**Item 1.01 Entry into a Material Definitive Agreement**

On July 14, 2005, Semtech Corporation entered into a written Settlement Agreement with Royal Indemnity Company, as successor to the Royal Insurance Company of America (collectively, Royal ), under which Semtech will receive \$2,050,000 in settlement of claims brought against Royal in a lawsuit regarding insurance coverage for a customer dispute settled in March 2003.

This is the second insurance settlement related to the customer dispute. Information on the \$1 million first settlement is contained in Semtech's Form 8-K filed on July 7, 2005. With this second settlement, there is one other insurance company remaining as a defendant in the lawsuit that seeks to recover, among other things, the \$12 million Semtech paid to the customer to resolve the dispute.

The Settlement Agreement contains mutual releases with respect to the lawsuit and underlying insurance claims, provides for a stipulated dismissal of Royal from the lawsuit, and contains certain covenants by Semtech regarding its actions with respect to the continuing case against the remaining defendant.

Semtech and Royal also entered into a Letter Agreement on July 14, 2005 that contains certain other covenants by Semtech, applicable only in specified circumstances, regarding its actions with respect to the continuing case against the remaining defendant.

Like the first settlement agreement, the Settlement Agreement and Letter Agreement each contain provisions under which Semtech protects the settling insurer from contribution actions and certain other actions by the other insurers under specified circumstances. The Settlement Agreement and Letter Agreement each contain an agreement by Semtech to pay attorneys fees and costs incurred by Royal under certain circumstances.

The foregoing descriptions of the terms of the Settlement Agreement and Letter Agreement do not purport to be complete and are qualified in their entirety by the Settlement Agreement and Letter Agreement, attached as Exhibit 10.1 and Exhibit 10.2, respectively, and incorporated herein by reference.
