segment revenue growth of \$30.9 million was attributable to:

Tenant billings growth of \$23.5 million, which was driven by:

\$8.3 million from contractual escalations, net of churn;

\$7.9 million due to colocations and amendments;

\$7.0 million generated from newly acquired or constructed sites, primarily due to the acquisition of FPS Towers in France through our European joint venture (the “FPS Acquisition”); and

\$0.3 million from other tenant billings;

An increase of \$5.8 million in other revenue; and

A decrease in pass-through revenue of \$1.6 million.

Segment growth also increased by \$3.2 million attributable to the positive impact of foreign currency translation, which included, among others, \$7.5 million related to fluctuations in the Euro and \$4.8 million related to fluctuations in ZAR, and was partially offset by a decrease of \$6.8 million related to fluctuations in NGN.

Latin America property segment revenue growth of \$86.7 million was attributable to:

Tenant billings growth of \$60.8 million, which was driven by:

\$25.9 million due to colocations and amendments;

\$17.4 million from contractual escalations, net of churn;

\$13.7 million generated from newly acquired or constructed sites; and

\$3.8 million from other tenant billings;

Pass-through revenue growth of \$14.6 million; and

\$28.8 million of other revenue growth, due in part to \$29.9 million from our newly acquired fiber business and a \$6.0 million reduction in revenue reserves from a settlement related to the judicial reorganization of a tenant in Brazil, partially offset by the impact of straight-line accounting.

Segment revenue growth was partially offset by a decrease of \$17.5 million attributable to the negative impact of foreign currency translation, which included, among others, \$21.2 million related to fluctuations in BRL and \$3.9 million related to fluctuations in ARS, and was partially offset by an increase of \$4.7 million related to fluctuations in MXN.

The increase in services segment revenue of \$16.4 million was primarily attributable to an increase in site acquisition projects.

Gross Margin

	Three Months Ended June 30,		Percent Increase		Six Months Ended June 30,		Percent Increase	
	2018	2017	(Decrease)		2018	2017	(Decrease)	
Property								
U.S.	\$758.2	\$713.7	6	%	\$1,503.3	\$1,424.2	6	%
Asia	127.8	126.6	1		242.9	252.7	(4))
EMEA	108.2	100.6	8		223.3	189.5	18	
Latin America	205.1	193.4	6		436.2	379.2	15	
Total property	1,199.3	1,134.3	6		2,405.7	2,245.6	7	
Services	18.6	14.6	27	%	37.8	30.4	24	%

Three Months Ended June 30, 2018

The increase in U.S. property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$15.2 million.

The slight increase in Asia property segment gross margin was primarily attributable to the increase in revenue described above and a benefit of \$6.5 million attributable to the impact of foreign currency translation on direct expenses, partially offset by an increase in direct expenses of \$18.6 million as a result of the Vodafone Acquisition and the Idea Acquisition.

The increase in EMEA property segment gross margin was primarily attributable to the increase in revenue described above and a benefit of \$2.5 million attributable to the impact of foreign currency translation on direct expenses, partially offset by an increase in direct expenses of \$2.0 million.

The increase in Latin America property segment gross margin was primarily attributable to the increase in revenue described above and a benefit of \$7.3 million attributable to the impact of foreign currency translation on direct expenses, partially offset by a reduction of \$6.2 million in interest income due to nonpayment by TV Azteca and an increase in direct expenses of \$20.6 million.

The increase in services segment gross margin was primarily due to increased project volume.

Six Months Ended June 30, 2018

The increase in U.S. property segment gross margin was primarily attributable to the increase in revenue described above, partially offset by an increase in direct expenses of \$20.1 million.

The decrease in Asia property segment gross margin was attributable to an increase in direct expenses of \$20.2 million, primarily due to the Vodafone Acquisition and the Idea Acquisition, partially offset by the increase in revenue described above. Direct expenses increased an additional \$0.4 million attributable to the impact of foreign currency translation.

The increase in EMEA property segment gross margin was primarily attributable to the increase in revenue described above and a benefit of \$3.8 million attributable to the impact of foreign currency translation on direct expenses, partially offset by an increase in direct expenses of \$0.9 million.

The increase in Latin America property segment gross margin was primarily attributable to the increase in revenue described above and a benefit of \$6.4 million attributable to the impact of foreign currency translation on direct expenses, partially offset by a reduction of \$6.2 million in interest income due to nonpayment by TV Azteca and an increase in direct expenses of \$29.9 million.

The increase in services segment gross margin was primarily due to increased project volume.

Selling, General, Administrative and Development Expense (“SG&A”)

	Three Months Ended June 30,		Percent Increase (Decrease)		Six Months Ended June 30,		Percent Increase (Decrease)	
	2018	2017			2018	2017		
Property								
U.S.	\$43.8	\$36.3	21	%	\$79.2	\$70.9	12	%
Asia	15.1	16.6	(9))	59.3	37.1	60	
EMEA	17.6	17.9	(2))	34.4	34.4	—	
Latin America	19.1	19.4	(2))	43.7	38.0	15	
Total property	95.6	90.2	6		216.6	180.4	20	
Services	2.9	3.5	(17))	6.4	6.6	(3))
Other	59.4	59.4	—		139.8	130.9	7	
Total selling, general, administrative and development expense	\$157.9	\$153.1	3	%	\$362.8	\$317.9	14	%

Three Months Ended June 30, 2018

The increase in our U.S. property segment SG&A was primarily driven by an increase in site development costs and increased personnel costs to support our business.

The decrease in our Asia property segment SG&A was primarily driven by a decrease in office-related costs.

The decrease in our services segment SG&A was primarily attributable to a decrease in personnel costs within our tower services group.

Six Months Ended June 30, 2018

The increases in each of our U.S. and Latin America property segments’ SG&A were primarily driven by increased personnel costs to support our business, including our acquisition of urban telecommunications assets in our Latin America property segment. The increase in our U.S. property segment was also attributable to an increase in project costs.

The increase in our Asia property segment’s SG&A was primarily driven by an increase in bad debt expense of \$23.3 million as a result of receivable reserves with certain tenants, including Aircel.

The increase in other SG&A was primarily attributable to an increase in stock-based compensation expense of \$5.5 million and an increase in corporate SG&A.

Operating Profit

	Three Months Ended June 30,		Percent Increase (Decrease)		Six Months Ended June 30,		Percent Increase (Decrease)	
	2018	2017			2018	2017		
Property								
U.S.	\$714.4	\$677.4	5	%	\$1,424.1	\$1,353.3	5	%
Asia	112.7	110.0	2		183.6	215.6	(15))
EMEA	90.6	82.7	10		188.9	155.1	22	
Latin America	186.0	174.0	7		392.5	341.2	15	
Total property	1,103.7	1,044.1	6		2,189.1	2,065.2	6	
Services	15.7	11.1	41	%	31.4	23.8	32	%

The increase in operating profit for the three and six months ended June 30, 2018 for each of our U.S., EMEA and Latin America property segments, as well as our services segment, was primarily attributable to an increase in our segment gross margin.

The increase in operating profit for the three months ended June 30, 2018 for our Asia property segment was primarily attributable to a decrease in our segment SG&A and an increase in our segment gross margin.

The decrease in operating profit for the six months ended June 30, 2018 in our Asia property segment was attributable to an increase in our segment SG&A, which was primarily driven by a \$23.3 million increase in bad debt expense, and a decrease in our segment gross margin.

Depreciation, Amortization and Accretion

	Three Months Ended June 30,		Percent Increase		Six Months Ended June 30,		Percent Increase
	2018	2017	(Decrease)		2018	2017	(Decrease)
Depreciation, amortization and accretion	\$449.7	\$396.4	13 %		\$896.0	\$817.5	10 %

The increases in depreciation, amortization and accretion expense for the three and six months ended June 30, 2018 were primarily attributable to the acquisition, lease or construction of new sites since the beginning of the prior-year period, which resulted in increases in property and equipment and intangible assets subject to amortization.

Other Operating Expenses

	Three Months Ended June 30,		Percent Increase		Six Months Ended June 30,		Percent Increase
	2018	2017	(Decrease)		2018	2017	(Decrease)
Other operating expenses	\$67.0	\$18.9	254 %		\$234.8	\$25.1	835 %

The increase in other operating expenses for the three months ended June 30, 2018 was primarily attributable to an increase in impairment charges of \$33.2 million. These charges included \$28.9 million related to tower and network intangible assets in our Asia property segment due to carrier consolidation-driven churn in India. The increase was also attributable to an increase in acquisition-related expenses of \$3.1 million.

The increase in other operating expenses for the six months ended June 30, 2018 was primarily attributable to an increase in impairment charges of \$178.5 million. These charges included \$69.0 million related to tower and network intangible assets and \$107.3 million related to tenant-related intangible assets in our Asia property segment due to Aircel's filing for bankruptcy protection and other carrier consolidation-driven churn in India. The increase was also attributable to the nonrecurrence of a \$21.5 million refund of acquisition costs recorded in the prior-year period related to an acquisition in Brazil, partially offset by \$10.0 million to fund our charitable foundation in the prior-year period.

Total Other Expense

	Three Months Ended June 30,		Percent Increase		Six Months Ended June 30,		Percent Increase
	2018	2017	(Decrease)		2018	2017	(Decrease)
Total other expense	\$227.7	\$164.5	38 %		\$381.4	\$361.7	5 %

The increase in total other expense during the three months ended June 30, 2018 was primarily due to foreign currency losses of \$40.4 million in the current period, compared to foreign currency gains of \$6.9 million in the prior-year period. The increase was also attributable to an incremental net interest expense of \$10.8 million due to a \$2.2 billion increase in our average debt outstanding.

The increase in total other expense during the six months ended June 30, 2018 was primarily due to foreign currency losses of \$17.1 million in the current period, compared to foreign currency gains of \$35.0 million in the prior-year period and additional net interest expense of \$21.2 million due to a \$2.2 billion increase in our average debt outstanding. The increase was partially offset by a loss on retirement of long-term obligations of \$55.7 million recorded in the prior-year period attributable to the redemption of the 7.25% senior unsecured notes due 2019 and the repayment of the Secured Cellular Site Revenue Notes, Series 2012-2 Class A, Series 2012-2 Class B and Series 2012-2 Class C and Secured Cellular Site Revenue Notes, Series 2010-2, Class C and Series 2010-2, Class F.

Income Tax Provision (Benefit)

	Three Months Ended June 30,		Percent Increase	Six Months Ended June 30,		Percent Increase
	2018	2017	(Decrease)	2018	2017	(Decrease)
Income tax provision (benefit)	\$3.9	\$23.9	(84)%	\$(27.2)	\$50.7	(154)%
Effective tax rate	1.2 %	5.8 %		(4.8)%	6.8 %	

As a real estate investment trust for U.S. federal income tax purposes (“REIT”), we may deduct earnings distributed to stockholders against the income generated by our REIT operations. In addition, we are able to offset certain income by utilizing our net operating losses (“NOLs”), subject to specified limitations. Consequently, the effective tax rate on income from continuing operations for the three and six months ended June 30, 2018 and 2017 differs from the federal statutory rate.

The decrease in the income tax provision for the three months ended June 30, 2018 was primarily attributable to the tax impact of an increase in impairment charges in our Asia property segment offset by the nonrecurrence of a prior-year benefit from a clarification in income tax law in Ghana. The change in the income tax provision (benefit) for the six months ended June 30, 2018 was primarily attributable to the tax effect of an increase in impairment charges and a one-time benefit for merger-related activity in our Asia property segment.

Net Income/Adjusted EBITDA and Net Income/Nareit FFO/Consolidated AFFO

Corporate capital expenditures	(2.3)	(3.5)	(34)	(4.7)	(6.7)	(30)
Adjustments for unconsolidated affiliates and noncontrolling interests	60.2	51.2	18	147.1	82.9	77
Consolidated AFFO	\$844.0	\$725.1	16 %	\$1,651.1	\$1,446.4	14 %
Adjustments for unconsolidated affiliates and noncontrolling interests (4)	(69.3)	(43.9)	58 %	(117.1)	(84.7)	38 %
AFFO attributable to American Tower Corporation common stockholders	\$774.7	\$681.2	14 %	\$1,534.0	\$1,361.7	13 %

- (1) For the six months ended June 30, 2018, amount includes a tax benefit primarily attributable to the tax effect of an increase in impairment charges and a one-time benefit for merger-related activity in our Asia property segment.
- (2) Includes unrealized losses (gains) on foreign currency exchange rate fluctuations of \$39.1 million, (\$7.7 million), \$14.2 million and (\$35.7 million), respectively.
- (3) Includes integration and acquisition-related costs.
- (4) Includes adjustments for the impact on both Nareit FFO attributable to American Tower Corporation common stockholders as well as the other line items included in the calculation of Consolidated AFFO.

Three Months Ended June 30, 2018

The decrease in net income was primarily attributable to increases in depreciation, amortization and accretion expense and impairment charges and an increase in other expenses primarily due to foreign currency exchange rate losses of \$40.4 million, partially offset by an increase in our operating profit.

The increase in Adjusted EBITDA was primarily attributable to the increase in our gross margin and was partially offset by an increase in SG&A of \$5.7 million, excluding the impact of stock-based compensation expense.

The growth in Consolidated AFFO and AFFO attributable to American Tower Corporation common stockholders was primarily attributable to the increase in our operating profit, a decrease in dividends on preferred stock and a decrease in the adjustment for straight-line revenue, partially offset by an increase in cash paid for interest.

Six Months Ended June 30, 2018

The decrease in net income was primarily due to an increase in other operating expenses, primarily related to an increase in impairment charges of \$178.5 million, an increase in depreciation, amortization and accretion expense, foreign currency losses and the change in the income tax provision (benefit), partially offset by an increase in our operating profit and the nonrecurrence of a loss on retirement of long-term obligations of \$55.7 million recorded in the prior-year period.

The increase in Adjusted EBITDA was primarily attributable to the increase in our gross margin and was partially offset by an increase in SG&A of \$39.4 million, excluding the impact of stock-based compensation expense.

The growth in Consolidated AFFO and AFFO attributable to American Tower Corporation common stockholders was primarily attributable to the increase in our operating profit, a decrease in dividends on preferred stock and a decrease in the adjustment for straight-line revenue, partially offset by increases in cash paid for interest and corporate SG&A.

Liquidity and Capital Resources

The information in this section updates as of June 30, 2018 the “Liquidity and Capital Resources” section of the 2017 Form 10-K and should be read in conjunction with that report.

Overview

As a holding company, our cash flows are derived primarily from the operations of, and distributions from, our operating subsidiaries or funds raised through borrowings under our credit facilities and debt or equity offerings. The following table summarizes the significant components of our liquidity (in millions):

	As of June 30, 2018
Available under the 2013 Credit Facility	\$1,145.0
Available under the 2014 Credit Facility	2,000.0
Letters of credit	(9.8)
Total available under credit facilities, net	3,135.2
Cash and cash equivalents	834.5
Total liquidity	\$3,969.7

Subsequent to June 30, 2018, we borrowed a net amount of \$250.0 million under our multicurrency senior unsecured revolving credit facility entered into in June 2013, as amended (the “2013 Credit Facility”), which we used for general corporate purposes.

Summary cash flow information is set forth below (in millions):

	Six Months Ended June 30, 2018 2017	
Net cash provided by (used for):		
Operating activities	\$1,731.8	\$1,472.8
Investing activities	(1,843.0)	(1,214.5)
Financing activities	188.4	(290.6)
Net effect of changes in foreign currency exchange rates on cash and cash equivalents	(62.0)	9.1
Net increase (decrease) in cash and cash equivalents, and restricted cash	\$15.2	\$(23.2)

We use our cash flows to fund our operations and investments in our business, including tower maintenance and improvements, communications site construction and managed network installations and tower and land acquisitions. Additionally, we use our cash flows to make distributions, including distributions of our REIT taxable income to maintain our qualification for taxation as a REIT under the Internal Revenue Code of 1986, as amended. We may also repay or repurchase our existing indebtedness or equity from time to time. We typically fund our international expansion efforts primarily through a combination of cash on hand, intercompany debt and equity contributions. As of June 30, 2018, we had total outstanding principal indebtedness of \$21.3 billion, with a current portion of \$2.8 billion. During the six months ended June 30, 2018, we generated sufficient cash flow from operations to fund our capital expenditures and debt service obligations, as well as our required distributions. We believe cash generated by operating activities during the year ending December 31, 2018, together with our borrowing capacity under our credit facilities, will be sufficient to fund our required distributions, capital expenditures, debt service obligations (interest and principal repayments) and signed acquisitions. As of June 30, 2018, we had \$742.3 million of cash and cash equivalents held by our foreign subsidiaries, of which \$313.1 million was held by our joint ventures. While certain subsidiaries may pay us interest or principal on intercompany debt, it has not been our practice to repatriate earnings from our foreign subsidiaries primarily due to our ongoing expansion efforts and related capital needs. However, in the event that we do repatriate any funds, we may be required to accrue and pay taxes.

Cash Flows from Operating Activities

The increase in cash provided by operating activities for the six months ended June 30, 2018 was attributable to an increase in the operating profit of most of our property segments, a decrease in the impact of straight-line revenue and an increase in interest income, partially offset by an increase in cash used for working capital.

Cash Flows from Investing Activities

Our significant investing activities during the six months ended June 30, 2018 are highlighted below:

▲We spent \$1,336.5 million for acquisitions, primarily to fund the Vodafone Acquisition and the Idea Acquisition.

▲We spent \$434.5 million for capital expenditures, as follows (in millions):

Discretionary capital projects (1)	\$139.0
Ground lease purchases	75.6
Capital improvements and corporate expenditures (2)	66.0
Redevelopment	106.4
Start-up capital projects	47.5
Total capital expenditures (3)	\$434.5

(1) Includes the construction of 769 communications sites globally.

Includes \$16.0 million of capital lease payments included in Repayments of notes payable, credit facilities, senior

(2) notes, secured debt and capital leases in the cash flow from financing activities in our condensed consolidated statements of cash flows.

(3) Net of purchase credits of \$6.4 million on certain assets, which are reported in operating activities in our condensed consolidated statements of cash flows.

We plan to continue to allocate our available capital, after satisfying our distribution requirements, among investment alternatives that meet our return on investment criteria, while maintaining our commitment to our long-term financial policies. Accordingly, we expect to continue to deploy capital through our annual capital expenditure program, including land purchases and new site construction, and through acquisitions. A review is also being conducted of our tower portfolios as to whether any additional capital expenditures are required to upgrade our towers in certain jurisdictions to our structural standards or address capacity, structural or permitting issues. We expect that our 2018 total capital expenditures will be between \$850 million and \$950 million, as follows (in millions):

Discretionary capital projects (1)	\$250 to \$290
Ground lease purchases	150 to 170
Capital improvements and corporate expenditures	150 to 160
Redevelopment	210 to 230
Start-up capital projects	90 to 100
Total capital expenditures	\$850 to \$950

(1) Includes the construction of approximately 2,000 to 3,000 communications sites globally.

Cash Flows from Financing Activities

Our significant financing activities were as follows (in millions):

	Six Months Ended June 30,	
	2018	2017
Proceeds from issuance of senior notes, net	\$584.9	\$1,279.4
(Repayments of) proceeds from credit facilities, net	(965.9)	93.6
Proceeds from term loan	1,500.0	—
Proceeds from issuance of securities in securitization transaction	500.0	—
Repayments of securitized debt	(500.0)	(302.5)
Repayment of senior notes	—	(300.0)
(Distributions to) contributions from noncontrolling interest holders, net (1)	(13.9)	265.3
Distributions paid on common and preferred stock	(654.5)	(568.5)
Purchases of common stock	(98.6)	(641.4)

(1) 2017 contributions primarily relate to the funding of the FPS Acquisition.

Senior Notes

1.950% Senior Notes Offering—On May 22, 2018, we completed a registered public offering of 500.0 million Euros (\$589.0 million at the date of issuance) aggregate principal amount of 1.950% senior unsecured notes due 2026 (the “1.950% Notes”). The net proceeds from this offering were approximately 493.2 million Euros (approximately \$581.0 million at the date of issuance), after deducting commissions and estimated expenses. We used the net proceeds to repay existing indebtedness under the 2013 Credit Facility.

The 1.950% Notes will mature on May 22, 2026 and bear interest at a rate of 1.950% per annum. Accrued and unpaid interest on the 1.950% Notes will be payable in Euros in arrears on May 22 of each year, beginning on May 22, 2019. Interest on the 1.950% Notes will be computed on the basis of the actual number of days in the period for which interest is being calculated and the actual number of days from and including the last date on which interest was paid on the 1.950% Notes and commenced accruing on May 22, 2018.

We may redeem the 1.950% Notes at any time, in whole or in part, at a redemption price equal to 100% of the principal amount of the notes plus a make-whole premium, together with accrued interest to the redemption date. If we redeem the 1.950% Notes on or after February 22, 2026, we will not be required to pay a make-whole premium. In addition, if we undergo a change of control and corresponding ratings decline, each as defined in the supplemental indenture, we may be required to repurchase all of the notes at a purchase price equal to 101% of the principal amount of such notes, plus accrued and unpaid interest (including additional interest, if any), up to but not including the repurchase date. The notes rank equally with all of our other senior unsecured debt and are structurally subordinated to all existing and future indebtedness and other obligations of our subsidiaries.

The supplemental indenture contains certain covenants that restrict our ability to merge, consolidate or sell assets and our (together with our subsidiaries’) ability to incur liens. These covenants are subject to a number of exceptions, including that we and our subsidiaries may incur certain liens on assets, mortgages or other liens securing indebtedness if the aggregate amount of such liens does not exceed 3.5x Adjusted EBITDA, as defined in the supplemental indenture.

Securitizations

Repayment of Series 2013-1A Securities. On the March 2018 payment date, we repaid the \$500.0 million aggregate principal amount outstanding under the Secured Tower Revenue Securities, Series 2013-1A (the “Series 2013-1A Securities”), pursuant to the terms of the agreements governing such securities. The repayment was funded with borrowings under our multicurrency senior unsecured revolving credit facility entered into in January 2012 and amended and restated in September 2014, as further amended (the “2014 Credit Facility”) and cash on hand.

Secured Tower Revenue Securities, Series 2018-1, Subclass A and Series 2018-1, Subclass R. On March 29, 2018, we completed a securitization transaction (the “2018 Securitization”), in which the American Tower Trust I (the “Trust”) issued \$500.0 million aggregate principal amount of Secured Tower Revenue Securities, Series 2018-1, Subclass A (the “Series 2018-1A Securities”). To satisfy the applicable risk retention requirements of Regulation RR promulgated under the Securities Exchange Act of 1934, as amended (the “Exchange Act” and, such requirements, the “Risk Retention Rules”), the Trust issued, and one of our affiliates purchased, \$26.4 million aggregate principal amount of Secured Tower Revenue Securities, Series 2018-1, Subclass R (the “Series 2018-1R Securities” and, together with the Series 2018-1A Securities, the “2018 Securities”) to retain an “eligible horizontal residual interest” (as defined in the Risk Retention Rules) in an amount equal to at least 5% of the fair value of the 2018 Securities.

The assets of the Trust consist of a nonrecourse loan (the “Loan”) made by the Trust to American Tower Asset Sub, LLC and American Tower Asset Sub II, LLC (together, the “AMT Asset Subs”). The AMT Asset Subs are jointly and severally liable under the Loan, which is secured primarily by mortgages on the AMT Asset Subs’ interests in 5,116 broadcast and wireless communications towers and related assets (the “Trust Sites”).

The 2018 Securities correspond to components of the Loan made to the AMT Asset Subs pursuant to the Second Amended and Restated Loan and Security Agreement among the Trust and the AMT Asset Subs, dated as of March 29, 2018 (the “Loan Agreement”) and were issued in two separate subclasses of the same series. The 2018 Securities represent a pass-through interest in the components of the Loan corresponding to the 2018 Securities. The Series 2018-1A Securities have an interest rate of 3.652% and the Series 2018-1R Securities have an interest rate of 4.459%. The 2018 Securities have an expected life of approximately ten years with a final repayment date in March 2048.

The AMT Asset Subs may prepay the Loan at any time provided it is accompanied by applicable prepayment consideration. If the prepayment occurs within thirty-six months of the anticipated repayment date for the 2018 Securities, no prepayment consideration is due. The entire unpaid principal balance of the components of the Loan corresponding to the 2018 Securities will be due in March 2048.

The Loan is secured by (1) mortgages, deeds of trust and deeds to secure debt on substantially all of the Trust Sites and their operating cash flows, (2) a security interest in substantially all of the AMT Asset Subs’ personal property and fixtures and (3) the AMT Asset Subs’ rights under that certain management agreement among the AMT Asset Subs and SpectraSite Communications, LLC entered into in March 2013. American Tower Holding Sub, LLC (the “Guarantor”), whose only material assets are its equity interests in each of the AMT Asset Subs, and American Tower Guarantor Sub, LLC whose only material asset is its equity interests in the Guarantor, have each guaranteed repayment of the Loan and pledged their equity interests in their respective subsidiary or subsidiaries as security for such payment obligations.

The Secured Tower Revenue Securities, Series 2013-2A (the “Series 2013-2A Securities”) issued in a securitization transaction in March 2013 (the “2013 Securitization” and, together with the 2018 Securitization, the “Trust Securitizations”) remain outstanding and are subject to the terms of the Second Amended and Restated Trust and Servicing Agreement entered into in connection with the 2018 Securitization. The component of the Loan corresponding to the Series 2013-2A Securities also remains outstanding and is subject to the terms of the Loan Agreement.

For more information regarding the Trust Securitizations, see “—Factors Affecting Sources of Liquidity” below.

Bank Facilities

2013 Credit Facility. During the six months ended June 30, 2018, we borrowed an aggregate of \$1.5 billion and repaid an aggregate of \$2.0 billion of revolving indebtedness under the 2013 Credit Facility. We used the borrowings to fund acquisitions, repay existing indebtedness and for general corporate purposes. We currently have \$3.5 million of undrawn letters of credit and maintain the ability to draw down and repay amounts under the 2013 Credit Facility in the ordinary course.

2014 Credit Facility. During the six months ended June 30, 2018, we borrowed an aggregate of \$1.1 billion and repaid an aggregate of \$1.5 billion of revolving indebtedness under the 2014 Credit Facility. We used the borrowings to repay existing indebtedness, including the Series 2013-1A Securities, and for general corporate purposes. We currently

have \$6.3 million of undrawn letters of credit and maintain the ability to draw down and repay amounts under the 2014 Credit Facility in the ordinary course.

2018 Term Loan. On March 29, 2018, we entered into a \$1.5 billion unsecured term loan (the “2018 Term Loan”), the net proceeds of which were used to repay \$1.1 billion of outstanding indebtedness under the 2013 Credit Facility and \$445.0 million of outstanding indebtedness under the 2014 Credit Facility. Any outstanding principal and accrued but unpaid interest will be due and payable in full at maturity.

Our \$1.0 billion unsecured term loan entered into in October 2013, as amended (the “2013 Term Loan”), the 2013 Credit Facility, the 2014 Credit Facility and the 2018 Term Loan do not require amortization of principal and may be paid prior to maturity in whole or in part at our option without penalty or premium. We have the option of choosing either a defined base rate or the London Interbank Offered Rate (“LIBOR”) as the applicable base rate for borrowings under these bank facilities.

As of June 30, 2018, the key terms under the 2013 Credit Facility, the 2014 Credit Facility, the 2013 Term Loan and the 2018 Term Loan were as follows:

Bank Facility (1)	Outstanding Principal Balance	Maturity Date	LIBOR borrowing interest rate range (2)	Base rate borrowing interest rate range (2)	Current margin over LIBOR and the base rate, respectively
2013 Credit Facility	\$ 1,605.0	June 28, 2021	(3) 0.875% - 1.750%	0.000% - 0.750%	1.125% and 0.125%
2014 Credit Facility	\$ —	January 31, 2023	(3) 1.000% - 2.000%	0.000% - 1.000%	1.250% and 0.250%
2013 Term Loan	\$ 1,000.0	January 31, 2023	1.000% - 2.000%	0.000% - 1.000%	1.250% and 0.250%
2018 Term Loan	\$ 1,500.0	March 29, 2019	0.625% - 1.500%	0.000% - 0.500%	0.875% and 0.000%

(1) Currently borrowed at LIBOR.

(2) Represents interest rate above LIBOR for LIBOR based borrowings and the interest rate above the defined base rate for base rate borrowings, in each case based on our debt ratings.

(3) Subject to two optional renewal periods.

We must pay a quarterly commitment fee on the undrawn portion of each of the 2013 Credit Facility and the 2014 Credit Facility. The commitment fee for the 2013 Credit Facility ranges from 0.100% to 0.350% per annum, based upon our debt ratings, and is currently 0.125%. The commitment fee for the 2014 Credit Facility ranges from 0.100% to 0.400% per annum, based upon our debt ratings, and is currently 0.150%.

The loan agreements for each of the 2013 Term Loan, the 2013 Credit Facility, the 2014 Credit Facility and the 2018 Term Loan contain certain reporting, information, financial and operating covenants and other restrictions (including limitations on additional debt, guaranties, sales of assets and liens) with which we must comply. Failure to comply with the financial and operating covenants of the loan agreements could not only prevent us from being able to borrow additional funds under the revolving credit facilities, but may constitute a default, which could result in, among other things, the amounts outstanding, including all accrued interest and unpaid fees, becoming immediately due and payable.

Stock Repurchase Programs. In March 2011, our Board of Directors approved a stock repurchase program, pursuant to which we are authorized to repurchase up to \$1.5 billion of our common stock (the “2011 Buyback”). In December 2017, our Board of Directors approved an additional stock repurchase program, pursuant to which we are authorized to repurchase up to \$2.0 billion of our common stock (the “2017 Buyback” and, together with the 2011 Buyback, the

“Buyback Programs”).

During the six months ended June 30, 2018, we repurchased 722,032 shares of our common stock under the 2011 Buyback for an aggregate of \$100.0 million, including commissions and fees. We had no repurchases under the 2017 Buyback.

We expect to continue managing the pacing of the remaining \$2.2 billion (as of July 24, 2018) under the Buyback Programs in response to general market conditions and other relevant factors. We expect to fund further repurchases of

our common stock through a combination of cash on hand, cash generated by operations and borrowings under our credit facilities. Purchases under the Buyback Programs are subject to us having available cash to fund repurchases. Sales of Equity Securities. We receive proceeds from sales of our equity securities pursuant to our employee stock purchase plan (“ESPP”) and upon exercise of stock options granted under our equity incentive plans. For the six months ended June 30, 2018, we received an aggregate of \$40.2 million in proceeds upon exercises of stock options and sales pursuant to the ESPP.

Distributions. As a REIT, we must annually distribute to our stockholders an amount equal to at least 90% of our REIT taxable income (determined before the deduction for distributed earnings and excluding any net capital gain). Generally, we have distributed, and expect to continue to distribute, all or substantially all of our REIT taxable income after taking into consideration our utilization of NOLs. We have distributed an aggregate of approximately \$5.0 billion to our common stockholders, including the dividend paid in July 2018, primarily classified as ordinary income. During the six months ended June 30, 2018, we paid \$1.45 per share, or \$631.4 million, to common stockholders of record. In addition, we declared a distribution of \$0.77 per share, or \$339.8 million, paid on July 13, 2018 to our common stockholders of record at the close of business on June 19, 2018.

The amount, timing and frequency of future distributions will be at the sole discretion of our Board of Directors and will depend on various factors, a number of which may be beyond our control, including our financial condition and operating cash flows, the amount required to maintain our qualification for taxation as a REIT and reduce any income and excise taxes that we otherwise would be required to pay, limitations on distributions in our existing and future debt, our ability to utilize NOLs to offset our distribution requirements, limitations on our ability to fund distributions using cash generated through our taxable REIT subsidiaries and other factors that our Board of Directors may deem relevant.

During the six months ended June 30, 2018, all outstanding shares of our 5.50% Mandatory Convertible Preferred Stock, Series B, par value \$0.01 per share (the “Series B Preferred Stock”), converted automatically at a rate of 8.7420 per share of Series B Preferred Stock, or 0.8742 per depositary share, each representing a 1/10th interest in a share of Series B Preferred Stock, into an aggregate of 12,020,064 shares of our common stock pursuant to the provisions of the Certificate of Designations governing the Series B Preferred Stock.

During the six months ended June 30, 2018, we paid the final dividend of \$13.75 per share, or \$18.9 million, to holders of the Series B Preferred Stock of record at the close of business on February 1, 2018.

We accrue distributions on unvested restricted stock units, which are payable upon vesting. As of June 30, 2018, the amount accrued for distributions payable related to unvested restricted stock units was \$9.9 million. During the six months ended June 30, 2018, we paid \$4.2 million of distributions upon the vesting of restricted stock units.

Factors Affecting Sources of Liquidity

As discussed in the “Liquidity and Capital Resources” section of the 2017 Form 10-K, our liquidity depends on our ability to generate cash flow from operating activities, borrow funds under our credit facilities and maintain compliance with the contractual agreements governing our indebtedness. We believe that the debt agreements discussed below represent our material debt agreements that contain covenants, our compliance with which would be material to an investor’s understanding of our financial results and the impact of those results on our liquidity.

Restrictions Under Loan Agreements Relating to Our Credit Facilities. The loan agreements for the 2013 Credit Facility, the 2014 Credit Facility, the 2013 Term Loan and the 2018 Term Loan contain certain financial and operating covenants and other restrictions applicable to us and our subsidiaries that are not designated as unrestricted subsidiaries on a consolidated basis. These restrictions include limitations on additional debt, distributions and dividends, guaranties, sales of assets and liens. The loan agreements also contain covenants that establish financial tests with which we and our restricted subsidiaries must comply related to total leverage and senior secured leverage, as set forth in the table below. In the event that our debt ratings fall below investment grade, we must also maintain an interest coverage ratio of Adjusted EBITDA to Interest Expense (each as defined in the applicable loan agreement) of

at least 2.50:1.00. As of June 30, 2018, we were in compliance with each of these covenants.

		Compliance Tests For The 12 Months Ended June 30, 2018 (\$ in billions)	
	Ratio (1)	Additional Debt Capacity Under Covenants (2)	Capacity for Adjusted EBITDA Decrease Under Covenants (3)
Consolidated Total Leverage Ratio	Total Debt to Adjusted EBITDA ≤ 6.00:1.00	~ \$5.1	~ \$0.9
Consolidated Senior Secured Leverage Ratio	Senior Secured Debt to Adjusted EBITDA ≤ 3.00:1.00	~ \$9.8 (4)	~ \$3.3

(1) Each component of the ratio as defined in the applicable loan agreement.

(2) Assumes no change to Adjusted EBITDA.

(3) Assumes no change to our debt levels.

(4) Effectively, however, additional Senior Secured Debt under this ratio would be limited to the capacity under the Consolidated Total Leverage Ratio.

The loan agreements for our credit facilities also contain reporting and information covenants that require us to provide financial and operating information to the lenders within certain time periods. If we are unable to provide the required information on a timely basis, we would be in breach of these covenants.

Failure to comply with the financial maintenance tests and certain other covenants of the loan agreements for our credit facilities could not only prevent us from being able to borrow additional funds under these credit facilities, but may constitute a default under these credit facilities, which could result in, among other things, the amounts outstanding, including all accrued interest and unpaid fees, becoming immediately due and payable. If this were to occur, we may not have sufficient cash on hand to repay such indebtedness. The key factors affecting our ability to comply with the debt covenants described above are our financial performance relative to the financial maintenance tests defined in the loan agreements for these credit facilities and our ability to fund our debt service obligations. Based upon our current expectations, we believe our operating results during the next 12 months will be sufficient to comply with these covenants.

Restrictions Under Agreements Relating to the 2015 Securitization and the Trust Securitizations. The indenture and related supplemental indentures governing the American Tower Secured Revenue Notes, Series 2015-1, Class A (the “Series 2015-1 Notes”) and the American Tower Secured Revenue Notes, Series 2015-2, Class A (the “Series 2015-2 Notes,” and, together with the Series 2015-1 Notes, the “2015 Notes”) issued by GTP Acquisition Partners I, LLC (“GTP Acquisition Partners”) in a private securitization transaction in May 2015 (the “2015 Securitization”) and the Loan Agreement include certain financial ratios and operating covenants and other restrictions customary for transactions subject to rated securitizations. Among other things, the AMT Asset Subs and GTP Acquisition Partners are prohibited from incurring other indebtedness for borrowed money or further encumbering their assets, subject to customary carve-outs for ordinary course trade payables and permitted encumbrances (as defined in the applicable agreement).

Under the agreements, amounts due will be paid from the cash flows generated by the assets securing the 2015 Notes and the assets securing the Loan, as applicable, which must be deposited into certain reserve accounts, and thereafter distributed, solely pursuant to the terms of the applicable agreement. On a monthly basis, after payment of all required amounts under the applicable agreement, subject to the conditions described in the table below, the excess cash flows generated from the operation of such assets are released to GTP Acquisition Partners or the AMT Asset Subs, as applicable, which can then be distributed to, and used by, us. As of June 30, 2018, \$92.7 million held in such reserve accounts was classified as restricted cash.

Certain information with respect to the 2015 Securitization and the Trust Securitizations is set forth below. The debt service coverage ratio (“DSCR”) is generally calculated as the ratio of the net cash flow (as defined in the applicable agreement) to the amount of interest, servicing fees and trustee fees required to be paid over the succeeding 12 months on the principal amount of the 2015 Notes or the Loan, as applicable, that will be outstanding on the payment date following such date of determination.

	Issuer or Borrower	Notes/Securities Issued	Conditions Limiting Distributions of Excess Cash	Amortization Period	Excess Cash Distributed During the Six Months Ended June 30, 2018 (in millions)	DSCR as of June 30, 2018	Capacity for Decrease in Net Cash Flow Before Triggering Cash Trap DSCR (1) (in millions)	Capacity for Decrease in Net Cash Flow Before Triggering Minimum DSCR (1) (in millions)
2015 Securitization	GTP Acquisition Partners	American Tower Secured Revenue Notes, Series 2015-1 and Series 2015-2 Secured Tower Revenue Securities, Series 2013-2A, Secured Tower Revenue Securities, Series 2018-1, Subclass A and Secured Tower Revenue Securities, Series 2018-1, Subclass R	1.30x, Tested Quarterly (2)	(3)(4)	\$102.8	8.32x	\$187.4	\$191.4
Trust Securitized	AMT Asset Subs		1.30x, Tested Quarterly (2)	(3)(5)	\$339.8	10.50x	\$549.8	\$558.8

- (1) Based on the net cash flow of the applicable issuer or borrower as of June 30, 2018 and the expenses payable over the next 12 months on the 2015 Notes or the Loan, as applicable.
- Once triggered, a Cash Trap DSCR condition continues to exist until the DSCR exceeds the Cash Trap DSCR for two consecutive calendar quarters. During a Cash Trap DSCR condition, all cash flow in excess of amounts required to make debt service payments, fund required reserves, pay management fees and budgeted operating expenses and make other payments required under the applicable transaction documents, referred to as excess cash flow, will be deposited into a reserve account (the “Cash Trap Reserve Account”) instead of being released to the applicable issuer or borrower.
- An amortization period commences if the DSCR is equal to or below 1.15x (the “Minimum DSCR”) at the end of any calendar quarter and continues to exist until the DSCR exceeds the Minimum DSCR for two consecutive calendar quarters.
- No amortization period is triggered if the outstanding principal amount of a series has not been repaid in full on the applicable anticipated repayment date. However, in such event, additional interest will accrue on the unpaid principal balance of the applicable series, and such series will begin to amortize on a monthly basis from excess cash flow.
- (4) An amortization period exists if the outstanding principal amount has not been paid in full on the applicable anticipated repayment date and continues to exist until such principal has been repaid in full.

A failure to meet the noted DSCR tests could prevent GTP Acquisition Partners or the AMT Asset Subs from distributing excess cash flow to us, which could affect our ability to fund our capital expenditures, including tower construction and acquisitions and meet REIT distribution requirements. During an “amortization period,” all excess cash flow and any amounts then in the applicable Cash Trap Reserve Account would be applied to pay principal of the 2015 Notes or the Loan, as applicable, on each monthly payment date, and so would not be available for distribution to us. Further, additional interest will begin to accrue with respect to any series of the 2015 Notes or subclass of the

Loan from and after the anticipated repayment date at a per annum rate determined in accordance with the applicable agreement. With respect to the 2015 Notes, upon the occurrence of, and during, an event of default, the applicable trustee may, in its discretion or at the direction of holders of more than 50% of the aggregate outstanding principal of any series of the 2015 Notes, declare such series of 2015 Notes immediately due and payable, in which case any excess cash flow would need to be used to pay holders of such notes. Furthermore, if GTP Acquisition Partners or the AMT Asset Subs were to default on a series of the 2015 Notes or the Loan, the applicable trustee may seek to foreclose upon or otherwise convert the ownership of all or any portion of the 3,573 communications sites that secure the 2015 Notes or the 5,116 sites that secure the Loan, respectively, in which case we could lose such sites and the revenue associated with those assets.

As discussed above, we use our available liquidity and seek new sources of liquidity to fund capital expenditures, future growth and expansion initiatives, satisfy our distribution requirements and repay or repurchase our debt. If we determine that it is desirable or necessary to raise additional capital, we may be unable to do so, or such additional financing may be prohibitively expensive or restricted by the terms of our outstanding indebtedness. If we are unable to raise capital when our needs arise, we may not be able to fund capital expenditures, future growth and expansion initiatives, satisfy our REIT distribution requirements and debt service obligations or refinance our existing indebtedness.

In addition, our liquidity depends on our ability to generate cash flow from operating activities. As set forth under the caption “Risk Factors” in Item 1A of the 2017 Form 10-K, we derive a substantial portion of our revenues from a small number of tenants and, consequently, a failure by a significant tenant to perform its contractual obligations to us could adversely affect our cash flow and liquidity.

For more information regarding the terms of our outstanding indebtedness, please see note 8 to our consolidated financial statements included in the 2017 Form 10-K.

Critical Accounting Policies and Estimates

Management’s discussion and analysis of financial condition and results of operations are based upon our consolidated and condensed consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, as well as related disclosures of contingent assets and liabilities.

We evaluate our policies and estimates on an ongoing basis, including those related to impairment of long-lived assets, asset retirement obligations, revenue recognition, rent expense, stock-based compensation, income taxes and accounting for business combinations and acquisitions of assets, which we discussed in the 2017 Form 10-K.

Management bases its estimates on historical experience and various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying amounts of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

We have reviewed our policies and estimates to determine our critical accounting policies for the six months ended June 30, 2018. We have made no material changes to the critical accounting policies described in the 2017 Form 10-K.

During the six months ended June 30, 2018, no potential goodwill impairment was identified as the fair value of each of our reporting units was in excess of its carrying amount. The fair value of our India reporting unit, which is based on the present value of forecasted future cash flows (the income approach) exceeded the carrying value by approximately \$293.3 million, or 7%. As a result of the telecommunications carrier consolidation occurring in the India market, including the impact of Aircel’s filing for bankruptcy protection, we lowered our discounted cash flow projections, which increases the sensitivity of these projections to changes in the key assumptions used in determining the fair value of the India reporting unit as of June 30, 2018. Key assumptions include future revenue growth rates and operating margins, capital expenditures, terminal period growth rate and the weighted-average cost of capital, which were determined considering historical data and current assumptions related to the impacts of the carrier consolidation.

For this reporting unit, we performed a sensitivity analysis on our significant assumptions as of December 31, 2017 and determined that a (i) 6% reduction on projected revenues, (ii) 21 basis point increase in the weighted-average cost of capital or (iii) 10% reduction in terminal sales growth rate, individually, each of which we determined to be reasonable, would impact our conclusion that the fair value of the India reporting unit exceeds its carrying value.

There have been no material adverse changes to these sensitivities during the six months ended June 30, 2018. Events that could negatively affect our India reporting unit’s financial results include increased customer attrition exceeding our forecast resulting from the ongoing carrier consolidation, carrier tenant bankruptcies and other factors set forth under the caption “Risk Factors” in Item 1A of the 2017 Form 10-K.

The carrying value of goodwill in the India reporting unit was \$1,071.3 million as of June 30, 2018, which represents 19% of our consolidated balance of \$5,526.6 million.

Accounting Standards Update

For a discussion of recent accounting standards updates, see note 1 to our consolidated and condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest Rate Risk

As of June 30, 2018, we have one interest rate swap agreement related to debt in Colombia. This swap has been designated as a cash flow hedge, has a notional amount of \$21.3 million, has an interest rate of 5.74% and expires in April 2021. We also have three interest rate swap agreements related to the 2.250% senior unsecured notes due 2022 (the “2.250% Notes”). These swaps have been designated as fair value hedges, have an aggregate notional amount of \$600.0 million, have an interest rate of one-month LIBOR plus applicable spreads and expire in January 2022. In addition, we have three interest rate swap agreements related to a portion of the 3.000% senior unsecured notes due 2023 (the “3.000% Notes”). These swaps have been designated as fair value hedges, have an aggregate notional amount of \$500.0 million and an interest rate of one-month LIBOR plus applicable spreads and expire in June 2023.

Changes in interest rates can cause interest charges to fluctuate on our variable rate debt. Variable rate debt as of June 30, 2018 consisted of \$1,605.0 million under the 2013 Credit Facility, \$1.0 billion under the 2013 Term Loan, \$1.5 billion under the 2018 Term Loan, \$600.0 million under the interest rate swap agreements related to the 2.250% Notes, \$500.0 million under the interest rate swap agreements related to the 3.000% Notes, \$53.0 million under the South African credit facility, \$21.3 million under the Colombian credit facility after giving effect to our interest rate swap agreement, \$76.3 million under the publicly issued simple debentures issued by BR Towers S.A. and \$28.6 million under the Brazil credit facility. A 10% increase in current interest rates would result in an additional \$9.0 million of interest expense for the six months ended June 30, 2018.

Foreign Currency Risk

We are exposed to market risk from changes in foreign currency exchange rates primarily in connection with our foreign subsidiaries and joint ventures internationally. Any transaction denominated in a currency other than the U.S. Dollar is reported in U.S. Dollars at the applicable exchange rate. All assets and liabilities are translated into U.S. Dollars at exchange rates in effect at the end of the applicable fiscal reporting period and all revenues and expenses are translated at average rates for the period. The cumulative translation effect is included in equity as a component of Accumulated other comprehensive loss. We may enter into additional foreign currency financial instruments in anticipation of future transactions to minimize the impact of foreign currency fluctuations. For the six months ended June 30, 2018, 44% of our revenues and 55% of our total operating expenses were denominated in foreign currencies.

As of June 30, 2018, we have incurred intercompany debt that is not considered to be permanently reinvested and similar unaffiliated balances that were denominated in a currency other than the functional currency of the subsidiary in which it is recorded. As this debt had not been designated as being a long-term investment in nature, any changes in the foreign currency exchange rates will result in unrealized gains or losses, which will be included in our determination of net income. An adverse change of 10% in the underlying exchange rates of our unsettled intercompany debt and similar unaffiliated balances would result in \$97.1 million of unrealized losses that would be included in Other expense in our consolidated statements of operations for the six months ended June 30, 2018.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We have established disclosure controls and procedures designed to ensure that material information relating to us, including our consolidated subsidiaries, is made known to the officers who certify our financial reports and to other members of senior management and the Board of Directors.

Our management, with the participation of our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer concluded that these disclosure controls and procedures were effective as of June 30, 2018 and designed to ensure that the information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported

within the requisite time periods specified in the applicable rules and forms, and that it is accumulated and

communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) during the fiscal quarter ended June 30, 2018 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

We periodically become involved in various claims and lawsuits that are incidental to our business. In the opinion of management, after consultation with counsel, there are no matters currently pending that would, in the event of an adverse outcome, have a material impact on our consolidated financial position, results of operations or liquidity.

ITEM 1A. RISK FACTORS

We have updated the risk factors regarding the impact of changes in laws or regulations and our expansion initiatives. Other than as set forth below, there were no material changes to the risk factors disclosed in Item 1A of the 2017 Form 10-K.

Our business is subject to government and tax regulations and changes in current or future laws or regulations could restrict our ability to operate our business as we currently do or impact our competitive landscape.

Our business and that of our tenants are subject to federal, state, local and foreign regulations. In certain jurisdictions, these regulations could be applied or enforced retroactively, which could require that we modify or dismantle existing towers at significant cost. Zoning authorities and community organizations are often opposed to the construction of communications sites in their communities, which can delay, prevent or increase the cost of new tower construction, modifications, additions of new antennas to a site or site upgrades, thereby limiting our ability to respond to tenant demands. Existing or new regulatory policies, zoning regulations or construction laws may materially and adversely affect the timing, cost or completion of construction projects associated with our communications sites.

Noncompliance could result in the imposition of fines or an award of damages to private litigants, or result in decreased revenue due to removal of towers to ensure compliance or resulting changes in the competitive landscape that may negatively affect our business. In addition, in certain jurisdictions, we are required to pay annual license fees, which may be subject to substantial increases by the government, or new fees may be enacted and applied retroactively. Governmental licenses may also be subject to periodic renewal. Furthermore, the tax laws, regulations and interpretations governing our business in jurisdictions where we operate may change at any time, potentially with retroactive effect. This includes changes in tax laws or official interpretations thereof. In addition, some of these changes could have a more significant impact on us as a REIT relative to other REITs due to the nature of our business and our use of taxable REIT subsidiaries. These factors could materially and adversely affect our business, results of operations or financial condition.

Our expansion initiatives involve a number of risks and uncertainties, including those related to integrating acquired or leased assets, that could adversely affect our operating results, disrupt our operations or expose us to additional risk.

As we continue to acquire communications sites in our existing markets and expand into new markets, we are subject to a number of risks and uncertainties, including not meeting our return on investment criteria and financial objectives, increased costs, assumed liabilities and the diversion of managerial attention due to acquisitions. Achieving the benefits of acquisitions depends in part on timely and efficient integration of operations, telecommunications infrastructure assets and personnel. Integration may be difficult and unpredictable for many reasons, including, among other things, portfolios without requisite permits, differing systems, cultural differences, and conflicting policies, procedures and operations. Significant acquisition-related integration costs, including certain nonrecurring charges such as costs associated with onboarding employees, acquiring permits and visiting, inspecting, engineering and upgrading tower sites, could materially and adversely affect our results of operations in the period in which such charges are recorded or our cash flow in the period in which any related costs are actually paid. Some of our acquired tower portfolios have included sites that do not meet our structural specifications, including sites that may be overburdened. In these cases, in addition to additional capital expenditures, general liability risks associated with such

towers will exist until such time as those towers can be upgraded or otherwise remedied. In addition, integration may significantly burden management and internal resources, including through the potential loss or unavailability of key personnel. If we fail to successfully integrate the assets we acquire or fail to utilize such assets to their full capacity, we may not realize the

benefits we expect from our acquired portfolios, and our business, financial condition and results of operations will be adversely affected. Our international expansion initiatives are subject to additional risks such as those described in the preceding risk factor.

As a result of acquisitions, we have a substantial amount of intangible assets and goodwill. In accordance with GAAP, we are required to assess our goodwill and other intangible assets annually or more frequently in the event of circumstances indicating potential impairment to determine if they are impaired. If, as a result of the factors noted above, the testing performed indicates that an asset may not be recoverable, we are required to record a non-cash impairment charge for the difference between the carrying value of the goodwill or other intangible assets and the implied fair value of the goodwill or the estimated fair value of other intangible assets in the period the determination is made.

Our expansion initiatives may not be successful or we may be required to record impairment charges for our goodwill or for other intangible assets, which could have a material adverse effect on our business, results of operations or financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

During the three months ended June 30, 2018, we repurchased a total of 722,032 shares of our common stock for an aggregate of \$100.0 million, including commissions and fees, pursuant to the 2011 Buyback. We had no repurchases under the 2017 Buyback. The table below sets forth details of our repurchases during the three months ended June 30, 2018.

Period	Total Number of Shares Purchased (1)	Average Price Paid per Share (2)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet be Purchased Under the Plans or Programs (in millions)
April 1, 2018 - April 30, 2018	—	\$—	—	\$ 344.8
May 1, 2018 - May 31, 2018	362,157	\$137.18	362,157	\$ 295.1
June 1, 2018 - June 30, 2018	359,875	\$139.79	359,875	\$ 244.8
Total Second Quarter	722,032	\$138.48	722,032	\$ 244.8

- Repurchases made pursuant to the 2011 Buyback. Under this program, our management is authorized to purchase shares from time to time through open market purchases or privately negotiated transactions at prevailing prices as permitted by securities laws and other legal requirements, and subject to market conditions and other factors. To facilitate repurchases, we make purchases pursuant to trading plans under Rule 10b5-1 of the Exchange Act, which allows us to repurchase shares during periods when we otherwise might be prevented from doing so under insider trading laws or because of self-imposed trading blackout periods. This program may be discontinued at any time.
- (1) Average price paid per share is a weighted average calculation using the aggregate price, excluding commissions and fees.

We continued to repurchase shares of our common stock pursuant to the 2011 Buyback subsequent to June 30, 2018. Between July 1, 2018 and July 24, 2018, we repurchased an additional 402,793 shares of our common stock for an aggregate of \$57.3 million, including commissions and fees. As a result, as of July 24, 2018, we had repurchased a total of 13.5 million shares of our common stock under the 2011 Buyback for an aggregate of \$1.3 billion, including commissions and fees.

We expect to continue to manage the pacing of the remaining \$2.2 billion under the Buyback Programs in response to general market conditions and other relevant factors. We expect to fund any further repurchases of our common stock through a combination of cash on hand, cash generated by operations and borrowings under our credit facilities. Purchases under the 2011 Buyback and the 2017 Buyback are subject to our having available cash to fund repurchases.

ITEM 6.EXHIBITS

Exhibit No. Description of Document

4.1	<u>Supplemental Indenture No. 10, dated as of May 22, 2018, by and among American Tower Corporation, U.S. Bank National Association, as trustee, and Elavon Financial Services DAC, UK Branch, as paying agent (filed as Exhibit 4.1 to the Company's Current Report on Form 8-K on May 22, 2018, and incorporated herein by reference)</u>
