TF FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - PRINCIPLES OF CONSOLIDATION

The consolidated financial statements as of March 31, 2006 (unaudited) and December 31, 2005 and for the three-month periods ended March 31, 2006 and 2005 (unaudited) include the accounts of TF Financial Corporation (the Company) and its wholly owned subsidiaries Third Federal Bank (the Bank), TF Investments Corporation and Penns Trail Development Corporation. The Company's business is conducted principally through the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTE 2 - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include all of the disclosures or footnotes required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for fair presentation of the consolidated financial statements have been included. The results of operations for the period ended March 31, 2006 are not necessarily indicative of the results which may be expected for the entire fiscal year or any other period. For further information, refer to consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2005.

NOTE 3 - CONTINGENCIES

The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of this litigation, if any, would not have a material adverse effect on the Company's consolidated financial position or results of operations.

NOTE 4 - OTHER COMPREHENSIVE INCOME

The Company's other comprehensive income consists of net unrealized losses on investment securities and mortgage-backed securities available for sale. Total comprehensive income for the three-month periods ended March 31, 2006 and 2005 was \$560,000 and \$369,000, net of applicable income tax expense (benefit) of \$115,000 and \$(34,000) respectively.

NOTE 5 - EARNINGS PER SHARE

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The following tables illustrate the reconciliation of the numerators and denominators of the basic and diluted earnings per share computations (dollars in thousands, except per share data):

	Three months ended March 31, 2006		
	Income (numerator)	Weighted average shares (denominator)	Per share Amount
Basic earnings per share			
Income available to common stockholders	\$ 1,255	2,698,547	\$ 0.47
Effect of dilutive securities			
Stock options		12,968	(0.01)
Diluted earnings per share			
Income available to common stockholders plus effect of dilutive securities	\$ 1,255	2,711,515	\$ 0.46

There were 24,226 options to purchase shares of common stock at a price of \$34.14 per share which were outstanding during the first quarter of 2006 that were not included in the computation of diluted earnings per share because the options exercise prices were greater than the average market price of the common shares.

	Three months ended March 31, 2005		
	Income (numerator)	Weighted average shares (denominator)	Per share Amount
Basic earnings per share			
Income available to common stockholders	\$ 1,476	2,749,053	\$ 0.54
Effect of dilutive securities			
Stock options		74,507	(0.02)
Diluted earnings per share			
Income available to common stockholders plus effect of dilutive securities	\$ 1,476	2,823,560	\$ 0.52

There were options to purchase 28,714 shares of common stock at a price of \$34.14 per share which were outstanding during the first quarter of 2005 that were not included in the computation of diluted earnings per share because the options' exercise prices were greater than the average market price of the common shares.

NOTE 6- STOCK BASED COMPENSATION

The Company has stock benefit plans that allow the Company to grant options and stock to employees and directors. The options, which have a term of up to 10 years when issued, vest over a three to five year period. The exercise price of each option equals the market price of the Company's stock on the date of grant.

On January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards (SFAS) 123R, Share-Based Payments, using the modified prospective transition method. Under this transition method, compensation cost to be recognized beginning in the first quarter of 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not yet vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant-date fair value estimated in accordance with the provisions of SFAS 123R. Stock-based compensation expense included in net income related to stock options was \$94,000, resulting in a tax benefit of \$28,000, for the three months ended March 31, 2006. Results for prior periods have not been restated. As of March 31, 2006, there was \$1,021,000 of total unrecognized compensation cost, net of estimated forfeitures, related to non-vested options under the Plan. That cost is expected to be recognized over a weighted average period of 32.8 months.

Prior to 2006, the Company disclosed pro forma compensation expense quarterly and annually by calculating the stock option grant's fair value using the intrinsic value method under APB Opinion No. 25, as permitted by SFAS No. 123 Accounting for Stock-Based Compensation, which contains a fair value-based method for valuing stock-based compensation that entities may use, which measures compensation cost at the grant date based on the fair value of the award. Compensation is then recognized over the service period, which is usually the vesting period. No stock-based compensation expense was reflected in net income in 2005, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of the grant.

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The table below reflects the estimated impact the fair value method would have had on the Company's net income and net income per share if SFAS 123R had been in effect for the three months ended March 31, 2005

Net income		
As reported	\$	1,476

As reported	\$	0.52
Deduct: stock-based compensation expense determined using the fair value method, net of related tax effects		
Pro forma	\$	0.52

Option activity under the Company's stock option plan as of March 31, 2006 is as follows:

	Number of shares	Weighted average exercise price per share	2006 Weighted average remaining contractual term (in years)	Aggregate intrinsic value (\$000)
Outstanding at beginning of year	384,848	\$ 23.18		
Options granted				
Options exercised	(8,106)	15.28		
Options forfeited	(1,217)	27.53		
Outstanding at end of quarter	375,525	\$ 23.34	3.90	\$ 2,501
Options exercisable at March 31, 2006	189,086	\$ 18.11	2.36	\$ 2,248

The aggregate intrinsic value in the table above represents the total pre-tax intrinsic value (the difference between the Company's closing stock price on the last trading day of the first quarter of 2006 and the exercise price, multiplied by the number of in-the money options).

Stock options outstanding were 375,525 and 249,241 at March 31, 2006 and 2005, respectively. The aggregate intrinsic value of options exercised during the quarters ended March 31, 2006 and 2005 was \$119,000 and \$499,000, respectively. Exercise of stock option during the first quarter 2006 and 2005 resulted in cash receipts of \$124,000 and \$521,000, respectively.

Stock-based compensation expense included in net income related to stock grants was \$91,000 for the three months ended March 31, 2006. Stock-based compensation expense included in net income related to the Company's employee stock ownership plan totaled \$107,000 and \$108,000 for the three-month periods ended March 31, 2006 and 2005, respectively.

NOTE 7- EMPLOYEE BENEFIT PLANS

Net periodic defined benefit pension cost included the following (in thousands):

Net periodic benefit cost	\$ 78	\$ 111

The employer contribution made for the three months ended March 31, 2006 and 2005 was \$620,000 and \$341,000, respectively.

NOTE 8- RECLASSIFICATIONS

Certain prior period amounts have been reclassified to conform to the current period presentation.

TF FINANCIAL CORPORATION AND SUBSIDIARIES

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL POSITION AND RESULTS OF OPERATIONS**

GENERAL

The Company may from time to time make written or oral forward-looking statements, including statements contained in the Company's filings with the Securities and Exchange Commission (including this Quarterly Report on Form 10-Q and the exhibits thereto), in its reports to stockholders and in other communications by the Company, which are made in good faith by the Company pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements involve risks and uncertainties, such as statements of the Company's plans, objectives, expectations, estimates and intentions that are subject to change based on various important factors (some of which are beyond the Company's control). The following factors, among others, could cause the Company's financial performance to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, inflation, interest rate, market and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users, including the features, pricing and quality compared to competitors' products and services; the willingness of users to substitute competitors' products and services for the Company's products and services; the success of the Company in gaining regulatory approval of its products and services, when required; the impact of changes in financial services laws and regulations (including laws concerning taxes, banking, securities and insurance); technological changes, acquisitions; changes in consumer spending and saving habits; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

Financial Position

The Company's total assets at March 31, 2006 and December 31, 2005 were \$673.0 million and \$660.8 million, respectively, an increase of \$12.2 million, or 1.9%, during the three-month period. Cash and cash equivalents increased by \$0.6 million. Investment securities available for sale increased by \$0.7 million due to purchases of \$1.0 million of tax free municipal bonds offset by a \$0.3 million reduction in the market value of investment securities available for sale. Investment securities held to maturity decreased by \$2.7 million as a result of security maturities. Mortgage-backed securities available for sale decreased by \$4.8 million due to \$3.9 million in principal repayments received, as well as a decrease in the market value of these securities and amortization of net premiums totaling \$0.9 million. Mortgage-backed securities held to maturity decreased by \$0.7 million as a result of principal repayments.

Loans receivable increased by \$17.6 million for the first quarter of 2006. Consumer and single-family residential mortgage loans of \$21.3 million and commercial loans of \$23.0 million were originated during the first quarter of 2006. Principal repayments of loans receivable were \$24.6 million and proceeds from sales of loan participations totaled \$2.5 million in the first quarter of 2006. Loans originated for sale during the first quarter of 2006 totaled \$1.7 million, and there were \$1.3 million in proceeds from the sale loans in the secondary market during this period.

Total liabilities increased by \$12.7 million. Deposit balances declined by \$6.3 million during the first three months of 2006. Non-interest bearing demand deposits grew by \$2.5 million while savings, money market, and interest-bearing checking accounts decreased by a combined \$16.9 million. Certificates of deposit increased by \$8.1 million. Advances from the Federal Home Loan Bank increased by \$18.4 million due to a \$15.5 million increase in long-term fixed rate advances and \$7.1 million of short-term advances, less scheduled amortization payments of \$4.3 million. These borrowings were mainly used to fund loan portfolio growth and deposit outflows that occurred during the quarter.

Total consolidated stockholders' equity of the Company was \$62.0 million or 9.2% of total assets at March 31, 2006. During the first quarter of 2006 the Company repurchased 37,400 shares of its common stock and issued 8,106 shares pursuant to the exercise of stock options. As of March 31, 2006, there were approximately 81,000 shares available for repurchase under the previously announced share repurchase plan.

Asset Quality

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

During the first quarter of 2006 and 2005, the Company's provision for loan losses was \$90,000 and \$150,000, respectively. As of March 31, 2006, the Company owned one parcel of foreclosed real estate. This parcel has been recorded as real estate owned at the lower of the recorded investment in the loan or estimated fair value in the amount of \$0.7 million and is included in other assets in the statement of financial position at March 31, 2006. Management of the Company believes that there has not been any significant deterioration in its asset quality during such period.

The following table sets forth information regarding the Company's asset quality (dollars in thousands):

	March 31, 2006	December 31, 2005	March 31, 2005
Non-performing loans	\$ 1,570	\$ 1,588	\$ 727
Ratio of non-performing loans to gross loans	0.31%	0.32%	0.16%
Ratio of non-performing loans to total assets	0.23%	0.24%	0.11%
Foreclosed property	\$ 700	\$ 700	\$ 700
Foreclosed property to total assets	0.10%	0.11%	0.11%
Ratio of total non-performing assets to total assets	0.34%	0.35%	0.22%
Ratio of allowance for loan losses to total loans	0.53%	0.54%	0.49%
Ratio of allowance for loan losses to non-performing loans	173.12%	166.31%	305.50%

Management maintains an allowance for loan losses at levels that are believed to be adequate; however, there can be no assurances that further additions will not be necessary or that losses inherent in the existing loan portfolio will not exceed the allowance. The following table sets forth the activity in the allowance for loan losses during the periods indicated (in thousands):

	2006	2005
Beginning balance, January 1,	\$ 2,641	\$ 2,307
Provision	90	150

Ending balance, March 31,	2,718	2,221

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2006 AND 2005

Net Income. The Company recorded net income of \$1,255,000, or \$0.46 per diluted share, for the three months ended March 31, 2006 as compared to net income of \$1,476,000, or \$0.52 per diluted share, for the three months ended March 31, 2005.

Average Balance Sheet

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The following table sets forth information relating to the Company's average balance sheet and reflects the average yield on assets and average cost of liabilities for the periods indicated. Yield and cost are computed by dividing income or expense by the average daily balance of interest-earning assets or interest-bearing liabilities, respectively, at-or for the three month periods indicated.

- (1) Nonaccrual loans have been included in the appropriate average loan balance category, but interest on nonaccrual loans has not been included for purposes of determining interest income.
- (2) Tax equivalent adjustments to interest on investment securities were \$103,000 and \$66,000 for the quarters ended March 31, 2006 and 2005, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.
- (3) Includes interest-bearing deposits in other banks.
- (4) Interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities.
- (5) Net yield on interest-earning assets represents net interest income as a percentage of average interest-earning assets.

Rate/Volume Analysis

The following table presents, for the periods indicated, the change in interest income and interest expense (in thousands) attributed to (i) changes in volume (changes in the weighted average balance of the total interest earning asset and interest bearing liability portfolios multiplied by the prior year rate), and (ii) changes in rate (changes in rate multiplied by prior year volume). Changes attributable to the combined impact of volume and rate have been allocated proportionately based on the absolute value of changes due to volume and changes due to rate.

Total interest-bearing liabilities	238	891	1129
Net change in net interest income	\$ 269	\$ (355)	\$ (86)

- (1) Tax equivalent adjustments to interest on investment securities were \$103,000 and \$66,000 for the quarters ended March 31, 2006 and 2005, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.

Total Interest Income. Total interest income, on a taxable equivalent basis, increased by \$1.0 million or 12.8% to \$9.2 million for the quarter ended March 31, 2006 compared with the first quarter of 2005 primarily because of a \$51.7 million increase in average loans outstanding combined with an increase of 36 basis points on the average yield on these loans. Interest income from mortgage-backed securities was lower in the first three months of 2006 in comparison to the same period of 2005 due to the reduction of balances maintained in mortgage-backed securities.

Total Interest Expense. Total interest expense increased by \$1.1 million to \$3.6 million during the three-month period ended March 31, 2006 as compared with the first quarter of 2005. During 2005 and the first quarter of 2006, the Bank raised the interest rates paid on many of its deposit products due to the competitive pricing environment in the Bank's deposit market. As a result, interest expense on deposits increased by 61 basis points. Interest on advances from the Federal Home Loan Bank increased by \$0.4 million during the first quarter of 2006 versus the first quarter of 2005 as a result of a \$24 million increase in the average balance of borrowings as well as an increase of 65 basis points in the cost of these funds.

Non-interest income. Total non-interest income was \$681,000 for the three-month period ended March 31, 2006 compared with \$662,000 for the same period in 2005. The increase is mainly attributable to an increase in overdraft fees collected on deposit accounts. In contrast, net gain on the sale of loans totaled \$9,000 during the first quarter of

2006 while the gain during the first quarter of 2005 totaled \$22,000 mainly due to a decline in the dollar amount of loans sold during each of the two quarters.

Non-interest expense. Total non-interest expense increased by \$239,000 to \$4.4 million for the three months ended March 31, 2006 compared to the same period in 2005. Stock-based compensation expense related to stock grants and the recognition of option expense associated with the new accounting standard SFAS 123R, Share-Based Payment amounted to \$185,000 for the first quarter of 2006 while there was no such expense for the first quarter of 2005. Compensation and other benefit expenses were higher by \$63,000 mainly due to staffing related to the Girard Avenue branch which opened in June 2005 as well as annual salary increases. Office and occupancy costs increased \$43,000 between the two quarters mainly as a result of office and occupancy costs associated with the Girard Avenue branch. Other non-interest expense decreased during the first quarter of 2006 as a result of the sale of the credit card portfolio in the third quarter of 2005 as \$18,000 of credit card related expenses incurred in the first quarter of 2005 and there were no such expenses for the first quarter of 2006.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The Company's liquidity is a measure of its ability to fund loans, pay withdrawals of deposits, and other cash outflows in an efficient, cost-effective manner. The Company's short-term sources of liquidity include maturity, repayment and sales of assets, excess cash and cash equivalents, new deposits, broker deposits, other borrowings, and new advances from the Federal Home Loan Bank. There has been no material adverse change during three-month period ended March 31, 2006 in the ability of the Company and its subsidiaries to fund their operations.

At March 31, 2006, the Company had commitments outstanding under letters of credit of \$2.3 million, commitments to originate loans of \$20.0 million, and commitments to fund undisbursed balances of closed loans and unused lines of credit of \$63.7 million. At March 31, 2006, the Bank had \$2.1 million outstanding commitments to sell loans. There has been no material change during the three months ended March 31, 2006 in any of the Company's other contractual obligations or commitments to make future payments.

Capital Requirements

The Bank was in compliance with all of its capital requirements as of March 31, 2006.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Asset and Liability Management

Edgar Filing: TF FINANCIAL CORP - Form 10-Q

The Company's market risk exposure is predominately caused by interest rate risk, which is defined as the sensitivity of the Company's current and future earnings, the values of its assets and liabilities, and the value of its capital to changes in the level of market interest rates. Management of the Company believes that there has not been a material adverse change in market risk during the three months ended March 31, 2006.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on their evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), the Company's principal executive officer and principal financial officer have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q such disclosure controls and procedures are effective.

Changes in Internal Controls over Financial Reporting

During the quarter under report, there was no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

CRITICAL ACCOUNTING POLICIES

Certain critical accounting policies of the Company require the use of significant judgment and accounting estimates in the preparation of the consolidated financial statements and related data of the Company. These accounting estimates require management to make assumptions about matters that are highly uncertain at the time the accounting estimate is made. Management believes that the most critical accounting policy requiring the use of accounting estimates and judgment is the determination of the allowance for loan losses. If the financial position of a significant amount of debtors should deteriorate more than the Company has estimated, present reserves for loan losses may be insufficient and additional provisions for loan losses may be required. The allowance for loan losses was \$2,718,000 at March 31, 2006.

NEW ACCOUNTING PRONOUNCEMENTS

In March 2006, the Financial Accounting Standards Board (FASB) issued Statement No. 156 (SFAS 156), Accounting for Servicing of Financial Assets. SFAS 156 amends SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. SFAS 156 permits, but does not require, an entity to choose either the amortization method or the fair value measurement method for measuring each class of separately recognized servicing assets and servicing liabilities. SFAS 156 is effective for fiscal years beginning after September 15, 2006 and is not expected to have a material impact on the Company's consolidated financial statements.
