**Delivery of Shareholder Documents.** The Securities and Exchange Commission (the "SEC") permits funds to deliver only one copy of shareholder documents, including prospectuses, proxy statements and shareholder reports, to fund investors with multiple accounts at the same residential or post office box address. This practice is often called "householding" and it helps eliminate duplicate mailings to shareholders.

**Eaton Vance, or your financial adviser, may household the mailing of your documents indefinitely unless you instruct Eaton Vance, or your financial adviser, otherwise.**

If you would prefer that your Eaton Vance documents not be householded, please contact Eaton Vance at 1-800-262-1122, or contact your financial adviser.

Your instructions that householding not apply to delivery of your Eaton Vance documents will be effective within 30 days of receipt by Eaton Vance or your financial adviser.

**Portfolio Holdings.** Each Eaton Vance Fund and its underlying Portfolio (if applicable) will file a schedule of its portfolio holdings on Form N-Q with the SEC for the first and third quarters of each fiscal year. The Form N-Q will be available on the Eaton Vance website [www.eatonvance.com](http://www.eatonvance.com), by calling Eaton Vance at 1-800-262-1122 or in the EDGAR database on the SEC's website at [www.sec.gov](http://www.sec.gov). Form N-Q may also be reviewed and copied at the SEC's public reference room in Washington, D.C. (call 1-800-732-0330 for information on the operation of the public reference room).

**Proxy Voting.** From time to time, funds are required to vote proxies related to the securities held by the funds. The Eaton Vance Funds or their underlying Portfolios (if applicable) vote proxies according to a set of policies and procedures approved by the Funds' and Portfolios' Boards. You may obtain a description of these policies and procedures and information on how the Funds or Portfolios voted proxies relating to Portfolio securities during the most recent 12 month period ended June 30, without charge, upon request, by calling 1-800-262-1122. **Eaton Vance Limited Duration Income Fund as of October 31, 2005**

**INVESTMENT UPDATE**

**The Fund**

**Performance for the Six Months Ended October 31, 2005**

Based on its October 2005 monthly dividend of \$0.1261 and a closing share price of \$16.78, Eaton Vance Limited Duration Income Fund, a closed-end fund (the Fund) traded on the American Stock Exchange ( AMEX ), had a market yield of 9.02%.<sup>(1)</sup>

Based on share price (traded on AMEX), the Fund had a total return of -1.07% for the six months ended October 31, 2005. That return was the result of a decrease in share price from \$17.69 on April 30, 2005 to \$16.78 on October 31, 2005 and the reinvestment of \$0.757 in monthly dividends.

Based on net asset value, the Fund had a total return of 2.77% for the six months ended October 31, 2005.<sup>(2)</sup> That return was the result of a decrease in net asset value per share from \$18.43 on April 30, 2005, to \$18.16 on October 31, 2005, and the reinvestment of all distributions.

**Management Discussion**

The Fund's managers continued to diversify the Fund's bond and senior loan investments along industry lines. The Fund had exposure to companies that typically respond to economic growth, as well as non-cyclical companies whose earnings are less dependent on economic expansion. At October 31, 2005, the Fund's investments spanned 39 industries, with no single industry representing more than 6.4% of the Fund's net assets.

The loan market performed well, as short-term interest rates rose throughout the six-month period and the London Inter-Bank Offered Rate (LIBOR) the primary benchmark over which loan interest rates typically are set kept pace with the Federal Reserve's rate hikes. Due to continued tight loan demand/supply conditions, credit spreads narrowed to just below their historical range. The loan market outperformed the high-yield bond market during the period.

The Fund's high-yield investments were buffeted by a market setback in March 2005 that was sparked by a downgrade of Ford and General Motors corporate debt, as well as concerns about rising energy costs and high valuations. Spreads on high-yield bonds rose to 425 basis points (4.25 percentage points) above Treasuries. Conditions improved during the summer and into the fall, however, and spreads narrowed to approximately 3.60 percentage points over Treasuries at October 31, 2005. Management maintained a defensive posture for much of the period. High-yield performance benefited from solid contributions in the telecom sector, particularly wireless companies, while paper and packaging, which were underweighted, detracted from absolute returns due to higher raw materials and energy costs.

Within the mortgage-backed securities (MBS) segment, the Fund's investments remained focused on seasoned MBS. Spreads on seasoned MBS narrowed significantly relative to Treasuries, partially offsetting the Federal Reserve rate hikes and helping the Fund's MBS holdings to make a positive contribution to its relative returns. In spite of significant tightening, spreads remain above their historical lows. Prepayment rates fell to near 25% by October 31, 2005, well below their peak around 50% in December 2003. The decline in prepayment rates was welcome news to investors.

At October 31, 2005, the Fund had leverage in the amount of approximately 33.5% of the Fund's total assets. The Fund is leveraged through the issuance of Auction Preferred Shares and its securities lending program. Use of financial leverage creates an opportunity for increased income, but, at the same time, creates special risks (including the likelihood of greater volatility of net asset value and market price of common shares).

*The views expressed throughout this report are those of the portfolio managers and are current only through the end of the period of the report as stated on the cover. These views are subject to change at any time based upon market or other conditions, and the investment adviser disclaims any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a fund are based on many factors, may not be relied on as an indication of trading intent on behalf of any Eaton Vance fund.*

Shares of the Fund are not insured by the FDIC and are not deposits or other obligations of, or guaranteed by, any depository institution. Shares are subject to investment risks, including possible loss of principal invested. Yield will vary.

---

(1) *The Fund's market yield is calculated by dividing the most recent dividend per share by the share market price at the end of the period and annualizing the result.*

(2) *Performance results reflect the effect of leverage resulting from the Fund's issuance of Auction Preferred Shares and its securities lending program. In the event of a rise in long-term interest rates, the value of the Fund's investment portfolio could decline, which would reduce the asset coverage for its Auction Preferred Shares.*

Edgar Filing: EATON VANCE LTD DURATION INCOME FUND - Form N-CSRS

*Past performance is no guarantee of future results. Returns are historical and are calculated by determining the percentage change in net asset value or share price (as applicable) with all distributions reinvested. Investment return and principal value will fluctuate so that shares, when sold, may be worth more or less than their original cost. Performance is for the stated time period only; due to market volatility, the Fund's current performance may be lower or higher than the quoted return.*

## PIK - Payment In Kind.

(1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, Cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility, Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate ("LIBOR"), and secondarily the prime rate offered by one or more major United States banks (the "Prime Rate") and the certificate of deposit ("CD") rate or other base lending rates used by commercial lenders.

(2) Unfunded loan commitments. See Note 1E for description.

(3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(4) Adjustable rate mortgage.

(5) All or a portion of these securities were on loan at October 31, 2005.

(6) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At October 31, 2005, the aggregate value of the securities is \$227,531,945 or 11.2% of the Fund's net assets.

(7) Defaulted security. Currently the issuer is in default with respect to interest payments.

(8) Non-income producing security.

## NOTES TO FINANCIAL STATEMENTS (Unaudited)

## 1 Significant Accounting Policies

Eaton Vance Limited Duration Income Fund (the Fund) is registered under the Investment Company Act of 1940, as amended, as a closed-end management investment company. The Fund, was organized as a Massachusetts business trust on March 12, 2003. The Fund's investment objective is to provide a high level of current income. The Fund may, as a secondary objective, also seek capital appreciation to the extent consistent with its primary goal of high current income. The Fund pursues its objectives by investing primarily in, mortgage-backed securities (MBS) issued, backed or otherwise guaranteed by the U.S. government or its agencies or instrumentalities; senior, secured floating rate loans made to corporate and other business entities (Senior Loans); and corporate bonds of below investment grade quality (Non-Investment Grade Bonds). The following is a summary of significant accounting policies of the Fund. The policies are in conformity with accounting principles generally accepted in the United States of America.

**A Investment Valuation** Debt securities (including collateralized mortgage obligations and certain mortgage backed securities ("MBS")) normally are valued by independent pricing services. The pricing services consider various factors relating to bonds or loans and/or market transactions to determine market value. Most seasoned MBS are valued by the investment adviser's matrix pricing system. The matrix pricing system also considers various factors relating to bonds and market transactions to determine market value.

Certain Senior Loans are deemed to be liquid because reliable market quotations are readily available for them. Liquid Senior Loans are valued on the basis of prices furnished by a pricing service. Other Senior Loans are valued at fair value by the Fund's investment adviser, Eaton Vance Management (EVM), under procedures approved by the Trustees. In connection with determining the fair value of a Senior Loan, the investment adviser makes an assessment of the likelihood that the borrower will make a full repayment of the Senior Loan. The primary factors considered by the investment adviser when making this assessment are (i) the creditworthiness of the borrower, (ii) the value of the collateral backing the Senior Loan, and (iii) the priority of the Senior Loan versus other creditors of the borrower. If, based on its assessment, the investment adviser believes there is a reasonable likelihood that the borrower will make a full repayment of the Senior Loan, the investment adviser will determine the fair value of the Senior Loan using a matrix pricing approach that considers the yield on the Senior Loan relative to yields on other loan interests issued by companies of comparable credit quality. If, based on its assessment, the investment adviser believes there is not a reasonable likelihood that the borrower will make a full repayment of the Senior Loan, the investment adviser will determine the fair value of the Senior Loan using analyses that include, but are not limited to (i) a comparison of the value of the borrower's outstanding equity and debt to that of comparable public companies; (ii) a discounted cash flow analysis; or (iii) when the investment adviser believes it is likely that a borrower will be liquidated or sold, an analysis of the terms of such liquidation or sale. In certain cases, the investment adviser will use a combination of analytical methods to determine fair value, such as when only a portion of a borrower's assets are likely to be sold. In conducting its assessment and analyses for purposes of determining fair value of a Senior Loan, the investment adviser will use its discretion and judgment in considering and appraising such factors, data and information and the relative weight to be given thereto as it deems relevant, including without limitation, some or all of the following: (i) the fundamental characteristics of and fundamental analytical data relating to the Senior Loan, including the cost, size, current interest rate, maturity and base lending rate of the Senior Loan, the terms and conditions of the Senior Loan and any related agreements, and the position of the Senior Loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral securing the Senior Loan, including the Fund's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower, based on an evaluation of, among other things, its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the Senior Loan, including price quotations for and trading in the Senior Loan, interests in similar Senior Loans and the market environment, investor attitudes towards the Senior Loan and interests in similar Senior Loans; (v) the experience, reputation, stability and financial condition of the agent and any intermediate participant in the Senior Loan; and (vi) general economic and market conditions affecting the fair value of the Senior Loan.

Other portfolio securities (other than short-term obligations, but including listed issues) may be valued on the basis of prices furnished by one or more pricing services which determine prices for normal, institutional-size trading units of such securities which may use market information, transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders. The value of interest rate swaps will be based on dealer quotations. Short-term obligations which mature in 60 days or less are valued at

Eaton Vance Limited Duration Income Fund as of October 31, 2005

NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

amortized cost. If short-term debt securities were acquired with a remaining maturity of more than 60 days, their amortized cost value will be based on their value on the sixty-first day prior to maturity. OTC options are valued at the mean between the bid and asked price provided by dealers. Financial futures contracts and option thereon listed on commodity exchanges are valued at closing settlement prices. Repurchase agreements are valued at cost plus accrued interest. Portfolio securities for which there are no quotations or valuations are valued at fair value as determined in good faith by or on behalf of the Trustees.

**B Income** Interest income from Senior Loans is recorded on the accrual basis at the then-current interest rate, while all other interest income is determined on the basis of interest accrued, adjusted for amortization of premium or accretion of discount. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities.

**C Federal Taxes** The Fund's policy is to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute to shareholders each year all of its taxable income, including any net realized gain on investments. Accordingly, no provision for federal income or excise tax is necessary. At April 30, 2005, the Fund, for federal income tax purposes, had a capital loss carryover of \$67,366,920 which will reduce the Fund's taxable income arising from future net realized gains on investments, if any, to the extent permitted by the Internal Revenue Code, and thus will reduce the amount of the distributions to shareholders which would otherwise be necessary to relieve the Fund of any liability for federal income or excise tax. Such capital loss carryover will expire on April 30, 2012 (\$26,481,368) and April 30, 2013 (\$40,885,552).

At April 30, 2005, net capital losses of \$10,947,188 attributable to security transactions incurred after October 31, 2004, are treated as arising on the first day of the Fund's taxable year ending April 30, 2006.

**D Investment Transactions** Investment transactions are recorded on a trade date basis. Realized gains and losses from such transactions are determined using the specific identification method. Securities purchased or sold on a when-issued or delayed delivery basis may be settled a month or more after the transaction date. The securities so purchased are subject to market fluctuations during this period. To the extent that when-issued or delayed delivery purchases are outstanding, the Fund instructs the custodian to segregate assets in a separate account, with a current value at least equal to the amount of its purchase commitments.

**E Unfunded Loan Commitments** The Fund may enter into certain credit agreements all or a portion of which may be unfunded. The Fund is obligated to fund these loan commitments at the Borrower's discretion. These commitments are disclosed in the accompanying Portfolio of Investments.

**F Offering Costs** Costs incurred by the Fund in connection with the offering of the common shares were recorded as a reduction of capital paid in excess of par applicable to common shares.

**G Expense Reduction** Investors Bank & Trust Company (IBT) serves as custodian of the Fund. Pursuant to the custodian agreement, IBT receives a fee reduced by credits which are determined based on the average daily cash balances the Fund maintains with IBT. All credit balances used to reduce the Fund's custodian fees are reported as a reduction of expenses on the Statement of Operations.

**H Written Options** Upon the writing of a call or a put option, an amount equal to the premium received by the Fund is included in the Statement of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current value of the option written in accordance with the Fund's policies on investment valuations discussed above. Premiums received from writing options which expire are treated as realized gains. Premiums received from writing options which are exercised or are closed are added to or offset against the proceeds or amount paid on the transaction to determine the realized gain or loss. If a put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund, as writer of an option, may have no control over whether the underlying securities may be sold (call) or purchased (put) and, as a result, bears the market risk of an unfavorable change in the price of the securities underlying the written option.

**I Purchased Options** Upon the purchase of a call or put option, the premium paid by the Fund is included in the Statement of Assets and Liabilities as an investment. The amount of the investment is subsequently marked-to-market to reflect the current market value of the option purchased, in accordance with the Fund's policies on investment valuations discussed above. If an option which the Fund has purchased expires on the stipulated expiration date, the Fund will realize a loss in the amount of the cost of the option. If the Fund enters into a closing sale transaction, the Fund will realize a gain or loss, depending on whether the sales proceeds from the closing sale transaction are greater or less than the cost of the

Eaton Vance Limited Duration Income Fund as of October 31, 2005

NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

option. If a Fund exercises a put option, it will realize a gain or loss from the sale of the underlying security, and the proceeds from such sale will be decreased by the premium originally paid. If the Fund exercises a call option, the cost of the security which the Fund purchases upon exercise will be increased by the premium originally paid.

**J Financial Futures Contracts** Upon entering into a financial futures contract, the Fund is required to deposit an amount (initial margin) either in cash or securities equal to a certain percentage of the purchase price indicated in the financial futures contract. Subsequent payments are made or received by the Fund (margin maintenance) each day, dependent on the daily fluctuations in the value of the underlying securities, and are recorded for book purposes as unrealized gains or losses by the Fund.

If the Fund enters into a closing transaction, the Fund will realize, for book purposes, a gain or loss equal to the difference between the value of the financial futures contract to sell and the financial futures contract to buy. The Fund's investment in financial futures contracts is designed only to hedge against anticipated future changes in interest rates. Should interest rates move unexpectedly, the Fund may not achieve the anticipated benefits of the financial futures contracts and may realize a loss.

**K Reverse Repurchase Agreements** The Fund may enter into reverse repurchase agreements. Under such an agreement, the Fund temporarily transfers possession, but not ownership, of a security to a counterparty, in return for cash. At the same time, the Fund agrees to repurchase the security at an agreed-upon price and time in the future. The Fund may enter into reverse repurchase agreements for temporary purposes, such as to Fund withdrawals, or for use as hedging instruments where the underlying security is denominated in a foreign currency. As a form of leverage, reverse repurchase agreements may increase the risk of fluctuation in the market value of the Fund's assets or in its yield. Liabilities to counterparties under reverse repurchase agreements are recognized in the Statement of Assets and Liabilities at the same time at which cash is received by the Fund. The securities underlying such agreements continue to be treated as owned by the Fund and remain in the Portfolio of Investments. Interest charged on amounts borrowed by the Fund under reverse repurchase agreements is accrued daily.

**L Total Return Swaps** The Fund may enter into swap agreements to hedge against fluctuations in securities prices, interest rates or market conditions; to change the duration of the portfolio; to mitigate default risk; or for other risk management purposes. Pursuant to these agreements, the Fund makes monthly payments at a rate equal to a predetermined spread to the one-month LIBOR. In exchange, the Fund receives payments based on the rate of return of a benchmark industry index. During the term of the outstanding swap agreement, changes in the underlying value of the swap are recorded as unrealized gains and losses. Payments received or made at the end of the measurement period are recorded as realized gains and losses. The value of the swap is determined by changes in the relationship between the rate of interest and the benchmark industry index. The Fund is exposed to credit loss in the event of non-performance by the swap counterparty. However, the Fund does not anticipate non-performance by the counterparty. Risk may also arise from the unanticipated movements in value of interest rates or the index.

**M Credit Default Swaps** The Fund may enter into credit default swap contracts for risk management purposes, including diversification. When the Fund is the buyer of a credit default swap contract, the Fund is entitled to receive the par (or other agreed-upon) value of a referenced debt obligation from the counterparty to the contract in the event of a default by a third party, such as a U.S. or foreign corporate issuer, on the debt obligation. In return, the Fund would pay the counterparty a periodic stream of payments over the term of the contract provided that no event of default has occurred. If no default occurs, the Fund would have spent the stream of payments and received no benefit from the contract. When the Fund is the seller of a credit default swap contract, it receives the stream of payments, but is obligated to pay upon default of the referenced debt obligation. As the seller, the Fund would effectively add leverage to its portfolio because, in addition to its total net assets, the Fund would be subject to investment exposure on the notional amount of the swap. The Fund will segregate assets in the form of cash and cash equivalents in an amount equal to the aggregate market value of the credit default swaps of which it is the seller, marked to market on a daily basis. These transactions involve certain risks, including the risk that the seller may be unable to fulfill the transaction.

**N Use of Estimates** The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of

## Eaton Vance Limited Duration Income Fund as of October 31, 2005

### NOTES TO FINANCIAL STATEMENTS (Unaudited) CONT'D

income and expense during the reporting period. Actual results could differ from those estimates.

**O Indemnifications** Under the Fund's organizational documents, its officers and Trustees may be indemnified against certain liabilities and expenses arising out of the performance of their duties to the Fund, and shareholders are indemnified against personal liability for obligations of the Fund. Additionally, in the normal course of business, the Fund enters into agreements with service providers that may contain indemnification clauses. The Fund's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Fund that have not yet occurred.

**P Interim Financial Statements** The interim financial statements relating to October 31, 2005 and for the six months then ended have not been audited by an independent registered public accounting firm, but in the opinion of the Fund's management reflect all adjustments, consisting only of normal recurring adjustments, necessary for the fair presentation of the financial statements.

### 2 Auction Preferred Shares (APS)

The Fund issued 7,600 shares of Auction Preferred Shares Series A, 7,600 shares of Auction Preferred Shares Series B, 7,600 shares of Auction Preferred Shares Series C, 7,600 shares of Auction Preferred Shares Series D, and 7,600 shares of Auction Preferred Shares Series E on July 25, 2003 in a public offering. The underwriting discount and other offering costs were recorded as a reduction of the capital of the common shares. As of October 31, 2005, 6,400 shares of Series A, 6,400 shares of Series B, 6,400 shares of Series C, 6,400 shares of Series D and 6,400 shares of Series E were outstanding. Dividends on the APS, which accrue daily, are cumulative at a rate which was established at the offering of the APS and have been reset every 7 days thereafter by an auction. Dividend rates ranged from 2.75% to 3.70% for Series A Shares, from 2.70% to 3.85% for Series B Shares, from 2.80% to 3.84% for Series C Shares, from 2.75% to 3.90% for Series D Shares and from 2.70% to 3.60% for Series E Shares, during the six months ended October 31, 2005.

The APS are redeemable at the option of the Fund, at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends on any dividend payment date. The APS are also subject to mandatory redemption at a redemption price equal to \$25,000 per share, plus accumulated and unpaid dividends, if the Fund is in default for an extended period on its asset maintenance requirements with respect to the APS. If the dividends on the APS shall remain unpaid in an amount equal to two full years' dividends, the holders of the APS as a class have the right to elect a majority of the Board of Trustees. In general, the holders of the APS and the common shares have equal voting rights of one vote per share, except that the holders of the APS, as a separate class, have the right to elect at least two members of the Board of Trustees. The APS have a liquidation preference of \$25,000 per share, plus accumulated and unpaid dividends. The Fund is required to maintain certain asset coverage with respect to the APS as defined in the Fund's By-Laws and the Investment Company Act of 1940. The Fund pays an annual fee equivalent to 0.25% of the preferred shares' liquidation value for the remarketing efforts associated with the preferred auctions.

### 3 Distribution to Shareholders

The Fund intends to make monthly distributions of net investment income, after payment of any dividends on any outstanding APS. Distributions are recorded on the ex-dividend date. Distributions to preferred shareholders are recorded daily and are payable at the end of each dividend period. Each dividend payment period for the APS is generally seven days. The applicable dividend rate for the APS on October 31, 2005 was 3.40%, 3.45%, 3.00%, 3.40% and 3.50%, for Series A, Series B, Series C, Series D and Series E Shares, respectively. For the six months ended October 31, 2005, the Fund paid dividends to Auction Preferred shareholders amounting to \$2,618,493, \$2,642,988, \$2,625,633, \$2,615,761, and \$2,602,634 for Series A, Series B, Series C, Series D and Series E Shares, respectively, representing an average APS dividend rate for such period of 3.20%, 3.23%, 3.21%, 3.18% and 3.15%, respectively.

The Fund distinguishes between distributions on a tax basis and a financial reporting basis. Accounting principles generally accepted in the United States of America require that only distributions in excess of tax basis earnings and profits be reported in the financial statements as a return of capital. Permanent differences between book and tax accounting relating to distributions are reclassified to paid in capital. These differences relate primarily to the different treatment for paydown gain/losses on mortgage-backed securities and the method for amortizing premiums.

Under the agreement, the Fund continues to earn interest on the securities loaned. Collateral received is generally cash, and the Fund invests the cash and receives any interest on the amount invested but it must also pay the broker a loan rebate fee computed as a varying percentage of the collateral received. The loan rebate fee paid by the Fund offsets a portion of the interest income received and amounted to \$4,562,403 for the six months ended October 31, 2005. At October 31, 2005, the value of the securities loaned and the value of the collateral amounted to \$223,587,700 and \$229,070,736, respectively. In the event of counterparty default, the Fund is subject to potential loss if it is delayed or prevented from exercising its right to dispose of the collateral. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

9 Financial Instruments

The notional or contractual amounts of these instruments represent the investment the Fund has in particular classes of financial instruments and does not necessarily represent the amounts potentially subject to risk. ### BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT

The investment advisory agreement between Eaton Vance Limited Duration Income Fund (the "Fund") and the investment adviser, Eaton Vance Management ("Eaton Vance"), provides that the advisory agreement will continue in effect from year to year so long as its continuance is approved at least annually (i) by a vote of a majority of the noninterested Trustees of the Fund cast in person at a meeting called for the purpose of voting on such approval and (ii) by the Trustees of the Fund or by vote of a majority of the outstanding interests of the Fund.

In considering the annual approval of the investment advisory agreement between the Fund and the investment adviser, the Special Committee of the Board of Trustees considered information that had been provided throughout the year at regular Board meetings, as well as information furnished to the Special Committee for a series of meetings held in February and March in preparation for a Board meeting held on March 21, 2005 to specifically consider the renewal of the investment advisory agreement. Such information included, among other things, the following:

A independent report comparing the advisory fees of the Fund with those of comparable funds;

Information provided by Eaton Vance regarding Fund investment performance (including on a risk-adjusted basis) in comparison to a relevant peer group of funds;

The economic outlook and the general investment outlook in relevant investment markets;

Eaton Vance's results and financial condition and the overall organization of the investment adviser;

The procedures and processes used to determine the fair value of Fund assets and actions taken to monitor and test the effectiveness of such procedures and processes;

The allocation of brokerage and the benefits received by the investment adviser as a result of brokerage allocation;

Eaton Vance's management of the relationship with the custodian, subcustodians and fund accountants;

The resources devoted to Eaton Vance's compliance efforts undertaken on behalf of the funds it manages and the record of compliance with the investment policies and restrictions and with policies on personal securities transactions;

The quality, nature, cost and character of the administrative and other non-investment management services provided by Eaton Vance and its affiliates; and

The terms of the advisory agreement and the reasonableness and appropriateness of the particular fee paid by the Fund for the services described herein.

The Special Committee received information concerning the investment philosophy and investment process applied by Eaton Vance in managing the Fund. In this regard, the Special Committee considered Eaton Vance's in-house research capabilities as well as other resources available to Eaton Vance personnel, including research services that may be available to Eaton Vance as a result of securities transactions effected for the Fund and other investment advisory clients. The Special Committee concluded that Eaton Vance's investment process, research capabilities and philosophy were well suited to the Fund, given the Fund's investment objective and policies. The Special Committee also took into account the time and attention to be devoted by senior management to the Fund and the other funds in the complex. The Special Committee evaluated the level of skill required to manage the Fund and concluded that the human resources available at Eaton Vance were appropriate to fulfill effectively the duties of the investment adviser on behalf of the Fund.

In its review of comparative information with respect to Fund investment performance, the Special Committee concluded that the Fund has performed within a range that the Special Committee deemed competitive. With respect to its review of investment advisory fees, the Special Committee concluded that the fees paid by the Fund are within the range of those paid by comparable funds within the mutual fund industry. In reviewing the information regarding the expense ratio of the Fund, the Special Committee concluded that the Fund's expense ratio is within a range that is competitive with comparable funds.

In addition to the factors mentioned above, the Special Committee reviewed the level of the investment adviser's profits in providing investment management and administration services for the Fund and for all Eaton Vance funds as a group. The Special Committee noted in particular that the Fund benefits from a contractual waiver of advisory fees and other expenses effective during the first five years of the Fund's operations. In addition, the Special Committee considered the fiduciary duty assumed by the investment adviser in connection with the services rendered to the Fund and the business reputation of the investment adviser and its financial resources. The

### BOARD OF TRUSTEES' ANNUAL APPROVAL OF THE INVESTMENT ADVISORY AGREEMENT CONT'D

Trustees concluded that in light of the services rendered, the profits realized by the investment adviser are not unreasonable. The Special Committee also considered the fact that the Fund is not continuously offered and concluded that, in light of the level of the investment adviser's profits with respect to the Fund, the implementation of breakpoints is not appropriate.

The Special Committee did not consider any single factor as controlling in determining whether or not to renew the investment advisory agreement. Nor are the items described herein all the matters considered by the Special Committee. In assessing the information provided by Eaton Vance and its affiliates, the Special Committee also took into consideration the benefits to shareholders of investing in a fund that is part of a large family of funds which provides a large variety of shareholder services.

Based on its consideration of the foregoing factors and conclusions, and such other factors and conclusions as it deemed relevant, and assisted by independent counsel, the Special Committee concluded that the approval of the investment advisory agreement, including the fee structure, is in the interests of shareholders.

## **Item 7. Disclosure of Proxy Voting Policies and Procedures for Closed-End Management Investment Companies**

The Board of Trustees of the Trust has adopted a proxy voting policy and procedure (the Fund Policy ), pursuant to which the Trustees have delegated proxy voting responsibility to the Fund's investment adviser and adopted the investment adviser's proxy voting policies and procedures (the Policies ) which are described below. The Trustees will review the Fund's proxy voting records from time to time and will annually consider approving the Policies for the upcoming year. In the event that a conflict of interest arises between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund, the investment adviser will generally refrain from voting the proxies related to the companies giving rise to such conflict until it consults with the Board's Special Committee except as contemplated under the Fund Policy. The Board's Special Committee will instruct the investment adviser on the appropriate course of action.

The Policies are designed to promote accountability of a company's management to its shareholders and to align the interests of management with those shareholders. The investment adviser will generally support company management on proposals relating to environmental and social policy issues, on matters regarding the state of organization of the company and routine matters related to corporate administration which are not expected to have a significant economic impact on the company or its shareholders. On all other matters, the investment adviser will review each matter on a case-by-case basis and reserves the right to deviate from the Policies' guidelines when it believes the situation warrants such a deviation. The Policies include voting guidelines for matters relating to, among other things, the election of directors, approval of independent auditors, executive compensation, corporate structure and anti-takeover defenses. The investment adviser may abstain from voting from time to time where it determines that the costs associated with voting a proxy outweighs the benefits derived from exercising the right to vote.

In addition, the investment adviser will monitor situations that may result in a conflict of interest between the Fund's shareholders and the investment adviser, the administrator, or any of their affiliates or any affiliate of the Fund by maintaining a list of significant existing and prospective corporate clients. The investment adviser's personnel responsible for reviewing and voting proxies on behalf of the Fund will report any proxy received or expected to be received from a company included on that list to members of senior management of the investment adviser identified in the Policies. Such members of senior management will determine if a conflict exists. If a conflict does exist, the investment adviser will seek instruction on how to vote from the Special Committee.

Information on how the Fund voted proxies relating to portfolio securities during the most recent 12 month period ended June 30, is available (1) without charge, upon request, by calling 1-800-262-1122, and (2) on the Securities and Exchange Commission's website at <http://www.sec.gov>.
