**Part I Financial Information**

**General**

The following unaudited consolidated financial statements and notes thereto of World Fuel Services Corporation and its subsidiaries have been prepared in accordance with the instructions to Quarterly Reports on Form 10-Q and, therefore, omit or condense certain footnotes and other information normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States. In the opinion of management, all adjustments necessary for a fair presentation of the financial information, which are of a normal and recurring nature, have been made for the interim periods reported. Results of operations for the three and six months ended June 30, 2013 are not necessarily indicative of the results for the entire fiscal year. The unaudited consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q for the quarterly period ended June 30, 2013 ( 10-Q Report ) should be read in conjunction with the audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2012 ( 2012 10-K Report ). World Fuel Services Corporation ( World Fuel or the Company ) and its subsidiaries are collectively referred to in this 10-Q Report as we, our and us.

Table of Contents

**Supplemental Schedule of Noncash Investing and Financing Activities:**

We declared cash dividends of \$0.0375 per common share of \$2.7 million for the three months ended June 30, 2013 and 2012, which were paid in July 2013 and 2012, respectively.

As of June 30, 2013, we had accrued capital expenditures totaling \$7.3 million, which were recorded in accounts payable.

During the six months ended June 30, 2012, we granted equity awards to certain employees of which \$2.7 million was previously recorded in accrued expenses and other current liabilities.

In connection with our acquisitions for the period presented, the following table presents the assets acquired, net of cash and liabilities assumed:

	For the Six Months ended June 30,			
	2013		2012	
Assets acquired, net of cash	\$	29,947	\$	28,795
Liabilities assumed	\$	20,471	\$	3,157

In connection with our acquisitions during the six months ended June 30, 2013, we recorded a purchase price adjustment of \$1.6 million which will be paid in a subsequent quarter. In connection with our acquisitions during the six months ended June 30, 2012, we issued promissory notes of \$2.2 million.

The accompanying notes are an integral part of these unaudited consolidated financial statements.

**World Fuel Services Corporation and Subsidiaries**

**Notes to the Consolidated Financial Statements**

(Unaudited)

**1. Significant Accounting Policies**

Except as updated below, the significant accounting policies we use for quarterly financial reporting are the same as those disclosed in Note 1 of the Notes to the Consolidated Financial Statements included in our 2012 10-K Report.

*Basis of Consolidation*

The accompanying consolidated financial statements and related notes include the accounts of our wholly-owned and majority-owned subsidiaries and joint ventures where we exercise operational control or have a primary benefit of its profits. All significant intercompany accounts, transactions and profits are eliminated upon consolidation.

*Reclassifications*

Certain amounts in prior periods have been reclassified to conform to the current period's presentation.

*Accounts Receivable Purchase Agreement*

We have a Receivables Purchase Agreement (RPA) to sell up to \$125.0 million of certain of our accounts receivable. On our sold receivables, we are charged a discount margin equivalent to a floating market rate plus 2% and certain other fees, as applicable and we retain a beneficial interest in certain of the sold accounts receivable which is included in accounts receivable, net in the accompanying consolidated balance sheets.

As of June 30, 2013, we had sold accounts receivable of \$68.0 million and retained a beneficial interest of \$5.3 million. During the three and six months ended June 30, 2013, the fees and interest paid under the receivables purchase agreement were not significant.

*Goodwill*

During the six months ended June 30, 2013, based on our ongoing fair value assessment of certain of our 2012 acquisitions, we recorded a \$2.0 million reduction in goodwill within our land segment principally due to a \$3.3 million increase in identifiable intangible assets, partially offset by a \$0.9 million decrease in other acquired assets and a \$0.4 million increase in assumed liabilities. Additionally, we reclassified \$6.5 million in goodwill from our land segment to our aviation segment. We had additional goodwill reductions of \$0.5 million and \$0.2 million as a result of foreign currency translation adjustments of our non-U.S. dollar functional currency subsidiaries in our marine and aviation segments, respectively.

#### *Recent Accounting Pronouncements*

*Presentation of an Unrecognized Tax Benefit When a Net Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists.* In July 2013, the Financial Accounting Standards Board ( FASB ) issued an accounting standards update ( ASU ) on the presentation of an unrecognized tax benefit when a net operating loss carryforward exists. Under this guidance, an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward. This update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. We are currently evaluating whether the adoption of this new guidance will have a significant impact on our consolidated financial statements and disclosures.

*Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes.* In July 2013, the FASB issued an ASU which includes amendments permitting the Fed Funds Effective Swap Rate to be used as a U.S. benchmark interest rate for hedge accounting purposes, in addition to U.S. Government and London Interbank Offered Rate. The amendments also remove the restriction on using different benchmark rates for similar hedges. This update is effective prospectively for qualifying new or redesignated hedging relationships entered into on or after July 17, 2013. We do not believe adoption of this new guidance will have a significant impact on our consolidated financial statements and disclosures.

## Table of Contents

*Foreign Currency Matters Parent's Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Foreign Subsidiaries.* In March 2013, the FASB issued an ASU aimed at resolving the diversity in practice of accounting for the release of the cumulative translation adjustment into net income when a parent either sells a part or all of its investment in a foreign entity or no longer holds a controlling financial interest in a subsidiary or group of assets that is a nonprofit activity or a business within a foreign entity. In addition, the amendments in this ASU resolve the diversity in practice for the treatment of business combinations achieved in stages (sometimes also referred to as step acquisitions) involving a foreign entity. This update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. We are currently evaluating whether the adoption of this new guidance will have a significant impact on our consolidated financial statements and disclosures.

*Disclosure Obligations Resulting from Joint and Several Liability Arrangements.* In February 2013, the FASB issued an ASU clarifying the guidance for the recognition, measurement and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this ASU is fixed at the reporting date, except for obligations addressed within existing guidance in U.S. GAAP. This update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2013 and will be applied retrospectively. We are currently evaluating whether the adoption of this new guidance will have a significant impact on our consolidated financial statements and disclosures.

*Disclosure Relating to Amounts Reclassified Out of Accumulated Other Comprehensive Income.* In February 2013, the FASB issued an ASU amending the information that companies will be required to present relating to reclassifications out of accumulated other comprehensive income. The amendments require presentation, either on the face of the financial statements or in the notes, of amounts reclassified out of accumulated other comprehensive income by component and by net income line item. This update is effective for fiscal years, and interim periods within those years, beginning after December 15, 2012. The adoption of this ASU resulted in additional derivative disclosures included in Note 2 - Derivatives and did not have a significant impact on our consolidated financial statements.

*Disclosure About Offsetting Assets and Liabilities.* In December 2011, the FASB issued an ASU which requires companies to disclose information about financial instruments that have been offset and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. Companies will be required to provide both net (offset amounts) and gross information in the notes to the financial statements for relevant assets and liabilities that are offset. In January 2013, the FASB issued an ASU clarifying that the requirement to disclose information about financial instruments that have been offset and related arrangements applies only to derivatives, repurchase agreements and reverse purchase agreements, and securities borrowing and lending transactions that are either offset in accordance with specific criteria contained in the FASB Accounting Standards Codification or subject to a master netting arrangement or similar agreement. This update became effective at the beginning of our 2013 fiscal year. The adoption of this ASU did not have a significant impact on our consolidated financial statements and disclosures.

## **2. Derivatives**

We enter into financial derivative contracts in order to mitigate the risk of market price fluctuations in aviation, marine and land fuel, to offer our customers fuel pricing alternatives to meet their needs and to mitigate the risk of fluctuations in foreign currency exchange rates. We also enter into proprietary derivative transactions, primarily intended to capitalize on arbitrage opportunities related to basis or time spreads related to fuel products we sell. We have applied the normal purchase and normal sales exception ( NPNS ), as provided by accounting guidance for derivative instruments and hedging activities, to certain of our physical forward sales and purchase contracts. While these contracts are considered derivative instruments under the guidance for derivative instruments and hedging activities, they are not recorded at fair value, but rather are recorded in our consolidated financial statements when physical settlement of the contracts occurs. If it is determined that a transaction designated as NPNS no longer meets the scope of the exception, the fair value of the related contract is recorded as an asset or liability on the consolidated balance sheet and the difference between the fair value and the contract amount is immediately recognized through earnings.

The following describes our derivative classifications:

*Cash Flow Hedges.* Includes certain of our foreign currency forward contracts we enter into in order to mitigate the risk of currency exchange rate fluctuations.

*Fair Value Hedges.* Includes derivatives we enter into in order to hedge price risk associated with our inventory and certain firm commitments relating to fixed price purchase and sale contracts.

*Non-designated Derivatives.* Includes derivatives we primarily enter into in order to mitigate the risk of market price fluctuations in aviation, marine and land fuel in the form of swaps or futures as well as certain fixed price purchase and sale contracts and proprietary trading. In addition, non-designated derivatives are also entered into to hedge the risk of currency rate fluctuations.

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

		77,641	67,263
		\$ 79,117	\$ 69,547

The following table presents the effect and financial statement location of our derivative instruments and related hedged items in fair value hedging relationships on our consolidated statements of income and comprehensive income (in thousands):

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

Derivative Instruments	Location	Realized and Unrealized Gain (Loss)		Hedged Items	Location	Realized and Unrealized Gain (Loss)	
		2013	2012			2013	2012
<u>Three months ended June 30,</u>							
Commodity contracts	Cost of revenue	\$ 14,546	\$ 36,522	Inventories	Cost of revenue	\$ (19,053)	\$ (32,847)
<u>Six months ended June 30,</u>							
Commodity contracts	Revenue	\$	\$ 265	Firm commitments	Revenue	\$	\$ (201)
Commodity contracts	Cost of revenue		(1,417)	Firm commitments	Cost of revenue		739
Commodity contracts	Cost of revenue	19,625	10,193	Inventories	Cost of revenue	(18,161)	(3,419)
		\$ 19,625	\$ 9,041			\$ (18,161)	\$ (2,881)

There were no gains or losses for the three and six months ended June 30, 2013 and 2012 that were excluded from the assessment of the effectiveness of our fair value hedges.

Table of Contents

The following table presents the effect and financial statement location of our derivative instruments in cash flow hedging relationships on our accumulated other comprehensive income and consolidated statements of income and comprehensive income (in thousands):

Derivative Instruments	Amount of Gain (Loss) Recognized in Accumulated Other Comprehensive Income (Effective Portion)		Location of Realized Gain (Effective Portion)	Amount of Gain Reclassified from Accumulated Other Comprehensive Income (Effective Portion)	
	2013	2012		2013	2012
<u>Three months ended</u>					
<u>June 30,</u>					
Foreign currency contracts	\$ 27	\$	Other (expense) income, net	\$ 33	\$
<u>Six months ended</u>					
<u>June 30,</u>					
Foreign currency contracts	\$ (24)	\$	Other (expense) income, net	\$ 72	\$

In the event forecasted cash outflows are less than the hedged amounts, a portion or all of the gains or losses recorded in accumulated other comprehensive income are reclassified to the consolidated statements of income and comprehensive income. As of June 30, 2013, the maximum amount that could be reclassified to the consolidated statements of income and comprehensive income for the next twelve months is not significant.

The following table presents the effect and financial statement location of our derivative instruments not designated as hedging instruments on our consolidated statements of income and comprehensive income (in thousands):

		Realized and Unrealized Gain (Loss)	
Derivatives	Location	2013	2012
<u>Three months ended June 30,</u>			
Commodity contracts	Revenue	\$ 14,112	\$ (16,549)
Commodity contracts	Cost of revenue	1,706	22,549
Foreign currency contracts	Revenue	72	824
Foreign currency contracts	Other (expense) income, net	363	978
		\$ 16,253	\$ 7,802
<u>Six months ended June 30,</u>			
Commodity contracts	Revenue	\$ 19,507	\$ (16,772)
Commodity contracts	Cost of revenue	1,413	29,570
Foreign currency contracts	Revenue	2,740	(728)
Foreign currency contracts	Other (expense) income, net	3,842	(684)
		\$ 27,502	\$ 11,386

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

We enter into derivative instrument contracts which may require us to periodically post collateral. Certain of these derivative contracts contain clauses that are similar to credit-risk-related contingent features, including material adverse change, general adequate assurance and internal credit review clauses that may require additional collateral to be posted and/or settlement of the instruments in the event an aforementioned clause is triggered. The triggering events are not a quantifiable measure; rather they are based on good faith and reasonable determination by the counterparty that the triggers have occurred. The net liability position for such contracts, the collateral posted and the amount of assets required to be posted and/or to settle the positions should a contingent feature be triggered is not significant as of June 30, 2013.

Table of Contents**3. Interest Income, Expense and Other Financing Costs**

The following table provides additional information about our interest expense and other financing costs, net, for the periods presented (in thousands):

	For the Three Months ended June 30,			For the Six Months ended June 30,		
	2013	2012		2013	2012	
Interest income	\$ 501	\$ 253		\$ 925	\$ 525	
Interest expense and other financing costs	(5,080)	(5,690)		(9,163)	(10,623)	
	\$ (4,579)	\$ (5,437)		\$ (8,238)	\$ (10,098)	

**4. Other Comprehensive Income and Accumulated Other Comprehensive Loss**

Our other comprehensive income, consisting of foreign currency translation adjustments related to our subsidiaries that have a functional currency other than the U.S. dollar and cash flow hedges, was as follows (in thousands):

	Foreign Currency Translation Adjustments		Cash Flow Hedges		Total	
Balance as of December 31, 2012	\$	(16,130)	\$	112	\$	(16,018)
Other comprehensive loss		(9,096)		(75)		(9,171)
Balance as of June 30, 2013	\$	(25,226)	\$	37	\$	(25,189)

The foreign currency translation adjustment losses for the six months ended June 30, 2013 were primarily due to the strengthening of the U.S. dollar as compared to the Brazilian Real.

Additional information relating to our cash flow hedges for the periods presented is included in Note 2 - Derivatives.

**5. Income Taxes**

Our income tax provision for the periods presented and the respective effective income tax rates for such periods are as follows (in thousands, except for income tax rates):

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

	For the Three Months ended				For the Six Months ended			
	June 30,				June 30,			
	2013		2012		2013		2012	
Income tax provision	\$	11,608	\$	11,951	\$	23,899	\$	18,566
Effective income tax rate		18.1%		17.9%		18.8%		15.2%

Our provision for income taxes for each of the three-month and six-month periods ended June 30, 2013 and 2012 were calculated based on the estimated annual effective income tax rate for the full 2013 and 2012 fiscal years. The provision for income taxes for the six-month period ended June 30, 2012 includes an adjustment for an income tax benefit of \$3.3 million for a discrete item related to a change in estimate in an uncertain income tax position. The actual effective income tax rate for the full 2013 fiscal year may be materially different as a result of differences between estimated versus actual results and the geographic tax jurisdictions in which the results are earned.

Table of Contents**6. Earnings per Common Share**

The following table sets forth the computation of basic and diluted earnings per common share for the periods presented (in thousands, except per share amounts):

	For the Three Months ended June 30,		For the Six Months ended June 30,	
	2013	2012	2013	2012
Numerator:				
Net income attributable to World Fuel	\$ 51,016	\$ 48,600	\$ 99,741	\$ 95,015
Denominator:				
Weighted average common shares for basic earnings per common share	71,516	71,173	71,483	71,083
Effect of dilutive securities	502	594	616	690
Weighted average common shares for diluted earnings per common share	72,018	71,767	72,099	71,773
Weighted average securities which are not included in the calculation of diluted earnings per common share because their impact is anti-dilutive or their performance conditions have not been met	468	774	461	422
Basic earnings per common share	\$ 0.71	\$ 0.68	\$ 1.40	\$ 1.34
Diluted earnings per common share	\$ 0.71	\$ 0.68	\$ 1.38	\$ 1.32

**7. Commitments and Contingencies****Legal Matters***Cathay Pacific Litigation*

Since April 2012, one of our subsidiaries, World Fuel Services (Singapore) Pte Ltd. ( WFSS ) has been involved in litigation with Cathay Pacific Airways Limited ( Cathay ) arising out of the emergency landing of a Cathay aircraft in Hong Kong in 2010, which Cathay alleges was caused by contaminated fuel supplied by WFSS. Cathay claims damages relating to the incident of approximately \$34.0 million. Because the outcome of litigation is inherently uncertain, we cannot estimate the possible loss or range of loss for this matter. We intend to vigorously defend against this claim, and we believe our liability in this matter (if any) should be adequately covered by insurance. As of June 30, 2013, we have not recorded any accruals associated with this claim.

*Other Matters*

We are a party to various claims, complaints and proceedings arising in the ordinary course of our business including, but not limited to, environmental claims, commercial and governmental contract claims, such as property damage, demurrage, billing and fuel quality claims, as well as bankruptcy preference claims. We have established loss provisions for these ordinary course claims as well as other matters in which losses are probable and can be reasonably estimated. As of June 30, 2013, we had recorded certain reserves which were not significant. For those matters where a reserve has not been established and for which we believe a loss is reasonably possible, as well as for matters where a reserve has been recorded but for which an exposure to loss in excess of the amount accrued is reasonably possible, we believe that such losses will not have a material adverse effect on our business or financial condition. However, any adverse resolution of one or more such claims, complaints or proceedings during a particular period could have a material adverse effect on our results of operations or cash flow for that period.

Table of Contents

Our estimates regarding potential losses and materiality are based on our judgment and assessment of the claims utilizing currently available information. Although we will continue to reassess our reserves and estimates based on future developments, our objective assessment of the legal merits of such claims may not always be predictive of the outcome and actual results may vary from our current estimates.

*Other Contingencies*

On June 7, 2013, STX Pan OceanCo. Ltd ( STX Pan Ocean ), one of our customers in our marine segment, filed for bankruptcy protection in Korea which was subsequently recognized in the United States on July 12, 2013. As of July 25, 2013, we had outstanding receivables owing from STX Pan Ocean of \$12.9 million, and outstanding receivables owing from STX Pan Ocean's parent company, STX Corporation ( STX Corp ), of \$9.6 million. As of the date of this report, STX Corp has not filed for bankruptcy protection and, at present, both entities continue to conduct operations. We routinely extend credit to customers in connection with their purchases of fuel and services from us, and from time to time customers of ours face financial difficulty. We have been successful in the past in being able to recover amounts from these customers with little or no losses on amounts owing to us, and we are confident in our ability to do so in this case. We are currently in discussions with these entities to settle the outstanding receivables. We also have a number of avenues that we may pursue in connection with recovering these amounts or to mitigate losses we might face, including insurance, enforcement of maritime liens and offset rights. However, there can be no assurance that we will be able to recover the full amounts owing from either STX Pan Ocean or STX Corp.

**8. Fair Value Measurements**

The carrying amounts of cash and cash equivalents, accounts receivable, net, accounts payable and accrued expenses and other current liabilities approximate fair value based on the short-term maturities of these instruments. We believe the carrying values of our debt and notes receivable approximate fair value since these instruments bear interest either at variable rates or fixed rates which are not significantly different than market rates. Based on the fair value hierarchy, our debt of \$351.4 million and \$380.3 million as of June 30, 2013 and December 31, 2012, respectively, and our notes receivable of \$10.1 million and \$12.7 million as of June 30, 2013 and December 31, 2012, respectively, are categorized in Level 3.

The following table presents information about our financial assets and liabilities that are measured at estimated fair value on a recurring basis (in thousands):

	Level 1	Level 2	Level 3	Sub-Total	Netting and Collateral	Total
<b><u>As of June 30, 2013</u></b>

Other long-term liabilities		98
Total net liabilities	\$ 1,595	\$ 1,556

For our derivative contracts, we may enter into master netting, collateral and offset agreements with counterparties. These agreements provide us the ability to offset a counterparty's rights and obligations, request additional collateral when necessary or liquidate the collateral in the event of counterparty default. We net fair value of cash collateral paid or received against fair value amounts recognized for net derivative positions executed with the same counterparty under the same master netting or offset agreement.

As of June 30, 2013, we had \$34.3 million of cash collateral deposits held by financial counterparties of which \$10.7 million have been offset against the total amount of commodity fair value liabilities in the above table and the remaining \$23.6 million is included in other current assets in the accompanying consolidated balance sheets. Additionally, as of June 30, 2013, we have offset \$0.6 million of cash collateral received from customers against the total amount of commodity fair value assets in the above table. As of December 31, 2012, we had \$22.9 million of cash collateral deposits held by financial counterparties included in other current assets in the accompanying consolidated balance sheets. Additionally, as of December 31, 2012, we have offset \$6.6 million of cash collateral received from customers against the total amount of commodity fair value assets in the above table.

Table of Contents

The following table presents information about our assets and liabilities that are measured at fair value on a recurring basis that utilized Level 3 inputs for the periods presented (in thousands):

	Beginning of Period	Total Gains (Losses) Included in Earnings	Settlements	End of Period	Change in Unrealized Losses Relating to Liabilities that are Held at end of Period	Location of Total Gains (Losses) Included in Earnings
<u>Three months ended</u>

<u>2012</u>						
Liabilities:						
Earn-out	\$ 4,194	\$ (110)	\$ 4,304	\$		Other (expense) income, net

There were no transfers between Level 1, 2 or 3 during the periods presented. In addition, there were no significant Level 3 settlements, purchases, sales or issuances for the periods presented.

## 9. Business Segments

Based on the nature of operations and quantitative thresholds pursuant to accounting guidance for segment reporting, we have three reportable operating business segments: aviation, marine and land. Corporate expenses are allocated to the segments based on usage, where possible, or on other factors according to the nature of the activity. Our results of operations include (i) the results of the acquisition of certain assets of CarterEnergy Corporation in our land segment commencing on September 1, 2012, its acquisition date, and (ii) the results of the acquisition of certain assets of Multi Service Corporation, primarily in our land segment, commencing on December 31, 2012, its acquisition date. The accounting policies of the reportable operating segments are the same as those described in the Summary of Significant Accounting Policies (see Note 1).

# Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

## 10. Subsequent Events

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

We, on behalf of DPTS Marketing LLC ( DPM ), a crude oil marketing joint venture in which we own a 50% membership interest, purchased crude oil from various producers in the Bakken region of North Dakota. Dakota Petroleum Transport Solutions, LLC ( DPTS ), a crude oil transloading joint venture in which we also own a 50% membership interest, arranged for the transloading of the crude oil for DPM into tanker-cars at the joint venture's facility in New Town, North Dakota. We leased the tanker-cars used in the transloading from a number of third party lessors and subleased the tanker-cars to DPM. We, on behalf of DPM, contracted with Canadian Pacific Railway for the transportation of the tanker-cars and the crude oil from New Town, North Dakota to a customer in New Brunswick, Canada. Canadian Pacific Railway subcontracted a portion of that route to the Montreal, Maine and Atlantic Railway ( MMA ). On July 6, 2013, the freight train operated by MMA with 72 of the tanker-cars carrying approximately 50,000 barrels of the crude oil derailed in Lac-Mégantic, Quebec. The derailment resulted in significant loss of life, damage to the environment from crude oil spilled from the train and extensive property damage from fires and explosions that followed the derailment.

We, certain of our subsidiaries, as well as MMA, DPM and DPTS, have been named as defendants in lawsuits and proceedings related to the incident. In addition, an order was issued by the government of Quebec that requires MMA and us to recover the spilled crude oil caused by the incident and to otherwise fully remediate the impact of the incident on the environment. We have submitted an initial response to this order raising numerous objections to the order. Additional lawsuits, proceedings and orders may be filed or issued.

While we and our joint ventures, DPM and DPTS, maintain insurance to mitigate the costs of environmental releases as well as other results of unexpected events, including loss of life, property damage and defense costs, there can be no assurance that our insurance will be adequate to cover any liabilities that may be incurred as a result of this incident. We anticipate that the losses relating to the crude oil and the tanker-cars will be fully covered by insurance.

We are also evaluating potential claims that we, DPM or DPTS may assert against third parties to recover costs and other liabilities that may be incurred as a result of this incident, including costs of defending against third party claims and regulatory proceedings. We can provide no assurance that any such claims will be successful or that the responsible parties will have the financial resources to address any such claims.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion should be read in conjunction with our 2012 10-K Report and the consolidated financial statements and related notes in Item 1 - Financial Statements appearing elsewhere in this 10-Q Report. The following discussion may contain forward-looking statements, and our actual results may differ significantly from the results suggested by these forward-looking statements. Some factors that may cause our results to differ materially from the results and events anticipated or implied by such forward-looking statements are described in Item 1A Risk Factors of our 2012 10-K Report and Part II of this 10-Q Report.

**Forward-Looking Statements**

Certain statements made in this report and the information incorporated by reference in it, or made by us in other reports, filings with the Securities and Exchange Commission ( SEC ), press releases, teleconferences, industry conferences or otherwise, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The forward-looking statements include, without limitation, any statement that may predict, forecast, indicate or imply future results, performance or achievements, and may contain the words believe, anticipate, expect, estimate, project, could, would, will, will be, will continue, will likely result, plan, or words or phrases

Forward-looking statements are estimates and projections reflecting our best judgment and involve risks, uncertainties or other factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control. The Company's actual results may differ materially from the future results, performance or achievements expressed or implied by the forward-looking statements. These statements are based on our management's expectations, beliefs and assumptions concerning future events affecting us, which in turn are based on currently available information.

Examples of forward-looking statements in this 10-Q Report include, but are not limited to, our expectations regarding our business strategy, business prospects, operating results, ability to collect outstanding accounts receivable, potential liabilities and the extent of any insurance coverage, effectiveness of internal controls to manage risk, working capital, liquidity, capital expenditure requirements and future acquisitions. Important assumptions relating to the forward-looking statements include, among others, assumptions regarding demand for our products, the cost, terms and availability of fuel from suppliers, pricing levels, the timing and cost of capital expenditures, outcome of pending litigation, competitive conditions, general economic conditions and synergies relating to acquisitions, joint ventures and alliances. These assumptions could prove inaccurate. Although we believe that the estimates and projections reflected in the forward-looking statements are reasonable, our expectations may prove to be incorrect.

Important factors that could cause actual results to differ materially from the results and events anticipated or implied by such forward-looking statements include, but are not limited to:

- customer and counterparty creditworthiness and our ability to collect accounts receivable and settle derivative contracts;

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

- changes in the market price of fuel;
- changes in the political, economic or regulatory conditions generally and in the markets in which we operate;
- our failure to effectively hedge certain financial risks and the use of derivatives;
- non-performance by counterparties or customers to derivative contracts;
- changes in credit terms extended to us from our suppliers;
- non-performance of suppliers on their sale commitments and customers on their purchase commitments;
- loss of, or reduced sales to a significant government customer;
- non-performance of third-party service providers;
- adverse conditions in the industries in which our customers operate, including a continuation of the global recession and its impact on the airline and shipping industries;

Table of Contents

- currency exchange fluctuations;
- failure of the fuel we sell to meet specifications;
- our ability to manage growth;
- our ability to integrate acquired businesses;
- material disruptions in the availability or supply of fuel;
- environmental and other risks associated with the storage, transportation and delivery of petroleum products;
- risks associated with operating in high risk locations, such as Iraq and Afghanistan;
- uninsured losses;
- the impact of natural disasters, such as hurricanes;
- our failure to comply with restrictions and covenants in our senior revolving credit facility ( Credit Facility ) and our senior term loans ( Term Loans );
- the liquidity and solvency of banks within our Credit Facility and Term Loans;
- increases in interest rates;

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

- declines in the value and liquidity of cash equivalents and investments;
- our ability to retain and attract senior management and other key employees;
- changes in U.S. or foreign tax laws or changes in the mix of taxable income among different tax jurisdictions;
- our ability to comply with U.S. and international laws and regulations including those related to anti-corruption, economic sanction programs and environmental matters;
- increased levels of competition;
- the outcome of litigation and the costs associated in defending any actions; and
- other risks, including those described in Item 1A - Risk Factors in our 2012 10-K Report and Part II of this 10-Q Report, as well as those described from time to time in our other filings with the SEC.

We operate in a very competitive and rapidly changing environment. New risks emerge from time to time. It is not possible for us to predict all of those risks, nor can we assess the impact of all of those risks on our business or the extent to which any factor may cause actual results to differ materially from those contained in any forward-looking statement. The forward-looking statements in this 10-Q Report are based on assumptions management believes are reasonable. However, due to the uncertainties associated with forward-looking statements, you should not place undue reliance on any forward-looking statements. Further, forward-looking statements speak only as of the date they are made, and unless required by law, we expressly disclaim any obligation or undertaking to publicly update any of them in light of new information, future events, or otherwise.

For these statements, we claim the protection of the safe harbor for forward-looking statements contained in Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act ).

Table of Contents

**Overview**

We are a leading global fuel logistics company, principally engaged in the marketing, sale and distribution of aviation, marine, and land fuel products and related services on a worldwide basis. We compete by providing our customers with value-added benefits, including single-supplier convenience, competitive pricing, the availability of trade credit, price risk management, logistical support, fuel quality control and fuel procurement outsourcing. We have three reportable operating business segments: aviation, marine, and land. We primarily contract with third parties for the delivery and storage of fuel products, however, in some cases we own storage and transportation assets for strategic purposes. Additionally, we offer transaction management services which consist of card payment solutions and merchant processing services to customers in the aviation, marine and land transportation industries. In our aviation segment, we offer fuel and related services to major commercial airlines, second and third-tier airlines, cargo carriers, regional and low cost carriers, airports, fixed based operators, corporate fleets, fractional operators, private aircraft, military fleets and to the U.S. and foreign governments. In our marine segment, we offer fuel and related services to a broad base of marine customers, including international container and tanker fleets, commercial cruise lines, yachts and time-charter operators, as well as to the U.S. and foreign governments. In our land segment, we offer fuel and related services to petroleum distributors operating in the land transportation market, retail petroleum operators, and industrial, commercial and government customers and we engage in crude oil marketing activities.

In our aviation and land segments, we primarily purchase and resell fuel, and we do not act as brokers. Profit from our aviation and land segments is primarily determined by the volume and the gross profit achieved on fuel resales and a percentage of card payment and processing revenue. In our marine segment, we primarily purchase and resell fuel and also act as brokers for others. Profit from our marine segment is determined primarily by the volume and gross profit achieved on fuel resales and by the volume and commission rate of the brokering business. Our profitability in our segments also depends on our operating expenses, which may be significantly affected to the extent that we are required to provide for potential bad debt.

Our revenue and cost of revenue are significantly impacted by world oil prices, as evidenced in part by our revenue and cost of revenue fluctuations in recent fiscal years, while our gross profit is not necessarily impacted by changes in world oil prices. However, significant movements in fuel prices during any given financial period can have a significant impact on our gross profit, either positively or negatively depending on the direction, volatility and timing of such price movements.

We may experience decreases in future sales volumes and margins as a result of the ongoing deterioration in the world economy, the decline of the transportation industry, natural disasters and continued conflicts and instability in the Middle East, Asia and Latin America, as well as potential future terrorist activities and possible military retaliation. In addition, because fuel costs represent a significant part of our customers operating expenses, volatile and/or high fuel prices can adversely affect our customers' businesses, and, consequently, the demand for our services and our results of operations. Our hedging activities may not be effective to mitigate volatile fuel prices and may expose us to counterparty risk. See Item 1A Risk Factors of our 2012 10-K Report and Part II of this 10-Q Report.

**Reportable Segments**

We have three reportable operating segments: aviation, marine and land. Corporate expenses are allocated to each segment based on usage, where possible, or on other factors according to the nature of the activity. We evaluate and manage our business segments using the performance measurement of income from operations. Financial information with respect to our business segments is provided in Note 9 to the accompanying consolidated financial statements included in this 10-Q Report.

Table of Contents**Results of Operations**

Our results of operations include (i) the results of the acquisition of certain assets of CarterEnergy Corporation in our land segment commencing on September 1, 2012, its acquisition date, and (ii) the results of the acquisition of certain assets of Multi Service Corporation, primarily in our land segment, commencing on December 31, 2012, its acquisition date.

*Three Months Ended June 30, 2013 Compared to Three Months Ended June 30, 2012*

**Revenue.** Our revenue for the second quarter of 2013 was \$10.5 billion, an increase of \$0.9 billion, or 8.9%, as compared to the second quarter of 2012. Our revenue during these periods was attributable to the following segments (in thousands):

	<b>For the Three Months ended June 30,</b>			
	<b>2013</b>		<b>2012</b>	<b>\$ Change</b>
Aviation segment	\$ 3,745,070	\$	3,547,871	\$ 197,199
Marine segment	3,967,109		3,767,144	199,965
Land segment	2,767,425		2,303,782	463,643
	\$ 10,479,604	\$	9,618,797	\$ 860,807

Our aviation segment revenue for the second quarter of 2013 was \$3.7 billion, an increase of \$0.2 billion, or 5.6%, as compared to the second quarter of 2012. Of the increase in aviation segment revenue, \$0.5 billion was due to increased volume principally attributable to new and existing customers, which was partially offset by \$0.3 billion due to a decrease in the average price per gallon sold as a result of lower average jet fuel prices in the second quarter of 2013 as compared to the second quarter of 2012.

Our marine segment revenue for the second quarter of 2013 was \$4.0 billion, an increase of \$0.2 billion, or 5.3%, as compared to the second quarter of 2012. Of the increase in marine segment revenue, \$0.6 billion was due to increased volume attributable to new and existing customers, which was partially offset by \$0.4 billion due to a decrease in the average price per metric ton sold as a result of lower average marine fuel prices in the second quarter of 2013 as compared to the second quarter of 2012.

Our land segment revenue for the second quarter of 2013 was \$2.8 billion, an increase of \$0.5 billion, or 20.1%, as compared to the second quarter of 2012. The increase in land segment revenue was principally due to the inclusion of revenue from acquired businesses.

**Gross Profit.** Our gross profit for the second quarter of 2013 was \$188.5 million, an increase of \$16.3 million, or 9.5%, as compared to the second quarter of 2012. Our gross profit during these periods was attributable to the following segments (in thousands):

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

For the Three Months ended June 30,					
	2013		2012		\$ Change
Aviation segment	\$	76,041	\$	69,171	\$ 6,870
Marine segment		52,332		51,748	584
Land segment		60,085		51,204	8,881
	\$	188,458	\$	172,123	\$ 16,335

Our aviation segment gross profit for the second quarter of 2013 was \$76.0 million, an increase of \$6.9 million, or 9.9%, as compared to the second quarter of 2012. Of the increase in aviation segment gross profit, \$8.9 million was due to increased volume attributable to new and existing customers and \$2.9 million was due to gross profit from acquired businesses. These increases were partially offset by \$4.9 million in lower gross profit principally due to fluctuations in customer mix.

## Table of Contents

Our marine segment gross profit for the second quarter of 2013 was \$52.3 million, an increase of \$0.6 million, or 1.1%, as compared to the second quarter of 2012. Of the increase in marine segment gross profit, \$7.9 million was due to increased volume attributable to new and existing customers. This was partially offset by \$7.3 million due to decreased gross profit per metric ton sold principally due to a shift in business mix to lower risk, lower margin business.

Our land segment gross profit for the second quarter of 2013 was \$60.1 million, an increase of \$8.9 million, or 17.3%, as compared to the second quarter of 2012. Of the increase in land segment gross profit, \$19.2 million was due to gross profit from acquired businesses, which was partially offset by \$10.3 million in lower gross profit per gallon sold principally attributable to crude oil marketing activities.

*Operating Expenses.* Total operating expenses for the second quarter of 2013 were \$119.7 million, an increase of \$20.0 million, or 20.0%, as compared to the second quarter of 2012. The following table sets forth our expense categories (in thousands):

For the Three Months ended June 30,				
	2013		2012	\$ Change
Compensation and employee benefits	\$ 72,745	\$	56,183	\$ 16,562
Provision for bad debt	2,709		641	2,068
General and administrative	44,268		42,941	1,327
	\$ 119,722	\$	99,765	\$ 19,957

The \$16.6 million increase in compensation and employee benefits was principally due to the inclusion of expenses from acquired businesses. The \$2.1 million increase in provision for bad debt was principally due to an overall increase in the accounts receivable balance in 2013 as compared to 2012. The \$1.3 million increase in general and administrative expenses was due to \$6.8 million related to the inclusion of expenses from acquired businesses, which was partially offset by \$5.5 million in decreased expenses principally due to efforts to drive greater operational efficiencies.

*Income from Operations.* Our income from operations for the second quarter of 2013 was \$68.7 million, a decrease of \$3.6 million, or 5.0%, as compared to the second quarter of 2012. Income from operations during these periods was attributable to the following segments (in thousands):

For the Three Months ended June 30,				
	2013		2012	\$ Change
Aviation segment	\$ 33,873	\$	25,960	\$ 7,913
Marine segment	24,062		27,931	(3,869)
Land segment	21,122		28,352	(7,230)
	79,057		82,243	(3,186)
Corporate overhead - unallocated	10,321		9,885	436
	\$ 68,736	\$	72,358	\$ (3,622)

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

Our aviation segment income from operations for the second quarter of 2013 was \$33.9 million, an increase of \$7.9 million, or 30.5%, as compared to the second quarter of 2012. This increase resulted from \$6.9 million in higher gross profit and \$1.0 million in decreased operating expenses.

Our marine segment income from operations for the second quarter of 2013 was \$24.1 million, a decrease of \$3.9 million, or 13.9%, as compared to the second quarter of 2012. This decrease resulted from increased operating expenses of \$4.5 million, which was partially offset by \$0.6 million in higher gross profit.

Our land segment income from operations for the second quarter of 2013 was \$21.1 million, a decrease of \$7.2 million, or 25.5%, as compared to the second quarter of 2012. This decrease resulted from increased operating expenses of \$16.1 million principally related to the inclusion of acquired businesses and \$10.3 million in lower gross profit per gallon sold principally attributable to crude oil marketing activities. The aggregate decrease of \$26.4 million was partially offset by \$19.2 million in gross profit from acquired businesses.

Table of Contents

Corporate overhead costs not charged to the business segments for the second quarter of 2013 were \$10.3 million, an increase of \$0.4 million, or 4.4%, as compared to the second quarter of 2012.

*Non-Operating Expenses, net.* For the second quarter of 2013, we had non-operating expenses, net of \$4.8 million, a decrease of \$0.8 million, or 13.6%, as compared to the second quarter of 2012. This decrease was principally due to a \$0.6 million decrease in interest expense and other financing costs, net as a result of lower average borrowing rates under the Credit Facility in the second quarter of 2013 as compared to the second quarter of 2012 and \$0.5 million in earnings from our equity investments in the second quarter of 2013. This was partially offset by an increase in foreign currency exchange losses of \$0.7 million for the second quarter of 2013 as compared to the second quarter of 2012.

*Income Taxes.* For the second quarter of 2013, our effective income tax rate was 18.1% and our income tax provision was \$11.6 million, as compared to an effective income tax rate of 17.9% and an income tax provision of \$12.0 million for the second quarter of 2012. The higher effective income tax rate for the second quarter of 2013 resulted principally from differences in the results of our subsidiaries in tax jurisdictions with different income tax rates as compared to the second quarter of 2012.

*Net Income Attributable to Noncontrolling Interest.* For the second quarter of 2013, net income attributable to noncontrolling interest was \$1.3 million, a decrease of \$4.9 million, or 78.7%, as compared to the second quarter of 2012. The decrease was principally due to reduced earnings in our crude oil marketing joint venture for the second quarter of 2013 as compared to the second quarter of 2012.

*Net Income and Diluted Earnings per Common Share.* Our net income for the second quarter of 2013 was \$51.0 million, an increase of \$2.4 million, or 5.0%, as compared to the second quarter of 2012. Diluted earnings per common share for the second quarter of 2013 was \$0.71 per common share, an increase of \$0.03 per common share, or 4.4%, as compared to the second quarter of 2012.

*Non-GAAP Net Income and Non-GAAP Diluted Earnings per Common Share.* Our non-GAAP net income for the second quarter of 2013 was \$57.5 million, an increase of \$4.7 million, or 8.9%, as compared to the second quarter of 2012. Non-GAAP diluted earnings per common share for the second quarter of 2013 was \$0.80 per common share, an increase of \$0.06 per common share, or 8.1%, as compared to the second quarter of 2012. The following table sets forth the reconciliation between our net income and non-GAAP net income for the second quarter of 2013 and 2012 (in thousands):

	For the Three Months ended			
	2013		June 30, 2012	
Net income attributable to World Fuel	\$	51,016	\$	48,600
Share-based compensation expense, net of income taxes of \$1,407 and \$946 for 2013 and 2012, respectively		2,918		2,107
Intangible asset amortization expense, net of income taxes of \$2,018 and \$1,714 for 2013 and 2012, respectively		3,576		2,118
Non-GAAP net income attributable to World Fuel	\$	57,510	\$	52,825

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

The following table sets forth the reconciliation between our diluted earnings per common share and non-GAAP diluted earnings per common share for the second quarter of 2013 and 2012:

	For the Three Months ended			
	June 30,			
	2013		2012	
Diluted earnings per common share	\$	0.71	\$	0.68
Share-based compensation expense, net of income taxes		0.04		0.03
Intangible asset amortization expense, net of income taxes		0.05		0.03
Non-GAAP diluted earnings per common share	\$	0.80	\$	0.74

## Table of Contents

The non-GAAP financial measures exclude costs associated with share-based compensation and amortization of acquired intangible assets, primarily because we do not believe they are reflective of the Company's core operating results. We believe the exclusion of share-based compensation from operating expenses is useful given the variation in expense that can result from changes in the fair value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs. Also, we believe the exclusion of the amortization of acquired intangible assets is useful for purposes of evaluating operating performance of our core operating results and comparing them period-over-period. We believe that these non-GAAP financial measures, when considered in conjunction with our financial information prepared in accordance with GAAP, are useful to investors to further aid in evaluating the ongoing financial performance of the Company and to provide greater transparency as supplemental information to our GAAP results. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In addition, our presentation of non-GAAP net income and non-GAAP earnings per common share may not be comparable to the presentation of such metrics by other companies. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measure.

### Six Months Ended June 30, 2013 Compared to Six Months Ended June 30, 2012

**Revenue.** Our revenue for the first six months of 2013 was \$20.7 billion, an increase of \$1.6 billion, or 8.2%, as compared to the first six months of 2012. Our revenue during these periods was attributable to the following segments (in thousands):

	For the Six Months ended June 30,			
	2013	2012	\$ Change	
Aviation segment	\$ 7,675,658	\$ 6,959,418	\$	716,240
Marine segment	7,684,248	7,671,335		12,913
Land segment	5,303,727	4,467,099		836,628
	\$ 20,663,633	\$ 19,097,852	\$	1,565,781

Our aviation segment revenue for the first six months of 2013 was \$7.7 billion, an increase of \$0.7 billion, or 10.3%, as compared to the first six months of 2012. Of the increase in aviation segment revenue, \$0.9 billion was due to increased volume principally attributable to new and existing customers, which was partially offset by \$0.2 billion due to a decrease in the average price per gallon sold as a result of lower average jet fuel prices in the first six months of 2013 as compared to the first six months of 2012.

Our marine segment revenue for the first six months of 2013 and 2012 was \$7.7 billion. Of the increase in marine segment revenue, \$0.8 billion was due to increased volume attributable to new and existing customers, which was principally offset by a decrease in the average price per metric ton sold as a result of lower average marine fuel prices in the first six months of 2013 as compared to the first six months of 2012.

Our land segment revenue for the first six months of 2013 was \$5.3 billion, an increase of \$0.8 billion, or 18.7%, as compared to the first six months of 2012. The increase in land segment revenue was principally due to the inclusion of revenue from acquired businesses.

**Gross Profit.** Our gross profit for the first six months of 2013 was \$370.8 million, an increase of \$41.5 million, or 12.6%, as compared to the first six months of 2012. Our gross profit during these periods was attributable to the following segments (in thousands):

For the Six Months ended June 30,				
	2013		2012	\$ Change
Aviation segment	\$ 153,025	\$	134,085	\$ 18,940
Marine segment	94,014		106,825	(12,811)
Land segment	123,798		88,448	35,350
	\$ 370,837	\$	329,358	\$ 41,479

## Table of Contents

Our aviation segment gross profit for the first six months of 2013 was \$153.0 million, an increase of \$18.9 million, or 14.1%, as compared to the first six months of 2012. Of the increase in aviation segment gross profit, \$16.5 million was due to increased volume attributable to new and existing customers and \$6.6 million was due to gross profit from acquired businesses. These increases were partially offset by \$4.2 million in lower gross profit principally due to fluctuations in customer mix.

Our marine segment gross profit for the first six months of 2013 was \$94.0 million, a decrease of \$12.8 million, or 12.0%, as compared to the first six months of 2012. Of the decrease in marine segment gross profit, \$24.3 million was due to decreased gross profit per metric ton sold principally due to a shift in business mix to lower risk, lower margin business and limited price volatility during the first three months of 2013. This was partially offset by \$11.5 million due to increased volume attributable to new and existing customers.

Our land segment gross profit for the first six months of 2013 was \$123.8 million, an increase of \$35.4 million, or 40.0%, as compared to the first six months of 2012. The increase in land segment gross profit was principally due to gross profit from acquired businesses.

*Operating Expenses.* Total operating expenses for the first six months of 2013 were \$235.2 million, an increase of \$37.4 million, or 18.9%, as compared to the first six months of 2012. The following table sets forth our expense categories (in thousands):

	For the Six Months ended June 30,			
	2013		2012	\$ Change
Compensation and employee benefits	\$ 142,174	\$	110,710	\$ 31,464
Provision for bad debt	3,812		782	3,030
General and administrative	89,174		86,252	2,922
	\$ 235,160	\$	197,744	\$ 37,416

The \$31.5 million increase in compensation and employee benefits was principally due to the inclusion of expenses from acquired businesses. The \$3.0 million increase in provision for bad debt was principally due to an overall increase in the accounts receivable balance in 2013 as compared to 2012. The \$2.9 million increase in general and administrative expenses was due to \$12.8 million related to the inclusion of expenses from acquired businesses, which was partially offset by \$9.9 million in decreased expenses due to efforts to drive greater operational efficiencies.

*Income from Operations.* Our income from operations for the first six months of 2013 was \$135.7 million, an increase of \$4.1 million, or 3.1%, as compared to the first six months of 2012. Income from operations during these periods was attributable to the following segments (in thousands):

	For the Six Months ended June 30,			
	2013		2012	\$ Change
Aviation segment	\$ 68,753	\$	52,793	\$ 15,960
Marine segment	39,321		55,376	(16,055)

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

Land segment	48,502	44,552	3,950
	156,576	152,721	3,855
Corporate overhead - unallocated	20,899	21,107	(208)
	\$ 135,677	\$ 131,614	\$ 4,063

Our aviation segment income from operations for the first six months of 2013 was \$68.8 million, an increase of \$16.0 million, or 30.2%, as compared to the first six months of 2012. This increase resulted from \$18.9 million in higher gross profit, which was partially offset by \$2.9 million in increased operating expenses attributable to the inclusion of acquired businesses.

Our marine segment income from operations for the first six months of 2013 was \$39.3 million, a decrease of \$16.1 million, or 29.0%, as compared to the first six months of 2012. This decrease resulted from \$12.8 million in lower gross profit and increased operating expenses of \$3.3 million.

Table of Contents

Our land segment income from operations for the first six months of 2013 was \$48.5 million, an increase of \$4.0 million, or 8.9%, as compared to the first six months of 2012. This increase resulted from \$35.4 million in higher gross profit, which was partially offset by increased operating expenses of \$31.4 million. Of the increase in land segment operating expenses, \$30.1 million was related to the inclusion of acquired businesses.

Corporate overhead costs not charged to the business segments for the first six months of 2013 were \$20.9 million, a decrease of \$0.2 million, or 1.0%, as compared to the first six months of 2012.

*Non-Operating Expenses, net.* For the first six months of 2013, we had non-operating expenses, net of \$8.3 million, a decrease of \$1.3 million, or 13.6%, as compared to the first six months of 2012. This decrease was attributable to a \$1.5 million decrease in interest expense and other financing costs, net, as a result of lower average borrowing rates in the first six months of 2013 as compared to the first six months of 2012, \$1.0 million in earnings from our equity investments in the first six months of 2013 and a \$0.5 million increase in other non-operating income. This was partially offset by a \$1.7 million negative change related to foreign currency exchange losses of \$1.2 million in the first six months of 2013 as compared to foreign currency exchange gains of \$0.5 million in the first six months of 2012.

*Income Taxes.* For the first six months of 2013, our effective income tax rate was 18.8% and our income tax provision was \$23.9 million, as compared to an effective income tax rate of 15.2% and an income tax provision of \$18.6 million for the first six months of 2012. The higher effective income tax rate for the first six months of 2013 resulted primarily from differences in the actual results of our subsidiaries in tax jurisdictions with different income tax rates as compared to the first six months of 2012 and an income tax benefit of \$3.3 million for a discrete item related to a change in estimate for an uncertain tax position recorded in the first quarter of 2012. Excluding this discrete income tax benefit, our effective income tax rate for the first six months of 2012 would have been 17.9%.

*Net Income Attributable to Noncontrolling Interest.* For the first six months of 2013, net income attributable to noncontrolling interest was \$3.7 million, a decrease of \$4.7 million, or 55.7%, as compared to the first six months of 2012. The decrease was principally due to reduced earnings in our crude oil marketing joint venture for the first six months of 2013 as compared to the first six months of 2012.

*Net Income and Diluted Earnings per Common Share.* Our net income for the first six months of 2013 was \$99.7 million, an increase of \$4.7 million, or 5.0%, as compared to the first six months of 2012. Diluted earnings per common share for the first six months of 2013 was \$1.38 per common share, an increase of \$0.06 per common share, or 4.5%, as compared to the first six months of 2012.

*Non-GAAP Net Income and Non-GAAP Diluted Earnings per Common Share.* Our non-GAAP net income for the first six months of 2013 was \$112.5 million, an increase of \$6.8 million, or 6.4%, as compared to the first six months of 2012. Non-GAAP diluted earnings per common share for the first six months of 2013 was \$1.56 per common share, an increase of \$0.09 per common share, or 6.1%, as compared to the first six months of 2012. The following table sets forth the reconciliation between our net income and non-GAAP net income for the first six months of 2013 and 2012 (in thousands):

For the Six Months ended		
June 30,		
2013		2012

Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

Net income attributable to World Fuel	\$	99,741	\$	95,015
Share-based compensation expense, net of income taxes of \$2,736 and \$1,849 for 2013 and 2012, respectively		5,461		4,108
Intangible asset amortization expense, net of income taxes of \$4,131 and \$1,960 for 2013 and 2012, respectively		7,308		6,584
Non-GAAP net income attributable to World Fuel	\$	112,510	\$	105,707

## Table of Contents

The following table sets forth the reconciliation between our diluted earnings per common share and non-GAAP diluted earnings per common share for the first six months of 2013 and 2012:

	For the Six Months ended June 30,			
	2013		2012	
Diluted earnings per common share	\$	1.38	\$	1.32
Share-based compensation expense, net of income taxes		0.08		0.06
Intangible asset amortization expense, net of income taxes		0.10		0.09
Non-GAAP diluted earnings per common share	\$	1.56	\$	1.47

The non-GAAP financial measures exclude costs associated with share-based compensation and amortization of acquired intangible assets, primarily because we do not believe they are reflective of the Company's core operating results. We believe the exclusion of share-based compensation from operating expenses is useful given the variation in expense that can result from changes in the fair value of our common stock, the effect of which is unrelated to the operational conditions that give rise to variations in the components of our operating costs. Also, we believe the exclusion of the amortization of acquired intangible assets is useful for purposes of evaluating operating performance of our core operating results and comparing them period-over-period. We believe that these non-GAAP financial measures, when considered in conjunction with our financial information prepared in accordance with GAAP, are useful to investors to further aid in evaluating the ongoing financial performance of the Company and to provide greater transparency as supplemental information to our GAAP results. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP. In addition, our presentation of non-GAAP net income and non-GAAP earnings per common share may not be comparable to the presentation of such metrics by other companies. Investors are encouraged to review the reconciliation of these non-GAAP measures to their most directly comparable GAAP financial measures.

## Liquidity and Capital Resources

### Cash Flows

The following table reflects the major categories of cash flows for the six months ended June 30, 2013 and 2012. For additional details, please see the consolidated statements of cash flows.

	For the Six Months ended June 30,			
	2013		2012	
Net cash provided by (used in) operating activities	\$	134,572	\$	(56,923)
Net cash used in investing activities		(32,341)		(38,605)
Net cash (used in) provided by financing activities		(40,953)		26,296

**Operating Activities.** For the six months ended June 30, 2013, net cash provided by operating activities was \$134.6 million as compared to net cash used in operating activities of \$56.9 million for the first six months of 2012. The \$191.5 million increase in operating cash flows was

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

principally due to a \$127.3 million decrease in cash collateral deposits held by financial counterparties in the first six months of 2013 as compared to the first six months of 2012, as well as favorable year-over-year changes in working capital items.

*Investing Activities.* For the six months ended June 30, 2013, net cash used in investing activities was \$32.3 million as compared to \$38.6 million for the first six months of 2012. The \$6.3 million decrease in cash used in investing activities was principally due to a \$21.3 million reduction in cash used for the acquisition of businesses in the first six months of 2013 as compared to the first six months of 2012, which was partially offset by a \$15.0 million increase in capital expenditures for fuel transportation equipment and the upgrade and expansion of one of our inventory storage facilities during the first six months of 2013.

*Financing Activities.* For the six months ended June 30, 2013, net cash used in financing activities was \$41.0 million as compared to net cash provided by financing activities of \$26.3 million for the first six months of 2012. The \$67.3 million increase in cash used in financing activities was principally due to net repayments of borrowings under our Credit Facility in the first six months of 2013 as compared to the first six months of 2012.

Table of Contents

*Other Liquidity Measures*

*Cash and Cash Equivalents.* As of June 30, 2013 and December 31, 2012, we had cash and cash equivalents of \$232.5 million and \$172.7 million, respectively, of which \$127.4 million and \$172.7 million, respectively, was available for usage by our U.S. subsidiaries without incurring additional costs. Our primary uses of cash and cash equivalents are to fund accounts receivable, purchase inventory and make strategic investments, primarily acquisitions. We are usually extended unsecured trade credit from our suppliers for our fuel purchases; however, certain suppliers require us to either prepay or provide a letter of credit. Increases in oil prices can negatively affect liquidity by increasing the amount of cash needed to fund fuel purchases as well as reducing the amount of fuel which we can purchase on an unsecured basis from our suppliers.

*Credit Facility and Term Loans.* We have a senior revolving credit facility ( *Credit Facility* ) which permits borrowings of up to \$800.0 million with a sublimit of \$300.0 million for the issuance of letters of credit and bankers' acceptances. Under the Credit Facility, we have the right to request increases in available borrowings up to an additional \$150.0 million, subject to the satisfaction of certain conditions. The Credit Facility expires in July 2016. We had outstanding borrowings under our Credit Facility totaling \$80.0 million as of June 30, 2013 and \$100.5 million as of December 31, 2012. Our issued letters of credit under the Credit Facility totaled \$19.9 million and \$47.4 million as of June 30, 2013 and December 31, 2012, respectively. We also had \$246.0 million and \$247.5 million in senior term loans ( *Term Loans* ) outstanding as of June 30, 2013 and December 31, 2012, respectively.

Our liquidity consisting of cash and cash equivalents and availability under the Credit Facility fluctuates based on a number of factors, including the timing of receipts from our customers and payments to our suppliers as well as commodity prices. Our Credit Facility and our Term Loans contain certain financial covenants with which we are required to comply. Our failure to comply with the financial covenants contained in our Credit Facility and our Term Loans could result in an event of default. An event of default, if not cured or waived, would permit acceleration of any outstanding indebtedness under the Credit Facility and our Term Loans, trigger cross-defaults under other agreements to which we are a party and impair our ability to borrow and issue letters of credit, which would have a material adverse effect on our business, financial condition, results of operations and cash flows. As of June 30, 2013, we were in compliance with all financial covenants contained in our Credit Facility and our Term Loans.

*Other Credit Lines.* Additionally, we have other uncommitted credit lines aggregating \$215.7 million primarily for the issuance of letters of credit, bank guarantees and bankers' acceptances. These credit lines are renewable on an annual basis and are subject to fees at market rates. As of June 30, 2013 and December 31, 2012, our outstanding letters of credit and bank guarantees under these credit lines totaled \$184.6 million and \$184.2 million, respectively. We also have a Receivables Purchase Agreement ( *RPA* ) to allow for the sale of up to \$125.0 million of our accounts receivable. As of June 30, 2013, we had sold accounts receivable of \$68.0 million and recorded a retained beneficial interest of \$5.3 million under the RPA.

*Short-Term Debt.* As of June 30, 2013, our short-term debt of \$28.7 million represents the current maturities (within the next twelve months) of certain promissory notes related to acquisitions, loans payable to noncontrolling shareholders of a consolidated subsidiary, Term Loan borrowings and capital lease obligations.

We believe that available funds from existing cash and cash equivalents and our Credit Facility, together with cash flows generated by operations, remain sufficient to fund our working capital and capital expenditure requirements for at least the next twelve months. In addition, to further enhance our liquidity profile, we may choose to raise additional funds which may or may not be needed for additional working capital, capital expenditures or other strategic investments. Our opinions concerning liquidity are based on currently available information. To the extent

this information proves to be inaccurate, or if circumstances change, future availability of trade credit or other sources of financing may be reduced and our liquidity would be adversely affected. Factors that may affect the availability of trade credit or other forms of financing include our financial performance (as measured by various factors, including cash provided from operating activities), the state of worldwide credit markets, and our levels of outstanding debt. Depending on the severity and direct impact of these factors on us, financing may be limited or unavailable on terms favorable to us.

#### **Contractual Obligations and Off-Balance Sheet Arrangements**

Except for changes in the contractual obligations and off-balance sheet arrangements described below, there were no other material changes from December 31, 2012 to June 30, 2013. For a discussion of these matters, refer to **Contractual Obligations and Off-Balance Sheet Arrangements** in Item 7 of our 2012 10-K Report.

Table of Contents

*Contractual Obligations*

*Derivative Obligations.* As of June 30, 2013, our net derivative obligations were \$17.2 million, principally due within one year.

*Purchase Commitment Obligations.* As of June 30, 2013, our purchase commitment obligations were \$32.6 million, principally due within one year.

*Off-Balance Sheet Arrangements*

*Letters of Credit and Bank Guarantees.* In the normal course of business, we are required to provide letters of credit to certain suppliers. A majority of these letters of credit expire within one year from their issuance, and expired letters of credit are renewed as needed. As of June 30, 2013, we had issued letters of credit and bank guarantees totaling \$204.5 million under our Credit Facility and other uncommitted credit lines. For additional information on our Credit Facility and other credit lines, see the discussion in *Liquidity and Capital Resources* above.

**Recent Accounting Pronouncements**

Information regarding recent accounting pronouncements is included in Note 1 - Significant Accounting Policies in the *Notes to the Consolidated Financial Statements* in this 10-Q Report.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

**Derivatives**

The following describes our derivative classifications:

*Cash Flow Hedges.* Includes certain of our foreign currency forward contracts we enter into in order to mitigate the risk of currency exchange rate fluctuations.

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

*Fair Value Hedges.* Includes derivatives we enter into in order to hedge price risk associated with our inventory and certain firm commitments relating to fixed price purchase and sale contracts.

*Non-designated Derivatives.* Includes derivatives we primarily enter into in order to mitigate the risk of market price fluctuations in aviation, marine and land fuel in the form of swaps or futures as well as certain fixed price purchase and sale contracts and proprietary trading. In addition, non-designated derivatives are also entered into to hedge the risk of currency rate fluctuations.

# Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

## Table of Contents

As of June 30, 2013, our derivative instruments, at their respective fair value positions were as follows (in thousands, except weighted average fixed price and weighted average mark-to-market amount):

Hedge Strategy	Settlement Period	Derivative Instrument	Notional	Unit	Weighted Average Fixed Price	Weighted Average Mark-to-Market Amount	Fair Value Amount
Cash Flow Hedge	2013	Foreign currency contracts (long)	811	EUR	\$ 0.81	\$ 0.06	\$ 51
Fair Value Hedge	2013	Commodity contracts for inventory hedging (long)	190	BBL	\$ 119.08	\$ (0.71)	\$ (134)
	2013	Commodity contracts for inventory hedging (short)	2,450	BBL	112.93	0.34	839
							\$ 705
Non-Designated	2013	Commodity contracts (long)	37,067	BBL	\$ 66.11	\$ (1.00)	\$ (37,184)
	2013	Commodity contracts (short)	27,366	BBL	84.91	1.62	44,276
	2014	Commodity contracts (long)	4,891	BBL	71.88	(0.31)	(1,517)
	2014	Commodity contracts (short)	3,969	BBL	84.61	0.87	3,463
	2015	Commodity contracts (long)	26	BBL	115.68	0.31	8

	2014	Foreign currency contracts (long)	1,250	GBP	0.66	(0.02)	(29)
	2014	Foreign currency contracts (short)	12,040	GBP	0.66	0.03	367
							\$ 10,980

There have been no material changes to our exposures to interest rate or foreign currency risk since December 31, 2012. Please refer to our 2012 10-K Report for a complete discussion of our exposure to these risks.

Table of Contents

**Item 4. Controls and Procedures**

**Evaluation of Disclosure Controls and Procedures**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this 10-Q Report, we evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(e). Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of June 30, 2013.

**Changes in Internal Control over Financial Reporting**

There were no changes in our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting during the quarter ended June 30, 2013.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system will be met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

**Part II Other Information**

**Item 1A. Risk Factors**

*We may be subject to costs and liabilities as a result of the derailment of a train carrying our crude oil and subsequent explosion in Lac-Mégantic, Quebec in July 2013.*

We, on behalf of DPTS Marketing LLC ( DPM ), a crude oil marketing joint venture in which we own a 50% membership interest, purchased crude oil from various producers in the Bakken region of North Dakota. Dakota Petroleum Transport Solutions, LLC ( DPTS ), a crude oil

## Edgar Filing: WORLD FUEL SERVICES CORP - Form 10-Q

transloading joint venture in which we also own a 50% membership interest, arranged for the transloading of the crude oil for DPM into tanker-cars at the joint venture's facility in New Town, North Dakota. We leased the tanker-cars used in the transloading from a number of third party lessors and subleased the tanker-cars to DPM. We, on behalf of DPM, contracted with Canadian Pacific Railway for the transportation of the tanker-cars and the crude oil from New Town, North Dakota to a customer in New Brunswick, Canada. Canadian Pacific Railway subcontracted a portion of that route to the Montreal, Maine and Atlantic Railway ( MMA ). On July 6, 2013, the freight train operated by MMA with 72 of the tanker-cars carrying approximately 50,000 barrels of the crude oil derailed in Lac-Mégantic, Quebec. The derailment resulted in significant loss of life, damage to the environment from crude oil spilled from the train and extensive property damage from fires and explosions that followed the derailment. An investigation by the Canadian authorities into the causes of the incident is underway; however, we expect that it may be a significant period of time before the results of this investigation are finalized and we are in a position to evaluate its consequences. We are currently unable to estimate the potential costs and liabilities we may sustain in connection with this incident.

We, certain of our subsidiaries, as well as MMA, DPM and DPTS, have been named as defendants in lawsuits and proceedings related to the incident. In addition, an order was issued by the government of Quebec that requires MMA and us to recover the spilled crude oil caused by the incident and to otherwise fully remediate the impact of the incident on the environment. We have submitted an initial response to this order raising numerous objections to the order. Additional lawsuits, proceedings and orders may be filed or issued, which may involve civil claims for damages or governmental investigative, regulatory or enforcement actions. The adverse resolution of any proceedings related to these events could subject us and/or the joint ventures to monetary damages, fines and other costs, which could have a negative and material impact on our business, prospects, results of operations and financial condition. In addition, we expect legal fees and costs will be incurred in responding to these matters.

While we and our joint ventures, DPM and DPTS, maintain insurance to mitigate the costs of environmental releases as well as other results of unexpected events, including loss of life, property damage and defense costs, there can be no assurance that our insurance will be adequate to cover any liabilities that may be incurred as a result of this incident. We anticipate that the losses relating to the crude oil and the tanker-cars will be fully covered by insurance.

We are also evaluating potential claims that we, DPM or DPTS may assert against third parties to recover costs and other liabilities that may be incurred as a result of this incident, including costs of defending against third party claims and regulatory proceedings. We can provide no assurance that any such claims will be successful or that the responsible parties will have the financial resources to address any such claims. Any losses not covered by insurance or otherwise not recoverable from third parties, if significant, could have a material adverse effect on our business, financial condition, results of operations or cash flows.

***The train derailment in Lac-Mégantic may result in increased governmental regulation of shipments of crude oil and other fuel products and additional costs.***

We rely in part on rail shipments to move crude oil and other fuel products in both the United States and Canada. The accident in Lac-Mégantic and its aftermath could lead to additional governmental regulation of rail shipments of crude oil and other fuel products in Canada and the United States and to increased safety standards for the tanker-cars that transport these products. We cannot predict with any certainty what form any additional regulation or limitations would take. Any increased regulation that arises out of this incident could result in higher operating costs, which could adversely affect our operating results.

Table of Contents**Item 2. Unregistered Sales of Equity Securities and Use of Proceeds***Issuer Purchases of Equity Securities*

The following table presents information with respect to repurchases of common stock made by us during the quarterly period ended June 30, 2013 (in thousands, except average per share):

Period	Total Number of Shares Purchased (1)	Average Price Per Share Paid	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Total Cost of Shares Purchased as Part of Publicly Announced Plans or Programs (2)	Remaining Authorized Common Stock Repurchases under Publicly Announced Plans or Programs (2)
4/1/13-4/30/13		\$		\$	\$ 50,000
5/1/13-5/31/13	2	40.88			50,000
6/1/13-6/30/13					50,000
Total	2	\$ 40.88		\$	\$ 50,000

(1) These shares relate to the purchase of common stock tendered by employees to satisfy the required withholding taxes related to share-based payment awards.

(2) In October 2008, our Board of Directors authorized a \$50.0 million common stock repurchase program. The program does not require a minimum number of shares of common stock to be purchased and has no expiration date but may be suspended or discontinued at any time. As of June 30, 2013, no shares of our common stock had been repurchased under this program. The timing and amount of shares of common stock to be repurchased under the program will depend on market conditions, share price, securities law and other legal requirements and other factors.
