Section 7 Regulation FD

Item 7.01 Regulation FD Disclosure.

On December 31, 2004, Chart Industries, Inc. (the "Company") made a voluntary \$8.0 million prepayment on the term loan portion of its term loan agreement and revolving credit facility (collectively, the "Credit Facility"), which the Company entered into on September 15, 2003. The Company made this prepayment after considering its cash provided by operating activities during 2004 and management's belief that cash forecasted to be generated by operations and the ability to borrow cash, if necessary, would be sufficient to satisfy the Company's working capital, capital expenditure, restructuring and debt-related cash requirements in 2005. The prepayment reduced all future scheduled quarterly term loan amortization payments under the Credit Facility on a pro-rata basis, and follows the Company's previous voluntary prepayments made in September 2004, April 2004 and December 2003, which amounted to \$32.0 million in the aggregate.

Such forward-looking statements are subject to certain risks, assumptions and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements. The Company does not assume any obligation to update any of these forward-looking statements.
