SPECIAL NOTE ON FORWARD-LOOKING STATEMENTS

This report contains forward-looking statements relating to future events and the future performance of The Knot, Inc. based on our current expectations, assumptions, estimates and projections about us and our industry. These forward-looking statements involve risks and uncertainties. Actual results or events could differ materially from those anticipated in such forward-looking statements as a result of certain factors, as more fully described in Item 1A (Risk Factors) in each of our most recent Annual Report on Form 10-K and Part II of this report, and elsewhere in this report. We undertake no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

WHERE YOU CAN FIND MORE INFORMATION

The Knot's corporate website is located at www.theknotinc.com. The Knot makes available free of charge, on or through our corporate website, our annual, quarterly and current reports, and any amendments to those reports, as soon as reasonably practicable after electronically filing such reports with, or furnishing to, the Securities and Exchange Commission ("SEC"). Information contained on The Knot's corporate website is not part of this report or any other report filed with the SEC.

Unless the context otherwise indicates, references in this report to the terms "The Knot," "we," "our" and "us" refer to The Knot, Inc., its divisions and its subsidiaries.

THE KNOT, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Organization and Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include (1) the accounts of The Knot, Inc. ("The Knot" or the "Company") and all 100% owned subsidiaries and (2) 50% of the net income of an entity formed in July 2009 accounted for as an equity interest. The condensed consolidated financial statements included in this report have been prepared by the Company pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States have been condensed or omitted pursuant to such SEC rules and regulations. The Company believes that the disclosures are adequate to make the information presented not misleading. The financial statements contained herein should be read in conjunction with the consolidated and combined financial statements and notes thereto included in the Company's Annual Report on Form 10-K filed with the SEC for the year ended December 31, 2009.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all normal and recurring adjustments necessary to present fairly the consolidated financial condition, results of operations and changes in cash flows of the Company for the interim periods presented. The results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of results to be expected for the entire calendar year.

Segment Information

1.

The Company operates in one reportable segment because it is organized around its online and offline media and e-commerce service lines. These service lines do not have operating managers who report to the chief operating decision maker. The chief operating decision maker generally reviews financial information at a consolidated result of operations level but does not review revenue and cost of revenue results of the individual service lines. A considerable amount of shared expenses for the revenue and cost of revenue categories are shown as operating expenses.

Recently Adopted Accounting Pronouncements

The adoption of the following accounting standards and updates did not result in a material impact to the Company's condensed consolidated financial statements:

On June 12, 2009, the accounting standard relating to the transfers and servicing of financial assets and extinguishment of liabilities was updated to require additional information about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. It eliminates the concept of a "qualifying special-purpose entity," changes the requirements for derecognizing financial assets, and requires additional disclosures. This standard update is effective as of January 1, 2010.

On June 12, 2009, the accounting standard regarding the requirements of consolidation accounting for variable interest entities was updated to require an enterprise to perform an analysis to determine whether the entity's variable interest or interests give it a controlling interest in a variable interest entity. This standard update is effective for all interim and annual reporting periods as of January 1, 2010.

On January 21, 2010, the accounting standard relating to fair value measurements was updated to require additional new disclosures for transfers in and out of Levels 1 and 2 and activity in Level 3. This update also amends the standard by requiring an entity to provide fair value measurement disclosures for each class of assets and liabilities as well as the inputs and valuation techniques. This standard update is effective for all interim and annual reporting periods on or after December 15, 2009 excluding certain exceptions which will be effective for fiscal years beginning after December 15, 2010.

2. Fair Value Measurements

Cash and cash equivalents, investments and investment receivables consist of the following:

	J	June 30, 2010	Dec	ecember 31, 2009	
		(in tho	usands)		
Cash and cash equivalents					
Cash	\$	5,990	\$	6,007	
Money market funds		118,347		88,986	
Subtotal cash and cash equivalents		124,337		94,993	
Short-term investments					
Auction rate securities		-		36,498	
Receivable					
Receivable from bank		9,600		-	
Total cash and cash equivalents, investments and investment receivables	\$	133,937	\$	131,491	

The inputs to the valuation techniques used to measure fair value are classified into the following categories:

Level 1 — Quoted prices in active markets for identical assets or liabilities

Level 2 — Quoted prices for similar assets and liabilities in active markets or inputs that are observable

Level 3 — Inputs that are unobservable (for example, cash flow modeling inputs based on assumptions)

As of June 30, 2010, the Company's investment in cash and cash equivalents of \$124.3 million was measured at fair value using Level 1 inputs. On June 30, 2010, we exercised our right to receive cash from UBS for the remaining \$9.6 million in par value of auction rate securities. We received the \$9.6 million on July 1, 2010, and, accordingly, it is classified on the balance sheet as of June 30 as "Receivable from bank".

The carrying amount of the Company's auction rate securities is as follows:

	mount housands)
Balance at December 31, 2009	\$ 36,498
Redemptions, at par	(26,900)
Change in fair value of ARS portfolio	-
Change in fair value of ARS Right	2
Exercise of ARS Right	(9,600)
Balance at June 30, 2010	\$ -

Stock-Based Compensation

The Company maintains several stock-based compensation plans which are more fully described below. Total stock-based compensation expense related to all of the Company's stock awards was included in various operating expense categories for the three and six months ended June 30, 2010 and 2009, as follows:

	Three Months Ended June 30,			nded		ded		
	2010 2009		2010		,	2009		
				(in tho	usand	s)		
Product and content development	\$	365	\$	323	\$	724	\$	630
Sales and marketing		272		268		588		530
General and administrative		391		472		795		921
Total stock-based compensation	\$	1,028	\$	1,063	\$	2,107	\$	2,081

The Knot Stock-Based Incentive Plans

The 2009 Stock Incentive Plan (the "2009 Plan") was adopted by the Board of Directors, and became effective in May 2009 following approval by the stockholders, as a successor plan to the Company's 1999 Stock Incentive Plan (the "1999 Plan"). All incentive stock options, nonqualified stock options (incentive and nonqualified stock options are collectively referred to as "options"), stock appreciation rights, stock issuances which may be subject to the attainment of designated performance goals or service requirements ("restricted stock"), or any combination thereof outstanding under the 1999 Plan have been incorporated into the 2009 Plan. Under the terms of the 2009 Plan 1,000,000 shares of common stock of the Company were initially reserved for issuance in addition to the 3,190,737 shares which were incorporated from the 1999 Plan. The 2009 Plan provides that awards may be granted to such non-employee directors, officers, employees and consultants of the Company as the Compensation Committee of Board of Directors shall in its discretion select. Only employees of the Company are eligible to receive grants of incentive stock options. Options are granted at the fair market value of the stock on the date of grant. Options vest over periods up to four years and have terms not to exceed 10 years. Restricted stock awards vest over periods ranging from one to five years.

The 2000 Non-Officer Stock Incentive Plan (the "2000 Plan") was approved by the Board of Directors in June 2000. Under the terms of the 2000 Plan, 435,000 shares of common stock of the Company have been reserved for nonqualified stock options, stock issuances (which may be restricted stock) or any combination thereof. Awards may be granted to employees (other than officers or directors of the Company) and consultants and other independent advisors who provide services to the Company. Options are granted at the fair market value of the stock on the date of grant. Generally, options have vested over a four-year period and have terms not to exceed 10 years. Currently, there are no unvested options outstanding under the 2000 Plan.

As of June 30, 2010, there were 3,204,715 shares available for future grants under the 2009 Plan. The 2000 Plan expired as of June 30, 2010.

9

3.

Options

The following table represents a summary of the Company's stock option activity under the 2009 and 2000 Plans and related information, without regard for estimated forfeitures, for the six months ended June 30, 2010:

	Shares	Veighted age Exercise Price
	(in thousands)	
Options outstanding at December 31, 2009	895	\$ 5.29
Options granted	-	-
Options exercised	(496)	2.04
Options forfeited	-	-
Options outstanding at June 30, 2010	399	\$ 9.34

The intrinsic value of options exercised during the three months ended June 30, 2010 and 2009 was \$2.8 million and \$160, respectively. The intrinsic value of options exercised during the six months ended June 30, 2010 and 2009 was \$2.8 million and \$1.8 million, respectively.

The following table summarizes information about options outstanding at June 30, 2010:

		Options	Outstar	nding	Options	Exercis	sable
		Weighted					
		Average					
		Remaining	7	Weighted	Number	V	Veighted
	Number	Contractual		Average	Exercisable as	1	Average
	Outstanding	Life (in		Exercise	of June 30,	I	Exercise
Range of Exercise Price	as of June 30, 20	10 Years)		Price	2010		Price
	(in				(in		
	thousands)				thousands)		
\$0.42 to \$1.03	17	0.95	\$	0.76	17	\$	0.76
\$1.37 to \$4.10	222	3.58		3.54	222		3.54
\$18.26	160	1.91		18.26	160		18.26
	399	2.80	\$	9.34	399	\$	9.34

The weighted average remaining contractual life of options exercisable as of June 30, 2010 was 2.80 years. The aggregate intrinsic value of stock options outstanding at June 30, 2010 was \$1.1 million, all of which relates to vested awards. The intrinsic value for stock options is calculated based on the exercise price of the underlying awards and the quoted closing price of the Company's common stock as of June 30, 2010.

The following table summarizes non-vested stock option activity for the six months ended June 30, 2010:

	Shares (in thousands)	Weighted Average Exercise Price
Nonvested options outstanding at December 31, 2009	53	\$ 18.26
Vested	(53)	18.26
Canceled	-	
Nonvested options outstanding at June 30, 2010	-	\$ -

During the three and six months ended June 30, 2010 and 2009, 53,000 stock options vested. During the three and six months ended June 30, 2010 and 2009, the weighted average fair value of options that vested was \$5.95.

Restricted Stock

As of June 30, 2010 and 2009, there were 1,244,915 and 1,605,587 service-based restricted stock awards outstanding, respectively. During the three months ended June 30, 2010 and 2009, 20,000 and 26,000 shares, respectively, of restricted stock were awarded at weighted average grant-date fair values of \$7.63 and \$8.43, respectively. During the six months ended June 30, 2010 and 2009, 185,000 and 1,037,500 shares, respectively, of restricted stock were awarded at weighted average grant-date fair values of \$8.04 and \$6.95, respectively. During the six months ended June 30, 2010 and 2009, 320,504 and 79,288 shares of restricted stock, respectively, vested. During the six months ended June 30, 2010 and 2009, 78,467 and 17,592 shares of restricted stock, respectively, were canceled. During the six months ended June 30, 2010 and 2009, 130,868 and 28,573 shares of restricted stock, respectively, were repurchased by the Company in connection with the surrender of these shares by employees to satisfy tax withholding obligations related to the vesting of the stock awards. The aggregate intrinsic value of restricted shares as of June 30, 2010 was \$9.7 million. The intrinsic value for restricted shares is calculated based on the par value of the underlying shares and the quoted price of the Company's common stock as of June 30, 2010.

As of June 30, 2010, there was \$7.9 million of total unrecognized compensation cost related to non-vested restricted shares, net of estimated forfeitures, which is expected to be recognized over a weighted average period of 2.5 years. During the three months ended June 30, 2010 and 2009, the Company recorded \$948,000 and \$963,000, respectively, of compensation expense related to restricted shares. During the six months ended June 30, 2010 and 2009, the Company recorded \$1.9 million and \$1.9 million, respectively, of compensation expense related to restricted shares.

Employee Stock Purchase Plan

The 2009 Employee Stock Purchase Plan (the "2009 ESPP") was adopted by the Board of Directors, and was approved by the stockholders in May 2009, as a successor plan to the Company's 1999 Employee Stock Purchase Plan (the "1999 ESPP"). The first offering period under the 2009 ESPP began August 1, 2009 and shares were first purchased under this plan on January 31, 2010. The Compensation Committee of the Board of Directors administers each ESPP. The ESPP permits a participating employee to make contributions to purchase shares of common stock by having withheld from his or her salary an amount between 1% and 15% of compensation. Under each ESPP, eligible employees of the Company may elect to participate before the start date of a semi-annual offering period. On each purchase date during an offering period, a participating employee's contributions will be used to purchase up to 1,000 shares of the Company's common stock for such participating employee at a 15% discount from the fair market value, as defined in each ESPP, of such stock. In addition to the 1,000 share purchase limit, the cost of shares purchased under the plan by a participating employee cannot exceed \$25,000 in any plan year. The Company initially reserved 300,000 shares of

common stock under the 1999 ESPP. The shares reserved under the 1999 ESPP automatically increased on the first trading day in January of each calendar year by the lesser of the (i) the number of shares of common stock issued under the 1999 ESPP in the immediately preceding calendar year, (ii) 300,000 shares or (iii) such other lesser amount approved by the Board of Directors. Through June 30, 2010, 26,612 shares were issued under the 2009 ESPP. The Company initially reserved 300,000 shares of common stock under the 2009 ESPP.

The weighted average grant-date fair value of ESPP rights arising from elections made by ESPP plan participants was \$2.02 and \$1.85 during the three and six months ended June 30, 2010 and 2009, respectively. The fair value of ESPP rights that vested during the three and six months ended June 30, 2010 and 2009 were \$2.11 and \$2.21, respectively. On January 31, 2010, the Company issued 26,612 shares at a weighted average price of \$7.43 under the 2009 ESPP.

The intrinsic value of shares purchased through the 2009 ESPP on January 31, 2010 was \$46,000. The intrinsic value of outstanding 2009 ESPP rights as of June 30, 2010 was \$57,000. The intrinsic value of the shares of 2009 ESPP rights is calculated as the discount from the quoted price of the Company's common stock, as defined in the 2009 ESPP, which was available to employees as of the respective dates.

As of June 30, 2010, there was \$10,000 of unrecognized compensation cost related to 2010 ESPP rights, net of estimated forfeitures, which is expected to be recognized over a weighted average period of one month.

The fair value of ESPP rights have been estimated on the date of grant using the Black-Scholes option pricing model with the following assumptions:

Six Months	Ended June 30,
2010	2009

Weighted average expected lives	Six months	Six months
Risk-free rate	0.17%	0.36%
Expected volatility	25.7%	44.6%
Dividend yield	0.0%	0.0%

Expected volatility is based on the historical volatility of the market price of the Company's stock. The expected lives of options granted are based on analyses of historical employee termination rates and option exercises. The risk-free interest rates are based on the expected option lives and the corresponding U.S. treasury yields in effect at the time of grant. The fair value for ESPP rights includes the option exercise price discount from market value provided for under the ESPP.

During the three months ended June 30, 2010 and 2009, the Company recorded \$80,000 and \$100,000, respectively, of compensation expense related to options and ESPP rights and received cash from the exercise of options and ESPP rights of \$65,000 and \$10,000 for the three months ended June 30, 2010 and 2009, respectively, for which the Company issued new shares of common stock. During the six months ended June 30, 2010 and 2009, the Company recorded \$190,000 and \$202,000, respectively, of compensation expense related to options and ESPP rights and received cash from the exercise of options and ESPP rights of \$288,000 and \$1.0 million for the six months ended June 30, 2010 and 2009, respectively, for which the Company issued new shares of common stock.

4. Comprehensive Income

The Company's comprehensive net income is equal to its net income for all periods presented.

5. Inventory

Inventory consists of the following:

June 30, December 31, 2010 2009

(in thousands)

Inventory

Definite lived intangible assets are amortized over their estimated useful lives as follows:

Customer and advertiser 2 to 10 years

relationships

Developed technology and patents 5 years
Trademarks and tradenames 3 to 5 years
Service contracts and other 1 to 7 years

Amortization expense was \$369,000 and \$1.2 million for the three months ended June 30, 2010 and 2009, and \$1.0 million and \$2.4 million for the six months ended June 30, 2010 and 2009, respectively. Estimated annual amortization expense is \$1.8 million in 2010, \$984,000 in 2011, \$187,000 in 2012, \$187,000 in 2013, \$60,000 in 2014 and \$83,000, thereafter.

7. Commitments and Contingencies

On November 4, 2008, the Company was named as a defendant in a complaint filed in the United States District Court for the Eastern District of Texas and captioned Balthaser Online, Inc. v. Network Solutions, LLC, The Knot, Inc., Insider Guides, Inc., Cyworld Inc., FriendFinder Networks, Inc., Hi5 Networks, Inc., Freewebs, Inc., Gaia Interactive Inc., Friendster Inc., Ebaum's World, Inc., Puma International, LLC, Imeem, Inc., Scripps Networks, LLC, Live Journal Inc., Nike, Inc., Ning, Inc., Swatchbox Technologies, Inc., Electronic Arts Inc., Hookumu Inc., Meredith Corp., and Capcom USA, Inc. The complaint alleges that the defendants are willfully infringing a patent held by the plaintiff by, among other things, operating websites covered by one or more claims of the patent that relate to rich-media Internet applications. The complaint seeks compensatory damages in an amount to be determined at trial, but in no event less than a reasonable royalty; an accounting of all sales and revenue derived in connection with the conduct alleged to infringe the patent; an order that would treble all damages awarded; an award of costs, interest on damages and reasonable attorneys' fees; and a permanent injunction. On January 2, 2009, the Company filed an answer and counter-claims, in which it denied infringement and denied that Balthaser is entitled to damages, equitable relief, pre-judgment or post-judgment interest, an exceptional case award, or to any relief whatsoever. The Company asserted as its affirmative defenses non-infringement, invalidity, an adequate remedy other than injunctive relief, and no willful infringement. The Company asserted counter-claims for declaratory judgments as to non-infringement and invalidity. On September 15, 2009, the United States District Court for the Eastern District of Texas granted the motion made by several defendants to transfer the case to the United States District Court for the Northern District of California, and the claims made against the Company were transferred along with the claims made against most of the other defendants. While the Company intends to vigorously defend against the claims asserted and pursue its counter-claims, this case is in the preliminary stages of litigation and, as a result, the ultimate outcome of this case and any potential financial impact on the Company are not reasonably determinable at this time.

As of June 30, 2010, the Company was engaged in other legal actions arising in the ordinary course of business and believes that the ultimate outcome of these actions will not have a material effect on its results of operations, financial position or cash flows.

8. Income Taxes

As of December 31, 2009, the Company had approximately \$4.3 million in unrecognized tax benefits related to certain acquired net operating loss carryforwards of WeddingChannel arising from a tax position taken in the 2006 income tax filings related to losses associated with the dissolution of a subsidiary. This amount has been netted against the related deferred tax assets and, if recognized, would be reported as a reduction of income tax expense. However, a portion of these unrecognized tax benefits could be subject to a valuation allowance and if and when recognized in a future period. The Company had excess tax benefits of \$374,000 related to the vesting of restricted stock for the six months ended June 30, 2010.

The Company is subject to taxation in the United States and various state and local jurisdictions. In December 2007, the Internal Revenue Service completed its audit of the Company's 2005 U.S. federal tax return with no adjustment. On June 17, 2009 the Company received notification that its New York State franchise tax returns would be audited for the year ended December 31, 2005. As of June 30, 2010, none of the Company's other tax returns have been examined by any income taxing authority. As a result of the ongoing use of tax loss carryforwards, all of the Company's U.S. federal tax returns from 1998 through 2004 and 2006, its more significant state and local returns, as well as all tax returns of WeddingChannel remain subject to examination.

9. Earnings Per Share

Basic earnings per share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted earnings per share adjusts basic earnings per share for the effects of stock options, restricted common stock, warrants and other potentially dilutive financial instruments, only in the periods in which the effects are dilutive.

The following is a reconciliation of the weighted-average shares outstanding and calculation of basic and diluted earnings per share:

	Three Months Ended June 30, 2010 2009					x Months E 2010	nded .	June 30, 2009
		(in	thous	ands, excep	ot for	per share da	ata)	
Net income	\$	1,152	\$	1,694	\$	1,041	\$	403
Total weighted-average basic shares		32,610		32,097		32,486		31,988
Dilutive securities:								
Restricted stock		448		322		494		184
Employee Stock Purchase Plan		30		18		21		18
Options/warrants		477		646		560		689
Total weighted-average diluted shares		33,565		33,083		33,561		32,879
Net earnings per share:								
Basic	\$	0.04	\$	0.05	\$	0.03	\$	0.01
Diluted	\$	0.03	\$	0.05	\$	0.03	\$	0.01

The calculation of earnings per share excludes a weighted average number of stock options and restricted stock of 162,000 and 162,000 for the three and six months ended June 30, 2010, respectively, and 192,000 and 304,000 for the three and six months ended June 30, 2009, respectively, because to include them in the calculation would be antidilutive.

10. Stock Repurchase Program

On February 22, 2010, the Company announced that its Board of Directors had authorized the repurchase of up to \$50.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions. The timing and amount of any shares repurchased will be determined by the Company's management based on its evaluation of market conditions and other factors. The repurchase program may be suspended or discontinued at any time. The repurchase program will be funded using the Company's working capital.

During the three months and six months ended June 30, 2010, the Company did not repurchase any shares under this program.

11. New Registry Agreement-Macy's

As of June 1, 1999, the Company's subsidiary WeddingChannel.com, Inc. and Federated Department Stores, Inc., now known as Macy's, Inc., entered into a registry agreement (the "Old Registry Agreement"). The Old Registry Agreement, as amended and supplemented, provided that WeddingChannel.com was responsible for the operation and maintenance of the website from which all bridal registries for the department stores owned by Macy's could be accessed. WeddingChannel.com received a commission from the sale of Macy's merchandise through this website.

On January 11, 2010, WeddingChannel.com and Macy's entered into an agreement to terminate the Old Registry Agreement (the "Termination Agreement"), which had been scheduled to expire in January 2011, and entered into a new registry agreement (the "New Registry Agreement"). The initial term of the New Registry Agreement is three years from the last launch date of the new Macy's and Bloomingdale's online registry platforms, followed by an automatic renewal term of two additional years (subject to either party's election not to renew with 90 days notice before the expiration of the initial term). Under the New Registry Agreement, WeddingChannel.com no longer hosts and manages the registry websites for Macy's and Bloomingdale's. Instead, the New Registry Agreement is similar to contracts that WeddingChannel.com has with its other retail partners, whereby the Company only receive a commission for purchases originating from its websites. The Old Registry Agreement terminated after a transition period to fully implement the launch of the new Macy's and Bloomingdale's online registry platforms under the New Registry Agreement, which began in February 2010. Under the Termination Agreement, Macy's has agreed to spend \$3,000,000 between February 1, 2010 and January 31, 2011 for advertising and sponsorship programs with the Company designed to promote the new Macy's and Bloomingdale's online registry platforms. Pursuant to the Termination Agreement, Macy's paid WeddingChannel.com \$1,000,000 in February 2010 as a premium for agreeing to the early termination of the Old Registry Agreement. The impact of the New Registry Agreement on the Company's 2010 results depends on multiple factors that cannot be reasonably predicted at this time. However, the Company believes that it is unlikely to generate the same level of revenue from the Macy's relationship in 2010 as it did in 2009, primarily because it will no longer receive commissions on 100% of Macy's and Bloomingdale's online registry transactions.

12. Subsequent Events

The Company has evaluated subsequent events up through the date the financial statements were issued, and determined there were no subsequent events to report as of that date.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our condensed consolidated financial statements and related notes included elsewhere in this report.

Overview

The Knot, Inc. is the premier media company devoted to weddings, pregnancy, and everything in between, providing young women with the trusted information, products, and advice they need to guide them through the most transformative events of their lives. Our family of premium brands began with the industry's #1 wedding brand, The Knot, and has grown to include WeddingChannel.com, The Nest, and The Bump. Our groundbreaking community platforms and incomparable content have ignited passionate communities across the country. The Knot, Inc. is recognized by the industry for being innovative in all media — from the web to social media and mobile, to magazines and books, television and video. For our advertisers and partners, The Knot, Inc. offers the consummate opportunity to connect with our devoted communities as they make the most important decisions of their lives. The Knot, Inc. is made up of four major revenue categories: online sponsorship and advertising, registry services, merchandise, and publishing.

In order to sustain growth within the customer groups we serve, we focus on our key growth strategy, which is to expand our position as a leading lifestage media company providing comprehensive information, services and products to couples from engagement through pregnancy on multiple platforms that remain relevant to the changing media landscape. To that end we are focused on the following objectives:

- Upgrade our technology to increase our operational efficiency so that we can access a greater market share of advertising dollars and commerce revenue in the weddings portion of our business. We developed a new content management system that allows us to more efficiently maintain and organize information on our websites. Our new contract entry system and surrounding support applications have enabled us to implement greater pricing flexibility in all of our local markets, which we believe will allow us to expand our local vendor base, as well as achieve operational efficiencies, providing additional time for our local sales force to pursue new accounts. In addition to the new contract entry system, we have completed the process of converting our existing local art management application off of our legacy AS/400 system. In January 2010 we launched a self-service platform that will allow local vendors to automatically select their advertising programs. We anticipate launching an auction-based platform for selling featured vendor positions in the local areas on our websites. We are working to enhance the functionality of our patented gift registry application to encompass a wide selection of items and retailers. To this end, we believe our recently launched Gift Registry 360, a universal gift registry platform, improves the ability of our users to seamlessly add items from multiple retailers to their registry lists and complete transactions. We expect that these new programs will allow us to more effectively scale our local and registry business and drive further growth for local online and registry revenue.
- •Increase awareness of our brands and products. We believe that we have generally excelled at marketing to our consumers with compelling brands, engaging content and products and a highly successful consumer public relations program, but we have not aggressively marketed our media offerings to advertisers. Accordingly, in 2008, we established a new marketing team to develop trade marketing programs and supporting research aimed at the local vendor community and national advertising marketplace as a foundation to drive further national and local advertising revenue growth. This team will also be involved in launching programs to increase registry searches and transactions from which we would derive commission revenue, as well as to increase revenue of our wedding supplies business through opportunistic acquisitions and improved conversion of our members to customers of our online stores. In 2010 we are increasing the publication frequency of The Knot Weddings national magazine from semi-annually to quarterly. We are also increasing the publication frequency of The Bump local market guides

from annually to semi-annually.

• Expand our brands internationally. We are focused on identifying opportunities in large international markets where we can use our brand recognition and editorial authority on the key lifestages of engagement, newlywed and first-time pregnancy to drive further growth. In 2009 we established a software development center in Guangzhou, China for the purposes of increasing technology development productivity without materially growing technology costs. The software development center will also serve as a development resource for expanding our business in China. With a large number of weddings and an affinity for western styles, we believe there is a substantial opportunity to serve Chinese couples with information and services about western-style weddings, through the office we opened in Beijing. In addition, we established an exclusive licensing arrangement for our brands in Australia in 2009. To date, no revenue has been generated by our operations in China nor do we anticipate a material revenue contribution in 2010.

We believe the growth strategies outlined above will allow us to continue to increase consumer market share and deliver strong returns on our investments.

Second Quarter 2010

During the second quarter of 2010, our net revenue increased and our net income decreased compared to the same period in 2009. The highlights of the second quarter of 2010 were:

- Total net revenue increased 3.7% to \$30.6 million over the corresponding 2009 period.
- National online advertising revenue increased 10.0% to \$6.1 million over the corresponding 2009 period.
- Local online advertising revenue increased 2.4% to \$8.8 million over the corresponding 2009 period.
- Merchandise revenue increased 4.1% to \$8.4 million over the corresponding 2009 period primarily due to an acquisition of an e-commerce company in May 2009.
- Publishing and other revenue increased 24.7% to \$5.2 million over the corresponding 2009 period primarily due to an increase in our national magazine publication cycle from twice a year to four times a year.
- Registry services revenue decreased by 34.3% to \$2.0 million primarily due to the change in our registry relationship with Macy's.
- We had operating income of \$2.3 million compared to \$3.1 million in the prior year's quarter. The year-over-year decrease in operating income was primarily due to increased operating expenses offset by higher net revenue and gross profit. The increase in operating expenses was driven by incremental operating expenses related to our acquisition and expansion activities in 2009, as well as increased marketing and personnel related costs. These increases were partially offset by lower depreciation and amortization expense. This was due to impairment charges in the fourth quarter of 2009 that led to intangible asset write-downs. We also had several assets that became fully depreciated at the end of 2009 and lower purchases of fixed assets in 2009 and 2010.
- We had net income for the three months ended June 30, 2010 of \$1.2 million, or \$0.04 per basic share and \$0.03 per diluted share, compared to net income of \$1.7 million, or \$0.05 per basic and per diluted share for the three months ended June 30, 2009.
- At June 30, 2010, we had total cash, cash equivalents, and investments receivables of \$133.9 million. Cash and cash equivalents were \$124.3 million. At the end of the quarter, we exercised our right to receive cash from UBS for the \$9.6 million of remaining auction rate securities. We received the \$9.6 million subsequent to June 30, and, accordingly, it is classified on the balance sheet as of June 30 as a receivable called "Receivable from bank".

At June 30, 2010, we had no debt.

Results of Operations

Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009

The following table summarizes results of operations for the three months ended June 30, 2010 compared to the three months ended June 30, 2009:

Three Months Ended June 30, 2010 2009

	A	Amount (in th	% of Net Revenue nousands, except	_	amount per share	% of Net Revenue data)
Net revenue	\$	30,569	100.0%	\$	29,471	100.0%

Basic	\$	0.04		\$	0.05	
Diluted	\$	0.03		\$	0.05	

Net Revenue

Net revenue increased to \$30.6 million for the three months ended June 30, 2010, from \$29.5 million for the three months ended June 30, 2009. The following table sets forth revenue by category for the three months ended June 30, 2010 compared to the three months ended June 30, 2009, the percentage increase or decrease between those periods, and the percentage of total net revenue that each category represented for those periods:

			Three 1	Months Ended June	30,		
	Net Re	evenu	e	Percentage of Total Net Revenue			
				Percentage Increase/			
	2010		2009	(Decrease)	2010	2009	
	(in tho	usand	s)				
National online sponsorship							
and advertising	\$ 6,140	\$	5,582	10.0%	20.1%	18.9%	
Local online sponsorship and							
advertising	8,841		8,635	2.4	28.9	29.3	
Total online sponsorship and							
advertising	14,981		14,217	5.4	49.0	48.2	
Registry services	1,957		2,981	(34.3)	6.4	10.1	
Merchandise	8,439		8,110	4.1	27.6	27.5	
Publishing and other	5,192		4,163	24.7	17.0	14.2	
Total net revenue	\$ 30,569	\$	29,471	3.7%	100.0%	100.0%	

Online sponsorship and advertising - The increase of 5.4% was driven by increased revenue from both national and local advertising programs. National online sponsorship and advertising revenue increased 10.0%, driven by new and repeat advertisers to our network of websites. A key driver in this increase was our registry agreement with Macy's. Under the terms of the termination of the old Macy's registry contract Macy's agreed to spend \$3.0 million between February 1, 2010 and January 31, 2011 for advertising and sponsorship programs with us, designed to promote the new Macy's and Bloomingdale's online registry platforms. Local online sponsorship and advertising revenue increased 2.4%, driven by an increased number of local vendors advertising with us. As of June 30, 2010, we had over 17,000 local vendors who display nearly 21,000 profiles compared to over 16,000 vendors who displayed over 19,000 profiles as of June 30, 2009.

Registry services – The decrease of 34.3% was driven by lower commissions from Macy's. On January 11, 2010, we signed an agreement to terminate the old registry agreement with Macy's. The original contract was scheduled to expire in January 2011. Additionally, we entered into a new contract with Macy's for registry services that commenced on February 1, 2010. Under the old contract, WeddingChannel hosted and processed all of Macy's registry transactions regardless of whether the transactions originated on Macy's website or WeddingChannel's website and received commission on 100% of registry sales. Under the new contract, WeddingChannel's registry relationship with Macy's is now similar to our other retail partners, and WeddingChannel receives a commission for registry purchases originating from the WeddingChannel and other The Knot affiliate websites. This resulted in lower commissions from Macy's. This decrease was partially offset by increased registry commissions from our new and historic registry retail partners. The impact of the new registry agreement with Macy's on our full-year 2010 results depends on multiple factors that cannot be reasonably predicted at this time. However, we believe that we are unlikely to generate the same level of revenue from the Macy's relationship in 2010 as we did in 2009, primarily because we will no longer receive commissions on 100% of Macy's and Bloomingdale's online registry transactions.

Merchandise – The increase of 4.1% was driven by incremental revenue from an e-commerce company that we acquired on May 1, 2009. The acquired company contributed \$701,000 million of net revenue during the period. This increase was offset, in part, by lower revenue from both The Knot Wedding Shop and the WeddingChannel Shop. The decrease in The Knot Wedding Shop was driven by declines in traffic to the site. The decrease in the WeddingChannel Shop was caused by the decline in visitor traffic due to the change in the Macy's registry relationship which reduced visitor traffic to the WeddingChannel website.

Publishing and other – The increase of 24.7% was driven by the increase in our national magazine publication cycle from twice a year to four times a year.

Gross Profit/Gross Margin

Gross margin decreased 2.0% to 76.7%, compared to 78.7% in 2009. The following table presents the components of gross profit and gross margin for the three months ended June 30, 2010 compared to the three months ended June 30, 2009:

	Three Months Ended June 30,												
	20	010		200	09		Increase/(Decrease)						
	Gross Gross Profit Margin %		Gross Profit		Gross Margin %		Gross Profit	Gross Margin %					
	FIOIII	Margin %		(in thou	•		FIOIII	Wargin %					
Online sponsorship													
and advertising													
(national & local)	\$ 14,534	97.0%	\$	13,599	95.7%	\$	935	1.3%					
Registry	1,957	100.0		2,981	100.0		(1,024)	-					
Merchandise	3,820	45.3		3,986	49.1		(166)	(3.8)					
Publishing and other	3,132	60.3		2,629	63.2		503	(2.9)					
Total gross profit	\$ 23,443	76.7%	\$	23,195	78.7%	\$	248	(2.0) %					

The decrease in gross margin was driven by lower gross margin for merchandise and publishing and other. The decrease in merchandise margin was driven by sales promotions, product mix within the gifts category and higher than planned personalization costs. We also had increases in damaged inventory. The decrease in publishing and other gross margin was due to increased editorial pages relative to advertising pages within our magazines. This decrease was partially offset by increased margin in online sponsorship and advertising. The increase in online sponsorship and advertising margin was driven by higher advertiser revenue. Overall gross margin was also impacted by reduced registry revenue.

Operating Expenses

Operating expenses increased 5.3% to \$21.2 million, compared to \$20.1 million in 2009, driven by incremental operating expenses related to our acquisition and expansion activities in 2009, as well as increased marketing and personnel related costs. These increases were partially offset by lower depreciation and amortization expense due to intangible asset impairment charges in the fourth quarter of 2009. As a percentage of net revenue, operating expenses were 69.3% and 68.3% during 2010 and 2009, respectively.

The following table presents the components of operating expenses and the percentage of revenue that each component represented for the three months ended June 30, 2010 compared to the three months ended June 30, 2009:

Three Months Ended June 30,

		Operating	Expe	enses		Percentag Total Net R	•
		2010 (in tho	usand	2009 s)	Percentage Increase/ (Decrease)	2010	2009
Product and content							
development	\$	5,651	\$	5,061	11.7%	18.5%	17.2%
Sales and marketing	Ψ.	8,679	Ψ	7,703	12.7	28.4	26.1
General and administrative		5,635		4,817	17.0	18.4	16.3
Depreciation and							
amortization		1,211		2,534	(52.2)	4.0	8.7
Total operating expenses	\$	21,176	\$	20,115	5.3%	69.3%	68.3%

Product and Content Development – The increase of 11.7% was primarily due to incremental operating expenses associated with the software development center we opened in Guangzhou, China in May 2009 and the opening of our Beijing, China office. The expenses are primarily personnel and occupancy related. We also had increased employee compensation to support our growth initiatives.

Sales and Marketing – The increase of 12.7% was primarily due to increased advertising and promotional initiatives to continue to raise awareness of our brands and products within the local vendor community and national advertising marketplace, to develop programs designed to promote registry searches from which we derive commission revenue and to improve the conversion rate of our membership base to customers of e-commerce business. Also included is increased headcount to support those initiatives.

General and Administrative – The increase of 17.0% was primarily due to increased expenses in connection with our international expansion. We opened an office in Beijing, China during the first quarter of 2010. We also had increased employee compensation cost to support our growth initiatives. These increases were partially offset by lower bad debt expense. This was due to lower specific customer reserves in 2010 compared to 2009.

Depreciation and Amortization –The decrease of 52.2% was primarily due to impairment charges in the fourth quarter of 2009 that led to intangible asset write-downs. We also had several assets that became fully depreciated at the end of 2009 and lower purchases of fixed assets in 2009 and 2010.

Interest and Other Income

Interest and other income, net was \$3,000 for the three months ended June 30, 2010 as compared to \$216,000 for three months ended June 30, 2009. The decrease was due to the impact of lower interest rates on our entire portfolio of cash, commercial paper, treasuries and auction rate securities.

Loss in Equity Interest

Loss in equity interest was \$97,000 for the three months ended June 30, 2010. The entity in which we have an equity interest was formed in July 2009; therefore, there was no equity income or loss for the three months ended June 30,

2009.

Provision for Income Taxes

The effective tax rate for the three months ended June 30, 2010, was approximately 47% as compared to 48.6% for the three months ended June 30, 2009.

Six Months Ended June 30, 2010 Compared to Six Months Ended June 30, 2009

The following table summarizes results of operations for the six months ended June 30, 2010 compared to the six months ended June 30, 2009:

Six Months Ended June 30, 2010 2009

	A	Amount (in tl	% of Net Revenue nousands, except	-	Amount per share c	% of Net Revenue lata)
Net revenue	\$	58,072	100.0%	\$	53,188	100.0%

Net Revenue

Net revenue increased to \$58.1 million for the six months ended June 30, 2010, from \$53.2 million for the six months ended June 30, 2009. The following table sets forth revenue by category for the six months ended June 30, 2010 compared to the six months ended June 30, 2009, the percentage increase or decrease between those periods, and the percentage of total net revenue that each category represented for those periods:

	Six Months Ended June 30,										
	Net R	evenu	e		Percentag Total Net Re						
				Percentage Increase/							
	2010		2009	(Decrease)	2010	2009					
	(in tho	usand	s)								
National online sponsorship											
and advertising	\$ 11,703	\$	9,814	19.2%	20.2%	18.5%					
Local online sponsorship and											
advertising	17,742		17,227	3.0	30.6	32.4					
Total online sponsorship and											
advertising	29,445		27,041	8.9	50.8	50.9					
Registry services	3,655		4,698	(22.2)	6.3	8.8					
Merchandise	15,360		13,276	15.7	26.4	25.0					
Publishing and other	9,612		8,173	17.6	16.6	15.3					
Total net revenue	\$ 58,072	\$	53,188	9.2%	100.0%	100.0%					

Online sponsorship and advertising - The increase of 8.9% was driven by increased revenue from both national and local advertising programs. National online sponsorship and advertising revenue increased 19.2%, driven by new and repeat advertisers to our network of websites. A key driver in this increase was our registry agreement with Macy's. Under the terms of the termination of the old Macy's registry contract Macy's agreed to spend \$3.0 million between February 1, 2010 and January 31, 2011 for advertising and sponsorship programs with us, designed to promote the new Macy's and Bloomingdale's online registry platforms. Local online sponsorship and advertising revenue increased 3.0%, driven by an increased number of local vendors advertising with us. As of June 30, 2010, we had over 17,000 local vendors who display nearly 21,000 profiles compared to over 16,000 vendors who displayed over 19,000 profiles as of June 30, 2009.

Registry services – The decrease of 22.2% was driven by lower commissions from Macy's. On January 11, 2010, we signed an agreement to terminate the old registry agreement with Macy's. The original contract was scheduled to expire in January 2011. Additionally, we entered into a new contract with Macy's for registry services that commenced on February 1, 2010. Under the old contract, WeddingChannel hosted and processed all of Macy's registry transactions regardless of whether the transactions originated on Macy's website or WeddingChannel's website and received commission on 100% of registry sales. Under the new contract, WeddingChannel's registry relationship with Macy's is now similar to our other retail partners, and WeddingChannel receives a commission for registry purchases originating from the WeddingChannel and other The Knot affiliate websites. This resulted in lower commissions from Macy's. This decrease was partially offset by increased registry commissions from our new and historic registry retail partners. The impact of the new registry agreement with Macy's on our full-year 2010 results depends on multiple factors that cannot be reasonably predicted at this time. However, we believe that we are unlikely to generate the same level of revenue from the Macy's relationship in 2010 as we did in 2009, primarily because we will no longer receive commissions on 100% of Macy's and Bloomingdale's online registry transactions.

Merchandise – The increase of 15.7% was driven by incremental revenue from an e-commerce company that we acquired on May 1, 2009. The acquired company contributed \$2.3 million of net revenue during the year. This increase was offset, in part, by declines in revenue from the WeddingChannel Shop which were impacted by the decline in visitor traffic due to the change in the Macy's registry relationship which reduced visitor traffic to the WeddingChannel website.

Publishing and other – The increase of 17.6% was driven by the increase in our national magazine publication cycle from twice a year to four times a year. We also received a termination fee of \$1.0 million that Macy's paid to WeddingChannel to terminate its old registry agreement. This increase was offset, in part, by the discontinuation of The Knot Best of Weddings magazine that was published in the first quarter of 2009.

Gross Profit/Gross Margin

Gross margin decreased 1.4% to 77.7%, compared to 79.1% in 2009. The following table presents the components of gross profit and gross margin for the six months ended June 30, 2010 compared to the six months ended June 30, 2009:

	2010			x Months Er 20	nded June 30, 09	Increase/(Decrease)		
	Gross Profit	Gross Margin %		Gross Profit (in thou	Gross Margin % sands)	Gross Profit	Gross Margin %	
Online sponsorship and advertising								
(national & local)	\$ 28,531	96.9%	\$	25,810	95.4%	\$ 2,721	1.5%	
Registry	3,655	100.0		4,698	100.0	(1,043)	-	
Merchandise	6,858	44.6		6,700	50.5	158	(5.9)	
Publishing and other	6,065	63.1		4,846	59.3	1,219	3.8	
Ū								
Total gross profit	\$ 45,109	77.7%	\$	42,054	79.1%	\$ 3,055	(1.4) %	

The decrease in gross margin was driven by lower gross margin for merchandise. The decrease in merchandise margin was driven by sales promotions, product mix within the gifts category and higher than planned personalization costs. We also had increases in damaged inventory. This decrease in margin was partially offset by increased margin in the online sponsorship and advertising and publishing and other revenue categories. The increase in online sponsorship and advertising margin was driven by higher advertiser revenue. The increase in publishing and other revenue margin was due to the registry contract termination payment from Macy's and savings in overall printing expenses.

Operating Expenses

Operating expenses increased 4.2% to \$43.0 million, compared to \$41.3 million in 2009, driven by incremental operating expenses related to our acquisition and expansion activities in 2009, as well as increased marketing and personnel related costs. These increases were partially offset by lower depreciation and amortization expense due to impairment charges in the fourth quarter of 2009 that led to intangible asset write-downs. As a percentage of net revenue, operating expenses were 74.1% and 77.6% during 2010 and 2009, respectively.

The following table presents the components of operating expenses and the percentage of revenue that each component represented for the six months ended June 30, 2010 compared to the six months ended June 30, 2009:

	of								
	Percentage of Total Net Revenue								
Percentage Increase/ 2010 2009 (Decrease) 2010	2009

77.6%

Product and Content Development – The increase of 9.9% was primarily due to incremental operating expenses associated with the software development center we opened in Guangzhou, China in May 2009 and from our acquisition of WedSnap in January 2009. The expenses are primarily personnel and occupancy related. We also had increased employee compensation to support our growth initiatives.

\$

11,184

43,018

\$

2,740

Sales and Marketing – The increase of 13.9% was primarily due to increased advertising and promotional initiatives to continue to raise awareness of our brands and products within the local vendor community and national advertising marketplace, to develop programs designed to promote registry searches from which we derive commission revenue and to improve the conversion rate of our membership base to customers of e-commerce business. Also included is increased headcount to support those initiatives.

General and Administrative – The increase of 9.4% was primarily due to a reserve for a potential state sales tax liability related to our e-commerce business. We also had increased expenses in connection with our international expansion. We opened an office in Beijing, China during the first quarter of 2010. We also had increased employee compensation to support our growth initiatives.

These increases were partially offset by lower bad debt expense. This was due to lower specific customer reserves in 2010 compared to 2009.

Depreciation and Amortization –The decrease of 47.1% was primarily due to impairment charges in the fourth quarter of 2009 that led to intangible asset write-downs. We also had several assets that became fully depreciated at the end of 2009 and lower purchases of fixed assets in 2009 and 2010.

Interest and Other Income

General and administrative

Total operating expenses

Depreciation and amortization

Interest and other income, net was \$85,000 for the six months ended June 30, 2010 as compared to \$520,000 for six months ended June 30, 2009. The decrease was due to the impact of lower interest rates on our entire portfolio of cash, commercial paper, treasuries and auction rate securities.

Loss in Equity Interest

Loss in equity interest was \$212,000 for the six months ended June 30, 2010. The entity in which we have an equity interest was formed in July 2009; therefore, there was no equity income or loss for the six months ended June 30, 2009.

Provision for Income Taxes

The effective tax rate for the six months ended June 30, 2010, was approximately 47% as compared to 68.5% for the six months ended June 30, 2009.

Liquidity and Capital Resources

Cash Flow

Cash and cash equivalents consist of cash and highly liquid investments with maturities of 90 days or less at the date of acquisition. At June 30, 2010, we had \$124.3 million in cash and cash equivalents compared to \$73.2 million at June 30, 2009.

The following table sets forth our cash flows from operating activities, investing activities and financing activities for the periods indicated:

	For the Six Months End 2010			ded June 30, 2009	
		(in thou	usands)		
Net cash provided by operating activities	\$	5,205	\$	7,550	
Net cash provided by investing activities		25,047		4,434	
Net cash used in financing activities		(908)		(250)	
Increase in cash and cash equivalents	\$	29,344	\$	11,734	

Operating Activities

Net cash provided by operating activities was \$5.2 million for the six months ended June 30, 2010. This was driven by our net income of \$1.0 million adjusted for non-cash items. Non-cash items included depreciation, amortization, stock-based compensation, reserve for returns and other non-cash items of \$7.4 million. We also had increased accounts payable and accrued expenses of \$1.6 million driven by a reserve for a potential state sales tax liability related to our e-commerce business as well as expenses in connection with our increased publication cycle. These sources of cash were offset by increased trade accounts receivable and receivables from affiliates of \$2.4 million and \$813,000, respectively due to open billings for national advertising and registry. We also had increased inventory of \$1.8 million in anticipation of higher seasonal sales of wedding supplies in the third quarter.

Net cash provided by operating activities was \$7.6 million for the six months ended June 30, 2009. This resulted primarily from net income for the period of \$403,000, depreciation, amortization, stock-based compensation, deferred income taxes and other non cash items of \$10.7 million. These sources of cash were offset by increased accounts receivable \$1.4 million due to increased billings, increased accounts receivable from affiliates of \$823,000 due to open billings to Macy's for registry and national online advertising and increased inventory of \$1.0 million to support higher seasonal sales.

Investing Activities

Net cash provided by investing activities was \$25.0 million for the six months ended June 30, 2010. This resulted from the proceeds from the redemptions of auction rate securities of \$26.9 million. This source of cash was offset, in part, by capitalized expenditures and purchases of fixed assets of \$1.1 million and our contribution of \$500,000 to the entity in which we have an equity interest.

Net cash provided by investing activities was \$4.4 million for the six months ended June 30, 2009. This resulted primarily from \$10.0 million of proceeds related to the maturity of U.S. Treasury bills held by us during the quarter and \$1.3 million of proceeds from the redemption of long-term auction rate securities. These sources of cash were offset by business acquisitions of \$5.7 million, net of cash acquired, and the purchase of property and equipment of \$1.0 million.

Financing Activities

Net cash used in financing activities was \$908,000 for the six months ended June 30, 2010. This was primarily due to our repurchases of common stock in connection with the surrender of these shares by employees to satisfy tax withholding obligations related to the vesting of restricted stock awards.

Net cash used in financing activities was \$250,000 for the six months ended June 30, 2009. This was primarily due to decreased excess tax benefits from stock-based awards of \$1.0 million. For the six months ended June 30, 2009, we also repurchased \$230,000 of common stock in connection with the surrender of restricted shares by employees to satisfy tax withholding obligations related to the vesting of the stock awards. These uses of cash were partially offset by the issuance of common stock in connection with the exercise of vested options and our employee stock purchase plan.

Off-Balance Sheet Arrangements

As of June 30, 2010, we did not have any relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities, which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes.

Seasonality

Seasonal and cyclical patterns may affect our revenue. Wedding-related merchandise revenue and registry sales generally are lower in the first and fourth quarters of each year. As a result of these factors, we may experience fluctuations in our revenue from quarter to quarter.

Critical Accounting Policies

Our discussion of results of operations and financial condition relies on our consolidated financial statements that are prepared based on certain critical accounting policies that require management to make judgments and estimates that are subject to varying degrees of uncertainty. We believe that investors need to be aware of these policies and how they impact our financial statements as a whole, as well as our related discussion and analysis presented herein. While we believe that these accounting policies are based on sound measurement criteria, actual future events can result in outcomes that may be materially different from these estimates or forecasts.

The accounting policies and related risks described in our Annual Report on Form 10-K for the year ended December 31, 2009 are those that depend most heavily on these judgments and estimates. As of June 30, 2010, there have been no material changes to any of the critical accounting policies contained therein.

Recently Adopted Accounting Pronouncements

The adoption of the following accounting standards and updates did not result in a material impact to our condensed consolidated financial statements:

On June 12, 2009, the accounting standard relating to the transfers and servicing of financial assets and extinguishment of liabilities was updated to require additional information about transfers of financial assets, including securitization transactions, and where companies have continuing exposure to the risks related to transferred financial assets. It eliminates the concept of a "qualifying special-purpose entity," changes the requirements for derecognizing financial assets, and requires additional disclosures. This standard update is effective as of January 1, 2010.

On June 12, 2009, the accounting standard regarding the requirements of consolidation accounting for variable interest entities was updated to require an enterprise to perform an analysis to determine whether the entity's variable interest or interests give it a controlling interest in a variable interest entity. This standard update is effective for all interim and annual reporting periods as of January 1, 2010.

On January 21, 2010, the accounting standard relating to fair value measurements was updated to require additional new disclosures for transfers in and out of Levels 1 and 2 and activity in Level 3. This update also amends the standard by requiring an entity to provide fair value measurement disclosures for each class of assets and liabilities as well as the inputs and valuation techniques. This standard update is effective for all interim and annual reporting periods on or after December 15, 2009 excluding certain exceptions which will be effective for fiscal years beginning after December 15, 2010.

ITEM 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk represents the risk of loss that may impact the financial position, results of operations, or cash flows of the Company due to adverse changes in financial market prices, including interest rate risk, foreign currency exchange rate risk, commodity price risk, and other relevant market rate or price risks.

We are exposed to market risk through interest rates related to the investment of our current cash and cash equivalents of \$124.3 million as of June 30, 2010. These funds are generally invested in highly liquid debt instruments. As such instruments mature and the funds are re-invested, we are exposed to changes in market interest rates. This risk is not considered material, and we manage such risk by continuing to evaluate the best investment rates available for short-term, high quality investments.

ITEM 4. Controls and Procedures

The Company's management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures, as that term is defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), as of June 30, 2010. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms, and to ensure that such information is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There were no changes in the Company's internal control over financial reporting during the three months ended June 30, 2010 identified in connection with the evaluation thereof by the Company's management, including the Chief Executive Officer and Chief Financial Officer, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

Management does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent or detect all error and fraud. Any control system, no matter how well designed and operated, is based upon certain assumptions and can provide only reasonable, not absolute, assurance that its objectives will be met. Further, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. The Company's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives and the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures are effective at that reasonable assurance level.

PART II - OTHER INFORMATION

ITEM 1. Legal Proceedings

On November 4, 2008, The Knot, Inc. was named as a defendant in a complaint filed in the United States District Court for the Eastern District of Texas and captioned Balthaser Online, Inc. v. Network Solutions, LLC, The Knot, Inc., Insider Guides, Inc., Cyworld Inc., FriendFinder Networks, Inc., Hi5 Networks, Inc., Freewebs, Inc., Gaia Interactive Inc., Friendster Inc., Ebaum's World, Inc., Puma International, LLC, Imeem, Inc., Scripps Networks, LLC, Live Journal Inc., Nike, Inc., Ning, Inc., Swatchbox Technologies, Inc., Electronic Arts Inc., Hookumu Inc., Meredith Corp., and Capcom USA, Inc. The complaint alleges that the defendants are willfully infringing a patent held by the plaintiff by, among other things, operating websites covered by one or more claims of the patent that relate to rich-media Internet applications. The complaint seeks compensatory damages in an amount to be determined at trial, but in no event less than a reasonable royalty; an accounting of all sales and revenue derived in connection with the conduct alleged to infringe the patent; an order that would treble all damages awarded; an award of costs, interest on damages and reasonable attorneys' fees; and a permanent injunction. On January 2, 2009, we filed an answer and counter-claims, in which we denied infringement and denied that Balthaser is entitled to damages, equitable relief, pre-judgment or post-judgment interest, an exceptional case award, or to any relief whatsoever. We asserted as our affirmative defenses non-infringement, invalidity, an adequate remedy other than injunctive relief, and no willful infringement. We asserted counter-claims for declaratory judgments as to non-infringement and invalidity. On September 15, 2009, the United States District Court for the Eastern District of Texas granted the motion made by several defendants to transfer the case to the United States District Court for the Northern District of California, and the claims made against The Knot were transferred along with the claims made against most of the other defendants. While we intend to vigorously defend against the claims asserted and pursue our counter-claims, this case is in the preliminary stages of litigation and, as a result, the ultimate outcome of this case and any potential financial impact on us are not reasonably determinable at this time.

We are engaged in other legal actions arising in the ordinary course of business and believe that the ultimate outcome of these actions will not have a material effect on our results of operations, financial position or cash flows.

ITEM 1A. Risk Factors

Risks that could have a negative impact on our business, results of operations and financial condition include without limitation, (i) our online wedding-related and other websites may fail to generate sufficient revenue to survive over the long term, (ii) our history of losses, (iii) inability to adjust spending quickly enough to offset any unexpected revenue shortfall, (iv) delays or cancellations in spending by our advertisers and sponsors, (v) the significant fluctuation to which our quarterly revenue and operating results are subject, (vi) the seasonality of the wedding industry, (vii) our expectation that we will generate a lower level of revenue from the Macy's relationship in 2010 compared to 2009, (viii) our expectation of a decline in WeddingChannel.com membership and traffic to the WeddingChannel.com online shop as a result of the termination of the old Macy's registry services agreement, (ix) the dependence of WeddingChannel.com's registry services business on third parties, and (x) other factors detailed in documents we file from time to time with the SEC. A more detailed description of each of these and other risk factors can be found under the caption "Risk Factors" in our most recent Annual Report on Form 10-K, filed with the SEC on March 12, 2010. There have been no material changes to the risk factors described in our most recent Annual Report on Form 10-K.

ITEM. 2 Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

		(c) Total Number of				
	(a) Total	Shares Purchased as(d) Approximate Dollar				
	Number of	(b) Average	Part of Publicly Va	alue of Shares That May		
	Shares	Price Paid per	Announced Plans of	et Be Purchased Under		
Period	Purchased	Share	Programs	the Plans or Programs		
April 1 to April 30, 2010	9,856	\$ 8.12	- 5	50,000,000

June 1 to June 30, 2010	3,111	7.52	- 9	50,000,000		
Total	137 649	\$ 7.59	_			

(a) None of these shares were purchased as part of publicly announced plans or programs.

The terms of certain awards granted under certain of the Company's stock incentive plans allow participants to surrender or deliver shares of The Knot's common stock to the Company to pay for the exercise price of those awards or to satisfy tax withholding obligations related to the exercise or vesting of those awards. All of the shares listed in column (a) in the table above represent the surrender or delivery of shares to the Company in connection with such exercise price payments or tax withholding obligations. For purposes of this table, the "price paid per share" is determined by reference to the closing sales price per share of The Knot's common stock on The Nasdaq Global Market on the date of such surrender or delivery (or on the last date preceding such surrender or delivery for which such reported price exists).

(c), (d) On February 22, 2010, the Company announced that its Board of Directors had authorized the repurchase of up to \$50.0 million of the Company's common stock from time to time on the open market or in privately negotiated transactions. The repurchase program may be suspended or discontinued at any time, but does not have an expiration date. During the three months ended June 30, 2010, the Company did not repurchase any shares under this program.
