- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES AND EXCHANGE ACT OF 1934
FOR THE PERIOD ENDING SEPTEMBER 30, 2009
- OR
- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES AND EXCHANGE ACT OF 1934
FOR THE TRANSITION PERIOD FROM _____ TO _____
COMMISSION FILE NUMBER 0 - 1325

MULTIBAND CORPORATION

(Exact name of registrant as specified in its charter)

MINNESOTA

(State or other jurisdiction of incorporation or organization)

41 - 1255001

(IRS Employer Identification No.)

9449 Science Center Drive, New Hope, Minnesota 55428

(Address of principal executive offices)

Telephone (763) 504-3000 Fax (763) 504-3060

Internet: www.multibandusa.com

(Registrant's telephone number, facsimile number, and Internet address)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities and Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to

submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

On, November 5, 2009 there were 9,659,797 shares outstanding of the registrant's common stock, no par value, and 490,418 outstanding shares of the registrant's convertible preferred stock.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

NOTE 1 - Unaudited Consolidated Financial Statements

The information furnished in this report is unaudited and reflects all adjustments which are normal recurring adjustments and, which in the opinion of management, are necessary to fairly present the operating results for the interim periods. The operating results for the interim periods presented are not necessarily indicative of the operating results to be expected for the full fiscal year. The unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2008, previously filed with the Securities and Exchange Commission.

NOTE 2 - Summary of Significant Accounting Policies

Nature of Business

Multiband Corporation and subsidiaries (the Company) was incorporated in Minnesota in September 1975. The Company provides voice, data and video services to multi-dwelling unit and single family home customers. The Company's products and services are sold to customers located throughout the United States of America.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern that contemplates the realization of assets and satisfaction of liabilities in the normal course of business. For the nine months ended September 30, 2009, the Company incurred a net loss attributable to Multiband Corporation and subsidiaries of \$10,163 versus the nine months ended September 30, 2008 in which the Company earned a net income attributable to Multiband Corporation and subsidiaries of \$103. At September 30, 2009, the Company had an accumulated deficit of \$91,297. The Company's ability to continue as a going concern is dependent on it attaining profitability and/or raising additional capital. Management may sell, if prudent, certain assets on a strategic basis for prices agreeable to the Company and/or obtain additional debt or equity capital to meet all of its existing cash obligations and fund commitments on planned Multiband projects; however, there can be no assurance that the sources will be available or available on terms favorable to the Company. Management anticipates that the impact of the actions listed below will generate sufficient cash flows to pay current liabilities, long-term debt and capital and operating lease obligations and fund the Company's operations for the next twelve months:

1. Initiate and grow its Home Service Provider (HSP) business by eliminating competitive HSP providers from certain of its core markets.
2. Improve gross margin percentages by cycling technicians from training and placing them in a revenue generating role and by mitigating work order breakage expense.
3. Reduce operating expenses by reducing training costs through the lowering of technician turnover, managing professional fees, insurance and other general and administrative expenses.
4. Evaluate factors such as anticipated usage and inventory turnover to maintain optimal inventory levels.
5. Obtain additional debt financing.
6. Expand call center support with sales of call center services to both existing and future system operators and to buyers of the Company's video subscribers.
7. Solicit additional equity investment in the Company by either issuing preferred or common stock.

Principles of Consolidation

The 2008 consolidated financial statements include the accounts of Multiband Corporation (MBCorp) and its wholly owned subsidiaries, Minnesota Digital Universe, Inc. (MDU), Multiband Subscriber Services, Inc. (MBSS), and Multiband USA, Inc. (MBUSA). In addition, effective March 1, 2008, the Company acquired a 51% interest in Multiband NC, Inc. (NC) (formerly Michigan Microtech, Inc. (MMT)) and have also included NC's results of operations and cash flow for the seven months ended September 30, 2008 in the consolidated financial statements for that period.

In addition, effective January 2, 2009, the Company purchased 80% of the issued and outstanding shares of common stock of all of the DirecTECH Holding Co. (DTHC) operating subsidiaries (DirecTECH) (an additional 29% of Multiband NC, Inc. (NC) (formerly Michigan Microtech, Inc. (MMT)), 51% of which was previously purchased effective March 1, 2008 (see Note 3) and 80% of Multiband NE, Inc. (NE), Multiband SW, Inc. (SW), Multiband EC, Inc. (EC), Multiband MDU, Inc. (MBMDU), Multiband DC, Inc. (DC) and Multiband Security, Inc. (Security) (see Note 3)). The noncontrolling interest in subsidiaries on the unaudited condensed consolidated balance sheet (formerly Minority Interest) and unaudited condensed consolidated statement of operations represents DTHC's 20% ownership of Multiband NE, Inc. (NE), Multiband SW, Inc. (SW), Multiband EC, Inc. (EC), Multiband NC, Inc. (NC), Multiband MDU, Inc. (MBMDU), Multiband DC, Inc. (DC) and Multiband Security, Inc. (Security). The 2009 consolidated financial statements include the accounts of all wholly-owned subsidiaries and the newly acquired companies (DirecTECH). The Company pushes down applicable overhead, interest expense and amortization expense from the parent company (MBCorp) to its subsidiaries. All significant intercompany transactions and balances have been eliminated in consolidation.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

Revenue Recognition

The Company recognizes revenue in accordance with the Securities Exchange Commission's Staff Accounting Bulletin No. 104 "Revenue Recognition" ("SAB 104"), which requires that four basic criteria be met before revenue can be recognized: (i) persuasive evidence of a customer arrangement exists; (ii) the price is fixed or determinable; (iii) collectability is reasonably assured; and (iv) product delivery has occurred or services have been rendered. The Company recognizes revenue as services are performed and completed.

The Company earns HSP segment revenue as follows:

- installation and service of DirecTV video programming for residents of single family homes
 - installation of home security systems and internet services

The Company has a home services provider (HSP) agreement with DirecTV which allows the Company to install and activate DirecTV video programming services for residents of single family homes. As a DirecTV HSP, the Company earns revenue for installing and servicing DirecTV video customers pursuant to predetermined rates set by DirecTV which may vary from time to time. Revenue is recognized upon completion of the delivery and installation of equipment. DirecTV reimburses the Company for substantially all DirecTV equipment used for customer installation related to the HSP segment.

MDU segment user charges are recognized as revenues in the period the related services are provided. Any amounts billed prior to services being provided are reported as deferred service obligations and revenues.

The Company earns MDU segment revenue as follows:

1. from voice, video and data communications products which are sold and installed
2. direct billing of user charges to multiple dwelling units, through the activation of, enhancement of, and residual fees on video programming services provided to residents of multiple dwelling units

Revenue generated from activation of video programming services is earned in the month of activation. According to Multiband's Master System Operator agreement with DirecTV, in the event that a customer cancels within the first 12 months of service, DirecTV has the right to chargeback the Company for a portion of the activation fees received. The Company has estimated the potential charge back of commissions received on activation fees during the past 12 months based on historical percentages of customer cancellations and has included that amount as a reduction of revenue. Residual income is earned as services are provided by DirecTV through its system operators. As a master system operator for DirecTV, the Company earns a fixed percentage based on net cash received by DirecTV for recurring monthly services, a variable amount depending on the number of activations in a given month, and a variable amount for coordinating improvements of systems used to deliver enhanced programming services. The Company's master system operator contract with DirecTV also permits the Company to earn revenues through its control of other system operators who are unable to provide DirecTV video programming services without the Company's performance.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

The Company reports the aforementioned MDU voice, data, and video revenues on a gross basis based on the following factors: the Company has the primary obligation in the arrangement with its customers; the Company controls the pricing of its services; the Company performs customer service for the agreements; the Company approves customers; and the Company assumes the risk of payment for services provided. We offer some products and services that are provided by third party vendors. We review the relationship between us, the vendor and the end customer on an individual basis to assess whether revenue should be reported on a gross or net basis. As an example, our resold satellite digital television revenue is reported on a net basis.

MDU segment revenue generated by the support center to service third party subscribers by providing billing and call center support services is recognized in the period the related services are provided.

Customers contract for both the purchase and installation of voice and data networking technology products and certain video technologies products. Revenue is recognized when the products are delivered and installed and the customer has accepted and has the ability to fulfill the terms of the contract.

The Company's policy is to present taxes imposed on revenue-producing transactions on a net basis which means any sales tax charged is not part of the Company's revenues.

Deferred Revenue

The Company invoices for certain installation upgrade projects upon order of project equipment. Revenue is deferred on these projects until the equipment is installed.

Goodwill and Other Intangible Assets

The Company periodically evaluates goodwill and other intangible and long-lived assets for potential impairment indicators. These judgments regarding the existence of impairment indicators are based on legal factors, market conditions and operational performance of the business segments. Future events could cause the Company to conclude that impairment indicators exist and that goodwill and other intangible and long-lived assets are impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations. Goodwill was \$35,489 and \$1,095 at September 30, 2009 and December 31, 2008, respectively, and is recorded as part of our MDU and HSP segments. The increase in goodwill during 2009 is due to the purchase of DirecTECH (see Note 3).

Goodwill by business segment consists of the following:

	MBCorp.	MDU	HSP	Total
Balance, December 31, 2008	\$ -	\$ 50	\$ 1,045	\$ 1,095
Acquisitions	-	312	34,082	34,394
Balance, September 30, 2009	\$ -	\$ 362	\$ 35,127	\$ 35,489

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

Components of intangible assets are as follows:

	September 30, 2009		December 31, 2008	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Intangible assets subject to amortization				
Right of entry contracts	\$ 2,583	\$ 1,087	\$ 801	\$ 526
Contracts with DirecTV	36,902	13,952	11,502	8,060
Customer contracts	102	102	102	86
Total	39,587	15,141	12,405	8,672
Impairment of intangibles	-	-	-	65
Total including impairment	\$ 39,587	\$ 15,141	\$ 12,405	\$ 8,737

Amortization of intangible assets was \$1,759 and \$669 for the three months ended September 30, 2009 and 2008, respectively. For the nine months ended September 30, 2009 and 2008, amortization of intangible assets was \$6,469 and \$1,851, respectively. Estimated amortization expense of intangible assets for the remainder of the year ending December 31, 2009 and for the years ending December 31, 2010, 2011, 2012, 2013, 2014 and thereafter is \$1,778, \$5,726, \$5,104, \$5,058, \$4,961, \$1,714 and \$92, respectively. Right of entry contracts contain \$13 of contracts that have not been placed in service, therefore no amortization expense has been recorded. The weighted average remaining life of the intangibles is 4.42 years, with right of entry contracts average life of 4.38 years and contracts with DirecTV of 4.42 years as of September 30, 2009.

Debt Issuance Costs

The Company has incurred \$145 of debt issuance costs during the nine months ended September 30, 2009. The Company amortizes the debt issuance costs over 43 months and includes these costs with other assets on the unaudited condensed consolidated balance sheet. Amortization of debt issuance costs of \$10 and \$15 for the three and nine months ended September 30, 2009, respectively, is included in interest expense.

Stock-Based Compensation

The Company measures and recognizes compensation expense for all stock-based payments at fair value. The financial statements for the nine months ended September 30, 2009 and 2008 recognize compensation cost for the portion of outstanding awards which have vested during the year. The Company recognizes stock-based compensation costs on a straight-line basis over the requisite service period of the award, which is generally the option vesting term. For the three months ended September 30, 2009 and 2008 total share-based compensation expense of \$19 (\$.00 per share) and \$209 (\$.02 per share), respectively, was included in selling, general and administrative expenses. For the nine months ended September 30, 2009 and 2008, total share-based compensation expense of \$133 (\$.01 per share) and \$153 (\$.02 per share) was included in selling, general and administrative expenses, respectively. As of September 30, 2009, there was \$183 of total unrecognized compensation cost related to nonvested share-based compensation arrangements granted under the Plan. That cost is expected to be recognized over a weighted-average period of 2.98 years. This is an estimate based on options currently outstanding and therefore this projected expense could be more in the future.

Edgar Filing: MULTIBAND CORP - Form 10-Q

In determining the compensation cost of the options granted during the three and nine months ended September 30, 2009 and 2008, the fair value of each option grant has been estimated on the date of grant using the Black-Scholes option pricing model and the weighted average assumptions used in these calculations are summarized as follows:

	Three months ended		Nine months ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
Risk-free interest rate	*	3.15%	1.43%	3.15%
Expected life of options granted	*	6.5 Years	5.0 Years	6.5 Years
Expected volatility range	*	95%	95%	94%
Expected dividend yield	*	0%	0%	0%

* - no options were issued this period.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

The Company's determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of variables. These variables include, but are not limited to the Company's expected stock price volatility, and actual and projected stock option exercise behaviors and forfeitures. An option's expected term is the estimated period between the grant date and the exercise date of the option. As the expected-term period increases, the fair value of the option and the compensation cost will also increase. The expected-term assumption is generally calculated using historical stock option exercise data. The Company does not have historical exercise data to develop such an assumption. In cases where companies do not have historical data and where the options meet certain criteria, the use of a simplified expected-term calculation is allowed. Accordingly, the Company calculated the expected terms using the simplified method.

In January 2009, the Company issued 80 shares of stock options with a Black Scholes valuation of \$72 to four directors of the Company. These seven year stock options were immediately vested and were issued as long-term incentive compensation pursuant to the Company's 2000 Non-employee Directors Stock Compensation Plan.

In January 2009, the Company issued 214 shares of stock options with a Black Scholes valuation of \$193 to two officers of the Company. These seven year stock options vest over four years and were issued as long-term incentive compensation pursuant to the Company's 1999 Stock Compensation Plan.

Net Income (Loss) per Common Share

Basic net income (loss) per common share is computed by dividing the income (loss) attributable to common stockholders by the weighted average number of common shares outstanding for the reporting period. Diluted income (loss) per common share is computed by dividing income (loss) attributable to common stockholders by the sum of the weighted average number of common shares outstanding plus all additional common stock that would have been outstanding if potentially dilutive common shares related to common share equivalents (stock options, stock warrants, convertible preferred shares, and issued but not outstanding restricted stock) had been issued. All options, warrants, convertible preferred shares, and restricted stock outstanding during the three months September 30, 2009 and the nine months ended September 30, 2009 and 2008 were excluded from the calculation of diluted loss per share as their effects were anti-dilutive due to the Company's net losses for the periods. The three months ended September 30, 2008 accounted for dilutive options, warrants, preferred shares, and restricted stock. For the three months ended September 30, 2008, there were 2,138,244 shares of anti-dilutive shares related to options and warrants that were not included in the denominator for diluted earnings per share.

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended		Nine months ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
Numerator: Income (loss) attributable to common stockholders	\$ (529)	\$ 847	\$ (10,377)	\$ (3,946)
Denominator:				
Weighted-average shares outstanding	9,659	9,562	9,653	9,184
Effect of dilutive securities		235	-	-
Denominator for diluted earnings per share	9,659	9,797	9,653	9,184

Edgar Filing: MULTIBAND CORP - Form 10-Q

SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

Segment Reporting

A business segment is a distinguishable component of an enterprise that is engaged in providing an individual product or service or a group of related products or services and that is subject to risks and returns that are different from those of other business segments. Management believes that the Company has two operating segments, HSP (Home Service Provider), where the Company receives net cash payments for the installation and service of DirecTV video programming for residents of single family homes; and MDU, where the Company acts as a master service operator for DirecTV, receives net cash payments for managing video subscribers through its network of system operators who are billed by DirecTV and also directly bills voice, data and video subscribers as a principal. The previously filed Form 10-K business segments disclosed the MCS segment which is now reported within the MDU segment.

Recent Accounting Pronouncements

Effective September 15, 2009, the Company adopted a new accounting standard that establishes the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") as the exclusive reference to be applied in the preparation of financial statements in conformity with GAAP. Accordingly, all references to legacy guidance issued under previously recognized authoritative literature have been removed in the third quarter of fiscal 2009. As the ASC was not intended to change or alter existing GAAP, it did not have any impact on the Company's results of consolidated operations or financial position.

Income Taxes

The Company accounts for deferred tax assets and liabilities under the liability method. Deferred tax liabilities are recognized for temporary differences that will result in taxable amounts in future years. Deferred tax assets are recognized for deductible temporary differences and tax operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using the enacted tax rates expected to apply to taxable income in the periods in which the deferred tax asset or liability is expected to be realized or settled. We assess the likelihood that our deferred tax assets will be recovered from future taxable income and record a valuation allowance to reduce our deferred tax assets to the amounts we believe to be realizable. We concluded that a full valuation allowance against our U.S. deferred tax assets was appropriate as of September 30, 2009 and December 31, 2008.

Reclassifications

Certain accounts in the prior quarter's unaudited condensed consolidated financial statements have been reclassified for comparative purposes to conform to the current period presentation. The reclass was a change in presentation of minority interest related to noncontrolling interest in stockholders' equity (see Note 4). Also, the MCS segment was combined with the MDU segment in 2009. These reclassifications had no effect on net income (loss).

NOTE 3 – Business Acquisitions

Effective January 2, 2009, the Company purchased 80% of the issued and outstanding shares of common stock of all of the DTHC operating subsidiaries (DirecTECH) (an additional 29% of NC (formerly MMT), 51% of which was previously purchased effective March 1, 2008 and 80% of NE, SW, EC, MBMDU, DC and Security. DTHC, a fulfillment agent for a national satellite television company, DirecTV, specializes in the providing of satellite TV to single family homes. The purpose of this acquisition was to increase the Company's business of installing video services in single family homes (HSP segment). The purchase price totaled \$40,400 plus other consideration valued at

\$1,608 as of the acquisition date. The \$40,400 consists of three parts; 1) \$500 in cash which was paid at the initial closing date of January 2, 2009 and in escrow as a deposit at December 31, 2008, 2) a non-interest bearing note of \$500 payable without interest as follows: \$250 on demand on or after April 1, 2009 and \$250 after the Company's retention of senior financing, as defined, no later than August 31, 2009 and 3) a promissory note in the amount of \$39,400, due January 1, 2013, bearing interest at an annual rate of 8.25% (subject to adjustment in the event of a default), plus the remaining \$800 note payable from the purchase of 51% of NC. Subsequent to the closing, the Company and DTHC mutually agreed to offset the \$40,200 promissory note by the amount of \$5,844, for an offsetting receivable on Multiband's books as of December 31, 2008. This reduced the amount of this promissory note to \$34,356.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

As part of the agreement, Multiband has until December 31, 2009 to purchase the remaining 20% of the issued and outstanding shares of common stock of all DirecTECH. The consideration for the 20% purchase will be \$10,000 of Multiband Series J Preferred Stock, whose issuance will require Multiband shareholder approval. The closing on the remaining 20% stock transaction is anticipated to occur on or before December 31, 2009.

The Company evaluates the purchase price allocation based on the fair value of the assets acquired and liabilities assumed. The Company recognizes pre-acquisition contingencies at fair value, if fair value can be reasonably determined. If fair value cannot be reasonably determined, the Company records the contingencies at its best estimate.

Because the Company had previously gained control of NC with its purchase of 51% of NC in March 2008, Multiband recognized the acquisition of additional 29% ownership interest in NC on January 2, 2009 as an equity transaction. The purchase price of \$1,660 increased the accumulated deficit and the transfer of \$2,054 of noncontrolling interest to controlling interest decreased the accumulated deficit. No increase to goodwill or intangibles was recorded as part of this acquisition.

As it relates to the purchase of the remainder of the DTHC operating subsidiaries, the Company recognized the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values as of that date, with certain exceptions. The Company recognized goodwill as of the acquisition date, measured using an income, market or cost approach, which in most types of business combinations will result in measuring goodwill as the excess of the fair value of consideration transferred plus the fair value of any noncontrolling interest in the acquiree at the acquisition date over the fair value of the identifiable net assets acquired or assumed. A qualitative and quantitative analysis of factors that make up recognized goodwill, such as DirecTECH's assets, liabilities and other contingent considerations, such as leases and other off-balance sheet commitments, follows. This analysis is preliminary while the Company is still in its one year measurement period.

A summary of the transaction is as follows:

Cash paid	\$ 500
Short-term debt	500
Promissory note	39,400
Total consideration	40,400
Less consideration for 29% of NC (recorded separately as an equity transaction)	(1,660)
Consideration for 80% of outstanding stock of EC, NE, SW, MBMDU, DC, and Security	\$ 38,740
Assets	\$ 31,348
Intangible assets	27,634
Goodwill	34,193
Liabilities	(48,129)
Noncontrolling interest	(6,306)
	\$ 38,740

The fair value of the intangible assets of \$27,634 and noncontrolling interest of \$6,306 was obtained by management, using a fair value measurement which included applying discount rates of 15%, a terminal value of \$28,200, as well as a noncontrolling discount of 30%.

As part of the acquisition, the Company preliminarily assessed a \$5,040 contingent legal accrual related to an existing litigation. In connection with the purchase of the operating subsidiaries of DTHC, the Company has the right to offset 50% of certain claims against the note to DTHC once those claims are settled and paid. The Company has recorded a receivable of \$2,290 which represents an estimate of the amount that can be recovered from DTHC based on the preliminary legal estimate. The receivable is classified as long-term since management intends to offset the receivable with any balance remaining on the note payable to DTHC. At present, the litigation is proceeding through a discovery stage. While the parties have made some preliminary attempts to settle the matter there is no guarantee that the matter can be settled out of court. As a result there is no current timeline under which the amount of the aforementioned accrual can be finalized.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

During the three months ended September 30, 2009, the Company increased this contingent legal accrual \$1,500 which brings the total accrual to \$6,540. This contingent accrual was increased due to new information obtained during the quarter about facts and circumstances that existed as of the acquisition date related to certain legal matters. This increased accrual produced a purchase price adjustment to goodwill and receivables. The Company intends to adjust the purchase price allocation should more information become available as to the fair value of the legal contingency during the measurement period.

The Company acquired \$25,400 of intangible assets relating to contracts with DirecTV as well as right of entry contracts of \$2,234. At the time of the acquisition, the weighted average remaining life of the intangibles acquired was 2.57 years based on terms without renewals, with right of entry contracts average life of 5.44 years and contracts with DirecTV of 2.33 years. The weighted average remaining life of the intangibles acquired was 3.49 years assuming one year term renewals, with right of entry contracts average life of 5.44 years and contracts with DirecTV of 3.33 years. In May 2009, the Company signed a new contract with DirecTV (see Note 10). The Company capitalizes material costs incurred to renew or extend terms of intangible assets. No costs have been incurred to renew or extend the terms of intangible assets during the three and nine months ended September 30, 2009. Goodwill and intangible assets acquired are not expected to be deductible for tax purposes.

The Company's report on Form 10-K for the year ended December 31, 2008 contained a preliminary estimated fair value of all the aforementioned assets and liabilities related to the purchase. At the time of the preliminary estimate DirecTech had not completed its audit for the year ended December 31, 2008. Nor at this time had the Company completed its procedures to value and allocate the final purchase price to intangible and tangible assets acquired in the acquisition. The Company's subsequent receipt of final balance sheet information to the aforementioned Form 10-K filing, necessitated a revision of the DirecTech purchase price valuation. This revision is reflected in this footnote. The revision consists of reallocations of goodwill and other intangible assets related to the purchase. More specifically, goodwill assets were increased by \$14,400 and intangible assets were decreased by \$9,066 from the original estimate, due to the additional purchase of 29% of NC being treated as an equity transaction and therefore no additional assets (including goodwill) or liabilities were allocated for NC in the purchase price (see Note 4). At June 30, 2009, the Company revised the fair value of the contingent consideration from \$1,608 to zero. The Company determined that the significant level 3 inputs previously used to determine the contingent consideration were incomplete. After further review, the Company determined that it was appropriate to define this change as a measurement period adjustment to the purchase price. At September 30, 2009, the Company adjusted the contingencies estimated as a result of improved information regarding circumstances that existed as of the acquisition date which increased the liability by \$1,090 and goodwill and receivables by \$545.

Since the transaction was effective January 2, 2009, there has been no change in the September 30, 2009 balance sheet or income statement for the three and nine months ended September 30, 2009. The unaudited pro forma information for the three and nine months ended September 30, 2008 does not purport to represent what the Company's results of operations would actually have been if such transactions in fact had occurred at such date or to project the Company's results of future operations.

(in thousands, except for share amounts)

NOTE 5 – Inventories

	September 30, 2009	December 31, 2008
Inventories consisted of the following:		
DirecTV – serialized	\$ 3,956	\$ 813
DirecTV – nonserialized	4,309	670
Other	2,122	420
Total	\$ 10,387	\$ 1,903

The Company's inventories are segregated into three major categories. Serialized DirecTV inventories consist primarily of satellite receivers and similar devices. Non-serialized DirecTV inventories consist primarily of satellite dishes, poles and similar devices which are supplied by DirecTV. Other inventory consists primarily of cable, switches and various small parts used in the installation of DirecTV satellite dishes. The large increase in inventory is due to the purchase of DirecTECH (see Note 3).

NOTE 6 – Securities Available for Sale

As of December 31, 2007, Multiband had the voting rights for and was holding in trust 58,161 common shares of URON for various contingent rights holders whose rights were tied to potential future warrant exercises or preferred stock conversions. The Company values these shares at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Company values and records all investment securities transactions on a trade date basis. Securities listed on a national or regional securities exchange are valued at their last reported sales price on the last business day of the period. Securities which are not traded on a major exchange or for which no sale was reported on that date are valued at the average of their last quoted "bid" price and "asked" price. Short positions are valued at the last quoted "asked" price. Inputs used in the valuation methods can be either readily observable, market corroborated, or generally unobservable inputs. Whenever possible the Company attempts to utilize valuation methods that maximize the use of observable inputs and minimizes the use of unobservable inputs. The Company's investments in available-for-sale securities was determined based on quoted market prices in active markets for identical assets and liabilities (level 1). As of February 4, 2008, certain aforementioned contingent rights were not exercised by the various holders; therefore Multiband owns 37,994 shares of URON. As a result, Multiband recorded the fair value of URON shares based on quoted market prices as an unrealized gain. URON subsequently changed their name to Western Capital Resources, Inc. At September 30, 2009 and December 31, 2008 the balance in securities available for sale was \$9 and \$46, respectively.

Securities available for sale consisted of the following:

	September 30, 2009	December 31, 2008
Beginning balance	\$ 46	\$ -
Initial investment	-	122
Current period unrealized loss	(37)	(76)
Ending balance	\$ 9	\$ 46

Fair value of securities available for sale is as follows:

Edgar Filing: MULTIBAND CORP - Form 10-Q

	Cost	Unrealized Gain(Loss)	Fair Value at Period End
September 30, 2009	\$ -	\$ 9	\$ 9
December 31, 2008	\$ -	\$ 46	\$ 46

NOTE 7 – Notes Payable

On May 26, 2009, the Company paid off its loan from Convergent Capital Partners I, L.P., in the amount of \$1,400. On May 27, 2009, the Company entered into a loan agreement with Convergent Capital Partners, II, L.P. for \$5,000. This loan carries an interest rate of fourteen percent and requires monthly interest only payments until December 2012 when the principal is due and payable in full. In connection with this loan, the Company paid a closing fee to the lender of \$100. The Company also issued the lender 212,574 fully vested five year warrants with an exercise price of \$3. The gross proceeds were allocated between the note and the warrants based on the relative fair value at the time of issuance. The warrants were valued at \$372 using the Black Scholes pricing model, recorded as original issue discount, and amortized as interest expense over the term of the note. The Company expensed \$27 and \$35 during the three and nine months ended September 30, 2009, respectively. In the event the Company wishes to prepay the loan a prepayment penalty will be assessed. The loan gives the lender a first security position in the Company's assets. The loan contains certain covenants with regards to the Company's quarterly earnings before interest, taxes, depreciation and amortization. The Company is in compliance with this covenant at September 30, 2009.

NOTE 8 – Accrued Liabilities

Accrued liabilities consisted of the following:

	September 30, 2009	December 31, 2008
Payroll and related taxes	\$ 7,851	\$ 1,354
Accrued legal settlements and contingencies	6,420	960
Accrued preferred stock dividends	614	622
Accrued contract labor	3,250	-
Accrued income taxes	445	499
Other	5,847	1,000
Total Accrued Liabilities	\$ 24,427	\$ 4,435

NOTE 9 - Business Segments

The Company has three reporting segments. Multiband Corp. segment (MBCorp) includes corporate expenses (e.g. corporate administrative costs), interest income, interest expense, depreciation and amortization. The MDU segment (MDU, MBSS, MBMDU and MBUSA) represents results as the master service operator for DirecTV and provides voice, data and video services to residential multi-dwelling units as the principal to subscribers. The HSP segment (NE, SW, EC, NC, DC and Security) provides the installation and service of DirecTV video programming, internet and home security systems for residents of single family homes. Segment disclosures by entity are provided to the extent practicable under the Company's accounting system.

Segment disclosures are as follows:

	MBCorp	MDU	HSP	Total

(in thousands, except for share amounts)

NOTE 10 – Commitments and Contingencies

Legal proceedings

The Company is subject to claims, regulatory processes and lawsuits that arise in the ordinary course of business. The Company accrues for such matters when a loss is considered probable and the amount of such loss, or a range of loss, can be reasonably estimated. The Company has recorded \$6,420 of accrued liabilities as of September 30, 2009 for claims and potential settlements associated with existing litigation. The majority of the accrual relates to claims for back overtime wages alleged in a number of cases filed between 2006 to 2008 entitled Lachiev v. JBM (S.D. Ohio); Davis v. JBM (S.D. Ohio); Gruchy v. DirecTech Northeast (D. Mass); Stephen v. Michigan Microtech (E.D. Mich); and In re DirecTECH Southwest, Inc. (E.D. La). At present, the Company is vigorously defending those claims.

In connection with the purchase of the operating subsidiaries of DTHC, the Company has the right to offset 50% of certain claims, currently estimated at \$5,975, against the note to DTHC once those claims are settled and paid. The Company has recorded a receivable of \$3,169 as of September 30, 2009 which represents an estimate of the amount that potentially be recovered from DTHC including legal fees. The Company's portion of defense costs are expensed as incurred. Additionally, the Company is subject to pending claims, regulatory processes and lawsuits for which losses are not probable and amounts cannot be reasonably estimated. Those losses could ultimately be material to the Company's financial position, results of operations and cash flows.

Significant relationship

The Company is a master agent for DirecTV pursuant to a system operator agreement with DirecTV dated August 2005. Under that agreement the Company is required to ensure that its system operators meet minimum technical DirecTV system standards so that the system operator subscribers may properly receive DirecTV programming services. The initial term of the agreement is for three years and provides for two additional two-year renewals if the Company has a minimum number of paying video subscribers in its system operator network. The Company has met the requirements and has entered into the first two year automatic renewal period.

The Company also has a separate home service provider agreement with DirecTV ending May 1, 2013. The term of this agreement with DirecTV will automatically renew as of May 1, 2013 for additional one year periods unless either the Company or DirecTV gives written notice of termination at least 90 days in advance of expiration of the then current term. Termination of the Company's DirecTV agreements would have a material adverse impact on the Company's on-going operations. Revenues generated from DirecTV amounted to 99.5% and 99.3% of total revenue for the three and nine months ended September 30, 2009, respectively. Revenues generated from DirecTV for the three and nine months ended September 30, 2008 were 93.5% and 91.4% of total revenue, respectively. Accounts receivable from this customer was 83.2% and 52.6% of total accounts receivable as of September 30, 2009 and December 31, 2008, respectively. The Company purchases a substantial portion of its inventory from DirecTV. DirecTV is the only supplier of the major components (i.e., dishes and receivers) used in HSP segment installations. The total accounts payable to DirecTV, related to inventory being supplied, was \$17,606 and \$3,034 at September 30, 2009 and December 31, 2008, respectively.

Gain on extinguishment of debt

In January 2008, the Company negotiated payment of the remaining balance of the note payable to Vern Swedin by issuing 7,500 shares of common stock at \$2.60 per share in settlement of this debt resulting in a gain on

extinguishment of debt of \$30. This amount is included in other income on the consolidated statement of operations for the nine months ended September 30, 2008.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

Line of credit

The Company has a line of credit agreement with a bank that provides borrowings up to \$50, due on demand. Amounts outstanding under this line of credit carry an interest rate defined as the prime rate plus 3.0% (6.25% as of September 30, 2009). As of September 30, 2009 and December 31, 2008, the amount outstanding was \$50 and \$0, respectively. This line of credit is guaranteed by a shareholder of the Company.

Current portion of long-term debt

At December 31, 2008, the Company was in compliance with all debt covenants of its lender, Convergent Capital. This loan was paid off May 26, 2009 (see Note 7). The Company is also in compliance with the new loan has debt covenants for the three months ended September 30, 2009 (see Note 7).

Operating leases – vehicles

The Company leases substantially all of its fleet vehicles under operating leases from one lessor. Each lease commences upon the in-service date of the vehicle and requires scheduled lease payments to be paid monthly for one year. After one year, the Company has the option to renew the open ended lease for one year renewal periods or surrender the leased vehicle to the lessor to be sold. If the net proceeds of such sale exceed the vehicle's then depreciated value, the lessee receives the benefit of such excess. If there is a deficiency upon such sale, then lessee is required to pay the deficiency as additional rent to lessor. The Company has entered this agreement jointly and severally with various of its subsidiaries. For the three months ended September 30, 2009 the Company recognized a loss on the sale of vehicles of \$65 and a gain of \$181 for the three months ended September 30, 2008. For the nine months ended September 30, 2009 the Company recognized a loss on the sale of vehicles of \$137 and a gain of \$179 for the seven months ended September 30, 2008. For the three months ended September 30, 2009 and 2008 the Company's operating lease expense under the lease totaled approximately \$1,813 and \$381, respectively. For the nine months ended September 30, 2009 and seven months ended September 30, 2008, the Company's operating lease expense under the lease totaled approximately \$5,550 and \$748, respectively. In addition, the Company has a security deposit with the lessor in the amount of approximately \$1,701 and \$257 which is included in other assets in the accompanying balance sheet as of September 30, 2009 and December 31, 2008, respectively.

Guaranty

On March 1, 2006, Corporate Technologies, LLC (CTLLC), a subsidiary of North Central Equity, LLC, the purchaser of the MBS business segment, signed a lease with Lexstar Tower I Limited Partnership whereby CTLLC assumed the lease obligation for substantially all of the first floor space the Company is renting in Fargo, North Dakota for the period beginning March 1, 2006 to February 28, 2011. Pursuant to the aforementioned lease, the Company entered into a guaranty whereby the Company, in the event of a default or early termination of the lease by CTLLC, is obligated to perform CTLLC's lease obligation during months 43-60 of the lease. This guaranty has no effect on the Company's consolidated financial statements for the nine months ended September 30, 2009 and 2008. However, should Multiband eventually have to perform on the guaranty in the future, it could be liable for up to \$349 in rent payments plus any associated charges such as property taxes and common area maintenance. The Company has determined that it is not required to record any obligations related to this guaranty.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

NOTE 11 – Income Taxes

Due to the Company's purchase of 80% of the issued and outstanding shares of common stock of all of the DTHC operating subsidiaries (DirecTECH) (an additional 29% of Multiband NC, Inc. (NC) (formerly Michigan Microtech, Inc. (MMT)), 51% of which was previously purchased effective March 1, 2008 and 80% of Multiband NE, Inc. (NE), Multiband SW, Inc. (SW), Multiband EC, Inc. (EC), Multiband MDU, Inc. (MBMDU), Multiband DC, Inc. (DC) and Multiband Security, Inc. (Security) effective January 2, 2009 the Company will file a 2009 consolidated tax return which includes all of the newly acquired subsidiaries. Therefore, the Company may be able to utilize the tax loss carryforwards of Multiband Corporation if there is taxable income, subject to known limitations of the use of the tax loss carryforwards. For the three months ended September 30, 2009 and 2008, the Company has recorded income tax expense of \$372 and \$286, respectively, related to state taxes. For the nine months ended September 30, 2009 and 2008, the Company recorded income tax expense related to state taxes of \$574 and \$749, respectively.

The Company assesses the uncertainty in the income taxes recognized in its financial statements caused by the noncomparability in reporting tax assets and liabilities by; (a) a consistent recognition threshold and (b) a measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and provides related guidance on derecognition, classification, interest and penalties, accounting interim periods, disclosure and transition. To the extent interest and penalties would be assessed by taxing authorities on any underpayment of income taxes, such amounts would be accrued and classified as a component of income tax expenses on the consolidated statement of operations. The Company's federal and state tax returns are potentially open to examinations for years 2006-2008. The Company has no significant unrecognized tax benefits as of September 30, 2009 that would reasonably be expected to affect our effective tax rate during the next twelve months.

NOTE 12 – Related Party Transactions

On September 30, 2009, the Company issued 50,000 shares of preferred series E stock for \$500 cash to director Eugene Harris.

On September 1, 2009, the Company entered into an unsecured short term promissory note in the amount of \$800 with J. Bas Mattingly, Vice President of Business Development of Multiband. The note carries an interest rate of 4% per annum due. Principal and interest is due and payable December 31, 2009.

On May 26, 2009, the Company entered into a separate short-term loan with Mr. Bennett in the amount of \$1,400. This loan was paid in full on May 28, 2009. The term of the loan was approved by the disinterested members of the Company's audit committee.

On April 15, 2009, the Company entered into an unsecured short term promissory note in the amount of \$1,500 with director Frank Bennett. The note carried an interest rate of 6% with a 1% origination fee totaling \$15, and was due May 15, 2009. On May 4, 2009, the note was extended until June 15, 2009. On June 15, 2009, the note was extended until June 14, 2011. The terms of the loans were approved by the disinterested members of the Company's audit committee. On September 30, 2009, this note was effectively paid off with the issuance of 150,000 shares of preferred series E stock for \$1,500 to Frank Bennett.

On January 2, 2009, the Company entered into a promissory note in the amount of \$40,200 with DTHC, due January 1, 2013, bearing interest at an annual rate of 8.25% (subject to adjustment in the event of a default). The note was

subsequently adjusted by \$5,844 for an offsetting receivable which was on Multiband's books as of December 31, 2008. This reduced the amount of this promissory note to \$34,356. The Company has the right to offset 50% of certain claims against the note to DTHC once those claims are settled and paid. As of September 30, 2009, the Company has offset \$641 of its claims which brings the remaining balance of the note to \$33,715.

Proceeds for the acquisition of US Install Inc. by the Company completed in February, 2008 were obtained via an unsecured promissory note in the amount of \$100 between Multiband and Bas Mattingly Master, LLC, a trust controlled by J. Bas Mattingly, chairman of DTHC, which is a 20% owner of DirecTECH. The note carries an interest rate of 7% per annum and is expected to be extended through April 1, 2010.

The Company has a line of credit agreement with a bank that provides borrowings up to \$50 (see Note 10). This line of credit is guaranteed by J. Bas Mattingly, chairman of DTHC.

MULTIBAND CORPORATION AND SUBSIDIARIES
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2009 AND 2008
(in thousands, except for share amounts)

NC leases warehouse space from two individuals that have ownership via related trusts in DTHC. DTHC owns 20% of DirecTECH as a noncontrolling interest shareholder (see Note 3). Lease payments amount to \$9 per month plus expenses, expiring in December 2010.

Multiband and its subsidiaries lease principal offices located at 2000 44th Street SW, Fargo, ND 58013. The Fargo base rate is \$14 per month. The Fargo property is owned in part by David Ekman, Chief Information Officer, of the Company.

Jim Mandel, CEO of Multiband, loaned DTHC \$100 in a short-term subordinated note paying simple interest monthly at 10% and is due December 2012.

In 2008, Multiband and DTHC performed certain management and information systems functions for one another pursuant to management consulting and employee leasing agreements. These agreements terminated concurrent with Multiband's purchase of the former DTHC operating entities (Note 3). During the three and nine months ended September 30, 2008, the Company has reduced selling, general and administrative expenses \$330 and \$960 as a reimbursement of direct expenses in relation to these management consulting agreements, respectively.

Prior to the purchase of DirecTECH on January 2, 2009, Multiband provided support center services to a then DirecTECH MDU (DTMDU), subsidiary of DTHC, currently Multiband MDU, Inc. (MBMDU). The Company recorded MDU segment revenue of \$115 and \$254 from DTMDU for the three and nine months ended September 30, 2008, respectively. DTMDU was also one of the system operators in the MDU segment during 2008. The Company has recorded MDU segment cost of products and services of \$659 and \$1,681 for the three and nine months ended September 30, 2008 related to this system operator, respectively. The Company had \$771 in accounts receivable and \$1,127 in accounts payable related to these agreements at December 31, 2008.

Multiband also had receivable balances with various DTHC entities at December 31, 2008 of \$7,666. Of this amount, \$5,844 was subsequently offset in the first quarter of 2009 against the purchase price note used to acquire majority ownership of the operating subsidiaries of DTHC (Note 3).

The Company has a note receivable due from a non-affiliated entity that is 50% owned by a shareholder. The stated value of this note receivable is \$12 and \$51 at September 30, 2009 and December 31, 2008, respectively. The note is non-interest bearing and is paid monthly beginning October 31, 2007 through maturity on December 31, 2009. The Company has discounted this note to its present value using the Company's effective borrowing rate. The carrying value of this note receivable was \$0 and \$34 at September 30, 2009 and December 31, 2008, respectively. Interest income on this note is immaterial and has not been recognized.

In 2008, Multiband earned a performance bonus as part of the aforementioned management consulting agreement with DTHC of \$1,447 which was paid via reduction of the debt incurred in the acquisition of MMT (see Note 3). The Company recorded this consulting income as part of other income and expense on the statement of operations because the income does not constitute the entity's ongoing major or central operations. The consulting income was not a reimbursement of direct expenses.

NOTE 13 – Subsequent Events

In connection with preparation of the condensed consolidated financial statements, the Company evaluated subsequent events after the balance sheet date of September 30, 2009 through November 16, 2009, the date these unaudited

consolidated financial statements were issued.

Page 23

FORWARD-LOOKING STATEMENTS

From time to time, the Company may publish forward-looking statements relating to such matters as anticipated financial performance, business prospects, product pricing, management for growth, integration of acquisitions, technological developments, new products, and similar matters. Words such as “anticipates”, “may”, “will”, “should”, “believes”, “estimates”, “expects”, “intends”, “plans”, “predicts”, “will likely result”, “will continue”, or similar expressions are used in forward-looking statements. The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements including those made in this statement. In order to comply with the terms of the Private Securities Litigation Reform Act, the Company notes that a variety of factors could cause the Company's actual results and experience to differ materially from the anticipated results or Company's forward-looking statements.

The risks and uncertainties that may affect the operations, performance, developments and results of the Company's business include the following: national and regional economic conditions; pending and future legislation affecting IT and telecommunications industries; market acceptance of the Company's products and services; the Company's products and services; the Company's continued ability to provide integrated communication solutions for customers in a dynamic industry; the Company's ability to successfully integrate and operate recently acquired operations, and other competitive factors.

Because these and other factors could affect the Company's operating results, past financial performance should not necessarily be considered as a reliable indicator of future performance and anticipated future period results.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATION (in thousands)

OUR COMPANY

Multiband Corporation (the Company), is a Minnesota corporation formed in September 1975. The Company has two operating segments: 1) Multi-Dwelling Unit (MDU), which encompasses the subsidiary corporations Multiband Subscriber Services, Inc., Minnesota Digital Universe, Inc.; and Multiband MDU, Inc. (MBMDU), and 2) Home Service Provider (HSP), which encompasses the following subsidiaries of which Multiband owns an 80% interest in: Multiband NE, Inc. (NE), Multiband SW, Inc. (SW), Multiband EC, Inc. (EC), Multiband DC, Inc. (DC) and Multiband Security, Inc. (Security) (see Note 3).

The Company completed an initial public offering in June 1984. In November 1992, the Company became a non-reporting company under the Securities Exchange Act of 1934. In July 2000, the Company regained its reporting company status. In December 2000, the Company stock began trading on the NASDAQ stock exchange under the symbol VICM. In July 2004, the symbol was changed to MBND concurrent with the Company's name change from Vicom, Incorporated to Multiband Corporation.

The Company's website is located at: www.multibandusa.com.

From its inception until December 31, 1998, the Company operated as a telephone interconnect company only. Effective December 31, 1998, the Company acquired the assets of the Midwest region of Enstar Networking Corporation (ENC), a data cabling and networking company. In late 1999, in the context of a forward triangular merger, the Company, to expand its range of computer products and related services, purchased the stock of Ekman, Inc. d/b/a Corporate Technologies, and merged Ekman, Inc. into the newly formed surviving corporation, Corporate Technologies USA, Inc. (MBS). MBS provided voice, data and video systems and services to business and government. The MBS business segment was sold effective April 1, 2005. The Company's MCS segment (now known as MDU) began in February 2000. MCS, the Company's continuing operating division, provides voice, data and video services to multiple dwelling units (MDU), including apartment buildings, condominiums and time share

resorts. During 2004, the Company purchased video subscribers in a number of separate transactions, the largest one being Rainbow Satellite Group, LLC. During 2004, the Company also purchased the stock of Minnesota Digital Universe, Inc., which made the Company the largest master service operator in MDU's for DirecTV satellite television in the United States. At October 31, 2009, the Company had approximately 135,000 owned and managed subscriptions with an additional 51,000 subscriptions supported by the call center.

During 2008, the Company became involved in the business of installing video services in single family homes by acquiring 51% of the outstanding stock of NC (formerly Michigan Microtech, Inc. (MMT a former subsidiary of DTHC)), a fulfillment agent for a national satellite television company, DirecTV, which specializes in the providing of satellite TV to single family homes. This acquisition was followed up by the acquisition of an 80% interest in a group of companies which were the former operating subsidiaries of DTHC, (Multiband NE, Inc. (NE), Multiband SW, Inc. (SW), Multiband EC, Inc. (EC), Multiband DC, Inc. (DC) and Multiband Security, Inc. (Security)). The Company also purchased an additional 29% ownership interest in Multiband NC, of which it previously owned 51%, effective on January 2, 2009.

The Company's rationale for acquiring the aforementioned operating subsidiaries is as listed below.

1. The operating entities are potentially accretive to our business model as they have the:
 - a. Same line of business (DirecTV)
 - b. Ability to leverage systems and management
 - c. Ability to leverage core competencies in support center, software, and engineering
 - d. Ability to expand geographic presence with ample technician capacity
- e. Size, scale, and scope of combined business enterprise more in line with growth necessary to support public entity
 - f. Potential for accretive positive cash flow and capacity for net income.
2. Also, new business opportunities may be integrated into an existing installation process which touches over 5,000 homes per day. Multiband Enterprise Manager software application is capable of modification to support "bundled billing" attribute resulting from new sales opportunity.
3. Furthermore, the transaction produced a strong barrier to entry to other potential competitors which creates potential for longevity and exclusivity.
 4. Other reasons for the acquisition included:
 - a. Strong financial performance by DirecTV which provides security and continued growth potential for Multiband.
 - b. Strong DirecTV balance sheet and liquidity which provides comfort for continued, successful operations.
 - c. Multiband's public company reporting status provides an excellent platform to support and motivate new human resource asset.
 - d. Multiband's management is, we believe, capable of "rightsizing" operating expense structure of DTHC operating entities to provide increased cash flow and earning potential over a short period of time; and
 - e. Opportunity for significant shareholder appreciation when comparing industry valuation metrics to pre-existing Multiband market values.

This purchase was a significant event for the Company. The purchase materially increased the size and scope of the Company's operations. The Company has now expanded its operations into 16 states with 32 field offices. The Company now employs approximately 4,000 people. Multiband is now the second largest independent DirecTV field services provider in the United States.

RESULTS OF OPERATIONS

Revenues

Total revenues increased 478.7% to \$71,421 for the quarter ended September 30, 2009 as compared to \$12,341 for the quarter ended September 30, 2008. Revenues for the nine month period ended September 30, 2009 increased 596.4% to \$200,975 from \$28,861 for the same period in 2008. This overall increase in revenues is due to the purchase of the former DirecTECH operating entities in January 2009.

Revenues for the three months ended September 30, 2009 for the HSP segment, were \$64,826 in comparison to \$7,393 for the same period in 2008, an increase of 776.9%. Revenues for the nine month period ended September 30, 2009, for the HSP segment (acquired March 1, 2008), were \$182,350 as compared to \$15,977 for the same period in 2008, an increase of 1041.3%. This increase is due to the purchase of the former DirecTECH operating subsidiaries (see Note 3). During the three months ended September 30, 2009, the increased HSP segment revenue is due to improved job mix and increased incentive revenue over prior periods. The Company expects that HSP segment fourth quarter revenues will be slightly lower than the previous quarter due to typical seasonality.

Revenues in the third quarter of 2009 for the MDU segment increased 33.3% to \$6,595 as compared to \$4,948 in the third quarter of 2008. Revenues for the nine month period ended September 30, 2009, for the MDU segment, increased 44.6% to \$18,625 from \$12,884 for the same period in 2008. These increases are primarily due to a larger subscriber base, and increased activity from the call center. The Company believes it can ultimately increase revenues by selling its support center services to its network of system operators and by providing ancillary programs for voice and data services to that same network. Due to demand for high definition television services and a larger subscriber base, MDU revenues are expected to remain above 2008 levels for the balance of 2009.

Cost of Products and Services (Exclusive of depreciation and amortization)

The Company's cost of products and services, increased by 538.7% to \$54,645 for the quarter ended September 30, 2009, as compared to \$8,556 for the similar quarter last year. For the nine months ended September 30, 2009, cost of products and services were \$158,855 compared to \$18,770 in the prior year, a 746.3% increase. Overall cost of products and services increased due to the purchase of the former DirecTECH operating entities in January 2009.

Cost of products and services for the HSP segment for the three months ended September 30, 2009 were \$50,298 for the HSP segment (acquired March 1, 2008), compared to \$5,252 for the similar quarter the prior year, an 857.7% increase. For the nine months ended September 30, 2009, cost of products and services were \$146,288 for the HSP segment (acquired March 1, 2008), compared to the \$10,989 for the seven months ended September 30, 2008, a 123.1% increase. This increase is due to the purchase of the former DirecTECH operating entities (see Note 3).

Cost of products and services for the MDU segment for the quarter were \$4,347 compared to \$3,304 in the same quarter last year, a 31.6% increase. For the nine months ended September 30, 2009, cost of products and services were \$12,567 for the MDU segment, compared to \$7,780 in the prior year, a 61.5% increase. The increase in cost of products and services in the MDU segment is primarily related to the purchase of MBMDU, one of the former DirecTECH operating subsidiaries. The increase in costs is also related to the increase in revenue generated by the system operators due to a change in revenue mix and certain commission payments. In 2009, the Company expects MDU cost of products and services to increase slightly throughout the balance of the year due to certain commission payments.

During the remainder of 2009, the Company expects HSP cost of products and services to remain consistent with third quarter results in relation to revenues.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased 399.6% to \$13,774 in the quarter ended September 30, 2009, compared to \$2,758 in the prior year's quarter due primarily to the acquisition of DirecTECH in 2009. Selling, general and administrative expenses were, as a percentage of revenues, 19.3% for the quarter ended September 30, 2009 and 22.3% for the similar period a year ago. For the nine months ended September 30, 2009, selling, general and administrative expenses increased 499.8% to \$43,023 compared to \$7,173 for the nine months ended September 30, 2008, due primarily to the acquisition of DirecTECH in 2009. As a percentage of revenue, selling, general and administrative expenses were 21.4% for the nine months ended September 30, 2009, compared to 24.9% for the same period in 2008. The decrease in selling, general and administrative expenses as a percentage of revenue is primarily due to the significant increase in revenues with proportionately less increases in payroll and administrative expenses. The Company anticipates that for the remainder of 2009, selling, general and administrative expenses will remain consistent with third quarter levels.

Depreciation and Amortization

Depreciation and amortization expense increased 185.3% to \$2,414 for the quarter ended September 30, 2009 compared to \$846 in the prior year's quarter. For the nine months ended September 30, 2009, depreciation and amortization expense increased 241.1% to \$8,402 compared to \$2,463 for the nine months ended September 30, 2008. This increase is largely due to amortization of intangibles related to the DirecTECH purchase (see Note 3). Depreciation and amortization expense is expected to remain at levels comparable to the third quarter through the remainder of 2009.

Income (Loss) from Operations

The Company, in the third quarter of 2009, incurred income from operations of \$588 as compared to generating an income of \$181 during the prior year's comparable period. Loss from operations was \$9,305 during the first nine months of 2009 compared to an income of \$389 during the first nine months of 2008. During the quarter ended June 30, 2009, the Company incurred a material operating loss primarily due to significant hiring and training expenses and inventory breakage related to changes in work order closure technology. During the quarter ended September 30, 2009, the Company generated an operating profit of \$588 as the aforementioned hiring, training and inventory breakage expenses were reduced. Although the Company cannot definitively predict future quarter operating results, we have reason to believe second quarter operating results were atypical.

The MDU segment generated an income from operations of \$36 for the three months ended September 30, 2009 and incurred a loss from operations of \$346 for the nine months ended September 30, 2009 compared to income from operations of \$164 and \$826 for the three and nine months ended September 30, 2008. The MBCorp segment, which has no revenues, incurred a loss from operations of \$976 for the three months ended September 30, 2009 and \$2,997 for the nine months ended September 30, 2009 compared to losses of \$547 and \$2,290 for the same periods last year. For the third quarter of 2009, the HSP segment generated an income from operations of \$1,528, compared to income from operations of \$564 in the same period last year, which included NC (MMT) only. During the three months ended September 30, 2009, the Company's improved job mix and earnings from incentives increased its revenue over prior periods. For the nine months ended September 30, 2009, loss from operations was \$5,962 for the HSP segment, compared to an income from operations of \$1,853 in the prior year which included seven months of NC (MMT) only. The MBCorp segment loss is expected to continue in future periods as corporate overhead is expected to remain consistent with current levels. The Company believes it can enhance profitability in its MDU division by growing its subscriber base at existing properties since the on-going selling, general and administrative expenses to service those subscribers is more variable than fixed. The HSP segment is expected maintain its profitability by reaching incentive goals and continued improvement in job mix.

Interest Expense

Interest expense was \$1,026 for the quarter ended September 30, 2009, versus \$301 for the similar period a year ago. Amortization of original issue discount was \$11 and \$0 for the three months ended September 30, 2009 and 2008. Interest expense was \$2,771 for the nine months ended September 30, 2009 and \$514 for the same period last year, primarily reflecting an increase due to interest expense incurred on the debt issued for the purchase of DirecTECH (see Note 3). Amortization of original issue discount was \$15 for the nine months ended September 30, 2009, respectively and \$0 for the same period last year.

Management consulting income

During the three months ended September 30, 2008, Multiband recorded a performance bonus as part of the management consulting agreement with DTHC of \$1,447 which was paid via reduction of the debt incurred in the acquisition of MMT (see Note 3 and Note 12). The Company recorded this consulting income as part of other income and expense on the statement of operations because the income does not constitute the entity's ongoing major or central operations. The consulting income was not a reimbursement of direct expenses. No income was earned during the comparable period ended September 30, 2009. This income is part of the Multiband Corp. business segment.

Noncontrolling Interest

Effective January 1, 2009, the Company transitioned from accounting for a minority interest to accounting for noncontrolling interests in subsidiaries (see Note 4). This resulted in the transferring of minority interest of \$3,471 at December 31, 2008 related to the 51% ownership of NC from the mezzanine section of the balance sheet to the noncontrolling interest in the equity section of the balance sheet. As of January 2, 2009, Multiband purchased an additional 29% of the outstanding stock of NC, \$2,054 of noncontrolling interest was transferred to Multiband's controlling interest related to this acquisition, leaving \$1,417 as the remaining value of the noncontrolling interest. In addition, Multiband purchased 80% of the outstanding stock of EC, NE, SC, DC, Security and MBMDU (see Note 3). The Company recorded \$6,306 of noncontrolling interest related to this acquisition. The net loss attributable to the noncontrolling interest in subsidiaries for the three and nine months ended September 30, 2009 was (\$266) and (\$2,044), respectively. For the three and nine months ended September 30, 2008, net income attributable to the noncontrolling interest in subsidiaries was \$138 and \$550, respectively.

Income Taxes

Due to the Company's purchase of 51% of NC's stock, effective March 1, 2008, NC did not file consolidated tax returns in 2008 with its former parent DTHC but filed as a single entity as it no longer meets the 80% ownership required for tax consolidation. Effective with the additional stock purchased in 2009, NC expects to be able to utilize the tax loss carryforwards of Multiband Corporation. For the three months ended September 30, 2009 and 2008, the Company has recorded income tax expense of \$372 and \$286, respectively, related to state taxes. For the nine months ended September 30, 2009 and 2008, the Company recorded income tax expense related to state taxes of \$574 and \$749, respectively.

Net Income (Loss) Attributable to Multiband Corporation and Subsidiaries

In the third quarter of fiscal 2009, the Company reported a net loss attributable to Multiband Corporation and subsidiaries of \$459 compared to a net income attributable to Multiband Corporation and subsidiaries of \$911 for the third fiscal quarter of 2008. For the nine months ended September 30, 2009, the Company recorded a net loss attributable to Multiband Corporation and subsidiaries of \$10,163 compared to a net income attributable to Multiband Corporation and subsidiaries of \$103 for the nine months ended September 30, 2008. The net income for the three and nine months ended September 30, 2008 was largely due to the addition of the HSP segment via the acquisition of MMT, the sale of unprofitable subscribers in the MCS segment, the increase in managed subscribers in the MDU segment, and the management consulting income in Multiband Corp. segment.

Liquidity and Capital Resources

During the nine months ended September 30, 2009, the Company incurred net losses attributable to Multiband Corporation and subsidiaries of \$10,163 compared to a net income attributable to Multiband Corporation and subsidiaries of \$103 for the nine months ended September 30, 2008. Net cash used by operations during the nine

months ended September 30, 2009 was \$2,937 as compared to the net cash from operations during the nine months ended September 30, 2008 of \$3,891. During the quarter ended June 30, 2009, the Company incurred a material operating loss primarily due to significant hiring and training expenses and inventory breakage related to changes in work order closure technology. During the quarter ended September 30, 2009, the Company generated an operating profit of \$588 as the aforementioned hiring, training and inventory breakage expenses were reduced. Although the Company cannot definitively predict future quarter operating results, we have reason to believe second quarter operating results were atypical. As of September 30, 2009, the Company met the compliance covenants of its lender, Convergent Capital.

Cash and cash equivalents totaled \$4,253 at September 30, 2009 versus \$4,346 at December 31, 2008. Working capital deficit at September 30, 2009 was \$30,785 as compared to positive working capital of \$2,465 at December 31, 2008, primarily due to the acquisition of the former DTHC operating entities. Total debt and capital lease obligations increased by \$38,957 in the nine months ended September 30, 2009 due mainly to the addition of notes payable in order to purchase DirecTECH. The Company had a material increase in accounts receivable, accounts payable and accrued liabilities for the period ended September 30, 2009 versus the period ended December 31, 2008 due to the acquisition of 80% of outstanding stock of the former DTHC operating entities. Net cash used by investing activities totaled \$2,673 for the period ended September 30, 2009, compared to net cash of \$6,656 provided by investing activities for the period ended September 30, 2008, related to cash acquired in the acquisition of NC (formerly MMT).

The Company experienced a material increase in revenues between the quarter ended September 30, 2009 and the quarter ended September 30, 2008 as a result of the additional revenue obtained from the purchase of the former DTHC operating entities. For the balance of 2009, the Company intends to focus on facilitating growth of its HSP business segment and its managed subscriber services including its support center and its master system operator program. The Company believes it can increase revenues by selling its support center services to its network of system operators and by providing ancillary programs for voice and data services to that same network.

The Company used \$2,166 for capital expenditures during the nine months ended September 30, 2009, as compared to \$112 in the similar period last year. Capital expenditures consisted of project build-outs and equipment acquired for internal use. This increase was related to an expansion of company funded video and internet service build outs to MDU properties made during 2009. Throughout the remainder of 2009, the Company estimates that it will have \$500 of additional capital expenditures.

Management anticipates that the impact of the actions listed below will generate sufficient cash flows to pay current liabilities, long-term debt and capital and operating lease obligations and fund the Company's operations for the next twelve months:

1. Initiate and grow its Home Service Provider (HSP) business by eliminating competitive HSP providers from certain of its core markets
2. Improve gross margin percentages by cycling technicians from training and placing them in a revenue generating role and by mitigating work order breakage expense.
3. Reduce operating expenses by reducing training costs through decreased technician turnover, managing professional fees, insurance and other general and administrative expenses.
4. Evaluate factors such as anticipated usage and inventory turnover to maintain optimal inventory levels.
5. Obtain additional debt financing.
6. Expand call center support with sales of call center services to both existing and future system operators and to buyers of the Company's video subscribers.
7. Solicit additional equity investment in the Company by issuing either preferred or common stock.

The Company, as of September 30, 2009, needs to improve its working capital ratio over the next few quarters to adequately manage the size of its expanded operations. The Company, during the third quarter, did raise \$2,000 in equity through the sale of preferred stock and sold intangible assets and equipment for approximately \$446. Since the Company acquired significant assets in its purchase of 80% of the outstanding stock of the former DTHC operating entities, Multiband believes it has the capacity to leverage certain of those assets. Management believes that through a combination of leveraging assets, its cash on hand, greater expense control, positive operating income, combined with capital resources and the potential ability to monetize intangible subscriber assets, it can meet its anticipated liquidity and capital resource requirements for the next twelve months.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Impairment of Long-Lived Assets

The Company's long-lived assets include property, equipment and leasehold improvements. At September 30, 2009, the Company had net property and equipment of \$8,438, which represents approximately 7.8% of the Company's total assets. In assessing for potential impairment for these assets, the Company considers future performance. If these forecasts are not met, the Company may have to record an impairment charge, which may be material. During the three and nine months ended September 30, 2009 and 2008, the Company did not record any impairment losses related to long-lived assets.

Impairment of Goodwill

At year end, we test goodwill for impairment. If indicators of impairment are determined to exist, we test goodwill for impairment quarterly. Our judgments regarding the existence of impairment indicators are based on legal factors, market conditions and operational performance of our operating segments. Future events could cause us to conclude that impairment indicators exist and that goodwill associated with our operating segments which amounts to \$35,489 as of September 30, 2009, may be impaired. Any resulting impairment loss could have a material adverse impact on our financial condition and results of operations. During the three and nine months ended September 30, 2009 and 2008, the Company did not record any impairment losses related to goodwill.

Impairment of Intangible Assets

The intangible assets consist of rights of entry contracts, contracts with DirecTV and customer contracts. These intangibles are being amortized over their estimated useful lives ranging from 3.5 to 119 months. If significant changes would occur to the estimated future cash flows associated with these intangibles, the Company would determine if there is impairment and reduce the value of intangibles based on the discounted present value of such cash flows. At September 30, 2009, the Company had net intangibles of \$24,446 which represented approximately 22.7% of the Company's total assets. During the three and nine months ended September 30, 2009, the Company did not record any impairment charge to intangible assets. During the three and nine months ended September 30, 2008, the Company recorded an impairment charge to intangible assets of \$0 and \$66, respectively.

Inventories

We value our inventories at the lower of the actual cost or the current estimated market value of the inventories. We regularly review inventory quantities on hand and record a provision for excess and obsolete inventories. Rapid technological change, frequent new product development, and rapid product obsolescence that could result in an increase in the amount of obsolete inventory quantities on hand characterize our industry.

Share-Based Payments

The Company accounts for its stock options using fair value for the measurement and recognition of compensation expense for all share-based payment awards made to employees and directors. The Company's determination of fair value of share-based payment awards on the date of grant using an option-pricing model is affected by the Company's stock price as well as assumptions regarding a number of variables. These variables include, but are not limited to the Company's expected stock price volatility, and actual and projected stock option exercise behaviors and forfeitures. During the third quarter of 2008, the Company evaluated the variables used in calculating its option values and through their application has reduced the ongoing expense recorded related to stock options.

Revenue Recognition

The Company recognizes revenue in accordance with the Securities Exchange Commission's Staff Accounting Bulletin No. 104 (SAB 104) "Revenue Recognition", which requires that four basic criteria be met before revenue can be recognized: (i) persuasive evidence of a customer arrangement exists; (ii) the price is fixed or determinable; (iii) collectability is reasonably assured; and (iv) product delivery has occurred or services have been rendered. The Company recognizes revenue as services are performed and complete.

The Company earns HSP segment revenue as follows:

- installation and service of DirecTV video programming for residents of single family homes
 - installation of home security systems and internet services

The Company has home services provider (HSP) agreements with DirecTV which allow the Company to install and activate DirecTV video programming services for residents of single family homes. As a DirecTV HSP, the Company earns revenue for installing and servicing DirecTV video customers pursuant to predetermined rates set by DirecTV which may vary from time to time. Revenue is recognized upon completion of the delivery and installation of equipment. DirecTV reimburses the Company for substantially all DirecTV equipment used for customer installation related to the HSP segment.

HSP segment installation and services revenues are recognized in the period the related services are provided in accordance with SAB 104. MDU segment user charges are recognized as revenues in the period the related services are provided in accordance with SAB 104. Any amounts billed prior to services being provided are reported as deferred service obligations and revenues.

The Company earns MDU segment revenue as follows:

- from voice, video and data communications products which are sold and installed
- direct billing of user charges to multiple dwelling units, through the activation of, enhancement of, and residual fees on video programming services provided to residents of multiple dwelling units

Revenue generated from activation of video programming services is earned in the month of activation. According to Multiband's Master System Operator agreement with DirecTV, in the event that a customer cancels within the first 12 months of service, DirecTV has the right to chargeback the Company for a portion of the activation fees received. In accordance with Securities Exchange Commission SAB 104, the Company has estimated the potential charge back of commissions received on activation fees during the past 12 months based on historical percentages of customer cancellations and has included that amount as a reduction of revenue. Residual income is earned as services are provided by DirecTV through its system operators. As a master system operator for DirecTV, the Company earns a fixed percentage based on net cash received by DirecTV for recurring monthly services, a variable amount depending on the number of activations in a given month, and a variable amount for coordinating improvements of systems used to deliver enhanced programming services. The Company's master system operator contract with DirecTV also permits the Company to earn revenues through its control of other system operators who are unable to provide DirecTV video programming services without the Company's performance.

The Company reports the aforementioned MDU voice, data, and video revenues on a gross basis based on the following factors: the Company has the primary obligation in the arrangement with its customers; the Company controls the pricing of its services; the Company performs customer service for the agreements; the Company approves customers; and the Company assumes the risk of payment for services provided. We offer some products and services that are provided by third party vendors. We review the relationship between us, the vendor and the end customer on an individual basis to assess whether revenue should be reported on a gross or net basis. As an example, our resold satellite digital television revenue is reported on a net basis.

MDU segment revenue generated by the support center to service third party subscribers by providing billing and call center support services is recognized in the period the related services are provided.

Customers contract for both the purchase and installation of voice and data networking technology products and certain video technologies products. Revenue is recognized when the products are delivered and installed and the customer has accepted and has the ability to fulfill the terms of the contract.

The Company's policy is to present taxes imposed on revenue-producing transactions on a net basis which means any sales tax charged is not part of the Company's revenues.

Deferred Revenue

The Company invoices for certain installation upgrade projects upon order of project equipment. Revenue is deferred on these projects until the equipment is installed.

Disclosures about Contractual Obligations and Commercial Commitments

The following summarizes our contractual obligations as of September 30, 2009, that have changed materially since our annual 10-K filing. The changes are due to the acquisition of the DTHC operating subsidiaries (see Note 3) and the effect these additional contractual obligations including interest payments are expected to have on our liquidity and cash flows in future periods:

	Total	1 Year or Less	2-3 Years	Over 3 Years
Operating leases – buildings	\$ 4,805	\$ 1,743	\$ 2,311	\$ 751
Operating leases – vehicles	16,928	6,615	8,306	2,007
Short-term debt, related party	1,421	1,421	-	-
Long-term debt	7,934	1,372	6,509	53
Long-term debt, related party	42,844	3,566	5,563	33,715
Capital lease obligations	983	473	505	5
Totals	\$ 74,915	\$ 15,190	\$ 23,194	\$ 36,531

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is not subject to any material interest rate risk as all current lending agreements are at fixed rates of interest. The Convergent Capital note of \$1,400, which varied from 11% to 14%, dependent on the Company's common stock price was paid off on May 26, 2009.

ITEM 4. CONTROLS AND PROCEDURES

As of the end of the period covered by this quarterly report, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-14(c) of the Securities Exchange Act of 1934. As of September 30, 2009, the Company has not tested the effectiveness of any controls or procedures with regards to its HSP business segment due to the recent acquisition of same. The Company does intend to perform such testing prior to December 31, 2009.

Based upon that evaluation and the aforementioned acquisition, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are not effective in alerting them in a timely basis to material information relating to the Company required to be disclosed in the Company's periodic SEC reports. While the Company believes its financial information as presented herein is materially accurate, the Company is not prepared to conclude all of its key disclosure controls and procedures are effective until it has completed its testing. Based on the Company's detailed account reconciliation and analysis process, the Company needs to improve certain inventory control procedures. Currently the Company is actively reviewing and updating those procedures.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is subject to claims, regulatory processes and lawsuits that arise in the ordinary course of business. The Company accrues for such matters when a loss is considered probable and the amount of such loss, or a range of loss, can be reasonably estimated. The Company has recorded \$6,420 of accrued liabilities as of September 30, 2009 for claims and potential settlements associated with existing litigation. The majority of the accrual relates to claims for back overtime wages alleged in a number of cases filed between 2006 to 2008 entitled Lachiev v. JBM (S.D. Ohio);

Davis v. JBM (S.D. Ohio); Gruchy v. DirecTech Northeast (D. Mass); Stephen v. Michigan Microtech (E.D. Mich); and In re DirecTECH Southwest, Inc. (E.D. La). At present, the Company is vigorously defending those claims.

In connection with the purchase of the operating subsidiaries of DTHC, the Company has the right to offset 50% of certain third party claims against the purchase price note to DTHC once those claims are settled and paid. The Company has recorded a receivable of \$3,169 as of September 30, 2009, which represents an estimate of the 50% portion to be offset against the note to DTHC due to certain third party claims. The Company's portion of defense costs are expensed as incurred. Additionally, the Company is subject to pending claims, regulatory processes and lawsuits for which losses are not probable and amounts cannot be reasonably estimated. Those losses could ultimately be material to the Company's financial position, results of operations and cash flows.

ITEM 1A. RISK FACTORS

Our operations and our securities are subject to a number of risks, including but not limited to those described below. If any of the following risks actually occur, the business, financial condition or operating results of Multiband and the trading price or value of our common stock could be materially adversely affected.

General

Multiband over the past decade has continued to reinvent and reposition itself as technologies for communications and entertainment services continue to grow and evolve. Multiband needs to continue to stay on the edge of changes in technology if it is to remain competitive in its chosen marketplaces.

Net Income (Losses) Attributable to Multiband Corporation and Subsidiaries

The Company had a net loss attributable to Multiband Corporation and subsidiaries of \$10,163 for the nine months ended September 30, 2009, net income of \$945 for the year ended December 31, 2008 and net loss of \$6,088 for the year ended December 31, 2007. The Company may never be consistently profitable.

The prolonged effects of generating losses without additional funding may restrict our ability to pursue our business strategy. Unless our business plan is successful, an investment in our common stock may result in a complete loss of an investor's capital.

If we cannot achieve profitability from operating activities, we may not be able to meet:

- o our capital expenditure objectives;
- o our debt service obligations; or
- o our working capital needs.

Working Capital

The Company had a working capital deficit of \$30,785 at September 30, 2009 as compared to positive working capital in the amount of \$2,465 at December 31, 2008 due to the acquisition of DirecTECH.

Goodwill and Intangible Assets

As of September 30, 2009, the Company had goodwill of \$35,489 and intangibles of \$24,446 primarily related to the purchase of DirecTECH. At September 30, 2009 the Company did not note any indications of impairment related to goodwill or its intangible assets.

Deregulation

Several regulatory and judicial proceedings have recently concluded, are underway or may soon be commenced that address issues affecting operations and those of our competitors, which may cause significant changes to our industry. We cannot predict the outcome of these developments, nor can we assure you that these changes will not have a material adverse effect on us. Historically, we have been a reseller of products and services, not a manufacturer or carrier requiring regulation of its activities. Pursuant to Minnesota statutes, our Multiband activity is specifically exempt from the need to tariff our services in MDU's. However, the Telecommunications Act of 1996 provides for significant deregulation of the telecommunications industry, including the local telecommunications and long-distance industries. This federal statute and the related regulations remain subject to judicial review and additional rule-makings of the Federal Communications Commission, making it difficult to predict what effect the legislation will have on us, our operations, and our competitors.

Dependence on Strategic Alliances

Several suppliers or potential suppliers of Multiband, such as McLeod, WorldCom, WS Net, XO Communications and others have filed for bankruptcy in recent years. While the financial distress of its suppliers or potential suppliers could have a material adverse effect on Multiband's business, Multiband believes that enough alternate suppliers exist to allow the Company to execute its business plans. The Company is also highly dependent on its Master System Operator agreement with DirecTV. The initial term of the agreement expired in August 2008, and provided for two additional two-year renewals if the Company had a minimum number of paying video subscribers in its system operator network. The Company did meet the requirements and has entered into the first two year automatic renewal period. The Company also has a home service provider agreement with DirecTV ending May 1, 2013. The term of this agreement with DirecTV will automatically renew for additional one year periods unless either the Company or DirecTV gives written notice of termination at least 90 days in advance of expiration of the then current term. Although an alternate provider of satellite television services, Echostar, exists, the termination of any or all of its HSP dealer agreements with DirecTV would have a material adverse effect on Multiband's business.

Changes in Technology

A portion of our projected future revenue is dependent on public acceptance of broadband and expanded satellite television services. Acceptance of these services is partially dependent on the infrastructure of the internet and satellite television which is beyond Multiband's control. In addition, newer technologies, such as video-on-demand, are being developed which could have a material adverse effect on the Company's competitiveness in the marketplace if Multiband is unable to adopt or deploy such technologies.

Attraction and Retention of Employees

Multiband's success depends on the continued employment of certain key personnel, including executive officers. If Multiband were unable to continue to attract and retain a sufficient number of qualified key personnel, its business, operating results and financial condition could be materially and adversely affected. In addition, Multiband's success depends on its ability to attract, develop, motivate and retain highly skilled and educated professionals with a wide variety of management, marketing, selling and technical capabilities. Competition for such personnel is intense and is expected to increase in the future.

Intellectual Property Rights

Multiband relies on a combination of trade secret, copyright and trademark laws, license agreements, and contractual arrangements with certain key employees to protect its proprietary rights and the proprietary rights of third parties from which Multiband licenses intellectual property. Multiband also relies on agreements with owners of MDUs which grant the Company rights of access for a specific period to MDU premises whereby Multiband is allowed to offer its voice, data, and video services to individual residents of the MDUs. If it was determined that Multiband infringed the intellectual property rights of others, it could be required to pay substantial damages or stop selling products and services that contain the infringing intellectual property, which could have a material adverse effect on Multiband's business, financial condition and results of operations. Also, there can be no assurance that Multiband would be able to develop non-infringing technology or that it could obtain a license on commercially reasonable terms, or at all. Multiband's success depends in part on its ability to protect the proprietary and confidential aspects of its technology and the products and services it sells. There can be no assurance that the legal protections afforded to Multiband or the steps taken by Multiband will be adequate to prevent misappropriation of Multiband's intellectual property.

Variability of Quarterly Operating Results

Variations in Multiband's revenues and operating results occur from quarter to quarter as a result of a number of factors, including customer engagements commenced and completed during a quarter, the number of business days in a quarter, employee hiring and utilization rates, the ability of customers to terminate engagements without penalty, the size and scope of assignments and general economic conditions. Because a significant portion of Multiband's expenses are relatively fixed, a variation in the number of customer projects or the timing of the initiation or completion of projects could cause significant fluctuations in operating results from quarter to quarter.

Certain Anti-Takeover Effects

Multiband is subject to Minnesota statutes regulating business combinations and restricting voting rights of certain persons acquiring shares of Multiband. These anti-takeover statutes may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of Multiband's securities, or the removal of incumbent management.

Volatility of Multiband's Common Stock

The trading price of our common stock has been and is likely to be volatile. The stock market has experienced extreme volatility, and this volatility has often been unrelated to the operating performance of particular companies. Investors may not be able to sell the common stock at or above the price they paid for their common stock, or at all. Prices for the common stock will be determined in the marketplace and may be influenced by many factors, including variations in our financial results, changes in earnings estimates by industry research analysts, investors' perceptions of us and general economic, industry and market conditions.

Future Sales of Our Common Stock May Lower Our Stock Price

If our existing shareholders sell a large number of shares of our common stock, the market price of the common stock could decline significantly. The perception in the public market that our existing shareholders might sell shares of common stock could depress our market price.

National Market for Stock

There is no assurance that the Company's common stock will continue to trade on the Nasdaq Stock Market or other national stock exchange due to ongoing listing criteria for such exchanges.

Competition

We face competition from others who are competing for a share of the MDU and HSP markets, including other satellite companies, cable companies and telephone companies. Some of these companies have significantly greater assets and resources than we do.

Uncertain Effects of the Acquisition

During the first quarter of 2009, the Company completed its Stock Purchase Agreement (SPA) with DTHC (see Note 3). The DTHC operating entity business as merged into the Multiband business may not achieve the operating results and growth anticipated by management in structuring the transaction.

General Economic Conditions

As of this writing, the United States is experiencing overall adverse economic conditions. While we believe this environment may actually benefit the Company in that consumers may stay home more for entertainment, there is no guarantee that consumers will continue to purchase the Company's services at a constant level if the country's recession becomes prolonged.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

a) An annual meeting of Multiband shareholders was held on August 12, 2009. There were present or present by proxy at the meeting 3,590,673 votes, the number necessary to hold a quorum.

b) The meeting resulted in the following votes related to the following proxy items:

1. Election of directors: All directors were re-elected for a term serving until the next annual meeting with the votes in favor listed below:

Director	Number of votes
Bell	3,590,617
Bennett	3,590,633
Dodge	3,590,633
Harris	3,590,633
Mandel	3,590,617
Miller	3,590,633

2. Ratify the election of Baker Tilly Virchow Krause, LLP as independent registered public accounting firm of the Company for fiscal year 2008.

	Number of votes
For	3,590,553
Against	0
Abstain	120

3. The approval of an amendment to Multiband's 2000 Non-Employee Directors Stock Compensation Plan (the Directors Plan) to increase the total number of common stock shares reserved for awards to Non-Employee Directors under the plan from 160,000 to 5,000,000.

	Number of votes
For	3,379,689
Against	210,736
Abstain	248

4. The approval of an amendment to Multiband's 1999 Stock Compensation Plan (the Employee Plan) to increase the total number of common shares reserved for awards to employees under the plan from 860,000 to 15,000,000.

	Number of votes
For	3,383,351
Against	207,074
Abstain	248

5. The approval of an amendment to Multiband's Articles of Incorporation to increase the authorized number of Multiband common shares from 20 million to 100 million.

	Number of votes
For	3,383,628
