Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On February 18, 2005, the Company issued 1,740,943 shares of its common stock to the selling stockholders of United General Financial Services, Inc. in connection with the closing of the Company's acquisition of United General on that date. The issued common stock represented \$64,162,454.27 of the total purchase price paid to the United General selling stockholders in connection with the acquisition. In issuing the shares, the Company relied upon the exemption from registration provided by Section 4(2) of the Securities Act of 1933, based on the limited number of recipients of the shares and the fact that each of the recipients was an accredited investor.

The following table describes purchases by the Company of the Company's Common shares which settled during each period set forth in the table. Prices in column (b) include commissions. Purchases described in column (c) were made pursuant to the share repurchase program announced by the Company on May 18, 2004. Under this plan, which has no expiration date, the Company may repurchase up to \$100 million of the Company's issued and outstanding Common shares.
