Item 1.01 Entry into a Material Definitive Agreement

On September 21, 2006, we reached a settlement of the patent infringement and trade secret misappropriation lawsuit brought by Micrel in November 2004 in the United States District Court for the Northern District of California. The patents and alleged trade secrets were related to semiconductor manufacturing process and semiconductor design elements.

In the settlement, the parties agreed to dismiss all claims and counterclaims in the litigation with prejudice, and Micrel agreed not to assert the patents-in-suit against us or our customers in the future. Micrel also agreed to release Michael Hsing, our chief executive officer, and Jim Moyer, our chief design engineer, from all claims for any alleged trade secret claims based on any confidential information.

In return, we agreed to pay Micrel \$3 million in three equal installments in each of 2006, 2007 and 2008.

A copy of the Settlement Agreement and press release announcing the settlement are attached to this Current Report as Exhibits 10.1 and 99.1, respectively.
