NEWS RELEASE

**SHAW HIGH-SPEED XTREME-I FUELS THE NEED FOR SPEED  
FOR THE WEST'S MOST POPULAR INTERNET SERVICE**

**CALGARY, AB (April 14, 2004)** Shaw High-Speed Internet customers can now experience a true fasten-your-seatbelt Internet service featuring amazing new speeds with today's launch of Shaw High-Speed Xtreme-I.

Shaw High-Speed Xtreme-I delivers an extra rush of speed, pushing Internet performance well beyond existing boundaries for residential customers, said Peter Bissonnette, President of Shaw Communications Inc. This turbo-charged service is perfect for customers whose Internet experience includes online gaming and exploring rich multimedia sites. They can now enjoy the ultimate, most vivid online service available for as little as \$10 more per month.

The service is immediately available in Vancouver, Winnipeg and Calgary, with Edmonton to be added in the coming months. Bissonnette added the new Xtreme-I was yet another choice for their Internet customers, designed for those users that have asked Shaw for a new level of speed and performance.

With Shaw High-Speed Xtreme-I, information can be downloaded and uploaded at an amazing pace – up to 5 Megabit download speeds and 1 Megabit upload speed – enabling fluid movement and real-time interactions at an entirely new level.

When we tested the download speed of Xtreme-I with broadbandreports.com, it told us that the speed was literally off the charts. That's the kind of performance we're talking about with this new product, said Bissonnette.

Shaw High-Speed Xtreme-I also includes all the benefits of Shaw's existing High-Speed service, including:

- a reliable, always on connection that doesn't tie up the phone line.

- 7 private email addresses.

- Shaw Email Filter for managing junk email.

- 2 IP addresses.

- 10 Megs of personal web space.

- service calls are included.

- toll-free technical support available 24/7/365.
