** A message from Express Scripts and Medco Health Solutions: The 4,000 pharmacists we employ are focused on revolutionizing the prescription drug benefit, delivering more for the country. More personalized care and availability. More innovation. And more affordability. Find out how at www.betterrxcare.com **

FOOTER AD:

** A message from Express Scripts and Medco Health Solutions: Express Scripts and Medco have a long, well-established history of working with pharmacies and pharmacists to deliver healthcare. After all, we have more than 4,000 pharmacists on staff, so we understand what they need in order to do their jobs well. Our payment processing systems give pharmacists more time to spend counseling patients instead of filling out forms. For smaller pharmacies, finding out whether a prescription was covered used to take weeks, or even months. Our instant adjudication systems remove the uncertainty and risk. When pharmacists are limited to the information in their own systems and what patients share about their therapies, costly medication errors can occur. We notify pharmacists of harmful interactions and other clinical criteria that assist them in practicing pharmacy. Find out more at: www.betterrxcare.com **

Changes in industry pricing benchmarks;

Results in pending and future litigation or other proceedings which would subject us to significant monetary damages or penalties and/or require us to change our business practices, or the costs incurred in connection with such proceedings;

Our failure to execute on, or other issues arising under, certain key client contracts;

The impact of our debt service obligations on the availability of funds for other business purposes, and the terms and our required compliance with covenants relating to our indebtedness; our failure to attract and retain talented employees, or to manage succession and retention for our Chief Executive Officer or other key executives;
