Notes to Financial Statements

June 30, 2004

(Unaudited)

Note 1. Basis of Presentation

In the opinion of management, the accompanying balance sheet and related interim statements of income, cash flows, and stockholders' equity include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in accordance with generally accepted accounting principles of the results for the interim periods presented. Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-QSB should be read in conjunction with Management's Discussion and Analysis and financial statements and notes thereto included in the Calcasieu Real Estate & Oil Co., Inc. 2003 Form 10-K.

Note 2. Earnings Per Share

Net income per share of common stock for the interim periods is based on the weighted average number of shares outstanding for each period.

Note 3. Contingencies

There are no material contingencies known to management. The Company does not participate in off balance sheet arrangements.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Revenue

Revenue for the six months ended June 30, 2004, was \$1,142,822, an increase of \$329,529 or 40.5% over the first six months of 2003. Revenue for the quarter ended June 30, 2004, was \$615,085, an increase of \$251,998 or 69.4% over the second quarter of 2003. Virtually all of this increased revenue was from oil and gas income. Both agriculture income and timber income which together totaled \$148,192 were up for the six months ended June 30, 2004, a total of \$13,642, or 10.1%, over the six months ended June 30, 2004. New production for 2004 from the Castor Creek field produced revenue of \$352,301 for the quarter ended June 30, 2004, and \$391,622 for the six months ended June 30, 2004. This accounted for more than the total increase in oil and gas revenues for 2004 over 2003. The income from the North Gordon field was up 9.5% due to higher oil prices. Oil and gas revenue from the Castor Creek field and the North Gordon field represented 67.4% of all revenues for the six months ended June 30, 2004. Other oil and gas production decreased in the current year compared to the prior year while average prices increased.

Operating Expenses

Total operating expenses increased \$79,729, or 42.6% for the six months ended June 30, 2004, over the six months ended June 30, 2003. Of this amount \$31,800 represented higher oil and gas severance taxes due to greater oil and gas production. General and administrative expenses increased \$51,741 in 2004 over 2003. The largest increases represented in this amount were the American Stock Exchange annual fee of \$15,000, an increase in insurance of \$12,590 and an increase in directors expenses of \$8,575. All of the increase in general and administrative expenses for the second quarter of 2004 over the second quarter of 2003 is due to the American Stock Exchange annual fee.

Financial Condition

Current assets plus securities available for sale totaled \$2,976,799 on June 30, 2004, compared to \$2,128,341 on June 30, 2003. During June, 2004, \$1,000,000 of U.S. Securities matured and this amount was not reinvested in U.S. Securities until July, 2004. Current liabilities, which were also total liabilities were \$66,837 on June 30, 2004, compared to \$44,996 on June 30, 2003.

During the quarter ended June 30, 2004, the Company sold preferred stocks from securities available for sale yielding proceeds of \$366,194. These securities were sold because their dividends did not qualify for the federal income tax exclusion and because they would be more adversely affected by interest rate increases. The Company replaced them with common stocks costing \$512,974 whose dividends qualified for the exclusion.

Table of Contents

Management believes existing cash and short-term investments together with funds generated from operations should be sufficient to meet operating requirements and provide funds for strategic acquisitions.

Issues and Uncertainties

This Quarterly Report contains statements that are forward-looking. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of issues and uncertainties such as those listed below, which, among others, should be considered in evaluating the Company's financial outlook.

Revenues from oil and gas provide most of the Company's income. All of these revenues come from wells operated by other companies from property belonging to Calcasieu Real Estate & Oil Co., Inc. Consequently, these revenues fluctuate due to changes in oil and gas prices and changes in the operations of the other companies.

Item 4. Controls and Procedures

Under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the Company has evaluated the effectiveness of the design and operation of its disclosure controls and procedures pursuant to Exchange Act Rule 13a-14(c) within 90 days of the filing date of this quarterly report. Based on this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these disclosure controls and procedures are effective. There were no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation.

Part II. Other Information

Item 6. Exhibits and Reports on Form 8-K

(A) Exhibits

31.1 Certifications

31.2 Certifications
