**NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
For the 3 months ended September 30, 2013**

**Stated in Canadian dollars**

**Note 1 Nature and Continuance of Operations**

Golden Global Corp. ("the Company"), incorporated in the State of Nevada, USA on December 10, 2009, and its wholly-owned subsidiary are engaged in the acquisition, exploration and development of precious metal properties. The Company's wholly owned subsidiary is Golden Global Mining Corporation which was incorporated in the Province of Alberta, Canada on January 10, 2010. The Company is an exploration stage company in the process of exploring its mineral properties in British Columbia, Canada, and has not yet determined whether these properties contain reserves that are economically recoverable.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At September 30, 2013, the Company had not yet achieved profitable operations and has accumulated losses of \$974,820 since its inception. The Company expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management anticipates that additional funding will be in the form of equity financing from the sale of common stock. Management may also seek to obtain short-term loans from the directors of the Company. There are no current arrangements in place for equity funding or short-term loans.

The unaudited condensed financial statements included herein have been prepared by Company pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description of significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America ( "US GAAP" ), have been condensed or omitted pursuant

to such rules and regulations. These consolidated financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the year ended June 30, 2013 filed with the SEC.

**Note 2 Summary of Significant Accounting Policies**

This summary of significant accounting policies is presented to assist in understanding the financial statements. The financial statements and notes are the representations of the company's management, who is responsible for their integrity and objectivity. These consolidated financial statements have been prepared in accordance with the instructions to form 10-Q, and therefore, do not include all the information necessary for a fair presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles. These consolidated financial statements should be read in conjunction with the annual consolidated financial statement and footnotes thereto included in the company's filed form 10-K.

Note 2 Summary of Significant Accounting Policies (Continued)

Basis of Presentation

While the information presented in the accompanying interim three months consolidated financial statements is unaudited, it includes all adjustments, which are, in the opinion of management, necessary to present fairly the financial position, results of operation and cash flows for the interim periods presented. All adjustments are of a normal recurring nature. Operating results for the period ended September 30, 2013 are not necessarily indicative of the results that can be expected for the year ended June 30, 2014.

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update No. 2011-11 Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities (ASC 2011-11). ASC 2011-11 requires that an entity disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. ASC 2011-11 is effective for annual and interim periods beginning on or after January 1, 2013. The Company has determined that ASC 2011-11 had no impact to the consolidated financial statements.

In March 2013, the Financial Accounting Standards Board ( FASB ) issued Accounting Standards Update No. 2013-05 Foreign Currency Matters (Topic 830): Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Groups of Assets within a Foreign Entity or of an Investment in a Foreign Entity (ASC 2013-05). ASC 2013-05 requires that when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income.

Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASC 2013-05 is effective for annual and interim periods beginning after December 15, 2013. The Company is currently assessing the impact of ASC 2013-05 to the consolidated financial statements.

In July 2013, the FASB issued an accounting update, *Income Taxes: Presentation of an unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists*. The update provides guidance on the financial statement presentation of an unrecognized tax benefit, as either a reduction of a deferred tax asset or as a liability, when a net operating loss carryforward, similar tax loss, or a tax credit carryforward exists. The update will be effective for interim and annual periods beginning after December 15, 2013 and may be applied on a retrospective basis. Early adoption is permitted. The Company is currently assessing the impact of the adoption of this update to the consolidated financial statements.

### ***Corporate History***

We were incorporated on December 9, 2009, under the laws of the State of Nevada. We have a wholly-owned subsidiary, Golden Global Mining Corporation, incorporated under the laws of Alberta. Our principal office is located at 2537 S. Gessner Rd., Suite 122, Houston, Texas 77063. Our telephone number is (780) 252-7720 for our Canadian office and (832) 252-7720 for our US offices. Other than as set out herein, we have not been involved in any bankruptcy, receivership or similar proceedings, nor have we been a party to any material reclassification, merger, consolidation or purchase or sale of a significant amount of assets not in the ordinary course of our business.

### ***Our Current Business***

We are a start-up, exploration-stage company. We have only recently begun operations and we rely upon the sale of our securities and debt financing to fund those operations, as we have not generated any revenue. Our initial plan is to begin mining our placer gold claims on our McDame property located in north central British Columbia, Canada. The McDame property consists of placer claims #362586 and #363240, located near Cassiar, in the Liard Mining Division of British Columbia, Canada. Our long term plan is to explore and, if warranted, develop further mining by acquiring other leases. We have a copper lease in the Democratic Republic of Congo (DRC) which we will explore if we have sufficient capital resources. Our company is also currently in the initial stage of considering whether to obtain property rights for pursuing mining of the rare earth element tantalum in the DRC in Africa.

Due to our limited capital, we have focused on our McDame property and will first be undertaking preparation activities for a future decision regarding potential mining. If we are successful in raising sufficient capital, we will be ready to start mining as soon as funds are received. Unless we are able to raise additional capital that we are presently seeking, we will not be able to undertake work on copper and tantalum mining.

---

As of September 30, 2013, the Company has generated no revenues and has sustained net losses of \$6,367 for the three month period ended September 30, 2013, compared to net losses of \$67,662 for the three months ended September 30, 2012. Our expenses for the three month period ended September 30, 2013, were \$21,051, compared to \$64,202 for the three month period ended September 30, 2012. The decrease in expenses largely occurring during the 1<sup>st</sup>.quarter ended September 30, 2013, was due to a reduction in administrative fees and expenses.
