Item 8.01 Other Events.

On July 13, 2012, Suburban Propane Partners, L.P. ("SPH") announced that it and Suburban Energy Finance Corp. received requisite tenders and consents in connection with their previously announced offers to exchange and related consent solicitations in connection with certain outstanding notes of Inergy, L.P. The exchange offers remain subject to certain other conditions, including the consummation of the acquisition by SPH of Inergy's retail propane business pursuant to the previously announced Contribution Agreement.

The foregoing description of SPH's press release does not purport to be complete and is qualified in its entirety by reference to such press release, a copy of which is filed as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The information contained in, or included as an exhibit to, this Current Report on Form 8-K does not constitute an offer to purchase or exchange any securities or a solicitation of any offer to sell any securities. The exchange offers are being made only pursuant to a confidential offer document and only to persons certifying that (a) they are in the United States and are "qualified institutional buyers" within the meaning of Rule 144A under the Securities Act (that are also "accredited investors" within the meaning of Rule 501 of Regulation D of the Securities Act) or (b)(i) they are outside the United States and are not U.S. persons, who are eligible to acquire securities pursuant to Regulation S and would be participating in any transaction in accordance with Regulation S and (ii) they are "non-U.S. qualified offerees" (as defined in the offer documents).

Forward Looking Statements

Information contained in this Current Report on Form 8-K may include certain statements concerning expectations for the future that are forward-looking statements as defined by federal securities law. Such forward-looking statements may include statements preceded by, followed by or that contain forward-looking terminology, including the words "believe," "expect," "may," "should," "could," "anticipate," "estimate," "intend," "negation thereof," or similar expressions. Forward-looking statements are subject to a variety of known and unknown risks, uncertainties and other factors that are difficult to predict and many of which are beyond management's control. Among those is the risk that the conditions to closing the Contribution Agreement are not met or that the anticipated benefits from the proposed transactions contemplated by the Contribution Agreement cannot be fully realized. Should one or more of these risks or uncertainties materialize or any underlying assumption proves incorrect, actual results may vary materially from those anticipated, estimated or projected. Among the key factors that could cause actual results to differ materially from those referred to in the forward-looking statements are: weather conditions that vary significantly from historically normal conditions; the general level of petroleum product demand and the availability of propane supplies; the price of propane to the consumer compared to the price of alternative and competing fuels; the demand for high deliverability natural gas storage capacity in the Northeast; Inergy's ability to successfully implement its business plan; the outcome of rate decisions levied by the Federal Energy Regulatory Commission; Inergy's ability to generate available cash for distribution to unitholders; and the costs and effects of legal, regulatory and administrative proceedings against, or that may be brought against, Inergy or its subsidiaries. These and other risks and assumptions are described in Inergy's annual reports on Form 10-K and other reports that are available from the United States Securities and Exchange Commission. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's view only as of the date made. Inergy undertakes no obligation to update any forward-looking statement, except as otherwise required by law.
