Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of the

BellSouth Savings and Security Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the BellSouth Savings and Security Plan (the Plan) at December 31, 2003 and 2002, and the changes in net assets available for benefits for each of the three years in the period ended December 31, 2003 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2003 and reportable transactions for the year ended December 31, 2003 are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

BELLSOUTH SAVINGS AND SECURITY PLAN

NOTES TO FINANCIAL STATEMENTS

(Dollars in Thousands, Except Per-Participant Amounts)

1. Plan Description

General

The following description of the BellSouth Savings and Security Plan (the Plan) provides only general information. For additional information, participants should refer to the Plan Prospectus/Summary Plan Description, as supplemented (SPD). A copy of the SPD can be obtained by calling the BellSouth Participant Service Center at 1-866-697-1006. In addition, copies of the Plan, trust agreement and other related documents which include details of the Plan can be obtained by writing to: Secretary, BellSouth Savings Plan Committee, Room 13C09, 1155 Peachtree Street, N.E., Atlanta, Georgia 30309-3610.

The Plan was established by BellSouth Corporation (BellSouth) to provide a convenient way for non-management employees to save for their retirement on a long-term basis and to acquire an ownership interest in BellSouth. The Plan consists of three parts: one is a profit sharing plan which includes a qualified cash or deferred arrangement and which is intended to qualify as such under Sections 401(a), 401(k) and 401(m) and related sections of the Internal Revenue Code of 1986, as amended (the Code); the second part is an Employee Stock Ownership Plan (ESOP) which is designed as a stock bonus plan to invest primarily in shares of BellSouth Common Stock and which is intended to qualify under Sections 401(a), 401(m) and 4975(e)(7) and related sections of the Code; and the third part is an employee stock ownership plan which is designed as a stock bonus plan to invest primarily in BellSouth shares held in the BellSouth Stock Fund and which is intended to qualify as such under Code sections 401(a), 401(k), 401(m) and 4975(e)(7) and related sections of the Code. As such, participants invested in the BellSouth Stock Fund may elect to have their quarterly dividends either reinvested in the fund or passed-through and paid to them outside the Plan in cash as taxable income. Effective March 15, 2002, participants in the Plan were able to diversify their past and future company match, previously held in the ESOP Allocated Shares Fund. Effective July 1, 2003, participants having shares in their Allocated ESOP fund were able to elect to have their quarterly dividends either reinvested in the fund or passed-through and paid to them outside the Plan in cash as taxable ordinary income. All regular full-time and part-time employees of participating BellSouth companies who are covered by a collective bargaining agreement and have completed at least one year of service are eligible to participate. The Plan is subject to the Employee Retirement Income Security Act of 1974, as amended.

Master Trust

For investment purposes, the assets of the Plan are held in the BellSouth Master Savings Trust (the Master Savings Trust). The Master Savings Trust also holds the assets of the BellSouth Retirement Savings Plan (BRSP).

Investment Options

Edgar Filing: BELLSOUTH CORP - Form 11-K

At December 31, 2003 and 2002, the Master Savings Trust's assets were comprised of the following investment vehicles in relation to the Plan: BellSouth Stock Fund, Indexed Stock Fund, Interest Income Fund, Bond Fund, Balanced Fund and the following mutual funds: Fidelity Growth & Income Portfolio, Vanguard Growth Index Institutional, DFA U.S. Small Cap Value II Fund, T. Rowe Price Mid-Cap Growth, DFA U.S. Large Cap Value II Fund and DFA International Value II Fund. All investments are valued on a daily basis.

Concentrations of Risk

At December 31, 2003 and 2002, the Plan's assets were significantly concentrated in shares of BellSouth Common Stock, the value of which is subject to fluctuations related to corporate, industry and economic factors.

NOTES TO FINANCIAL STATEMENTS (Continued)

(Dollars in Thousands, Except Per-Participant Amounts)

1. Plan Description (continued)

The Plan's other investment options include a variety of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities subject participants to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Vesting

Participant contributions vest immediately. Company matching contributions vest upon a participant's completion of three years of service. One year of vesting service is earned upon a participant's completion of 1,000 work hours during any year.

Participant Loans (Whole Dollars)

Participants may borrow from their fund accounts a minimum of \$1,000 up to the lesser of \$50,000 minus the highest outstanding loan principal balance over the previous twelve months or 50 percent of their before-tax account balances as defined by the Plan document and any amounts rolled over to the Plan from other qualified plans. Loan balances are secured by the assets allocated to the participants' accounts and bear interest at various rates which ranged from 5.00% to 10.5% at December 31, 2003. Principal and interest are paid ratably through periodic payroll deductions for active employees and by coupon for nonactive employees.

Service Providers

State Street Bank & Trust Company serves as the Trustee for the Master Savings Trust. Fidelity Investments, Inc. serves as the recordkeeper and service center for the Plan.

BellSouth Employee Stock Ownership Plan Merger

Edgar Filing: BELLSOUTH CORP - Form 11-K

Effective May 1, 2002, the BellSouth Employee Stock Ownership Plan (PAYSOP) merged with the BellSouth Savings Plans. Participant accounts have been moved to the BellSouth Retirement Savings Plan (for management employees) or to the BellSouth Savings and Security Plan (for non-management employees) where each participant's allocated shares have been placed in the BellSouth Stock Fund. The total assets transferred into the Plan was \$121,237.

Cingular Wireless Transfer

Effective February 1, 2002, participant balances for employees were transferred from the Plan to the Cingular Wireless joint venture via a trust to trust transfer to State Street Bank as trustee for the Cingular Wireless 401(k) Savings Plan. The total asset transfer was \$1,499.

2. Accounting Policies

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Accounting Policies (continued)

With respect to the Statements of Net Assets Available for Benefits for the years presented, allocated Share of Trust Net Assets includes investments at fair value, accrued interest income, accrued dividends, receivables for investments sold, payables for investments purchased and accrued administrative expenses of the Master Savings Trust.

With respect to the Statements of Changes in Net Assets Available for Benefits for the years presented, allocated Share of Trust Investment Activities includes the sum of realized gains, net of realized losses, the net change in unrealized appreciation/(depreciation) of the fair value of the investments, interest income, dividends, investment manager fees and other administrative fees paid by the Master Savings Trust.

The values of investments in the Master Savings Trust are determined as follows:

- Shares of BellSouth Common Stock and equity securities underlying the Indexed Stock Fund are valued on the basis of the closing price per share on December 31, 2003 and 2002 as reported on the New York Stock Exchange or, if no sales were made on that date, at the closing price on the next preceding day on which sales were made;
- The values of mutual funds, all of which are traded on a national securities exchange, are based on published daily closing net asset values as reported by the respective securities exchanges;
- Over-the-counter securities and government obligations are valued based on the bid prices on December 31, 2003 and 2002 from published sources where available and, if not available, from other sources considered reliable;
- Annuity contracts with insurance companies and synthetic contracts (derivatives) are fully benefit responsive and are valued at principal plus reinvested interest; and
- A futures contract is an agreement between two parties to buy and sell a financial instrument at a set price on a future date. Generally, upon entering into such a contract, the Master Savings Trust is required to pledge to the broker an amount of cash or securities equal to the minimum initial margin requirements of the exchange. Pursuant to the contract, the Master Savings Trust agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in value of the contract. Such receipts or payments are known as variation margin and are recorded by the Master Savings Trust as unrealized appreciation or depreciation. When the contract is closed the Master Savings Trust records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the value at the time it was closed.

Edgar Filing: BELLSOUTH CORP - Form 11-K

- Forward contracts are marked to market daily at the applicable rate and any resulting unrealized gains or losses are recorded. Realized gains or losses are recorded at the time the forward contract matures.

Purchases and sales of securities are reflected as of the trade date.

Realized gains and losses on sales of investments are determined on the basis of average cost.

Dividend income is recognized on the date the Master Savings Trust is entitled to the benefit. Interest earned on investments is recognized on the accrual basis.

2. Accounting Policies (continued)

Realized gains and losses as well as the current unrealized gains and losses of investments are recorded currently to income.

3. Contributions

Employee contributions to the Plan are recorded based upon authorized basic and supplemental contributions. The maximum basic contribution rate was \$65 per week for 2003 and 2002 and \$60 per week for 2001. Participants may contribute up to the IRS limit of their eligible compensation to the Plan on a before-tax basis.

As discussed in Section 3 of the Plan document, participants may also rollover amounts into the Plan from other qualified plans.

The employing company makes matching contributions to the Employee Stock Ownership Plan (ESOP) in respect of each participant's authorized basic contribution. The rate of the employing company matching contribution remains in effect for a twelve-month period from April 1 through March 31 and may vary by business unit. The employing company makes a matching contribution that is a percentage of the employee's basic contribution. The ranges of matching contribution rates for the three years ended December 31, 2003 were as follows:

| | <u>2003</u> | <u>2002</u> | <u>2001</u> |
|----------------|-------------|-------------|-------------|
| January-March | 55% | 65% - 81% | 81% |
| April-December | 50% | 55% | 65% - 81% |

4. Plan Expenses

Each participant in the Plan is charged a flat annual fee for Plan administrative expenses, including recordkeeping, trustee and other expenses considered reasonable by the Plan administrator. The fee is divided on a pro rata basis among each investment option of the participant. The per-participant fee was \$36.00 for 2003, 2002 and 2001. Additional fees are charged to individual participants for various services provided by the Plan's recordkeeper.

Edgar Filing: BELLSOUTH CORP - Form 11-K

Investment manager fees are paid by the Master Savings Trust. The Plan's share of investment manager fees included in allocated share of Trust investment activities in the Statements of Changes in Net Assets Available for Benefits for the years presented, were as follows:

| | For the Year Ended December 31, | | |
|----------------------|--|---------------|---------------|
| | 2003 | 2002 | 2001 |
| BellSouth Stock Fund | \$ 108 | \$ 167 | \$ 246 |
| Indexed Stock Fund | 13 | 15 | 18 |
| Interest Income Fund | 187 | 181 | 157 |
| Balanced Fund | 31 | 26 | 43 |
| Bond Fund | 143 | 80 | 45 |
| Allocated ESOP | 34 | 70 | 133 |
| | \$ 516 | \$ 539 | \$ 642 |

For the mutual funds, investment manager fees are not paid directly from the Master Savings Trust. However, these investments are subject to mutual fund management fees which reduce the overall return of the respective mutual fund. These fees, expressed as percentages of fund assets, which were assessed against the mutual funds by their respective managers, were as follows:

| | For the Year Ended | | |
|-------------------------------------|---------------------------|-------------|-------------|
| | December 31, | | |
| | 2003 | 2002 | 2001 |
| Vanguard Growth Index-Institutional | 0.10% | 0.10% | 0.12% |
| Fidelity Growth & Income Portfolio | 0.73% | 0.69% | 0.66% |
| T. Rowe Price Mid-Cap Growth | 0.87% | 0.89% | 0.89% |
| DFA U.S. Small Cap Value II Fund | 0.33% | 0.32% | 0.41% |
| DFA International Value II Fund | 0.45% | 0.41% | 0.53% |
| DFA U.S. Large Cap Value II Fund | 0.26% | 0.26% | 0.31% |

5. Tax Status

The Plan was amended and restated effective July 1, 2001 to comply with the provisions of the GUST amendment to ERISA. The following acts are collectively referred to as the GUST amendment: the Retirement Protection Act of 1994, Uniformed Services Employment and Reemployment Rights Act of 1994, Small Business Job Protection Act of 1996, Taxpayer Relief Act of 1997, and the Internal Revenue Service Restructuring and Reform Act of 1998.

The Internal Revenue Service has determined and informed BellSouth by a favorable determination letter dated January 17, 2003 that the Plan and related Trust meet the requirements of Section 401(a) of the Code and are exempt from federal income taxes under Section 501(a) of the Code.

The federal income tax effects on participants with respect to the Plan are described in the SPD.

6. Termination Priorities

BellSouth intends to continue the Plan indefinitely but reserves the right to terminate or amend it. In the event the Plan is terminated and if BellSouth or its subsidiaries sponsor another defined contribution plan, the participants may elect to have their account balances transferred to the other plan. If BellSouth or its subsidiaries do not sponsor such a plan, the participants would receive a lump-sum distribution of their account balances.

7. Interest in BellSouth Master Savings Trust

The assets of the Plan are held in the Master Savings Trust and are commingled with the assets of the BRSP. The assets of the Master Savings Trust are allocated to the Plan based upon the total of each individual plan participant's share of the Master Savings Trust's assets. The Plan's allocated share of the total net assets of all funds in the Master Savings Trust was 32.12168% at December 31, 2003 and 32.90649% at December 31, 2002. The Plan's allocated share of the net assets of each fund in the Master Savings Trust at December 31, 2003 and 2002 were as follows:

| | <u>2003</u> | <u>2002</u> |
|----------------------|-------------|-------------|

Represents an individual investment which is 5% or more of the Net Assets of the Master Savings Trust.

The Master Savings Trust is party to derivative financial instruments for purposes other than trading. The most significant of the derivatives, guaranteed investment contracts (GICs) including synthetics, are used to offer a fixed interest rate of return over time, in which the principal and interest components can be accessed at book value. Synthetic GICs are actively managed, collateralized portfolios which offer increased credit quality over traditional GICs. Other derivative instruments, consisting of highly liquid exchange traded equity and debt futures are used

primarily to rebalance the fixed income/equity allocation of the Trust's portfolio.

Distributions from the BellSouth Stock Fund and the BellSouth Management Savings and ESOP Trust and the BellSouth Savings and Security ESOP Trust (the ESOP Trusts) that are payable in shares of BellSouth Common Stock are separated from the Shares of BellSouth Common Stock and Shares of BellSouth Common Stock allocated to participants' lines and reflected as Distributable Shares.

Assets in the BellSouth Stock Fund, Bond Fund, Indexed Stock Fund, mutual funds and some of the assets in the Balanced Fund and the BrokerageLink Account are invested in securities which fluctuate in market value, therefore the values of the fund units fluctuate daily.

7. Interest in BellSouth Master Savings Trust (continued)

Assets in the Interest Income Fund are invested in the following types of financial vehicles:

- *Temporary Cash Investments* These are short-term money market investments, maturing in less than twelve months, that are necessary to meet daily liquidity needs.
- *General Account Investment Contracts* These contracts are also referred to as traditional investment contracts. An investment contract is termed "general account" when the assets committed to the contract are commingled with other general assets of the contract issuer. The contract issuer promises to return the invested principal plus a stated rate of interest upon maturity. The quality of the promise is a function of the financial condition of the contract issuer.
- *Security Backed Investments* These are generic terms which refer to investment contracts other than "traditional general account investment contracts as defined above. These investments consist of a combination of marketable securities, owned directly by the Plan or as units of a separate account or trust owned by the Plan, and an investment contract that provides liquidity for eligible employee benefits at book value.

Group Trust Investment Contracts Group Trust refers to the INVESCO Group Trust for Retirement Benefit Plans. The INVESCO Group Trust contains a series of commingled investment funds, available only to INVESCO clients, constructed to provide a stable value portfolio with the beneficial elements of various fixed income management strategies. The Plan's investment in any one of the various INVESCO Group Trust Funds is unitized and may be "wrapped" by an independent financial institution through the issuance of an investment contract.

Separate Account Investment Contracts An investment contract is termed "separate account" when the assets committed to the contract are segregated from the general assets of the contract issuer through the use of a specifically identifiable separate account. The separate account may be comprised of investments from one Plan or Trust, or comprised of investments from multiple qualified retirement Plans and Trusts. Though ownership of the assets held in a separate account is retained by the contract issuer, the assets are protected from liabilities arising from the contract issuers' general operations. The investment performance of a separate account investment contract may be a function of the investment performance of the investments held in the separate account.

Synthetic Investment Contract The term "synthetic" investment contract is used to describe a variety of investment contracts under which a Plan retains ownership of the invested assets, or owns units of an account or trust which holds the invested assets. A "synthetic" investment contract, also referred to as a "wrap" contract, is negotiated with an independent financial institution. Under the terms of these investment contracts, the contract issuer ensures the Plan's ability to pay eligible employee benefits at book value. The investment performance of a synthetic investment contract may be a function of the investment performance of the invested assets.

The value of the Interest Income Fund reflected in these financial statements is based upon the principal invested and the interest credited. The fair value of the Interest Income Fund, by investment type, at December 31, 2003 and 2002 was as follows:

| | December 31, 2003 | December 31, 2002 |
|--------------------------------------|------------------------------|------------------------------|
| General account investment contracts | \$ 2,049 | \$ 3,508 |
| Security backed investments: | | |
| Underlying assets | 1,934,804 | 1,867,433 |
| Wrapper contracts | (71,188) | (97,807) |
| Total contracts | \$ 1,865,665 | \$ 1,773,134 |

The contracts held by the Master Savings Trust in the Interest Income Fund are considered fully benefit-responsive in accordance with AICPA Statement of Position 94-4. The crediting interest rate was 4.21% at December 31, 2003 and 4.77% at December 31, 2002. The average yield was 4.33% in 2003 and 5.16% in 2002. Interest rates are reset on a semi-annual, quarterly or monthly basis to move the current book value of these investments toward the projected future market value over the life of the contract.

Assets in the Balanced Fund include investments in futures contracts. Open futures contracts as of December 31, 2003 are as follows:

| Description | Expiration Month | Number of Contracts | Unrealized Appreciation/ (Depreciation) |
|------------------------------------|-----------------------------|------------------------------------|--|
| S&P 500 Index Futures (short) | 03/04 | (52) | \$ (37) |
| U.S. Treasury Bonds Futures (long) | 03/04 | 155 | 19 |
| Total | | 103 | \$ (18) |

A United States Treasury Bill security with a market value of \$1,247 is pledged as collateral for the aforementioned open futures contracts.

During 1990, the ESOP Trusts issued medium-term notes in the aggregate amount of \$850 million to fund the purchase of BellSouth Common Stock to be utilized at later dates to fulfill match obligations. Shares purchased with such funds are released for allocation to participant accounts based on a prescribed schedule coinciding with payments on the ESOP notes. On July 1, 2003, the final installment payments were made on the above medium-term notes.

Assets held in the Master Savings Trust are generally unavailable to service the ESOP debt; however, the notes are guaranteed by and are subject to direct recourse against BellSouth. BellSouth contributes to the ESOP Trusts an amount necessary, net of ESOP dividends and interest, to service the ESOP notes. Such contributions are classified as Supplemental Contributions in the accompanying Statements of Changes in Net Assets Available for Benefits. These contributions are subject to the claims of holders of debt securities issued by the ESOP Trusts but are held at BellSouth and paid to the ESOP Trusts twice yearly to fund, on a same day basis, required payments by the ESOP Trusts on the notes. Such contributions would not remain in the ESOP Trusts unless there was a default on the debt securities by the ESOP Trustee after having received the required contributions from BellSouth.

BellSouth contributes amounts necessary to purchase any additional shares required to meet the match obligations after shares released by the ESOP Trusts have been used. Such contributions are classified as Supplemental Contributions in the accompanying Statements of Changes in Net Assets Available for Benefits.

In lieu of receiving cash dividends earned on shares of BellSouth Common Stock which have been allocated to participants from the ESOP Trusts, participant accounts are credited with equivalent shares of BellSouth Common Stock. Dividends on the related ESOP shares are transferred to the Unallocated ESOP Fund and are applied towards the service of the ESOP notes. The transfer of these earnings is classified as Transfer for Loan Repayment in the accompanying Statements of Changes in Net Assets Available for Benefits.

BellSouth made supplemental cash contributions to the ESOP Trusts in the amount of \$85,074 in 2003, \$84,492 in 2002, and \$79,477 in 2001 for the purpose of servicing the guaranteed debt. A description of each debt issue is as follows:

8. Commitments and Contingencies

In September and October 2002, three substantially identical class action lawsuits were filed in the United States District Court for the Northern District of Georgia against BellSouth, its directors, three of its senior officers, and other individuals, alleging violations of the Employee Retirement Income Security Act (ERISA). The cases have been consolidated and on April 21, 2003, a Consolidated Complaint was filed. In January 2004, a fourth ERISA class action lawsuit was filed in the same court. The plaintiffs, who seek to represent a putative class of participants and beneficiaries of BellSouth's 401(k) plans (the Plans), allege in the Consolidated Complaint that the company and the individual defendants breached their fiduciary duties in violation of ERISA, by, among other things, (1) failing to provide accurate information to the Plans participants and beneficiaries; (2) failing to ensure that the Plans assets were invested properly; (3) failing to monitor the Plans fiduciaries; (4) failing to disregard Plan directives that the defendants knew or should have known were imprudent and (5) failing to avoid conflicts of interest by hiring independent fiduciaries to make investment decisions. The plaintiffs are seeking an unspecified amount of damages, injunctive relief, attorneys' fees and costs. Certain underlying factual allegations regarding BellSouth's advertising and publishing subsidiary and its Latin American operation are substantially similar to the allegations in the putative securities class action captioned In re BellSouth Securities Litigation. At this time, the likely outcome of the cases cannot be predicted, nor can a reasonable estimate of loss, if any, be made.

9. Subsequent Events

Effective March 31, 2004, the ESOP Allocated Shares were merged into the BellSouth Stock Fund and the quarterly dividend election with respect to the BellSouth Stock Fund was applied to the merged Allocated ESOP shares for dividends payable on or after April 1, 2004.

Effective January 1, 2004, participants' Basic Contributions receive matching contributions in cash, allocated to investment funds with the same elections used for employee deferrals.
