Information to be included in the report

Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review

As disclosed in its Form 10-Q for the quarter ended June 30, 2006, filed on August 14, 2006, i2 Technologies, Inc. (the "Company") has determined to change its original accounting for its December 2005 vesting acceleration of certain outstanding employee stock options and its subsequent tender offer for the exchange of certain employee stock options, which was completed in May 2006. The result is an increase to non-cash stock compensation expense of approximately \$600,000 for the three months ended March 31, 2006. An additional expense of approximately \$1.0 million related to this matter has been recorded in the Company's financial statements for the three months ended June 30, 2006. In addition, approximately \$1.8 million of non-cash compensation expense associated with the modified awards will be recognized over the remainder of the two-year vesting period of those awards.

Accordingly, the Company concluded on August 14, 2006 that the financial information contained in the Company's previously-filed Form 10-Q for the quarter ended March 31, 2006 and all financial press releases and similar communications issued by the Company relating to such financial information should no longer be relied upon. The Company, including the Audit Committee of the Company's Board of Directors and members of management of the Company, discussed with its independent registered public accounting firm the matters set forth in this Item 4.02.

The Company intends to amend its Form 10-Q for the quarter ended March 31, 2006 to reflect restated financial statements for that period as soon as practicable.
