Item 7.01 Regulation FD Disclosure.

On December 16, 2008, SVB Financial Group (NASDAQ: SIVB) (SVB) and HRJ Capital Holdings, L.L.C. (HRJ) announced their intention to explore a possible arrangement under which SVB or one of its affiliated companies would provide management services for various investment funds currently managed by HRJ. The preliminary, non-binding letter of intent is the result of negotiations between SVB and HRJ to identify alternative ways for HRJ and its affiliates to address their debt obligations to Silicon Valley Bank, a subsidiary of SVB, which total \$68.9 million.

Specifically, the parties intend to explore an arrangement under which SVB or an affiliate would provide management services for the HRJ-managed funds and agree to the conversion of a portion of the debt owed to Silicon Valley Bank into limited partnership interests in certain of those funds, at a valuation and on terms satisfactory to SVB. In addition, under the arrangement the parties would agree on satisfactory payment arrangements for the remaining debt owed to SVB by HRJ and its affiliates. SVB will also continue to allow HRJ to access its working capital loan facility, to use in connection with its ongoing operations, for a limited period of time. In return, under the potential arrangement, SVB would be entitled to receive management fees for each of the funds, which it would use to perform management services and repay a portion of the debt.

In order to consummate any transaction, HRJ would have to obtain the consent of the requisite percentage of limited partners of each of the HRJ funds and restructure certain debt and other obligations to third parties. Consummation of any transaction would also be subject to the receipt of required regulatory approvals, completion of due diligence, execution of definitive agreements and other customary conditions to closing. There can be no assurance that any agreement will be reached.

If the parties are able to consummate a transaction, SVB believes that it is well suited to provide ongoing management services to the HRJ funds through its funds management group, SVB Capital. SVB Capital invests in private equity funds as well as directly into portfolio companies on behalf of SVB Financial Group and other third-party investors. The SVB Capital family of funds exceeds \$1 billion and includes fund of funds, co-investment funds, venture debt funds and special debt funds invested primarily on behalf of institutional and high net worth investors.

SVB believes that it has a high-quality loan portfolio and that it effectively evaluates and monitors the creditworthiness of its clients. Owing to the current economic environment, the company does expect an increase in non-performing loans and charge-offs in the fourth quarter and coming year. SVB believes it is well-capitalized and has sufficient liquidity to meet the challenges of the current economy. The company will provide a full update on the portfolio and its financial position when it reports its fourth quarter and full year 2008 earnings in January 2009.
