### Item 1.01 Entry into a Material Definitive Agreement

In February 2003, a Long Term Performance Plan (LTPP) for senior management and key executive officers was established with awards contingent on the attainment of multi-year performance goals designed to drive the long-term financial success and growth of the Company. Actual participation is approved by the Compensation Committee. The performance goals for the one-year and two-year cycles that began January 1, 2003 were not met and therefore, no payouts were earned for 2003 and 2004.

On February 16, 2005, the LTPP was revised to provide for yearly goals, instead of a three-year cycle. Payouts were also revised from 50% cash and 50% shares of the Company's Common Stock to 100% shares of the Company's Common Stock with a three-year cliff vesting period. The value of an award is based on a percentage of the participant's base salary and is dependent on performance objectives for the period. The number of shares to be issued will be determined by dividing the dollar amount of the award by the fair value of Itron Common Stock on the date the payout is approved by the Compensation Committee. For 2005, performance measures have been established based on achievement of specified levels of free cash flow and earnings.
