Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

(A Development Stage Company)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2002

(Unaudited)

(Stated in U.S. Dollars)

1. BASIS OF PRESENTATION

The unaudited consolidated financial statements as of March 31, 2002 included herein have been prepared without audit pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. It is suggested that these consolidated financial statements be read in conjunction with the December 31, 2001 audited consolidated financial statements and notes thereto.

2. NATURE OF OPERATIONS

a) Organization

The Company was incorporated in the State of Nevada, U.S.A., on October 12, 2000.

b) Development Stage Activities

The Company was organized as a holding company to develop or acquire innovative ventures with an emphasis on serving the lifestyle needs of the 18 - 34 year Digital Generation through the production and marketing of lifestyle products and services. The Company's initial venture is RAHX, a business concept focused on delivering, for its customers, a consolidated Entertainment Experience Network comprised of many services ranging from digital media peer to peer file exchange to live entertainment and online video games. The Company's other venture is AXXUS, an enhanced e-commerce and communication backbone technology.

2. NATURE OF OPERATIONS (Continued)

c) Going Concern

Since inception, the Company has suffered recurring losses, net cash outflows from operations and, at March 31, 2002, has a working capital deficiency of \$ 2,183,574. The Company expects to continue to incur substantial losses to complete the development and testing of its technology. Since its inception,

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

the Company has funded operations through common stock issuances and related party loans in order to meet its strategic objectives. Management believes that sufficient funding will be available to meet its business objectives, including anticipated cash needs for working capital, and is currently evaluating several financing options. However, there can be no assurance that the Company will be able to obtain sufficient funds to continue the development of and, if successful, to commence the sale of its products under development. As a result of the foregoing, there exists substantial doubt about the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States. Because a precise determination of many assets and liabilities is dependent upon future events, the preparation of consolidated financial statements for a period necessarily involves the use of estimates which have been made using careful judgement.

The consolidated financial statements have, in management's opinion, been properly prepared within reasonable limits of materiality and within the framework of the significant accounting policies summarized below:

a) Consolidation

These consolidated financial statements include the accounts of the Company, its 100% owned subsidiaries, RRUN Labs Inc. and AXXUS Corporation, and its 67% owned subsidiary, RAHX, Inc.

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

b) Development Stage Company

The Company is a development stage company as defined in the Statements of Financial Accounting Standards No. 7. The Company is devoting substantially all of its present efforts to establish a new business and none of its planned principal operations have commenced. All losses accumulated since inception have been considered as part of the Company's development stage activities.

c) Investments

Investments in companies owned less than 20% are recorded at the lower of cost or fair market value.

d) Software Development Costs

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

The costs to develop new software products and enhancements to existing software products will be expensed as incurred until technological feasibility has been established. Once technological feasibility has been established, any additional costs will be capitalized.

e) Income Taxes

The Company has adopted Statement of Financial Accounting Standards No. 109 - "Accounting for Income Taxes" (SFAS 109). This standard requires the use of an asset and liability approach for financial accounting and reporting on income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

f) Amortization

Capital assets are being amortized on the declining balance basis at the following rates:

Computer equipment	30%
Computer software	100%
Office furniture and equipment	20%

3. SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Stock Based Compensation

The Company accounts for stock based employee compensation arrangements in accordance with the provisions of Accounting Principles Board Opinion No. 25 - "Accounting for Stock Issued to Employees" (APB No. 25) and complies with the disclosure provisions of Statement of Financial Accounting Standards No. 123 - "Accounting for Stock Based Compensation" (SFAS No. 123). Under APB No. 25, compensation expense is recognized based on the difference, if any, on the date of grant between the estimated fair value of the Company's stock and the amount an employee must pay to acquire the stock. Compensation expense is recognized immediately for past services and rateably for future services over the option vesting period.

h) Financial Instruments

The Company's financial instruments consist of cash, GST recoverable, prepaid expenses and accounts payable.

Unless otherwise noted, it is management's opinion that this Company is not exposed to significant interest or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

i) Net Loss Per Share

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

Net loss per share is calculated using the weighted average number of common shares outstanding during the period. Fully diluted loss per share is not presented as the impact of the exercise of options is anti-dilutive.

Item 2. Management's Discussion and Analysis or Plan of Operations

FORWARD LOOKING STATEMENTS

This report on Form 10-QSB contains certain forward-looking statements within the meaning of section 21(e) of the Securities Exchange Act of 1934, as amended, and other applicable securities laws. All statements other than statements of historical fact are "forward-looking statements" for purposes of these provisions, including any projections of earnings, revenues, or other financial items; any statements of the plans, strategies, and objectives of management for future operation; any statements concerning proposed new products, services, or developments, any statements regarding future economic conditions or performance, statements of belief, and any statement of assumptions underlying any of the foregoing. Such forward-looking statements are subject to inherent risks and uncertainties, and actual results could differ materially from those anticipated by the forward-looking statements.

RESULTS OF OPERATIONS

Calendar Year Ended December 31, 2000

For the year ended December 31, 2000, we earned no revenues. During the year we incurred expenses of \$79,468. The expenses incurred were predominately administrative, consulting and professional fees relating primarily to the merger of RRUN Ventures Inc. with United Management Inc. Since we had no revenues, we incurred a net loss from operations of \$79,249 for the fiscal year after a Minority Interest In Loss of Subsidiary of \$219.

Calendar Year Ended December 31, 2001

For the year ended December 31, 2001, we earned revenues of \$4000. These one time revenues were from Digital Design Interactive services provided by one of our internal support units. These revenues will not be recurring as that internal support unit is not a revenue producing unit. During the year we incurred expenses of \$1,615,999. Of these expenses, \$778,258 were software development costs. We incurred a net loss from operations of \$1,611,999 for the fiscal year.

Calendar Quarter Ended March 31, 2002

For the quarter ended March 31, 2002, we earned revenues of \$25,000. The revenues were from licensing of rights for the use of our AXXUS technology. The licensing agreement was executed during the quarter and additional revenue will be earned from that agreement.

3

During the quarter, we incurred expenses of \$794,186. These operating expenses included \$38,888 in software development, \$260,001 in consulting fees and \$191,166 in business development costs.

Edgar Filing: RRUN VENTURES NETWORK INC - Form 10QSB

We incurred a net loss from operations of \$769,186 for the fiscal quarter ended March 31, 2002.

We do not anticipate significant revenue growth until such time as:

1. the development of RAHX 1.0 software is completed, commercially released and has secured a significant customer base to generate revenues and;
2. the development and launch our RAHX Live business division unit .

At this time, we continue to be a development stage company and can provide no assurance that we will be successful in completing development of our software or that we will earn revenues from our software, web site and related products once development is complete.

Liquidity and Financial Condition

We had cash-on hand of totaling \$31,993 as of March 31 2002.

We require approximately \$6,000,000 in operational capital for the 12 month. We hopes to secure the financing to satisfy the capital needs for each phase through the execution of various funding methods, primarily private placement investments. We hopes to achieve this by securing relationships with investment bankers, venture capitalist, and/or finance advisors that have the experience and relationships to aid the Company with its capital raising efforts. The source of the private placement financing will be comprised of a mix of principal shareholders, private investors and venture capital companies. If the funding is unavailable, in whole or in part, at the expected time, we will delay implementation of entire components of certain aspects of the implementation plan until the necessary funding is secured. There cannot be any assurance that we will raise sufficient capital to meet it business plan. In addition to delays to the implementation plan, if sufficient capital is not raised, we may suffer consequences including but not limited to the following; we may have to suspend or discontinue operations of one or more of its business units, such as RAHX; we may have to suspend or discontinue operations.
