GOLF ENTERTAINMENT, INC. AND SUBSIDIARIES NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Basis of Presentation

The accompanying unaudited consolidated financial statements are condensed and do not include all information required by generally accepted accounting principles to be included in a full set of financial statements. The unaudited condensed consolidated financial statements include the accounts of Golf Entertainment, Inc. and its wholly owned subsidiaries, collectively referred to as the "Company".

All material intercompany accounts and transactions have been eliminated. Certain reclassifications have been made to prior periods' amounts to conform to current period presentation. The information furnished reflects all adjustments, which are, in the opinion of the Company, necessary to present fairly its financial position, the results of its operations and its cash flows for the three months ended March 31, 2002 and 2001. It is suggested that this report be read in conjunction with the Company's audited financial statements included in the Annual Report on Form 10-K for the fiscal year ended December 31, 2000. The operating results and cash flows for the three-month period presented are not necessarily indicative of the results that will be achieved for the full fiscal year or for future periods.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial reporting period and the reported amount of revenue and expenses. Actual results could differ from those estimates.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As shown in the accompanying consolidated financial statements, the Company has incurred net income for the three months ended March 31, 2001 of \$2,985. The Company's ability to continue

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

as a going concern is dependent upon its ability to obtain additional financing and the attainment of an adequate level of profitable operations. Management believes that the action it is taking will provide the opportunity for the company to Continue as a going concern.

Note 2. Earnings per Common Share

Earnings per common share are based on the weighted average number of common shares outstanding during each period presented. Weighted average basic and diluted common shares outstanding for the three months ended March 31, 2002 and 2001 were 9,943,044 and 5,293,044, respectively. Vested and unvested options, warrants and

7

convertible preferred stock were not included in the computation of dilutive EPS because the effect of doing so would be antidilutive.

Note 3. Notes Payable and Long-term Debt

Notes payable and long-term debt consist of the following at:

	March 31, 2002 -----	December 31, 2001 -----
Term note payable to CIFC on Broadcast Equipment, no payments due until 2003.	291,000	291,000
Term note payable to Francis J Hart	16,900	16,900
Term note payable to Kasati	60,000	60,000
Term notepayable to Genesis Trust	-0-	30,000
Term note payable to Scott Printing Corporation, due in monthly installments Beginning December 1, 2000 of \$1,250 For 4 months, \$2,500 for 2 months with Interest at 0.0%	6,250	6,250
	----- \$ 374,150 =====	----- \$ 404,150 =====

Note 4. Supplemental Disclosures of Noncash Investing and Financing Activities

Not applicable

8

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

In this Quarterly Report on Form 10-Q, we will refer to Golf Entertainment, Inc., a Delaware corporation, as "Golf," "the Company," "we," "us," and "our." These terms include by reference, all of the current and former subsidiary corporations we have owned either all, or a significant interest in, since becoming a reporting company.

The Corporate Office of Golf Entertainment, Inc., is located at 1008 S. Clayton Street, Springdale, Arkansas 72762 and our telephone number is 479-751-2300. Our facsimile line is 479-751-2273. Shareholders are welcome to visit the facilities during our normal workday, 8:30 a.m. until 5:00 p.m., Monday through Friday.

General

On January 1, 2002, Golf Entertainment, Inc. resumed normal business operations at its offices in Alpharetta, Georgia and Springdale, Arkansas. Corporate headquarters were moved, during the months of January and February from Georgia to Arkansas. Golf Entertainment, Inc. and its subsidiaries Traditions Acquisition Corporation or "TAC"; LEC Leasing, Inc. or "LEC"; Superior Computer Systems, Inc. or "SCS"; Pacific Mountain Computer Products, Inc. or "PMCP"; Atlantic Digital International, Inc. or "ADI"; LEC Distribution, Inc; TJ Computer Services, Inc) (collectively, the "Company" or "Golf") is currently was in the business of television broadcasting. The Company has realigned its principal business focus and is now preparing a private placement in order to finance television station acquisitions and original licensures in the south and southeast United States. The company presently operates one television station in Springdale, Arkansas.

Results of Operations

For the three months ended March 31, 2002, the Company had revenues of \$34,292. The Company reported no operations revenues during 2001.

In fiscal 2001, the Company underwent a period of continuous operational losses and experienced a period of business inactivity. The resumption of business, a new focus within the field of entertainment has tended to validate the new business model of the Company and yielded revenues. For the three months ended March 31, 2002, the selling, general and administrative costs of the Company was \$28,880 while during the same period in 2001, the same costs were booked at \$91,372.

There was no interest expense during the reported period ending March 31, 2002. During the comparable period of 2001, interest expense was \$4,126. Management continues to employ a cost control plan and reviews overhead expenses weekly in an effort to avoid incurring an operational deficit. Net income for the period ending March 31, 2002 was

9

\$2,984. During the same period in fiscal 2001, the Company reported a net loss of \$91,970.

Liquidity and Capital Resources

The Company has nominal cash on hand and has had no substantial access to cash. Management is endeavoring to establish nominal lines of bank credit. Additionally, the Company intends to conduct a \$5 million dollar private placement commencing in the second quarter in order to finance acquisitions and expansion of its programming delivery. If fully subscribed, the private placement and the resulting anticipated revenue stream will be sufficient to fully fund company operations for the foreseeable future.

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

The Company's Expansion and Future Plans

a.) Private Fundraising

Management has forecast the need for an initial fundraising of \$5.0 million dollars. These funds need to be available to the Company by May 15, 2002 in order to achieve project completion by year-end.

The Company will utilize Regulation D, Rule 506, to serve as the vehicle for the first round of fundraising. The planned private placement will result in a combination of equity securities (common stock) of the Company being placed along with convertible debentures. The equity will be an incentive for the investors to participate in the 10% convertible debentures.

b.) Acquisitions of TV Stations

We are preparing to make a final offer on two additional stations, one in Tulsa, the other in Oklahoma City. We are pursuing a purchase as opposed to an original license application in those markets because of their population density and the relative ease of obtaining immediately marketable airtime in those markets. We believe it would be very difficult to successfully prosecute original license applications in those markets on a timely and cost effective basis, versus a purchase of existing properties.

Management believes it is important to acquire these properties in order to create an immediate revenue stream and to refine marketing and sales operations by using the three station combination of Springdale-Tulsa-Oklahoma City as a test regional advertising hub.

c.) FCC Licenses

We have prepared, with the exception of the final engineering data, license applications for the balance of ten stations we will build during the expansion project.

10

We will file our licensure applications as a minority program provider and ask for expedited application handling. In the event of one or more license application delays or failure, we will immediately seek to purchase or enter into a License Management Agreement (LMA) in the target market. We believe that we can be successful in purchasing LPTV or Translator licenses in target communities, in the event our own original license application is denied or delayed.

Programming conversion to Hispanic language programs can commence in LMA'd or purchased station within 36-hours of our signing an agreement with a current licensee. We anticipate that our new applications and construction projects will take approximately 8-weeks per station.

d.) Modular Construction of New Transmitter Sites

Our approach to constructing a new station is "prefab" and low budget. We will completely pre-assemble the transmitter building and UHF broadcast transmitter system in Springdale, Arkansas. Assembly of a potential site, including dummy load testing of the transmitter will require 4-work days per site. Thereafter, tower construction will require 10 days per site and final installation will require an additional 2-days per site.

To reduce costs and speed construction we will utilize hi-efficiency Bally

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

modular transmitter enclosures. Each unit will be 8-feet wide by 11-feet long. They will leave the Springdale operations center equipped with an Itelco 1000 watt UHF transmitter, tuned to the FCC assigned frequency. In the event of an acquisition, we will replace existing equipment with a new module in order to achieve complete commonality in operating systems, control, maintenance and monitoring systems. Serviceable surplus equipment will be sold for cash and the proceeds used to fund the project.

The UHF transmitter we have selected is low in cost, completely solid state, easily maintained and features long interval "mean time before failures." Our research indicates that technician training and skill levels required to maintain such a transmitter are nominal.

The efficiency of a solid state transmitter, coupled with the ability to monitor all transmitters in a common system for fault, operating problems, etc. from an operations center eliminates co-locating a dedicated technician at each site, thereby markedly reducing operating costs. Purchase of 13 such transmitters in one transaction will further markedly reduce our acquisition costs.

e.) Staffing Issues

We have received resumes from highly qualified and experienced personnel whom we will hire to fill key position. We will operate the system with about a dozen staff, exclusive of our commission-paid sales force. Management does not foresee any particular difficulty in filling any position that is mission critical.

11

These market areas we will be penetrating will require experienced and seasoned staff to introduce our product and at the same time dispel common stereotypical myths stemming from common ethnic bias. We have sufficient commitments from qualified staff to meet this need within our first four weeks following closing the private placement.

f.) Systems Integration

We will integrate our operations and systems control by building a Network Operations Center (NOC) in Springdale, Arkansas. We will rely on internet-based fiber interconnection between stations to move video data. This allows us to receive raw footage of a commercial from a distant market, edit it at the NOC and return it within the same day via the internet. We are presently negotiating with WorldCom for cost effective fiber access.

We will not rely on conventional satellite linkage between the NOC and stations. Satellite expenses for a conventional network programmer average about \$70,000 monthly. Broadband, carrier class internet connectivity will allow us to move NTSC broadcast quality video and CD quality audio directly to the stations for approximately \$7,500/month for the system. Additionally, we anticipate we will be able to eventually offer broadband internet subscribers selective home television delivery of our programming as soon as the NOC is completed. Additional market deliveries would be available nationwide via broadband access.

g.) Post_Expansion Operations

We anticipate we will achieve normalized daily operations sometime in the third quarter of 2003. We anticipate, however, repeating the expansion program in a block of 15-stations, in east and upper east coast markets in 2003.

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

h.) Accounting & Purchasing Issues

We have significantly modified our accounting procedures and internal controls. As we go forward, our operating procedure requires centralized purchasing, and accountability for all capital equipment. Material and equipment acquisition cost reduction is achieved by aggressive purchasing policies. We have thus far achieved operational success by relying on used, rather than new equipment items where possible. The savings achieved thus far reduced our operations resumption costs by as much as 65%. We believe that a "no-frills" approach to initial operations will result in the highest possible potential for success and establishment of the greatest possible value of the Company to shareholders.

i.) Performance Based Compensation

Executive staff, with the exclusion of marketing/sales staff, are compensated at a maximum of \$48,000 per annum. Our management team believes that our compensation should be tied to our performance. Our Executive Compensation Committee is developing a new compensation plan, but, by agreement between management and the Company, a salary cap of \$94,000 per annum is in effect during any period of time in

12

which we have private investor capital at risk. No current member of management has any stock options and we do not anticipate vesting any such options in the near future.

Compensation for sales staff is driven purely by performance, measured by commissions from each sale. The Executive Staff member responsible for Marketing & Sales will receive 10% of each sale, when it is paid for by the customer. Line level sales staff will receive 20%. We believe the incentive to sell is obvious. Each geographical market area will generally be handled by one full time sales representative.

j.) Theory of Management of Risks Associated with Competition

We believe that by spreading our risk across multiply sited market areas, we will be less vulnerable to competition that we would be if we had invested the same amount of capital in one, large, high-volume market such as Los Angeles, Houston or New York.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Certain statements herein and in the future filings by the Company with the Securities and Exchange Commission and in the Company's written and oral statements made by or with the approval of an authorized executive officer constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, and the Company intends that such forward-looking statements be subject to the safe-harbors created thereby. The words and phrases "looking ahead", "we are confident", "should be", "will be", "predicted", "believe", "expect" and "anticipate" and similar expressions identify forward-looking statements. These and other similar forward-looking statements reflect the Company's current views with respect to future events and financial performance, but are subject to many uncertainties and factors relating to the Company's operations and business environment which may cause the actual results of the Company to be materially different from any future results expressed or implied by such forward-looking statements. Examples of such uncertainties

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

include, but are not limited to, changes in customer demand and requirements, the availability and timing of external capital, interest rate fluctuations, changes in federal income tax laws and regulations, competition, unanticipated expenses and delays in the integration of newly-acquired businesses, industry specific factors and worldwide economic and business conditions. With respect to economic conditions, a recession can cause customers to put off leisure time activities and adversely affect the Company's revenue. The Company undertakes no obligation to publicly update or revise any forward-looking statements whether as a result of new information, future events or otherwise.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company has been involved in legal proceedings from time to time arising out of the ordinary course of its prior business. There are no such currently pending proceedings,

13

which are expected to have a material adverse effect on the Company. other than the matters disclosed immediately below.

a.) Prior State Sales and Franchise Tax Claim Issues

In March, 2002, the Company was notified by a former Company director and officer, Michael F. Daniels, that he had been made the subject of a Court Judgment from the state of New Jersey. Upon investigation the Company learned that their individual judgments were tied to a judgment rendered against the LEC Leasing, Inc., a division of the Company. The case, styled State of New Jersey, Department of the Treasury, Division of Taxation, is docketed in the state's court system as case 35,953-01, 02 and 03. Mr. Daniels was listed as judgment debtor by New Jersey on the general theory that he had been an officer of LEC Leasing, Inc., and as such, had personal liability. The amount of the judgment is \$185,184.45 with accruing interest. Upon investigation, the Company learned that this judgment consists, primarily, of estimated tax returns for periods in 1999 which were prepared and filed in the name of LEC Leasing by New Jersey tax officials. The Company, in its most recently filed Annual Report reported that it is the sole shareholder of the common stock of LEC Leasing, Inc., and operated the entity as its subsidiary during periods in which the Company did business in New Jersey as a leasing service. The Company does not believe it owes the state of New Jersey any past taxes; believes that all such required reports were filed in a timely fashion and intends to vigorously defend its position and the position of its former employee.

As the Company undertook to investigate the circumstances surrounding the New Jersey judgment, it learned it also has a state tax lien of record in the Commonwealth of Kentucky, dated December 12, 2001, again for periods in 1999. Like New Jersey, Kentucky estimated taxes then prepared and filed estimated returns in the name of LEC Leasing, Inc. The estimated claim of Kentucky is approximately \$6,000, in case number 000321065. The Company does not believe it owes the Commonwealth of Kentucky any past taxes; believes that all such required reports were filed in a timely fashion and intends to vigorously defend its position. The Company believes that this matter will be resolved in the Company's favor before the end of the second quarter.

The Oklahoma Tax Commission has likewise filed Tax Warrants totaling \$14,442.75 for periods in 1998 through March, 2000. As in the case of New Jersey and Kentucky, the State of Oklahoma has created estimates of taxes, prepared and then filed returns in the name of LEC Leasing and then proceeded

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

to execute on such claims. In Oklahoma, the matter is docketed as Z413795279. The Company does not believe it owes the state of Oklahoma any past taxes; believes that all such required reports were filed in a timely fashion and intends to vigorously defend its position. The Company believes that this matter will be resolved in the Company's favor before the end of the second quarter.

In each of the tax cases there is a common element: the taxing authority claiming that it had not received reports; that the Company had believes it previously filed the required reports or closure letters and that there was or is a rational basis for the Company or its subsidiary to owe taxes. The Company believes that these previously unreported

14

liabilities do not constitute valid obligations of the Company, but, has included them in its financial statements pending resolution.

These events were immediately reported to the Company's auditors for the affected period. Upon examination of the events the auditors were asked to either affirm their audits, qualify their audits or disavow their audits for FY 1999 and FY 2000. The auditors during that period, Goldman Golub Kessler, responded that it was their belief that these events were not material and that there was no need to restate the financial statements for the reported periods. The Company believes these events occurred as the result of its departure from the leasing business in December, 1999. When the Company sold its lease portfolios it sent notices and letters to approximately one-hundred state and local taxing authorities, advising them that the Company, and its various divisions, had sold its lease portfolios on December 31, 1999 to Somerset Capital Ltd. New Jersey, Oklahoma and Kentucky were mailed such notices. Prior to the sale, Somerset had functioned as a management agent for the Company, managing these portfolios. Accordingly, it is the position of the Company that these liabilities, while substantial in their dollar amount, are not predicated upon any lawful taxes owed or actual liability of the Company and have occurred as the result of no fault or liability of the Company. The Company has not previously reported these matters because a.) it had no knowledge of them until March 2002, and, b.) had a reasonable basis to believe it had closed all such tax accounts in a timely and responsible fashion. The Company believes that these matters will be settled on terms favorable to the Company, and, as noted above, the Company does not believe it owes the claimant states any past taxes; believes that all such required reports were filed in a timely fashion and intends to vigorously defend its position. The Company has implemented internal audit and management controls which it believes are reasonably calculated and designed to reduce similar risks in the future.

The New Jersey judgment remains as a source of concern to the Company in that it could be made the subject of an execution proceeding whereby the entire assets of the Company are at risk. In the event of such a circumstance, the Company would remove such litigation to a federal court and seek injunctive relief while the underlying issue of liability is determined. Accordingly, in terms of risk management, the Company believes it is taking all reasonable measures to defend its position and protect its assets.

The Company anticipates final settlement of all these issues before the close of the second quarter, 2002.

Item 2. Changes in Securities

None

Edgar Filing: GOLF ENTERTAINMENT INC - Form 10-Q

Item 3. Defaults Upon Senior Securities

None

15

Item 4. Submission of Matters to a Vote of Securities Holders

No matters were submitted to shareholders during the report period. The Company, however, anticipates holding a shareholder meeting during fiscal 2002.

Item 5. Other Information

The Company has been notified by the National Association of Securities Dealers that it is considered to be an issuer which would be affected by the phasing out of the NASD "OTCBB" trading system in fiscal 2003 in lieu of a new listing service, the "BBX," or, Bulletin Board Exchange. The Company has reviewed the criteria for listing on this new NASD system and believes that currently meets the criteria for independent directors, shareholder communication, independent audit committee, etc. The Company intends to apply for BBX listing when the NASD commences accepting applications. The Company will incur additional annual expenses, however, as a result of listing fees.

The Company anticipates it will file amended articles of its incorporation in May or June, 2002, changing its name.

Item 6. Exhibits and Reports on Form 8-K

(a) Reports on Form 8-K

On April 15, 2002, the Company filed a Form 8-K noting a change in its accounting firm.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
