Election of Directors (Proposal One): We are asking our stockholders to elect Robert L. Lentz, Douglas J. Shaw and Peter J. Simone (collectively, the Nominees) as Class II directors of the Company to serve until the 2017 annual meeting of stockholders and until each of their respective successors is duly elected and qualified or until each of their earlier resignation or removal. Mr. Lentz has served on our board of directors since 2008, serves as a member of our management development and compensation committee and our audit committee, and on February 25, 2014 was elected to serve as chairman of our board of directors for a three-year term, with such term commencing the day after the date of our Annual

Meeting, subject to his reelection at the Annual Meeting. Mr. Shaw has served as a member of our board of directors since 2004 and been our president and chief executive officer since 2007. Mr. Simone has served on our board of directors since 2006, serves as a member of our nominating and corporate governance committee and is the chairperson of our audit committee. Full biographical information for each of the Nominees can be found beginning on page 12.

Executive Compensation (Proposal Two): We are asking our stockholders to approve on a non-binding advisory basis the compensation of our named executive officers discussed in the Compensation Discussion and Analysis beginning on page 26. The board of directors believes that our compensation policies and practices are effective in achieving our goals of rewarding both short- and long-term performance. Our base salaries pay competitively for an executive officer's performance of his or her individual job responsibilities; our cash bonuses reward achievement of short-term Company financial performance objectives and the satisfaction of an executive officer's yearly individual performance objectives; our equity awards, currently in the form of nonqualified stock options and restricted stock, reward long-term Company performance and align the interests of our executive officers with those of our stockholders.

Summary of 2013 Executive Officer Compensation Decisions

December 2012 Our management development and compensation committee determined that base salary increases for executive officers for fiscal 2013 were appropriate based on both the competitive positioning of the executive team when compared to their peers and the performance of the Company year to date. Increases were based on individual performance and were also influenced by the competitive standing of the individual executive in relation to similar positions in our peer organizations.

Our board of directors approved our 2013 internal Company-wide financial targets:

- \$166.9 million of full year revenue, and
- \$71.2 million of full year non-GAAP net adjusted EBITDA⁽¹⁾.

February 2013 Our management development and compensation committee adopted our 2013 executive officer incentive compensation plan (the 2013 Compensation Plan) which provided that no payments would be made to our executive officers if the Company did not achieve at least 90% of the revenue or non-GAAP net adjusted EBITDA goals established by the board of directors. The two metrics, revenue and net adjusted EBITDA, were equally weighted because the committee considered the Company's ability to grow revenue and non-GAAP net adjusted EBITDA to be equally important. Individual cash incentive compensation payment targets as a percentage of base salary for our executive officers were set as:

- President and chief executive officer 100%
- Senior vice presidents including our chief financial officer 50%
- Executive vice president 55%
- All other executive officers 40%

Our management development and compensation committee awarded non-qualified stock options and restricted stock to our executive officers. Approximately three quarters of each equity grant was issued in the form of non-qualified stock options and approximately one quarter was issued in the form of restricted stock. These awards vest over a four-year period.

⁽¹⁾ We define net adjusted EBITDA as operating income as defined under generally accepted accounting principles (GAAP) adding back share-based compensation, depreciation, amortization and severance expenses.

Table of Contents

Our management development and compensation committee awarded a grant of restricted stock which vests 100% on the first anniversary of the grant date to our vice president of enterprise solutions and managing director of Monotype Ltd. in recognition of his overachievement of his individual performance objectives.

February 2014

Our management development and compensation committee approved cash incentive compensation payments to our executive officers under our 2013 Compensation Plan based on the following considerations:

- i Our total revenue for the full year 2013 was \$166.6 million, an increase of 11% over the full year 2012 and 100% of full year target.
- i Our 2013 non-GAAP net adjusted EBITDA⁽¹⁾ for the purposes of calculating the Company’s achievement against its target was \$71.8 million, an increase of 13% over fiscal 2012 non-GAAP net Adjusted EBITDA as calculated for its achievement against target, and 101% of our fiscal 2013 year target.
- i The extent to which our executive officers, including our president and chief executive officer, substantially achieved or overachieved their individual performance objectives.

Second Amended and Restated 2007 Stock Option and Incentive Plan (Proposal Three): We are asking our stockholders to approve the Company’s Second Amended and Restated 2007 Stock Option and Incentive Plan (the “Second Amended and Restated 2007 Plan”), which amends and restates the Company’s existing plan, including an increase in the number of shares authorized for issuance by 3,000,000. Beginning on page 56, you will find a summary of the Second Amended and Restated 2007 Plan, information on all of the Company’s equity plans, and why the Company believes the approval of this plan is appropriate for the Company and its stockholders.

Ratification of Independent Registered Public Accounting Firm (Proposal Four): We are asking our stockholders to ratify the audit committee’s appointment of Ernst & Young LLP as the Company’s independent registered public accounting firm for fiscal 2014. Beginning on page 65, you will find our audit committee report, information on audit services provided by Ernst & Young LLP for the years ended December 31, 2012 and December 31, 2013, fees paid, and information regarding the approval of non-audit services.

How does the Board of Directors Recommend I Vote?

Proposal One	FOR the election of Messrs. Lentz, Shaw and Simone.
Proposal Two	FOR the approval, on a non-binding advisory basis, of the compensation of the Company’s named executive officers.
Proposal Three	FOR the approval of the Second Amended and Restated 2007 Plan.
Proposal Four	FOR the ratification of the appointment of the Company’s independent registered public accounting firm for fiscal 2014.

How do I Vote my Shares of Common Stock?

Whether you hold shares directly as the stockholder of record or indirectly as the beneficial owner of shares held for you by a broker or other nominee (i.e., in “street name”), you may direct your vote without attending the Annual Meeting. You may vote by granting a proxy or, for shares you hold in street name, by submitting voting instructions to your broker or nominee. In most instances, you will be able to do this either over the Internet, by telephone or by mail. Please refer to the instructions included on your proxy card or, for shares you hold in street name, the voting instruction card provided by your broker or nominee.

Table of Contents

The persons named as attorneys-in-fact on the proxy card, Douglas J. Shaw and Scott E. Landers, were selected by the board of directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. If you return a properly signed proxy but do not mark your vote on any matter, the proxy will be voted **FOR** the proposals described in this Proxy Statement. It is not anticipated that any matters other than those set forth in the Proxy Statement will be presented at the Annual Meeting. If other matters are presented, proxies will be voted in the discretion of the proxy holders.

What is a Broker Non-vote ?

A broker non-vote refers to a share of Common Stock represented at the Annual Meeting which is held by a broker or other nominee who has not received instructions from the beneficial owner or person entitled to vote such share where the broker or nominee does not have discretionary voting power to vote such share. If you hold shares of our Common Stock through a broker or other nominee (i.e. in street name), you must provide written instructions on how you want your shares to be voted on each individual matter being presented to you in this Proxy Statement. If you do not provide your broker or other nominee with voting instructions on each individual Proposal, and the Proposal is not considered a routine matter, then your broker or other nominee will not be able to vote your shares on your behalf on any non-routine proposal. Please note that Proposal One, Proposal Two and Proposal Three are considered non-routine matters. It is very important that you provide written instructions on each individual proposal if you want your vote on these matters to be counted.

Board of Directors

Structure

Our certificate of incorporation provides for a classified board of directors with three staggered classes of directors (Class I, Class II and Class III). The members of each class of our board of directors serve on the board until their successors have been elected and qualified and until the earlier of their death, resignation or removal. On February 24, 2014, the board of directors approved an expansion of the board from seven directors to eight directors and subsequently added Ms. Gaddis as a non-employee Class I director. Our eight directors are classified as follows: three Class I directors (currently Messrs. Givens, Heinen and Ms. Gaddis), three Class II directors (currently Messrs. Lentz, Shaw and Simone), and two Class III directors (currently Ms. Lenehan and Mr. Yeaton).

Our board of directors is currently comprised of seven independent directors and one employee director. Mr. Shaw, our employee director, has served as our president and chief executive officer since January 2007, and has been a member of our board since November 2004.) On January 28, 2014, Mr. Givens announced his resignation from the board of directors, effective the day following our Annual Meeting. On February 25, 2014, Mr. Lentz was elected chairman of the board of directors for a three-year term, with such term beginning on the day after our Annual Meeting, subject to his reelection at the Annual Meeting.

Our board conducts an annual self-evaluation to determine whether it and its committees are functioning effectively. As part of this annual self-evaluation, the board evaluates whether the current leadership structure continues to be optimal for the Company and its stockholders.

Our Company has separate positions for the chairman of the board of directors and president and chief executive officer. Our board believes that there are advantages to having an independent chairman

of the board to assist in facilitating matters such as communications between the board and our president and chief executive officer; providing strategic guidance from the board to our president and chief executive officer and senior management team; and assisting the board in reaching consensus on particular strategies and policies based on input from senior management. In addition, the board believes that the current leadership structure helps to ensure that the appropriate level of oversight, independence and responsibility is applied to all board decisions, including risk oversight. Mr. Lentz has been a member of our board since 2008 and, subject to his reelection at the Annual Meeting, who will begin serving a three year term as chairman of the board of directors and lead director on the day following the date of our Annual Meeting. The board of directors believes that Mr. Lentz's prior leadership experience in technology and software companies as well as his experience in and ability to assess the Company's current and potential future end user markets will allow Mr. Lentz to provide a unique perspective and strategic guidance to the Company's executive management team.

Independence of Members of the Board of Directors

Our board of directors has considered the relationships of all directors and any transactions involving our directors in the section entitled *Certain Business Relationships and Transactions* beginning on page 24, and determined that none of the directors, with the exception of Mr. Shaw who serves as our president and chief executive officer, has any relationship that would interfere with the exercise of independent judgment in carrying out his or her responsibility as a director and that each director qualifies as an independent director under the rules of the NASDAQ Global Select Market and the Securities and Exchange Commission (the "SEC").

Risk Oversight

The Company's management is responsible for day-to-day risk management and implementation of Company policies. Further, the Company maintains an internal risk management committee which is charged with ensuring that our risk management program, comprised of strategic, operational, financial and legal risk identification and prioritization, as well as active risk management and mitigation, is reflected in the Company's policies and actions. Our board of directors has oversight of our risk management program, and receives reports on risk management from members of our senior management team. In addition, the audit committee has oversight responsibility for our risk identification and prioritization process, our Sarbanes-Oxley Act of 2002 compliance program and our internal audit function. Finally, the management development and compensation committee has oversight of risk considerations with respect to our executive compensation programs, including working directly with management to determine whether our programs improperly encourage management to take risks relating to the business or whether risks arising from our executive compensation programs are reasonably likely to have a material adverse effect on the Company. Our board of directors believes that this shared oversight is appropriate, rather than consolidation of responsibility with a single board level risk management committee.

2013 Meetings and Executive Sessions of Independent Directors

The board of directors met eight times during 2013, and each director attended at least 75% of the total number of meetings of the board and committees of the board of which he or she was a member. In 2013, an executive session of the independent directors was held at least one time following a scheduled meeting of the board and included only those directors who met the independence requirements of the NASDAQ Global Select Market. Mr. Givens was responsible for chairing such executive session.

Committees of the Board of Directors

The board of directors has three standing committees: the audit committee, the management development and compensation committee and the nominating and corporate governance committee.

entered into. This list is updated and cross-checked periodically to ensure it does not contain parties involved in proposed or ongoing transactions, contracts or other legal or business arrangements with us and is checked prior to entering into any new transaction, contract or other legal or business arrangement. If it is determined that we have entered into or may enter into a related person transaction, including any modification or addition to an existing contract or arrangement, our general counsel is notified.

Prior to our entering into any related person transaction, our general counsel reviews the applicable rules and determines whether the approval of our board of directors, the audit committee, or both, is required and if so, that approval is obtained prior to entering the transaction. No related person transaction is allowed unless our general counsel has either (i) specifically confirmed in writing that no further approvals are necessary, or (ii) specifically confirmed in writing that all approvals necessary for us to enter into such arrangement have been obtained.

In the event that a related party transaction requires the approval of the board of directors, the audit committee reviews the transaction and then makes a recommendation to the board for its consideration before the transaction is entered into.

Our board of directors has determined that Mr. Simone qualifies as an audit committee financial expert as defined under the Exchange Act and the applicable rules of the NASDAQ Global Select Market. In making its determination, our board considered the nature and scope of the experiences and responsibilities that Mr. Simone has previously had with reporting companies and, in the opinion of our board of directors, he does not have a relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. All members of the audit committee are independent for audit committee purposes under the rules of the NASDAQ Global Select Market and the SEC.

Policies Governing Director Nominations

When our board of directors is required to select a new member, it relies on the nominating and corporate governance committee to identify suitable candidates for nomination and assesses their qualifications in light of the policies and principles in our corporate governance guidelines and the charter of the nominating and corporate governance committee.

Process for Identifying and Evaluating Director Nominations

Generally, the nominating and corporate governance committee identifies candidates for director nominees by consulting with other members of the board of directors and management, on its own, by utilizing search firms or other advisors, through the recommendations submitted by stockholders or through other methods as the nominating and corporate governance committee deems helpful in identifying candidates. Once candidates have been identified, the nominating and corporate governance committee confirms the candidates meet the minimum qualifications for director nominees by gathering information about the candidates through interviews, detailed questionnaires, comprehensive background checks or any other means deemed to be helpful in the evaluation process. The nominating and corporate governance committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the board of directors. Based on the results of this process, a recommendation is made with regard to the suitability for election to the board of directors. The specific qualities and skills our board of directors and nominating and corporate governance committee look for in each candidate are outlined below.

Director Qualifications

In identifying prospective director candidates, the nominating and corporate governance committee considers all facts and circumstances it deems appropriate, including among other things: skill set, depth and breadth of business experience, independence and the needs of the board of directors. This assessment includes consideration of the following minimum qualifications that must be met by all directors:

directors must be of the highest ethical character and share the values of the Company as reflected in the Company's Code of Business Conduct and Ethics;

directors must have reputations, both personal and professional, consistent with the image and reputation of the Company;

directors must have the ability to exercise sound business judgment; and

Edgar Filing: Monotype Imaging Holdings Inc. - Form DEF 14A

directors must have substantial business or professional experience and be able to offer meaningful advice and guidance to the Company's management based on that experience.

Table of Contents

The nominating and corporate governance committee also considers factors such as:

an understanding of and experience in the technology, software and creative professional services industries or other experience deemed relevant by the nominating and corporate governance committee at the time;

leadership experience with public companies or other major complex organizations;

how such individual contributes to diversity of the board of directors, although the Company does not have a formal diversity policy;

experience in accounting or financial industries; and

the degree to which such candidate's experience strengthens the board of directors' collective qualifications and skills.

Procedures for Recommendation of Director Nominees by Stockholders

If you would like the nominating and corporate governance committee to consider a prospective candidate, please submit the candidate's name and qualifications and other information in accordance with the requirements for director nominations by stockholders in the Company's by-laws to: Monotype Imaging Holdings Inc., 500 Unicorn Park Drive, Woburn, Massachusetts 01801, Attention: Corporate Secretary. The corporate secretary promptly forwards any nominations to the nominating and corporate governance committee.

All recommendations for nomination of a director candidate must be in writing and include the following:

the name and address of record of the stockholder;

a representation that the stockholder is a record holder of our securities, or if the stockholder is not a record holder, evidence of ownership in accordance with Rule 14a-8(b)(2) of the Exchange Act;

the name, age, business and residential address, educational background, current principal occupation or employment, and principal occupation or employment for the preceding five full years of the proposed director candidate;

a description of the qualifications and background of the proposed director candidate which addresses the minimum qualifications described above;

a description of all arrangements or understandings between the stockholder and the proposed director candidate;

the consent of the proposed director candidate (i) to be named in the proxy statement relating to the Company's annual meeting of stockholders, and (ii) to serve as a director if elected at such annual meeting; and

Edgar Filing: Monotype Imaging Holdings Inc. - Form DEF 14A

any other information regarding the proposed director candidate that is required to be included in a proxy statement filed pursuant to SEC rules.

Candidates may be required to undergo a comprehensive private investigation background check by a qualified company of the Company's choosing, and a candidate must complete a detailed questionnaire regarding his or her experience, background and independence.

Once the nominating and corporate governance committee receives the nomination of a candidate and the candidate has complied with the minimum procedural requirements above, the candidate is evaluated by the nominating and corporate governance committee and a recommendation regarding the candidate is delivered to the board of directors.

Table of Contents

In addition to these procedures for recommending a director nominee to the nominating and corporate governance committee, a stockholder can propose an individual for election to the board of directors in accordance with the Company's by-laws, as described in the *Stockholder Proposals for Annual Meetings* section beginning on page 67.

PROPOSAL TWO

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Company is giving stockholders the opportunity to approve the compensation of the Company's named executive officers as disclosed in this Proxy Statement by voting for or against this Proposal Two. Although stockholder approval of our compensation plans for named executive officers is advisory in nature and not binding on the Company, our board of directors intends to carefully consider the shareholder vote resulting from this Proposal Two and, to the extent there is any significant vote against the compensation of the Company's named executive officers, will consider our stockholders' concerns and evaluate what actions may be appropriate to address those concerns when making future compensation decisions for our named executive officers.

The Company believes its executive compensation plans are designed to attract and retain qualified executive officers with industry experience who can contribute to our corporate strategy and effectively guide our employees on the day-to-day implementation of that strategy at all levels. These executive officers are crucial to our success, and we believe our compensation practices encourage and motivate these individuals to achieve superior performance on both a short-term and long-term basis. For a full description of the Company's executive compensation, we encourage you to review the information contained in our Compensation Discussion and Analysis and the associated charts contained beginning below on page 26. We believe our executive compensation programs to reflect the value created for stockholders in a given plan year, while supporting our strategic and longer-term goals.

Vote Required and Recommendation

Only holders of record of the Company's Common Stock as of the close of business on the Record Date are entitled to vote on Proposal Two. **Proxies will be voted FOR this Proposal Two unless contrary instructions are set forth on the enclosed proxy card.** This vote is advisory, and therefore not binding on us, our board of directors or our management development and compensation committee. Notwithstanding the advisory nature of this vote, the resolution will be deemed approved and passed on an advisory basis with the affirmative vote of the majority of the votes cast. Our board of directors and management development and compensation committee value the opinions that our stockholders express in their votes and will consider the outcome of this vote when considering future executive compensation arrangements as they deem appropriate.

Abstentions or instructions on a proxy to withhold authority to vote this resolution will have no effect on this Proposal Two. In addition, please note that your broker or other nominee may vote your shares in its discretion only on routine matters. The Company believes that the advisory vote on executive compensation is not a routine matter. If your shares of the Company's Common Stock are held for you by a broker or other nominee (i.e., in street name), and you do not give specific voting instructions, your shares will not be voted on Proposal Two.

The Board of Directors recommends that stockholders vote FOR the approval of the compensation of the Company's named executive officers as disclosed in this Proxy Statement.

COMPENSATION DISCUSSION & ANALYSIS

This section, and the proxy summary beginning on page 1, describes the Company's compensation programs for our executive officers that were in effect for 2013 and the decisions made with respect to these programs. Our goal is to explain the details of these compensation programs as well as to describe

Table of Contents

why we believe these programs are appropriate for our Company and our stockholders. The compensation charts found in this section contain information for our principal executive officer, our principal financial officer, and our three other most highly compensated executive officers who had been designated by the Company as executive officers as of December 31, 2013 and whose total compensation exceeded \$100,000 (referred to as our named executive officers).

Executive Summary

We are requesting a non-binding vote on our executive compensation and are making every effort to assist our stockholders in understanding our proposal and to facilitate prompt voting. We believe that the compensation paid to our executive officers, including our president and chief executive officer, is closely aligned with our corporate performance and the total return received by our shareholders. In addition to the information contained throughout this Proxy Statement, we are asking our shareholders to consider the following information when making their voting decisions:

A substantial portion of the total compensation of our president and chief executive officer reported in our Summary Compensation Table on page 47 is based on his individual performance and the performance of the Company, as follows:

Year	Total Compensation	Total At Risk Compensation(1)	Percentage of Total Compensation At Risk
2013	\$ 2,387,693	\$ 1,966,300	82%
2012	\$ 1,790,257	\$ 1,391,043	78%
2011	\$ 1,750,947	\$ 1,357,876	78%
2010	\$ 1,382,126	\$ 1,028,734	74%
2009	\$ 806,789	\$ 467,119	58%

- (1) We define at-risk compensation as compensation derived from stock options, restricted stock, cash incentive, dividends paid on unvested restricted stock and profit sharing.

Decisions relating to the cash compensation of our executive officers, including our president and chief executive officer, were made based on consideration of peer group compensation levels, our Company financial performance, and the executive's individual performance.

Except in the case of one of our named executive officers as described further below, in 2013 approximately three-quarters of the equity awards granted to our executive officers, including our president and chief executive officer, were in the form of stock options and approximately one-quarter was in the form of restricted stock. All option awards are made with an exercise price equal to fair market value on the grant date, and vest over a four-year period. We view these option awards as performance-based shares because stock options, by their nature, will not provide any return to an executive unless there is appreciation in the stock price.

As referenced above, a second grant of restricted stock with 100% vesting on the first anniversary of the grant date was awarded to one of our named executive officers to recognize the overachievement of his individual performance objectives.

Table of Contents

The total compensation paid to our president and chief executive officer over the prior five years has not increased at a rate substantially higher than the total return to stockholders. The chart below compares the performance of the NASDAQ Composite Index, the NASDAQ Computer Index, the Standard and Poor 600 Index and the Russell 2000 Index to the performance of our Common Stock and the total compensation paid to our president and chief executive officer. As illustrated in the chart, from 2009 to 2013, the value of a share of our Common Stock has outpaced the total compensation paid to our president and chief executive officer, as well as the NASDAQ Composite, NASDAQ Computer, Russell 2000 and the Standard and Poor 600. Data presented in the chart below is in index form, where the Company and all indices started on July 25, 2007 with a base value of 100.

Corporate Governance

Our corporate governance policies are reviewed annually to comply with industry best practices to ensure that decisions are independent, are based on information from knowledgeable and experienced sources, and support our effort to align our executive compensation with Company performance and the interests of our stockholders, as follows:

Table of Contents

Each of our named executive officers is employed at will and is expected to demonstrate exceptional performance in order to continue serving as an executive officer of the Company.

philosophies and general corporate governance practices. During 2013, we reached out to our largest shareholders and provided them with a forum to discuss the state of our business and ask questions about and provide feedback on our executive compensation programs and corporate governance practices. We intend to continually engage our stockholders in conversations which include the topics of our executive compensation programs, equity dilution and our corporate governance practices.

Further, our management development and compensation committee invites our stockholders to communicate directly with its members to inquire about, or provide their opinions about the Company's executive compensation philosophies and programs. Any communications should be mailed to: Monotype Imaging Holdings Inc., 500 Unicorn Park Drive, Woburn, Massachusetts 01801, Attention: Chairperson, Management Development and Compensation Committee. A member of our management development and compensation committee will respond to all communications as quickly as possible.

Our Executive Compensation Objectives and Principles

We believe that our Company's success is largely dependent on experienced, engaged and motivated talent at all levels of our organization. With that in mind, we design, and intend to modify as necessary, our compensation and benefits program and philosophy to attract, retain and incentivize talented, qualified and committed executive officers who share our philosophy and desire to work toward our goals. To support these compensation objectives, we strive to provide a competitive total compensation package to our executive officers that we believe:

links executive compensation to the achievement of short-term corporate targets as well as long-term business objectives and strategies;

increases the proportion of compensation that is at risk as an executive officer's level of responsibility increases, without encouraging excessive or unnecessary risks for the Company;

provides our executive officers with total compensation opportunities that are competitive for comparable positions at similar companies, including those with whom we compete for talent;

aligns the interests of our executive officers with those of our stockholders and supports the strategic direction of our business;

encourages behavior consistent with our values and reinforces ethical business practices;

reflects the level of accountability and future potential of each executive officer and the achievement of outstanding individual results; and

reflects internal pay equity ensuring team behavior consistent with the requirement for superior cross-organizational results.

We use a combination of base salary, annual cash incentive compensation programs and a long-term equity incentive compensation program to create a competitive compensation package for our executive officers. We attempt to maintain total compensation levels that we believe will be perceived by our executive officers and our stockholders as fair and equitable. We rely on the following principles to guide our executive compensation decisions:

<i>Focus on Total Compensation</i>	All compensation decisions are based on the total compensation opportunity for our executive officers, including base salary, cash incentive compensation, equity incentive compensation and benefits. Our goal is to provide total compensation to our executive officers that align the interests of our executive officers with the interests of our stockholders.
<i>Pay Competitively</i>	We target total compensation, which we define as compensation received when achieving targeted results, to be in line with executives who hold comparable positions and are producing similar results at public companies of similar size and in similar industries.
<i>Pay for Performance</i>	A significant portion of executive compensation is variable and performance-based, subject to increase when results exceed corporate targets and decrease when results fall below target, with no payout if results do not achieve threshold levels of performance. We consider stock options to be performance based compensation because they have intrinsic value only when the Company's share price increases.
<i>No Executive Only Perquisites</i>	Other than the annual physical examination described on page 38, we offer a benefits package to our executive officers which is the same as the benefits package provided to all full-time employees.

All of our executive officers are compensated under the same policies, which are reviewed regularly by the management development and compensation committee to assure they are aligned with our overall compensation objectives and principles.

How and When our Executive Compensation is Determined

Our management development and compensation committee, which is comprised entirely of independent, non-employee directors, determines executive compensation by utilizing input from our president and chief executive officer, vice president of human resources, and an independent compensation advisor from Pearl Meyer & Partners LLP (Pearl Meyer), engaged by our management development and compensation committee. Pearl Meyer provides no other services to the Company and the independent compensation consultant advising the committee has no prior relationship with any of our named executive officers.

In order to make compensation decisions with respect to our executive officers, our management development and compensation committee benchmarks total compensation and each individual compensation element to determine whether our executive officer compensation is competitive. This is accomplished by comparing the levels of executive compensation and the financial performance of the Company against an approved peer group of companies. The peer group is selected with guidance from Pearl Meyer and approved by the committee based on the following criteria:

Actively traded public companies in the United States with revenue and market capitalization comparable to the Company's, with exceptions allowed for industry leaders or direct competitors who are outside the revenue and market capitalization range;

Companies in the digital media and software industries with similar products and services; and

Table of Contents

Companies that generally overlap with our geographic labor market for talent, which we define as the metropolitan Boston area. In 2013, we benchmarked total compensation of our executive officers to the peer group listed below, with revenue generally ranging from \$75 million to \$300 million, or 1/2 to 2 times our annual revenue and a market capitalization generally ranging from \$350 million to \$1.6 billion, or 1/2 to 2 times our market capitalization. Our peer group of companies for benchmarking purposes in 2013 was as follows:

Actuate Corporation	American Software, Inc.	Bottomline Technologies Inc.
Broadsoft Inc.	Constant Contact Inc.	DTS, Inc.
Ebix, Inc.	Guidance Software, Inc.	LogMeIn, Inc.
PROS Holdings, Inc.	Seachange International, Inc.	Stamps.com, Inc.
Synchronoss Technologies, Inc.	Tangoe, Inc.	Telenav, Inc.

In making compensation decisions for 2013, the management development and compensation committee compared our performance to the performance of the companies in our peer group based on the most recent trailing four quarters of data available at the time of the analysis for a one year basis with respect to revenue growth, adjusted earnings before interest, taxes, depreciation and amortization (EBITDA), adjusted EBITDA margin and adjusted earnings per share, and on a three year basis with respect to cumulative total shareholder return, as the committee believes that these metrics accurately reflect an organization s performance. Adjusted EBITDA, adjusted EBITDA margin and adjusted earnings per share (EPS) exclude stock based compensation expense and one-time items. The results of this comparison are provided below:

Metric	Company s Percentile within the Peer Group
Revenue Growth	85%
Adjusted EBITDA	63%
Adjusted EBITDA Margin	57%
Adjusted EPS	77%
Three-Year Total Shareholder Return	82%

Based on the evaluation of our performance against our peer group, the management development and compensation committee determined that the 50th percentile was the appropriate benchmark for the cash compensation of our executive officers. In determining the compensation targets for individuals, the management development and compensation committee also considered recommendations from our president and chief executive officer and vice president human resources, based on:

a review of the previous year s performance of each executive officer, and his or her individual performance objectives for the upcoming year;

market information provided by the independent compensation advisor that includes data relating to our peer group and other relevant publicly available compensation surveys; and

our president and chief executive officer s views on our total executive compensation program s ability to attract, retain and motivate the level of performance from each executive officer necessary to achieve the Company s goals.

In 2013, the management development and compensation committee awarded our executive officers non-qualified stock option awards and restricted stock awards. In 2014, the management development and compensation committee awarded our executive officers performance-based equity in the form of restricted stock units. These restricted stock units are tied to corporate performance targets which must be attained in order for these restricted stock units to convert to shares of our Common Stock.

Individual performance includes demonstrated leadership and individual performance results against stated objectives. An executive officer's base salary is also benchmarked against the executive compensation of our peer group. Any mid-year adjustment or material increase in an executive officer's base salary is generally due to a promotion, a substantial increase in the executive officer's responsibilities, or a determination that a market adjustment is required for fair pay and retention.	A budget is accrued for executive officers based on the achievement of pre-determined financial targets and individual incentive targets. The budget is only funded and payable upon achievement of at least 90% of one or more of the pre-established financial targets. The budget payable to executive officers may be increased by the management development and compensation committee without amendment of the plan if executive officers are added during a plan year. In addition, the budget may be increased without amendment of the plan by reallocating from amounts designated by the Company to other Company incentive compensation plans in the event any such amounts are not paid or distributed under other plans.	Individual equity awards to our executive officers are granted from an annual pool that is established based on internal dilution guidelines, management recommendations, benchmarking to industry and peer group data, and an analysis of the overhang and dilution of our Common Stock in comparison to our peer group. Individual awards made in any given year take into account peer group award levels, individual performance and anticipated future performance, impact in future years and retention value of current holdings, and consideration for comparative value related to peers. All grants are made at fair market value and calculated based on our closing market price on the grant date. Generally, awards are subject to time-based vesting with 25% of

Weighting of the Principal Elements of our Executive Compensation Programs

We determine the appropriate allocation between annual cash and equity incentive compensation, with a goal of weighting the allocation toward variable compensation based on Company financial and individual executive officer performance. The goals for our Company and executive officers are established so that target attainment is not assured and payment for performance at or above target levels will require our executive officers to perform at a high level, devote significant effort to our business, achieve challenging targets and produce significant results. The individual performance objectives of our executive officers are developed to support achievement of our annual Company objectives in order to ensure that each executive officer's priorities, focus and efforts support the success of our strategic initiatives and drive achievement of the business and financial objectives of the Company.

Table of Contents

The management development and compensation committee considers total compensation (cash and equity) when evaluating competitive data provided by Pearl Meyer and tally sheets prepared by our human resources department that include information on each executive officer's current and past compensation (salary, incentive pay, and equity including number of shares and value), when making annual compensation decisions. Consideration is given to:

the retention value of the long-term equity awards currently held by an executive officer;

our view of internal equity; and

other considerations we deem relevant, such as the Company's overall financial performance or extraordinary individual performance by an executive officer.

Based on this review, the management development and compensation committee can decide to adjust one or more elements of an executive officer's compensation.

Certain compensation decisions may specifically impact other elements of compensation. For example, because potential annual cash incentive payouts are based on the executive officer's base salary, increases in base salary also increase the amount of the potential cash incentive payout. In designing the total compensation structure, the management development and compensation committee assures that the total compensation of our executive officers remains aligned with the market, and that mix of compensation elements offered to our executive officers is structured so that no significant amount that may be derived from one compensation component reduces the compensation received from other components, understanding that the mix and the total compensation opportunity can be impacted by discretionary factors such as individual performance and equity considerations.

We have not implemented a specific policy for determining the allocation between cash and non-cash compensation for our executive officers, although historically we have allocated a greater percentage of an executive officer's total compensation to equity, or long-term compensation, as the executive officer becomes more senior in our organization. We believe equity incentive awards are an important component of our total compensation structure to provide appropriate competitive total compensation, motivate and retain our executive officers and provide us with greater stability in our management team. Further, we believe that it is appropriate to weight our executive officer's compensation more heavily towards long-term compensation to mitigate the risk of management decisions being made for short-term gains, as discussed further below.

Risk Mitigation in the Principal Elements of our Executive Compensation Programs

Payments under our 2013 Compensation Plan are based on annual Company-wide financial targets of revenue and net adjusted EBITDA, which are equally weighted to mitigate the risk of decisions driven by the impact to one metric at the expense of the other, as well as individual performance objectives for each executive officer. No payment is made under the plan unless the Company achieves at least 90% of the revenue or net adjusted EBITDA target approved by our board of directors. See page 2, footnote 1 for an explanation of how we calculate net adjusted EBITDA. In addition, the plan contains a claw back provision in the event there is a subsequent change in our audited financial statements that impacts whether the financial performance targets were satisfied. In the event of a claw back, an executive officer would be required to repay to us any amount that was paid based solely on the satisfaction of such target that was not satisfied based on the change in our audited financials. The management development and compensation committee has no discretion to determine whether a repayment is required as that determination is made by the audit committee, however the management development and compensation committee does have discretion in determining the amounts to be repaid.

As discussed above, we generally weight the compensation of our executive officers toward longer-term compensation such as equity awards, including performance based awards that align with shareholder interest. Currently, we use grants of non-qualified stock options in furtherance of this goal because the stock price must rise in order for there to be any value realized by the recipient. We believe

Table of Contents

this weighting toward long-term compensation effectively aligns the interests of our executive officers and stockholders as the potential gain by executive officers from decisions that increase the long-term value of the Company outweighs the gain from decisions focused solely on the short-term.

Our president and chief executive officer is subject to equity ownership guidelines which further reinforces this alignment with shareholders. We believe that this compensation practice encourages longevity and stability in our executive management team and discourages our executive officers from making strategic or tactical decisions based on immediate personal gain, thus reducing the overall risk in our business activities.

Other Elements of our Executive Compensation Programs

Benefit Plans

Our benefits plans in the United States, which are made available equally to all employees and executive officers, include a discretionary 401(k) matching program, a 401(k) profit sharing contribution, life and disability insurance, travel and accident and optional health, dental, vision and supplemental life insurance coverage. The optional health and dental benefits require cost sharing for all employees, including executive officers, and vision and supplemental life insurance are fully paid by any employee electing these benefits. We reimburse our employees whose responsibilities entail frequent travel, which includes all of our executive officers, for memberships in a limited number of airline programs that provide access to airport lounges and other amenities. We also offer a tuition reimbursement program to all employees to encourage the ongoing growth and development of the employee's skill set.

To ensure that the benefits offered to our executive officers and employees remain competitive with the applicable market, our human resources department reviews publicly available market data for technology companies and for companies in the specific geographic markets where we operate, and applicable laws mandating certain benefits.

In the United Kingdom, where one of our named executive officers resides, travel insurance and supplemental health benefits are available for all employees, including executive officers, and require cost sharing. The Company's retirement program for employees located in the United Kingdom is made available through individual retirement contracts that include a matching employer contribution of 5% if a minimum contribution of 3% is made by the employee.

Perquisites

In the United States, the only additional benefit or perquisite available to our executive officers that is not also available to all of our employees is a comprehensive, Company-paid yearly physical examination. Although the Company's medical plan already provides for annual physicals for all employees, the comprehensive examination for executives provides the convenience for doing all of the tests in one location on a single day. These physicals are aligned with the Company's overall wellness initiatives as they allow the Company to assure that executive officers can conveniently take the time necessary to maintain their health and wellness.

In the United Kingdom, a car allowance is available to our executive officer and certain other employees including certain sales employees and senior management personnel.

Post-Employment Benefits

All of our named executive officers in the United States have employment agreements that provide them with severance payments and benefits in the event we terminate their employment without cause or the executive officer terminates employment for good reason. These agreements contain provisions which prohibit the executive officer from hiring or engaging or attempting to hire

or engage any officer or employee of the Company for a period of one year from the date of termination and prevent the executive officer from competing with us for periods of up to one or two years, depending upon the reason the executive officer terminated his or her employment with the Company.

United States based executive officers that do not have an employment agreement with the Company, upon designation by the management development and compensation committee as an eligible employee, are covered under a change of control plan that provides them with severance payments and benefits in the event that the Company has a change of control. We also have a severance pay plan that applies to all United States based employees, including our executive officers that do not have an employment agreement with us, in the event of involuntary termination of such executive officer. Our severance plan provides for continuation of salary and benefits depending on the executive officer's role and length of service with us.

Our 2004 Stock Option and Incentive Plan (the "2004 Option Plan") and our 2007 Option Plan control the terms of the vesting, forfeiture or cancellation of all equity incentive compensation awards in the event of termination, death, or disability of any of our executive officers, as well as in the case of a change in control. See *Potential Payments upon Termination or Change-in-Control* beginning on page 51 for a full discussion of the terms of these agreements, including the definitions of cause and good reason.

Our 2013 Executive Compensation Payments*Base Salary Increases*

We benchmark our executive compensation practices annually against a selected peer group of publicly traded companies. The results of this benchmarking has shown that our executive compensation has been below, and at some points significantly below, that of our peer group. Certain executive officers have received adjustments higher than the average base salary adjustment of our employees to move toward peer group practice as supported by Company performance. The chart below illustrates the extent to which the base salary and cash component of the compensation of our president and chief executive officer has continued to lag our peer group over the past five years:

When determining base salary increases for 2013, the management development and compensation committee considered the variance in base salary of our president and chief executive officer when compared to the 50th percentile of our peer group, any variance in the base salaries of our other executive officers when compared to the 50th percentile of our peer group, as well as other factors including the financial performance of the Company, the overall performance and effectiveness of the executive officer in 2012, and any significant changes to scope of responsibility over 2013.

Based on this analysis, the management development and compensation committee awarded base salary increases to our executive officers including our president and chief executive officer that are equivalent to or slightly higher than the Company-wide budget for increases of 3%. Even with the higher than target increase in base salary awarded to our president and chief executive officer in 2013, his base salary continues to fall below 50th percentile of our peer group. The salary increases described below were effective January 1, 2013.

	2012 Base Salary	Percentage Base Salary Increase for 2013	2013 Base Salary

Cash Incentive Compensation Awards and Payments

In February 2013, our management development and compensation committee approved the 2013 Compensation Plan which included a target cash incentive compensation amount for all executive officers. Based on our peer group analysis and other publicly available market survey data provided by Pearl Meyer, the management development and compensation committee determined that individual cash incentive compensation targets under the 2013 Compensation Plan should increase from those of our 2012 Compensation Plan, including those for our president and chief executive officer, senior vice president and chief financial officer, executive vice president and senior vice president. Cash incentive targets for 2013 were set as a percentage of annual salary as follows: president and chief executive officer 100%; executive vice president 55%; senior vice presidents including our chief financial officer 50%; all other executive officers 40%.

Our 2013 Compensation Plan provides for the generation of a cash bonus budget to cover the cash incentive compensation. The size of the bonus budget is based on the achievement of Company revenue and net adjusted EBITDA targets established by our board of directors that we believe were moderately difficult to achieve. At each pre-determined net adjusted EBITDA and revenue percentage achievement, beginning at 90% of the applicable target, an incentive budget calculation was established, providing an incremental increase between 90-100% achievement and 100%-110% achievement for each goal, respectively. No cash incentive compensation was payable under the 2013 Compensation Plan in the event the Company did not achieve at least 90% of the pre-established revenue or net adjusted EBITDA target. The 2013 Compensation Plan capped the amounts payable to any executive officer, including our president and chief executive officer, at two times such executive officer's annual target cash compensation.

Table of Contents

In February 2014, our board of directors determined that, subject to receipt of audited financial statements for fiscal year 2013, we had reached 100% of our revenue target of \$166.9 million, or \$166.6 million and 101% of our non-GAAP net adjusted EBITDA target of \$71.2 million, or \$71.8 million. Net adjusted EBITDA of \$71.8 million includes an add-back of approximately \$0.8 million for severance related expenses consistent with past methodology used to calculate our achievement against our non-GAAP net adjusted EBITDA target. As noted above, the 2013 Compensation Plan was designed to pay out incrementally higher rewards for overachievement of any financial target as reflected in the budget at percentage attainment totals in the chart below.

Further, the total budget approved for payment was \$1,712,599, or 100.8% of the total budget available. The management development and compensation committee used its discretion to allocate amounts from other eligible Company compensation plans to the 2013 Compensation Plan to further reward certain executive officers for their contributions to the Company's overachievement of one of its financial targets. Accordingly, the final pool for cash incentive payout and percentage of the pool paid to our executive officers was as follows:

Metric	Target (in thousands)	Budget at 90% of Target	Budget at 100% of Target	Budget at 105% Target	Percentage of Target Attained	Budget at Percentage Attainment
Revenue	\$ 166,900	\$ 311,176	\$ 818,885	\$ 1,228,328	100%	\$ 818,885

				Total Budget Available		\$ 1,698,989
				Total Amount Paid		\$ 1,712,599

In February 2014, the management development and compensation committee determined that each executive officer had achieved, and in the case of one of our executive officers, overachieved their individual performance objectives for fiscal year 2013, which were as follows:

President and Chief Executive Officer: Drive achievement of the Company-wide revenue and net adjusted EBITDA targets; drive achievement of business unit customer acquisition and sales targets; complete rebranding efforts; drive and complete acquisitions that forward corporate strategies; drive commercial success of products launched or acquired during fiscal 2013; add three major new shareholders; delivery key products on schedule and to specification; foster a culture of innovation and customer intimacy; driving customer intimacy program including customer visits; define on-going market strategies and ensure alignment with key customer needs.

Equity Awards

We generally grant equity awards during the first quarter of the fiscal year. The management development and compensation committee determines the budget for the plan year and takes into consideration burn rate and overhang in determining an appropriate amount of aggregate equity to be awarded to executive officers. These equity grants are designed to provide future incentive to the executive officer. Factors such as past performance and internal equity are considered as well. The management development and compensation committee believes that the use of restricted stock subject to time-based vesting, which offers guaranteed in-the-money value upon vesting, in combination with non-qualified stock options, provides an attractive retention tool and encourages a strong motivation for the Company's executive officers to drive long-term growth as the performance of the Company will significantly affect the value of all equity incentive compensation. In addition, the use of this mix provides a more moderate dilutive impact to stockholders since the use of shares of restricted stock requires fewer shares to provide equivalent value to our executive officers. Accordingly, the management development and compensation committee determined that a mix of awards of non-qualified stock options and restricted stock subject to time-based vesting was appropriate for equity grants made in 2013, with executive officers receiving approximately three-quarters of the annual award value in non-qualified stock options and approximately one-quarter of the annual award value in the form of restricted stock.

Table of Contents

On February 26, 2013, our management development and compensation committee approved the equity awards listed below to our named executive officers. The awards were issued on March 6, 2013 and the stock options have an exercise price of \$21.98, which was the closing market price on the NASDAQ Global Select Market for a share of our Common Stock on that date. Except for the footnoted restricted stock grant awarded to Mr. McCallum, twenty-five percent of each award vests on the first anniversary of the grant date, with the remainder of the award vesting in equal quarterly installments over the following three years. Mr. McCallum received a separate award of restricted stock, with vesting conditions as footnoted below, in recognition of his overachievement of his individual performance objectives.

	Non-Qualified Stock Options	Restricted Stock
Douglas J. Shaw, President and Chief Executive Officer	85,000	28,000
Scott E. Landers, Senior Vice President, Chief Financial Officer and Treasurer	30,000	10,000
John L. Seguin, Executive Vice President	33,000	11,000
Steven R. Martin, Senior Vice President, Engineering	27,000	9,000
John H. McCallum, Vice President and General Manager, Enterprise Solutions; Managing Director, Monotype Ltd. (1)	15,000	11,000

(1) Mr. McCallum received two separate awards of restricted stock. The first restricted stock award representing 5,000 shares vests on the schedule noted above. The second restricted stock award representing 6,000 shares vests 100% on the first anniversary of the grant date.

In 2014, the management development and compensation committee awarded non-qualified stock options, restricted stock and performance based equity in the form of restricted stock units to our executive officers. Vesting of these restricted stock units are tied to the achievement of certain corporate targets over a three year period, with the opportunity for one third of the total award to vest upon achievement of each annual target. Vesting may accelerate if later year corporate targets are achieved early. The management development and compensation committee determined that a mix of awards of non-qualified stock options, restricted stock subject to time-based vesting and performance based equity in the form of restricted stock units will provide a balance of equity forms that align executive compensation to shareholder interests by rewarding for the achievement of specific corporate growth objectives, and the use of this mix moderates the dilutive impact to stockholders. In 2014, executive officers received one-third of their annual equity award value in non-qualified stock options, one-third in the form of restricted stock, and one-third in the form of performance based restricted stock units.

See the section entitled *Grants of Plan Based Awards 2013* beginning on page 48 for a discussion of our 2013 grants of equity awards.

Management Stock Ownership Guidelines

Our president and chief executive officer is subject to equity ownership guidelines that require him to hold Common Stock of the Company with an aggregate value of three times his base salary on the measurement date. The measurement date is defined as the close of business on December 31 at the Company's principal place of business beginning on the fourth anniversary of the later of (i) the adoption of the equity ownership guidelines, or (ii) the first date of the chief executive officer's employment in such position. As of December 31, 2013, our president and chief executive officer satisfied these ownership requirements.

Tax and Accounting Considerations

We have considered the provisions of Section 162(m) of the Code and related treasury regulations that restrict deductibility of executive compensation paid to our executive officers, including our named executive officers holding office at the end of any calendar year to the extent such compensation exceeds

Table of Contents

\$1,000,000 for any such officers in any year and does not qualify for an exception under the statute or regulations. The management development and compensation committee endeavors to maximize deductibility of compensation under Section 162(m) of the Code to the extent practicable while maintaining a competitive, performance-based compensation program. However, tax consequences, including tax deductibility, are subject to many factors which are beyond the control of the Company and the management development and compensation committee. In addition, our management development and compensation committee believes that it is important to retain maximum flexibility in designing executive compensation programs that meet their stated business objectives. For these reasons, our management development and compensation committee, while considering tax deductibility as a factor in determining executive compensation, will not limit such compensation to those levels or types of compensation that will be deductible. Our management development and compensation committee will continue to consider alternative forms of compensation, consistent with its compensation goals, which preserve deductibility.

Discussion of Compensation and Grants of Plan-Based Awards

All of our named executive officers in the United States have employment agreements with us that provide benefits upon the termination of employment. These employment agreements do not, however, include guaranteed compensation amounts that are payable in the ordinary course. Discussion of amounts payable under these employment agreements if the employment of the named executive officer terminates under certain circumstances is discussed under *Potential Payments upon Termination or Change-in-Control Employment Agreements in the United States* beginning on page 51.

Benefits upon termination of employment for our named executive officer located in the United Kingdom are governed by employment contract, applicable law and customary practices for the specific market area, including statutory redundancy pay. Our named executive officer in the United Kingdom is eligible for at least six months' written notice prior to termination of employment by the Company, but otherwise is not eligible for any post-employment benefits.

No adjustments were made to any plan-based awards that were made to our named executive officers in 2013. For an explanation of the determination of amounts paid and equity awards granted to our named executive officers in respect of awards granted under our 2013 Compensation Plan, see *Our 2013 Executive Compensation Payments - Cash Incentive Compensation Awards and Payments* and *Our 2013 Executive Compensation Payments - Equity Awards* beginning on page 41 and page 43, respectively.

The following table sets forth certain information regarding the number of shares of restricted stock issued under the 2007 Option Plan that vested in 2013, option awards exercised in 2013 and the corresponding amounts realized by the named executive officers.

Option Exercises and Stock Vested 2013

Name	Option Awards		Stock Awards

- (2) The value realized upon the vesting of shares of restricted stock was calculated by multiplying the number of shares vested by the closing market price per share on the date of vesting. These shares are subject to the terms of the related restricted stock agreements.

Potential Payments upon Termination or Change-in-Control***Employment Agreements in the United States***

We have employment agreements with the following named executive officers: Messrs. Shaw, Landers, Seguin and Martin. The employment agreements with these executive officers provide certain benefits upon the termination of employment. Generally, if these executive officers terminate their employment for good reason or we terminate their employment without cause, they are entitled to receive 100% salary continuation for a period of twelve months from the date of termination and payment of any bonus or non-equity incentive plan award that they would have been entitled to receive if their employment was not terminated, pro-rated for the number of days they were employed by us during the relevant period.

Cause is defined in the employment agreements as:

any act of fraud, gross misconduct or harassment that materially and adversely affects us;

any act of dishonesty, deceit or illegality, in any such case, materially and adversely affecting us;

conviction or indictment (if the indictment has a material adverse effect on us) of a felony, or any misdemeanor involving moral turpitude;

the commission of an act involving a violation of material procedures or policies of ours;

Edgar Filing: Monotype Imaging Holdings Inc. - Form DEF 14A

a material and sustained failure to perform the duties and responsibilities assigned or delegated under their respective employment agreement which failure continues for 30 days after written notice;

gross negligence or willful misconduct that materially and adversely affects us; or

a material breach of any of the executive officers' confidentiality or non-compete obligations.

Good reason is defined in the employment agreements as:

a substantial adverse change in the nature or scope of responsibilities, authorities, powers, functions or duties under the respective employment agreement;

Table of Contents

a reduction in annual base salary, except for an across-the-board salary reduction similarly affecting all or substantially all management employees;

a requirement by us that the executive officer be based anywhere other than a specified distance from Woburn, Massachusetts; or

the breach by us of any of our material obligations under the respective employment agreement, after notice and failure to cure such breach within thirty days.

If a named executive officer is terminated based on disability as defined in the executive officer's employment agreement, the executive officer will continue to receive full base salary, less any disability pay or sick pay benefits the executive officer is entitled to under our other benefit policies, employee benefits for a period of up to 12 months and any bonus they would have been entitled to receive under the current executive compensation plan, prorated based on the number of days the executive officer was employed with the Company prior to termination.

Benefits upon termination of employment for our named executive officer in the United Kingdom are governed by employment contract, applicable law and customary practices for the specific market area, including statutory redundancy pay. Our named executive officer in the United Kingdom is eligible for at least six months' written notice prior to termination of employment by the Company, but otherwise is not eligible for any post-employment benefits.

Stock Options and Restricted Stock for Executive Officers

Upon Termination: Stock option grants and restricted stock awards currently held by a named executive officer that have been granted under our 2004 Option Plan or 2007 Option Plan do not accelerate upon termination of the named executive officers' employment by us.

Upon a Change of Control:

2004 Option Plan. In the event of a merger, sale or dissolution, or a similar sale event, unless assumed or substituted by the successor entity, all stock options granted to our named executive officers under the 2004 Option Plan terminate upon the effective time of the sale event following an exercise period. Restricted stock is treated as provided in the relevant award agreement. As of the date of this Proxy Statement, all options granted under the 2004 Option Plan are fully vested, and no additional awards will be made under the 2004 Option Plan.

2007 Option Plan. In the event of a merger, sale or dissolution, or a similar sale event, unless assumed or substituted by the successor entity, all stock options granted to a named executive officer under the 2007 Option Plan automatically become fully exercisable, all other awards granted under the 2007 Option Plan become fully vested and non-forfeitable and awards with conditions and restrictions relating to the attainment of performance goals may become vested and non-forfeitable in the administrator's discretion. In addition, upon the effective time of any sale event the 2007 Option Plan and all awards will terminate unless the parties to the transaction, in their discretion, provide for appropriate substitutions or assumptions of outstanding awards. Any award assumed, continued or substituted vests and becomes exercisable in full on the date on which the named executive officer's employment or service relationship with us terminates if such termination occurs (i) within 18 months after such sale event, and (ii) the termination is by us or a successor entity without cause or by the executive officer for good reason.

Under both the 2004 Option Plan and 2007 Option Plan, cause means the commission of any act by a grantee constituting financial dishonesty against us (which act would be chargeable as a crime under applicable law), any other act of dishonesty, fraud, intentional misrepresentation, moral turpitude, illegality or harassment which, as determined in good faith by our board of directors,

Table of Contents

would adversely affect us, the repeated failure to follow the directives of our chief executive officer or our board of directors or any material misconduct, violation of our policies or willful and deliberate non-performance of duty. Under the 2004 Option Plan and the 2007 Option Plan, good reason means a substantial adverse change in the nature or scope of the employee's responsibilities, authorities, powers, functions or duties, a reduction in the employee's annual base salary except for across-the-board salary reductions similarly affecting all or substantially all management employees or the relocation of our offices at which the employee is principally employed to a location more than 75 miles from such offices. These definitions are, however, modified by any definition of cause or good reason contained in an executive officer's employment agreement.

Payments upon a Triggering Event

The following table provides information regarding the amounts payable under employment agreements and the plans described above if a termination is: by us without cause or by the executive officer for good reason, and the termination occurred on December 31, 2013.

- (4) Assumes the Company met 100% of our financial targets for 2013 for the Company performance component and that the named executive officer earned his target amount for the personal component under the 2013 Compensation Plan. The total target incentive compensation varied by position of the named executive officer and is a percentage of base salary which for 2013 was 100%, 50%, 55%, 50% & 40%, respectively.
- (5) All compensation for Mr. McCallum was converted from pound sterling to United States dollars using a conversion rate of 1.6563.
- (6) The table below further describes the equity incentive plan amounts payable under the plans upon a change-in-control where the options are assumed or continued and the executive officer's employment is terminated by us without cause or by the executive officer for good reason within 12 months of the change-in-control:

- (A) All shares under the 2004 Option Plan are fully vested. For shares issued under the 2007 Option Plan, this number represents 100% vesting of shares or options to purchase our Common Stock that were unvested as of December 31, 2013.
- (B) The value of shares or options not vested has been calculated by taking the difference of the option exercise price listed in the table entitled *Outstanding Equity Awards at Fiscal Year-End 2013* on page 50 and the closing price of a share of our Common Stock on the NASDAQ Global Select Market on December 31, 2013, or \$31.86, multiplied by the number of shares or options to purchase our Common Stock vesting upon the change-in-control.

In the United States, payment of all amounts following the termination of a named executive officer and continuation of any health care benefits is subject to continuing obligations of the named executive officer to cooperate with us to enforce our intellectual property rights, comply with a one-year non-competition agreement, comply with a one-year non-solicitation and non-hire agreement and execute a general release in a form reasonably satisfactory to us. We have the right to cancel the termination benefits if the named executive officer fails to materially comply with any of these provisions or the confidentiality provisions of the executive officer's employment agreement. Finally, upon the death of a United States named executive officer, the executive officer's estate is entitled to any benefits that may be due under any life insurance policy of ours maintained similarly for all employees.

In the United Kingdom, payment of all amounts following the termination of a named executive officer are governed by employment contract, applicable law and customary practices for the specific market area, and are not subject to any on-going confidentiality and non-solicitation obligations on the part of the named executive officer.

PROPOSAL THREE

APPROVAL OF OUR SECOND AMENDED AND RESTATED

2007 STOCK OPTION AND INCENTIVE PLAN

Our board of directors believes that stock options and other stock-based incentive awards can play an important role in the success of the Company by encouraging and enabling the employees, officers, non-employee directors and other key persons of the Company and its subsidiaries upon whose judgment, initiative and efforts the Company largely depends for the successful conduct of its business, to acquire a proprietary interest in the Company. The Board of Directors anticipates that providing such persons with a direct stake in the Company will assure a closer alignment of the interests of such individuals with those of the Company and its stockholders, thereby stimulating their efforts on the Company's behalf and strengthening their desire to remain with the Company.

On March 26, 2014, the board of directors approved the Second Amendment and Restatement of the Company's 2007 Stock Option and Incentive Plan (the Second Amended and Restated 2007 Plan), subject to stockholder approval, to increase the aggregate number of shares authorized for issuance under the Second Amended and Restated 2007 Plan by 3,000,000 shares to 9,383,560 shares of Common Stock. Adding additional shares to the Second Amended and Restated 2007 Plan is designed to enhance the flexibility of our management development and compensation committee in granting stock options and other awards to our officers, employees, non-employee directors and other key persons and to ensure that the Company can continue to grant stock options and other awards to such persons at levels determined to be appropriate by the management development and compensation committee. A copy of the Second Amended and Restated 2007 Plan is attached as Appendix 1 to this Proxy Statement and is incorporated herein by reference.

As of our Record Date, March 20, 2014, for all existing equity plans, the total number of securities to be issued upon exercise of outstanding options was 2,690,979, the weighted-average exercise price of outstanding options on such date was \$14.70, the weighted average term was 1.8 years, the number of securities remaining available for future issuance under equity compensation plans (excluding securities to be issued upon exercise of outstanding options) on such date was 1,090,427 and full value awards outstanding were 974,138, including 819,806 unvested full value awards with time based vesting (of which 5,700 are deferred unvested full value awards), and 154,332 deferred unvested full value awards with performance-based vesting.

Our proposed Second Amended and Restated 2007 Plan is a Company-wide equity award plan that contains many terms protective of our stockholders, including a re-pricing prohibition, restrictions on the return of repurchased shares to the plan, and a limitation on the issuance of unrestricted stock awards to 10% of the plan shares.

Vote Required and Recommendation

Only holders of record of the Company's Common Stock as of the close of business on the Record Date are entitled to vote on Proposal Three. The adoption of the Second Amended and Restated 2007 Plan requires the affirmative vote of the holders of a majority of the shares of the Company's Common Stock voted. **Proxies will be voted FOR this Proposal Three unless contrary instructions are set forth on the enclosed proxy card.** Abstentions or instructions on a proxy to withhold a vote will have no effect on the adoption of the Second Amended and Restated 2007 Plan. Please note that your broker or other nominee may vote your shares in its discretion only on routine matters. The Company believes that the adoption of the Second Amended and Restated 2007 Plan is not a routine matter. If your shares of the Company's Common Stock are held for you by a broker or other nominee (i.e., in street name), and you do not give specific voting instructions, your shares will not be voted on Proposal Three.

*The Board of Directors recommends that stockholders vote FOR the adoption of
the Second Amended and Restated 2007 Plan.*

Based solely on the closing price of our Common Stock as reported by the NASDAQ Global Select Market on March 26, 2014, the maximum aggregate market value of the 3,000,000 shares of Common Stock subject to the proposed increase described herein that could potentially be issued under the Second Amended and Restated 2007 Plan is \$89,640,000. The shares we issue under the Second Amended and Restated 2007 Plan will be authorized but unissued shares or shares that we reacquire. The shares of Common Stock underlying any awards that are forfeited, canceled or otherwise terminated, other than by exercise, (including any awards granted pursuant to the Company's 2004 Stock Option and Incentive Plan) are added back to the shares of stock available for issuance under the Second Amended and Restated 2007 Plan. Further, shares tendered or held back upon exercise of a stock option or settlement of an award under the Second Amended and Restated 2007 Plan to cover the exercise price or tax withholding, and shares subject to a stock appreciation right that are not issued in connection with the stock settlement of the stock appreciation right upon exercise thereof are not added back to the shares of stock available for issuance under the Second Amended and Restated 2007 Plan.

Qualified Performance-Based Compensation under Code Section 162(m)

To ensure that certain awards granted under the Second Amended and Restated 2007 Plan to a Covered Employee (as defined in the Internal Revenue Code of 1986 (the Code)) qualify as performance-based compensation under Section 162(m) of the Code, the Second Amended and Restated 2007 Plan provides that the management development and compensation committee may require that the vesting of such awards be conditioned on the satisfaction of performance criteria that may

Table of Contents

include any or all of the following: (1) earnings before interest, taxes, depreciation and amortization, (2) net income (loss) (either before or after interest, taxes, depreciation and/or amortization), (3) changes in the market price of Common Stock, (4) economic value-added, (5) funds from operations or similar measure, (6) sales or revenue, (7) acquisitions or strategic transactions, (8) operating income (loss), (9) cash flow (including, but not limited to, operating cash flow and free cash flow), (10) return on capital, assets, equity, or investment, (11) stockholder returns, (12) return on sales, (13) gross or net profit levels, (14) productivity, (15) expense, (16) margins, (17) operating efficiency, (18) customer satisfaction, (19) working capital, (20) earnings (loss) per share of Common Stock, (21) sales or market shares, and (22) number of customers, any of which may be measured either in absolute terms or as compared to any incremental increase or as compared to results of a peer group. The management development and compensation committee will select the particular performance criteria within 90 days following the commencement of a performance cycle. Subject to adjustments for stock splits and similar events, the maximum award granted to any one individual that is intended to qualify as performance-based compensation under Section 162(m) of the Code will not exceed 600,000 shares of Common Stock for any performance cycle and options or stock appreciation rights with respect to no more than 1,000,000 shares of Common Stock may be granted to any one individual during any calendar year period. If a performance-based award is payable in cash, it cannot exceed \$7,000,000 for any performance cycle.

Rationale for Share Increase

The Second Amended and Restated 2007 Plan is critical to our ongoing effort to build stockholder value. Our equity incentive program is broad-based and equity incentive awards are also an important component of our executive officer and non-executive employees' compensation. Our management development and compensation committee believes we must continue to offer a competitive equity compensation program in order to attract, retain and motivate the talented and qualified employees necessary for our continued growth and success.

We manage our long-term stockholder dilution by limiting the number of equity incentive awards granted annually. The management development and compensation committee carefully monitors our annual net burn rate, total dilution, and equity expense in order to maximize stockholder value by granting only the appropriate number of equity incentive awards that it believes are necessary to attract, reward, and retain employees. Our commitment to a carefully managed equity incentive program is demonstrated by the following facts:

Our historical three-year average burn rate, using ISS's calculation methodology, is 2.87%, which is well below the 7.26% cap that ISS applies to companies in our Global Industry Classification Standard, or GICS industry group.

Our compensation philosophy reflects broad-based eligibility for equity incentive awards, and we grant awards to substantially all of our employees. By doing so, we link employee interests with stockholder interests throughout the organization and motivate our employees to act as owners of the business.

Table of Contents

Burn Rate. The following table sets forth information regarding historical awards granted and earned for the 2011 through 2013 period, and the corresponding burn rate, which is defined as the number of shares subject to stock awards granted in a year divided by the weighted average common shares outstanding for that year, for each of the last three fiscal years:

	2013	2012	2011
Stock Options Granted	497,580	527,793	597,241
Time-Based Full-Value Awards Granted	276,279	294,948	186,379
Adjusted Full-Value Awards Granted (1)	552,558	589,896	372,758
Total Awards Granted (2)	1,050,138	1,117,689	969,999
Weighted average common shares outstanding during the fiscal year	37,833,817	36,311,835	35,357,630
Annual Burn Rate	2.78%	3.08%	2.74%
Three-Year Average Burn Rate (3)		2.87%	

- (1) In accordance with corporate governance policy updates published by ISS, Adjusted Full-Value Awards Granted represents the sum of Time-Based Full-Value Awards Granted, subject to a multiplier to be determined by ISS based on our recent historic stock price volatility. Based on our recent historical stock price volatility, we have utilized a full-value award multiplier of 2.0 for purposes of calculating the 2011-2013 average burn rate.
- (2) Total Awards Granted represents the sum of Stock Options Granted and Adjusted Full-Value Awards Granted.
- (3) As illustrated in the table above, our three-year average burn rate for the 2011-2013 period was 2.87%, which is below the ISS industry category burn rate threshold of 7.26%.

If our request to increase the share reserve of the Second Amended and Restated 2007 Plan by an additional 3,000,000 shares is approved by stockholders, we will have approximately 3,717,890 shares available for grant after the Annual Meeting, which is based on 717,890 shares available for grant under the Amended and Restated 2007 Plan on March 20, 2014 and the 3,000,000 shares subject to this proposal. Our management development and compensation committee determined the size of the requested share increase based on projected equity awards to anticipated new hires, projected annual equity awards to existing employees, and an assessment of the magnitude of increase that our institutional investors and the firms that advise them would likely find acceptable. We anticipate that if our request to increase the share reserve is approved by stockholders, it will be sufficient to provide equity incentives to attract, retain, and motivate employees through the next forty-eight months.

On December 7, 2010 the Company's management development and compensation committee approved the 2010 Inducement Stock Plan (2010 Inducement Plan). The Company is permitted to issue equity awards to individuals in certain circumstances in accordance with Marketplace Rule 5635(c)(4) of the NASDAQ Stock Market, Inc., without prior shareholder approval. The Company established the 2010 Inducement Plan for such purpose. The 2010 Inducement Plan permits the Company to make grants of non-qualified stock options, stock appreciation rights, deferred stock awards, restricted stock awards and unrestricted stock awards to induce highly qualified prospective officers and employees, who are not employed by the Company and its subsidiaries, on the date of grant to accept employment and to provide them with a proprietary interest in the Company. The Company reserved 700,000 shares of Common Stock for issuance of awards under the plan, of which options to acquire 227,490 shares of common stock and 104,888 shares of restricted stock have been issued in connection with the acquisition of Bitstream, Inc., Ascender Corporation and Design By Front Limited. Shares of stock underlying any award that is forfeited, canceled, held back upon the exercise of an option, settlement of tax withholding or otherwise terminated shall be added back to the shares of stock available for issuance under the 2010 Inducement Plan. Stock options granted under the 2010 Inducement Plan has a maximum term of ten years from the date of grant and generally vest over four years. Option awards granted under the 2010 Inducement Plan must have an exercise price of no less than the fair market value of our Common Stock.

Summary of the Second Amended and Restated 2007 Plan

The following description of certain features of the Second Amended and Restated 2007 Plan is intended to be a summary only. The summary is qualified in its entirety by the full text of the Second Amended and Restated 2007 Plan that is attached hereto as Appendix 1.

Plan Administration. The Second Amended and Restated 2007 Plan is administered by the management development and compensation committee. The management development and compensation committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the Second Amended and Restated 2007 Plan. The management development and compensation committee may delegate to our chief executive officer the authority to grant stock options to employees who are not subject to the reporting and other provisions of Section 16 of the Exchange Act and not subject to Section 162(m) of the Code, subject to certain limitations and guidelines.

Eligibility. Persons eligible to participate in the Second Amended and Restated 2007 Plan will be those full or part-time officers, employees, non-employee directors and other key persons (including consultants and prospective officers) of the Company and its subsidiaries as selected from time to time by the management development and compensation committee in its discretion. Approximately 364 individuals are currently eligible to participate in the Second Amended and Restated 2007 Plan, which includes 18 officers, 339 employees who are not officers, and 7 non-employee directors.

Plan Limits. The maximum award of stock options or stock appreciation rights granted to any one individual will not exceed 1,000,000 shares of Common Stock (subject to adjustment for stock splits and similar events) for any calendar year period. If any award of restricted stock, restricted stock units or performance shares granted to an individual is intended to qualify as performance-based compensation under Section 162(m) of the Code, then the maximum award shall not exceed 600,000 shares of Common Stock (subject to adjustment for stock splits and similar events) to any one such individual in any performance cycle. If any cash-based award is intended to qualify as performance-based compensation under Section 162(m) of the Code, then the maximum award to be paid in cash in any performance cycle may not exceed \$7,000,000. In addition, no more than the number of shares reserved and available for issuance under the Plan will be issued in the form of incentive stock options.

Table of Contents

Stock Options. The Second Amended and Restated 2007 Plan permits the granting of (1) options to purchase Common Stock intended to qualify as incentive stock options under Section 422 of the Code, and (2) options that do not so qualify. Options granted under the Second Amended and Restated 2007 Plan will be non-qualified options if they fail to qualify as incentive options or exceed the annual limit on incentive stock options. Incentive stock options may only be granted to employees of the Company and its subsidiaries. Non-qualified options may be granted to any persons eligible to receive incentive options and to non-employee directors and key persons. The option exercise price of each option will be determined by the management development and compensation committee but may not be less than 100% of the fair market value of the Common Stock on the date of grant. Fair market value for this purpose will be the last reported sale price of the shares of Common Stock on the NASDAQ Global Select Market on the date of grant. The exercise price of an option may be reduced after the date of the option grant.

The term of each option will be fixed by the management development and compensation committee and may not exceed ten years from the date of grant. The management development and compensation committee will determine at what time or times each option may be exercised. Options may be made exercisable in installments and the exercisability of options may be accelerated by the management development and compensation committee. In general, unless otherwise permitted by the management development and compensation committee, no option granted under the Second Amended and Restated 2007 Plan is transferable by the optionee other than by will or by the laws of descent and distribution, and options may be exercised during the optionee's lifetime only by the optionee, or by the optionee's legal representative or guardian in the case of the optionee's incapacity.

Upon exercise of options, the option exercise price must be paid in full either in cash, by certified or bank check or other instrument acceptable to the management development and compensation committee or by delivery (or attestation to the ownership) of shares of Common Stock that are beneficially owned by the optionee for at least six months or were purchased in the open market. Subject to applicable law, the exercise price may also be delivered to the Company by a broker pursuant to irrevocable instructions to the broker from the optionee. In addition, the management development and compensation committee may permit non-qualified options to be exercised using a net exercise feature which reduces the number of shares issued to the optionee by the number of shares with a fair market value equal to the exercise price.

To qualify as incentive options, options must meet additional federal tax requirements, including a \$100,000 limit on the value of shares subject to incentive options that first become exercisable by a participant in any one calendar year.

Stock Appreciation Rights. The management development and compensation committee may award stock appreciation rights subject to such conditions and restrictions as the management development and compensation committee may determine. Stock appreciation rights entitle the recipient to shares of Common Stock equal to the value of the appreciation in the stock price over the exercise price. The exercise price is the fair market value of the Common Stock on the date of grant.

Restricted Stock. The management development and compensation committee may award shares of Common Stock to participants subject to such conditions and restrictions as the management development and compensation committee may determine. These conditions and restrictions may include the achievement of certain performance goals (as summarized above) and/or continued employment with us through a specified restricted period.

Deferred Stock Awards. The management development and compensation committee may grant deferred stock awards to any participants. Deferred stock awards are awards of phantom stock units that are ultimately payable in the form of shares of Common Stock and may be subject to such conditions and restrictions as the management development and compensation committee may determine. These

Table of Contents

conditions and restrictions may include the achievement of certain performance goals (as summarized above) and/or continued employment with the Company through a specified vesting period. In the management development and compensation committee's sole discretion, it may permit a participant to make an advance election to receive a portion of his or her future cash compensation otherwise due in the form of a deferred stock award, subject to the participant's compliance with the procedures established by the management development and compensation committee and requirements of Section 409A of the Code. During the deferral period, the deferred stock awards may be credited with dividend equivalent rights.

Unrestricted Stock Awards. The management development and compensation committee may also grant shares of Common Stock which are free from any restrictions under the Second Amended and Restated 2007 Plan. Unrestricted stock may be granted to any participant in recognition of past services or other valid consideration and may be issued in lieu of cash compensation due to such participant.

Cash-Based Awards. The management development and compensation committee may grant cash bonuses under the Second Amended and Restated 2007 Plan to participants. The cash bonuses may be subject to the achievement of certain performance goals (as summarized above).

Dividend Equivalent Rights. The management development and compensation committee may grant dividend equivalent rights to participants which entitle the recipient to receive credits for dividends that would be paid if the recipient had held specified shares of Common Stock. Dividend equivalent rights may be granted as a component of another award (other than a stock option or stock appreciation right) or as a freestanding award. Dividend equivalent rights may be settled in cash, shares of Common Stock or a combination thereof, in a single installment or installments, as specified in the award.

Sale Event Provisions. The Second Amended and Restated 2007 Plan provides that upon the effectiveness of a sale event as defined in the Second Amended and Restated 2007 Plan, except as otherwise provided by the management development and compensation committee in an award agreement, all awards under the Second Amended and Restated 2007 Plan will automatically terminate, unless the parties to the sale event agree that such awards will be assumed or continued by the successor entity. In the event of such termination, all options and stock appreciation rights will become fully exercisable as of the effective time of the sale event and all other awards will become fully vested and non-forfeitable as of the effective time of the sale event, except as the management development and compensation committee may otherwise specify with respect to particular awards, and any awards with conditions and restrictions relating to the attainment of performance goals may become vested and non-forfeitable in connection with a sale event in the management development and compensation committee's discretion. In the event of such termination, participants holding options and stock appreciation rights will be permitted to exercise such options and stock appreciation rights prior to the sale event. In addition, in the case of a sale event in which the Company's stockholders will receive cash consideration, the Company may make or provide for a cash payment to participants holding options and stock appreciation rights equal to the difference between the per share cash consideration and the exercise price of the options or stock appreciation rights. In the event that awards under the Second Amended and Restated 2007 Plan are assumed or continued by the successor entity to the sale event, then a grantee's award will be fully vested and exercisable if such successor entity terminates the grantee's employment without cause (as defined in the Second Amended and Restated 2007 Plan) or if the grantee terminates his or her employment for good reason (as defined in the Second Amended and Restated 2007 Plan), in each case within 18 months after such sale event.

Adjustments for Stock Dividends, Stock Splits, Etc. The Second Amended and Restated 2007 Plan requires the management development and compensation committee to make appropriate adjustments to the number of shares of Common Stock that are subject to the Second Amended and Restated 2007 Plan, to certain limits in the Second Amended and Restated 2007 Plan, and to any outstanding awards to reflect stock dividends, stock splits, extraordinary cash dividends and similar events.

Tax Withholding. Participants in the Second Amended and Restated 2007 Plan are responsible for the payment of any federal, state or local taxes that the Company is required by law to withhold upon the exercise of options or stock appreciation rights or vesting of other awards. Subject to approval by the management development and compensation committee, participants may elect to have the minimum tax withholding obligations satisfied by authorizing the Company to withhold shares of Common Stock to be issued pursuant to the exercise or vesting.

Amendments and Termination. The board of directors may at any time amend or discontinue the Second Amended and Restated 2007 Plan and the management development and compensation committee may at any time amend or cancel any outstanding award for the purpose of satisfying changes in the law or for any other lawful purpose. However, no such action may adversely affect any rights under any outstanding award without the holder's consent. To the extent required under the rules of the NASDAQ, any amendments that materially change the terms of the Second Amended and Restated 2007 Plan will be subject to approval by our stockholders. Amendments shall also be subject to approval by our stockholders if and to the extent determined by the management development and compensation committee to be required by the Code to preserve the qualified status of incentive options or to ensure that compensation earned under the Second Amended and Restated 2007 Plan qualifies as performance-based compensation under Section 162(m) of the Code.

Effective Date of Second Amended and Restated 2007 Plan. The board adopted our 2007 Stock Option and Incentive Plan on March 15, 2007 and it was subsequently approved by our stockholders and became effective on May 10, 2007. The board adopted our existing Amended and Restated 2007 Stock Option and Incentive Plan (our 2007 Option Plan) on March 30, 2011 and it was subsequently approved by our stockholders and became effective on May 13, 2011. The board adopted our Second Amended and Restated 2007 Plan on March 26, 2014 and it will be effective upon approval by our stockholders. Awards of incentive options may be granted under the Second Amended and Restated 2007 Plan until the date that is ten years from the date of board approval of the Second Amended and Restated 2007 Plan, or March 26, 2024. No other awards may be granted under the Second Amended and Restated 2007 Plan after the date that is 10 years from the date of stockholder approval. If the Second Amended and Restated 2007 Plan is not approved by stockholders, our existing 2007 Option Plan will continue in effect until it expires, and awards may be granted thereunder, in accordance with its terms.

Table of Contents**Plan Benefits**

Because the grant of awards under the Second Amended and Restated 2007 Plan is within the discretion of the management development and compensation committee, the Company cannot determine the dollar value or number of shares of Common Stock that will in the future be received by or allocated to any participant in the Second Amended and Restated 2007 Plan. Accordingly, in lieu of providing information regarding benefits that will be received under the Second Amended and Restated 2007 Plan, the following table provides information concerning the benefits that were received by the following persons and groups during 2013: each named executive officer; all current executive officers, as a group; all current directors who are not executive officers, as a group; and all employees who are not executive officers, as a group.

Tax Aspects under the Code

The following is a summary of the principal federal income tax consequences of certain transactions under the Second Amended and Restated 2007 Plan. It does not describe all federal tax consequences under the Second Amended and Restated 2007 Plan, nor does it describe state or local tax consequences.

The advice set forth below was not intended or written to be used, and it cannot be used, by any taxpayer for the purpose of avoiding United States federal tax penalties that may be imposed on the taxpayer. The advice was written to support the promotion or marketing of the transaction(s) or matter(s) addressed herein. Each taxpayer should seek advice based upon the taxpayer's particular circumstances from an independent tax advisor. The foregoing language is intended to satisfy the requirements under the regulations in Section 10.35 of Circular 230.

Incentive Options. No taxable income is generally realized by the optionee upon the grant or exercise of an incentive option. If shares of Common Stock issued to an optionee pursuant to the exercise of an incentive option are sold or transferred after two years from the date of grant and after one year from the date of exercise, then (i) upon sale of such shares, any amount realized in excess of the option price (the

Table of Contents

amount paid for the shares) will be taxed to the optionee as a long-term capital gain, and any loss sustained will be a long-term capital loss, and (ii) the Company will not be entitled to any deduction for federal income tax purposes. The exercise of an incentive option will give rise to an item of tax preference that may result in alternative minimum tax liability for the optionee.

If shares of Common Stock acquired upon the exercise of an incentive option are disposed of prior to the expiration of the two-year and one-year holding periods described above (a disqualifying disposition), generally (i) the optionee will realize ordinary income in the year of disposition in an amount equal to the excess (if any) of the fair market value of the shares of Common Stock at exercise (or, if less, the amount realized on a sale of such shares of Common Stock) over the option price thereof, and (ii) we will be entitled to deduct such amount. Special rules apply where all or a portion of the exercise price of the incentive option is paid by tendering shares of Common Stock.

If an incentive option is exercised at a time when it no longer qualifies for the tax treatment described above, the option is treated as a non-qualified option. Generally, an incentive option will not be eligible for the tax treatment described above if it is exercised more than three months following termination of employment (or one year in the case of termination of employment by reason of disability). In the case of termination of employment by reason of death, the three-month rule does not apply.

Non-Qualified Options. No income is realized by the optionee at the time the option is granted. Generally (i) at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares of Common Stock on the date of exercise, and we receive a tax deduction for the same amount, and (ii) at disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on how long the shares of Common Stock have been held. Special rules apply where all or a portion of the exercise price of the non-qualified option is paid by tendering shares of Common Stock. Upon exercise, the optionee will also be subject to Social Security taxes on the excess of the fair market value over the exercise price of the option.

Other Awards. The Company generally will be entitled to a tax deduction in connection with an award under the Second Amended and Restated 2007 Plan in an amount equal to the ordinary income realized by the participant at the time the participant recognizes such income. Participants typically are subject to income tax and recognize such tax at the time that an award is exercised, vests or becomes non-forfeitable, unless the award provides for a further deferral.

Parachute Payments. The vesting of any portion of an option or other award that is accelerated due to the occurrence of a change in control (such as a sale event) may cause a portion of the payments with respect to such accelerated awards to be treated as parachute payments as defined in the Code. Any such parachute payments may be non-deductible to the Company, in whole or in part, and may subject the recipient to a non-deductible 20% federal excise tax on all or a portion of such payment (in addition to other taxes ordinarily payable).

Limitation on Deductions. Under Section 162(m) of the Code, the Company's deduction for certain awards under the Second Amended and Restated 2007 Plan may be limited to the extent that the chief executive officer or other executive officer whose compensation is required to be reported in the summary compensation table (other than the principal financial officer) receives compensation in excess of \$1 million a year (other than performance-based compensation that otherwise meets the requirements of Section 162(m) of the Code). The Second Amended and Restated 2007 Plan is structured to allow certain awards to qualify as performance-based compensation.

PROPOSAL FOUR

RATIFICATION OF THE APPOINTMENT OF OUR

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The audit committee of the board of directors has appointed Ernst & Young LLP (Ernst & Young) as the independent registered public accounting firm of the Company to examine the financial statements of the Company and its subsidiaries for the year ending December 31, 2014. During the first quarter of 2014, Ernst & Young examined the financial statements of the Company and its subsidiaries, including those included in our Annual Report on Form 10-K for the year ended December 31, 2013. The favorable vote of the holders of a majority of the shares of Common Stock represented in person or by proxy at the Annual Meeting will be required for such ratification.

Although stockholder approval of this appointment is not required by law or binding on the audit committee, the audit committee believes that stockholders should be given the opportunity to express their views. If the stockholders do not ratify the appointment of Ernst & Young as the Company's independent registered public accounting firm, the audit committee will consider this vote in determining whether or not to continue the engagement of Ernst & Young.

It is expected that representatives of Ernst & Young will attend the Annual Meeting, with the opportunity to make a statement if they so desire, and will be available to answer appropriate questions.

Vote Required and Recommendation

Only holders of record of the Company's Common Stock as of the close of business on the Record Date are entitled to vote on this Proposal Four. **Proxies will be voted FOR this Proposal Four unless contrary instructions are set forth on the enclosed proxy card.** The appointment of Ernst & Young will be ratified if the votes cast in favor of ratification exceed the number of votes cast against ratification. Abstentions or instructions on a proxy to withhold authority to vote on this Proposal Four will have no effect on this Proposal Four.

Please note that your broker may vote your shares in its discretion only on routine matters. The Company believes that the ratification of the appointment of our independent auditors is a routine matter on which brokers or other nominees will be permitted to vote on behalf of their clients if no voting instructions are provided by the clients. If your shares of the Company's Common Stock are held for you by a broker or other nominee (i.e., in street name) and you do not give specific voting instructions on this Proposal Four, your broker or other nominee may vote your shares in their discretion.

The Board of Directors recommends that stockholders vote FOR the ratification of the appointment of Ernst & Young.

AUDIT COMMITTEE REPORT

The audit committee has reviewed and discussed with management and representatives of Ernst & Young, the Company's independent registered public accounting firm, the Company's consolidated financial statements for the year ended December 31, 2013. The audit committee reviewed management's report on its assessment of the effectiveness of the Company's internal control over financial reporting and the independent registered public accounting firm's report on the effectiveness of the Company's internal control over financial reporting as of December 31, 2013. The audit committee meets with representatives of the independent registered public accounting firm, with and without management present, to discuss the results of their examinations; their evaluations of the Company's internal control, including internal control over financial reporting; and the overall quality of the Company's financial reporting.

Table of Contents

The audit committee also reviewed with Ernst & Young the results of their audit and discussed matters required to be discussed pursuant to Auditing Standard No. 16, *Communications with Audit Committee*, as amended and adopted by the Public Company Accounting Oversight Board, which provides that certain matters related to the conduct of the audit of the Company's financial statements are to be communicated to the audit committee. In addition, the audit committee has received from Ernst & Young the written disclosures and the letter required by the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence, has discussed with Ernst & Young their independence from management and the Company and has considered and discussed the compatibility of non-audit services provided by Ernst & Young for the Company with that firm's independence.

Based on these reviews and discussions, the audit committee recommended to the board of directors, and the board of directors has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2013 for filing with the SEC.

The audit committee has considered and determined that the provision of the non-audit services described is compatible with maintaining the independence of our registered public accounting firm.

All audit other services provided by our independent registered public accounting firm to the Company in 2012 and 2013 were approved by means of specific pre-approvals by the audit committee.

Information Regarding Approval of Non-Audit Services

The audit committee oversees the Company's accounting and financial reporting processes on behalf of the board of directors, and operates under a written charter adopted by the board of directors, a copy of which can be found on the Company's website located at www.monotype.com. The audit committee pre-approves all auditing services and the terms of non-audit services, but only to the extent that the non-audit services are not prohibited under applicable law and the committee determines that the non-audit services do not impair the independence of the independent registered public accounting firm. In situations where it is impractical to wait until the next regularly scheduled quarterly meeting, the chairman of the audit committee has been delegated authority to approve audit and non-audit services. Fees payable to our independent registered public accounting firm for any specific, individual service approved by the chairman may not exceed \$25,000, plus reasonable and customary out-of-pocket expenses, and the chairman is required to report any approvals to the full committee at its next scheduled meeting.

The pre-approval requirement is waived with respect to the provision of non-audit services by the independent registered public accounting firm if: (1) the aggregate amount of all such non-audit services provided to us constitutes not more than five percent of the total fees paid by us to our independent registered public accounting firm during the year in which such non-audit services were provided, (2) such services were not recognized at the time of the engagement to be non-audit services, and (3) such services are promptly brought to the attention of the audit committee and approved by the audit committee or by one or more of its members to whom authority to grant such approvals has been delegated by the committee prior to the completion of the independent registered public accounting firm's audit.

SECTION 2. ADMINISTRATION OF PLAN: COMMITTEE AUTHORITY TO SELECT GRANTEES AND DETERMINE AWARDS

(a) Committee. The Plan shall be administered by the Committee.

(b) Powers of Committee. The Committee shall have the power and authority to grant Awards consistent with the terms of the Plan, including the power and authority:

(i) to select the individuals to whom Awards may from time to time be granted;

(ii) to determine the time or times of grant, and the extent, if any, of Incentive Stock Options, Non-Qualified Stock Options, Stock Appreciation Rights, Restricted Stock Awards, Deferred Stock Awards, Unrestricted Stock Awards, Cash-based Awards and Dividend Equivalent Rights, or any combination of the foregoing, granted to any one or more grantees;

(iii) to determine the number of shares of Stock to be covered by any Award;

(iv) to determine and modify from time to time the terms and conditions, including restrictions, not inconsistent with the terms of the Plan, of any Award, which terms and conditions may differ among individual Awards and grantees, and to approve the form of written instruments evidencing the Awards;

(v) to accelerate at any time the exercisability or vesting of all or any portion of any Award provided that the Committee generally shall not exercise such discretion to accelerate Awards subject to Sections 7 and 8 except in the event of the grantee's death, disability or retirement, or a change in control (including a Sale Event);

(vi) subject to the provisions of Section 5(a)(ii), to extend at any time the period in which Stock Options may be exercised; and

(vii) at any time to adopt, alter and repeal such rules, guidelines and practices for administration of the Plan and for its own acts and proceedings as it shall deem advisable; to interpret the terms and provisions of the Plan and any Award (including related written instruments); to make all determinations it deems advisable for the administration of the Plan; to decide all disputes arising in connection with the Plan; and to otherwise supervise the administration of the Plan.

All decisions and interpretations of the Committee shall be binding on all persons, including the Company and Plan grantees.

(c) Delegation of Authority to Grant Options. Subject to applicable law, the Committee, in its discretion, may delegate to the chief executive officer of the Company all or part of the Committee's authority and duties with respect to the granting of Options, to individuals who are (i) not subject to the reporting and other provisions of Section 16 of the Exchange Act, and (ii) not Covered Employees. Any such delegation by the Committee shall include a limitation as to the amount of Options that may be granted during the period of the delegation and shall contain guidelines as to the determination of the exercise price and the vesting criteria. The Committee may revoke or amend the terms of a delegation at any time but such action shall not invalidate any prior actions of the Committee's delegate or delegates that were consistent with the terms of the Plan.

Table of Contents

(d) **Award Agreement.** Awards under the Plan shall be evidenced by Award Agreements that set forth the terms, conditions and limitations for each Award which may include, without limitation, the term of an Award, the provisions applicable in the event employment or service terminates, and the Company's authority to unilaterally or bilaterally amend, modify, suspend, cancel or rescind an Award.

(e) **Indemnification.** Neither the Board nor the Committee, nor any member of either or any delegate thereof, shall be liable for any act, omission, interpretation, construction or determination made in good faith in connection with the Plan, and the members of the Board and the Committee (and any delegate thereof) shall be entitled in all cases to indemnification and reimbursement by the Company in respect of any claim, loss, damage or expense (including, without limitation, reasonable attorneys' fees) arising or resulting therefrom to the fullest extent permitted by law and/or under the Company's articles or bylaws or any directors' and officers' liability insurance coverage which may be in effect from time to time and/or any indemnification agreement between such individual and the Company.

(f) **Foreign Award Recipients.** Notwithstanding any provision of the Plan to the contrary, in order to comply with the laws in other countries in which the Company and its Subsidiaries operate or have employees or other individuals eligible for Awards, the Committee, in its sole discretion, shall have the power and authority to: (i) determine which Subsidiaries shall be covered by the Plan; (ii) determine which individuals outside the United States are eligible to participate in the Plan; (iii) modify the terms and conditions of any Award granted to individuals outside the United States to comply with applicable foreign laws; (iv) establish subplans and modify exercise procedures and other terms and procedures, to the extent the Committee determines such actions to be necessary or advisable (and such subplans and/or modifications shall be attached to this Plan as appendices); provided, however, that no such subplans and/or modifications shall increase the share limitations contained in Section 3(a) hereof; and (v) take any action, before or after an Award is made, that the Committee determines to be necessary or advisable to obtain approval or comply with any local governmental regulatory exemptions or approvals. Notwithstanding the foregoing, the Committee may not take any actions hereunder, and no Awards shall be granted, that would violate the Exchange Act or any other applicable United States securities law, the Code, or any other applicable United States governing statute or law.

SECTION 3. STOCK ISSUABLE UNDER THE PLAN: MERGERS: SUBSTITUTION

(a) **Stock Issuable.**

(i) The maximum number of shares of Stock reserved and available for issuance under the Plan shall be 9,383,560 shares, subject to adjustment as provided in Section 3(b); provided that not more than 9,383,560 shares shall be issued in the form of Incentive Stock Options. For purposes of this limitation, the shares of Stock underlying any Awards (including any awards granted pursuant to the Company's 2004 Stock Option and Grant Plan) that are forfeited, canceled or otherwise terminated (other than by exercise) shall be added back to the shares of Stock available for issuance under the Plan. Notwithstanding the foregoing, the following shares shall not be added to the shares authorized for grant under the Plan: (i) shares tendered or held back upon exercise of an Option or settlement of an Award to cover the exercise price or tax withholding, and (ii) shares subject to a Stock Appreciation Right that are not issued in connection with the stock settlement of the Stock Appreciation Right upon exercise thereof. In the event the Company repurchases shares of Stock on the open market, such shares shall not be added to the shares of Stock available for issuance under the Plan. Subject to such overall limitations, shares of Stock may be issued up to such maximum number pursuant to any type or types of Award; provided, however, that Stock Options or Stock Appreciation Rights with respect to no more than 1,000,000 shares of Stock may be granted to any one individual grantee during any one calendar year period and no more than 10 percent of the total number of shares of Stock authorized for issuance under the Plan may be granted in the form of Unrestricted Stock Awards. The shares available for issuance under the Plan may be authorized but unissued shares of Stock or shares of Stock reacquired by the Company.

Table of Contents

(b) **Changes in Stock.** Subject to Section 3(c) hereof, if, as a result of any reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split or other similar change in the Company's capital stock, the outstanding shares of Stock are increased or decreased or are exchanged for a different number or kind of shares or other securities of the Company, or additional shares or new or different shares or other securities of the Company or other non-cash assets are distributed with respect to such shares of Stock or other securities, or, if, as a result of any merger or consolidation, sale of all or substantially all of the assets of the Company, the outstanding shares of Stock are converted into or exchanged for securities of the Company or any successor entity (or a parent or subsidiary thereof), the Committee shall make an equitable or proportionate adjustment in (i) the maximum number of shares reserved for issuance under the Plan, (ii) the number of Stock Options or Stock Appreciation Rights that can be granted to any one individual grantee and the maximum number of shares that may be granted under a Performance-based Award, (iii) the number and kind of shares or other securities subject to any then outstanding Awards under the Plan, (iv) the repurchase price, if any, per share subject to each outstanding Restricted Stock Award, and (v) the price for each share subject to any then outstanding Stock Options and Stock Appreciation Rights under the Plan, without changing the aggregate exercise price (i.e., the exercise price multiplied by the number of Stock Options and Stock Appreciation Rights) as to which such Stock Options and Stock Appreciation Rights remain exercisable. The Committee shall also make equitable or proportionate adjustments in the number of shares subject to outstanding Awards and the exercise price and the terms of outstanding Awards to take into consideration cash dividends declared and paid other than in the ordinary course or any other extraordinary corporate event to the extent necessary to avoid distortion in the value of Awards. The adjustment by the Committee shall be final, binding and conclusive. No fractional shares of Stock shall be issued under the Plan resulting from any such adjustment, but the Committee in its discretion may make a cash payment in lieu of fractional shares.

No adjustment shall be made under this Section 3(b) in the case of an Option or Stock Appreciation Right, without the consent of the grantee, if it would constitute a modification, extension or renewal of the Option within the meaning of Section 424(h) of the Code or a modification of the Option or Stock Appreciation Right such that the Option or Stock Appreciation Right becomes treated as nonqualified deferred compensation subject to Section 409A.

(c) **Mergers and Other Transactions.** Upon the effective time of the Sale Event, the Plan and all outstanding Awards granted hereunder shall terminate, unless provision is made in connection with the Sale Event in the sole discretion of the parties thereto for the assumption or continuation of Awards theretofore granted by the successor entity, or the substitution of such Awards with new Awards of the successor entity or parent thereof, with appropriate adjustment as to the number and kind of shares and, if appropriate, the per share exercise prices, as such parties shall agree (after taking into account any acceleration hereunder). In the case of and subject to the consummation of a Sale Event pursuant to which all outstanding Awards granted hereunder terminate, all Options and Stock Appreciation Rights that are not exercisable immediately prior to the effective time of such a Sale Event shall become fully exercisable as of the effective time of the Sale Event and all other Awards shall become fully vested and nonforfeitable as of the effective time of the Sale Event, except as the Committee may otherwise specify with respect to particular Awards in the relevant Award documentation, and Awards with conditions and restrictions relating to the attainment of performance goals may become vested and nonforfeitable in connection with a Sale Event in the Committee's discretion. Each grantee shall be permitted, within a specified period of time prior to the consummation of such a Sale Event as determined by the Committee, to exercise all outstanding Options and Stock Appreciation Rights held by such grantee, including those that will become exercisable upon the consummation of the Sale Event; provided, however, that the exercise of Options and Stock Appreciation Rights not exercisable prior to the Sale Event shall be subject to the consummation of the Sale Event. In the event that provision is made in connection with the Sale Event for the assumption or continuation of Awards, or the substitution of such Awards with new Awards of the successor entity or parent thereof, then, except as the Committee may otherwise specify with respect to particular Awards in the relevant Award documentation, any Award so assumed or continued

Table of Contents

or substituted therefor shall be deemed vested and exercisable in full upon the date on which the grantee's employment or service relationship with the Company and its subsidiaries or successor entity, as the case may be, terminates if such termination occurs (i) within 18 months after such Sale Event, and (ii) such termination is by the Company or its Subsidiaries or successor entity without Cause or by the grantee for Good Reason.

Notwithstanding anything to the contrary in this Section 3(c), in the event of a Sale Event pursuant to which holders of the Stock of the Company will receive upon consummation thereof a cash payment for each share surrendered in the Sale Event, the Company shall have the right, but not the obligation, to make or provide for a cash payment to the grantees holding Options and Stock Appreciation Rights, in exchange for the cancellation thereof, in an amount equal to the difference between (A) the Sale Price times the number of shares of Stock subject to outstanding Options and Stock Appreciation Rights (to the extent then exercisable at prices not in excess of the Sale Price), and (B) the aggregate exercise price of all such outstanding Options and Stock Appreciation Rights.

(d) Substitute Awards. The Committee may grant Awards under the Plan in substitution for stock and stock based awards held by employees, directors or other key persons of another corporation in connection with the merger or consolidation of the employing corporation with the Company or a Subsidiary or the acquisition by the Company or a Subsidiary of property or stock of the employing corporation. The Committee may direct that the substitute awards be granted on such terms and conditions as the Committee considers appropriate in the circumstances. Any substitute Awards granted under the Plan shall not count against the share limitation set forth in Section 3(a).

SECTION 4. ELIGIBILITY

Grantees under the Plan will be such full or part-time officers and other employees, Non-Employee Directors and key persons (including consultants and prospective employees) of the Company and its Subsidiaries as are selected from time to time by the Committee in its sole discretion.

SECTION 5. STOCK OPTIONS

Any Stock Option granted under the Plan shall be in such form as the Committee may from time to time approve.

Stock Options granted under the Plan may be either Incentive Stock Options or Non-Qualified Stock Options. Incentive Stock Options may be granted only to employees of the Company or any Subsidiary that is a subsidiary corporation within the meaning of Section 424(f) of the Code. To the extent that any Option does not qualify as an Incentive Stock Option, it shall be deemed a Non-Qualified Stock Option.

(a) Stock Options Granted to Employees and Key Persons. The Committee in its discretion may grant Stock Options to eligible employees and key persons of the Company or any Subsidiary. Stock Options granted pursuant to this Section 5(a) shall be subject to the following terms and conditions and shall contain such additional terms and conditions, not inconsistent with the terms of the Plan, as the Committee shall deem desirable. If the Committee so determines, Stock Options may be granted in lieu of cash compensation at the optionee's election, subject to such terms and conditions as the Committee may establish.

(i) Exercise Price. The exercise price per share for the Stock covered by a Stock Option granted pursuant to this Section 5(a) shall be determined by the Committee at the time of grant but shall not be less than 100 percent of the Fair Market Value on the date of grant. In the case of an Incentive Stock Option that is granted to a Ten Percent Owner, the option price of such Incentive Stock Option shall be not less than 110 percent of the Fair Market Value on the grant date.

Table of Contents

(ii) Option Term. The term of each Stock Option shall be fixed by the Committee, but no Stock Option shall be exercisable more than ten years after the date the Stock Option is granted. In the case of an Incentive Stock Option that is granted to a Ten Percent Owner, the term of such Stock Option shall be no more than five years from the date of grant.

(iii) Exercisability; Rights of a Stockholder. Stock Options shall become exercisable at such time or times, whether or not in installments, as shall be determined by the Committee at or after the grant date. The Committee may at any time accelerate the exercisability of all or any portion of any Stock Option. An optionee shall have the rights of a stockholder only as to shares acquired upon the exercise of a Stock Option and not as to unexercised Stock Options.

(iv) Method of Exercise. Stock Options may be exercised in whole or in part, by giving written notice of exercise to the Company, specifying the number of shares to be purchased and such exercise will be effective upon payment as set forth in this Section 5(a)(iv) or the applicable Award Agreement. Payment of the purchase price may be made by one or more of the following methods to the extent provided in the Option Award Agreement:

(A) In cash, by certified or bank check or other instrument acceptable to the Committee;

(B) Through the delivery (or attestation to the ownership) of shares of Stock that have been purchased by the optionee on the open market or that are beneficially owned by the optionee and are not then subject to restrictions under any Company plan. Such surrendered shares shall be valued at Fair Market Value on the exercise date. To the extent required to avoid variable accounting treatment under ASC 816 or other applicable accounting rules, such surrendered shares shall have been owned by the optionee for at least six months;

(C) By the optionee delivering to the Company a properly executed exercise notice together with irrevocable instructions to a broker to promptly deliver to the Company cash or a check payable and acceptable to the Company for the purchase price; provided that in the event the optionee chooses to pay the purchase price as so provided, the optionee and the broker shall comply with such procedures and enter into such agreements of indemnity and other agreements as the Committee shall prescribe as a condition of such payment procedure; or

(D) With respect to Stock Options that are not Incentive Stock Options, by a net exercise arrangement pursuant to which the Company will reduce the number of shares of Stock issuable upon exercise by the largest whole number of shares with a Fair Market Value that does not exceed the aggregate exercise price.

Payment instruments will be received subject to collection. The transfer to the optionee on the records of the Company or of the transfer agent of the shares of Stock to be purchased pursuant to the exercise of a Stock Option will be contingent upon receipt from the optionee (or a purchaser acting in his stead in accordance with the provisions of the Stock Option) by the Company of the full purchase price for such shares and the fulfillment of any other requirements contained in the Option Award Agreement or applicable provisions of laws (including the satisfaction of any withholding taxes that the Company is obligated to withhold with respect to the optionee). In the event an optionee chooses to pay the purchase price by previously-owned shares of Stock through the attestation method, the number of shares of Stock transferred to the optionee upon the exercise of the Stock Option shall be net of the number of shares attested to. In the event that the Company establishes, for itself or using the services of a third party, an automated system for the exercise of Stock Options, such as a system using an internet website or interactive voice response, then the paperless exercise of Stock Options may be permitted through the use of such an automated system.

(v) Annual Limit on Incentive Stock Options. To the extent required for incentive stock option treatment under Section 422 of the Code, the aggregate Fair Market Value (determined as of the time of grant) of the shares of Stock with respect to which Incentive Stock Options granted under this Plan

Table of Contents

and any other plan of the Company or its parent and subsidiary corporations become exercisable for the first time by an optionee during any calendar year shall not exceed \$100,000. To the extent that any Stock Option exceeds this limit, it shall constitute a Non-Qualified Stock Option.

(b) **Stock Options Granted to Non-Employee Directors.**

(i) The Committee, in its discretion, may grant Non-Qualified Stock Options to Non-Employee Directors. Any such grant may vary among individual Non-Employee Directors and shall be on such terms, including vesting, as the Committee may determine.

(ii) An Option issued under this Section 5(b) shall not be exercisable after the expiration of ten years from the date of grant.

(iii) Options granted under this Section 5(b) may be exercised only by written notice to the Company specifying the number of shares to be purchased. Payment of the full purchase price of the shares to be purchased may be made by one or more of the methods specified in Section 5(a)(iv). An optionee shall have the rights of a stockholder only as to shares acquired upon the exercise of a Stock Option and not as to unexercised Stock Options.

SECTION 6. STOCK APPRECIATION RIGHTS

(a) **Exercise Price of Stock Appreciation Rights.** The exercise price of a Stock Appreciation Right shall not be less than 100 percent of the Fair Market Value of the Stock on the date of grant (or more than the Stock Option exercise price per share, if the Stock Appreciation Right was granted in tandem with a Stock Option).

(b) **Grant and Exercise of Stock Appreciation Rights.** Stock Appreciation Rights may be granted by the Committee in tandem with, or independently of, any Stock Option granted pursuant to Section 5 of the Plan. In the case of a Stock Appreciation Right granted in tandem with a Non-Qualified Stock Option, such Stock Appreciation Right may be granted either at or after the time of the grant of such Option. In the case of a Stock Appreciation Right granted in tandem with an Incentive Stock Option, such Stock Appreciation Right may be granted only at the time of the grant of the Option.

A Stock Appreciation Right or applicable portion thereof granted in tandem with a Stock Option shall terminate and no longer be exercisable upon the termination or exercise of the related Option.

(c) **Terms and Conditions of Stock Appreciation Rights.** Stock Appreciation Rights shall be subject to such terms and conditions as shall be determined from time to time by the Committee, subject to the following:

(i) Stock Appreciation Rights granted in tandem with Options shall be exercisable at such time or times and to the extent that the related Stock Options shall be exercisable.

(ii) Upon exercise of a Stock Appreciation Right, the applicable portion of any related Option shall be surrendered.

(iii) The term of each Stock Appreciation Right share shall be fixed by the Committee, but no Stock Appreciation Right shall have a term that is more than ten years after the date it is granted.

SECTION 7. RESTRICTED STOCK AWARDS

(a) **Nature of Restricted Stock Awards.** The Committee shall determine the restrictions and conditions applicable to each Restricted Stock Award at the time of grant. Conditions may be based on continuing employment (or other service relationship) and/or achievement of pre-established performance goals and objectives. The terms and conditions of each such Award Agreement shall be determined by the Committee, and such terms and conditions may differ among individual Awards and grantees.

Table of Contents

(b) Rights as a Stockholder. Upon execution of the Restricted Stock Award Agreement and payment of any applicable purchase price, a grantee shall have the rights of a stockholder with respect to the voting of the Restricted Stock, subject to such conditions contained in the Restricted Stock Award Agreement. If the lapse of restrictions with respect to the Restricted Stock is tied to the attainment of performance goals, any dividends paid by the Company during the performance period shall accrue and may not be paid to the grantee until and to the extent the performance goals are met. Unless the Committee shall otherwise determine, (i) uncertificated Restricted Stock shall be accompanied by a notation on the records of the Company or the transfer agent to the effect that they are subject to forfeiture until such Restricted Stock is vested as provided in Section 7(d) below, and (ii) certificated Restricted Stock shall remain in the possession of the Company until such Restricted Stock is vested as provided in Section 7(d) below, and the grantee shall be required, as a condition of the grant, to deliver to the Company such instruments of transfer as the Committee may prescribe.

(c) Restrictions. Restricted Stock may not be sold, assigned, transferred, pledged or otherwise encumbered or disposed of except as specifically provided herein or in the Restricted Stock Award Agreement. Except as may otherwise be provided by the Committee either in the Award Agreement or, subject to Section 17 below, in writing after the Award Agreement is issued, if any, if a grantee's employment (or other service relationship) with the Company and its Subsidiaries terminates for any reason, any Restricted Stock that has not vested at the time of termination shall automatically and without any requirement of notice to such grantee from or other action by or on behalf of, the Company be deemed to have been reacquired by the Company at its original purchase price from such grantee or such grantee's legal representative simultaneously with such termination of employment (or other service relationship), and thereafter shall cease to represent any ownership of the Company by the grantee or rights of the grantee as a stockholder. Following such deemed reacquisition of unvested Restricted Stock that are represented by physical certificates, a grantee shall surrender such certificates to the Company upon request without consideration.

(d) Vesting of Restricted Stock. The Committee at the time of grant shall specify the date or dates and/or the attainment of pre-established performance goals, objectives and other conditions on which the non-transferability of the Restricted Stock and the Company's right of repurchase or forfeiture shall lapse. Notwithstanding the foregoing, in the event that any such Restricted Stock granted to employees shall have a performance-based goal, the restriction period with respect to such shares shall not be less than one year, and in the event any such Restricted Stock granted to employees shall have a time-based restriction, the total restriction period with respect to such shares shall not be less than three years; provided, however, that Restricted Stock with a time-based restriction may become vested incrementally over such three-year period. Subsequent to such date or dates and/or the attainment of such pre-established performance goals, objectives and other conditions, the shares on which all restrictions have lapsed shall no longer be Restricted Stock and shall be deemed vested. Except as may otherwise be provided by the Committee either in the Award Agreement or, subject to Section 17 below, in writing after the Award Agreement is issued, a grantee's rights in any shares of Restricted Stock that have not vested shall automatically terminate upon the grantee's termination of employment (or other service relationship) with the Company and its Subsidiaries and such shares shall be subject to the provisions of Section 7(c) above.

SECTION 8. DEFERRED STOCK AWARDS

(a) Nature of Deferred Stock Awards. The Committee shall determine the restrictions and conditions applicable to each Deferred Stock Award at the time of grant. Conditions may be based on continuing employment (or other service relationship) and/or achievement of pre-established performance goals and objectives. The terms and conditions of each such Award Agreement shall be determined by the Committee, and such terms and conditions may differ among individual Awards and grantees. Notwithstanding the foregoing, in the event that any such Deferred Stock Award granted to employees shall have a performance-based goal, the restriction period with respect to such Award shall not be less than one year, and in the event any such Deferred Stock Award granted to employees shall have a time-based restriction, the total restriction period with respect to such Award shall not be less than

Table of Contents

three years; provided, however, that any Deferred Stock Award with a time-based restriction may become vested incrementally over such three-year period. At the end of the deferral period, the Deferred Stock Award, to the extent vested, shall be paid to the grantee in the form of shares of Stock. To the extent that a Deferred Stock Award is subject to Section 409A, it may contain such additional terms and conditions as the Committee shall determine in its sole discretion in order for such Award to comply with the requirements of Section 409A.

(b) Election to Receive Deferred Stock Awards in Lieu of Compensation. The Committee may, in its sole discretion, permit a grantee to elect to receive a portion of future cash compensation otherwise due to such grantee in the form of a Deferred Stock Award. Any such election shall be made in writing and shall be delivered to the Company no later than the date specified by the Committee and in accordance with Section 409A and such other rules and procedures established by the Committee. The Committee shall have the sole right to determine whether and under what circumstances to permit such elections and to impose such limitations and other terms and conditions thereon as the Committee deems appropriate. Any such deferred compensation shall be converted to a fixed number of phantom stock units based on the Fair Market Value of Stock on the date the compensation would otherwise have been paid to the grantee but for the deferral.

(c) Rights as a Stockholder. During the deferral period, a grantee shall have no rights as a stockholder; provided, however, that the grantee may be credited with Dividend Equivalent Rights with respect to the phantom stock units underlying his Deferred Stock Award, subject to such terms and conditions as the Committee may determine.

(d) Termination. Except as may otherwise be provided by the Committee either in the Award Agreement or, subject to Section 17 below, in writing after the Award Agreement is issued, a grantee's right in all Deferred Stock Awards that have not vested shall automatically terminate upon the grantee's termination of employment (or cessation of service relationship) with the Company and its Subsidiaries for any reason.

SECTION 9. UNRESTRICTED STOCK AWARDS

Grant or Sale of Unrestricted Stock. The Committee may, in its sole discretion, grant or sell at such purchase price (which may be zero) as determined by the Committee, an Unrestricted Stock Award under the Plan. Unrestricted Stock Awards may be granted in respect of past services or other valid consideration, or in lieu of cash compensation due to such grantee.

SECTION 10. CASH-BASED AWARDS

(a) Grant of Cash-based Awards. The Committee may, in its sole discretion, grant Cash-based Awards to any grantee in such number or amount and upon such terms, and subject to such conditions, as the Committee shall determine at the time of grant. The Committee shall determine the maximum duration of the Cash-based Award, the amount of cash to which the Cash-based Award pertains, the conditions upon which the Cash-based Award shall become vested or payable, and such other provisions as the Committee shall determine. Each Cash-based Award shall specify a cash-denominated payment amount, formula or payment ranges as determined by the Committee. Payment, if any, with respect to a Cash-based Award shall be made in accordance with the terms of the Award and may be made in cash or in shares of Stock, as the Committee determines.

SECTION 11. PERFORMANCE-BASED AWARDS TO COVERED EMPLOYEES

(a) Performance-based Awards. Any employee or other key person providing services to the Company and who is selected by the Committee may be granted one or more Performance-based Awards in the form of a Restricted Stock Award, Deferred Stock Award or Cash-based Award payable upon the

Table of Contents

attainment of Performance Goals that are established by the Committee and relate to one or more of the Performance Criteria, in each case on a specified date or dates or over any period or periods determined by the Committee. The Committee shall define in an objective fashion the manner of calculating the Performance Criteria it selects to use for any Performance Cycle. Depending on the Performance Criteria used to establish such Performance Goals, the Performance Goals may be expressed in terms of overall Company performance or the performance of a division, business unit, or an individual. The Committee, in its discretion, may adjust or modify the calculation of Performance Goals for such Performance Cycle in order to prevent the dilution or enlargement of the rights of an individual (i) in the event of, or in anticipation of, any unusual or extraordinary corporate item, transaction, event or development, or (ii) in recognition of, or in anticipation of, any other unusual or nonrecurring events affecting the Company, or the financial statements of the Company, or (iii) in response to, or in anticipation of, changes in applicable laws, regulations, accounting principles, or business conditions provided however, that the Committee may not exercise such discretion in a manner that would increase the Performance-based Award granted to a Covered Employee. Each Performance-based Award shall comply with the provisions set forth below.

(b) **Grant of Performance-based Awards.** With respect to each Performance-based Award granted to a Covered Employee, the Committee shall select, within the first 90 days of a Performance Cycle (or, if shorter, within the maximum period allowed under Section 162(m) of the Code) the Performance Criteria for such grant, and the Performance Goals with respect to each Performance Criterion (including a threshold level of performance below which no amount will become payable with respect to such Award). Each Performance-based Award will specify the amount payable, or the formula for determining the amount payable, upon achievement of the various applicable performance targets. The Performance Criteria established by the Committee may be (but need not be) different for each Performance Cycle and different Performance Goals may be applicable to Performance-based Awards to different Covered Employees.

(c) **Payment of Performance-based Awards.** Following the completion of a Performance Cycle, the Committee shall meet to review and certify in writing whether, and to what extent, the Performance Goals for the Performance Cycle have been achieved and, if so, to also calculate and certify in writing the amount of the Performance-based Awards earned for the Performance Cycle. The Committee shall then determine the actual size of each Covered Employee's Performance-based Award, and, in doing so, may reduce or eliminate the amount of the Performance-based Award for a Covered Employee if, in its sole judgment, such reduction or elimination is appropriate.

(d) **Maximum Award Payable.** The maximum Performance-based Award payable to any one Covered Employee under the Plan for a Performance Cycle is 600,000 Shares (subject to adjustment as provided in Section 3(b) hereof) or \$7,000,000 in the case of a Performance-based Award that is a Cash-based Award.

SECTION 12. DIVIDEND EQUIVALENT RIGHTS

(a) **Dividend Equivalent Rights.** A Dividend Equivalent Right may be granted hereunder to any grantee as a component of another Award (other than a Stock Option or a Stock Appreciation Right) or as a freestanding award. The terms and conditions of Dividend Equivalent Rights shall be specified in the Award Agreement. Dividend equivalents credited to the holder of a Dividend Equivalent Right may be paid currently or may be deemed to be reinvested in additional shares of Stock, which may thereafter accrue additional equivalents. Any such reinvestment shall be at Fair Market Value on the date of reinvestment or such other price as may then apply under a dividend reinvestment plan sponsored by the Company, if any. Dividend Equivalent Rights may be settled in cash or shares of Stock or a combination thereof, in a single installment or installments. A Dividend Equivalent Right granted as a component of a Deferred Stock Award with vesting tied to the attainment of performance goals shall provide that such Dividend Equivalent Right shall be settled upon exercise, settlement, or payment of, or lapse of restrictions on, such other Award, and that such Dividend Equivalent Right shall expire or be forfeited or annulled under the same conditions as such other Award. A Dividend Equivalent Right granted as a component of another Award may also contain terms and conditions different from such other Award.

(b) Interest Equivalents. Any Award under this Plan that is settled in whole or in part in cash on a deferred basis may provide in the grant for interest equivalents to be credited with respect to such cash payment. Interest equivalents may be compounded and shall be paid upon such terms and conditions as may be specified by the grant.

(c) Termination. Except as may otherwise be provided by the Committee either in the Award Agreement or, subject to Section 17 below, in writing after the Award Agreement is issued, a grantee's rights in all Dividend Equivalent Rights or interest equivalents granted as a component of another Award that has not vested shall automatically terminate upon the grantee's termination of employment (or cessation of service relationship) with the Company and its Subsidiaries for any reason.

SECTION 13. TRANSFERABILITY OF AWARDS

(a) Transferability. Except as provided in Section 13(b) below, during a grantee's lifetime, his or her Awards shall be exercisable only by the grantee, or by the grantee's legal representative or guardian in the event of the grantee's incapacity. No Awards shall be sold, assigned, transferred or otherwise encumbered or disposed of by a grantee other than by will or by the laws of descent and distribution. No Awards shall be subject, in whole or in part, to attachment, execution, or levy of any kind, and any purported transfer in violation hereof shall be null and void.

(b) Committee Action. Notwithstanding Section 13(a), the Committee, in its discretion, may provide either in the Award Agreement regarding a given Award or by subsequent written approval that the grantee (who is an employee or director) may transfer his or her Awards (other than any Incentive Stock Options) to his or her immediate family members, to trusts for the benefit of such family members, or to partnerships in which such family members are the only partners, provided that the transferee agrees in writing with the Company to be bound by all of the terms and conditions of this Plan and the applicable Award.

(c) Family Member. For purposes of Section 13(b), family member shall mean a grantee's child, stepchild, grandchild, parent, stepparent, grandparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the grantee's household (other than a tenant of the grantee), a trust in which these persons (or the grantee) have more than 50 percent of the beneficial interest, a foundation in which these persons (or the grantee) control the management of assets, and any other entity in which these persons (or the grantee) own more than 50 percent of the voting interests.

(d) Designation of Beneficiary. Each grantee to whom an Award has been made under the Plan may designate a beneficiary or beneficiaries to exercise any Award or receive any payment under any Award payable on or after the grantee's death. Any such designation shall be on a form provided for that purpose by the Committee and shall not be effective until received by the Committee. If no beneficiary has been designated by a deceased grantee, or if the designated beneficiaries have predeceased the grantee, the beneficiary shall be the grantee's estate.

SECTION 14. TAX WITHHOLDING

(a) Payment by Grantee. Each grantee shall, no later than the date as of which the value of an Award or of any Stock or other amounts received thereunder first becomes includable in the gross income of the grantee for Federal income tax purposes, pay to the Company, or make arrangements satisfactory to the Committee regarding payment of, any Federal, state, or local taxes of any kind required by law to be withheld by the Company with respect to such income. The Company and its Subsidiaries shall, to the extent permitted by law, have the right to deduct any such taxes from any payment of any kind otherwise due to the grantee. The Company's obligation to deliver evidence of book entry (or stock certificates) to any grantee is subject to and conditioned on tax withholding obligations being satisfied by the grantee.

Table of Contents

(b) Payment in Stock. Subject to approval by the Committee, a grantee may elect to have the Company's minimum required tax withholding obligation satisfied, in whole or in part, by (i) authorizing the Company to withhold from shares of Stock to be issued pursuant to any Award a number of shares with an aggregate Fair Market Value (as of the date the withholding is effected) that would satisfy the withholding amount due, or (ii) transferring to the Company shares of Stock owned by the grantee with an aggregate Fair Market Value (as of the date the withholding is effected) that would satisfy the withholding amount due.

SECTION 15. SECTION 409A AWARDS

To the extent that any Award is determined to constitute nonqualified deferred compensation within the meaning of Section 409A (a 409A Award), the Award shall be subject to such additional rules and requirements as specified by the Committee from time to time in order to comply with Section 409A. In this regard, if any amount under a 409A Award is payable upon a separation from service (within the meaning of Section 409A) to a grantee who is then considered a specified employee (within the meaning of Section 409A), then no such payment shall be made prior to the date that is the earlier of (i) six months and one day after the grantee's separation from service, or (ii) the grantee's death, but only to the extent such delay is necessary to prevent such payment from being subject to interest, penalties and/or additional tax imposed pursuant to Section 409A.

SECTION 16. TRANSFER, LEAVE OF ABSENCE, ETC.

For purposes of the Plan, the following events shall not be deemed a termination of employment:

- (a) a transfer to the employment of the Company from a Subsidiary or from the Company to a Subsidiary, or from one Subsidiary to another; or
- (b) an approved leave of absence for military service or sickness, or for any other purpose approved by the Company, if the employee's right to re-employment is guaranteed either by a statute or by contract or under the policy pursuant to which the leave of absence was granted or if the Committee otherwise so provides in writing.

SECTION 17. AMENDMENTS AND TERMINATION

The Board may, at any time, amend or discontinue the Plan and the Committee may, at any time, amend or cancel any outstanding Award for the purpose of satisfying changes in law or for any other lawful purpose, but no such action shall adversely affect rights under any outstanding Award without the holder's consent. Except as provided in Section 3(b) or 3(c), without prior stockholder approval, in no event may the Committee exercise its discretion to reduce the exercise price of outstanding Stock Options or Stock Appreciation Rights or effect repricing through cancellation and re-grants or cancellation of Stock Options or Stock Appreciation Rights in exchange for cash or other Awards. To the extent required under the rules of any securities exchange or market system on which the Stock is listed, to the extent determined by the Committee to be required by the Code to ensure that Incentive Stock Options granted under the Plan are qualified under Section 422 of the Code, or to ensure that compensation earned under Awards qualifies as performance-based compensation under Section 162(m) of the Code, Plan amendments shall be subject to approval by the Company stockholders entitled to vote at a meeting of stockholders. Nothing in this Section 17 shall limit the Committee's authority to take any action permitted pursuant to Section 3(b) or 3(c).

SECTION 18. STATUS OF PLAN

With respect to the portion of any Award that has not been exercised and any payments in cash, Stock or other consideration not received by a grantee, a grantee shall have no rights greater than those of a general creditor of the Company unless the Committee shall otherwise expressly determine in connection

with any Award or Awards. In its sole discretion, the Committee may authorize the creation of trusts or other arrangements to meet the Company's obligations to deliver Stock or make payments with respect to Awards hereunder, provided that the existence of such trusts or other arrangements is consistent with the foregoing sentence.

SECTION 19. GENERAL PROVISIONS

- (a) No Distribution. The Committee may require each person acquiring Stock pursuant to an Award to represent to and agree with the Company in writing that such person is acquiring the shares without a view to distribution thereof.
- (b) Delivery of Stock Certificates. Stock certificates to grantees under this Plan shall be deemed delivered for all purposes when the Company or a stock transfer agent of the Company shall have mailed such certificates in the United States mail, addressed to the grantee, at the grantee's last known address on file with the Company. Uncertificated Stock shall be deemed delivered for all purposes when the Company or a Stock transfer agent of the Company shall have given to the grantee by electronic mail (with proof of receipt) or by United States mail, addressed to the grantee, at the grantee's last known address on file with the Company, notice of issuance and recorded the issuance in its records (which may include electronic book entry records). Notwithstanding anything herein to the contrary, the Company shall not be required to issue or deliver any certificates evidencing shares of Stock pursuant to the exercise of any Award, unless and until the Board has determined, with advice of counsel (to the extent the Board deems such advice necessary or advisable), that the issuance and delivery of such certificates is in compliance with all applicable laws, regulations of governmental authorities and, if applicable, the requirements of any exchange on which the shares of Stock are listed, quoted or traded. All Stock certificates delivered pursuant to the Plan shall be subject to any stop-transfer orders and other restrictions as the Committee deems necessary or advisable to comply with federal, state or foreign jurisdiction, securities or other laws, rules and quotation system on which the Stock is listed, quoted or traded. The Committee may place legends on any Stock certificate to reference restrictions applicable to the Stock. In addition to the terms and conditions provided herein, the Board may require that an individual make such reasonable covenants, agreements, and representations as the Board, in its discretion, deems necessary or advisable in order to comply with any such laws, regulations, or requirements. The Committee shall have the right to require any individual to comply with any timing or other restrictions with respect to the settlement or exercise of any Award, including a window-period limitation, as may be imposed in the discretion of the Committee.
- (c) Stockholder Rights. Until Stock is deemed delivered in accordance with Section 19(b), no right to vote or receive dividends or any other rights of a stockholder will exist with respect to shares of Stock to be issued in connection with an Award, notwithstanding the exercise of a Stock Option or any other action by the grantee with respect to an Award.
- (d) Other Compensation Arrangements; No Employment Rights. Nothing contained in this Plan shall prevent the Board from adopting other or additional compensation arrangements, including trusts, and such arrangements may be either generally applicable or applicable only in specific cases. The adoption of this Plan and the grant of Awards do not confer upon any employee any right to continued employment with the Company or any Subsidiary.
- (e) Trading Policy Restrictions. Option exercises and other Awards under the Plan shall be subject to the Company's insider trading policy and procedures, as in effect from time to time.
- (f) Forfeiture of Awards under Sarbanes-Oxley Act. If the Company is required to prepare an accounting restatement due to the material noncompliance of the Company, as a result of misconduct, with any financial reporting requirement under the securities laws, then any grantee who is one of the individuals subject to automatic forfeiture under Section 304 of the Sarbanes-Oxley Act of 2002 shall

reimburse the Company for the amount of any Award received by such individual under the Plan during the 12-month period following the first public issuance or filing with the United States Securities and Exchange Commission, as the case may be, of the financial document embodying such financial reporting requirement.

(g) Clawback Policy. Awards under the Plan shall be subject to the Company's clawback policy, which may be in effect from time to time.

SECTION 20. EFFECTIVE DATE OF PLAN

This Plan shall become effective upon stockholder approval in accordance with applicable state law, the Company's bylaws and articles of incorporation, and applicable stock exchange rules. No grants of Stock Options and other Awards may be made hereunder after the tenth (10th) anniversary of the Effective Date and no grants of Incentive Stock Options may be made hereunder after the tenth (10th) anniversary of the date the Second Amended and Restated Plan is approved by the Board.

SECTION 21. GOVERNING LAW

This Plan and all Awards and actions taken thereunder shall be governed by, and construed in accordance with, the laws of the State of Delaware, applied without regard to conflict of law principles.
