**INTRUSION INC. AND SUBSIDIARIES**

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Description of Business

We develop, market and support a family of entity identification, high speed data mining, advanced persistent threat detection and regulated information compliance products. Our product families include:

- TraceCop for identity discovery and disclosure,
- Savant for network data mining and advanced persistent threat detection, and
- Compliance Commander for regulated information compliance.

We market and distribute our products through a direct sales force to:

- end-users,
- value-added resellers,
- system integrators,
- managed service providers, and
- distributors.

Our end-user customers include:

- U.S. federal government entities,
- local government entities,
- banks,

## Edgar Filing: INTRUSION INC - Form 10-Q

- credit unions,
- other financial institutions,
- hospitals and other healthcare providers, and
- other customers.

Essentially, our end-users can be defined as any end-users requiring network security solutions for protecting their mission critical data.

We were organized in Texas in September 1983 and reincorporated in Delaware in October 1995. Our principal executive offices are located at 1101 East Arapaho Road, Suite 200, Richardson, Texas 75081, and our telephone number is (972) 234-6400. Our website URL is [www.intrusion.com](http://www.intrusion.com). References to the Company, we, us, our, Intrusion or Intrusion Inc. refer to Intrusion Inc. and its subsidiaries. Commander, TraceCop and Savant are trademarks of Intrusion Inc.

As of September 30, 2015, we had cash and cash equivalents of approximately \$1,081,000, up from approximately \$1,006,000 as of December 31, 2014. We generated a net loss of \$432,000 for the quarter ended September 30, 2015 compared to net income of \$147,000 for the quarter ended September 30, 2014. As of September 30, 2015, in addition to cash and cash equivalents of \$1,081,000, we had \$374,000 in funding available under our \$0.625 million line of credit at Silicon Valley Bank (SVB) and \$670,000 funding available from a promissory note to borrow up to \$2.2 million from G. Ward Paxton, the Company's Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures for the next twelve months. We expect to fund our operations through anticipated Company profits, our line of credit, borrowings from the Company's CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, will have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

## 2. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Item

Table of Contents

10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The December 31, 2014 balance sheet was derived from audited financial statements, but does not include all the disclosures required by accounting principles generally accepted in the United States. However, we believe that the disclosures are adequate to make the information presented not misleading. In our opinion, all the adjustments (consisting of normal recurring adjustments) considered necessary for fair presentation have been included. The results of operations for the three and nine month periods ended September 30, 2015 are not necessarily indicative of the results that may be achieved for the full fiscal year or for any future period. The unaudited condensed consolidated financial statements included herein should be read in conjunction with the consolidated financial statements and notes thereto included in our annual report on Form 10-K for the year ended December 31, 2014, filed with the U.S. Securities and Exchange Commission (the SEC) on March 27, 2015.

The Company calculates the fair value of its assets and liabilities which qualify as financial instruments and includes this additional information in the notes to consolidated financial statements when the fair value is different from the carrying value of these financial instruments. The estimated fair value of accounts receivable, accounts payable and accrued expenses, and dividends payable approximate their carrying amounts due to the relatively short maturity of these instruments. The carrying value of the line of credit payable approximates fair value since this instrument bears market interest rates. Loans payable to officer are with a related party and as a result do not bear market rates of interest. Management believes based on its current financial position that it could not obtain comparable amounts of third party financing, and as such cannot estimate the fair value of the loans payable to officer. None of these instruments are held for trading purposes.

### 3. Loan Payable to Officer

On February 6, 2014, the Company entered into an unsecured revolving promissory note to borrow up to \$2,200,000 from G. Ward Paxton, the Company's Chief Executive Officer. Under the terms of the note, the Company may borrow, repay and reborrow on the loan as needed up to an outstanding principal balance due of \$2,200,000 at any given time through March 2015.

On February 5, 2015, the Company renewed the CEO note described above on the same terms, with the Company being able to borrow, repay and reborrow on the note as needed up to an outstanding principal balance due of \$2,200,000 at any given time through March 2016.

Amounts borrowed from this officer accrue interest at a floating rate per annum equal to SVB's prime rate plus 1% (5% at September 30, 2015). All outstanding borrowings and accrued but unpaid interest is due on March 31, 2016. As of September 30, 2015, the borrowings outstanding totaled \$1,530,000 and accrued interest totaled \$134,000.

### 4. Line of Credit

On March 29, 2006, we entered into a Loan and Security Agreement with Silicon Valley Bank (SVB) to establish a \$1.0 million line of credit (the 2006 Credit Line). On June 30, 2008, we entered into an Amended and Restated Loan and Security Agreement with SVB to, among other

## Edgar Filing: INTRUSION INC - Form 10-Q

things, replace the 2006 Credit Line with a \$2.5 million line of credit (the 2008 Credit Line ). On June 23, 2015, we entered into the Seventh Amendment to the Amended and Restated Loan and Security Agreement (as amended, the Loan Agreement ) with SVB to replace our expiring line with a \$0.625 million line of credit (the Current Line of Credit ). Our obligations under the Loan Agreement are secured by substantially all of our assets, including all of our intellectual property. In addition, G. Ward Paxton, the Company s Chairman, President and Chief Executive Officer, has established a Guaranty Agreement with SVB securing all outstanding balances under the Current Line of Credit. Borrowings under the Current Line of Credit are based on advances (each an Advance ) against certain of our accounts receivable that are approved by SVB (each an Eligible Account ). SVB may make an Advance of up to eighty percent (80%) of each Eligible Account, or such other percentage SVB may determine in its sole discretion. Each Advance is subject to a finance charge calculated as a daily rate that is based on a 360-day annual rate of the greater of the prime rate plus 2.0% or 7.0%. Finance charges are payable at the same time its related Advance is due. Each Advance is also subject to a monthly collateral handling fee of 0.5% of all outstanding Advances, depending on certain qualifying financial factors specified in the Loan Agreement. The collateral handling fee is payable at the same time its related Advance is due. Each Advance must be repaid at the earliest of (a) the date that the Eligible Account related to the Advance is paid, (b) the date the Eligible Account is no longer eligible under the Loan Agreement, or (c) the date on which any Adjustment (as defined in the Loan Agreement) is asserted to the Eligible Account. We have certain non-financial and financial covenants, including a liquidity coverage ratio and a rolling EBITDA computation, as defined in the Loan Agreement. On June 21, 2016, the Loan Agreement terminates and all outstanding Advances, accrued but unpaid finance charges, outstanding collateral handling fees, and other amounts become due under the Loan Agreement and related documents. As of September 30, 2015, we had no borrowings outstanding under the Current Line of Credit and are within limits of all debt covenants.

Table of Contents

## 5. Accounting for Stock-Based Compensation

During the three month periods ended September 30, 2015 and 2014, the Company did not grant any stock options to employees or directors. The Company recognized \$49,000 and \$97,000, respectively, of stock-based compensation expense for the three month periods ended September 30, 2015 and 2014. During the nine month periods ended September 30, 2015 and 2014, the Company granted 40,000 and 295,000, respectively, of stock options to employees and directors. The Company recognized \$161,000 and \$284,000, respectively, of stock-based compensation expense for the nine month periods ended September 30, 2015 and 2014.

During the three month periods ended September 30, 2015 and 2014, no options were exercised under the 2005 Plan. During the nine month periods ended September 30, 2015 and 2014, 150,000 and 157,500 options were exercised under the 2005 Plan, respectively.

Valuation Assumptions

The fair values of employee and director option awards were estimated at the date of grant using a Black-Scholes option-pricing model with the following assumptions:

	For Three Months Ended September 30, 2015	For Three Months Ended September 30, 2014	For Nine Months Ended September 30, 2015	For Nine Months Ended September 30, 2014
Weighted average grant date fair value			\$ 2.09	\$ 1.79
Weighted average assumptions used:				
Expected dividend yield			0.0%	0.0%
Risk-free interest rate			1.37%	1.46%
Expected volatility			176.0%	228.0%
Expected life (in years)			5.0	4.9

Expected volatility is based on historical volatility and in part on implied volatility. The expected term considers the contractual term of the option as well as historical exercise and forfeiture behavior. The risk-free interest rate is based on the rates in effect on the grant date for U.S. Treasury instruments with maturities matching the relevant expected term of the award. Options granted to non-employees are valued using the fair market value on each measurement date of the option.

## 6. Net Income (Loss) Per Share

Basic net income (loss) per share is computed by dividing net income (loss) attributable to common stockholders for the period by the weighted average number of common shares outstanding for the period. Diluted net income (loss) per share is computed by dividing the net income (loss) attributable to common stockholders by the weighted average number of common shares and dilutive common stock equivalents outstanding for the period. Our common stock equivalents include all common stock issuable upon conversion of preferred stock and the exercise of

## Edgar Filing: INTRUSION INC - Form 10-Q

outstanding options and warrants. The aggregate number of common stock equivalents excluded from the diluted income (loss) per share calculation for the three month periods ended September 30, 2015 and 2014 are 3,799,949 and 609,452 as they are antidilutive. The aggregate number of common stock equivalents excluded from the diluted income (loss) per share calculation for the nine month periods ended September 30, 2015 and 2014 are 3,799,949 and 4,208,910 as they are antidilutive.

### 7. Concentrations

Our operations are concentrated in one area security software/entity identification. Sales to the U.S. Government through direct and indirect channels totaled 55.4% of total revenues for the third quarter of 2015 compared to 52.8% of total revenues for the third quarter of 2014. During the third quarter of 2015, approximately 50.7% of total revenues were attributable to three government customers compared to approximately 38.6% of total revenues attributable to three government customers in the third quarter of 2014. Sales to commercial customers totaled 44.6% of total revenue for the third quarter of 2015 compared to 47.2% of total revenue for the third quarter of 2014. During the third quarter of 2015, approximately 31.6% of total revenue was attributable to two commercial customers compared to approximately 42.0% to two commercial customers in the third quarter of 2014. Our similar product and service offerings are not viewed as individual segments, as our management analyzes the business as a whole and expenses are not allocated to each product offering.

### 8. Commitments and Contingencies

We are subject from time to time to various legal proceedings and claims that arise during the ordinary course of our business. We do not believe that the outcome of those routine legal matters should have a material adverse affect on our consolidated financial position, operating results or cash flows; however, we can provide no assurances that legal claims that may arise in the future will not have such a material impact on the Company.

Table of Contents

9. Dividends Payable

During the quarter ended September 30, 2015, we accrued \$13,000 in dividends payable to the holders of our 5% Preferred Stock, \$14,000 in dividends payable to the holders of our Series 2 5% Preferred Stock and \$8,000 in dividends payable to the holders of our Series 3 5% Preferred Stock. As of September 30, 2015, we have \$125,000 in accrued and unpaid dividends.

Delaware law provides that we may only pay dividends out of our capital surplus or, if no surplus is available, out of our net profits for the fiscal year the dividend is declared and/or the preceding fiscal year. These dividends continue to accrue on all our outstanding shares of preferred stock, regardless of whether we are legally able to pay them. If we are unable to pay dividends on our preferred stock, we will be required to accrue an additional late fee penalty of 18% per annum on the unpaid dividends for the Series 2 Preferred Stock and Series 3 Preferred Stock. Our CEO, CFO and one outside board member who are holders of our Series 2 and Series 3 Preferred Stock have waived any possible late fee penalties. In addition to this late penalty, the holders of our Series 2 Preferred Stock and Series 3 Preferred Stock could elect to present us with written notice of our failure to pay dividends as scheduled, in which case we would have 45 days to cure such a breach. In the event that we failed to cure the breach, the holders of these shares of preferred stock would then have the right to require us to redeem their shares of preferred stock for a cash amount calculated in accordance with their respective certificates of designation. If we were required to redeem all shares of Series 2 Preferred Stock and Series 3 Preferred Stock as of November 1, 2015, the aggregate redemption price we would owe would be \$2.0 million.

10. Recent Accounting Pronouncements

In August 2014, the FASB issued ASU 2014-15 Preparation of Financial Statements - Going Concern (Subtopic 205-40), Disclosures of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-05). ASU 2014-05 requires management to assess each annual and interim period if there is substantial doubt about the entity's ability to continue as a going concern; provides principles for considering the mitigating effect of management's plans; requires certain disclosures when substantial doubt is alleviated as a result of management's plans, and requires an express statement and other disclosures when substantial doubt is not alleviated. The amendments in this Update are effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter with early application permitted. We are currently evaluating the new guidance and do not expect it will have an impact on our consolidated financial statements.

In May 2014, the FASB issued Accounting Standards Update No. 2014-09, *Revenue from Contracts with Customers* (ASU 2014-09), which supersedes nearly all existing revenue recognition guidance under U.S. GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration to which an entity expects to be entitled for those goods or services. The standard is effective for annual periods beginning after December 15, 2017, and interim periods therein. We are currently evaluating the impact of our pending adoption of ASU 2014-09.

Table of Contents

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Quarterly Report on Form 10-Q, including, without limitation, the section entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations," contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). Such forward-looking statements are generally accompanied by words such as "estimate," "expect," "believe," "should," "would," "could," "anticipate," "may" or other words that convey uncertainty of future events or outcomes. These statements relate to future events or to our future financial performance, and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance, or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Factors that may cause actual results to differ materially from current expectations, which we describe in more detail elsewhere in this Quarterly Report on Form 10-Q and other 2015 Quarterly Reports on Form 10-Q in Part II Item 1A "Risk Factors," and in our 2014 Annual Report on Form 10-K in Item 1A "Risk Factors" include, but are not limited to:

- insufficient cash to operate our business and inability to meet our liquidity requirements;
- loss of revenues due to the failure of our newer products to achieve market acceptance;
- our need to increase current revenue levels in order to achieve sustainable profitability;
- concentration of our revenues from U.S. government entities or commercial customers and the possibility of loss of one of these customers and the unique risks associated with government customers;
- our dependence on sales made through indirect channels;
- our dependence on equity or debt financing provided primarily by our Chief Executive Officer in order to meet our cash flow requirements;
- the adverse effect that payment of accrued dividends on our preferred stock would have on our cash resources and the substantial dilution upon the conversion or redemption of our preferred stock;

- the consequences of our inability to pay scheduled dividends on shares of our preferred stock;
- the potentially detrimental impact that the conversion of preferred stock would have on the price of our common stock;
- the ability of our preferred stockholders and lenders to hinder additional financing; and
- the influence that our management and larger stockholders have over actions taken by the Company.

If one or more of these or other risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. These forward-looking statements and other statements made elsewhere in this report are made in reliance on the Private Securities Litigation Reform Act of 1995. Any forward-looking statement you read in this Quarterly Report on Form 10-Q or our Annual Report on Form 10-K reflects our current views with respect to future events and is subject to these and other risks, uncertainties and assumptions relating to our operations, results of operations, growth strategy and liquidity. We assume no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in these forward-looking statements, even if new information becomes available in the future. The section below entitled *Factors That May Affect Future Results of Operations* sets forth and incorporates by reference certain factors that could cause actual future results of the Company to differ materially from these statements.

September 30, 2015 and 2014 were \$1.3 million and \$1.5 million, respectively. Savant sales were \$0.2 million for the quarter ended September 30, 2015 and were \$0.5 million for the quarter ended September 30, 2014. Customer support and maintenance revenue decreased \$11 thousand for the quarter ended September 30, 2015, compared to \$27 thousand for the nine months ended September 30, 2015. This decrease was due to the current sales mix with a high concentration of sales not requiring a maintenance contract.

**Concentration of Revenues.** Revenues from sales to various U.S. government entities totaled \$0.9 million, or 55.4% of revenues, for the quarter ended September 30, 2015 compared to \$1.1 million, or 52.8% of revenues, for the same period in 2014. Revenues from sales to various U.S. government entities totaled \$2.8 million, or 53.0% of revenues, for the nine months ended September 30, 2015 compared to \$2.5 million, or 45.6% of revenues, for the same period in 2014. Sales to commercial customers totaled 44.6% of total revenue for the third quarter of 2015 compared to 47.2% of total revenue for the third quarter of 2014. During the third quarter of 2015, approximately 31.6% of total revenue was attributable to two commercial customers compared to approximately 42.0% to two commercial customers in the third quarter of 2014. Although we expect our concentration of revenues to vary among customers in future periods depending upon the timing of certain sales, we anticipate that sales to government customers will continue to account for a significant portion of our revenues in future periods. Sales to the government present risks in addition to

Table of Contents

those involved in sales to commercial customers which could adversely affect our revenues, including, without limitation, potential disruption to appropriation and spending patterns and the government's reservation of the right to cancel contracts and purchase orders for its convenience. Although we do not anticipate that any of our revenues with government customers will be renegotiated, a large number of cancelled or renegotiated government orders could have a material adverse effect on our financial results. Currently, we are not aware of any proposed cancellation or renegotiation of any of our existing arrangements with government entities and, historically, government entities have not cancelled or renegotiated orders which had a material adverse effect on our business.

**Gross Profit.** Gross profit was \$1.0 million or 63.3% of net revenues for the quarter ended September 30, 2015, compared to \$1.3 million or 65.2% of net revenues for the quarter ended September 30, 2014. Gross profit was \$3.4 million or 62.8% of net revenues for the nine months ended September 30, 2015 compared to \$3.5 million or 65.0% of net revenues for the nine months ended September 30, 2014. Gross profit on product revenues for the quarter and nine months ended September 30, trended from 65.0% and 64.8%, respectively, in 2014 to 63.3% and 62.8%, respectively, in 2015 mainly due to a change in product mix and slightly higher labor cost associated with TraceCop sales. Gross profit on customer support and maintenance revenues for the quarter and nine months ended September 30, trended from 84.2% and 85.2%, respectively, in 2014 to 63.0% and 65.3%, respectively, in 2015. Gross profit as a percentage of net revenues is impacted by several factors, including shifts in product mix, changes in channels of distribution, revenue volume, pricing strategies, and fluctuations in revenues of integrated third-party products.

**Sales and Marketing.** Sales and marketing expenses remained constant at \$0.5 million for the quarters ended September 30, 2015 and 2014. Sales and marketing expenses increased to \$1.4 million for the nine months ended September 30, 2015 compared to \$1.2 million for the same period in 2014. Increased sales and marketing expense was due to increases in sales efforts to commercial customers. Sales and marketing expenses may vary in the future. We believe that these costs will increase through the end of 2015, with increases in revenue.

**Research and Development.** Research and development expenses increased to \$0.6 million for the quarter ended September 30, 2015 compared to \$0.4 million for the same period in 2014. Research and development expenses increased to \$1.6 million for the nine months ended September 30, 2015 compared to \$1.4 million for the same period in 2014. Research and development costs are expensed in the period incurred. Research and development expenses may vary in the future; however, we believe that these costs will remain relatively constant through the end of 2015, although expenses may be increased relative to increases in revenue.

**General and Administrative.** General and administrative expenses remained constant at \$0.3 million for the quarters ended September 30, 2015 and 2014. General and administrative expenses decreased to \$0.9 million for the nine months ended September 30, 2015 compared to \$1.0 million for the same period in 2014. It is expected that general and administrative expenses will remain relatively constant throughout the remainder of 2015, although expenses may be increased relative to increases in revenue.

**Interest.** Net interest expense increased to \$27 thousand for the quarter ended September 30, 2015 compared to \$24 thousand for the same period in 2014. Net interest expense decreased to \$79 thousand for the nine months ended September 30, 2015 compared to \$83 thousand for the same period in 2014. The decrease in interest expense was primarily due to a decrease in interest expense related capital leased equipment as the payment schedules near expiration. Net interest expense may vary in the future based on our level of borrowing, which will be affected by our cash flow, operating income and capital expenditures.

#### Liquidity and Capital Resources

Our principal source of liquidity at September 30, 2015, was approximately \$1.1 million of cash and cash equivalents. At September 30, 2015, we had a working capital deficiency of \$1.8 million compared to a \$1.1 million deficiency at September 30, 2014.

Net cash provided by operations for the nine months ended September 30, 2015, was \$282 thousand due to the following sources of cash and non-cash items: \$342 thousand increase in deferred revenue, \$170 thousand in amortization expense of capital leases, \$161 thousand in stock-based compensation, \$117 thousand decrease in accounts receivable, \$89 thousand decrease in prepaid expenses and other assets, \$85 thousand increase in accounts payable and accrued expenses, \$61 thousand in depreciation expense, and \$3 thousand in penalties and waived penalties on dividends. This was offset by the net loss of \$746 thousand. For the nine months ended September 30, 2014, net cash provided by operations was \$861 thousand due to the following sources of cash and non-cash items: \$827 thousand increase in deferred revenue, \$7 thousand decrease in inventories, \$126 thousand in amortization expense of capital leases, \$284 thousand in stock-based compensation, \$49 thousand in depreciation expense, and \$6 thousand in penalties and waived penalties on dividends. This was partially offset by the net loss of \$145 thousand and the following uses of cash: \$199 thousand increase in accounts receivable, \$62 thousand increase in prepaid expenses and other assets, and \$32 thousand decrease in accounts payable and accrued expenses.

Net cash used in investing activities for the nine months ended September 30, 2015, was \$112 thousand for net purchases of property and equipment, compared to the nine months ended September 30, 2014, net cash used in investing activities for the was \$49 thousand for net purchases of property and equipment.

## Edgar Filing: INTRUSION INC - Form 10-Q

### Table of Contents

Net cash used by financing activities for the nine months ended September 30, 2015, was \$95 thousand primarily due to \$161 thousand payment on the principal of capital leases. This was offset by: \$66 thousand in proceeds from the exercise of stock options. Net cash used by financing activities for the nine months ended September 30, 2014, was \$575 thousand primarily due to \$512 thousand payment of dividends and \$124 thousand payment on principal of capital leases. This was offset by: \$61 thousand in proceeds from the exercise of stock options.

At September 30, 2015, the Company did not have any material commitments for capital expenditures.

During the nine months ended September 30, 2015, the Company funded its operations through the use of cash and cash equivalents, borrowing against our line of credit and advances on the loan from our Chief Executive Officer.

On March 29, 2006, we entered into a Loan and Security Agreement with Silicon Valley Bank ( SVB ) to establish a \$1.0 million line of credit (the 2006 Credit Line ). On June 30, 2008, we entered into an Amended and Restated Loan and Security Agreement with SVB to, among other things, replace the 2006 Credit Line with a \$2.5 million line of credit (the 2008 Credit Line ). On June 24, 2014, we entered into the Sixth Amendment to the Amended and Restated Loan and Security Agreement (as amended, the Loan Agreement ) with SVB to replace our expiring line with a \$0.625 million line of credit (the Current Line of Credit ). Our obligations under the Loan Agreement are secured by substantially all of our assets, including all of our intellectual property. In addition, G. Ward Paxton, the Company s Chairman, President and Chief Executive Officer, has established a Guaranty Agreement with SVB securing all outstanding balances under the Current Line of Credit. Borrowings under the Current Line of Credit are based on advances (each an Advance ) against certain of our accounts receivable that are approved by SVB (each an Eligible Account ). SVB may make an Advance of up to eighty percent (80%) of each Eligible Account, or such other percentage SVB may determine in its sole discretion. Each Advance is subject to a finance charge calculated as a daily rate that is based on a 360-day annual rate of the greater of the prime rate plus 2.0% or 7.0%. Finance charges are payable at the same time its related Advance is due. Each Advance is also subject to a monthly collateral handling fee of 0.5% of all outstanding Advances, depending on certain qualifying financial factors specified in the Loan Agreement. The collateral handling fee is payable at the same time its related Advance is due. Each Advance must be repaid at the earliest of (a) the date that the Eligible Account related to the Advance is paid, (b) the date the Eligible Account is no longer eligible under the Loan Agreement, or (c) the date on which any Adjustment (as defined in the Loan Agreement) is asserted to the Eligible Account. We have certain non-financial and financial covenants, including a liquidity coverage ratio and a rolling EBITDA computation, as defined in the Loan Agreement. On June 21, 2016, the Loan Agreement terminates and all outstanding Advances, accrued but unpaid finance charges, outstanding collateral handling fees, and other amounts become due under the Loan Agreement and related documents. As of September 30, 2015 we had no borrowings outstanding under the Current Line of Credit and are within limits of all debt covenants.

As of September 30, 2015, we had cash and cash equivalents of approximately \$1,081,000, up from approximately \$1,006,000 as of December 31, 2014. We generated a net loss of \$432,000 for the quarter ended September 30, 2015 compared to net income of \$147,000 for the quarter ended September 30, 2014. As of September 30, 2015, in addition to cash and cash equivalents of \$1,081,000, we had \$374,000 in funding available under our \$0.625 million line of credit at Silicon Valley Bank ( SVB ) and \$670,000 funding available from a promissory note to borrow up to \$2.2 million from G. Ward Paxton, the Company s Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures for the next twelve months. We expect to fund our operations through anticipated Company profits, our line of credit, borrowings from the Company s CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, will have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings, if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity

financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

We may explore the possible acquisitions of businesses, products and technologies that are complementary to our existing business. We are continuing to identify and prioritize additional security technologies, which we may wish to develop, either internally or through the licensing, or acquisition of products from third parties. While we may engage from time to time in discussions with respect to potential acquisitions, there can be no assurances that any such acquisitions will be made or that we will be able to successfully integrate any acquired business. In order to finance such acquisitions and working capital it may be necessary for us to raise additional funds through public or private financings. Any equity or debt financings, if available at all, may be on terms, which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders.

Table of Contents

Item 4. **CONTROLS AND PROCEDURES**

We maintain disclosure controls and procedures, as defined in Rule 13a-15(e) under the Exchange Act, that are designed to ensure that information required to be disclosed by us in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognized that disclosure controls and procedures, no matter how well conceived and operated, can provide only reasonable assurance of achieving the desired control objectives, and we necessarily are required to apply our judgment in evaluating the cost-benefit relationship of possible disclosure controls and procedures.

Our management, including our principal executive officer and principal financial officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2015, and concluded that the disclosure controls and procedures were effective.

Our management, with the participation of our principal executive officer and principal financial officer, evaluated our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) as of December 31, 2014, and concluded that there have not been any changes in our internal control over financial reporting that occurred during the quarter ended September 30, 2015, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

**PART II OTHER INFORMATION**

Item 1. **LEGAL PROCEEDINGS**

We are subject from time to time to various legal proceedings and claims that arise during the ordinary course of our business. We do not believe that the outcome of those routine legal matters should have a material adverse effect on our consolidated financial position, operating results or cash flows; however, we can provide no assurances that legal claims that may arise will not have such a material impact in the future.

Item 1A. **RISK FACTORS**

**Factors That May Affect Future Results of Operations**

We are providing the following information regarding changes that have occurred to previously disclosed risk factors from our Annual Report on Form 10-K for the year ended December 31, 2014 and our 2015 Quarterly Reports on Form 10-Q. In addition to the other information set forth below and elsewhere in this report, you should consider the factors discussed under the heading "Risk Factors" in our Form 10-K for the year

## Edgar Filing: INTRUSION INC - Form 10-Q

ended December 31, 2014 and our 2015 Quarterly Reports on Form 10-Q. The risks described in our Quarterly Reports on Form 10-Q are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

***We may not have sufficient cash to operate our business and may not be able to maintain certain liquidity requirements under our existing debt instruments. Additional debt and equity offerings to fund future operations may not be available and, if available, may significantly dilute the value of our currently outstanding common stock.***

As of September 30, 2015, we had cash and cash equivalents of approximately \$1,081,000, up from approximately \$1,006,000 as of December 31, 2014. We generated a net loss of \$432,000 for the quarter ended September 30, 2015 compared to net income of \$147,000 for the quarter ended September 30, 2014. As of September 30, 2015, in addition to cash and cash equivalents of \$1,081,000, we had \$374,000 in funding available under our \$0.625 million line of credit at Silicon Valley Bank ( SVB ) and \$670,000 funding available from a promissory note to borrow up to \$2.2 million from G. Ward Paxton, the Company's Chief Executive Officer. We are obligated to make payments of accrued dividends on all our outstanding shares of preferred stock that will reduce our available cash resources. Based on projections of growth in revenue and net income in the coming quarters, and the borrowings available previously mentioned, we believe that we will have sufficient cash resources to finance our operations and expected capital expenditures for the next twelve months. We expect to fund our operations through anticipated Company profits, our line of credit, borrowings from the Company's CEO, and possibly additional investments of private equity and debt, which, if we are able to obtain, will have the effect of diluting our existing common stockholders, perhaps significantly. Any equity or debt financings,

Table of Contents

if available at all, may be on terms which are not favorable to us and, in the case of equity financings, may result in dilution to our stockholders. If our operations do not generate positive cash flow in the upcoming year, or if we are not able to obtain additional debt or equity financing on terms and conditions acceptable to us, if at all, we may be unable to implement our business plan, fund our liquidity needs or even continue our operations.

***We had a net loss of \$432 thousand for the quarter ended September 30, 2015, and have an accumulated deficit of \$59.4 million as of September 30, 2015. To achieve annual profitability, we must generate increased revenue levels.***

For the quarter ended September 30, 2015, we generated a net loss of \$432 thousand and had an accumulated deficit of approximately \$59.4 million as of September 30, 2015, compared to a net income of \$147 thousand for the quarter ended September 30, 2014 and an accumulated deficit of approximately \$58.6 million at September 30, 2014. We need to generate greater revenue levels from the sales of our products if we are to achieve annual profitability. If we are unable to achieve these revenue levels, losses could happen for the near term and possibly longer, and we may not sustain profitability or generate positive cash flow from operations.

***A large percentage of our revenues are received from U.S. government entities/resellers, and the loss of any one of these customers could reduce our revenues and materially harm our business and prospects.***

A large percentage of our revenues result from sales to U.S. government entities/resellers. If we were to lose one or more of these key relationships, our revenues could decline and our business and prospects may be materially harmed. We expect that even if we are successful in developing relationships with non-governmental customers, our revenues will continue to be concentrated among government entities. For the quarter ended September 30, 2015, sales to U.S. government entities/resellers collectively accounted for 55.4% of our revenues, compared to 52.8% for the comparable period in 2014. The loss of any of these key relationships may send a negative message to other U.S. government entities or non-governmental customers concerning our product offering. We cannot assure you that U.S. government entities will be customers of ours in future periods or that we will be able to diversify our customer portfolio to adequately mitigate the risk of loss of any of these customers.

***A large percentage of our revenues are from one product line with a limited number of customers, and the decrease of revenue from sales of this product line could materially harm our business and prospects.***

A large percentage of our revenues result from sales of our security product line. Savant revenues were \$0.2 million for the quarter ended September 30, 2015 compared to \$0.5 million for the same period in 2014. TraceCop revenues were \$1.3 million for the quarter ended September 30, 2015, compared to \$1.5 million for the same quarter in 2014. There were two individual commercial customers in the third quarter of 2015 attributable for 31.6% of total revenue compared to two customers at 42.0% for the same period in 2014 that exceeded 10% of total revenues for that quarter. If sales of this key product line were to decrease, our revenues could decline and our business and prospects may be materially harmed.

***We are highly dependent on sales made through indirect channels, the loss of which would materially adversely affect our operations.***

## Edgar Filing: INTRUSION INC - Form 10-Q

We derived 67.4% of revenue in the third quarter of 2015 through indirect channels of mainly government resellers, compared to 57.4% of our revenues in the quarter ended September 30, 2014. We must continue to expand our sales through these indirect channels in order to increase our revenues. We cannot assure you that our products will gain market acceptance in these indirect sales channels or that sales through these indirect sales channels will increase our revenues. Further, many of our competitors are also trying to sell their products through these indirect sales channels, which could result in lower prices and reduced profit margins for sales of our products.

*You will experience substantial dilution upon the conversion or redemption of the shares of preferred stock that we issued in our private placements or in the event we raise additional funds through the issuance of new shares of our common stock or securities convertible or exercisable into shares of common stock.*

On October 31, 2015, we had 12,611,836 shares of common stock outstanding. Upon conversion of all outstanding shares of preferred stock, we will have 13,679,279 shares of common stock outstanding, approximately an 8.5% increase in the number of shares of our common stock outstanding.

In addition, management may issue additional shares of common stock or securities exercisable or convertible into shares of common stock in order to finance our continuing operations. Any future issuances of such securities would have additional dilutive effects on the existing holders of our Common Stock.

Further, the occurrence of certain events could entitle holders of our Series 2 Preferred Stock and Series 3 Preferred Stock to require us to redeem their shares for a certain number of shares of our common stock. Assuming (i) we have paid all liquidated damages and other amounts to the holders, (ii) paid all outstanding dividends, (iii) a volume weighted average price of \$1.32, which

Table of Contents

was the ten-day volume weighted average closing price of our common stock on October 31, 2015, and (iv) our 12,611,836 shares of common stock outstanding on October 31, 2015, upon exercise of their redemption right by the holders of the Series 3 Preferred Stock and the Series 2 Preferred Stock, we would be obligated to issue approximately 2,400,000 shares of our common stock. This would represent an increase of approximately 19.1% in the number of shares of our common stock as of October 31, 2015.

*The conversion of preferred stock we issued in the private placements may cause the price of our common stock to decline.*

The holders of the shares of our 5% Preferred Stock may freely convert their shares of preferred stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of October 31, 2015, 800,000 shares of our 5% Preferred Stock had converted into 1,272,263 shares of common stock and 200,000 shares of our 5% preferred stock remain outstanding.

The holders of the shares of Series 2 5% Preferred Stock may freely convert their shares of preferred stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of October 31, 2015, 605,200 shares of Series 2 Preferred Stock had converted into 605,200 shares of common stock and 460,000 shares of Series 2 5% preferred stock remain outstanding.

The holders of the shares of Series 3 5% Preferred Stock may freely convert their shares of Series 3 Preferred Stock and sell the underlying shares of common stock pursuant to Rule 144 of the Securities and Exchange Commission. As of October 31, 2015, 275,230 shares of Series 3 Preferred Stock had converted into 275,230 shares of common stock and 289,377 shares of Series 3 5% preferred stock remain outstanding.

For the four weeks ended on October 31, 2015, the average daily trading volume of our common stock on the OTCQB was 2,400 shares. Consequently, if holders of preferred stock elect to convert their remaining shares and sell a material amount of their underlying shares of common stock on the open market, the increase in selling activity could cause a decline in the market price of our common stock. Furthermore, these sales, or the potential for these sales, could encourage short sales, causing additional downward pressure on the market price of our common stock.

*You will experience substantial dilution upon the exercise of stock options currently outstanding.*

On August 1, 2015, we had 12,611,836 shares of common stock outstanding. Upon the exercising of current options exercisable at or below the exercise price of \$1.10, we will have approximately 14,905,000 shares of common stock outstanding, an 18.0% increase in the number of shares of our common stock outstanding.

*Our management and larger stockholders exercise significant control over our company and have the ability to approve or take actions that may be adverse to your interests.*

## Edgar Filing: INTRUSION INC - Form 10-Q

As of October 31, 2015, our executive officers, directors and preferred stockholders beneficially own approximately 27% of our voting power. In addition, other related parties control approximately 30% of voting power. As a result, these stockholders will be able to exercise significant control over all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions, which could delay or prevent someone from acquiring or merging with us. These stockholders may use their influence to approve or take actions that may be adverse to the interests of holders of our Common Stock. Further, we contemplate the possible issuance of shares of our Common Stock or of securities exercisable or convertible into shares of our Common Stock in the future to our Chief Executive Officer and Chief Financial Officer. Any such issuance will increase the percentage of stock our Chief Executive Officer, Chief Financial Officer and our management group beneficially holds.

### Item 6. Exhibits

The following Exhibits are filed with this report form 10-Q:

31.1	Certification of Chief Executive Officer Pursuant to Rule 13a-14(a) of the Exchange Act.
31.2	Certification of Chief Financial Officer Pursuant to Rule 13a-14(a) of the Exchange Act.
32.1	Certification Pursuant to Rule 13a-14(b) of the Exchange Act and 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
