-

Item 2.02. Results of Operations and Financial Condition.

On November 4, 2009, we issued a press release announcing our results for the three months ended September 30, 2009. The press release is furnished herewith as Exhibit 99.1.

We will hold a telephone conference to discuss our third quarter 2009 results on Wednesday, November 4, 2009 at 8:00 a.m. ET.

Call-in number for U.S. participants:	(888) 680-0869
Call-in number for international participants:	(617) 213-4854
Participant access code:	97619227

The conference call will be available via webcast and can be accessed from the investor relations portion of our website at <http://www.huntsman.com>.

The conference call will be available for replay beginning November 4, 2009 and ending November 11, 2009.

Call-in numbers for the replay:

Within the U.S.:	(888) 286-8010
International:	(617) 801-6888
Access code for replay:	65149082

Information with respect to the conference call, together with a copy of the press release furnished herewith as Exhibit 99.1, is available on the investor relations portion of our website at <http://www.huntsman.com>.

The press release includes non-GAAP financial measures. Specifically, the press release refers to:

- EBITDA
- Adjusted EBITDA
- Adjusted EBITDA from discontinued operations
- Adjusted net income (loss)
- Adjusted net income (loss) from discontinued operations

Edgar Filing: Huntsman CORP - Form 8-K

We believe that net income (loss) attributable to Huntsman Corporation is the performance measure calculated and presented in accordance with generally accepted accounting principles in the U.S. (GAAP) that is most directly comparable to EBITDA, Adjusted EBITDA and Adjusted net income (loss). We believe that income (loss) from discontinued operations is the performance measure calculated and presented in accordance with GAAP that is most directly comparable to Adjusted EBITDA from discontinued operations and Adjusted net income (loss) from discontinued operations. Additional information with respect to our use of each of these financial measures follows.

- EBITDA is defined as net income (loss) attributable to Huntsman Corporation before interest, income taxes, and depreciation and amortization. We believe that EBITDA enhances an investor's understanding of our financial performance and our ability to satisfy principal and interest obligations with respect to our indebtedness. However, EBITDA should not be considered in isolation or viewed as a substitute for net income, cash flow from operations or other measures of performance as defined by GAAP. Moreover, EBITDA as used herein is not necessarily comparable to other similarly titled measures of other companies due to potential inconsistencies in the method of calculation. Our management uses EBITDA to assess financial performance and debt service capabilities. In assessing financial performance, our management reviews EBITDA as a general indicator of economic performance compared to prior periods. Because EBITDA excludes interest, income taxes, depreciation and amortization, EBITDA

provides an indicator of general economic performance that is not affected by debt restructurings, fluctuations in interest rates or effective tax rates, or levels of depreciation and amortization. Accordingly, our management believes this type of measurement is useful for comparing general operating performance from period to period and making certain related management decisions. EBITDA is also used by securities analysts, lenders and others in their evaluation of different companies because it excludes certain items that can vary widely across different industries or among companies within the same industry. For example, interest expense can be highly dependent on a company's capital structure, debt levels and credit ratings. Therefore, the impact of interest expense on earnings can vary significantly among companies. In addition, the tax positions of companies can vary because of their differing abilities to take advantage of tax benefits and because of the tax policies of the various jurisdictions in which they operate. As a result, effective tax rates and tax expense can vary considerably among companies. Finally, companies employ productive assets of different ages and utilize different methods of acquiring and depreciating such assets. This can result in considerable variability in the relative costs of productive assets and the depreciation and amortization expense among companies. Our management also believes that our investors use EBITDA as a measure of our ability to service indebtedness as well as to fund capital expenditures and working capital requirements. Nevertheless, our management recognizes that there are material limitations associated with the use of EBITDA in the evaluation of our Company as compared to net income, which reflects overall financial performance, including the effects of interest, income taxes, depreciation and amortization. EBITDA excludes interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate revenue. Therefore, any measure that excludes interest expense has material limitations. EBITDA also excludes taxes. Because the payment of taxes is a necessary element of our operations, any measure that excludes tax expense has material limitations. Finally, EBITDA excludes depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate revenue. Therefore, any measure that excludes depreciation and amortization expense has material limitations. Our management compensates for the limitations of using EBITDA by using it to supplement GAAP results to provide a more complete understanding of the factors and trends affecting the business than GAAP results alone. Our management also uses other metrics to evaluate capital structure, tax planning and capital investment decisions. For example, our management uses credit ratings and net debt ratios to evaluate capital structure, effective tax rate by jurisdiction to evaluate tax planning, and payback period and internal rate of return to evaluate capital investments. Our management also uses trade working capital to evaluate our investment in accounts receivable and inventory, net of accounts payable.

- Adjusted EBITDA is computed by eliminating the following from EBITDA: gains and losses from discontinued operations; restructuring, impairment and plant closing (credits) costs; income and expense associated with the terminated merger and related litigation; losses on the sale of accounts receivable to our securitization program; unallocated foreign currency (gain) loss; certain legal and contract settlements; losses from early extinguishment of debt; extraordinary loss (gain) on the acquisition of a business; and loss (gain) on dispositions of assets. Our management uses Adjusted EBITDA to assess financial performance in comparison to prior periods and to provide additional information regarding operational performance. Our management recognizes that the use of Adjusted EBITDA is subject to the same material limitations as are discussed with reference to EBITDA above and Adjusted EBITDA is an even more narrowly focused analytical tool that is subject to additional material limitations.

- Adjusted EBITDA from discontinued operations is computed by eliminating the following items from income (loss) from discontinued operations: income taxes; depreciation and amortization; restructuring, impairment and plant closing (credits) costs; losses on the sale of accounts receivable to our securitization program; unallocated foreign currency (gain) loss; gain on partial fire insurance settlement; and (gain) loss on disposition of assets. Our management uses Adjusted EBITDA from discontinued operations to assess financial performance in comparison to prior periods and to provide additional information regarding operational performance. Our

management recognizes that the use of Adjusted EBITDA from discontinued operations is subject to the same material limitations as are discussed with reference to EBITDA above and Adjusted EBITDA from discontinued operations is an even more narrowly focused analytical tool that is subject to additional material limitations.

- Adjusted net income (loss) is computed by eliminating the after tax impact of the following items from net income (loss) attributable to Huntsman Corporation: loss (income) from discontinued operations; restructuring, impairment and plant closing (credits) costs; income and expense associated with the terminated merger and related litigation; discount amortization on settlement financing associated with the terminated merger; unallocated foreign currency (gain) loss; certain legal and contract settlements; losses on the early extinguishment of debt; extraordinary loss (gain) on the acquisition of a business; and loss (gain) on dispositions of assets. Our management uses Adjusted net income (loss) to assess financial performance in comparison to prior periods and to provide additional information regarding operational performance. Our management recognizes that the use of Adjusted net income (loss) is subject to material limitations that result from the elimination of important expenses and gains.

- Adjusted net income (loss) from discontinued operations is computed by eliminating the after tax impact of the following items from income (loss) from discontinued operations: restructuring, impairment and plant closing (credits) costs; gain on partial fire insurance settlement; and (gain) loss on the disposition of assets. Our management uses Adjusted net income (loss) from discontinued operations to assess financial performance in comparison to prior periods and to provide additional information regarding operational performance. Our management recognizes that the use of Adjusted net income (loss) from discontinued operations is subject to material limitations that result from the elimination of important expenses and gains.

Item 9.01. Financial Statements and Exhibits.
