Notes to the Unaudited Financial Statements**

Corresponding to the periods beginning as from July 1, 2004 and 2003

and ended on December 31, 2004 and 2003

**NOTE 1: STANDARDS ACCOUNTING**

Below is a description of the most relevant accounting standards used by the Company in the preparation of these Financial Statements, which have been applied on a consistent basis from the previous fiscal year.

a. Presentation standards

These financial statements are stated in Argentine pesos, and have been prepared in accordance with the disclosure and valuation accounting standards contained in the Technical Resolutions issued by the Federación Argentina de Consejos Profesionales de Ciencias Económicas, as approved, with resolutions issued by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires and the Comisión Nacional de Valores.

b. New Accounting Standards

The Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires enacted the following technical resolutions: N° 16: Conceptual regime for professional accounting regulations ; N° 17: Professional accounting regulations: development of matters of general application , N° 18: Professional accounting regulations: development of some matters of particular application and N° 19 Modifications to technical resolutions N° 6, 8, 9, 11 and 14 and N° 20 Derivative instruments and hedging transactions , through Resolutions C 238/01, C 243/01, C 261/01, C 262/01 and C 187/02, respectively; establishing that such technical resolutions and the modifications incorporated, will be in force for fiscal years initiated as from July 1, 2002 (other than Technical Resolution No. 20, which shall become effective for fiscal years beginning as from January 1, 2003).

The Comisión Nacional de Valores, through Resolution N° 434/03 has adopted such technical resolutions with some exceptions and modifications, which have been in force for fiscal years initiated as from January 1, 2003.

The main changes basically result from the registration of income tax under the deferred tax method, as concerns agreements involving derivative instruments at their current value and the valuation of receivables and payables with no stated rate at their discounted value.

## Edgar Filing: CRESUD INC - Form 6-K

As at February 19, 2003, the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, enacted Technical Resolution N° 21 Proportional value- merge of financial statements- information to provide on related parties through Resolution M.D. N° 5/2003.

The above mentioned Technical Resolution and the amendments introduced became effective for fiscal years ended as from April 1, 2003. Furthermore, The Comisión Nacional de Valores has adopted such Technical Resolution, through Resolution N° 459/04 introducing some modifications, which will be in force for fiscal years started as from April 1, 2004, consequently the Company has considered their application.

**Cresud Sociedad Anónima, Comercial,**

**Notes to the Unaudited Financial Statements (Continued)**

**NOTE 1:** (Continued)

Financial statements corresponding to the six month economic periods ended to December 31, 2004 and 2003 have not been audited yet. The management believes they include all necessary settlements to reasonably show the results of each period. Results for the six month economic periods ended to December 31, 2004 and 2003 do not necessarily reflect the proportion of the company's result for such complete years.

c. Accounting for inflation

The Company's financial statements have been prepared in accordance with Resolution M.D. 3/02 of the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, which has established the application of Technical Resolution No. 6, as amended by Technical Resolution No. 19 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas, as from fiscal years or interim periods ended on or after March 31, 2002.

On March 25, 2003, the Poder Ejecutivo Nacional issued Decree No. 664 establishing that financial statements for fiscal years ended as from that date should be stated in nominal currency. Therefore, in accordance with Resolution No. 441 issued by the Comisión Nacional de Valores on April 8, 2003, the Company discontinued restatement of its financial statements effective March 1, 2003. This criteria does not comply with Resolution M.D. 041/2003, enacted by the Consejo Profesional de Ciencias Económicas de la Ciudad Autónoma de Buenos Aires, by means of which the restatement of financial statements as of October 1, 2003 is no longer compulsory. However, as of December 31, 2004, this deviation did not have a material effect on the Company's financial statements.

As a consequence of the above, the initial balances at the Company's financial statements are presented in constant currency as of February 28, 2003, having considered the accounting measurements restated by the changes in the purchasing power of the currency until interruption of the adjustment and those arising in the period of stability, restated into currency of December 2001. Transactions subsequent to February 28, 2003 have been recorded at their historical values.

**NOTE 2: SIGNIFICANT ACCOUNTING POLICIES**

Estimates are used when accounting for the allowance for doubtful accounts, depreciation, amortization, impairment of current and non-current assets, income taxes, deferred liabilities and allowances for contingencies, accrual for expenses and assets recoverable value. Actual results could differ from those estimates.

h. Other receivables and payables

- k. Long term investments in other companies

The investments in subsidiaries and affiliates in which the Company has significant influence have been accounted for under the equity method, as required by Technical Resolution No. 21 of the Federación Argentina de Consejos Profesionales de Ciencias Económicas approved by Comisión Nacional de Valores.

**Cresud Sociedad Anónima, Comercial,****Inmobiliaria, Financiera y Agropecuaria****Notes to the Unaudited Financial Statements (Continued)****NOTE 2:** (Continued)

Holdings at December 31, 2004 are as follows:

<u>Subsidiaries and affiliates</u>	<u>% Equity interest</u>
Inversiones Ganaderas S.A.	99.99
Futuros y Opciones.Com S.A.	70.00
Cactus Argentina S.A.	50.00
Agro Uranga S.A.	35.72
IRSA Inversiones y Representaciones Sociedad Anónima	26.48

Consolidated financial statements with Inversiones Ganaderas S.A., Futuros y Opciones.Com and Cactus Argentina S.A. in proportional consolidation of 50% at December 31, 2004 and 2003 are presented as complementary information.

Current valuations and economic conditions reduce the risks inherent to long-term investment opportunities and increase the possibility of obtaining significant return in the long term. In view of these circumstances: (i) the value of the investment was set at market value; (ii) the value of the investment was calculated by the equity method of accounting; and (iii) the difference between (i) and (ii) was recognized as negative goodwill to be amortized over 20 years.

As of December 31, 2004, the Company recorded as negative goodwill the difference between the prices of conversions of warrants into IRSA's shares and the value assigned according to the calculation of the proportional equity value. In such negative goodwill the impact of IRSA's results from third-party dilutions resulting from the exercise of conversion and warrants for shares will be recognized. Therefore, such amount will not be subject to amortization.

2. Other Investments

Investments in debt securities

IRSA's Convertible Bonds were valued taking into account the amount existing at period-end in dollars, at the sellers' exchange rate plus interest accrued as of the closing date of these financial statements.

o. Income Tax

The Company has recognized the income tax liability on the basis of the deferred tax liability method, thus considering temporary differences between registration of assets and liabilities for accounting and tax purposes. The principal temporary differences originate in the valuation of livestock and the sale and replacement of fixed assets.

In order to determine deferred assets and liabilities the tax rate expected to be in effect at the temporary of reversal or use has been applied on the temporary differences identified and tax loss carryforwards, considering the laws enacted as of the date of issuance of these financial statements (35%).

The Company's tax liability for each period will be the higher of these two taxes. However, if the tax on minimum hypothetical income exceeds the income tax in any fiscal year, such excess may be computed as payment on account of the income tax that may be payable in any of the following ten fiscal years.

**Unaudited Business Highlight**

**Buenos Aires, February 10, 2005** - Cresud S.A.C.I.F. y A. (Nasdaq: CRESY BASE: CRES), one of the leading agricultural companies in Argentina, announces today the results corresponding to the first semester of fiscal year 2005 ended on December 31, 2004.

**Results for the first semester of Fiscal Year 2005 showed a net profit of Ps. 9.5 million** as compared to a Ps. 4.8 million profit registered during the same period of the previous Fiscal Year, denoting a 100.2% increase.

The increase in the net result is mainly a consequence of: (i) the higher results registered in our cattle stock holdings (generated by a stronger market value) which went from Ps. 1.3 million during the same period of fiscal year 2004 to Ps. 6.3 million for the current semester, (ii) and the performance of our share in IRSA Inversiones y Representaciones S. A. (NYSE: IRS) (BASE: IRSA) which went from Ps. 1.8 million for December 2003 to Ps. 14.0 million at December 31, 2004; partly offset by lower results from exchange differences generated by assets and liabilities which decreased from a Ps. 1.9 million profit during the first semester of fiscal year 2004 to a Ps. 1.0 million loss for the current semester.

**Consolidated net sales** for the period amounted Ps. 35.2 million, 19.9% higher than those registered during the same period of the previous Fiscal Year, mainly due to the higher volume of crops and cattle sold during the semester.

**Gross Income** during the first six months of FY 2005 amounted to Ps. 6.4 million as compared to Ps. 8.2 million gross profit registered during the same period of the previous year.

This reduction in gross profit is partly a consequence of crops' lower prices. At the beginning of the first semester of FY 2004 the company had accumulated agricultural commodities that when appreciated generated profits due to their revalorization. On the contrary, the stocks accumulated at the beginning of the first semester of FY 2005 did not follow during the semester ended on December 31, 2004 similar trends.

On the other hand, milk sales decreased and at slightly lower prices, consequently decreasing the margins for such activity. Besides, the costs of this business unit increased as a result of the expenses incurred in the development of the milking facility located at the El Tigre farm, which does not generate revenues yet.

**Operating Income** showed for the six-month period ended on December 31, 2004 a Ps. 7.1 million profit, compared to a Ps. 5.5 million profits registered during the same period of the previous fiscal year.

## Edgar Filing: CRESUD INC - Form 6-K

**Results from related companies** generated a Ps. 14.1 million profit, mainly due to our 26.5% share ownership in IRSA Inversiones y Representaciones S.A.

**Summary of operations**

**Crops**

During the semester crop sales amounted Ps. 11.2 million, compared to Ps. 8.8 million registered during the previous year. Crop volume sold amounted 31,906 tons at an average price of Ps. 352 per ton compared to 23,601 tons sold at an average price of Ps. 373 during the same semester of the previous fiscal year.

The stock of grain as of the closing of the six-month period is 23,392 tons, consisting of 19,815 tons of wheat and 3,046 tons of corn.

Gross loss for the segment for the semester ended on December 31, 2004 amounted Ps. 0.2 million compared to a Ps. 1.6 million profit for the same period of the previous fiscal year. The drop registered in this item is partly consequence of crop's lower prices. At the beginning of the first semester of FY 2004 the company had accumulated agricultural commodities that when appreciated generated profits due to their revalorization. On the contrary, the stocks accumulated at the beginning of the first semester of FY 2005 did not follow during the semester ended on December 31, 2004 similar trends.

For the current season we have destined 35,848 hectares to agriculture, of which 16,142 hectares were leased to third parties. As compared to the previous fiscal year we have increased the amount of total hectares destined to agriculture in 13,303 hectares, mainly due to the commencement of operations in El Tigre farm, which increased the company's area under production, and due to the higher amount of hectares leased to third parties.

Most of the leases were agreed with a fix payment prior to harvest and only small percentages were crop-sharing agreements.

The increase in the number of hectares leased from third parties for exploitation by the Company is explained by the fact that after the strong fall in the price of grains, many owners lowered leasehold prices, thus allowing higher potential yields. During the previous season, faced with the increase in land prices, the strategy was not to go along with market prices and lease lands only at those prices which enabled the Company to obtain adequate margins without having to speculate on future commodity prices.

**Beef Cattle**

## Edgar Filing: CRESUD INC - Form 6-K

As of December 31, 2004, the Company's cattle stock amounted to 99,797 heads (7% higher than at December 31, 2003) with 126,964 hectares destined to this activity.

Sale of livestock experienced a material increase of 53.6% from Ps. 12.2 million as of December 31, 2003 to Ps. 18.7 million as of December 31, 2004. During the semester a total of 8,953 tons were sold, while during the first six months of Fiscal Year 2004 tons sold amounted to 6,622. The sustained increase which beef cattle prices have been experiencing was also determinant for increasing Company's revenues within this business unit.

Gross profit for the cattle beef segment amounted to Ps. 4.0 million, as compared to Ps. 3.0 million profit registered during the first semester of the previous Fiscal Year. This increase in the gross profit was a consequence both of the increase in the cattle beef sales and of the rise in margins produced by higher market values.

Cattle beef production amounted 5,988 tons, representing a 17% increase compared to the previous fiscal year.

Livestock prices had a favourable evolution during the course of the first semester of Fiscal Year 2005. After the advance of the agriculture business over the cattle beef business, livestock offers experienced sever cuts, therefore helping to push up rising prices of livestock.

Additionally, there are promising perspectives for this market, mostly referring to reductions in commercial barriers worldwide, which would make for a better use of the cattle cuts and a higher final price for the cattle producer. After a year of the appearance of the last foot and mouth disease focus within the country, the country has obtained the free foot and mouth disease status with vaccination on behalf of the Animal Health Organization (OIE), which will grant an additional benefit to seek new markets, such as the US and Canada, where initial correspondence has taken place.

Unaudited Business Highlight (Continued)**

Furthermore, the export of thermo-processed cattle beef to China was approved, shortly enabling the opening of the commercialization of fresh meat market.

Likewise, the price of livestock in Argentina could result in similar prices to those found in Uruguay (which is actually 26% above local prices) whose evolution after the opening of international markets had a positive outcome. In that sense, and in order to sustain its offer, Uruguay started importing livestock from Argentina, therefore arbitrating cattle markets.

**Milk**

Milk production fell slightly by 8% during the semester from 3.9 million liters as of December 31, 2003 to 3.5 million liters as of December 31, 2004.

Gross profit at December 31, 2004, amounted Ps. 0.7 million, 52% lower than that registered during the same semester of the previous fiscal year. The main reason for this reduction was the increase of costs in this business unit as a consequence of the expenses incurred in the development of dairy facilities that due to their condition are not generating income yet.

It is worth mentioning that the company is currently developing oversize dairy facilities with state of the art technology in our El Tigre farm. In this sense, once the project is concluded, it would increase the actual productive capacity in approximately 36,000 liters daily. We are forecasting for this business unit yields above those of the agriculture segment. The estimated investment in this project amounts US\$ 1.0 million approximately.

Currently the Company's only productive dairy farm is located at La Juanita, where the feeding system is based solely on pastures. This feeding system, of lower cost, allows an enhancement of milk margins as compared to systems based on grains.

The milk business in Argentina went through severe oscillations during the course of time, from the euphoria of 1997 and 1998 to the 2001 crisis. Currently, with firm prices, this segment is once again attractive.

**Feed Lot**

## Edgar Filing: CRESUD INC - Form 6-K

During the semester, our 170-hectare Feed Lot, located in the province of San Luis, where the Company's equity interest through Cactus Argentina S.A. is 50%, was affected by the seasonality of the business hence decreasing the occupation levels and revenues.

Saúl Zang

First Vice-Chairman

serving as Acting Chairman

**Cresud Sociedad Anónima Comercial,**

**Inmobiliaria, Financiera y Agropecuaria**

**Unaudited Business Highlight (Continued)**

Due to these facts, income decreased from Ps. 10.7 million at December 31, 2003 to Ps. 5.9 million during the current semester. It is worth mentioning that draughts registered during the first semester of the fiscal year, had a positive effect rising the occupation levels of the feed lot and also reverting the trend generated during this time of the year.

The uniformity obtained in the final product of the feed lot cattle has granted buyers a high quality product, making its commercialization easy and obtaining higher prices at the moment of selling.

Due to the consistent occupation level the Feed Lot has been registering quarter after quarter we plan the development of a second enterprise of similar characteristics, which could be located within Argentina or abroad.

Regarding the above mentioned, during the semester closed December 31, 2004, Cactus Argentina S.A. registered a Ps. 0.1 million loss compared to a Ps. 0.4 million profit registered for the semester ended on December 31, 2003.

#### **Sale of farms**

At the end of Fiscal Year 2004 and commencement of Fiscal Year 2005 bills of sale for the farms Ñacurutu (sold after the closing of the semester) and San Enrique were signed which will result in profits for the Company amounting US\$ 2.7 million and US\$ 4,3 million respectively, thus positively impacting on future financial statements corresponding to the current Fiscal Year. The produce of such operations will suppose a yield close to 100 % in the first case and margin record of approximately 750 % in the second case. These transactions, besides confirming the excellent Company's background regarding such operations, are clear examples of the unrealized value of corporate assets.

#### **Development of marginal lands**

We believe that the business's potential, as has happened in various countries worldwide, relies on the development of marginal land; using state of the art technology, yields comparable to those of the nucleus area can be obtained.

For the current season, to the 12,700 productive hectares destined to cattle in our Los Pozos farm, located in Salta, we have added 4,000 additional hectares, while 1,300 hectares are destined to agriculture.

## Edgar Filing: CRESUD INC - Form 6-K

Besides, clearing works on 6,000 additional hectares for cattle are being performed, and will enter into production next season. Currently, Los Pozos farm shows the highest returns in the cattle business for the Company's and is above the industry's average

Saúl Zang

**Unaudited Business Highlight (Continued)**

Additionally, the 1,185 hectares already developed in our AgroRiego San Luis farm, located in the province of San Luis, for crop irrigation, will enter into production the current season.

Cresud's land reserves amount to 263,000 hectares which were acquired at very low prices. We believe that with the development of these areas, together with proper technology, the value of land will rise generating interesting returns for the Company.

#### **Internet**

Fyo.com, internet site where the Company's equity interest amounts 70%, maintains its position as leading agriculture site and has started to expand the scope of commercial services for the farming community through the direct sale of inputs and crop brokerage.

Currently, Futuros y Opciones.com S.A. has a database of 40,000 users and more than 5,000 farmers entitled to perform deals. Our strategy is focused in commercial services for farmers, using Cresud's expertise and operative capacity in the business, being FyO the link with the client.

During the semester ended on December 31, 2004, Futuros y Opciones.com S.A.'s revenues amounted to Ps. 0.5 million, 38% higher than that registered during the same semester of the previous Fiscal Year. The net result for the semester showed a Ps. 0.2 million loss, lower than the Ps. 0.3 million loss registered during Fiscal Year 2004.

**Financial Structure**

During the current semester, the Company has developed an external financing strategy of its working capital for the productive season, at convenient rates and terms through export pre financing, which allows us to develop new business units optimising risks and acquiring the necessary liquidity to take advantage of investment opportunities that could arise.

Hence, at December 31, 2004 current loans with local financial entities amounted Ps. 37.2 million, enabling the development of new productive projects and generating a more efficient capital structure for the Company.

**Distribution of dividends**

On November 17, 2004, and pursuant to the Ordinary and Extraordinary Shareholder's Meeting held on October 22, 2004, cash dividends for a total amount of Ps. 3.0 million or Ps. 0.01983007 per common share of nominal value 1 each (Ps. 0.1983007 per ADR) were at shareholder's availability.

**Perspectives for the coming quarter**

Perspectives for the upcoming quarter are highly promising with firm livestock prices, hence we are expecting an increase in our profits from this business unit. Additionally, the opening of new international markets could continue impacting positively on this business unit.

Besides, there are promising perspectives on the evolution of corn yields for the coming quarter, which are already above our budget. Notwithstanding the foregoing, price perspectives are conservative due to promising productive seasons in the U.S. and South America.

Regarding our investment in the dairy farm project, its opening will occur promptly. At the commencement, it will have 600 milking cows and will reach 2,000 heads within 18 months.
