PROSPECTUS

11,000,000 American Depositary Shares

Baozun Inc.

REPRESENTING 33,000,000 CLASS A ORDINARY SHARES

Baozun Inc. is offering American depository shares, or ADSs, each representing three of our Class A ordinary shares, par value US\$0.0001. This is our initial public offering and no public market currently exists for our ADSs or ordinary shares.

Upon the completion of this offering, 132,524,574 Class A ordinary shares and 13,300,738 Class B ordinary shares of our company will be issued and outstanding, assuming that the underwriters do not exercise their option to purchase additional ADSs. Holders of Class A ordinary shares and Class B ordinary shares have the same rights except for voting and conversion rights. Each Class A ordinary share will be entitled to one vote and each Class B ordinary share will be entitled to ten votes on all matters subject to shareholder vote. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon completion of this offering, Mr. Vincent Wenbin Qiu and Mr. Junhua Wu will beneficially own 9,410,369 and 3,890,369 Class B ordinary shares, respectively. Together, they will beneficially own all our issued Class B ordinary shares, which will represent 50.1% of our aggregate voting power, assuming that the underwriters do not exercise their option to purchase additional ADSs.

We have received approval for listing the ADSs on the NASDAQ Global Select Market under the symbol BZUN.

We are an emerging growth company under applicable U.S. federal securities laws and are eligible for reduced public company reporting requirements.

*Investing in the ADSs involves risks. See **Risk Factors** beginning on page 16.*

PRICE US\$10.00 PER ADS

	<i>Price to Public</i>	<i>Underwriting Discounts and Commissions ⁽¹⁾</i>	<i>Proceeds to Baozun</i>
<i>Per ADS</i>	US\$ 10.00	US\$ 0.70	US\$ 9.30
<i>Total</i>	US\$110,000,000	US\$7,700,000	US\$102,300,000

(1) We have agreed to reimburse the underwriters for certain expenses in connection with this offering. See Underwriting.

Baozun has granted the underwriters the right to purchase up to an additional 1,650,000 ADSs to cover over-allotments.

The Securities and Exchange Commission and state securities regulators have not approved or disapproved these securities, or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

The underwriters expect to deliver the ADSs to purchasers in New York, New York on May 27, 2015.

PROSPECTUS SUMMARY

The following summary is qualified in its entirety by, and should be read in conjunction with, the more detailed information and financial statements appearing elsewhere in this prospectus. In addition to this summary, we urge you to read the entire prospectus carefully, especially the risks of investing in our ADSs discussed under Risk Factors, before deciding whether to buy our ADSs. This prospectus contains information from an industry report commissioned by us and prepared by iResearch Consulting Group, a third-party research firm, to provide information on the e-commerce, brand e-commerce and e-commerce solutions markets. We refer to this report as the iResearch Report.

OUR BUSINESS

We are the leading brand e-commerce solutions provider in China, with a market share of approximately 20% as measured by transaction value in 2014, according to the iResearch Report. Our integrated brand e-commerce capabilities encompass all aspects of the e-commerce value chain covering IT solutions, store operations, digital marketing, customer services, warehousing and fulfillment. We help brand partners execute their e-commerce strategies in China by selling their goods directly to customers online or by providing services to assist with their e-commerce operations.

With e-commerce in China growing rapidly in both scale and complexity, more global brands view e-commerce as a valuable part of their China expansion strategy, and brands look to us as a trusted partner and rely on our local knowledge and industry expertise to execute and integrate e-commerce strategies without the investment associated with establishing and maintaining local infrastructure and capabilities on their own.

The number of our brand partners grew from 56 as of December 31, 2012, to 71 as of December 31, 2013, to 93 as of December 31, 2014 and to 94 as of March 31, 2015. These brands cover diverse categories, including apparel, appliances, electronics, home, food and health, cosmetics and fast moving consumer goods, insurance and automobile. Many of our brand partners occupy leading positions in their respective industries, such as Philips, Nike, Microsoft and Haagen-Dazs. According to the iResearch Report, we are the leading brand e-commerce solutions provider in China that has penetrated into the most diversified and comprehensive range of categories.

We believe our brand partners value us for our integrated e-commerce capabilities, dependable services, deep category expertise, market insight and ability to innovate and adapt to the fast-changing e-commerce market. Our end-to-end brand e-commerce capabilities allow us to leverage brand partners' unique resources and seamlessly integrate with their back-end systems to enable data tracking and analytics for the full transaction value chain, making us a valuable part of our brand partners' e-commerce functions. We help our brand partners establish market presence and launch products quickly on official brand stores and major online marketplaces in China, such as Tmall and JD.com, as well as social media platforms such as Weixin. We also help our brand partners devise and execute O2O strategies combining the strengths of their online and offline retail networks. By enabling seamless shopping experience across various channels both online and offline, we deliver omni-channel solutions to achieve optimal branding effect and sales results that are responsive to our brand partners' individual e-commerce objectives.

Our store operation capabilities, logistics network and warehousing capacities are crucial to our success. We provide customizable solutions and dedicated personnel with relevant industry experience and brand-specific training in operating e-commerce stores. We partner with leading nationwide and local logistics services providers to ensure reliable and timely delivery. For example, we understand from SF Express, one of the largest express delivery services in China, that we are one of its top 10 customers in China. We are able to achieve next-day delivery in 95 cities across China. We operate five warehouses with an aggregate gross floor area of 72,800 square meters that can handle 300,000 daily orders and 400,000 daily pieces. Our warehouse management system

Table of Contents

is customized to account for variance in arrangements with brand partners and differences in product specifications, ranging from apparel, electronics to beauty and health products.

Technology is key to our success and quick expansion. Leveraging our proprietary and scalable technology infrastructure and systems, we provide integrated e-commerce solutions that synchronize marketing campaigns, centralize management of inventory, order fulfillment and customer service, and collect and analyze real-time consumer behavior and transaction data across internet, mobile and offline channels. The scalability of our systems, built on deep vertical knowledge and modular implementation, allows us to efficiently provide customized solutions across categories and support an increasingly larger array of transactions as we add new brands, integrate new channels and accommodate peaks and surges in consumer demand.

We continue to win brands' loyalty with our track record of articulating their marketing needs into workable solutions that consistently deliver tangible sales results. We collect valuable consumer behavior data through our customer relationship management system. We have also developed our Business Intelligence, or BI, software which enables real-time analysis of transaction data across online and mobile channels to make more targeted and insightful marketing recommendations to our brand partners that leverage the strengths of various channels. We believe that, as we increase our solution offerings and channels to our brand partners, launch more marketing initiatives and campaigns together and increase their sales, the stickiness of our relationships with brand partners will also grow.

We generate revenues from two revenue streams: (i) product sales and (ii) services. We generally operate e-commerce businesses for our brand partners based on one of three business models: distribution model, service fee model and consignment model, or in some circumstances, a combination of the business models. We derive product sales revenues when we sell products to customers under the distribution model. We derive services revenues under the service fee model and consignment model. For services provided, we charge our brand partners fees consisting of fixed fees and/or variable fees based on GMV or other variable factors such as number of orders fulfilled. Under the consignment model, we may also facilitate brand partners' online sales of products as an agent and receive commission fee calculated based on a formula pre-agreed with our brand partners. In 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, net revenues from product sales accounted for 85.9%, 83.8%, 74.9%, 73.7% and 74.1%, respectively, of our total net revenues.

Our GMV was RMB1,460.4 million, RMB2,620.8 million, RMB4,248.9 million (US\$685.4 million), RMB573.7 million and RMB1,157.0 million (US\$186.6 million) in 2012, 2013, and 2014 and the three months ended March 31, 2014 and 2015, respectively. For the same periods, our total net revenues were RMB954.5 million, RMB1,521.8 million, RMB1,584.4 million (US\$255.6 million), RMB268.5 million and RMB477.2 million (US\$76.9 million), respectively. We incurred net loss of RMB47.2 million, RMB37.8 million and RMB59.8 million (US\$9.6 million) in 2012, 2013 and 2014, respectively, and recorded net income of, RMB1.8 million and RMB2.0 million (US\$0.3 million) in the three months ended March 31, 2014 and 2015 respectively. We incurred non-GAAP net loss of RMB42.7 million and RMB26.3 million in 2012 and 2013, respectively, and had non-GAAP net income of RMB25.1 million (US\$4.0 million), RMB3.4 million and RMB7.6 million (US\$1.2 million) in 2014 and the three months ended March 31, 2014 and 2015, respectively. See Summary Consolidated Financial and Operating Data Non-GAAP Financial Measure.

OUR INDUSTRY

Brand e-commerce refers to business-to-consumer, or B2C, e-commerce conducted through official brand stores and official marketplace stores. Brand e-commerce differentiates itself from other models of B2C e-commerce, such as independent direct sales platforms and online stores operated by brands' offline distributors, as it enables the online stores to be operated with the brands' unique brand image, look and feel and allows the brands to control their own branding and merchandising.

Edgar Filing: Baozun Inc. - Form 424B4

With the growth and rising popularity of e-commerce in China, global brands view e-commerce as an important part of their China expansion strategy, and increasingly elect e-commerce as their key distribution

Table of Contents

channel in China. Brand e-commerce has experienced and is expected to continue to experience a higher growth rate compared to the overall B2C e-commerce market in China. According to the iResearch Report, China's brand e-commerce market is expected to increase from RMB22 billion (US\$4 billion) in 2010 to RMB800 billion (US\$129 billion) in 2014, representing a CAGR of 145.7%. It is expected to further reach RMB2,352 billion (US\$379 billion) in 2017, at a CAGR of 43.3%.

While international and domestic brands are increasingly focusing on the growth opportunities in brand e-commerce in China, they also face challenges arising from the complexity in distribution channel selection, consumer demands, merchandising, online store operations, technology infrastructure, warehousing and fulfillment. As such, brands look to solutions providers with local knowledge and industry expertise to execute and integrate e-commerce strategies for them without the investment associated with establishing and maintaining local infrastructure and capabilities on their own. With their in-depth understanding of industry vertical expertise and brand partners' needs, end-to-end brand e-commerce solution providers offer one-stop solutions across the e-commerce value chain for brands while enabling them to maintain a high level of quality and control.

The brand e-commerce solutions market in China is still in its emerging stage of development. It is expected to ride on the strong growth in China's brand e-commerce sector and further increase market penetration. According to the iResearch Report, the market size of the brand e-commerce solutions market in China based on transaction value is expected to grow from RMB26 billion (US\$4 billion) in 2014 to close to RMB100 billion (US\$16 billion) in 2017, representing a CAGR of 56.7%.

OUR STRENGTHS

We believe that the following competitive strengths contribute to our leading position in the brand e-commerce solutions market in China:

leader in brand e-commerce solutions and trusted partner to global brands;

end-to-end brand e-commerce solutions with omni-channel capabilities;

proven store operation capabilities and fulfillment infrastructure;

scalable and reliable proprietary technology;

robust and insightful digital marketing capabilities; and

proven and experienced management team with deep industry knowledge.

OUR STRATEGIES

Edgar Filing: Baozun Inc. - Form 424B4

Our goal is to be a leading global e-commerce solutions provider for brands. We plan to achieve our goal by pursuing the following key strategies:

deepen existing relationships with brands;

expand and optimize our brand portfolio;

enhance our fulfillment capabilities;

strengthen our data analysis capabilities;

grow our closeout retail platform, Maikefeng;

extend our geographical reach in Asia; and

selectively pursue strategic alliances and acquisition opportunities.

Table of Contents

OUR CHALLENGES

Our ability to achieve our goal and execute our strategies is subject to risks and uncertainties, including those relating to our ability to:

manage risks associated with the growth of the e-commerce market in China;

retain and attract brand partners;

gain further category expertise;

increase product sales;

increase revenues generated from services;

enhance cooperation with marketplaces and other channel partners;

successfully expand and operate our business in Asia;

innovate and grow our new product and service offerings, such as our closeout retail platform Maikefeng;

manage our revenue and product mix;

effectively invest in our fulfillment infrastructure and technology platform; and

manage growth, costs and working capital.

We also face other challenges, risks and uncertainties that may materially and adversely affect our business, financial condition, results of operations and prospects. You should refer to **Risk Factors**, beginning on page 16, for a more detailed discussion of the risks involved in investing in our ADSs. For example, as holders of ADSs, you may have fewer rights than holders of our Class A ordinary shares and must act through the depositary to exercise those rights.

CORPORATE HISTORY AND STRUCTURE

Edgar Filing: Baozun Inc. - Form 424B4

We are a holding company and operate our business through our wholly-owned subsidiaries and a PRC consolidated variable interest entity, or VIE. We commenced operations to provide brand e-commerce solutions in China in August 2007 through Shanghai Baozun E-Commerce Limited, or Shanghai Baozun, a PRC limited liability company founded by our CEO Mr. Vincent Wenbin Qiu, our COO Mr. Junhua Wu, one of our directors Mr. Michael Qingyu Zhang and several other individual investors, or collectively, the Founding Shareholders. Shanghai Baozun, our wholly-owned subsidiary, provides integrated brand e-commerce solutions to our brand partners, including IT services, store operations, digital marketing, customer services, warehousing and fulfillment.

In March 2010, we incorporated our wholly-owned subsidiaries, Shanghai Bodao E-Commerce Limited, or Shanghai Bodao, and Shanghai Yingsai Advertisement Limited, or Shanghai Yingsai, in China. In December 2011, we incorporated our wholly-owned subsidiary, Shanghai Fengbo E-Commerce Limited, or Shanghai Fengbo, in China. Shanghai Fengbo and Shanghai Bodao provide brand e-commerce solutions to our brand partners, and Shanghai Yingsai provides marketing services to our brand partners. As we began to expand our business outside of mainland China, we established Baozun Hongkong Limited in September 2013, which serves as our operation center in Hong Kong. In December 2013, we incorporated our holding company, Baozun Cayman Inc., under the laws of the Cayman Islands. We incorporated Baozun Hong Kong Holding Limited in

Table of Contents

January 2014 to develop our e-commerce solutions business in Hong Kong and internationally. We changed our holding company's name from Baozun Cayman Inc. to Baozun Inc. in March 2015.

The operation of value-added telecommunications businesses in China requires an operating license, which we refer to as an ICP license, and foreign ownership of value-added telecommunications business is subject to restrictions under current PRC laws, rules and regulations. Although our current business does not require an ICP license, we hold an ICP license through our VIE, Shanghai Zunyi Business Consulting Ltd., or Shanghai Zunyi, which is the operator of our Maikefeng platform, to provide us with the flexibility to develop value-added telecommunications services in the future that would be in compliance with PRC laws, rules and regulations. In April and July 2014, through Shanghai Baozun, we entered into certain contractual arrangements with Shanghai Zunyi and its shareholders under which we gained effective control over the operations of Shanghai Zunyi. Shanghai Zunyi was a dormant company before July 2014 and began serving customers through our Maikefeng platform, including our Maikefeng mobile application and mkf.com website, in July 2014.

In October 2014, we established Taiwan Baozun Corporation, a wholly-owned subsidiary, to expand our provision of brand e-commerce solutions to the Taiwan market.

As a holding company, our ability to pay dividends depends upon dividends and other distributions on equity paid to us by our principal operating subsidiaries. Pursuant to PRC laws and regulations, our wholly owned subsidiaries may pay dividends only out of their retained earnings, and are required to set aside a portion of their net income each year to fund certain statutory reserves. These reserves, together with the registered equity, are not distributable as cash dividends. See **Risk Factors** **Risks Related to Doing Business in the People's Republic of China** We rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries to fund offshore cash and financing requirements. and **Regulation** **Regulation of Dividend Distribution**.

For our private placement of ordinary shares and convertible redeemable preferred shares, see **Description of Share Capital** **History of Securities Issuances**.

Table of Contents

The following diagram illustrates our corporate structure and the place of incorporation of each of our significant subsidiaries and VIE as of the date of this prospectus:

Note:

- (1) Shanghai Zunyi is our VIE in China and is 80% owned by Mr. Vincent Wenbin Qiu and 20% owned by Mr. Michael Qingyu Zhang. It primarily serves as our platform for developing our Maikefeng business.

CORPORATE INFORMATION

Our principal executive offices are located at Building No. H, No. 1188 Wanrong Road, Zhabei District, Shanghai 200436, the People's Republic of China. Our telephone number at this address is +86 21 6095-6000. Our registered office in the Cayman Islands is located at the offices of Novasage Incorporations (Cayman) Limited, at Floor 4, Willow House, Cricket Square, P.O. Box 2582, Grand Cayman KY1-1103, Cayman Islands.

Investors should submit any inquiries to the address and telephone number of our principal executive offices. Our corporate website is www.baozun.com. The information contained on our website is not a part of this prospectus. Our agent for service of process in the United States is Law Debenture Corporate Services Inc., located at 400 Madison Avenue, 4th Floor, New York, NY 10017.

Table of Contents

IMPLICATIONS OF BEING AN EMERGING GROWTH COMPANY

As a company with less than US\$1 billion in revenue during our last fiscal year, we qualify as an emerging growth company as defined in the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. For so long as we remain an emerging growth company, we are permitted to rely on exemptions from some of the reporting requirements that are applicable to public companies that are not emerging growth companies. These exemptions include:

being permitted to provide only two years of selected financial data (rather than five years) and only two years of audited financial statements (rather than three years), in addition to any required unaudited interim financial statements, with correspondingly reduced Management's Discussion and Analysis of Financial Condition and Results of Operations disclosure;

not being required to comply with the auditor attestation requirements of the Sarbanes-Oxley Act of 2002 in the assessment of our internal control over financial reporting; and

not being required to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards.

We have taken, and may continue to take, advantage of some of these exemptions until we are no longer an emerging growth company. We have, however, elected to opt out of the last exemption listed above and, as a result, we will comply with new or revised accounting standards as required when they are adopted for public companies. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

We will remain an emerging growth company until the earliest of (a) the last day of the fiscal year following the fifth anniversary of the completion of this offering, (b) the last day of the fiscal year in which we have total annual gross revenue of at least US\$1 billion, (c) the date on which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds US\$700 million as of the prior June 30, and (d) the date on which we have issued more than US\$1 billion in non-convertible debt during the prior three-year period.

CONVENTIONS THAT APPLY TO THIS PROSPECTUS

Unless otherwise indicated or the context otherwise requires, references in this prospectus to:

ADRs are to the American depositary receipts, which, if issued, evidence our ADSs;

ADSs are to our American depositary shares, each of which represents three Class A ordinary shares;

Baozun, we, us, our company, and our, refer to Baozun Inc., a Cayman Islands company, formerly known as Baozun Cayman Inc. and unless the context requires otherwise, includes its consolidated subsidiaries and variable interest entity;

Edgar Filing: Baozun Inc. - Form 424B4

brand e-commerce are to B2C e-commerce conducted through official brand stores or official marketplace stores;

brand partners are to companies for which we operate official brand stores or official marketplace stores under their brand names or have entered into agreements to do so;

China and the PRC are to the People's Republic of China, excluding, for the purpose of this prospectus only, Taiwan and the special administrative regions of Hong Kong and Macau;

GMV are to gross merchandise volume, which is (i) the full value of all purchases transacted and settled on the stores operated by us (including our Maikefeng platform but excluding stores for the

Table of Contents

operations of which we only charge fixed fees) and (ii) the full value of purchases for which customers have placed orders and paid deposits on such stores and which have been settled offline. Our calculation of GMV includes value added tax and excludes (i) shipping charges, (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled;

O2O are to online-to-offline and offline-to-online commerce;

official brand stores are to brands' official online stores;

official marketplace stores are to brands' flagship stores and authorized stores on third-party online marketplaces;

RMB and Renminbi are to the legal currency of China;

ordinary shares are to our ordinary shares, par value US\$0.0001 per share, prior to the completion of this offering, and to our Class A and Class B ordinary shares, par value US\$0.0001 per share upon and after the completion of this offering;

transaction value are to the value of all purchases made through stores operated by a brand commerce service provider, and such definition is consistent with the iResearch Report; and

US\$ and U.S. dollars are to the legal currency of the United States.

Unless otherwise indicated, information in this prospectus assumes that the underwriters do not exercise their option to purchase 1,650,000 additional ADSs, representing 4,950,000 Class A ordinary shares.

Table of Contents

THE OFFERING

Offering price	US\$10.00 per ADS.
ADSs offered by us and outstanding immediately after this offering	11,000,000 ADSs (or 12,650,000 ADSs if the underwriters exercise their over-allotment option in full).
Ordinary shares outstanding immediately after this offering	145,825,312 ordinary shares (or 150,775,312 ordinary shares if the underwriters exercise their over-allotment option in full), comprising (i) 132,524,574 Class A ordinary shares, par value US\$0.0001 per share (or 137,474,574 Class A ordinary shares if the underwriters exercise their over-allotment option in full), and (ii) 13,300,738 Class B ordinary shares, par value US\$0.0001 per share.
The ADSs	<p>Each ADS represents three Class A ordinary shares, par value US\$0.0001 per share. The ADSs may be evidenced by an ADR.</p> <p>The depositary will hold the Class A ordinary shares underlying your ADSs. You will have rights as provided in the deposit agreement among us, the depositary and holders and beneficial owners of ADSs from time to time.</p> <p>We do not expect to pay dividends in the foreseeable future. If, however, we declare dividends on our ordinary shares, the depositary will pay you the cash dividends and other distributions it receives on our Class A ordinary shares, after deducting its fees and expenses in accordance with the terms set forth in the deposit agreement.</p> <p>You may turn in your ADSs to the depositary in exchange for Class A ordinary shares. The depositary will charge you fees for any exchange.</p> <p>We may amend or terminate the deposit agreement without your consent. If you continue to hold your ADSs after an amendment to the deposit agreement, you agree to be bound by the deposit agreement as amended.</p> <p>To better understand the terms of the ADSs, you should carefully read the Description of American Depositary Shares section of this prospectus. You should also read the deposit agreement, which is filed as an exhibit to the registration statement that includes this prospectus.</p>
Ordinary Shares	Our ordinary shares will be divided into Class A ordinary shares and Class B ordinary shares upon and after completion of this offering. On all matters subject to shareholders vote, holders of Class A

Table of Contents

ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to ten votes per share. We plan to issue Class A ordinary shares represented by our ADSs in this offering. Upon any transfer of a Class B ordinary share by its holder to any person who is not an affiliate of such holder as defined in our fourth amended and restated memorandum and articles of association, such Class B ordinary share shall automatically and immediately convert into one Class A ordinary share. Class B ordinary shares may be converted into an equal number of Class A ordinary shares at any time at the election of the holder of the Class B ordinary shares. In no event shall Class A ordinary shares be convertible into Class B ordinary shares. For more information on our ordinary shares, you should refer to the Description of Share Capital section of this prospectus.

Over-allotment option

We have granted the underwriters an option, exercisable within 30 days from the date of this prospectus, to purchase up to an 1,650,000 additional ADSs representing 4,950,000 Class A ordinary shares.

Use of proceeds

We expect that we will receive net proceeds of approximately US\$98.3 million from this offering (or approximately US\$113.7 million if the underwriters exercise their option to purchase additional ADSs in full), based on the initial public offering price of US\$10.00 per ADS, after deducting underwriting discounts and commissions and estimated offering expenses payable by us.

We intend to use the net proceeds from this offering as follows:

approximately US\$32.3 million for investment in sales and marketing activities;

approximately US\$25.8 million for investment in our research and development and technology infrastructure;

approximately US\$12.9 million for expansion of our warehousing and fulfillment infrastructure; and

the balance for general corporate purposes, working capital and potential acquisitions, investments and alliances (although we have no present commitments or agreements to enter into any acquisitions, investments or alliances).

See Use of Proceeds for more information.

Lock-up

We, our directors, executive officers and all of our existing shareholders have agreed with the underwriters not to sell, transfer or dispose of any of our ADSs, ordinary shares or similar securities for a period of 180 days after the date of this prospectus without the prior written consent of the representatives of the underwriters subject to certain exceptions. See Underwriting.

Table of Contents

Listing	<p>Prior to this offering, there has been no public market for our ordinary shares or ADSs.</p> <p>We have received approval for listing the ADSs on the NASDAQ Global Select Market under the symbol BZUN. Our ADSs and shares will not be listed on any other stock exchange or traded on any automated quotation system.</p>
Reserved ADSs	<p>At our request, the underwriters have reserved for sale, at the initial public offering price, up to 6% of the ADSs offered in this offering (assuming the underwriters do not exercise their option to purchase additional ADSs) to some of our directors, officers, employees, business associates and related persons through a directed share program. The directed share program will be administered by Credit Suisse Securities (USA) LLC.</p>
Depository	<p>JPMorgan Chase Bank, N.A.</p>

Table of Contents**SUMMARY CONSOLIDATED FINANCIAL AND OPERATING DATA**

The following summary consolidated statements of operations data for the years ended December 31, 2012, 2013 and 2014 and summary consolidated balance sheet data as of December 31, 2012, 2013 and 2014 have been derived from our audited consolidated financial statements included elsewhere in this prospectus. Our consolidated financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States, or U.S. GAAP.

The following summary consolidated statements of operations data for the three months ended March 31, 2014 and 2015 and summary consolidated balance sheet data as of March 31, 2015 have been derived from our unaudited interim condensed consolidated financial statements included elsewhere in this prospectus. The unaudited interim condensed consolidated financial statements have been prepared on the same basis as our audited consolidated financial statements and include all adjustments, consisting only of normal and recurring adjustments, that we consider necessary for a fair presentation of our financial position and operating results for the periods presented.

You should read this Summary Consolidated Financial and Operating Data section together with our consolidated financial statements and the related notes and the Management's Discussion and Analysis of Financial Condition and Results of Operations section included elsewhere in this prospectus. Our historical results are not necessarily indicative of results expected for future periods.

- (1) The pro forma balance sheet information as of March 31, 2015 assumes the conversion upon completion of the initial public offering of all convertible redeemable preferred shares outstanding as of March 31, 2015 into ordinary shares.
- (2) Reflects (i) the automatic conversion of all of our convertible redeemable preferred shares upon the completion of this offering and (ii) the issuance and sale by us of 33,000,000 Class A ordinary shares represented by 11,000,000 ADSs in this offering at the public offering price of US\$10.00 per ADS, after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, and further assuming no exercise by the underwriters of over-allotment option.

The following table sets forth the following operating data for each period indicated.

	For the Year Ended December 31,			For the Three Months Ended March 31,	
	2012	2013	2014	2014	2015
Number of brand partners as of the period end ⁽¹⁾	56	71	93	78	94
Number of GMV brand partners as of the period end ⁽²⁾	53	61	78	66	84
Total GMV ⁽³⁾ (RMB in millions)	1,460 ⁽⁴⁾	2,621 ⁽⁴⁾	4,249 ⁽⁴⁾	574 ⁽⁴⁾	1,157 ⁽⁴⁾
Average GMV per GMV brand partner ⁽⁵⁾	30	46	61	9.0	14.0

Edgar Filing: Baozun Inc. - Form 424B4

- (1) Brand partners are defined as companies for which we operate official brand stores or official marketplace stores under their brand names or have entered into agreements to do so.
- (2) GMV brand partners are defined as brand partners that contributed to our GMV during the respective periods.

Table of Contents

- (3) GMV is defined as (i) the full value of all purchases transacted and settled on stores operated by us (including our Maifeng platform but excluding stores for the operations of which we only charge fixed fees) and (ii) the full value of purchases for which customers have placed orders and paid deposits on such stores and which have been settled offline. Our calculation of GMV includes value added tax and excludes (i) shipping charges, (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled.
- (4) GMV of our Maifeng platform was nil, nil, RMB33.9 million (US\$5.5 million), RMB0.2 million and RMB22.5 million (US\$3.6 million) in 2012, 2013 and 2014 and the three months ended March 31, 2014 and 2015, respectively.
- (5) Average GMV per GMV brand partner is calculated by dividing GMV (excluding Maifeng) by the average number of GMV brand partners as of the beginning and end of the respective periods.

Non-GAAP Financial Measure

In evaluating our business, we consider and use one non-GAAP measure, non-GAAP net income/(loss), as a supplemental measure to review and assess our operating performance. The presentation of this non-GAAP financial measure is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with U.S. GAAP. We define non-GAAP net income/(loss) as net income/(loss) excluding share-based compensation expenses.

We present the non-GAAP financial measure because it is used by our management to evaluate our operating performance and formulate business plans. Non-GAAP net income/(loss) enables our management to assess our operating results without considering the impact of share-based compensation expenses. We also believe that the use of the non-GAAP measure facilitate investors' assessment of our operating performance.

The non-GAAP financial measure is not defined under U.S. GAAP and is not presented in accordance with U.S. GAAP. The non-GAAP financial measure has limitations as an analytical tool. One of the key limitations of using non-GAAP net income/(loss) is that it does not reflect all items of income and expense that affect our operations. Share-based compensation expenses have been and may continue to be incurred in our business and is not reflected in the presentation of non-GAAP net income/(loss). Further, the non-GAAP measure may differ from the non-GAAP information used by other companies, including peer companies, and therefore their comparability may be limited.

We compensate for these limitations by reconciling the non-GAAP financial measure to the nearest U.S. GAAP performance measure, which should be considered when evaluating our performance. We encourage you to review our financial information in its entirety and not rely on a single financial measure.

The following table reconciles our non-GAAP net income/(loss) in 2012, 2013 and 2014 and the three months ended March 31, 2014 and 2015 to the most directly comparable financial measure calculated and presented in accordance with U.S. GAAP, which is net income/(loss):

	For the Year Ended December 31,				For the Three Months Ended March 31,		
	2012	2013	2014		2014	2015	
	RMB	RMB	RMB	US\$	RMB	RMB	US\$
	(in thousands)						
Reconciliation of Net Loss to Non-GAAP Net Income/(Loss):							
Net income/(loss)	(47,234)	(37,771)	(59,814)	(9,646)	1,763	1,982	321

Table of Contents

RISK FACTORS

An investment in our ADSs involves material risks. You should carefully consider the risks and uncertainties set forth below, as well as all of the other information included in this prospectus, before deciding to invest in our ADSs. The occurrence of any of the following risks could materially and adversely affect our business, financial condition, results of operations and prospects. In any such case, the market price of our ADSs could decline and you could lose all or part of your investment.

Risks Related to Our Business

If the e-commerce market in China does not grow, or grows more slowly than we expect, demand for our services and solutions could be adversely affected.

Continued demand from our existing and potential brand partners to use our services and solutions depends on whether e-commerce will continue to be widely accepted. While online retail has existed in China since the 1990s, only recently have large online retail companies become profitable. The long-term viability and prospects of the online retail business in China remain relatively untested. Our future results of operations will depend on numerous factors affecting the development of the e-commerce industry in China, which may be beyond our control. These factors include:

the growth of internet, broadband, personal computer and mobile penetration and usage in China, and the rate of any such growth;

the trust and confidence level of online retail consumers in China, as well as changes in consumers' demographics, tastes and preferences;

whether alternative retail channels or business models that better address the needs of consumers emerge in China; and

the development of fulfillment, payment and other ancillary services associated with online purchases.

If consumer utilization of e-commerce channels in China does not grow or grows more slowly than we expect, demand for our services and solutions would be adversely affected, our revenues would be negatively impacted and our ability to pursue our growth strategy would be compromised.

If the complexities and challenges faced by brand partners seeking to sell online diminish, or if our brand partners increase their in-house e-commerce capabilities as an alternative to our solutions and services, demand for our solutions and services could be adversely affected.

One of the key attractions of our solutions and services to brand partners is our ability to help address the complexities and difficulties they face in the e-commerce market in China. If the level of such complexities and difficulties declines as a result of changes in the e-commerce landscape or otherwise, or if our brand partners choose to increase their in-house support capabilities as an alternative to our e-commerce solutions and

Edgar Filing: Baozun Inc. - Form 424B4

services, our solutions and services may become less important or attractive to our brand partners, and demand for our solutions and services may decline.

Our success is tied to the success of our existing and future brand partners for which we operate brand e-commerce business.

Our success is substantially dependent upon the success of our brand partners. As we continue to expand and optimize our brand partner base, our future success will also be tied to the success of our future brand partners. We cannot assure you that our efforts to optimize our brand partner base will be successful or will not have any material adverse impact on our business performance or results of operation. The retail business in China is intensely competitive. If our brand partners were to have financial difficulties, suffer impairment of their brands or if the profitability of, or demand for, their products decreases, it could adversely affect our results of operations and our ability to maintain and grow our business. Our business could also be adversely affected if our brand partners' marketing, brands or retail stores are not successful or if our brand partners reduce their marketing efforts.

Table of Contents

If we are unable to retain our existing brand partners, our results of operations could be materially and adversely affected.

We provide brand e-commerce solutions to brand partners primarily pursuant to annual and bi-annual contractual arrangements. These contracts may not be renewed or, if renewed, may not be renewed on the same or more favorable terms for us. We may not be able to accurately predict future trends in brand partners renewals, and our brand partners' renewal rates may decline or fluctuate due to factors such as level of satisfaction with our services and solutions and our fees and charges, as well as factors beyond our control, such as level of competition faced by our brand partners, their level of success in e-commerce and their spending levels.

In particular, some of our existing brand partners have had years of cooperation with us and we generated a significant portion of our net revenue through (i) the sale of products in the stores of these brands operated by us and (ii) provision of our services to these brand partners, which we collectively refer to as net revenues related to these brand partners in order to assess our overall business relationship with them. In 2014, net revenues related to our top two brand partners comprised approximately 30% and 22% of our total net revenues, respectively. In the three months ended March 31, 2015, net revenues related to our top two brand partners comprised approximately 32% and 23% of our total net revenues, respectively. Some of our other brand partners also contributed significantly to our total GMV while our net revenues related to them were less significant (each less than 10% of our total net revenues in 2014) as they mainly utilized our capabilities under the service fee model or consignment model and therefore we did not generate any product sales revenue related to them. However, if such a brand partner terminates or do not renew its business relationship with us, our GMV may be materially and adversely affected. Net revenues related to our top 10 brand partners in the aggregate comprised approximately 76% and 75% of our total net revenues in 2014 and the three months ended March 31, 2015, respectively. If some of our existing brand partners, in particular brand partners with years of cooperation with us, terminate or do not renew their business relationships with us, renew on less favorable terms or for fewer services and solutions, and we do not acquire replacement brand partners or otherwise grow our brand partner base, our results of operations may be materially and adversely affected.

Some of our existing brand partners do not allow us to sell products of, or provide similar services to, their competitors, which has restricted and may continue to restrict the development and expansion of our business, including the business operation of Maikefeng, our closeout retail platform which we launched in 2014. We have a variety of products on Maikefeng, some of which may be manufactured or distributed by competitors of our existing brand partners. If the operation of Maikefeng is considered by such brand partners as a breach under relevant distribution and service contracts with them, they may request an early termination of such contracts and claim for damages or other liabilities against us, as a result of which our business operations and reputations may be materially and adversely affected. Further, with the expansion in our business, we may be subject to similar non-compete restrictions requested from existing and future brand partners. Compliance with such restrictions will limit our ability to expand our business. If we are found by these brand partners to be in violation of the non-compete restrictions, we may be subject to breach liabilities, as a result of which our financial condition and results of operations may be materially and adversely affected.

We have incurred significant net losses since inception and may not be able to achieve and subsequently maintain profitability.

We incurred net losses of RMB47.2 million, RMB37.8 million and RMB59.8 million (US\$9.6 million) during the years ended December 31, 2012, 2013 and 2014, respectively. While we recorded net income of RMB1.8 million and RMB2.0 million (US\$0.3 million) during the three months ended March 31, 2014 and 2015, respectively, we cannot assure you that we will not incur net loss in the future. We anticipate that our operating expenses will increase substantially in the foreseeable future as we increase the scale of our operations. As a result, we can provide no assurance as to when or whether we will achieve profitability. In addition, as we will become a public company, we have begun, and will continue, to incur significant accounting, legal and other

Table of Contents

expenses that we did not incur as a private company. To achieve profitability, we will need to increase our revenue sufficiently to offset these higher expenses or increase sales of the products and services that have higher profitability or significantly reduce our expense level and if we are forced to reduce our expenses, our growth strategy could be compromised. If we are not able to achieve or subsequently maintain profitability, the value of our company and our ADSs could decline significantly.

In addition, our growth and profitability are affected by our revenue mix, which may vary over time because we work with our brand partners under different combinations of business models to achieve their objectives. Accordingly, our historical performance may not be indicative of future operating results. For more information, please see **Business** Our Business Models and Solutions.

We rely in part on a pricing model under which a variable portion of the revenues we generate from our brand partners is based upon the amount of GMV, and any change in the attractiveness of that model may adversely affect our financial results.

We have adopted a pricing model under which a portion of the revenues we generate from our brand partners is variable based on our GMV. If our GMV were to decline, or if our brand partners were to demand fixed pricing terms that do not provide for any variability based on the full value of all purchases transacted and settled on the stores operated by us, our revenues and profitability may be adversely affected.

If we fail to maintain our relationships with e-commerce channels, or if e-commerce channels otherwise curtail or inhibit our ability to integrate our solutions with their channels, our solutions would be less appealing to existing and potential brand partners.

We generate a substantial majority of our revenues from the solutions we provide on e-commerce channels, including but not limited to marketplaces, social media and mobile channels. These e-commerce channels have no obligation to do business with us or to allow us access to their channels in the long term. If we fail to maintain our relationships with these channels, they may decide at any time and for any reason to significantly curtail or inhibit our ability to integrate our solutions with their channels. Additionally, these channels may decide to make significant changes to their respective business models, policies, systems or plans, and those changes could impair or inhibit our brand partners ability to use our solutions to sell their products on those channels, or may adversely affect GMV that our brand partners can sell on those channels or reduce the desirability of selling on those channels. Further, these channels could decide to acquire similar capabilities that we possess and compete with us. Any of these could cause our brand partners to re-evaluate the value of our solutions and services and potentially terminate their relationships with us, which would have a material adverse effect on our results of operations.

We rely on the success of certain e-commerce channels such as Tmall.

A substantial majority of our GMV is derived from merchandise sold or services rendered on Tmall. If e-commerce channels such as Tmall are not successful in attracting consumers or their reputations are adversely affected for whatever reasons, our brand partners may cease to sell their products on these channels. As our results of operations rely on the solutions we provide on these e-commerce channels, a decrease in the use of these channels would reduce demands for our services, which would adversely affect our business and results of operations.

We may not be able to compete successfully against current and future competitors.

Edgar Filing: Baozun Inc. - Form 424B4

We face intense competition in the market for brand e-commerce solutions and services, and we expect competition to continue to intensify in the future. Increased competition may result in reduced pricing for our services and solutions or a decrease in our market share, any of which could negatively affect our ability to retain

Table of Contents

existing brand partners and attract new brand partners, our future financial and operating results, and our ability to grow our business.

A number of competitive factors could cause us to lose potential sales or to sell our services and solutions at lower prices or at reduced profitability, including:

Potential brand partners may choose to continue using or developing applications or building e-commerce teams or infrastructures in-house, rather than paying for our solutions and services;

The e-commerce channels themselves, which typically offer, often free, software tools that allow brand partners to connect to the e-commerce channels, may decide to compete more vigorously with us;

Competitors may adopt more aggressive pricing policies and offer more attractive sales terms, adapt more quickly to new technologies and changes in brand partners' requirements, and devote greater resources to the promotion and sales of their products and services than we can;

Current and potential competitors may offer software that addresses one or more online channel management functions at a lower price point or with greater depth than our solutions and may be able to devote greater resources to those solutions than we can; and

Software vendors could bundle channel management solutions with other solutions or offer such products at a lower price as part of a larger product sale.

In addition, competition may intensify as our competitors raise additional capital and as established companies in other market segments or geographic markets expand into our market segments or geographic markets. If we cannot compete successfully against our competitors, our business and our operating and financial results could be adversely affected.

Material disruption of e-commerce channels could prevent us from providing services to our brand partners and reduce sales in stores operated by us.

E-commerce channels could cease operations unexpectedly due to a number of events, including interruptions in telecommunication services, computer viruses and unlawful access of e-commerce channels. Any material channel downtime or disruption could prevent us from providing services to our brand partners and reduce sales in stores operated by us. Because we operate on a limited number of e-commerce channels, the adverse effects of such downtime and disruption could be significant to our operations as a whole.

We may not be successful in growing our Maikefeng platform.

Since our inception, we have focused on providing e-commerce services and solutions to brand partners. In March 2014, we expanded our business to extend our product and service offerings to cover the entire product life cycle for our brand partners, and launched our closeout retail online platform, Maikefeng, which offers authentic and high-quality products at discounted prices through our Maikefeng mobile application and mkf.com website. Our relatively short history in operating a closeout retail platform may make it difficult for us to grow our Maikefeng

Edgar Filing: Baozun Inc. - Form 424B4

platform. If we cannot successfully address new challenges and compete effectively, we may not be able to recover costs of our investments and eventually achieve profitability, and our future results of operations and growth prospects may be materially and adversely affected. In addition, the operations of our Maikefeng platform are subject to volatility because it is at an early stage of development, and such volatility may affect our results of operations.

Our expansion into new product categories may expose us to new challenges and more risks.

We currently serve brand partners in the apparel, appliances, electronics, home, food and health, cosmetics, insurance and automobile categories. In the future, we may provide services to brand partners in new product

Table of Contents

categories in which we have limited experience and operating history. This may make predicting our future results of operations more difficult than it otherwise would be. Therefore, our past results of operations should not be taken as indicative of our future performance. If we cannot successfully address new challenges and compete effectively, we may not be able to recover costs of our investments and eventually achieve profitability, and our future results of operations and growth prospects may be materially and adversely affected.

Our results of operations are subject to fluctuations due to the seasonality of our business and other events.

We have experienced and expect to continue to experience seasonal fluctuations in our revenues. These seasonal patterns have caused and will continue to cause fluctuations in our operating results. Our results of operations historically have been seasonal primarily because consumers increase their purchases during particular promotional activities, such as Singles Day (which is an online sales promotion event and falls on November 11 of each year) and the impact of seasonal buying patterns within certain categories such as apparel. In addition, we generally experience a lower level of sales activity in the first quarter due to the Chinese New Year holiday, during which consumers generally spend less time shopping online and businesses in China are generally closed.

In anticipation of increased sales activity during holiday seasons, we increase our inventory levels and incur additional expenses such as by hiring a significant number of temporary employees to supplement our permanent staff. If our revenues are below seasonal expectations during these dates, our operating results could be below the expectations of securities analysts and investors. Due to the nature of our business, it is difficult to predict the seasonal pattern of our sales and the impact of this seasonality on our business and financial results. In the future, our seasonal sales patterns may become more pronounced, may strain our personnel, customer service operations, fulfillment operations and shipment activities and may cause a shortfall in revenues compared to expenses in a given period. As a result, the trading price of our ADSs may fluctuate from time to time due to seasonality.

In addition, if too many consumers access the online stores operated by us within a short period of time due to increased promotions or other demand, we may experience system interruptions that make such online stores unavailable or prevent us from transmitting orders to our fulfillment operations, which may reduce the volume of transactions in the stores that we operate as well as the attractiveness of such online stores to consumers. In anticipation of increased sales activity during holiday seasons, we and our brand partners increase our inventory levels. If we and our brand partners do not increase inventory levels for popular products in sufficient amounts or are unable to restock popular products in a timely manner, we and our brand partners may fail to meet customer demand which could reduce the attractiveness of such online stores. Alternatively, if we overstock products, we may be required to take significant inventory markdowns or write-offs, which could reduce profits.

We have experienced rapid growth in recent years, and failure to adequately manage our expansion could impair our ability to deliver high-quality solutions to our brand partners.

Expansion has placed, and continues to place, significant strain on our management and resources. To accommodate our growth, we anticipate that we will need to implement a variety of new and upgraded operational and financial systems, procedures and controls, including the improvement of our accounting and other internal management systems. We will also need to continue to expand, train, manage and motivate our workforce and manage our relationships with our brand partners, suppliers, third-party merchants and other service providers. All of these endeavors involve risks and will require substantial management effort and significant additional expenditures. We cannot assure you that we will be able to manage our growth or execute our strategies effectively, and any failure to do so may have a material adverse effect on our business and prospects.

Our investments in other entities may not be successful and we may incur significant losses as a result.

We have made investments in third parties that are complementary to our business and operations. In the future, we may pursue select strategic alliances or joint ventures and potential strategic acquisitions that are

Table of Contents

complementary to our business and operations, including opportunities that can help us promote our solutions to new brand partners, expand our service offerings and improve our technology infrastructure. Strategic alliances or joint ventures with third parties could subject us to a number of risks, including risks associated with sharing proprietary information, non-performance or default by counterparties, and increased expenses in establishing these new alliances, any of which may materially and adversely affect our business. We may have little ability to control or monitor the actions of our strategic partners. To the extent a strategic partner suffers any negative publicity as a result of its business operations, our reputation may be negatively affected by virtue of our association with such party.

In addition, we may not be successful in achieving the strategic objective upon which any given investment or joint venture is premised, and we could lose all or part of our investment. As of March 31, 2015, we had investments in affiliates of RMB14.4 million (US\$2.3 million), among which RMB8.7 million (US\$1.4 million) represents the carrying value of our investment in Automoney Inc., or Automoney, an automobile performance solution provider in the PRC which we jointly established with an unrelated party investor. We subscribed 50% of its equity interest upon its formation in January 2015 for a cash contribution of RMB10.6 million. Due to the significant influence we have over Automoney's operating and financial policies, we account for our investment in Automoney under the equity method, and as a result, we are required to recognize our share of Automoney's losses in our statement of operations. As Automoney has incurred, and is expected to continue to incur, significant losses in the near future, we recognized RMB1.8 million (US\$0.3 million) of loss from equity investment in Automoney in the three months ended March 31, 2015 and expect to recognize even more loss from such equity investment in the near future. We have also paid certain expenses for Automoney, and as of March 31, 2015, we had amounts due from Automoney of RMB3.6 million (US\$0.6 million). As Automoney is expected to continue to incur losses, we may lose all of our investment in Automoney as well as the amounts due from Automoney. In addition, we may be required to perform impairment assessment and recognize impairment loss on any of our investments in the future. Any such losses may have a material adverse effect on our results of operations, and in particular, our net income or loss.

We may fail to expand effectively to international markets.

We have been expanding and will continue to expand our business internationally, which may cause our business to be susceptible to international business risks and challenges. We started offering our brand partners end-to-end solutions in Hong Kong in 2013. In October 2014, we established Taiwan Baozun Corporation, a wholly-owned subsidiary, to expand our provision of brand e-commerce solutions to Taiwan. As e-commerce grows in other South East Asian markets, we have also commenced our provision of IT services in Indonesia in 2014. International operations are subject to inherent risks and challenges that could adversely affect our business, such as compliance with international legal and regulatory requirements and managing fluctuations in currency exchange rates. Any negative impact from our international business efforts could negatively impact our business, operating results and financial condition as a whole. In addition, we may face additional competition from local companies. Local companies may have a substantial competitive advantage because of their greater understanding of, and focus on, local customers.

If we fail to manage our accounts receivable and inventories effectively, our results of operations, financial condition and liquidity may be materially and adversely affected.

Under the distribution model, we generally grant a credit period of no more than two weeks to the customers of our products. Under the service fee model, we normally charge service fees from our brand partners with a credit period of one month to four months. As of December 31, 2012, 2013 and 2014 and March 31, 2015, our accounts receivables amounted to RMB57.4 million, RMB106.5 million, RMB229.5 million (US\$37.0 million) and RMB271.3 million (US\$43.8 million), respectively. Our accounts receivables turnover days were 17 days in 2012, 20 days in 2013, 39 days in 2014 and 47 days in the three months ended March 31, 2015. The increases in the amount and turnover days were due to the increases in our sales volumes and our revenues generated from services.

Edgar Filing: Baozun Inc. - Form 424B4

Our inventories have increased significantly in recent periods, from RMB72.4 million as of December 31, 2012 to RMB133.3 million as of December 31, 2013 and RMB243.0 million (US\$39.2 million) as of

Table of Contents

December 31, 2014. These increases reflected the additional inventories required to support our substantially expanded sales volumes. While our inventories decreased to RMB197.6 million (US\$31.9 million) as of March 31, 2015, the decrease was due to a drop from our typically higher level of inventories during the fourth quarter of the calendar year as suppliers offer better procurement terms towards the end of the year. We cannot assure you that our inventories will not increase again in the future.

As we plan to continue expanding our product sales and our services, the amount and turnover days of our accounts receivables and inventories may continue to increase, which will make it more challenging for us to manage our working capital effectively and our results of operations, financial condition and liquidity may be materially and adversely affected.

We rely on our ability to enter into marketing and promotional arrangements with online services, search engines, directories and other websites to drive traffic to the stores we operate. If we are unable to enter into or properly maintain these marketing and promotional arrangements, our ability to generate revenue could be adversely affected.

We have entered into marketing and promotional arrangements with online services, search engines, directories and other web sites to provide content, advertising banners and other links to our brand partners e-commerce businesses. We expect to rely on these arrangements as significant sources of traffic to our brand partners e-commerce businesses and to attract new brand partners. If we are unable to maintain these relationships or enter into new arrangements on acceptable terms, our ability to attract new brand partners could be harmed. Further, many of the parties with which we may have online advertising arrangements provide advertising services for other marketers of goods. As a result, these parties may be reluctant to enter into or maintain relationships with us. Failure to achieve sufficient traffic or generate sufficient revenue from purchases originating from third parties may limit our brand partners and our ability to maintain market share and revenue.

We may not be able to respond to rapid changes in channel technologies or requirements.

The e-commerce market is characterized by rapid technological changes and frequent changes in rules, specifications and other requirements for our brand partners to be able to sell their merchandise on particular channels. Our ability to retain existing brand partners and attract new brand partners depends in large part on our ability to enhance and improve our existing solutions and introduce new solutions that can adapt quickly to these technological changes on the part of channels. To achieve market acceptance for our solutions, we must effectively anticipate and offer solutions that meet frequently changing channel requirements in a timely manner. If our solutions fail to do so, our ability to renew our contracts with existing brand partners and our ability to create or increase demand for our solutions will be impaired.

If we and our brand partners fail to anticipate changes in consumers buying preferences and adjust product offering and merchandising of the stores that we operate accordingly, our results of operation may be materially and adversely impacted.

Our success depends, in part, upon our ability and our brand partners ability to anticipate and respond to consumer trends with respect to products sold through the stores that we operate. Constantly changing consumer preferences have affected and will continue to affect the online retail industry. We must stay abreast of emerging consumer preferences and anticipate product trends that will appeal to existing and potential consumers. Our dedicated store operation teams work closely with our brand partners to manage inventory and site content of the brand stores that we operate. In order to be successful, we and our brand partners must accurately predict consumers tastes and avoid overstocking or understocking products. If we or our brand partners fail to identify and respond to changes in merchandising and consumer preferences, sales on our brand partners e-commerce businesses could suffer and we or our brand partners could be required to mark down unsold inventory, which could negatively impact our financial results.

Table of Contents

The proper functioning of our technology platform is essential to our business. Any failure to maintain the satisfactory performance of our platform could materially and adversely affect our business and reputation.

The satisfactory performance, reliability and availability of our technology platform are critical to our success and our ability to attract and retain brand partners and provide quality customer service. Any system interruptions caused by telecommunications failures, errors encountered during system upgrades or system expansions, computer viruses, hacking or other attempts to harm our systems that result in the unavailability or slowdown of our technology platform, degraded order fulfillment performance, or additional shipping and handling costs may, individually or collectively, materially and adversely affect our business, reputation, financial condition and results of operations.

In addition, any system failure or interruption could cause material damage to our reputation and brand image if our systems are perceived to be insecure or unreliable. Our servers may also be vulnerable to computer viruses, physical or electronic break-ins and similar disruptions, which could lead to system interruptions, website slowdown or unavailability, delays or errors in transaction processing, loss of data or the inability to accept and fulfill consumers' orders. Security breaches, computer viruses and hacking attacks have become more prevalent in our industry. We have experienced in the past and may experience in the future such attacks and unexpected interruptions. We can provide no assurance that our current security mechanisms will be sufficient to protect our IT systems from any third-party intrusions, viruses or hacker attacks, information or data theft or other similar activities. Any such future occurrences could materially and adversely affect our business, reputation, financial condition and results of operations.

Additionally, we must continue to upgrade and improve our technology platform to support our business growth, and failure to do so could impede our growth. However, we cannot assure you that we will be successful in executing these system upgrades and improvement strategies. In particular, our systems may experience interruptions during upgrades, and the new technologies or infrastructures may not be fully integrated with the existing systems on a timely basis, or at all. If our existing or future technology platform does not function properly, it could cause system disruptions and slow response times, affecting data transmission, which in turn could materially and adversely affect our business, financial condition and results of operations.

Any deficiencies in China's telecommunication infrastructure could impair our ability to provide e-commerce solutions to our brand partners and materially and adversely affect our results of operations.

Our business depends on the performance and reliability of the telecommunication infrastructure in China. The availability of our technology platform depends on telecommunications carriers and other third-party providers for communications and storage capacity, including bandwidth and server storage, among other things. Almost all access to the internet and mobile network is maintained through state-owned telecommunication carriers under administrative control, and we obtain access to end-user networks operated by such telecommunications carriers and service providers to present our internet platform to consumers. We have experienced service interruptions in the past, which were typically caused by service interruptions at the underlying external telecommunications service providers, such as the internet data centers and broadband carriers from which we lease services. Service interruptions prevent brand partners from utilizing our technology platform, and frequent interruptions could frustrate consumers and discourage them from attempting to place orders, which could cause us and our brand partners to lose consumers and adversely affect our results of operations.

Software failures or human errors could cause our solutions to oversell our brand partners' inventory or misprice their offerings, which would hurt our reputation and reduce demand for our services and solutions.

Edgar Filing: Baozun Inc. - Form 424B4

Some of our brand partners rely on our solutions to automate the allocation of their inventories simultaneously across multiple online channels, as well as to ensure that their sales comply with the policies of

Table of Contents

each channel. In many instances, our personnel operates our solutions on behalf of our brand partners. In the event that our solutions do not function properly, or if there are human errors on the part of our service staff, our brand partners might inadvertently sell more inventories than they actually have in stock or make sales that violate channel policies. Overselling their inventories could force our brand partners to cancel orders at rates that violate channel policies. Errors in our software or human error could cause transactions to be incorrectly processed that would cause GMV and, as a result, our fees to be overstated. We have experienced rare instances of such errors in the past and might experience similar occurrences in the future could reduce demand for our solutions and hurt our business reputation. Brand partners could also seek recourse against us in these cases.

Any interruption in our fulfillment operations for an extended period may have an adverse impact on our business.

Our ability to process and fulfill orders accurately depends on the smooth operation of our fulfillment and logistics network. Our fulfillment and logistics infrastructure may be vulnerable to damage caused by fire, flood, power outage, telecommunications failure, break-ins, earthquake, human error and other events. If any of our fulfillment and logistics infrastructure were rendered incapable of operations, then we may be unable to fulfill any orders. We do not carry business interruption insurance, and the occurrence of any of the foregoing risks could have a material adverse effect on our business, prospects, financial condition and results of operations.

We depend on third-party delivery service providers to deliver products to consumers, and if they fail to provide reliable delivery services, our business and reputation may be materially and adversely affected.

We rely on third-party delivery service providers to deliver products to consumers, and any major interruptions to or failures in these third parties' delivery services could prevent the timely or successful delivery of products. These interruptions may be due to unforeseen events that are beyond our control or the control of these third-party delivery companies, such as inclement weather, natural disasters, transportation interruptions or labor unrest or shortage. If products are not delivered on time or are delivered in a damaged state, consumers may refuse to accept products and may claim refund from us or our brand partners, and brand partners may have less confidence in our services. As a result, we may lose brand partners, and our financial condition and reputation could suffer.

We are subject to third-party payment processing related risks.

We accept payments using a variety of methods, including online payments with credit cards and debit cards issued by major banks in China, payment through third-party online payment platforms such as Alipay and Tenpay, and payment on delivery. For certain payment methods, including credit and debit cards, we pay interchange and other fees, which may increase over time and raise our operating costs and lower our profitability. We may also be subject to fraud and other illegal activities in connection with the various payment methods we offer, including online payment and payment on delivery options. We are also subject to various rules, regulations and requirements, regulatory or otherwise, governing electronic funds transfers, which could change or be reinterpreted to make it difficult or impossible for us to comply. If we fail to comply with these rules or requirements, we may be subject to fines and higher transaction fees and lose our ability to accept credit and debit card payments from consumers, process electronic funds transfers or facilitate other types of online payments, and our business, financial condition and results of operations could be materially and adversely affected.

If we are unable to provide high-quality customer service, our business and results of operations may be materially and adversely affected.

Edgar Filing: Baozun Inc. - Form 424B4

We depend on our online customer service representatives in our customer service center to provide live assistance to online shoppers. If our online customer service representatives fail to satisfy the individual needs of customers, our brand partners' sales could be negatively affected, and we may lose potential or existing brand

Table of Contents

partners, which could have a material adverse effect on our business, financial condition and results of operations.

Our business generates and processes a large amount of data, and the improper use or disclosure of such data could harm our reputation as well as have a material adverse effect on our business and prospects.

Our business generates and processes a large quantity of personal, transaction, demographic and behavioral data. We face risks inherent in handling large volumes of data and in protecting the security of such data. In particular, we face a number of challenges relating to data from transactions and other activities on our platform, including:

protecting the data in and hosted on our system, including against attacks on our system by outside parties or fraudulent behavior by our employees;

addressing concerns related to privacy and sharing, safety, security and other factors; and

complying with applicable laws, rules and regulations relating to the collection, use, disclosure or security of personal information, including any requests from regulatory and government authorities relating to such data.

Negative publicity, including negative internet postings, about us, our Baozun brand, management, brand partners and product offerings may have a material adverse effect on our business, reputation and the trading price of our ADSs.

Negative publicity about us, our Baozun brand, management, brand partners and product offerings may arise from time to time. Negative comments about the stores operated by us, products offered in such stores, our business operation and management may appear in internet postings and other media sources from time to time and we cannot assure you that other types of negative publicity of a more serious nature will not arise in the future. For example, if our customer service representatives fail to satisfy the individual needs of our customers, our customers may become disgruntled and disseminate negative comments about our product offerings and services. In addition, our brand partners may also be subject to negative publicity for various reasons, such as customers' complaints about the quality of their products and related services or other public relation incidents of such brand partners, which may adversely affect the sales of products of these brand partners in the stores operated by us and indirectly affect our reputation. Moreover, negative publicity about other online retailers or e-commerce service providers in China may arise from time to time and cause customers to lose confidence in the products and services we offer. Any such negative publicity, regardless of veracity, may have a material adverse effect on our business, our reputation and the trading price of our ADSs.

If counterfeit products are sold in the stores we operate, including our Maikefeng platform, our reputation and financial results could be materially and adversely affected.

We represent reputable brands, and we source goods from our brand partners directly or through third party procurement agents authorized by our brand partners. However, their measures of safeguarding against counterfeit products sold through e-commerce may not be adequate. Although we have indemnity clauses in most of our contracts with our brand partners, sales could decline and we may suffer reputational harm. We may be subject to sanctions under applicable laws and regulations if we are deemed to have participated or assisted in infringement activities associated with counterfeit goods, which may include injunctions to cease infringing activities, rectification, compensation, administrative penalties and even criminal liability, depending on the gravity of such misconduct. Furthermore, counterfeit products may be defective or inferior in quality as compared to authentic products and may pose safety risks to consumers. If consumers are injured by counterfeit products

Edgar Filing: Baozun Inc. - Form 424B4

sold through online stores we operate or our Maifeng platform, we may be subject to lawsuits, severe administrative penalties and criminal liability. See We may be subject to product liability claims that could be costly and time-consuming. We believe our reputation is extremely important to our success and our competitive position. The discovery of counterfeit products sold through online stores we operate or our

Table of Contents

Maikefeng platform may severally damage our reputation among brand partners, and they may refrain from using our services in the future, which would materially and adversely affect our business operations and financial results.

Any lack of requisite approvals, licenses or permits applicable to our business or failure to comply with PRC laws and regulations may have a material and adverse impact on our business, financial condition and results of operations.

Our business is subject to supervision and regulation by relevant PRC government authorities, including without limitation the Ministry of Commerce, or MOFCOM, the Ministry of Industry and Information Technology, or MIIT, the State Administration for Industry and Commerce and the State Food and Drug Administration. These government authorities promulgate and enforce regulations that cover many aspects of operation of online retailing and distribution of products such as food and medical devices, including entry into these industries, scope of permitted business activities, licenses and permits requisite for business operation, and restriction on foreign investments. We are required to hold a number of licenses and permits in connection with our business operation, including food distribution permits, as well as approvals for the establishment of foreign-invested enterprises engaging in the sale of goods over the internet, and we may be required to hold an ICP license for our Maikefeng business. Meanwhile, the brand partners we partner with are also obliged to hold licenses and meet regulatory requirements in order for them to sell products themselves or through our e-commerce solutions. While we currently hold all material licenses and permits required for our business operations, we cannot assure you that we will not be required to renew these licenses and permits upon their expiration or to obtain new licenses or permits in the future as a result of our business expansion, change in our business operations or change in laws and regulations applicable to us.

As e-commerce business via internet and mobile network is still evolving in China, new laws and regulations may be adopted from time to time, and substantial uncertainties exist regarding interpretation and implementation of current and future PRC laws and regulations applicable to our business operations. We cannot assure you that our current business activities will not be found in violation of any future laws and regulations or any of the laws and regulations currently in effect due to changes in the relevant authorities' interpretation of these laws and regulations. For example, the 2013 Classified Catalog of Telecommunications Services (Draft for Comments) specifies that information services provided through mobile networks are recognized as internet information services, and service providers, like operators of mobile application stores, will be required to meet certain qualifications, including obtaining an ICP license covering internet information services rendered through mobile network. With the expansion of our business via mobile channels, our PRC subsidiaries and VIE may therefore be required to obtain such ICP license or expand the current scope of our ICP license held through our VIE to cover internet information services rendered through mobile network.

If we fail to adapt to any new regulatory requirement or any competent government authority considers that we operate our business operation without any requisite license, permit or approval, or otherwise fails to comply with applicable regulatory requirements, we may be subject to administrative actions and penalties against us, including fines, confiscation of our incomes, revocation of our licenses or permits, or, in severe cases, cessation of certain business. In addition, if our brand partners are found by government authorities to have operated their business through us without requisite approvals, licenses or permits or otherwise to be in violation of applicable laws and regulations, they may be ordered to take rectification actions. Any of these actions may have a material and adverse effect on our business, financial condition and results of operations.

Our leased property interests may be defective and our right to lease the properties affected by such defects may be challenged, which could cause significant disruption to our business.

We leased 25 premises in China for our offices, customer service center and warehouses as of March 31, 2015. Some of the lessors of these leases have not provided us with sufficient documents to prove their ownership of the premises or their rights to lease the premises to us for our intended use. We may not be able to

Table of Contents

maintain such leases if the lessors are not legal owners of the properties or do not have competent authorizations from the legal owners of the properties or have not obtained requisite governmental approvals in respect of our leases. In addition, we cannot assure you that we will be able to successfully extend or renew our leases upon expiration of the current term on commercially reasonable terms or at all, and may therefore be forced to relocate our affected operations. This could disrupt our operations and result in significant relocation expenses, which could adversely affect our business, financial condition and results of operations. In addition, we compete with other businesses for premises at certain locations or of desirable sizes. As a result, even though we could extend or renew our leases, rental payments may significantly increase as a result of the high demand for the leased properties. In addition, we may not be able to locate desirable alternative sites for our facilities as our business continues to grow and failure in relocating our affected operations could adversely affect our business and operations.

We may be subject to product liability claims that could be costly and time-consuming.

We sell products manufactured by third parties, some of which may be defective. If any product that we sell were to cause personal injury or injury to property, the injured party or parties could bring claims against us as the retailer of the product. These claims will not be covered by insurance as we do not maintain any product liability insurance. Similarly, we could be subject to claims that customers of the online stores operated by us or our Maifeng platform were harmed due to their reliance on our product information, product selection guides, advice or instructions. If a successful claim were brought against us, it could adversely affect our business. We may have the right under applicable laws, rules and regulations to recover from the relevant brand partners, manufacturers or distributors compensation that we are required to make to consumers or end users in connection with a product liability, personal injury or a similar claim, if such relevant party is found responsible. However, there can be no assurance that we will be able to recover all or any amounts from these parties. Any product liability claim, regardless of its merit or success, could result in the expenditure of funds and management time and adverse publicity and could have a negative impact on our business.

We depend on key management as well as experienced and capable personnel generally, and any failure to attract, motivate and retain our staff could severely hinder our ability to maintain and grow our business.

Our future success is significantly dependent upon the continued service of our key executives and other key employees. If we lose the services of any member of management or key personnel, we may not be able to locate suitable or qualified replacements, and may incur additional expenses to recruit and train new staff, which could severely disrupt our business and growth.

In addition, we have a number of employees, including many members of management, whose equity ownership in our company could give them a substantial amount of personal wealth following our initial public offering. As a result, it may be difficult for us to continue to retain and motivate these employees, and this wealth could affect their decisions about whether or not they continue to remain with us. If we are unable to motivate or retain these employees, our business may be severely disrupted and our prospects could suffer.

Competition for talent in the PRC e-commerce industry is intense, and the availability of suitable and qualified candidates in China is limited. Competition for these individuals could cause us to offer higher compensation and other benefits to attract and retain them. Even if we were to offer higher compensation and other benefits, there is no assurance that these individuals will choose to join or continue to work for us. Any failure to attract or retain key management and personnel could severely disrupt our business and growth.

If we are unable to recruit, train and retain qualified personnel or sufficient workforce while controlling our labor costs, our business may be materially and adversely affected.

Our future success depends, to a significant extent, on our ability to recruit, train and retain qualified personnel, particularly technical, fulfillment, marketing and other operational personnel with experience in the

Table of Contents

e-commerce industry. Since our industry is characterized by high demand and intense competition for talent and labor, we can provide no assurance that we will be able to attract or retain qualified staff or other highly skilled employees that we will need to achieve our strategic objectives. Particularly, our fulfillment infrastructure is labor intensive and requires a substantial number of blue-collar workers, and these positions tend to have higher than average turnover. As of March 31, 2015, we employed a total of 258 logistics personnel. We may hire additional employees in connection with the strengthening of our fulfillment capabilities. We have observed an overall tightening of the labor market and an emerging trend of shortage of labor supply. Failure to obtain stable and dedicated warehousing, delivery and other labor support may lead to underperformance of these functions and cause disruption to our business. Labor costs in China have increased with China's economic development, particularly in the large cities where we operate our fulfillment centers and more generally in the urban areas where we maintain our delivery and pickup stations. It is also costly to employ qualified personnel who have the knowledge and experience of working with leading global brands. In addition, our ability to train and integrate new employees into our operations may also be limited and may not meet the demand for our business growth on a timely fashion, or at all, and rapid expansion may impair our ability to maintain our corporate culture. See *Increases in labor costs or restrictions in the supply of labor in China may materially and adversely affect our business, financial condition and results of operations.*

Increases in labor costs or restrictions in the supply of labor in China may materially and adversely affect our business, financial condition and results of operations.

We currently use workers dispatched by third-party labor service agents to provide customer service and perform fulfillment function. As of March 31, 2015, approximately 24% of our work force was dispatched by third-party labor service agents. Such labor arrangement does not fully comply with the Interim Provisions on Labor Dispatch issued in January 2014, which became effective on March 1, 2014, that provides the number of dispatched contract workers hired by an employer shall not exceed 10% of the total number of its work force. These Interim Provisions require us to formulate a plan to reduce the number of our dispatched contract workers to comply with such statutory requirement prior to March 1, 2016. Although we are allowed to continue to engage the dispatched workers pursuant to our existing agreements with labor service agents entered into before December 28, 2012, we will need to replace them with full-time employees after the expiration of these contracts. In addition, under the amended Labor Contract Law amended on December 28, 2012, labor dispatch is only allowed to apply to provisional, auxiliary or substitutive positions. As such, we may need to adjust our staffing arrangements which may result in an increase in our labor cost.

As of the date of this prospectus, we have not received any warning or notice of potential negative action by relevant labor authorities regarding our labor dispatch arrangement. However, if we are found to be in violation of the new rules regulating dispatched contract workers, we may be ordered to rectify the noncompliance by entering into written employment contracts with our dispatched contract workers, and if we fail to rectify within the time period specified by the labor authority, we may be subject to a penalty ranging from RMB5,000 (US\$806.6) to RMB10,000 (US\$1,613.2) per dispatched worker. See *Regulation Regulations Relating to Employment*.

We may not be able to adequately protect our intellectual property rights.

We rely on a combination of trademark, fair trade practice, patent, copyright and trade secret protection laws in China and other jurisdictions, as well as confidentiality procedures and contractual provisions, to protect our intellectual property rights. We also enter into confidentiality agreements with our employees and any third parties who may access our proprietary information, and we rigorously control access to our proprietary technology and information.

Intellectual property protection may not be sufficient in China or other countries in which we operate. Confidentiality agreements may be breached by counterparties, and there may not be adequate remedies available to us for any such breach. Accordingly, we may not be able to effectively protect our intellectual property rights.

Table of Contents

or to enforce our contractual rights in China or elsewhere. In addition, policing any unauthorized use of our intellectual property is difficult, time-consuming and costly and the steps we have taken may be inadequate to prevent the misappropriation of our intellectual property. In the event that we resort to litigation to enforce our intellectual property rights, such litigation could result in substantial costs and a diversion of our managerial and financial resources. We can provide no assurance that we will prevail in such litigation. In addition, our trade secrets may be leaked or otherwise become available to, or be independently discovered by, our competitors. Any failure in protecting or enforcing our intellectual property rights could have a material adverse effect on our business, financial condition and results of operations.

We may be accused of infringing intellectual property rights of third parties and content restrictions of relevant laws.

Third parties may claim that the technology or content used in our operation of online stores or our service offerings infringe upon their intellectual property rights. We have been in the past subject to non-material legal proceedings and claims relating to infringement of the intellectual property rights of others. The possibility of intellectual property claims against us increases as we continue to grow, particularly internationally. Such claims, whether or not having merit, may result in our expenditure of significant financial and management resources, injunctions against us or payment of damages. We may need to obtain licenses from third parties who allege that we have infringed their rights, but such licenses may not be available on terms acceptable to us or at all. These risks have been amplified by the increase in the number of third parties whose sole or primary business is to assert such claims.

China has enacted laws and regulations governing internet access and the distribution of products, services, news, information, audio-video programs and other content through the internet. The PRC government has prohibited the distribution of information through the internet that it deems to be in violation of PRC laws and regulations. If any of the information disseminated through the online stores operated by us were deemed by the PRC government to violate any content restrictions, we would not be able to continue to display such content and could become subject to penalties, including confiscation of income, fines, suspension of business and revocation of required licenses, which could materially and adversely affect our business, financial condition and results of operations.

The outcome of any claims, investigations and proceedings is inherently uncertain, and in any event defending against these claims could be both costly and time-consuming, and could significantly divert the efforts and resources of our management and other personnel. An adverse determination in any such litigation or proceedings could cause us to pay damages, as well as legal and other costs, limit our ability to conduct business or require us to change the manner in which we operate.

Our ability to raise capital in the future may be limited, and our failure to raise capital when needed could prevent us from growing.

We may in the future be required to raise capital through public or private financing or other arrangements. Such financing may not be available on acceptable terms, or at all, and our failure to raise capital when needed could harm our business. Additional equity financing may dilute the interests of our shareholders, and debt financing, if available, may involve restrictive covenants and could restrict our operational flexibility and reduce our profitability. If we cannot raise funds on acceptable terms, we may not be able to grow our business or respond to competitive pressures.

We may not have sufficient insurance coverage.

Edgar Filing: Baozun Inc. - Form 424B4

We have obtained insurance to cover certain potential risks, such as property damage. However, insurance companies in China offer limited business insurance products. As a result, we may not be able to acquire any insurance for certain types of risks such as business liability or service disruption insurance for our operations in

Table of Contents

China, and our coverage may not be adequate to compensate for all losses that may occur, particularly with respect to loss of business or operations. We do not maintain business interruption insurance or product liability insurance, nor do we maintain key-man life insurance. This could leave us exposed to potential claims and losses. Any business disruption, litigation, regulatory action, outbreak of epidemic disease or natural disaster could also expose us to substantial costs and diversion of resources. We cannot assure you that our insurance coverage is sufficient to prevent us from any loss or that we will be able to successfully claim our losses under our current insurance policy on a timely basis, or at all. If we incur any loss that is not covered by our insurance policies, or the compensated amount is significantly less than our actual loss, our business, financial condition and results of operations could be materially and adversely affected.

A severe or prolonged downturn in the global or Chinese economy could materially and adversely affect our business and our financial condition.

The global financial markets have experienced significant disruptions since 2008 and the United States, Europe and other economies went into a recession. The recovery from the lows of 2008 and 2009 has been uneven and is facing new challenges, including the escalation of the European sovereign debt crisis since 2011 and the slowdown of the Chinese economy in 2012. It is unclear whether the Chinese economy will resume its high growth rate. There is considerable uncertainty over the long-term effects of the expansionary monetary and fiscal policies adopted by the central banks and financial authorities of some of the world's leading economies, including the United States and China. There have also been concerns over unrest in the Middle East and Africa, which have resulted in volatility in oil and other markets. There have also been concerns about the economic effect of the earthquake, tsunami and nuclear crisis in Japan and tensions in the relationship between China and Japan. Economic conditions in China are sensitive to global economic conditions. Any prolonged slowdown in the global or Chinese economy may have a negative impact on our business, results of operations and financial condition, and continued turbulence in the international markets may adversely affect our ability to access the capital markets to meet liquidity needs.

Any occurrence of a natural disaster, widespread health epidemic or other outbreaks could have a material adverse effect on our business, financial condition and results of operations.

Our business could be materially and adversely affected by natural disasters, such as snowstorms, earthquakes, fires or floods, the outbreak of a widespread health epidemic, such as swine flu, avian influenza, severe acute respiratory syndrome, or SARS, Ebola or other events, such as wars, acts of terrorism, environmental accidents, power shortage or communication interruptions. The occurrence of such a disaster or a prolonged outbreak of an epidemic illness or other adverse public health developments in China or elsewhere in the world could materially disrupt our business and operations. Such events could also significantly impact our industry and cause a temporary closure of the facilities we use for our operations, which would severely disrupt our operations and have a material adverse effect on our business, financial condition and results of operations. Our operations could be disrupted if any of our employees or employees of our business partners were suspected of having the swine flu, avian influenza, SARS or Ebola, since this could require us or our business partners to quarantine some or all of such employees or disinfect the facilities used for our operations. In addition, our revenues and profitability could be materially reduced to the extent that a natural disaster, health epidemic or other outbreak harms the global or PRC economy in general. Our operations could also be severely disrupted if our buyers, sellers or other participants were affected by such natural disasters, health epidemics or other outbreaks.

If we fail to maintain proper and effective internal controls, our ability to produce accurate financial statements on a timely basis could be impaired.

We will be subject to the reporting requirements of the U.S. Securities Exchange Act of 1934, as amended, or the Exchange Act, the Sarbanes-Oxley Act and the rules and regulations of the NASDAQ Global Select Market after the completion of this offering. The Sarbanes-Oxley Act requires, among other things, that we

Table of Contents

maintain effective disclosure controls and procedures and internal controls over financial reporting. Commencing with our fiscal year ending December 31, 2016, we must perform system and process evaluation and testing of our internal controls over financial reporting to allow management to report on the effectiveness of our internal controls over financial reporting in our Form 20-F filing for that year, as required by Section 404 of the Sarbanes-Oxley Act. In addition, once we cease to be an emerging growth company as the term is defined in the JOBS Act, our independent registered public accounting firm must attest to and report on the effectiveness of our internal control over financial reporting. Our management may conclude that our internal control over financial reporting is not effective. Moreover, even if our management concludes that our internal control over financial reporting is effective, our independent registered public accounting firm, after conducting its own independent testing, may issue a report that is qualified if it is not satisfied with our internal controls or the level at which our controls are documented, designed, operated or reviewed, or if it interprets the relevant requirements differently from us. This will require that we incur substantial additional professional fees and internal costs to expand our accounting and finance functions and that we expend significant management efforts. Prior to this offering, we were never required to test our internal controls within a specified period, and, as a result, we may experience difficulty in meeting these reporting requirements in a timely manner.

Prior to this offering, we were a private company with limited accounting personnel and other resources with which to address our internal controls and procedures. Our management has not completed an assessment of the effectiveness of our internal control over financial reporting and our independent registered public accounting firm has not conducted an audit of our internal control over financial reporting. In connection with the audit of our consolidated financial statements for 2012, 2013 and 2014, we and our auditors, an independent registered public accounting firm, identified one material weakness and one significant deficiency in our internal control over financial reporting. As defined in the standards established by the U.S. Public Company Accounting Oversight Board, or PCAOB, a material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

The material weakness identified was we lacked formal process to identify and address risks of material misstatement related to U.S. GAAP reporting. The significant deficiency identified was we lacked audit committee and internal audit function to establish formal risk assessment process and internal control framework. We plan to implement a number of measures to address the material weakness and the significant deficiency that have been identified. See Management's Discussion and Analysis of Financial Condition and Results of Operations Internal Control over Financial Reporting. However, we cannot assure you that these and other remedial measures will remediate the material weakness and the significant deficiency.

Furthermore, it is possible that, had our management prepared a report on the effectiveness of, or our independent registered public accounting firm conducted an audit of, our internal control over financial reporting, additional significant deficiencies or material weaknesses might have been identified.

In addition, our internal control over financial reporting will not prevent or detect all errors and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud will be detected.

If we are not able to comply with the requirements of Section 404 of the Sarbanes-Oxley Act in a timely manner, or if we are unable to maintain proper and effective internal controls, we may not be able to produce timely and accurate financial statements. If that were to happen, the market price of our ADSs could decline and

Table of Contents

we could be subject to sanctions or investigations by the NASDAQ Global Select Market, the Securities and Exchange Commission, or SEC, or other regulatory authorities.

The audit report included in this prospectus is prepared by auditors who are not inspected by the PCAOB and, as such, you are deprived of the benefits of such inspection.

Our independent registered public accounting firm that issues the audit reports included in our prospectus filed with the SEC, as auditors of companies that are traded publicly in the United States and a firm registered with the US Public Company Accounting Oversight Board (United States), or the PCAOB, is required by the laws of the United States to undergo regular inspections by the PCAOB to assess its compliance with the laws of the United States and professional standards. Because our auditors are located in the Peoples Republic of China, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese authorities, our auditors are not currently inspected by the PCAOB.

Inspections of other firms that the PCAOB has conducted outside China have identified deficiencies in those firms' audit procedures and quality control procedures, which may be addressed as part of the inspection process to improve future audit quality. This lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating our auditor's audits and its quality control procedures. As a result, investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

If additional remedial measures are imposed on the Big Four PRC-based accounting firms, including our independent registered public accounting firm, in administrative proceedings brought by the SEC alleging the firms' failure to meet specific criteria set by the SEC, with respect to requests for the production of documents, we could be unable to timely file future financial statements in compliance with the requirements of the Securities Exchange Act of 1934.

Starting in 2011 the Chinese affiliates of the big four accounting firms (including our independent registered public accounting firm) were affected by a conflict between U.S. and Chinese law. Specifically, for certain U.S. listed companies operating and audited in mainland China, the SEC and the PCAOB sought to obtain from the Chinese firms access to their audit work papers and related documents. The firms were, however, advised and directed that under China law they could not respond directly to the US regulators on those requests, and that requests by foreign regulators for access to such papers in China had to be channeled through the China Securities Regulatory Commission, or CSRC.

In late 2012 this impasse led the SEC to commence administrative proceedings under Rule 102(e) of its Rules of Practice and also under the Sarbanes-Oxley Act of 2002 against the Chinese accounting firms, (including our independent registered public accounting firm). A first instance trial of the proceedings in July 2013 in the SEC's internal administrative court resulted in an adverse judgment against the firms. The administrative law judge proposed penalties on the firms including a temporary suspension of their right to practice before the SEC, although that proposed penalty did not take effect pending review by the Commissioners of the SEC. On February 6, 2015, before a review by the Commissioner had taken place, the firms reached a settlement with the SEC. Under the settlement, the SEC accepts that future requests by the SEC for the production of documents will normally be made to the CSRC. The firms will receive matching Section 106 requests, and are required to abide by a detailed set of procedures with respect to such requests, which in substance require them to facilitate production via the CSRC. If they fail to meet specified criteria, the SEC retains authority to impose a variety of additional remedial measures on the firms.

depending on the nature of the failure. Remedies for any future noncompliance could include, as appropriate, an automatic six-month bar on a

Table of Contents

single firm's performance of certain audit work, commencement of a new proceeding against a firm, or in extreme cases the resumption of the current proceeding against all four firms.

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about any such future proceedings against these audit firms may cause investor uncertainty regarding China-based, United States-listed companies and the market price of our ADSs may be adversely affected.

If our independent registered public accounting firm were denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act of 1934, as amended. Such a determination could ultimately lead to our delisting from the NASDAQ Global Select Market or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Risks Related to Our Corporate Structure

If the PRC government deems that the contractual arrangements in relation to Shanghai Zunyi do not comply with PRC regulatory restrictions on foreign investment in the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations.

Under current PRC laws and regulations, foreign investors are generally not allowed to own more than 50% of the equity interests in a value-added telecommunication service provider and any such foreign investor must have experience in providing value-added telecommunications services overseas and maintain a good track record.

We are a Cayman Islands holding company and our PRC subsidiaries are considered foreign-invested enterprises, directly or indirectly. Accordingly, none of these PRC subsidiaries is eligible to provide value-added telecommunication services in China. We do not currently provide value-added telecommunication services because our sales of goods purchased by us does not constitute providing value-added telecommunication services. Our PRC consolidated VIE Shanghai Zunyi, however, holds an ICP license and may develop e-commerce platforms for other trading parties. Shanghai Zunyi is 80% owned by Mr. Vincent Wenbin Qiu, our co-founder, chairman and chief executive officer, and 20% owned by Mr. Michael Qingyu Zhang, our director. Mr. Qiu and Mr. Zhang are both PRC citizens. We did not record any revenues from Shanghai Zunyi in 2012 and 2013, and revenues from Shanghai Zunyi contributed to 1.3% and 4.2% of our total net revenues in 2014 and the three months ended March 31, 2015, respectively.

We entered into a series of contractual arrangements with Shanghai Zunyi and its shareholders, which enable us to:

exercise effective control over Shanghai Zunyi;

Edgar Filing: Baozun Inc. - Form 424B4

receive substantially all of the economic benefits of Shanghai Zunyi; and

have an exclusive option to purchase all or part of the equity interests and assets in Shanghai Zunyi when and to the extent permitted by PRC law.

Because of these contractual arrangements, we are the primary beneficiary of Shanghai Zunyi and hence consolidate its financial results as our VIE. For a detailed discussion of these contractual arrangements, see Corporate History and Structure.

In the opinion of Fangda Partners, our PRC legal counsel, (i) the ownership structures of Shanghai Baozun and our VIE in China, both currently and immediately after giving effect to this offering, do not violate any

Table of Contents

applicable PRC laws and regulations currently in effect; and (ii) the contractual arrangements between Shanghai Baozun, our VIE and its shareholders governed by PRC law are valid, binding and enforceable in accordance with their terms and applicable PRC laws and regulations currently in effect, and do not violate any PRC laws or regulations currently in effect. However, our PRC legal counsel has also advised us that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules; accordingly, the PRC regulatory authorities may take a view that is contrary to the opinion of our PRC legal counsel. It is uncertain whether any new PRC laws or regulations relating to VIE structures will be adopted or if adopted, what they would provide. In particular, in January 2015, the Ministry of Commerce, or MOFCOM, published a discussion draft of the proposed Foreign Investment Law for public review and comments. Among other things, the draft Foreign Investment Law expands the definition of foreign investment and introduces the principle of actual control in determining whether a company is considered a foreign-invested enterprise, or an FIE. Under the draft Foreign Investment Law, variable interest entities would also be deemed as FIEs, if they are ultimately controlled by foreign investors, and be subject to restrictions on foreign investments. However, the draft law has not taken a position on what actions will be taken with respect to the existing companies with the variable interest entity structure. It is uncertain when the draft would be signed into law and whether the final version would have any substantial changes from the draft.

If we or our VIE is found to be in violation of any existing or future PRC laws or regulations, or fail to obtain or maintain any of the required permits or approvals, the relevant PRC regulatory authorities would have broad discretion to take action in dealing with such violations or failures, including:

revoking the business licenses and/or operating licenses of our VIE;

shutting down our website, or discontinuing or restricting the conduct of any transactions between certain of our PRC subsidiaries and VIE;

imposing fines, confiscating the income from our VIE, or imposing other requirements with which we or our VIE may not be able to comply;

requiring us to restructure our ownership structure or operations, including terminating the contractual arrangements with our VIE and deregistering the equity pledges of our VIE, which in turn would affect our ability to consolidate, derive economic interests from, or exert effective control over our VIE; or

restricting or prohibiting our use of the proceeds of this offering to finance our business and operations in China.

The imposition of any of these penalties would result in a material and adverse effect on our ability to conduct our business. In addition, it is unclear what impact the PRC government actions would have on us and on our ability to consolidate the financial results of Shanghai Zunyi in our consolidated financial statements, if the PRC government authorities were to find our legal structure and contractual arrangements to be in violation of PRC laws and regulations. If the imposition of any of these government actions causes us to lose our right to direct the activities of Shanghai Zunyi or our right to receive substantially all the economic benefits and residual returns from Shanghai Zunyi and we are not able to restructure our ownership structure and operations in a satisfactory manner, we would no longer be able to consolidate the financial results of Shanghai Zunyi in our consolidated financial statements. Either of these results, or any other significant penalties that might be imposed on us in this event, would have an adverse effect on our financial condition and results of operations.

We rely on contractual arrangements with our VIE and its shareholders for a portion of our business operations, which may not be as effective as direct ownership in providing operational control.

Edgar Filing: Baozun Inc. - Form 424B4

Although a substantial majority of our revenue has historically been generated by our PRC subsidiaries, we have relied and expect to continue to rely on contractual arrangements with Shanghai Zunyi and its shareholders to operate our Maifeng platform and hold our ICP license to enable us to develop online marketplaces. Such contractual arrangements include: (i) an exclusive technology service agreement which has an initial term of

Table of Contents

20 years and will be automatically renewed on a yearly basis thereafter unless otherwise notified by Shanghai Baozun; (ii) an exclusive call option agreement which will remain in effect until all the equity interests and assets that are the subject of such option agreement are transferred to Shanghai Baozun or its designated entities or individuals; (iii) a proxy agreement which has an initial term of 20 years and will be automatically renewed on a yearly basis thereafter unless otherwise notified by Shanghai Baozun; and (iv) equity interest pledge agreements which will remain in full effect until all the secured contractual obligations have been performed or all the secured debts have been discharged. For a description of these contractual arrangements, see Corporate History and Structure. These contractual arrangements may not be as effective as direct ownership in providing us with control over our VIE.

If we had direct ownership of Shanghai Zunyi, we would be able to exercise our rights as a shareholder to effect changes in the board of directors of Shanghai Zunyi, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level. However, under the current contractual arrangements, we rely on the performance by our VIE and its shareholders of their obligations under the contracts to exercise control over our VIE. However, the shareholders of our VIE may not act in the best interests of our company or may not perform their obligations under these contracts. Such risks exist throughout the period in which we intend to operate our business through the contractual arrangements with our VIE. We may replace the shareholders of our VIE at any time pursuant to our contractual arrangements with it and its shareholders. However, if any dispute relating to these contracts or the replacement of the shareholders remains unresolved, we will have to enforce our rights under these contracts through the operations of PRC law and courts and therefore will be subject to uncertainties in the PRC legal system. See Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business. Therefore, our contractual arrangements with our VIE may not be as effective in ensuring our control over the relevant portion of our business operations as direct ownership would be.

Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.

If our VIE or its shareholders fail to perform their respective obligations under the contractual arrangements, we may have to incur substantial costs and expend additional resources to enforce such arrangements. We may also have to rely on legal remedies under PRC law, including seeking specific performance or injunctive relief, and claiming damages. We cannot assure you such remedies will be effective. For example, if the shareholders of Shanghai Zunyi were to refuse to transfer their equity interest in Shanghai Zunyi to us or our designee when we exercise the purchase option pursuant to these contractual arrangements, or if they were otherwise to act in bad faith toward us, we may have to take legal actions to compel them to perform their contractual obligations.

All the agreements under our contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in China. Accordingly, these contracts would be interpreted in accordance with PRC law and any disputes would be resolved in accordance with PRC legal procedures. The legal system in the PRC is not as developed as in some other jurisdictions, such as the United States. See Risks Related to Doing Business in the People's Republic of China There are uncertainties regarding the interpretation and enforcement of PRC laws, rules and regulations. Meanwhile, there are very few precedents and little formal guidance as to how contractual arrangements in the context of a VIE should be interpreted or enforced under PRC law, and as a result it may be difficult to predict how an arbitration panel would view such contractual arrangements. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. Additionally, under PRC law, rulings by arbitrators are final, parties cannot appeal the arbitration results in courts, and if the losing parties fail to carry out the arbitration awards within a prescribed time limit, the prevailing parties may only enforce the arbitration awards in PRC courts through arbitration award recognition proceedings, which would require additional expenses and delay.

Our VIE holds the ICP license and operates our Maifefeng platform. In the event we are unable to enforce our contractual arrangements, we may not be able to exert effective control over our VIE, and our ability to

Table of Contents

conduct the Maikefeng businesses may be negatively affected. Considering that the substantial majority of our revenues are currently generated from our subsidiaries instead of our VIE, we do not believe that any failure by us to exert effective control over our VIE would have an immediate material adverse effect on our overall business operations, financial condition or results of operations. However, the business operation of Shanghai Zunyi, our VIE, may grow in the future, and if we fail to maintain effective control over our VIE, we may not be able to continue to consolidate our VIE's financial results with our financial results, and such failure could in the future materially and adversely affect our business, financial condition, results of operations and prospects.

The shareholders of our VIE may have potential conflicts of interest with us, which may materially and adversely affect our business and financial condition.

Mr. Vincent Wenbin Qiu and Mr. Michael Qingyu Zhang are the shareholders of our VIE, Shanghai Zunyi. Mr. Qiu is our co-founder, chairman and chief executive officer, while Mr. Zhang is our co-founder and director. They may have potential conflicts of interest with us. These shareholders may breach, or cause our VIE to breach, or refuse to renew, the existing contractual arrangements we have with them and our VIE, which would have a material and adverse effect on our ability to effectively control our VIE and receive substantially all the economic benefits from it. For example, the shareholders may be able to cause our agreements with Shanghai Zunyi to be performed in a manner adverse to us by, among other things, failing to remit payments due under the contractual arrangements to us on a timely basis. We cannot assure you that when conflicts of interest arise, any or all of these shareholders will act in the best interests of our company or such conflicts will be resolved in our favor.

Currently, we do not have any arrangements to address potential conflicts of interest between these shareholders and our company. Mr. Qiu and Mr. Zhang are also directors of our company. We rely on Mr. Qiu and Mr. Zhang to abide by the laws of the Cayman Islands and China, which provide that directors owe a fiduciary duty to the company that requires them to act in good faith and in what they believe to be the best interests of the company and not to use their position for personal gains. If we cannot resolve any conflict of interest or dispute between us and the shareholders of Shanghai Zunyi, we would have to rely on legal proceedings, which could result in disruption of our business and subject us to substantial uncertainty as to the outcome of any such legal proceedings.

PRC regulations of loans to PRC entities and direct investment in PRC entities by offshore holding companies may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our wholly owned subsidiary, Shanghai Baozun.

We may transfer funds to Shanghai Baozun or finance Shanghai Baozun by means of shareholder loans or capital contributions upon completion of this offering. Any such loans to Shanghai Baozun, which is a foreign-invested enterprise, cannot exceed statutory limits, which is the difference between the registered capital and the total investment amount of such subsidiary, and shall be registered with the State Administration of Foreign Exchange, or SAFE, or its local counterparts. Currently such statutory limit on the loans we may make to Shanghai Baozun is RMB120 million (US\$19.3 million). Furthermore, any capital contributions we make to Shanghai Baozun shall be approved by the Ministry of Commerce, or MOFCOM, or its local counterparts. We may not be able to obtain these government registrations or approvals on a timely basis, if at all. If we fail to receive such registrations or approvals, our ability to provide loans or capital contributions to Shanghai Baozun in a timely manner may be negatively affected, which could materially and adversely affect our liquidity and our ability to fund and expand our business.

In addition, SAFE promulgated the Circular on the Relevant Operating Issues concerning Administration Improvement of Payment and Settlement of Foreign Currency Capital of Foreign-invested Enterprises, or Circular 142, on August 29, 2008. SAFE promulgated Circular 45 on November 16, 2011 in order to clarify the application of Circular 142. Under Circular 142 and Circular 45, registered capital of a foreign-invested company settled in RMB converted from foreign currencies may only be used within the business scope approved by the

Table of Contents

applicable governmental authority and may not be used for equity investments in the PRC. In addition, foreign-invested companies may not change how they use such capital without SAFE's approval, and may not in any case use such capital to repay RMB loans if proceeds of such loans have not been utilized. Violations of Circular 142 or Circular 45 may result in severe penalties. As a result, Circular 142 and Circular 45 may significantly limit our ability to transfer the net proceeds from our initial public offering and subsequent offerings or financings to Shanghai Baozun, which may adversely affect our liquidity and our ability to fund and expand our business in the PRC.

Contractual arrangements in relation to our VIE may be subject to scrutiny by the PRC tax authorities and they may determine that we or our PRC VIE owes additional taxes, which could negatively affect our financial condition and the value of your investment.

Under applicable PRC laws and regulations, arrangements and transactions among related parties may be subject to audit or challenge by the PRC tax authorities. We could face material and adverse tax consequences if the PRC tax authorities determine that the contractual arrangements between Shanghai Baozun, our wholly owned subsidiary in China, Shanghai Zunyi, our VIE in China, and its shareholders were not entered into on an arm's-length basis in such a way as to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, and adjust Shanghai Zunyi's income in the form of a transfer pricing adjustment. A transfer pricing adjustment could, among other things, result in a reduction of expense deductions recorded by Shanghai Zunyi for PRC tax purposes, which could in turn increase their tax liabilities. In addition, the PRC tax authorities may impose punitive interest on Shanghai Zunyi for the adjusted but unpaid taxes at the rate of 5% over the basic RMB lending rate published by the People's Bank of China for a period according to the applicable regulations. Our financial position could be materially and adversely affected if our VIE's tax liabilities increase or if they are required to pay punitive interest.

Risks Related to Doing Business in the People's Republic of China

Changes in the political and economic policies of the PRC government may materially and adversely affect our business, financial condition and results of operations and may result in our inability to sustain our growth and expansion strategies.

Most of our operations are conducted in the PRC and a substantial majority of our revenue is sourced from the PRC. Accordingly, our financial condition and results of operations are affected to a significant extent by economic, political and legal developments in the PRC.

The PRC economy differs from the economies of most developed countries in many respects, including the extent of government involvement, level of development, growth rate, control of foreign exchange and allocation of resources. Although the PRC government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the PRC government continues to play a significant role in regulating industry development by imposing industrial policies. The PRC government also exercises significant control over China's economic growth by allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, regulating financial services and institutions and providing preferential treatment to particular industries or companies.

While the PRC economy has experienced significant growth in the past three decades, growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage economic growth and guide the allocation of resources. Some of these measures may benefit the overall PRC economy, but may also have a negative effect on us. Our financial condition and results of operation could be materially and adversely affected by government control over capital investments or changes in tax regulations that are applicable to us. In addition, the PRC government has implemented in the past

Table of Contents

certain measures, including interest rate increases, to control the pace of economic growth. These measures may cause decreased economic activity, which in turn could lead to a reduction in demand for our services and consequently have a material adverse effect on our businesses, financial condition and results of operations.

There are uncertainties regarding the interpretation and enforcement of PRC laws, rules and regulations.

A substantial majority of our operations are conducted in the PRC, and are governed by PRC laws, rules and regulations. Our PRC subsidiaries and VIE are subject to laws, rules and regulations applicable to foreign investment in China. The PRC legal system is a civil law system based on written statutes. Unlike the common law system, prior court decisions may be cited for reference but have limited precedential value.

In 1979, the PRC government began to promulgate a comprehensive system of laws, rules and regulations governing economic matters in general. The overall effect of legislation over the past three decades has significantly enhanced the protections afforded to various forms of foreign investment in China. However, China has not developed a fully integrated legal system, and recently enacted laws, rules and regulations may not sufficiently cover all aspects of economic activities in China or may be subject to significant degrees of interpretation by PRC regulatory agencies. In particular, because these laws, rules and regulations are relatively new, and because of the limited number of published decisions and the nonbinding nature of such decisions, and because the laws, rules and regulations often give the relevant regulator significant discretion in how to enforce them, the interpretation and enforcement of these laws, rules and regulations involve uncertainties and can be inconsistent and unpredictable. In addition, the PRC legal system is based in part on government policies and internal rules, some of which are not published on a timely basis or at all, and which may have a retroactive effect. As a result, we may not be aware of our violation of these policies and rules until after the occurrence of the violation.

Any administrative and court proceedings in China may be protracted, resulting in substantial costs and diversion of resources and management attention. Since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be more difficult to evaluate the outcome of administrative and court proceedings and the level of legal protection we enjoy than in more developed legal systems. These uncertainties may impede our ability to enforce the contracts we have entered into and could materially and adversely affect our business, financial condition and results of operations.

We are subject to laws that are applicable to retailers, including advertising and promotion laws and consumer protection laws that could require us to modify our current business practices and incur increased costs.

As an online distributor of goods, we are subject to numerous PRC laws and regulations that regulate retailers generally or govern online retailers specifically. For example, we are subject to laws in relation to advertising and online promotion, such as the Advertising Law, Pricing Law and Anti-Unfair Competition Law, and also consumer protection laws that are applicable to retailers. In the past, we have been subject to non-material administrative proceedings due to non-compliance with such laws and may continue to be subject to allegations of non-compliance with such laws. Such allegations, which may or may not have merit, may result in costs to us.

If these regulations were to change or if we were found to be in violation with them, we need to spend additional costs to rectify non-compliance, or we could be subject to fines or penalties or suffer reputational harm, which could reduce demand for the products or services offered by us and hurt our business and results of operations. For example, the most recently amended Consumer Protection Law, which became effective in March 2014, further strengthens the protection of consumers and imposes more stringent requirements and obligations on both business operators, especially on businesses that operate on the internet. Pursuant to the Consumer Protection Law, consumers are generally entitled to return goods purchased within seven days upon receipt without giving any reasons if they purchase the goods over the internet.

Consumers whose interests have

Table of Contents

been damaged due to their purchase of goods online may claim damages against sellers. Moreover, if we deceive consumers or knowingly sell substandard or defective products, we would not only compensate consumers for their losses, but also pay additional damages equal to three times the price of the goods or services.

Operators of online marketplace platforms, such as Tmall and JD.com who have partnered with us, are also subject to stringent obligations under the amended Consumer Protection Law. For example, where platform operators are unable to provide the real names, addresses and valid contact details of the sellers, the consumers may also claim damages from the platform operators. Operators of online marketplace platforms what know or should have known that sellers use their platforms to infringe upon legitimate rights and interests of consumers but fail to take necessary measures will bear joint and several liabilities with the sellers. Operators of online marketplace platforms may take measures and impose stricter requirements on sellers as a react to their obligations under the amended Customer Protection Law.

Similar legal requirements are frequently changed and subject to interpretation, and we are unable to predict the ultimate cost of compliance with these requirements or their effect on our operations. We may be required to make significant expenditures or modify our business practices to comply with existing or future laws and regulations or to satisfy compliance requests from the marketplace platforms we partnered with, which may increase our costs and materially limit our ability to operate our business.

The approval of the China Securities Regulatory Commission, or the CSRC, may be required in connection with this offering under a PRC regulation. The regulation also establishes more complex procedures for acquisitions conducted by foreign investors that could make it more difficult for us to grow through acquisitions.

On August 8, 2006, six PRC regulatory agencies, including the MOFCOM, the State-Owned Assets Supervision and Administration Commission, or the SASAC, the State Administration of Taxation, the State Administration for Industry and Commerce, or the SAIC, the CSRC, and the SAFE, jointly adopted the Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, which came into effect on September 8, 2006 and were amended on June 22, 2009. The M&A Rules include, among other things, provisions that purport to require that an offshore special purpose vehicle formed for the purpose of an overseas listing of securities in a PRC company obtain the approval of the CSRC prior to the listing and trading of such special purpose vehicle's securities on an overseas stock exchange. On September 21, 2006, the CSRC published on its official website procedures regarding its approval of overseas listings by special purpose vehicles. However, substantial uncertainty remains regarding the scope and applicability of the M&A Rules to offshore special purpose vehicles.

While the application of the M&A Rules remains unclear, we believe, based on the advice of our PRC counsel, Fangda Partners, that the CSRC approval is not required in the context of this offering because (i) when we set up our offshore holding structure, Shanghai Baozun, currently our major PRC subsidiary, was a then existing foreign-invested entity and not a PRC domestic company as defined under the M&A rules, and the acquisition by Baozun Hong Kong Holding Limited of all the equity interest in Shanghai Baozun was not subject to the M&A Rules; and (ii) there is no statutory provision that clearly classifies the contractual arrangement among our PRC subsidiary, Shanghai Baozun, and our PRC VIE, Shanghai Zunyi and its shareholders as transactions regulated by the M&A Rules. However, uncertainties still exist as to how the M&A Rules will be interpreted and implemented, and the opinion of our PRC counsel is subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. We cannot assure you that the relevant PRC government agencies, including the CSRC, would reach the same conclusion as our PRC counsel. If the CSRC or other PRC regulatory body subsequently determines that we need to obtain the CSRC's approval for this offering or if the CSRC or any other PRC government authorities promulgates any interpretation or implements rules before our listing that would require us to obtain CSRC or other governmental approvals for this offering, we may face adverse actions or sanctions by the CSRC or other PRC regulatory agencies. In any such event, these regulatory agencies may impose fines and penalties on our operations in

Table of Contents

China, limit our operating privileges in China, delay or restrict the repatriation of the proceeds from this offering into the PRC or take other actions that could have a material adverse effect on our business, financial condition, results of operations, reputation and prospects, as well as our ability to complete this offering. The CSRC or other PRC regulatory agencies may also take actions requiring us, or making it advisable for us, to halt this offering before settlement and delivery of the ADSs offered by this prospectus. Consequently, if you engage in market trading or other activities in anticipation of and prior to settlement and delivery, you do so at the risk that such settlement and delivery may not occur.

The new regulations also established additional procedures and requirements that are expected to make merger and acquisition activities in China by foreign investors more time-consuming and complex, including requirements in some instances that the MOFCOM be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise, or that the approval from the MOFCOM be obtained in circumstances where overseas companies established or controlled by PRC enterprises or residents acquire affiliated domestic companies. We may grow our business in part by acquiring other companies operating in our industry. Complying with the requirements of the new regulations to complete such transactions could be time-consuming, and any required approval processes, including approval from the MOFCOM, may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share. See Regulation M&A Rules and Overseas Listing.

PRC regulations relating to investments in offshore companies by PRC residents may subject our PRC-resident beneficial owners or our PRC subsidiaries to liability or penalties, limit our ability to inject capital into our PRC subsidiaries or limit our PRC subsidiaries' ability to increase their registered capital or distribute profits.

SAFE promulgated the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37, on July 4, 2014, which replaced the former circular commonly known as SAFE Circular 75 promulgated by SAFE on October 21, 2005. SAFE Circular 37 requires PRC residents to register with local branches of SAFE in connection with their direct establishment or indirect control of an offshore entity, for the purpose of overseas investment and financing, with such PRC residents' legally owned assets or equity interests in domestic enterprises or offshore assets or interests, referred to in SAFE Circular 37 as a special purpose vehicle. SAFE Circular 37 further requires amendment to the registration in the event of any significant changes with respect to the special purpose vehicle, such as increase or decrease of capital contributed by PRC individuals, share transfer or exchange, merger, division or other material event. In the event that a PRC shareholder holding interests in a special purpose vehicle fails to fulfill the required SAFE registration, the PRC subsidiaries of that special purpose vehicle may be prohibited from making profit distributions to the offshore parent and from carrying out subsequent cross-border foreign exchange activities, and the special purpose vehicle may be restricted in its ability to contribute additional capital into its PRC subsidiary. Moreover, failure to comply with the various SAFE registration requirements described above could result in liability under PRC law for evasion of foreign exchange controls. According to the Notice on Further Simplifying and Improving Policies for the Foreign Exchange Administration of Direct Investment released on February 13, 2015 by SAFE, local banks will examine and handle foreign exchange registration for overseas direct investment, including the initial foreign exchange registration and amendment registration, under SAFE Circular 37 from June 1, 2015. However, since this notice has not yet come into force, there exist high uncertainties with respect to its interpretation and implementation by governmental authorities and banks.

Mr. Vincent Wenbin Qiu, Mr. Junhua Wu and Mr. Michael Qingyu Zhang have completed initial filings with the local counterpart of SAFE relating to their investments in us. However, we may not be aware of the identities of all of our beneficial owners who are PRC residents. We do not have control over our beneficial owners and cannot assure you that all of our PRC-resident beneficial owners will comply with SAFE Circular 37 and subsequent implementation rules. The failure of our beneficial owners who are PRC residents to register or amend their foreign exchange registrations in a timely manner pursuant to SAFE Circular 37 and subsequent

Table of Contents

implementation rules, or the failure of future beneficial owners of our company who are PRC residents to comply with the registration procedures set forth in SAFE Circular 37 and subsequent implementation rules, may subject such beneficial owners or our PRC subsidiaries to fines and legal sanctions. Furthermore, since SAFE Circular 37 was recently promulgated and it is unclear how this regulation, and any future regulation concerning offshore or cross-border transactions, will be interpreted, amended and implemented by the relevant PRC government authorities, we cannot predict how these regulations will affect our business operations or future strategy. Failure to register or comply with relevant requirements may also limit our ability to contribute additional capital to our PRC subsidiaries and limit our PRC subsidiaries' ability to distribute dividends to our company. These risks may have a material adverse effect on our business, financial condition and results of operations.

Any failure to comply with PRC regulations regarding our employee equity incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

Pursuant to SAFE Circular 37, PRC residents who participate in share incentive plans in overseas non-publicly-listed companies due to their position as director, senior management or employees of the PRC subsidiaries of the overseas companies may submit applications to SAFE or its local branches for the foreign exchange registration with respect to offshore special purpose companies. Our directors, executive officers and other employees who are PRC residents and who have been granted options may follow SAFE Circular 37 to apply for the foreign exchange registration before our company becomes an overseas listed company. After our company becomes an overseas listed company upon completion of this offering, we and our directors, executive officers and other employees who are PRC residents and who have been granted options will be subject to the Notice on Issues Concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly Listed Company, issued by SAFE in February 2012, according to which, employees, directors, supervisors and other management members participating in any stock incentive plan of an overseas publicly listed company who are PRC residents are required to register with SAFE through a domestic qualified agent, which could be a PRC subsidiary of such overseas listed company, and complete certain other procedures. Failure to complete the SAFE registrations may subject them to fines and legal sanctions and may also limit the ability to make payment under our equity incentive plans or receive dividends or sales proceeds related thereto, or our ability to contribute additional capital into our wholly-foreign owned enterprises in China and limit our wholly-foreign owned enterprises' ability to distribute dividends to us. We also face regulatory uncertainties that could restrict our ability to adopt additional equity incentive plans for our directors and employees under PRC law.

In addition, the State Administration for Taxation has issued circulars concerning employee share options or restricted shares. Under these circulars, employees working in the PRC who exercise share options, or whose restricted shares or restricted share units, or RSUs, vest, will be subject to PRC individual income tax. The PRC subsidiaries of an overseas listed company have obligations to file documents related to employee share options or restricted shares with relevant tax authorities and to withhold individual income taxes of those employees related to their share options, restricted shares or RSUs. If the employees fail to pay, or the PRC subsidiaries fail to withhold, their income taxes according to relevant laws, rules and regulations, the PRC subsidiaries may face sanctions imposed by the tax authorities or other PRC government authorities.

We rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries to fund offshore cash and financing requirements.

We are a holding company and rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries and on remittances from the VIE, for our offshore cash and financing requirements, including the funds necessary to pay dividends and other cash distributions to our shareholders, fund inter-company loans, service any debt we may incur outside of China and pay our expenses. When our principal operating subsidiaries or the VIE incur additional debt, the instruments governing the debt may restrict their ability to pay dividends or make other distributions or remittances to us. Furthermore, the laws, rules and regulations applicable to our PRC subsidiaries and certain other subsidiaries permit payments of dividends only

Table of Contents

out of their retained earnings, if any, determined in accordance with applicable accounting standards and regulations.

Under PRC laws, rules and regulations, each of our subsidiaries incorporated in China is required to set aside at least 10% of its net income each year to fund certain statutory reserves until the cumulative amount of such reserves reaches 50% of its registered capital. These reserves, together with the registered equity, are not distributable as cash dividends. As a result of these laws, rules and regulations, our subsidiaries incorporated in China are restricted in their ability to transfer a portion of their respective net assets to their shareholders as dividends. In addition, registered share capital and capital reserve accounts are also restricted from withdrawal in the PRC, up to the amount of net assets held in each operating subsidiary. As of December 31, 2014, we had restricted assets of RMB3.6 million (US\$0.6 million).

Limitations on the ability of the VIE to make remittance to the wholly-foreign owned enterprise and on the ability of our subsidiaries to pay dividends to us could limit our ability to access cash generated by the operations of those entities, including to make investments or acquisitions that could be beneficial to our businesses, pay dividends to our shareholders or otherwise fund and conduct our business.

We may be treated as a resident enterprise for PRC tax purposes under the PRC Enterprise Income Tax Law, and we may therefore be subject to PRC income tax on our global income.

Under the PRC Enterprise Income Tax Law and its implementing rules, enterprises established under the laws of jurisdictions outside of China with de facto management bodies located in China may be considered PRC tax resident enterprises for tax purposes and may be subject to the PRC enterprise income tax at the rate of 25% on their global income. De facto management body refers to a managing body that exercises substantive and overall management and control over the production and business, personnel, accounting books and assets of an enterprise. The State Administration of Taxation issued the Notice Regarding the Determination of Chinese-Controlled Offshore-Incorporated Enterprises as PRC Tax Resident Enterprises on the Basis of De Facto Management Bodies, or Circular 82, on April 22, 2009. Circular 82 provides certain specific criteria for determining whether the de facto management body of a Chinese-controlled offshore-incorporated enterprise is located in China. Although Circular 82 only applies to offshore enterprises controlled by PRC enterprises, not those controlled by foreign enterprises or individuals, the determining criteria set forth in Circular 82 may reflect the State Administration of Taxation's general position on how the de facto management body test should be applied in determining the tax resident status of offshore enterprises, regardless of whether they are controlled by PRC enterprises. If we were to be considered a PRC resident enterprise, we would be subject to PRC enterprise income tax at the rate of 25% on our global income. In such case, our profitability and cash flow may be materially reduced as a result of our global income being taxed under the Enterprise Income Tax Law. We believe that none of our entities outside of China is a PRC resident enterprise for PRC tax purposes. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term de facto management body.

Dividends payable to our foreign investors and gains on the sale of our ADSs or ordinary shares by our foreign investors may become subject to PRC tax law.

Under the Enterprise Income Tax Law and its implementation regulations issued by the State Council, a 10% PRC withholding tax is applicable to dividends payable to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC or which have such establishment or place of business but the dividends are not effectively connected with such establishment or place of business, to the extent such dividends are derived from sources within the PRC. Similarly, any gain realized on the transfer of ADSs or ordinary shares by such investors is also subject to PRC tax at a current rate of 10%, subject to any reduction or exemption set forth in applicable tax treaties or under applicable tax arrangements between jurisdictions, if such gain is regarded as income derived from sources within the PRC. If we are deemed a PRC resident enterprise, dividends paid on our ordinary shares or ADSs, and any gain realized from the transfer of our

Table of Contents

ordinary shares or ADSs, would be treated as income derived from sources within the PRC and would as a result be subject to PRC taxation. Furthermore, if we are deemed a PRC resident enterprise, dividends payable to individual investors who are non-PRC residents and any gain realized on the transfer of ADSs or ordinary shares by such investors may be subject to PRC tax at a current rate of 20%, subject to any reduction or exemption set forth in applicable tax treaties or under applicable tax arrangements between jurisdictions. It is unclear whether if we or any of our subsidiaries established outside China are considered a PRC resident enterprise, holders of our ADSs or ordinary shares would be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas. If dividends payable to our non-PRC investors, or gains from the transfer of our ADSs or ordinary shares by such investors are subject to PRC tax, the value of your investment in our ADSs or ordinary shares may decline significantly.

We and our shareholders face uncertainties with respect to indirect transfers of equity interests in PRC resident enterprises or other assets attributed to a Chinese establishment of a non-Chinese company, or immovable properties located in China owned by non-Chinese companies.

On February 3, 2015, the State Administration of Taxation issued the Bulletin on Issues of Enterprise Income Tax on Indirect Transfers of Assets by Non-PRC Resident Enterprises, or Bulletin 7, which replaced or supplemented previous rules under the Notice on Strengthening Administration of Enterprise Income Tax for Share Transfers by Non-PRC Resident Enterprises, or Circular 698, issued by the State Administration of Taxation, on December 10, 2009. Pursuant to this Bulletin, an indirect transfer of assets, including equity interests in a PRC resident enterprise, by non-PRC resident enterprises may be recharacterized and treated as a direct transfer of PRC taxable assets, if such arrangement does not have a reasonable commercial purpose and was established for the purpose of avoiding payment of PRC enterprise income tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax. According to Bulletin 7, PRC taxable assets include assets attributed to an establishment in China, immovable properties located in China, and equity investments in PRC resident enterprises, in respect of which gains from their transfer by a direct holder, being a non-PRC resident enterprise, would be subject to PRC enterprise income taxes. When determining whether there is a reasonable commercial purpose of the transaction arrangement, features to be taken into consideration include: whether the main value of the equity interest of the relevant offshore enterprise derives from PRC taxable assets; whether the assets of the relevant offshore enterprise mainly consists of direct or indirect investment in China or if its income mainly derives from China; whether the offshore enterprise and its subsidiaries directly or indirectly holding PRC taxable assets have real commercial nature which is evidenced by their actual function and risk exposure; the duration of existence of the business model and organizational structure; the replicability of the transaction by direct transfer of PRC taxable assets; and the tax situation of such indirect transfer and applicable tax treaties or similar arrangements. In respect of an indirect offshore transfer of assets of a PRC establishment, the resulting gain is to be included with the enterprise income tax filing of the PRC establishment or place of business being transferred, and would consequently be subject to PRC enterprise income tax at a rate of 25%. Where the underlying transfer relates to the immovable properties located in China or to equity investments in a PRC resident enterprise, which is not related to a PRC establishment or place of business of a non-resident enterprise, a PRC enterprise income tax at 10% would apply, subject to available preferential tax treatment under applicable tax treaties or similar arrangements, and the party who is obligated to make the transfer payments has the withholding obligation. Where the payor fails to withhold any or sufficient tax, the transferor shall declare and pay such tax to the tax authority by itself within the statutory time limit. Late payment of applicable tax will subject the transferor to default interest. Bulletin 7 does not apply to transactions of sale of shares by investors through a public stock exchange where such shares were acquired from a transaction through a public stock exchange.

There is uncertainty as to the application of Bulletin 7, or previous rules under Circular 698. Especially as Bulletin 7 is lately promulgated, it is not clear how it will be implemented. Bulletin 7 may be determined by the tax authorities to be applicable to our offshore restructuring transactions or sale of the shares of our offshore subsidiaries where non-resident enterprises, being the transferors, were involved. For example, in the past, our CEO Mr. Vincent Wenbin Qiu, Mr. Junhua Wu, Mr. Michael Qingyu Zhang and three other individuals

Table of Contents

transferred some or all of their equity interest in us through indirect transfers conducted by their respective overseas holding companies which held shares in us. As a result, the transferors and transferees may be subject to the tax filing and withholding or tax payment obligation, while our PRC subsidiaries may be requested to assist in the filing. Furthermore, we, our non-resident enterprises and PRC subsidiaries may be required to spend valuable resources to comply with Bulletin 7 or to establish that we and our non-resident enterprises should not be taxed under Bulletin 7, for our previous and future restructuring or disposal of shares of our offshore subsidiaries, which may have a material adverse effect on our financial condition and results of operations.

Restrictions on currency exchange may limit our ability to utilize our revenue effectively.

Substantially all of our revenue is denominated in Renminbi. The Renminbi is currently convertible under the current account, which includes dividends, trade and service-related foreign exchange transactions, but not under the capital account, which includes foreign direct investment and loans, including loans we may secure from our onshore subsidiaries or variable interest entity. Currently, Shanghai Baozun, our major PRC subsidiary which is a wholly-foreign owned enterprise, may purchase foreign currency for settlement of current account transactions, including payment of dividends to us, without the approval of SAFE by complying with certain procedural requirements. However, the relevant PRC governmental authorities may limit or eliminate our ability to purchase foreign currencies in the future for current account transactions. Since a significant amount of our future revenue will be denominated in Renminbi, any existing and future restrictions on currency exchange may limit our ability to utilize revenue generated in Renminbi to fund our business activities outside of the PRC or pay dividends in foreign currencies to our shareholders, including holders of our ADSs. Foreign exchange transactions under the capital account remain subject to limitations and require approvals from, or registration with, SAFE and other relevant PRC governmental authorities. This could affect our ability to obtain foreign currency through debt or equity financing for our subsidiaries and the variable interest entity.

Fluctuations in exchange rates could result in foreign currency exchange losses and could materially reduce the value of your investment.

The value of the Renminbi against the U.S. dollar and other currencies may fluctuate and is affected by, among other things, changes in political and economic conditions and the foreign exchange policy adopted by the PRC government. On July 21, 2005, the PRC government changed its policy of pegging the value of the Renminbi to the U.S. dollar. Following the removal of the U.S. dollar peg, the Renminbi appreciated more than 20% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the RMB and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the RMB to appreciate slowly against the U.S. dollar again, and it has appreciated more than 10% since June 2010. In April 2012, the PRC government announced that it would allow more RMB exchange rate fluctuation. However, it remains unclear how this announcement might be implemented. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future. There remains significant international pressure on the PRC government to adopt a more flexible currency policy, which could result in greater fluctuation of the Renminbi against the U.S. dollar. Substantially all of our revenues and costs are denominated in Renminbi. We are a holding company and we rely on dividends paid by our operating subsidiaries in China for our cash needs. Any significant revaluation of the Renminbi may materially reduce any dividends payable on, our ADSs in U.S. dollars. To the extent that we need to convert U.S. dollars we receive from this offering into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount we would receive.

Table of Contents

Risks Related to This Offering

There has been no public market for our shares or ADSs prior to this offering, and you may not be able to resell our ADSs at or above the price you paid, or at all.

Prior to this offering, there has been no public market for our shares or ADSs. We have received approval for listing our ADSs on the NASDAQ Global Select Market. Our shares will not be listed on any exchange or quoted for trading on any over-the-counter trading system. If an active trading market for our ADSs does not develop after this offering, the market price and liquidity of our ADSs will be materially and adversely affected.

Negotiations with the underwriters determined the initial public offering price for our ADSs which may bear no relationship to their market price after the initial public offering. We cannot assure you that an active trading market for our ADSs will develop or that the market price of our ADSs will not decline below the initial public offering price.

The trading price of our ADSs may be volatile, which could result in substantial losses to you.

The trading prices of our ADSs are likely to be volatile and could fluctuate widely due to factors beyond our control. This may happen because of broad market and industry factors, like the performance and fluctuation in the market prices or the underperformance or deteriorating financial results of other listed companies based in China. The securities of some of these companies have experienced significant volatility since their initial public offerings, including, in some cases, substantial price declines in the trading prices of their securities. The trading performances of other Chinese companies' securities after their offerings, including internet and e-commerce companies, may affect the attitudes of investors toward Chinese companies listed in the United States, which consequently may impact the trading performance of our ADSs, regardless of our actual operating performance. In addition, any negative news or perceptions about inadequate corporate governance practices or fraudulent accounting, corporate structure or matters of other Chinese companies may also negatively affect the attitudes of investors towards Chinese companies in general, including us, regardless of whether we have conducted any inappropriate activities. In addition, securities markets may from time to time experience significant price and volume fluctuations that are not related to our operating performance, such as the large decline in share prices in the United States, China and other jurisdictions in late 2008, early 2009 and the second half of 2011, which may have a material and adverse effect on the trading price of our ADSs.

In addition to the above factors, the price and trading volume of our ADSs may be highly volatile due to multiple factors, including the following:

regulatory developments affecting us or our industry, brand partners, suppliers or third-party sellers;

announcements of studies and reports relating to the quality of our product and service offerings or those of our competitors;

changes in the economic performance or market valuations of other e-commerce companies;

Edgar Filing: Baozun Inc. - Form 424B4

actual or anticipated fluctuations in our quarterly results of operations and changes or revisions of our expected results;

changes in financial estimates by securities research analysts;

conditions in the online retail market;

announcements by us or our competitors of new product and service offerings, acquisitions, strategic relationships, joint ventures, capital raisings or capital commitments;

additions to or departures of our senior management;

fluctuations of exchange rates between the RMB and the U.S. dollar;

release or expiry of lock-up or other transfer restrictions on our outstanding shares or ADSs;

Table of Contents

sales or perceived potential sales of additional ordinary shares or ADSs; and

proceedings instituted recently by the SEC against five PRC-based accounting firms, including our independent registered public accounting firm.

If securities or industry analysts do not publish research or publish inaccurate or unfavorable research about our business, the market price for our ADSs and trading volume could decline.

The trading market for our ADSs will depend in part on the research and reports that securities or industry analysts publish about us or our business. If research analysts do not establish and maintain adequate research coverage or if one or more of the analysts who covers us downgrades our ADSs or publishes inaccurate or unfavorable research about our business, the market price for our ADSs would likely decline. If one or more of these analysts cease coverage of our company or fail to publish reports on us regularly, we could lose visibility in the financial markets, which, in turn, could cause the market price or trading volume for our ADSs to decline.

As our initial public offering price is substantially higher than our net tangible book value per share, you will experience immediate and substantial dilution.

If you purchase ADSs in this offering, you will pay more for your ADSs than the amount paid by existing shareholders for their ordinary shares on a per ADS basis. As a result, you will experience immediate and substantial dilution of approximately US\$6.43 per ADS (assuming no exercise of outstanding options to acquire ordinary shares and no exercise of the underwriters' option to purchase additional ADSs), representing the difference between our pro forma as adjusted net tangible book value per ADS as of March 31, 2015, after giving effect to this offering, and the public offering price of US\$10.00 per ADS. In addition, you will experience further dilution to the extent that our ordinary shares are issued upon the exercise of share options. All of the ordinary shares issuable upon the exercise of currently outstanding share options will be issued at a purchase price on a per ADS basis that is less than the public offering price per ADS in this offering. See "Dilution" for a more complete description of how the value of your investment in our ADSs will be diluted upon completion of this offering.

Because we do not expect to pay dividends in the foreseeable future after this offering, you must rely on price appreciation of our ADSs for return on your investment.

We currently intend to retain most, if not all, of our available funds and any future earnings after this offering to fund the development and growth of our business. As a result, we do not expect to pay any cash dividends in the foreseeable future. Therefore, you should not rely on an investment in our ADSs as a source for any future dividend income.

Our board of directors has complete discretion as to whether to distribute dividends. Even if our board of directors decides to declare and pay dividends, the timing, amount and form of future dividends, if any, will depend on, among other things, our future results of operations and cash flow, our capital requirements and surplus, the amount of distributions, if any, received by us from our subsidiaries, our financial condition, contractual restrictions and other factors deemed relevant by our board of directors. Accordingly, the return on your investment in our ADSs will likely depend entirely upon any future price appreciation of our ADSs. There is no guarantee that our ADSs will appreciate in value after this offering or even maintain the price at which you purchased the ADSs. You may not realize a return on your investment in our ADSs and you may even lose your entire investment in our ADSs.

Edgar Filing: Baozun Inc. - Form 424B4

Substantial future sales or perceived potential sales of our ADSs in the public market could cause the price of our ADSs to decline.

Sales of our ADSs in the public market after this offering, or the perception that these sales could occur, could cause the market price of our ADSs to decline significantly. Upon completion of this offering, we will have

Table of Contents

145,825,312 ordinary shares outstanding, including 132,524,574 Class A ordinary shares represented by ADSs, assuming the underwriters do not exercise their option to purchase additional shares. All ADSs representing our Class A ordinary shares sold in this offering will be freely transferable by persons other than our affiliates without restriction or additional registration under the U.S. Securities Act of 1933, as amended, or the Securities Act. All of the other ordinary shares outstanding after this offering will be available for sale, upon the expiration of the lock-up periods described elsewhere in this prospectus beginning from the date of this prospectus (if applicable to such holder), subject to volume and other restrictions as applicable under Rules 144 and 701 under the Securities Act. Any or all of these ordinary shares may be released prior to the expiration of the applicable lock-up period at the discretion of the designated representatives. To the extent shares are released before the expiration of the applicable lock-up period and sold into the market, the market price of our ADSs could decline significantly. See **Shares Eligible for Future Sale** **Lock-Up Agreements**.

Certain major holders of our ordinary shares after completion of this offering will have the right to cause us to register under the Securities Act the sale of their shares, subject to the applicable lock-up periods in connection with this offering. Registration of these shares under the Securities Act would result in ADSs representing these shares becoming freely tradable without restriction under the Securities Act immediately upon the effectiveness of the registration. Sales of these registered shares in the form of ADSs in the public market could cause the price of our ADSs to decline significantly.

Our dual-class voting structure will limit your ability to influence corporate matters and could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

After this offering, Mr. Vincent Wenbin Qiu, our co-founder, chairman and chief executive officer, and Mr. Junhua Wu, our co-founder, director and chief operating officer, will have considerable influence over matters requiring shareholder approval. Immediately prior to the completion of this offering, we expect to create a dual-class voting structure such that our ordinary shares will consist of Class A ordinary shares and Class B ordinary shares. Based on our proposed dual-class voting structure, on a poll, holders of Class A ordinary shares will be entitled to one vote per share in respect of matters requiring the votes of shareholders, while holders of Class B ordinary shares will be entitled to ten votes per share. We will issue Class A ordinary shares represented by our ADSs in this offering. Immediately prior to the completion of this offering, we expect that 9,410,369 ordinary shares held by Jesvinco Holdings Limited, which is wholly owned by Mr. Qiu, and 3,890,369 ordinary shares held by Casvendino Holdings Limited, which is wholly owned by Mr. Wu, will be designated as Class B ordinary shares on a one-for-one basis, and all convertible redeemable preferred shares and all other outstanding ordinary shares will be re-designated as Class A ordinary shares on a one-for-one basis. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof, while Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a holder thereof to any person or entity which is not an affiliate of such holder, such Class B ordinary shares shall be automatically and immediately converted into the equal number of Class A ordinary shares. The Class B ordinary shares beneficially owned by Mr. Qiu and Mr. Wu will represent 35.4% and 14.7% of the aggregate voting power of our company, respectively, immediately following the completion of this offering, assuming the underwriters do not exercise their over-allotment option to purchase additional ADSs. The interests of Mr. Qiu and Mr. Wu may not coincide with your interests, and they may make decisions with which you disagree, including decisions on important topics such as the composition of the board of directors, compensation, management succession and our business and financial strategy. To the extent that the interests of Mr. Qiu or Mr. Wu differ from your interests, you may be disadvantaged by any action that they may seek to pursue. This concentrated control could also discourage others from pursuing any potential merger, takeover or other change of control transactions, which could have the effect of depriving the holders of our Class A ordinary shares and our ADSs of the opportunity to sell their shares at a premium over the prevailing market price.

Table of Contents

You, as holders of ADSs, may have fewer rights than holders of our Class A ordinary shares and must act through the depositary to exercise those rights.

Holders of ADSs do not have the same rights of our shareholders and may only exercise the voting rights with respect to the underlying Class A ordinary shares in accordance with the provisions of the deposit agreement. Under the post-offering memorandum and articles of association that will become effective upon the completion of this offering, the minimum notice period required to convene a general meeting is 10 days. When a general meeting is convened, you may not receive sufficient notice of a shareholders' meeting to permit you to withdraw your Class A ordinary shares to allow you to cast your vote with respect to any specific matter. In addition, the depositary and its agents may not be able to send voting instructions to you or carry out your voting instructions in a timely manner. We will make all reasonable efforts to cause the depositary to extend voting rights to you in a timely manner, but we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your ADSs. Furthermore, the depositary and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote. As a result, you may not be able to exercise your right to vote and you may lack recourse if your ADSs are not voted as you requested. In addition, in your capacity as an ADS holder, you will not be able to call a shareholders' meeting.

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register both the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. Under the deposit agreement, the depositary will not make rights available to you unless both the rights and the underlying securities to be distributed to ADS holders are either registered under the Securities Act or exempt from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective and we may not be able to establish a necessary exemption from registration under the Securities Act. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

You may not receive cash dividends if the depositary decides it is impractical to make them available to you.

The depositary will pay cash dividends on the ADSs only to the extent that we decide to distribute dividends on our Class A ordinary shares or other deposited securities, and we do not have any present plan to pay any cash dividends on our Class A ordinary shares in the foreseeable future. To the extent that there is a distribution, the depositary of our ADSs has agreed to pay to you the cash dividends or other distributions it or the custodian receives on our Class A ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of Class A ordinary shares your ADSs represent. However, the depositary may, at its discretion, decide that it is inequitable or impractical to make a distribution available to any holders of ADSs. For example, the depositary may determine that it is not practicable to distribute certain property through the mail, or that the value of certain distributions may be less than the cost of mailing them. In these cases, the depositary may decide not to distribute such property to you.

You may be subject to limitations on transfer of your ADSs.

Your ADSs are transferable on the books of the depositary. However, the depositary may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depositary may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depositary are closed, or at any time if we or the depositary deems it

advisable to do so

Table of Contents

because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Certain judgments obtained against us by our shareholders may not be enforceable.

We are a company incorporated under the laws of the Cayman Islands. We conduct our operations outside the United States and substantially all of our assets are located outside the United States. In addition, all of our directors and executive officers and the experts named in this prospectus reside outside the United States, and most of their assets are located outside the United States. As a result, it may be difficult or impossible for you to bring an action against us or against them in the United States in the event that you believe that your rights have been infringed under the U.S. federal securities laws or otherwise. Even if you are successful in bringing an action of this kind, the laws of the Cayman Islands, the PRC or other relevant jurisdiction may render you unable to enforce a judgment against our assets or the assets of our directors and officers. For more information regarding the relevant laws of the Cayman Islands and China, see [Enforceability of Civil Liabilities](#).

Since we are a Cayman Islands company, the rights of our shareholders may be more limited than those of shareholders of a company organized in the United States.

Under the laws of some jurisdictions in the United States, majority and controlling shareholders generally have certain fiduciary responsibilities to the minority shareholders. Shareholder action must be taken in good faith, and actions by controlling shareholders which are obviously unreasonable may be declared null and void. Cayman Island law protecting the interests of minority shareholders may not be as protective in all circumstances as the law protecting minority shareholders in some U.S. jurisdictions. In addition, the circumstances in which a shareholder of a Cayman Islands company may sue the company derivatively, and the procedures and defenses that may be available to the company, may result in the rights of shareholders of a Cayman Islands company being more limited than those of shareholders of a company organized in the United States.

Furthermore, our directors have the power to take certain actions without shareholder approval which would require shareholder approval under the laws of most U.S. jurisdictions. The directors of a Cayman Islands company, without shareholder approval, may implement a sale of any assets, property, part of the business, or securities of the company. Our ability to create and issue new classes or series of shares without shareholder approval could have the effect of delaying, deterring or preventing a change in control without any further action by our shareholders, including a tender offer to purchase our ordinary shares at a premium over then current market prices.

You must rely on the judgment of our management as to the use of the net proceeds from this offering, and such use may not produce income or increase our ADS price.

A significant portion of the net proceeds of this offering is allocated for general corporate purposes, including funding potential investments in and acquisitions of complementary businesses, assets and technologies. Our management will have considerable discretion in the application of the net proceeds received by us. You will not have the opportunity, as part of your investment decision, to assess whether proceeds are being used appropriately. The net proceeds may be used for corporate purposes that do not improve our efforts to achieve or maintain profitability or increase our ADS price. The net proceeds from this offering may be placed in investments that do not produce income or that lose value.

Edgar Filing: Baozun Inc. - Form 424B4

Our articles of association contain anti-takeover provisions that could discourage a third party from acquiring us, which could limit our shareholders' opportunity to sell their shares, including Class A ordinary shares represented by our ADSs, at a premium.

We have adopted amended and restated articles of association to be effective upon the completion of this offering that contain provisions to limit the ability of others to acquire control of our company or cause us to

Table of Contents

engage in change-of-control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of our company in a tender offer or similar transaction. For example, our board of directors has the authority, without further action by our shareholders, to issue preferred shares in one or more series and to fix their designations, powers, preferences, privileges, and relative participating, optional or special rights and the qualifications, limitations or restrictions, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our Class A ordinary shares, in the form of ADS or otherwise. Preferred shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue preferred shares, the price of our ADSs may fall and the voting and other rights of the holders of our Class A ordinary shares and ADSs may be materially and adversely affected.

As a foreign private issuer, we are permitted to, and we will, rely on exemptions from certain NASDAQ corporate governance standards applicable to domestic U.S. issuers. This may afford less protection to holders of our ordinary shares and the ADSs.

We are exempted from certain corporate governance requirements of the NASDAQ Marketplace Rules by virtue of being a foreign private issuer. We are required to provide a brief description of the significant differences between our corporate governance practices and the corporate governance practices required to be followed by domestic U.S. companies listed on the NASDAQ Global Select Market. The standards applicable to us are considerably different than the standards applied to domestic U.S. issuers. For instance, we are not required to:

have a majority of the board be independent;

have an audit committee, a compensation committee or a nominating and corporate governance committee consisting entirely of independent directors;

have regularly scheduled executive sessions with only independent directors; or

have executive sessions of solely independent directors each year.

We have relied on and intend to continue to rely on some of these exemptions. As a result, you may not be provided with the benefits of certain corporate governance requirements of the NASDAQ Marketplace Rules.

As a foreign private issuer, we are exempt from certain disclosure requirements under the Exchange Act, which may afford less protection to our shareholders than they would enjoy if we were a domestic U.S. company.

As a foreign private issuer, we are exempt from, among other things, the rules prescribing the furnishing and content of proxy statements under the Exchange Act. In addition, our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit and recovery provisions contained in Section 16 of the Exchange Act. We are also not required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as domestic U.S. companies with securities registered under the Exchange Act. As a result, our shareholders may be afforded less protection than they would under the Exchange Act rules applicable to domestic U.S. companies.

Edgar Filing: Baozun Inc. - Form 424B4

We are an emerging growth company within the meaning of the Securities Act and may take advantage of certain reduced reporting requirements.

We are an emerging growth company, as defined in the JOBS Act, and we may take advantage of certain exemptions from various requirements applicable to other public companies that are not emerging growth companies including, most significantly, not being required to comply with the auditor attestation requirements of Section 404 for so long as we are an emerging growth company. As a result, if we elect not to comply with

Table of Contents

such auditor attestation requirements, our investors may not have access to certain information they may deem important.

The JOBS Act also provides that an emerging growth company does not need to comply with any new or revised financial accounting standards until such date that a private company is otherwise required to comply with such new or revised accounting standards. However, we have elected to opt out of this provision and, as a result, we will comply with new or revised accounting standards as required when they are adopted for public companies. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

We will incur increased costs as a result of being a public company, particularly after we cease to qualify as an emerging growth company.

Upon completion of this offering, we will become a public company and expect to incur significant legal, accounting and other expenses that we did not incur as a private company. The Sarbanes-Oxley Act of 2002, as well as rules subsequently implemented by the SEC and the NASDAQ Global Select Market, impose various requirements on the corporate governance practices of public companies. We qualify as an emerging growth company pursuant to the JOBS Act. An emerging growth company may take advantage of specified reduced reporting and other requirements that are otherwise applicable generally to public companies. These provisions include exemption from the auditor attestation requirement under Section 404 of the Sarbanes-Oxley Act of 2002 in the assessment of the emerging growth company's internal control over financial reporting and permission to delay adopting new or revised accounting standards until such time as those standards apply to private companies. However, we have elected to opt out of this provision and, as a result, we will comply with new or revised accounting standards as required when they are adopted for public companies. This decision to opt out of the extended transition period under the JOBS Act is irrevocable.

We expect these rules and regulations to increase our legal and financial compliance costs and to make some corporate activities more time-consuming and costly. After we are no longer an emerging growth company, we expect to incur significant expenses and devote substantial management effort toward ensuring compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002 and the other rules and regulations of the SEC. For example, as a result of becoming a public company, we will need to increase the number of independent directors and adopt policies regarding internal controls and disclosure controls and procedures. We also expect that operating as a public company will make it more difficult and more expensive for us to obtain director and officer liability insurance, and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. In addition, we will incur additional costs associated with our public company reporting requirements. It may also be more difficult for us to find qualified persons to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these rules and regulations, and we cannot predict or estimate with any degree of certainty the amount of additional costs we may incur or the timing of such costs.

In the past, shareholders of a public company often brought securities class action suits against the company following periods of instability in the market price of that company's securities. If we were involved in a class action suit, it could divert a significant amount of our management's attention and other resources from our business and operations, which could harm our results of operations and require us to incur significant expenses to defend the suit. Any such class action suit, whether or not successful, could harm our reputation and restrict our ability to raise capital in the future. In addition, if a claim is successfully made against us, we may be required to pay significant damages, which could have a material adverse effect on our financial condition and results of operations.

We may become a passive foreign investment company, which could result in adverse United States federal income tax consequences to United States investors.

Edgar Filing: Baozun Inc. - Form 424B4

Based on the projected composition of our income and valuation of our assets, we do not expect to be a passive foreign investment company, or PFIC, for our current taxable year, and we do not expect to become one

Table of Contents

in the future, although there can be no assurance in this regard. The determination of whether or not we are a PFIC is made on an annual basis and will depend on the composition of our income and assets from time to time. Specifically, we will be classified as a PFIC for United States federal income tax purposes if either: (1) 75% or more of our gross income in a taxable year is passive income, or (2) the average percentage of our assets by value in a taxable year which produce or are held for the production of passive income (which includes cash) is at least 50%. The calculation of the value of our assets will be based, in part, on the quarterly market value of our ADSs, which is subject to change. See

Taxation Material U.S. Federal Income Tax Consequences Passive Foreign Investment Company.

If we were or were to become a PFIC, such characterization could result in adverse United States federal income tax consequences to you if you are a United States investor. For example, if we are a PFIC, our United States investors will become subject to increased tax liabilities under United States federal income tax laws and regulations and will become subject to burdensome reporting requirements. We cannot assure you that we will not be a PFIC for our current taxable year or any future taxable year. See Taxation Material U.S. Federal Income Tax Consequences Passive Foreign Investment Company.

Table of Contents

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that reflect our current expectations and views of future events. The forward looking statements are contained principally in the sections entitled Prospectus Summary, Risk Factors, Use of Proceeds, Management's Discussion and Analysis of Financial Condition and Results of Operations and Business. Known and unknown risks, uncertainties and other factors, including those listed under Risk Factors, may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

You can identify some of these forward-looking statements by words or phrases such as may, will, expect, anticipate, aim, estimate, intend, believe, is/are likely to, potential, continue or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events that we believe may affect our financial condition, results of operations, business strategy and financial needs. These forward-looking statements include statements relating to:

our future business development, financial condition and results of operations;

our goals and strategies;

the expected growth of the retail and online retail markets in China;

our expectations regarding demand for and market acceptance of our products and services;

our expectations regarding our relationships with our brand partners and e-commerce channels;

our plans to invest in our technology platform;

competition in our industry;

relevant government policies and regulations relating to our industry;

our ability to attract, train and retain executives and other qualified employees; and

fluctuations in general economic and business conditions.

These forward-looking statements involve various risks and uncertainties. Although we believe that our expectations expressed in these forward-looking statements are reasonable, our expectations may later be found to be incorrect. Our actual results could be materially different from our expectations. Important risks and factors that could cause our actual results to be materially different from our expectations are generally set forth in Prospectus Summary Our Challenges, Risk Factors, Management's Discussion and Analysis of Financial Condition and Results of Operations, Business, Regulation and other sections in this prospectus. You should thoroughly read this prospectus and the documents

Edgar Filing: Baozun Inc. - Form 424B4

that we refer to with the understanding that our actual future results may be materially different from and worse than what we expect. We qualify all of our forward-looking statements by these cautionary statements.

This prospectus contains certain data and information that we obtained from various government and private publications. Statistical data in these publications also include projections based on a number of assumptions. The online retail industry may not grow at the rate projected by market data, or at all. Failure of this market to grow at the projected rate may have a material and adverse effect on our business and the market price of our ADSs. In addition, the rapidly changing nature of the online retail industry results in significant uncertainties for any projections or estimates relating to the growth prospects or future condition of our market. Furthermore, if any one or more of the assumptions underlying the market data are later found to be incorrect, actual results may differ from the projections based on these assumptions. You should not place undue reliance on these forward-looking statements.

The forward-looking statements made in this prospectus relate only to events or information as of the date on which the statements are made in this prospectus. Except as required by law, we undertake no obligation to

Table of Contents

update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this prospectus and the documents that we refer to in this prospectus and have filed as exhibits to the registration statement, of which this prospectus is a part, completely and with the understanding that our actual future results may be materially different from what we expect.

Table of Contents

USE OF PROCEEDS

We estimate that we will receive net proceeds from this offering of approximately US\$98.3 million, or approximately US\$113.7 million if the underwriters exercise their over-allotment option in full, after deducting underwriting discounts and the estimated offering expenses payable by us.

The primary purposes of this offering are to create a public market for our shares for the benefit of all shareholders, retain talented employees by providing them with equity incentives, and obtain additional capital. We plan to use the net proceeds of this offering as follows:

approximately US\$32.3 million for investment in sales and marketing activities;

approximately US\$25.8 million for investment in our research and development and technology infrastructure;

approximately US\$12.9 million for expansion of our warehousing and fulfillment infrastructure; and

the balance for general corporate purposes, working capital and potential acquisitions, investments and alliances (although we have no present commitments or agreements to enter into any acquisitions, investments or alliances).

The foregoing represents our current intentions with respect of the use and allocation of the net proceeds of this offering based upon our present plans and business conditions, but our management will have significant flexibility and discretion in applying the net proceeds of this offering. The occurrence of unforeseen events or changed business conditions may result in application of the proceeds of this offering in a manner other than as described in this prospectus.

In utilizing the net proceeds of this offering, as an offshore holding company, we are permitted, under PRC laws and regulations, to provide funding to our subsidiaries only through loans or capital contributions and to our VIE only through loans. Subject to satisfaction of applicable government registration and approval requirements, we may extend inter-company loans to our subsidiaries in China or make additional capital contributions to our subsidiaries in China to fund their capital expenditures or working capital. We cannot assure you that we will be able to obtain these government registrations or approvals on a timely basis, if at all. See [Risk Factors](#) [Risks Related to Our Corporate Structure](#) PRC regulations of loans to PRC entities and direct investment in PRC entities by offshore holding companies may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our wholly owned subsidiary, Shanghai Baozun.

Table of Contents

DIVIDEND POLICY

Our board of directors has complete discretion on whether to distribute dividends. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that the board of directors may deem relevant.

We do not have any present plan to pay any cash dividends on our ordinary shares in the foreseeable future after this offering. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We rely principally on dividends from our subsidiaries in China for our cash requirements, including any payment of dividends to our shareholders. Dividends distributed by Shanghai Baozun, our major PRC subsidiary, to us is subject to PRC taxes. Current PRC regulations permit our PRC subsidiaries to pay dividends to us only out of their accumulated distributable after-tax profits, if any, determined in accordance with their respective articles of association and Chinese accounting standards and regulations. See **Risk Factors** **Risks Related to Doing Business in the People's Republic of China**. We rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries to fund offshore cash and financing requirements.

If we pay any dividends, we will pay our ADS holders to the same extent as holders of our Class A ordinary shares, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. See **Description of American Depositary Shares**. Cash dividends on our Class A ordinary shares, if any, will be paid in U.S. dollars.

Table of Contents

CAPITALIZATION

The following table sets forth our indebtedness and total capitalization as of March 31, 2015:

on an actual basis;

on a pro forma basis to reflect (i) the redesignation of 9,410,369 ordinary shares held by Jesvinco Holdings Limited, which is wholly owned by Mr. Vincent Wenbin Qiu, and 3,890,369 ordinary shares held by Casvendino Holdings Limited, which is wholly owned by Mr. Junhua Wu, into 13,300,738 Class B ordinary shares on a one-for-one-basis upon the completion of this offering; and (ii) the redesignation of all of the remaining ordinary shares and the automatic conversion and redesignation of all of our issued and outstanding Series A, B, C1, C2 and D convertible redeemable preferred shares as of March 31, 2015 into 84,640,163 Class A ordinary shares upon the completion of this offering; and

on a pro forma as adjusted basis to reflect (i) the redesignation of 9,410,369 ordinary shares held by Jesvinco Holdings Limited, which is wholly owned by Mr. Vincent Wenbin Qiu, and 3,890,369 ordinary shares held by Casvendino Holdings Limited, which is wholly owned by Mr. Junhua Wu, into 13,300,738 Class B ordinary shares on a one-for one-basis upon the completion of this offering; (ii) the redesignation of all of the remaining ordinary shares and the automatic conversion and redesignation of all of our issued and outstanding Series A, B, C1, C2 and D convertible redeemable preferred shares as of March 31, 2015 into 84,640,163 Class A ordinary shares upon the completion of this offering; and (iii) the issuance and sale by us of 33,000,000 Class A ordinary shares represented by 11,000,000 ADSs offered in this offering at the public offering price of US\$10.00 per ADS, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, and further assuming no exercise by the underwriters of the over-allotment option.

You should read this table together with the information under Management's Discussion and Analysis of Financial Condition and Results of Operations and our consolidated financial statements and the notes thereto included elsewhere in this prospectus.

Table of Contents

	Actual		As of March 31, 2015		Pro forma As Adjusted ⁽¹⁾	
	RMB	US\$	Pro forma RMB (in thousands)	US\$	RMB	US\$
Series A convertible redeemable preferred shares (US\$0.0001 par value, 19,622,241 shares authorized, issued and outstanding on an actual basis, and none outstanding on a pro forma basis)	57,572	9,287				
Series B convertible redeemable preferred shares (US\$0.0001 par value, 26,532,203 shares authorized, issued and outstanding on an actual basis, and none outstanding on a pro forma basis)	208,082	33,567				
Series C1 convertible redeemable preferred shares (US\$0.0001 par value, 29,056,332 shares authorized, issued and outstanding on an actual basis, and none outstanding on a pro forma basis)	367,629	59,305				
Series C2 convertible redeemable preferred shares (US\$0.0001 par value, 1,925,063 shares authorized, issued and outstanding on an actual basis, and none outstanding on a pro forma basis)	37,630	6,070				
Series D convertible redeemable preferred shares (US\$0.0001 par value, 7,504,324 shares authorized, issued and outstanding on an actual basis, and none outstanding on a pro forma basis)	155,704	25,118				
Ordinary shares, US\$0.0001 par value, 500,000,000 shares authorized						
Ordinary shares 28,058,820 issued and outstanding on an actual basis	17	3				
Class A ordinary shares 99,398,245 shares issued and outstanding on a pro forma basis, and 132,398,245 shares issued and outstanding on a pro forma as adjusted basis			62	10	82	13
Class B ordinary shares ⁽²⁾ 13,300,738 shares issued and outstanding on a pro forma basis and pro forma as adjusted basis			8	1	8	1
Equity/(deficit):						
Additional paid in capital			826,564	133,339	1,436,072	231,663
Accumulated deficit	(341,138)	(55,031)	(341,138)	(55,031)	(341,138)	(55,031)
Accumulated other comprehensive income	1,154	185	1,154	185	1,154	185
Total equity/(deficit)	(339,967)	(54,843)	486,650	78,504	1,096,178	176,831
Total capitalization	486,650	78,504	486,650	78,504	1,096,178	176,831

- (1) Pro forma as adjusted numbers assumes that the underwriters will not exercise their option to purchase additional ADSs.
- (2) Upon any transfer of a Class B ordinary share by its holder to any person who is not an Affiliate (as defined in our fourth amended and restated memorandum and articles of association) of such holder, such Class B ordinary share shall automatically and immediately convert into one Class A ordinary share. Class B ordinary shares may be converted into an equal number of Class A ordinary shares at any time at the election of the holder of the Class B ordinary shares. In no event shall Class A ordinary shares be convertible into Class B ordinary shares.

Table of Contents**DILUTION**

If you invest in our ADSs, your interest will be diluted to the extent of the difference between the initial public offering price per ADS and our net tangible book value per ADS after this offering. Dilution results from the fact that the initial public offering price per ordinary share is substantially in excess of the book value per ordinary share attributable to the existing shareholders. Our net tangible book value is determined by subtracting the value of our intangible assets, total liabilities and convertible redeemable preferred shares from our total assets.

Our net tangible book value as of March 31, 2015 was approximately negative US\$58.7 million or negative US\$2.09 per ordinary share as of that date and negative US\$6.27 per ADS. Net tangible book value represents the amount of our total consolidated tangible assets, less the amount of our total consolidated liabilities and convertible redeemable preferred shares. Pro forma net tangible book value per ordinary share is calculated after giving effect to the automatic conversion of all of our issued and outstanding convertible redeemable preferred shares. Pro forma as adjusted net tangible book value per ordinary share is calculated after giving effect to the automatic conversion of all our issued and outstanding convertible redeemable preferred shares and the issuance of ordinary shares in the form of ADS by us in this offering. Dilution is determined by subtracting pro forma as adjusted net tangible book value per ordinary share from the public offering price per ordinary share.

Without taking into account any other changes in net tangible book value after March 31, 2015, other than to give effect to (1) the conversion of all our convertible redeemable preferred shares into 84,640,163 Class A ordinary shares, which will occur automatically upon completion of this offering and (2) our sale of 11,000,000 ADSs offered in this offering at the initial public offering price of US\$10.00 per ADS, after deduction of the underwriting discounts and commissions and estimated offering expenses payable by us (assuming the over-allotment option is not exercised), our pro forma as adjusted net tangible book value as of March 31, 2015 would have been US\$173.0 million, or US\$1.19 per ordinary share and US\$3.57 per ADS. This represents an immediate increase in net tangible book value of US\$0.53 per ordinary share and US\$1.59 per ADS to the existing shareholders and an immediate dilution in net tangible book value of US\$2.14 per ordinary share and US\$6.43 per ADS to investors purchasing ADSs in this offering. The following table illustrates such dilution:

	Per Ordinary Share	Per ADS
Initial public offering price	US\$ 3.33	US\$ 10.00
Net tangible book value as of March 31, 2015	US\$ (2.09)	US\$ (6.27)
Pro forma net tangible book value as of March 31, 2015 after giving effect to the automatic conversion of all of our outstanding convertible redeemable preferred shares	US\$ 0.66	US\$ 1.98
Increase in pro forma as adjusted net tangible book value attributable to this offering	US\$ 0.53	US\$ 1.59
Pro forma as adjusted net tangible book value after giving effect to the automatic conversion of all of our outstanding convertible redeemable preferred shares and this offering	US\$ 1.19	US\$ 3.57
Amount of dilution in pro forma as adjusted net tangible book value to new investors in the offering	US\$ 2.14	US\$ 6.43

Table of Contents

The following table summarizes, on a pro forma as adjusted basis as of March 31, 2015, the differences between existing shareholders and new investors with respect to the number of ordinary shares (in the form of ADSs or shares) purchased from us, the total consideration paid and the average price per ordinary share and per ADS paid before deducting the underwriting discounts and commissions and estimated offering expenses. The total number of ordinary shares does not include ordinary shares underlying the ADSs issuable upon the exercise of the over-allotment option granted to the underwriters.

	Ordinary Shares Purchased		Total Consideration		Average Price Per Ordinary Share	Average Price Per ADS
	Number	Percent	Amount	Percent		
Existing shareholders	112,698,983	77.4%	US\$ 133,349,806	54.8%	US\$ 1.18	US\$ 3.54
New investors	33,000,000	22.6%	US\$ 110,000,000	45.2%	US\$ 3.33	US\$ 10.00
Total	145,698,983	100.0%	US\$ 243,349,806	100.0%		

The discussion and tables above assume no exercise of any outstanding share options outstanding as of the date of this prospectus. As of the date of this prospectus, there are 18,817,423 ordinary shares issuable upon exercise of outstanding share options at a weighted average exercise price of US\$0.4771 per share. To the extent that any of these options are exercised, there will be further dilution to new investors.

Table of Contents**EXCHANGE RATE INFORMATION**

Substantially all of our operations are conducted in China and substantially all of our revenues are denominated in RMB. This prospectus contains translations of RMB amounts into U.S. dollars at specific rates solely for the convenience of the reader. Unless otherwise noted, all translations from RMB to U.S. dollars and from U.S. dollars to RMB in this prospectus were made at a rate of RMB6.1990 to US\$1.00, the exchange rate set forth in the H.10 statistical release of the Federal Reserve Board on March 31, 2015. We make no representation that any RMB or U.S. dollar amounts could have been, or could be, converted into U.S. dollars or RMB, as the case may be, at any particular rate, at the rates stated below, or at all. The PRC government imposes control over its foreign currency reserves in part through direct regulation of the conversion of RMB into foreign exchange and through restrictions on foreign trade. On May 15, 2015, the noon buying rate was RMB6.2051 to US\$1.00.

The following table sets forth, for the periods indicated, information concerning exchange rates between the Renminbi and the U.S. dollar based on the exchange rates set forth in the H.10 statistical release of the Federal Reserve Board. These rates are provided solely for your convenience and are not necessarily the exchange rates that we used in this prospectus or will use in the preparation of our periodic reports or any other information to be provided to you.

Table of Contents

ENFORCEABILITY OF CIVIL LIABILITIES

We were incorporated in the Cayman Islands in order to enjoy the following benefits:

political and economic stability;

an effective judicial system;

a favorable tax system;

the absence of exchange control or currency restrictions; and

the availability of professional and support services.

However, certain disadvantages accompany incorporation in the Cayman Islands. These disadvantages include:

the Cayman Islands has a less developed body of securities laws as compared to the United States and these securities laws provide significantly less protection to investors; and

Cayman Islands companies may not have standing to sue before the federal courts of the United States.

Our amended and restated memorandum and articles do not contain provisions requiring that disputes, including those arising under the securities laws of the United States, among us, our officers, directors and shareholders, be arbitrated.

Substantially all of our operations are conducted in China, and substantially all of our assets are located in China. Substantially all of our officers are nationals or residents of jurisdictions other than the United States and a substantial portion of their assets are located outside the United States. As a result, it may be difficult for a shareholder to effect service of process within the United States upon us or these persons, or to enforce against us or them judgments obtained in United States courts, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States.

We have appointed Law Debenture Corporate Services Inc., located at 400 Madison Avenue, 4th Floor, New York, NY 10017, as our agent upon whom process may be served in any action brought against us under the securities laws of the United States.

Maples and Calder, our counsel as to Cayman Islands law, and Fangda Partners, our counsel as to PRC law, have advised us, respectively, that there is uncertainty as to whether the courts of the Cayman Islands and China, respectively, would:

Edgar Filing: Baozun Inc. - Form 424B4

recognize or enforce judgments of United States courts obtained against us or our directors or officers predicated upon the civil liability provisions of the securities laws of the United States or any state in the United States; or

entertain original actions brought in each respective jurisdiction against us or our directors or officers predicated upon the securities laws of the United States or any state in the United States.

Maples and Calder has further advised us that although there is no statutory enforcement in the Cayman Islands of judgments obtained in the federal or state courts of the United States (and the Cayman Islands are not a party to any treaties for the reciprocal enforcement or recognition of such judgments), a judgment obtained in such jurisdiction will be recognized and enforced in the courts of the Cayman Islands at common law, without any re-examination of the merits of the underlying dispute, by an action commenced on the foreign judgment debt in the Grand Court of the Cayman Islands, provided that such judgment: (a) is given by a foreign court of competent jurisdiction; (b) imposes on the judgment debtor a liability to pay a liquidated sum for which the judgment has been given; (c) is final; (d) is not in respect of taxes, a fine or a penalty; and (e) was not obtained in a manner and is not of a kind the enforcement of which is contrary to natural justice or the public policy of the

Table of Contents

Cayman Islands. However, the Cayman Islands courts are unlikely to enforce a punitive judgment of a United States court predicated upon the liabilities provision of the federal securities laws in the United States without retrial on the merits if such judgment gives rise to obligations to make payments that may be regarded as fines, penalties or similar charges.

Fangda Partners has further advised us that the recognition and enforcement of foreign judgments are provided for under PRC Civil Procedures Law. PRC courts may recognize and enforce foreign judgments in accordance with the requirements of PRC Civil Procedures Law based either on treaties between China and the country where the judgment is made or on principles of reciprocity between jurisdictions. China does not have any treaties or other agreements with the United States or the Cayman Islands that provide for the reciprocal recognition and enforcement of foreign judgments. In addition, according to the PRC Civil Procedures Law, courts in the PRC will not enforce a foreign judgment against us or our directors and officers if they decide that the judgment violates the basic principles of PRC law or national sovereignty, security or public interest. As a result, it is uncertain whether a PRC court would enforce a judgment rendered by a court in the United States or the Cayman Islands.

Table of Contents

CORPORATE HISTORY AND STRUCTURE

Our History

We are a holding company and operate our business through our wholly-owned subsidiaries and a PRC consolidated VIE. We commenced operations to provide brand e-commerce solutions in China in August 2007 through Shanghai Baozun, a PRC limited liability company founded by our CEO Mr. Vincent Wenbin Qiu, our COO Mr. Junhua Wu, one of our directors Mr. Michael Qingyu Zhang and several other individual investors, or collectively, the Founding Shareholders. Shanghai Baozun, our wholly-owned subsidiary, provides integrated brand-e-commerce solutions to our brand partners, including IT services, store operations, digital marketing, customer services, warehousing and fulfillment.

In March 2010, we incorporated our wholly-owned subsidiaries, Shanghai Bodao E-Commerce Limited, or Shanghai Bodao, and Shanghai Yingsai Advertisement Limited, or Shanghai Yingsai, in China. In December 2011, to further develop our e-commerce solutions business, we incorporated our wholly-owned subsidiary, Shanghai Fengbo E-Commerce Limited, or Shanghai Fengbo, in China. Shanghai Fengbo and Shanghai Bodao provide brand e-commerce solutions to our brand partners, and Shanghai Yingsai provides marketing services to our brand partners. As we began to expand our business outside of mainland China, we established Baozun Hongkong Limited in September 2013, which serves as our operation center in Hong Kong. In December 2013, we incorporated our holding company, Baozun Cayman Inc., under the laws of the Cayman Islands. We incorporated Baozun Hong Kong Holding Limited in January 2014 to develop our e-commerce solutions business in Hong Kong and internationally. We changed our holding company's name from Baozun Cayman Inc. to Baozun Inc. in March 2015.

The operation of value-added telecommunications businesses in China requires an ICP license, and foreign ownership of value-added telecommunications business is subject to restrictions under current PRC laws, rules and regulations. Although our current business does not require an ICP license, we hold an ICP license through our PRC consolidated VIE, Shanghai Zunyi, which is the operator of our Maikefeng platform, to provide us with the flexibility to develop value-added telecommunications services in the future that would be in compliance with PRC laws, rules, regulations. In April and July 2014, through Shanghai Baozun, we entered into certain contractual arrangements with Shanghai Zunyi and its shareholders under which we gained effective control over the operations of Shanghai Zunyi. Shanghai Zunyi was a dormant company before July 2014 and began serving consumers through our Maikefeng platform, including our Maikefeng mobile application and mkf.com website, in July 2014.

In October 2014, we established Taiwan Baozun Corporation, a wholly-owned subsidiary, to expand our provision of brand e-commerce solutions to the Taiwan market.

As a holding company, our ability to pay dividends depends upon dividends and other distributions on equity paid to us by our principal operating subsidiaries. Pursuant to PRC laws and regulations, our wholly owned subsidiaries may pay dividends only out of their retained earnings, and are required to set aside a portion of their net income each year to fund certain statutory reserves. These reserves, together with the registered equity, are not distributable as cash dividends. See Risk Factors Risks Related to Doing Business in the People's Republic of China We rely to a significant extent on dividends and other distributions on equity paid by our principal operating subsidiaries to fund offshore cash and financing requirements. and Regulation Regulation of Dividend Distribution.

For our private placement of ordinary shares and convertible redeemable preferred shares, see Description of Share Capital History of Securities Issuances.

Table of Contents

Our Corporate Structure

The following diagram illustrates our corporate structure and the place of incorporation of each of our significant subsidiaries and VIE as of the date of this prospectus:

Note: (1) Shanghai Zunyi is our VIE in China and is 80% owned by Mr. Vincent Wenbin Qiu and 20% owned by Mr. Michael Qingyu Zhang. It primarily serves as our platform for developing our Maikefeng business.

We have entered into contractual arrangements with Shanghai Zunyi and its shareholders, through which we exercise effective control over operations of Shanghai Zunyi and receive substantially all economic benefits generated from it. As a result of these contractual arrangements, under U.S. GAAP, we are considered the primary beneficiary of Shanghai Zunyi and thus consolidate its results in our consolidated financial statements. However, these contractual arrangements may not be as effective in providing us with control over the VIE as direct ownership of its equity interests. In addition, the VIE or its shareholders may breach the contractual arrangements with us. In such cases, we would have to rely on legal remedies under PRC law, which may not always be effective, particularly in light of uncertainties in the PRC legal system. See Risk Factors Risks Related to Our Corporate Structure We rely on contractual arrangements with our VIE and its shareholders for a portion of our business operations, which may not be as effective as direct ownership in providing operational control.

Table of Contents

Contractual Arrangements with Shanghai Zunyi and its Shareholders

Our relationships with Shanghai Zunyi and its shareholders are governed by a series of contractual arrangements. The following is a summary of the currently effective contractual arrangements by and among our wholly-owned subsidiary, Shanghai Baozun, our VIE, Shanghai Zunyi, and the shareholders of Shanghai Zunyi.

Exclusive Technology Service Agreement. On April 1, 2014, Shanghai Zunyi and Shanghai Baozun entered into an exclusive technology service agreement. Pursuant to the exclusive technology service agreement, Shanghai Baozun has the exclusive right to provide specified technology services to Shanghai Zunyi. Without the prior written consent of Shanghai Baozun, Shanghai Zunyi may not accept the same or similar technology services provided by any third party during the term of the agreement. Shanghai Zunyi agrees to pay to Shanghai Baozun a service fee at 95% of the net revenues of Shanghai Zunyi and extra service fee for additional services provided by Shanghai Baozun as requested by Shanghai Zunyi within three months after each calendar year for the services provided in the preceding year. The agreement has an initial term of 20 years and will be automatically renewed on a yearly basis thereafter unless otherwise notified by Shanghai Baozun, and shall be terminated when the operating term of Shanghai Baozun or Shanghai Zunyi expires. To the extent permitted by law, Shanghai Zunyi is not contractually entitled to terminate the exclusive technology service agreement with Shanghai Baozun.

Exclusive Call Option Agreement. On April 1, 2014, Shanghai Zunyi, each of its shareholder and Shanghai Baozun entered into an exclusive call option agreement. Each of Shanghai Zunyi's shareholders have granted Shanghai Baozun an exclusive call option to purchase their equity interests in Shanghai Zunyi at an exercise price equal to the higher of (i) the registered capital in Shanghai Zunyi; and (ii) the minimum price as permitted by applicable PRC laws. Shanghai Zunyi has further granted Shanghai Baozun an exclusive call option to purchase its assets at an exercise price equal to the book value of the assets or the minimum price as permitted by applicable PRC law, whichever is higher. Shanghai Baozun may nominate another entity or individual to purchase the equity interests or assets, if applicable, under the call options. Each call option is exercisable subject to the condition that applicable PRC laws, rules and regulations do not prohibit completion of the transfer of the equity interests or assets pursuant to the call option. Shanghai Baozun is entitled to all dividends and other distributions declared by Shanghai Zunyi, and each of the shareholders of Shanghai Zunyi has agreed to give up their rights to receive any distributions or proceeds from the disposal of their equity interests in Shanghai Zunyi and to pay any such distributions or premium to Shanghai Baozun with deduction of applicable taxes. The exclusive call option agreement remains in effect until the equity interest and assets that are the subject of such agreements are transferred to Shanghai Baozun or its designated entities or individuals. To the extent permitted by law, Shanghai Zunyi and its shareholders are not contractually entitled to terminate the exclusive call option agreement with Shanghai Baozun.

Proxy Agreement. On July 28, 2014, Shanghai Zunyi, each of its shareholder and Shanghai Baozun entered into a voting right proxy agreement, or the Proxy Agreement. Each shareholder of Shanghai Zunyi granted an irrevocable power of attorney to Shanghai Baozun that authorizes any person designated by Shanghai Baozun to exercise his rights as an equity holder of Shanghai Zunyi, including the right to attend and vote at equity holders' meetings and appoint directors. The proxy agreement has an initial term of 20 years and will be automatically renewed on a yearly basis thereafter unless otherwise notified by Shanghai Baozun. If (i) the operating term of Shanghai Baozun or Shanghai Zunyi expires; or (ii) the parties thereto mutually agree on an early termination, the proxy agreement may be terminated. To the extent permitted by law, Shanghai Zunyi and its shareholders are not contractually entitled to terminate the proxy agreement with Shanghai Baozun.

Equity Interest Pledge Agreements. On July 28, 2014, Shanghai Zunyi and its shareholders entered into equity interest pledge agreements with Shanghai Baozun. The shareholders of Shanghai Zunyi pledged all of their equity interests in Shanghai Zunyi to Shanghai Baozun to secure their and Shanghai Zunyi's obligations under certain agreements above and other agreed obligations and as collateral for all of the amounts payable by Shanghai Zunyi to Shanghai Baozun under those agreements. If any event of default as defined under this

Table of Contents

agreement occurs, Shanghai Baozun, as the pledgee, will be entitled to dispose of the pledged equity interests. In addition, any increase in the registered capital of Shanghai Zunyi will be further pledged in favor of Shanghai Baozun. The equity interest pledge agreements will remain in full effect until all the secured contractual obligations have been performed or all the secured debts have been discharged. Under PRC laws, the equity pledge is required to be registered with the SAIC or its competent branches for perfection. The equity pledge of Shanghai Zunyi has already been registered with the relevant branch of the SAIC.

As a result of these contractual arrangements, we have the power to direct the activities of Shanghai Zunyi, and through the service fee paid to us under the exclusive technology service agreement, we can receive substantially all of the economic benefits of Shanghai Zunyi even though we do not receive all of the revenues generated by Shanghai Zunyi.

In the opinion of Fangda Partners, our PRC legal counsel, (i) the ownership structures of Shanghai Baozun and Shanghai Zunyi do not violate any applicable PRC laws and regulations currently in effect; and (ii) the contractual arrangements between Shanghai Baozun, Shanghai Zunyi and its shareholders governed by PRC law are valid, binding and enforceable in accordance with their terms and applicable PRC laws and regulations currently in effect, and do not violate any PRC laws or regulations currently in effect.

However, our PRC legal counsel has also advised us that there are substantial uncertainties regarding the interpretation and application of current and future PRC laws, regulations and rules; accordingly, the PRC regulatory authorities may take a view that is contrary to the opinion of our PRC legal counsel. See [Risk Factors](#) [Risks Related to Our Corporate Structure](#) If the PRC government deems that the contractual arrangements in relation to Shanghai Zunyi do not comply with PRC regulatory restrictions on foreign investment in the relevant industries, or if these regulations or the interpretation of existing regulations change in the future, we could be subject to severe penalties or be forced to relinquish our interests in those operations. and [Risk Factors](#) [Risks Related to Our Corporate Structure](#) Any failure by our VIE or its shareholders to perform their obligations under our contractual arrangements with them would have a material and adverse effect on our business.

- (1) The pro forma balance sheet information as of March 31, 2015 assumes the conversion upon completion of the initial public offering of all convertible redeemable preferred shares outstanding as of March 31, 2015 into ordinary shares.
- (2) Reflects (i) the automatic conversion of all of our convertible redeemable preferred shares upon the completion of this offering and (ii) the issuance and sale by us of 33,000,000 Class A ordinary shares represented by 11,000,000 ADSs in this offering at the public offering price of US\$10.00 per ADS after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, and further assuming no exercise by the underwriters of over-allotment option.

Selected Operating Data

	For the Year Ended December 31,			For the Three Months Ended March 31,	
	2012	2013	2014	2014	2015
Number of brand partners as of the period end ⁽¹⁾	56	71	93	78	94
Number of GMV brand partners as of the period end ⁽²⁾	53	61	78	66	84
Total GMV ⁽³⁾ (RMB in millions)		2,621	4,249	574	1,157
	1,460 ⁽⁴⁾	⁽⁴⁾	⁽⁴⁾	⁽⁴⁾	⁽⁴⁾
Average GMV per GMV brand partner ⁽⁵⁾	30	46	61	9.0	14.0

- (1) Brand partners are defined as companies for which we operate official brand stores or official marketplace stores under their brand names or have entered into agreements to do so.
- (2) GMV brand partners are defined as brand partners that contribute to our total GMV in the respective periods.
- (3) Total GMV is defined as (i) the full value of all purchases transacted and settled on stores operated by us (including our Maikefeng platform but excluding stores for the operations of which we only charge fixed fees) and (ii) the full value of purchases for which customers have placed orders and paid deposits on such stores and which have been settled offline. Our calculation of GMV includes value added tax and excludes (i) shipping charges, (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled.
- (4) GMV of our Maikefeng platform was nil, nil, RMB33.9 million (US\$5.5 million), RMB0.2 million and RMB22.5 million (US\$3.6 million) in 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, respectively.
- (5) Average GMV per GMV brand partner is calculated by dividing GMV (excluding Maikefeng) by the average number of GMV brand partners as of the beginning and end of the respective periods.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our audited consolidated combined financial statements and unaudited consolidated combined financial information included elsewhere in this prospectus. This discussion contains forward-looking statements that involve risks and uncertainties. Our actual results and the timing of selected events could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under Risk Factors and elsewhere in this prospectus.

Overview

We are the leading brand e-commerce solutions provider in China, with a market share of approximately 20% as measured by transaction value in 2014, according to the iResearch Report.

The number of our brand partners grew from 56 as of December 31, 2012, to 71 as of December 31, 2013, to 93 as of December 31, 2014 and to 94 as of March 31, 2015. Our brand partners cover diverse categories, including apparel, appliances, electronics, home, food and health, cosmetics and fast moving consumer goods, insurance and automobile, and many of them are market leaders in their respective industries.

Our integrated e-commerce capabilities allow us to leverage our brand partners' unique resources and are seamlessly integrated with their back-end systems. This enables data tracking and analytics for the full transaction value chain, making us a valuable part of the brands' e-commerce functions. We help our brand partners establish their market presence and launch products quickly through official brand store sites and major online marketplaces in China as well as social media platforms. We also help our brand partners devise and execute O2O strategies combining the strengths of their online stores and offline retail networks. By enabling seamless shopping experience across various channels both online and offline, we deliver omni-channel solutions to achieve optimal branding effect and sales results that are responsive to our brand partners' individual e-commerce objectives.

Leveraging our proprietary and scalable technology infrastructure and systems, we provide integrated e-commerce solutions that synchronize marketing campaigns, centralize management of inventory, order fulfillment and customer service, and collect and analyze consumer behavior and transaction data across internet, mobile and offline channels.

We partner with leading nationwide and local logistics services providers to ensure reliable and timely delivery. We are able to achieve next-day delivery in 95 cities across China. We operate five warehouses with an aggregate gross floor area of 72,800 square meters that can handle 300,000 daily orders and 400,000 daily pieces. Our warehouse management system is customized to account for variance in arrangements with brands and differences in specifications for products, ranging from apparel, electronics to beauty and health products.

We generate revenue from two revenue streams: (i) product sales and (ii) services. We generally operate e-commerce businesses for our brand partners based on one of three business models: distribution model, service fee model and consignment model, or in some circumstances, a combination of the business models. We derive product sales revenues when we sell products to customers under the distribution model. We derive services revenues under the service fee model and consignment model. For services provided, we charge our brand partners fees

Edgar Filing: Baozun Inc. - Form 424B4

consisting of fixed fees and/or variable fees based on GMV or other variable factors such as number of orders fulfilled. Under the consignment model, we may facilitate brand partners' online sales of products as an agent and receive commission fee calculated based on a formula pre-agreed with our brand partners. In 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, net revenues from product sales accounted for 85.9%, 83.8%, 74.9%, 73.7% and 74.1%, respectively, of our total net revenues.

Our GMV was RMB1,460.4 million, RMB 2,620.8 million, RMB4,248.9 million (US\$684.8 million) and RMB1,157.0 million (US\$186.6 million) in 2012, 2013, 2014 and the three months ended March 31, 2015, respectively. For the same periods, our total net revenues were RMB954.5 million, RMB1,521.8 million,

Table of Contents

RMB1,584.4 million (US\$255.6 million) and RMB477.2 million (US\$76.9 million), respectively. We incurred net loss of RMB47.2 million, RMB37.8 million and RMB59.8 million (US\$9.6 million) in 2012, 2013 and 2014, respectively, and recorded net income of RMB1.8 million and RMB2.0 million (US\$0.3 million) in the three months ended March 31, 2014 and 2015, respectively. We incurred non-GAAP net loss of RMB42.7 million and RMB26.3 million in 2012 and 2013, respectively, and had non-GAAP net income of RMB25.1 million (US\$4.1 million) RMB3.4 million and RMB7.6 million (US\$1.2 million) in 2014 and the three months ended March 31, 2014 and 2015, respectively. See Summary Consolidated Financial and Operating Data Non-GAAP Financial Measure.

We currently operate our Maifefeng platform through our PRC consolidated VIE, Shanghai Zunyi. We did not generate any revenues from Shanghai Zunyi in 2012 and 2013, and revenues from Shanghai Zunyi contributed 1.3% and 4.2% of our total net revenues in 2014 and the three months ended March 31, 2015, respectively. As we grow our Maifefeng platform, we expect that revenues from Shanghai Zunyi will continue to increase.

Factors Affecting Our Results of Operations

Our results of operations and financial condition are affected by the general factors driving the retail industry and online retail, including:

Levels of per capita disposable income and consumer spending in China and our target markets. Consumer spending power has been rising in China and in our other target markets in Asia, including Hong Kong, Taiwan and Indonesia. The growth of the e-commerce market in these markets depend on continued increase in consumption.

Development and popularity of e-commerce in China and in our target markets. Driven by the growth of the internet, broadband, personal computer and mobile penetration in China and the development of fulfillment, payment and other ancillary services associated with online purchases, e-commerce is expected to rapidly rise in significance in China and in our other target markets in Asia. The growing number of online shoppers have made online marketplaces and other e-commerce channels into popular retail platforms for brands. The growth of our business depends on the development and popularity of e-commerce, and the value of e-commerce as part of brands' expansion strategies.

While our business is influenced by general factors affecting our industry, our operating results are more directly affected by company specific factors, including the following major factors:

Our ability to retain and attract brand partners. The number of our brand partners directly affect our total revenues. We would need to continue to maintain and expand our brand partner base to maintain and grow our revenues.

Our ability to increase GMV. We generate the majority of our revenues primarily through product sales. Increases in GMV and revenues depend on our ability to attract higher traffic to the online stores, convert more store visitors into consumers, increase consumers' order values, grow repeat customer base, provide superior experience to customers and expand product offerings.

Our ability to enhance cooperation with marketplaces. We generate the majority of our revenues primarily through product sales on official marketplace stores that we operate on Tmall. Our future growth depends on our ability to enhance cooperation with Tmall and expand working relationships with other major online marketplaces, such as JD.com.

Edgar Filing: Baozun Inc. - Form 424B4

Our ability to successfully extend and operate our business in Asia. Almost all of our revenues are generated in China. Our success in extending our geographical reach will affect the increase in our revenues.

Our ability to innovate. Our ability to innovate and continue to introduce new value-added brand e-commerce solutions through improved technologies and marketing know-how is key to better serve our brand partners and help our brand partners enhance their e-commerce success, which will contribute to our ability to maintain and attract brand partners, sell more solutions and generate more revenues. Our ability to innovate is also crucial to our ability to improve our Maikefeng platform to increase our product sales.

Table of Contents

Our ability to manage our revenues and product mix. We generate revenues from product sales and service fees. Our net revenues as a percentage of our GMV and profitability could vary depending on the mix of our revenues from these sources. In general, our net revenues as a percentage of our GMV are lower but our profitability is higher when services revenues contribute to a larger share of our revenues. Our product mix also affects our revenue mix and profitability. Depending on the product category, we may derive more revenues from product sales than service fees, or vice versa, which may further impact our profitability.

Our ability to effectively invest in our technology platform and fulfillment infrastructure. Our results of operations depend in part on our ability to invest in our technology platform and fulfillment infrastructure cost-effectively. Capital expenditure for investments also affects our financial condition, especially our cash flow.

Our ability to manage growth, control costs and manage working capital. Our expansion will result in substantial demands on our management, operational, technological, financial and other resources. Our ability to control cost and manage working capital is key to our success. Our continued success depends on our ability to leverage our scale to obtain more favorable terms, including better credit terms and larger credit lines, from our brand partners, marketplaces, advertising partners, lessors of warehouses and logistics services providers. Our ability to gain better insight in inventory turnover and sales patterns, which allows us to better optimize our working capital, may also affect our operations.

Descriptions of Certain Statement of Operations Items

Net Revenues

We generate revenues from two revenue streams: (i) product sales and (ii) services. We generally operate e-commerce businesses for our brand partners based on one of the three business models: distribution model, service fee model and consignment model, or, in some circumstances, a combination of the business models.

We derive product sales revenues when we sell products to customers under the distribution model. We select and purchase goods from our brand partners and/or their authorized distributors and sell branded goods directly to customers through our online stores or our Maifefeng platform. Revenues generated from product sales include fees charged to customers for shipping and handling expenses. We record product sales revenue, net of return allowances, value added tax and related surcharges, when the products are delivered and accepted by customers. We offer customers an unconditional right of return for a period of seven days upon receipt of products. Return allowances, which reduce net revenues, are estimated based on our analysis of returns by categories of products based on historical data we have maintained, and subject to adjustments to the extent that actual returns differ or are expected to differ.

We derive services revenues under the service fee model and consignment model. We provide IT services, online store operation services, digital marketing services and other services, such as payment collection, to our brand partners under the service fee model. Under the consignment model, we provide online store operation services and warehousing services, whereby our brand partners stock goods in our warehouses for future sales and we are responsible for delivering the goods to customers. Under the consignment model, brand partners may also use one or more of other services rendered by us. We may also facilitate our brand partners' online sales of goods as an agent under the consignment model and charge our brand partners commission fees calculated based on a formula pre-agreed with our brand partners. We do not take title to the products, do not have any latitude in establishing prices and selecting merchandise, have no discretion in selecting suppliers and generally are not involved in determining product specifications. Based on these indicators, we record the commission fees as services revenue.

Edgar Filing: Baozun Inc. - Form 424B4

For services provided under the service fee model and consignment model, we charge our brand partners fees consisting of fixed fees and/or variable fees based on GMV or other variable factors such as number of

Table of Contents

orders fulfilled. In particular, variable fees based on GMV is calculated using a predetermined ratio that we have negotiated with our brand partners, which may vary depending on factors such as the type and extent of the services we render. Revenues generated from services relating to online store design and setup and marketing and promotion services for brand partners are recognized when the services are rendered. Revenue generated from services relating to online store operations, customer services, and warehouse and fulfillment services consisted of both fixed fees and variable fees based on the value of merchandise sold. Fixed fees are recognized as revenues ratably over the service period. Variable fees are recognized as revenues when they become determinable based on the GMV and confirmed by our brand partners.

The following table sets forth our revenues by source for each period indicated.

	2012		For the Year Ended December 31, 2013		2014			For the Three Months Ended March 31, 2014			2015	
	RMB	%	RMB	%	RMB	US\$	%	RMB	%	RMB	US\$	%
(in thousands, except percentages)

Total net revenues	954,464	100.0	1,521,836	100.0	1,584,420	255,593	100.0	268,478	100.0	477,199	76,980	100.0

The following table sets forth the following operating data for each period indicated.

	For the Year Ended December 31,			For the Three Months Ended March 31,	
	2012	2013	2014	2014	2015
Number of brand partners as of the period end⁽¹⁾	56	71	93	78	94
Number of GMV brand partners as of the period end⁽²⁾	53	61	78	66	84
Total GMV⁽³⁾ (RMB in millions)	1,460 (4)	2,621 (4)	4,249 (4)	574 (4)	1,157 (4)
Average GMV per GMV brand partner⁽⁵⁾	30	46	61	9.0	14.0

- (1) Brand partners are defined as companies for which we operate official brand stores or official marketplace stores under their brand names or have entered into agreements to do so.
- (2) GMV brand partners are defined as brand partners that contributed to our GMV during the respective periods.
- (3) GMV is defined as (i) the full value of all purchases transacted and settled on stores operated by us (including our Maikefeng platform but excluding stores for the operations of which we only charge fixed fees) and (ii) the full value of purchases for which customers have placed orders and paid deposits on such stores and which have been settled offline. Our calculation of GMV includes value added tax excludes (i) shipping charges and (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled.
- (4) GMV of our Maikefeng platform was nil, nil, RMB33.9 million (US\$5.5 million), RMB0.2 million and RMB22.5 million (US\$3.6 million) in 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, respectively.
- (5) Average GMV per GMV brand partner is calculated by dividing GMV (excluding Maikefeng) by the average number of GMV brand partners as of the beginning and end of the respective periods.

Edgar Filing: Baozun Inc. - Form 424B4

Our net revenues as a percentage of our GMV decreased from 65.4% in 2012 to 58.1% in 2013 and to 37.3% in 2014 and decreased from 46.8% in the three months ended March 31, 2014 to 41.2% in the three months ended March 31, 2015. The decreases in our net revenues as a percentage of our GMV over these periods were primarily due to the increase in our services revenues as a percentage of our net revenues, particularly the increase in commission fees charged by us under the consignment model. Because commission fees charged by

Table of Contents

us under the consignment model is recorded as the services revenue on a net basis, it represents a smaller percentage of GMV than sales of products under the distribution model, which is recorded as products sales revenue on a gross basis. The trend of our net revenues as a percentage of our GMV in the future depends on the relative pace of the increase in our services revenues and the increase in our product sales revenue, including revenue generated from our Maikefeng platform.

Operating expenses

Our operating expenses consist primarily of cost of products, fulfillment expenses, sales and marketing expenses, technology and content expenses, and general and administrative expenses. The following table breaks down our total operating expenses by these categories, by amounts and as percentages of total net revenues for each of the periods presented.

	2012		For the Year Ended December 31,						For the Three Months Ended March 31,					
	RMB	%	RMB	%	RMB	US\$	%	RMB	%	RMB	US\$	%		
	(in thousands, except percentages)													
Net revenues	954,464	100.0	1,521,836	100.0	1,584,420	255,593	100.0	268,478	100	477,199	76,980	100		
Operating expenses														
Cost of products	(808,063)	(84.7)	(1,245,832)	(81.9)	(1,086,133)	(175,211)	(68.3)	(182,593)	(68)	(322,929)	(52,094)	(67.5)		
Fulfillment	(72,026)	(7.5)	(116,432)	(7.7)	(168,130)	(27,122)	(10.6)	(29,295)	(10.9)	(52,149)	(8,412)	(10.9)		
Sales and marketing	(78,633)	(8.2)	(146,202)	(9.6)	(226,952)	(36,610)	(14.6)	(35,167)	(13.1)	(73,888)	(11,919)	(15.6)		
Technology and content	(6,554)	(0.7)	(16,120)	(1.1)	(63,607)	(10,261)	(4.0)	(8,073)	(3.0)	(12,607)	(2,034)	(2.6)		
General and administrative	(33,461)	(3.5)	(38,160)	(2.5)	(96,911)	(15,633)	(6.1)	(12,141)	(4.5)	(12,402)	(2,001)	(2.6)		
Other operating expenses, net	(122)	(0.0)	(75)	(0.0)	457	74	(0.0)	(190)	(0.1)	(474)	(76)	(0.1)		
Total operating expenses	(998,859)	(104.6)	(1,562,821)	(102.8)	(1,641,276)	(264,763)	(103.6)	(267,459)	(99.6)	(474,449)	(76,536)	(99.4)		

Cost of products is separately presented for product sales under the distribution model. Cost of products consists of the purchase price of products and inbound shipping charges, as well as inventory write-downs. Shipping charges to receive products from the suppliers are included in the inventories, and recognized as cost of products upon sale of the products to the customers. Our cost of products does not include other direct costs related to cost of product sales such as shipping and handling expenses, payroll and benefits of staff, logistic centers rental expenses and depreciation expenses. Therefore our cost of products may not be comparable to other companies which include such expenses in their cost of products. We expect our cost of products to increase in line with the growth of our net revenues generated from product sales.

Our fulfillment expenses primarily consist of (i) expenses charged by third-party couriers for dispatching and delivering products to consumers, (ii) expenses incurred in operating our fulfillment and customer service center, including personnel cost and expenses attributable to buying, receiving, inspecting and warehousing inventories, picking, packaging and preparing customer orders for shipment, and store operations, (iii) rental expenses of leased warehouses, and (iv) packaging material costs. We expect our fulfillment expenses to increase as we will hire additional fulfillment personnel and lease more warehouses to meet the demand driven by the increase in the GMV and expansion of our fulfillment services. We plan to make our fulfillment operations more efficient by setting up customized warehouse facilities to make full use of the available space, improve the pick-and-pack workflow efficiency, accommodate greater product selection and minimize order splitting.

Our sales and marketing expenses primarily consist of payroll, bonus and benefits of sales and marketing staff, advertising costs, service fees paid to marketplaces, agency fees and costs for promotional materials. Our sales and marketing expenses have increased in recent years, primarily due to the growth of our sales and marketing team and an expansion of our marketing efforts. We expect that our sales and marketing expenses will continue to increase as we devote further efforts to expand digital marketing services for our brand partners and engage in additional advertising activities to increase the GMV of stores operated by us.

Table of Contents

Our technology and content expenses consist primarily of technology infrastructure expenses and payroll and related expenses for employees in our technology and system department, editorial content, as well as costs associated with the computer, storage and telecommunications infrastructure for internal use. We expect spending in technology and content to increase over time as we add more experienced IT professionals and continue to invest in our technology platform to provide comprehensive services to brand partners.

Our general and administrative expenses consist primarily of payroll and related expenses for our management and other employees involved in general corporate functions, office rentals, depreciation and amortization expenses relating to property and equipment used in general and administrative functions, professional service and consulting fees and other expenses incurred in connection with general corporate purposes. We expect our general and administrative expenses to increase as we incur additional expenses in connection with the expansion of our business and our operations, which include adding more staff to our general and administrative team, increasing expenses related to improving and maintaining our internal control over financial reporting and complying with our reporting obligations, and higher share-based compensation expenses.

Taxation

Cayman Islands

We are not subject to income or capital gains tax under the current laws of the Cayman Islands. The Cayman Islands does not impose a withholding tax on payments of dividends to shareholders.

Hong Kong

Our subsidiary incorporated in Hong Kong is subject to Hong Kong profit tax at a rate of 16.5% on its taxable income generated from operations in Hong Kong. Hong Kong does not impose a withholding tax on dividends.

China

Generally, our subsidiaries and consolidated VIE in China are subject to enterprise income tax on their taxable income in China at a rate of 25%. The enterprise income tax is calculated based on the entity's global income as determined under PRC tax laws and accounting standards.

We are subject to VAT at a rate of 17% on product sales and 6% on our services, in each case less any deductible VAT we have already paid or borne. We are also subject to surcharges on VAT payments in accordance with PRC law.

We are subject to business tax at a rate of 5% for our services.

Dividends paid by our wholly foreign-owned subsidiary in China to our intermediary holding company in Hong Kong will be subject to a withholding tax rate of 10%, unless the relevant Hong Kong entity satisfies all the requirements under the Arrangement between the PRC and the Hong Kong Special Administrative Region on the Avoidance of Double Taxation and Prevention of Fiscal Evasion with respect to Taxes on Income and Capital entered into on August 21, 2006 and receives approval from the relevant tax authority. If the relevant Hong Kong entity satisfies all the requirements under the tax arrangement and receives approval from the relevant tax authority, then the dividends paid to the Hong Kong entity would be subject to withholding tax at the standard rate of 5%.

If our holding company in the Cayman Islands or any of our subsidiaries outside of China were deemed to be a resident enterprise under the PRC Enterprise Income Tax Law, it would be subject to enterprise income tax on its worldwide income at a rate of 25%. See Risk Factors Risks Related to Doing Business in the People's Republic of China We may be treated as a resident enterprise for PRC tax purposes under the PRC Enterprise Income Tax Law, and we may therefore be subject to PRC income tax on our global income.

Table of Contents

Critical Accounting Policies

We prepare our financial statements in conformity with U.S. GAAP, which requires us to make judgments, estimates and assumptions. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experiences and various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting process, actual results could differ from our expectations as a result of changes in our estimates. Some of our accounting policies require a higher degree of judgment than others in their application and require us to make significant accounting estimates.

The selection of critical accounting policies, the judgments and other uncertainties affecting application of those policies and the sensitivity of reported results to changes in conditions and assumptions are factors that should be considered when reviewing our financial statements. We believe the following accounting policies involve the most significant judgments and estimates used in the preparation of our financial statements.

Revenue Recognition

We provide brand e-commerce solutions to our brand partners and have two revenue streams: (i) product sales and (ii) services. Consistent with the criteria of ASC 605, *Revenue Recognition*, we recognize revenues when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

We generate revenues from selling branded products directly to customers under the distribution model or facilitate our brand partners' sales of products as an agent under the consignment model.

We evaluate whether it is appropriate to record proceeds from product sales as revenues at the gross amount or the net amount as commission fees earned in accordance with ASC 605-45-45.

Product Sales

Under the distribution model, we select and purchase goods from our brand partners and/or their authorized distributors and sell goods directly to customers through online stores operated by us or on our Maikefeng platform. Revenue under the distribution model is recognized on a gross basis and presented as product sales in the consolidated statements of operations, because (i) we, rather than the brand partner, are the primary obligor and are responsible to the customers for the key aspects of the fulfillment of the transaction including pre-sales and after-sales services; (ii) we bear the physical and general inventory risk once the products are delivered to our warehouse; (iii) we have latitude in establishing prices; and (iv) we have credit risk. The majority of revenues generated from selling branded products are under the distribution model and recognized on a gross basis.

Edgar Filing: Baozun Inc. - Form 424B4

Product sales, net of return allowances, value added tax and related surcharges, are recognized when customers accept the products upon delivery. We offer online customers an unconditional right of return for a period of seven days upon receipt of products. Return allowances, which reduce revenue, are estimated based on historical data we have maintained and our analysis of returns by categories of products, and subject to adjustments to the extent that actual returns differ or expected to differ. We made gross return allowances against our revenue of RMB188,000, RMB265,000, RMB331,000 (US\$53,396), RMB99,000 and RMB155,000 (US\$25,004) for the years ended December 31, 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, respectively.

A majority of our customers make online payments through third-party payment platforms when they place orders on our online stores. The funds will not be released to us by these third-party payment platforms until the customers accept the delivery of the products at which point we recognize sales of products.

A portion of our customers pay upon the receipt of our products. Our delivery service providers collect the payments from our customers for us. We record a receivable on the balance sheet with respect to cash held by third-party couriers.

Table of Contents

Shipping and handling charges are included in net revenues. We typically do not charge shipping fees on orders exceeding a certain sale amount. Shipping revenue has not been material for the periods presented. Our shipping costs are presented as part of our operating expenses.

Services

In some instances, we facilitate the brand partners' online sales of their respective branded products as an agent. We do not take title to the products, do not have any latitude in establishing prices and selecting merchandise, have no discretion in supplier selection, and generally are not involved in the determination of products specification. Based on these indicators, we have determined that revenue from our sales of products where we act as an agent are service fees in nature. Therefore, we record commission fees from our brand partners based on a pre-determined formula as services revenue in the consolidated statements of operations.

We also provide IT, online store operations, marketing and promotion, customer service, warehousing and fulfillment, and other services to our brand partners. Brand partners may elect to use our comprehensive end-to-end e-commerce solutions or select specific elements of our e-commerce supporting infrastructure and service that best fit their needs. We charge our brand partners a combination of fix fees and/or variable fees based on the value of merchandise sold or other variable factors such as number of orders fulfilled. Revenue generated from these service arrangements is recognized on a gross basis and presented as services revenue in the consolidated statements of operations. All the costs that we incur in the provision of the above services are classified as operating expenses on the consolidated statements of operations.

Revenue generated from services relating to IT service, and marketing and promotion services for brand partners are recognized when the services are rendered. Revenue generated from services relating to online store operations, customer services, and warehouse and fulfillment services consisted of both fixed fees and variable fees based on the value of merchandise sold. Fixed fee is recognized as revenue ratably over the service period. Variable fees are recognized as revenue when they become determinable based on the value of merchandise sold and confirmed by the brand partners.

Some of our service contracts are considered multiple element arrangements as they include provision of a combination of various services based on the brand partner's requirements. These contracts may include one-time online store design and setup services, marketing and promotion services during certain holidays, and continuous online store operation services, warehouse and fulfillment services over a period of time to the same brand partner.

We allocate arrangement consideration in multiple-deliverable revenue arrangements at the inception of an arrangement to all services revenues based on the relative selling price in accordance with the selling price hierarchy, which includes (i) vendor-specific objective evidence, or VSOE, if available; (ii) third-party evidence or TPE, if VSOE is not available, and (iii) best estimate of selling price, or BESP, if neither VSOE nor TPE is available.

VSOE. We determine VSOE based on our historical pricing and discounting practices for the specific service when sold separately. In determining VSOE, we require that a substantial majority of the selling prices for these services fall within a reasonably narrow pricing range. We have historical pricing for online store operation and customer services and warehousing and fulfillment services on a standalone basis. As a result, we have used VSOE to allocate the selling price for these services when they are elements of a multiple element arrangement. We have not historically priced one-time online store design and set up services on a standalone basis, and therefore, we consider TPE and BESP as discussed below.

Edgar Filing: Baozun Inc. - Form 424B4

TPE. When VSOE cannot be established for deliverables in multiple element arrangements, we apply judgment with respect to whether we can establish a selling price based on TPE. TPE is determined based on competitor prices for similar deliverables when sold separately. Generally, our business strategy differs from that of our peers, and its offerings contain a significant level of differentiation such that the comparable pricing of

Table of Contents

services with similar functionality cannot be obtained. Furthermore, we are unable to reliably determine what similar competitor services' selling prices are on a stand-alone basis. As a result, for the periods presented in the consolidated financial statements, we have not been able to establish selling price based on TPE for any of our service offerings.

BESP. When we are unable to establish selling price using VSOE or TPE, we use BESP in our allocation of arrangement consideration. The objective of BESP is to determine the price at which we would transact a sale if the service were sold on a stand-alone basis. We determine BESP for deliverables by considering multiple factors including, but not limited to, prices we charge for similar offerings and the cost of services we provide. We have used BESP to allocate the selling price of one-time online store design and set up services and marketing and promotion services under these multiple element arrangements. The process for determining BESP involves management judgment. Our process of considering multiple factors may vary depending upon the unique facts and circumstances related to each deliverable. If facts and circumstances underlying the factors we consider change, or should subsequent facts and circumstances lead us to consider additional factors, our BESP could change in future periods. We regularly review the evidence of selling prices for our services and maintain internal controls over the establishment and updates of these estimates. There were no material changes in BESP for our services during the years ended December 31, 2012, 2013, 2014 and the three months ended March 31, 2015, nor do we expect a material change in BESP in the foreseeable future.

Inventories

Inventories, consisting of products available for sale, are valued at the lower of cost or market. Cost of inventories is determined using the weighted average cost method. This valuation requires us to make judgments, based on currently available information, about the likely method of disposition, such as through sales to individual customers or liquidations in limited instances due to closure of online stores, and expected recoverable values of each disposition category.

We adopt different strategies to deal with non-seasonal and seasonal demands. In addition, we actively track the sales data and make timely adjustments to our procurement plan in order to minimize the chance of excess unsold inventory. As a result, our obsolete inventory has not been significant. Our inventory provision is made for valuation of inventory at the lower of cost or market value. In addition, we generally reserve for inventories on hand aging over certain period of time. Inventory provisions charged to cost of products were RMB9.9 million, RMB12.0 million, RMB12.5 million (US\$2.0 million), RMB2.6 million and RMB4.0 million (US\$0.6 million) for 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, respectively.

Share-Based Compensation

Our share-based payment transactions with our directors, employees and consultants are measured based on the grant date fair value of the equity instrument we issued and recognized as compensation expense over the requisite service period based on the straight-line method, with a corresponding impact reflected in additional paid-in capital.

Table of Contents

The following table sets forth information regarding the share options granted to eligible employees and directors:

Grant Date	Type of equity instrument	Number of Ordinary shares Underlying each equity instrument	Exercise Price		Fair Value of the Equity Instrument as of the Grant Date		Fair Value of the Underlying Ordinary Shares as of the Grant Date		Intrinsic Value as of the Grant Date	
			RMB	US\$	RMB	US\$	RMB	US\$	RMB in	US\$ in
									thousands	thousands
February 1, 2012	Share options	1,298,422	0.1	0.02	3.47	0.56	3.53	0.56	4,454	719
June 28, 2013	Share options	3,599,400	0.1	0.02	5.93	0.96	5.99	0.97	21,200	3,420
August 29, 2014	Share options	8,892,833	0.1	0.02	13.32	2.15	13.38	2.16	118,097	19,050
February 6, 2015	Share options	1,780,482	9.19	1.50	16.43	2.65	22.63	3.65	23,730	3,828
February 6, 2015	Share options	2,169,493	17.57	2.87	12.21	1.97	22.63	3.65	10,490	1,692

Management is responsible for determining the fair value of options granted to our directors, employees and consultants and considered a number of factors including valuations.

In determining the fair value of our share options, the binomial option pricing model was applied. The key assumptions used to determine the fair value of the options at the relevant grant dates were as follows. Changes in these assumptions could significantly affect the fair value of stock options and hence the amount of compensation expenses we recognize in our consolidated financial statements.

Our share-based compensation expenses are measured at the fair value of the awards as calculated under the binomial option-pricing model. Assumptions used in the binomial model are presented below:

	2012	2013	2014	Three Months Ended March 31, 2015
Risk-free interest rate (per annum) ⁽¹⁾	2.57%	2.59%	2.99%	2.61%
Contract life (in years)	10	10	10	10
Expected volatility range ⁽³⁾	55.97%	50.68%	50.48%	48.78%
Expected dividend yield ⁽⁴⁾	0.00%	0.00%	0.00%	0.00%

(1) We estimate risk-free interest rate based on the yield to maturity of U.S. treasury bonds denominated in US\$ and adjusted for country risk premium of PRC with a maturity similar to the expected expiry of the term.

(2) We estimate the volatility is based on the historical volatility of the comparable companies in the period equal to average time to expiration to the valuation date.

(3)

Edgar Filing: Baozun Inc. - Form 424B4

We have never declared or paid any cash dividends on our capital stock, and we do not anticipate any dividend payments on our ordinary shares in the foreseeable future.

The assumptions used in share-based compensation expenses recognition represent our best estimates, but these estimates involve inherent uncertainties and the application of our judgment. If factors change or different assumptions are used, our share-based compensation expenses could be materially different for any period.

Moreover, the estimates of fair value are not intended to predict actual future events or the value that ultimately will be realized by grantees who receive share-based awards, and subsequent events are not indicative of the reasonableness of the original estimates of fair value made by us for accounting purposes.

Table of Contents

We apply ASC 718, *Compensation – Stock Compensation*, or ASC 718, to account for our employee share-based payments. ASC 718 requires forfeitures to be estimated at the time of grant and revised, if necessary, in the subsequent period if actual forfeitures differ from initial estimates. Forfeiture rates are estimated based on historical and future expectations of employee turnover rates and are adjusted to reflect future changes in circumstances and facts, if any. Share-based compensation expenses are recorded net of estimated forfeitures such that expense is recorded only for those share-based awards that are expected to vest. To the extent we revise these estimates in the future, the share-based payments could be materially impacted in the period of revision, as well as in following periods.

Fair Value of Our Ordinary Shares

We are a private company with no quoted market prices for our ordinary shares. We have therefore needed to make estimates of the fair value of our ordinary shares at various dates for the following purposes:

determining the fair value of our ordinary shares at the date of issuance of convertible instruments as one of the inputs in determining the intrinsic value of the beneficial conversion feature, if any; and

determining the fair value of our ordinary shares at the date of the grant of a share-based compensation award to our employees as one of the inputs in determining the grant date fair value of the award.

The following table sets forth the fair value of our ordinary shares estimated at different times with the assistance from an independent valuation firm:

Date	Total Equity Value		Fair Value per Ordinary Share		DLOM	Discount Rate	Purpose of Valuation
	(RMB in thousand)	(US\$ in thousand)	(RMB)	US\$			
February 1, 2012	376,941	61,411	3.53	0.57	30%	15%	Share options grant
September 21, 2012	549,637	89,547	2.92	0.47	30%	15%	To determine potential beneficial conversion feature in connection with the issuance of Series C1 convertible redeemable preferred shares
June 28, 2013	940,927	153,295	5.99	0.97	25%	15%	Share options grant
August 29, 2014	1,866,669	304,117	13.38	2.16	18%	15%	To determine potential beneficial conversion feature in connection with the issuance of Series C2 convertible redeemable preferred shares, and share option grant
February 6, 2015	3,134,000	505,565	22.63	3.65	14%	15%	Share options grant

In determining the fair value of our ordinary shares, we applied the income approach/ discounted cash flow, or DCF, analysis based on our projected cash flow using management's best estimate as of the valuation date. The determination of the fair value of our ordinary shares requires complex and subjective judgments to be made regarding our projected financial and operating results, our unique business risks, the liquidity of our shares and our operating history and prospects at the time of valuation.

Table of Contents

The major assumptions used in calculating the fair value of ordinary shares include:

Discount Rates. The discount rates listed out in the table above were based on the weighted average cost of capital, which was determined based on a consideration of the factors including risk-free rate, comparative industry risk, equity risk premium, company size and non-systemic risk factors.

Comparable Companies. In deriving the weighted average cost of capital used as the discount rates under the income approach, seven publicly traded companies were selected for reference as our guideline companies. The guideline companies were selected based on the following criteria: (i) they operate in the e-commerce industry and (ii) their shares are publicly traded in developed capital markets, including the United States, South Korea, Japan, Taiwan and the UK.

Discount for Lack of Marketability, or DLOM. DLOM was quantified by the Black-Scholes option pricing model. Under this option-pricing method, the cost of the put option, which can hedge the price change before the privately held shares can be sold, was considered as a basis to determine the DLOM. This option pricing method is one of the methods commonly used in estimating DLOM as it can take into consideration factors like timing of a liquidity event, such as an initial public offering, and estimated volatility of our shares. The farther the valuation date is from an expected liquidity event, the higher the put option value and thus the higher the implied DLOM. The lower DLOM is used for the valuation, the higher is the determined fair value of the ordinary shares.

The income approach involves applying appropriate discount rates to estimated cash flows that are based on earnings forecasts. Our revenues and earnings growth rates, as well as major milestones that we have achieved, contributed to the increase in the fair value of our ordinary shares from 2012 to the first quarter of 2015.

However, these fair values are inherently uncertain and highly subjective. The assumptions used in deriving the fair values are consistent with our business plan. These assumptions include: (i) no material changes in the existing political, legal and economic conditions in China; (ii) our ability to retain competent management, key personnel and staff to support our ongoing operations; and (iii) no material deviation in market conditions from economic forecasts. These assumptions are inherently uncertain.

The option-pricing method was used to allocate enterprise value to preferred and ordinary shares, taking into account the guidance prescribed by the AICPA Audit and Accounting Practice Aid, *Valuation of Privately-Held Company Equity Securities Issued as Compensation*. The method treats common stock and preferred stock as call options on the enterprise's value, with exercise prices based on the liquidation preference of the preferred stock.

The option-pricing method involves making estimates of the anticipated timing of a potential liquidity event, such as a sale of our company or an initial public offering, and estimates of the volatility of our equity securities. The anticipated timing is based on the plans of our board of directors and management. Estimating the volatility of the share price of a privately held company is complex because there is no readily available market for the shares. We estimated the volatility of our shares to range from 40.5% to 45.9% based on the historical volatilities of comparable publicly traded companies engaged in similar lines of business. Had we used different estimates of volatility, the allocations between preferred and ordinary shares would have been different.

Edgar Filing: Baozun Inc. - Form 424B4

The fair value of our ordinary shares decreased from RMB3.53 (US\$0.57) per share as of February 1, 2012 to RMB2.92 (US\$0.47) per share as of September 21, 2012. The decrease in fair value of our ordinary shares was attributable to dilution impact from the issuance of convertible redeemable preferred shares on September 21, 2012.

Table of Contents

The fair value of our ordinary shares increased from RMB2.92 (US\$0.47) per share as of September 21, 2012 to RMB13.38 (US\$2.16) per share as of August 29, 2014. The increase in fair value of our ordinary shares was primarily attributable to organic business growth:

We further improved the functionality and user experience of online stores and increased the number of brand partners.

We reduced the proportion of personal computers in our product mix due to their lower markups, and the reduction was expected to improve our overall profitability.

We entered into new product categories, mainly automobile and insurance, which we expected would generate more revenues and increase our overall profitability.

We launched new business in mkf.com.

Our GMV increased during the period.

The fair value of our ordinary shares increased from RMB13.38 (US\$2.18) per share as of August 29, 2014 to RMB22.63 (US\$3.65) per share as of February 6, 2015, primarily due to the following reasons:

Our actual performance in 2014 exceeded expectations and we have attracted more brand partners in 2015.

We projected our financial performance to improve in the long run once we begin to receive contribution from our Maikefeng business.

DLOM was lower as we were approaching the expected initial public offering date.

The estimates used to determine the fair value of ordinary shares will not be necessary to determine the fair value of new awards once our ADSs begin trading.

Income Taxes

Current income taxes are provided on the basis of net income for financial reporting purposes, adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions. We follow the liability method of accounting for income taxes.

Under this method, deferred tax assets and liabilities are determined based on the temporary differences between the financial statements carrying amounts and tax bases of assets and liabilities by applying enacted statutory tax rates that will be in effect in the period in which the temporary differences are expected to reverse. We record a valuation allowance to offset deferred tax assets if based on the weight of available

Edgar Filing: Baozun Inc. - Form 424B4

evidence, it is more likely than not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rate is recognized in our consolidated financial statements in the period of change.

In accordance with the provisions of ASC 740, we recognize in our financial statements the benefit of a tax position if the tax position is more likely than not to prevail based on the facts and technical merits of the position. Tax positions that meet the more likely than not recognition threshold are measured at the largest amount of tax benefit that has a greater than fifty percent likelihood of being realized upon settlement. We estimate our liability for unrecognized tax benefits which are periodically assessed and may be affected by changing interpretations of laws, rulings by tax authorities, changes and/or developments with respect to tax audits, and expiration of the statute of limitations. The ultimate outcome for a particular tax position may not be determined with certainty prior to the conclusion of a tax audit and, in some cases, appeal or litigation process.

We consider positive and negative evidence when determining whether some portion or all of our deferred tax assets will not be realized. This assessment considers, among other matters, the nature, frequency and

Table of Contents

severity of current and cumulative losses, forecasts of future profitability, the duration of statutory carry-forward periods, our historical results of operations, and our tax planning strategies. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. Based upon the level of our historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, we believe it is more likely than not that we will not realize the deferred tax assets resulted from the tax loss carried forward in the future periods.

The actual benefits ultimately realized may differ from our estimates. As each audit is concluded, adjustments, if any, are recorded in our financial statements in the period in which the audit is concluded. Additionally, in future periods, changes in facts, circumstances and new information may require us to adjust the recognition and measurement estimates with regard to individual tax positions. Changes in recognition and measurement estimates are recognized in the period in which the changes occur. As of December 31, 2012, 2013, 2014 and March 31, 2015, we did not have any significant unrecognized uncertain tax positions.

Recent Accounting Pronouncements

In July 2013, the Financial Accounting Standards Board, or FASB, issued a pronouncement which provides guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The FASB's objective in issuing this Accounting Standards Update, or ASU, is to eliminate diversity in practice resulting from a lack of guidance on this topic in current U.S. GAAP. The amendments in this ASU state that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. We have adopted this ASU and concluded that there is no material impact on our consolidated financial results or disclosure.

In May 2014, the FASB and International Accounting Standards Board, or IASB, issued their converged standard on revenue recognition. The objective of the revenue standard ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* is to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. The revenue standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. For public companies, the revenue standard is effective for the first interim period within annual reporting periods beginning after December 15, 2016 and early adoption is not permitted. We are in the process of evaluating the impact of the standard on our consolidated financial statements.

On August 27, 2014, the FASB issued ASU 2014-15, which provides guidance on determining when and how reporting entities must disclose going-concern uncertainties in their financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements (or within one year after the date on which the financial statements are available to be issued, when applicable). Further, an entity must provide certain disclosures if there is substantial doubt about the entity's ability to continue as a going concern.

Table of Contents

The ASU is effective for annual periods ending after December 15, 2016, and interim periods thereafter. Early adoption is permitted. The ASU must be applied at the effective date, and we are in the process of evaluating the impact of the standard on our consolidated financial statements.

In November 2014, the FASB issued a new pronouncement which provides guidance on determining whether the host contract in a hybrid financial instrument issued in the form of a share is more akin to debt or to equity. The new standard requires management to determine the nature of the host contract by considering the economic characteristics and risks of the entire hybrid financial instrument, including the embedded derivative feature that is being evaluated for separate accounting from the host contract. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption, including adoption in an interim period, is permitted. The effects of initially adopting the amendments in this update should be applied on a modified retrospective basis to existing hybrid financial instruments issued in the form of a share as of the beginning of the fiscal year for which the amendments are effective. We are in the process of assessing the effect of adoption of this guidance on our consolidated financial statements.

Internal Control over Financial Reporting

Prior to this offering, we have been a private company with limited numbers of accounting personnel and other resources with which to address our internal controls and procedures. In connection with the audit of our consolidated financial statements for 2012, 2013 and 2014, we and our auditors, an independent registered public accounting firm, identified one material weakness and one significant deficiency in our internal control over financial reporting. As defined in the standards established by the PCAOB, a material weakness is a deficiency, or combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the annual or interim financial statements will not be prevented or detected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting, that is less severe than a material weakness yet important enough to merit attention by those responsible for oversight of the company's financial reporting.

The material weakness identified was we lacked formal process to identify and address risk of material misstatement related to U.S. GAAP reporting. This identified material weakness could affect our ability to accurately and timely report our financial results in accordance with U.S. GAAP, and to prevent or detect material misstatements of the company's annual or interim financial statements on a timely basis.

Neither we nor our independent registered public accounting firm undertook a comprehensive assessment of our internal control under the Sarbanes-Oxley Act for purposes of identifying and reporting any weakness in our internal control over financial reporting. We and they are required to do so only after we become a public company. Had we performed a formal assessment of our internal control over financial reporting or had our independent registered public accounting firm performed an audit of our internal control over financial reporting, additional control deficiencies may have been identified.

To remediate our identified material weakness and improve our internal control over financial reporting, we are in the process of implementing the risk assessment process, preparing the risk assessment documentation and performing the formal evaluation process for evaluating related risks based on such documentation.

The significant deficiency identified was we lacked audit committee and enough internal audit resources to establish formal internal control framework. Following the identification of the significant deficiency, we are in the process of establishing an audit committee before the closing of this offering. We will improve our internal audit function and hire an experienced internal auditor by the end of 2015. The internal auditor will be independent of our operations and will report directly to the audit committee. We will perform self-assessment of internal control effectiveness on a continuous basis. The identified deficiency will be corrected and documented in a timely manner. We will also hire more

competent personnel or seek external professional service related to SOX 404 compliance.

Table of Contents

We cannot assure you that all these measures will be sufficient to remediate our material weakness or significant deficiency in time, or at all. See Risk Factors Risks Related to Our Business If we fail to maintain proper and effective internal controls, our ability to produce accurate financial statements on a timely basis could be impaired.

Table of Contents**Results of Operations**

The following table sets forth a summary of our consolidated results of operations for the periods indicated both in absolute amount and as a percentage of our total net revenues.

	2012		For the Year Ended December 31, 2013						For the Three Months Ended March 31, 2014

Table of Contents

Three Months Ended March 31, 2014 Compared to Three Months Ended March 31, 2015

Net Revenues

Our total net revenues increased by 77.7% from RMB268.5 million in the three months ended March 31, 2014 to RMB477.2 million (US\$76.9 million) in the three months ended March 31, 2015 primarily due to an increase of total GMV from RMB573.7 million to RMB1,157.0 million, representing an increase of 101.7%, an increase in the number of our brand partners from 78 to 94, and an increase in Average GMV per GMV brand partner from RMB9.0 million to RMB14.0 million during the same period.

Net revenue from product sales increased by 78.8% from RMB197.7 million to RMB353.7 million (US\$57.1 million) as a result of an increase in our GMV. A substantial portion of the increase in GMV was attributable to an increase in sales in the stores we operate under the distribution model for multiple existing major brand partners. Such increase was (i) due to increased promotional activities in connection with launches (and exclusive distribution at times) of new or next-generation products and upgrades, which we expect to recur with similar launches in the future, or, (ii) due to more competitive pricing we could offer for the products we sell as a result of favorable procurement terms we obtained from brand partners, which we hope to repeat for such and other brand partner(s) and which we expect to benefit us across multiple periods. The increase in net revenues from product sales was also partially attributable to the launch of our Maikefeng platform and addition of new brand partners.

Net revenues from services increased by 74.7% from RMB70.7 million to RMB123.5 million (US\$19.9 million). The increase, especially with respect to variable service fees, was primarily driven by an increase in GMV. Net revenues from fixed fee services, aside from benefiting from higher service demand from an increase in GMV activities, also benefited from new addition of brand partners in need of market entry services or existing brand partners mounting targeted marketing campaigns. In particular, the increase in net revenues from services during the period was primarily attributable to the following: (i) a substantial portion of the increase was due to the addition of brand partners primarily in the auto and apparel categories, and (ii) a significant portion of the increase was attributable to growth in sales in the apparel category that benefited from efforts of existing brand partners at promoting their online presence.

Operating Expenses

Our operating expenses increased by 77.4% from RMB267.5 million in the three months ended March 31, 2014 to RMB474.4 million (US\$76.5 million) in the three months ended March 31, 2015. This increase was due to the growth of our business, which has resulted in increases in our cost of products, fulfillment expenses, sales and marketing expenses, technology and content expenses and general and administrative expenses.

Cost of Products. Our cost of products increased by 76.9% from RMB182.6 million in the three months ended March 31, 2014 to RMB322.9 million (US\$52.1 million) in the three months ended March 31, 2015. Cost of products as a percentage of net revenues from product sales slightly decreased from 92.3% in the three months ended March 31, 2014 to 91.3% in the three months ended March 31, 2015 due to better procurement terms.

Fulfillment Expenses. Our fulfillment expenses increased by 78.0% from RMB29.3 million in the months ended March 31, 2014 to RMB52.1 million (US\$8.4 million) in the three months ended March 31, 2015. This increase was primarily due to the increase in GMV from RMB573.7 million in March 31, 2014 to RMB1,157.0 million (US\$186.6 million) in March 31, 2015 and specifically, (i) an increase in expenses charged

Edgar Filing: Baozun Inc. - Form 424B4

by third-party couriers for dispatching and delivering our products, and (ii) an increase in personnel cost and expenses attributable to picking and sorting, as our volume of product sales increased and we provided more fulfillment services to our brand partners. The increase in our fulfillment expenses was also due to an increase in the rental expenses for our warehouses, which was primarily due to the increase in the aggregate gross floor area leased.

Sales and Marketing Expenses. Our sales and marketing expenses increased by 110.1% from RMB35.2 million in the three months ended March 31, 2014 to RMB73.9 million (US\$11.9 million) in the three months ended March 31, 2015. This increase was primarily due to an increase in promotion and marketing expenses from RMB21.5 million in the three months ended March, 31 2014 to RMB50.3 million (US\$8.1

Table of Contents

million) in the three months ended March 31, 2015, resulting from the increase in our advertising expenditures on Tmall, as we engaged in more advertising activities to increase the GMV of stores operated by us and enhance the recognition of our Maifefeng platform. The increase in promotion and marketing expenses was also due to higher compensation to new hires of our marketing team, which are better qualified to provide digital marketing services to our brand partners. Our sales and marketing expenses increased also because the personnel cost and expenses attributable to online store operations increased due to the increase in the number of brand partners and online stores operated by us.

Technology and Content Expenses. Our technology and content expenses increased by 56.2% from RMB8.1 million in the three months ended March 31, 2014 to RMB12.6 million (US\$2.0 million) in the three months ended March 31, 2015. The increase was primarily due to the increase in the headcount of our technology employees from 173 as of March 31, 2014 to 191 as of March 31, 2015.

General and Administrative Expenses. Our general and administrative expenses increased by 2.2% from RMB12.1 million in the three months ended March 31, 2014 to RMB12.4 million (US\$2.0 million) in the three months ended March 31, 2015. The increase was primarily due to an increase in our share-based compensation and rental and utilities expenses, largely offset by a decrease in professional and consulting fee resulting from the completion of the upgrade and integration of our internal management system.

Interest Income

Our interest income decreased from RMB1.1 million in the three months ended March 31, 2014 to RMB0.6 million (US\$93,000) in the three months ended March 31, 2015. This decrease was primarily due to the smaller average cash balance we held in the three months ended March 31, 2015.

Income tax

We had income tax expense of RMB0.3 million (US\$49,685) in the three months ended March 31, 2014 and income tax benefit of RMB1.0 million (US\$0.2 million) in the three months ended March 31, 2015. The recognition of income tax benefit in the three months ended March 31, 2015 was primarily due to the reversal of valuation allowance for deferred tax assets and recognition of deferred tax assets relating to current year temporary differences. We considered positive and negative evidences when determining whether some portion or all of our deferred tax assets will be realized for 2015. We expect some of our PRC subsidiaries to be able to utilize net operating loss carry forward and recognize temporary differences in 2015 and recorded an income tax benefit for the three months ended March 31, 2015 in accordance with ASC 740-270. We believe we will be able to continue to generate taxable income to utilize our net operating loss carry forward and recognize deferred tax assets. Therefore, we have and expect to record income tax benefits in 2015.

Loss from Equity in Affiliates

We had no loss from equity in affiliates in the three months ended March 31, 2014 and incurred a loss from equity in affiliates of RMB1.8 million (US\$0.3 million) in the three months ended March 31, 2015, primarily due to our investment in Automoney. We jointly established Automoney with an unrelated party investor and subscribed 50% of its equity interest upon its formation for a cash contribution of RMB10.6 million in January 2015. Due to the significant influence we have over Automoney's operating and financial policies, we account for our investment in Automoney under the equity method, and as a result, we are required to recognize our share of Automoney's losses in our statement of operations. Automoney is expected to continue to incur significant losses and we expect to incur more loss from equity in affiliates

Edgar Filing: Baozun Inc. - Form 424B4

in the near future. See [Risk Factors](#) [Risks Related to Our Business](#) Our investments in other entities may not be successful and we may incur significant losses as a result.

Net Income

As a result of the foregoing, our net income increased by 12.4% from RMB1.8 million in the three months ended March 31, 2014 to RMB2.0 million (US\$0.3 million) in the three months ended March 31, 2015.

Net Loss Attributable to Ordinary Shareholders

Our net loss attributable to ordinary shareholders increased by 52.5% from RMB15.3 million in the three months ended March 31, 2014 to RMB23.4 million (US\$3.8 million) in the three months ended March 31, 2015.

Table of Contents

Year Ended December 31, 2013 Compared to Year Ended December 31, 2014.

Net Revenues

Our total net revenues increased by 4.1% from RMB1,521.8 million in 2013 to RMB1,584.4 million (US\$255.4 million) in 2014. Net revenue generated from product sales decreased by 6.9% while net revenues from services grew by 60.8%. The decrease in our net revenues generated from product sales was primarily due to the decrease in the sales of personal computer products in the electronics products category resulting from our adjustment in the mix of products for higher markups, partially offset by increases in sales of products in other categories. This adjustment is due to our strategy to focus on sales of products with higher markups and we believe that this will help improve our results of operations in the long term. The increase in our net revenues generated from services was because of the increases in the number of our brand partners and GMV of our existing brand partners.

Operating Expenses

Our operating expenses increased by 5.0% from RMB1,562.8 million in 2013 to RMB1,641.3 million (US\$264.5 million) in 2014. This increase was due to the increase in share-based compensation expenses from RMB11.5 million in 2013 to RMB85.0 million (US\$13.7 million) in 2014, significantly offset by the decrease in our cost of products.

Cost of Products. Our cost of products decreased by 12.8% from RMB1,245.8 million in 2013 to RMB1,086.1 million (US\$175.1 million) in 2014. Cost of products as a percentage of net revenues from product sales decreased from 97.7% in 2013 to 91.5% in 2014. The decrease was primarily due to the significant decrease in the sales of personal computer products, for which our markup is typically small.

Fulfillment Expenses. Our fulfillment expenses increased by 44.4% from RMB116.4 million in 2013 to RMB168.1 million (US\$27.1 million) in 2014. This increase was primarily due to the increase in GMV from RMB2,620.8 million in 2013 to RMB4,248.9 million (US\$684.8 million) in 2014 and specifically, (i) an increase in expenses charged by third-party couriers for dispatching and delivering our products, and (ii) an increase in personnel cost and expenses attributable to picking and sorting, as our volume of product sales increased and we provided more fulfillment services to our brand partners. The increase in our fulfillment expenses was also due to (i) an increase in the rental expenses for our warehouses, which was primarily due to the increase in the aggregate gross floor area leased, and (ii) an increase in personnel cost and expenses attributable to customer service resulting from the increase in the number of brand partners and online stores. The increase was also due to an increase in share-based compensation expenses.

Sales and Marketing Expenses. Our sales and marketing expenses increased by 55.2% from RMB146.2 million in 2013 to RMB227.0 million (US\$36.6 million) in 2014. This increase was primarily due to an increase in promotion and marketing expenses from RMB56.1 million in 2013 to RMB114.8 million (US\$18.5 million) in 2014 resulting from the increase in our advertising expenditures on Tmall, as we engaged in more advertising activities to increase the GMV of stores operated by us and enhance the recognition of our Maifefeng platform. The increase in promotion and marketing expenses was also due to the hiring of more professionals and staff for our marketing team to enhance our digital marketing service to our brand partners. Our sales and marketing expenses increased also because the personnel cost and expenses attributable to online store operations increased due to the increase in the number of brand partners and online stores.

Edgar Filing: Baozun Inc. - Form 424B4

Technology and Content Expenses. Our technology and content expenses increased by 294.6% from RMB16.1 million in 2013 to RMB63.6 million (US\$10.3 million) in 2014. The increase was primarily due to an increase in share-based compensation expenses from RMB1.6 million in 2013 to RMB26.3 million (US\$4.2 million) in 2014, as we granted immediately vesting share options to our co-founder, director and chief operating officer, Mr. Junhua Wu, in August 2014. This increase was also due to the increase in the headcount of our technology employees from 167 as of December 31, 2013 to 195 as of December 31, 2014 to execute our technology related strategies of improving our technology platform and launch our IT services in Indonesia. The increase was also due to an increase in the expenses incurred for software and hardware maintenance.

General and Administrative Expenses. Our general and administrative expenses increased by 154.0% from RMB38.2 million in 2013 to RMB96.9 million (US\$15.6 million) in 2014. The increase was primarily due to an increase in share-based compensation expenses from RMB3.5 million in 2013 to RMB52.7 million (US\$8.5

Table of Contents

million) in 2014, as, in August 2014, we granted immediately vesting share options to our co-founder, chief executive officer and director, Mr. Vincent Wenbin Qiu, and our co-founder and director, Mr. Michael Qingyu Zhang, which materially increased our general and administrative expenses. This increase was also due to (i) an increase in employee benefits, resulting from an increase in headcount of general and administrative employees and an increase in the salary level, (ii) an increase in depreciation and amortization resulting from leasehold improvements of our offices, and (iii) an increase in the rental and utility expenses for our offices, as we leased more office space.

Interest Income

Our interest income decreased from RMB4.6 million in 2013 to RMB3.2 million (US\$0.5 million) in 2014. This decrease was primarily due to the smaller average cash balance we held in 2014.

Interest Expense

Our interest expense increased from RMB0.7 million in 2013 to RMB1.6 million (US\$0.3 million) in 2014. This increase was primarily due to a higher average short-term bank borrowings amount outstanding in 2014. In 2014, we drew down RMB160.0 million under short-term bank credit facilities, compared to RMB55.5 million in 2013, mainly for inventory procurements in preparation for the expected stronger sales on Singles Day. We have fully repaid the short-term borrowings by the end of 2014.

Net Loss

As a result of the foregoing, our net loss increased by 58.4% from RMB37.8 million in 2013 to RMB59.8 million (US\$9.6 million) in 2014.

Net Loss Attributable to Ordinary Shareholders

Our net loss attributable to ordinary shareholders increased by 56.9% from RMB99.2 million in 2013 to RMB155.6 million (US\$25.1 million) in 2014.

Year Ended December 31, 2012 Compared to Year Ended December 31, 2013

Net Revenues

Our total net revenues increased by 59.4% from RMB954.5 million in 2012 to RMB1,521.8 million in 2013, with increases in net revenues from both product sales and services. Net revenue generated from product sales grew by 55.6% while net revenues from services grew by 83.0%. The

increase in our net revenues generated from product sales was primarily due to the significant growth in the sales volume of all categories of products in the online stores, which was driven by (i) the increased numbers of our brand partners and stores and (ii) the increased sales volume of all categories of products in existing stores resulting from the continued growth of the number of customers who use e-commerce platform in the retail industry. The increase in our net revenues generated from services was driven by the increase in variable service fees based on GMV and other variable factors and fixed service fees. Variable service fees based on GMV increased because of the increase in GMV of our brand partners. Variable service fees based on other variable factors, such as the number of orders, increased because of the overall increase in our sales volume. Fixed service fees generated from our brand partners also increased as the overall number of our brand partners increased, including those which we charge fixed fees for services provided.

Operating Expenses

Our operating expenses increased by 56.5% from RMB998.9 million in 2012 to RMB1,562.8 million in 2013. This increase was due to increases in all of our operating expense line items.

Cost of Products. Our cost of products increased by 54.2% from RMB808.1 million in 2012 to RMB1,245.8 million in 2013. This increase reflects the increase in GMV of product sales under the distribution model. Cost of products as percentage of net revenues from product sales decreased from 98.6% in 2012 to 97.7% in 2013. The decrease was primarily due to more favorable prices we obtained from our brand partners as we increased economy of scales in 2013.

Table of Contents

Fulfillment Expenses. Our fulfillment expenses increased by 61.7% from RMB72.0 million in 2012 to RMB116.4 million in 2013. This increase was primarily due to the increase in GMV from RMB1,460.4 million in 2012 to RMB2,620.8 million in 2013 and specifically, (i) an increase in expenses charged by third-party couriers for dispatching and delivering our products, and (ii) an increase in personnel cost and expenses attributable to picking and sorting, as our volume of product sales increased and we provided more fulfillment services to our brand partners. The increase in our fulfillment expenses was also attributable to (i) an increase in personnel cost and expenses attributable to store operations due to the increase in the number of brand partners and stores operated by us and (ii) an increase in the rental expenses for our warehouses, which was primarily due to the increase in the aggregate gross floor area leased. In addition, the increase was due to an increase in share-based compensation expenses from RMB0.07 million in 2012 to RMB0.6 million in 2013. The increase in our fulfillment expenses was also due to an increase in the packaging materials from RMB6.0 million in 2012 to RMB7.6 million in 2013.

Sales and Marketing Expenses. Our sales and marketing expenses increased by 85.9% from RMB78.6 million in 2012 to RMB146.2 million in 2013. This increase was primarily due to an increase in promotion and marketing expenses from RMB22.5 million in 2012 to RMB56.1 million in 2013 resulting from the increase in our advertising expenditures on Tmall, as we engaged in more advertising activities to increase the GMV of stores operated by us. The increase in promotion and marketing expenses was also due to the hiring of more professionals and staff for our marketing team to enhance our digital marketing service to our brand partners. Our sales and marketing expenses increased also because the personnel cost and expenses attributable to online store operations increased due to the increase in the number of brand partners and online stores. In addition, the increase was due to an increase in share-based compensation expenses from RMB0.7 million in 2012 to RMB5.8 million in 2013.

Technology and Content Expenses. Our technology and content expenses increased by 146.0% from RMB6.6 million in 2012 to RMB16.1 million in 2013. This increase was primarily due to the increase in the headcount of our technology employees to execute our technology-related strategies of improving our technology platform. The increase was also due to an increase in share-based compensation expenses from RMB0.2 million in 2012 to RMB1.6 million in 2013.

General and Administrative Expenses. Our general and administrative expenses increased by 14.0% from RMB33.5 million in 2012 to RMB38.2 million in 2013. This increase was primarily due to an increase in employee benefits, resulting from an increase in headcount of general and administrative employees and an increase in the salary level. The increase was also due to an increase in professional and consulting fee resulting from professional services provided for upgrading and integrating our internal management system.

Interest Income

Our interest income increased from RMB0.1 million in 2012 to RMB4.6 million in 2013. This increase was primarily due to the larger average cash balance we held in 2013, which was attributable primarily to the proceeds from our issuance of ordinary shares received in December 2012 as well as the increase in cash flow from operating activities.

Interest Expense

Our interest expense decreased from RMB3.3 million in 2012 to RMB0.7 million in 2013. This decrease was primarily due to the decrease in the outstanding balance of our short-term loans.

Net Loss

As a result of the foregoing, our net loss decreased by 20.0% from RMB47.2 million in 2012 to RMB37.8 million in 2013.

Net Loss Attributable to Ordinary Shareholders

Our net loss attributable to ordinary shareholders increased by 45.6% from RMB68.1 million in 2012 to RMB99.2 million in 2013.

Table of Contents**Selected Quarterly Results of Operations**

The following table presents our unaudited consolidated results of operations for the three-month periods ended on the dates indicated. You should read the following table in conjunction with our audited consolidated financial statements and related notes included elsewhere in this prospectus. We have prepared the unaudited consolidated quarterly financial information on the same basis as our audited consolidated financial statements. This unaudited consolidated financial information includes all adjustments, consisting only of normal and recurring adjustments, that we consider necessary for a fair representation of our financial position and operating results for the quarters presented.

Table of Contents

The following table presents our total GMV for the three-month periods ended on the dates indicated.

	For the Three Months Ended,							
	June 30, 2013 RMB	September 30, 2013 RMB	December 31, 2013 RMB	March 31, 2014 RMB	June 30, 2014 RMB	September 30, 2014 RMB	December 31, 2014 RMB	March 31, 2015 RMB
	(in millions)							
Total GMV ⁽¹⁾	611	751	915	574	659	832	2,184	1,157

- (1) GMV is defined as (i) the full value of all purchases transacted and settled on stores operated by us (including our Maikefeng platform but excluding stores for the operations of which we only charge fixed fees) and (ii) the full value of purchases for which customers have placed orders and paid deposits on such stores and which have been settled offline. Our calculation of GMV includes value added tax and excludes (i) shipping charges, (ii) surcharges and other taxes, (iii) value of the goods that are returned and (iv) deposits for purchases that have not been settled.

We have experienced and expect to continue to experience seasonal fluctuations in our operating results. In general, our results of operations have been seasonal primarily because consumers increase their purchases during particular promotional events, such as Singles Day in the fourth quarter. The seasonal buying patterns within certain categories such as apparel have also impacted our quarterly performances. Furthermore, we generally experience a lower level of sales activity in the first quarter due to the Chinese New Year holiday season, during which consumers generally spend less time shopping online and businesses in China are generally closed. Due to our limited operating history, the seasonal trends that we have experienced in the past may not apply to, or be indicative of, our future operating results.

Our quarterly performances are also affected by other factors, such as adjustment of product mix, launch of new products, and increased marketing efforts in certain online stores that we operate during specific periods. For example, our net revenues generated from product sales decreased from RMB426.0 million in the quarter ended September 30, 2013 to RMB344.8 million in the quarter ended December 31, 2013 and further to RMB283.6 million in the quarter ended September 30, 2014, primarily because we decreased the sales of personal computer products in the electronics category resulting from our adjustment in the mix of products for higher markups.

We generated a net loss of RMB72.4 million in the quarter ended September 30, 2014, compared to a net income of RMB4.4 million in the quarter ended June 30, 2014. The decrease in net income was primarily due to share-based compensation expenses of RMB78.1 million that we incurred in the quarter ended September 30, 2014, compared to RMB1.5 million in the previous quarter.

Liquidity and Capital Resources**Cash Flows and Working Capital**

We have financed our operations primarily through proceeds from private placements and short-term bank borrowings. As of March 31, 2015, we had RMB175.8 million (US\$28.4 million) in cash and cash equivalents and RMB31.0 million (US\$5.0 million) in restricted cash. Our cash and cash equivalents generally consist of bank deposits. As of March 31, 2015, we had one-year credit facilities for an aggregate amount of RMB330.0 million (US\$53.2 million) from four Chinese commercial banks. We had RMB35.0 million (US\$5.6 million) outstanding under these credit facilities as of March 31, 2015. As of March 31, 2015, we pledged cash of RMB29.4 million (US\$4.74 million) to banks to secure RMB-denominated letters of guarantee issued to our suppliers by these banks for an aggregate maximum of RMB40.0 million (US\$6.5 million) and U.S. dollar-denominated letters of guarantee for an aggregate maximum amount of US\$0.2 million. The terms of these letters of guarantee

were within 12 to 18 months.

Table of Contents

We believe that our current levels of cash balances, cash flows from operations and existing credit facilities will be sufficient to meet our anticipated cash needs to fund our operations for at least the next 12 months, assuming we receive no proceeds from this offering. We will use the net proceeds from this offering to expand our business operations as disclosed under Use of Proceeds. In addition, our cash flows from operations could be affected by our payment terms with our brand partners. Furthermore, we may need additional cash resources in the future if we experience changes in business conditions or other developments. We may also need additional cash resources in the future if we find and wish to pursue opportunities for investment, acquisition, capital expenditure or similar actions. If we determine that our cash requirements exceed the amount of cash and cash equivalents we have on hand, we may seek to issue debt or equity securities or obtain additional credit facilities.

Our accounts receivables mainly represent amounts due from customers and are recorded net of allowance for doubtful accounts. We generally grant a credit period of no more than two weeks to the customers of our products. We normally charge service fees from our brand partners with a credit period of one month to four months. As of December 31, 2012, 2013, 2014 and March 31, 2015, our accounts receivables amounted to RMB57.4 million, RMB106.5 million, RMB229.5 million (US\$37.0 million) and RMB271.3 million (US\$43.8 million), respectively. The increase in accounts receivables over these periods was due to the increase in our product sales and service volumes. Our accounts receivables turnover days were 17 days in 2012, 20 days in 2013, 39 days in 2014 and 47 days in the three months ended March 31, 2015. The increase in the turnover days from 2012 to 2014 was due to the increase in revenues generated from services which have a longer credit period than product sales. The increase in the turnover days in the three months ended March 31, 2015 was due to the increase in the amount of accounts receivable as of March 31, 2015, which was caused by an extension we gave to one of our brand partners on the payment of their outstanding accounts receivable at March 31, 2015. We expect that all of the accounts receivable in the amount of approximately RMB78.5 million (US\$12.7 million) from this brand partner at March 31, 2015 will be settled by the end of June 30, 2015. Accounts receivables turnover days for a given period are equal to the average accounts receivables balances as of the beginning and the end of the period divided by total net revenues during the period and multiplied by the number of days during the period.

Our inventories have increased significantly in recent periods, from RMB72.4 million as of December 31, 2012 to RMB133.3 million as of December 31, 2013 and to RMB243.0 million (US\$39.2 million) as of December 31, 2014, but decreased to RMB197.6 as of March 31, 2015. Our inventory turnover days were 30 days in 2012, 31 days in 2013, 63 days in 2014 and 61 days in the three months ended March 31, 2015. The increase in our inventories from December 31, 2012 to December 31, 2014 reflected the additional inventory required to support our substantially expanded sales volumes. Although our inventories decreased from December 31, 2014 to March 31, 2015, the decrease was due to a drop from our typically higher level of inventories during the fourth quarter of the calendar year as suppliers offer better procurement terms towards the end of the year. Our inventory turnover days increased from December 31, 2012 to December 31, 2014 because of changes in our product mix and our higher level of product purchases based on preferential procurement terms. The slight decrease in our inventory turnover days from December 31, 2014 to March 31, 2015 reflected minor fluctuations in inventory turnover days typical in the ordinary course of our business. Inventory turnover days for a given period are equal to the average inventory balances as of the beginning and the end of the period divided by total cost of products during the period and multiplied by the number of days during the period.

Our accounts payable include accounts payable for payments in connection with inventory that we purchased and products sold under the service fee model and consignment model for which we are responsible for payment collection. As of December 31, 2012, 2013, 2014 and March 31, 2014, our accounts payable amounted to RMB57.0 million, RMB173.8 million, RMB300.0 million (US\$48.4 million) and RMB294.9 million (US\$47.6 million), respectively. The increase in accounts payable from December 31, 2012 to December 31, 2014 reflected a significant growth in our product sales volumes and scale of operations. The slight decrease in our accounts payable from December 31, 2014 to March 31, 2015 reflected minor fluctuations in our accounts payable typical in the ordinary course of our business. Our accounts payable turnover days were 16 days in 2012, 34 days in 2013, 80 days in 2014 and 83 days in the three months ended March 31, 2015. The increase in the turnover days over these periods was mainly due to longer credit periods from our suppliers and

Table of Contents

brand partners as a result of, among others, the increase in our order volumes. Accounts payable turnover days for a given period are equal to the average accounts payable balances as of the beginning and the end of the period divided by total cost of products during the period and multiplied by the number of days during the period.

Although we consolidate the results of our consolidated VIE, we only have access to cash balances or future earnings of our consolidated VIE through our contractual arrangements with it. See Corporate History and Structure. For restrictions and limitations on liquidity and capital resources as a result of our corporate structure, see Holding Company Structure.

As a Cayman Islands exempted company and offshore holding company, we are permitted under PRC laws and regulations to provide funding to our wholly foreign-owned subsidiary in China only through loans or capital contributions, subject to the approval of government authorities and limits on the amount of capital contributions and loans. In addition, subject to applicable restrictions under PRC foreign exchange laws and regulations, our wholly foreign-owned subsidiary in China may provide Renminbi funding to their respective subsidiaries through capital contributions and entrusted loans, and to our consolidated VIE only through entrusted loans. See Risk Factors Risks Related to Our Corporate Structure PRC regulations of loans to PRC entities and direct investment in PRC entities by offshore holding companies may delay or prevent us from using the proceeds of this offering to make loans or additional capital contributions to our wholly owned subsidiary, Shanghai Baozun.

Renminbi may be converted into foreign exchange for current account items, including interest and trade- and service-related transactions. As a result, our PRC subsidiaries and our consolidated VIE in China may purchase foreign exchange for the payment of license, content or other royalty fees and expenses to offshore licensors, for example.

Our wholly foreign-owned subsidiary may convert Renminbi amounts that it generates in its own business activities, including technical consulting and related service fees pursuant to its contract with the consolidated VIE, as well as dividends it receives from its own subsidiaries, into foreign exchange and pay them to its non-PRC parent companies in the form of dividends. However, current PRC regulations permit our wholly foreign-owned subsidiary to pay dividends to us only out of their accumulated profits, if any, determined in accordance with its articles of association and Chinese accounting standards and regulations. Our wholly foreign-owned subsidiary is required to set aside at least 10% of its after-tax profits after making up for previous years' accumulated losses each year, if any, to fund certain reserve funds until the total amount set aside reaches 50% of its registered capital. These reserves are not distributable as cash dividends. Furthermore, capital account transactions, which include foreign direct investment and loans, must be approved by and/or registered with SAFE and its local branches.

The following table sets forth a summary of our cash flows for the periods indicated:

	For the Year Ended December 31,				For the Three Months Ended March 31,		
	2012 RMB	2013 RMB	2014 RMB	US\$	2014 RMB	2015 RMB	US\$
	(in thousands)						
Net cash used in operating activities	(31,923)	(3,290)	(66,488)	(10,721)	(29,556)	(8,434)	(1,362)

Table of Contents*Operating Activities*

Net cash used in operating activities in the three months ended March 31, 2015 was RMB8.4 million (US\$1.3 million) and primarily consisted of net income of RMB2.0 million (US\$0.3 million), as adjusted for non-cash items and the effects of changes in operating assets and liabilities. Adjustment for non-cash items primarily included RMB5.7 million (US\$0.9 million) of share-based compensation expenses, RMB4.9 million (US\$0.8 million) of depreciation and amortization expenses and RMB4.0 million (US\$0.6 million) of inventory write-down. In the three months ended March 31, 2015, the principal items accounting for the changes in operating assets and liabilities were an increase in accounts receivable of RMB42.1 million (US\$6.8 million), a decrease in note payable of RMB13.8 million (US\$2.2 million), an increase of advances to suppliers of RMB12.7 million (US\$2.1 million) and a decrease in accrued expenses and other current liabilities of RMB10.4 million (US\$1.7 million), partially offset by a decrease of inventories of RMB41.4 million (US\$6.7 million) and a decrease in prepayments and other current assets of RMB17.2 million (US\$2.8 million). The increase in accounts receivable was due to an increase in service fees due from our brand partners as a result of an increase in our sales on Singles Day in the fourth quarter in 2014. Note payable decreased because we had settled the note that we had issued to finance our increased inventories for Singles Day. The increase in advances to suppliers was due to an increase in inventory procurement for our Maifeng business. Accrued expenses and other current liabilities decreased primarily because we had settled our liabilities in relation to logistical expenses. The decrease in inventories was due to our increased product sales. The decrease in prepayments and other current assets was due to (i) a decrease in VAT recoverable as our product sales increased and we utilized VAT recoverable; and (ii) a decrease in receivables from third-party payment process agencies as a result of a shorter average settlement period with them.

Net cash used in operating activities in 2014 was RMB66.5 million (US\$10.7 million) and primarily consisted of net loss of RMB59.8 million (US\$9.6 million), as adjusted for non-cash items and the effects of changes in operating assets and liabilities. Adjustments for non-cash items primarily included RMB85.0 million (US\$13.7 million) of share-based compensation expenses, RMB13.3 million (US\$2.1 million) of depreciation and amortization expenses and RMB12.5 million (US\$2.0 million) of inventory write-down. In 2014, the principal items accounting for the changes in operating assets and liabilities were an increase in accounts payable of RMB126.6 million (US\$20.4 million), an increase in accrued expenses and other current liabilities of RMB16.0 million (US\$2.6 million) and an increase in note payable of RMB17.0 million (US\$2.7 million), partially offset by an increase in accounts receivable of RMB123.5 million (US\$19.9 million), an increase in inventories of RMB122.1 million (US\$19.9 million), an increase in prepayments and other current assets of RMB16.9 million (US\$2.7 million) and an increase in advances to suppliers of RMB10.7 million (US\$1.7 million). Our accounts payable increased because we extended payment dates of certain payables from 2013 to 2014 to better use our cash. The increase in our inventories was due to the growth of our business and the purchase of more products to prepare for the expected stronger promotional sales on Singles Day in 2014. The increase in our accounts receivable was due to the increase in revenues generated from services which have a longer credit period, compared with revenues generated from product sales. Advances to suppliers increased because we purchased more products to prepare for the expected stronger sales during the Singles Day promotion in 2014.

Net cash used in operating activities in 2013 was RMB3.3 million and primarily consisted of net loss of RMB37.8 million, as adjusted for non-cash items and the effects of changes in operating assets and liabilities. Adjustments for non-cash item primarily included RMB11.5 million of share-based compensation expense, RMB12.0 million of write-down of inventories and RMB7.2 million of depreciation and amortization expenses. In 2013, the principal items accounting for the changes in operating assets and liabilities were an increase in accounts payable of RMB116.8 million and an increase in accrued expenses and other current liabilities of RMB24.2 million, partially offset by an increase in inventories of RMB72.9 million and an increase in accounts receivable of RMB51.1 million. The increases in our accounts payable and accounts receivable were due to the growth of our business. The increase in our inventories was due to the growth of our business and our expansion into certain general merchandise product categories with lower inventory turnover rates.

Table of Contents

Net cash used in operating activities in 2012 was RMB31.9 million and primarily consisted of net loss of RMB47.2 million, as adjusted for non-cash items and the effects of changes in operating assets and liabilities. In 2012, the principal items accounting for the changes in operating assets and liabilities were an increase in accounts payable of RMB42.6 million, partially offset by an increase in accounts receivable of RMB23.1 million, an increase in inventories of RMB19.0 million and an increase in amounts due from a related party of RMB16.7 million. The increases in our accounts payable and accounts receivable were due to the growth of our business. The increase in amounts due from a related party was due to the promotion service rendered to Alibaba Group in 2012 and the increase in our deposit with Tmall as we operated more stores on the Tmall platform. The increase in our inventories was due to the growth of our business and our expansion into certain general merchandise product categories with lower inventory turnover rates.

Investing Activities

Net cash used in investing activities in the three months ended March 31, 2015 was RMB17.4 million (US\$2.8 million), primarily for the investment in affiliates, including Automoney, and for our purchases of property and equipment, which comprised equipment for warehouses, computer for newly hired employees and leasehold improvement, partially offset by a decrease in restricted cash due to our settlement of note payable.

Net cash used in investing activities was approximately RMB30.5 million (US\$4.9 million) in 2014, primarily for purchase of property and equipment, which comprised equipment for warehouse, computer for newly hired employees and leasehold improvement, and addition of intangible assets due to cost incurred for internal development of software.

Net cash used in investing activities was approximately RMB63.5 million in 2013, consisting primarily of an increase in restricted cash, which includes cash pledged to banks to secure the letters of guarantee issued by banks to obtain credit terms for purchase of products, and purchases of property and equipment, which comprised equipment for warehouse, computer for newly hired employees and leasehold improvement. As of December 31, 2013, we pledged cash of RMB36.0 million to banks to secure letters of guarantee issued to our suppliers by these banks for an aggregate maximum amount of RMB36.0 million, all of which were issued. The terms of these letters of guarantee were within 3 to 18 months.

Net cash used in investing activities was approximately RMB10.2 million in 2012, for purchase of property and equipment, which comprised equipment for warehouse, computer for newly hired employees and leasehold improvement, and addition of intangible assets due to cost incurred for internal development of software.

Financing Activities

Net cash used in financing activities in the three months ended March 31, 2015 was RMB4.2 million (RMB0.7 million), primarily attributable to payment of initial public offering costs.

Net cash provided by financing activities was RMB151.1 million (US\$24.4 million) in 2014, primarily due to proceeds from short-term borrowings of RMB160.0 million (US\$25.8 million), proceeds from the issuance of convertible redeemable preferred shares of RMB145.7 million (US\$23.5 million) and proceeds from amounts due to investors related to the reorganization in January 2014 of RMB68.9 million (US\$11.1 million), partially offset by repayments of short-term borrowings of RMB160.0 million (US\$25.8 million) and repayment of amounts due to investors related to the reorganization in January 2014 of RMB61.5 million (US\$9.9 million).

Net cash used in financing activities was RMB48.8 million in 2013, primarily due to the repayment of short-term bank loans of RMB104.3 million and the repayment of amounts due to related parties of RMB12.0 million. These amounts were partially offset by proceeds from short-term bank loans of RMB55.5 million and proceeds from issuance of convertible redeemable preferred shares of RMB12.0 million.

Table of Contents

Net cash provided by financing activities was RMB300.0 million in 2012, primarily due to proceeds from issuance of Series C1 convertible redeemable preferred shares of RMB254.2 million (US\$41.4 million), proceeds from short-term bank loans of RMB96.5 million (US\$15.7 million) and proceeds from amounts due to related parties of RMB12.0 million (US\$2.0 million). These amounts were partially offset by the repayment of short-term bank loans of RMB62.8 million (US\$10.2 million).

Capital Expenditures

We had capital expenditures of RMB10.4 million, RMB21.9 million, RMB29.1 million (US\$4.7 million) and RMB10.2 million (US\$1.6 million) for 2012, 2013, 2014 and the three months ended March 31, 2015, respectively. Our capital expenditures were used primarily for (i) the purchase of computer hardware, office furniture and equipment and warehouse equipment, (ii) leasehold improvements, and (iii) cost incurred for internal development of software. Actual future capital expenditures may differ from the amounts indicated above.

Our capital expenditures currently in progress are used primarily for the development of our internal software system for customer management and retail operations in order to meet our brand partners' requirements. We rely on our internal sources in financing these capital expenditures, and currently have no capital commitment.

Contractual Obligations

The following table sets forth our operating lease obligations as of March 31, 2015:

	Total		2015		2016		Payments Due by Period		2018		2019		2020 and after	
	RMB	US\$	RMB	US\$	RMB	US\$	2017	US\$	RMB	US\$	RMB	US\$	RMB	US\$
	(in thousands)													
Operating lease obligations	117,288	18,920	23,630	3,812	26,941	4,346	15,751	2,541	11,827	1,908	10,424	1,682	28,714	4,632

Our operating lease obligations relate to lease agreements for our corporate offices and warehouses.

Other than the obligations set forth above, we did not have any long-term debt obligations, capital lease obligations, purchase obligations or other long-term liabilities as of March 31, 2015.

Holding Company Structure

Baozun Inc. is a holding company with no material operations of its own. We conduct our operations primarily through our subsidiaries and consolidated VIE in China. As a result, our ability to pay dividends depends upon dividends paid by our PRC subsidiaries. If our existing PRC subsidiaries or any newly formed ones incur debt on their own behalf in the future, the instruments governing their debt may restrict their ability

Edgar Filing: Baozun Inc. - Form 424B4

to pay dividends to us. In addition, our wholly foreign-owned subsidiary in China is permitted to pay dividends to us only out of its retained earnings, if any, as determined in accordance with its articles of association and PRC accounting standards and regulations. Under PRC law, each of our subsidiaries and our consolidated VIE in China is required to set aside at least 10% of its after-tax profits each year, if any, to fund certain statutory reserve funds until such reserve funds reach 50% of its registered capital. Each of our PRC subsidiaries and our consolidated VIE may allocate a portion of its after-tax profits based on PRC accounting standards to a discretionary surplus fund at its discretion. The statutory reserve funds and the discretionary funds are not distributable as cash dividends. Remittance of dividends by a wholly foreign-owned company out of China is subject to examination by the banks designated by SAFE. As of March 31, 2015, the amount restricted, including paid-in capital and statutory reserve funds, was RMB61.2 million. Our PRC subsidiaries have never paid dividends and will not be able to pay dividends until they generate accumulated profits and meet the requirements for statutory reserve funds.

Table of Contents

We launched Maikefeng platform in March 2014 and currently operate this platform through our VIE, Shanghai Zunyi, which contributed 1.3% and 4.2% of our net revenues in 2014 and the three months ended March 31, 2015, respectively.

Off-Balance Sheet Arrangements

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. In addition, we have not entered into any derivative contracts that are indexed to our own shares and classified as shareholder's equity, or that are not reflected in our consolidated combined financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. Moreover, we do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

Quantitative and Qualitative Disclosure about Market Risk

Foreign Exchange Risk

Substantially all of our revenues and expenses are denominated in Renminbi. We do not believe that we currently have any significant direct foreign exchange risk and have not used any derivative financial instruments to hedge exposure to such risk. Although in general our exposure to foreign exchange risks should be limited, the value of your investment in our ADSs will be affected by the exchange rate between the U.S. dollar and the Renminbi because the value of our business is effectively denominated in Renminbi, while our ADSs will be traded in U.S. dollars.

The conversion of Renminbi into foreign currencies, including U.S. dollars, is based on rates set by the People's Bank of China. The PRC government allowed the Renminbi to appreciate by more than 20% against the U.S. dollar between July 2005 and July 2008. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Since June 2010, the PRC government has allowed the Renminbi to appreciate slowly against the U.S. dollar again, and it has appreciated more than 10% since June 2010. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the Renminbi and the U.S. dollar in the future.

To the extent that we need to convert U.S. dollars we receive from this offering into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we receive from the conversion. Conversely, if we decide to convert Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amounts available to us.

As of March 31, 2015, we had RMB-denominated cash and cash equivalents and restricted cash of RMB174.5 million (US\$28.1 million). Assuming we had converted RMB174.5 million into U.S. dollars at the exchange rate of RMB6.1990 for US\$1.00 as of March 31, 2015, our U.S. dollar cash balance converted from our RMB-denominated cash and cash equivalents and restricted cash would have been US\$28.1 million. If the RMB had depreciated by 10% against the U.S. dollar, our U.S. dollar cash balance would have been US\$25.3 million instead.

Interest Rate Risk

Our exposure to interest rate risk primarily relates to interest expenses incurred by our short-term borrowings and the interest income generated by excess cash, which is mostly held in interest-bearing bank deposits. We have not used derivative financial instruments in our investment portfolio. Interest earning

Table of Contents

instruments carry a degree of interest rate risk. We have not been exposed to, nor do we anticipate being exposed to, material risks due to changes in market interest rates. However, due to changes in market interest rates, our future interest expense may increase and our future interest income may fall short of expectations.

Inflation Risk

Inflation in China has not materially impacted our results of operations in recent years. According to the National Bureau of Statistics of China, the year-over-year increase in the consumer price index in years 2012, 2013 and 2014 was 2.6%, 2.6% and 2.0%, respectively. Although we have not been materially affected by inflation in the past, we can provide no assurance that we will not be affected in the future by higher inflation rates in China.

Credit Risk

As of December 31, 2012, 2013 and 2014 and March 31, 2015, substantially all of our cash and cash equivalents and restricted cash were held by major financial institutions located in the PRC and Hong Kong. We believe that we are not exposed to unusual risks as these financial institutions have high credit quality. We have not experienced any losses on deposits of cash and cash equivalents.

Our customers pay for our product sales through a network of third-party payment service providers. We have not experienced any significant bad debts with respect to our accounts receivable, and made allowance for doubtful accounts of RMB0.5 million, RMB1.9 million, RMB0.4 million (US\$0.1 million) and RMB0.7 million (US\$0.1 million) as of December 31, 2012, 2013 and 2014 and March 31, 2015, respectively.

Table of Contents**INDUSTRY****China's E-Commerce Industry*****Rapid Growth of the E-Commerce Industry***

China's online retail market has experienced rapid growth over the past five years. According to the iResearch Report, GMV from China's online retail market increased from RMB461 billion (US\$74 billion) in 2010 to RMB2,760 billion (US\$445 billion) in 2014, representing a CAGR of 56.4%, and is expected to reach RMB5,634 billion (US\$909 billion) in 2017 at a CAGR of 26.9%. Despite the significant historical growth, China's online shopping penetration rate, defined as size of the online retail market as a percentage of total retail sales of consumer goods, was only 8.0% in 2013. Consumption is expected to shift from offline to online, and online shopping penetration rate is expected to increase to 15.7% by the end of 2017, according to the iResearch Report.

Increase in Market Share of B2C E-Commerce

B2C e-commerce plays an increasingly important role in the e-commerce industry in China. As the online retail market matures and online shoppers become increasingly sophisticated, B2C e-commerce will be a more prevalent mode of e-commerce in China than consumer-to-consumer, or C2C, e-commerce. According to the iResearch Report, the B2C e-commerce market in China is expected to reach RMB1.3 trillion (US\$209 billion) in 2014, accounting for 48.0% of the total online retail market in China. The B2C e-commerce market in China is expected to grow further at a CAGR of 37.0% and constitute more than 60% of the overall online retail market in China by 2017.

Growth in Mobile Commerce

Mobile commerce has experienced and is expected to continue to experience rapid growth in China. With the proliferation of affordable smartphone and tablet devices and advancement in wireless technology and infrastructure in China, consumers are able to shop conveniently using their mobile devices. Mobile commerce has become an increasingly important driver for e-commerce in China. According to the iResearch Report, GMV derived from mobile shopping is expected to reach RMB828 billion (US\$134 billion) in 2014, representing an increase of 202.2% over the corresponding figure in 2013. Mobile commerce penetration, defined as the size of the mobile commerce market as a percentage of the total online retail market is expected to reach 30.0% in 2014 and further increase to 56.9% by 2017.

Key Drivers for China's E-Commerce Industry

The growth in China's online retail market is primarily driven by the following trends:

Rising Spending Power of Chinese Consumers

Benefiting from rising real income level of Chinese consumers and declining household savings rate, China's total retail sales of consumer goods are expected to reach RMB26.6 trillion (US\$4.3 trillion) in 2014 and further grow at a CAGR of 10.5% from 2014 to 2017, according to the iResearch Report. According to the National Bureau of Statistics of China, total retail sales of consumer goods was 41.2% of China's total GDP in 2014. This rate was significantly lower than that in other developed countries such as the United States, in which consumer expenditure as a percentage of GDP was 67.2% in 2014, according to Euromonitor International. We believe that the growth in consumption in China will continue to drive high levels of online and mobile commerce.

Growth of Internet Population and Penetration in China

According to the China Internet Network Information Center, as of December 31, 2013, China had 618 million internet users, 302 million of which shopped online during the year, making China the world's largest internet population. We believe that, driven by the continued growth in the number of internet users as well as the higher percentage of internet users making purchases online, the number of online shoppers will increase.

Challenges in Traditional Retail

Underdeveloped offline retail infrastructure. China's offline retail infrastructure has remained underdeveloped. Estimated per capita retail space in China in 2014 was 0.6 square meter, which was significantly lower than 2.6 square meters in the United States, according to Euromonitor International. As such, the breadth of product offerings and brand selection in China is often restricted by the limited retail space, particularly in smaller cities. In addition, product quality and safety present major concerns for Chinese consumers across a wide variety of product categories. Online shopping, on the other hand, generally offers consumers convenience, price transparency and a wide range of production selection.

Edgar Filing: Baozun Inc. - Form 424B4

In particular, B2C e-commerce attracts Chinese consumers with brand value and product authenticity.

Highly fragmented retail landscape. The retail landscape in China is highly fragmented. According to Euromonitor International, the top 20 retailers in China had a combined market share of approximately 13.2% in 2014, as compared with approximately 41.1% in the United States in the same period. The fragmented retail landscape in China present challenges for leading brands to gain significant nationwide market share offline and effectively execute brand strategies across channels. Against this background, leading B2C platforms, such as Tmall, allow brands to distinguish their brand image and build brand awareness online by targeting over 300 million online shoppers across China.

Table of Contents

Opportunities and Challenges in Brand E-Commerce

Brand e-commerce occupies a unique segment among different modes of B2C e-commerce. The diagram below illustrates the different modes of B2C e-commerce, including brand e-commerce:

Source: iResearch

Note: Excludes Tao brands, which are Chinese brands dedicated to online marketplaces

For brands, B2C e-commerce can be conducted through online stores operated by brands, offline distributors, independent direct sales platforms, such as JD.com (excluding its third-party marketplace business), official marketplace stores and official brand stores. Brand e-commerce encompasses official brand stores and official marketplace stores.

Brand e-commerce differentiates itself from other modes of B2C e-commerce as it enables the online stores to be operated with the brands' unique brand image, look and feel and allows the brands to control their own branding and merchandising. As e-commerce has become more popular in China, global brands increasingly view e-commerce as an important part of their China expansion strategy, and brands increasingly elect e-commerce as their key distribution channel in China.

Table of Contents

Opportunities for Brand E-Commerce

Brand e-commerce has experienced and is expected to continue to experience a higher growth rate compared to the overall B2C e-commerce market in China. According to the iResearch Report, China's brand e-commerce market is expected to increase from RMB22 billion (US\$4 billion) in 2010 to RMB800 billion (US\$129 billion) in 2014, representing a CAGR of 145.7%. It is expected to further reach RMB2,352 billion (US\$379 billion) in 2017, at a CAGR of 43.3%.

(in billions of RMB)

Source: iResearch Report

Source: iResearch Report

Note: (1) Include independent direct sales platforms, online stores of offline distributors and Tao brands

As brand e-commerce continues to grow, a rising number of brands are looking to build their e-commerce presence across multiple channels and provide a seamless and integrated consumer experience across channels. While Tmall has generally been the major marketplace platform for setting up online stores, brands have also been expanding to more online channels, such as their own official brand stores and other online marketplaces, such as JD.com. Mobile platforms have also been a strategic focus through which brands seek to reach consumers via mobile shopping apps and social media platforms such as Weixin stores. In addition, O2O strategies have become popular among brands aiming to integrate consumers' online and offline experience. Such omni-channel strategies require brands to develop an in-depth understanding of PRC consumers and as such, consumer data analysis has become increasingly significant to brands.

Challenges to Brands

While international and domestic brands are increasingly focusing on the growth opportunities in brand e-commerce in China, they also face challenges arising from the complexity in distribution channel selection, consumer demands, merchandising, online store operations, technology infrastructure and fulfillment. Common challenges faced by brands in China, particularly international brands with limited experience and resources in the PRC retail market, include:

large geographical area with highly localized consumer preferences;

distribution channel selection and coverage;

need for multiple consumer touch points and rapidly evolving mobile devices;

lack of transparency and control;

online store operations and marketing strategies;

highly fragmented and underdeveloped fulfillment infrastructure; and

high initial costs to set up local e-commerce facility and team.

Table of Contents

Emergence of Brand E-Commerce Solution Providers

As the e-commerce market in China grows in complexity and more channels emerge, brands look to solutions providers with local knowledge and industry expertise to execute and integrate e-commerce strategies for them without the investment associated with establishing and maintaining local infrastructure and capabilities on their own. Major service offerings by brand e-commerce solutions providers include IT service, store operations, digital marketing, customer service, warehouse and fulfillment, among others. According to the iResearch Report, demands from international brands contribute to approximately 30-40% of the overall brand e-commerce solution market in China. Such percentage could be as high as approximately 70% in certain categories such as apparel. Increasing demands from international brands entering and expanding in China is expected to be a major driver of the e-commerce solution provider market.

Value Proposition of End-to-End Brand E-Commerce Solution Providers

While the majority of e-commerce solution providers focus on one or a few of the services mentioned above, end-to-end brand e-commerce solution providers are unique in their comprehensive capability to offer one-stop solutions for brands looking to execute their e-commerce strategy in China. Specifically, end-to-end brand e-commerce solution providers' unique value propositions include:

in-depth understanding of industry vertical expertise and brand partners' needs;

higher level of control for brands through integrated collaboration between brands and end-to-end e-commerce solution providers on every step of e-commerce strategy and operation;

technology infrastructure for back-end system integration;

ability to collect, centralize and analyze consumer data of the full transaction cycle from browsing, purchase, order processing to fulfillment;

cost advantages from vertically integrated services; and

overall simplification of e-commerce operations for brands.

Competitive Landscape in the China's Brand E-Commerce Solutions Market

China's brand e-commerce solutions market is highly fragmented with thousands of industry participants. According to the iResearch Report, Baozun is the largest player in the brand e-commerce solutions market in China based on transaction value in 2014. Baozun's transaction value was RMB5.2 billion (US\$0.8 billion) in 2014, which exceeds four times the transaction value of the second largest player according to the iResearch Report. As the market leaders continue to leverage their comprehensive service offerings tailored for brands' specific needs, deep industry vertical expertise and data analysis capabilities, market leaders are expected to further consolidate their market share.

Edgar Filing: Baozun Inc. - Form 424B4

The brand e-commerce solutions market in China is still in its emerging stage of development. It is expected to ride on the strong growth in China's brand e-commerce sector and further increase market penetration. According to the iResearch Report, the market size of the brand e-commerce solutions market in China based on transaction value is expected to grow from over RMB26 billion (US\$4 billion) in 2014 to close to RMB100 billion (US\$16 billion) in 2017, representing a CAGR of 56.7%.

Table of Contents

BUSINESS

Overview

We are the leading brand e-commerce solutions provider in China, with a market share of approximately 20% as measured by transaction value in 2014, according to the iResearch Report. Our integrated brand e-commerce capabilities encompass all aspects of the e-commerce value chain covering IT solutions, store operations, digital marketing, customer services, warehousing and fulfillment. We help brand partners execute their e-commerce strategies in China by selling their goods directly to customers online or by providing services to assist with their e-commerce operations.

With e-commerce in China growing rapidly in both in scale and complexity, more global brands view e-commerce as a valuable part of their China expansion strategy, and brands look to us as a trusted partner and rely on our local knowledge and industry expertise to execute and integrate e-commerce strategies without the investment associated with establishing and maintaining local infrastructure and capabilities on their own.

The number of our brand partners grew from 56 as of December 31, 2012, to 71 as of December 31, 2013, to 93 as of December 31, 2014 and to 94 as of March 31, 2015. These brands cover diverse categories, including apparel, appliances, electronics, home, food and health, cosmetics and fast moving consumer goods, insurance and automobile. Many of our brand partners occupy leading positions in their respective industries, such as Philips, Nike, Microsoft and Haagen-Dazs. According to the iResearch Report, we are the leading brand e-commerce solutions provider in China that has penetrated into the most diversified and comprehensive range of categories.

We believe our brand partners value us for our integrated e-commerce capabilities dependable services, deep category expertise, market insight and ability to innovate and adapt to the fast-changing e-commerce market. Our end-to-end brand e-commerce capabilities allow us to leverage brand partners' unique resources and seamlessly integrate with their back-end systems to enable data tracking and analytics for the full transaction value chain, making us a valuable part of our brand partners' e-commerce functions. We help our brand partners establish market presence and launch products quickly on official brand stores and major online marketplaces in China, such as Tmall and JD.com, as well as social media platforms such as Weixin. We also help our brand partners devise and execute O2O strategies combining the strengths of their online and offline retail networks. By enabling seamless shopping experience across various channels both online and offline, we deliver omni-channel solutions to achieve optimal branding effect and sales results that are responsive to our brand partners' individual e-commerce objectives.

Our store operation capabilities, logistics network and warehousing capacities are crucial to our success. We provide customizable solutions and dedicated personnel with relevant industry experience and brand-specific training in operating e-commerce stores. We partner with leading nationwide and local logistics services providers to ensure reliable and timely delivery. For example, we understand from SF Express, one of the largest express delivery services in China, that we are one of its top 10 customers in China. We are able to achieve next-day delivery in 95 cities across China. We operate five warehouses with an aggregate gross floor area of 72,800 square meters that can handle 300,000 daily orders and 400,000 daily pieces. Our warehouse management system is customized to account for variance in arrangements with brand partners and differences in product specifications, ranging from apparel, to consumer electronics, to beauty and health products.

Technology is key to our success and quick expansion. Leveraging our proprietary and scalable technology infrastructure and systems, we provide integrated e-commerce solutions that synchronize marketing campaigns, centralize management of inventory, order fulfillment and customer service, and collect and analyze real-time consumer behavior and transaction data across internet, mobile and offline channels. The

Edgar Filing: Baozun Inc. - Form 424B4

scalability of our systems, built on deep vertical knowledge and modular implementation, allows us to efficiently provide customized solutions across categories and support an increasingly larger array of transactions as we add new brands, integrate new channels and accommodate peaks and surges in consumer demand.

Table of Contents

We continue to win brands' loyalty with our track record of articulating their marketing needs into workable solutions that consistently deliver tangible sales results. We collect valuable consumer behavior data through our customer relationship management system. We have also developed our Business Intelligence, or BI, software which enables real-time analysis of transaction data across online and mobile channels to make more targeted and insightful marketing recommendations to our brand partners that leverage the strengths of various channels. We believe that, as we increase our solution offerings and channels to our brand partners, launch more marketing initiatives and campaigns together and increase their sales, the stickiness of our relationships with brand partners will also grow.

We generate revenues from two revenue streams: (i) product sales and (ii) services. We generally operate e-commerce businesses for our brand partners based on one of business models: distribution model, service fee model and consignment model, or in some circumstances, a combination of the three business models. We derive product sales revenues when we sell products to customers under the distribution model. We derive services revenues under the service fee model and consignment model. For services provided, we charge our brand partners fees consisting of fixed fees and/or variable fees based on GMV or other variable factors such as number of orders fulfilled. Under the consignment model, we may facilitate brand partners' online sales of products as an agent and receive commission fee calculated based on a formula pre-agreed with our brand partners. In 2012, 2013 and 2014 and the three months ended March 31, 2014 and 2015, net revenues from product sales accounted for 85.9%, 83.8%, 74.9%, 73.7% and 74.1%, respectively.

Our GMV was RMB1,460.4 million, RMB2,620.8 million, RMB4,248.9 million (US\$685.4 million), RMB573.7 million and RMB1,157.0 million (US\$186.6 million) in 2012, 2013, 2014 and the three months ended March 31, 2014 and 2015, respectively. For the same periods, our total net revenues were RMB954.5 million, RMB1,521.8 million, RMB1,584.4 million (US\$255.6 million), RMB268.5 million and RMB477.2 million (US\$76.9 million), respectively. We incurred net loss of RMB47.2 million, RMB37.8 million and RMB59.8 million (US\$9.6 million) in 2012, 2013 and 2014, respectively, and recorded net income of RMB1.8 million RMB2.0 million (US\$0.3 million) in the three months ended March 31, 2014 and 2015, respectively. We incurred non-GAAP net loss of RMB42.7 million and RMB26.3 million in 2012 and 2013, respectively, and had non-GAAP net income of RMB25.1 million (US\$4.0 million), RMB3.4 million and RMB7.6 million (US\$1.2 million) in 2014 and the three months ended March 31, 2014 and 2015, respectively. See Summary Consolidated Financial and Operating Data Non-GAAP Financial Measure.

Our Strengths

We believe that the following competitive strengths contribute to our leading position in the brand e-commerce solutions market in China:

Leader in Brand e-Commerce Solutions and Trusted Partner to Global Brands. We are the leading brand e-commerce solutions provider in China, with a market share of approximately 20% as measured by transaction value in 2014, according to the iResearch Report. We are a trusted partner to 94 leading global brands as of March 31, 2015, including Philips, Nike, Microsoft and Haagen-Dazs. Our end-to-end solutions across the e-commerce value chain enable global brands to quickly and cost-effectively establish brand presence, introduce products and services to Chinese consumers and benefit from the rapidly growing e-commerce sector in China. We believe brand partners value us for our intimate knowledge of local consumer experience and industry practices, dependable and seamless services, as well as deep category expertise and market insight. We also believe that they value us for our ability to innovate, anticipate and adapt to the fast-changing e-commerce market. We continue to earn brand partners' loyalty with our track record of articulating their marketing needs into workable solutions that consistently deliver visible sales results. We believe that as we increase our solution offerings and channels to our brand partners, launch more marketing initiatives and campaigns together and increase their sales, the stickiness of our relationships with brand partners will also grow.

End-to-End Brand e-Commerce Solutions with Omni-channel Capabilities. Our brand e-commerce capabilities encompass every aspect of the e-commerce value chain, from IT infrastructure setup and integration, online store design, visual merchandizing, marketing strategies and campaigns, to store operations, warehousing and fulfillment.

Table of Contents

Our ability to provide end-to-end solutions enable us to consolidate consumer and transaction data to deliver seamless shopping experience across various channels. We partner with brands to set up and run their online stores in China, which are brands' official online stores, and online stores on the major marketplaces in China, such as Tmall and JD.com, and to establish presence on the major social media platforms such as Weixin and Weibo. We also help our brand partners devise and execute O2O strategies by integrating and utilizing their online/offline retail space and customer data to optimize sales opportunities and encourage a more connected consumer experience. Our omni-channel capabilities help our brand partners achieve their desired branding effect and sales results that are responsive to our brand partners' individual e-commerce objectives. We believe our end-to-end, omni-channel brand e-commerce capabilities help broaden our revenue sources, maximize our value propositions to brands, and deepen brand entrenchment and loyalty.

Proven Store Operation Capabilities and Fulfillment Infrastructure. We help our brand partners conduct e-commerce in China through capabilities that chaperon merchandises throughout the e-commerce life cycle.

Full Store Operation Capability and Customer Service: Our customizable capabilities, including digital asset management, site authoring and content management, merchandising and allocation, digital analytics and market operations, help us or our brand partners operate official brand stores and official marketplace stores. We provide dedicated store operations teams which are specifically assigned to and trained by our brand partners. Our store operations teams provide brand-oriented customer service to customers to facilitate product sales.

Robust Logistics Network and Warehousing Capacity: We partner with leading nationwide and local logistics services providers to ensure reliable, timely and cost-effective delivery through volume discounts and operational synergy. Our delivery tracking system is integrated with that of SF Express, one of the largest express delivery services in China. Through our logistics services providers, we are able to achieve next-day delivery in 95 cities across China. We operate five warehouses with an aggregate gross floor area of 72,800 square meters that can handle 300,000 daily orders and 400,000 daily pieces. Our warehouses are organized by product categories and our warehouses provide category-tailored services, such as tailored shelf structure, separate floor space, customized rack dimensions and value-added services such as high security and temperature control.

We believe our store operation capabilities and our logistics network and warehousing capacity are crucial to our success and will continue to help us retain brand partners.

Scalable and Reliable Proprietary Technology. Technology is key to our success and quick expansion. We have developed robust technology infrastructure and proprietary systems that can be seamlessly integrated with our brand partners' back-end systems to enable automated inventory tracking, order fulfillment, billing and payment settlement, logistics management as well as consumer data tracking and analytics. The scalability of our systems, built on deep vertical knowledge and modular implementation, allows us to efficiently provide customized solutions across categories and support an increasingly larger array of transactions as we add new brands, integrate new channels and accommodate peaks and surges in consumer demand. The scalability of our technology was demonstrated by our success in handling approximately 1.1 million orders during the Singles Day promotion in 2014, compared to the daily average of 15,000 orders generated in 2014. On Singles Day in 2014, we processed over 23,000 orders within the first minute of the promotion, 122,000 orders within the first five minutes, and 204,000 orders within the first 10 minutes. We believe our proprietary technology allows us to become an integral part of our brand partners' operations, quickly scale up our business and keep us at the forefront of brand e-commerce solutions.

Robust and Insightful Digital Marketing Capabilities. We derive valuable consumer data and analytics through our proprietary BI software and data mining systems which enable real-time analysis of consumer behavior and transaction data across online and mobile channels. These help us make more targeted and insightful marketing strategies for our brand partners that leverage the particular strengths of various channels for different marketing purposes such as branding campaigns and special item promotions. These also allow us to utilize and share with our brand partners a wealth of data and other analytical tools to help refine sales and

Table of Contents

marketing strategies for brand partners. Intelligent tracking also helps us profile individual consumers and push more targeted product displays, searches and promotional campaigns, thereby lowering overall conversion costs and enhances brand loyalty and consumer stickiness. We believe our digital marketing capabilities support and supplement our marketing acumen and will continue to give us an edge in advances in marketing.

Proven and Experienced Management Team with Deep Industry Knowledge. Our co-founders and senior management team bring with them an average of over ten years of experience in retail, global brand marketing, e-commerce, technology and finance in creating end-to-end solutions that help brands succeed in e-commerce in China. We have also established a young, talented and passionate mid-level management team, who is in charge of key business functions. We believe that our cohesive, vibrant and brand-oriented corporate culture inspires and encourages innovation, and helps us attract, retain and motivate an aspiring team to drive our growth.

Our Strategies

Our goal is to be a leading global e-commerce solutions provider for brands. We plan to achieve our goal by pursuing the following key strategies:

Deepen Existing Relationships with Brands. As our brand partners continue to expand their e-commerce footprint in China, we intend to help enhance their online brand appeal and increase sales by implementing, among others, the following measures:

Maintain high performance. We strive to continuously exceed our brand partners' expectations of our performance. We will continue to bring our category expertise and creative vision to refine and enhance their marketing strategies.

Expand value-added solutions. Through enhanced understanding of our brand partners and their brand image, culture and directions, we aim to leverage our suite of capabilities to introduce and sell more value-added solutions to our existing brand partners.

Become an integral part of brands' growth strategy. We intend to deepen our relationship with our brand partners and understanding of their brand image, culture and corporate user in order to help them incorporate at the outset e-commerce and other technologically enabled marketing practices into their business arrangements and growth strategies. This helps ensure that we will continue to act as their trusted partner and be their first choice for executing their e-commerce strategies.

Expand and Optimize our Brand Portfolio. We intend to expand our brand partner base. Specially, we aim to:

Attract more leading global brands. We intend to capitalize on our established category expertise to attract more leading global brands, particularly those with enhanced needs for highly visible marketing campaigns and e-commerce strategies.

Capture small to medium global and regional brands with high growth potential. We intend to add smaller global and regional brands with high growth potential to our portfolio as an e-commerce platform would be a lower-cost option for them to enter into China.

Edgar Filing: Baozun Inc. - Form 424B4

Build our domestic brand base. We intend to selectively add domestic Chinese brands to our brand partner portfolio based on criteria including the prominence of their brands as household names in China, strategic value and sales and growth potential.

Focus on brands in highly profitable categories. As we track consumer trends, we will proactively identify and adjust our emphasis on brands in highly profitable product categories.

Table of Contents

Enhance our Fulfillment Capabilities. We will continue to commit resources to expanding our fulfillment infrastructure and improving the efficiency of our warehouse management system.

Improve our warehouse management system. We plan to further enhance the efficiency of our warehouses by improving their configuration, increasing investment in purpose-built and automated facilities. We will continue to improve our warehouse management system with enhanced functionalities that allow us to intelligently choose optimal service providers for different brands/stores based on various metrics such as locations and costs. We also plan to develop testing modules in these systems, through which we can help our brand partners evaluate the impact of replacing logistics service providers. Externally, we expect to further integrate our warehouse management system with those of our brand partners and our logistic partners on various aspects such as orders, logistics, and account reconciliation.

Expand our fulfillment infrastructure. We will continue to expand our fulfillment infrastructure to support our long-term growth by adding more warehouses in strategic locations across China to improve our nationwide fulfillment capabilities. We intend to expand the total gross floor area of our warehouses in Eastern China and establish new warehouses in Northern China and Southern China to improve our fulfillment efficiency in these regions. We plan to prioritize areas where our brand partners have a critical mass of buyers and orders in order to achieve a faster return on our investment.

Strengthen our Data Analysis Capabilities. We expect to further strengthen our data analysis capabilities within and across brand partners to facilitate our business decisions and provide our brand partners with more insight into their operations:

Within individual brand partners. We intend to continue to enhance the capabilities of our BI software to better understand consumer behavior and utilize our analysis to better serve our brand partners. For example, subject to our agreements with Tmall, we plan to utilize our Tmall transaction data in our BI software, to provide media services to our brand partners. We believe that the insight gained from enhancing our data analysis would be valuable in identifying additional opportunities to serve our brand partners, allowing us to be more entrenched in our brand partners' e-commerce strategies; and

Across brand partners. As our brand partner base continues to grow, we expect to be able to generate more robust and larger data samples enabling the analysis of consumer habits across different brand partners. We plan to take advantage of the wealth of information in our database to continue to improve our data analysis capabilities.

Grow our Closeout Retail Platform, Maikefeng. We plan to expand the user base of and increase the GMV on our closeout retail platform, Maikefeng, through the following:

Enrich product offerings on Maikefeng. We plan to enrich the product offerings on Maikefeng to include more brands and product categories. We aim to introduce more existing brand partners to sell their closeout products through, and increase their product offerings on, Maikefeng. We will also continue to introduce our Maikefeng platform to new brand partners who may be specifically seeking a closeout retail platform.

Improve user experience. We plan to strengthen Maikefeng's user interface by improving the functionalities and features of our Maikefeng mobile application and mkf.com website to create a more personalized online shopping experience for customers.

Increase marketing efforts for Maikefeng. We will increase our promotional efforts for Maikefeng by engaging in various marketing strategies, including word-of-mouth marketing, social media references on platforms such as Weixin and Weibo, viral marketing, customer loyalty programs and other emerging marketing tools.

Edgar Filing: Baozun Inc. - Form 424B4

Extend our Geographical Reach in Asia. In response to our brand partners' demand for our expertise to help them expand their e-commerce business in the Greater China region, we have extended our operational

Table of Contents

capabilities beyond mainland China. We currently provide brand partners such as Microsoft and Nike end-to-end e-commerce solutions in Hong Kong, including IT solutions, customer service and warehousing and logistics services through local staff on the ground and online store operations and digital marketing through the home team in mainland China. In October 2014, we established Taiwan Baozun Corporation, a wholly-owned subsidiary, to expand our provision of brand e-commerce solutions to Taiwan. As e-commerce grows in the Southeast Asian markets, we plan to strategically enter these markets by initially offering select services to and partnering with global brands. After we become more established in those markets, we plan to actively help introduce global and Chinese brands into these markets and replicate our success in China. In 2014, we started to provide IT solutions to a leading e-commerce platform in Indonesia.

Selectively Pursue Strategic Alliances and Acquisition Opportunities. We intend to selectively pursue strategic alliances, investments and potential acquisitions that are complementary to our business and operations, including opportunities that can help us strengthen our technology and digital marketing capabilities, expand our product and service offerings, develop in-depth collaboration with global and domestic brands in strategic markets, and enhance our mobile applications and platform. Our management will carefully evaluate strategic partnership, acquisition or investment opportunities and pursue optimal transaction structures.

Our Business Models and Solutions

Through our integrated brand e-commerce capabilities, we provide end-to-end brand e-commerce solutions that are tailored to meet our brand partners' unique needs. Our e-commerce capabilities encompass every aspect of the e-commerce value chain, including:

IT solutions;

online store operation;

digital marketing;

customer service; and/or

warehousing and fulfillment.

Depending on each brand partner's specific needs and characteristics of its industry category, our brand partners utilize one or a combination of our solutions under one of or a combination of our business models:

distribution model;

service fee model; and

consignment model.

We derive revenues under our business models as follows:

Product sales revenues. We derive product sales revenues when we sell products to customers under the distribution model.

Services revenues. We derive services revenues under the service fee model and consignment model.

In 2012, 2013 and 2014 and three months ended March 31, 2014 and 2015, net revenues from product sales accounted for 85.9%, 83.8%, 74.9%, 73.7% and 74.1%, respectively, of our net revenues. Over time, we work with our brand partners under different combinations of business models to meet their evolving needs and sales objectives. Accordingly, our revenue mix may vary over time.

Business Models

We believe our brand partners value us for our integrated e-commerce capabilities, dependable services, deep category expertise, market insight and ability to innovate and adapt to the fast-changing e-commerce

Table of Contents

market. Depending on each brand partner's specific needs and the characteristics of its category, we utilize our e-commerce capabilities to work with our brand partners under one of or a combination of our business models: the distribution model, the service fee model and the consignment model.

Distribution Model

When we provide brand e-commerce solutions to our brand partners under the distribution model, we select and purchase goods from our brand partners and/or their authorized distributors and sell goods directly to customers through official brand stores or official marketplace stores operated by us or on our Maifeng platform. In order to generate product sales, we utilize every aspect of our e-commerce capabilities. Specifically, we utilize our IT and store operation capabilities to set up and operate online stores, including brand stores, marketplace stores or our Maifeng platform. We utilize our warehousing and fulfillment capabilities to store and deliver goods to our customers. We utilize our customer service capability to facilitate sales and ensure our customers are satisfied. In order to increase our product sales, we utilize our digital marketing capabilities to boost site traffic and transaction volume. When we operate stores under the distribution model, the sites will typically indicate that Baozun is the seller of the products and, when we deliver goods to our customers, the invoices and tax receipts will typically bear our name instead of those of our brand partners.

Service Fee Model

Under the service fee model, we provide one or more of the following services in exchange for service fees:

IT solutions;

online store operation;

digital marketing;

customer service; and/or

other services, such as payment collection for select brand partners.

Consignment Model

Under the consignment model, in addition to other services we may offer, we provide online store operation services and warehousing services, whereby our brand partners stock goods in our warehouses for future sales and we are responsible for delivering goods to customers. In addition to warehousing services, we may be responsible for payment collection for select brand partners. In contrast with the distribution model, however, we do not bear general inventory risk and we do not have control over price determination or merchandise selection. We may also facilitate our brand partners' online sales of goods as an agent and charge our brand partners commission fees based on a pre-determined formula.

E-commerce and Maikefeng

End-to-end Brand E-commerce Capabilities for Brand Partners

Our integrated brand e-commerce capabilities enable us to provide end-to-end solutions that encompass every aspect of the e-commerce value chain, including IT infrastructure setup and integration, online store design and setup, visual merchandizing and marketing campaigns, store operations, customer services, warehousing and order fulfillment. We utilize our capabilities and tailor our solutions to fulfill the specific needs of each brand partner. For each brand partner, we first hold consultations to determine its e-commerce needs and development plans. Each brand partner may then elect to use our full e-commerce capabilities or select specific elements of our capabilities that best fit their needs. Depending on these specific arrangements with brand partners, we generate revenues under different business models.

Table of Contents

The flowchart below illustrates our capabilities and the solutions we offer for each aspect of our brand e-commerce operations:

IT Solutions

With our expertise in web design and our intimate understanding of Chinese consumers' online shopping habits, we help our brand partners set up effective e-commerce sites that both enhance their brands and cater specifically to local consumers. We provide proprietary e-commerce technology which can be customized to and integrated with our brand partners' existing operation back-end systems in a convenient and cost-effective manner. Where necessary, we also help our brand partners set up or improve the suitability of their own IT infrastructure for e-commerce operations. Our proprietary e-commerce IT platform supports a wide range of localized features, including payment and live chat, as well as mobile and new consumer touch points. Our IT services enable our brand partners to quickly adapt to the local e-commerce market and effectively service online shoppers in China without the costs associated with establishing and maintaining local infrastructure and capabilities on their own. For more information about our technology infrastructure and capabilities, please see Technology Infrastructure and Capabilities.

In addition to establishing the infrastructure for system integration, our web designers help our brand partners design online stores that enhance their brand image and online presence. Our web developers also incorporate features and functions familiar to Chinese consumers to facilitate conversion of site visitors into paying consumers.

Store Operations

We believe efficient store operations are crucial to our brand partners' e-commerce business. We staff dedicated operations teams for stores operated by us. Our operations teams closely monitor and are responsible for all activities and the daily upkeep of online stores. The functions of the operations teams broadly fall into two categories: merchandising and site content management.

Merchandising: Each operations team has merchandising staff in charge of maintaining an appropriate level of inventory for online stores by procuring products to be sold on our brand partners' online stores and forecasting quantities to purchase based on expected demand.

Our operations teams also assist our brand partners in processing sales orders in online stores. We manage sales orders through our proprietary order management system that integrates with our other technology platforms to ensure smooth online transactions.

Our merchandising staff monitors store sales through periodic sales reports.

Table of Contents

Site Content Management: In addition to providing design services during the initial store setup, we also periodically update the content on stores operated by us in order to maintain the appeal of the stores. We have a design services team that helps ensure that brands' online stores are artfully presented, and refreshed in keeping up-to-date with our brand partners' latest advertising campaigns. Our design services team regularly works with our brand partners in producing the most updated digital content, including product photography, site banners and other promotional content. For more information about our design services team, see Digital Marketing Creative Contents.

Digital Marketing

We believe performance digital marketing is key in boosting visitor traffic to stores operated by us and increasing conversion and overall transaction volume.

Our digital marketing capabilities cover both official marketplace stores and official brand stores. In particular, we have developed an expertise in digital marketing on Tmall. Our digital marketing capabilities include (i) media services; (ii) word-of-mouth marketing; (iii) creative content; and (iv) consumer data.

Media Services: We plan advertising media for our brand partners. In planning our brand partners' online advertising media, we first determine with our brand partners their most likely and desired customers. Based on that determination, we then identify with our brand partners which media platforms our brand partners' intended audience is most likely to visit, and we design advertising campaigns crafted to have the most impact on the targeted audience. Our media planning capabilities enable our brand partners to strategically target the reach of their online advertising campaigns and minimize wastage and hence increase their return on investment, or ROI.

We engage in search engine optimization and marketing for our brand partners. In particular, we aim for stores operated by us to rank earlier or higher on the search results pages of a search engine so that they will receive more visitors from search engine's users. Based on our understanding of the methodologies and mechanisms adopted by search engines, we customize the content of the stores operated by us to achieve high rankings. Where appropriate, we also help our brand partners negotiate arrangements with search engines to favorably list the stores operated by us on search results pages.

Word-of-Mouth Marketing: Based on our experience, Chinese e-commerce consumers are heavily influenced by word-of-mouth, or WOM, which is information from non-commercial communicators about products, services or brands. We believe we are able to provide tremendous value to our brand partners by helping them formulate WOM strategies and campaigns that encourage consumers' engagement with their brands and drive consumers' desire to purchase their products.

One of the most important WOM channels is social media platforms. We identify the preferred social media platforms of our brand partners target consumers, which are generally Weixin and Weibo. We then open and operate accounts on these platforms for our brand partners. We create and publish contents on our brand partners' accounts, and we engage in dialogues with consumers who post on our brand partners' accounts. We track visitors' activities and analyze the impact of our WOM outreach.

In addition, we monitor and respond to online comments about our brand partners on internet forums and product review websites. We help identify key opinion leaders on these platforms and work with them in responding to comments about our brand partners. We believe that providing meaningful feedback addressing potential customers' concerns greatly facilitate their purchase decisions.

Creative Contents: We provide our brand partners with the infrastructure and expertise for producing digital content to be used on their online stores. We operate an in-house, professional photography studio in Shanghai to create digital product images for product features, promotions and advertising campaigns. Our production services range from pre-production work such as casting, art direction and styling to post-production editing and retouching.

Table of Contents

We also employ a team of copywriting staff who produces product descriptions and related content, such as buyers guides, sizing charts, product tours and comparison shopping tools.

Consumer Data: We use the data we collect from our data warehouse and reporting system to understand consumers' online shopping habits and apply these insights to create impactful marketing campaign for our brand partners. For more information about our data warehouse and reporting system, please see Technology Infrastructure and Capabilities Data Warehouse and Reporting System.

Case Study Digital Marketing

NBA China

Since 2013, we have worked closely with NBA Sports and Culture Development (Beijing) Co., Ltd., or NBA China, to broaden the reach of the NBA Global Games in China, a series of basketball games featuring NBA teams played outside of the U.S. held in October every year. Through primarily NBA China's Weixin and Weibo accounts and outreach to key online influencers, we have developed marketing campaigns for NBA China in mainland China with a variety of features, including promotional events, trivia, limited edition merchandise sales, competitions, and bundled merchandise and ticket sales. We have also provided marketing campaigns in China for NBA-branded merchandise across social media platforms, e-commerce channels, television and the internet, including via key media outlets such as Sina and CCTV.

Customer Service

Providing satisfactory pre-sale and post-sale customer services is one of our top priorities. We believe in the importance of real-time customer assistance. Customers can contact us through real-time online chat, phone calls or emails. Pre-sale questions relating to product details comprise most of the questions we receive from customers, and we believe that a great pre-sale customer service experience could encourage customers purchases. Customers can access our online representatives and service hotlines 9 a.m. to 10 p.m. daily (except three days per year during the Chinese New Year holiday).

We assign our brand partners dedicated brand customer service teams who have undergone full basic customer service training, initial and periodic examinations and targeted coaching sessions.

Table of Contents

Warehousing and Fulfillment

We have established along the e-commerce value chain a robust logistics network and warehousing capacity to help ensure a smooth and positive shopping experience for customers of online stores. We adopt a flexible logistics model supported by our robust and advanced warehouse management system. We partner with leading nationwide and quality logistics services providers to ensure reliable and timely delivery to over 500 cities across China through their network. The following flowchart illustrates our warehousing and fulfillment process:

We operate five warehouses with an aggregate gross floor area of approximately 72,800 sq.m. in Suzhou, Jiangsu province, and Hong Kong. Our warehouses cater to different product categories. We provide value-added services to our brand partners, such as anti-counterfeit code protection and tailor-made packaging. In addition, we also store goods in three other warehouses operated by third parties. With our proprietary warehouse management systems, we are able to closely monitor each step of the fulfillment process from the time a purchase order is confirmed and the product stocked in our warehouses, up to when the product is packaged and picked up by a logistics services provider for delivery to a customer. Shipments from suppliers first arrive at our warehouses. At each warehouse, inventory is bar-coded and tracked through our warehouse management system, allowing real-time monitoring of inventory levels across our network. Our warehouse management system is specifically designed to support a large volume of inventory turnover. Our warehouses fulfilled approximately 1.5 million, 3.0 million, 5.0 million and 5.9 million orders in 2012, 2013, 2014 and the 12 months ended March 31, 2015, respectively. As of March 31, 2015, our warehouse management processing system was capable of processing 100,000 inbound pieces and 300,000 outbound orders per day. On Singles Day in 2014, our warehouse management processing system processed over 202,000 orders, showcasing our ability to support an enormous flow of transaction and order traffic. We closely monitor the speed and service quality of the logistics services providers through consumer surveys and feedbacks from consumers to ensure their satisfaction.

Maikefeng

To extend our product and service offerings to cover the entire product cycle, we began operation of Maikefeng, our closeout retail online platform, in March 2014, which has grown significantly since then. We offer authentic, quality products at steeply discounted prices to consumers on our Maikefeng mobile application and mkf.com website.

Our strong merchandizing expertise enables us to select the brand composition and product mix of our sales on Maikefeng that appeal to our customers. We carefully select prospective brands for our Maikefeng platform, and target to work with those that are well-known and offer high quality or premium products that are popular among consumers in China, and those are willing to provide competitive prices and favorable payment credit and product return terms. We believe that our Maikefeng platform helps our brand partners sell out-of-season inventory, generate more sales and acquire additional traffic, which will help us attract new brands and build stronger ties with our existing brand partners. In addition, our warehousing services help attract brands to our Maikefeng platform as they allow existing users of these services to adopt our Maikefeng platform and solve

Table of Contents

excess inventory issues without the need to physically move inventory. As of March 31, 2015, Maikefeng had attracted 411 brands and housed over 37,930 distinct items for sale.

Major product categories on Maikefeng include sports, clothing and footwear, beauty and cosmetics. We have adopted stringent quality assurance and control procedures for products sold on the Maikefeng platform and delivered through our logistics network. We source our products on Maikefeng directly from brands or through procurement agents. We carefully inspect all products delivered to our warehouses, rejecting or returning products that do not meet our quality standards or the purchase order specifications. We also inspect all products before shipment from our logistics centers to our customers. We believe that our strict brand selection process and quality control procedures enable us to ensure the high quality level of products sold on our Maikefeng mobile application and mkf.com website and increase customer satisfaction. We price products on Maikefeng at significant discounts, typically 70% off the original retail price. Our attractive pricing is made possible by lower purchase price, in particular for off-season or slower-moving inventory or slightly damaged goods, and the absence of physical retail space and related overhead costs.

We have built a highly engaged and loyal customer base for Maikefeng that contributes to our sales growth, while also enabling us to attract new customers primarily through word-of-mouth referrals. Maikefeng had approximately 480,000 registered users and approximately 92,000 cumulative customers and approximately 758,000 registered users and approximately 138,700 cumulative customers as of December 31, 2014 and March 31, 2015, respectively. As of December 31, 2014 and March 31, 2015, there had been 2.9 million and 3.8 million activations, respectively, of our Maikefeng mobile application.

Brand Partners & Brand Partner Development and Services

Brand Partners

As of March 31, 2015, we were providing e-commerce solutions to 94 brand partners primarily under annual or bi-annual service contracts. Our brand partners cover diverse product categories, including apparel, appliances, electronics, home, food and health, cosmetics, insurance and automobile.

In response to our brand partners' needs to leverage our expertise to help them expand their e-commerce business in the Greater China region, we have extended our service and operational capabilities beyond mainland China. We can now provide brand partners such as Microsoft and Nike end-to-end e-commerce solutions in Hong Kong. We provide IT service, customer service and warehousing and logistics services through local staff on the ground and online store operations and digital marketing through the home team in mainland China. In addition, as e-commerce starts to take shape and grow in Southeast Asian markets, we have commenced our provision of services in Indonesia.

Some of our existing brand partners have had years of cooperation with us and we generated a significant portion of our net revenue through (i) the sale of products in the stores of these brands operated by us and (ii) provision of our services to these brand partners. See **Risk Factors** **Risks Related to Our Business**. If we are unable to retain our existing brand partners, our results of operations could be materially and adversely affected.

Brand Partner Development and Services

Brand Partner Screening and Acquisition

We have implemented a strict and methodical brand selection process. Based on our screening guidelines, we carefully select prospective brand partners, choosing to work only with those that are established in profitable industries and with long-term potential. In addition, we screen potential brand partners based on criteria such as projected annual GMV and service fees, projected profitability and proposed duration of cooperation. We also conduct due diligence reviews on our prospective brand partners' qualifications, including whether they hold the proper business operation licenses and safety, sanitary and quality certifications, and trademark registration certificates and license agreements in relation to the branded products.

Table of Contents

We intend to grow our business by adding new brand partners into our brand partner portfolio. We seek to attract new brand partners by providing solutions that enable them to grow their e-commerce business more rapidly and cost-effectively than they could on their own. We have been able to use the capabilities we have developed for our existing brand partners to attract new brand partners.

Brand Partner Services Team

We typically assign each brand partner a dedicated brand partner service team to offer individually tailored services and solutions. All stores across a brand partner's different channels share the same service team to ensure seamless services to our brand partners.

Case Study Selected Brands

Philips

Philips was one of the earliest international brands to open flagship stores on Tmall. In 2008, Philips engaged us to be its e-commerce solutions partner in China because of our technology infrastructure and industry knowledge. Since then, we have helped Philips successfully expand into China and build a significant online presence.

January 2008 Operated official brand store. Philips was one of our earliest brand partners. Philips engaged us to operate its official brand store in China in January 2008.

April 2008 Launched Philips authorized official Tmall stores. In 2008, as part of its effort to launch its Tmall store, Philips's Consumer Lifestyle Business team worked closely with us to better understand China's online marketplaces and consumer behavior. Now we operate four of Philips's Tmall stores which offer a comprehensive range of Philips's home appliances and consumer electronics products, including lighting, telecommunications products and digital and security products. We have developed a highly synergistic relationship with Philips. Under our partnership, the GMV of Philips's Tmall stores have increased significantly.

Global Fashion Brand

One of our brand partners is a global fashion brand that has pioneered e-commerce for luxury brands in China. In 2011, the brand engaged us to promote its brand culture and enhance customers' experience. One of the key challenges the brand faced was enticing price-sensitive online shoppers to buy luxury goods. Since then, we have worked closely with the brand to enhance its e-commerce presence through the following:

November 2012 Launched Chinese official brand store. We worked closely with the brand's marketing team to launch its online store after eight months of research, design and planning. After the launch of the Chinese official brand store, we continued to provide e-commerce solutions to the brand, including store operations, digital marketing, customer service, warehousing and logistics services. In its first year of operations, the brand's Chinese official brand store's GMV exceeded its offline stores in China.

Edgar Filing: Baozun Inc. - Form 424B4

July 2013 Launched mobile terminal. As we were able to collect and analyze more data on Chinese consumers' spending habits, we strategized with the brand to launch its mobile terminal to serve as a new touch point for the brand.

July 2013 Established O2O channel. We completed the data integration of the brand's online platform into its offline stores in seven key cities in China. The integration allowed the brand's customers to make purchases online and collect their purchases at an offline store. This represented the brand's first O2O offering.

Table of Contents

November 2014 Integrated mobile terminal with Weixin. We completed the integration of the brand's mobile terminal with its public account on Tencent's Weixin platform, allowing access to the mobile terminal through Weixin. This helped the brand consolidate its followers across platforms, offered its customers a seamless mobile experience and allowed Weixin Pay as a new form of payment on the brand's e-commerce platform.

As the only e-commerce solutions partner of the brand in China, we believe we will continue to play a significant role in the brand's e-commerce strategy as they continue to innovate and expand their footprint in China.

Leading Sportswear Brand

A leading athletic apparel brand first engaged our services as part of its e-commerce expansion strategy into China in 2008. As a leading global sportswear brand, its primary focus was to maintain its global brand image among Chinese consumers. Our expertise in brand management and our strong understanding of the brand's culture were crucial in helping the brand achieve its objective.

November 2010 Launched official brand store. We launched the brand's official brand store and provided the brand with store operations, customer service, warehousing and logistics solutions. Our solutions have helped the brand manage its dynamic product portfolio and implement complex sales and marketing strategies. For example, our seamless solutions have allowed the brand to incorporate the "seckill" sales strategy on its e-commerce platform. Under this sales strategy, the brand offers limited edition products on a first-come-first serve basis, encouraging frequent visits to its online stores. Products are often sold out within seconds of the offering, and our advanced e-commerce IT platform and our fulfillment capability supports the execution of the "seckill" strategy.

May 2012 Expanded into Tmall. Encouraged by our successful launch and operation of its official brand store, the brand further engaged us to expand its operations into Tmall. The brand's store is now a leading store on Tmall in the sportswear category.

August 2014 Started Hong Kong official brand store. We launched the brand's Hong Kong official brand store and extended our services to the brand to the markets outside mainland China. We also help the brand operate a unique O2O service in Hong Kong. Consumers can purchase the products online and collect the products offline at certain popular convenience stores in Hong Kong.

We aim to continue to work closely with the brand on reaching its future goals in China by improving its e-commerce services and expanding its e-commerce presence to other markets.

Channels

We currently work with major marketplaces such as Tmall and JD.com and major social media platform such as Weixin and Weibo, in China. We also operate official brand stores. We also provide services to our brand partners through O2O strategies. We leverage all of these platforms to deliver omni-channel solutions that combine the strengths of diverse platforms to achieve optimal branding effect and sales results responsive to brands' individual e-commerce objectives.

Official Marketplace Stores

We maintain close working relationships with the major marketplaces in China, such as Tmall and JD.com. Our brand e-commerce solutions benefit third-party marketplaces by helping them attract new brand retailers. As

Table of Contents

such, marketplaces are often motivated to work closely with us to facilitate our ability to connect our brand partners to their systems.

We enter into annual platform service agreements with online marketplaces to set up and maintain online stores on these channels. Pursuant to these agreements, we typically pay online marketplaces based on a pre-determined percentage of GMV for transactions settled that varies by product category, and ranges from 0.5% to 5.0%. We also pay an annual upfront service fees to marketplaces, up to 100% of which may be refunded depending on our sales volume. We also pay security deposit for potential disputes under these agreements.

Official Brand Stores

We also offer to work with our brand partners in setting up and operating their official brand stores. Based on our experience, consumers expect a total brand immersion on an official brand store that is different from the presentation of the brand's stores in online marketplaces, which blend the brand's image with the particular marketplace's interface. We utilize our in-house design team in crafting online and mobile sites for official brand stores and mobile sites that deliver impactful online presence for our brand partners. As of December 31, 2012, 2013, and 2014, and March 31, 2015 we operated 9, 13, 16 and 17 official brand stores, respectively. As of March 31, 2015, we operated mobile sites for 9 of our brand partners.

Social Media Platforms

We work with our brand partners to enhance awareness of their brands on social media platforms and within the broader online community. We helped our brand partners set up accounts and design their homepage on social media platforms, such as Weixin and Weibo, and regularly update their accounts with stories relating to their products, activities and brands. We also monitor comments on our brand partners accounts and work with our brand partners in responding to these comments.

O2O Solutions

We also help our brand partners devise and execute O2O strategies by integrating and utilizing their online/offline retail space and customer data to optimize sales opportunities and encourage a more connected consumer experience. Our omni-channel capabilities help our brand partners achieve optimal branding effect and sales results that are responsive to our brand partners' individual e-commerce objectives. Examples of our O2O capabilities include:

allowing consumers to place purchase orders online and pick up or return and exchange goods offline;

aligning consumers' online and offline loyalty programs; and

syncing online and offline QR codes.

Case Study O2O

Häagen-Dazs

Häagen-Dazs launched its O2O offering in 2010 under which customers are able to explore and choose available ice-cream flavors online through Häagen-Dazs's official store on Tmall. Upon payment, customers will receive a QR code which they can scan to redeem their purchases at certain offline Häagen-Dazs retail stores. We have provided technical support and services to Häagen-Dazs's official store on Tmall.

Payment Service Providers

Third-party marketplaces, our brand partners' official brand stores and our Maikefeng platform provide customers with the flexibility to choose from a number of payment options. These payment options include

Table of Contents

online payments with credit cards and debit cards issued by major banks in China, and payment through third-party online payment platforms, such as Alipay and Tenpay.

In addition, official brand stores typically offer the payment on delivery payment option. Our logistics partners deliver products to customers designated addresses and collect payment on site. In addition to accepting cash, delivery personnel carry mobile POS machines for processing debit cards and credit cards.

Logistics Partners

We deliver orders placed on stores operated by us and on our Maifeng platform to all areas in China through reputable third-party couriers with nationwide coverage, such as SF Express, STO Express, ZTO Express and EMS as well as other quality logistics services providers.

We leverage our large-scale operations and reputation to obtain favorable contractual terms from third-party couriers. We typically negotiate and enter into annual logistics agreements with our logistics partners, under which we agree to pay delivery fees based on the amount and the weight of the goods to be delivered, as well as the destination of the delivery.

Technology Infrastructure and Capabilities

We have made significant investments and will continue to invest in developing our proprietary technology platform to deliver solutions that aim to address e-commerce needs for our brand partners. Our technology systems cover the whole e-commerce value chain, ranging from online store platforms to warehouse management and to data collection and reporting.

The principal components of our proprietary technology infrastructure cover both official brand store systems and back-end operations systems, including:

Order Management System: We process sales orders on online stores through our order management systems, or OMS. OMS controls the whole order cycle, including order data fetching and transfer and fulfillment. OMS connects with both internal and external warehousing systems and is capable of tracking order statuses. OMS also manages all post-sales services such as order canceling, product returns and refunds. OMS is the central node of our e-commerce platform and currently supports all channels including marketplaces and official brand stores.

Warehouse Management System: Our warehouse management system, or WMS, assists us and our brand partners in inventory management, cross-docking, pick-and-pack, packaging, labeling and sorting functions to efficiently manage warehouse workflow.

Baozun platform NEBULA 5.0 : We set up and operate our brand partners' official brand stores through our NEBULA 5.0 platform. With this platform we can quickly set up and customize official brand stores to provide rich features that enhance customers' online shopping experience. These features encompass all major aspects of online shopping, such as in-site search, checkout and rating, and provide flexibility for data, content and promotion/campaign management. NEBULA 5.0 supports multiple languages and is easily

customized and deployed.

Mobile Store System: Our mobile store system is an online web store system for mobile devices based on HTML5 technology. It shares the same back-end system with NEBULA 5.0. Our mobile store system is capable of identifying the type of device from which visitors are accessing the store and can make adjustments for optimized display accordingly.

Data Warehouse and Reporting System: Our data warehouse collects and organizes all kinds of data, such as product information, transaction information, consumers' geographic location and purchase history. From the data we collect, our data reporting system generates reports that are useful for both our brand partners and us, such as daily sales reports and inventory reports.

Table of Contents

Logistics Management System: Our logistics management system coordinates the flow of goods between our warehouses and the final address for each package in each order. Our logistics management system is deeply integrated with the system of third-party couriers to provide multiple levels of services, such as same-day delivery and real-time tracking.

Data Exchange Platform: Our data exchange platform manages all data integration requirements from external parties. It supports flexible synchronization of information with any system. It also acts as a buffer to help avoid overloading of our core systems, such as OMS & WMS.

Intellectual Property

We use our brand partners' names, URLs, logos and other marks in connection with the operation and promotion of their e-commerce businesses. Our agreements with our brand partners generally provide us with licenses to use their intellectual property in connection with the operation of their e-commerce businesses. These licenses are typically coterminous with the respective agreements.

We also rely on technologies that we license from third parties. These licenses may not continue to be available to us on commercially reasonable terms in the future. As a result, we may be required to obtain substitute technology.

We regard our trademarks, software copyrights, service marks, domain names, trade secrets, proprietary technologies and similar intellectual property as critical to our success. To protect our proprietary rights in services and technology, we rely on trademark, copyright and trade secret protection laws in the PRC. As of March 31, 2015, we owned 32 registered trademarks, copyrights to 6 software programs developed by us relating to various aspects of our operations, and 14 registered domain names.

In addition, we rely on contractual restrictions, such as confidentiality and non-disclosure agreements with our brand partners and employees.

Employees

As of March 31, 2015, we had 1,708 full-time employees. We had a total of 1,053 full-time employees, 1,302 full-time employees and 1,580 full-time employees as of December 31, 2012, 2013 and 2014, respectively. The following table provides a breakdown of our employees as of March 31, 2015 by function:

Function	Number
Front-end ¹	1,146
Fulfillment	258
Information technology	191
Back-end ²	113
Total	1,708

Edgar Filing: Baozun Inc. - Form 424B4

- Notes: 1 Front-endfunctions include store management and operations, customer service, business development, design and digital marketing.
- 2 Back-endfunctions include administration, finance, legal, internal audit and sales operation team.

Our success depends on our ability to attract, retain and motivate qualified personnel. Our senior management team consists of members that possess overseas or top-tier education background, strong IT capabilities, deep industry knowledge and working experience with brand partners. In addition, our brand management team comprises personnel who connects well culturally with brands. We have developed a corporate culture that encourages teamwork, effectiveness, self-development and commitment to providing our brand partners with superior services.

Table of Contents

We invest significant resources in the recruitment of employees in support of our fast-growing business operations. We have established procedure and selective standards in recruiting capable employees through various channels, including internal referral, job boards, on campus interview, job fair and recruiting agent.

We have established comprehensive training programs, including orientation programs and on-the-job-training, to enhance performance and service quality. Our orientation program covers such topics as our corporate culture, business ethics, e-commerce workflows and services. Our on-the-job trainings include training of business English and business presentation, management training camp for junior managers and customer service agent career development program. In 2014, we set up a special dedicated training facility, Baozun College, to further strengthen our internal training programs.

As required by regulations in China, we participate in various government statutory employee benefit plans, including social insurance funds, namely a pension contribution plan, a medical insurance plan, an unemployment insurance plan, a work-related injury insurance plan and a maternity insurance plan, and a housing provident fund. We are required under PRC law to contribute to employee benefit plans at specified percentages of the salaries, bonuses and certain allowances of our employees up to a maximum amount specified by the local government from time to time.

We enter into standard labor contracts with our employees. We also enter into standard confidentiality and non-compete agreements with our senior management. The non-compete restricted period typically expires two years after the termination of employment, and we agree to compensate the employee with a certain percentage of his or her pre-departure salary during the restricted period.

We believe that we maintain a good working relationship with our employees, and we have not experienced any major labor disputes.

Properties and Facilities

We are headquartered in Shanghai and leased an aggregate of approximately 9,323 square meters of offices and operation centers as of March 31, 2015. In addition, as of March 31, 2015, we leased an aggregate of approximately 72,800 square meters of warehouse space. Our premises are leased under operating lease agreements from unrelated third parties.

We plan to expand both our office space and warehousing infrastructure over the next several years.

Insurance

We maintain various insurance policies to safeguard against risks and unexpected events. We have purchased property insurance covering our inventory and fixed assets such as equipment, furniture and office facilities. We also provide social security insurance including pension insurance, unemployment insurance, work-related injury insurance and medical insurance for our employees. Additionally, we provide supplementary medical insurance for all management and research and development personnel. We do not maintain business interruption insurance, nor do we maintain product liability insurance or key-man life insurance. We consider our insurance coverage to be sufficient for our

business operations in China.

Legal Proceedings

From time to time, we may be involved in legal proceedings in the ordinary course of our business. We are currently not a party to any material legal or administrative proceedings.

Table of Contents

REGULATION

This section sets forth a summary of the most significant rules and regulations that affect our business activities in China or our shareholders rights to receive dividends and other distributions from us.

Regulations Regarding Foreign Investment

We provide end-to-end brand e-commerce solutions in China. The principal regulations governing foreign investment in our business in China include:

the Guidance Catalog of Industries for Foreign Investment, issued by the National Development and Reform Commission and the Ministry of Commerce in 2015, or the Catalog;

the Administrative Measures on Foreign Investment in the Commercial Sector, issued by the Ministry of Commerce in 2004 and amended in 2005, 2008 and 2010 respectively, or the Commercial Sector Measures;

the Notice on the Relevant Issues concerning the Examination, Approval and Administration of Foreign Investment in Internet and Vending Machine Sales, issued by the Ministry of Commerce in 2010; and

the Regulations for Administration of Foreign-invested Telecommunications Enterprises, issued by the State Council in 2001.

Industry Catalog Relating to Foreign Investment. Investment activities in the PRC by foreign investors are principally governed by the Catalog, which was promulgated and is amended from time to time by the Ministry of Commerce and the National Development and Reform Commission. The Catalog divides industries into three categories: encouraged, restricted and prohibited. Industries not listed in the Catalog are generally deemed as constituting a fourth permitted category and open to foreign investment unless specifically restricted by other PRC regulations.

Depending on each brand partner's specific needs and the characteristics of its industry, we generally operate our brand e-commerce business based on one of three models:

the service fee model;

the consignment model; and

the distribution model.

Edgar Filing: Baozun Inc. - Form 424B4

Under the service fee model, we provide IT, online store operations, marketing, design and other technical services to our brand partners in exchange for service fees. Pursuant to the latest Catalog that was amended in March 2015 and became effective in April 2015, provision of technical services and consultations falls into the encouraged or permitted category. Our PRC subsidiaries have obtained all material approvals requisite for providing such services.

Under the consignment model and the distribution model, we sell goods directly to customers through e-commerce platforms either on behalf of our brand partners or under our own name. Such online sale of commodities which was once in the restricted category and the establishment of foreign-invested enterprises in the industry (including wholly foreign-owned enterprises) was subject to approvals by the Ministry of Commerce or its provincial counterparts. However, the latest Catalog that was amended in March 2015 and became effective in April 2015 has removed online sale of commodities from the restricted category and it now falls into the permitted category.

Foreign Investment in the Commercial Sector. According to the Commercial Sector Measures, a foreign investor is permitted to engage in the commercial sector, which is defined in the measures to include wholesale, retail, commission agency and franchising, by setting up commercial enterprises in accordance with the

Table of Contents

procedures and guidelines provided in the Commercial Sector Measures. Currently, the provincial counterparts of the Ministry of Commerce have the authority to approve applications for setting up foreign-invested enterprises to engage in sale of goods through the internet, among others.

Furthermore, according to the Notice on the Relevant Issues concerning the Examination, Approval and Administration of Foreign Investment in Internet and Vending Machine Sales issued by the Ministry of Commerce in August 2010, online sales is deemed as the extension of companies sales operations, and a duly incorporated foreign-invested entity in the commercial sector is allowed to operate online sales business directly. The establishment of a foreign-invested commercial enterprise specializing in online sales is subject to approval by the competent provincial counterpart of the Ministry of Commerce in accordance with the Commercial Sector Measures.

Currently, our wholly-owned subsidiary in the PRC, Shanghai Baozun, together with its subsidiaries, engages in online sales under the consignment model and the distribution model, and a significant portion of our revenues is generated through such online sales. Shanghai Baozun has received the approval from the local provincial counterpart of the Ministry of Commerce for engaging in online sales.

Foreign Investment in Value-Added Telecommunications Businesses. Pursuant to the Catalog amended in March 2015, the provision of value-added telecommunications services generally falls in the restricted category.

Foreign investment in telecommunications businesses is further governed by the Administrative Rules for Foreign Investments in Telecommunications Enterprises, issued by the State Council on December 11, 2001 and amended on September 10, 2008, under which a foreign investor's beneficial equity ownership in an entity providing value-added telecommunications services in China is not permitted to exceed 50%. In addition, for a foreign investor to acquire any equity interest in a business providing value-added telecommunications services in China, it must demonstrate a positive track record and experience in providing such services. The MIIT's Notice Regarding Strengthening Administration of Foreign Investment in Operating Value-Added Telecommunication Businesses, or the MIIT Notice, was issued on July 13, 2006, pursuant to which a domestic PRC company that holds an operating license for value-added telecommunications business, which we refer to as an ICP license, is prohibited from leasing, transferring or selling its licenses in any form, or providing any resource, sites or facilities, to any foreign investors intending to conduct such businesses in China.

To comply with such foreign ownership restrictions, we currently hold an ICP license through our PRC consolidated VIE, Shanghai Zunyi. Shanghai Zunyi, as the operator of our Maikefeng platform, currently sells commodities selected and purchased by itself via internet under the distribution model. Although we do not believe Shanghai Zunyi's current business involves any value-added telecommunication service, going forward, we may plan to provide value-added telecommunications services by developing e-commerce platforms for other trading parties. To maintain our flexibility in developing value-added telecommunications services in the future, Shanghai Zunyi has applied for and obtained the ICP License.

Regulation Relating to Distribution of Specific Types of Goods

Our online sales business covers diverse categories of brand products, including apparel, appliances, electronics, home, food and health, cosmetics, insurance and automobile. Because distribution of certain special types of goods is subject to government approvals or legal requirements, we are required to either hold a variety of licenses and permits or meet certain requirements in connection with various aspects of our business.

Edgar Filing: Baozun Inc. - Form 424B4

For example, pursuant to the Administrative Measures on Food Distribution Permits issued by the SAIC in July 2009 and the Decision on the Adjustment of Administrative Examination and Approval Items issued by the State Council in October 2014, an enterprise is required to obtain a Food Distribution Permit from a local branch of the State Administration of Industry and Commerce to start the food distribution business. Our PRC

Table of Contents

subsidiaries, Shanghai Baozun, Shanghai Fengbo, and our consolidated VIE, Shanghai Zunyi, have all obtained Food Distribution Permits. In addition, Shanghai Baozun has obtained an Alcoholic Goods Wholesale Permit for wholesale of alcoholic goods pursuant to the Administrative Measures for Alcohol Circulation issued by MOFCOM in November 2005.

Except for licenses and permits, we are also subject to various legal obligations as distributors of certain products. For example, under relevant PRC laws, we, as distributors of cosmetics, are obliged to check whether the cosmetics we sold online have been issued the requisite permits, certificates or filings in relation to the production or import of such products and whether such products have passed the quality inspection before they are sold.

Regulation Relating to Product Quality, Advertising and Consumer Protection

The PRC Product Quality Law applies to all production and sale activities in China. Pursuant to this law, products offered for sale must satisfy relevant quality and safety standards. Enterprises may not produce or sell counterfeit products in any way, including forging brand labels or giving false information regarding a product's manufacturer. Violations of state or industrial standards for health and safety and any other related violations may result in civil liabilities and administrative penalties, such as compensation for damages, fines, suspension or shutdown of business, as well as confiscation of products illegally produced and sold and the proceeds from such sales. Severe violations may subject the responsible individual or enterprise to criminal liabilities. Where a defective product causes personal injury or damage to another person's property, the victim may claim compensation from the manufacturer or from the seller of the product. If the seller pays compensation and it is the manufacturer that should bear the liability, the seller has a right of recourse against the manufacturer. Similarly, if the manufacturer pays compensation and it is the seller that should bear the liability, the manufacturer has a right of recourse against the seller.

The principal regulations governing promotion and advertising activities in China include the PRC Anti-Unfair Competition Law promulgated in 1993, the PRC Pricing Law promulgated in 1997, and the PRC Advertising Law. Under the PRC Advertising Law promulgated in 1994, advertising operators and advertising distributors are all required to ensure that the content of advertisements they produce or disseminate are true and in full compliance with applicable law and regulations, and are prohibited from conveying misleading, false or inaccurate information through advertising. The PRC Advertising Law was recently amended in April 2015, and the amendments will become effective in September 2015, pursuant to which advertising operators and advertising distributors will be subject to more stringent requirements and obligations. For example, entities or individuals shall not send advertisements to customers' telephones, mobile or email accounts without the customers' consents or requests, and any advertisement containing any kind of misleading, false or inaccurate information with respect to product quality, constituents, functionality, price, sales performance or other features will be deemed as deceptive advertising and will subject the advertising operators and distributors to penalties more severe than those under the original law. In addition, the PRC Anti-Unfair Competition Law further imposes stringent requirements on various promotional activities, such as prize-giving sales and bundling sales. For example, under prize-giving sales, the value of prize should be no more than RMB5,000 (US\$806.6). Violation of these requirements may result in penalties, including fines, confiscation of advertising income, orders to cease dissemination of the advertisements, and orders to publish a correction to the misleading information.

The Consumer Protection Law sets out the obligations of business operators and the rights and interests of the consumers in China. Pursuant to this law, business operators must guarantee that the commodities they sell satisfy the requirements for personal or property safety, provide consumers with authentic information about the commodities, and guarantee the quality, function, usage and term of validity of the commodities. Failure to comply with the Consumer Protection Law may subject business operators to civil liabilities such as refunding purchase prices, replacement of commodities, repairing, ceasing damages, compensation, and restoring reputation, and even subject the business operators or the responsible individuals to criminal penalties when

Table of Contents

personal damages are involved or if the circumstances are severe. The Consumer Protection Law was further amended in October 2013 and became effective in March 2014. The amended Consumer Protection Law further strengthens the protection of consumers and imposes more stringent requirements and obligations on business operators, especially on the business operators through the internet. For example, the consumers are entitled to return the goods (except for certain specific goods) within seven days upon receipt without any reasons when they purchase the goods from business operators on the internet. The consumers whose interests have been damaged due to their purchase of goods or acceptance of services on online marketplace stores may claim damages from sellers or service providers. Moreover, if business operators deceive consumers or knowingly sell substandard or defective products, they should not only compensate consumers for their losses, but also pay additional damages equal to three times the price of the goods or services.

We are subject to the above laws and regulations as an online distributor of commodities and believe that we are currently in compliance with these regulations in all material aspects.

Regulation Relating to Online Transaction

In January 26, 2014, the SAIC released the Administrative Measures for Online Transactions, or the Online Transaction Measures, which took effect in March 2014. Under the Online Transaction Measures, online business operators, online service providers and operators of third-party transaction platforms are required to register with the SAIC or its local branches and obtain a business license, except where such business operator is an individual who does not have business license but has completed the registration of his or her true name through certain third-party transaction platforms. When selling products to, or providing services for, consumers, online business operators and service providers are required to disclose to consumers their business address and contact details, quantities, quality, and prices or fees of the goods or services, duration and manner of performance, methods of payment, product return and replacement policy, safety precautions and risk warnings, after-sale services, civil liabilities and other information according to the Online Transaction Measures. Online business operators and service providers are also required to procure the security and reliability of the transactions, and provide the products or services consistent with their commitments. Our PRC subsidiaries and consolidated VIE, as online business operators and service providers, are subject to the Online Transaction Measures.

Regulation Relating to Mobile Applications

E-commerce business via mobile network is at an early stage of development in China. We design and develop mobile applications to create an integrated consumer shopping experience across both online and mobile channels, and are therefore subject to various laws and regulations issued and implemented by the PRC regulatory authorities.

The Notice on Strengthening the Network Access Management of Mobile Intelligent Terminals, issued by the Ministry of Industry and Information Technology, or MIIT, on April 11, 2013 and effective as of November 1, 2013, applies to the manufacture and installment of mobile applications in China, and imposes stringent requirements on contents and functions of mobile applications. Installment of any mobile application that adversely affects the normal functions of mobile intelligent terminals, or contains contents prohibited from publication or dissemination, or perform unauthorized collection or modification of users' personal information without expressly informing the users and obtaining their consent is prohibited.

We, as the manufacturer of mobile applications either for our brand partners or for ourselves, are subject to the aforesaid requirements and restrictions. In addition, with the expansion of our business via mobile channels, we may be required to obtain additional licenses or approvals for such business operation in the future. For example, the 2013 Classified Catalog of Telecommunications Services (Draft for Comments)

Edgar Filing: Baozun Inc. - Form 424B4

specifies that information services provided through mobile networks are recognized as internet information services, and service providers, like operators of mobile application stores, will be required to meet certain qualifications,

Table of Contents

including obtaining an ICP license covering internet information services rendered through mobile network. See **Risk Factors** **Risks Related to Our Business**. Any lack of requisite approvals, licenses or permits applicable to our business or failure to comply with PRC laws and regulations may have a material and adverse impact on our business, financial condition and results of operations.

Regulation on Intellectual Property Rights

Patent. Patents in the PRC are principally protected under the Patent Law of the PRC. The duration of a patent right is either 10 years or 20 years from the date of application, depending on the type of patent right.

Copyright. Copyright in the PRC, including copyrighted software, is principally protected under the Copyright Law of the PRC and related rules and regulations. Under the Copyright Law, the term of protection for copyrighted software is 50 years.

Trademark. Registered trademarks are protected under the Trademark Law of the PRC and related rules and regulations. Trademarks are registered with the Trademark Office of the SAIC. Where registration is sought for a trademark that is identical or similar to another trademark which has already been registered or given preliminary examination and approval for use in the same or similar category of commodities or services, the application for registration of such trademark may be rejected. Trademark registrations are effective for a renewable ten-year period, unless otherwise revoked.

Domain Names. Domain name registrations are handled through domain name service agencies established under the relevant regulations, and applicants become domain name holders upon successful registration.

Regulations on Tax

Enterprise Income Tax

The PRC enterprise income tax, or EIT, is calculated based on the taxable income determined under the applicable EIT Law and its implementation rules, which became effective on January 1, 2008. The EIT Law imposes a uniform enterprise income tax rate of 25% on all resident enterprises in China, including foreign invested enterprises.

Value-Added Tax and Business Tax

Pursuant to the PRC Provisional Regulations on Value-Added Tax and its implementation regulations, unless otherwise specified by relevant laws and regulations, any entity or individual engaged in the sales of goods, provision of processing, repairs and replacement services and importation of goods into China is generally required to pay a value-added tax, or VAT, for revenues generated from sales of products, while qualified input VAT paid on taxable purchase can be offset against such output VAT.

Prior to January 1, 2012, pursuant to the PRC Provisional Regulations on Business Tax and its implementing rules, taxpayers providing taxable services falling under the category of service industry in China were required to pay a business tax at a tax rate of 5% of their revenues with certain exceptions. Since January 1, 2012, the PRC Ministry of Finance and the State Administration of Taxation have been implementing the VAT pilot program, which imposes VAT in lieu of business tax for certain industries in Shanghai, and since September 1, 2012, such pilot program has been expanded to eight other provinces or municipalities in the PRC. Since August 2013, this tax pilot program has been expanded to other areas on a nationwide basis in the PRC. Under the pilot plan, a VAT rate of 6% applies to some modern service industries.

Table of Contents

Regulations Relating to Foreign Exchange and Dividend Distribution Foreign Exchange Regulation

The principal regulations governing foreign currency exchange in China are the Foreign Exchange Administration Regulations. Under the PRC foreign exchange regulations, payments of current account items, such as profit distributions and trade and service-related foreign exchange transactions, may be made in foreign currencies without prior approval from SAFE by complying with certain procedural requirements. By contrast, approval from or registration with appropriate government authorities is required where RMB is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of foreign currency denominated loans or foreign currency is to be remitted into China under the capital account, such as a capital increase or foreign currency loans to our PRC subsidiaries.

In August 2008, SAFE issued the Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises, or SAFE Circular 142, regulating the conversion by a foreign-invested enterprise of foreign currency-registered capital into RMB by restricting how the converted RMB may be used. In addition, SAFE promulgated Circular 45 on November 9, 2011 in order to clarify the application of SAFE Circular 142. Under these regulations, the RMB capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used for purposes within the business scope approved by the applicable government authority and may not be used for equity investments within the PRC. In addition, SAFE strengthened its oversight of the flow and use of the RMB capital converted from foreign currency registered capital of foreign-invested enterprises. The use of such RMB capital may not be changed without SAFE's approval, and such RMB capital may not in any case be used to repay RMB loans if the proceeds of such loans have not been used.

Since SAFE Circular 142 has been in place for more than five years, SAFE decided to further reform the foreign exchange administration system in order to satisfy and facilitate the business and capital operations of foreign invested enterprises, and issued the Circular on the Relevant Issues Concerning the Launch of Reforming Trial of the Administration Model of the Settlement of Foreign Currency Capital of Foreign-Invested Enterprises in Certain Areas on August 4, 2014. This circular suspends the application of SAFE Circular 142 in certain areas and allows a foreign-invested enterprise registered in such areas with a business scope covering investment to use the RMB capital converted from foreign currency registered capital for equity investments within the PRC. On April 9, 2015, SAFE released the Notice on the Reform of the Management Method for the Settlement of Foreign Exchange Capital of Foreign-invested Enterprises, or SAFE Circular 19, which will come into force and supersede SAFE Circular 142 from June 1, 2015. SAFE Circular 19 has made certain adjustments to some regulatory requirements on the settlement of foreign exchange capital of foreign-invested enterprises, and some foreign exchange restrictions under SAFE Circular 142 are expected to be lifted. However, considering that SAFE Circular 19 is lately promulgated and has not taken effective yet, it is unclear how it will be implemented and there exist high uncertainties with respect to its interpretation and implementation by authorities.

In November 2012, SAFE promulgated the Circular of Further Improving and Adjusting Foreign Exchange Administration Policies on Foreign Direct Investment, which substantially amends and simplifies the current foreign exchange procedure. Pursuant to this circular, the opening of various special purpose foreign exchange accounts, such as pre-establishment expenses accounts, foreign exchange capital accounts and guarantee accounts, the reinvestment of RMB proceeds by foreign investors in the PRC, and remittance of foreign exchange profits and dividends by a foreign-invested enterprise to its foreign shareholders no longer require the approval or verification of SAFE, and multiple capital accounts for the same entity may be opened in different provinces, which was not possible previously. In addition, SAFE promulgated the Circular on Printing and Distributing the Provisions on Foreign Exchange Administration over Domestic Direct Investment by Foreign Investors and the Supporting Documents in May 2013, which specifies that the administration by SAFE or its local branches over direct investment by foreign investors in the PRC shall be conducted by way of registration and banks shall process foreign exchange business relating to the direct investment in the PRC based on the registration information provided by SAFE and its branches.

Table of Contents***SAFE Circular 37***

SAFE promulgated the Circular on Relevant Issues Concerning Foreign Exchange Control on Domestic Residents' Offshore Investment and Financing and Roundtrip Investment through Special Purpose Vehicles, or SAFE Circular 37, on July 4, 2014, which replaced the former circular commonly known as SAFE Circular 75 promulgated by SAFE on October 21, 2005. SAFE Circular 37 requires PRC residents to register with local branches of SAFE in connection with their direct establishment or indirect control of an offshore entity, for the purpose of overseas investment and financing, with such PRC residents' legally owned assets or equity interests in domestic enterprises or offshore assets or interests, referred to in SAFE Circular 37 as a special purpose vehicle. SAFE Circular 37 further requires amendment to the registration in the event of any significant changes with respect to the special purpose vehicle, such as increase or decrease of capital contributed by PRC individuals, share transfer or exchange, merger, division or other material event. In the event that a PRC shareholder holding interests in a special purpose vehicle fails to fulfill the required SAFE registration, the PRC subsidiaries of that special purpose vehicle may be prohibited from making profit distributions to the offshore parent and from carrying out subsequent cross-border foreign exchange activities, and the special purpose vehicle may be restricted in its ability to contribute additional capital into its PRC subsidiary. Furthermore, failure to comply with the various SAFE registration requirements described above could result in liability under PRC law for evasion of foreign exchange controls. On February 13, 2015, SAFE released the Notice on Further Simplifying and Improving Policies for the Foreign Exchange Administration of Direct Investment, or SAFE Circular 13, which will take effective from June 1, 2015. According to this notice, local banks will examine and handle foreign exchange registration for overseas direct investment, including the initial foreign exchange registration and amendment registration, under SAFE Circular 37. However, since the notice has not yet come into force, there exist high uncertainties with respect to its interpretation and implementation by governmental authorities and banks.

Mr. Vincent Wenbin Qiu, Mr. Junhua Wu and Mr. Michael Qingyu Zhang have completed initial filings with the local counterpart of SAFE relating to their investments in us. However, we may not be aware of the identities of all our beneficial owners who are PRC residents. In addition, we do not have control over our beneficial owners and cannot assure you that all of our PRC resident beneficial owners will comply with SAFE Circular 37. The failure of our beneficial owners who are PRC residents to register or amend their SAFE registrations in a timely manner pursuant to SAFE Circular 37 or the failure of future beneficial owners of our company who are PRC residents to comply with the registration procedures set forth in SAFE Circular 37 may subject such beneficial owners or our PRC subsidiaries to fines and legal sanctions. Failure to register or amend the registration may also limit our ability to contribute additional capital to our PRC subsidiaries or receive dividends or other distributions from our PRC subsidiaries or other proceeds from disposal of our PRC subsidiaries, or we may be penalized by SAFE.

Share Option Rules

Under the Administration Measures on Individual Foreign Exchange Control issued by the PBOC on December 25, 2006, all foreign exchange matters involved in employee share ownership plans and share option plans in which PRC citizens participate require approval from SAFE or its authorized branch. Pursuant to SAFE Circular 37, PRC residents who participate in share incentive plans in overseas non-publicly-listed companies may submit applications to SAFE or its local branches for the foreign exchange registration with respect to offshore special purpose companies. In addition, under the Notices on Issues concerning the Foreign Exchange Administration for Domestic Individuals Participating in Share Incentive Plans of Overseas Publicly-Listed Companies issued by SAFE on February 15, 2012, or the Share Option Rules, PRC residents who are granted shares or share options by companies listed on overseas stock exchanges under share incentive plans are required to (i) register with SAFE or its local branches, (ii) retain a qualified PRC agent, which may be a PRC subsidiary of the overseas listed company or another qualified institution selected by the PRC subsidiary, to conduct the SAFE registration and other procedures with respect to the share incentive plans on behalf of the participants, and (iii) retain an overseas institution to handle matters in connection with their exercise of share options, purchase and sale of shares or interests and funds transfers.

Table of Contents

Regulation of Dividend Distribution

The principal laws, rules and regulations governing dividend distribution by wholly foreign-invested enterprises in the PRC are the Company Law of the PRC, as amended, the Wholly Foreign-owned Enterprise Law and its implementation regulations.

Under these laws, rules and regulations, wholly foreign-invested enterprises may pay dividends only out of their accumulated profit, if any, as determined in accordance with their articles of association and PRC accounting standards and regulations. Both PRC domestic companies and wholly-foreign owned PRC enterprises are required to set aside as general reserves at least 10% of their after-tax profit, until the cumulative amount of such reserves reaches 50% of their registered capital. A PRC company is not permitted to distribute any profits until any losses from prior fiscal years have been offset. Profits retained from prior fiscal years may be distributed together with distributable profits from the current fiscal year.

M&A Rules and Overseas Listing

The Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors, or the M&A Rules, issued by six PRC governmental and regulatory agencies, including the MOFCOM and the CSRC, on August 8, 2006 and amended on June 22, 2009, require that an SPV formed for listing purposes and controlled directly or indirectly by PRC companies or individuals must obtain the approval of the CSRC in the event that the SPV acquires equity interests in the PRC companies in exchange for the shares of offshore companies.

The application of the M&A Rules remains unclear. Our PRC counsel, Fangda Partners, has advised us that, under current PRC laws, rules and regulations and the M&A Rules, prior approval from the CSRC is not required under the M&A Rules for our initial public offering because:

When we set up our offshore holding structure, Shanghai Baozun, currently our major PRC subsidiary, was a then existing foreign-invested entity and not a PRC domestic company as defined under the M&A rules, and the acquisition by Baozun Hong Kong Holding Limited of all the equity interest in Shanghai Baozun was not subject to the M&A Rules;

There is no statutory provision that clearly classifies the contractual arrangement among our PRC subsidiary, Shanghai Baozun, and our PRC varies interest entity, Shanghai Zunyi and its shareholders as transactions regulated by the M&A Rules.

However, as there has been no official interpretation or clarification of the M&A Rules, there is uncertainty as to how these rules will be implemented in practice. See Risk Factors Risks Related to Doing Business in the People's Republic of China The approval of the China Securities Regulatory Commission, or the CSRC, may be required in connection with this offering under a PRC regulation. The regulation also establishes more complex procedures for acquisitions conducted by foreign investors that could make it more difficult for us to grow through acquisitions.

Regulations Relating to Employment

Edgar Filing: Baozun Inc. - Form 424B4

Pursuant to the PRC Labor Law effective in 1995 and the PRC Labor Contract Law in effect, a written labor contract is required when an employment relationship is established between an employer and an employee. Other labor-related regulations and rules of the PRC stipulate the maximum number of working hours per day and per week as well as the minimum wages. An employer is required to set up occupational safety and sanitation systems, implement the national occupational safety and sanitation rules and standards, educate employees on occupational safety and sanitation, prevent accidents at work and reduce occupational hazards.

Under the PRC Labor Contract Law, an employer is obligated to sign a labor contract with an employee with an indefinite term if the employer continues to employ the employee after two consecutive fixed-term labor contracts. The employer also has to pay compensation to the employee if the employer terminates a labor contract with an indefinite term.

Table of Contents

On December 28, 2012, the PRC Labor Contract Law was amended to impose more stringent requirements on labor dispatch which became effective on July 1, 2013. Pursuant to the amended PRC Labor Contract Law, the dispatched contract workers shall be entitled to equal pay for equal work as a fulltime employee of an employer, and they shall only be engaged to perform temporary, ancillary or substitute works, and an employer shall strictly control the number of dispatched contract workers so that they do not exceed certain percentage of total number of employees. According to the Interim Provisions on Labor Dispatch, or the Labor Dispatch Provisions, promulgated by the Ministry of Human Resources and Social Security on January 24, 2014, which became effective on March 1, 2014, (i) the number of dispatched contract workers hired by an employer should not exceed 10% of the total number of its total employees (including both directly hired employees and dispatched contract workers); and (ii) in the case that the number of dispatched contract workers exceeds 10% of the total number of its employees at the time when the Labor Dispatch Provisions became effective (i.e., March 1, 2014), the employer shall formulate a plan to reduce the number of its dispatched contract workers to below the statutory cap prior to March 1, 2016.

Table of Contents**MANAGEMENT****Directors and Executive Officers**

The following table sets forth information regarding our directors and executive officers as of the date of this prospectus.

Directors and Executive Officers	Age	Position/Title
Vincent Wenbin Qiu	47	Director and Chief Executive Officer
Junhua Wu	37	Director and Chief Operating Officer
Michael Qingyu Zhang	46	Director
Satoshi Okada	56	Director
David McKee Hand	40	Director
Qian Wu	41	Director
Yiu Pong Chan	43	Independent Director
Bin Yu	45	Independent Director
Beck Zhaoming Chen	32	Chief Financial Officer
Nicolas Zurstrassen	42	Senior Vice president
Vicky Yuming Lu	51	Senior Vice president
Aaron Kwok Yuen Lung	50	Vice president
Frank Lie Ma	38	Vice president
Eric Gang He	37	Vice president
Tony Yongjun Wu	50	Vice president

Mr. Vincent Wenbin Qiu is one of our co-founders. Since the founding of our business in 2007, Mr. Qiu has served as chairman of our board of directors and our chief executive officer. Prior to founding our company, Mr. Qiu founded Shanghai Erry Network Technology Ltd., or Shanghai Erry, in 2000, a company specialized in providing supply chain management solutions and services to consumer brands in China, and served as Shanghai Erry's chief executive officer from 2000 to 2007. From 1992 to 2000, Mr. Qiu worked as a technical and solution architect and held technical management positions in various multinational companies, including NCR (China) Limited, HP China Co., Ltd. and Sun Microsystems (China) Limited. Mr. Qiu obtained his bachelor's degree in electronic engineering from Tsinghua University in 1992.

Mr. Junhua Wu is one of our co-founders and has served as our chief operating officer since the founding of our business in 2007. He primarily supervises our information technology, customer service and business development departments, as well as our official brand store business. From 2001 to 2006, Mr. Wu served as director of the professional service department at Shanghai Erry. From 2000 to 2001, he worked as senior IT manager in Goodbaby International Group, an international durable juvenile products company headquartered in China. Mr. Wu graduated from Shanghai Jiao Tong University where he studied computer science in 2000.

Mr. Michael Qingyu Zhang is one of our co-founders and has served as a member on our board since 2010. From 2011 to 2014, Mr. Zhang was our president. From 2007 to 2011, Mr. Zhang served as vice president at NVC Lighting Holding Limited, or NVC Lighting, a leading supplier of lighting products in China, where he was in charge of the development of NVC Lighting's overseas markets. From 1996 to 2006, Mr. Zhang held a number of managerial positions at Philips Lighting China Limited. Mr. Zhang received his bachelor's degree in trade and economy from Shanghai University of Finance and Economics in 1990 and his master of business administration degree from China Europe International Business School in 1996.

Edgar Filing: Baozun Inc. - Form 424B4

Mr. Satoshi Okada has served as a member on our board since October 2014. Since 2008, Mr. Okada has also served as director and chief operation officer at Alibaba.com Japan. Prior to that, Mr. Okada had held

Table of Contents

various management positions within the Softbank Corp. group since 2000. He also served as director at Alibaba.com Limited from 2007 to 2012, Ariba Japan K.K., a technology company, from 2001 to 2005 and DeeCorp Limited, a software company, from 2005 to 2007.

Mr. David McKee Hand has served as a member of our board since 2011. Mr. Hand is a founder and managing partner of Crescent Point, a private equity investment firm dual-headquartered in Singapore and Shanghai with an investment focus in Asia. He serves or has served on the boards of directors of several publicly and privately held companies, including Asia Venture Holdings Pte. Ltd., the holding company for the Viva Generik pharmacy chain in Indonesia; Aussie Farmers Holding Company Pty Ltd, the holding company for the largest online-only grocery business in Australia; Carmen Copper Corporation, a copper mining company based in the Philippines; Masterskill (Cayman) Limited which, through its subsidiaries, operates tertiary level education facilities across Malaysia; Tudou Holdings Limited, a leading Chinese online video company; and Wego Pte. Ltd., a Singapore-based pan-Asian travel metasearch company. Prior to founding Crescent Point, Mr. Hand worked at Morgan Stanley in New York and Singapore. Mr. Hand holds a bachelor's degree in economics from Yale University and an M.B.A. from the Harvard Business School.

Ms. Qian Wu has served as a member of our board since April 2015. Ms. Wu joined Alibaba Group in August 2007 as senior director of Yahoo China, focusing on business development, product development, website and content channel management, online searches and e-mail services. From 2009 to 2015 she served in various leadership roles in Alibaba Group, including head of Koubei Beijing, senior director of Tmall international business development and Tmall Merchants management, general manager of O2O business and general manager of Cross Board B2C business. Prior to joining Alibaba Group, she had worked for almost 10 years in SOHU.com as one of the founding members. Ms. Wu has more than 15 years' management experience and is specialized in business development, marketing, new business initiatives and corporate management. Ms. Wu holds a bachelor's degree in economics from Shanghai University of Financial and Economics in China and a joint master's degree in business administration from Peking University and Fordham Business School in New York.

Mr. Yiu Pong Chan has served as our independent director since May 2015. Since September 2012, Mr. Chan has served as an executive director and from January 2014 as a managing director at L Capital Asia Advisors, a private equity fund based in Singapore which is backed by LVMH Moët Hennessy Louis Vuitton S.A, a multinational luxury products company. Mr. Chan is also a board director at Dr.Wu Skincare Co., Ltd, a Taiwan-based company that provides non-surgical skincare products and solutions, and a board observer at YG Entertainment Inc., a music and entertainment company in South Korea. From August 2006 to June 2011, Mr. Chan was a director and served as head of the China office at investment fund Crescent Point Advisors Pte Ltd. From June 2002 to June 2006, Mr. Chan was a director at the Taiwan office of Lone Star Asia-Pacific Ltd. Mr. Chan holds a master's degree in finance with first-class honor and a bachelor's degree in economics and finance from the University of Auckland.

Ms. Bin Yu has served as our independent director since May 2015. Ms. Yu has been an independent director and the audit committee chair of iDreamsky Technology Limited (NASDAQ: DSKY), an independent mobile game publishing company in China, since July 2014. Ms. Yu has also been an independent director and the audit committee chair of Tian Ge Interactive Holdings Limited, a live social video platform in China, since June 2014. In addition, Ms. Yu has served as chief financial officer of Innolight Technology (Suzhou) Ltd., a high-speed optical transceiver supplier in China, since January 2015. Ms. Yu was a director and the chief financial officer of Star China Media Limited, a company engaging in entertainment TV programs business, from December 2013 and May 2013, respectively, to December 2014, where she is responsible for corporate finance, legal, investor relations and financial management. From August 2012 to April 2013, she was the senior vice president of Youku Tudou Inc. (NYSE: YOKU), an Internet television company in China and was in charge of the company's investment in content production, merger and acquisition and strategic investment. Respectively from January 2012 to April 2013 and from July 2010 to December 2011, Ms. Yu served as the chief financial

Table of Contents

officer and the vice president of finance of Tudou Holdings Limited, a company engaging in Internet television business, where she oversaw the management of the company's finance, legal, public relationship and investor relationship departments. Prior to that, from September 1999 to July 2010, she worked at KPMG and was promoted to senior manager of KPMG Greater China region, where she was responsible for financial statements auditing and China-based private entities' listing overseas. Ms. Yu obtained a master's degree in accounting and education from the University of Toledo in the United States in May 1998 and August 1998, respectively, and an EMBA degree from Tsinghua University and INSEAD in January 2013. She is a Certified Public Accountant in the United States admitted by the Accountancy Board of Ohio, a member of American Institute of Certified Public Accountants and a member of Chartered Global Management Accountant.

Mr. Beck Zhaoming Chen has served as our chief financial officer and had held a number of positions, such as vice president and finance director, since joining us in 2012. Prior to joining us, Mr. Chen was the finance controller at LaShou Group Inc., a leading online social commerce company in China from 2011 to 2012. From 2004 to 2011, Mr. Chen worked at Deloitte Touche Tohmatsu Certified Public Accountants LLP as an audit manager for a number of multinational technology and retail companies. Mr. Chen obtained his bachelor's degree in economics from Fudan University in 2004. Mr. Chen is a qualified accountant of the Chinese Institute of Certified Public Accountants and a CFA charterholder.

Ms. Vicky Yuming Lu has served as our senior vice president for our fashion-related categories since August 2014. Prior to joining us, Ms. Lu served as vice president at Bobbi Brown Professional Cosmetics Inc. from 2011 to 2013. From 2005 to 2011, she worked as managing director of Estée Lauder Companies in Taiwan, and was a general manager at Estée Lauder Inc. Taiwan from 1999 to 2005. She also held brand management-related roles at a number of luxury fashion brand companies, including Bally Shoe Factories Ltd in Hong Kong and DFS Group Limited from 1990 to 1999. Ms. Lu received her bachelor's degree from National Chengchi University in Taiwan in 1986 and associate bachelor's degree in fashion buying and merchandising from Fashion Institute of Technology in New York in 1989.

Mr. Nicolas Zurstrassen has served as our senior vice president for our marketing services since May 2014. Prior to joining us in 2014, Nicolas was at Nike Greater China from 2007 to 2014. During his final role at Nike, he served as the digital general manager, responsible for all of Nike Sports China Co. Ltd.'s e-commerce and digital marketing initiatives in the Greater China region. In his seven years at Nike Sports China Co., Ltd., Mr. Zurstrassen launched Nike's e-commerce operations in China, led Nike's digital marketing campaigns for the 2008 Summer Olympic Games in Beijing and the 2012 Summer Olympic Games in London and built one of the leading digital teams in China. He has been involved in the internet business in China since 1998 when he founded Nurun China Interactive, one of China's first digital marketing agencies. Mr. Zurstrassen obtained his LL.B. degree from University of Sydney and his master of business administration degree from INSEAD.

Mr. Frank Lie Ma has served as our vice president since February 2011. Prior to joining us in 2011, Mr. Ma served as vice president of Jushang (Shanghai) E-commerce Co., Ltd. (Fclub.cn) from 2009 to 2011, responsible for overall operation and marketing. From 2007 to 2009, Mr. Ma served as a CEO executive assistant of Newegg (China) Trade Co., Ltd. Mr. Ma also held various managerial positions in Alipay (China) Network Technology Co., Ltd. from 2005 to 2007, Shanghai Etang Information Technology Co., Ltd. from 2001 to 2005, and Globalsources (Shanghai) Advertisement Co., Ltd. from 1997 to 2001. Mr. Ma received his master's degree in business administration from East China Normal University in 2012. Mr. Ma owns two patents relating to an online payment method and system pertaining to communication terminals and intermediate platforms.

Mr. Aaron Kwok Yuen Lung has served as vice president of our home appliances and digital products business since joining us in October 2014. Prior to joining us, Mr. Kwok was a director at Beijing VastSmart Trading Co., Ltd from 2012 to 2014. From 2011 to 2012, Mr. Kwok served as deputy vice general manager in charge of sales and marketing at Beko Electronics Appliances (China) Co., Ltd. From 2003 to 2011, Mr. Kwok worked as sales director and commercial general manager of IT displays and Accessories of Philips (China)

Table of Contents

Investment Co., Ltd. From 1989 to 2003, Mr. Kwok held various managerial positions in several IT companies, including Beijing Dyne Lihe Sci-Tech Development Co., Ltd. and Creative Technology Limited. Mr. Kwok received his bachelor's degree in computer science from Fudan university in 1989.

Mr. Eric Gang He serves as our vice president for online sales in the insurance and automotive business. Prior to joining us in June 2012, Mr. He served as e-commerce general manager at Natural Food International Group Limited, a health product company based in China from 2011 to 2012. From 2008 to 2011, Mr. He served as general manager of the e-commerce department at Shanghai iResearch Co., Ltd., a leading market research firm in China, focusing on tailoring strategic business plans for and providing consulting services to e-commerce enterprises. Mr. He has spent over ten years in the internet and e-commerce sectors. Mr. He received his bachelor's degree in finance from Fudan University in 2003.

Mr. Tony Yongjun Wu joined us as our vice president of information technology in November, 2014. Prior to joining us, Mr. Wu served at Rovi Corporation as vice president of China operations from April 2011 to April 2014, where he was leading the China R&D operations to develop Rovi's entertainment store, professional encoding and authoring, cloud-based metadata and TV guide. From 2006 to 2011, Mr. Wu worked as vice president and general manager of Sonic Solutions Inc. Before that, Mr. Wu served at Xerox Corporation and Fuji Xerox Co., Ltd. from 1998 to 2006, leading the setup of Xerox Shanghai Software Center and Fuji Xerox Executive Printing Innovation Center. Prior to joining Xerox, Mr. Wu worked as marketing manager of Sun Microsystems Inc. from 1996-1998, as technical support lead of Silicon Graphics Inc. from 1992-1996 and as faculty in Shanghai Jiao Tong University from 1989-1992. Mr. Wu received his bachelor's degree in precision instruments and master's degree in computer applications from Shanghai Jiao Tong University.

Employment Agreements

We have entered into employment agreements with each of our executive officers. Under these agreements, each of our executive officers is employed for a three-year period. We may terminate an executive officer's employment for cause, at any time, without notice or remuneration, for certain acts of the officer, including but not limited to serious or persistent breach or non-observance of the employment terms or a conviction of a criminal offense. An executive officer may terminate his/her employment at any time with one-month prior written notice. Furthermore, we may terminate the employment at any time without cause upon advance written notice and certain amount of compensation payment.

Each executive officer has agreed to hold, both during and after the employment agreement expires or is earlier terminated, in strict confidence and not to use, except for our benefit, any confidential information of our company. In addition, the majority of our executive officers have agreed to be bound by non-competition restrictions which are set forth in his or her employment agreement.

Board of Directors

Our board of directors consists of eight directors. A director is not required to hold any shares in our company by way of qualification. A director who is in any way, whether directly or indirectly, interested in a contract or proposed contract with us is required to declare the nature of his interest at a meeting of our directors. A general notice given to the directors by any director to the effect that he is a member, shareholder, director, partner, officer or employee of any specified company or firm and is to be regarded as interested in any contract or transaction with that company or firm shall be deemed a sufficient declaration of interest for the purposes of voting on a resolution in respect to a contract or transaction in which he has an interest, and after such general notice it shall not be necessary to give special notice relating to any particular transaction. A director may vote in respect of any contract or proposed contract or arrangement notwithstanding that he may be interested therein and if he does so his vote shall be counted and he may be counted in the quorum at any meeting of the directors at which any such contract or

Edgar Filing: Baozun Inc. - Form 424B4

proposed contract or arrangement is considered. The directors may exercise all the powers of the company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of the company or of

Table of Contents

any third party. None of our directors has a service contract with us that provides for benefits upon termination of service.

Committee of the Board of Directors

We established three committees under the board of directors: an audit committee, a compensation committee and a nominating and corporate governance committee. We have adopted a charter for each of the three committees. All members of our audit committee shall satisfy the independence requirements of the NASDAQ Stock Market and Rule 10A-3 under the Securities and Exchange Act of 1934 by the end of the one year transition period of companies following an initial public offering. Each committee's members and functions are described below.

Audit Committee. Our audit committee consists of Ms. Bin Yu, Mr. Yiu Pong Chan and Mr. Junhua Wu. Ms. Bin Yu is the chairman of our audit committee. Ms. Bin Yu is the audit committee financial expert. We have determined that Ms. Bin Yu and Mr. Yiu Pong Chan satisfy the independence requirements of the NASDAQ Stock Market and Rule 10A-3 under the Securities Exchange Act of 1934. The audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee will be responsible for, among other things:

selecting our independent registered public accounting firm and pre-approving all auditing and non-auditing services permitted to be performed by our independent registered public accounting firm;

reviewing with the independent registered public accounting firm any audit problems or difficulties and management's response;

reviewing and approving all proposed related-party transactions, as defined in Item 404 of Regulation S-K under the Securities Act;

discussing the annual audited financial statements with management and our independent registered public accounting firm;

annually reviewing and reassessing the adequacy of our audit committee charter;

meeting separately and periodically with management and our independent registered public accounting firms;

reporting regularly to the full board of directors; and

such other matters that are specifically delegated to our audit committee by our board of directors from time to time.

Compensation Committee. Our compensation committee consists of Mr. David McKee Hand, Mr. Yiu Pong Chan and Ms. Bin Yu. Mr. David McKee Hand is the chairman of our compensation committee. We have determined that Mr. Yiu Pong Chan and Ms. Bin Yu satisfy the independence requirements of NASDAQ Stock Market. The compensation committee assists the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our chief executive officer may not be present at any committee meeting during which his compensation is deliberated. The compensation committee is responsible for, among other things:

reviewing and recommending to the board with respect to the total compensation package for our four most senior executives;

approving and overseeing the total compensation package for our executives other than the four most senior executives;

reviewing and making recommendations to the board of directors with respect to the compensation of our directors; and

reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans.

Table of Contents

Nominating and Corporate Governance Committee. Our nominating and corporate governance committee consists of Mr. Vincent Wenbin Qiu, Mr. Yiu Pong Chan and Ms. Bin Yu. Mr. Vincent Wenbin Qiu is the chairperson of our nominating and corporate governance committee. We have determined that Mr. Yiu Pong Chan and Ms. Bin Yu satisfy the independence requirements of the NASDAQ Stock Market. The nominating and corporate governance committee assists the board of directors in selecting individuals qualified to become our directors and in determining the composition of the board and its committees. The nominating and corporate governance committee is responsible for, among other things:

identifying and recommending nominees for election or re-election to our board of directors, or for appointment to fill any vacancy;

reviewing annually with our board of directors its current composition in light of the characteristics of independence, age, skills, experience and availability of service to us;

identifying and recommending to our board the directors to serve as members of committees;

advising the board periodically with respect to significant developments in the law and practice of corporate governance as well as our compliance with applicable laws and regulations, and making recommendations to our board of directors on all matters of corporate governance and on any corrective action to be taken; and

monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

Duties of Directors

Under Cayman Islands law, our directors have a fiduciary duty to act honestly, in good faith and with a view to our best interests. Our directors also have a duty to exercise the skill they actually possess and such care and diligence that a reasonably prudent person would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association as may be amended from time to time. Our company has a right to seek damages against any director who breaches a duty owed to us.

Terms of Directors and Officers

Our officers are elected by and serve at the discretion of the board of directors. Our directors are not subject to a term of office and hold office until their resignation, death or incapacity or until their respective successors have been elected and qualified in accordance with our articles of association. A director will be removed from office automatically if, among other things, the director (i) becomes bankrupt or makes any arrangement or composition with his creditors or (ii) is found to be or becomes of unsound mind.

Compensation of Directors and Executive Officers

Edgar Filing: Baozun Inc. - Form 424B4

In 2014 and the three months ended March 31, 2015, we paid an aggregate of approximately RMB7.5 million (US\$1.2 million) and RMB1.8 million (US\$0.3 million), respectively, in cash to our executive officers, and we did not pay any cash compensation to our non-executive director. For options granted to our executive officers, see [Share Incentive Plans](#).

We have neither set aside nor accrued any amount of cash to provide pension, retirement or other similar benefits to our officers and directors. Our PRC subsidiaries and variable interest entity are required by law to make contributions equal to certain percentages of each employee's salary for his or her retirement benefit, medical insurance benefits, housing funds, unemployment and other statutory benefits.

Share Incentive Plans

The following summarizes, as of the date of this prospectus, options that we granted to our directors and executive officers and to other individuals as a group under our share incentive plans to attract and retain the best available personnel, to provide additional incentives to selected employees, directors, and consultants and to promote the success of our business. After we become an overseas listed company, we and our directors, executive officers and other employees who are PRC residents and who have been granted options will be required to register with SAFE pursuant to applicable PRC laws. See [Risk Factor](#) [Risks Related to Doing](#)

Table of Contents

Business in the People's Republic of China. Any failure to comply with PRC regulations regarding our employee equity incentive plans may subject the PRC plan participants or us to fines and other legal or administrative sanctions.

2014 Share Incentive Plan and 2015 Share Incentive Plan

In January 2010, Shanghai Baozun adopted a share incentive plan, or the Shanghai Baozun Plan, under which Shanghai Baozun granted share-based incentive awards to employees, officers, director and individual consultants of Shanghai Baozun. On May 30, 2014, we adopted our 2014 Share Incentive Plan, or the 2014 Plan, to roll over the options granted under Shanghai Baozun Plan with the same amount, terms and vesting schedule. The maximum number of shares which may be issued pursuant to all awards under the 2014 Plan is 20,331,467. As of the date of this prospectus, the number of shares which may be issued pursuant to all outstanding options under the 2014 Plan is 18,817,423.

On May 5, 2015, we adopted our 2015 Share Incentive Plan, or the 2015 Plan. The maximum number of shares which may be issued pursuant to all awards under the 2015 Plan is 4,400,000 initially. If on December 31, 2015, the unissued shares reserved under the 2015 Plan account for less than 2% of the then total issued and outstanding shares on an as-converted basis, then on January 1, 2016 the number of shares reserved for future issuances under the 2015 Plan shall be increased to 2% of the then total issued and outstanding shares. After the completion of this offering, the shares which may be issued pursuant to the awards under the 2015 Plan shall be Class A ordinary shares. As of the date of this prospectus, we have not granted any awards under the 2015 Share Incentive Plan.

Types of Awards. The 2014 Plan and the 2015 Plan permit the grant of several kinds of awards, including among others, options, restricted shares, restricted share units and share appreciation rights.

Plan Administration. Our board of directors will administer the 2014 Plan and the 2015 Plan, and may delegate its administrative authority to a committee of one or more members of the board or the chief executive officer of the Company, subject to certain restrictions. Among other things, the board of directors will designate the eligible individuals who may receive awards, and determine the types and number of awards to be granted and terms and conditions of each award grant. The administrator of the 2014 Plan and the 2015 Plan has the power and discretion to cancel, forfeit or surrender an outstanding award under the 2014 Plan and the 2015 Plan, respectively.

Award Agreements. Options and other awards granted under the 2014 Plan and the 2015 Plan will be evidenced by a written award agreement that sets forth the material terms and conditions for each grant.

Eligibility. We may grant awards to the employees, consultants rendering bona fide services to us or our affiliated entities designated by our board, as well as our non-employee directors, provided that awards cannot be granted to consultants or non-employee directors who are resident of any country in the European Union, and any other country which pursuant to applicable laws does not allow grants to non-employees.

Term of the Option and Stock Appreciation Rights. The term of each option and stock appreciation rights granted will not exceed ten years, and the board of directors may extend the term subject to certain limitation under relevant applicable regulations.

Edgar Filing: Baozun Inc. - Form 424B4

Acceleration of Awards upon Corporate Transactions. The board of directors may, in its sole discretion, upon or in anticipation of a corporate transaction, accelerate awards, purchase the awards from the holder or replace the awards.

Vesting Schedule. In general, the board of directors determines the vesting schedules.

Amendment and Termination. The board of directors may at any time amend, modify or terminate the 2014 Plan or the 2015 Plan subject to shareholder approval to the extent required by laws. Additionally, shareholder approval will be specifically required to increase the number of shares available under the 2014 Plan and under the 2015 Plan, or to permit the board of directors to extend the term or the exercise period of an option or share appreciation right beyond ten years, or if amendments result in material increases in benefits or a change in eligibility requirements. Any amendment, modification or termination of the 2014 Plan or the 2015 Plan must not

Table of Contents

impair any rights or obligations under awards already granted without consent of the holder of such awards. Unless terminated earlier, the 2014 Plan and the 2015 Plan will expire and no further awards may be granted after the tenth anniversary of the shareholders' approval of the 2014 Plan and the 2015 Plan, respectively.

The following table summarizes, as of the date of this prospectus, options that we granted to our directors and executive officers and to other individuals as a group under our 2014 Plan.

Name	Ordinary Shares		Date of Grant	Date of Expiration
	Underlying Outstanding Options	Exercise Price (US\$/Share)		
Vincent Wenbin Qiu	2,255,801	0.0136	1/30/2010	1/29/2020
			2/1/2012	1/31/2022
			6/28/2013	6/27/2023

Table of Contents**PRINCIPAL SHAREHOLDERS**

The following table sets forth information with respect to the beneficial ownership of our ordinary shares as of the date of this prospectus, as adjusted to reflect the sale of ADSs representing Class A ordinary shares offered by us in this offering, for:

each person known to us to own beneficially more than 5.0% of our ordinary shares; and

each of our directors and executive officers.

The total number of ordinary shares outstanding as of the date of this prospectus is 112,825,312, including ordinary shares issuable upon conversion of all outstanding Series A convertible redeemable preferred shares, Series B convertible redeemable preferred shares, Series C1 convertible redeemable preferred shares, Series C2 convertible redeemable preferred shares and Series D convertible redeemable preferred shares, immediately upon the completion of this offering. The total number of ordinary shares outstanding after the completion of this offering will be 145,825,312, assuming the underwriters do not exercise their over-allotment option, comprising (i) 132,524,574 Class A ordinary shares and (ii) 13,300,738 Class B ordinary shares.

For each person and group included in the following table, percentage of beneficial ownership is calculated by dividing the number of shares beneficially owned by such person or group (which includes ordinary shares underlying share options held by such person or group that are exercisable within 60 days after the date of this prospectus) by the sum of (i) the number of ordinary shares outstanding as of the date of this prospectus and (ii) the number of ordinary shares underlying share options held by such person or group that are exercisable within 60 days after the date of this prospectus.

* Less than 1%

** For each person and group included in this column, percentage of voting power is calculated by dividing the voting power beneficially owned by such person or group by the voting power of all of our Class A and Class B ordinary shares as a single class. Each holder of Class A ordinary shares is entitled to one vote per share and each holder of our Class B ordinary shares is entitled to 10 votes per share on all matters submitted to them for a vote. Our Class A ordinary shares and Class B ordinary shares vote together as a single class on all matters submitted to a vote of our shareholders, except as may otherwise be required by law. Our Class B ordinary shares are convertible at any time by the holder thereof into Class A ordinary shares on a one-for-one basis.

Contractual Arrangements

Foreign ownership of value-added telecommunications businesses requires an operation license for value-added telecommunications business, which we refer to as an ICP license, and is subject to restrictions under current PRC laws and regulations. Due to these restrictions, we operate our relevant business through contractual arrangements between our wholly owned subsidiary, Shanghai Baozun, our VIE, Shanghai Zunyi, and the shareholders of Shanghai Zunyi. For a description of these contractual arrangements, see Corporate History and Structure.

Shareholders Agreement

We entered into an amended and restated shareholders agreement dated as of October 29, 2014, as amended on December 11, 2014, with holders of ordinary shares and convertible redeemable preferred shares. Under the shareholders agreement, holders of our registrable shares are entitled to registration rights, including demand registration rights, Form F-3 registration rights and piggyback registration rights. For a more detailed description of these registration rights, see Description of Share Capital Registration Rights.

The shareholders agreement provides that our board of directors will consist of six directors, composed of (i) one director be appointed by Crescent Castle Holdings Ltd; (ii) one director be appointed by Alibaba Investment Limited; (iii) one director be appointed by Tsubasa Corporation; and (iv) three directors be appointed by Jesvinco Holdings Limited, Casvendino Holdings Limited and PBE Holdings Limited controlled by Mr. Vincent Wenbin Qiu, Mr. Junhua Wu and Mr. Michael Qingyu Zhang, respectively, each of whom shall be entitled to appoint one Director.

Transactions with Alibaba

For official marketplace stores on Tmall operated by us, Tmall provides a wide range of services including platform support, pay-for-performance marketing, display marketing services and logistic services. In 2012, 2013, 2014 and the three months ended March 31, 2015, we paid Alibaba Group service fees of RMB29.6 million, RMB55.9 million, RMB71.8 million (US\$11.6 million) and RMB19.1 million (US \$3.1 million), respectively.

We provide promotion service to Alibaba Group when it implements promotional campaigns in stores on the Tmall platform operated by us. In 2012 and 2013, we generated promotion service fees of RMB37.6 million and RMB12.7 million (US\$2.1 million), respectively, from Alibaba

Edgar Filing: Baozun Inc. - Form 424B4

Group. In 2014 and the three months ended March 31, 2015, we did not generate any promotion service fees from Alibaba Group.

As of March 31, 2015, amounts due from Alibaba Group are RMB10.0 million (US\$1.6 million), representing receivables to be collected from Alibaba Group for deposits paid.

In 2012, we borrowed a loan of RMB12.0 million from Alibaba Group at an interest rate of 10% per annum with no collateral. In 2012 and 2013, we paid interests of RMB0.9 million and RMB0.01 million (US\$2,118), respectively, to Alibaba Group. As of December 31, 2012 and 2013, the total outstanding balance of the loans was RMB12.0 million and nil.

Transactions with Ahead (Shanghai) Trade Co., Ltd

In October 2014, Ahead (Shanghai) Trade Co., Ltd, or Ahead, a subsidiary of Softbank, became our related party when we issued Series D Shares to Tsubasa Corporation, a subsidiary of Softbank. Ahead helps us develop

Table of Contents

our brand e-commerce solutions business in Japan by referring potential Japanese brand partners to us. In return, we pay Ahead, as commission fee, a portion of revenues we derive from brand partners introduced to us by Ahead. In addition, Ahead has engaged us to provide brand e-commerce solutions and services to their own brand clients. In 2014 after it had become one of our related parties and in the three months ended March 31, 2015, we paid commission fees of RMB484,000 (US\$78,077) and RMB344,000 (US\$55,493), respectively, to and received services revenue of RMB622,000 (US\$100,338) and RMB857,000 (US\$138,248), respectively, from Ahead.

As of March 31, 2015, amounts due from Ahead consisted of receivables of RMB1.4 million (US\$0.2 million) to be collected from Ahead for services provided by us and prepayment to Ahead of RMB0.6 million (US\$0.1 million).

Payments on behalf of Automoney

We invested in our affiliate, Automoney, in January 2015. As Automoney is in the process of establishing its operations in the PRC, we have made payments on behalf of Automoney to its business counterparties. As of March 31, 2015, amounts due from Automoney consisted of receivables of RMB3.6 million (US\$0.6 million).

DESCRIPTION OF SHARE CAPITAL

We are a Cayman Islands exempted company with limited liability and our affairs are governed by our memorandum and articles of association, as amended and restated from time to time and the Companies Law of the Cayman Islands, which is referred to as the Companies Law below.

As of the date hereof, our authorized share capital is US\$50,000 consisting of 500,000,000 shares, comprised of (i) 415,359,837 ordinary shares with par value of US\$0.0001 each, of which 28,185,149 shares are issued and outstanding, and 24,731,467 shares are reserved for issuance pursuant to our share incentive plans; and (ii) 19,622,241 authorized Series A convertible redeemable preferred shares with a par value of US\$0.0001 each, all of which are issued and outstanding; (iii) 26,532,203 authorized Series B convertible redeemable preferred shares with a par value of US\$0.0001 each, all of which are issued and outstanding; (iv) 29,056,332 authorized Series C-1 convertible redeemable preferred shares with a par value of US\$0.0001 each, all of which are issued and outstanding; (v) 1,925,063 authorized Series C-2 convertible redeemable preferred shares with a par value of US\$0.0001 each, all of which are issued and outstanding; and (vi) 7,504,324 authorized Series D convertible redeemable preferred shares with a par value of US\$0.0001 each, all of which are issued and outstanding. All of our issued and outstanding convertible redeemable preferred shares will automatically convert into ordinary shares immediately prior to the completion of this offering.

Prior to the completion of this offering, we will conditionally adopt the fourth amended and restated memorandum and articles of association, which will become effective immediately prior to the completion of this offering and replace the current memorandum and articles of association in its entirety and our authorized share capital will be US\$50,000 divided into 500,000,000 shares comprising of 470,000,000 Class A ordinary shares with a par value of US\$0.0001 each and 30,000,000 Class B ordinary shares with a par value of US\$0.0001 each. Simultaneously, 9,410,369 ordinary shares held by Jesvinco Holdings Limited and 3,890,369 ordinary shares held by Casvendino Holdings Limited will be designated as Class B ordinary shares on a one-for-one basis and all of the remaining ordinary shares that are issued and outstanding will be designated as Class A ordinary shares on a one-for-one basis. The following are summaries of material provisions of our proposed fourth amended and restated memorandum and articles of association and the Companies Law insofar as they relate to the material terms of our ordinary shares that we expect will become effective upon the completion of this offering.

Ordinary shares

General. All of our outstanding ordinary shares are fully paid and non-assessable. Certificates representing the ordinary shares are issued in registered form. Our shareholders who are nonresidents of the Cayman Islands may freely hold and vote their shares.

Ordinary Shares. Our ordinary shares are divided into Class A ordinary shares and Class B ordinary shares. Holders of our Class A ordinary shares and Class B ordinary shares will have the same rights except for voting rights and conversion rights.

Conversion. Each Class B ordinary share is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Upon any transfer of Class B ordinary shares by a holder thereof to any person or entity that is not an Affiliate (as defined in the fourth amended and restated memorandum and articles of association) of such holder, such Class B ordinary shares will be automatically and immediately converted into an equal number of Class A ordinary shares.

Dividends. The holders of our ordinary shares are entitled to such dividends as may be declared by our board of directors subject to the Companies Law and to our fourth amended and restated articles of association.

Table of Contents

Voting Rights. Our class A ordinary shares and class B ordinary shares vote together as a single class on all matters submitted to a vote of our shareholders, except as may otherwise be required by law. In respect of matters requiring shareholders' vote, on a poll each Class A ordinary share is entitled to one vote, and each Class B ordinary share is entitled to ten votes. At any general meeting a resolution put to the vote of the meeting shall be decided by a show of hands unless a poll is demanded. A poll may be demanded by the chairman of such meeting or any shareholder present in person or by proxy with a right to attend and vote at the meeting.

A quorum required for a meeting of shareholders consists of at least one or more shareholders present in person or by proxy or, if a corporation or other non-natural person, by its duly authorized representative, who hold in aggregate not less than one-third of the votes attaching to all issued and outstanding shares of our company. An annual general meeting may be held in each year other than the year in which our fourth amended and restated articles of association was adopted. Extraordinary general meetings may be held at such times as may be determined by our board of directors and may be convened by a majority of our board of directors or the chairman of the board on its/his own initiative or upon a request to the directors by shareholders holding in the aggregate not less than ten percent of our voting share capital. Advance notice of at least 10 calendar days is required for the convening of our annual general meeting and other shareholders' meetings.

An ordinary resolution to be passed by the shareholders requires the affirmative vote of a simple majority of the votes attaching to the ordinary shares cast in a general meeting, while a special resolution requires the affirmative vote of no less than two-thirds of the votes attaching to the ordinary shares cast in a general meeting. A special resolution is required for important matters such as a change of name. Holders of the ordinary shares may effect certain changes by ordinary resolution, including increasing the amount of our authorized share capital, consolidating and dividing all or any of our share capital into shares of larger amount than our existing share capital, and cancelling any unissued shares.

Transfer of Shares. Subject to the restrictions of our fourth amended and restated memorandum and articles of association set out below, as applicable, any of our shareholders may transfer all or any of his or her ordinary shares by an instrument of transfer in the usual or ordinary form or any other form approved by our board.

Our board of directors may, in its sole discretion, decline to register any transfer of any ordinary share which is not fully paid up or on which we have a lien. Our directors may also decline to register any transfer of any ordinary share unless (a) the instrument of transfer is lodged with us, accompanied by the certificate for the ordinary shares to which it relates and such other evidence as our board of directors may reasonably require to show the right of the transferor to make the transfer; (b) the instrument of transfer is in respect of only one class of ordinary shares; (c) the instrument of transfer is properly stamped, if required; (d) in the case of a transfer to joint holders, the number of joint holders to whom the ordinary share is to be transferred does not exceed four; (e) the shares concerned are free of any lien in favor of us; or (f) a fee of such maximum sum as the NASDAQ Global Select Market may determine to be payable, or such lesser sum as our board of directors may from time to time require, is paid to us in respect thereof.

If our directors refuse to register a transfer they shall, within two months after the date on which the instrument of transfer was lodged, send to each of the transferor and the transferee notice of such refusal. The registration of transfers may, on notice being given by advertisement in such one or more newspapers or by electronic means, be suspended and the register closed at such times and for such periods as our board of directors may from time to time determine, provided, however, that the registration of transfers shall not be suspended nor the register closed for more than 30 days in any year.

Liquidation. On a return of capital on winding up or otherwise (other than on conversion, redemption or purchase of shares), assets available for distribution among the holders of ordinary shares shall be distributed among the holders of the ordinary shares on a pro rata basis. If our assets available for distribution are insufficient to repay all of the paid-up capital, the assets will be distributed so that the losses are borne by our shareholders proportionately.

Table of Contents

Calls on Shares and Forfeiture of Shares. Our board of directors may from time to time make calls upon shareholders for any amounts unpaid on their shares in a notice served to such shareholders at least 14 clear days prior to the specified time and place of payment. The shares that have been called upon and remain unpaid on the specified time are subject to forfeiture.

Redemption of Shares. Subject to the provisions of the Companies Law, we may issue shares on terms that are subject to redemption, at our option or at the option of the holders, on such terms and in such manner, including out of capital, as may be determined by our board of directors, before the issue of such shares, or by a special resolution of our shareholders.

Variations of Rights of Shares. All or any of the special rights attached to any class of shares may, subject to the provisions of the Companies Law, be varied either with the written consent of the holders of two-thirds of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class.

Inspection of Books and Records. Holders of our ordinary shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we will provide our shareholders with annual audited financial statements. See [Where You Can Find Additional Information](#).

Changes in Capital. Our shareholders may from time to time by ordinary resolution:

increase our share capital by such sum, to be divided into shares of such classes and amount, as the resolution shall prescribe;

consolidate and divide all or any of our share capital into shares of a larger amount than our existing shares;

sub-divide our existing shares, or any of them into shares of a smaller amount; and

cancel any shares that, at the date of the passing of the resolution, have not been taken or agreed to be taken by any person and diminish the amount of our share capital by the amount of the shares so cancelled.

Subject to the Companies Law and our fourth amended and restated memorandum and articles of association with respect to matters to be dealt with by ordinary resolution, we may, by special resolution, reduce our share capital and any capital redemption reserve in any manner authorized by law.

Issuance of Additional Shares. Our fourth amended and restated memorandum and articles of association authorizes our board of directors to issue additional ordinary shares from time to time as our board of directors shall determine, to the extent there are available authorized but unissued shares.

Our fourth amended and restated memorandum and articles of association authorizes our board of directors to establish from time to time one or more series of convertible redeemable preferred shares and to determine, with respect to any series of convertible redeemable preferred shares,

the terms and rights of that series, including:

designation of the series;

the number of shares of the series;

the dividend rights, conversion rights and voting rights; and

the rights and terms of redemption and liquidation preferences.

Table of Contents

The issuance of convertible redeemable preferred shares may be used as an anti-takeover device without further action on the part of the shareholders. Issuance of these shares may dilute the voting power of holders of ordinary shares.

Differences in Corporate Law

The Companies Law is modeled after companies law statutes of England and Wales but does not follow recent statutory enactments in England. In addition, the Companies Law differs from laws applicable to United States corporations and their shareholders. Set forth below is a summary of the significant differences between the provisions of the Companies Law applicable to us and the laws applicable to companies incorporated in the State of Delaware.

Mergers and Similar Arrangements. The Companies Law permits mergers and consolidations between Cayman Islands companies and between Cayman Islands companies and non-Cayman Islands companies. For these purposes, (a) *merger* means the merging of two or more constituent companies and the vesting of their undertaking, property and liabilities in one of such companies as the surviving company and (b) a *consolidation* means the combination of two or more constituent companies into a consolidated company and the vesting of the undertaking, property and liabilities of such companies to the consolidated company. In order to effect such a merger or consolidation, the directors of each constituent company must approve a written plan of merger or consolidation, which must then be authorized by (i) a special resolution of the shareholders of each constituent company and (ii) such other authorization, if any, as may be specified in such constituent company's articles of association. The plan of merger or consolidation must be filed with the Registrar of Companies together with a declaration as to the solvency of the consolidated or surviving company, a list of the assets and liabilities of each constituent company and an undertaking that a copy of the certificate of merger or consolidation will be given to the members and creditors of each constituent company and published in the Cayman Islands Gazette. Dissenting shareholders have the right to be paid the fair value of their shares (which, if not agreed between the parties, will be determined by the Cayman Islands court) if they follow the required procedures, subject to certain exceptions. Court approval is not required for a merger or consolidation effected in compliance with these statutory procedures.

In addition, there are statutory provisions that facilitate the reconstruction and amalgamation of companies, provided that the arrangement is approved by a majority in number of each class of shareholders and creditors with whom the arrangement is to be made, and who must, in addition, represent three-fourths in value of each such class of shareholders or creditors, as the case may be, that are present and voting either in person or by proxy at a meeting, or meetings, convened for that purpose. The convening of the meetings and subsequently the arrangement must be sanctioned by the Grand Court of the Cayman Islands. While a dissenting shareholder has the right to express to the court the view that the transaction ought not to be approved, the court can be expected to approve the arrangement if it determines that:

the statutory provisions as to the required majority vote have been met;

the shareholders have been fairly represented at the meeting in question and the statutory majority are acting bona fide without coercion of the minority to promote interests adverse to those of the class;

the arrangement is such that may be reasonably approved by an intelligent and honest man of that class acting in respect of his interest; and

the arrangement is not one that would more properly be sanctioned under some other provision of the Companies Law.

Edgar Filing: Baozun Inc. - Form 424B4

When a take-over offer is made and accepted by holders of 90.0% of the shares affected (within four months after they marking the offer), the offeror may, within a two-month period commencing on the expiration of such four months period, require the holders of the remaining shares to transfer such shares on the terms of the offer. An objection can be made to the Grand Court of the Cayman Islands but this is unlikely to succeed in the case of an offer which has been so approved unless there is evidence of fraud, bad faith or collusion.

Table of Contents

If an arrangement and reconstruction is thus approved, the dissenting shareholder would have no rights comparable to appraisal rights, which would otherwise ordinarily be available to dissenting shareholders of Delaware corporations, providing rights to receive payment in cash for the judicially determined value of the shares.

Shareholders' Suits. In principle, we will normally be the proper plaintiff and as a general rule a derivative action may not be brought by a minority shareholder. However, based on English authorities, which would in all likelihood be of persuasive authority in the Cayman Islands, the Cayman Islands courts can be expected to apply and follow common law principles that permit a minority shareholder to commence a class action against the company or a derivative action in the name of the company to challenge certain acts, including the following:

a company acts or proposes to act illegally or ultra vires;

the act complained of, although not ultra vires, could only be effected duly if authorized by more than a simple majority vote that has not been obtained; and

those who control the company are perpetrating a fraud on the minority.

Indemnification of Directors and Executive Officers and Limitation of Liability. Cayman Islands law does not limit the extent to which a company's memorandum and articles of association may provide for indemnification of officers and directors, except to the extent any such provision may be held by the Cayman Islands courts to be contrary to public policy, such as to provide indemnification against civil fraud or the consequences of committing a crime.

Our fourth amended and restated memorandum and articles of association permit indemnification of officers and directors for losses, damages costs and expenses incurred in their capacities as such unless such losses or damages arise from dishonesty, fraud or willful default of such directors or officers. This standard of conduct is generally the same as permitted under the Delaware General Corporation Law for a Delaware corporation. In addition, we have entered into indemnification agreements with our directors and senior executive officers that will provide such persons with additional indemnification beyond that provided in our fourth amended and restated memorandum and articles of association.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers or persons controlling us under the foregoing provisions, we have been informed that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Directors' Fiduciary Duties. Under Delaware corporate law, a director of a Delaware corporation has a fiduciary duty to the corporation and its shareholders. This duty has two components: the duty of care and the duty of loyalty. The duty of care requires that a director act in good faith, with the care that an ordinarily prudent person would exercise under similar circumstances. Under this duty, a director must inform himself of, and disclose to shareholders, all material information reasonably available regarding a significant transaction. The duty of loyalty requires that a director act in a manner he or she reasonably believes to be in the best interests of the corporation. He or she must not use his or her corporate position for personal gain or advantage. This duty prohibits self-dealing by a director and mandates that the best interest of the corporation and its shareholders take precedence over any interest possessed by a director, officer or controlling shareholder and not shared by the shareholders generally. In general, actions of a director are presumed to have been made on an informed basis, in good faith and in the honest belief that the action taken was in the best interests of the corporation. However, this presumption may be rebutted by evidence of a breach of one of the fiduciary duties. Should such evidence be presented concerning a transaction by a director, a director must prove the procedural fairness of the transaction, and that the transaction was of fair value to the corporation.

Edgar Filing: Baozun Inc. - Form 424B4

As a matter of Cayman Islands law, a director of a Cayman Islands company is in the position of a fiduciary with respect to the company and therefore it is considered that he owes the following duties to the company a duty to act bona fide in the best interests of the company, a duty not to make a profit based on his or her position

Table of Contents

as director (unless the company permits him to do so) and a duty not to put himself in a position where the interests of the company conflict with his or her personal interest or his or her duty to a third party. A director of a Cayman Islands company owes to the company a duty to act with skill and care. It was previously considered that a director need not exhibit in the performance of his or her duties a greater degree of skill than may reasonably be expected from a person of his or her knowledge and experience. However, English and Commonwealth courts have moved towards an objective standard with regard to the required skill and care and these authorities are likely to be followed in the Cayman Islands.

Shareholder Action by Written Consent. Under the Delaware General Corporation Law, a corporation may eliminate the right of shareholders to act by written consent by amendment to its certificate of incorporation. Cayman Islands law and our fourth amended and restated articles of association provide that shareholders may approve corporate matters by way of a unanimous written resolution signed by or on behalf of each shareholder who would have been entitled to vote on such matter at a general meeting without a meeting being held.

Shareholder Proposals. Under the Delaware General Corporation Law, a shareholder has the right to put any proposal before the annual meeting of shareholders, provided it complies with the notice provisions in the governing documents. A special meeting may be called by the board of directors or any other person authorized to do so in the governing documents, but shareholders may be precluded from calling special meetings.

Cayman Islands law provides shareholders with only limited rights to requisition a general meeting, and does not provide shareholders with any right to put any proposal before a general meeting. However, these rights may be provided in a company's articles of association. Our fourth amended and restated articles allow our shareholders holding in the aggregate not less than one-third of the aggregate number of votes attaching to all issued and outstanding shares of our company to requisition an extraordinary meeting of the shareholders, in which case the directors are obliged to call such meeting and to put the resolutions so requisitioned to a vote at such meeting; however, our articles do not provide our shareholders with any right to put any proposals before annual general meetings or extraordinary general meetings not called by such shareholders.

As an exempted Cayman Islands company, we are not obliged by law to call shareholders' annual general meetings. Our fourth amended and restated articles of association provides that we may in each year to hold a general meeting as our annual general meeting, and to specify the meeting as such in the notice calling it.

Cumulative Voting. Under the Delaware General Corporation Law, cumulative voting for elections of directors is not permitted unless the corporation's certificate of incorporation specifically provides for it. Cumulative voting potentially facilitates the representation of minority shareholders on a board of directors since it permits the minority shareholder to cast all the votes to which the shareholder is entitled on a single director, which increases the shareholder's voting power with respect to electing such director. There are no prohibitions in relation to cumulative voting under Cayman Islands law, but our fourth amended and restated articles of association do not provide for cumulative voting. As a result, our shareholders are not afforded any less protections or rights on this issue than shareholders of a Delaware corporation.

Removal of Directors. Under the Delaware General Corporation Law, a director of a corporation with a classified board may be removed only for cause with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under our fourth amended and restated articles of association, directors may be removed by ordinary resolution.

Transactions with Interested Shareholders. The Delaware General Corporation Law contains a business combination statute applicable to Delaware corporations whereby, unless the corporation has specifically elected not to be governed by such statute by amendment to its certificate of incorporation, it is prohibited from engaging in certain business combinations with an interested shareholder for three years following the date that such person becomes an interested shareholder. An interested shareholder generally is a person or a group who or which

Edgar Filing: Baozun Inc. - Form 424B4

owns or owned 15% or more of the target's outstanding voting stock within the past three years. This has

Table of Contents

the effect of limiting the ability of a potential acquirer to make a two-tiered bid for the target in which all shareholders would not be treated equally. The statute does not apply if, among other things, prior to the date on which such shareholder becomes an interested shareholder, the board of directors approves either the business combination or the transaction which resulted in the person becoming an interested shareholder. This encourages any potential acquirer of a Delaware corporation to negotiate the terms of any acquisition transaction with the target's board of directors.

Cayman Islands law has no comparable statute. As a result, we cannot avail ourselves of the types of protections afforded by the Delaware business combination statute. However, although Cayman Islands law does not regulate transactions between a company and its significant shareholders, it does provide that such transactions must be entered into bona fide in the best interests of the company for a proper corporate purpose and not with the effect of constituting a fraud on the minority shareholders.

Dissolution; Winding up. Under the Delaware General Corporation Law, unless the board of directors approves the proposal to dissolve, dissolution must be approved by shareholders holding 100% of the total voting power of the corporation. Only if the dissolution is initiated by the board of directors may it be approved by a simple majority of the corporation's outstanding shares. Delaware law allows a Delaware corporation to include in its certificate of incorporation a supermajority voting requirement in connection with dissolutions initiated by the board. Under Cayman Islands law, a company may be wound up by either an order of the courts of the Cayman Islands or by a special resolution of its members or, if the company is unable to pay its debts as they fall due, by an ordinary resolution of its members. The court has authority to order winding up in a number of specified circumstances including where it is, in the opinion of the court, just and equitable to do so.

Under the Companies Law of the Cayman Islands, our company may be dissolved, liquidated or wound up voluntarily by a special resolution, or by an ordinary resolution on the basis that we are unable to pay our debts as they fall due.

Variation of Rights of Shares. Under the Delaware General Corporation Law, a corporation may vary the rights of a class of shares with the approval of a majority of the outstanding shares of such class, unless the certificate of incorporation provides otherwise. Under our fourth amended and restated articles of association, and as permitted by Cayman Islands law, if our share capital is divided into more than one class of shares, we may vary the rights attached to any class either with the written consent of the holders of two-thirds of the issued shares of that class or with the sanction of a special resolution passed at a general meeting of the holders of the shares of that class.

Amendment of Governing Documents. Under the Delaware General Corporation Law, a corporation's governing documents may be amended with the approval of a majority of the outstanding shares entitled to vote, unless the certificate of incorporation provides otherwise. Under Cayman Islands law, our fourth amended and restated memorandum and articles of association may only be amended by special resolution.

Inspection of Books and Records. Under the Delaware General Corporation Law, any shareholder of a corporation may for any proper purpose inspect or make copies of the corporation's stock ledger, list of shareholders and other books and records.

Holders of our shares will have no general right under Cayman Islands law to inspect or obtain copies of our list of shareholders or our corporate records. However, we intend to provide our shareholders with annual reports containing audited financial statements.

Anti-takeover Provisions in Our Memorandum and Articles of Association. Some provisions of our fourth amended and restated memorandum and articles of association may discourage, delay or prevent a change of control of our company or management that shareholders may consider

Edgar Filing: Baozun Inc. - Form 424B4

favorable, including a provision that authorizes our board of directors to issue preference shares in one or more series and to designate the price, rights, preferences, privileges and restrictions of such preference shares without any further vote or action by our shareholders.

Table of Contents

Such shares could be issued quickly with terms calculated to delay or prevent a change in control of our company or make removal of management more difficult. If our board of directors decides to issue these preference shares, the price of our ADSs may fall and the voting and other rights of the holders of our ordinary shares and ADSs may be materially and adversely affected.

However, under Cayman Islands law, our directors may only exercise the rights and powers granted to them under our fourth amended and restated memorandum and articles of association for a proper purpose and for what they believe in good faith to be in the best interests of our company.

Rights of Non-resident or Foreign Shareholders. There are no limitations imposed by our fourth amended and restated memorandum and articles of association on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our shares. In addition, there are no provisions in our fourth amended and restated memorandum and articles of association governing the ownership threshold above which shareholder ownership must be disclosed.

History of Securities Issuances

The following is a summary of our securities issuances since our inception.

Ordinary Shares

On December 17, 2013, we issued one ordinary share to NovaSage Nominees (Cayman) Limited for nominal consideration, which was transferred to Jesvinco Holdings Limited.

On the same day, we issued 10,037,999 ordinary shares to Jesvinco Holdings Limited, 4,518,000 ordinary shares to Casvendino Holdings Limited, 3,909,700 ordinary shares to Shiyun Holdings Limited, 1,014,710 ordinary shares to Fun Team Holdings Limited, 5,622,000 ordinary shares to PBE Holdings Limited, and 2,956,410 ordinary shares to Erry Holdings Limited, respectively, at par value of US\$0.0001 per share.

Convertible Redeemable Preferred Shares

In December 2009 and August 2010, Hangzhou Ali Venture Investment Limited, or Hangzhou Ali, acquired a total of 39.56% of equity interests with preferential rights of Shanghai Baozun for a total consideration of RMB32.7 million (US\$5.3 million).

In January and June 2011, Crescent Internet and E-Commerce Investments, Limited, or Crescent Investments, and New Access Capital Fund I, or New Access I, together acquired a total of 27.55% of equity interests in Shanghai Baozun with preferential rights for an aggregate consideration of RMB119.1 million (US\$19.4 million). In January 2011, Hangzhou Ali further acquired a total of 7.29% of equity interest with preferential rights in Shanghai Baozun for an aggregate consideration of RMB12.9 million (US\$2.1 million).

In September 2012, Hangzhou Ali, Crescent Investments, New Access I, Private Opportunities (Mauritius) I Limited, or GSPO, GS Investment Partners (Mauritius) I Limited or GSIP, Crescent Investments, Stelca Investments Limited, New Access Capital Fund II, or New Access II, and Infinity I-China Investments (Israel) L.P., or Infinity, acquired a total of 27.62% of equity interests in Shanghai Baozun with preferential rights for an aggregate consideration of RMB266.2 million (US\$43.4 million).

Upon our reorganization in July 2014, the equity interests in Shanghai Baozun acquired by our then investors were cancelled in exchange for 19,622,241 Series A convertible redeemable preferred shares, or Series A Shares, 26,532,203 Series B convertible redeemable preferred shares, or Series B Shares, and 29,056,332 Series C1 convertible redeemable preferred shares, or Series C1 Shares, of our Company.

Table of Contents

In August 2014, the Company repurchased 1,925,063 ordinary shares from the Founding Shareholders at a total consideration of RMB21.0 million (US\$3.4 million). At the same time, the Company issued 1,925,063 Series C2 convertible redeemable preferred shares, or Series C2 Shares, at a total consideration of RMB21.0 million (US\$3.4 million) to several Series C1 investors.

On October 29, 2014, we issued to Tsubasa Corporation 7,504,324 Series D convertible redeemable preferred shares, or Series D Shares, for an aggregated consideration of US\$23.9 million.

Each holder of convertible redeemable preferred shares shall have the right, at such holder's sole discretion, to convert all or any portion of convertible redeemable preferred shares into ordinary shares at any time. The initial conversion price is the issuance price of convertible redeemable preferred shares, subject to adjustment in the event of (i) stock splits, share combinations, share dividends and distribution, recapitalizations and similar events, and (ii) issuance of new securities at a price per share less than the conversion price in effect on the date of or immediately prior to such issuance. In that case, the conversion price shall be reduced concurrently to the subscription price of such issuance.

The convertible redeemable preferred shares will be automatically converted into ordinary shares at the then applicable conversion price upon the earlier of (1) the closing of a qualified initial public offering, or (2) with respect to any series of convertible redeemable preferred shares, the date specified by written consent or agreement of majority holders of such series of convertible redeemable preferred shares (except, with respect to Series C Shares, 65% of such Series C Shares). Pursuant to written consent adopted by all our shareholders, upon the completion of this offering, all of our convertible redeemable preferred shares will automatically convert into 84,640,163 ordinary shares.

Share Options, RSUs, Restricted Shares and Other Rights Granted

We have reserved options covering an aggregate of 20,331,467 ordinary shares for share-based incentive awards to certain directors, employees, consultants and other grantees, including certain employees of our related companies or affiliates under our 2014 Plan. As of the date of this prospectus, the number of shares which may be issued pursuant to all outstanding options under the 2014 Plan is 18,817,423.

The maximum number of shares which may be issued pursuant to all awards under the 2015 Plan is 4,400,000 initially. If on December 31, 2015, the unissued shares reserved under the 2015 Plan account for less than 2% of the then total issued and outstanding shares on an as-converted basis, then on January 1, 2016 the number of shares reserved for future issuances under the 2015 Plan shall be increased to 2% of the then total issued and outstanding shares. After the completion of this offering, the shares which may be issued pursuant to the awards under the 2015 Plan shall be Class A ordinary shares. As of the date of this prospectus, we have not granted any awards under the 2015 Share Incentive Plan.

Registration Rights

Pursuant to our amended and restated shareholders' agreement entered into on October 29, 2014, we granted certain registration rights to holders of our registrable securities, which include our ordinary shares issued or to be issued upon conversion of our convertible redeemable preferred shares, ordinary shares issued or issuable as a dividend or other distribution therefor. Set forth below is a description of the registration rights granted under the agreement.

Edgar Filing: Baozun Inc. - Form 424B4

Demand Registration Rights. Holders of at least 10% of registrable securities then outstanding have the right to demand in writing, at any time after six months following the completion of this initial public offering that we file a registration statement to register their registrable securities. We have the right to defer filing of a registration statement for up to 90 days if our board of directors determines in good faith that filing of a registration will be materially detrimental to us and our shareholders, but we cannot exercise the deferral right more than once in any twelve month period and cannot register any other shares during such 90 days period. Further, the underwriters of any underwritten offering may reduce up to 70% of shares having registration rights to be included in the registration statement if they determine that marketing factors require such a limitation.

Table of Contents

Form S-3 or Form F-3 Registration Rights. Holders of our registrable securities have the right to request that we file a registration statement on Form F-3 or Form S-3. We have the right to defer filing of a registration statement on Form F-3 or Form S-3 for up to 90 days if our board of directors determines in good faith that filing of a registration will be materially detrimental to us and our shareholders, but we cannot exercise the deferral right more than once in any twelve month period and cannot register any other shares during such 90 days period. Further, the underwriters of any underwritten offering may reduce up to 70% of shares having registration rights to be included in the registration statement if they determine that marketing factors require such a limitation.

Piggyback Registration Rights. If we propose to file a registration statement for a public offering of our securities other than pursuant to a demand registration right or an S-3 or F-3 registration statement, then we must offer holders of registrable securities an opportunity to include in this registration all or any part of their registrable securities.

Expenses of Registration. All registration expenses incurred in connection with any demand, piggyback or F-3 or S-3 registration, other than any underwriting discounts and selling commissions applicable to the sale of registrable securities pursuant to this agreement, will be borne by us.

Table of Contents

DESCRIPTION OF AMERICAN DEPOSITARY SHARES

American Depositary Receipts

JPMorgan Chase Bank, N.A., as depositary will issue the ADSs which you will be entitled to receive in this offering. Each ADS will represent an ownership interest in a designated number of Class A ordinary shares which we will deposit with the custodian, as agent of the depositary, under the deposit agreement among ourselves, the depositary and yourself as an ADR holder. In the future, each ADS will also represent any securities, cash or other property deposited with the depositary but which they have not distributed directly to you. Unless certificated ADRs are specifically requested by you, all ADSs will be issued on the books of our depositary in book-entry form and periodic statements will be mailed to you which reflect your ownership interest in such ADSs. In our description, references to American depositary receipts or ADRs shall include the statements you will receive which reflect your ownership of ADSs.

The depositary's office is located at 4 New York Plaza, Floor 12, New York, NY, 10004.

You may hold ADSs either directly or indirectly through your broker or other financial institution. If you hold ADSs directly, by having an ADS registered in your name on the books of the depositary, you are an ADR holder. This description assumes you hold your ADSs directly. If you hold the ADSs through your broker or financial institution nominee, you must rely on the procedures of such broker or financial institution to assert the rights of an ADR holder described in this section. You should consult with your broker or financial institution to find out what those procedures are.

As an ADR holder, we will not treat you as a shareholder of ours and you will not have any shareholder rights. Cayman Island law governs shareholder rights. Because the depositary or its nominee will be the shareholder of record for the shares represented by all outstanding ADSs, shareholder rights rest with such record holder. Your rights are those of an ADR holder. Such rights derive from the terms of the deposit agreement to be entered into among us, the depositary and all registered holders from time to time of ADSs issued under the deposit agreement. The obligations of the depositary and its agents are also set out in the deposit agreement. Because the depositary or its nominee will actually be the registered owner of the shares, you must rely on it to exercise the rights of a shareholder on your behalf. The deposit agreement and the ADSs are governed by New York law. Under the deposit agreement, as an ADR holder, you agree that any legal suit, action or proceeding against or involving us or the depositary, arising out of or based upon the deposit agreement or transactions contemplated thereby, may only be instituted in a state or federal court in New York, New York, and you irrevocably waive any objection which you may have to the laying of venue of any such proceeding and irrevocably submit to the exclusive jurisdiction of such courts in any such suit, action or proceeding.

The following is a summary of what we believe to be the material terms of the deposit agreement. Notwithstanding this, because it is a summary, it may not contain all the information that you may otherwise deem important. For more complete information, you should read the entire deposit agreement and the form of ADR which contains the terms of your ADSs. You can read a copy of the deposit agreement which is filed as an exhibit to the registration statement of which this prospectus forms a part. You may also obtain a copy of the deposit agreement at the SEC's Public Reference Room which is located at 100 F Street, NE, Washington, DC 20549. You may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-732-0330. You may also find the registration statement and the attached deposit agreement on the SEC's website at <http://www.sec.gov>.

Share Dividends and Other Distributions

How will I receive dividends and other distributions on the shares underlying my ADSs?

We may make various types of distributions with respect to our securities. The depositary has agreed that, to the extent practicable, it will pay to you the cash dividends or other distributions it or the custodian receives on

Table of Contents

shares or other deposited securities, after converting any cash received into U.S. dollars (if it determines such conversion may be made on a reasonable basis) and, in all cases, making any necessary deductions provided for in the deposit agreement. The depositary may utilize a division, branch or affiliate of JPMorgan Chase Bank, N.A. to direct, manage and/or execute any public and/or private sale of securities under the deposit agreement. Such division, branch and/or affiliate may charge the depositary a fee in connection with such sales, which fee is considered an expense of the depositary. You will receive these distributions in proportion to the number of underlying securities that your ADSs represent.

Except as stated below, the depositary will deliver such distributions to ADR holders in proportion to their interests in the following manner:

Cash. The depositary will distribute any U.S. dollars available to it resulting from a cash dividend or other cash distribution or the net proceeds of sales of any other distribution or portion thereof (to the extent applicable), on an averaged or other practicable basis, subject to (i) appropriate adjustments for taxes withheld, (ii) such distribution being impermissible or impracticable with respect to certain registered ADR holders, and (iii) deduction of the depositary's and/or its agents' expenses in (1) converting any foreign currency to U.S. dollars to the extent that it determines that such conversion may be made on a reasonable basis, (2) transferring foreign currency or U.S. dollars to the United States by such means as the depositary may determine to the extent that it determines that such transfer may be made on a reasonable basis, (3) obtaining any approval or license of any governmental authority required for such conversion or transfer, which is obtainable at a reasonable cost and within a reasonable time and (4) making any sale by public or private means in any commercially reasonable manner. *If exchange rates fluctuate during a time when the depositary cannot convert a foreign currency, you may lose some or all of the value of the distribution.*

Shares. In the case of a distribution in shares, the depositary will issue additional ADRs to evidence the number of ADSs representing such shares. Only whole ADSs will be issued. Any shares which would result in fractional ADSs will be sold and the net proceeds will be distributed in the same manner as cash to the ADR holders entitled thereto.

Rights to receive additional shares. In the case of a distribution of rights to subscribe for additional shares or other rights, if we timely provide evidence satisfactory to the depositary that it may lawfully distribute such rights, the depositary will distribute warrants or other instruments in the discretion of the depositary representing such rights. However, if we do not timely furnish such evidence, the depositary may:

sell such rights if practicable and distribute the net proceeds in the same manner as cash to the ADR holders entitled thereto;
or

if it is not practicable to sell such rights by reason of the non-transferability of the rights, limited markets therefor, their short duration or otherwise, do nothing and allow such rights to lapse, in which case ADR holders will receive nothing and the rights may lapse.

We have no obligation to file a registration statement under the Securities Act in order to make any rights available to ADR holders.

Other Distributions. In the case of a distribution of securities or property other than those described above, the depositary may either (i) distribute such securities or property in any manner it deems equitable and practicable or (ii) to the extent the depositary deems distribution of such securities or property not to be equitable and practicable, sell such securities or property and distribute any net proceeds in the same way it distributes cash.

Elective Distributions. In the case of a dividend payable at the election of our shareholders in cash or in additional shares, we will notify the depositary at least 30 days prior to the proposed distribution

Table of Contents

stating whether or not we wish such elective distribution to be made available to ADR holders. The depositary shall make such elective distribution available to ADR holders only if (i) we shall have timely requested that the elective distribution is available to ADR holders, (ii) the depositary shall have determined that such distribution is reasonably practicable and (iii) the depositary shall have received satisfactory documentation within the terms of the deposit agreement including any legal opinions of counsel that the depositary in its reasonable discretion may request. If the above conditions are not satisfied, the depositary shall, to the extent permitted by law, distribute to the ADR holders, on the basis of the same determination as is made in the local market in respect of the shares for which no election is made, either (x) cash or (y) additional ADSs representing such additional shares. If the above conditions are satisfied, the depositary shall establish procedures to enable ADR holders to elect the receipt of the proposed dividend in cash or in additional ADSs. There can be no assurance that ADR holders generally, or any ADR holder in particular, will be given the opportunity to receive elective distributions on the same terms and conditions as the holders of shares.

If the depositary determines in its discretion that any distribution described above is not practicable with respect to any specific registered ADR holder, the depositary may choose any method of distribution that it deems practicable for such ADR holder, including the distribution of foreign currency, securities or property, or it may retain such items, without paying interest on or investing them, on behalf of the ADR holder as deposited securities, in which case the ADSs will also represent the retained items.

Any U.S. dollars will be distributed by checks drawn on a bank in the United States for whole dollars and cents. Fractional cents will be withheld without liability and dealt with by the depositary in accordance with its then current practices.

The depositary is not responsible if it decides that it is unlawful or not reasonably practicable to make a distribution available to any ADR holders.

There can be no assurance that the depositary will be able to convert any currency at a specified exchange rate or sell any property, rights, shares or other securities at a specified price, nor that any of such transactions can be completed within a specified time period. All purchases and sales of securities will be handled by the Depositary in accordance with its then current policies, which are currently set forth in the

Depositary Receipt Sale and Purchase of Security section of <https://www.adr.com/Investors/FindOutAboutDRs>, the location and contents of which the Depositary shall be solely responsible for.

Deposit, Withdrawal and Cancellation

How does the depositary issue ADSs?

The depositary will issue ADSs if you or your broker deposit shares or evidence of rights to receive shares with the custodian and pay the fees and expenses owing to the depositary in connection with such issuance. In the case of the ADSs to be issued under this prospectus, we will arrange with the underwriters named herein to deposit such shares.

Shares deposited in the future with the custodian must be accompanied by certain delivery documentation and shall, at the time of such deposit, be registered in the name of JPMorgan Chase Bank, N.A., as depositary for the benefit of holders of ADRs or in such other name as the depositary shall direct.

Edgar Filing: Baozun Inc. - Form 424B4

The custodian will hold all deposited shares (including those being deposited by or on our behalf in connection with the offering to which this prospectus relates) for the account of the depositary. ADR holders thus have no direct ownership interest in the shares and only have such rights as are contained in the deposit agreement. The custodian will also hold any additional securities, property and cash received on or in substitution for the deposited shares. The deposited shares and any such additional items are referred to as deposited securities .

Table of Contents

Upon each deposit of shares, receipt of related delivery documentation and compliance with the other provisions of the deposit agreement, including the payment of the fees and charges of the depositary and any taxes or other fees or charges owing, the depositary will issue an ADR or ADRs in the name or upon the order of the person entitled thereto evidencing the number of ADSs to which such person is entitled. All of the ADSs issued will, unless specifically requested to the contrary, be part of the depositary's direct registration system, and a registered holder will receive periodic statements from the depositary which will show the number of ADSs registered in such holder's name. An ADR holder can request that the ADSs not be held through the depositary's direct registration system and that a certificated ADR be issued.

How do ADR holders cancel an ADS and obtain deposited securities?

When you turn in your ADR certificate at the depositary's office, or when you provide proper instructions and documentation in the case of direct registration ADSs, the depositary will, upon payment of certain applicable fees, charges and taxes, deliver the underlying shares to you or upon your written order. Delivery of deposited securities in certificated form will be made at the custodian's office. At your risk, expense and request, the depositary may deliver deposited securities at such other place as you may request.

The depositary may only restrict the withdrawal of deposited securities in connection with:

temporary delays caused by closing our transfer books or those of the depositary or the deposit of shares in connection with voting at a shareholders' meeting, or the payment of dividends;

the payment of fees, taxes and similar charges; or

compliance with any U.S. or foreign laws or governmental regulations relating to the ADRs or to the withdrawal of deposited securities.

This right of withdrawal may not be limited by any other provision of the deposit agreement.

Record Dates

The depositary may, after consultation with us if practicable, fix record dates for the determination of the registered ADR holders who will be entitled (or obligated, as the case may be):

to receive any distribution on or in respect of shares,

to give instructions for the exercise of voting rights at a meeting of holders of shares, or

to pay the fee assessed by the depositary for administration of the ADR program and for any expenses as provided for in the ADR,

to receive any notice or to act in respect of other matters

all subject to the provisions of the deposit agreement.

Voting Rights

How do I vote?

If you are an ADR holder and the depositary asks you to provide it with voting instructions, you may instruct the depositary how to exercise the voting rights for the shares which underlie your ADSs. As soon as practicable after receiving notice of any meeting or solicitation of consents or proxies from us, the depositary will distribute to the registered ADR holders a notice stating such information as is contained in the voting materials received by the depositary and describing how you may instruct the depositary to exercise the voting rights for the shares which underlie your ADSs, including instructions for giving a discretionary proxy to a person designated by us. For instructions to be valid, the depositary must receive them in the manner and on or before

Table of Contents

the date specified. The depositary will try, as far as is practical, subject to the provisions of and governing the underlying shares or other deposited securities, to vote or to have its agents vote the shares or other deposited securities as you instruct. The Depositary will only exercise or attempt to exercise your voting rights, if any, according to your instructions, including instructions to give a discretionary proxy to a person designated by us. Holders are strongly encouraged to forward their voting instructions to the depositary as soon as possible. Voting instructions will not be deemed to be received until such time as the ADR department responsible for proxies and voting has received such instructions notwithstanding that such instructions may have been physically received by the depositary prior to such time. The depositary will not itself exercise any voting discretion. Furthermore, neither the depositary nor its agents are responsible for any failure to carry out any voting instructions, for the manner in which any vote is cast or for the effect of any vote. Notwithstanding anything contained in the deposit agreement or any ADR, the depositary may, to the extent not prohibited by law or regulations, or by the requirements of the stock exchange on which the ADSs are listed, in lieu of distribution of the materials provided to the depositary in connection with any meeting of, or solicitation of consents or proxies from, holders of deposited securities, distribute to the registered holders of ADRs a notice that provides such holders with, or otherwise publicizes to such holders, instructions on how to retrieve such materials or receive such materials upon request (*i.e.*, by reference to a website containing the materials for retrieval or a contact for requesting copies of the materials).

We have advised the depositary that under the Cayman Islands law and our constituent documents, each as in effect as of the date of the deposit agreement, voting at any meeting of shareholders is by show of hands unless a poll is (before or on the declaration of the results of the show of hands) demanded. In the event that voting on any resolution or matter is conducted on a show of hands basis in accordance with our constituent documents, the depositary will refrain from voting and the voting instructions (or the deemed voting instructions, as set out above) received by the depositary from holders shall lapse. The depositary will not demand a poll or join in demanding a poll, whether or not requested to do so by holders of ADSs. There is no guarantee that you will receive voting materials in time to instruct the depositary to vote and it is possible that you, or persons who hold their ADSs through brokers, dealers or other third parties, will not have the opportunity to exercise a right to vote.

Reports and Other Communications

Will ADR holders be able to view our reports?

The depositary will make available for inspection by ADR holders at the offices of the depositary and the custodian the deposit agreement, the provisions of or governing deposited securities, and any written communications from us which are both received by the custodian or its nominee as a holder of deposited securities and made generally available to the holders of deposited securities.

Additionally, if we make any written communications generally available to holders of our shares, and we furnish copies thereof (or English translations or summaries) to the depositary, it will distribute the same to registered ADR holders.

Fees and Expenses

What fees and expenses will I be responsible for paying?

The depositary may charge each person to whom ADSs are issued, including, without limitation, issuances against deposits of shares, issuances in respect of share distributions, rights and other distributions, issuances pursuant to a stock dividend or stock split declared by us or issuances pursuant to a merger, exchange of securities or any other transaction or event affecting the ADSs or deposited securities, and each person

Edgar Filing: Baozun Inc. - Form 424B4

surrendering ADSs for withdrawal of deposited securities or whose ADRs are cancelled or reduced for any other reason, US\$5.00 for each 100 ADSs (or any portion thereof) issued, delivered, reduced, cancelled or surrendered, as the case may be. The depositary may sell (by public or private sale) sufficient securities and property received in respect of a share distribution, rights and/or other distribution prior to such deposit to pay such charge.

Table of Contents

The following additional charges shall be incurred by the ADR holders, by any party depositing or withdrawing shares or by any party surrendering ADSs and/or to whom ADSs are issued (including, without limitation, issuance pursuant to a stock dividend or stock split declared by us or an exchange of stock regarding the ADSs or the deposited securities or a distribution of ADSs), whichever is applicable:

a fee of US\$1.50 per ADR or ADRs for transfers of certificated or direct registration ADRs;

a fee of up to US\$0.05 per ADS for any cash distribution made pursuant to the deposit agreement;

a fee of up to US\$0.05 per ADS per calendar year (or portion thereof) for services performed by the depositary in administering the ADRs (which fee may be charged on a periodic basis during each calendar year and shall be assessed against holders of ADRs as of the record date or record dates set by the depositary during each calendar year and shall be payable in the manner described in the next succeeding provision);

a fee for the reimbursement of such fees, charges and expenses as are incurred by the depositary and/or any of its agents (including, without limitation, the custodian and expenses incurred on behalf of holders in connection with compliance with foreign exchange control regulations or any law or regulation relating to foreign investment) in connection with the servicing of the shares or other deposited securities, the sale of securities (including, without limitation, deposited securities), the delivery of deposited securities or otherwise in connection with the depositary's or its custodian's compliance with applicable law, rule or regulation (which fees and charges shall be assessed on a proportionate basis against holders as of the record date or dates set by the depositary and shall be payable at the sole discretion of the depositary by billing such holders or by deducting such charge from one or more cash dividends or other cash distributions);

a fee for the distribution of securities (or the sale of securities in connection with a distribution), such fee being in an amount equal to the US\$0.05 per ADS issuance fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities (treating all such securities as if they were shares) but which securities or the net cash proceeds from the sale thereof are instead distributed by the depositary to those holders entitled thereto;

stock transfer or other taxes and other governmental charges;

cable, telex and facsimile transmission and delivery charges incurred at your request in connection with the deposit or delivery of shares;

transfer or registration fees for the registration of transfer of deposited securities on any applicable register in connection with the deposit or withdrawal of deposited securities;

in connection with the conversion of foreign currency into U.S. dollars, JPMorgan Chase Bank, N.A. ("JPMorgan") shall deduct out of such foreign currency the fees, expenses and other charges charged by it and/or its agent (which may be a division, branch or affiliate) so appointed in connection with such conversion; and

fees of any division, branch or affiliate of the depositary utilized by the depositary to direct, manage and/or execute any public and/or private sale of securities under the deposit agreement.

JPMorgan and/or its agent may act as principal for such conversion of foreign currency. For further details see <https://www.adr.com>.

Edgar Filing: Baozun Inc. - Form 424B4

We will pay all other charges and expenses of the depositary and any agent of the depositary (except the custodian) pursuant to agreements from time to time between us and the depositary. The charges described above may be amended from time to time by agreement between us and the depositary.

Our depositary has agreed to reimburse us for certain expenses we incur that are related to establishment and maintenance of the ADR program upon such terms and conditions as we and the depositary may agree from

Table of Contents

time to time. The Depositary may make available to us a set amount or a portion of the depositary fees charged in respect of the ADR program or otherwise upon such terms and conditions as we and the Depositary may agree from time to time. The depositary collects its fees for issuance and cancellation of ADSs directly from investors depositing shares or surrendering ADSs for the purpose of withdrawal or from intermediaries acting for them. The depositary collects fees for making distributions to investors by deducting those fees from the amounts distributed or by selling a portion of distributable property to pay the fees. The depositary may collect its annual fee for depositary services by deduction from cash distributions, or by directly billing investors, or by charging the book-entry system accounts of participants acting for them. The depositary will generally set off the amounts owing from distributions made to holders of ADSs. If, however, no distribution exists and payment owing is not timely received by the depositary, the depositary may refuse to provide any further services to holders that have not paid those fees and expenses owing until such fees and expenses have been paid. At the discretion of the depositary, all fees and charges owing under the deposit agreement are due in advance and/or when declared owing by the depositary.

The fees and charges you may be required to pay may vary over time and may be changed by us and by the depositary. You will receive prior notice of the increase in any such fees and charges.

Payment of Taxes

ADR holders must pay any tax or other governmental charge payable by the custodian or the depositary on any ADS or ADR, deposited security or distribution. If an ADR holder owes any tax or other governmental charge, the depositary may (i) deduct the amount thereof from any cash distributions, or (ii) sell deposited securities (by public or private sale) and deduct the amount owing from the net proceeds of such sale. In either case the ADR holder remains liable for any shortfall. Additionally, if any taxes or other governmental charges (including any penalties and/or interest) shall become payable by or on behalf of the custodian or the depositary with respect to any ADR, any deposited securities represented by the ADSs evidenced thereby or any distribution thereon, including, without limitation, any Chinese Enterprise Income Tax owing if the Circular Guoshuifa [2009] No. 82 issued by the Chinese State Administration of Taxation (SAT) or any other circular, edict, order or ruling, as issued and as from time to time amended, is applied or otherwise, such tax or other governmental charge shall be paid by the holder thereof to the depositary and by holding or having held an ADR the holder and all prior holders thereof, jointly and severally, agree to indemnify, defend and save harmless each of the depositary and its agents in respect thereof. If any tax or governmental charge is unpaid, the depositary may also refuse to effect any registration, registration of transfer, split-up or combination of deposited securities or withdrawal of deposited securities until such payment is made. If any tax or governmental charge is required to be withheld on any cash distribution, the depositary may deduct the amount required to be withheld from any cash distribution or, in the case of a non-cash distribution, sell the distributed property or securities (by public or private sale) to pay such taxes and distribute any remaining net proceeds or the balance of any such property after deduction of such taxes to the ADR holders entitled thereto.

By holding an ADR or an interest therein, you will be agreeing to indemnify us, the depositary, its custodian and any of our or their respective officers, directors, employees, agents and affiliates against, and hold each of them harmless from, any claims by any governmental authority with respect to taxes, additions to tax, penalties or interest arising out of any refund of taxes, reduced rate of withholding at source or other tax benefit obtained.

Reclassifications, Recapitalizations and Mergers

If we take certain actions that affect the deposited securities, including (i) any change in par value, split-up, consolidation, cancellation or other reclassification of deposited securities or (ii) any distributions of shares or other property not made to holders of ADRs or (iii) any recapitalization, reorganization, merger, consolidation, liquidation, receivership, bankruptcy or sale of all or substantially all of our assets, then the depositary may choose to, and shall if reasonably requested by us:

- (1) amend the form of ADR;

165

Table of Contents

- (2) distribute additional or amended ADRs;
- (3) distribute cash, securities or other property it has received in connection with such actions;
- (4) sell any securities or property received and distribute the proceeds as cash; or
- (5) none of the above.

If the depositary does not choose any of the above options, any of the cash, securities or other property it receives will constitute part of the deposited securities and each ADS will then represent a proportionate interest in such property.

Amendment and Termination

How may the deposit agreement be amended?

We may agree with the depositary to amend the deposit agreement and the ADSs without your consent for any reason. ADR holders must be given at least 30 days notice of any amendment that imposes or increases any fees or charges (other than stock transfer or other taxes and other governmental charges, transfer or registration fees, cable, telex or facsimile transmission costs, delivery costs or other such expenses), or otherwise prejudices any substantial existing right of ADR holders. Such notice need not describe in detail the specific amendments effectuated thereby, but must identify to ADR holders a means to access the text of such amendment. If an ADR holder continues to hold an ADR or ADRs after being so notified, such ADR holder is deemed to agree to such amendment and to be bound by the deposit agreement as so amended. Notwithstanding the foregoing, if any governmental body or regulatory body should adopt new laws, rules or regulations which would require amendment or supplement of the deposit agreement or the form of ADR to ensure compliance therewith, we and the depositary may amend or supplement the deposit agreement and the ADR at any time in accordance with such changed laws, rules or regulations, which amendment or supplement may take effect before a notice is given or within any other period of time as required for compliance. No amendment, however, will impair your right to surrender your ADSs and receive the underlying securities, except in order to comply with mandatory provisions of applicable law.

How may the deposit agreement be terminated?

The depositary may, and shall at our written direction, terminate the deposit agreement and the ADRs by mailing notice of such termination to the registered holders of ADRs at least 30 days prior to the date fixed in such notice for such termination; provided, however, if the depositary shall have (i) resigned as depositary under the deposit agreement, notice of such termination by the depositary shall not be provided to registered holders unless a successor depositary shall not be operating under the deposit agreement within 60 days of the date of such resignation, and (ii) been removed as depositary under the deposit agreement, notice of such termination by the depositary shall not be provided to registered holders of ADRs unless a successor depositary shall not be operating under the deposit agreement on the 120th day after our notice of removal was first provided to the depositary. After the date so fixed for termination, (a) all Direct Registration ADRs shall cease to be eligible for the Direct Registration System and shall be considered ADRs issued on the ADR Register and (b) the depositary shall use its reasonable efforts to ensure that the ADSs cease to be DTC eligible so that neither DTC nor any of its nominees shall thereafter be a registered holder of ADRs. At such time as the ADSs cease to be DTC eligible and/or neither DTC nor any of its nominees is a registered holder of ADRs, the depositary shall (a) instruct its custodian to deliver all shares to us along with a general stock power that refers to the names set forth on the ADR Register and (b) provide us with a copy of the ADR Register. Upon receipt of such shares and the ADR Register, we have agreed to use our best efforts to

Edgar Filing: Baozun Inc. - Form 424B4

issue to each registered holder a Share certificate representing the Shares represented by the ADSs reflected on the ADR Register in such registered holder's name and to deliver such Share certificate to the registered holder at the address set forth on the ADR Register. After providing such instruction to the custodian and delivering a copy of the ADR Register to us, the depositary and its agents will perform no further acts under the Deposit Agreement and the ADRs and shall cease to have any obligations under the Deposit Agreement and/or the ADRs.

Table of Contents

Limitations on Obligations and Liability to ADR holders

Limits on our obligations and the obligations of the depositary; limits on liability to ADR holders and holders of ADSs

Prior to the issue, registration, registration of transfer, split-up, combination, or cancellation of any ADRs, or the delivery of any distribution in respect thereof, and from time to time in the case of the production of proofs as described below, we or the depositary or its custodian may require:

payment with respect thereto of (i) any stock transfer or other tax or other governmental charge, (ii) any stock transfer or registration fees in effect for the registration of transfers of shares or other deposited securities upon any applicable register and (iii) any applicable fees and expenses described in the deposit agreement;

the production of proof satisfactory to it of (i) the identity of any signatory and genuineness of any signature and (ii) such other information, including without limitation, information as to citizenship, residence, exchange control approval, beneficial ownership of any securities, compliance with applicable law, regulations, provisions of or governing deposited securities and terms of the deposit agreement and the ADRs, as it may deem necessary or proper; and

compliance with such regulations as the depositary may establish consistent with the deposit agreement.

The issuance of ADRs, the acceptance of deposits of shares, the registration, registration of transfer, split-up or combination of ADRs or the withdrawal of shares, may be suspended, generally or in particular instances, when the ADR register or any register for deposited securities is closed or when any such action is deemed advisable by the depositary; provided that the ability to withdraw shares may only be limited under the following circumstances: (i) temporary delays caused by closing transfer books of the depositary or our transfer books or the deposit of shares in connection with voting at a shareholders' meeting, or the payment of dividends, (ii) the payment of fees, taxes, and similar charges, and (iii) compliance with any laws or governmental regulations relating to ADRs or to the withdrawal of deposited securities.

The deposit agreement expressly limits the obligations and liability of the depositary, ourselves and our respective agents, provided, however, that no such disclaimer of liability under the Securities Act of 1933 is intended by any of the limitations of liabilities provisions of the deposit agreement. In the deposit agreement it provides that neither we nor the depositary nor any such agent will be liable if:

any present or future law, rule, regulation, fiat, order or decree of the United States, the Cayman Islands, the People's Republic of China or any other country, or of any governmental or regulatory authority or securities exchange or market or automated quotation system, the provisions of or governing any deposited securities, any present or future provision of our charter, any act of God, war, terrorism, nationalization or other circumstance beyond our, the depositary's or our respective agents' control shall prevent or delay, or shall cause any of them to be subject to any civil or criminal penalty in connection with, any act which the deposit agreement or the ADRs provide shall be done or performed by us, the depositary or our respective agents (including, without limitation, voting);

it exercises or fails to exercise discretion under the deposit agreement or the ADR including, without limitation, any failure to determine that any distribution or action may be lawful or reasonably practicable;

it performs its obligations under the deposit agreement and ADRs without gross negligence or willful misconduct;

it takes any action or refrains from taking any action in reliance upon the advice of or information from legal counsel, accountants, any person presenting shares for deposit, any registered holder of ADRs, or any other person believed by it to be competent to give such advice or information; or

Table of Contents

it relies upon any written notice, request, direction, instruction or document believed by it to be genuine and to have been signed, presented or given by the proper party or parties.

Neither the depositary nor its agents have any obligation to appear in, prosecute or defend any action, suit or other proceeding in respect of any deposited securities or the ADRs. We and our agents shall only be obligated to appear in, prosecute or defend any action, suit or other proceeding in respect of any deposited securities or the ADRs, which in our opinion may involve us in expense or liability, if indemnity satisfactory to us against all expense (including fees and disbursements of counsel) and liability is furnished as often as may be required. The depositary and its agents may fully respond to any and all demands or requests for information maintained by or on its behalf in connection with the deposit agreement, any registered holder or holders of ADRs, any ADRs or otherwise related to the deposit agreement or ADRs to the extent such information is requested or required by or pursuant to any lawful authority, including without limitation laws, rules, regulations, administrative or judicial process, banking, securities or other regulators. The depositary shall not be liable for the acts or omissions made by, or the insolvency of, any securities depositary, clearing agency or settlement system. Furthermore, the depositary shall not be responsible for, and shall incur no liability in connection with or arising from, the insolvency of any custodian that is not a branch or affiliate of JPMorgan Chase Bank, N.A. Notwithstanding anything to the contrary contained in the deposit agreement or any ADRs, the depositary shall not be responsible for, and shall incur no liability in connection with or arising from, any act or omission to act on the part of the custodian except to the extent that the custodian committed fraud or willful misconduct in the provision of custodial services to the depositary or (ii) failed to use reasonable care in the provision of custodial services to the depositary as determined in accordance with the standards prevailing in the jurisdiction in which the custodian is located. The depositary and the custodian(s) may use third party delivery services and providers of information regarding matters such as pricing, proxy voting, corporate actions, class action litigation and other services in connection with the ADRs and the deposit agreement, and use local agents to provide extraordinary services such as attendance at annual meetings of issuers of securities. Although the depositary and the custodian will use reasonable care (and cause their agents to use reasonable care) in the selection and retention of such third party providers and local agents, they will not be responsible for any errors or omissions made by them in providing the relevant information or services. The depositary shall not have any liability for the price received in connection with any sale of securities, the timing thereof or any delay in action or omission to act nor shall it be responsible for any error or delay in action, omission to act, default or negligence on the part of the party so retained in connection with any such sale or proposed sale.

The depositary has no obligation to inform ADR holders or other holders of an interest in any ADSs about the requirements of Cayman Islands or People's Republic of China law, rules or regulations or any changes therein or thereto.

Additionally, none of us, the depositary or the custodian shall be liable for the failure by any registered holder of ADRs or beneficial owner therein to obtain the benefits of credits on the basis of non-U.S. tax paid against such holder's or beneficial owner's income tax liability. Neither we nor the depositary shall incur any liability for any tax consequences that may be incurred by holders or beneficial owners on account of their ownership of ADRs or ADSs.

Neither the depositary nor its agents will be responsible for any failure to carry out any instructions to vote any of the deposited securities, for the manner in which any such vote is cast or for the effect of any such vote. The depositary may rely upon instructions from us or our counsel in respect of any approval or license required for any currency conversion, transfer or distribution. The depositary shall not incur any liability for the content of any information submitted to it by us or on our behalf for distribution to ADR holders or for any inaccuracy of any translation thereof, for any investment risk associated with acquiring an interest in the deposited securities, for the validity or worth of the deposited securities, for the credit-worthiness of any third party, for allowing any rights to lapse upon the terms of the deposit agreement or for the failure or timeliness of any notice from us. The depositary shall not be liable for any acts or omissions made by a successor depositary. Neither the depositary

Table of Contents

nor any of its agents shall be liable to registered holders or beneficial owners of interests in ADSs for any indirect, special, punitive or consequential damages or lost profits (excluding legal fees and expenses) of any form incurred by any person or entity, whether or not foreseeable and regardless of the type of action in which such a claim may be brought.

In the deposit agreement each party thereto (including, for avoidance of doubt, each holder and beneficial owner and/or holder of interests in ADRs) irrevocably waives, to the fullest extent permitted by applicable law, any right it may have to a trial by jury in any suit, action or proceeding against the depositary and/or us directly or indirectly arising out of or relating to the shares or other deposited securities, the ADSs or the ADRs, the deposit agreement or any transaction contemplated therein, or the breach thereof (whether based on contract, tort, common law or any other theory).

The depositary and its agents may own and deal in any class of our securities and in ADSs.

Disclosure of Interest in ADSs

To the extent that the provisions of or governing any deposited securities may require disclosure of or impose limits on beneficial or other ownership of deposited securities, other shares and other securities and may provide for blocking transfer, voting or other rights to enforce such disclosure or limits, you agree to comply with all such disclosure requirements and ownership limitations and to comply with any reasonable instructions we may provide in respect thereof. We reserve the right to instruct you to deliver your ADSs for cancellation and withdrawal of the deposited securities so as to permit us to deal with you directly as a holder of shares and, by holding an ADS or an interest therein, you will be agreeing to comply with such instructions.

Books of Depositary

The depositary or its agent will maintain a register for the registration, registration of transfer, combination and split-up of ADRs, which register shall include the depositary's direct registration system. Registered holders of ADRs may inspect such records at the depositary's office at all reasonable times, but solely for the purpose of communicating with other holders in the interest of the business of our company or a matter relating to the deposit agreement. Such register may be closed from time to time, when deemed expedient by the depositary.

The depositary will maintain facilities for the delivery and receipt of ADRs.

Pre-release of ADSs

In its capacity as depositary, the depositary shall not lend shares or ADSs; provided, however, that the depositary may issue ADSs prior to the receipt of shares (a pre-release). The depositary may receive ADSs in lieu of shares (which ADSs will promptly be canceled by the depositary upon receipt by the depositary). Each such pre-release will be subject to a written agreement whereby the person or entity (the applicant) to whom ADSs or shares are to be delivered (a) represents that at the time of the pre-release the applicant or its customer owns the shares or ADSs that are to be delivered by the applicant under such pre-release, (b) agrees to indicate the depositary as owner of such shares or ADSs in its

Edgar Filing: Baozun Inc. - Form 424B4

records and to hold such shares or ADSs in trust for the depositary until such shares or ADSs are delivered to the depositary or the custodian, (c) unconditionally guarantees to deliver to the depositary or the custodian, as applicable, such shares or ADSs, and (d) agrees to any additional restrictions or requirements that the depositary deems appropriate. Each such pre-release will be at all times fully collateralized with cash, U.S. government securities or such other collateral as the depositary deems appropriate, terminable by the depositary on not more than five (5) business days' notice and subject to such further indemnities and credit regulations as the depositary deems appropriate. The depositary will normally limit the number of ADSs and shares involved in such pre-release at any one time to thirty percent (30%) of the ADSs

Table of Contents

outstanding (without giving effect to pre-released ADSs), provided, however, that the depositary reserves the right to change or disregard such limit from time to time as it deems appropriate. The depositary may also set limits with respect to the number of ADSs and shares involved in pre-release with any one person on a case-by-case basis as it deems appropriate. The depositary may retain for its own account any compensation received by it in conjunction with the foregoing. Collateral provided in connection with pre-release transactions, but not the earnings thereon, shall be held for the benefit of the ADR holders (other than the applicant).

Appointment

In the deposit agreement, each registered holder of ADRs and each person holding an interest in ADSs, upon acceptance of any ADSs (or any interest therein) issued in accordance with the terms and conditions of the deposit agreement will be deemed for all purposes to:

be a party to and bound by the terms of the deposit agreement and the applicable ADR or ADRs, and

appoint the depositary its attorney-in-fact, with full power to delegate, to act on its behalf and to take any and all actions contemplated in the deposit agreement and the applicable ADR or ADRs, to adopt any and all procedures necessary to comply with applicable laws and to take such action as the depositary in its sole discretion may deem necessary or appropriate to carry out the purposes of the deposit agreement and the applicable ADR and ADRs, the taking of such actions to be the conclusive determinant of the necessity and appropriateness thereof.

Governing Law

The deposit agreement and the ADRs shall be governed by and construed in accordance with the laws of the State of New York. In the deposit agreement, we have submitted to the jurisdiction of the courts of the State of New York and appointed an agent for service of process on our behalf. Notwithstanding the foregoing, (i) any action based on the deposit agreement or the transactions contemplated thereby may be instituted by the depositary and holders in any competent court in the Cayman Islands, Hong Kong, the People's Republic of China and/or the United States, (ii) the depositary may, in its sole discretion, elect to institute any action, controversy, claim or dispute directly or indirectly based on, arising out of or relating to the deposit agreement or the ADRs or the transactions contemplated thereby, including without limitation any question regarding its or their existence, validity, interpretation, performance or termination, against any other party or parties to the deposit agreement (including, without limitation, against ADR holders and owners of interests in ADSs), by having the matter referred to and finally resolved by an arbitration conducted under the terms described below, and (iii) the depositary may in its sole discretion require that any action, controversy, claim, dispute, legal suit or proceeding brought against the depositary by any party or parties to the deposit agreement (including, without limitation, by ADR holders and owners of interests in ADSs) shall be referred to and finally settled by an arbitration conducted under the terms described below; provided, however, to the extent there are securities law violation aspects to any claims against the depositary brought by any holder, the securities law violation aspects to such claims brought by a holder against the depositary may, at the option of such holder, remain in state or federal court in New York, New York and all other aspects, claims, disputes, legal suits, actions and/or proceedings brought by such holder against the depositary, including those brought along with, or in addition to, securities law violation claims, would be referred to arbitration. Any such arbitration shall be conducted in the English language either in New York, New York in accordance with the Commercial Arbitration Rules of the American Arbitration Association or in Hong Kong following the arbitration rules of the United Nations Commission on International Trade Law (UNCITRAL).

By holding an ADS or an interest therein, registered holders of ADRs and owners of ADSs each irrevocably agree that any legal suit, action or proceeding against or involving us or the depositary, arising out of or based upon the deposit agreement or the transactions contemplated thereby, may only be instituted in a state or federal court in New York, New York, and each irrevocably waives any objection which it may have to the laying of venue of any such proceeding, and irrevocably submits to the exclusive jurisdiction of such courts in any such suit, action or

proceeding.

Table of Contents

SHARES ELIGIBLE FOR FUTURE SALE

Upon completion of this offering, assuming no exercise of the underwriters' option to purchase additional ADSs, we will have outstanding 11,000,000 ADSs representing approximately 22.6% of our ordinary shares in issue. All of the ADSs sold in this offering will be freely transferable by persons other than our affiliates (as that term is defined in Rule 144 under the Securities Act) without restriction or further registration under the Securities Act. Sales of substantial amounts of our ADSs in the public market could materially and adversely affect prevailing market prices of our ADSs. Prior to this offering, there has been no public market for our ordinary shares or the ADSs. We have received approval for listing our ADSs on the NASDAQ Global Select Market. However, we cannot assure you that a regular trading market will develop in the ADSs. We do not expect that a trading market will develop for our ordinary shares not represented by the ADSs.

Lock-Up Agreements

We have agreed, for a period of 180 days after the date of this prospectus, not to offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale, lend or otherwise dispose of, except in this offering, any of our ordinary shares or ADSs or securities that are substantially similar to our ordinary shares or ADSs, including but not limited to any options or warrants to purchase our ordinary shares, ADSs or any securities that are convertible into or exchangeable for, or that represent the right to receive, our ordinary shares, ADSs or any such substantially similar securities (other than pursuant to employee stock option plans existing on, or upon the conversion or exchange of convertible or exchangeable securities outstanding as of, the date such lock-up agreement was executed), without the prior written consent of the representatives of the underwriters.

Furthermore, each of our directors, executive officers and existing shareholders has also entered into a similar lock-up agreement for a period of 180 days from the date of this prospectus, subject to certain exceptions, with respect to our ordinary shares, ADSs and securities that are substantially similar to our ordinary shares or ADSs. These restrictions also apply to any ADSs acquired by our directors and executive officers in the offering pursuant to the directed share program, if any. These parties collectively own all of our outstanding ordinary shares, without giving effect to this offering. However, the representatives may, in their sole discretion, release or waive the restrictions set forth in such lock-up agreements with respect to any portion or all our ordinary shares or ADSs.

Other than this offering, we are not aware of any plans by any significant shareholders to dispose of significant numbers of our ADSs or ordinary shares. However, one or more existing shareholders or owners of securities convertible or exchangeable into or exercisable for our ADSs or ordinary shares may dispose of significant numbers of our ADSs or ordinary shares in the future. We cannot predict what effect, if any, future sales of our ADSs or ordinary shares, or the availability of ADSs or ordinary shares for future sale, will have on the trading price of our ADSs from time to time. Sales of substantial amounts of our ADSs or ordinary shares in the public market, or the perception that these sales could occur, could adversely affect the trading price of our ADSs.

Rule 144

All of our ordinary shares outstanding prior to this offering and ordinary shares to be issued upon automatic conversion of our Series A, B, C1, C2 and D convertible redeemable preferred shares upon the completion of this offering are restricted shares as that term is defined in Rule 144 under the Securities Act and may be sold publicly in the United States only if they are subject to an effective registration statement under the Securities Act or pursuant to an exemption from the registration requirement such as those provided by Rule 144 and Rule 701 promulgated under the Securities Act. In general, under Rule 144 as currently in effect, beginning 90 days after the date of this prospectus a person (or persons whose shares are aggregated) who has beneficially owned

Table of Contents

our restricted shares for at least six months, is entitled to sell the restricted securities without registration under the Securities Act, subject to certain restrictions. Persons who are our affiliates may sell within any three months period a number of restricted shares that does not exceed the greater of the following:

1% of our then total outstanding ordinary shares, in the form of ADSs or otherwise, which will equal 1,458,253 ordinary shares immediately after this offering; or

the average weekly trading volume of our ordinary shares in the form of ADSs or otherwise, during the four calendar weeks preceding the date on which notice of the sale is filed with the Securities and Exchange Commission.

Sales under Rule 144 must be made through unsolicited transactions. They are also subject to other manner of sale provisions, notice requirements and the availability of current public information about us. Persons who are not our affiliates and have beneficially owned our restricted shares for more than six months but not more than one year may sell the restricted shares without registration under the Securities Act, subject to the availability of current public information about us. Persons who are not our affiliates and have beneficially owned our restricted shares for more than one year may freely sell the restricted shares without registration under the Securities Act. However, these shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

Rule 701

In general, under Rule 701 of the Securities Act as currently in effect, each of our employees, consultants or advisors who purchases our ordinary shares from us in connection with a compensatory stock or option plan or other written agreement relating to compensation is eligible to resell such ordinary shares 90 days after we became a reporting company under the Exchange Act in reliance on Rule 144, but without compliance with some of the restrictions, including the holding period, contained in Rule 144. However, these shares would remain subject to lock-up arrangements and would only become eligible for sale when the lock-up period expires.

Registration Rights

Upon completion of this offering, holders of our registrable securities will be entitled to request that we register their shares under the Securities Act, following the expiration of the lock-up agreements described above. See [Description of Share Capital](#) [Registration Rights](#).

Table of Contents

TAXATION

The following summary of the material Cayman Islands, PRC and U.S. federal income tax consequences of an investment in our ADSs or ordinary shares is based upon laws and relevant interpretations thereof as of the date of this prospectus, all of which are subject to change. This summary does not deal with all possible tax consequences relating to an investment in our ADSs or ordinary shares, such as the tax consequences under state, local and other tax laws not addressed herein.

Cayman Islands Taxation

The Cayman Islands currently levies no taxes on individuals or corporations based upon profits, income, gains or appreciation and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to us levied by the government of the Cayman Islands except for stamp duties which may be applicable on instruments executed in, or after execution brought within the jurisdiction of, the Cayman Islands. The Cayman Islands is not party to any double tax treaties which are applicable to any payments made by or to our company. There are no exchange control regulations or currency restrictions in the Cayman Islands.

There is no income tax treaty or convention currently in effect between the United States and the Cayman Islands.

People's Republic of China Taxation

Under the PRC Enterprise Income Tax Law and its implementation rules, an enterprise established outside of the PRC with de facto management body within the PRC is considered a resident enterprise and will be subject to the enterprise income tax on its global income at the rate of 25%. The implementation rules define the term de facto management body as the body that exercises substantial and overall control and management over the business, productions, personnel, accounts and properties of an enterprise. In 2009, the State Administration of Taxation issued a circular, known as Circular 82, which provides certain specific criteria for determining whether the de facto management body of a PRC-controlled offshore incorporated enterprise is located in China. Although this circular only applies to offshore enterprises controlled by PRC enterprises or PRC enterprise groups, not those controlled by PRC individuals or foreigners, the criteria set forth in the circular may reflect the State Administration of Taxation's general position on how the de facto management body test should be applied in determining the tax resident status of all offshore enterprises. According to Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its de facto management body in China only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholders minutes, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC.

We believe that none of Baozun Inc. and its subsidiaries outside of China is a PRC resident enterprise for PRC tax purposes. Baozun Inc. is not controlled by a PRC enterprise or PRC enterprise group and we do not believe that Baozun Inc. meets all of the conditions above. Baozun Inc. is a company incorporated outside the PRC. As a holding company, its key assets are its ownership interests in its subsidiaries, and its key assets and its records (including the resolutions and meeting minutes of its board of directors and the resolutions and meeting minutes of its shareholders) are located and maintained outside the PRC. For the same reasons, we believe our other subsidiaries outside of China are not PRC resident enterprises either. However, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term de facto management body.

Table of Contents

The implementation rules of the Enterprise Income Tax Law provide that, (i) if the enterprise that distributes dividends is domiciled in the PRC or (ii) if gains are realized from transferring equity interests of enterprises domiciled in the PRC, then such dividends or capital gains are treated as China-sourced income. It is not clear how domicile may be interpreted under the Enterprise Income Tax Law, and it may be interpreted as the jurisdiction where the enterprise is a tax resident. Therefore, if we are considered as a PRC tax resident enterprise for PRC tax purposes, any dividends we pay to our overseas shareholders or ADS holders which are non-resident enterprises as well as gains realized by such shareholders or ADS holders from the transfer of our shares or ADSs may be regarded as China-sourced income and as a result become subject to PRC withholding tax at a rate of up to 10%.

Furthermore, if we are considered a PRC resident enterprise and the competent PRC tax authorities consider dividends we pay with respect to our shares or ADSs and the gains realized from the transfer of our shares or ADSs to be income derived from sources within the PRC, such dividends and gains we pay to our overseas shareholders or ADS holders who are non-resident individuals may be subject to PRC individual income tax at a rate of 20%, unless any such non-resident individuals jurisdiction has a tax treaty or arrangement with China that provides for a preferential tax rate or a tax exemption. It is also unclear whether, if we are considered a PRC resident enterprise, holders of our shares or ADSs would be able to claim the benefit of income tax treaties or agreements entered into between China and other countries or areas.

Under Bulletin 7, an indirect transfer of assets, including equity interests in a PRC resident enterprise, by non-PRC resident enterprises may be re-characterized and treated as a direct transfer of PRC taxable assets, if such arrangement does not have a reasonable commercial purpose and was established for the purpose of avoiding payment of PRC enterprise income tax. As a result, gains derived from such indirect transfer may be subject to PRC enterprise income tax. According to Bulletin 7, PRC taxable assets include assets attributed to an establishment in China, immovable properties located in China, and equity investments in PRC resident enterprises. In respect of an indirect offshore transfer of assets of a PRC establishment, the resulting gain is to be included with the enterprise income tax filing of the PRC establishment or place of business being transferred, and would consequently be subject to PRC enterprise income tax at a rate of 25%. Where the underlying transfer relates to the immovable properties located in China or to equity investments in a PRC resident enterprise, which is not related to a PRC establishment or place of business of a non-resident enterprise, a PRC enterprise income tax at 10% would apply, subject to available preferential tax treatment under applicable tax treaties or similar arrangements, and the party who is obligated to make the transfer payments has the withholding obligation. Where the payor fails to withhold any or sufficient tax, the transferor shall declare and pay such tax to the tax authority by itself within the statutory time limit. Although it appears that Bulletin 7 was not intended to apply to share transfers of publicly traded companies, there is uncertainty as to the application of Bulletin 7 and we and our non-PRC resident investors may be at risk of being subject to tax filing or withholding obligations under Bulletin 7 and we may be required to spend valuable resources to comply with Bulletin 7 or to establish that we should not be taxed under Bulletin 7. See Risk Factors Risks Related to Doing Business in the People's Republic of China We and our shareholders face uncertainties with respect to indirect transfers of equity interests in PRC resident enterprises or other assets attributed to a Chinese establishment of a non-Chinese company, or immovable properties located in China owned by non-Chinese companies.

See Risk Factors Risks Related to Doing Business in the People's Republic of China We may be treated as a resident enterprise for PRC tax purposes under the PRC Enterprise Income Tax Law, and we may therefore be subject to PRC income tax on our global income. and Risk Factors Risks Related to Doing Business in the People's Republic of China Dividends payable to our foreign investors and gains on the sale of our ADSs or ordinary shares by our foreign investors may become subject to PRC tax law.

Material U.S. Federal Income Tax Consequences

The following discussion is a summary of the material U.S. federal income tax consequences of the purchase, ownership and disposition of the ADSs or ordinary shares issued pursuant to this offering, but does not

Table of Contents

purport to be a complete analysis of all potential tax effects. The effects of other U.S. federal tax laws, such as estate and gift tax laws, and any applicable state, local or foreign tax laws are not discussed. This discussion is based on the U.S. Internal Revenue Code of 1986, as amended (the Code), U.S. Treasury regulations promulgated thereunder, judicial decisions, and published rulings and administrative pronouncements of the U.S. Internal Revenue Service (the IRS), in each case in effect as of the date hereof. These authorities may change or be subject to differing interpretations. Any such change or differing interpretation may be applied retroactively in a manner that could adversely affect a holder of ADSs or ordinary shares. We have not sought and will not seek any rulings from the IRS regarding the matters discussed below. There can be no assurance the IRS or a court will not take a contrary position to that discussed below regarding the tax consequences of the purchase, ownership and disposition of the ADSs or ordinary shares.

This discussion is limited to U.S. Holders (as defined below) that hold our ADSs or ordinary shares as capital assets within the meaning of Section 1221 of the Code (generally, property held for investment). This discussion does not address all U.S. federal income tax consequences relevant to a U.S. Holder's particular circumstances, including the impact of the Medicare contribution tax on net investment income. In addition, it does not address consequences relevant to U.S. Holders subject to special rules, including, without limitation:

persons who own or are deemed to own 10% or more of our voting stock;

persons subject to the alternative minimum tax;

persons holding our ADSs or ordinary shares as part of a hedge, straddle or other risk reduction strategy or as part of a conversion transaction or other integrated investment;

persons whose functional currency is not the U.S. dollar;

banks, insurance companies, and other financial institutions;

brokers, dealers or traders in securities;

corporations that accumulate earnings to avoid U.S. federal income tax;

partnerships or other entities or arrangements treated as partnerships for U.S. federal income tax purposes (and investors therein);

tax-exempt organizations or governmental organizations;

persons deemed to sell our ADSs or ordinary shares under the constructive sale provisions of the Code;

persons who hold or receive our ADSs or ordinary shares pursuant to the exercise of any employee stock option or otherwise as compensation;

real estate investment trusts ;

regulated investment companies ; and

tax-qualified retirement plans.

If an entity treated as a partnership for U.S. federal income tax purposes (including corporations electing taxation under subchapter S of the Code) holds our ADSs or ordinary shares, the tax treatment of a partner in the partnership will depend on the status of the partner, the activities of the partnership and certain determinations made at the partner level. Accordingly, partnerships holding our ADSs or ordinary shares and partners in such partnerships should consult their tax advisors regarding the U.S. federal income tax consequences to them.

THIS DISCUSSION IS FOR INFORMATION PURPOSES ONLY AND IS NOT TAX ADVICE. YOU SHOULD CONSULT YOUR TAX ADVISORS WITH RESPECT TO THE APPLICATION OF THE U.S. FEDERAL INCOME TAX LAWS TO YOUR PARTICULAR SITUATIONS AS WELL AS

Table of Contents

ANY TAX CONSEQUENCES OF THE PURCHASE, OWNERSHIP AND DISPOSITION OF OUR ADSS OR ORDINARY SHARES ARISING UNDER THE U.S. FEDERAL ESTATE OR GIFT TAX LAWS OR UNDER THE LAWS OF ANY STATE, LOCAL OR NON-U.S. TAXING JURISDICTION OR UNDER ANY APPLICABLE INCOME TAX TREATY.

Definition of a U.S. Holder

For purposes of this discussion, a U.S. Holder is a beneficial owner of ADSs or ordinary shares that, for U.S. federal income tax purposes, is or is treated as:

an individual who is a citizen or resident of the United States;

a corporation created or organized under the laws of the United States, any state thereof, or the District of Columbia;

an estate, the income of which is subject to U.S. federal income tax regardless of its source; or

a trust that (1) is subject to the primary supervision of a U.S. court and the control of one or more United States persons (within the meaning of Section 7701(a)(30) of the Code), or (2) has a valid election in effect to be treated as a United States person for U.S. federal income tax purposes.

The discussion below assumes that the representations contained in the deposit agreement are true and that the obligations in the deposit agreement and any related agreement will be complied with in accordance with their terms. If you own ADSs, you generally will be treated as the owner of the underlying ordinary shares represented by those ADSs for U.S. federal income tax purposes. Accordingly, withdrawals of the underlying ordinary shares in exchange for the ADSs generally will not be subject to U.S. federal income tax.

The U.S. Treasury has expressed concerns that intermediaries in the chain of ownership between the holder of a depositary share and the issuer of the security underlying the depositary share may be taking actions that are inconsistent with the beneficial ownership of the underlying security (which may include, for example, pre-releasing ADSs to persons that do not have the beneficial ownership of the securities underlying the ADSs). Accordingly, the creditability of any PRC taxes, or the availability of the reduced tax rate for any dividends received by certain non-corporate U.S. Holders (discussed below), could be affected by actions taken by intermediaries in the chain of ownership between the holders of ADSs and our company if as a result of such actions the holders of ADSs are not properly treated as beneficial owners of underlying ordinary shares.

Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares

Subject to the PFIC rules discussed below, the gross amount of any distributions we make to you with respect to the ADSs or ordinary shares (including the amount of any taxes withheld therefrom) generally will be includible in your gross income as dividend income on the date of receipt by the depositary, in the case of ADSs, or on the date of receipt by you, in the case of ordinary shares, but only to the extent that the distribution is paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles). Any such dividends will not be eligible for the dividends-received deduction allowed to corporations in respect of certain dividends received from U.S.

Edgar Filing: Baozun Inc. - Form 424B4

corporations. To the extent that the amount of the distribution exceeds our current and accumulated earnings and profits (as determined under U.S. federal income tax principles), such excess amount will be treated first as a tax-free return of your tax basis in your ADSs or ordinary shares, and then, to the extent such excess amount exceeds your tax basis in your ADSs or ordinary shares, as capital gain. We currently do not intend to calculate our earnings and profits under U.S. federal income tax principles. Therefore, you should expect that any distribution we make to you will be reported as a dividend even if such distribution would otherwise be treated as a non-taxable return of capital or as capital gain under the rules described above.

With respect to certain non-corporate U.S. Holders, including individual U.S. Holders, any dividends received may be subject to a reduced rate of U.S. federal income tax applicable to qualified dividend income, provided that (1) either (a) our ADSs or ordinary shares, with respect to which the dividends are paid, are readily

Table of Contents

tradable on an established securities market in the United States, or (b) we are eligible for the benefits of a qualifying income tax treaty with the United States that includes an exchange of information program, (2) we are neither a PFIC nor treated as such with respect to you for the taxable year in which the dividend is paid and the preceding taxable year (discussed below), and (3) the ADSs or ordinary shares are held for a holding period of more than 60 days during the 121-day period beginning 60 days before the ex-dividend date. Under IRS authority, common or ordinary shares, or depositary shares representing such shares, are considered for the purpose of clause (1) above to be readily tradable on an established securities market in the United States if they are listed on the NASDAQ Global Select Market, as we expect our ADSs (but not our ordinary shares) will be. If we are treated as a resident enterprise for PRC tax purposes (see *Taxation People's Republic of China Taxation*), we may be eligible for the benefits of the income tax treaty between the United States and the PRC. You should consult your tax advisors regarding the availability of the lower tax rate applicable to qualified dividend income for any dividends we pay with respect to the ADSs or ordinary shares, as well as the effect of any change in applicable law after the date of this prospectus.

Any dividends we pay with respect to the ADSs or ordinary shares will constitute foreign source income for foreign tax credit limitation purposes. If the dividends are taxed as qualified dividend income (as discussed above), the amount of the dividend taken into account for purposes of calculating the foreign tax credit limitation will in general be limited to the gross amount of the dividend, multiplied by the reduced tax rate applicable to qualified dividend income and divided by the highest tax rate normally applicable to dividends. The limitation on foreign taxes eligible for credit is calculated separately with respect to specific classes of income. For this purpose, any dividends we pay with respect to the ADSs or ordinary shares will generally constitute passive category income but could, in the case of certain U.S. Holders, constitute general category income.

If PRC withholding taxes apply to any dividends paid to you with respect to our ADSs or ordinary shares (see *Taxation People's Republic of China Taxation*), the amount of the dividend would include the withheld PRC taxes and, subject to certain conditions and limitations, such PRC withholding taxes generally will be treated as foreign taxes eligible for credit against your U.S. federal income tax liability. The rules relating to the determination of the foreign tax credit are complex and you should consult your tax advisors regarding the availability of a foreign tax credit in your particular circumstances, including the effects of any applicable income tax treaties.

Taxation of Disposition of ADSs or Ordinary Shares

You will recognize taxable gain or loss on any sale, exchange or other taxable disposition of ADSs or ordinary shares equal to the difference between the amount realized for the ADSs or ordinary shares and your tax basis in the ADSs or ordinary shares. Subject to the PFIC rules discussed below, the gain or loss generally will be capital gain or loss. If you are a non-corporate U.S. Holder, including an individual U.S. Holder, that has held the ADSs or ordinary shares for more than one year, you may be eligible for reduced U.S. federal income tax rates. The deductibility of capital losses is subject to limitations. Any gain or loss that you recognize on a disposition of ADSs or ordinary shares will generally be treated as U.S. source income or loss for foreign tax credit limitation purposes. However, if we are treated as a resident enterprise for PRC tax purposes, we may be eligible for the benefits of the income tax treaty between the United States and the PRC. In such event, if PRC tax were to be imposed on any gain from the disposition of the ADSs or ordinary shares, a U.S. Holder that is eligible for the benefits of the income tax treaty between the United States and the PRC may elect to treat the gain as PRC source income for foreign tax credit purposes. You should consult your tax advisors regarding the proper treatment of gain or loss in your particular circumstances, including the effects of any applicable income tax treaties.

Passive Foreign Investment Company

Based on the current and anticipated valuation of our assets, including goodwill, and composition of our income and assets, we do not expect to be a PFIC for U.S. federal income tax purposes for our taxable year ending December 31, 2015 or in the foreseeable future. However, the application of the PFIC rules is subject to

Table of Contents

uncertainty in several respects, and we cannot assure you that we will not be a PFIC for any taxable year. Because PFIC status is a factual determination for each taxable year that cannot be made until after the close of each such year, our U.S. counsel expresses no opinion with respect to our PFIC status and expresses no opinion with respect to our expectations contained in this paragraph.

A non-U.S. corporation will be a PFIC for U.S. federal income tax purposes for any taxable year if either:

at least 75% of its gross income for such year is passive income; or

at least 50% of the value of its assets (based on an average of the quarterly values of the assets) during such year is attributable to assets that produce passive income or are held for the production of passive income.

For this purpose, we will be treated as owning our proportionate share of the assets and earning our proportionate share of the income of any other corporation in which we own, directly or indirectly, more than 25% (by value) of the stock. In applying this rule, while it is not clear, we believe the contractual arrangements between us and our variable interest entity should be treated as ownership of stock.

A separate determination must be made after the close of each taxable year as to whether we were a PFIC for that year. Because the value of our assets for purposes of the PFIC test will generally be determined, in part, by reference to the market price of our ADSs and ordinary shares, fluctuations in the market price of the ADSs and ordinary shares may cause us to become a PFIC. In addition, changes in the composition of our income or assets may cause us to become a PFIC.

If we are a PFIC for any taxable year during which you hold ADSs or ordinary shares, we generally will continue to be treated as a PFIC with respect to you for all succeeding years during which you hold ADSs or ordinary shares, unless we cease to be a PFIC and you make a deemed sale election with respect to the ADSs or ordinary shares. If such election is made, you will be deemed to have sold ADSs or ordinary shares you hold at their fair market value on the last day of the last taxable year in which we were a PFIC and any gain from such deemed sale would be subject to the rules described in the following two paragraphs. After the deemed sale election, your ADSs or ordinary shares with respect to which the deemed sale election was made will not be treated as shares in a PFIC unless we subsequently become a PFIC.

For each taxable year that we are treated as a PFIC with respect to you, you will be subject to special tax rules with respect to any excess distribution that you receive and any gain you recognize from a sale or other disposition (including a pledge) of the ADSs or ordinary shares, unless you make a mark-to-market election as discussed below. Distributions you receive in a taxable year that are greater than 125% of the average annual distributions you received during the shorter of the three preceding taxable years or your holding period for the ADSs or ordinary shares will be treated as an excess distribution. Under these special tax rules:

the excess distribution or recognized gain will be allocated ratably over your holding period for the ADSs or ordinary shares;

the amount allocated to the current taxable year, and any taxable years in your holding period prior to the first taxable year in which we were a PFIC, will be treated as ordinary income; and

Edgar Filing: Baozun Inc. - Form 424B4

the amount allocated to each other taxable year will be subject to the highest tax rate in effect for individuals or corporations, as applicable, for each such year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

The tax liability for amounts allocated to taxable years prior to the year of disposition or excess distribution cannot be offset by any net operating losses for such years, and gains (but not losses) realized on the sale or other disposition of the ADSs or ordinary shares cannot be treated as capital, even if you hold the ADSs or ordinary shares as capital assets.

Table of Contents

If we are a PFIC with respect to you for any taxable year, to the extent any of our subsidiaries are also PFICs or we make direct or indirect equity investments in other entities that are PFICs, you may be deemed to own shares in such lower-tier PFICs that are directly or indirectly owned by us in that proportion which the value of the ADSs or ordinary shares you own bears to the value of all of our ADSs or ordinary shares, as applicable, and you may be subject to the rules described in the preceding two paragraphs with respect to the shares of such lower-tier PFICs that you are deemed to own. You should consult your tax advisors regarding the application of the PFIC rules to any of our subsidiaries. A U.S. Holder of marketable stock (as defined below) in a PFIC may make a mark-to-market election for such stock to elect out of the PFIC rules described above regarding excess distributions and recognized gains. If you make a mark-to-market election for the ADSs or ordinary shares, you will include in income for each year we are a PFIC an amount equal to the excess, if any, of the fair market value of the ADSs or ordinary shares as of the close of your taxable year over your adjusted basis in such ADSs or ordinary shares. You will be allowed a deduction for each year we are a PFIC in an amount equal to the excess, if any, of the adjusted basis of the ADSs or ordinary shares over their fair market value as of the close of the taxable year. However, deductions will be allowable only to the extent of any net mark-to-market gains on the ADSs or ordinary shares included in your income for prior taxable years. Amounts included in your income under a mark-to-market election, as well as gain on the actual sale or other disposition of the ADSs or ordinary shares in a year that we are a PFIC, will be treated as ordinary income. Ordinary loss treatment will also apply to the deductible portion of any mark-to-market loss on the ADSs or ordinary shares, as well as to any loss realized on the actual sale or other disposition of the ADSs or ordinary shares in a year that we are a PFIC, to the extent the amount of such loss does not exceed the net mark-to-market gains previously included for such ADSs or ordinary shares. Your basis in the ADSs or ordinary shares will be adjusted to reflect any such income or loss amounts. If you make a mark-to-market election, any distributions we make would generally be subject to the rules discussed above under Taxation of Dividends and Other Distributions on the ADSs or Ordinary Shares, except the lower rate applicable to qualified dividend income would not apply.

The mark-to-market election is available only for marketable stock, which is stock that is regularly traded on a qualified exchange or other market, as defined in applicable U.S. Treasury regulations. We have received approval for listing our ADSs on the NASDAQ Global Select Market, which is a qualified exchange or other market for these purposes. Consequently, if the ADSs are listed on the NASDAQ Global Select Market and are regularly traded, and you are a holder of ADSs, we expect the mark-to-market election would be available to you if we were to become a PFIC. Because a mark-to-market election cannot be made for equity interests in any lower-tier PFICs that we own, you may continue to be subject to the PFIC rules with respect to any of our subsidiaries that are PFICs or any investments held by us that are treated as an equity interest in a PFIC for U.S. federal income tax purposes. You should consult your tax advisors as to the availability and desirability of a mark-to-market election, as well as the impact of such election on interests in any lower-tier PFICs.

Alternatively, if a non-U.S. corporation is a PFIC, a holder of shares in that corporation may avoid taxation under the PFIC rules described above regarding excess distributions and recognized gains by making a qualified electing fund election to include in income its share of the corporation's income on a current basis. However, you may make a qualified electing fund election with respect to your ADSs or ordinary shares only if we agree to furnish you annually with certain tax information, and we currently do not intend to prepare or provide such information.

Unless otherwise provided by the U.S. Treasury, if we are a PFIC in any taxable year each U.S. Holder is required to file an annual report containing such information as the U.S. Treasury may require. If we are or become a PFIC, you should consult your tax advisor regarding any reporting requirements that may apply to you.

You are strongly urged to consult your tax advisor regarding the application of the PFIC rules to your investment in the ADSs or ordinary shares.

Table of Contents

Information Reporting and Backup Withholding

Any dividend payments with respect to ADSs or ordinary shares and proceeds from the sale, exchange or other taxable disposition of ADSs or ordinary shares may be subject to information reporting to the IRS and possible U.S. backup withholding. Backup withholding will not apply, however, to a U.S. Holder that furnishes a correct taxpayer identification number and makes any other required certification or that is otherwise exempt from backup withholding. U.S. Holders that are required to establish their exempt status generally must provide such certification on IRS Form W-9. In addition, certain individuals holding ADSs or ordinary shares other than in an account at a financial institution may be subject to additional information reporting requirements.

Backup withholding is not an additional tax. Amounts withheld as backup withholding may be credited against your U.S. federal income tax liability, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS and furnishing any required information in a timely manner.

Under the Hiring Incentives to Restore Employment Act of 2010, certain U.S. Holders are required to report information relating to ADSs or ordinary shares, subject to certain exceptions (including an exception for ADSs or ordinary shares held in accounts maintained by certain financial institutions), by attaching a complete IRS Form 8938, Statement of Specified Foreign Financial Assets, with their tax return for each year in which they hold ADSs or ordinary shares. You are urged to consult your own tax advisors regarding information reporting requirements relating to your ownership of the ADSs or ordinary shares.

Table of Contents**UNDERWRITING**

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus, the underwriters named below, for whom Morgan Stanley & Co. International plc, Credit Suisse Securities (USA) LLC and Merrill Lynch, Pierce, Fenner & Smith Incorporated are acting as representatives, have severally agreed to purchase, and we have agreed to sell to them, severally, the number of ADSs indicated below:

Name	Number of ADSs
Morgan Stanley & Co. International plc	4,400,000
Credit Suisse Securities (USA) LLC	3,850,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	2,750,000
Total	11,000,000

The underwriters and the representatives are collectively referred to as the underwriters and the representatives, respectively. The underwriters are offering the ADSs subject to their acceptance of the ADSs from us and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the ADSs offered by this prospectus are subject to the approval of certain legal matters by their counsel and to certain other conditions, including the absence of any material adverse change in our business and the receipt of certain certificates, opinions and letters from us, our counsel and the independent accountants. The underwriters are obligated, severally and not jointly, to take and pay for all of the ADSs offered by this prospectus if any such ADSs are taken. The underwriters are not required, however, to take or pay for the ADSs covered by the underwriters' over-allotment option to purchase additional ADSs described below. Any offers or sales of the ADSs in the United States will be conducted by registered broker-dealers in the United States.

The underwriters initially propose to offer part of the ADSs directly to the public at the initial public offering price listed on the cover page of this prospectus and part to certain dealers at a price that represents a concession not in excess of US\$0.42 per ADS under the initial public offering price. After the initial offering of the ADSs, the offering price and other selling terms may from time to time be varied by the representatives.

We have granted to the underwriters an option, exercisable for 30 days from the date of this prospectus, to purchase up to 1,650,000 additional ADSs at the public offering price listed on the cover page of this prospectus less underwriting discounts and commissions. The underwriters may exercise this option for the purpose of covering over-allotments, if any, made in connection with the offering of the ADSs offered by this prospectus. To the extent the option is exercised, each underwriter will become obligated, severally and not jointly, subject to certain conditions, to purchase about the same percentage of the additional ADSs as the number listed next to the underwriter's name in the preceding table bears to the total number of ADSs listed in the preceding table. If the underwriters' option is exercised in full, the total price to the public would be US\$126,500,000, the total underwriters' discounts and commissions would be US\$8,855,000 and the total proceeds to us (before expenses) would be US\$117,645,000.

Total underwriting discounts and commissions that we have agreed to pay to the underwriters represent 7% of the total amount of the offering. The table below shows the per ADS and total underwriting discounts and commissions that we will pay to the underwriters. The underwriting discounts and commissions are determined by negotiations among us and the underwriters. Among the factors considered in determining the discounts and commissions are the size of the offering, the nature of the security to be offered and the discounts and commissions charged in comparable transactions. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase 1,650,000

additional ADSs.

Underwriting Discounts and Commissions	No Exercise	Full Exercise
Per ADS	US\$ 0.70	US\$ 0.70
Total by us	US\$ 7,700,000	US\$ 8,855,000

Table of Contents

We have also agreed to reimburse the underwriters for certain expenses in connection with this offering in an aggregate amount not exceeding US\$50,000. Such reimbursements are deemed underwriting compensation by the Financial Industry Regulatory Authority, Inc., or FINRA.

The underwriters have informed us that they do not intend sales to discretionary accounts to exceed five percent of the total number of ADSs offered by them.

The total expenses of the offering payable by us, excluding underwriting discounts and commissions, will be approximately US\$4.0 million. Expenses include the SEC and the Financial Industry Regulatory Authority, or FINRA, filing fees, the NASDAQ Global Select Market listing fee, and printing, legal, accounting and miscellaneous expenses.

We have received approval for listing the ADSs on the NASDAQ Global Select Market under the symbol BZUN.

We have agreed that, without the prior written consent of the representatives, subject to certain exceptions, we will not, during the period ending 180 days after the date of this prospectus:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any ordinary shares or ADSs or any securities convertible into or exercisable or exchangeable for ordinary shares or ADSs;

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ordinary shares or ADSs; or

file any registration statement with the SEC relating to the offering of any ordinary shares, ADSs or any securities convertible into or exercisable or exchangeable for ordinary shares or ADSs (other than a registration statement on Form S-8),

whether any such transaction described above is to be settled by delivery of ordinary shares, ADSs, or such other securities, in cash or otherwise.

Our directors, executive officers and existing shareholders have agreed that, without the prior written consent of the representatives, such director, officer or shareholder, subject to certain exceptions, will not, during the period ending 180 days after the date of this prospectus:

offer, pledge, sell, contract to sell, sell any option or contract to purchase, purchase any option or contract to sell, grant any option, right or warrant to purchase, lend or otherwise transfer or dispose of, directly or indirectly, any ordinary shares or ADSs or any securities convertible into or exercisable or exchangeable for ordinary shares or ADSs; or

enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of the ordinary shares or ADSs,

Edgar Filing: Baozun Inc. - Form 424B4

whether any such transaction described above is to be settled by delivery of ordinary shares, ADSs, or such other securities, in cash or otherwise.

The representatives may, in their sole discretion, release or waive the restrictions set forth in the lock-up agreements described above with respect to any portion or all of our ordinary shares or ADSs.

Subject to compliance with the notification requirements under FINRA Rule 5131 applicable to lock-up agreements with our directors or officers, if the representatives, in their sole discretion, agree to release or waive the restrictions set forth in a lock-up agreement with one of our directors or officers, at least two business days before such release or waiver, one of the representatives will notify us of the impending release or waiver and announce the impending release or waiver through a major news service, except where the release or waiver is effected solely to permit a transfer of securities that is not for consideration and where the transferee has agreed in writing to be bound by the same lock-up agreement terms in place for the transferor. Currently, there are no agreements, understandings or intentions, tacit or explicit, to release any of the securities from the lock-up agreements prior to the expiration of the corresponding period.

In addition, we have instructed JPMorgan Chase Bank, N.A., as depositary, and our Cayman registrar not to facilitate any deposit of any ordinary shares for issuance of any ADSs for 180 days after the date of this prospectus (other than in connection with this offering), unless we instruct otherwise.

Table of Contents

To facilitate this offering of the ADSs, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the ADSs. Specifically, the underwriters may sell more ADSs than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of ADSs available for purchase by the underwriters under the over-allotment option. The underwriters can close out a covered short sale by exercising the over-allotment option or purchasing ADSs in the open market. In determining the source of ADSs to close out a covered short sale, the underwriters will consider, among other things, the open market price of ADSs compared to the price available under the over-allotment option. The underwriters may also sell ADSs in excess of the over-allotment option, creating a naked short position. The underwriters must close out any naked short position by purchasing ADSs in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the ADSs in the open market after pricing that could adversely affect investors who purchase in this offering. In addition, to stabilize the price of the ADSs, the underwriters may bid for, and purchase, ADSs in the open market. Finally, the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the ADSs in this offering, if the syndicate repurchases previously distributed ADSs to cover syndicate short positions or to stabilize the price of the ADSs. Any of these activities may raise or maintain the market price of the ADSs above independent market levels or prevent or retard a decline in the market price of the ADSs. The underwriters are not required to engage in these activities, and may end any of these activities at any time.

From time to time, the underwriters may have provided, and may continue to provide, investment banking and other financial advisory services to us, our officers or our directors for which they have received or will receive customary fees and commissions. In addition, from time to time, certain of the underwriters and their affiliates may effect transactions for their own account or the account of customers, and hold on behalf of themselves or their customers, long or short positions in our debt or equity securities or loans, and may do so in the future.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act and liabilities incurred in connection with the directed share program referred to below. If we are unable to provide this indemnification, we will contribute to payments that the underwriters may be required to make for these liabilities.

At our request, the underwriters have reserved for sale, at the initial public offering price, up to 6% of the ADSs offered in this offering (assuming that the underwriters do not exercise their option to purchase additional ADSs) to our directors, officers, employees, business associates and related persons. We will pay all fees and disbursements of counsel incurred by the underwriters in connection with offering the ADSs to such persons. Any sales to these persons will be made through a directed share program. The directed share program will be administered by Credit Suisse Securities (USA) LLC. The number of ADSs available for sale to the general public will be reduced to the extent such persons purchase such reserved ADSs. Any reserved ADSs not so purchased will be offered by the underwriters to the general public on the same basis as the other ADSs offered by this prospectus.

The address of Morgan Stanley & Co. International plc is 25 Cabot Square, Canary Wharf, London E14 4QA, United Kingdom. The address of Credit Suisse Securities (USA) LLC is Eleven Madison Avenue, New York, NY 10010, United States. The address of Merrill Lynch, Pierce, Fenner & Smith Incorporated is One Bryant Park, New York, NY 10036, United States.

Electronic Offer, Sale and Distribution of ADSs

A prospectus in electronic format may be made available on websites maintained by one or more underwriters, or selling group members, if any, participating in this offering. The representatives may agree to allocate a number of ADSs to underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by the representatives to underwriters that may make internet distributions on the same basis as other allocations. In addition, ADSs may be sold by the underwriters to securities dealers who resell ADSs to online brokerage account holders. Other than the prospectus in electronic format, the information on any underwriter's or selling group member's website and any information contained in any other website

Table of Contents

maintained by any underwriter or selling group member is not part of the prospectus or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any underwriter or selling group member in its capacity as underwriter or selling group member and should not be relied upon by investors.

Pricing of the Offering

Prior to this offering, there has been no public market for the ordinary shares or ADSs. The initial public offering price has been determined by negotiations between us and the representatives. Among the factors considered in determining the initial public offering price are our future prospects and those of our industry in general, our sales, earnings, certain other financial and operating information in recent periods, the price-earnings ratios, price-sales ratios and market prices of securities and certain financial and operating information of companies engaged in activities similar to ours, the general condition of the securities markets at the time of this offering, the recent market prices of, and demand for, publicly traded ordinary share of generally comparable companies, and other factors deemed relevant by the representatives and us. Neither we nor the underwriters can assure investors that an active trading market will develop for the ADSs, or that the ADSs will trade in the public market at or above the initial public offering price.

Selling Restrictions

No action has been taken in any jurisdiction (except in the United States) that would permit a public offering of the ADSs, or the possession, circulation or distribution of this prospectus or any other material relating to us or the ADSs in any jurisdiction where action for that purpose is required. Accordingly, the ADSs may not be offered or sold, directly or indirectly, and neither this prospectus nor any other offering material relating to the ADSs may be distributed or published, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof.

Australia. Any offer, invitation, transfer or issue of securities to any person located in, or a resident of, Australia may not occur unless the person is professional investor or sophisticated investor for the purposes of Chapter 6D, or a wholesale client for the purposes of Part 7.9, of the Corporations Act 2001 (Cth) (the Australian Corporations Act). This document has not been, and will not be, lodged with the Australian Securities and Investments Commission, Australian Securities Exchange or any other regulatory body or agency in Australia as a prospectus or product disclosure statement for the purposes of the Australian Corporations Act and is not required to, and does not, contain all the information which would be required in a prospectus or product disclosure statement under Australian law.

Any securities issued upon acceptance of the offering may not be offered for sale (or transferred, assigned or otherwise alienated) to any person located in, or a resident of, Australia for at least 12 months after their issue, except in circumstances where the person is a person to whom a disclosure document is not required to be given under Chapter 6D or Part 7.9 of the Australian Corporations Act. Accordingly, each investor acknowledges these restrictions and, by applying for securities under this document, gives an undertaking not to sell those securities (except in the circumstances referred to above) for 12 months after their issue.

Issuer has not been and will not be registered as a managed investment scheme under Chapter 5C of the Australian Corporations Act. The Issuer does not hold an Australian financial services license and it is not licensed to provide financial product advice in relation to the securities. Investors in Issuer do not have cooling off rights under Australian law.

Edgar Filing: Baozun Inc. - Form 424B4

This document does not take into account the investment objectives, financial situation or needs of any particular person. Accordingly, before making any investment decision in relation to this document, you should assess whether the acquisition of the securities is appropriate in light of your own financial circumstances or seek professional advice.

Cayman Islands. This prospectus does not constitute a public offer of the ADSs or ordinary shares, whether by way of sale or subscription, in the Cayman Islands. Each underwriter has represented and agreed that it has not offered or sold, and will not offer or sell, directly or indirectly, any ADSs or ordinary shares in the Cayman Islands.

Table of Contents

European Economic Area. In relation to each Member State of the European Economic Area which has implemented the Prospectus Directive (each, a Relevant Member State) an offer to the public of any ADS may not be made in that Relevant Member State, except that an offer to the public in that Relevant Member State of any ADS may be made at any time under the following exemptions under the Prospectus Directive, if they have been implemented in that Relevant Member State:

(a) to any legal entity which is a qualified investor as defined in the Prospectus Directive;

(b) to fewer than 100 or, if the Relevant Member State has implemented the relevant provision of the 2010 PD Amending Directive, 150, natural or legal persons (other than qualified investors as defined in the Prospectus Directive), as permitted under the Prospectus Directive, subject to obtaining the prior consent of the representatives for any such offer; or

(c) in any other circumstances falling within Article 3(2) of the Prospectus Directive, provided that no such offer of ADS shall result in a requirement for the publication by us or any underwriter of a prospectus pursuant to Article 3 of the Prospectus Directive.

For the purposes of this provision, the expression an offer of ADSs to the public in relation to any ADS in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any ADS to be offered so as to enable an investor to decide to purchase any ADS, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, the expression Prospectus Directive means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in the Relevant Member State, and the expression 2010 PD Amending Directive means Directive 2010/73/EU.

Japan. The ADSs have not been and will not be registered under the Financial Instruments and Exchange Act of Japan (Act No. 25 of 1948, as amended, the FIEA). Each of the underwriters has represented and agreed that it will not offer or sell any of the ADSs directly or indirectly in Japan or to, or for the benefit of any resident of Japan (as defined under Item 5, Paragraph 1, Article 6 of the Foreign Exchange and Foreign Trade Act (Act No. 228 of 1949, as amended)), or to others, for re-offering or re-sale directly or indirectly in Japan or to, or for the benefit of, a resident of Japan, except pursuant to an exemption from the registration requirements of, and otherwise in compliance with, the FIEA and any other applicable laws, regulations and ministerial guidelines of Japan.

Hong Kong. This offering document has not been approved by the Securities and Futures Commission in Hong Kong and, accordingly, (i) the ADS may not be offered or sold in Hong Kong by means of this offering document or any other document other than to professional investors as defined in the Securities and Futures Ordinance of Hong Kong (Chapter 571 of the Laws of Hong Kong) and any rules made thereunder or in other circumstances which do not result in the document being a prospectus as defined in the Companies (Winding-Up and Miscellaneous Provisions) Ordinance (Chapter 32 of The Laws of Hong Kong) or which do not constitute an offer to the public within the meaning of the Companies (Winding Up and Miscellaneous Provisions) Ordinance and (ii) no person shall issue or possess for the purposes of issue, whether in Hong Kong or elsewhere, any advertisement, invitation or document relating to the ADSs which is directed at, or the contents of which are likely to be accessed or read by, the public of Hong Kong (except if permitted to do so under the securities laws of Hong Kong) other than with respect to the ADSs which are or are intended to be disposed of only to persons outside Hong Kong or only to professional investors (as at above).

Singapore. Each underwriter acknowledges that this prospectus has not been registered as a prospectus with the Monetary Authority of Singapore, and the ADSs will be offered pursuant to exemptions under the Securities and Futures Act, Chapter 289 of Singapore (the Securities and Futures Act). Accordingly, each underwriter represents and agrees that it has not offered or sold any of the ADSs or caused the ADSs to be made the subject of an invitation for subscription or purchase and will not offer or sell any of the ADSs or cause the ADSs to be made the

Edgar Filing: Baozun Inc. - Form 424B4

subject of an invitation for subscription or purchase, and has not circulated or distributed, nor will it circulate or distribute, this prospectus and any other document or material in connection with the offer or sale, or

Table of Contents

invitation for subscription or purchase, of the ADSs, whether directly or indirectly, to any person in Singapore other than (a) to an institutional investor pursuant to in Section 274 of the Securities and Futures Act, (b) to a relevant person under Section 275(1) of the Securities and Futures Act in or to any person pursuant to Section 275(1A) of the Securities and Futures Act and in accordance with the conditions specified in Section 275 of the Securities and Futures Act, or (c) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the Securities and Futures Act.

Each of the following persons specified in Section 275 of the Securities and Futures Act which has subscribed or purchased the ADSs, namely a person who is:

(a) a corporation (which is not an accredited investor (as defined in Section 4A of the Securities and Futures Act)) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or

(b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an individual who is an accredited investor,

should note that shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest in that trust shall not be transferable for 6 months after that corporation or that trust has acquired the ADSs under Section 275 of the Securities and Futures Act except:

(i) to an institutional investor under Section 274 of the Securities and Futures Act or to a relevant person or to any person pursuant to Section 275(1) and Section 275(1A) of the Securities and Futures Act, respectively and in accordance with the conditions specified in Section 275 of the Securities and Futures Act; or

(ii) where no consideration is or will be given for the transfer; or

(iii) where the transfer is by operation of law; or

(iv) pursuant to Section 276(7) of the Securities and Futures Act; or

(v) as specified in Regulation 32 of the Securities and Futures (Offers of Investments) (Shares and Debentures) Regulations 2005 of Singapore.

United Kingdom. Each underwriter has represented, warranted and undertaken that:

Edgar Filing: Baozun Inc. - Form 424B4

(a) it has only communicated or caused to be communicated and will only communicate or cause to be communicated any invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (FSMA)) in connection with the issue or sale of the ADSs in circumstances in which Section 21(1) of the FSMA does not apply to us; and

(b) it has complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the ADSs in, from or otherwise involving the United Kingdom.

People's Republic of China. This prospectus may not be circulated or distributed in the PRC and the ADSs may not be offered or sold, and will not offer or sell to any person for re-offering or resale directly or indirectly to any resident of the PRC except pursuant to applicable laws and regulations of the PRC.

Table of Contents**EXPENSES RELATING TO THIS OFFERING**

Set forth below is an itemization of the total expenses, excluding underwriting discounts and commissions, expected to be incurred in connection with the offer and sale of the ADSs by us. With the exception of the SEC registration fee, NASDAQ Global Select Market listing fee and the Financial Industry Regulatory Authority Inc. filing fee, all amounts are estimates.

SEC registration fee	US\$ 17,895
NASDAQ Global Select Market listing fee	125,000
Financial Industry Regulatory Authority Inc. filing fee	30,550
Printing and engraving expenses	300,000
Legal fees and expenses	2,000,000
Accounting fees and expenses	800,000
Miscellaneous	700,000
Total	US\$ 3,973,445

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form F-1, including relevant exhibits and schedules under the Securities Act with respect to underlying ordinary shares represented by the ADSs, to be sold in this offering. We have also filed with the SEC a related registration statement on Form F-6 to register the ADSs. This prospectus, which constitutes a part of the registration statement, does not contain all of the information contained in the registration statement. You should read the registration statements on Form F-1 and Form F-6 and their exhibits and schedules for further information with respect to us and our ADSs.

Immediately upon completion of this offering we will become subject to periodic reporting and other informational requirements of the Exchange Act as applicable to foreign private issuers. Accordingly, we will be required to file reports, including annual reports on Form 20-F, and other information with the SEC. All information filed with the SEC can be inspected and copied at the public reference facilities maintained by the SEC at 100 F Street, N.E., Washington, D.C. 20549. You can request copies of these documents, upon payment of a duplicating fee, by writing to the SEC. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference rooms. You may also obtain additional information over the internet at the SEC's website at www.sec.gov.

As a foreign private issuer, we are exempt under the Exchange Act from, among other things, the rules prescribing the furnishing and content of proxy statements to shareholders, and our executive officers, directors and principal shareholders are exempt from the reporting and short-swing profit recovery provisions contained in Section 16 of the Exchange Act. In addition, we will not be required under the Exchange Act to file periodic reports and financial statements with the SEC as frequently or as promptly as U.S. companies whose securities are registered under the Exchange Act. However, we intend to furnish the depositary with our annual reports, which will include a review of operations and annual audited consolidated financial statements prepared in conformity with U.S. GAAP, and all notices of shareholders' meeting and other reports and communications that are made generally available to our shareholders. The depositary will make such notices, reports and communications available to holders of ADSs and, upon our written request, will mail to all record holders of ADSs the information contained in any notice of a shareholders' meeting received by the depositary from us.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of Baozun Inc. (formerly named as Baozun Cayman Inc.)

We have audited the accompanying consolidated balance sheets of Baozun Inc. (the "Company"), formerly named as Baozun Cayman Inc., its subsidiaries and variable interest entity (the "Group") as of December 31, 2012, 2013 and 2014, and the related consolidated statements of operations, comprehensive loss, changes in shareholders' deficit, and cash flows for each of the three years in the period ended December 31, 2014 and related financial statement schedule included in Schedule I. These consolidated financial statements and financial statement schedule are the responsibility of the Group's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2012, 2013 and 2014, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America. Also, in our opinion, such financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Our audits also comprehended the translation of Renminbi amounts into United States dollar amounts and, in our opinion, such translation has been made in conformity with the basis stated in Note 2. Such United States dollar amounts are presented solely for the convenience of readers in the United States of America.

Baozun Inc. (the Company), formerly named as Baozun Cayman Inc., was incorporated under the laws of Cayman Islands on December 18, 2013. The Company and its subsidiaries (collectively referred to as the Group) are principally engaged to provide their customers with end-to-end e-commerce solutions including the sales of apparel, home and electronic products, online store design and setup, visual merchandising and marketing, online store operations, customer services, warehousing and order fulfillment.

In March 2014, the Group expanded their business and commenced their own online marketplace, Maikefeng, which operates as a distinct website mkf.com and offers branded products at discounted prices. To comply with the PRC law and regulations which restrict foreign ownership of companies that provide value-added telecommunication services in China, Shanghai Baozun entered into a series of contractual arrangements in April and July 2014 with Shanghai Zunyi Business Consulting Ltd. (Shanghai Zunyi or VIE) and its respective shareholders through which the Company became the primary beneficiary of Shanghai Zunyi. Shanghai Zunyi was established in December 2010 and had no operations before July 2014. The Group began to consolidate Shanghai Zunyi in July 2014 upon entering into the VIE arrangements with Shanghai Zunyi.

As of December 31, 2014, the Company's major subsidiaries and VIE are as follows:

	Date of incorporation	Place of incorporation	Legal ownership
Subsidiaries:			
Baozun Hong Kong Holding Limited	10-Jan-14	HK	100%
Shanghai Baozun E-Commerce Limited	11-Nov-03	PRC	100%

Baozun Hongkong Limited	11-Sep-13	HK	100%
Shanghai Fengbo E-Commerce Limited	29-Dec-11	PRC	100%
VIE:			
Shanghai Zunyi Business Consulting Ltd.	31-Dec-10	PRC	N/A

History of the Group and reorganization under identical common ownership

The Group's history began in November 2003 with the commencement of operations of Shanghai Baozun E-Commerce Limited (Shanghai Baozun), a limited liability company incorporated by the People's Republic of China (PRC) by Mr. Vincent Wenbing Qiu, CEO of the Group, and five other individual founders (collectively known as the Founding Shareholders).

From December 2009 to September 2012, Alibaba Investment Limited (Alibaba), Private Opportunities (Mauritius) I Limited (Private Opportunities), GS Investment Partners (Mauritius) I limited (GS Investment), Stelca Holding Ltd (Stelca Holding), New Access Capital Fund (New Access), Crescent Castle Holdings Ltd (Crescent Castle) and Infinity I-China Investment (Israel) L.P (Infinity) (collectively known as the Investors) each acquired 25.16%, 5.81%, 3.88%, 1.53%, 3.86%, 24.80% and 6.46%, respectively of equity interest in Shanghai Baozun.

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

Starting December 2013, pursuant to a framework agreement entered into by the Founding Shareholders and all of the Investors, the Company undertook a series of reorganization transactions to redomiclie its business from PRC to the Cayman Islands (the Redomiciliation). The main purpose of the Redomiciliation is to establish a Cayman holding company for the existing business in preparation for its overseas initial public offering. The Redomiciliation was subject to PRC government approval and executed in the following steps:

1) In December 2013, the Company was incorporated in the Cayman Islands to be the holding company of the Group. The Founding Shareholders subscribed to 29,983,883 ordinary shares of the Company at par value of US\$0.0001 per share.

2) Upon obtaining all necessary approvals from the PRC government in May 2014, the Investors subscribed for convertible redeemable preferred shares at no consideration, all in the same proportions, on an as converted basis, as the percentage of equity interest they held in Shanghai Baozun in June 2014. Upon the issuance of preferred shares and ordinary shares issued in step 1), the equity structure of the Company is identical to that of Shanghai Baozun. See Note 17 for details of preferred shares issued to the Investors.

3) In July 2014, the Company legally acquired 100% of the equity interest of Shanghai Baozun from the Founding Shareholders and the Investors, thus Shanghai Baozun became a wholly owned subsidiary of the Company.

Upon the completion of the Redomiciliation, the Company's shares and per share information including the basic and diluted earnings (loss) per share have been presented retrospectively as of the beginning of the earliest period presented on the consolidated financial statements.

The VIE arrangements

Applicable PRC laws and regulations currently limit foreign ownership of companies that provide internet content distribution services. The Company is deemed a foreign legal person under PRC laws and accordingly subsidiaries owned by the Company are ineligible to engage in provisions of internet content or online services. The Group therefore conducts its online marketplace business, Maikefeng through its consolidated VIE, Shanghai Zunyi.

Shanghai Zunyi was established by two of the Company's Founding Shareholders in December 2010 and had no operations until July 2014 when the Group transferred the Maifeng online marketplace business to Shanghai Zunyi. To provide the Group effective control over Shanghai Zunyi and receive substantially all of the economic benefits of Shanghai Zunyi, Shanghai Baozun entered into a series of contractual arrangements, described below, with Shanghai Zunyi and its individual shareholders.

The agreements that provide the Company effective control over the VIE include:

(i) Proxy Agreement, under which each shareholder of Shanghai Zunyi has executed a power of attorney to grant Shanghai Baozun the power of attorney to act on his behalf on all matters pertaining to Shanghai Zunyi and to exercise all of his rights as a shareholder of Shanghai Zunyi, including but not limited to convene, attend and vote at shareholders' meetings, designate and appoint directors and senior management members. The proxy

(All amounts in thousands, except for share and per share data)

agreement will remain in effect unless Shanghai Baozun terminates the agreement by giving a 30-day prior written notice or gives its consent to the termination by Shanghai Zunyi.

(ii) Exclusive Call Option Agreement, under which the shareholders of Shanghai Zunyi granted Shanghai Baozun or its designated representative(s) an irrevocable and exclusive option to purchase their equity interests in Shanghai Zunyi when and to the extent permitted by PRC law. Shanghai Baozun or its designated representative(s) has sole discretion as to when to exercise such options, either in part or in full. Without Shanghai Baozun's written consent, the shareholders of Shanghai Zunyi shall not transfer, donate, pledge, or otherwise dispose any equity interests of Shanghai Zunyi in any way. The acquisition price for the shares or assets will be the minimum amount of consideration permitted under the PRC law at the time when the option is exercised. The agreement can be early terminated by Shanghai Baozun, but not by Shanghai Zunyi or its shareholders.

The agreements that transfer economic benefits to the Company include:

(i) Exclusive Technology Service Agreement, under which Shanghai Zunyi engages Shanghai Baozun as its exclusive technical and operational consultant and under which Shanghai Baozun agrees to assist in arranging the financial support necessary to conduct Shanghai Zunyi's operational activities. Shanghai Zunyi shall not seek or accept similar services from other providers without the prior written approval of Shanghai Baozun. The agreement has a term of twenty years and will be automatically renewed on a yearly basis after expiration unless otherwise notified by Shanghai Baozun, and shall be terminated if the operation term of either Shanghai Baozun or Shanghai Zunyi expires. Shanghai Baozun may terminate this agreement at any time by giving a prior written notice to Shanghai Zunyi.

(ii) Equity Interest Pledge Agreements, under which the shareholders of Shanghai Zunyi pledged all of their equity interests in Shanghai Zunyi to Shanghai Baozun as security of due performance of the obligations and full payment of consulting and service fees by VIE under the Exclusive Technology Service Agreement and other amounts payable by the individual shareholders to Shanghai Baozun under other agreements. If the shareholders of Shanghai Zunyi or Shanghai Zunyi breach their respective contractual obligations, Shanghai Baozun, as pledgee, will be entitled to certain rights, including the right to dispose the pledged equity interests. Pursuant to the agreement, the shareholders of Shanghai Zunyi shall not transfer, assign or otherwise create any new encumbrance on their respective equity interest in Shanghai Zunyi without prior written consent of Shanghai Baozun. The pledge shall be continuously valid until all the obligations and payments due under the Exclusive Technology Service Agreement and certain other agreements have been fulfilled.

Edgar Filing: Baozun Inc. - Form 424B4

These contractual arrangements allow the Company, through its wholly owned subsidiary, Shanghai Baozun, to effectively control Shanghai Zunyi, and to derive substantially all of the economic benefits from them. Accordingly, the Company treats Shanghai Zunyi as VIE and because the Company is the primary beneficiary of Shanghai Zunyi, the Company has consolidated the financial results of Shanghai Zunyi since July 2014.

U.S. GAAP provides guidance on the identification of VIE and financial reporting for entities over which control is achieved through means other than voting interests. The Group evaluates each of its interests in an entity to determine whether or not the investee is a VIE and, if so, whether the Group is the primary beneficiary

(All amounts in thousands, except for share and per share data)

of such VIE. In determining whether the Group is the primary beneficiary, the Group considers if the Group (1) has power to direct the activities that most significantly affects the economic performance of the VIE, and (2) receives the economic benefits of the VIE that could be significant to the VIE. If deemed the primary beneficiary, the Group consolidates the VIE.

Risks in relation to the VIE structure

The Company believes that the contractual arrangements with Shanghai Zunyi are in compliance with PRC law and are legally enforceable based on the legal advice of the Company's PRC legal counsel. However, uncertainties in the PRC legal system could limit the Company's ability to enforce these contractual arrangements and the interests of the shareholders of Shanghai Zunyi may diverge from that of the Company and that may potentially increase the risk that they would seek to act contrary to the contractual terms, for example by influencing Shanghai Zunyi not to pay the service fees when required to do so.

The Company's ability to control Shanghai Zunyi also depends on the power of attorney Shanghai Baozun has to vote on all matters requiring shareholder approval. As noted above, the Company believes this power of attorney is legally enforceable but may not be as effective as direct equity ownership. In addition, if the legal structure and contractual arrangements were found to be in violation of any existing PRC laws and regulations, the Group may be subject to fines and the PRC government could:

revoke the Group's business and operating licenses;

require the Group to discontinue or restrict the Group's operations;

restrict the Group's right to collect revenues;

block the Group's websites;

Edgar Filing: Baozun Inc. - Form 424B4

require the Group to restructure its operations in such a way as to compel the Group to establish a new enterprise, re-apply for the necessary licenses or relocate its businesses, staff and assets;

impose additional conditions or requirements with which the Group may not be able to comply; or

take other regulatory or enforcement actions against the Group that could be harmful to its business.

The imposition of any of these penalties may result in a material and adverse effect on the Group's ability to conduct its business. In addition, if the imposition of any of these penalties causes the Group to lose the rights to direct the activities of Shanghai Zunyi or the right to receive its economic benefits, the Group would no longer be able to consolidate the entity.

F-12

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

The following amounts and balances of Shanghai Zunyi were included in the Group's consolidated financial statement after the elimination of intercompany balances and transactions:

	As of December 31, 2014 RMB
Cash	3,803
Inventories	23,669
Advance to suppliers	1,061
Prepayments and other current assets	3,813
Property and equipment, net	108
Total assets	32,454
Accounts payable	569
Other current liabilities	3,678
Total liabilities	4,247

	For Year Ended December 31, 2014 RMB
Net revenues	21,038
Operating expenses	32,095
Net loss	(11,057)
Net cash provided by operating activities	3,911
Net cash used in investing activities	(118)
Net cash provided by financing activities	

Edgar Filing: Baozun Inc. - Form 424B4

The VIE contributed an aggregate of 1.33% of the consolidated net revenues for the year ended December 31, 2014 and an aggregate of 18.5% of the consolidated net loss for the year December 31, 2014. As of December 31, 2014, the VIE accounted for an aggregate of 3.71% of the consolidated total assets.

There are no assets of the VIE that are collateral for the obligations of the VIE and can only be used to settle the obligations of the VIE. There are no terms in any arrangements, considering both explicit arrangements and implicit variable interests that require the Company or its subsidiaries to provide financial support to the VIE.

However, if the VIE ever needs financial support, the Company or its subsidiaries may, at their option and subject to statutory limits and restrictions, provide financial support to the VIE through loans to shareholders of the VIE or entrustment loans to the VIE. Relevant PRC laws and regulations restrict the VIE from transferring a portion of their net assets, equivalent to the balance of its statutory reserve and its share capital, to the Company in the form of loans and advances or cash dividends.

2. Summary of Significant Principal Accounting Policies

(a) Basis of presentation

The consolidated financial statements are prepared and presented in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

(b) Basis of consolidation

The consolidated financial statements include the financial statements of the Company, its subsidiaries and VIE. All transactions and balances among the Company, its subsidiaries and the VIE have been eliminated upon consolidation.

(c) Use of estimates

The preparation of the consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, related disclosures of contingent liabilities at the balance sheet date, and the reported revenues and expenses during the reported period in the consolidated financial statements and accompanying notes. Significant accounting estimates are used for, inventory write-down, realization of deferred tax assets, assessment for useful life and impairment of long-lived assets, allowance for doubtful accounts, revenue recognition, valuation of ordinary shares and preferred shares and share-based compensation expense.

(d) Fair value

Fair value is the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. When determining the fair value measurements for assets and liabilities required or permitted to be recorded at fair value, the Group considers the principal or most advantageous market in which it would transact and it considers assumptions that market participants would use when pricing the asset or liability.

Authoritative literature provides a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The level in the hierarchy within which the fair value measurement in its entirety falls is based upon the lowest level of input that is significant to the fair value measurement as follows:

Edgar Filing: Baozun Inc. - Form 424B4

Level 1-inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2-inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3-inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The Group's consolidated financial instruments include cash and cash equivalents, restricted cash, accounts receivable, other current assets, amounts due from related parties, accounts payable, other current liabilities,

(All amounts in thousands, except for share and per share data)

amounts due to related parties and short-term bank borrowings. The carrying amounts of these short-term financial instruments approximate their fair values due to the short-term maturity of these instruments.

The Group did not carry any assets or liabilities as of December 31, 2012, 2013 and 2014 respectively, which were measured at fair value on non-recurring basis.

(e) Concentration and risks

Concentration of customers and suppliers

There were no customers individually representing 10% or more of revenues for the years ended December 31, 2012, 2013 and 2014.

The following customers accounted for 10% or more of balances of accounts receivable as of December 31, 2012, 2013 and 2014:

	As of December 31,		
	2012	2013	2014
	RMB	RMB	RMB
A	12,234	*	54,478
B	*	18,466	*

The following suppliers accounted for 10% or more of purchases for the years ended December 31, 2012, 2013 and 2014:

	For Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
C	108,704	219,697	304,578
D	*	212,742	*
E	*	153,214	212,345

Concentration of credit risk

Financial instruments that are potentially subject the Group to significant concentrations of credit risk primarily consist of cash and cash equivalents, restricted cash and accounts receivable. The Group places its cash with financial institutions located in PRC, Hong Kong and Taiwan. Accounts receivable are typically unsecured and are derived from revenues earned from customers in the PRC.

Foreign Currency Risk

Renminbi (RMB) is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. The cash and

(All amounts in thousands, except for share and per share data)

cash equivalents of the Group included aggregated amounts of RMB33,518, RMB152,681 and RMB188,226, which were denominated in RMB, at December 31, 2012, 2013 and 2014, respectively, representing 12.4%, 99.0% and 91.2% of the cash and cash equivalents at December 31, 2012, 2013 and 2014, respectively.

(f) Foreign currency translation

The Group's reporting currency is RMB. The functional currency of the Company is the United States dollar (US\$). The functional currency of the Group's entities incorporated in Hong Kong is Hong Kong dollars (HK\$). The functional currency of the Group's subsidiaries in PRC is RMB.

Assets and liabilities are translated from each entity's functional currency to the reporting currency at the exchange rate on the balance sheet date. Equity amounts are translated at historical exchange rates, and revenues, expenses, gains and losses are translated using the average rate for the year. Translation adjustments are reported as cumulative translation adjustments and are shown as a separate component of other comprehensive income (loss) in the consolidated statements of changes in shareholders' equity (deficit) and comprehensive loss.

Monetary assets and liabilities denominated in currencies other than the applicable functional currencies are translated into the functional currencies at the prevailing rates of exchange at the balance sheet date. Nonmonetary assets and liabilities are remeasured into the applicable functional currencies at historical exchange rates. Transactions in currencies other than the applicable functional currencies during the year are converted into the functional currencies at the applicable rates of exchange prevailing at the transaction dates. Transaction gains and losses are recognized in the consolidated statements of operations.

(g) Convenience translation

Edgar Filing: Baozun Inc. - Form 424B4

Translations of balances in the consolidated balance sheets, consolidated statements of operations, consolidated statements of comprehensive loss and consolidated statements of cash flows from RMB into US\$ as of and for the year ended December 31, 2014 are solely for the convenience of the readers and were calculated at the rate of US\$1.00 = RMB6.1990, representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on March 31, 2015. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on March 31, 2015, or at any other rate.

(h) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand, demand deposits and highly liquid investments with maturity of less than three months.

(i) Restricted cash

As of December 31, 2012, 2013 and 2014, the Group's restricted cash represents nil, RMB36,000 and RMB29,400 of bank deposits held as guarantee payments against letters of guarantee and nil, nil and RMB8,500 of bank deposits held as guarantee payment against the note payable issued by banks to the Group's suppliers.

As of December 31, 2012, 2013 and 2014, the bank had issued nil, RMB36,000 and RMB41,224 of letters of guarantee to the Group's suppliers. The terms of these letters of guarantees were within twelve to eighteen months.

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

(j) Accounts receivable, net

Accounts receivable mainly represent amounts due from customers and are recorded net of allowance for doubtful accounts. The Group considers many factors in assessing the collectability of its accounts receivable, such as the age of the amounts due, the customer's payment history, creditworthiness, financial conditions of the customers and industry trend. An allowance for doubtful accounts is recorded in the period in which a loss is determined to be probable. The Group also makes specific allowance if there is strong evidence indicating that the accounts receivable is likely to be unrecoverable. Accounts receivable balances are written off after all collection efforts have been exhausted.

(k) Inventories

Inventories, consisting of products available for sale, are valued at the lower of cost or market. Cost of inventories is determined using the weighted average cost method. Valuation of inventories is based on currently available information about expected recoverable value. The estimate is dependent upon factors such as historical trends of similar merchandise, inventory aging, historical and forecasted consumer demand and promotional environment.

(l) Investments

Equity investments of the Group are comprised of investments in privately-held companies. The Group uses the equity method to account for an equity investment over which it has significant influence but does not own a majority equity interest or otherwise control. The Group records equity method adjustments in share of earnings and losses. Equity method adjustments include the Group's proportionate share of investee income or loss, adjustments to recognize certain differences between the Group's carrying value and its equity in net assets of the investee at the date of investment, impairments, and other adjustments required by the equity method. Dividends received are recorded as a reduction of carrying amount of the investment. Cumulative distributions that do not exceed the Group's cumulative equity in earnings of the investee are considered as a return on investment and classified as cash inflows from operating activities. Cumulative distributions in excess of the Group's cumulative equity in the investee's earnings are considered as a return of investment and classified as cash inflows from investing activities. For equity investments over which the Group does not have significant influence or control, the cost method of accounting is used. Under the cost method, the Group carries the investment at cost and recognizes income to the extent of dividends received from the distribution of the equity

investee's post-acquisition profits.

(m) Property and equipment, net

Property and equipment are stated at cost less accumulated depreciation and impairment. Property and equipment are depreciated at rates sufficient to write off their costs less impairment and residual value, if any, over the estimated useful lives on a straight-line basis. The estimated useful lives and residual rates are as follows:

Classification	Useful years	Residual rate
Electronic devices	3 years	0% - 5%
Vehicles	5 years	5%
Furniture and office equipment	5 years	5%
Leasehold improvement	Over the shorter of the expected life of leasehold improvements or the lease term	0%

F-17

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

Repairs and maintenance costs are charged to expenses as incurred, whereas the cost of renewals and betterment that extends the useful lives of property and equipment are capitalized as additions to the related assets. Gains and losses from the disposal of property and equipment are included the consolidated statements of operations.

(n) Intangible assets, net

Intangible assets mainly consist of trademarks and internally developed softwares. Trademark is recorded at cost and amortized on a straight-line basis over the estimated economic useful lives of 10 years.

For internally developed softwares, the Group expenses all internal-use software costs incurred in the preliminary project stage and capitalized certain direct costs associated with development and purchase of internal softwares. Internally developed softwares mostly consisted of order management, customer management and retailing solution systems, which are amortized over 3 years on a straight-line basis.

(o) Impairment of long-lived assets

The Group evaluates the recoverability of long-lived assets with determinable useful lives whenever events or changes in circumstances indicate that an intangible asset's carrying amount may not be recoverable. The Group measures the carrying amount of long-lived asset against the estimated undiscounted future cash flows associated with it. Impairment exists when the sum of the expected future net cash flows is less than the carrying value of the asset being evaluated. Impairment loss is calculated as the amount by which the carrying value of the asset exceeds its fair value. Fair value is estimated based on various valuation techniques, including the discounted value of estimated future cash flows. The evaluation of asset impairment requires the Group to make assumptions about future cash flows over the life of the asset being evaluated. These assumptions require significant judgment and actual results may differ from assumed and estimated amounts. No impairment charge was recognized for any of the years ended December 31, 2012, 2013 and 2014.

(p) Revenue

The Group provides an integrated suite of e-commerce services to its brand partners which generates two types of revenues, including product sales and services revenue. Consistent with the criteria of *ASC 605, Revenue Recognition*, the Group recognizes revenues when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

The Group generates revenues from selling branded products directly to customers either under the distribution model or as an agent.

The Group evaluate whether it is appropriate to record proceeds from product sales as revenues at the gross amount or the net amount as commission fees earned in accordance with ASC 605-45-45.

Product Sales

Under the distribution model, the Group selects and purchases goods from its brand partners and/or their authorized distributors and sell goods directly to customers through online stores it operates or on its Maikefeng

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

platform. Revenue under the distribution model is recognized on a gross basis and presented as product sales on the consolidated statements of operations, because: (i) the Group, rather than the brand partner, is the primary obligor and is responsible to the customers for the key aspects of the fulfillment of the transaction including presales and after-sales services; (ii) the Group bears the physical and general inventory risk once the products are delivered to its warehouse; (iii) the Group has discretion in establishing price; and (iv) the Group has credit risk.

Product sales, net of return allowances, value added tax and related surcharges, are recognized when customers accept the products upon delivery. The Group offers online customers an unconditional right of return for a period of seven days upon receipt of products. Return allowances, which reduce revenue, are estimated based on historical data the Group has maintained and its analysis of returns by categories of products, and subject to adjustments to the extent that actual returns differ or expected to differ. The Group made gross return allowances against its revenue of RMB188, RMB265 and RMB331 for the years ended December 31, 2012, 2013 and 2014, respectively.

A majority of the Group's customers make online payments through third-party payment platforms when they place orders on websites of the Group's online stores. The funds will not be released to the Group by these third-party payment platforms until the customers accept the delivery of the products at which point the Group recognizes sales of products.

A portion of the Group's customers pay upon the receipt of products. The Group's delivery service providers collect the payments from its customers for the Group. The Group records a receivable on the balance sheet with respect to cash held by third-party couriers.

Shipping and handling charges are included in net revenues. The Group typically does not charge a shipping fee with order exceeding a certain sale amount. Shipping revenue has not been material for the three years presented. The Group's shipping costs are presented as part of its operating expenses.

Services

Edgar Filing: Baozun Inc. - Form 424B4

In some instances, the Group acts as an agent to facilitate the brand partners' online sales of their branded products. The Group does not take title to the products; it does not have any latitude in establishing prices and selecting merchandise; it has no discretion in selecting suppliers; and it is not involved in determining product specifications and cannot change the product. Based on these indicators, the Group has determined that revenue from its sales of products under these arrangements are service fees in nature. The Group records commission fees from its brand partners based on a pre-determined formula as service revenue in its consolidated statements of operations.

The Group also provides IT, online store operations, marketing and promotion, customer service, warehousing and fulfillment, and other services to its brand partners. Brand partners may elect to use the Group's comprehensive end-to-end e-commerce solutions or select specific elements of its e-commerce supporting infrastructure and service that best fit their needs. The Group charges its brand partners a combination of fixed fees and/or variable fees based on the value of merchandise sold or other variable factors such as number of orders fulfilled. Revenue generated from these service arrangements is recognized on a gross basis and presented as

F-19

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

services revenue on the consolidated statements of operations. All the costs that the Group incurs in the provision of the above services are classified as operating expenses on the consolidated statements of operations.

Revenue generated from IT service, and marketing and promotion services for brand partners are recognized when the services are rendered. Revenue generated from services relating to online store operations, customer services, and warehouse and fulfillment consisted of both fixed fees and variable fees based on the value of merchandise sold. The fixed fees are recognized as revenue ratably over the service period. Variable fees are recognized as revenue when they become determinable based on the value of merchandise sold and are confirmed by the brand partners.

Some of the Group's service contracts are considered as multiple element arrangements as they include provision of a combination of various services based on the brand partner's requirements. These contracts may include one-time online store design and setup services, marketing and promotion services, and continuous online store operation services and warehouse and fulfillment services over a period of time to the same brand partner.

The Group allocates arrangement consideration in multiple-deliverable revenue arrangements at the inception of an arrangement to all service revenues based on the relative selling price in accordance with the selling price hierarchy, which includes: (i) vendor-specific objective evidence (VSOE) if available; (ii) third-party evidence (TPE) if VSOE is not available; and (iii) best estimate of selling price (BESP) if neither VSOE nor TPE is available.

(q) Cost of products

Cost of products consists of the purchase price of products and inbound shipping charges, as well as inventory write-downs. Shipping charges to receive products from the suppliers are included in the inventories, and recognized as cost of products upon sale of the products to the customers. Cost of products does not include other direct costs related to cost of product sales such as shipping and handling expense, payroll and benefits of logistic staff, logistic centers rental expenses and depreciation expenses, etc. Therefore, the Group's cost of products may not be comparable to other companies which include such expenses in their costs of products.

(r) Rebates

The Group periodically receives consideration from certain vendors, representing rebates for products sold over a period of time. The Group accounts for the rebates received from its vendors as a reduction to the price it pays for the products purchased. Rebates are earned based on reaching minimum purchase thresholds for a specified period. When volume rebates can be reasonably estimated based on the Group's past experiences and current forecasts and purchase volume, a portion of the rebate is recognized as the Group makes progress towards the purchase threshold.

(s) Fulfillment

Fulfillment costs primarily represent shipping and handling expenses, payment processing and related costs, packaging material costs and those costs incurred in outbound shipping, operating and staffing the Group's

Table of Contents

BAOZUN INC.

(All amounts in thousands, except for share and per share data)

fulfillment and customer service center, including costs attributable to buying, receiving, inspecting and warehousing inventories; picking, packaging and preparing customer orders for shipment.

(t) Sales and marketing

Sales and marketing expenses primarily consist of payroll, bonus and benefits of sales and marketing staff, advertising costs, agency fees and costs for promotional materials. Advertising costs are expensed as incurred.

Advertising and promotion costs in connection with our provision of marketing and promotion services to brand partners consisted of fees we paid to third party vendors for advertising and promotion on various online and offline channels. Such costs were included as sales and marketing in the consolidated statements of operations and totaled RMB22,501, RMB56,059 and RMB114,777 for the years ended December 31, 2012, 2013 and 2014, respectively.

(u) Technology and content

Technology and content expenses primarily consist of technology infrastructure expenses, payroll and other related expenses for employees in the technology and system department, cost of editorial contents, and as well as costs associated with computer, storage and telecommunications infrastructure for internal use.

(v) General and administrative

Edgar Filing: Baozun Inc. - Form 424B4

General and administrative expenses primarily consist of payroll and related expenses for payroll, bonus and benefit costs for corporate employees, legal, finance, technical consulting, meeting expenses, rental fees and other corporate overhead costs.

(w) Government subsidies

Government subsidies consist of cash subsidies received by the Company's subsidiaries in the PRC from local governments. Subsidies received as incentives for conducting business in certain local districts with no performance obligation or other restriction as to the use are recognized when cash is received. Cash subsidies of RMB271, RMB988 and RMB1,780 were included in other operating income (expenses), net for the years ended December 31, 2012, 2013 and 2014, respectively. Subsidies received with performance obligations are recognized when all the obligations have been fulfilled. Cash subsidy of RMB3,030 was recorded in accrued expenses and other current liabilities as of December 31, 2014, which will be recognized when the performance obligation is satisfied.

(x) Share-based compensation

The Company grants share options to eligible employees, management and directors and accounts for these share-based awards in accordance with ASC 718 *Compensation - Stock Compensation*.

Employees' share-based awards are measured at the grant date fair value of the awards and recognized as expenses a) immediately at grant date if no vesting conditions are required; or b) using graded vesting method, net of estimated forfeitures, over the requisite service period, which is the vesting period.

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

All transactions in which goods or services are received in exchange for equity instruments are accounted for based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable.

The fair value of the share options were assessed using the income approach/discounted cash flow method, with a discount for lack of marketability given that the shares underlying the awards were not publicly traded at the time of grant. This assessment required complex and subjective judgments regarding the Company's projected financial and operating results, its unique business risks, the liquidity of its ordinary shares and its operating history and prospects at the time the grants were made. In addition, the binomial option-pricing model is used to measure the value of share options. The determination of the fair value is affected by the fair value of the ordinary shares as well as assumptions regarding a number of complex and subjective variables, including the expected share price volatility, actual and projected employee and non-employee share option exercise behavior, risk-free interest rates and expected dividends. The fair value of these awards was determined with the assistance from an independent valuation firm using management's estimates and assumption.

The assumptions used in share-based compensation expense recognition represent management's best estimates, but these estimates involve inherent uncertainties and application of management judgment. If factors change or different assumptions are used, the share-based compensation expenses could be materially different for any period. Moreover, the estimates of fair value of the awards are not intended to predict actual future events or the value that ultimately will be realized by grantees who receive share-based awards, and subsequent events are not indicative of the reasonableness of the original estimates of fair value made by the Company for accounting purposes.

Forfeitures are estimated at the time of grant and revised in the subsequent periods if actual forfeitures differ from those estimates.

(y) Income tax

Current income taxes are provided for in accordance with the laws of the relevant taxing authorities. The Group accounts for current income taxes on the basis of net income for financial reporting purposes, adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions.

Edgar Filing: Baozun Inc. - Form 424B4

The Group accounts for income taxes using the asset and liability method. Under this method, deferred tax assets and liabilities are determined based on the temporary differences between the financial statements carrying amounts and tax bases of existing assets and liabilities by applying enacted statutory tax rates that will be in effect in the period in which the temporary differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance when, based upon the weight of available evidence, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in the consolidated statements of operations in the period of change.

The impact of an uncertain income tax position on the income tax return is recognized at the largest amount that is more-likely-than-not to be sustained upon audit by the relevant tax authority. An uncertain income tax

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

position will not be recognized if it has less than a 50% likelihood of being sustained. Interest and penalties on income taxes will be classified as a component of the provisions for income taxes.

(z) Operating leases as lessee

Leases, including leases of offices and warehouses, where substantially all the rewards and risks of ownership of assets remain with the lessor are accounted for as operating leases. Payments made under operating leases are recognized as an expense on a straight-line basis over the lease term. The Group had no capital leases for any of the years stated herein.

(aa) Comprehensive income (loss)

Comprehensive income (loss) is defined to include all changes in equity except those resulting from investments by owners and distributions to owners. For the periods presented, the Group's comprehensive income (loss) includes net income (loss) and foreign currency translation adjustments and is presented in the consolidated statements of comprehensive income (loss).

(ab) Earnings (loss) per share

Basic earnings (loss) per ordinary share is computed by dividing net income (loss) attributable to ordinary shareholders by weighted average number of ordinary shares outstanding during the period.

The Company's convertible redeemable preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. Accordingly, the Company uses the two-class method whereby undistributed net income is allocated on a pro rata

Edgar Filing: Baozun Inc. - Form 424B4

basis to each participating share to the extent that each class may share in income for the period. Undistributed net loss is not allocated to preferred shares because they are not contractually obligated to participate in the loss allocated to the ordinary shares.

Diluted earnings (loss) per ordinary share reflects the potential dilution that could occur if securities were exercised or converted into ordinary shares. The Group had convertible redeemable preferred shares and stock options, which could potentially dilute basic earnings per share in the future. To calculate the number of shares for diluted income per share, the effect of the convertible redeemable preferred shares is computed using the as-if-converted method; the effect of the stock options is computed using the treasury stock method.

(ac) Recent accounting pronouncements

In July 2013, the Financial Accounting Standards Board (FASB) issued a pronouncement which provides guidance on financial statement presentation of an unrecognized tax benefit when a net operating loss

F-23

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

carryforward, a similar tax loss, or a tax credit carryforward exists. The FASB's objective in issuing this Accounting Standards Update (ASU) is to eliminate diversity in practice resulting from a lack of guidance on this topic in current U.S. GAAP. The amendments in this ASU state that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets. This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted. The Company has adopted this ASU and concluded that there is no material impact on our consolidated financial results or disclosures.

In May 2014, the FASB and International Accounting Standards Board (IASB) issued their converged standard on revenue recognition. The objective of the revenue standard ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)* is to provide a single, comprehensive revenue recognition model for all contracts with customers to improve comparability within industries, across industries, and across capital markets. The revenue standard contains principles that an entity will apply to determine the measurement of revenue and timing of when it is recognized. The underlying principle is that an entity will recognize revenue to depict the transfer of goods or services to customers at an amount that the entity expects to be entitled to in exchange for those goods or services. For public companies, the revenue standard is effective for the first interim period within annual reporting periods beginning after December 15, 2016 and early adoption is not permitted. The Company is in the process of evaluating the impact of the standard on its consolidated financial statements.

On August 27, 2014, the FASB issued ASU 2014-15, which provides guidance on determining when and how reporting entities must disclose going-concern uncertainties in their financial statements. The new standard requires management to perform interim and annual assessments of an entity's ability to continue as a going concern within one year of the date of issuance of the entity's financial statements (or within one year after the date on which the financial statements are available to be issued, when applicable). Further, an entity must provide certain disclosures if there is substantial doubt about the entity's ability to continue as a going concern. The ASU is effective for annual periods ending after December 15, 2016, and interim periods thereafter. Early adoption is permitted. The ASU shall be applied at the effective date, and the Company is in the process of evaluating the impact of the standard on its consolidated financial statements.

Edgar Filing: Baozun Inc. - Form 424B4

In November 2014, the FASB issued a new pronouncement which provides guidance on determining whether the host contract in a hybrid financial instrument issued in the form of a share is more akin to debt or to equity. The new standard requires management to determine the nature of the host contract by considering the

F-24

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

economic characteristics and risks of the entire hybrid financial instrument, including the embedded derivative feature that is being evaluated for separate accounting from the host contract. The new standard is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption, including adoption in an interim period, is permitted. The effects of initially adopting the amendments in this Update should be applied on a modified retrospective basis to existing hybrid financial instruments issued in the form of a share as of the beginning of the fiscal year for which the amendments are effective. The Group is assessing the effect of adoption of this guidance on the Group's consolidated financial statements.

3. Accounts receivable, net

Accounts receivable, net, consists of the following:

	As of December 31,		
	2012 RMB	2013 RMB	2014 RMB
Accounts receivable	57,955	108,415	229,910
Allowance for doubtful accounts:			
Balance at beginning of the year		(507)	(1,947)
Additions	(652)	(2,036)	(388)
Write-offs	145	596	1,927
Balance at end of the year	(507)	(1,947)	(408)
Accounts receivable, net	57,448	106,468	229,502

4. Inventories

Inventories consist of the following:

	As of December 31,		
	2012 RMB	2013 RMB	2014 RMB
Products	71,766	132,418	241,686
Packing materials and others	646	929	1,292
Inventories	72,412	133,347	242,978

Write-downs are recorded in cost of products in the consolidated statements of operations, which were RMB9,850, RMB11,992 and RMB12,497 for the years ended December 31, 2012, 2013 and 2014, respectively.

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)****5. Prepayments and other current assets**

Prepayments and other current assets consist of the following:

	As of December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Deposits ⁽¹⁾	5,099	5,667	2,876
Value-added tax (VAT) recoverable	621	6,660	17,396
Employee advances ⁽²⁾	4,459	2,854	4,261
Prepaid expenses	1,187	1,591	2,593
Deferral of initial public offering costs			2,128
Receivables from third-party couriers ⁽³⁾	293	950	1,344
Receivables from third-party payment processing agencies ⁽⁴⁾			5,646
Others	1,436	1,239	1,653
Prepayment and other current assets	13,095	18,961	37,897

- (1) Deposits represent rental deposits and deposits paid to third-party vendors.
- (2) Employee advances represent cash advanced to online store managers for store daily operation, such as online store promotion activities.
- (3) Receivables from third-party couriers represent cash collected from customers and held by third-party couriers, which were received by the Group within several days after the fiscal year end.
- (4) Receivables from third-party payment processing agencies represent cash that was received from customers but held by the processing agencies as of December 31, 2014. The receivables were collected by the Group subsequent to the year end.

6. Property and equipment, net

Property and equipment, net consists of the following:

	As of December 31,		
	2012 RMB	2013 RMB	2014 RMB
Electronic devices	6,799	13,678	18,398
Leasehold improvement	6,447	12,119	21,161

Total	14,374	27,466	45,790
Accumulated depreciation and amortization	(4,739)	(8,126)	(15,567)
Property and equipment, net	9,635	19,340	30,223

Depreciation and amortization expenses were RMB3,467, RMB4,910 and RMB8,710 for the years ended December 31, 2012, 2013 and 2014, respectively.

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)****7. Intangible assets, Net**

Intangible assets, net, consist of the following:

	As of December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Internally developed softwares	5,969	12,548	21,768
Trademarks	15	458	549
Accumulated amortization	(829)	(3,107)	(7,649)
Intangible assets, net	5,155	9,899	14,668

Amortization expenses for intangible assets were RMB811, RMB2,278 and RMB4,542 for the years ended December 31, 2012, 2013 and 2014, respectively.

8. Investments in cost method investees

As of December 31, 2012, 2013 and 2014, investments in cost method investees accounted for under the cost method were nil, RMB5,625 and RMB5,625, respectively. As of December 31, 2013 and 2014, the Group had equity investments in two private companies that operate in the online tool development business in the PRC. The Group held 5% and 10% equity interest in them, respectively.

Edgar Filing: Baozun Inc. - Form 424B4

The Group is required to perform an impairment assessment of its investments whenever events or changes in business circumstances indicate that the carrying value of the investment may not be fully recoverable. An impairment loss is recorded when there has been a loss in value of the investment that is other than temporary. No impairment was recorded for the years ended December 31, 2012, 2013 and 2014.

9. Short-term borrowings

Short term borrowings consist of the following:

	As of December 31,		
	2012 RMB	2013 RMB	2014 RMB
Chong qing Alibaba Small-loan Co., Ltd.	20,000		
Bank of China	15,000		
Standard Chartered Bank	11,519		
Hang Seng Bank	2,255		
	48,774		

On October 22, 2012, the Group entered into a short-term borrowing agreement with Chong qing Alibaba Small-loan Co., Ltd. As of December 31, 2012, the Group had borrowed RMB20,000 with a fixed interest rate of 18%. The loan was repaid on January 21, 2013.

On July 13, 2012, the Group entered into an one-year credit facility agreement with Bank of China with a maximum borrowing amount of RMB15,000. The facility was guaranteed by the personal properties of

three founding shareholders of the Group. As of December 31, 2012, the Group had drawn down RMB15,000 with a fixed interest rate of 5.60%. The loan was repaid and the credit facility was terminated on April 18, 2013.

On December 18, 2012, the Group entered into a two-year credit facility agreement with Standard Chartered Bank with a maximum borrowing amount of RMB12,000. No collateral or pledge was made by the Group for this facility. As of December 31, 2012, the Group had drawn down RMB11,519 with a fixed interest rate of 6.71%. The loan was repaid in March 2013 and the credit facility was terminated in September 2013.

On October 19, 2012, the Group entered into an one-year credit facility agreement with Hang Seng Bank with a maximum borrowing amount of RMB5,000. No collateral or pledge was made by the Group for this facility. As of December 31, 2012, the Group had drawn down RMB2,255, with a fixed interest rate of 6.44%. The loan was repaid in 2013 and the credit facility was terminated in June 2013.

On October 25, 2013, the Group entered into an one-year credit facility agreement with Ping An Bank with a maximum borrowing amount of RMB150,000. No collateral or pledge was made by the Group for this facility. As of December 31, 2013 and 2014, the Group had not drawn down the facility. The credit facility was terminated in September 2014.

On March 27, 2014, the Group entered into an one-year credit facility agreement with Hangzhou Bank with a maximum borrowing amount of RMB50,000. No collateral or pledge was made by the Group for this facility.

On June 1, 2014, the Group entered into an one-year credit facility agreement with China Merchants Bank with a maximum borrowing amount of RMB70,000. No collateral or pledge was made by the Group for this facility.

On September 24, 2014, the Group entered into an one-year credit facility agreement with Ping An Bank with a maximum borrowing amount of RMB200,000. If the facility were to be drawn down, inventory and/or restricted cash are required to be pledged.

Edgar Filing: Baozun Inc. - Form 424B4

On October 22, 2014, the Group entered into an one-year credit facility agreement with Guangzhou Development Bank with a maximum borrowing up to RMB10,000. No collateral or pledge was made by the group for the loan facility.

Throughout the years ended December 31, 2012, 2013 and 2014, the Group drew down RMB76,512 with interest rates ranging from 5.6% to 6.71%, RMB55,477 with interest rates ranging from 6.44% to 6.71% and RMB160,000 with interest rates ranging from 6.16% to 7.28% from the short-term bank facilities, and repaid RMB62,799, RMB84,251 and RMB160,000, respectively.

The Group had RMB330,000 short-term bank facilities available as of December 31, 2014.

F-28

11. Income tax

Under the current laws of the Cayman Islands, the Company is not subject to tax on income or capital gain. Additionally, the Cayman Islands does not impose a withholding tax on payments of dividends to shareholders.

Under the current Hong Kong Inland Revenue Ordinance, the Group's subsidiaries domiciled in Hong Kong are subject to 16.5% Hong Kong profit tax on their taxable income generated from operations in Hong Kong. Additionally, payments of dividends by the subsidiaries

Edgar Filing: Baozun Inc. - Form 424B4

incorporated in Hong Kong to the Company are not subject to any Hong Kong withholding tax.

Under the Law of the People's Republic of China on Enterprise Income Tax ("EIT Law"), the Group's subsidiaries domiciled in the PRC are subject to 25% statutory rate.

The current and deferred portion of income tax expenses included in the consolidated statements of operations, which were substantially attributable to the Group's PRC subsidiaries are as follows:

	For Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Current tax expenses		307	1,912
Deferred tax			
Income tax expenses		307	1,912

F-29

Promotion expenses accruals		1,936	1,996
Outsourced labor cost	616	1,679	1,984
Promotion expenses paid but tax invoices not received	2,485	1,305	1,322
Salary and welfare payable	787	1,157	1,997
Professional fee accruals	672	785	672
Marketing expenses accruals	493	740	1,215
Allowance for doubtful accounts	127	487	102
Interest payable	251		

Edgar Filing: Baozun Inc. - Form 424B4

Less: valuation allowance	(9,396)	(16,389)	(18,417)
Current deferred tax assets, net			
Non-current deferred tax assets:			
Net operating loss carry forward	11,309	13,160	8,318
Less: valuation allowance	(11,309)	(13,160)	(8,318)
Non-current deferred tax assets, net			

The Group considers positive and negative evidences to determine whether some portion or all of the deferred tax assets will be more likely than not realized. This assessment considers, among other matters, the nature, frequency and severity of recent losses and forecasts of future profitability. These assumptions require significant judgment and the forecasts of future taxable income are consistent with the plans and estimates the

F-30

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

Group is using to manage the underlying businesses. Valuation allowances are established for deferred tax assets based on a more likely than not threshold. The Group's ability to realize deferred tax assets depends on its ability to generate sufficient taxable income within the carry forward periods provided for in the tax law. The Group has provided a full valuation allowance for the deferred tax assets as of December 31, 2012, 2013 and 2014, respectively, as management is not able to conclude that the future realization of those net operating loss carry forwards and other deferred tax assets are more likely than not. Amounts of operating loss carry forwards were RMB45,236, RMB52,640 and RMB33,273 for the years ended December 31, 2012, 2013 and 2014, which are expected to be expired from 2016 to 2019.

Movement of the valuation allowance is as follows:

	For Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Balance as of January 1	9,641	20,705	29,549
Additions	11,064	8,844	
Reversals			(2,814)
Balance as of December 31	20,705	29,549	26,735

Uncertainties exist with respect to how the current income tax law in the PRC applies to the Group's overall operations, and more specifically, with regard to tax residency status. The EIT Law includes a provision specifying that legal entities organized outside of the PRC will be considered residents for Chinese income tax purposes if the place of effective management or control is within the PRC. The implementation rules to the EIT Law provide that non-resident legal entities will be considered PRC residents if substantial and overall management and control over the manufacturing and business operations, personnel, accounting and properties, occurs within the PRC. Despite the present uncertainties resulting from the limited PRC tax guidance on the issue, the Group does not believe that the legal entities organized outside of the PRC within the Group should be treated as residents for EIT Law purposes. If the PRC tax authorities subsequently determine that the Company and its subsidiaries registered outside the PRC should be deemed resident enterprises, the Company and its subsidiaries registered outside the PRC will be subject to the PRC income taxes, at a rate of 25%. The Group is not subject to any other uncertain tax position.

Edgar Filing: Baozun Inc. - Form 424B4

Aggregate accumulated deficit of the Company's subsidiaries and VIE located in the PRC was approximately RMB71,390, RMB127,449 and RMB93,122 at December 31, 2012, 2013 and 2014, respectively. Accordingly, no deferred tax liability has been accrued for the PRC dividend withholding taxes that would be payable upon the distribution of those amounts to the Company as of December 31, 2012, 2013 and 2014.

F-31

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)****12. Net loss per share**

Basic and diluted net loss per share for each of the years presented are calculated as follow:

	For Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Numerator:			
Net loss	(47,234)	(37,771)	(59,814)
Deemed dividend from issuance of preferred share	(4,683)		(16,666)
Change in redemption value of preferred shares	(16,231)	(61,435)	(79,169)
Net loss attributable to ordinary shareholders	(68,148)	(99,206)	(155,649)
Net loss per ordinary share - basic and diluted	(2.27)	(3.31)	(5.31)
Shares (Denominator):			
Weighted average number of ordinary shares - basic and diluted	29,983,883	29,983,883	29,314,067

The Group has determined that its convertible redeemable preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. The holders of the preferred shares are entitled to receive dividends on a pro rata basis, as if their shares had been converted into ordinary shares. Accordingly, the Group uses the two-class method of computing net income per share, for ordinary and preferred shares according to participation rights in undistributed earnings. However, undistributed net loss is only allocated to ordinary shareholders because holders of preferred shares are not contractually obligated to share losses.

As a result of the Group's net loss for the three years ended December 31, 2012, 2013 and 2014, Series A, B, C1, C2 and D preferred shares and share options outstanding in the respective periods were excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive.

		As of December 31,	
	2012	2013	2014
Number of Series A Shares outstanding	19,622,241	19,622,241	19,622,241
Number of Series B Shares outstanding	26,532,203	26,532,203	26,532,203
Number of Series C1 Shares outstanding	29,056,332	29,056,332	29,056,332
Number of Series C2 Shares outstanding			1,925,063
Number of Series D Shares outstanding			7,504,324
Share options	4,429,040	7,515,838	15,153,023

13. Related party transactions

The table below sets forth the major related party and their relationships with the Group as of December 31, 2014:

Name of related parties	Relationship with the Group
Alibaba Group Holding Limited (Alibaba Group)	Parent company of Alibaba, one of our preferred shareholders

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

(a) The Group entered into the following transactions with its related parties:

	For Year Ended December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Marketing service fees paid to Alibaba Group	28,546	52,617	69,072
Logistic service fees paid to Alibaba Group	1,022	3,328	1,603
Promotion service revenue generated from Alibaba Group	37,609	12,677	
Interest expense paid to Alibaba Group	890	13	
Store operation service revenue generated from Ahead			622
Commission fee paid to Ahead			484

(b) The Group had the following balances with its related parties:

	As of December 31,		
	2012	2013	2014
	RMB	RMB	RMB
Amounts due to Alibaba Group	12,000		
Amount due to Investors and Founding Shareholders			7,469
Amounts due from Alibaba Group	16,741	7,126	12,743
Amounts due from Ahead			2,406

Amounts due to Alibaba Group consisted of an entrust loan from Alibaba Group with interest rate of 10% with no collateral, which was paid off in 2013.

In connection with the Redomiciliation, as a condition to obtain PRC approval, the Company is required to demonstrate that it has sufficient funds to legally acquire 100% of the equity interest of Shanghai Baozun from the then shareholders of Shanghai Baozun which is determined to be approximately RMB69 million by the PRC government. In order to facilitate such approval process, the Founding Shareholders and the Investors advanced RMB20,963 and RMB47,978, respectively to the Company. As of December 31, 2014, the Company returned RMB61,472 to its Founding Shareholders and Investors after the Redomiciliation process was completed. The remaining RMB7,469 will be returned upon

the request of the Founding Shareholders and Investors.

Amounts due from Alibaba Group consisted of receivables of RMB16,741, RMB7,126 and RMB12,743 to be collected from Alibaba Group for promotion services provided by the Group and deposits paid as of December 31, 2012, 2013 and 2014, respectively.

Amounts due from Ahead consisted of receivables of RMB1,333 to be collected from Ahead for services provided by the Group and RMB1,073 for prepayment to Ahead as of December 31, 2014.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

14. Commitments

Operating Leases Agreements

The Group leases office space, service center and warehouses under non-cancellable operating lease agreements that expire at various dates through December 2019. During the three years ended December 31, 2012, 2013 and 2014, the Company incurred rental expenses amounted to RMB11,134, RMB11,758 and RMB15,947, respectively.

As of December 31, 2014, minimum lease payments under all non-cancellable leases were as follows:

	Year ended December 31, RMB
2015	18,923
2016	14,950
2017	6,380
2018	2,979
2019	1,530
Total lease commitment	44,762

15. Share-Based Compensation

On January 28, 2010, Shanghai Baozun's board of directors approved the Share Incentive Plan of Shanghai Baozun (the "Shanghai Baozun Plan"), which governs the terms of a variety of share-based incentive awards Shanghai Baozun can offer to employees, officers, directors and individual

consultants who render services to Shanghai Baozun.

In conjunction with the Redomiciliation in 2014, the Group adopted the 2014 Share Incentive Plan (2014 Plan), which was approved by the board of directors of the Company, to replace the Shanghai Baozun Plan. Under the 2014 Plan, the maximum aggregate number of shares that may be issued shall not exceed 20,331,467. The term of the option shall not exceed ten years from the date of grant. The awards granted and outstanding under the Shanghai Baozun Plan will survive and remain effective and binding under the 2014 Plan.

During the years ended December 31, 2012 and 2013, the Group granted 932,414 and 74,209 share options to senior management and a consultant, respectively. These share options have an exercise price of RMB0.1 and can be exercised immediately upon issuance.

Through December 2011, the Group granted 3,443,615 share options to directors, senior management and employees. During the year ended December 31, 2012, the Group granted 366,008 share options to directors, senior management and employees. These options have an exercise price of RMB0.1 and vest over 4 years subject to the following exercisability conditions:

50% of the vested options can be exercised if the Group generated profit (Profit Target),

20% of the vested options can be exercised if the Group achieved the annual sales target (Sales Target), and

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

30% of the vested options can be exercised if the option holder achieved the annual individual performance review target (Individual Target)

The Group recognized compensation expenses related to the options linked to Sales Target and Individual Target during the vesting period based on the probable outcome of these performance conditions. The Group has determined that it is probable these conditions will be met; as such the share-based compensation is recognized upon vesting of these share options.

The Group did not recognize any share-based compensation expense for 50% of the options granted linked to the Profit Target as this performance condition was considered not probable. In August 2011, the Group removed the Profit Target requirement for the first year of the vesting period of the options granted before this date; the unrecognized compensation cost based on the modification date fair value related to vested options associated with the Profit Target was recognized in August 2011. In October 2013, the Group removed the Profit Target requirement for the remainder of vested option associated with the Profit Target. The unrecognized compensation cost based on the modification date fair value related to vested options associated with the Profit Target was recognized in October 2013.

During the year ended December 31, 2013, the Group granted 3,525,191 share options to certain directors, senior management and employees. These options have an exercise price of RMB0.1 and vest over 4 years.

On August 29, 2014, the Group granted 5,903,533 share options to certain senior management. These share options have an exercise price of RMB0.1 per share and can be exercised immediately upon the issuance. The Group also granted 2,989,300 share options to certain employees and senior management. These shares options have an exercise price of RMB0.1 per share and vest over 4 years.

The Group has used the binomial model to estimate the fair value of the options granted under the 2014 Plan. The fair value per option was estimated at the date of grant using the following weighted-average assumptions:

2012	2013	2014
------	------	------

Edgar Filing: Baozun Inc. - Form 424B4

Risk-free interest rate	2.57%	2.59%	2.99%
Contract life	10 years	10 years	10 years
Expected volatility range	55.97%	50.68%	50.48%
Expected dividend yield	0.00%	0.00%	0.00%
Fair value of the underlying shares on the date of option grants (RMB)	3.47	5.93	13.32

The Group estimated the risk free interest rate based on the yield to maturity of U.S. treasury bonds denominated in USD and adjusted for country risk premium of PRC at the option valuation date. The expected volatility at the date of grant date and each option valuation date was estimated based on the annualized standard deviation of the daily return embedded in historical share prices of comparable peer companies with a time horizon close to the expected expiry of the term. The Group has never declared or paid any cash dividends on its capital stock, and the Group does not anticipate any dividend payments in the foreseeable future.

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

A summary of option activity under the 2014 Plan during the years ended December 31, 2012, 2013 and 2014 is presented below:

	Number of Options	Weighted Average Exercise Price RMB	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value of Options RMB
Outstanding, as of January 1, 2012	3,443,615	0.1		
Granted	1,298,422	0.1		
Forfeited	(312,997)			
Outstanding, as of December 31, 2012	4,429,040	0.1	8.03	
Granted	3,599,400	0.1		
Forfeited	(512,602)			
Outstanding, as of December 31, 2013	7,515,838	0.1	8.10	
Granted	8,892,833			
Forfeited	(1,255,648)			
Outstanding, as of December 31, 2014	15,153,023	0.1	8.60	
Vested and expected to vest as of December 31, 2014	14,479,082	0.1	8.62	
Exercisable as of December 31, 2014	9,895,552	0.1	8.25	144,399

The weighted-average grant-date fair value of the options granted in 2012, 2013 and 2014 was RMB3.47, RMB5.93 and RMB13.32 per share. The Group recorded compensation expense of RMB4,526, RMB11,506 and RMB84,963 for the years ended December 31, 2012, 2013 and 2014, respectively, which were classified in the accompanying consolidated statements of operations as follows:

For Year Ended December 31,
2012 2013 2014

Edgar Filing: Baozun Inc. - Form 424B4

	RMB	RMB	RMB
Fulfillment	73	584	460
Sales and marketing	685	5,822	5,469
Technology and content	159	1,608	26,311
General and administrative	3,609	3,492	52,723
	4,526	11,506	84,963

As of December 31, 2014, there was RMB48,121 of total unrecognized compensation expense related to unvested share options granted. That cost is expected to be recognized over a weighted-average period of 3.15 years.

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

16. Ordinary Shares

Upon the incorporation of the Company in December 2013, the Founding Shareholders of the Group subscribed 29,983,883 ordinary shares of the Company at par value of US\$0.0001. In August 2014, the Company repurchased 1,925,063 ordinary shares from the Founding Shareholders. As of December 31, 2014, the Company had 28,058,820 ordinary shares outstanding.

17. Convertible Redeemable Preferred Shares

On December 31, 2009 and August 19, 2010, Alibaba acquired 39.56% of equity interest of Shanghai Baozun with preference rights (Series A equity interests) for a total consideration of RMB32,732.

In January and June 2011, Crescent Castle and New Access acquired 27.55% of equity interests with preferential rights (Series B equity interests) for a total consideration of RMB119,120. In January 2011, Alibaba further acquired 7.29% of Series B equity interests for a total consideration of RMB12,859.

Series B equity interests have preferential rights to Series A equity interests and ordinary shares in respect of redemption and distribution of proceeds upon liquidation. Series A and Series B equity interests are automatically redeemed at a price equal to the subscription price plus interest at a per annum compounded rate of 12.5% in the event a Qualified IPO does not occur by December 31, 2015. Both Series A and Series B equity interests are automatically converted into ordinary shares on a 1:1 basis upon a Qualified IPO, but have no other stated conversion rights.

In September 2012, a group of investors including existing preferred share investors acquired 27.62% of equity interests with preferential rights (Series C1 equity interests) for an aggregate consideration of RMB266,240. The difference between the fair value of Series C1 Shares of RMB270,923 as determined by the Company with the assistance of independent valuation firm and the consideration paid by the investors was recognized as a deemed dividend in the amount of RMB4,683. Series C1 equity interests have preferential rights to Series B equity interests,

Edgar Filing: Baozun Inc. - Form 424B4

Series A equity interests, and ordinary shares in respect of distribution of proceeds upon liquidation. Series C1 equity interests are automatically redeemed at a price equal to the subscription price plus interest at a per annum compounded rate of 15% in the event a Qualified IPO does not occur by December 5, 2017. Series C1 equity interests are automatically converted into ordinary shares on a 1:1 basis upon a Qualified IPO, but have no other stated conversion rights.

In conjunction with the issuance of Series C1 equity interests, Shanghai Baozun modified the terms of Series A equity interests and Series B equity interests to extend the date of mandatory redemption from December 31, 2015 to December 5, 2017. Subsequent to this modification, Series C1 equity interests, Series B equity interests, and Series A equity interests contain the same terms with the exception of priority in liquidation or redemption (i.e., Series C1 equity interests have priority over Series B equity interests, which have priority over Series A equity interests, which have priority over ordinary shares). The change to Series A equity interests and Series B equity interests in September 2012 were limited to an extension of the mandatory redemption date on failure of the Company to consummate a Qualified IPO from December 31, 2015 to December 5, 2017, the Company does not consider this change as an extinguishment of Series A equity interests and Series B equity

(All amounts in thousands, except for share and per share data)

interest as the impact of this change was not significant. The extension of the mandatory redemption date did not increase the value of convertible redeemable preferred shares.

Upon the Redomiciliation as described in Note 1, Investors exchanged all of their Series A equity interests, Series B equity interests and Series C1 equity interests into 19,622,241 Series A convertible redeemable preferred shares (Series A Shares), 26,532,203 Series B convertible redeemable preferred shares (Series B Shares) and 29,056,332 Series C1 convertible redeemable preferred shares (Series C1 Shares) of the Company, respectively (collectively, Preferred Shares).

In August 2014, the Company repurchased 1,925,063 ordinary shares from the Founding Shareholders at a consideration of RMB20,964. At the same time, the Company issued 1,925,063 Series C2 convertible redeemable preferred shares (Series C2 Shares) at a consideration of RMB20,964 to several Series C1 investors. The difference between the fair value of Series C2 Shares of RMB37,630 as determined by the Company with the assistance of independent valuation firm and the consideration paid by the investors was recognized as a deemed dividend in the amount of RMB16,666.

In October 2014, the Company issued 7,504,324 shares of Convertible Redeemable Series D Preferred Shares (Series D shares), par value of US\$0.0001 per share to Tsubasa Corporation (Softbank) at a price of US\$3.20 (Equivalent of RMB19.69) per share for total consideration of RMB145,746.

The key terms of the Preferred Shares after the Redomiciliation are as follows:

Conversion

Each holder of Preferred Shares shall have the right, at such holder's sole discretion, to convert all or any portion of the Preferred Shares into ordinary shares based on a one-for-one basis at any time. The initial conversion price is the issuance price of Preferred Shares, subject to adjustment in the event of (1) stock splits, share combinations, share dividends and distribution, recapitalizations and similar events, and

Edgar Filing: Baozun Inc. - Form 424B4

(2) issuance of new securities at a price per share less than the conversion price in effect on the date of or immediately prior to such issuance. In that case, the conversion price shall be reduced concurrently to the subscription price of such issuance.

The Preferred Shares will be automatically converted into ordinary shares at the then applicable conversion price upon the earlier of (1) the closing of a Qualified Initial Public Offering, or (2) the date specified by written consent or agreement of majority holders of Preferred Shares.

Voting Rights

The Preferred Shareholders are entitled to vote with ordinary shareholders on an as-converted basis. The holders of the Preferred Shares also have certain veto rights including, but not limited to, an increase or decrease in the total number of directors and change of board composition, appointment or removal of senior management, approval of business plan and operating budget, dividend declaration, any merger, split, reorganization or consolidation.

Dividends

The Preferred Shareholders participate in dividends on an as-converted basis and must be paid prior to any payment on ordinary shares.

Redemption

Series D Shares:

At any time after October 29, 2019, or the date of the occurrence of a material breach by any of the Group's entities, holder of Series D Shares may, at any time thereafter require that the Company redeem all or a portion of the Series D Shares by such holder at a redemption price per share equal to the sum of: (i) an amount equal to the original issuance price plus annual rate of return of 15% from the date that such holder made payment to Baozun, and (ii) all dividends accrued and unpaid with respect thereto (as adjusted for any share splits, share dividends, combinations, recapitalizations and similar transactions).

Series C1 and C2 Shares:

At any time after October 29, 2019, or the date of the occurrence of a material breach by any of the Group's entities, holder of Series C1 and C2 Shares may, at any time thereafter require that the Company redeem all or a portion of the Series C1 and C2 Shares by such holder at a redemption price per share equal to the sum of: (i) an amount equal to the original issuance price plus annual rate of return of 15% from the date that such holder made payment to Baozun, and (ii) all dividends accrued and unpaid with respect thereto (as adjusted for any share splits, share dividends, combinations, recapitalizations and similar transactions).

Series A and B Shares:

At any time after October 29, 2019, or the date of the occurrence of a material breach by any of the Group's entities, holder of Series A and B Shares may, at any time thereafter require that the Company redeem all or a portion of the Series A and B Shares by such holder at a redemption price per share equal to the sum of: (i) an amount equal to the original issue price plus annual rate of return of 12.5% from the date that such holder made payment to Baozun, and (ii) all dividends accrued and unpaid with respect thereto (as adjusted for any share splits, share dividends, combinations, recapitalizations and similar transactions).

In the event insufficient funds are available to pay in full the redemption price in respect of each Preferred Shareholders at any time, the sequence of redemption right of all series of preferred shares was as follows:

(1) Series D Shares

(2) Series C1 and C2 Shares

(3) Series B Shares

(4) Series A Shares

Table of Contents**BAOZUN INC.****(FORMERLY NAMED AS BAOZUN CAYMAN INC.)****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014****(All amounts in thousands, except for share and per share data)**

The following is the rollforward of the carrying amounts of Series A, Series B, Series C1, Series C2 and Series D shares for the three years ended December 31, 2012, 2013 and 2014:

	Series A RMB	Series B RMB	Series C1 RMB	Series C2 RMB	Series D RMB
January 1, 2012	43,986	146,165			
Issuance of Series C1 Shares			254,240		
Deemed dividend from issuance of Series C1 Shares			4,683		
Change in redemption value	201	16,030			
December 31, 2012	44,187	162,195	258,923		
Collection of subscription receivable of Series C1 Shares			12,000		
Change in redemption value	5,523	17,987	37,925		
December 31, 2013	49,710	180,182	308,848		
Issuance of Series C2 Shares				20,964	
Deemed dividend from issuance of Series C2 Shares				16,666	
Issuance of Series D Shares					145,746
Change in redemption value	6,214	21,943	46,328		4,684
December 31, 2014	55,924	202,125	355,176	37,630	150,430

The Company recognizes changes in the redemption value immediately as they occur and adjusts the carrying amount of the Preferred Shares to equal the redemption value at the end of each reporting period as if it were the redemption date for the Preferred Shares. The change in redemption value is recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in-capital. Once additional paid-in-capital has been exhausted, additional charges are recorded by increasing the accumulated deficit.

Liquidation

Edgar Filing: Baozun Inc. - Form 424B4

In the event of any liquidation, dissolution or winding up of the Company, either voluntary or involuntary, the holders of Preferred Shares are entitled to receive, prior to any distribution to the holders of ordinary shares, an amount per share equal to 150% of issue price plus all accrued or declared but unpaid dividend (the Preference Amount). After the Preference Amount has been paid, any remaining funds or assets legally available for distribution shall be distributed pro rata among the Preferred Shareholders together with ordinary shares.

In the event insufficient funds are available to pay in full the Preference Amount in respect of each Preferred Shareholders, the sequence of liquidation right of all series of preferred shares was as follows:

(1) Series D Shares

(1) Series C1 and C2 Shares

(2) Series B Shares

(3) Series A Shares

F-40

Table of Contents

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

A liquidation event includes, (i) any liquidation, dissolution or winding up of the Company, whether voluntary or involuntary; business license of Baozun or any renewal thereof is terminated, cancelled, or revoked; (ii) any sale of all or substantially all of the assets of the Group to a third party unaffiliated with any member of the Group; or (iii) the transfer (whether by merger, reorganization or other transaction) in which a majority of the outstanding voting power of the Company is transferred (excluding any sale of Shares by the Company for capital raising purposes).

18. Employee Benefit Plans

The Group's PRC subsidiaries are required by law to contribute a certain percentages of applicable salaries for retirement benefits, medical insurance benefits, housing funds, unemployment and other statutory benefits. The PRC government is directly responsible for the payments of such benefits. The Group contributed RMB11,763, RMB15,242 and RMB20,339 for the years ended December 31, 2012, 2013 and 2014, respectively, for such benefits.

19. Segment and Geographic Information

The Group has only one reportable segment since the Group does not distinguish revenues, costs and expenses between segments in its internal reporting, and reports costs and expenses by nature as a whole.

The Group's chief operating decision maker, who has been identified as the Chief Executive Officer, reviews the consolidated results when making decisions about allocating resources and assessing performance of the Group as a whole. The Group does not distinguish among markets or segments for the purpose of internal reports. The Group also does not track revenues by different types of products, as such, it is impracticable to present information about revenues from different product categories. Almost all sales are made to customers located in the PRC. As almost all the property and equipment of the Group located in the PRC, no geographical segments are presented.

20. Restricted Net Assets

Edgar Filing: Baozun Inc. - Form 424B4

Pursuant to the laws applicable to the PRC's foreign investment enterprises and local enterprises, the Company's entities in the PRC must make appropriation from after-tax profit to non-distributable reserve funds as determined by the Board of Directors of the Company.

The Company's subsidiaries and VIE, in accordance with the China Company Laws, must make appropriation from its after-tax profit (as determined under PRC GAAP) to non-distributable reserve funds including (i) statutory surplus fund, (ii) statutory public welfare fund and (iii) discretionary surplus fund. Statutory surplus fund is at least 10% of the after-tax profit as determined under PRC GAAP until such reserve has reached 50% of the registered capital of the respective company. Appropriation of the statutory public welfare fund and discretionary surplus fund are made at the discretion of the Company.

The appropriation to these reserves by the Group's PRC entities were nil, nil and RMB638 for the years ended December 31, 2012, 2013 and 2014. The accumulated reserves as of December 31, 2012, 2013 and 2014 were nil, nil and RMB638, respectively.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2012, 2013 AND 2014

(All amounts in thousands, except for share and per share data)

As a result of these PRC laws and regulations and the requirement that distributions by PRC entities can only be paid out of distributable profits computed in accordance with PRC GAAP, the PRC entities are restricted from transferring a portion of their net assets to the Group. Amounts restricted include paid-in capital and the statutory reserves of the Company's PRC subsidiaries and VIE. As of December 31, 2014, the aggregate amount of restricted capital and statutory reserves, which represented the amount of net assets of the relevant subsidiaries in the Group not available for distribution, was RMB3,621.

21. Subsequent Events

In February 2015, the Group granted 3,949,975 share options to certain of the Group's management and employees at an exercise prices of RMB9.3 to RMB17.8. The options expire ten years from the date of grant. The share options vest ratably at each grant date anniversary over a period of four years.

ADDITIONAL FINANCIAL INFORMATION OF PARENT COMPANY -

FINANCIAL STATEMENTS SCHEDULE I

BAOZUN INC.

(FORMERLY NAMED AS BAOZUN CAYMAN INC.)

FINANCIAL INFORMATION OF PARENT COMPANY

NOTES TO SCHEDULE I

1) Schedule I has been provided pursuant to the requirements of *Rule 12-04(a)* and *5-04(c)* of *Regulation S-X*, which require condensed financial information as to the financial position, changes in financial position and results of operations of a parent company as of the same dates and for the same periods for which audited consolidated financial statements have been presented when the restricted net assets of consolidated subsidiaries exceed 25 percent of consolidated net assets as of the end of the most recently completed fiscal year.

2) As disclosed in Note 1 to the consolidated financial statements, the Company was incorporated in December, 2013 in the Cayman Islands to be the holding company of the Group. The Company undertook a series of reorganization transactions to redomicile its business from PRC to the Cayman Island. The condensed statements of operations and comprehensive income in 2013 present the results of the Company's operation for the period from December 18, 2013 to December 31, 2013.

3) The condensed financial information has been prepared using the same accounting policies as set out in the consolidated financial statements except that the equity method has been used to account for investments in its subsidiaries and VIE. For the parent company, the Company records its investments in subsidiaries and VIE under the equity method of accounting as prescribed in *ASC 323, Investments-Equity Method and Joint Ventures*. Such investments are presented on the Condensed Balance Sheets as "Investment in subsidiaries and VIE" and the subsidiaries and VIE profit or loss as "Equity in income/loss of subsidiaries" on the Condensed Statements of Operations and Comprehensive Income. Ordinarily under the equity, an investor in an equity method investee would cease to recognize its share of the losses of an investee once the carrying value of the investment has been reduced to nil absent an undertaking by the investor to provide continuing support and fund losses. For the purpose of this Schedule I, the parent company has continued to reflect its share, based on its proportionate interest, of the losses of subsidiaries and VIE regardless of the carrying value of the investment even though the parent company is not obligated to provide continuing support or fund losses.

4) As of December 31, 2013 and 2014, there were no material contingencies, significant provisions of long-term obligations, mandatory dividend or redemption requirements of redeemable stocks or guarantees of the Company.

5) Translations of balances in the additional financial information of Parent Company Financial Statements Schedule I from RMB into US\$ as of and for the year ended December 31, 2014 are solely for the convenience of the readers and were calculated at the rate of US\$1.00 =

Edgar Filing: Baozun Inc. - Form 424B4

RMB6.2046, representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on December 31, 2014. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on December 31, 2014, or at any other rate.

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)****1. Organization and Principal Activities**

Baozun Inc. (the "Company") was incorporated under the laws of Cayman Islands on December 18, 2013. The Company and its subsidiaries (collectively referred to as the "Group") are principally engaged to provide its customers with end-to-end e-commerce solutions including the sales of apparel, home and electronic products, online store design and setup, visual merchandising and marketing, online store operations, customer services, warehousing and order fulfillment.

In March 2014, the Group expanded their business and commenced their own online marketplace, Maifefeng, which operates as a distinct website mkf.com and offers branded products at discounted prices. To comply with the PRC law and regulations which restrict foreign ownership of companies that provide value-added telecommunication services in China, Shanghai Baozun entered into a series of contractual arrangements in April and July 2014 with Shanghai Zunyi Business Consulting Ltd. ("Shanghai Zunyi" or "VIE") and its respective shareholders through which the Company became the primary beneficiary of Shanghai Zunyi. Shanghai Zunyi was established in December 2010 and had no operations before July 2014. The Group began to consolidate Shanghai Zunyi in July 2014 upon entering into the VIE arrangements with Shanghai Zunyi.

As of March 31, 2015, the Company's major subsidiaries and VIE are as follows:

	Date of incorporation	Place of incorporation	Legal ownership
Subsidiaries:			
Baozun Hong Kong Holding Limited	10-Jan-14	HK	100%
Car Care Holdings Limited	28-Nov-14	Cayman	100%
Shanghai Baozun E-Commerce Limited	11-Nov-03	PRC	100%
Shanghai Bodao E-Commerce Limited	30-Mar-10	PRC	100%
Shanghai Yingsai Advertisement Limited	30-Mar-10	PRC	100%
Baozun Hongkong Limited	11-Sep-13	HK	100%
Shanghai Fengbo E-Commerce Limited	29-Dec-11	PRC	100%
VIE:			
Shanghai Zunyi Business Consulting Ltd.	31-Dec-10	PRC	N/A

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)*****Variable Interest Entity***

The following amounts and balances of Shanghai Zunyi were included in the Group's unaudited condensed consolidated financial statement after the elimination of intercompany balances and transactions:

	As of March 31, 2015 RMB
Cash	3,125
Accounts receivable	293
Inventories	21,288
Advance to suppliers	8,251
Prepayments and other current assets	3,020
Property and equipment, net	86
Intangible assets	55
Total assets	36,118
Accounts payable	1,753
Other current liabilities	531
Total Liabilities	2,284

	Three months ended March 31, 2015 RMB
Net revenues	19,968
Operating expenses	23,783
Net loss	(3,815)
Net cash provided by operating activities	8,246
Net cash used in investing activities	467
Net cash provided by financing activities	

Edgar Filing: Baozun Inc. - Form 424B4

The VIE contributed an aggregate of 4.18% of the consolidated net revenues for the three months ended March 31, 2015. As of March 31, 2015, the VIE accounted for an aggregate of 4.24% of the consolidated total assets.

There are no assets of the VIE that are collateral for the obligations of the VIE and can only be used to settle the obligations of the VIE. There are no terms in any arrangements, considering both explicit arrangements and implicit variable interests that require the Company or its subsidiaries to provide financial support to the VIE.

However, if the VIE ever need financial support, the Company or its subsidiaries may, at its option and subject to statutory limits and restrictions, provide financial support to its VIE through loans to the shareholders of the VIE or entrustment loans to the VIE. Relevant PRC laws and regulations restrict the VIE from transferring a portion of their net assets, equivalent to the balance of its statutory reserve and its share capital, to the Company in the form of loans and advances or cash dividends.

2. Summary of Significant Principal Accounting Policies

(a) Basis of presentation

The unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (" U.S. GAAP ") and applicable rules and regulations of the Securities and Exchange Commission, regarding interim financial reporting, and include all normal and recurring adjustments that management of the Group considers necessary for a fair presentation of its financial position and operating results. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to such rules and regulations. Accordingly, these statements should be read in conjunction with the Company ' s consolidated financial statements as of and for the three years in the period ended December 31, 2014.

(b) Basis of consolidation

The unaudited condensed consolidated financial statements include the financial statements of the Company, its subsidiaries and VIE. All transactions and balances among the Company, its subsidiaries and the VIE have been eliminated upon consolidation.

(c) Concentration and risks

Concentration of customers and suppliers

There are no customers individually representing 10% or more of revenues for the three months ended March 31, 2014 and 2015.

Edgar Filing: Baozun Inc. - Form 424B4

The following customers accounted for 10% or more of balances of accounts receivable as of March 31, 2015:

	As of March 31, 2015 RMB
A	78,520
B	32,539

The following suppliers accounted for 10% or more of purchases for the three months ended March 31, 2014 and 2015:

	For Three Months Ended March 31, 2014 RMB	2015 RMB
B	17,214	29,335
C	60,237	82,872
D	*	55,877

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015

(All amounts in thousands, except for share and per share data)

Concentration of credit risk

Financial instruments that potentially subject the Group to significant concentrations of credit risk primarily consist of cash and cash equivalents, restricted cash and accounts receivable. The Group places its cash with financial institutions located in the PRC, Hong Kong and Taiwan. Accounts receivable are typically unsecured and are derived from revenues earned from customers in the PRC and Hong Kong.

Foreign Currency Risk

Renminbi (RMB) is not a freely convertible currency. The State Administration for Foreign Exchange, under the authority of the People's Bank of China, controls the conversion of RMB into foreign currencies. The value of RMB is subject to changes in central government policies and to international economic and political developments affecting supply and demand in the China Foreign Exchange Trading System market. The cash and cash equivalents of the Group included aggregated amounts of RMB143,563, which were denominated in RMB, at March 31, 2015, representing 82% of the cash and cash equivalents at March 31, 2014.

(d) Convenience translation

Translations of balances in the unaudited condensed consolidated balance sheets, unaudited condensed consolidated statements of operations and unaudited condensed consolidated statements of comprehensive loss and unaudited condensed consolidated statements of cash flows from RMB into US\$ as of and for the three months ended March 31, 2015 are solely for the convenience of the readers and were calculated at the rate of US\$1.00=RMB6.1990, representing the noon buying rate set forth in the H.10 statistical release of the U.S. Federal Reserve Board on March 31, 2015. No representation is made that the RMB amounts could have been, or could be, converted, realized or settled into US\$ at that rate on March 31, 2015, or at any other rate.

(e) Restricted cash

Edgar Filing: Baozun Inc. - Form 424B4

As of March 31, 2015, the Group's restricted cash represents RMB30,990 of bank deposits held as guarantee payment against letters of guarantees and a note payable issued by the banks to the Group's suppliers.

As of March 31, 2015, the bank had issued RMB41,240 of letters of guarantees to the Group's suppliers. The terms of these letters of guarantees were within 12 to 18 months.

(f) Revenue

The Group provides an integrated suite of e-commerce services to its brand partners through two types of revenue models: direct product sales model and service fees model. Consistent with the criteria of *ASC 605, Revenue Recognition*, the Group recognizes revenues when the following four revenue recognition criteria are met: (i) persuasive evidence of an arrangement exists, (ii) delivery has occurred or services have been rendered, (iii) the selling price is fixed or determinable, and (iv) collectability is reasonably assured.

The Group generates revenues from selling branded products directly to customers under either the distribution model or as an agent.

The Group evaluate whether it is appropriate to record proceeds from product sales as revenues at the gross amount or the net amount as commission fees earned in accordance with ASC 605-45-45.

F-56

Table of Contents

BAOZUN INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015

(All amounts in thousands, except for share and per share data)

Product Sales

Under the distribution model, the Group selects and purchases goods from its brand partners and/or their authorized distributors and sell goods directly to customers through online stores it operates or on its Maifefeng platform. Revenue under the distribution model is recognized on a gross basis and presented as product sales on the consolidated statements of operations, because: (i) the Group, rather than the brand partner, is the primary obligor and is responsible to the customers for the key aspects of the fulfillment of the transaction including presales and after-sales services; (ii) the Group bears the physical and general inventory risk once the products are delivered to its warehouse; (iii) the Group has discretion in establishing price; and (iv) the Group has credit risk.

Product sales, net of return allowances, value added tax and related surcharges, are recognized when customers accept the products upon delivery. The Group offers online customers an unconditional right of return for a period of seven days upon receipt of products. Return allowances, which reduce revenue, are estimated based on historical data the Group has maintained and its analysis of returns by categories of products, and subject to adjustments to the extent that actual returns differ or expected to differ. The Group made gross return allowances against its revenue of RMB94 and RMB155 for the three months ended March 31, 2014 and 2015, respectively.

A majority of the Group's customers make online payments through third-party payment platforms when they place orders on websites of the Group's online stores. The funds will not be released to the Group by these third-party payment platforms until the customers accept the delivery of the products at which point the Group recognizes sales of products.

A portion of the Group's customers pay upon the receipt of products. The Group's delivery service providers collect the payments from its customers for the Group. The Group records a receivable on the balance sheet with respect to cash held by third-party couriers.

Shipping and handling charges are included in net revenues. The Group typically does not charge a shipping fee with order exceeding a certain sale amount. Shipping revenue has not been material for the periods presented. The Group's shipping costs are presented as part of its operating expenses.

Services

Edgar Filing: Baozun Inc. - Form 424B4

In some instances, the Group acts as an agent to facilitate the brand partners' online sales of their branded products. The Group does not take title to the products; it does not have any latitude in establishing prices and selecting merchandise; it has no discretion in selecting suppliers; and it is not involved in determining product specifications and cannot change the product. Based on these indicators, the Group has determined that revenue from its sales of products under these arrangements are service fees in nature. The Group records commission fees from its brand partners based on a pre-determined formula as service revenue in its consolidated statements of operations.

The Group also provides IT, online store operations, marketing and promotion, customer service, warehousing and fulfillment, and other services to its brand partners. Brand partners may elect to use the Group's

F-57

Table of Contents

BAOZUN INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(All amounts in thousands, except for share and per share data)

comprehensive end-to-end e-commerce solutions or select specific elements of its e-commerce supporting infrastructure and service that best fit their needs. The Group charges its brand partners a combination of fix fees and/or variable fees based on the value of merchandise sold or other variable factors such as number of orders fulfilled. Revenue generated from these service arrangements is recognized on a gross basis and presented as services revenue on the consolidated statements of operations. All the costs that the Group incurs in the provision of the above services are classified as operating expenses on the consolidated statements of operations.

Revenue generated from services relating to IT service, and marketing and promotion services for brand partners are recognized when the services are rendered. Revenue generated from services relating to online store operations, customer services, and warehouse and fulfillment consisted of both fixed fees and variable fees based on the value of merchandise sold. The fixed fee is recognized as revenue ratably over the service period. Variable fees are recognized as revenue when they become determinable based on the value of merchandise sold and confirmed by the brand partners.

Some of the Group's service contracts are considered multiple element arrangements as they include provision of a combination of various services based on the brand partner's requirements. These contracts may include one-time online store design and setup services, marketing and promotion services during certain holidays, and continuous online store operation services, warehouse and fulfillment services over a period of time to the same brand partner.

The Group allocates arrangement consideration in multiple-deliverable revenue arrangements at the inception of an arrangement to all service revenues based on the relative selling price in accordance with the selling price hierarchy, which includes: (i) vendor-specific objective evidence (VSOE) if available; (ii) third-party evidence (TPE) if VSOE is not available; and (iii) best estimate of selling price (BESP) if neither VSOE nor TPE is available.

(g) Sales and marketing

Sales and marketing expenses primarily consist of payroll, bonus and benefits of sales and marketing staff, advertising costs, agency fees and costs for promotional materials. Advertising costs are expensed as incurred.

Edgar Filing: Baozun Inc. - Form 424B4

Advertising and promotion costs in connection with the provision of marketing and promotion services to brand clients consisted of fees the Group paid to third party vendors for advertising and promotion on various online and offline channels. Such costs were included as sales and marketing in the unaudited condensed consolidated statements of operations and totaled RMB15,962 and RMB39,795 for the three months ended March 31, 2014 and 2015, respectively.

(h) Government subsidies

Government subsidies consist of cash subsidies received by the Company's subsidiaries in the PRC from local governments. Subsidies received as incentives for conducting business in certain local districts with no performance obligation or other restriction as to the use are recognized when cash is received. Cash subsidies of nil were included in other operating income (expenses), net for the three months ended March 31, 2014 and 2015, respectively. Subsidies received with performance obligations are recognized when all the obligations have been

F-58

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)**

fulfilled. Cash subsidy of RMB3,030 was recorded in accrued expenses and other current liabilities as of March 31, 2015, which will be recognized when the performance obligation is satisfied.

(i) Pro forma information

The pro forma balance sheet information as of March 31, 2015 assumes (i) the redesignation of 28,058,820 ordinary shares into 14,758,082 Class A ordinary shares and 13,300,738 Class B ordinary shares, which are convertible into an equal number of Class A ordinary shares at any time at the election of the holders of the Class B ordinary shares, upon completion of a qualified initial public offering; and (ii) the conversion of the outstanding Series A, Series B, Series C1, Series C2 and Series D convertible redeemable preferred shares into Class A ordinary shares using a conversion ratio of one for one upon completion of a qualified initial public offering.

Pro forma earnings per share is not presented because the effect of the conversion of the outstanding Series A, Series B, Series C1, Series C2 and Series D convertible redeemable preferred shares using a conversion ratio of one for one would not result in any dilution in net losses per share applicable to ordinary shareholders.

3. Accounts receivable, net

Accounts receivable, net, consists of the following:

	As of March 31, 2015 RMB
Accounts receivable	271,968
Allowance for doubtful accounts:	
Balance at beginning of the year	(408)
Additions	(650)
Reversal	388

Write-offs

Balance at end of the period	(670)
------------------------------	-------

Accounts receivable, net	271,298
--------------------------	---------

4. Inventories

Inventories consist of the following:

	As of March 31, 2015 RMB
Products	196,198
Packing materials and others	1,403
Inventories	197,601

Write downs are recorded in cost of products in the unaudited condensed consolidated statements of operations, which were RMB 2,646 and RMB 4,024 for the three months ended March 31, 2014 and 2015, respectively.

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)****5. Prepayments and other current assets**

Prepayments and other current assets consist of the following:

	As of March 31, 2015 RMB
Deposits ⁽¹⁾	2,646
Value-added tax (VAT) recoverable	7,544
Employee advances ⁽²⁾	2,117
Prepaid expenses	2,245
Deferral of initial public offering costs	6,280
Others	4,009
Prepayment and other current assets	24,841

(1) Deposits represent rental deposits and deposits paid to third-party vendors.

(2) Employee advances represent cash advanced to online store managers for store daily operation, such as online store promotion activities.

6. Property and equipment, net

Property and equipment, net consists of the following:

	As of March 31, 2015 RMB
Electronic devices	20,831
Leasehold improvement	26,388

Edgar Filing: Baozun Inc. - Form 424B4

Vehicle	2,541
Furniture and office equipment	4,963
Total	54,723
Accumulated depreciation and amortization	(18,667)
Property and equipment, net	36,056

Depreciation expenses were RMB1,803 and RMB3,281 for the three months ended March 31, 2014 and 2015, respectively.

F-60

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)****7. Intangible assets, Net**

Intangible assets, net, consist of the following:

	As of March 31, 2015 RMB
Internally developed software	23,569
Trademark	611
Accumulated amortization	(9,278)
Intangible assets, net	14,902

Amortization expenses for intangible assets were RMB1,062 and RMB1,629 for the three months ended March 31, 2014 and 2015, respectively.

8. Investments

As of March 31, 2015, investments accounted for under the cost method were RMB 5,625. As of March 31, 2015, the Group had equity investments in two private companies that operate in the online tool development business in the PRC, which the Group held 5% and 10% of equity interest in them, respectively.

On January 8, 2015, the Group and an unrelated party jointly established Automoney Inc. (Automoney), a company engages in the automobile performance solution business in the PRC. The Group and the third party investor each subscribed 50% of the equity interest upon formation of Automoney for a cash contribution of RMB10,562. The Group has paid its capital contribution of RMB10,562 as of March 31, 2015. The investment was accounted for under the equity method due to the significant influence that the Group has over the operating and financial policies of the investee. The Group recognized its share of the investee's loss of RMB1,824 for the three months ended March 31, 2015. The

Edgar Filing: Baozun Inc. - Form 424B4

summarized income statement information for Automoney:

	Three Months Ended March 31, 2015 RMB
Revenue	
Loss from operations	(3,648)
Net loss	(3,648)
Loss attributable to the Group's equity investment in Automoney	(1,824)

The Group is required to perform an impairment assessment of its investments whenever events or changes in business circumstances indicate that the carrying value of the investment may not be fully recoverable. An impairment loss is recorded when there has been a loss in value of the investment that is other than temporary. No impairment was recorded for the three months ended March 31, 2014 and 2015.

F-61

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)****9. Accrued expenses and other current liabilities**

Accrued expenses and other current liabilities consist of the following:

	As of March 31, 2015 RMB
Logistics expenses accruals	14,292
Marketing expenses accruals	12,943
Advances from customers	11,155
Salary and welfare payable	4,763
Other tax payable	4,400
Deferred government subsidy	3,030
Professional fee accruals	2,507
Outsourced labor cost	1,086
Others	3,235
Accrued expenses and other current liabilities	57,411

10. Short-term bank facilities

As of March 31, 2015, the Group had short-term credit facilities with a total maximum borrowing of RMB330,000 which will expire on various dates in 2015. RMB34,990 of these credit facilities have been restricted as guarantee on notes payable and letters of guarantee issued to the Group's suppliers. The Group had RMB295,010 short-term bank facilities available for future use as of March 31, 2015.

11. Income tax

Edgar Filing: Baozun Inc. - Form 424B4

The income tax expense (benefit) comprises:

	For the Three Months Ended March 31,	
	2014 RMB	2015 RMB
Current tax expense	308	1,713
Deferred tax		(2,699)
Income tax expense (benefit)	308	(986)

The effective tax rate is based on expected income and statutory tax rates. For interim financial reporting, the Group estimates the annual tax rate based on projected taxable income for the full year and records a quarterly income tax provision in accordance with the guidance on accounting for income taxes in an interim period. As the year progresses, the Group refines the estimates of the year's taxable income as new information becomes available. This continual estimation process often results in a change to the expected effective tax rate for the year. When this occurs, the Group adjusts the income tax provision during the quarter in which the change in estimate occurs so that the year-to-date provision reflects the expected annual tax rate.

The Company's effective tax rates were 14.87% and (34.96%) for the three months ended March 31, 2014 and 2015, respectively. The change in the effective tax rate is mainly due to taxable income of PRC subsidiaries of the Company and reversal of valuation allowance for deferred tax assets.

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)****12. Net income (loss) per share**

Basic and diluted net loss per share for each of the periods presented are calculated as follow:

	For the Three Months Ended March 31,	
	2014	2015
	RMB	RMB
Numerator:		
Net income	1,763	1,982
Change in redemption value of preferred shares	(17,074)	(25,332)
Net loss attributable to ordinary shareholders	(15,311)	(23,350)
Net loss per ordinary share basic and diluted	(0.51)	(0.83)
Shares (Denominator):		
Weighted average number of ordinary shares basic and diluted	29,983,883	28,058,820

The Group has determined that its convertible redeemable preferred shares are participating securities as the preferred shares participate in undistributed earnings on an as-if-converted basis. The holders of the preferred shares are entitled to receive dividends on a pro rata basis, as if their shares had been converted into ordinary shares. Accordingly, the Group uses the two-class method of computing net income per share, for ordinary and preferred shares according to participation rights in undistributed earnings. However, undistributed net loss is only allocated to ordinary shareholders because holders of preferred shares are not contractually obligated to share losses.

As a result of the Group's net loss for the three months ended March 31, 2014 and 2015, Series A, B, C1, C2 and D preferred shares and share options outstanding in the respective periods were excluded from the calculation of diluted loss per share as their inclusion would have been anti-dilutive.

Edgar Filing: Baozun Inc. - Form 424B4

	As of March 31,	
	2014	2015
Number of Series A Shares outstanding	19,622,241	19,622,241
Number of Series B Shares outstanding	26,532,203	26,532,203
Number of Series C1 Shares outstanding	29,056,332	29,056,332
Number of Series C2 Shares outstanding		1,925,063
Number of Series D Shares outstanding		7,504,324
Share options	7,344,563	19,004,276

13. Related party transactions

The table below sets forth the major related parties and their relationships with the Group as of March 31, 2015:

Name of related parties	Relationship with the Group
Alibaba Group Holding Limited (Alibaba Group)	Parent company of Alibaba, one of our preferred shareholders
Ahead (Shanghai) Trade Co., Ltd (Ahead)	Subsidiary of Softbank, one of our preferred shareholders
Automoney Inc. (Automoney)	Equity method investee of the Group

F-63

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)**

(a) The Group entered into the following transactions with its related parties:

	Three Months Ended March 31,	
	2014	2015
	RMB	RMB
Marketing service fees paid to Alibaba Group	11,083	18,872
Logistic service fees paid to Alibaba Group	899	190
Store operation service revenue generated from Ahead		857
Commission fee paid to Ahead		344

(b) The Group had the following balances with its related parties:

	As of March 31, 2015 RMB
Amount due to Investors and Founding Shareholders	7,469
Amounts due from Alibaba Group	9,975
Amounts due from Automoney	3,630
Amounts due from Ahead	1,993

In connection with the Redomiciliation, as a condition to obtain PRC approval, the Company is required to demonstrate that it has sufficient funds to legally acquire 100% of the equity interest of Shanghai Baozun from the then shareholders of Shanghai Baozun which is determined to be approximately RMB69 million by the PRC government. In order to facilitate such approval process, the Founding Shareholders and the Investors advanced RMB20,963 and RMB47,978, respectively to the Company. As of March 31, 2015, the Company returned RMB61,472 to its Founding Shareholders and Investors after the Redomiciliation process was completed. The remaining RMB7,469 will be returned upon the request of the Founding Shareholders and Investors.

Amounts due from Alibaba Group consisted of receivables of RMB9,975 to be collected from Alibaba Group for deposits paid as of March 31, 2015.

Edgar Filing: Baozun Inc. - Form 424B4

Amounts due from Automoney of RMB3,630 as of March 31, 2015 consisted of payment the Group made on behalf of Automoney to its business counter parties. These balances are repayable on demand, unsecured and interest free.

Amounts due from Ahead consisted of receivables of RMB1,422 to be collected from Ahead for services provided by the Group and RMB571 for prepayment to Ahead as of March 31, 2015.

14. Commitments

Operating Leases Agreements

The Group leases office space, warehouse, service center and warehouses under non-cancellable operating lease agreements that expire at various dates through January 2023. During the three months ended March 31, 2014 and 2015, the Company incurred rental expenses amounting to RMB3,620 and RMB5,074, respectively.

F-64

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)**

As of March 31, 2015, minimum lease payments under all non-cancellable leases were as follows:

	As of March 31, 2015 RMB
April to December, 2015	23,630
2016	26,942
2017	15,751
2018	11,827
2019	10,424
2020 and after	28,714
Total lease commitment	117,288

Investment commitment

The Group entered into a share purchase agreement with Beabloo, S.L in March 2015. Pursuant to the share purchase agreement, the Group agrees to purchase 4.35% of the equity interest in Beabloo, S.L. for total consideration of RMB6, 665, which has been paid in April 2015.

15. Share-Based Compensation

On February 6, 2015, the Group granted 3,949,975 share options to certain of the Group's management and employees at an exercise prices range of RMB9.2 to RMB17.6. The options expire ten years from the date of grant. The share options vest ratably at each grant date anniversary over a period of four years.

The Group has used the binomial model to estimate the fair value of the options granted under the 2014 Plan. The fair value per option was estimated at the date of grant using the following weighted-average assumptions:

	2015
Risk-free interest rate	2.61%
Contract life	10 years
Expected volatility range	48.78%
Expected dividend yield	0.00%
Fair value of the underlying shares on the date of option grants (RMB)	22.63

The Group estimated the risk free interest rate based on the yield to maturity of U.S. treasury bonds denominated in USD and adjusted for country risk premium of PRC at the option valuation date. The expected volatility at the date of grant date and each option valuation date was estimated based on the annualized standard deviation of the daily return embedded in historical share prices of comparable peer companies with a time horizon close to the expected expiry of the term. The Group has never declared or paid any cash dividends on its capital stock, and the Group does not anticipate any dividend payments in the foreseeable future.

F-65

Table of Contents**BAOZUN INC.****NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****FOR THREE MONTHS ENDED MARCH 31, 2014 AND 2015****(All amounts in thousands, except for share and per share data)**

A summary of option activity under the 2014 Plan during the three months ended March 31, 2015 is presented below:

	Number of Options	Weighted Average Exercise Price RMB	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value of Options RMB
Outstanding, as of December 31, 2014	15,153,023			
Granted	3,949,975			
Forfeited	(98,722)			
Outstanding, as of March 31, 2015	19,004,276	2.97	8.74	
Vested and expected to vest as of March 31, 2015	18,218,329	2.97	8.70	
Exercisable as of March 31, 2015	9,866,117	0.1	8.00	222,402

The weighted-average grant-date fair value of the options granted in 2015 was RMB14.11 per share. The Group recorded compensation expense of RMB1,587 and RMB5,662 for the three months ended March 31, 2014 and 2015, respectively, which were classified in the accompanying consolidated statements of operations as follows:

	Three Months Ended March 31, 2014 2015 RMB RMB	
Fulfillment	69	345
Sales and marketing	950	2,808
Technology and content	207	968
General and administrative	361	1,541
	1,587	5,662

Edgar Filing: Baozun Inc. - Form 424B4

As of March 31, 2015, there was RMB96,023 of total unrecognized compensation expense related to unvested share options granted. That cost is expected to be recognized over a weighted-average period of 3.38 years.

Other Equity Compensations

In March 2015, the Company's subsidiary, Car Care Holdings Limited (Car Care) signed equity compensation arrangements with four of Car Care's management. Under the agreement, the four senior management members received options to purchase an aggregate of 3,000,000 ordinary shares of Car Care. The options vests over a four-year service period, starting from March 2015. The fair value of Car Care was calculated based on the net asset value as Car Care was newly set up in January 2015. The fair value of these granted options was valued at RMB2,562.

F-66

The following is the rollforward of the carrying amounts of Series A, Series B, Series C1, Series C2 and Series D shares for the three months ended March 31, 2014 and 2015:

	Series A RMB	Series B RMB	Series C1 RMB	Series C2 RMB	Series D RMB
December 31, 2013	49,710	180,182	308,848		
Change in redemption value	1,465	4,780	10,829		
March 31, 2014	51,175	184,962	319,677		
December 31, 2014	55,924	202,125	355,176	37,630	150,430
Change in redemption value	1,648	5,957	12,453		5,274
March 31, 2015	57,572	208,082	367,629	37,630	155,704

The Company recognizes changes in the redemption value immediately as they occur and adjusts the carrying amount of the convertible redeemable preferred shares to equal the redemption value at the end of each reporting period as if it were the redemption date for the convertible redeemable preferred shares. The change in redemption value is recorded against retained earnings, or in the absence of retained earnings, by charges against additional paid-in-capital. Once additional paid-in-capital has been exhausted, additional charges are recorded by increasing the accumulated deficit.

17. Employee Benefit Plans

The Group's PRC subsidiaries are required by law to contribute a certain percentages of applicable salaries for retirement benefits, medical insurance benefits, housing funds, unemployment and other statutory benefits. The PRC government is directly responsible for the payments of such benefits. The Group contributed RMB4,395 and RMB5,983 for the three months ended March 31, 2014 and 2015, respectively, for such benefits.
