**FORDING ANNOUNCES THIRD QUARTER  
CASH DISTRIBUTION**

**CALGARY, September 15, 2004** - Fording Canadian Coal Trust (TSX: FDG.UN, NYSE: FDG) today announced that its third quarter cash distribution of \$1.10 per unit will be paid on October 15, 2004 to unitholders of record on September 30, 2004. The ex-distribution date is September 28, 2004. This distribution is in respect of the period from July 1, 2004 to September 30, 2004.

**Tax Information for Cash Distributions**

For unitholders resident in Canada, income distributed by the Trust will generally be treated as ordinary income from property except where the income is sourced from capital gains realized by the Trust or from dividends received by the Trust. In these cases, the Trust intends to make appropriate designations in its tax returns so that the capital gains

or dividends will retain their character when distributed to unitholders and will be subject to income tax accordingly. Distributions to unitholders made in a year that are greater than the net income of the Trust for the year will not be included in unitholders' income but will be considered a return of capital and a reduction of the cost base of the units.

Income distributed by the Trust to non-residents of Canada will be subject to Canadian withholding tax of 25% subject to reduction under the provisions of any applicable tax treaty or conventions. Canadian withholding tax is generally 15% for U.S. holders.

The Trust has made an election to be taxed as a corporation for U.S. tax purposes. Accordingly, distributions by the Trust will be considered foreign-source dividend income to the extent paid out of current or accumulated earnings and profits of the Trust, determined under U.S. income tax principles. Assuming that applicable unitholder-level requirements are met, these distributions are "qualified dividends," eligible for taxation at reduced rates under recent U.S. federal income tax legislation. Payments in excess of current or accumulated earnings and profits will be applied first to reduce the cost base of the units and then as a capital gain should the cost base of the units be reduced to zero.

It is expected that the Trust will issue a statement after the close of its fiscal year (December 31) that will provide information for Canadian and U.S. resident investors about the final characterization of 2004 Trust distributions for income tax purposes.

Unitholders should consult their own tax advisors for advice with respect to the income tax consequences based on their particular circumstances.

***About Fording***

Fording Canadian Coal Trust is an open-ended mutual fund trust. Through investments in metallurgical coal and industrial minerals mining and processing operations, the Trust makes quarterly cash distributions to unitholders. The Trust, through its wholly-owned subsidiary, Fording Inc., holds a 60% interest in the Elk Valley Coal Partnership and is the world's largest producer of the industrial mineral wollastonite. Elk Valley Coal Partnership, comprised of Canada's senior metallurgical coal mining properties, is the world's second largest exporter of metallurgical coal, capable of supplying approximately 25 million tonnes of high-quality coal products annually to the international steel industry. The Trust's shares are traded on the Toronto Stock Exchange under the ticker symbol FDG.UN and on the New York Stock Exchange under the symbol FDG.
