PART I

ITEM 1. DESCRIPTION OF BUSINESS

General

GlobeTel Communications Corp. (GlobeTel), a Delaware corporation established in July 2002, GlobeTel Communications Corp. ("Globetel") is engaged in the business of providing telecommunication services, primarily involving Internet telephony using Voice over Internet Protocol ("VoIP") technology and equipment, Stored Value services, and wireless communications both domestically and internationally, including Mexico and certain countries in South America, Europe and Asia. In addition, our subsidiary, Sanswire Networks, LLC, is developing a National Wireless Broadband Network utilizing high-altitude airships called Stratellites that will be used to provide wireless voice, video, and data services. Although through December 31, 2005, only the telecommunications activities produced revenues, all of our operations are considered to be of relatively equal importance, based on the anticipation of future revenue producing activities and substantial investment in assets related to all of our operations.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

On May 6, 2005, by written consent of the majority vote of its shares, the Board of Directors approved a reverse split of our shares of common stock on a one for fifteen (1:15) basis, in preparation for our move to the American Stock Exchange, which occurred on May 23, 2005. All common stock amounts in this report have been retroactively restated to account for the reverse stock split, unless otherwise noted.

GlobeTel is authorized to issue up to 150,000,000 shares of Common Stock, par value \$0.00001 per share, and 10,000,000 shares of Preferred Stock, par value \$0.001. There were 1,500,000,000 authorized pre-split shares. Upon reverse split, they became 100,000,000 authorized shares, and subsequently increased to 150,000,000 in August 2005.

The preferred stock is a so-called "blank check" preferred, meaning that its terms such as dividends, liquidation and other preferences, are to be fixed by our Board of Directors at the time of issuance. The dividends, liquidation rights and other preferences for each class of Preferred Stock are explained in Item 7, Financial Statements, Note 26.

We were previously a wholly-owned subsidiary of American Diversified Group, Inc. (ADGI). At a special meeting of stockholders of ADGI held on July 24, 2002, the stockholders of ADGI approved a plan (the "Plan") for the exchange of all outstanding shares of ADGI for an equal number of shares of GlobeTel.

ADGI was incorporated under the laws of the State of Nevada as Terra West Homes, Inc. on January 16, 1979. On March 15, 1995, its name was changed to "American Diversified Group, Inc." During the period ended July 24, 2002, ADGI's business activities included (i) sale of telecommunication services primarily involving Internet telephony using VoIP through its Global Transmedia Communications Corporation subsidiary ("Global"), and (ii) wide area network and local area network services provided through its NCI Telecom, Inc. subsidiary ("NCI"). Global was acquired by ADGI on February 19, 2000, and NCI was acquired on June 29, 2000. During 2002, Global and NCI were merged with and into ADGI, with ADGI as the surviving corporation.

When ADGI exchanged all of its outstanding shares of common stock for GlobeTel common stock, ADGI became a wholly-owned subsidiary of GlobeTel and GlobeTel began conducting the business formerly conducted by ADGI.

We have a 99% ownership of GTCC de Mexico, S.A. de C.V., a Mexican company established to represent our interests in Mexico. The remaining 1% is owned by the Company's Mexican lawyer who is representing the Company in all matters of the operations in Mexico. GTCC de Mexico is utilized in connection with our operations in Mexico, including Banco Azteca and Marcatel, as discussed herein. GlobeTel is currently pursuing other opportunities with additional telecommunications partners in Mexico. In 2004, we formed wholly-owned subsidiaries: Sanswire Networks, LLC (Sanswire-FL) for our Stratellite project; and Centerline Communications, LLC, (Centerline or CLC) and its wholly-owned subsidiaries, EQ8, LLC, G Link Solutions, LLC, Volta Communications, LLC, and Lonestar Communications, LLC for the purpose of the recording and managing the sale of wholesale minutes and related network management functions. In 2005, we incorporated High Valley Property Ltd. to create a holding company for international businesses, as well as Globetel Wireless Corp. and Globetel Wireless Europe GmbH to enable a faster deployment of our wireless networks and activities across Europe and on a global scale.

In 2004, we acquired a 73.15% interest in Consolidated Global Investments, Ltd. (CGI), formerly known as Advantage Telecommunications, Ltd. (ATC), an Australian company. In December 2005, we sold our holdings back to CGI, returning all of our shares and options in CGI, and retaining a deposit of approximately \$1.4 million that was held for CGI.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Business of GlobeTel

We are a telecommunications and financial services company with a broad and expanding range of both current and contemplated services, product lines, and projects as described below. Our core products and services are: telephony services that include international wholesale carrier traffic, networks, enhanced services - prepaid calling services and IP Telephony. Our non-telephony products and services include: Stored Value Card Programs and outsourced stored value services for the international banking and telecommunications community. Our Super Hub(TM) network is currently in development and it is our intention to deploy the Stratellites as the most efficient and cost effective means of interconnecting the Super Hub(TM) network.

3

In our efforts to be on the cutting edge or pioneers in the telecommunication industry, from time to time, we embark on certain services, product lines and projects and enter into certain contractual and non-contractual relationships, which we may subsequently deem unfeasible, impractical, cost prohibitive or otherwise incompatible with our overall business plans. In such cases, we disclose the initial intent and anticipated result of the applicable service, product, project or relationship. We further disclose the current status of each project and current and/or contemplated changes resulting from the factors mentioned above.

Super Hubs (TM)

We have consolidated our operations on the development of the Super Hub(TM) and its application in the maturing foreign markets utilizing VoIP technology. Further, we have limited our activities in some markets to focus on opportunities with greater margins.

Each Super Hub(TM) will be interconnected and equipped to provide one-stop shopping for quality voice and data communications. The Super Hub(TM) makes the network unique in its design. It will not be built on the conventional, hub-and-spoke connection but will instead follow a high connectivity, multi-route design only available by using IP.

Our intention is to use the Stratellites (discussed below) as the most efficient and cost-effective means of interconnecting our Super Hubs(TM).

International Wholesale Carrier Traffic

The business of International Wholesale Carrier traffic is a business whereby we buy and we sell large blocks of calling minutes with particular origination and termination points. In some instances, we enter into agreements with established international telephone carriers to deliver international calls into their domestic telephone networks for termination to the parties being called. Additionally we purchase a bulk package of minutes to specific destinations and then resell these minutes in smaller quantities to individual and business customers. In most instances, our customers prepay for these minutes or post letters of credit with our bank, securing their purchases.

Beginning in July 2004, we began to migrate these operations from GlobeTel, the parent company, to our subsidiary, Centerline and its subsidiaries. The migration was completed in the beginning of September 2004 and international carrier traffic immediately began to ramp up on the networks. In June of 2005, we consolidated all of the telecommunication equipment from our Hong Kong switch into our new switch in Los Angeles, California. Centerline's switch facility in Los Angeles is now fully operational. There is currently no anticipated

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

expansion other than some necessary VoIP equipment that will be required. Centerline's TDM switch - a Nortel DMS-250 SuperNode - has sufficient capability to handle all of the capacity necessary to achieve \$10 million in gross monthly revenues, or approximately 250 million minutes per month.

Networks

To provide our services, we interconnect with licensed carriers in each country we desire to provide calling services. In some countries, we place electronic equipment called a "hub" on the carrier's premises and then interconnect with their local network. In other countries, we connect directly to the carrier's hub, which is connected to the local telephone network in that country. We maintain hubs in Miami, Los Angeles, Monterrey-Mexico, and Sao Paulo-Brazil.

When we establish service to a new country and traffic volume is relatively low, we create a "virtual" network connection between the two hubs. Virtual networks have been described as "tunnels" through the Internet.

A virtual network is limited to the amount of traffic it can handle. When the limit begins to be approached, we make arrangements with one of several major Internet service providers who maintain a physical connection between the hubs in the form of a leased high speed line. Leased lines have much greater traffic-carrying capacity than virtual networks. We are immediately able to handle a greater volume of calls than the virtual network allows.

We also provide network management services to customers, which includes testing routes, troubleshooting and service requests.

GlobeTel VoIP

On October 7, 2005, we announced the launch of our flexible, private-label consumer VoIP platform designed and built specifically for service providers. The completely customizable solution known as StrateVoIP provides everything required to turn an existing service provider into a leader in VoIP technology without the usual obstacles involved in building out a carrier-class VoIP platform. StrateVoIP is a private-label solution designed for ISPs, cable companies, telcos, and all other providers desiring to offer VoIP services to their local markets. The StrateVoIP platform is operated using our proprietary VoIP software package, which allows clients to design and architect completely customized calling packages to fit the needs of their specific local markets. With the StrateVoIP platform clients can utilize their own brand, deliver a single bill and provide direct customer support to its customers. StrateVoIP's web administered MIS platform provides each client with an integrated, tested and operational telephony service, which includes StrateVoIP's customized network operations support systems, managed switching platforms, live network interfaces, and IP and TDM carrier interconnects. StrateVoIP provides a unique sales and marketing strategy via the customizable platform which provides real time web-based functionality, enabling clients to set up custom calling plans by country or region with customized rate management for profitability control. The consumer experience is powered by a variety of devices including wireless and broadband based VoIP hardware which is completely plug and play, while providing advanced calling features such as real-time accounting, web and email-based voicemail, and global "follow-me" services. StrateVoIP has focused on the Latin American market and began initial testing and deployment in Brazil during the fourth quarter. Together with our Brazilian partners, the StrateVoIP platform is in late stages of testing. The retail service will be rolled out initially in Brazil followed by expansion into the Latin American region.

Stored Value Services

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In late 2003, we began offering new products and services which we call the MagicMoney(R) program. The features of the MagicMoney(R) program allow telecommunications companies and financial institutions worldwide to add true stored value services to their existing products and create new products, while maintaining the convenience, security, and acceptability of a MasterCard or Visa. MagicMoney(R) stored value services include: prepaid long-distance and international calling services, debit card "electronic bank accounts" and funds sharing services.

We developed the MagicMoney(R) program as a stored value product to sell into specific ethnic communities around the world so that overseas foreign workers remain connected with their family members and friends in their country of origin. Some of the features that make our product unique are the combination of such stored value services as inexpensive prepaid calling services, funds sharing between linked cardholders, electronic banking services and a full complement of debit card services that are offered anywhere the Maestro and Cirrus logos are found, which covers between 5 - 8 million merchants and approximately 1 million ATMs around the world.

Currently, our programs are geared towards Latin American, Indian, Filipino and Asian market segments linking their overseas family members to home. One of our key goals is to tap into the multi-billion dollar money remittance market while providing all of the other financial and non-financial services not commonly available to these ethnic groups.

We are presently working on a number of MagicMoney(R) projects. By having developed a comprehensive stored value services platform and system infrastructure we are able to support a unique range of innovative solutions for telecommunications companies, financial institutions, credit card processors, retail outlets, nonprofit organizations and additional businesses in a range of vertical markets that already have their own existing card programs.

We are now recognized as "an enabler" of stored value applications and technology. Our suite of stored value applications aid firms with existing card programs and bring to them flexibility to add ancillary services to their cards. These ancillary services help firms create new profit centers from current products, drive new value added benefits for existing cardholders and create new marketing vehicles for firms to attract new cardholders and grow their businesses. These new stored value technology based solutions further define our paradigm shift.

We have developed a wireless access application to enable the cardholders in the United States to access all of the stored value features and functionally via their mobile phones using SMS technology.

Enhanced Services - PrePaid Calling Services

Our enhanced services use proprietary software that operates on our switch interconnected with various customer networks. Pre-paid calling services are the most widely used enhanced service. Our prepaid calling services allow carrier customers and reseller customers to sell their own branded prepaid calling cards in their markets and allows their customers to make both domestic and international calls.

We are focusing on prepaid calling services and outsourcing the use of our enhanced services switch. We are a provider and enabler of these services having expanded our market from telephone companies and prepaid calling card resellers to financial institutions who wish to create new revenue sources from their existing bank card customer base by introducing new value added services to their bank cards.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Agreement with Financial Software & Systems in India

On November 9, 2005, we announced that we have signed an agreement with Financial Software & Systems (P) Ltd ("FSS") based in Chennai, India. The purpose of the agreement is to establish a commercial relationship between GlobeTel and FSS that will enable the parties to work together to market stored value and money remittance programs, targeting tens of millions of existing banking customers in the \$12 billion Indian remittance market. The Company is confident that partnership with FSS will provide significant advantages to both organizations.

5

FSS focuses its business in Electronic Funds Transfer ("EFT") solutions and outsourced services which power the majority of ATMs and Point-of-Sale ("POS") terminals in India, controlling most of the Electronic Funds Transfers in the country. FSS also provides third-party processing as an outsourced application services for many of the largest banks in India.

The company believes that its relationship with FSS will bring cutting edge technology solutions to banks and financial institutions in India and across the globe. FSS is leveraging its extensive domain knowledge in payment processing and transaction switching across various touch points with highly skilled software development and implementation resources, world-class IT infrastructure, and global partnerships.

GlobeTel Wireless, Russian Joint Venture Agreement

As of December 30, 2005, GlobeTel Wireless Corp. ("GTEW") had entered into a binding agreement to install wireless communications networks in 30 cities throughout the Russian Federation, providing broadband, VOIP and DECT technologies. GTEW had entered into an agreement with LLC Internafta ("Internafta") of Moscow, Russia, whereby Internafta will pay to GTEW a series of four construction payments totaling US\$600 million for the installation of an array of proprietary networks to be installed in Russia's 30 largest cities, starting with Moscow and St. Petersburg. GTEW will both manage the completed network and will retain an ongoing 50% interest in the operations of the network, allowing the Company to enjoy the benefits of the recurring revenue stream. GlobeTel plans to roll out the network in 3 stages, comprising 10 cities each, over the next 27 months.

On March 2, 2006 the Company announced that Internafta had requested an additional delay in the closing of the funding until the week of March 6, 2006. The Company has provided Internafta and its banks with a significantly expanded business plan outlining, in detail, the company's program for equipment manufacturing, delivery, installation, testing, monitoring, staffing, progress payment requirements, and other pertinent information. Internafta advised the Company that its funding has been approved by its bank syndicate, subject only to the bank's final review and analysis of the business plan.

Internafta has informed GlobeTel that its bank recommends that smaller, more frequent, progress payments be established so that the necessary staged payments can be delivered to GlobeTel as and when the network is delivered and installed. These smaller, more frequent, staged payments do not reduce the total capital value of the agreement with GlobeTel Wireless or change any other terms of the agreement. GlobeTel will still receive \$600 million for deployment of the network. The exact amount of the new proposed initial deposit, and the size and timing of the new proposed progress payments, will be discussed and agreed with GlobeTel once the bank has completed its due diligence and when the bank group formally accepts the terms of Internafta's proposed banking instrument.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

On March 17, 2006, the Company announced that based upon differences between the Company and Internafita on the financing process, the parties have agreed to revise their agreement to more accurately reflect the timing of payments GlobeTel expects to receive for the build out of the 30 city wireless network in Russia and allow Internafita additional time to begin making payments.

Updates of Disclosed Stored Value Service Agreements & Programs

Banco Azteca Letter of Intent

In February 2005, we signed a Letter of Intent (LOI) with Banco Azteca, the fifth largest financial institution in Mexico. The agreement with Banco Azteca would have further cemented our position in Mexico serving the Latin American Market Segment. The company was working with Banco Azteca to initiate a stage development that would have enabled 2.5 million existing Banco Azteca debit cards to be used for prepaid calling. However, based on the business terms presented, the company has decided not to move forward with this deal.

Bankcard Agreement

In June 2004, we entered into an agreement with Bankcard Inc. (Bankcard), a member of the RCBC Group, one of the largest private commercial bank and financial institutions in the Philippines, to introduce a stored value card program for domestic and international use. Bankcard will be able to issue a MasterCard and/or VISA card that will offer Overseas Filipino Workers and Filipinos in foreign countries, convenient, risk free and low cost international funds transfer and discounted long distance calling services.

We and Bankcard are presently working on the deployment of a MasterCard Electronic Signature based Stored Value Card to be launched in the Philippines, the Middle East and additional countries in South East Asia.

We are working with Bankcard on technical and systems integration. Creative and program development is now underway for the co-branded card design, program and marketing development. Having had the opportunity to address and resolve certain legal issues relating to Philippine law and United States legal and regulatory compliance, we were slated to perform the initial launch of this program during the first quarter of 2006, however, due to additional regulatory requirements, the launch has been rescheduled for second quarter of 2006.

6

Globe Telecom Memorandum of Agreement

In October 2004, we signed a Memorandum of Agreement (MOA) with Philippine mobile giant Globe Telecom (Globe) to jointly develop an integrated payment system that will combine the Company's stored value card payment processing capabilities with Globe's SMS applications technology. The purpose of this program is to allow the Company's stored value cardholders to send money directly to family and friends through their Globe Mobile Phone (G-Cash). With this new technology, the SMS/text recipient is then able to withdraw funds from major Filipino retail outlet chains. Globe Telecom is the second largest cellular phone operator in the Philippines with over 10 million subscribers. The Company is at the end stages of testing the software application to support G-Cash. Due to regulatory requirements, the project has experienced delays. The Company is currently in negotiations with several banks who are interested in participating in the program during fiscal year 2006.

Equitable Card Letter of Understanding

In August 2004, we signed a Letter of Understanding (LOU) with Equitable Card

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Network, Inc. for Equitable to enable the Company to issue GlobeTel branded VISA Electron Cards in the Philippines. We were working with Equitable to define the nature, type and scope of the relationship we will be forming to issue VISA Electron cards in the Philippines. However, based upon the business terms presented, we will not be moving forward with this deal.

Pier One Filipino Seafarers Union

In July 2004, we entered into an agreement with Pier One to develop our Stored Value Card Program for seafarers. The "Lighthouse Card" will allow Filipino seafarers to load and remit cash from overseas at special rates. Corresponding Lighthouse cardholders in the Philippines can then withdraw money from any ATM in the Philippines and access their account from most locations throughout the world. This program has been put on hold pending further research of requirements under Maritime Law.

First Class Professional Agreement

In August 2004, we entered into an agreement with First Class Professional Human Resources, Inc. (FC Professional), a Philippines corporation based in Manila, to develop our Stored Value Program for use by its members in Japan. FC Professional represents approximately 40,000 Filipino workers in Japan. Because of the difficulty in providing this service in Japan, we have decided not to continue pursuing this opportunity at this time.

OnQ Program

In July 2004, we announced the launching of our Stored Value Card Program in Australia, Bill Express, through the Australian distributor, OnQ, with over 8,000 points of sale throughout Australia. The new prepaid debit style product was designed to provide a customer with a convenient alternative to cash that is secure and easy to manage. Due to unfavorable business conditions, we have decided to pursue other POS solutions with another vendor.

Timesofmoney.com Memorandum of Understanding

In September 2004, we entered into a Memorandum of Understanding ("MOU") with Times of Money in which Timesofmoney.com would provide direct deposit facilities to 54 banks and issue prepaid cards in India for GTEL cardholders. TimesofMoney.com is a comprehensive, online financial super mall, founded by The Times of India Group, the largest media group in India. It hosts the offerings of best-in-class banks and financial institutions and its product portfolio spans credit cards, loans, mutual funds, tax filing and NRI services. The company is a leading financial portal and has emerged as the backbone of the Banking Industry for online remittances. Based upon our recent agreement with FSS, we will not be going forward with this program.

Englewood Agreement

In May of 2004, we signed a joint venture agreement with Englewood Corporation whereby ("Englewood") would provide all of its current and future business opportunities to GlobeTel. This included carrier customers, carrier termination networks, stored value products and services and value added ATM, debit and credit card products for both financial and non financial products and services and the processing capabilities for such transactions on ATM/debit card networks including but not limited to MasterCard Inc, MasterCard International, VISA and private banking ATM networks. Through Englewood and its subsidiaries carrier traffic, foreign termination and stored value card processing capabilities were underway. However, due to the migration of the wholesale carrier traffic business to our subsidiary Centerline Communications (switch facility in Los Angeles), we have decided not to pursue the carrier business aspect of this deal. Englewood has continued to assist the company in identifying potential

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

clients on the debit card business and is providing support with the IP telephony business.

7

Processing Switch Agreement

In August 2004, through Englewood Corporation, we entered into an agreement to join with Grupo Ingedigit C.A. ("GI"), a certified MasterCard third-party transaction processor and the leading electronic financial transactions services backbone provider for the banking industry in Venezuela, establishing a new venture in Miami, Florida providing domestic and worldwide financial transaction processing services. This domestic venture combined with GI's current international processing capabilities will support on its own network all the Magic Money and other private label GTE stored value card programs around the world, as well as other third party cards. Both parties will contribute equally to the operation of the Miami switch. The switch is expected to be certified to process MasterCard, Visa, Cirrus, and other independent ATM network transactions. The switch will be installed and integrated by Englewood Corporation. Operations were expected to begin by the first quarter of 2006, but due to regulatory requirements, operations have been rescheduled to begin in the second quarter 2006.

On July 7, 2005, we announced we had entered into a licensing agreement with RapidMoney(R) Corporation that allows us to use and modify the RapidMoney(R) system. We, along with our venture partner, GI, will incorporate the current RapidMoney(R) funds transfer software applications for merchant Point of Sale ("POS") terminals into the our Stored Value International Remittance Services. Furthermore, this license allows us and GI to develop additional applications based on the RapidMoney(R) system that will be deployed in the retail locations which are offering their Stored Value Card Program services. Located in San Antonio, Texas, RapidMoney(R) Corporation developed a system for personal money transfers on easy-to-use POS terminals.

SANSWIRE NETWORKS, LLC ("SANSWIRE")

Sanswire is developing high-altitude airships called Stratellites that support wireless broadband network, which in turn, will be used to provide wireless voice, video, and data services. These Stratellites will form strategic nodes for the Super Hub(TM) Network. A Stratellite is similar to a satellite, but is stationed in the stratosphere rather than in orbit. At an altitude of only 13 miles, each Stratellite will have clear line-of-site to an entire major metropolitan area and should allow subscribers to communicate in "both directions" using readily available wireless devices. Each Stratellite will be powered by a series of solar powered hybrid electric motors and other state-of-the-art energy storage technologies.

In addition to Sanswire's Wireless Broadband Network, proposed telecommunications uses include cellular, 3G/4G mobile, MMDS, paging, fixed wireless telephony, HDTV and others.

We believe that we will be able to use the Stratellites as the most efficient and cost-effective means of interconnecting our Super Hubs(TM).

The Stratellite is being designed to operate at an altitude of between 55,000 and 65,000 feet using GPS coordinates to achieve its on-station position. Testing of the second Stratellite prototype began in the first quarter of 2006 and will continue through the second quarter. In parallel, we are planning to develop the Sanswire 3 commercial prototype.

We have had on-going discussions with several groups within the U.S. government

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

and military concerning the rollout and use of the Stratellite. Further, we are in discussions with the other corporate and private groups, as well as foreign governments, all of whom have expressed interest in the development and commercial viability of the Stratellite.

Sanswire has been contacted by the U.S. Army's Space and Missile Defense Command (SMDC), which expressed its desire to be involved in the sharing of technology and information as well as possible involvement in the development of the Stratellite. In addition to the commercial applications being developed by us, the SMDC sees several military intelligence gathering and operational applications for Stratellite-type systems.

On January 18, 2005, we signed a Letter of Intent ("LOI") with the National Aeronautics and Space Administration ("NASA"). The agreement with NASA's Dryden Flight Research Center at Edwards Air Force Base in California positions us for future governmental associations and business development ventures. The LOI will create a framework for creation of a Space Act Agreement between GTEL, the developer and provider of the Stratellite, a High Altitude Platform (HAP) Airship, and NASA Dryden Research Center. The company is currently working with NASA for flight test support and is also working with the Glenn Research Center working with subcomponents Photovoltaic Solar cells.

The parties also envision that the agreement will employ provisions for joint advocacy and proposal development efforts in the pursuit of future new business opportunities of mutual benefit. The agreement will provide NASA and other agencies the access to the Stratellite for the installation, integration, and deployment of NASA sponsored sensors and other projects. Under the proposed agreement, other government agencies may, in cooperation with NASA Dryden, utilize the Stratellite for their projects and requirements.

On March 8, 2005, we announced a global strategy for Sanswire. We signed a Letter of Intent to immediately establish Sanswire Europe S.A., its first regional operating subsidiary. Sanswire Europe will be a joint venture between GlobeTel's wholly-owned operating subsidiary, Sanswire Networks, LLC and Strato-Wireless Ltd. (SWL), in which GlobeTel will own 55% and Strato-Wireless will own 45% of the shares of the European Venture. The new operation is being managed by J. Randolph Dumas, a former senior Managing Director at global investment banking firms. Mr. Dumas provides GlobeTel with decades of business experience throughout Europe and the Middle East. Mr. Dumas is a member of the Board of Directors of Globetel.

8

Sanswire Europe was formed to generate government, military and corporate contracts for Sanswire's Stratellite platforms within Europe. Sanswire Europe will extend the Sanswire operations into Europe, the Middle East and Africa. Eventually, other regional Sanswire entities will be created to develop opportunities in other regions including Asia and Latin America.

On September 6, 2005, Sanswire signed a Letter of Intent ("LOI") with the Center for Solar Energy and Hydrogen Research Baden-Wuerttemberg (ZSW). The LOI states that ZSW will provide research and development engineering support under a Cooperative Research and Development Agreement for the development of a state-of-the-art solar-electric propulsion system for Sanswire's Stratellite airship.

On March 1, 2006, we announced that our Sanswire Networks LLC subsidiary had successfully floated the Sanswire II Technology Demonstrator Airship in Palmdale, California. This initial testing phase marked the first test of many currently planned for the program. This first phase will test the integrated subsystems within the Stratellite. The Sanswire float test followed our

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

streamlined test procedure in order to validate the envelope integrity with the Sanswire proprietary lifting system and carbon composite structure. The testing process was governed by test procedures through a strict Quality Management System, which ensures both the safety and success of this demonstration.

COMPETITIVE BUSINESS CONDITIONS - SANSWIRE PROJECT

We are aware of other companies that are also developing high altitude platforms similar in nature to our Stratellite project. However, we currently believe that the research, development, and, ultimately, the production process to produce and market the Stratellite are proceeding at a faster rate than our known competitors. Furthermore, since the Sanswire technology and Stratellite project are currently in the development stage, there can be no assurance that the project will successfully complete the development stage and result in a commercially viable product. Even if a properly functioning, commercially viable product is established there can be no assurance that revenues will be achieved from the sales of Stratellites or that the costs to produce such revenues will not exceed the revenues or that the project will otherwise be profitable. However, we do believe that the technology and other intangible assets associated with this project currently have a realizable fair value in excess of the recorded value of approximately \$2.8 million. While the Company is confident as to the outcome of the project, there can be no assurance that we will be able to successfully achieve the results we anticipate with this project.

COMPETITIVE BUSINESS CONDITIONS - TELECOMMUNICATIONS SERVICES

The telecommunications industry is highly competitive, rapidly evolving and subject to constant technological change and to intense marketing by different providers of functionally similar services. Since there are few, if any, substantial barriers to entry, except in those markets that have not been subject to governmental deregulation, we expect that new competitors are likely to enter our markets. Most, if not all, of our competitors are significantly larger and have substantially greater market presence and longer operating history as well as greater financial, technical, operational, marketing, personnel and other resources than we do.

Our use of IP technology and our proprietary systems and products enables us to provide customers with competitive pricing for telecommunications and stored value services. Nonetheless, there can be no assurance that we will be able to successfully compete with major carriers and financial services companies in present and prospective markets. We are dependent upon local independent affiliates or associates partners in each market for sales and marketing, customer service and technical support. This marketing strategy should minimize our dependency on any single market and/or group of customers and lessen our costs and expedite our entry into markets. While there can be no assurances, we believe that we will be able to compete in our present and prospective markets.

SOURCES AND AVAILABILITY OF HARDWARE AND SOFTWARE

All equipment used by us is provided by major suppliers and is readily available. Software to operate the networks is commercially available from software suppliers and equipment suppliers, and GlobeTel has developed in-house proprietary software for network applications and stored value products. We are dependent upon many suppliers of hardware and software. However, we use equipment from prime manufacturers of equipment including Cisco, Motorola, SUN, HP and Newbridge Networks, among others.

SOURCES AND AVAILABILITY OF TECHNICAL KNOWLEDGE AND COMPONENT PARTS

The Sanswire project requires a high level of technological knowledge and adequately functioning component parts and sub-assemblies to continue the project and achieve commercial viability. We have current and contemplated

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

arrangements for supply of both internal and external technical knowledge to provide the intellectual capital to continue with this project. Specifically, there is a high level of interest and anticipated cooperation from technical experts within the government, military, and commercial sectors, including NASA. Similarly, we have current and contemplated arrangements for supply required component parts, both internally developed, as well as, outsourced from specialty contractors to provide component parts to continue with this project in the near term.

9

DEPENDENCE ON A FEW CUSTOMERS

As discussed below in Item 6, Management Discussion and Analysis and Plan of Operation, we are currently dependent on a limited number of customers. As we expand our products, services, and markets, we expect to substantially broaden our customer base and reduce our dependence upon just a few customers.

TRADEMARKS / REGISTRATIONS

GlobeTel is the owner of the following trademarks:

MAGIC MONEY, GLOBETEL and STRATELLITE are internationally registered under the Madrid Protocol. GLOBETEL and MAGIC MONEY have been filed in the United States, Brazil and Canada.

GLOBETEL was registered in Mexico by Globe Tel, S.A. de C.V. of Juarez, Mexico on October 31, 2002.

STRATELLITE has been filed in the United States, Peru, Canada, Mexico, and Colombia.

SANSWIRE, INVADER and SKYBOT have been filed in the United States; SANSWIRE logo registration has been filed in the United States, under the Madrid Protocol, Bahrain, Canada, Mexico, Brazil, Argentina, Chile, Colombia and Peru.

REGULATORY MATTERS

Carriers seeking to provide international telecommunication services are required by Section 214 of the Telecommunications Act to obtain authorization from the Federal Communications Commission to provide those services. We have applied for and obtained the required authorization.

Our operations in foreign countries must comply with applicable local laws in each country we serve. The communications carrier with which we associate in each country is licensed to handle international call traffic, and takes responsibility for all local law compliance. For that reason we do not believe that compliance with foreign laws will affect our operations or require us to incur any significant expense.

EFFECT OF EXISTING OR PROBABLE GOVERNMENTAL REGULATIONS

In February 1997, the United States and approximately seventy (70) other countries of the World Trade Organization (WTO) signed an agreement committing to open their telecommunications markets to competition and foreign ownership beginning in January 1998. These countries account for approximately 90% of world telecommunications traffic. The WTO agreement provides us and all companies in our industry with significant opportunities to compete in markets where access was previously either denied or extremely limited. However, the right to offer telecommunications services is subject to governmental regulations and therefore our ability to establish ourselves in prospective markets is subject to the actions of the telecommunications authorities in each

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

country. In the event that new regulations are adopted that limit the ability of companies such as ourselves to offer VoIP telephony services and other services, we could be materially adversely affected.

RESEARCH AND DEVELOPMENT

Research and development (R&D) costs for 2005 and 2004 in connection with our Sanswire project were \$2,338,120 and \$260,085, respectively. Since our acquisition of the Sanswire assets in April 2005, increasing amounts of time and resources are devoted to Sanswire, and time and resources are expected to continue increasing in the near term as our Stratellite project continues and expands. In 2005, GlobeTel's Wireless R&D expenses amounted to \$26,553.

NUMBER OF TOTAL EMPLOYEES AND NUMBER OF FULL-TIME EMPLOYEES

At present we have 65 full-time employees, including our executive officers and employees of our subsidiaries. We do not believe that we will have difficulty in hiring and retaining qualified individuals in the fields of Internet telephony and other communications projects although the market for skilled technical personnel is highly competitive. Through our Sanswire subsidiary, we hired four highly skilled engineers in connection with our Stratellite project during 2005.

10

ITEM 1A. RISK FACTORS

FORWARD-LOOKING STATEMENTS AND RISK FACTORS

Certain information included in this Form 10-K and other materials filed or to be filed by GlobeTel Communications Corp. ("GlobeTel," "we" "us" or "ours") with the Securities and Exchange Commission (as well as information included in oral or written statements made from time to time by us, may contain forward-looking statements about our current and expected performance trends, business plans, goals and objectives, expectations, intentions, assumptions and statements concerning other matters that are not historical facts. These statements may be contained in our filings with the Securities and Exchange Commission, in our press releases, in other written communications, and in oral statements made by or with the approval of one of our authorized officers. Words or phrases such as "believe", "plan", "will likely result", "expect", "intend", "will continue", "is anticipated", "estimate", "project", "may", "could", "would", "should" and similar expressions are intended to identify forward-looking statements. These statements, and any other statements that are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, 15 U.S.C.A. Sections 77Z-2 and 78U-5 (SUPP. 1996), as codified in Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, as amended from time to time (the "Act").

Those statements include statements regarding our intent, belief or current expectations, and those of our officers and directors and the officers and directors of our subsidiaries as well as the assumptions on which such statements are based. Prospective investors are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and that actual results and the timing of certain events may differ materially from those contemplated by such forward-looking statements.

In connection with the "safe harbor" provisions of the Act, we are filing the following summary to identify important factors, risks and uncertainties that could cause our actual results to differ materially from those projected in forward-looking statements made by us, or on our behalf. These cautionary

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

statements are to be used as a reference in connection with any forward-looking statements. The factors, risks and uncertainties identified in these cautionary statements are in addition to those contained in any other cautionary statements, written or oral, which may be made or otherwise addressed in connection with a forward-looking statement or contained in any of our subsequent filings with the Securities and Exchange Commission. Because of these factors, risks and uncertainties, we caution against placing undue reliance on forward-looking statements. Although we believe that the assumptions underlying forward-looking statements are reasonable, any of the assumptions could be incorrect, and there can be no assurance that forward-looking statements will prove to be accurate. Forward-looking statements speak only as of the date on which they are made. We do not undertake any obligation to modify or revise any forward-looking statement to take into account or otherwise reflect subsequent events, or circumstances arising after the date that the forward-looking statement was made.

This annual report also contains certain estimates and plans related to the telecommunications industry in which we operate. The estimates and plans assume that certain events, trends and activities will occur, of which there can be no assurance. In particular, we do not know what level of growth will exist, if any, in the telecommunications industry, and particularly in those domestic and international markets in which we operate. Our growth will be dependent upon our ability to compete with larger telecommunications companies, and such factors as our ability to collect on our receivables and to generate profitable revenues from operations and/or from the sale of debt or equity securities, of which there can be no assurance. If our assumptions are wrong about any events, trends and activities, then our estimates for the future growth of GlobeTel and our consolidated business operations may also be wrong. There can be no assurance that any of our estimates as to our business growth will be achieved.

The following risk factors may affect our operating results and the environment within which we conduct our business. If our projections and estimates regarding these factors differ materially from what actually occurs, our actual results could vary significantly from any results expressed or implied by forward-looking statements. These risk factors include, but are not limited to:

- o Changes in general economic, demographic, geopolitical or public safety conditions which affect consumer behavior and spending, including the ongoing ramifications of the September 11, 2001 terrorist attacks and the governmental response to those attacks, including the armed conflict in Iraq or other potential countries;
- o Increasing competition in the VoIP segment of the telecommunications industry;
- o Adverse Internet conditions which impact customer traffic on our Company's networks in general and which cause the temporary underutilization of available bandwidth;
- o Various factors which increase the cost to develop and/or affect the number and timing of the openings of new networks, including factors under the influence and control of government agencies and others;
- o Fluctuations in the availability and/or cost of local minutes or other resources necessary to successfully operate our Company's networks;
- o Our Company's ability to raise prices sufficiently to offset cost increases, including increased costs for local minutes;
- o The feasibility and commercial viability of our Stratellite project; related contemplated funding from third parties to finance the project, and necessary cooperation with various military and non-military agencies of the United States government, and similar agencies of foreign government and telecommunication companies;
- o Depth of management and technical expertise and source of intellectual and technological resources;
- o Adverse publicity about us and our business;

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

- o Our current dependence on affiliates in our overseas markets;
- o The rate of growth of general and administrative expenses associated with building a strengthened corporate infrastructure to support our Company's growing operations;
- o Political and economic risks of doing business outside the United States, relations between our Company and its employees; legal claims and litigation against the Company;
- o The availability, amount, type, and cost of capital for the Company and the deployment of such capital, including the amounts of planned capital expenditures;
- o Changes in, or any failure to comply with, governmental regulations; the amount of, and any changes to, tax rates and the success of various initiatives to minimize taxes; and other risks and uncertainties referenced in this Annual Report on Form 10-K.

11

This statement, and any other statements that are not historical facts, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as codified in Section 27A of the Securities Act of 1933 and Section 21E and the Securities Exchange Act of 1934, as amended from time to time (the "Act").

ITEM 2. DESCRIPTION OF PROPERTY

We have leased facilities at 9050 Pines Blvd., Suite 110, Pembroke Pines, Florida 33024, as of April 1, 2004. For this new facility, the lease will expire in June 2009, with an initial monthly rent of \$5,462 (plus 6% sales tax), and increases of 4% per year.

In November 2004, we leased additional adjacent space under the same terms and period as the existing lease, bringing the total monthly office rent to \$9,186 (including sales tax).

In June 2005, we negotiated with the landlord to lease an additional 5,000 square feet office on the second floor of our present facility, 9050 Pines Blvd., Pembroke Pines, Florida 33024. The Company will begin occupancy of this office in April 2006 and the lease expires in June 2009 with a monthly rent of \$9,186 (including sales tax).

In January 2005, we satisfied our lease obligation at 444 Brickell Avenue, Suite 522, Miami, Florida 33131 and have no further obligation in the property.

We have leased a 66,000 square foot space hanger in Palmdale, California. The initial lease, between Sanswire Networks, LLC and the City of Los Angeles World Airports, was for a term of three months, ended July 22, 2005 with a monthly rent of \$19,990. On June 8, 2005 the lease term was amended for fifteen months, commencing June 8, 2005 through September 7, 2006, with two one-year options. Concurrently with the signing of the amended lease, the parties entered into a reimbursement agreement to share the cost of certain improvements.

In January 2005, we signed a lease agreement with the San Bernardino International Airport Authority for hangar space at the airport in San Bernardino, CA for the purpose of assembling and storing the Stratellite prototype. The term of the agreement was January 15, 2005 through March 31, 2005, at a monthly lease rate of \$9,767. Three months prepaid rent totaling \$29,302 was paid in December 2004.

Sanswire Technologies, Inc., the company from which we purchased our intangible

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

assets, had an office space lease in Dekalb County, GA. The lease term was from April 1, 2004 through March 31, 2005, with monthly rent of \$2,628. Although not directly obligated on this lease, the company paid the monthly rent from May 2004 through March 2005, whereas employees of our subsidiary, Sanswire Networks, LLC, utilized the premises. The employees have since vacated the premises. The lease was terminated.

In September 2005, we leased a 2,919 square foot office in Naples, Florida. The initial lease, between Globetel Wireless Corp., and Decaster Capnole Joint Venture, is for a term of three years, ending on September 21, 2008 with a monthly rent of \$4,628.33 with increases of 4% per year.

Furthermore, due to our expected growth, including the addition of new subsidiaries and operations, additional space may be required in various locations in the United States and abroad in the foreseeable future.

ITEM 3. LEGAL PROCEEDINGS

FORMER CONSULTANTS LITIGATION

We are defendant in two lawsuits filed by Matthew Milo and Joseph Quattrocchi, two former consultants, filed in the Supreme Court of the State of New York (Richmond County, Case no. 12119/00 and 12118/00). These matters were subsequently consolidated as a result of an order of the court and now bear the singular index number 12118/00. The original lawsuits were for breach of contract. The complaint demands the delivery of 10,000,000 pre-split shares of ADGI stock to Milo and 10,000,000 to Quattrocchi. GlobeTel was entered into the action, as ADGI was the predecessor of the Company. The suit also requests an accounting for the sales generated by the consultants and attorneys fees and costs for the action.

The lawsuits relate to consulting services that were provided by Mr. Milo and Mr. Quattrocchi and a \$50,000 loan advanced by these individuals, dated May 14, 1997, of which \$35,000 had been repaid.

With regard to the issues related to original index number 12119/00, as a result of a summary judgment motion, the plaintiffs were granted a judgment in the sum of \$15,000, which has since been paid. The rest of the plaintiff's motion was denied. The court did not order the delivery of 24,526,000 pre-split shares of ADGI common stock as the decision on that would be reserved to time of trial.

12

An Answer and Counterclaim had been interposed on both of these actions. The Answer denies many of the allegations in the complaint and is comprised of eleven affirmative defenses and five counterclaims alleging damages in the sum of \$1,000,000. The counterclaims in various forms involve breach of contract and breach of fiduciary duty by the plaintiffs.

We cannot project an outcome with any certainty. We have not entered into any settlement negotiations with Mr. Milo and Mr. Quattrocchi and we do not believe that we will be materially adversely affected by the outcome of this proceeding.

Presently, we are continuing our defense and counterclaims in this matter. A jury was selected on March 3, 2006 in anticipation for a trial; however, the parties entered into an agreement to proceed before a Judicial Hearing Officer for a non-jury trial. This case is expected to be assigned to a Judicial Hearing Officer on or before March 31, 2006 and a new hearing date will be set at that time.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

MEXICO ASSOCIATE AND CUSTOMER LITIGATION

We had a legal action against our associate and customer in Mexico for non-payment of the amount they owe us. This customer has substantial assets, including telecommunications equipment, existing working networks and Mexican tax refunds which they have proposed to turn over to us. We filed a motion in the Mexican courts which was necessary to formally request that we become the assigned payee of the tax refund receivable and formally secure the equipment and to take over the operations of the existing networks.

In February 2005, the customer agreed that proceeds from the network operations were to be paid totally to GlobeTel, including the customer's portion of the profit sharing, until the amount they owe us has been fully paid. Upon full payment, we will begin the sharing profits again in accordance with the contract.

The Company received a Judgment on February 14, 2005 in the amount of \$330,000. It is not certain of the amounts that, ultimately, will be realized from the Mexico associate.

This situation with the customer has caused the recording of an allowance for bad debt against this receivable, for \$625,855 in fiscal year 2005 and \$938,782 for fiscal year 2004. In addition, during fiscal year 2005, the company was informed by its lawyers that due to negligence on the part of our customer, we would not be able to collect an anticipated Mexican sales tax refund of \$382,160. Based on this, we recorded an additional allowance for bad debt for this amount as of December 31, 2005. However, the Company will pursue litigation against this customer for the full amount of the Mexican sales tax refund and believes that it can be successful in its efforts.

PATENT INFRINGEMENT LAWSUIT

A case was filed against the Company for patent infringement. On or about September 1, 2004, Alexsam, Inc. (Alexsam) filed an action for patent infringement against us alleging the stored value card and service, the Company is planning to offer infringes one or more of U.S. Patent No. 6,000,608 (the 608 patent) and U.S. Patent No. 6,189,787 (the 787 patent), allegedly owned by Alexsam. The actions were filed in the United States District Court, Eastern District of Texas, styled Alexsam, Inc. vs. Datastream Card Svc., et al. Case Number 2:03-cv-337. On January 14, 2005, the court dismissed the lawsuit against us.

On February 8, 2005, the Company filed suit against Alexsam and Robert Dorf (collectively the defendants) in the United States District Court for the Southern District of Florida, Civil Action No. 05-60201, seeking a declaratory judgment from the court that the 608 and 787 patents are invalid, not enforceable and will not be infringed by our stored value card offering. The Company is also seeking recovery for damages brought on us by Alexsam, the owners of Alexsam and Dorf, for breach of confidential disclosure and trust, intentional interference with business advantage, and for unfair competition under Sec. 501.204 of the Florida Statutes.

The Company and Alexsam have subsequently settled the dispute. In exchange for granting a non-exclusive license to GlobeTel for the Patents, GlobeTel withdrew its motion for attorneys' fees in the Texas Lawsuit and dismissed the Florida Lawsuit. The License Agreement was made and entered into in September 2005. The license taken by us extends further to GlobeTel customers, bank partners, third party financial processors and cardholders, and all those in privity with any of them, but only to the extent those entities' activities relate to us and its license.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

ANNUAL MEETING

On August 11, 2005, by written consent of the majority vote of its shares at the Company's annual meeting, the shareholders re-elected the Company's directors and approved all proposals. Shareholders re-elected as directors include, Timothy Huff, Przemyslaw Kostro, Mitchell Siegel, Kyle McMahan, Laina Raveendran Greene, and Leigh Coleman. Additionally, proposals to ratify Dohan & Co. CPA's PA as our auditors, increase the number of authorized common shares from 100 million to 150 million (subsequent to the reverse split authorized in the preceding quarter), and ratify the 2004 employee stock option plan were all approved.

13

The following table lists the number of votes cast for each matter, including a separate tabulation with respect to each nominee for office. There were no votes against and no abstentions. The total number of voting shares was 62,559,026.

Przemyslaw Kostro	62,047,431
Timothy Huff	62,019,756
Laina Raveendran Greene	62,182,817
Leigh Coleman	62,126,151
Mitchell A. Siegel	62,043,609
Kyle McMahan	62,217,392
Ratify the Company's appointment of Dohan and Company, CPAs, PA as independent auditors of the Company for the fiscal year ending December 31, 2005	61,865,684
Increase the number of authorized common shares from 100,000,000 (One Hundred Million) to 150,000,000 (One Hundred Fifty Million)	58,335,831
Proposal to approve the 2004 Employee Stock Option Plan	8,164,899(1)

(1) This represents a majority the votes cast on this issue. There were 50,799,309 broker non-votes.

There were no other matters brought to a vote of security holders 2005.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS.

(a) MARKET PRICE

Our shares of common stock were quoted on the Over-the-Counter Bulletin Board (OTCBB) quotation system under the symbol "GTEL." Effective May 6, 2005, by written consent of the majority vote of its shares, the Board of Directors approved a reverse split of our shares of common stock on a one for fifteen (1:15) basis, in preparation for our move to the American Stock Exchange, which occurred on May 23, 2005. All common stock amounts in this report have been retroactively restated to account for the reverse stock split, unless otherwise noted. Since its move to AMEX, GlobeTel stock has been traded under the symbol of "GTE". As of the date of this report, there are approximately 39 market makers in our common shares.

The following information sets forth the high and low bid price of our common stock during fiscal 2003, 2004 and 2005 and was obtained from the National Quotation Bureau. The quotations reflect inter-dealer prices, without retail

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

mark-up, mark-down or commission and may not represent actual transactions.

*Value of shares recalculated based on the 1:15 reverse split effective May 25, 2005

CALENDAR 2003	HIGH	LOW
Quarter Ended March 31	\$0.6600 (\$0.0440 pre-split)	\$0.3000 (\$0.0200)
Quarter Ended June 30	\$0.4350 (\$0.0290 pre-split)	\$0.2265 (\$0.0151)
Quarter Ended September 30	\$0.6000 (\$0.0400 pre-split)	\$0.2850 (\$0.0190)
Quarter Ended December 31	\$1.9650 (\$0.1310 pre-split)	\$0.3750 (\$0.0250)
CALENDAR 2004		
Quarter Ended March 31	\$2.9400 (\$0.1960 pre-split)	\$0.7500 (\$0.0500)
Quarter Ended June 30	\$1.9500 (\$0.1300 pre-split)	\$1.2000 (\$0.0800)
Quarter Ended September 30	\$1.9200 (\$0.1280 pre-split)	\$1.0500 (\$0.0700)
Quarter Ended December 31	\$2.1000 (\$0.1400 pre-split)	\$0.1500 (\$0.0100)
CALENDAR 2005		
Quarter Ended March 31	\$5.5500 (\$0.3700 pre-split)	\$0.4500 (\$0.0300)
Quarter Ended June 30	\$4.0500	\$2.2500 (\$0.1500)
Quarter Ended September 30	\$2.8800	\$1.1400
Quarter Ended December 31	\$4.3400	\$1.2500

14

(b) HOLDERS

As of the date of this report, there were approximately 36,000 beneficial owners and 1,400 registered holders of our common stock.

(c) DIVIDENDS

We have never paid a dividend and do not anticipate that any dividends will be paid in the near future. We currently have no funds from which to pay dividends and as of December 31, 2005, our accumulated deficit was \$71,614,431. We do not expect that any dividends will be paid for the foreseeable future.

(d) SECURITIES AUTHORIZED FOR ISSUANCE UNDER EQUITY COMPENSATION PLANS

In September 2003, the board of directors authorized the issuance of stock options totaling 3,183,414 (47,751,200 pre-split) shares to the officers of the company in return for the forgiveness of \$683,168 in accrued salaries and \$33,100 in other accrued expenses through December 31, 2002. The stock options were exercisable at the lower of \$.225 (\$.015 pre-split) or 50% of the closing market price.

In December 2003, the board of directors authorized the issuance of stock options totaling 1,088,889 (16,333,333 pre-split) shares to the officers of the company in return for the forgiveness of \$245,000 in accrued salaries through December 31, 2003. The stock options were exercisable at the lower of \$.225 (\$.015 pre-split) per share or 50% of the closing market price.

On January 8, 2004, the officers exercised their rights to convert the stock options into common stock at \$.225 (\$.015 pre-split) and as a result, we issued 4,272,303 (64,084,533 pre-split) shares of common stock in January 2004, in accordance with the stock option agreements.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In May 2004, the board of directors approved an Officers' Stock Option Grant Plan, pursuant to which certain officers are entitled to receive stock options, for each of three years, beginning in 2004 (Year 1). The annual number of option shares to be issued will be equal to amounts that, after the exercise of such options, would affect ownership of various percentages of the total shares then issued and outstanding. The following officers received options for shares in the following percentages: CEO - 3.0% in each of the three years (total 9.0%); COO - 2.0% in each of the three years (total 6.0%), CFO - 2.0% in Year 1.5% and 1.5% in each of the following years (total 5.0%), former President - 1.0% in Year 1.0 and 0.5% in each of the following years (total 2.0%), current President - 1% in each of the three years (total 3.0%), and CTO - 1.0% in each of the three years (total 3.0%). The recipient's rights to the options are fully vested, as of December 31, 2004, although compensation expense is recorded at the completion of each year. The total of 6,654,197 (99,812,946 pre-split) option shares were issued for 2004. The stock options are exercisable at the lower of \$.675 (\$.045 pre-split) per share.

In December 2004, we established our 2004 Stock Option Bonus Plan, wherein the board of directors authorized the issuance of stock options totaling 1,765,833 (26,487,483 pre-split) shares to the officers and employees of the company as payment of accrued bonuses through December 31, 2004. The stock options are exercisable at the lower of \$.675 (\$.045 pre-split) per share or 50% of the closing market price at the date of exercise.

In December 2004, the board of directors authorized the issuance of stock options totaling 247,886 (3,718,279 pre-split) shares to the directors of the company as payment of accrued board members' stipends through December 31, 2004. The stock options are exercisable at the lower of \$.5865 (\$.0391 pre-split) per share or 50% of the closing market price on date of exercise.

In January 2005, the option holders exercised their rights to convert a portion of the stock options pursuant to the Officers Stock Grant Plan, the 2004 Stock Option Bonus Plan, and the options for accrued directors' stipends into common stock at \$.675 (\$.045 pre-split), and, as a result, we issued 2,000,000 (30,000,000 pre-split) shares of common stock in January 2005, in accordance with the stock option agreements.

In November 2005, the Company established its 2005 Stock Option Bonus Plan, wherein the board of directors authorized the issuance of stock options for restricted shares totaling 1,509,180 (post-split) shares to the officers and employees of the company as payment of accrued bonuses through December 31, 2005. The stock options are exercisable at \$2.12, based on the closing market price of the Company's free-trading shares on the date the options were granted. Through the date of this report, none of these options have been exercised.

During 2005, the board of directors authorized the issuance of stock options for restricted shares totaling 199,490 (pos-split) shares to the directors of the company as board members' compensation for services through December 31, 2005. The stock options are exercisable at various amounts, ranging from \$1.99 to \$4.35 per share, based on the closing market price of the Company's free-trading shares on the date the options were granted, except for a now former director who was issued 37,500 and 30,000 (post-split) options shares at \$1.49 and \$0.99, respectively. Through the date of this report, none of these options have been exercised.

In addition to the above parties, the corporate Secretary / general counsel and the Senior Vice-President were awarded 1% and 2%, respectively, of the total

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

shares outstanding, at the fair market value of the Company's stock on the date the options were granted. Also, a board member, Randolph Dumas, was awarded 2.5% of the total shares outstanding, exercisable at \$1.79 per share. A total of 13,992,374 and 6,654,196 (post-split) options shares were granted for 2005.

2004 STOCK OPTIONS EXERCISED IN 2005

During 2005, a total of 1,785,490 (26,782,350 post-split) of stock options shares were exercised and issued (net of shares used to pay for "cashless" options"), with payment in cash and common stock subscriptions receivable totaling \$92,906, pursuant to the 2004 Stock Option Bonus Plan, the Officers' Stock Option Grant Plan, and for accrued board members' stipends, and, furthermore, these shares were registered by the Company's filing a Form S-8 registration statement. The number of shares registered were allocated to the individuals exercising the options based a ratio of the number of options held by each individual to the total number of options held by all individuals.

In addition, certain employees, vendors, professionals and consultants were paid with common stock (see Note 24 to financial statements) and with stock options (see Note 25 to financial statements) and certain investment banking and broker's fees were paid with preferred stock (see Note 26 to financial statements) in lieu of cash compensation.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

GENERAL

Twelve months ended December 31, 2005 ("Fiscal 2005" or "2005" or "the current year") compared to twelve months ended December 31, 2004 ("Fiscal 2004" or "2004" or "the prior year").

RESULTS OF OPERATIONS

REVENUES. During fiscal 2005, our gross sales were \$81,143,838, representing an increase of 179.8% over the prior year when our gross sales were \$28,996,213. Our revenues increased primarily due to revenues from our subsidiary, Centerline and its subsidiaries, which recorded consolidated revenues of \$71,968,367 (or 88.7% of total revenues), consisting primarily of wholesale traffic revenues (telecommunications minutes) and related network management fees. The remainder of our revenues continued to be predominantly from telecommunications minutes going through our Philippines network through September 2005. Thereafter substantially all of our wholesale traffic revenues were produced through Centerline.

Our Philippines network generated \$7,674,615 (or 9.5% of gross revenues). Other domestic and international wholesale traffic revenues were \$1,388,679 (or 1.7% of gross revenues).

Additional revenues generated included \$109,023 from our Magic Money program as compared to \$69,845 in the prior year and \$3,154 from the sale of IP Phones for the current year as compared to \$7,717 in the prior year. No revenues were generated from our Store Value Card program for the current year as compared to \$9,515 in the prior year.

COST OF SALES. Our cost of sales consists primarily of the wholesale cost of buying bandwidth purchased by us for resale, collocations costs, technical services, wages, equipment leases, and the costs of telecommunications equipment. We had cost of sales of \$80,730,141 for fiscal 2005, compared to \$29,187,414 for fiscal 2004. We expect cost of sales to increase in future periods to the extent that our sales volume increases.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

GROSS MARGIN (LOSS). Our gross margin was \$413,697 or .5% for fiscal 2005, compared to a gross loss of (\$191,201) or (-0.7%) of total revenues in fiscal 2004, an increase of \$604,898 or 316.4%. The increase is primarily due to the fact that there were higher margins on resale of wholesale minutes related to the decreased cost of the minutes to terminate.

OPERATING EXPENSES. Our operating expenses consist primarily of payroll and related taxes, professional and consulting services, expenses for executive and administrative personnel and insurance, bad debts, investment banking and financing fees, investor and public relations, research and development, sales commissions, telephone and communications, facilities expenses, travel and related expenses, and other general corporate expenses. Our operating expenses for fiscal 2005 were \$30,626,495 compared to fiscal year 2004 operating expenses of \$12,850,250 an increase of \$17,776,245 or 138.3%.

The increase is primarily due to an increase in officers' and directors' compensation to \$12,082,809 (including non-cash compensation), from \$6,520,206 in the prior year. During fiscal 2005, total officers' and directors' compensation, included non-cash equity compensation (stock and stock options) of \$10,799,267, compared to \$5,805,046 in non-cash compensation during fiscal 2004.

In addition, employee payroll and related taxes for fiscal 2005 were \$3,118,676 compared to \$1,248,562 compared, an increase of \$1,870,114 or 149.8%. This increase was due to expansion of our operations, facilities and workforce from 30 total employees to 65 during 2005, and included in non-cash equity compensation (stock and stock options) for employees was \$439,818 in fiscal 2005 compared to \$438,187 in fiscal 2004.

16

We incurred \$6,200,054 of consulting and professional fees, an increase of \$3,993,817 or 181.0% for 2005 (including \$4,288,867 in non-cash equity compensation) compared to \$2,206,237 in 2004 (including \$325,000 in non-cash equity compensation). These increases are related to additional services required to develop and expand our geographical and product markets and projects, including our Stored Value Program and international markets (such as Australia, India and Philippines) as well as increased professional fees in maintaining and expanding a public company, including our move to the American Stock Exchange. Our consulting and professional fees include such expenses as computer consulting, technical consulting, accounting and legal fees.

We incurred \$2,364,673 of research and development costs for our Sanswire project and our GlobeTel Wireless business during 2005, compared to \$260,085 in 2004, an increase of \$2,104,588 or 809.2%. During 2005, 89% of these costs represent direct expenses of development and building of the airship, as compared to 60% of direct expenses during 2004. This is due mainly to the fact that the first prototype airship was completed during 2005.

We incurred \$848,880 of sales commission for our Centerline operations during 2005, compared to \$404,747 during fiscal 2004, an increase of \$444,133 or 109.7%. These commissions are based on the agreement between Carrier Services, Inc. ("CSI") and the Company where Centerline is to build telecommunication revenues and a client base, utilizing each party's network and financial resources and to engage in any other business or activity that is necessary and proper. Pursuant to the agreement, the Company was responsible for all costs associated with the operation and maintenance of the Prepaid Calling Card Platform, all expenses related to funding, staffing, technical support, customer service, equipment, and credit facilities. CSI was responsible for all costs and responsibilities associated with operation of the termination network, providing network facilities for the termination of carrier traffic, administer and operate the termination network, including subscriber accounts and tracking of

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

minutes, all training and salary expenses of its sales personnel, all marketing expenses connected with the sale of the calling services and all other organizations related expense in any foreign base operation in which the LLC is operating.

The agreement provided for minimum selling requirements of \$50 million per year in revenues for the LLC. If the LLC brought in \$50 million in revenues at the end of the first year of operation, CSI will receive \$1 million of the company's publicly traded stock. If CSI repeats the \$50 million in revenues in year two, CSI would receive another \$1 million of the company's publicly traded stock. The initial term of the agreement was for two years and automatically renewable for another two years. The parties subsequently modified the agreement to provide for minimum selling requirements of \$25 million in revenues for the LLC. Upon the LLC achieving in \$25 million in revenues, CSI will receive 333,333 (5 million pre-split) shares of the company's publicly traded stock.

During 2005, we incurred \$788,985 of investment and broker fees as compared to \$172,106 during 2004. The \$616,879 increase is due to 2005 equity funding related to subscription agreements with investors for 5% convertible notes and from private placements executed (see note 17).

LOSS FROM OPERATIONS. We had an operating loss of (\$30,212,798) for fiscal year 2005 as compared to an operating loss of (\$13,041,451) for fiscal 2004, primarily due to increased operating expenses as described above, including higher operating costs and expansion of our various programs. We expect that we will continue to have higher operating costs as we increase our staffing and continue expanding operations, programs, projects and operating costs related to our newly acquired subsidiaries.

OTHER INCOME (EXPENSE). We had net other expenses totaling (\$1,740,597) during fiscal year 2005 compared to (\$125,418) during fiscal 2004. This variance was due primarily to a global settlement with a former officer of the company. In 2005 the company had a loss on the settlement of an agreement to deploy telecommunications in Asia with a related party, Sky China Limited, for (\$1,256,873). Also during 2005, the company wrote-off its investment in CGI for (\$352,300).

Fiscal year 2004 included \$268,397 in net gains on the settlements of liabilities. Various liabilities, representing disputed obligations, were settled for amounts less than the previously recorded values, pursuant to agreements between us and the vendors. We had interest income of \$44,368 in fiscal year 2005 compared to \$2,067 in fiscal 2004. Other expense of (\$56,804) in fiscal 2004 was a result of losses realized on the disposition of fixed assets.

Interest expense for fiscal year 2005 was \$175,792 compared to \$189,520 for the prior year. Interest expense decrease was primarily due to a reduction in accrual of contractual financing charges in connection with the operations of our Centerline subsidiary. This is also a result of our debt reduction strategy.

NET LOSS. We had a net loss of (\$31,953,395) in fiscal year 2005 compared to a net loss of (\$13,166,869) in fiscal 2004. The net loss is primarily attributable to the increase in the operating expenses as discussed above.

17

LIQUIDITY AND CAPITAL RESOURCES

ASSETS. At December 31, 2005, we had total assets of \$20,319,072 compared to total assets of \$6,195,977 as of December 31, 2004.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

The current assets at December 31, 2005, were \$3,330,778 compared to \$2,561,197 at December 31, 2004. As of December 31, 2005, we had \$1,228,180 of cash and cash equivalents compared to \$601,559 at December 31, 2004.

The Company had restricted cash of \$1,122,000 as of December 31, 2005 representing security for letters of credit to suppliers for MasterCard in the amount of \$1,000,000 in support of the Store Value Card program, a rental deposit for Los Angeles World Airport related to the Palmdale Hanger occupied by Sanswire Networks, LLC in the amount of \$72,000 and for a wholesale carrier in the amount of \$50,000. No such letters of credit to vendors existed as of December 31, 2004. The Company anticipates replacing this security with its restricted stock within the next operating cycle.

Our net accounts receivable, which consisted of 22 customers, were \$371,618 as of December 31, 2005 compared to \$1,740,883 as of December 31, 2004. For 2004, the company wrote-off \$1,096,631 of customer receivables deemed to be uncollectible. Approximately 92% of the December 31, 2004 receivables were attributable to three customers, including 63% or \$773,319 (net of allowance) related to the Mexico network and 22% or \$266,167 (net of allowance) related to the Brazil network. We have increased our allowance for doubtful accounts by \$1,141,534 for the year, the substantial portion of which relates to two of these three customers.

Other current assets included \$185,960 of prepaid expenses to a related party ISG Jet, LLC, and \$184,434 in prepaid expenses, primarily prepaid minutes with carriers, compared to \$58,900 in 2004; \$67,525 inventory of IP Phones in 2005, compared to \$63,976 in 2004, and deposits on equipment purchases and other current assets of \$124,993 in 2005, compared to \$88,994 in 2004 related to additional deposits made for the Mastercard Switch which was not operational as of December 31, 2005.

Property and Equipment as of December 31, 2005 was \$7,028,422 as compared to \$445,756 at December 31, 2004. The variance is due primarily to an increase in telecommunications equipment in the amount of \$6,104,526, which was due primarily to the acquisition of the new Mastercard switch \$5,267,526 and \$837,000 for the acquisition of the new telecommunications switch acquired by our subsidiary Centerline Communications.

We had other assets totaling \$9,959,872 as of December 31, 2005 compared to \$3,189,024 as of December 31, 2004. The variance was attributable primarily to the acquisition of the Hotzone Wireless intangible assets valued at \$7,129,550 (see note 8), and the disposition of the former unconsolidated subsidiary, CGI for \$352,300 (see note 6).

LIABILITIES. At December 31, 2005, we had total liabilities of \$9,906,933 compared to total liabilities of \$919,400 as of December 31, 2004.

The current liabilities at December 31, 2005 were \$5,198,766 compared to \$914,682 at December 31, 2004, an increase of \$4,284,084. The increase is principally due to the current portion of payments due to related party - Hotzone Wireless for \$2,451,834 (see note 8) and to Carrier Services, Inc. for \$901,606 and a payable due to former employee of \$237,600 (see note 12)

Long-term liabilities increased to \$4,708,167 due to the non-current portion of the due to a related party - Hotzone Wireless, (see note 8) as compared to \$4,718 as of December 31, 2004, which represented the non-current portion of capital leases.

CASH FLOWS. Our cash used in operating activities was \$12,610,149 compared to \$4,474,874 for the prior year. The increase was primarily due to the increased level of operations and operating activities and changes in our current assets and liabilities.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Our cash used in investing activities was \$2,084,559 which was mainly attributed to cash payments made towards the purchase of our Telecommunications switch in Centerline and the MasterCard Switch, compared to \$349,685 in the prior year.

Net cash provided by financing activities was \$15,321,329 principally from the sale of common stock and the conversion of notes and loan payables totaling \$13,271,957, as compared to \$5,201,124 in the prior year.

In order for us to pay our operating expenses during 2005 and 2004, including certain operating expenses for our wholly-owned subsidiaries, Centerline and Sanswire, and the overall expansion of our operations, we raised \$500,000 in sales of preferred stock in 2005, compared to \$5,157,500 in sales of preferred stock in 2004. We raised \$13,271,957 from loans and notes payable related to the exercise of warrants by convertible note holders and private placements, compared to \$375,000 in the prior year.

As detailed in the financial statements, we have stock subscriptions receivable for preferred shares that will raise a total of \$500,000 in cash in 2006, primarily in the form of financing provided by Series D preferred shareholders. In January 2006, we received approximately \$6.8 million from the exercise of warrants by certain investors. With this funding, as well as the additional funding, we will have the existing capital resources necessary to fund our operations and capital requirements as presently planned over the next twelve months.

18

The company anticipates increased cash flows from 2006 sales activities; however, additional cash will still be needed to support operations. Management believes it can continue to raise capital from various funding sources, which when added to budgeted sales and current working capital, will be sufficient to sustain operations at its current level through January 1, 2007. However, if budgeted sales levels are not achieved and/or if significant unanticipated expenditures occur, or if we are unable to obtain the necessary funding, the company may have to modify its business plan, reduce or discontinue some of its operations or seek a buyer for all or part of its assets to continue as a going concern through 2006.

Furthermore, the capital markets have responded favorably to our growth and business strategies through 2005, particularly as a result of our Stratellite project, and expected revenue from wireless communication projects and increased investment is anticipated in the near term.

As reflected in the accompanying financial statements, during the year ended December 31, 2005, we had a net loss of (\$31,953,395) compared to a net loss of (\$13,166,869) during 2004. Consequently, there is an accumulated deficit of (\$71,614,431) at December 31, 2005 compared to (\$39,661,036) at December 31, 2004.

GENERAL

Twelve months ended December 31, 2004 ("Fiscal 2004" or "2004" or "the current year") compared to twelve months ended December 31, 2003 ("Fiscal 2003" or "2003" or "the prior year").

RESULTS OF OPERATIONS

REVENUES. During the fiscal 2004, our gross sales were \$28,996,213, representing an increase of 155.4% over the prior year when our gross sales were \$11,351,939. Our revenues increased primarily due to revenues from our subsidiary, Centerline

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

and its subsidiaries, which recorded consolidated revenues of \$18,397,582 (or 63.5% of total revenues), consisting primarily of wholesale traffic revenues (telecommunications minutes) and related network management fees. The remainder of our revenues continued to be predominantly from telecommunications minutes going through our Mexico, Philippines and Brazil networks through June 2004. Thereafter substantially all of our wholesale traffic revenues were produced through Centerline.

Our Mexico network generated \$4,774,657 (or 16.5% of gross revenues), while our Philippines network generated \$3,234,279 (or 11.2% of gross revenues) and our Brazil network generated \$2,147,119 (or 7.4% of gross revenues). Other domestic and international wholesale traffic revenues were \$18,840,158 (or 65.0% of gross revenues), including revenues \$7,009,903 (or 24.2% of gross revenue) from Mexico (unrelated to our Mexico network).

Additional revenues generated included \$9,515 from our Stored Value Card program, \$69,845 from our Magic Money program and \$7,717 from the sale of IP Phones. There were no sales from these programs in the prior year.

COST OF SALES. Our cost of sales consists primarily of the wholesale cost of buying bandwidth purchased by us for resale, collocations costs, technical services, wages, equipment leases, and the costs of telecommunications equipment. We had cost of sales of \$29,187,414 for fiscal 2005, compared to \$8,840,872 for fiscal 2003. We expect cost of sales to increase in future periods to the extent that our sales volume increases.

GROSS MARGIN (LOSS). Our gross loss was (\$191,201) or (0.66%) for fiscal 2004, compared to gross margin of \$2,511,067 or 22.12% of total revenues in fiscal 2003, a decrease of \$2,702,268 or (107.6%). The decrease is primarily due to the fact that there was lower margin on resale of wholesale minutes related to the increased cost of the minutes to terminate, especially the Mexico network, where our margin was less than two percent, and initial activities of Centerline, where our gross margin was minimal or zero. We expect to derive higher margins once we formally take over the operations of our customer's Mexico network as described in Part I, Item 3 "Legal Proceedings," and commence sales directly to the retail market.

OPERATING EXPENSES. Our operating expenses consist primarily of payroll and related taxes, professional and consulting services, expenses for executive and administrative personnel and insurance, bad debts, investment banking and financing fees, investor and public relations, research and development, sales commissions telephone and communications, facilities expenses, travel and related expenses, and other general corporate expenses. Our operating expenses for fiscal 2004 were \$12,850,250 compared to fiscal 2003 operating expenses of \$3,805,388, an increase of \$9,044,862 or 238%.

The increase is primarily due an increase in officers' and directors' compensation to \$6,520,206, including non-cash compensation, from \$595,000 in the prior year. During fiscal 2004, total officers' and directors' compensation included non-cash equity compensation (stock and stock options) of \$5,805,646, compared \$185,000 in non-cash compensation during fiscal 2003.

In addition, employee payroll and related taxes for fiscal 2004 were \$1,248,562 compared to \$283,408, an increase of \$965,154 or 340.6%. This increase was due to expansion of our operations, facilities and workforce from 15 total employees to 30 during 2004. Included in non-cash equity compensation (stock and stock options) for employees was \$438,187 in fiscal 2004, compared to \$86,000 in fiscal 2003. Consulting and professional fees increased by \$1,487,250 or 206.9%, to \$2,206,237 in 2004 (including \$325,000 in non-cash equity compensation), compared to \$718,987 in 2003 (including \$203,607 in non-cash equity compensation). These increases are related to additional services required to develop and expand our geographical and product markets and projects, including

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

our Stored Value Program, our Sanswire Project, and international markets, primarily in Asia and Australia, as well as increased professional fees in maintaining and expanding a public company.

19

We incurred \$260,865 of research and development costs for our Sanswire project-development of the Stratellite during fiscal 2004, compared to none in the prior year, whereas the Sanswire assets were acquired in April 2004.

We incurred \$404,747 of sales commissions for our Centerline operations during fiscal 2004, compared to none in the prior year, whereas the Centerline operations began in 2004.

LOSS FROM OPERATIONS. We had an operating loss of (\$13,041,451) for fiscal 2004 as compared to an operating loss of (\$1,294,321) for fiscal 2003, primarily due to the excess of costs of revenues earned over revenues earned and increased operating expenses as described above, including reduced margins and higher operating costs and expansion of our various programs. We expect that we will continue to have higher operating costs as we increase our staffing and continue expanding operations, programs, projects and operating costs related to our newly acquired subsidiaries.

OTHER INCOME (EXPENSE). We had net other expenses totaling (\$125,418) during fiscal 2004 compared to (\$4,908,205) during fiscal 2003.

Other income during fiscal 2004 included \$268,397 in net gains on the settlements of liabilities, compared to \$26,274 in 2003. Various liabilities, representing disputed obligations, were settled for amounts less than the previously recorded values, pursuant to agreements between us and the vendors. We also reported a net gain of \$55,842 in 2003 in connection with the closing of operations of our St. Louis, Missouri office after accounting adjustments were made. We had interest income of \$2,067 in fiscal 2004 compared to none in fiscal 2003.

Other expense of (\$56,804) in fiscal 2004 was a result of losses realized on the disposition of fixed assets, compared to a loss of (\$42,301) in fiscal 2003. Other expense of (\$4,834,878) in fiscal 2003 was as a result of the write-off of assets and liabilities resulting from the transactions in Australia with IPW.

Interest expense for fiscal 2004 was (\$189,520) compared to (\$113,142) during fiscal 2003. Interest expense increase was primarily due to the accrual of contractual financing charges in connection with the operations of our Centerline subsidiary. Other interest charges actually decreased in 2004, as result in reduction of our total debts.

NET LOSS. We had a net loss of (\$13,166,869) in fiscal 2004 compared to a net loss of (\$6,202,526) in fiscal 2003. The net loss is primarily attributable to the increase in the operating expenses as discussed above.

LIQUIDITY AND CAPITAL RESOURCES

ASSETS. At December 31, 2004, we had total assets of \$6,195,977 compared to total assets of \$4,144,231 as of December 31, 2003.

The current assets at December 31, 2004, were \$2,561,197, compared to \$3,389,421 at December 31, 2003. As of December 31, 2004, we had \$601,559 of cash and cash equivalents compared to \$224,994 as of December 31, 2003.

Our net accounts receivable were \$1,740,883 as of December 31, 2004, compared to \$3,039,427 at the same point in 2003. Approximately 92% of the December 31, 2004

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

receivables were attributable to three customers, including 63% or \$773,319 (net of allowance) related to the Mexico network and 22% or \$266,167 (net of allowance) related to the Brazil network. We have increased our allowance for doubtful accounts by \$1,141,534 for the year, the substantial portion of which relates to two of these three customers.

Other current assets included \$58,900 in prepaid expense, primarily prepaid minutes with carriers, compared to \$71,000 in 2003; \$63,976 inventory of IP Phones, compared to none in the prior year; and deposits on equipment purchases and other current assets of \$88,994 compared to none in 2003.

We had other assets totaling \$3,189,024 as of December 31, 2004, compared to \$16,135 as of December 31, 2003. The increase was attributable primarily to the acquisition of the Sanswire intangible assets valued at \$2,778,000 and additional investments of \$50,000 in CGI, our unconsolidated foreign subsidiary, totaling \$352,300 as of December 31, 2004.

LIABILITIES. At December 31, 2004, we had total liabilities of \$919,400 compared to total liabilities of \$1,908,686 as of December 31, 2003.

20

The current liabilities at December 31, 2004 were \$914,682 compared to \$1,908,686 at December 31, 2003, a decrease of \$994,004. The decrease is principally due to payments of notes and loans payable, payment of accounts and loans payable to related parties with stock, and a reduction in accounts payable. There were no significant long-term liabilities as of December 31, 2004 and 2003.

CASH FLOWS. Our cash used in operating activities was \$4,474,874 for 2004, compared to \$1,389,102 for the prior year. The increase was primarily due to the increased level of operations and operating activities and changes in our current assets and liabilities.

Our cash used in investing activities, including acquisitions of property and equipment investment in CGI, and loans to employees for a total of \$349,685 compared to \$607,401 cash used in the prior year.

Net cash provided by financing activities was \$5,201,124, principally from the sale of preferred stock, for 2004, as compared to \$2,019,686 cash provided in the previous year, which was principally from the sale of preferred and common stock and proceeds from notes and loans payable.

In order for us to pay our operating expenses during 2004 and 2003, including certain operating expenses of our wholly-owned subsidiaries, Sanswire and Centerline, and the overall expansion of our operations, we raised \$5,157,500 in sales of preferred stock in 2004, compared to \$717,140 and \$500,000 in sales of preferred stock and common stock, respectively in 2003. We also raised \$60,000 and \$144,194 from proceeds from related party payables in 2004 and 2003, respectively. We generated \$375,000 and \$784,259 from loans and notes payable in 2004 and 2003, respectively.

As reflected in the accompanying financial statements, during the year ended December 31, 2004, we had a net loss of (\$13,166,869) compared to a net loss of (\$6,202,526) during 2003. Consequently, there is an accumulated deficit of (\$39,661,036) at December 31, 2004, compared to (\$26,494,167) at December 31, 2003.

GLOBETEL COMMUNICATIONS CORP. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

NATURE OF OPERATIONS

GlobeTel Communications Corp. ("Globetel") is engaged in the business of providing telecommunications and financial services. GlobeTel operates business unites in stored value cards, as a certified MasterCard processor, the sale of Internet telephony using Voice over Internet Protocol ("VoIP") technology and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

equipment, and wireless communications both domestically and internationally, including Mexico and certain countries in South America, Europe and Asia. In addition, our subsidiary, Sanswire Networks, LLC, is developing a National Wireless Broadband Network utilizing high-altitude airships called Stratellites that will be used to provide wireless voice, video, and data services. Although through December 31, 2005, only the telecommunications activities produced revenues, all of our operations are considered to be of relatively equal importance, based on the anticipation of future revenue producing activities and substantial investment in assets related to all of our operations.

ORGANIZATION AND CAPITALIZATION

GlobeTel was organized in July 2002, under the laws of the State of Delaware. Upon its incorporation, GlobeTel was a wholly-owned subsidiary of American Diversified Group, Inc. (ADGI). ADGI was organized January 16, 1979, under the laws of the State of Nevada. ADGI had two other wholly-owned subsidiaries, Global Transmedia Communications Corporation (Global), a Delaware corporation, and NCI Telecom, Inc. (NCI), a Missouri corporation.

On July 1, 2002, both Global and NCI were merged into ADGI. On July 24, 2002, ADGI stockholders approved a plan of reincorporation for the exchange of all outstanding shares of ADGI for an equal number of shares of GlobeTel. Subsequently, ADGI was merged into GlobeTel, which is now conducting the business formerly conducted by ADGI and its subsidiaries, and all references to ADGI in these financial statements now apply to GlobeTel interchangeably.

In July 2002, pursuant to the reincorporation, the Company authorized the issuance of up to 1,500,000,000 (pre-split) shares of common stock, par value of \$0.00001 per share and up to 10,000,000 shares of preferred stock, par value of \$0.001 per share.

In May 2005, GlobeTel approved a reverse split of shares of common stock on a one for fifteen (1:15) basis and changed the number of shares authorized to 100,000,000. In the Company's annual shareholders meeting on August 1, 2005, the shareholders voted to increase the shares authorized from 100,000,000 to 150,000,000.

All common stock amounts in this report have been retroactively restated to account for the reverse stock split, unless otherwise noted.

BASIS OF PRESENTATION

The financial statements include the accounts of GlobeTel Communications Corp. and its wholly-owned subsidiaries: Sanswire Networks, LLC; GlobeTel Wireless Corp.; GlobeTel Wireless Europe GmbH, a German corporation, and Centerline Communications, LLC, and its wholly-owned subsidiaries, EQ8, LLC, EnRoute Telecom, LLC, G Link Solutions, LLC, Volta Communications, LLC, and Lonestar Communications, LLC; High Valley Property Ltd., a British Virgin Islands corporation; as well as the accounts GTCC de Mexico, S.A. de C.V, which GlobeTel owns 99% of.

All material inter-company balances and transactions were eliminated in the consolidation.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2003, the Financial Accounting Standards Board (FASB) issued a revised Interpretation No. 46, "Consolidation of Variable Interest Entities" (FIN 46R). FIN 46R addresses consolidation by business enterprises of variable interest entities and significantly changes the consolidation application of consolidation policies to variable interest entities and, thus improves comparability between enterprises engaged in similar activities when those

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

activities are conducted through variable interest entities. The Company does not hold any variable interest entities as of December 31, 2005. The Company expects the adoption of this standard will have a material impact on its financial statements assuming variable interest entities are applicable in the future.

In November 2004, the FASB issued Statement No. 151, "Inventory Costs", to amend the guidance in Chapter 4, "Inventory Pricing", of FASB Accounting Research Bulletin (ARB) No. 43, "Restatement and Revision of Accounting Research Bulletins", which will become effective for the Company in fiscal year 2006. Statement 151 clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). The Statement requires that those items be recognized as current-period charges. Additionally, Statement 151 requires that allocation of fixed production overhead to the costs of conversion be based on the normal capacity of the production facilities. Management believes that the adoption of SFAS 151 will not affect the Company's financial position or results of operations.

33

In December 2004, the FASB issued SFAS No. 153, "Exchanges of Nonmonetary Assets," an amendment to Opinion No. 29, "Accounting for Nonmonetary Transactions." Statement No. 153 eliminates certain differences in the guidance in Opinion No. 29 as compared to the guidance contained in standards issued by the International Accounting Standards Board. The amendment to Opinion No. 29 eliminates the fair value exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception for exchanges of nonmonetary assets that do not have commercial substance. Such an exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of the exchange. SFAS No. 153 is effective for nonmonetary asset exchanges occurring in periods beginning after June 15, 2005. Earlier application is permitted for nonmonetary asset exchanges occurring in periods beginning after December 16, 2005. Management does not expect adoption of SFAS No. 153 to have any impact on the Company's financial statements.

In December 2004, the FASB issued SFAS No. 123 (revised 2005) "Share-Based Payments", which is a revision of SFAS No. 123, "Accounting for Stock-Based Compensation". SFAS No. 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees and amends SFAS No. 95, "Statement of Cash Flows". Generally, the approach in SFAS No. 123(R) is similar to the approach described in SFAS No. 123. However, SFAS No. 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro forma disclosure is no longer an alternative. The new standard will be effective for the Company in the first interim or annual reporting period beginning after December 15, 2005. The Company expects the adoption of this standard will have a material impact on its financial statements assuming employee stock options are granted in the future.

The adoptions of these new pronouncements have not and, other than as noted above, are not expected to have a material effect on the Company's consolidated financial position or results of operations.

MOVE TO AMERICAN STOCK EXCHANGE

On May 6, 2005, the Board of Directors approved a reverse split of the Company's shares of common stock on a one for fifteen (1:15) basis, in anticipation of the Company's move to the American Stock Exchange (AMEX) on May 23, 2005. The AMEX granted approval for the Company to list its shares on the exchange and the Company began trading on the AMEX under the symbol GTE on May 23, 2005. All common stock amounts in this report have been restated to account for the reverse stock split, unless otherwise noted.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform to the current year presentation. There were no material changes in classifications made to previously issued financial statements.

CASH AND CASH EQUIVALENTS AND RESTRICTED CASH

The Company considers all highly liquid debt instruments with an original maturity of three months or less at the date of purchase to be cash equivalents.

Restricted cash represents letters of credit to suppliers for MasterCard in the amount of \$1,000,000 in support of the Stored Value Card program, rental deposit for Los Angeles World Airport related to the Palmdale Hanger occupied by Sanswire Networks, LLC in the amount of \$72,000 and for a wholesale carrier in the amount of \$50,000.

The company anticipates increased cash flows from 2006 sales activities; however, additional cash will still be needed to support operations. Management believes it can continue to raise capital from various funding sources, which when added to budgeted sales and current working capital, will be sufficient to sustain operations at its current level through January 1, 2007. However, if budgeted sales levels are not achieved and/or if significant unanticipated expenditures occur, or if we are unable to obtain the necessary funding, the company may have to modify its business plan, reduce or discontinue some of its operations or seek a buyer for all or part of its assets to continue as a going concern through 2006.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS

Trade and other accounts receivable are reported at face value less any provisions for uncollectible accounts considered necessary. Accounts receivable primarily includes trade receivables from customers and, in connections with our Mexico network, Mexican tax refunds receivable. The Company estimates doubtful accounts on an item-to-item basis and includes over-aged accounts as part of allowance for doubtful accounts, which are generally accounts that are ninety-days or more overdue. When accounts are deemed uncollectible, the account receivable is charged off and the allowance account is reduced accordingly. Bad debt expense for the years ended December 31, 2005, 2004 and 2003 were \$1,373,458, \$1,141,534, and \$1,409,994, respectively.

34

INVENTORY

Inventory is recorded at lower-of-cost-or-market, first-in first-out (FIFO) basis. Inventory at December 31, 2005 consisted primarily of communications equipment and component parts related to our wireless operations. Inventory at December 31, 2004 consisted of IP (Internet Protocol) phones held for resale.

As of December 31, 2005, the Company wrote-off \$60,976 of IP phones inventory considered obsolete and charged this amount against costs of sales.

PROPERTY AND EQUIPMENT

Property and equipment consists of primarily telecommunications equipment, computer and related equipment and office furniture and fixtures, which are stated at cost less depreciation and amortization. Depreciation is based on the estimated useful lives of the assets, ranging from seven years for office

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

furniture and equipment to five years for telecommunications equipment, using the straight-line method. Expenditures for maintenance and repairs are charged to expense as incurred. Major improvements are capitalized. Gains and losses on disposition of property and equipment are included in income as realized.

INTANGIBLE ASSETS

Intangible assets are recorded under the provisions of the Financial Accounting Standards Board (FASB) Statement No.142 (FAS 142), Goodwill and Other Intangible Assets. FAS 142 requires that an intangible asset that is acquired either individually or with a group of other assets (but not those acquired in a business combination) shall be initially recognized and measured based on its fair value. Costs of internally developing, maintaining and restoring intangible assets (including goodwill) that are not specifically identifiable, that have indeterminate lives, or that are inherent in a continuing business and related to an entity as a whole, are recognized as an expense when incurred.

An intangible asset with a definite useful life is amortized; an intangible asset with an indefinite useful life is not amortized until its useful life is determined to be no longer indefinite. The remaining useful lives of intangible assets not being amortized are evaluated every reporting period to determine whether events and circumstance continue to support an indefinite useful life.

An intangible asset that is not subject to amortization shall be tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test consists of a comparison of the fair value of the intangible assets with its carrying amount. If the carrying amount of an intangible asset exceeds its fair value, an impairment loss shall be recognized in an amount equal to that excess.

It is the Company's policy to test for impairment no less than quarterly. The Company's intangible assets, which consist primarily of intellectual property, including technology and know-how, were evaluated by management, initially and as of December 31, 2005, and determined to have an indefinite useful life and are not subject to amortization. The Company also tested the assets for impairment and determined that no adjustment for impairment was necessary as of December 31, 2005, whereas the fair value of the intangible assets exceed its carrying amount.

REVENUE RECOGNITION

Revenues for voice, data, and other services to end-users are recognized in the month in which the service is provided. Amounts invoiced and collected in advance of services provided are recorded as deferred revenue. Revenues for carrier interconnection and access are recognized in the month in which the service is provided.

Sales of telecommunications networks are recognized when the networks are delivered and accepted by the customer. Sales of computer hardware, equipment, and installation are recognized when products are shipped to customers. Provisions for estimated returns and allowances are provided for in the same period the related sales are recorded. Revenues on service contracts are recognized ratably over applicable contract periods. Amounts billed and collected before services are performed are included in deferred revenues.

INCOME TAXES

Income taxes are computed under the provisions of the Financial Accounting Standards Board (FASB) Statement No. 109 (SFAS 109), Accounting for Income Taxes. SFAS 109 is an asset and liability approach that requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of the difference in events that have been recognized in the Company's financial

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

statements compared to the tax returns.

ADVERTISING AND MARKETING COSTS

Advertising and marketing costs are charged to operations in the period incurred. Advertising and marketing expense for the years ended December 31, 2005, 2004 and 2003, were \$265,283, \$19,160 and \$105,314, respectively, and are included in "Investor and public relations" in the consolidated statements of income (loss).

35

FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments, including cash, receivables, securities, accounts payable, and notes payable are carried at amounts which reasonably approximate their fair value due to the short-term nature of these amounts or due to variable rates of interest which are consistent with market rates.

CONCENTRATIONS OF CREDIT RISK AND ECONOMIC DEPENDENCE

Financial instruments, which potentially subject the Company to a concentration of credit risk, are cash and cash equivalents and accounts receivable. The Company currently maintains a substantial portion of its day-to-day operating cash balances at a single financial institution. The Company had cash balances of \$1,098,802, \$562,760 (restated from Book to Bank) and \$224,994 as of December 31, 2005, 2004 and 2003, respectively, which are in excess of federally insured limit. As of December 31, 2005, 2004 and 2003, the Company had \$898,701, \$462,760 and \$124,994, respectively, in excess of federally insured limits.

The Company operates worldwide. Consequently, the Company's ability to collect the amounts due from customers may be affected by economic fluctuations in each of the geographical locations in which the Company provides its services, principally Central and South America and Asia. The Company is dependent upon certain major customers, key suppliers, and contractual agreements, the absence of which may affect the Company's ability to operate its telecommunications business at current levels.

The company anticipates increased cash flows from 2006 sales activities; however, additional cash will still be needed to support operations. Management believes it can raise capital from various funding sources, which when added to budgeted sales and current working capital, will be sufficient to sustain operations at its current level through January 1, 2007. However, if budgeted sales levels are not achieved and / or if significant unanticipated expenditures occur, or if we are unable to obtain the necessary funding, the company may have to modify its business plan, reduce or discontinue some of its operations or seek a buyer for all or part of its assets to continue as a going concern through 2006.

USE OF ESTIMATES

The process of preparing financial statements in conformity with generally accepted accounting principles in the United States requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NET LOSS PER COMMON SHARE

Basic net loss per common share has been computed based upon the weighted

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

average number of shares of common stock outstanding during each period. The basic net loss is computed by dividing the net loss by the weighted average number of common shares outstanding during each period. In periods where losses are reported, the weighted average number of common shares outstanding excludes common stock equivalents because their inclusion would be anti-dilutive. Following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the year ended December 31, 2005:

NET LOSS PER COMMON SHARE

	INCOME (NUMERATOR)	SHARES (DENOMINATOR)

BASIC NET LOSS PER SHARE:		
Income (loss) available to common stockholders	(\$31,953,395)	75,072,487
Effect of Dilutive Convertible Preferred Stock and Option	--	--
DILUTED NET INCOME (LOSS) PER SHARE:		
Income (loss) available to common stockholders plus, assumed conversions and exercises	(\$31,953,395)	75,072,487

Available stock options at December 31, 2005, 2004 and 2003, were anti-dilutive and therefore were excluded from the net income (loss) per common share calculation. If all outstanding options, warrants and convertible shares were to be converted or exercised as of the date of this report, the weighted average fully diluted shares outstanding would be 95,841,094.

36

IMPAIRMENT OF LONG-LIVED ASSETS

The Company follows FASB Statement No. 144 (SFAS 144), "Accounting for the Impairment of Long-Lived Assets." SFAS 144 requires that long-lived assets to be held and used are reviewed for impairment whenever events or changes in circumstances indicate that the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the fair value of the asset. Long-lived assets to be disposed of, if any, are reported at the lower of carrying amount or fair value less cost to sell.

STOCK-BASED COMPENSATION

The Company accounts for its stock-based compensation arrangements with employees in accordance with Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25") and related interpretations. As such, compensation expense under fixed term option plans is recorded at the date of grant only to the extent that the market value of the underlying stock at the date of grant exceeds the exercise price. In accordance with SFAS No. 123 "Accounting for Stock-Based Compensation" ("SFAS 123"), since the Company has continued to apply the principles of APB 25 to employee stock compensation, pro forma loss and pro forma loss per share information has been presented as if the options had been valued at their fair values. The Company

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

recognizes compensation expense for stock options, common stock and other equity instruments issued to non-employees for services received based upon the fair value of the services or equity instruments issued, whichever is more reliably determined. Stock compensation expense is recognized as the stock option is earned, which is generally over the vesting period of the underlying option.

In December 2002, the FASB issued SFAS No. 148 "Accounting for Stock-Based Compensation". This statement amends SFAS 123. SFAS 148 provides alternative methods of transition for companies that voluntarily change to the fair value-based method of accounting for stock-based employee compensation. In addition, this statement amends the disclosure requirements of SFAS 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method used on reported results.

In March 2000, the FASB issued FASB Interpretation No. 44, "Accounting for Certain Transactions Involving Stock Compensation." ("FIN 44") The Company adopted FIN 44, effective July 1, 2000, with respect to certain provisions applicable to new awards, option repricings, and changes in grantee status. FIN 44 addresses practice issues related to the application of APB 25. The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of SFAS 123 and SFAS 148 and EITF No. 96-18, "Accounting for Equity Instruments that are issued to Other Than Employees for Acquiring or in Conjunction with Selling, Goods or Services". The measurement date used is the earlier of either the performance commitment date or the date at which the equity instrument holder's performance is complete.

Had compensation cost for the Company's stock option plans been determined based on the fair value at the grant date for awards under those plans, consistent with the measurement provisions of SFAS 123 and SFAS 148, the Company's net loss and basic loss per share would have been adjusted as follows:

	2005	2004
	-----	-----
Net Loss for the year - as reported	(\$31,953,395)	(\$13,166,
ADD: Total stock-based compensation included in net loss, as reported determined under APB 25, net of related tax effects	10,499,842	5,828,
DEDUCT: Total Stock-based compensation expense determined under fair value based method for all awards net of related tax effects	(14,429,334)	(5,323,
Net loss for the year- pro forma	(\$35,882,887)	(\$12,661,
	=====	=====

The fair value of each option grant has been estimated on the date of the grant using the Black-Scholes option-pricing model with the following assumptions:

	2005	2004	2003
	-----	-----	-----
Expected dividend yield	--	--	--
Expected stock price volatility	50%	300%	150%
Risk-free interest rate	5.0%	2.0%	2.0%
Expected life of options	2 years	2 years	3 years
Block discount applied	--	--	--

In December 2005, the FASB issued SFAS No. 123 (revised 2005), Share-Based

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Payment, which is a revision of SFAS No. 123, Accounting for Stock-Based Compensation. SFAS No. 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees and amends SFAS No. 95, Statement of Cash Flows. Effective for the years on or after December 15, 2005, the Company will recognize all share-based payments to employees, including grants of employee stock options, in the statement of operations based on their fair values.

37

NOTE 2. ACCOUNTS RECEIVABLE AND SALES - SIGNIFICANT CONCENTRATIONS OF CREDIT RISK AND ECONOMIC DEPENDENCE

In 2005 we had approximately 22 customers of which one accounted for 10% of the Company's sales for 2005, all of which related to the Philippines network. Eight customers accounted for 98% of sales for 2004 and two customers accounted for 97% of sales for 2003, including 7% attributable to the Brazil network, 41% to the Mexico (including 17% related to our Mexico network and 24% unrelated to our network), and 11% to the Philippines network. Four of the customers for the international networks account for 92% of accounts receivable as of December 31, 2004.

Sales attributable to foreign operations for the year ended December 31, 2005 were \$80,182,465 or 99% of total sales; for December 31, 2004, were \$28,783,098 or 99% of total sales; and for December 31, 2003 were \$11,256,907 or 99% of total sales. The amounts include \$71,562,620 or 88% of total sales and \$7,782,541 or 10% for 2005 for Mexico and the Philippines, respectively. For prior years, revenues of \$2,147,119 or 7% for 2004 and \$2,923,981 or 26% for 2003 from Brazil and \$11,892,643 or 41% for 2004 and \$8,052,143 or 71% from Mexico. Revenue is attributable to these countries, since calls either originate or terminate in these countries. All transactions were accounted for in U.S. currency, and no gain or loss was recorded on fluctuations in foreign currency.

In connection with the Brazil network, \$1,903,264 and \$1,955,818 during years ended December 31, 2004 and 2003, respectively, was paid by our Brazilian network customer directly to a local provider of network termination services, and, accordingly, the accounts receivable due from the customer was reduced by the same amounts. There were no such transactions during 2005.

In connection with the Mexico network, \$4,485,030 and \$5,609,939 during the years ended December 31, 2004 and 2003, respectively, was paid by our Mexico network customer directly to a local provider of network termination services, and, accordingly, the accounts receivable due from the customer was reduced by the same amounts. There were no such transactions during 2005.

During the year ended December 31, 2005, the Company increased its allowance for doubtful accounts by \$1,373,458, predominantly for the receivables from the Mexico and Brazil networks, representing all of the amounts receivable, which have not been received as of the date of this report. The Company also charged off the accounts receivable and decreased its allowance account by \$2,374,304, related to the receivables from Mexico and Brazil, resulting in an allowance for doubtful accounts of \$409,100 as of December 31, 2005 primarily attributable to the portion of the Mexico receivables that are not considered uncollectible as of the date of this report.

NOTE 3. PREPAID EXPENSES AND EXPENSE-RELATED PARTY

PREPAID EXPENSES

Prepaid expenses include primarily \$117,678 of payments made to telecom carriers for prepaid minutes. For the 2004 the balance was for prepaid leases and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

prepayments to telecom carriers.

PREPAID EXPENSE - RELATED PARTY - ISG JET, LLC

On October 11, 2005, the company entered into an arrangement with ISG Jet, LLC for travel services. The agreement provides the Company with the ability to utilize executive air travel services at a reduced rate over a two-year period. The Company made a payment of \$185,960, which includes \$60,960 in cash and 81,168 shares of the company's common stock, which was valued at \$125,000 (valued at \$1.54 per share). The Company maintains a prepaid balance that is being reduced over the term of the agreement, which ends in September 2007. The Parent company of ISG Jet, LLC is owned by Investor Source Group, LLC, which is owned 100% by Steven King, Executive Vice President of GlobeTel.

LOANS TO EMPLOYEES

This represents advances made by the Company to non-officer employees for payment of payroll taxes on stock options exercised during 2005. The company will recover this amount from the employees during the first quarter of 2006.

38

NOTE 4. DEPOSITS ON EQUIPMENT PURCHASES

This represent payments made for the new MasterCard Switch for \$124,993 as of December 31, 2005, as compared to \$88,994 as of December 31, 2004.

NOTE 5. PROPERTY AND EQUIPMENT

PROPERTY AND EQUIPMENT CONSISTED OF THE FOLLOWING:

	2005	2004
	-----	-----
Telecommunications equipment	\$ 1,356,966	\$ 566,226
Assets not yet placed in service	5,267,526	- 0 -
Computer and related equipment	468,916	143,802
Office furniture and fixtures	531,972	5,730
	-----	-----
TOTAL PROPERTY AND EQUIPMENT	7,625,380	715,758
Accumulated depreciation	(596,958)	(270,002)
	-----	-----
Property and equipment, net book value	\$ 7,028,422	\$ 445,756
	=====	=====

Depreciation expense for the years ended December 31, 2005, 2004 and 2003, amounted to \$236,018, \$53,586 and \$44,370, respectively, as reflected in the Consolidated Statement of Operations. Depreciation expense included in cost of sales was \$95,525 in 2005, \$116,435 in 2004 and \$182,774 in 2003.

The total assets above include \$5,267,526 of assets not yet placed into service as of December 31, 2005, primarily consisting of telecommunications equipment for our Stored Value activities, and, accordingly, no depreciation was recorded for these assets. These assets are expected to be placed into service during 2006, at which time depreciation will begin to be recognized.

NOTE 6 - INVESTMENT IN AND LOSS ON DISPOSITION OF UNCONSOLIDATED FOREIGN SUBSIDIARY - CGI

In September 2003, the Company entered into an agreement with Advantage Telecommunications Ltd. (ATC), n/k/a Consolidated Global Investments, Ltd. (CGI) an Australian telecommunications corporation where, for a strategic investment

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

of \$1.2 million, the Company would own up to 50% of the stock of CGI, and would have control of the board of directors of CGI. CGI had operations in England and Hong Kong and had points of presence in over 15 countries. The agreement was subsequently modified to where our investment of \$1.2 million would be for purchase of the CGI's telecommunication equipment and network operations in Hong Kong and England. Subsequently, CGI deconsolidated its subsidiaries and suspended operations.

As of December 31, 2003, the Company had remitted \$302,300 to CGI and CGI's assignee. The Company remitted an additional \$25,000 in February and \$25,000 in March 2004 for a total of \$352,300 and as of December 31, 2004 as partial payment towards the completion of the transaction.

Pursuant to additional modifications of the agreement, the Company issued 1,100,000 (16,500,000 pre-split) restricted shares of the Company's common stock to CGI to complete the transaction as follows: (a) 666,667 (10,000,000 pre-split) shares, valued at \$847,700, were issued to bring the investment balance to \$1.2 million, and (b) an additional 433,333 (6,500,000 pre-split) shares, valued at \$520,000 were issued to bring the investment balance to \$1,720,000. These amounts were agreed to by the Company and CGI.

The investment was structured by the parties and recorded by CGI as a secured convertible note payable to the Company, bearing interest at a rate of 12%, convertible, at the option of the Company, at a conversion rate of AUD\$ 0.005 per share. However, as agreed by the parties, neither the Company nor CGI received or paid, respectively, nor accrued such interest.

In May 2004, ATC changed its name to Consolidated Global Investments, Ltd. (CGI) and all reports and filings were under the name of Consolidated Global Investments, Ltd., thereafter.

On June 30, 2004, the Company exercised its option to convert the note and was issued 467,327,745 shares of CGI stock. In addition, the Company took an assignment from CGI of a note payable to a CGI bank creditor in the amount of approximately AUD\$ 750,000 (US \$518,000) for a purchase price of 233,334 (3,500,000 pre-split) restricted shares of the Company's stock, in full payment of the balance due. Pursuant to an agreement between the Company and CGI, the Company converted the balance to CGI shares, at a conversion rate of AUD\$.005 and on June 30, 2004, the Company was issued 147,968,635 shares of CGI stock.

As a result of the conversions, the Company held a total of 615,296,380 shares representing an ownership interest in CGI of 73.15%. In addition, as a result of and pursuant to the terms of conversion, the Company received options to acquire an additional 467,327,809 shares by June 30, 2007, at AUD\$ 0.005 per share.

39

Notwithstanding the Company's 73.15% ownership interest and control of CGI's Board of Directors, the Company did not consolidate CGI into its accounts, whereas CGI is a foreign subsidiary of the Company, with no current operations. Furthermore, the primary asset of CGI as of December 31, 2004, consisted of the 16.5 million shares of the Company's stock. Such consolidation is not required by generally accepted accounting principles in the United States.

The Company's stock issuances described above were recorded at par value, and the carrying value of the Company's investment in the unconsolidated foreign subsidiary is \$352,300, representing the sum of cash advanced by the Company to CGI through December 31, 2004.

As of December 31, 2005 and 2004, and CGI's shares were not trading on the

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Australian Stock Exchange, or any other exchange. As of December 31, 2004, the Company was advised that CGI expected the shares to be relisted in the near-term. The Company intended to make CGI into an operating company, with operations in telecommunications and Sanswire projects, expanding the Company's presence in the Asian market, and resulting in the marketability of CGI's stock and potential income from the subsidiary. Upon the occurrence of such events, the Company planned to adjust the carrying value of and/or consolidate the subsidiary in accordance with generally accepted accounting principles used in the United States.

In addition, the Company had agreed with the Liquidator of CGI's former UK subsidiary to acquire telecommunication equipment owned by that former subsidiary valued by the Company at \$128,210. Such agreement was nullified upon the divestiture described below.

During 2005, CGI sold a total of 610,000 (9,150,000 pre-split) of the GlobeTel shares it owned, and, from the proceeds, CGI advanced to GlobeTel a net of \$1,449,509 (\$1,607,174, less repayments of \$157,665) for Sanswire licensing rights. In consideration of its movement to the American Stock Exchange, the Company decided to not proceed with its goals to list a company on the Australian Stock Exchange and decided to divest itself of its interests in CGI.

In December 2005, the parties agreed that: (1) GlobeTel would return all shares and warrants it held in CGI to CGI, resulting in complete elimination of any ownership interest in CGI; (2) GlobeTel would not be required to return the \$1,449,509 advanced from CGI; (3) CGI would retain 333,334 (5,000,000 pre-split) shares of GlobeTel common stock; and (4) CGI would return to GlobeTel 280,000 (4,200,000 pre-split) shares of GlobeTel common stock. As of the date of this report, a total of 256,666 shares were received from CGI. The Company is expected to receive the remaining 23,334 shares from CGI during 2006. The shares returned are to be utilized to satisfy the obligation with CSI (see Note 11).

During 2005, the Company recorded a loss of \$352,300 upon disposition of the former unconsolidated foreign subsidiary, representing the cash invested in CGI through December 31, 2004. The \$1,449,509 retained by the Company was reclassified to additional paid-in capital, because it represents monies derived from the sale of the Company stock.

NOTE 7 - ASSET ACQUISITION AND INTANGIBLE ASSETS - SANSWIRE

ASSET PURCHASE AGREEMENT -SANSWIRE TECHNOLOGIES, INC.

In March 2004, the Company entered into a binding letter of intent to purchase certain assets of Sanswire Technologies, Inc. and its subsidiary, Sanswire, Inc., a company that is developing a National Wireless Broadband Network utilizing high-altitude airships called Stratellites that will be used to provide wireless voice, video, and data services. The definitive purchase agreement was signed and effective on April 15, 2004.

ASSET PURCHASE AGREEMENT - STRATODYNE, INC.

The Company entered into a purchase agreement, effective August 23, 2004, with Sanswire Technologies, Inc., Stratodyne, Inc. and its principal shareholder, Vern Koenig, for certain assets of Stratodyne and under substantially the same terms, conditions and consideration as the original Sanswire purchase agreement. The "Stratodyne" agreement supplements the original Sanswire Technologies, Inc. agreement. Stratodyne was the primary contractor for Sanswire Technologies, Inc.

The assets acquired under the Sanswire Technologies, Inc. and Stratodyne agreements consist primarily of intellectual property and proprietary rights in intellectual property. The Stratellite, which is presently in the development

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

stage, is similar to a satellite, but it is stationed in the stratosphere rather than in orbit. As of September 30, 2004, the Company has placed all of Sanswire Technologies Inc.'s and Stratodyne's assets into Sanswire Networks, LLC, its Florida-based, wholly-owned subsidiary ("Sanswire").

As consideration for the purchase, the Company issued 1,866,667 (28 million pre-split) shares of its common stock to Sanswire Technologies, Inc. In November 2004, all the final documents were delivered and the relationship was consummated. In September 2005, pursuant to the Stratodyne agreement, 133,333 (2 million pre-split) shares of the Company's common stock were issued directly to Stratodyne's principal shareholder. These shares are included in the 1,866,667 (28 million pre-split) shares originally issued to Sanswire Technologies, Inc., and, accordingly, the Sanswire Technologies, Inc. shareholders retain only 1,733,334 (26 million pre-split) shares issued and returned the 133,334 (2 million pre-split) of the previously issued shares to the Company. On February 5, 2005, GlobeTel filed a registration statement to register shares associated with these agreements.

40

CONTINGENT CONSIDERATION

In accordance with the Sanswire and Stratodyne agreements, a total of 1.9 million shares (28 million pre-split) were issued, as discussed in our December 31, 2004, Form 10-KSB. On February 5, 2005, GlobeTel filed a registration statement to register shares associated with these agreements. An additional 13.3 million (200 million pre-split) shares were to be issued pursuant to the terms and conditions of the "successful commercial launch" of a commercial communications platform aboard an airship developed by Sanswire and Stratodyne by the December 31, 2005 closing date. The Stratodyne agreement provides that 3.3 million (50 million pre-split) of the 13.3 million (200 million pre-split) additional shares will be issued to Stratodyne or its assignee(s) and the remaining 10 million (150 million pre-split) shares to Sanswire Technologies, Inc.

For purposes of the Sanswire Technologies, Inc. purchase agreement as amended, a "successful commercial launch" was to be deemed to have occurred if all the conditions in the agreement have been satisfied and all other conditions deemed material by GlobeTel are satisfied, as determined by GlobeTel in its sole discretion. "Successful Commercial Launch" means (a) a launch ("Launch") within (i) eighteen (18) months after a successful launch by the Company or any of its affiliates of a prototype airship (dirigible) that was then under construction, by the Company or any of its affiliates of an airship (dirigible) that is able to (I) reach and maintain an altitude of at least 65,000 feet, (II) maintain a position in one GPS coordinate, (III) receive and transmit commercially acceptable two-way wireless voice and Internet transmissions (collectively, "Services"), and (b) there is at least one paying customer for the Services within one year of the Launch, but not later than 30 months from the date of the launch of the prototype airship then under construction.

As of the date of this report, the conditions precedent to the entitlement to the issuance of the additional shares have not yet been fulfilled.

ACCOUNTING FOR PURCHASE PRICE OF INTANGIBLE ASSETS

The purchase price for the assets acquired was \$2,800,000, based on a value of \$1.50 (\$.10 pre-split) per share for the 1,866,667 (28 million pre-split) Company shares issued in the transaction. The Company allocated the purchase price based on the estimated fair market value of the asset acquired as follows: (a) Sanswire equipment - \$32,000; and (b) Sanswire and Stratodyne intangible assets - \$2,768,000. In addition, the Company recorded an additional \$10,000 to

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

the purchase price to account for estimated cost of issuing and registering the shares for public sale in connection with this transaction.

Since it is presently unknown whether or not Sanswire and Stratodyne will achieve the above referenced results required to be entitled to the contingent consideration, no amount for such contingent consideration was recorded as a liability or included in the allocation of the purchase price. The Company will record the 13,333,334 (200 million pre-split) contingent shares at fair value upon issuance of the shares or at such time that the Company may determine that the issuance of the shares is probable and the value ascribable to the shares is estimable.

The intangible assets include technology-based, marketing-related, and contract-related assets. The Company determined that the Sanswire intangible assets have an indefinite life, and, accordingly, are not subject to amortization. Instead, the Company tests the asset for impairment at each reporting period, and upon the occurrence of any significant event that may affect the carrying value of the assets. The Company tested the assets for impairment and determined that no impairment existed and no adjustment to the carrying value was required as of December 31, 2005, and through the date of this filing. Sanswire-FL's research, development, testing of, and cooperation with governmental and commercial entities regarding, the Stratellite technology is continuing, and no event occurred or circumstances known to management exist to indicate impairment.

The results of operations of Sanswire Networks, LLC for the year ended December 31, 2005, which are consolidated in the Company's results of operations, included expenses of \$4,300,866 with no sales or costs of sales.

STRATELLITE BUILD-OUT MEMORANDUM OF AGREEMENT (MOA) AND ADVANCES TO SANSWIRE

An MOA between the Company and Mr. Koenig dated August 23, 2004, stated the following: Mr. Koenig agreed to resume and expedite the build-out of the prototype of the Stratellite; the Stratellite is a proprietary technology acquired by the Company as part of the asset purchase agreement with Sanswire; when completed, the prototype will be used for demonstration and testing for commercial use; the original expected completion of the build-out agreement was January 15, 2005; the Company agreed to provide funding to complete the build-out process of the Stratellite prototype; and the Company provided a total of \$200,000.

The Company has provided amounts to or on behalf of Sanswire Networks, LLC in excess of the above amounts, including approximately \$5,027,550 through December 31, 2005, and at total of approximately \$5,814,457 through the date of this report.

41

EMPLOYMENT AGREEMENTS

In connection with the Sanswire Technologies, Inc. asset purchase agreement, the Company also entered into three-year employment agreements with five former Sanswire Technologies, Inc. executives. Michael Molen, Jairo Rivera, Brian Keith, Keith Sistrunk and Jane Molen were to serve as the Chief Executive Officer, Chief Financial Officer; Chief Operating Officer, Chief Technology Officer and Comptroller of Sanswire-FL, respectively. Mr. Molen was to receive an earn-out based on value of Sanswire-FL compared to the Company (exclusive of Sanswire-FL). If the value of Sanswire-FL was less than 24% of the value of the Company, Mr. Molen would be entitled to receive stock equal to 10% of GlobeTel common stock outstanding on the date of valuation. Mr. Molen had the right to select the valuation date and a mutually agreeable third party will evaluate the

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

value of Sanswire-FL compared to GlobeTel.

During the three months ended September 30, 2004, the Company decided to restructure the operations of Sanswire Networks, LLC and eliminate redundant positions. As a result, Mr. Molen accepted the appointment as Chairman of Sanswire Networks, LLC and was a member of GlobeTel's Board of Directors and stepped down as CEO of Sanswire Networks, LLC. Effective in 2005, Mr. Molen is no longer a member of Globetel's Board of Directors. The Company closed the Sanswire Technologies, Inc. offices in Atlanta and Mr. Sistrunk and Ms. Molen have separated from the Company.

In connection with the Stratodyne agreement, the Company had entered into a three-year key employment agreement with Vernon Koenig, Stratodyne's principal shareholder, to perform services including, but not limited to, telecommunications services and other services that Mr. Koenig serves as Sanswire-FL's Chief Design Engineer, and is responsible for development of the Stratellite. Mr. Koenig received a salary of no less than \$75,000 per year, plus grants of stock options based on performance evaluations given annually by the Company. During the first quarter 2005, Mr. Koenig resigned from his position in the Company and new key employees were employed.

In March 2005, Sanswire entered into employment agreements with certain Sanswire personnel. In order to attract these key employees, and in connection with these employment agreements, the Company recorded \$300,000 in signing bonuses payable with GlobeTel stock. However, upon agreement with the Company, the employees returned the shares and elected to receive stock options for the same number in shares that would have been issued for the \$300,000 at the dates of the agreements. None of the shares have been exercised as of the date of this report.

NOTE 8 - ASSET ACQUISITION AND INTANGIBLE ASSETS - HOTZONE

In September 2004, the Company entered into an independent contractor agreement with Hotzone Wireless, LLC (HotZone), a service provider for consulting/engineering services related to the Sanswire Stratellite project. The non-exclusive service provider provided engineering / consulting services, transmission equipment, and installation and testing of equipment. The term of the agreement was for six (6) months and was automatically renewable for additional one (1) year terms after the initial term unless terminated by either party. As initial compensation, Company paid the service provider \$10,000 per month. This agreement was terminated during fiscal year 2005.

On June 2, 2005, the Company entered into an agreement to acquire assets of HotZone, an advanced developer of WIMAX and extended range WIFI Systems with operations in the United States and Europe. The acquisition transaction, which closed during the three months ended September 30, 2005, was paid with \$27,000 cash and provides for a total of 2 million (post split) shares of the Company's common stock to be issued in increments of 666,667 shares on each of the first, second, and third anniversary dates of the agreement, assuming that certain milestones are achieved. Additionally, the HotZone staff is entering into employment agreements with the Company.

The assets acquired under the HotZone agreement consist primarily of intellectual property and proprietary rights in intellectual property. As of September 30, 2005, the Company had placed all of HotZone's tangible assets into GlobeTel Wireless Corp. (GlobeTel Wireless), its Florida-based, wholly-owned subsidiary.

ACCOUNTING FOR PURCHASE PRICE AND INTANGIBLE ASSETS

Whereas the milestones for the first year were defined, and the Company believed

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

that achievement of such milestones for the first year are probable and the amount payable (with GlobeTel common stock) is measurable, the Company recorded the amounts during the three months ended September 30, 2005. The purchase price for the assets acquired was recorded at \$2,280,334 based on the \$27,000 paid in cash, plus \$2,253,334, which represents the value of 666,667 (post split) shares of common stock payable on the first anniversary date. The shares were valued at \$ 3.38 per share, based on the value of the Company's free-trading stock on the agreement date. The Company allocated the purchase price based on the estimated fair market value of the asset acquired as follows: (a) HotZone tangible assets \$55,910; and (b) HotZone intangible assets - \$2,224,424.

Initially, since the milestones to be achieved for the second and third years of the contract were undefined and it is unknown whether or not such milestones, even if defined, will be achieved, the Company had not recorded the additional consideration totaling 1,333,333 (post-split) shares issuable after year one of the agreement (666,667 issuable for each of years two and three).

42

Subsequently and as of December 31, 2005, the Company and HotZone agreed that any and all milestones, previously undefined, were in fact achieved. The Company recorded the additional contingent shares at fair value upon, since the Company has determine that the issuance of the shares is probable and the value ascribable to the shares is measurable. Accordingly, as of December 31, 2005, the Company recorded the additional 1,333,334 (post-split) shares payable, which were valued at \$4,909,665, which represents a based share of 1,333,334 (post-split) shares, value at \$3.68 per share, based on the value of the Company's free-trading stock as of December 31, 2005, and increased the HotZone intangible asset value accordingly. As of the date of this report, none of the shares payable to HotZone have been issued. The Company intends to issue the first tranche of 666,667 shares in the near-term and the remaining shares will be issued as scheduled.

As of December 31, 2005, the HotZone intangible assets were valued at \$7,129,550. The Company determined that the HotZone intangible assets have an indefinite life, and, accordingly, are not subject to amortization. (Instead, the Company tests the asset for impairment at each reporting period, and upon the occurrence of any significant event that may affect the carrying value of the assets.) The Company tested the assets for impairment and determined that no impairment existed and no adjustment to the carrying value was required as of December 31, 2005, and through the date of this filing. GlobeTel Wireless, which utilizes the intangible assets acquired, has current and pending contracts and anticipates receiving revenues in the near-term, and no event occurred or circumstances known to management exist to indicate impairment.

NOTE 9. NON-READILY MARKETABLE AVAILABLE-FOR-SALE EQUITY SECURITIES

NETWORK SALES - CHARTERHOUSE INVESTMENT HOLDINGS, LTD.

In May 2002, the Company entered into a Network Purchase Agreement with IP World Ltd., (IPW) an Australian corporation to build as many as five (5) networks to be located in different countries throughout the world. As payment for each network the Company agreed to accept 64 million shares of IPW stock, at an agreed-upon value of \$.10 (US) per share, in full payment of the promissory note for the Brazil and Philippines networks. The IPW shares were not listed for sale on the Australian Stock Exchange (ASX) or any other domestic or international securities exchange. At the time, the Company was informed that such listing was imminent, and the Company would be able to sell all or a portion of the IPW shares.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

The above agreements and transactions were facilitated by and through Charterhouse Consultancy Service, Ltd, a Nevis corporation, and its successor corporation, Charterhouse Investment Holdings Ltd., a Malaysian corporation (collectively known as "Charterhouse"), and Global VoIP (GVoIP), a Delaware Corporation, of which Timothy Huff, the Company's current CEO was a 99% owner and officer. Although Mr. Huff, by and through GVoIP, originally functioned as consultant to Charterhouse, neither Mr. Huff nor GVoIP were directly compensated for participating in the agreements and transactions described above and below. Instead, Mr. Huff became an officer and a Director of the Company and assigned any and all interest GVoIP had to the Company without compensation. GVoIP was dissolved immediately thereafter.

In connection with agreements between Charterhouse and the Company, Charterhouse paid for the two networks sold to date by the transfer of shares in IPW to the Company. In that connection, Charterhouse maintained 70 million IPW shares in escrow for the Company, and, accordingly, the Company was deemed the beneficial owner of the shares.

As of June 30, 2003, the Company had included in its current assets, \$1,600,000 in non-readily marketable, available-for-sale equity securities, which represent 16 million shares of IP World (IPW) unrestricted stock, valued at \$.10 per share, held in the Company's name and \$4,301,500 in non-readily marketable, available for sale equity securities, due from a related party, Charterhouse, which represent 70 million shares of IPW restricted stock valued at \$.06145 per share, held by Charterhouse on the Company's behalf.

As of September 30, 2003, IP World Ltd. was in liquidation and was no longer listed in the Australian Exchange. The Company is no longer transacting with IPW to move out of liquidation and be relisted in the Australian Exchange. Therefore, the Company charged off \$4,301,500 in stock receivable as well as the \$1,600,000 in stock it had in its name during the three months ended September 30, 2003. As of December 31, 2004, the Company believes that the likelihood of recovering any such amounts is remote.

SERVICE AND INSTALLATION AGREEMENTS

In June 2002, the Company entered into a one-year service agreement with IP World Ltd. for \$240,000, related to servicing the Brazil network, the revenues from which are recognized ratably over the term of the agreement, beginning in July 2002. Revenue of \$120,000 was initially recognized in connection with this agreement.

In July 2002, the Company also entered into an installation and one-year service agreement with IP World Ltd. for \$300,000 (\$60,000 for installation and \$240,000 for maintenance), related to the Philippines network. The revenues from installation were recorded during 2002. The revenues from maintenance services were recognized ratably over the term of the agreement, beginning in October 2002. Revenue of \$60,000 for maintenance services was initially recognized during 2002.

43

In 2003, the Company continued to report revenues for the agreement for the first and second quarter of the year. Upon writing off the receivable as discussed above, no further revenue was recognized by the Company.

NOTE 10 - LOANS AND ACCOUNTS PAYABLE TO RELATED PARTY - CHARTERHOUSE

In October 2002, the holders of two promissory notes agreed that in lieu of payment of principal and interest under the loans, each to accept six (6)

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

million shares (400,000 post-split) of common stock of GlobeTel as payment, which were paid to the note holders directly by the Company's primary customer during 2002, who was also a consultant (Charterhouse). Accordingly, the Company recorded the \$300,000, plus interest of \$11,960, as a loan payable to Charterhouse. In January 2003 Charterhouse loaned an additional \$50,000, for total loans payable of \$361,960. As of December 31, 2004, these amounts, as well as \$135,000 payable for consultancy services rendered in 2002, were settled for Series B preferred stock. See Note 26 below.

NOTE 11 - CENTERLINE COMMUNICATIONS, LLC AND DUE TO RELATED PARTY - CSI

CENTERLINE COMMUNICATIONS, LLC.

On June 30, 2004, the Company entered into an operating agreement with Carrier Services, Inc. ("CSI") a Nevada corporation, also a telecommunications company, to operate Centerline Communications, LLC, a wholly-owned subsidiary of the Company.

The purposes of Centerline and its subsidiaries are to build telecommunications revenue and client base, utilizing each party's network and financial resources and to engage in any other business or activity that is necessary and proper to accomplish the above purposes.

Pursuant to the agreement, the Company was responsible for all costs associated with the operation and maintenance of the Prepaid Calling Card Platform, all expenses related to funding, staffing, technical support, customer service, equipment, and credit facilities. CSI was responsible for all costs and responsibilities associated with operation of the termination network, providing network facilities for the termination of carrier traffic, administer and operate the termination network, including subscriber accounts and tracking of minutes, all training and salary expenses of its sales personnel, all marketing expenses connected with the sale of the calling services and all other organizations related expense in any foreign base operation in which the LLC is operating.

The agreement provided for minimum selling requirements of \$50 million per year in revenues for the LLC. If the LLC brought in \$50 million in revenues at the end of the first year of operation, CSI will receive \$1 million of the Company's publicly traded stock. If CSI repeats the \$50 million in revenues in year two, CSI would receive another \$1 million of the Company's publicly traded stock. The initial term of the agreement was for two years and automatically renewable for another two years.

The parties subsequently modified the agreement to provide for minimum selling requirements of \$25 million in revenues for the LLC. Upon the LLC achieving in \$25 million in revenues, CSI will receive 333,333 (5 million pre-split) shares of the Company's publicly traded stock.

"PARTNER INCENTIVE AND FINANCING AGREEMENTS"

The Company uses the term "partner" in a sense different than the strict legal definition. Herein, the term "partner" is equivalent to "business associate." During 2004, the Company, Centerline Communications ("Centerline") and its subsidiaries entered in "Partner Incentive and Financing Agreements" with various parties ("Partners") in the business of providing the transmission of wholesale voice and/or data communications services to domestic and international destinations utilizing a proprietary call processing platform, technologies, software and other equipment ("Calling Services") to produce profitable revenues utilizing the Calling Services of the partners for an initial term of two (2) years.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

The "Partners" were to be compensated on a semi-annual basis with a grant of equity and cash commissions. These grants and commissions were to be paid out by Centerline, utilizing cash generated by the operations and stock given by the Company as part of the original agreement between CSI and the Company, based on reaching certain revenue and profitability milestones. Upon cessation of the prior joint business operations of the Company and CSI in February 2005, the Partner Incentive and Financing Agreements were terminated and no amounts were paid, due or owing by the Company in connection with these agreements.

DUE TO RELATED PARTY - CSI

The required revenues of \$25 million were achieved in January 2005 and CSI became entitled to the 333,333 (5 million pre-split) shares. As of December 31, 2004, the Company recorded \$404,707 due to CSI, computed by applying a ratio, based on the revenues achieved through December 2004 (approximately \$18.4 million) compared to the required \$25 million, to the number of shares to be issued recorded at a price \$1.65 (\$.11 pre-split) per share, the closing market value of the Company's stock as of December 31, 2004.

44

CSI owed the Company a total of \$401,723 as of December 31, 2004, consisting of the amounts due for accounts receivable collected by CSI on behalf of the LLC and for accounts receivable, pre-paid expenses and accounts payable assumed by CSI, and payments made by the Company on behalf of CSI, net of any payments made by CSI on behalf of the Company. The Company offset the \$404,707 due to CSI against the \$401,723 due from CSI, to result in a net amount due to CSI of \$3,024 as of December 31, 2004, which was included in accounts payable.

In February 2005, the Company received \$516,093 from proceeds of the sales of 3 million pre-split shares (200,000 post split) of the Company's common stock which was sold by CGI and advanced to GlobeTel (see Note 5 above), from which \$100,000 was paid to CSI and the remaining amounts were held by the Company to collateralize the amounts due to the Company from CSI. Subsequently, the Company and CSI agreed to offset the \$401,723 owed to GlobeTel against the shares owed by GlobeTel to CSI.

The Company and CSI mutually decided to conclude and restructure their joint business operations as of February 6, 2005. Upon completion of the parties reconciling and agreeing upon the final amount due from CSI, CSI and the Company agreed that the remaining amount due to CSI will be paid by the Company with remaining 133,334 (2 million pre-split) shares due to CSI, and the parties entered into new agreements.

In addition, the Company agreed to issue a total 66,667 (1 million pre-split) additional shares to CSI for additional revenues of approximately \$10 million generated during the three months ended March 31, 2005. Commissions in the amount of \$162,335 were recorded, based on the value of the Company's free-trading stock on the dates of issuance of the shares.

The Company entered into two asset purchase agreements with CSI to acquire telecommunication equipment totaling \$837,836. The parties agreed that the purchase price for this equipment would be paid with (1) 233,333 (3,500,000 pre-split) shares of GlobeTel's common stock; and (2) \$286,136 in cash. In addition, the purchase agreement also required GlobeTel to provide \$150,000 for the reconstruction and establishment of a new telecom switch site in Los Angeles, CA. GlobeTel has complied with this provision.

The Company also acquired from CSI additional telecommunications equipment valued at \$58,206 and paid with 38,730 (580,950 pre-split) shares of GlobeTel's common stock.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

As partial payment for the above shares, in December 2005, the Company received \$111,325 from proceeds of the sales of 30,000 (450,000 pre-split) shares of the Company's common stock which was sold by CGI and advanced to GlobeTel (see Note 5 above), which was in turn paid to CSI.

Based on the above transactions, as of December 31, 2005 the balance owed to CSI includes (1) 336,667 (5,050,000 pre-split) shares of GlobeTel common stock; and (2) \$106,231, related to the asset purchase agreements.

Subsequent to December 31, 2005, and as of the date of this report, the \$106,231 cash balance was paid in full, and 226,666 (3,400,000 pre-split) shares of GlobeTel stock were transferred to CSI (from the GlobeTel shares returned by CGI; see Note 5 above), and 110,001 (1,650,000 pre-split) shares are currently owed.

In connection with these CSI arrangements, the Company recorded commission expenses of \$848,880 and \$404,747, respectively, for 2005 and 2004.

NOTE 12 - DUE TO FORMER EMPLOYEE IN GTE STOCK

In September 2005, the Company issued a total of 98,983 shares pursuant to a severance and settlement agreement with a former employee, valued at \$177,400, based on \$1.79 per share, the closing price of the shares on the date of the agreement and registration of the shares. An additional \$237,600 of shares are issuable pursuant to the agreement of which \$118,800 is due January 4, 2006 (and was paid as agreed) and \$118,800 is due August 1, 2006. The former employee also received cash of \$55,000 pursuant to the agreement.

NOTE 13. ACCRUED OFFICERS' SALARIES AND BONUSES

Effective January 1, 2002, GlobeTel entered into three-year employment agreements with its key management. For the year 2002, the agreements provide for annual compensation of \$150,000 for its Chief Executive Officer (CEO), \$125,000 each for its Chief Financial Officer (CFO) and Chief Operating Officer (COO) and \$75,000 each for its Chief Administrative Officer (CAO) and VP of Network Operations. Further, there remained an employment contract with its President, as described below, which calls for annual salaries of \$100,000 per annum. In addition to the base compensation, the employment agreements provide for payment of bonuses that at a minimum equal the executives' base compensation. As of December 31, 2002, the executives all agreed not to receive bonuses to which they were entitled pursuant to the employment agreement.

45

In 2003, the base compensation increased to \$175,000 for its CEO, \$150,000 each for its CFO and COO, \$90,000 each for its CAO and VP of Network Operations. In 2005, the base compensation increases to \$200,000 for its CEO, \$175,000 each for its CFO and COO, \$120,000 for its CAO and \$110,000 for its VP of Network Operations. Bonuses for each year will also be equal to the base salaries as a minimum, unless otherwise agreed to by the executives.

From October 1, 1996, through December 31, 2003, the Company had an employment agreement with its President wherein the Company agreed to pay compensation of \$100,000 annually. In September 2003, the Company's president resigned effective December 31, 2003, but remained as a member of the board of directors of the Company throughout 2005.

In September 2003, the officers agreed to forego their accrued salaries in

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

exchange for stock options at \$.225 (0.015 pre-split) per share or 50% of the market price as of the exercise date. The officers subsequently exercised their stock options in January 2004.

As of December 31, 2003, the Company recorded accrued officers' salaries totaling \$245,000. The officers again agreed to forego their accrued salaries in exchange for stock options at \$.225 (0.015 pre-split) per share or 50% of the market price as of the exercise date. The officers subsequently exercised their stock options in January 2004.

As of December 31, 2005, the Company recorded accrued officers' salaries totaling \$97,382 compared to \$198,333 for year ending December 31, 2004, which were subsequently paid in January 2006 and 2005, respectively.

NOTE 14. ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consisted of the following:

	2005	2004
	-----	-----
Interest	3,105	3,436
Payroll Liabilities	238,243	- 0 -
Rent	22,467	- 0 -
Professional Fees	281,821	90,000
	-----	-----
ACCRUED EXPENSES AND OTHER LIABILITIES	545,636	93,436
	-----	-----

NOTE 15. CAPITAL AND OPERATING EQUIPMENT LEASE OBLIGATIONS

Capital lease obligations as of December 31, 2003, consisted of an amount payable for telecommunications equipment, which was abandoned prior to 2003, and the liability was subsequently written off in 2004. See Note 21 below regarding disposition of this obligation.

In March 2005, the Company entered into a lease agreement for office equipment, under which the Company must pay \$279 per month, plus sales tax, for a period of 39 months. The Company expects to have use of the equipment for the substantial portion of its useful life and the lease provides for a bargain purchase option, wherein the Company may acquire ownership of the asset at the end of the lease for 10% of its fair market value. Accordingly, the lease transaction was recorded as a capital lease obligation and ascribed an initial value to the asset and principal amount due on the lease of \$9,554, based on the present value of the monthly payments with an imputed interest rate of 8%. The balance on this obligation had been paid by the Company and there were no lease obligations recorded as payable as of December 31, 2005.

Interest expense recorded on all capital lease obligations of the Company amounted to \$480, \$2,561 and \$15,924 for the years ended December 31, 2005, 2004 and 2003, respectively.

In July 2004, the Company entered into a lease agreement for telecommunications collocation equipment, under which they made a down payment and other fees totaling \$37,635 and must pay \$3,778 for 24 months. Since the transaction does not qualify as a capital lease, the company charges the monthly payments to cost of sales and amortizes the prepayment to cost of sales over the period of the lease.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

NOTE 16. NOTES AND LOANS PAYABLE

In January 2003, the Company received a \$50,000 loan from Charterhouse. This loan payable, as well as a previous loan of \$311,960 was unsecured, non-interest bearing and have no formal repayment terms. In addition, the Company had an outstanding account payable to Charterhouse for \$135,000 in connection with consulting services provided in 2002. During 2004, all of the amounts owing to Charterhouse were paid in full with the issuance of \$500,000 of Series B preferred stock. The \$3,040 difference between the total amounts payable and amount representing the preferred stock issued was expensed in 2004.

CONVERTIBLE SUBORDINATED NOTES

On August 21, 2002, the Company executed a \$125,000 convertible subordinated promissory note payable to an unrelated third party, due August 21, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 500,000 post-split (7.5 million - pre-split) shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the Company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.75 post-split (\$.25 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common stock as reported by the principal market in which the common stock is traded.

In July 2003, the holder exercised his right to convert the debt into shares of the Company's common stock in accordance with the terms of the note. The conversion rate was determined to be \$0.6 post-split (\$.04 pre-split) and accordingly, the holder retained / 203,704 (3,055,556 pre-split) shares and returned 296,297 (4,444,444 pre-split) to the Company.

On August 27, 2002, the Company executed a \$125,000 convertible subordinated promissory note payable to an unrelated third party, due August 27, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 500,000 (7.5 million - pre-split) shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.75 post-split (\$.25 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common stock as reported by the principal market in which the common stock is traded.

In December 2003, the holder exercised his right to convert the debt into shares of the Company's common stock in accordance with the terms of the note. The conversion rate was determined to be \$0.525 (\$.035 pre-split) and accordingly, the holder retained 233,333 (3,500,000 pre-split) shares and returned 266,667 (4,000,000 pre-split) shares to the Company.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

On October 22, 2002, the Company executed a \$125,000 convertible subordinated promissory note payable to an unrelated third party, due October 22, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 1 million post-split / 15 million pre-split shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the Company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.00 post-split / (\$.20 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common stock as reported by the principal market in which the common stock is traded.

On November 18, 2002, the Company executed a \$125,000 convertible subordinated promissory note payable to an unrelated third party, due November 18, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 1 million (15 million pre-split) shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the Company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.00 (\$.20 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common stock as reported by the principal market in which the common stock is traded.

The October 22 and November 18 notes were from the same investor, and in July 2003, the holder exercised the right to convert the debt into shares of the Company's common stock in accordance with the terms of the note. The conversion rate was determined to be \$.36 (\$.024 pre-split) and accordingly, the holder retained 694,444 (10,416,666 pre-split) shares and returned 1,305,556 (19,583,334 pre-split) shares to the Company.

47

On November 25, 2002, the Company executed a \$125,000 convertible subordinated promissory note payable to an unrelated third party, due November 25, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 1 million (15 million pre-split) shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the Company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.00 (\$.20 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

stock as reported by the principal market in which the common stock is traded.

Also on November 25, 2002, the Company executed a second \$125,000 convertible subordinated promissory note payable to an unrelated third party, due November 25, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 1 million (15 million pre-split) shares of the company's common stock, which were issued by the Company and held in escrow under the agreement. The company recorded the issuance of these shares at par value. The note is convertible into shares of the company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note in effect on any conversion date shall be the lesser of \$3.00 (\$.20 pre-split) or 75% of the per share market value price as of the close of business on the conversion date. Any conversion pursuant to this agreement shall be for a minimum principal of \$10,000 and until the first day of the month preceding the maturity date of this note, the holder may not, during any 30-day period, convert more than the greater of \$100,000 of the principal amount of this note, or 10% of the preceding month's trading value of the common stock as reported by the principal market in which the common stock is traded.

Both notes dated November 25, 2002 were from the same investor, and in July 2003, the holder exercised the right to convert the debt into shares of the Company's common stock in accordance with the terms of the note. The conversion rate was determined to be \$0.33 (\$.022 pre-split) and accordingly, the holder retained 740,741 (11,111,112 pre-split) shares and returned 1,259,259 (18,888,888 pre-split) shares to the Company.

On November 5, 2002, the Company executed a second \$125,000 convertible subordinated promissory note payable to an unrelated third party, due November 5, 2003, with interest payable monthly at a rate of 12% per annum. The note is collateralized with 1 million (15 million pre-split) shares of the Company's common stock, which were issued by the Company and held in escrow under the agreement. The Company recorded the issuance of these shares at par value. The note is convertible into shares of the Company's common stock at the option of the holder in whole or in part, in accordance with the terms of the note. The conversion price for this note is of \$0.375 (\$.025 pre-split) per share. The note holder also received a common stock purchase warrant giving them the right to purchase 5 million shares of the Company's common stock at the price of \$0.45 (\$.03 pre-split) per share. Subsequent to the execution of this note, additional amounts of \$85,528 were received from the note holder, bringing the total balance to \$210,528.

In May 2003, the holder and the Company agreed that the balance of \$210,528 be converted into shares of the Company's common stock and as a result the collateralized shares were then issued to the holder. In addition, it was agreed upon that the holder's 15 million shares are non-dilutable for 18 months from April 1, 2003. Further, the holder of the note is comprised of three (3) owners, one of whom is Timothy M. Huff who owns 40% of the entity. Timothy Huff is the CEO of the Company.

UNSECURED LOANS AND NOTES PAYABLE

In February 2003, the Company executed two unsecured promissory notes payable, each for \$100,000 (to fund operations and pay operating expenses), to an unrelated third party, which is also a secured promissory note holder. Each note was originally due in May 2003, and included interest payable monthly at a rate of 25% per annum. The Company and the note holder subsequently agreed to extend due dates of the loans on a month-to-month basis under the same interest rate. In February 2005, the Company paid both notes.

In February 2003, the Company executed a \$40,000 promissory note payable to another party, due on demand with interest payable at 2.5% per annum. The Company repaid its \$40,000 note payable during 2003.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In June 2003, the Company executed a \$200,000 promissory note payable to Commercebank, N.A., due in June 2005, with interest payable at a rate of one percent over the prime rate, currently 4%. In August 2005, the Company repaid its \$200,000 loan with Commercebank, N.A. in full.

48

LETTER OF CREDIT AND BANK LOAN PAYABLE

As of December 31, 2002, the Company had a \$500,000 letter of credit with Commercebank, N.A., guaranteed by Florida Export Finance Corporation (FEFC) and \$200,000 letter of credit was issued to the Mexican telecom provider that provides local connectivity. In March 2003, the Company issued another \$100,000 to the same Mexican telecom provider. The remaining \$200,000 was used by the Company as collateral for its \$200,000 loan with Commercebank, N.A., the funds of which were used to purchase the telecom equipment used in the Brazil operations. The letters of credit issued to the Mexican telecom provider have been cancelled by the provider and have been returned.

The Company presently does not have any existing letters of credit but has the option of reopening the letter of credit with Commercebank, N.A. should the needs for it arise.

NOTE 17 - CONVERTIBLE DEBT AND PRIVATE PLACEMENTS

CONVERTIBLE NOTES PAYABLE

In January 2005, the Company entered into financing agreements for convertible promissory notes payable totaling \$1.8 million. Net proceeds of \$1,579,487 were received, after deducting costs and expenses related to the transaction. Under the agreements the notes were convertible into common stock of the Company at \$1.20 (\$.08 pre-split) per share. Prior to any notice of conversion, the Company had the right to redeem the note(s) at a premium, subject to a 3-day right to convert by the investor.

In addition, there were two types of warrants to purchase additional shares of common stock. There were 12,500,000 Class A Warrants (187,500,000 pre-split) exercisable at \$1.80 (\$.12 pre-split) per share and Redemption Warrants were to be provided in the event that the Company sought to redeem more than 50% of the principal of the note. They were given on the basis of 1,111 warrants for each \$1,000 in principal the Company sought to redeem over \$900,000. These Warrants are identical to the Class A Warrants except that they have an exercise price of \$1.65 (\$.11 pre-split) per share.

In February 2005, the note holders elected to convert all of the notes in the amount of \$1.8 million, plus accrued interest of \$5,969. Pursuant to the conversion, total shares issued were 1,538,308 (or 23,074,615 pre-split) including 33,333 (500,000 pre-split) shares as commission to a promoter.

At the same time in February 2005, the 12,500,000 Class A Warrants were exercised at \$1.65 (\$.11 pre-split) per share, except for one million shares at \$1.84 (\$.1227 pre-split) as agreed by the parties. Total net proceeds of \$1,442,650 were received and commissions totaling \$80,208 were paid.

Upon agreement of the parties, in lieu of the Company exercising its redemption rights, an additional \$1,237,500 was received in connection with the conversion, increasing the per share price to \$2.85 (\$.19 pre-split).

On February 5, 2005, GlobeTel filed a registration statement with the Securities

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

and Exchange Commission on Form SB-2 to register shares offered, plus additional shares totaling 75% of the underlying convertible notes and warrants to ensure that shares are available for conversion under all contingencies.

In addition, on August 31, 2005 the Company entered into subscription agreements with other investors for 5% convertible notes payable totaling \$4.5 million, with 3 year Class A Warrants to purchase up to an additional \$6,818,181 in common stock. Net proceeds of \$4,150,730 were received, after deducting costs and expenses related to the transaction. The notes amortize at 12.5% per quarter through September 2007, payable each quarter in cash or common shares.

Under the agreements the notes are convertible into common stock of the Company at \$ 1.65 per share (post-split). Prior to any notice of conversion, the Company had the right to redeem the note(s) at a premium for cash, subject to a 5-day right to convert by the investor. The Investors also received one Class A Warrant to purchase one share of common stock for each share that the notes would be convertible into had they been converted on the closing date (August 31, 2005) (a total of 2,727,273 shares). The per share exercise price of the Warrants is \$2.50.

In December 2005, the note holders elected to convert all of the notes in the amount of \$4.5 million, plus accrued interest of \$62,029. Pursuant to the conversion, total shares issued were 2,764,883 (post-split). Also in December 2005, the investors exercised outstanding warrants to acquire a total of 272,727 common shares at \$2.50 per share for proceeds of \$681,818.

PRIVATE PLACEMENTS

On May 9, 2005, the Company entered into a private placement with a number of accredited investors, whereby these investors have purchased \$2,357,960 of our common shares at a price of \$ 2.886 (\$.1924 pre-split), with warrants to purchase up to an additional 571,924 (8,578,856 pre-split) shares of common stock at an exercise price of \$ 5.0925 (\$.3395 pre-split). However, the subscription agreement with the investors allows for the price of the warrant to be adjusted should the Company offer equity securities at a lower price prior to the Warrants being exercised. As stated below the Company has entered into such an agreement and will be obligated to adjust the Warrant exercise price. The Company subsequently registered those shares on Form S-3 which has been declared effective by the Securities and Exchange Commission.

On May 23, 2005, the Company accepted an additional subscription from one of the initial investors increasing their investment by \$250,000 on the same terms and conditions as all the other investors.

49

The Company received net proceeds of \$2,328,489 from the above transactions, after fees and costs of \$279,471 related to the issuance.

In November and December 2005, the investors exercised outstanding warrants to acquire a total of 702,108 common shares at \$1.65 per share for proceeds of \$1,158,478.

Also, in May 2005, the Company issued an additional 291,317 (4,369,748 pre-split) unrestricted shares to an institutional investor that received shares for cash in private placements during 2004, pursuant to an anti-dilutive provision in the original agreement. These shares were recorded at par value. As previously disclosed, Timothy M. Huff, CEO of GlobeTel, held a 40% interest in this investment, and accordingly received 116,526 (1,747,899 pre-split) shares.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

NOTE 18 - AGREEMENTS

CONSULTING, INVESTMENT ADVISORY AND INVESTMENT BANKING AGREEMENTS

On August 15, 2002, the Company entered into an agreement with Charles Morgan Securities, Inc. ("Charles Morgan") to provide consulting services for a period of 12 months, including arranging for funding, assisting with corporate and business planning, advice regarding potential mergers and acquisitions, private placements of the Company's stock, and other related services.

The agreement provided that the Company pay Charles Morgan a monthly fee of \$5,000 from August to January 2003, and \$10,000 thereafter for the next six months. The Company also paid an engagement fee of \$30,000 upon initial funding.

In accordance with the agreement, the Company also paid Charles Morgan a total of 2.7 million shares of common stock of the Company for services provided in fiscal 2002 and 1.3 million shares in fiscal 2003, for a total of 4 million shares.

In addition to the shares described above, in August 2002, Charles Morgan received 180,000 (12.5 million pre-split) restricted shares (Rule 144) in connection with arranging for the convertible subordinated notes payable above. The Company valued the shares at \$250,000, based on one-half of the closing bid price of the Company's shares on the date of issuance and charged this amount to consulting expense. Pursuant to the agreement, Charles Morgan received an additional 833,333 (12.5 million pre-split) restricted shares (Rule 144) for arranging additional financing of \$500,000 during the quarter ending December 31, 2002.

During the third quarter 2002, Global VoIP, a principal customer and related party to the Company, paid Charles Morgan \$35,000 for the initial monthly fee of \$5,000 and the engagement fee of \$30,000. This amount was offset against the remaining accounts receivable balance owed by Global VoIP to the Company.

In January 2003, Fordham Financial Management, Inc. (Fordham Financial), an investment banking firm, based in New York City, assumed all functions and responsibilities of Charles Morgan Securities to provide consulting services. Under the agreement, the Company was obliged to pay a monthly fee of \$10,000. In June 2003, the firm and the Company agreed to suspend the monthly fee until both parties agree it should resume. The Company paid total fees of \$40,000 during the six months ended June 30, 2003. Pursuant to agreement, the Company issued 4.9 million restricted shares of the Company's common stock as payment for services rendered. The Company charged \$51,250 to expense during the three months ended September 30, 2003, based on an amount equal to one-half of the average bid and asked price of the Company's shares on the date of issuance. No further payments were made in the fourth quarter of 2003 as it relates to this investment banking agreement.

In October 2003, the Company entered into an agreement with Fordham Financial to raise \$2,500,000 resulting in issuance of circular offering dated October 17, 2003 (Preferred Stock, Series A). Fordham Financial agreed to receive 10% commission for the raising of the investments. In addition to the commissions totaling \$250,000, Fordham Financial also received 57,500 Preferred Stock, Series A as additional compensation. Fordham Financial had arranged for subscriptions of \$1,092,140 as of December 31, 2003 and had raised the full \$2,500,000 as of January 31, 2004.

On August 16, 2004, the Company entered into an investment advisory agreement with Charles Morgan Securities, Inc. (CMS) for term ending on December 31, 2005. CMS would render consulting services related to business development, corporate planning, investment and securities matters, including the Company's applying for trading on a higher listed exchange. As compensation for services, the

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Company will pay a one-time fee of 500 shares of Preferred Class C stock, convertible into 1% of the common shares of the Company after a one year holding period. Pursuant to the agreement, the compensation is not considered earned until when and if the advisor accomplishes the moving of the Company's stock from trading on the OTCBB to another trading board of higher standing by December 31, 2005. In May 2005, the Company did in fact move to a trading board of higher standing - the American Stock Exchange (AMEX).

During 2005, the Company issued a total of 820,000 (post-split) shares valued at \$1,230,000 in connection with its arrangements with CMS.

50

STORED VALUE, STRATELLITES, WIRELESS SERVICES AND OTHER TELECOMMUNICATIONS PROGRAMS AGREEMENTS

In June 2004, the Company entered into an agreement with Bankcard Inc., a member of the RCBC Group, one of the largest private commercial bank and financial institutions in the Philippines to introduce a stored value card program for domestic and international use. Bankcard will be able to issue a Visa and MasterCard card program that will offer Overseas Filipino Workers and Filipinos in foreign countries, convenient, risk free and low cost international funds transfer and discounted long distance calling services. This agreement was facilitated by Four Star Consulting, a Manila, Philippine-based consulting group who was paid a fee of \$10,000.

JOINT VENTURE AGREEMENT - ENGLEWOOD CORPORATION

On May 3, 2004, the Company entered into a joint venture agreement and stock option plan with Englewood Corporation ("Englewood") and respectively with Joseph Seroussi, an individual ("the agreement"). Under the agreement, Englewood gives to the Company all of its current and new products and services in the telephony, financial and non financial services fields; all market contacts and relationships and existing and future telecommunications; non financial and financial contracts; and to develop the processing capabilities for transactions on networks in conjunction with ATM, debit and credit cards including but not limited to, the financial networks of MasterCard, MasterCard International, VISA and private banking ATM networks; along with the ability to market such products and services through strategic partners in various countries around the world. Subject to the terms and conditions of the Agreement, the Company will earn 100% of all revenues and profits. During the three-year term of this agreement, Englewood at its sole discretion may elect to have a third party independent appraiser, mutually agreed to by both parties, determine the fair market value of the joint venture. The Englewood portion of the value of the joint venture will be equal to 20% of the fair market value of the Joint Venture.

At Englewood's sole discretion, Englewood may elect in whole or in part to exchange in whole or a portion of its interest in the joint venture for cashless options granted by the Company. The options granted by the company shall be at \$.30 (\$.02 pre-split) per share of the Company's common stock. Once exercised, the options shall be distributed to Englewood over a three-year period in 12 equal parts. Englewood will have piggy back registration rights for a period of two years following the grant of each block of options.

Additionally, at the time of the Agreement, Seroussi will continue to serve as a consultant to the Company for a minimum period of three years. Subsequently, Seroussi and the Company entered in an Agreement whereby Seroussi has given up his consulting contract and on October 1, 2004, joined the Company as its Chief Technical Officer. All of the terms and conditions of the Agreement with Englewood remain the same.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to these agreements other than 3 million restricted shares of the Company's common stock issued for consulting services, valued at \$135,000, based on one-half of the closing price of the stock on date of issuance, and recorded in 2004.

GLOBETEL WIRELESS NETWORK, PILOT PROGRAM

On August 7, 2005, the Company entered into an agreement to provide a wireless communication network for a pilot program in Shenzhen, China with Guangdong Tietong South Communication Co. Ltd, a group company of China Tietong Telecom Corporation, one of only 6 licensed telecom operators in China. Upon successful completion of the pilot program, GlobeTel Wireless and its local Chinese partners will commence a roll out of wireless communication networks throughout China to deliver voice, data and video applications. The agreement was reached with Nessociet Inc., an organization working towards the development of next generation wireless telephony services and NGN Telecom Corporation, the partner to Guangdong Tietong South Communication Co. Ltd., in marketing VoIP services in China. The Company will also utilize Nessociet Inc. who has become a reseller of GlobeTel Wireless networks and equipment in Asia. The Company is planning on initiating a test pilot in the region in the second quarter of 2006.

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

JOINT VENTURE AGREEMENT - LEO A. DALY III AND J. RANDOLPH DUMAS

On July 7, 2005, the Company entered into a joint venture agreement that will lead to the deployment of the Company's Stratellites(TM), throughout Europe, the Middle East, Africa, and the countries of the former Soviet Union. The joint venture is between Sanswire Networks LLC, a wholly-owned subsidiary of GlobeTel, and a venture headed by Leo A. Daly III and J. Randolph Dumas, noted international businessmen. Sanswire Networks, LLC will own 55% of the joint venture entity. In September 2005, Mr. Dumas joined the Company's Board of Directors.

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

JOINT VENTURE AGREEMENT - APOGEO ENTERPRISES CORPORATION

On July 14, 2005, the Company's wholly-owned subsidiary, Sanswire Networks, LLC had entered into a joint venture agreement to deploy Stratellites(TM) throughout the country of Colombia. The agreement with Florida-based Apogeo Enterprises Corporation calls for a total of five Stratellites to be launched over the Latin American country to build a wireless broadband network that would be the first of its kind in the world.

The Joint Venture Agreement, signed on July 14, 2005, had a due date 90 days after signature. Within this timeframe, Apogeo was to provide Sanswire Networks, LLC with proof of funds. The company presented proof of funds after the 90 day period. Based on their efforts, Sanswire Networks, LLC decided to maintain a business relationship with Apogeo by signing a new Joint Venture Agreement on January 20, 2006. On February 17, 2006, the parties executed an addendum to this Agreement which states that Apogeo and Sanswire Networks, LLC will agree on the price per Stratellite to be paid by Apogeo upon execution of a letter of credit

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

in the amount of no less than \$15,000,000.

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

LICENSING AGREEMENT - RAPIDMONEY(R) CORPORATION

On July 7, 2005, the Company entered into a licensing agreement with RapidMoney(R) Corporation that allows us to use and modify the RapidMoney(R) system. GlobeTel, along with its venture partner, Grupo Ingedigit ("GI") of Caracas, Venezuela, will incorporate the current RapidMoney(R) funds transfer software applications for merchant Point of Sale ("POS") terminals into the Company's Stored Value international remittance services. Furthermore, this license allows GlobeTel and GI to develop additional applications based on the RapidMoney(R) system that will be deployed in the retail locations which are offering their Stored Value Card Program services.

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

ALTVATER GMBH OF GERMANY, ASSET ACQUISITION

On July 7, 2005, GlobeTel entered into a letter of intent to acquire the assets and operations of Altvater GmbH of Germany (Altvater). Subsequently, an agreement was signed, but the acquisition has not yet closed as of the date of this report. Altvater is a wireless communications systems integrator for HotZone systems in Europe, with core operations in Germany. Altvater GmbH has existing sales partner relationships in Europe and North Africa. On September 15, 2005, GlobeTel Wireless Corp., through the acquisition of Altvater, formed a new division, Total investment by Globetel Wireless Corp was \$291,476 as of December 31, 2005. GlobeTel Wireless Europe GmbH financial statements, as of December 31, 2005 have been included in the consolidated results of the Company's operations.

GLOBETEL WIRELESS, GERMANY CONTRACT

The Company, through GlobeTel Wireless, is utilizing the HotZone assets and technology in developing WIMAX wireless systems for deployment in areas the Company identifies and markets to. Future considerations include the use of the Company's Stratellites(TM), which will provide radio technology for the wireless communications that will cover significant geographic areas up to 120,000 square miles, and, in addition, provide advanced wireless products and services for terrestrial wide area networks covering rural and city areas. Upon deployment of the Stratellite(TM), on a region-by-region and country-by-country basis the communications technology will deliver high speed voice, data and rich streaming content, as well as other communications possibilities. The Company has negotiated several contracts for the deployment of WIMAX wireless systems (See Globetel Wireless Germany Contract and Russian Joint Venture below).

COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENT

On July 13, 2005, the Company announced that Sanswire Networks, LLC had signed a Cooperative Research and Development Agreement (CRDA) with Proton Energy Systems, Inc., a subsidiary of Distributed Energy Systems Corp. Pursuant to the agreement, Proton will provide assistance in developing a regenerative fuel cell energy storage system for our high altitude Remotely Operated Airship (ROA), or Stratellite. Under the agreement, Proton will provide prototype regenerative fuel cell (RFC) equipment and specialized technical support to Sanswire for our development and flight-testing of the Stratellite via a series of task agreements. Sanswire will provide the airship platform for testing and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

engineering inputs to tailor the RFC solution.

52

GLOBETEL WIRELESS, GERMANY CONTRACT

On August 1, 2005, GlobeTel Wireless announced that it would install wireless networks in three German cities. GlobeTel Wireless will provide high-speed wireless networks for internet connectivity starting with the town of Kaiserslautern, and continuing with nearby communities. Kaiserslautern is a city of 100,000 people, located 100 miles South West of Frankfurt. Construction of the project is scheduled to begin in the 2nd quarter 2006. GlobeTel Wireless is installing these first Wireless Networks in Germany as part of the roll out plan to deploy wireless communication networks to non-DSL communities, in identified geographic markets.

During 2005 and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

SERVICES AGREEMENT - GLOBAL CROSSING, LTD. (NASDAQ: GLBC)

On October 6, 2005, Global Crossing announced that GlobeTel had selected its integrated, global IP-based network to offer international cable companies and Internet Service Providers ("ISPs") a completely customizable VoIP solution for clients located in Latin America and the Caribbean. As of the date of this report no transactions have occurred that would require recording or disclosure in the Company's financial statements.

COOPERATIVE TECHNOLOGIES AGREEMENT - UNIVERSITY OF STUTTGART, GERMANY

On October 12, 2005, the Company announced that Sanswire Networks LLC had signed an agreement with TAO-Technologies in cooperation with the University of Stuttgart in Germany. The agreement states that TAO-Technologies, in cooperation with the University of Stuttgart, will design several next-generation airships intended for multiple uses. As of the date of this report no transactions have occurred that would require recording or disclosure in the Company's financial statements.

GLOBETEL WIRELESS, RUSSIAN JOINT VENTURE AGREEMENT

As of December 30, 2005, GlobeTel Wireless Corp. ("GTEW") has entered into a binding agreement to install wireless communications networks in 30 cities throughout the Russian Federation, providing broadband, VOIP and DECT technologies. GTEW has entered into an agreement with LLC Internafta ("Internafta") of Moscow, Russia, whereby Internafta will pay to GTEW a series of four construction payments totaling US\$600 million for the installation of an array of proprietary networks to be installed in Russia's 30 largest cities, starting with Moscow and St. Petersburg. GTEW will both manage the completed network and will retain an ongoing 50% shareholding in the operations of the network, allowing the Company to enjoy the significant benefits of the recurring revenue stream. GlobeTel plans to roll out the network in 3 stages, comprising 10 cities each, over the next 27 months.

On March 2, 2006 the Company announced that Internafta had requested an additional delay in the closing of the funding until the week of March 6, 2006. The Company has provided Internafta and its banks with a significantly expanded business plan outlining, in detail, the company's program for equipment manufacturing, delivery, installation, testing, monitoring, staffing, progress payment requirements, and other pertinent information. Internafta advised the

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Company that its funding has been approved by its bank syndicate, subject only to the bank's final review and analysis of the business plan.

Internafta has informed GlobeTel that its bank recommends that smaller, more frequent, progress payments be established so that the necessary staged payments can be delivered to GlobeTel as and when the network is delivered and installed. These smaller, more frequent, staged payments do not reduce the total capital value of the agreement with GlobeTel Wireless or change any other terms of the agreement. GlobeTel will still receive \$600 million for deployment of the network. The exact amount of the new proposed initial deposit, and the size and timing of the new proposed progress payments, will be discussed and agreed with GlobeTel once the bank has completed its due diligence and when the bank group formally accepts the terms of Internafta's proposed banking instrument.

On March 17, 2006, the Company announced that based upon differences between the Company and Internafta on the financing process, the parties have agreed to revise their agreement to more accurately reflect the timing of payments GlobeTel expects to receive for the build out of the 30 city wireless network in Russia and allow Internafta additional time to begin making payments.

During 2005, and as of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

AGREEMENT WITH FINANCIAL SOFTWARE & SYSTEMS IN INDIA

On November 9, 2005, the Company signed an agreement with Financial Software & Systems (P) Ltd. ("FSS") based in Chennai, India. The purpose of the agreement is to establish a commercial relationship between GlobeTel and FSS that will enable the parties to work together to market stored value and money remittance programs, targeting tens of millions of existing banking customers in the \$12 billion Indian remittance market.

FSS focuses its business in Electronic Funds Transfer ("EFT") solutions and outsourced services which power the majority of ATMs and Point-of-Sale ("POS") terminals in India, controlling most of the Electronic Funds Transfers in the country. FSS also provides third-party processing as an outsourced application services for many of the largest banks in India.

The Company believes that its relationship with FSS will bring cutting edge technology solutions to banks and financial institutions in India and across the globe. FSS is leveraging its extensive domain knowledge in payment processing and transaction switching across various touch points with highly skilled software development and implementation resources, world-class IT infrastructure, and global partnerships.

53

The Company is currently in the process of establishing an Indian company and setting up the operations. As of the date of this report, no transactions have occurred that would require recording or disclosure in the Company's financial statements related to this agreement.

OTHER AGREEMENTS

Several other agreements, letters of intent, and memorandums of understanding regarding stored value cards and other telecommunications programs, as well as the Sanswire project, were entered into during 2005 and through the date of this report, none of which require the recording of any assets, liabilities, revenues or expenses.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

NOTE 19. COMMITMENTS AND CONTINGENCIES

MEXICO ASSOCIATE AND CUSTOMER LITIGATION

The Company has a legal action against our associate and customer in Mexico for non-payment of the amount they owe the Company. This customer has substantial assets, including telecommunications equipment, existing working networks and Mexican tax refunds which they have proposed to turn over to the Company. The Company filed a motion in the Mexican courts which was necessary to formally request that the Company become the assigned payee of the tax refund receivable and formally secure the equipment and to take over the operations of the existing networks.

In February 2005, the customer agreed that proceeds from the network operations were to be paid totally to GlobeTel, including the customer's portion of the profit sharing, until the amount owed has been fully paid. Upon full payment, the Company will begin the sharing profits again in accordance with the contract.

The Company received a judgment on February 14, 2005 in the amount of \$330,000. It is not certain of the amounts that, ultimately, will be realized from the Mexico associate.

This situation with our customer has caused us to record an allowance for bad debt expense for the fiscal year ending 2004 in the amount of \$938,782 and record an allowance for bad debt expense for the fiscal year ending 2005 in the amount of \$625,855 and an allowance for bad debt expense for the fiscal year ending 2005 for a Mexican Tax Refund in the amount of \$382,160.

FORMER CONSULTANTS LITIGATION

The Company is a defendant in two lawsuits filed by Matthew Milo and Joseph Quattrocchi, two former consultants, filed in the Supreme Court of the State of New York (Richmond County, Case no. 12119/00 and 12118/00). These matters were subsequently consolidated as a result of an Order of the court and now bear the singular index number 12118/00. The original lawsuits were for breach of contract. The complaint demands the delivery of 10,000,000 pre-split shares of ADGI stock to Milo and 10,000,000 to Quattrocchi. GlobeTel was entered into the action, as ADGI was the predecessor of the Company. The suit also requests an accounting for the sales generated by the consultants and attorneys fees and costs for the action.

The lawsuits relate to consulting services that were provided by Mr. Milo and Mr. Quattrocchi and a \$50,000 loan advanced by these individuals, dated May 14, 1997, of which \$35,000 had been repaid.

With regard to the issues related to original index number 12119/00, as a result of a summary judgment motion, the plaintiffs were granted a judgment in the sum of \$15,000, which has since been paid. The rest of the plaintiff's motion was denied. The court did not order the delivery of 24,526,000 pre-split shares of ADGI common stock as the decision on that would be reserved to time of trial.

An Answer and Counterclaim had been interposed on both of these actions. The Answer denies many of the allegations in the complaint and is comprised of eleven affirmative defenses and five counterclaims alleging damages in the sum of \$1,000,000. The counterclaims in various forms involve breach of contract and breach of fiduciary duty by the plaintiffs.

However, an outcome cannot be projected with any certainty. The Company has not entered into any settlement negotiations with Mr. Milo and Mr. Quattrocchi and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

does not believe that we will be materially adversely affected by the outcome of this proceeding.

Presently, the Company is continuing its defense and counterclaims in this matter. A jury was selected on March 3, 2006 in anticipation for a trial; however, the parties entered into an agreement to proceed before a Judicial Hearing Officer for a non-jury trial. This case is expected to be assigned to a Judicial Hearing Officer on or before March 31, 2006 and a new hearing date will be set at that time.

54

PATENT INFRINGEMENT LAWSUIT

A case was filed against the Company for patent infringement. On or about September 1, 2004, Alexsam, Inc. (Alexsam) filed an action for patent infringement against us alleging the stored value card and service the Company is planning to offer infringes one or more of U.S. Patent No. 6,000,608 (the 608 patent) and U.S. Patent No. 6,189,787 (the 787 patent), allegedly owned by Alexsam. The actions were filed in the United States District Court, Eastern District of Texas, styled Alexsam, Inc. vs. Datastream Card Svc., et al. Case Number 2:03-cv-337. On January 14, 2005, the court dismissed the lawsuit against the Company.

On February 8, 2005, we filed suit against Alexsam and Robert Dorf (collectively the defendants) in the United States District Court for the Southern District of Florida, Civil Action No. 05-60201, seeking a declaratory judgment from the court that the 608 and 787 patents are invalid, not enforceable and will not be infringed by our stored value card offering. We are also seeking recovery for damages brought on us by Alexsam, the owners of Alexsam and Dorf, for breach of confidential disclosure and trust, intentional interference with business advantage, and for unfair competition under Sec. 501.204 of the Florida Statutes.

We and Alexsam have subsequently settled our dispute. In exchange for granting a non-exclusive license to GlobeTel for the Patents, GlobeTel withdrew its motion for attorneys' fees in the Texas Lawsuit and dismissed the Florida Lawsuit. The License Agreement was made and entered into in September 2005. The license taken by us extends further to our customers, bank partners, third party financial processors and cardholders, and all those in privity with any of them, but only to the extent those entities' activities relate to us and its license.

SERVICE PROVIDER AGREEMENT - BRAZIL NETWORK

On March 23, 2002, GlobeTel signed a memorandum of understanding with a company called Trans Global Ventures, Inc. (TGV), a company based in Miami, to form a joint venture to be registered as an LLC (Limited Liability Company) in the State of Florida to build out a VoIP network in Brazil offering call origination including but not limited to prepaid calling and 800 number calling as well as access to GlobeTel's Enhanced Services Platform technology. Initially, the venture was to be based on a 50/50 ownership between the two companies. Subsequently, the memorandum of understanding was modified to give GlobeTel 80% ownership, a percentage determined based on the investments to be made by the Company in the venture. Ultimately, however, both companies determined that TGV acting as a service provider would best serve the needs of each company, and therefore both companies agreed to terminate the memorandum of understanding and accordingly, the LLC was never formed.

Under the service provider agreement, for service provided, TGV shall be

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

entitled to receive 20% of the project income, defined as: the revenues from the Brazil network, less direct costs of sales for operating this network, less other costs allocated to this project (based on multiplying total operating expenses by the percentage of Brazil network sales to total Company revenues for the year).

In connection with the Brazilian network operations, the Company recognized revenues of \$136,937, \$2,147,119 and \$2,923,981 for years ended December 31, 2005, 2004 and 2003, respectively. The cost of sales, substantially all of which was paid directly to third-party suppliers, was \$165,205, \$1,996,635 and \$1,993,737, respectively, in 2005, 2004 and 2003.

In June 2005, the Company and TGV discontinued the network operations and do not intend to recommence such operations in the near term.

SERVICE PROVIDER AGREEMENT - MEXICO NETWORK

On June 26, 2002, GlobeTel signed a memorandum of understanding with Qualnet Telecom, LLC for a joint venture to be known as GlobeTel Qualnet LLC, to be registered as an LLC (Limited Liability Company) in the State of Florida. The purpose of the venture was to build out a VoIP network in Mexico for call termination throughout the country that will have initial capacity to transport 8 million minutes per month. Qualnet had been operating in Mexico for several years and had contracts with various Mexican telecom companies. GlobeTel's role in the agreement was to provide financing and equipment to build the network. The agreement was for GlobeTel to have 80% ownership of the venture and Qualnet 20%, and accordingly GlobeTel committed 80% of the funding of the venture in the form of working capital, equipment and guarantees for the issuance of letters of credit as required by the Mexican telecom companies. Since Qualnet already had points of presence in several cities in Mexico had an established customer base, installation of the equipment and ramping up of the traffic required substantially less time than if the network was to be built from the ground up. As a result, the venture was able to operate within several weeks and was able to fill the network near capacity.

The network continued to operate at capacity throughout the year and it was subsequently determined that each party would be better served by continuing to do business with Qualnet as a service provider. Both parties agreed not to proceed with the joint venture, and accordingly, the LLC was never formed and the parties signed an agreement not to pursue the joint venture agreement as contemplate in the memorandum of agreement dated June 26 2002. Under the service provider agreement, for services provided, Qualnet shall be entitled to receive 20% of the project income, defined as: the revenues from the Mexico network, less direct costs of sales for operating this network, less other costs allocated to this project (based on multiplying total operating expenses by the percentage of Mexico network sales to total Company revenues for the year).

55

The Company recognized revenues of \$4,774,657 and \$8,052,143, respectively, for the years ended December 31, 2004 and 2003. The cost of sales substantially all of which was paid directly to third-party suppliers were \$4,556,912 in 2004 and \$6,159,401 in 2003. There were no activities in connection with the Mexico network in 2005 and through the date of this report.

JOINT VENTURE AGREEMENT - TRUESPEED WIRELESS

On September 19, 2002, the Company entered into a joint venture agreement with TrueSpeed Wireless, Inc., a Nevada corporation based in Aliso Viejo, California. The venture is incorporated in Nevada as TrueSpeed Wireless International, Inc. and the structure of the joint venture is based on 50% ownership by GlobeTel and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

50% ownership by TrueSpeed Wireless, Inc. The purpose of the joint venture shall be for the deployment of the wireless technology services currently being deployed by TrueSpeed Wireless, Inc. and to market and distribute high-speed wireless data communications. The venture had not been able to secure contracts in targeted countries and as of December 2003, both companies agreed to dissolve the joint venture. No revenues or expenses were ever generated from the joint venture, nor were there any asset, liability, or equity transactions requiring recording in the financial statements during the existence of the joint venture.

LEASES AND RENTS

The Company leases office facilities at 9050 Pines Blvd., Suite 110, Pembroke Pines, Florida 33024, as of April 1, 2004. This lease will expire in June 2009, and has an initial monthly rent of \$5,462 with increases of 4% per year. In November 2004, the Company leased additional adjacent space at the Pembroke Pines, Florida location under the same terms and period as the existing lease, bring the total monthly rent to \$9,186.

In June 2005, we negotiated with the landlord to lease an additional 5,000 square feet office on the second floor of our present facility, 9050 Pines Blvd., Pembroke Pines, Florida 33024. The Company will begin occupancy of this office in April 2006 and the lease expires in June 2009 with a monthly rent of \$9,186 (including sales tax).

In September 2005, the Company leased a 2,919 square foot office in Naples, Florida. The initial lease, between Globetel Wireless Corp., and Decaster Capnole Joint Venture, is for a term of three years, ending on September 21, 2008 with a monthly rent of \$4,628 with increases of 4% per year.

Our wholly owned subsidiary, Centerline Communications, is leasing approximately 6,519 square feet of office space where the Telecommunications switch is residing. This facility is at 611 Wilshire Blvd, Suite 500, Los Angeles, CA. The lease agreement began on May 1, 2005 and runs for seven years until January 31, 2012 at a base rent of \$7,497. In addition, our subsidiary is also leasing approximately 1,975 square feet of administrative office at 5515 Doyle Street, Suite 12, Emeryville, CA with a base rent of \$2,307. The term of the agreement began on May 1, 2005 and runs until January 31, 2008.

The Company leases a 66,000 square foot space hanger in Palmdale, California. The initial lease, between Sanswire Networks, LLC and the City of Los Angeles World Airports, was for a term of three months, ended July 22, 2005 with a monthly rent of \$19,990. On June 8, 2005 the lease term was amended for fifteen months, commencing June 8, 2005 through September 7, 2006, with two one-year options. Concurrently with the signing of the amended lease, the parties entered into a reimbursement agreement to share the cost of certain improvements.

In January 2005, GlobeTel signed a lease agreement with the San Bernardino International Airport Authority for hangar space at the airport in San Bernardino, California for the purpose of assembling and storing the Stratellite prototype. The term of the agreement is from January 15, 2005 through March 31, 2005, at a monthly lease rate of \$9,767. Three months prepaid rent totaling \$29,302 was paid in December 2005. The agreement provides that with the consent of the lessor we may remain on a month-to-month basis. The Company remained in the space on a month-to-month basis until moving to its new facility in Palmdale, California as described above.

GlobeTel formerly leased facilities at 444 Brickell Avenue, Suite 522, Miami, Florida 33131. The Company was under a five-year lease expiring April 2005, with a monthly rent of \$3,463. In January of 2005 the Company satisfied its lease obligation related to this office.

Sanswire Technologies, Inc., the company from which we purchased our Sanswire

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Networks, LLC intangible assets, had an office space lease in Dekalb County, Georgia. The lease term was from April 1, 2005 through March 31, 2005, with monthly rent of \$2,628. Although not directly obligated on this lease, the Company paid the monthly rent from May 2004 through March 2005, whereas employees of our subsidiary, Sanswire Networks, LLC, utilized the premises. The employees have since vacated the premises.

Effective November 2001, the Company signed a sub-lease agreement for the Jersey City facility with a customer /consultant of the Company. Pursuant to the sublease agreement, the customer/consultant has maintained the obligation of the monthly rent of \$1,600, and at January 31, 2003, the lease expired and the Company has no further obligation to the lessee.

56

Future minimum rental payments required under the above operating leases subsequent to the year ended December 31, 2005 are as follows:

2006	\$ 515,022
2007	415,520
2008	427,486
2009	377,454
2010 and thereafter	276,969

	\$2,012,451
	=====

Rent expense for 2005, 2004 and 2003 were \$480,995, \$126,424 and \$48,607, respectively.

NOTE 20. RELATED PARTY TRANSACTIONS

Related party transactions, other than those discussed in the notes above and below, include the following.

RELATED PARTY PAYABLES

As of December 31, 2005 and 2004, related party payables were \$57,500 and \$117,500, respectively. The balances represent short-term, non-interest bearing loans by officers of the Company, due on demand.

NOTES PAYABLE - STOCKHOLDER

As of December 31, 2002, the Company was obligated under a convertible promissory note payable to a stockholder and former director for \$55,000, principally representing advances to the Company. In 2003, the Company issued 266,667 (4 million pre-split) shares in complete settlement of the balance due.

SETTLEMENT WITH FORMER OFFICER AND DIRECTOR

In September 2005, the Company issued a total of 82,887 (1,243,305 pre-split) shares pursuant to a severance agreement with Leigh Coleman, a former President and Director, valued at \$123,750, based on the closing price of the shares on the dates of issuance. In addition, a total of 81,481 options to purchase common shares, valued at \$55,000 based on the option exercise price (adjusted for 1:15 reverse stock split) per the 2004 Employee Stock Bonus Plan.

LOSS ON SETTLEMENT WITH FORMER AFFILIATE

In September 2005, the Company entered into a settlement agreement with Sky

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

China, Ltd., an Australian company that Mr. Coleman is affiliated with. Mr. Coleman was a former President and member of the Board of Directors for Globetel. The Company and Sky China, Ltd. entered into an agreement in 2004 to joint venture with the company for telecommunications services in Australia and Asia, and, in 2004, issued 200,000 (3 million pre-split) shares of common stock valued at \$135,000. Pursuant to the settlement, the Company granted Sky China Ltd. options to acquire 1,543,176 (post-split) shares valued at \$1,256,873, based on \$0.8150 per share, the intrinsic value of the option share on the date of the agreement.

NOTE 21 - NET GAINS ON SETTLEMENT OF LIABILITIES AND DISCONTINUED OPERATIONS

During the years ended December 31, 2004 and 2003 the Company recorded net gains on settlement of debts totaling \$268,397 and \$26,274, respectively, as discussed below. There were no similar material transactions recorded in 2005.

EQUIPMENT VENDOR

At December 2003, the Company settled with one its vendors to pay a lesser amount for the purchase of equipment that ultimately did not function as purported. Likewise, the Company wrote off other long-term outstanding liabilities for purchase of equipment that also did not function properly. The settlement and write-off resulted in a gain of \$26,274 in 2003.

ACCOUNTS PAYABLE

During 2004, the Company had included in accounts payable certain disputed amounts payable to creditors totaling \$14,823. The Company does not believe it has obligations to pay the recorded balances, and the vendors have not sought collection from the Company for over one year, and, accordingly, recognized a gain in 2004.

57

PROFESSIONAL SERVICES PROVIDER AND NOTE HOLDER

In addition, the Company has recorded accounts payables to a former provider of professional services totaling \$333,060 and a note payable of \$50,000 to an individual, a principal of the professional services firm. The Company entered into an arrangement with the parties, which states that upon payment of a total of \$200,000, all of which was paid prior to December 31, 2004, the remaining balance of the above obligations referred to above will be considered fully satisfied without the necessity of further payments. The balance of \$183,060 was written off and a gain recorded in 2004 whereas the amounts due under the settlement are paid in full and all conditions fulfilled.

CAPITAL LEASE OBLIGATIONS

As of December 31, 2003, the Company had a balance due of \$53,311 of principal on capital lease obligation and \$15,924 in accrued interest. The equipment securing the obligation was abandoned prior to the 2003, after the lessee's refusal to accept return of the equipment in settlement of the obligation. The Company does not believe it has an obligation to repay the recorded balance, and neither the original lessee nor assigns have sought collection from the Company for over one year, and, accordingly the Company has recorded a gain of \$69,235 in 2004.

FORMER EMPLOYEES OF DISCONTINUED OPERATING DIVISION

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In June 2003, the Company ceased operations of its St. Louis, Missouri office. As part of the termination agreement with the employees of the St. Louis office, the employees were authorized to maintain and service the existing clients and keep the property and equipment of that office. The Company agreed to return the customer deposits made by the St. Louis clients. The Company recorded a gain of \$55,842 in 2003 in connection with these transactions, based on the excess of the liabilities extinguished over the assets given up by the Company.

Three terminated employees were issued a total of 80,000 (1.2 million pre-split) free-trading shares of the Company's stock as severance pay. The Company charged \$36,000 to expense in 2003 based on an amount equal to the average bid and asked price of the Company's shares on the date of issuance. The Company had a recorded balance due of \$16,279 to terminated employees. However, during the three months ended September 30, 2005, the Company determined, and the former employees agreed, that any and all amounts due to or payable on behalf of the employees had been satisfied and no additional amounts were owed.

FORMER CONSULTANTS

Certain former consultants of the Company were granted a judgment in the sum of \$15,000, as described in Note 19 above. All disputed amounts allegedly payable to the consultants were written off and a gain was reported in prior periods. A loss on settlement of liabilities was recorded during 2005, for the \$15,000 subsequently determined payable.

NOTE 22 - LOSS ON PROPERTY AND EQUIPMENT DISPOSITIONS

As of September 30, 2004, the Company evaluated its property and equipment, including telecommunications equipment, located both within and outside of the United States, and office furniture and equipment ascribed to our various domestic office locations maintained from 2000 through September 30, 2004. Certain assets were abandoned, based on management's determination that such assets have no economic value, due to such factors as technological obsolescence, non-functioning of assets, lack of salvage in excess of costs to dispose, and non-recoverability of assets located in geographical markets and areas in which we are no longer active. During 2004 we recorded a loss on disposition of property and equipment of \$56,804.

Similarly, in 2003, a loss of \$42,301 was recorded in connection with abandoned obsolete equipment.

NOTE 23. INCOME TAXES

Deferred income taxes and benefits for 2005 and 2004 are provided for certain income and expenses, which are recognized in different periods for tax and financial reporting purposes. The tax effects (computed at 15%) of these temporary differences and carry-forwards that give rise to significant portions of deferred tax assets and liabilities consist of the following:

	CURRENT PERIOD CHANGES	
2004		2005
-----	-----	-----

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Deferred tax assets:			
Accrued compensation	\$ 345,533	\$ 855,601	\$ 1,201,133
Allowance for doubtful accounts	171,254	(335,749)	(164,495)
Consulting services elected as start-up costs under IRC Sec. 195(b)	671,758	598,370	1,270,128
Accumulated depreciation	(10,521)	252	(10,269)
Net operating loss carryforwards	3,985,383	3,546,818	7,532,201
	-----	-----	-----
	5,163,407	4,665,292	9,828,699
Valuation allowance	(5,163,407)	(4,665,292)	(9,828,699)
	-----	-----	-----
Net deferred tax asset	\$ --	\$ --	\$ --
	=====	=====	=====

A reconciliation of income benefit provided at the federal statutory rate of 15% to income tax benefit is as follows:

	2005	2004
	-----	-----
Income tax benefit at federal statutory rate	\$(3,546,818)	\$ (930,379)
Accrued salaries	1,201,134	27,505
Allowance for doubtful accounts	(164,495)	(107,345)
Depreciation	(10,269)	(7,179)
Losses not benefited	2,520,448	1,017,398
	-----	-----
	--	--
	=====	=====

The Company has accumulated net operating losses, which can be used to offset future earnings. Accordingly, no provision for income taxes is recorded in the financial statements. A deferred tax asset for the future benefits of net operating losses and other differences is offset by a 100% valuation allowance due to the uncertainty of the Company's ability to utilize the losses. These net operating losses begin to expire in the year 2021.

At the end of 2005, the Company had net operating loss carry-forwards (including those of its successor due to accounting for the reincorporation as an "F" reorganization under the Internal Revenue Code) of approximately \$50,214,672, which expire at various dates through 2021.

NOTE 24. COMMON STOCK TRANSACTIONS

During the year ended December 31, 2003, the Company issued the following shares of Common stock, all of which shares are stated in pre-split amounts:

* PLEASE REFER TO NOTE ON PAGE 63.

* The valuation amounts of the above common stock transactions are based on the amounts that common stock and related additional paid-capital were increased (decreased) upon recording of each transaction. For exercises of stock options, no values are indicated, whereas the options were valued and the additional paid-in capital account was increased upon the original issuance (grant) of the options and no additional charges were recorded upon exercise of the options. For conversions of preferred stock, the valuation indicated is the recorded amount of the preferred stock upon original issuance of the preferred shares, which amount was reclassified to common stock and related additional paid-in capital upon conversion. Where preferred stock was originally issued for broker's fees (instead of cash) and, accordingly, no monetary compensation was received or recorded by the Company for the preferred shares issued, the listed common stock valuation is also zero.

In connection with the above, for certain issuances of shares, Forms S-8 have been filed with the Securities and Exchange Commission relative to such issuances of stock. The shares issued were valued by the Company based upon the average bid and asked price of the shares on the date of issuance. The value of these shares was charged to expense unless they were in consideration for future services, in which case they were recorded as deferred consulting fees.

For other issuances of shares during the periods described above, the Company-issued restricted shares (Rule 144) of its common stock to consultants and officers for services to the Company. Through December 31, 2004, issuance of restricted shares (Rule 144) were valued, due to limitations in current marketability, by the Company based upon half of the average bid and asked price of the Company's shares on the date of issuance, unless the services provided were valued at another amount as agreed upon between the parties.

Effective January 1, 2005, the Company adopted the policy of valuing all shares of common stock issued in consideration for services at the closing price of the shares on the date of issuance or date of Board approval or agreement, if earlier, regardless of whether the shares are issued or restricted or free-trading, except for instances where the closing price is based on contractual agreements.

Shares issued (retired) for loan collateral were recorded at par value.

NOTE 25. STOCK OPTIONS

During the year ended December 31, 2003, the Company issued the following options to acquire Common stock, all of which share amounts below are pre-split:

Date Issued	Shares	Consideration	Valuation	Relationship
-----	-----	-----	-----	-----
September 26, 2003	2,206,667	Satisfaction of debt	33,100	Former President
September 26, 2003	17,600,000	Accrued salary	264,200	Former President
September 26, 2003	8,944,467	Accrued salary	134,167	Chief Executive Officer
September 26, 2003	7,444,467	Accrued salary	111,667	Chief Operating Officer
September 26, 2003	7,444,467	Accrued salary	111,667	Chief Financial Officer

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

September 26, 2003	4,111,133	Accrued salary	61,667	Controller
December 18, 2003	6,666,667	Officer salary	100,000	Former President
December 18, 2003	5,333,333	Officer salary	80,000	Chief Operating Officer
December 18, 2003	3,333,333	Salary	50,000	Former Controller
December 18, 2003	1,000,000	Officer salary	15,000	President
December 18, 2003	1,666,667	Accounting services	25,000	Accountants
December 18, 2003	2,666,667	Network services	40,000	Vendor

According to option agreements in connection with the above shares, the option prices were the lower of \$.015 (pre-split) per share or one-half of the closing market price on the last reported sale or closing price on the date of the agreement. The above options were issued at \$.015 (pre-split) per share.

The above option shares were issued in "cashless exercises". Accordingly, the option shares actually issued were reduced by the number of shares required to pay for the options as \$.015 (pre-split) per share.

All of the above stock options were subsequently exercised in January 2004.

During the year ended December 31, 2004, the Company issued the following options to acquire Common stock, all of which share amounts below are pre-split:

Date Issued	Shares	Consideration	Valuation	Relationship

12/31/2005	2,454,803	Officer Stock Option Grant	\$4,394,097	Director

The above scheduled stock options include only those recorded at intrinsic value (see Note 1 above). Other stock options with no intrinsic value (i.e., not discounted) are discussed below, but are not required to be recorded in the financial statement.

EXECUTIVE STOCK OPTIONS PLAN

In May 2004, the board of directors approved an Officers' Stock Option Grant Plan, pursuant to which certain officers are entitled to receive stock options, for each of three years, beginning in 2004 (Year 1). The annual number of option shares to be issued will be equal to amounts that, after the exercise of such options, would affect ownership of various percentages of the total shares then issued and outstanding. The following officers received options for restricted shares in the following percentages: CEO - 3% in each of the three years (total 9%); COO - 2% in each of the three years (total 6%), CFO - 2.0% in Year 1 and 1.5% in each of the following years (total 5.0%), Director and former President - 1.0% in Year 1 and .5% in each of the following years (total 2%), current President - 1% in each of the three years (total 3%), and CTO - 1% in each of the three years (total 3%). The recipient's rights to the options will be fully vested as of December 31, 2004, although compensation expense is recorded at the completion of each year. The total of 6,654,166 (99,812,946 pre-split) option shares issuable for 2004. The stock options are exercisable at the lower of \$ 0.675 (\$.045 pre-split) per share, based on one-half of the average closing market price for the shares during the ten day period prior to the vesting date of December 31, 2004, or 50% of the closing market price on the date of exercise.

In addition to the above parties, the Corporate Secretary / general counsel and the Senior Vice-President were awarded 1% and 2%, respectively, of the total shares outstanding, at the fair market value of the Company's stock on the date the options were granted. Also, a board member, Randolph Dumas, was awarded 2.5% of the total shares outstanding, exercisable at \$1.79 per share at the date of issuance. A total of 13,992,374 options shares were granted for 2005.

STOCK OPTION BONUS PLANS

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In December 2004, the Company established its 2004 Stock Option Bonus Plan, wherein the board of directors authorized the issuance of stock options for restricted shares totaling 1,765,832 (26,487,483 pre-split) shares to the officers and employees of the company as payment of accrued bonuses through December 31, 2004. The stock options are exercisable at the lower of \$0.675 (\$.045 pre-split) per share, based on one-half of the average closing market price for the shares during the ten-day period prior to the vesting date of December 31, 2004, or 50% of the closing market price on the date of exercise.

In December 2004, the board of directors authorized the issuance of stock options for restricted shares totaling 247,885 (3,718,279 pre-split) shares to the directors of the company as payment of accrued board members' stipends through December 31, 2004. The stock options are exercisable at the lower of \$0.5865 (\$.0391 pre-split) per share or 50% of the closing market price on date of exercise.

In November 2005, the Company established its 2005 Stock Option Bonus Plan, wherein the board of directors authorized the issuance of stock options for restricted shares totaling 1,509,180 (post-split) shares to the officers and employees of the company as payment of accrued bonuses through December 31, 2005. The stock options are exercisable at \$2.12, based on the closing market price of the Company's free-trading shares on the date the options were granted. Through the date of this report, none of these options have been exercised.

During 2005, the board of directors authorized the issuance of stock options for restricted shares totaling 199,490 (post-split) shares to the directors of the company as board members' compensation for services through December 31, 2005. The stock options are exercisable at various amounts, ranging from \$1.99 to \$4.35 per share, based on the closing market price of the Company's free-trading shares on the date the options were granted, except for a now former director who was issued 37,500 and 30,000 (post-split) options shares at \$1.49 and \$0.99, respectively. Through the date of this report, none of these options have been exercised.

All of the options granted during 2005, unless otherwise discounted as noted above, were exercisable based on the closing market price of the Company's free-trading shares. Accordingly, whereas through December 31, 2005 the Company expenses stock options only at intrinsic value (per APB 25 - see Note 1 above), no expense was recorded for shares exercised based on the closing price of the Company's free-trading shares at the date granted.

65

2004 STOCK OPTIONS EXERCISED IN 2005

During 2005, a total of 1,785,490 (26,782,350 post-split) of the above options shares were exercised and issued (net of shares used to pay for "cashless" options"), with payment in cash and common stock subscriptions receivable totaling \$92,906, pursuant to the 2004 Stock Option Bonus Plan, the Officers' Stock Option Grant Plan, and for accrued board members' stipends, and, furthermore, these shares were registered by the Company's filing a Form S-8 registration statement. The number of shares registered were allocated to the individuals exercising the options based a ratio of the number of options held by each individual to the total number of options held by all individuals.

NOTE 26 - PREFERRED STOCK

SERIES A

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

In October 2003, the Company entered into an agreement with Fordham Financial Management Inc. to raise funds. In accordance with the agreement, the investors will receive preferred shares convertible into common stock upon investment. An Offering Circular was made available to investors on October 17, 2003.

The offering was for maximum of 150,000 shares ("Shares") of Series A Convertible Redeemable Preferred Stock, par value \$.001 per share ("Series A Preferred"). The shares have a liquidation preference of \$16.67 per share and each share is convertible into a number of shares of Common Stock determined by dividing the number of shares of Common Stock outstanding as of the date of conversion by three, and dividing the result of that calculation by 250,000. The Company may redeem the Shares at \$.001 per share at any time after the second anniversary of the date of issuance. Such redemption would effectively require the investor to convert his shares at that time or lose the entire amount of his investment.

As part of the offering, the Company agreed to pay its investment banking consultant, Fordham Financial Management, Inc. a 10% commission, plus 100,000 Shares.

The Company had \$1,200,000 subscribed as of December 31, 2003, and had received \$717,140 (\$1,200,000 less related expenses of \$107,860 and \$375,000 of subscriptions receivable). The full amount of \$2,500,000 had been subscribed as of January 31, 2005, and the \$2,250,000 (\$2,500,000 total less 10% commission) had been received as of February 6, 2005.

During 2004, preferred shareholders converted a total 153,500 shares into 10,642,666 (159,640,000 pre-split) of the Company's common stock, based on conversion ratio of 1,040 common shares for each preferred share owned, in accordance with the formula described above. The Company had remaining 96,500 Series A Preferred Shares issued and outstanding, representing \$697,500 subscribed, as of December 31, 2004. During 2005, the preferred shareholders converted a total all of the remaining 96,500 Series A Preferred shares into 8,911,651 (pre-split) shares of the Company's common stock.

SERIES B

On April 27, 2004, the Company agreed to sell 1,000 shares of Series B Preferred Stock of GlobeTel Communications Corp. (GTE) to Caterham Financial Management, Ltd., a Malaysian company (Caterham), for a total investment of \$15 million. The Company intended to use \$5 million of this investment for working capital and \$10 million to purchase two Stored Value Card Data switches.

The agreement was later modified so that the total number of shares is 35,000 for the same investment convertible into the same amount of common stock as agreed upon on April 27, 2005.

With respect to the \$5 million in working capital, Caterham had agreed to advance \$1 million to GlobeTel Communications on May 7, July 1, September 1, November 1 and December 31 of 2004. The Agreement provides that Caterham has a 10 day grace period, in which to make any scheduled payments. With respect to the Master Card Data switches, Caterham has agreed to advance an aggregate of \$5 million to GlobeTel Communications to purchase a Stored Value Card Data Switch, which will be located in Miami, Florida and subsequently a second switch will be installed in the Company's Hong Kong operations.

The Certificate of Designation for the Series B Preferred Stock was filed with the State of Delaware on July 30, 2004.

Except for voting rights and conversion rights, each share of Series B Preferred Stock shall have rights that are identical to shares of the Company's common stock. The Series B Preferred Stock issued to Caterham and its nominees will

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

have voting rights equal to 50% plus one share of the Company's authorized shares of common stock for a period of three years beginning on the first closing date and ending three years thereafter, provided that Caterham and/or its nominee have not converted more than 15% of their Series B Preferred Stock into the Company's common stock during this time period. In March 2005 the Company and Caterham amended the agreement to revise voting rights to specify that provided at least 85% of the Series B Preferred Stock remains outstanding, the holders of the Series B Preferred Stock, voting as a group, will have voting rights equal to 50% plus one shares of the Company's authorized shares of common stock for a period up to and including April 30, 2005. Thereafter the holders shall have one vote for each share of common stock for which the Series B Preferred Stock may be converted, regardless of the percentage of Series B Preferred Stock outstanding.

66

Beginning on the first anniversary after the first closing date and expiring two years thereafter, Caterham and its nominees may convert (in whole or in part) its Series B Preferred Stock into GlobeTel common stock. Each 1,000 share increment of Series B Preferred Stock, as a class, issued to Caterham and its nominees shall be convertible into that number of shares of the Company's common stock equal to 1% of GlobeTel then issued and outstanding shares (the "Aggregate Conversion Shares") as determined on the date in which Caterham, or one of its nominees, first converts its Series B Preferred Stock into the Company's common stock (the "First Conversion Date"). In March 2005, the Company and Caterham amended the agreement to revise conversion rights to provide issuance of 369,467 (5,542,000 pre-split) shares of GlobeTel common stock. Each holder of the Series B Preferred Stock will receive shares of GlobeTel aggregate conversion shares based on his pro-rata ownership of the Series B Preferred Stock. Three years after the first closing date, all of the shares of GlobeTel's Series B Preferred Stock which have not converted into GTEL common stock will be automatically converted into shares of GlobeTel's common stock.

The Company had subscribed and received \$3,350,000 as of December 31, 2004 (net of \$11.5 million of subscriptions receivable). A total of \$2,850,000 was received from Caterham; an amount representing \$500,000 was issued to Charterhouse in settlement of outstanding obligations (see Note 10 above). In addition an amount representing \$150,000, was issued as a broker's fee.

In January 2005 an additional \$250,000 was received from Caterham. The remaining amount of the subscription receivable was subsequently received during 2005 in the form of \$4,835,200 of telecommunication equipment - the data switch in connection with the Stored Value Card program.

In December 2005, the Company entered into an agreement with Caterham wherein all 35,000 Series A Preferred shares were converted into 12,931,334 post-split shares of GlobeTel common stock in full settlement of all obligations of the parties.

SERIES C

On April 27, 2004, the Company agreed to sell 1,000 shares of Series C Preferred Stock of GlobeTel Communications Corp. ("GTE") to Tim Ingram, a Hong Kong based investment banker, for a total investment of \$1 million. The Company intended to use this \$1 million investment for working capital and purchase of equipment necessary to expand the Company's Stored Value Card Programs.

On July 30, 2004, the Company filed a Certificate of Designation for Series C Preferred Stock with the State of Delaware.

Provided that the preferred shares have not been converted, the holders of the

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

Series C Preferred Stock, voting as a group, will have voting rights equal to the current conversion share amount at the time of the vote of GTE's authorized shares of common stock for a period of three years from the first closing date.

For a period of one year after the first closing date, the Series C Preferred Stock shall not be convertible into shares of GlobeTel Communications common stock. Beginning on the first anniversary of the first closing date and for a period of two years thereafter, Tim Ingram may convert (in whole or part) its Series C Preferred Stock into GlobeTel Communications common stock. Each 1,000 shares of Series C Preferred Stock will represent 2% of the GlobeTel Communications common in their converted state. The Series C Preferred Stock shall be convertible in at least 100 share increments, each increment, at the time of conversion, will represent one tenth of 2% of the issued and outstanding shares of GlobeTel Communications common stock. On the third anniversary of the First Closing Date, all shares of Series C Preferred Stock owned by Tim Ingram will automatically be converted into GlobeTel Communications common stock (to the extent such shares have not been converted into common stock prior to this date). Except for the aforementioned voting rights and conversion rights, each share of Series C Preferred Stock shall have rights that are identical to that of GlobeTel Communications' common stock.

Ingram agreed to advance \$1 million to GlobeTel Communications on or before June 25, August 25, October 25 and December 25, 2004. Mr. Ingram advanced \$250,000 to the Company on June 25, 2004 as agreed, and 250 shares of Series C Preferred Stock were issued. Subsequently, Mr. Ingram notified the Company that he will not be funding the remaining \$750,000 and instead agreed to assign the remaining amount to other groups wanting to invest in the Company. In December 2004, Mr. Ingram converted his preferred shares into 151,515 (2,272,727 pre-split) common shares, recorded at the then current market price of \$1.65 (\$.11 pre-split) per common share, for a total of \$250,000.

On August 20, 2004, the Company agreed to sell 500 shares of Series C Preferred Stock of GlobeTel Communications Corp. ("GTE") to Paul E. Taboada for a total investment of \$500,000. Mr. Taboada, an individual investor, has also been providing consulting services for the Company for over four years. The Company is using this \$500,000 investment for working capital and purchase of equipment for Sanswire Networks, LLC, necessary to launch the prototype of the Stratellite.

The purchase price was payable in five (5) installments of \$100,000, payable no later than August 30, 2004, September 30, 2004, October 30, 2004, November 30, 2004, and December 30, 2004. The Purchaser has a three-day cure period to remit the monthly payments. As of December 31, 2004, the Company has received the full \$500,000 as agreed upon.

In September 2005, Mr. Taboada converted all 500 shares of Series C Preferred Stock into 820,000 (12,300,000 pre-split) shares of the Company's common stock based on 1% of the then outstanding total of the Company's common stock, as agreed upon by the parties.

67

On October 22, 2004, the Company agreed to sell 250 shares of Series C Preferred Stock of GlobeTel Communications Corp. ("GTE") to Lawrence Lynch for a total investment of \$250,000. Mr. Lynch, an individual investor, is also the current Chief Operating Officer of the Company. The Company used this \$250,000 investment for working capital and purchase of equipment necessary to expand the Company's stored value card programs.

In November 2005, Mr. Lynch converted all 250 shares of Series C Preferred Stock into 500,000 (7,500,000 pre-split) shares of the Company's common stock.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

As of December 31, 2005, there were no subscriptions receivable for Series C preferred stock, all shares were converted into Company common stock, and the Company does not anticipate issuing any additional shares in connection with this preferred stock series.

SERIES D

On July 28, 2004, the Company agreed to sell 1,000 shares of Series D Preferred Stock of GlobeTel Communications Corp. ("GTE") to Mitchell A. Siegel, former Chief Operating Officer and current Vice President and Director of the Company. The Company intends to use \$1 million of this investment for working capital and purchase of equipment necessary to expand the Company's stored value card programs.

Mitchell A. Siegel agreed to advance \$1 million to GTEL in four (4) quarterly installments beginning August 2004. The agreement was subsequently modified for the installment period to be semi-annual and to begin in October 2004. Mr. Siegel has remitted the initial \$250,000, and in June 2005, remitted the second \$250,000.

The Certificate of Designation for the Series D Preferred Stock was filed with the State of Delaware on July 30, 2004.

Provided that the preferred shares have not been converted, the Holders of the Series D Preferred Stock, voting as a group, will have voting rights equal to the current conversion share amount at the time of the vote of GTE's authorized shares of common stock for a period of three years from the first closing date.

For a period of two years after the first closing date, the Series D Preferred Stock shall not be convertible into shares of GTE common stock. Beginning on the second anniversary of the first closing date and for a period of one year thereafter, Mitchell A. Siegel may convert (in whole or part) its Series D Preferred Stock into GTE common stock. The 1000 shares of Series D Preferred Stock will represent 2% of the GTE common in their converted state. The Series D Preferred Stock shall be convertible in at least 100 share increments, each increment, at the time of conversion, will represent one tenth of 2% of the issued and outstanding shares of GTE common stock. On the third anniversary of the first closing date, all shares of Series D Preferred Stock owned by Mitchell A. Siegel will automatically be converted into GTE common stock (to the extent such shares have not been converted into common stock prior to this date). Except for the aforementioned voting rights and conversion rights, each share of Series D Preferred Stock shall have rights that are identical to that of GTE's common stock.

The Company expects to receive the remaining \$500,000 in stock subscriptions receivable from Mr. Siegel in the near term.

NOTE 27. SEGMENTS AND RELATED INFORMATION

During the year 2001, the Company adopted FASB Statement No. 131 (SFAS No. 131), "Disclosures about Segments of an Enterprise and Related Information," which changes the way the Company reports information about its operating segments.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. All inter-segment sales prices are market based. The Company evaluates performance based on operating results of the respective business units, segregated into telecommunications services (international wholesale carrier traffic, networks, prepaid calling services, internet telephony, stored value services and Super Hubs(TM) and the Sanswire Stratellite project. The "Unallocated" column includes expenses incurred by and

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

net other income realized by the parent corporation, GlobeTel, including corporate operating expenses, not specifically allocated to either operating segment.

NOTE 28 - SUBSEQUENT EVENTS

In January 2006, investors exercised all of the outstanding 2,727,273 Class A Warrants at \$2.50 per share for gross proceeds of \$6,818,183. The Company also agreed to issue the investors a total of 1,935,606 new warrants with an exercise price of \$4.00 per share, and the warrants expire on August 31, 2008.

On March 23, 2006, the Company announced that J. Randolph Dumas, Vice Chairman, has been elected Chairman of the Board of Directors, succeeding Sir Christopher Meyer, who remains with the Company as Chairman of the GlobeTel International Advisory Board.

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 8A. CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As required by Rule 13a-15 under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), the Company carried out an evaluation under the supervision and with the participation of the Company's management, including the Chief Executive Officer and President and the Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of December 31, 2005. In designing and evaluating the Company's disclosure controls and procedures, the Company and its management recognize that there are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their desired control objectives. Additionally, in evaluating and implementing possible controls and procedures, the Company's management was required to apply its reasonable judgment. Furthermore, in the course of this evaluation, management considered certain internal control areas, including those discussed below, in which we have made and are continuing to make changes to improve and enhance controls. Based upon the required evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that as of December 31, 2005, the Company's disclosure controls and procedures were effective (at the "reasonable assurance" level mentioned above) to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

69

From time to time, the Company and its management have conducted and will continue to conduct further reviews and, from time to time put in place additional documentation, of the Company's disclosure controls and procedures, as well as its internal control over financial reporting. The Company may from time to time make changes aimed at enhancing their effectiveness, as well as changes aimed at ensuring that the Company's systems evolve with, and meet the needs of, the Company's business. These changes may include changes necessary or desirable to address recommendations of the Company's management, its counsel and/or its independent auditors, including any recommendations of its independent auditors arising out of their audits and reviews of the Company's financial statements. These changes may include changes to the Company's own systems, as well as to the systems of businesses that the Company has acquired or that the Company may acquire in the future and will, if made, be intended to enhance the effectiveness of the Company's controls and procedures. The Company is also continually striving to improve its management and operational efficiency and the Company expects that its efforts in that regard will from time to time directly or indirectly affect the Company's disclosure controls and procedures, as well as the Company's internal control over financial reporting.

As the Company moves successfully forward along its various product lines, new people have joined the Company while others have been assigned new and expanding responsibilities. In addition to establishing up-to-date financial controls throughout the Company to reflect this new organization and expanding market

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

development, GlobeTel has updated various standards and compliance measures to reflect its emerging global presence.

This includes a strict adherence to the Foreign Corrupt Practices act, an updated and enhanced Code of Conduct and Business Ethics as well as its Corporate Governance Statement. We have made significant changes in the Company's internal controls that have affected the internal controls subsequent to the date of the evaluation. We have established a financial reporting controls committee, which meets quarterly to address corporate financial issues. We have added two more employees to its accounting staff, including an experienced full-time Controller and Accountant. Additionally, we have purchased a financial reporting software tool to help analyze financial data and to expedite the consolidation and reporting process. We have purchased a new integrated accounting system which will be implemented during the first quarter of 2006. In addition, the Company hired a consultant to perform an internal control review for the purpose of evaluating the Company's internal controls. As a result, additional controls and procedures were implemented. The Company has also restructured departmental responsibilities and instituted a budgeting process.

ITEM 8B. OTHER INFORMATION

BOARD APPOINTMENTS AND RESIGNATIONS

On August 30, 2005, Leigh Coleman, a director of the Company, resigned effective August 18, 2005. There were no disputes with the Company.

The Board of Directors appointed Jonathan Leinwand to the Board of Directors effective August 18, 2005. Mr. Leinwand is also our general counsel.

On September 16, 2005, the Company named Sir Christopher Meyer, KCMG, as Chairman of its Board of Directors. The appointment of Sir Christopher, 61, increased the number of independent Directors to three among a total of seven Board members.

On October 7, 2005, Przemyslaw Kostro resigned as a director of the Company. Mr. Kostro had no disputes with the Company.

On November 29, 2005, Mr. J. Randolph Dumas was appointed to the position of Executive Vice Chairman and Director. In this new function, Mr. Dumas will be expanding on his previous role as a joint venture partner in Sanswire Europe.

On December 8, 2005, Ms. Laina Raveendran Greene, a director of the Company, resigned her position on the Board of Directors effectively immediately, for personal reasons. Ms. Greene had no disputes with the Company.

On January 5, 2006, the Company announced the appointment of Michael P. Castellano to the Board of Directors. As an independent director, Mr. Castellano will fulfill the role as Chairman of GlobeTel's Audit Committee as a qualified financial expert under Sarbanes-Oxley. He will also serve on GlobeTel's Compensation and Nominating Committees.

On January 11, 2006, the Company announced the appointment of Dorian B. Klein to its Board of Directors. Mr. Klein also serves on GlobeTel's Audit, Compensation and Nominating Committees.

On February 17, 2006, the Company announced that Sir Christopher Meyer, its Non-Executive Chairman, had requested a change in his status, effective March 19, 2006, to that of an Independent Director. As a result of his current professional obligations and commitments in the U.K., Sir Christopher had advised the Board that he felt unable to commit the time to the Chairmanship of

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

GlobeTel that the company's shareholders had the right to expect.

70

On March 20, 2006, Sir Christopher Meyer elected to step down completely from GlobeTel's Board, after further considering the time that he had available to devote to the Company.

On March 23, 2006, the Company announced that J. Randolph Dumas, Vice Chairman, has been elected Chairman of the Board of Directors, succeeding Sir Christopher Meyer, who remains with the Company as Chairman of the GlobeTel International Advisory Board.

PART III

ITEM 9. DIRECTORS, EXECUTIVE OFFICERS, PROMOTERS AND CONTROL PERSONS

Name	Age	Position	Term
J. Randolph Dumas	59	Executive Vice Chairman	One Year
Dorian Klein	47	Director	One Year
Kyle McMahan	48	Director	One Year
Michael P. Castellano	64	Director	One Year
Timothy M. Huff	41	Chief Executive Officer & Director	One Year
Mitchell A. Siegel	59	Vice President & Director	One Year
Jonathan Leinwand	35	Secretary to the Board, Director	One Year
Thomas Y. Jimenez	47	Chief Financial Officer	One Year
Lawrence Lynch	54	Chief Operating Officer	One Year
Joseph Seroussi	56	Chief Technical Officer	One Year
Steven King	38	Senior Vice President	One Year

All directors hold office until the next annual meeting of our stockholders and until their successors have been elected and shall qualify. Officers serve at the discretion of our Board of Directors.

Sir Christopher Meyer, Chairman, was first elected to the Board of Directors in September 2005. Sir Christopher joined the British Diplomatic Service where he quickly rose through the ranks through a succession of increasingly responsible positions in key countries around the world, starting in Moscow, and then Madrid and later, in London, where he served as Head of the Soviet Section of the Foreign Office. He then became Chief Speech Writer to the Foreign Secretary, working for three Foreign Secretaries: Lord James Callaghan (later Prime Minister); Anthony Crosland; and Lord David Owen. From there, Sir Christopher was posted to Brussels where he was active in the UK's representation to the European Union (EU) specializing in trade policy and later returned to Moscow in 1982 as Political Counselor. Upon returning to London, he was appointed to the position of Foreign Office Spokesman and Press Secretary to the Foreign Secretary (similar to the U.S. Secretary of State), later Lord Geoffrey Howe of Aberavon. From 1988-1989, Sir Christopher was a Visiting Fellow at Harvard University's Centre for International Affairs and, upon completion, was named Minister for Trade Policy in Washington D.C. Shortly thereafter, he was appointed Deputy Head of Mission at the Embassy in Washington. Upon returning to London, he served two years as Government Spokesman and Press Secretary to then-Prime Minister, John Major, prior to his appointment as U.K. Ambassador to the Federal Republic of Germany in Bonn. In 1997, Sir Christopher was appointed Ambassador to the U.S., the most senior position in the U.K. Diplomatic Service, where he served until 2003, the longest single tenure since World War II.

On March 20, 2006, Sir Christopher Meyer elected to step down completely from GlobeTel's Board, after further considering the time that he had available to

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

devote to the Company. However, on March 23, 2006, Sir Christopher Meyer decided to accept a new role as Chairman of the Company's newly-formed International Advisory Board.

On March 23, 2006, the Company announced that J. Randolph Dumas, Vice Chairman, has been elected Chairman of the Board of Directors, succeeding Sir Christopher Meyer, as of March 20, 2006.

71

J. Randolph Dumas, Vice Chairman, became the Managing Partner of Sanswire Europe, a partnership with Sanswire LLC, in July 2005. Having joined GlobeTel in November 2005, he has served as a member of the Board of Directors of GlobeTel Communications since December 2005. Mr. Dumas served as a Naval Aviation Officer during the Viet Nam War Era and, later, served as a briefing officer within the Central Intelligence Agency in Washington D.C. before attending The Wharton School where he completed his MBA degree in finance in 1977. Currently, a resident of London, England - he has lived and worked in Europe for the past 25 years. He became a senior Managing Director at Salomon Brothers International Limited where he was responsible for the firm's European corporate finance, mortgage securities and real estate investment banking businesses for a number of years. Subsequently, Mr. Dumas founded and became the Managing Partner of two prominent private equity firms: Dumas West & Co. (a 50:50 partnership with the "Baby Bell" telecommunications company, US West) and Rubikon Partners, a firm focusing on European leveraged buyouts founded by Mr. Dumas, Dr. Henry Kissinger, Thomas F. McLarty III (President Clinton's Chief of Staff) and Leo A. Daly III. Mr. Dumas has had extensive experience working in virtually every business sector and in every country within Europe, Asia and in much of the Middle East. He maintains strong relationships in these countries at the highest levels.

Michael P. Castellano is a certified public accountant with more than 40 years of experience in the financial sector. His distinguished career includes executive positions in corporate accounting, finance, and administration at renowned companies such as Avis, Inc., E.F. Hutton, Inc., and Fidelity Investments. At Fidelity, he held the positions of Vice President and Corporate Controller and was later appointed Senior Vice President and Chief Accounting Officer of the Fidelity Institutional Group. Later assignments included the positions of Executive Vice President and Chief Administrative Officer at Kobren Insight Group where he became a member of the Board of Directors in 1997. He was also a director and head of the Audit Committee for Puradyn Filter Technologies from 2001 through 2005 and ResortQuest International, a New York Stock Exchange listed property management company, from 2002 until November 2003 when it was acquired by Gaylord Entertainment. Mr. Castellano currently serves as a director and chairman of the Audit Committees of Sona Mobile and Sun Capital Advisers Trust.

Dorian Klein has more than 25 years of professional experience in international finance and investments. He has a distinguished record as an investment banker having worked for more than 20 years in New York, London and Tokyo, including roles as Managing Director and Head of European Structured and Principal Finance at Merrill Lynch in London and as Managing Director and Head of Asset Finance at Bankers Trust in London. He also headed the Tokyo office of a highly successful boutique investment bank that he co-founded with his colleagues from Paine Webber during the 80s. During his career as an international investment banker, Mr. Klein structured or executed more than 500 complex securities transactions, in both public and private markets, involving every type of debt and equity security. Mr. Klein is currently the Managing Partner of Rubikon Partners, a private equity firm specializing in mid-cap European buy-ins and buy-outs, which he co-founded together with Dr. Henry Kissinger, the Hon. Thomas McLarty, Leo A. Daly and J. Randolph Dumas. He has also been a private investor in several

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

European technology companies, including several in fields which are directly relevant to the business strategy of GlobeTel. Mr. Klein is also currently on the Boards of Investitori Associati (the largest Italian private equity fund) and Holding.com (a Dutch company with high-tech holdings throughout Europe). Mr. Klein is an alumnus of Yale University (BA in Mathematics) and the Harvard Business School (MBA in Finance).

Kyle McMahan has served on our Board of Directors since May 2005. From 1989 to 2003, Mr. McMahan served as Chief Executive Officer of Southern Mortgage Reporting, Inc., a credit-reporting agency. From April 2001 through September 2003, he served as chairman of INFO 1 Co., Inc., a company that organized, planned and financed the startup of new businesses in the credit reporting industry. Mr. McMahan has served as a board member of The Mortgage Bankers Association of Georgia and The National Credit Reporting Association. He has been nominated to serve on the Company's Board of Directors in accordance with the terms of the Company's asset purchase agreement with Sanswire Technologies, Inc.

Timothy M. Huff, Director, Chief Executive Officer, joined GlobeTel in October 1999, and has served as CEO and as a member of the Board of Directors since April 2002. Prior to joining GlobeTel, Mr. Huff spent over five years owning and operating several successful private telecom companies. Mr. Huff has over eighteen years experience in international telecom business that included working with Sprint and MCI International, where he was involved in the construction of MCI's first international gateways.

Mitchell A. Siegel, Director, Senior Vice President, has served in this capacity since August 2004. Previously he held the position of Chief Executive Officer, Vice President and as a member of the Board of Directors since May 2002. Since 1996, he was a consultant to Global Transmedia Communications Corporation and was instrumental in defining our role as a licensed telecommunications company. Mr. Siegel graduated from American University, holding a Bachelors Degree in Business Administration and has completed Masters Degree courses in finance at City College of New York - Bernard Baruch School of Finance.

Mr. Leinwand joined GlobeTel as General Counsel in June 2005 and became a director in August 2005. Prior to joining Globetel, he was in private practice since 1996 concentrating in the areas of corporate and securities law, representing a number of public companies. As part of his practice, Mr. Leinwand also served as a deal-maker for several US and foreign corporations arranging strategic alliances and funding both in the US and abroad. Mr. Leinwand graduated from the University of Miami with honors degrees in Political Science and Communications and graduated cum laude from the University of Miami School of Law.

72

Thomas Y. Jimenez, CPA, Chief Financial Officer, has served as our CFO since joining the Company in October 1999. For the three years prior to joining the Company, Mr. Jimenez was a consultant to various telecommunications companies, running their financial department and assisted in building networks in different countries. Previously, Mr. Jimenez was a partner in certified public accounting firm in the New York City area. Mr. Jimenez graduated from Cleveland State University with a degree in Business Administration.

(B) COMPLIANCE WITH SECTION 16(A) OF THE EXCHANGE ACT

Section 16(a) of the Securities Exchange Act of 1934 requires that our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission and with any exchange on which the Company's securities are traded. Officers, directors and persons owning more

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

than ten percent of such securities are required by Commission regulation to file with the Commission and furnish the Company with copies of all reports required under Section 16(a) of the Exchange Act. Based solely upon our review, we did not disclose any failures to file reports under Section 16(a) of the Exchange Act.

The audit committee consists of three directors of which one, Michael Castellano, is a financial expert under Sarbanes-Oxley and the two directors, Dorian Klein and Kyle McMahan are independent directors. Mr. Castellano also fulfills an important role as Chairman of GlobeTel's separately designated Audit Committee. Mr. Castellano succeeds Laina Raveendran Greene, who stepped down from the Board in December 2005 for personal reasons.

73

(a) Effective January 1, 2002, GlobeTel entered into a three-year employment agreements with its key management. Effective 2005, the agreements were renewed automatically on a year-to-year basis.

For the year 2002, the agreements provided for annual compensation of \$150,000 for its Chief Executive Officer (CEO), \$125,000 each for its Chief Financial Officer (CFO) and Chief Operating Officer (COO) and \$75,000 each for its Chief Administrative Officer (CAO) and VP of Network Operations. Further, there remained an employment contract with its former President, as described below, which called for a salary of \$100,000 per annum through 2003.

In 2003, the base compensation increased to \$175,000 for its CEO, \$150,000 each for its CFO and COO, \$90,000 each for its CAO and VP of Network Operations.

In 2004, the base compensation increased to \$200,000 for its CEO, \$175,000 each for its CFO and COO, \$120,000 for the Controller (formerly the CAO) and \$110,000 for its VP of Network Operations. Also, GlobeTel hired a new President at an annual compensation of \$125,000 in June 2005, a Senior Vice President (Sr. VP) at an annual compensation of \$100,000 in August 2005, and a Chief Technology Officer (CTO) at an annual compensation of \$125,000 in November 2005.

Accrued but unpaid base compensation of \$82,500 for the CEO, \$57,500 for the CFO and \$58,333 for the COO (a total of \$198,333) were owed as of December 31, 2004. These amounts were paid in January 2005.

In 2005, the base compensation remained at \$200,000 for its CEO. The CFO, COO, CTO and General Counsel all had base compensation of \$175,000. The Company also entered into employment contracts with the Executive Vice Chairman (EVC) and Senior Vice President (SVP) of Finance. The EVC agreement called for annual salaries of \$250,000 plus signing bonuses equal to 2.5% of the outstanding shares of the company as of December 31, 2005. The EVC is also entitled to stock salary in stock options totaling \$750,000 per year for three years at \$1.21 per share. The SVP Finance agreement calls for annual salaries of \$195,000 plus bonuses amounting to 2% of the outstanding shares of the Company's stock at the end of the year, payable in the form of stock options.

(b) In addition to the base compensation, the employment agreements provide for

Edgar Filing: GLOBETEL COMMUNICATIONS CORP - Form 10-K/A

payment of bonuses that at a minimum equal the executives' base compensation, unless otherwise agreed to by the executives. As of December 31, 2003 and 2002, the executives all agreed not to receive bonuses they are entitled to pursuant to the employment agreements. For 2004, the executives received bonuses as entitled to under the agreements. The bonuses received were equal to the amount of gross compensation received during 2004. All executive bonuses for 2004 were included in the Employee Stock Option Plan (see Note 24 to financial statements) and paid with stock options.

In 2005, the bonuses were awarded at the recommendation of management and approved by the board of directors. All executive bonuses for 2005 were included in the Employee Stock Options Plan and paid with stock options.

(c) Vivian Manevich served as the CAO through 2002. Thereafter, Ms. Manevich accepted a non-executive position in the Company, and, accordingly, any and all compensation for 2003, 2004 and 2005 was included in employee payroll and none of her compensation was included in executive compensation.

(d) In 2005, The Company's Directors received stipends of \$6,250 per quarter. The CFO, COO and SVP of Finance who are required to attend and present to the board receive stipends of \$3,125 per quarter. The Chairman of the Board has stipends of \$25,000 per quarter.

Non-executive directors' stipends were paid with cash, while executive directors' stipends were paid in stock options. Further, the board members approved the issuance of bonuses to the members at the end of the year amounting to 100% of the stipends earned during the year, which were paid in stock options.

In 2004, the then Chairman received additional stock compensation of \$425,000, for services rendered providing assistance in expanding our business and services world-wide and in obtaining funding for us.

(e) Pursuant to an Officers' Stock Option Grant plan approved by the Board (see Note 22 to financial statements), certain officers are entitled to receive stock options in amounts which, after the exercise of such options, would effect ownership of various percentages of the total shares then issued and outstanding. The following officers received options for restricted shares in the following percentages for 2005: CEO - 3%, former COO and current SVP - 2%, CFO - 1.5%, current COO - 1%, CTO - 1%, SVP of Finance - 2% and General Counsel - .75%.

The schedule below indicates the number of shares received upon exercise and the aggregate dollar value realized upon exercise in 2005 by officers and directors pursuant to the above plans.

74

NAME	POSITION	SHARES EXERCISE (POST-SPLIT)	VALUATION
HUFF, TIMOTHY	Chief Executive Officer/Director	500,000	\$ 900,000

		=====	=====

COMPENSATION OF DIRECTORS

In Section 10, the last paragraph entitled "COMPENSATION OF DIRECTORS" should be replaced in its entirety with

The Company compensated the Directors using cash and stock options. Directors fees are \$25,000 per annum (paid quarterly). Upon their election as a member of the board of directors, each non-employee director received 25,000 stock options. These options granted to our directors vest as follows: options to purchase 100% of the shares vest as of first anniversary of date of grant. We reimburse our directors for all out-of-pocket expenses incurred in the performance of their duties as directors.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

COMMON STOCK

At the date of this report, we had 102,808,081 common shares issued and outstanding. The table below sets forth the share ownership of our executive officers and directors, individually and as a group.
