ST. LOUIS July 29, 2014 Amdocs Limited (NASDAQ: DOX) today reported that for its fiscal quarter ended June 30, 2014, revenue was \$902.5 million, up 0.6% sequentially from the second fiscal quarter of 2014 and up 7.3% as compared to last year's third fiscal quarter. Net income on a non-GAAP basis was \$130.9 million, or \$0.81 per diluted share, compared to non-GAAP net income of \$134.4 million, or \$0.83 per diluted share, in the third quarter of fiscal 2013. Non-GAAP net income excludes amortization of purchased intangible assets and other acquisition related costs and equity-based compensation expenses of \$21.1 million, net of related tax effects, in the third quarter of fiscal 2014 and excludes such amortization and other acquisition related costs and equity-based compensation expenses of \$14.9 million, net of related tax effects, in the third quarter of fiscal 2013. The Company's GAAP net income for the third quarter of fiscal 2014 was \$109.8 million, or \$0.68 per diluted share, compared to GAAP net income of \$119.6 million, or \$0.73 per diluted share, in the prior fiscal year's third quarter.

We are pleased with our third fiscal quarter performance, which reflects healthy customer activity in North America, and sequentially stable revenue in Europe. Additionally, we delivered record revenue in the emerging markets, reflecting the progression of highly complex transformation projects towards production. We are continuously improving our strategic position with some of the leading carriers in Latin America and South East Asia, as demonstrated by Telefónica's recent selection of Amdocs for new quad-play transformation projects in Peru and Chile. Finally, we continue to see encouraging levels of customer engagement in the area of network software, and the post-merger integration of Actix and Celcite within Amdocs is progressing in line with our original expectations, said Eli Gelman, chief executive officer of Amdocs Management Limited.

Gelman continued, During the quarter, we continued to support our North American customers in their strategic initiatives. Along these lines, we are today pleased to announce that Bell Canada has selected Amdocs Convergent Charging, powered by our Turbo Charging technology, as its next generation charging solution. This arrangement is enabling support for Bell's converging lines of business and reinforces a long-standing strategic partnership with one of our largest customers.

Gelman said, In Europe, we made further progress at Vodafone Group where we added another two affiliates to be supported under the global managed services agreement we

signed in fiscal 2013. These include Vodafone's fixed line operations in the UK and the Vodafone Group Enterprise M2M line of operations. We are now supporting seven Vodafone affiliates under this agreement, which we see as evidence of the value that Amdocs' managed services can deliver in Europe as operators seek greater simplicity and improved quality in their IT operations.

Gelman concluded, "As we embark on our fourth fiscal quarter, we remain highly focused on our execution, which includes securing new business, improving our operating efficiency and continuously expanding our product suite with innovative new offerings. We are on-track to deliver full year revenue growth towards the mid-point of our previously guided range of 5% to 8%. This outlook naturally reflects many moving parts, including with respect to consolidation activity amongst North American wireless and Pay TV operators. Our free cash flow generation continues to be robust, and we remain committed towards the balanced allocation of our capital over the long term. Taking all these factors into consideration, we continue to expect diluted non-GAAP earnings per share growth of 6% to 9% for the full fiscal year."

Discussion of Third Fiscal Quarter Financial Results

Free cash flow was \$173 million for the quarter, comprised of cash flow from operations of \$199 million, less \$26 million in net capital expenditures and other.

Twelve-month backlog, which includes anticipated revenue related to contracts, estimated revenue from managed services contracts, letters of intent, maintenance and estimated on-going support activities, was \$2.97 billion at the end of the third quarter of fiscal 2014.

Financial Outlook

Amdocs expects that revenue for the fourth quarter of fiscal 2014 will be approximately \$890-\$920 million. Diluted earnings per share on a non-GAAP basis for the fourth fiscal quarter are expected to be \$0.75-\$0.81, excluding amortization of purchased intangible assets and other acquisition-related costs and approximately \$0.05-\$0.06 per share of equity-based compensation expense, net of related tax effects. Amdocs estimates GAAP diluted earnings per share for the fourth fiscal quarter will be \$0.61-\$0.69.

Quarterly Cash Dividend Program

On July 29, 2014, the Board approved the Company's next quarterly cash dividend payment of \$0.155 per share and set September 30, 2014 as the record date for determining the shareholders entitled to receive the dividend, which is payable on October 17, 2014.

Conference Call Details

Amdocs will host a conference call on July 29, 2014 at 5:00 p.m. Eastern Time to discuss the Company's third fiscal quarter results. The call will be carried live on the Internet via the Amdocs website, www.amdocs.com.

Non-GAAP Financial Measures

This release includes non-GAAP diluted earnings per share and other non-GAAP financial measures, including free cash flow, non-GAAP cost of service, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP income taxes, non-GAAP net income and non-GAAP diluted earnings per share growth. These non-GAAP measures exclude the following items:

amortization of purchased intangible assets and other acquisition related costs;

equity-based compensation expense; and

tax effects related to the above.

These non-GAAP financial measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP financial measures used by other companies. In addition, these non-GAAP financial measures are not based on any comprehensive set of accounting rules or principles. Amdocs believes that non-GAAP financial measures have limitations in that they do not reflect all of the amounts associated with Amdocs' results of operations as determined in accordance with GAAP and that these measures should only be used to evaluate Amdocs' results of operations in conjunction with the corresponding GAAP measures.

Amdocs believes that the presentation of non-GAAP diluted earnings per share and other financial measures, including free cash flow, non-GAAP cost of service, non-GAAP research and development, non-GAAP selling, general and administrative, non-GAAP operating income, non-GAAP operating margin, non-GAAP income taxes, non-GAAP net income and non-GAAP diluted earnings per share growth when shown in conjunction with the

corresponding GAAP measures, provides useful information to investors and management regarding financial and business trends relating to its financial condition and results of operations, as well as the net amount of cash generated by its business operations after taking into account capital spending required to maintain or expand the business.

For its internal budgeting process and in monitoring the results of the business, Amdocs management uses financial statements that do not include amortization of purchased intangible assets and other acquisition related costs, equity-based compensation expense and related tax effects. Amdocs management also uses the foregoing non-GAAP financial measures, in addition to the corresponding GAAP measures, in reviewing the financial results of Amdocs. In addition, Amdocs believes that significant groups of investors exclude these items in reviewing its results and those of its competitors, because the amounts of the items between companies can vary greatly depending on the assumptions used by an individual company in determining the amounts of the items.

Amdocs further believes that, where the adjustments used in calculating non-GAAP diluted earnings per share are based on specific, identified amounts that impact different line items in the Consolidated Statements of Income (including cost of service, research and development, selling, general and administrative, operating income, income taxes and net income), it is useful to investors to understand how these specific line items in the Consolidated Statements of Income are affected by these adjustments. Please refer to the Reconciliation of Selected Financial Metrics from GAAP to Non-GAAP tables below.
