DEAR FELLOW SHAREHOLDER:

You are cordially invited to attend the Annual Meeting of Shareholders of BB&T Corporation at 11:00 a.m. (EDT) on Tuesday, April 26, 2016, at the Embassy Suites, 460 North Cherry Street, Winston-Salem, NC 27101. The matters scheduled for consideration at the meeting are described in detail in the 2016 Proxy Statement. Shareholders as of the record date of February 17, 2016 are invited to attend.

We are providing proxy materials to our common stock shareholders primarily through the Internet. We have found this process significantly lowers the cost of our annual proxy campaign. We urge you to read this year's proxy materials, which include our 2016 Proxy Statement and our Annual Report on Form 10-K that was filed with the Securities and Exchange Commission on February 25, 2016. Also included is a copy of the 2015 Annual Report that contains financial highlights, our letter to shareholders, and additional information about BB&T.

We encourage you to vote through the Internet or by telephone as soon as possible. If you received the proxy materials by mail you may complete, sign, and return the enclosed proxy card. Even if you plan to attend the meeting we strongly recommend that you vote your shares in advance.

The agenda for this year's Annual Meeting includes the following items:

Agenda Item	Board Recommendation
Election of 18 Directors named in the proxy statement	FOR EACH NOMINEE
Ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2016	FOR
Advisory vote to approve BB&T's executive compensation program	FOR

Please refer to the proxy statement for further details on the proposals to be voted on at the Annual Meeting. We trust that this presentation will satisfy your informational needs, and, at the same time, provide you with a better understanding of both the financial performance and strategic direction of BB&T.

Sincerely,

Kelly S. King
Chairman and Chief Executive Officer

Jennifer S. Banner
Independent Lead Director

Proxy Statement Summary

2015 Executive Compensation Overview

Strategic Accomplishments

Significant M&A activity, including the Susquehanna merger, drove meaningful growth in 2015

Obtained regulatory approvals and completed transactions at a time when there was limited bank M&A activity due to regulatory uncertainty

Announced and received regulatory approval for National Penn acquisition (expected to close April 1, 2016)

Efficient use of capital by investing in strategic M&A transactions that will enhance future earnings

Continued to improve risk governance framework, including capital and liquidity management

Continued to invest in critical infrastructure projects, including cyber-security preparedness and new general ledger and commercial lending systems

Corporate Performance

We've been able to grow as a company without sacrificing our vision, mission and values. We remain dedicated to creating superior long-term economic rewards for our shareholders. This can be seen in our peer-leading dividend yields and net interest margins. We remain committed to paying healthy dividends to our shareholders, while net interest income constitutes the primary source of our revenue.

Compensation Highlights

Our executive compensation philosophy is based upon providing performance incentives to executive management to generate returns while maintaining a prudent risk management culture. Features of our compensation program include:

Compensation and reward systems that are designed to support and drive our long-term strategic goals and produce positive business results;

A pay-for-performance culture that, for target compensation in 2015, tied more than 86% of our CEO's compensation and more than 79% of our other NEOs' compensation directly to our performance, resulting in only a small percentage of compensation being fixed from year to year;

Objective performance metrics (EPS, ROA and ROCE) that tie to the financial health and stability of our company;

Prudent oversight by our Compensation Committee, which may adjust payouts downward for negative risk outcomes, based upon a risk scorecard analysis; and

Awards that feature a broad-reaching clawback policy.

Assuring that we appropriately match executive compensation to our performance and to the long-term interests of our shareholders is extremely important to our CEO, Compensation Committee and the entire Board of Directors at BB&T. We encourage you to read our Compensation Discussion and Analysis, beginning on page 35 to learn more about our compensation programs.

Proxy Statement Summary

Notable Awards and Achievements

We are extremely proud of our accomplishments over the past year. Our associates work hard to build a best in class organization and in 2015 their efforts were recognized in the following ways:

American Banker magazine named CEO Kelly S. King banker of the year for 2015 and *SNL Financial* named him one of its Most Influential in banking in 2015 & 2014.

Bloomberg Markets magazine rated BB&T as one of the top 15 strongest banks in the world and one of the three strongest in the United States.

Our merger with Susquehanna Bancshares was named the M&A Deal of the Year (over \$1B to \$5B) by *The M&A Advisor*.

In our 7th annual Lighthouse Project in 2015, BB&T associates completed more than 1,000 community service projects, provided 57,000 volunteer hours, and helped change the lives of more than 1.7 million people.

Corporate Governance Highlights

Our Board of Directors believes that maintaining a strong corporate governance framework is essential to the continuing growth and success of BB&T. Below are several notable features of our corporate governance framework:

Active, Independent Board of Directors. Sixteen of our eighteen directors are independent, and our directors attended 99% of the Board and committee meetings held last year.

Independent Lead Director. Our Lead Director serves an important governance function by providing strong leadership for the non-management and independent directors.

Strategic Direction and Planning. Annually, the Board receives a detailed report on BB&T's strategic plan, goals and initiatives for the upcoming year and beyond with a view towards providing oversight, guidance and direction as to BB&T's long-term strategy.

New Compensation Consultant. As part of its responsibilities in maintaining strong governance practices in managing our compensation program, last year the Compensation Committee retained a new independent compensation consultant, Meridian Compensation Partners, to obtain a fresh perspective on our program.

Stock Ownership Guidelines. By requiring our CEO and directors to own stock equal to 5x their salary or annual retainer, as applicable, we effectively align their interests to those of our shareholders.

Pledging/Hedging of Shares. To reduce conflicts of interest, we have strong restrictions against pledging and hedging of our common stock by directors and Executive Management members.

Risk Oversight, Risk Aware Culture. We have developed a robust risk management organization with the purpose of providing independent oversight of our risk-taking activities.

Majority Voting for Director Elections. All director nominees in uncontested elections must be elected by an affirmative vote of the majority of votes cast.

Clawbacks and Executive Risk Scorecard. We make all awards (cash and equity) subject to recoupment and also may utilize our executive risk scorecard to adjust incentive compensation for negative risk outcomes.

Statement of Political Activity. We publish on our website a Statement of Political Activity, which describes our oversight process for political contributions and political activity.

Board Committees. We have five board committees, as indicated in the table below. Each committee has a written charter adopted by the Board that can be found on our website at www.bbt.com.

Proposal 1 Election of Directors

PROPOSAL 1 ELECTION OF DIRECTORS

We are asking you to reelect each of the eighteen director nominees listed below to continue serving on our Board of Directors for a one-year term expiring at the Annual Meeting of Shareholders in 2017. Each director nominee will require the affirmative vote of the majority of votes cast to be elected.

A properly executed proxy marked **FOR** any one of the eighteen nominees for director will be voted for each nominee indicated. A properly executed proxy marked **AGAINST** a nominee will be voted against that nominee for director. Marking the proxy card **ABSTAIN** for any of the nominees will have no effect on the vote.

Although our Board of Directors expects that each of the nominees will be available for election, if a vacancy in the slate of nominees occurs, it is intended that shares of BB&T common stock represented by proxies will be voted for the election of a substitute nominee, designated by the Board, or the Board may reduce the number of persons to be elected by the number of persons unable to serve. Holders of our common stock do not have cumulative voting rights in the election of directors.

The membership of our Board of Directors includes all of the board members of Branch Banking and Trust Company (our banking subsidiary), and vice-versa, resulting in the two boards having identical memberships. Matching the membership of these two boards provides for transparency and information sharing between both boards, which allows for better risk management, provides for administrative efficiencies, and takes advantage of the talent and experience provided by the members of each board. This structure is also in line with that of many of the financial services companies found in our Peer Group.

A candidate for election as a director of BB&T is nominated based on his or her professional experience, recognized achievement in his or her respective field, an ability to contribute to our business, his or her experience in risk management, and the willingness to make the commitment of time and effort required of a BB&T director over an extended period of time. Sound judgment and community leadership are important characteristics that members of our Board of Directors should possess. Each of our nominees has been identified as possessing good business acumen, strength of character, and an independent mind, as well as a reputation for integrity and the highest personal and professional ethics. Each nominee also brings a strong and unique background and set of skills to our Board of Directors, providing our Board with competence and experience in a wide variety of areas.

A Word of Appreciation

We would like to offer a word of thanks to directors Ronald E. Deal and John P. Howe III, M.D., who retired from our Board of Directors effective December 31, 2015. Mr. Deal has been a BB&T director since 1986, guiding BB&T through its transformation from a local North

Carolina bank into one of the largest financial services institutions in the nation. Dr. Howe has been a BB&T director since 2005, and his leadership has been instrumental in executing the company's vision and mission in the face of meaningful obstacles during one of the most pivotal periods of the company's history.

We thank Mr. Deal and Dr. Howe for their many valuable contributions to BB&T, and we wish them well in their future endeavors.

COMMITMENT TO BB&T

We are proud of our directors' devotion to BB&T. Our Board invests a substantial amount of time, effort, and energy in planning and executing our vision, mission and values. While each Board member has other professional commitments, no Board member is part of more than one other publicly-traded company Board. We believe that this commitment to BB&T helps promote our vision to become the Best of the Best. The following skills matrix shows the diverse range of expertise our directors provide to BB&T.

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE FOR EACH OF THE DIRECTOR NOMINEES NAMED ABOVE.

Table of Contents

Corporate Governance Matters

CORPORATE GOVERNANCE MATTERS

The Board of Directors periodically reviews BB&T's corporate governance policies, practices and procedures to see that we meet or exceed the requirements of applicable laws, regulations and rules. Our ultimate purpose is to create a strong, sound, and profitable financial services company with long-term growth and value for its shareholders.

Corporate Governance Guidelines

Our Corporate Governance Guidelines provide the framework for fulfillment of the Board's corporate governance duties and responsibilities, taking into consideration corporate governance best practices and applicable laws and regulations. The Corporate Governance Guidelines address a number of matters applicable to directors, including director qualification standards and director independence requirements, share ownership guidelines, Board responsibilities, role of the independent Lead Director, retirement, meetings of non-management directors, and Board compensation. A link to our Corporate Governance Guidelines can be found in the section below entitled "Corporate Governance Materials."

Director Independence

In determining director independence, our Board considers the New York Stock Exchange's (NYSE) bright-line independence criteria. Consistent with NYSE rules, our Board of Directors also broadly considers all other relevant facts and circumstances that bear on the materiality of each director's relationship with BB&T, including the potential for conflicts of interest, when determining director independence. To assist it in making independence determinations, our Board of Directors has adopted categorical standards which are contained in our Corporate Governance Guidelines. These director nomination and qualification standards reflect, among other items, the NYSE independence requirements, other applicable laws and regulations related to director independence, and address certain relationships that the Board has determined do not affect a director's independence.

To assist our Board in its determination of director independence, the Nominating and Corporate Governance Committee annually evaluates each prospective and incumbent director using the foregoing standards and such other factors as the Nominating and Corporate Governance Committee deems appropriate, and makes a recommendation to the Board regarding the independence or non-independence of each such person. As a part of this evaluation process, the Nominating and Corporate Governance Committee considers each director's occupation, other publicly held company directorships, personal and affiliate loan and non-loan transactions with BB&T and its subsidiaries, certain charitable contributions, relationships considered by the Nominating and Corporate Governance Committee in accordance with our Related Person Transactions Policy and Procedures, and other relevant direct and indirect relationships that may affect the prospective or incumbent director's

Edgar Filing: BB&T CORP - Form DEF 14A

independence. Banking relationships with BB&T or any of its subsidiaries (including deposit, investment, lending and fiduciary) that are conducted in the ordinary course of business on substantially the same terms and conditions as otherwise available to nonaffiliated customers for comparable transactions are not considered material in determining independence.

After duly considering all such information, our Board of Directors has affirmatively determined that of the eighteen members of the Board, the following sixteen directors have no disqualifying material relationships with BB&T or its subsidiaries and are independent: Messrs. Boyer, Faulkner, Kendrick, Lynn, Milligan, Patton, Reuter, Rich, Skains, Thompson, Welch and Williams, and Mmes. Banner, Cablik, Henry and Sears. The following two directors were deemed not independent due to certain disqualifying relationships with BB&T: Messrs. King and Qubein.

Corporate Governance Matters

In assessing the independence of Thomas Skains, the Board considered his occupation as the Chairman, President and Chief Executive Officer of Piedmont Natural Gas Company, Inc. Branch Bank paid Piedmont Natural Gas approximately \$228,000 in 2015, \$280,000 in 2014 and \$247,000 in 2013 for natural gas. Under Securities and Exchange Commission (SEC) rules, these transactions do not constitute Related Person Transactions because they involve the rendering of services by a public utility, at rates or charges fixed in conformity with law or governmental authority.

Board Composition

Our Board currently consists of eighteen directors. While that number of Board members is greater than the number we have maintained historically, we believe the Board's current size provides us with certain advantages. Over the last several years, financial institutions have faced increased regulatory and economic pressure. This has led to additional demands resulting in a greater time commitment on the part of our directors and executive officers. In response, we have expanded the number of Board committees and increased the responsibilities of each committee. The relatively large size of our Board has proved to be an advantage when assigning an appropriate number of members to each committee in order to properly analyze and respond to increasingly complex developments, whether regulatory, economic, or otherwise. The larger Board and committee size also allows for more effective challenge to proposals from management and directors and increases the diversity of views available to consider. In addition, the number of independent directors aids in maintaining the requisite independence standards of the Audit, Compensation, and Nominating and Corporate Governance committees. The Board believes that its current size and structure enables each director to effectively represent the interests of BB&T's shareholders.

Board Leadership Structure

CHAIRMAN OF THE BOARD AND CHIEF EXECUTIVE OFFICER

Our Board of Directors is led by the Chairman. Under our bylaws, the Chairman is elected by the Board and presides over each Board meeting and performs such other duties as may be incident to the office of Chairman. BB&T's bylaws and Corporate Governance Guidelines each provide that the Chairman may also hold the position of Chief Executive Officer. BB&T's Chairman and/or Chief Executive Officer is not permitted to serve as a member of any standing Board committee, other than the Executive Committee and the Risk Committee. BB&T's Corporate Governance Guidelines provide that when the position of Chairman of the Board is not held by an independent director, the Board will appoint an independent Lead Director.

Edgar Filing: BB&T CORP - Form DEF 14A

It is the Board's current belief that having a unified Chairman and Chief Executive Officer is appropriate and in the best interests of BB&T and our shareholders. The Board believes that combining the Chairman and Chief Executive Officer roles provides the following advantages to us:

our Chief Executive Officer is the director most familiar with BB&T's business and industry and is best situated to lead discussions on important matters affecting the business of BB&T;

combining the Chief Executive Officer and Chairman positions creates a firm link between management and the Board and promotes the development and implementation of corporate strategy; and

combining the roles of Chief Executive Officer and Chairman contributes to a more efficient and effective Board and does not undermine the independence of the Board.

Corporate Governance Matters

INDEPENDENT LEAD DIRECTOR

The role of the Lead Director is to assist the Chairman and the remainder of the Board in assuring effective governance in overseeing the direction and management of BB&T. The Lead Director serves a two-year term, subject to election to the Board each year by our shareholders, and may serve for one subsequent one-year term at the discretion of the Board. As enumerated in our Corporate Governance Guidelines, several of the Lead Director's specific responsibilities are to:

organize and preside over executive sessions;

preside at all Board meetings at which the Chairman is not present (including executive sessions);

take responsibility for feedback to/engagement with the Chief Executive Officer on executive sessions;

suggest matters and issues for inclusion on the Board agenda;

work with the Chairman and committee chairs to ensure that there is sufficient time for discussion of all agenda items; and

facilitate teamwork and communication among the independent directors and the Chairman.

In addition, if the Chairman of the Board should be unable to continue his or her responsibilities due to death, disability or other event, then the Lead Director shall call a special Board meeting within one week of the determination that the Chairman of the Board cannot continue his or her responsibilities, to elect a successor Chairman of the Board. Our Board believes that the Lead Director serves an important corporate governance function by providing separate leadership for the non-management and independent directors. Jennifer S. Banner serves as the Board's Lead Director.

EXECUTIVE SESSIONS OF THE BOARD

Our Corporate Governance Guidelines require that non-management directors meet in regular executive sessions of the Board at least three times per year and at such other times as it deems necessary or advisable. The Corporate Governance Guidelines also require independent directors to meet in executive session (without non-independent directors present) at least annually. The Lead Director presides over the non-management and independent director executive sessions.

Strategic Direction and Planning

One of the Board's most important and vital functions is to provide oversight, guidance and direction as to BB&T's long-term strategy. Accordingly, each January management provides to the Board a detailed report on BB&T's strategic plan, goals and initiatives for the upcoming year and beyond. The process includes an independent risk assessment to ensure all strategic activities are consistent with the board approved risk appetite parameters. Before it is approved, the Board engages in thorough and detailed discussions and deliberations over the strategic plan. The plan also includes reporting on management's success in executing on the prior year's strategic plan to ensure accountability.

Board Committees, Membership and Attendance

Under our Corporate Governance Guidelines, directors are expected to attend Board meetings, meetings of assigned committees, and annual meetings of shareholders. Each director is required to be sufficiently familiar with the business of BB&T, including our strategy, financial statements, capital structure, business risks and competition, to facilitate active and effective participation in such meetings. During 2015, the full Board of Directors held ten meetings. Each of the directors attended more than 75% of the Board of Directors' meetings and assigned committee meetings held in 2015 during the period for which he or she has been a director. All of our directors serving at that time attended the Annual Meeting of Shareholders in 2015, with the exception of one director, who could not attend due to health-related reasons.

Table of Contents

Corporate Governance Matters

Each member of the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee has been determined by the Board to be independent in accordance with the requirements of the NYSE (including the specific SEC and NYSE independence requirements for audit committee members and the specific NYSE independence requirements for compensation committee members) and BB&T's Corporate Governance Guidelines. See Director Independence above.

It is also anticipated that the Board committees will perform additional duties that are not specifically set out in their respective charters as may be necessary or advisable in order for us to comply with certain laws, regulations or corporate governance standards, as the same may be adopted, amended or revised from time to time. The current members of each committee, the principal functions of each committee and the number of meetings held in 2015 are shown below. Majority Voting and Director Resignation Policy

Our articles of incorporation generally require each director to be elected by the majority of the votes cast at a meeting of shareholders. Under the current Director Resignation Policy, any director nominee who receives a greater number of votes withheld than votes for such election shall tender his or her resignation to the Board. The Nominating and Corporate Governance Committee will then consider all of the relevant facts and circumstances and recommend to the Board whether to accept, reject or otherwise act with respect to such resignation. The Board will act on the Committee's recommendation within 130 days following certification of the shareholder vote and will publicly disclose its decision within this 130-day timeframe. A director whose resignation is under consideration will abstain from participating in any recommendation or decision regarding that resignation. If a director's resignation is not accepted, the director will continue to serve for the remainder of his or her term.

Currently, pursuant to North Carolina law and our bylaws, an incumbent director who is not re-elected remains in office until the director's successor is elected and qualified or until his or her earlier resignation or removal. Under our current majority voting standard, the Board retained its Director Resignation Policy to address this "holdover" issue, so that any director who does not receive the requisite affirmative majority of the votes cast for his or her re-election must tender his or her resignation to the Board pursuant to this Policy.

BB&T's Culture

We are very proud of our culture at BB&T, which has been deliberately developed and consistently articulated over the last 40-plus years. In a rapidly changing and unpredictable world, we believe individuals and organizations need a clear set of fundamental principles to guide their actions. At BB&T, we know our business will, and should, experience constant change. Change is necessary for progress. In any context, our vision, mission and values, are unchanging because these principles are based on basic truths.

We are a mission-driven organization with a clearly defined set of values. We encourage our associates to have a strong sense of purpose, a high level of self-esteem and the capacity to think clearly and logically. We believe a competitive advantage is largely in the minds of our associates and their capacity to turn rational ideas into actions that help us accomplish of our mission to make the world a better place to live by:

Helping our *clients* achieve economic success and financial security;

Creating a place where our *associates* can learn, grow and be fulfilled in their work;

Making the *communities* in which we work better places to be; and

Thereby optimizing the long-term return to our *shareholders*, while providing a safe and sound investment.

We realize our vision to create the best financial institution possible by meeting our responsibilities to our clients, associates, shareholders and communities. Our 10 values represent our over-arching beliefs. Our values are consistent with one another and integrated into a sound framework of character, judgment, success and happiness. Our focus on values grows from a belief that ideas matter and that an individual's character is of critical significance.

BB&T Values

Executive Management continually reinforces the BB&T culture (mission, vision and values) through a quarterly video, annual regional in-person visits and other internal communication channels.

Ethics at BB&T

Ethics matter at BB&T. We believe that the ultimate success of BB&T is directly related to the extent that each one of our associates lives and works every day by adhering to our BB&T values. Our collective beliefs, behaviors, and results define our BB&T culture – a Culture of Ethics. We are keenly focused on always doing what is right in all interactions with our stakeholders – our clients, associates, senior leaders, directors, communities and shareholders. We also value and respect the opinions and insights of associates at all levels throughout the organization. Accordingly, we encourage associates to raise concerns with their managers, but we also provide other channels such as regional associate relations managers, a BB&T Ethics Hotline and our Raise a Concern web reporting form. We appointed a Chief Ethics Officer in 2015 in furtherance of our commitment to, and focus on ethics.

We maintain three separate Board-approved Codes of Ethics that apply to our associates, senior financial officers and Directors. BB&T's Code of Ethics for Associates helps each of our associates understand the basic principles that govern our corporate conduct and the conduct of our associates generally. We similarly maintain a Code of Ethics for Directors, which governs the conduct of our directors generally. The Board also has adopted the Code of Ethics for Senior Financial Officers, which incorporates the Code of Ethics for Associates and also considers the importance of these individuals to our financial and regulatory reporting. For a copy of our Codes of Ethics, please refer to Corporate Governance Materials below. Any future waivers or substantive amendments of the Codes of Ethics applicable to our Directors and certain of our executive officers will be disclosed on our website.

Communications with the Board of Directors

Any shareholder or other interested party desiring to contact the Board of Directors or any individual director serving on the Board (including any specific non-management director or non-management directors as a group) may do so by written communication mailed to: Board of Directors, care of the Secretary, BB&T Corporation, 200 West Second Street, Winston-Salem, North Carolina 27101. Any proper communication so received will be processed by the Secretary as agent for the Board or an individually named director. Unless, in the judgment of the Secretary, the matter is not intended or appropriate for the Board (and subject to any applicable regulatory requirements), the Secretary will prepare a summary of the communication for prompt delivery to each member of the Board or, as appropriate, to the member(s) of the Board named in the communication.

Shareholder Engagement Program

Our shareholder engagement program is a formal and coherent system for building and maintaining relationships with our shareholders. Since 2009, we've engaged in a recurring dialogue with a number of our larger shareholders concerning corporate governance and executive compensation issues. In 2015, we expanded our shareholder engagement program and contacted 37 of our 50 largest shareholders, representing 38% of our outstanding shares. Our Compensation Committee Chair led meetings with four of our largest shareholders. We also reached out to each of the three shareholders that had submitted proposals at our 2013, 2014 and 2015 annual meetings. In addition, we met with certain of the proxy advisory firms followed by some of our largest shareholders.

Table of Contents

Corporate Governance Matters

The conversations centered on our executive compensation philosophy and design, including the Merger Completion Incentive Program announced last year. We also discussed corporate governance matters such as political contributions disclosure, sustainability reporting and proxy access. Overall, we received feedback that was generally supportive of our executive compensation programs and corporate governance practices. The feedback we received during these sessions was considered in our compensation decisions.

We believe that our shareholder engagement program allows Executive Management and the Board to gather information about investor concerns and make educated and deliberate decisions that are balanced and appropriate for our diverse shareholder base and in the best interests of BB&T. For additional information regarding our outreach efforts in 2015, please see [Shareholder Engagement](#) within our Compensation Discussion and Analysis section.

Environmental, Social, and Governance Report

We understand that it is important to our shareholders that we minimize our environmental impact, promote positive social efforts, and implement transparent governance practices. In order to emphasize our commitment to these areas, we expect to issue an annual Environmental, Social, and Governance report beginning in 2016. This publication will highlight our endeavors to act as good stewards of the natural resources entrusted to us and to promote the well-being of our associates and communities.

Statement of Political Activity

The Board of Directors oversees BB&T's political strategy, political contributions and lobbying expenses. BB&T periodically participates in policy debates on issues to support our interests and sponsors employee political action committees, or PACs, which allow associates to voluntarily pool their financial resources to support federal and state candidates who support legislation important to us, and our shareholders, clients and communities. All PAC expenditures are a matter of public record and are available for review on the websites of the Federal Election Commission and various state election offices. It is our policy not to use corporate funds to make contributions to political candidates, political parties or committees or political committees organized for the advancement of political candidates, including Super PACs or independent expenditure committees. In response to feedback we received during our shareholder engagement program in 2013, we have posted on our website a Statement of Political Activity which describes our Board and management oversight process for political contributions and political activity by the Corporation, including the activities of our Government Affairs Group. Please refer to [Corporate Governance Materials](#) below for its location.

Board Skills and Training Program

The Board Skills and Training Program (the Training Program) provides a formal framework designed to support the directors performance of their responsibilities as members of the Board and Board committees. The Training Program is based on knowledge, skills and resources curricula developed for the Board and each Board committee and individual learning plans are created for each director. Courses of general application are offered to the full Board while others are tailored to the specific requirements of the various Board committees. The directors participation is considered by the Nominating and Corporate Governance Committee in its annual evaluation of directors performance.

Policy for Accounting and Legal Complaints

The Audit Committee oversees a policy that governs the reporting of (a) associate complaints regarding accounting, internal accounting controls, or auditing matters and (b) evidence of (i) a material violation by the Corporation or any of its officers, directors, associates or agents, of federal or state securities laws, (ii) a material

breach of fiduciary duty arising under federal or state law, or (iii) a similar material violation when such evidence is obtained by an attorney authorized to appear or practice before the SEC. We have engaged an independent service provider to receive and track all such complaints. Most verified complaints are referred to BB&T's General Counsel, who is responsible for reviewing those complaints in accordance with BB&T's whistleblower procedures and reporting all relevant information regarding the nature of the complaint to the Audit Committee. Our General Counsel investigates or causes to be investigated all matters referred pursuant to this policy and maintains a record of such complaints that includes the tracking of the receipt of their referral, investigation and resolution. Generally, if such a complaint is raised by an attorney in our legal department, then the complaint will be referred to our Chief Executive Officer. The General Counsel (or the Chief Executive Officer, as the case may be) periodically prepares a summary report of such complaints for the Audit Committee, which oversees the consideration of all reported complaints covered by this policy. The telephone number for reporting complaints as described in this section is 800-432-1911. Please refer to Corporate Governance Materials below for the location of BB&T's Accounting, Securities and Legal Violations Policy.

Director Nominations

The Nominating and Corporate Governance Committee is responsible for selecting individuals who demonstrate the highest personal and professional integrity, have demonstrated exceptional ability and judgment and who are expected to be the most effective in serving the long-term interests of BB&T and its shareholders.

A director candidate is nominated to stand for election based on his or her professional experience, recognized achievement in his or her respective field, an ability to contribute to our business, his or her experience in risk management, and the willingness to make the commitment of time and effort required of a BB&T director over an extended period of time. A director must be financially literate, as defined by the Board, and should understand the intricacies of a public company. A director should possess good judgment, strength of character, and an independent mind, as well as a reputation for integrity and the highest personal and professional ethics. Other factors will be taken into consideration to assure that the overall composition of our Board is appropriate, such as occupational and geographic diversity and age. An important goal is to include members with diverse backgrounds, skills, and characteristics that, taken as a whole, will help ensure a strong and effective governing body. The Nominating and Corporate Governance Committee annually assesses the effectiveness of these factors in the director selection and nomination process.

Director nominees are recommended to the Board of Directors annually by the Nominating and Corporate Governance Committee for election by the shareholders. The Nominating and Corporate Governance Committee considers candidates submitted by directors, as well as self-nominations and, from time to time, it may consider candidates submitted by a third-party search firm hired for the purpose of identifying director candidates. The Nominating and Corporate Governance Committee conducts an extensive due diligence process to review potential director candidates and their individual qualifications, and all such candidates, including those submitted by shareholders, will be evaluated by the Nominating and Corporate Governance Committee using the Board membership criteria described above.

The Nominating and Corporate Governance Committee also will consider qualified director nominees recommended by shareholders when such recommendations are submitted in accordance with Article II, Section 10 of the Corporation's bylaws and policies regarding director nominations. Shareholders may submit, in writing, the names and qualifications of potential director nominees to the Secretary, BB&T Corporation, 200 West Second Street, Winston-Salem, North Carolina 27101, for delivery to the Chair of the Nominating and Corporate

company boards of directors; (v) the number and types of securities of the Corporation beneficially owned, if any, by the nominee; (vi) any agreements, understandings or arrangements between the nominee and any other person or persons with respect to the nominee's nomination or service on the Board of Directors or the capital stock or business of BB&T; (vii) any bankruptcy filings of the nominee or any affiliate of the nominee; (viii) any criminal convictions of the nominee or any affiliate of the nominee; (ix) any civil actions or actions by the Securities and Exchange Commission or other regulatory agency against the nominee or an affiliate of the nominee whereby they were found to have violated any Federal or State securities law; and (x) a signed statement by the nominee consenting to serve as a director if elected. The written notice also must be submitted in accordance with the general procedures for shareholder nominations (including deadlines for the notice to be received by the Secretary), which are summarized under the caption "Other Matters-Proposals for 2017 Annual Meeting of Shareholders" below. Any shareholder desiring to recommend a nominee for consideration by the Nominating and Corporate Governance Committee prior to the 2017 Annual Meeting must do so in accordance with our policies and bylaws.

Once a director nominee has been recommended, whether by a shareholder or otherwise, the Nominating and Corporate Governance Committee, in accordance with our Corporate Governance Guidelines, reviews the background and qualifications of the nominee. The Nominating and Corporate Governance Committee reports to the Board, in writing, its recommendations concerning each director nominee. The Board then considers the Nominating and Corporate Governance Committee's recommendations and finally selects those director nominees to be submitted by BB&T to shareholders for approval at the next annual meeting of shareholders.

Risk Oversight

BB&T's vision, mission and values are the foundation for the risk management framework utilized at BB&T and therefore serve as the basis on which the risk appetite and risk strategy are built. In keeping with the belief that consistent values drive long-term behaviors, the Risk Management Organization (RMO) has its own risk values that establish the guiding principles of our day-to-day activities:

We believe managing risk is the responsibility of every associate.

Our business units and corporate support groups are responsible for proactively identifying risk and managing the inherent risks of their business.

We manage risk with a balanced approach which includes quality, profitability, and growth.

We ensure the appropriate return for the risk taken.

We utilize accurate and consistent risk management practices.

Edgar Filing: BB&T CORP - Form DEF 14A

We thoroughly analyze risk quantitatively and qualitatively with judgments clearly identified.

We believe high quality risk management results in lower cost of capital.

We measure what we want to manage and we manage what we measure.

Corporate Governance Matters

As illustrated below, BB&T executes on its risk values through a risk management framework based on a three lines of defense model:

First Line of Defense: Risk management begins with the business units and corporate support groups, the point at which risk is originated and where risks must be managed. Business unit managers in the first line identify, assess, control, and report their respective group's risk profile.

Second Line of Defense: The RMO provides independent oversight and guidance of risk-taking across the enterprise. The RMO aggregates, integrates, and correlates risk information into a holistic picture of the corporation's risk profile and concentrations.

Third Line of Defense: Audit Services (BB&T's internal audit function) evaluates the design and effectiveness of the risk management framework and its results.

BB&T places significant emphasis on risk management and has a stand-alone Board-level Risk Committee which oversees risk reporting to the Board of Directors and functions as a significant part of our risk management framework. Among other things, the Risk Committee approves the Corporation's risk appetite statements, monitors the Corporation's risk profile, and provides input to management regarding the Corporation's risk appetite and risk profile. The other key functions of the Risk Committee are listed in the section above entitled, Board Committees, Membership and Attendance.

The RMO is led by the Chief Risk Officer (CRO) and is responsible for facilitating effective risk management oversight, measurement, monitoring, reporting, and consistency. The CRO has direct access to the Corporation's Board of Directors and Executive Management to communicate any risk issues (current or emerging) as well as the performance of the risk management activities throughout the enterprise. The CRO also chairs the Risk Management Committee (RMC), which provides oversight on a fully integrated view of risks across BB&T, including strategic, compliance, credit, liquidity, market, operational, and reputation risks.

The BB&T RMO is further expanded and strengthened through the designation of five Senior Risk Officers, or SROs. The Chief Commercial Credit Risk Officer, the Chief Retail Credit Risk Officer, the Chief Market and Liquidity Risk Officer, the Deputy Chief Risk Officer, and the Chief Regulatory and Compliance Risk Officer, together are responsible for ongoing aggregation, integration, correlation and reporting of the risks across our organization. Key to this effort is a bottoms-up risk identification and disclosure process that begins with the first line of defense. This business risk assessment process allows the SROs to report risks horizontally across various lines of business to identify emerging risk themes and evaluate strategies to mitigate, reduce, or avoid identified inherent risks. SROs communicate risks on a regular basis to enterprise level risk committees.

COMPENSATION HOLDBACK/CLAWBACK

We maintain a pay-for-performance philosophy which governs our incentive compensation programs. Our Compensation Committee administers all aspects of the executive compensation program as applicable to Executive Management, including risk management. For additional detail, please refer to Risk Management within Section 4 of the Compensation Discussion and Analysis.

At the direction of the Compensation Committee, management has established the management compensation committee as well as processes and controls for the design and evaluation of incentive plans utilized for associates outside of Executive Management. The management compensation committee is responsible for exercising authority to modify payments and impose or release holdbacks from incentive compensation arrangements, based on a risk review or regulatory requirements. The management compensation committee also has the authority to prescribe prospective changes to incentive compensation arrangements to ensure their balance, consistent with BB&T's safety and soundness. Risk and control functions are involved in the design, oversight, and administration of the incentive compensation programs used by the Corporation.

We have employed risk balancing in the design of incentive programs. For instance, our Compensation Committee, at its sole discretion, may reduce incentives and bonuses based on risk outcomes. See Executive Risk Scorecard within Section 3, and Compensation Clawbacks within Section 4 of the Compensation Discussion and Analysis.

Management Succession Planning

Management succession planning is a priority of the Board of Directors. Our Corporate Governance Guidelines provide that the Board of Directors is responsible for ensuring that we have developed an Executive Management succession plan, including procedures for Chief Executive Officer selection in the event of an emergency or the retirement of the CEO. This plan is reviewed and evaluated by the Board at least annually. The Lead Director leads the Board's review and evaluation of BB&T's Executive Management succession plan. As part of the plan, our Chairman and Chief Executive Officer, Kelly S. King, makes available his recommendations and evaluations of potential successors, along with a review of any development plans of such individuals. This process establishes procedures for planning and responding to events involving an absence of the CEO, whether for short- or long-term, and allows the Board to exercise its judgment and discretion with regard to the selection of a new CEO.

Section 16(a) Beneficial Ownership Reporting Compliance

Under the federal securities laws, our directors and certain of our executive officers are required to report their beneficial ownership of BB&T common stock and any changes in that ownership to the SEC. Specific deadlines for such reporting have been established by the SEC. We are required to report in this Proxy Statement any failure to timely file these reports that occurred in 2015. To the best of our knowledge, during 2015, all of the filing requirements were satisfied by our directors and executive officers subject to Section 16 of the Securities Exchange Act of 1934, as amended (Exchange Act). In making this statement, we have relied on the written representations of our directors and executive officers subject to Section 16 and copies of the reports that have been filed with the SEC.

Proposal 2 Ratification of the Appointment of PricewaterhouseCoopers LLP as Independent Registered Public Accounting Firm For 2016

PROPOSAL 2 RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2016

The Audit Committee is directly responsible for the appointment, compensation, retention and oversight of our independent registered public accounting firm. To execute on this responsibility, the Committee engages in a comprehensive annual evaluation of the independent registered public accounting firm's qualifications, performance and independence. The Audit Committee has carefully considered the selection of PricewaterhouseCoopers LLP (PwC) as its independent registered public accounting firm to audit and report on the consolidated financial statements of BB&T and the effectiveness of our internal control over financial reporting.

In accordance with SEC rules, audit partners are subject to rotation requirements to limit the number of consecutive years of service an individual partner may provide us with audit services. For lead and concurring audit partners, the maximum number of consecutive years of service in that capacity is five years. In connection with this mandated rotation, the Audit Committee is directly involved in the selection of any new lead engagement partner. The current lead PwC engagement partner was designated commencing with the 2015 audit and is eligible to serve in that capacity through the end of the 2019 audit.

Our shareholders are being asked to ratify the appointment of PwC for 2016 because we value our shareholders' views on BB&T's independent registered public accounting firm and as a matter of good corporate governance. Representatives of PwC are expected to be present at the Annual Meeting, will have an opportunity to make a statement if they so desire and are expected to be available to respond to questions posed by the shareholders. If shareholders do not ratify the decision of the Audit Committee to reappoint PwC as our independent registered public accounting firm for 2016, the Audit Committee will reconsider its decision.

THE BOARD OF DIRECTORS OF THE CORPORATION RECOMMENDS A VOTE FOR PROPOSAL 2 RATIFICATION OF THE APPOINTMENT OF PRICEWATERHOUSECOOPERS LLP AS BB&T'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2016.

Fees to Auditors

The following table shows the aggregate fees incurred by the Corporation for professional services by PwC for fiscal years 2015 and 2014:

	2015 (\$)	2014 (\$)
Audit Fees	9,146,000	8,185,000

Edgar Filing: BB&T CORP - Form DEF 14A

Audit-Related Fees	3,558,000	4,447,000
Tax Fees	176,000	431,000
All Other Fees	4,578,000	4,883,000
Total	17,458,000	17,946,000

Audit Fees. This category includes fees billed for professional services for the integrated audits of the Corporation's consolidated financial statements, including the audits of the effectiveness of our internal control over financial reporting, reviews of the financial statements included in our quarterly reports on Form 10-Q, statutory audits or other financial statement audits of subsidiaries, and comfort letters and consents related to SEC registration statements.

Table of Contents

Proposal 2 Ratification of the Appointment of PricewaterhouseCoopers LLP as Independent Registered Public Accounting Firm For 2016

Audit-Related Fees. This category includes fees billed for assurance and related services that are reasonably related to the performance of the audit of our consolidated financial statements and effectiveness of internal controls and are not reported under the audit fees category above. These services consist of fees for service organization control reports, other attestation engagements traditionally performed by the independent accounting firm, pre-implementation assessments of internal controls for a new enterprise resource planning system and related business processes, controls assessments as part of our regulatory reporting initiatives, due diligence services related to proposed acquisitions, and audits of our employee benefit plans.

Tax Fees. This category includes fees billed for tax-related services rendered, including tax compliance, tax planning, and tax advice.

All Other Fees. This category includes fees billed for advisory services provided in conjunction with the Corporation's regulatory reporting initiatives, mortgage advisory services, advisory services related to our adoption of a new enterprise resource planning system and other advisory services.

The Audit Committee considered the compatibility of the non-audit services performed by, and fees paid to, PwC in 2015 and determined that such services and fees are compatible with the independence of PwC.

Audit Committee Pre-Approval Policy

Under the terms of its charter, the Audit Committee must pre-approve all services (including the fees and terms of such services) to be performed for us by our independent registered public accounting firm, subject to a *de minimis* exception for permitted non-audit services that are approved by the Audit Committee prior to the completion of the audit and otherwise in accordance with the terms of applicable SEC rules. The Audit Committee may delegate authority to subcommittees consisting of one or more members when appropriate, including the authority to grant pre-approvals of audit and permitted non-audit services, as long as the decisions of such subcommittee(s) to grant pre-approvals are presented to the full Audit Committee at its next scheduled meeting. In 2015, all of the services provided by our independent registered public accounting firm were reviewed and approved by the Audit Committee.

Audit Committee Report

Audit Committee Report

The Audit Committee of the Board of Directors is currently composed of six independent directors and operates under a charter adopted by the Audit Committee on January 26, 2016. The SEC and the NYSE have established standards relating to audit committee membership and functions. With regard to such membership standards, the Board has determined that Stephen T. Williams meets the requirements of an audit committee financial expert as defined by the SEC and has the requisite financial literacy and accounting or related financial management expertise required generally of an audit committee member under the applicable standards of the SEC and NYSE.

The primary duties and responsibilities of the Audit Committee are to monitor: (i) the integrity of the financial statements of the Corporation; (ii) the independent registered public accounting firm's qualifications and independence; (iii) the performance of the Corporation's internal audit function and independent auditors; and (iv) compliance by the Corporation with legal and regulatory requirements. While the Audit Committee has the duties and responsibilities set forth above and those set forth in its charter, our management is responsible for the internal controls and the financial reporting process and the independent registered public accounting firm is responsible for performing an integrated audit of our financial statements and of the effectiveness of our internal control over financial reporting in accordance with standards established by the Public Company Accounting Oversight Board and issuing a report thereon.

In the performance of its oversight function, the Audit Committee has performed the duties required by its charter, including meeting and holding discussions with management, the independent registered public accounting firm, and the internal auditor, and has reviewed and discussed the audited consolidated financial statements with management and the independent registered public accounting firm. The Audit Committee has also discussed with the independent registered public accounting firm its views on fraud risks and how it demonstrates its independence and skepticism. Finally, the Audit Committee also has discussed with the independent registered public accounting firm the matters required to be discussed by the Public Company Accounting Oversight Board's Auditing Standard No. 16 (Communications with Audit Committees).

The Audit Committee has received the written disclosures and the letters from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board, as currently in effect, regarding the independent registered public accounting firm's communications with the Audit Committee, and the Audit Committee has discussed with the independent registered public accounting firm its independence. The Audit Committee also has considered whether the provision of any non-audit services by our independent registered public accounting firm is compatible with maintaining the independence of the auditors.

Based upon a review of the reports by, and discussions with, management and the independent registered public accounting firm, and the Audit Committee's review of the representations of management and the Report of Independent Registered Public Accounting Firm, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in our Annual Report on Form 10-K for the year ended December 31, 2015, filed with the SEC on February 25, 2016.

Proposal 3 Vote on an Advisory Resolution to Approve BB&T's Executive Compensation Program

**PROPOSAL 3 VOTE ON AN ADVISORY RESOLUTION TO APPROVE BB&T'S
EXECUTIVE COMPENSATION PROGRAM**

This year, we are again providing shareholders the opportunity to cast an advisory vote to approve our pay-for-performance executive compensation program. The large majority of our shareholders have approved this proposal each year since 2011, when we first asked shareholders to vote on this item.

The Compensation Committee and the Board believe that our executive compensation program, as described in the Compensation Discussion and Analysis and other sections of this proxy statement, reflects a pay-for-performance culture at BB&T that is rooted in our values. The Compensation Committee and the Board believe that the executive compensation program is well designed, and effective in aligning the interests of the executives with both the short-term and long-term interests of our shareholders, while reducing incentives for unnecessary and excessive risk taking. In making a decision on whether to approve our pay practices for our named executive officers, the Board asks that shareholders consider the following:

Our executive compensation program is incentive-based and reflects a pay-for-performance culture. Approximately 86% of our CEO's target compensation for 2015 was variable and tied to BB&T's performance (including stock price performance).

The performance measures we use (EPS, ROA and ROCE) are objective criteria established as key drivers of sustained and longer-term shareholder value and reflect our philosophy of closely linking pay with performance.

In reviewing compensation, the Compensation Committee utilizes an executive risk scorecard which can be used to adjust downward, if necessary, the short-term and long-term incentive compensation of each member of Executive Management in connection with negative risk outcomes.

We have long-standing stock ownership requirements for our NEOs, effectively aligning their interests with those of our shareholders and giving executives a greater financial interest in our company.

We value shareholder engagement. We have, and will continue to, incorporate feedback we receive into our programs.

We encourage you to review the complete description of our executive compensation programs provided on the following pages in the Compensation Discussion and Analysis, the compensation tables and accompanying narratives.

The Board strongly supports our executive pay practices and asks shareholders to support its executive compensation program through the following resolution:

Resolved, that the shareholders approve BB&T's overall executive compensation program, as described in the Compensation Discussion and Analysis, the compensation tables and the related narratives and other materials in this Proxy Statement.

Your vote on this proposal, which is required by Section 14A of the Exchange Act, is advisory, and will serve as a non-binding recommendation to the Board. The Compensation Committee will seriously consider the outcome of this vote when determining future executive compensation arrangements. Unless the Board determines otherwise, the next advisory vote to approve the compensation of our named executive officers will be held at our 2017 Annual Meeting.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL 3 VOTE ON AN ADVISORY RESOLUTION TO APPROVE BB&T'S EXECUTIVE COMPENSATION PROGRAM.

COMPENSATION DISCUSSION AND ANALYSIS

In this Compensation Discussion and Analysis we describe our performance-based executive compensation program and philosophy in the context of the 2015 compensation decisions related to the Chief Executive Officer and each of the other executive officers named in the 2015 Summary Compensation Table (the named executive officers or NEOs). Each NEO is a member of our 13 person Executive Management team that manages and leads BB&T's operations:

Name	Title	Years of Service at BB&T
Kelly S. King	Chairman and Chief Executive Officer	43
Christopher L. Henson	Chief Operating Officer	31
Ricky K. Brown	Senior Executive Vice President and President, Community Banking	38
Clarke R. Starnes III	Senior Executive Vice President and Chief Risk Officer	33
Daryl N. Bible	Senior Executive Vice President and Chief Financial Officer	8

The Compensation Discussion and Analysis is organized into four sections:

- Section 1 Executive Summary
- Section 2 2015 Executive Compensation Program and Pay Decisions (page 42)
- Section 3 BB&T's Executive Compensation Process (page 58)
- Section 4 Other Aspects of BB&T's Executive Compensation Program (page 62)

Section 1 Executive Summary**About BB&T**

BB&T is strong, profitable and remains committed to helping its shareholders, clients, communities and associates achieve economic success and financial security. By staying true to the vision, mission and values that have guided BB&T for over 140 years, we are well positioned for future opportunities. Led by our CEO, Kelly S. King, in 2015 we met substantially all of our strategic objectives and performed well in a challenging year for the financial services industry. We believe the financial and strategic accomplishments made in 2015, as well as our continued significant investment in important infrastructure projects, will benefit the Corporation and our shareholders in the coming years.

Performance Philosophy

COMPENSATION COMMITTEE'S APPROACH

The Compensation Committee's key guiding principle is to align and reward executives commensurate with performance. The Compensation Committee is committed to providing total compensation opportunities that are competitive with the median of our Peer Group and where actual pay varies based on BB&T's performance relative to our strategic goals and relative to our industry peers. The Compensation Committee believes that above median pay should be provided when BB&T exceeds our goals and peer performance, and conversely, average or below average performance should result in average or below average compensation. The Compensation Committee intends for our compensation program to be competitive with peer financial services institutions, with a focus on performance and rewards.

In keeping with these responsibilities in managing our compensation program, last year the Compensation Committee retained a new independent compensation consultant, Meridian Compensation Partners, to obtain a fresh perspective on our program.

NEO TARGET PAY MIX AND OVERALL COMPENSATION

As part of the Compensation Committee's pay-for-performance philosophy, the majority of target pay is based on performance. The following graphs show the mix of 2015 target total compensation for Mr. King and the other NEOs averaged together.

* Above percentages represent CEO and NEO compensation opportunities at target levels. The charts above do not include amounts paid under the Merger Completion Incentive Program, since this is not part of our ongoing compensation program.

2015 Pay Highlights and Performance Alignment**EXECUTIVE PAY ALIGNED WITH PERFORMANCE**

2015 was a solid and profitable year with many notable strategic and differentiating accomplishments, including BB&T's successful integration of several significant acquisitions and infrastructure investments. We continued our strong performance relative to our peers, but performance was down from 2014 on some of the metrics that drive our executive incentive programs. Accordingly, the payout percentages for our variable pay awards (short and long-term) were lower for 2015 than in 2014. A significant portion of our pay continues to be at risk based on our future performance. Below is a summary of the most notable 2015 pay outcomes and decisions:

2015 PAY HIGHLIGHTS

Highlight	Considerations
2015 Annual Incentive Award paid at 76.3% of target award opportunity v. 92.3% for 2014 (<i>see page 47</i>)	The decrease was driven by 2015 earnings per share of \$2.73 v. \$2.90 in 2014. Our return on assets for 2015 was in the 88th percentile relative to our peers (above the maximum ROA performance level of 75%).
	The Compensation Committee excluded Susquehanna earnings in light of the Merger Incentive, further reducing EPS performance to \$2.66 for Executive Management. The intent is to avoid the perception of Executive Management being twice rewarded for the Susquehanna merger.
2013-2015 LTIP paid at 123% of target award opportunity v. 150% for 2012-2014 LTIP (<i>see page 50</i>)	BB&T again performed well against the Peer Group generating payouts above target. The payout percentage decrease was driven by three-year average return on common equity for 2013-2015 at the 61st percentile of the Peer Group v. 72nd percentile for the prior period.
Increases in base salary and Annual Incentive Award target opportunities (<i>see page 45</i>)	After reviewing market data and considering salaries were unchanged since 2013, salaries were increased modestly in 2015. Annual Incentive target award opportunities were increased to remain competitive and in consideration of reduced maximum award opportunities in response to regulatory feedback.
Expanded shareholder engagement program (<i>see page 23</i>)	Feedback from shareholders was considered in a number of Compensation Committee decisions.

A special, one-time Merger Incentive was provided to recognize the strategically significant Susquehanna merger and incentivize a successful integration (*see page 52*)

Special, one-time award not expected to be used again.

Based on shareholder feedback, Compensation Committee paid award 50% in cash and 50% in RSUs, which are subject to a 3-year vesting period and can be forfeited in the event of a negative risk outcome or annual operating loss.

PERFORMANCE METRICS

The Compensation Committee regularly considers a variety of financial metrics when evaluating performance and making compensation decisions, as indicated below. By assessing different metrics over short, medium and long-term periods, the Compensation Committee is able to obtain a broad and accurate assessment of our performance against specific compensation goals and relative to the Peer Group.

Growth Metrics	Return Metrics	Capital Metrics
Deposits	Net Interest Margin	Net Charge-Offs /Average Loans
Earnings Per Share*	Return on Assets*	
Loans	Return on Common Equity*	Non-Performing Assets / Loans & Other Real Estate Owned
	Total Shareholder Return	Common Equity Tier 1 Ratio

* Metric used in BB&T's pay-for-performance compensation plans.

Three of these metrics are used directly in BB&T's executive incentive plans: return on assets (ROA), earnings per share (EPS), and return on common equity (ROCE). EPS and ROA are used in the Annual Incentive Award and three-year average ROCE is used for Long-Term Incentive Plan (LTIP) awards. The Compensation Committee believes these metrics are key drivers of sustained and longer-term shareholder value. The Compensation Committee also grants a meaningful portion of compensation through equity awards and maintains rigorous stock ownership guidelines to ensure executives are closely aligned with our stock performance.

Total Shareholder Return (TSR), a metric that has become increasingly popular with institutional shareholders and proxy advisory firms in recent years, is evaluated by the Compensation Committee. TSR measures stock price appreciation plus common stock dividend payments over a particular time period. The Compensation Committee monitors and considers TSR in assessing our performance, but does not include it as a direct measure in our incentive plans because one- and three-year TSR reflect shorter-term horizons, are volatile, are influenced by situations outside the control of executives (such as global market conditions), and may not reflect our core performance. The Compensation Committee believes that TSR is more useful as a longer-term performance metric as the market is most effective at differentiating the performance of companies over the long-run. Our consistent superior financial performance over time has increased long-term value for our shareholders, as shown below.

Sound Compensation and Governance Practices

The Compensation Committee has implemented strong governance practices that reinforce our principles, support sound risk management and are shareholder aligned:

What we do	What we don't do
ü pay for performance; over 86% of CEO, and approximately 79% of the other NEOs' total target compensation for 2015 is based on BB&T's performance (EPS, ROA, ROCE, stock price)	× we don't offer incentives that would provide payouts for negative returns
ü award both cash and stock incentive awards, with an emphasis on performance-based awards	× we don't reprice stock options
ü provide for adjustments of payouts for negative risk outcomes based on the executive risk scorecard evaluation	× we don't provide dividends on unvested equity awards
ü utilize a broad-reaching clawback policy	× we don't offer broad-based perquisites such as personal club memberships, corporate housing, and personal use of company aircraft
ü decrease overall emphasis on stock option grants	× we don't gross-up payments for excise taxes
ü maintain stock ownership requirements	× we don't permit hedging or speculative trading of BB&T common stock
ü restrictions on pledging of BB&T common stock	
ü review tally sheets for each executive as part of the process of setting compensation	
ü retain an independent compensation consultant who performs services solely for the Compensation Committee	

Shareholder and Regulatory Feedback**SHAREHOLDER ENGAGEMENT**

For the past several years we have conducted a formal shareholder engagement program to help us identify issues of importance to our shareholders, with a focus on corporate governance and executive compensation. Historically, shareholders have indicated strong support of our compensation programs through their say on pay voting results, but at our 2015 Annual Meeting, we received a lower level of shareholder support than in the past for that proposal. In response, we expanded our shareholder engagement program by reaching out to 37 of our 50 largest shareholders, representing 38% of our outstanding shares, as well as to the shareholder proponents who made proposals at the 2015 Annual

Edgar Filing: BB&T CORP - Form DEF 14A

Meeting. We also met with certain of the proxy advisory firms followed by some of our largest shareholders. The Compensation Committee Chair led the meetings with four of our largest institutional shareholders.

The feedback received on our executive compensation programs and philosophy was generally very favorable. As to executive compensation, the general sentiment was that our program is appropriate and well designed. Several governance and compensation points were raised by shareholders and this feedback proved influential in a number of subsequent decisions and actions, as outlined below and on page 55.

Compensation Discussion and Analysis

What we heard	What we did
Even though we are above the median of the Peer Group in terms of size, compensation opportunities generally should not be targeted above the median of the Peer Group.	The Compensation Committee is committed to implementing a strategy in 2016 to provide target compensation opportunities that are aligned with the median of the Peer Group.
If we are in the top quartile of the Peer Group in terms of size, we should consider adding larger banks to the group.	The Compensation Committee reevaluated the Peer Group for 2016 and decided to add one bank larger than us (Wells Fargo) and one bank closer in size (Citizens Financial). The nature of the market limits the number of larger peers with a reasonably comparable business model so we will, for the near term, continue to be one of the larger banks in our Peer Group.
Shareholders are supportive of proxy access, which allows director nominees of shareholders to be included with the Corporation's proxy materials under certain circumstances.	The Nominating and Corporate Governance Committee is closely monitoring this corporate governance issue.
Shareholders encouraged detailed proxy disclosure of the Merger Incentive and the Committee's deliberations. After hearing our explanation of the rationale for the award, shareholders were generally supportive of the Merger Incentive and expressed that the amounts seemed reasonable.	We provided a detailed discussion of the Merger Incentive beginning on page 52, including additional feedback we received from our shareholders regarding this award.

We are committed to ongoing shareholder engagement and expect to continue our shareholder engagement program. Consistent with the recommendation of our Board of Directors and the preference of our shareholders, BB&T believes that it is appropriate to conduct annual say on pay votes regarding our executive compensation programs.

REGULATORY CONSIDERATIONS IN SETTING COMPENSATION

Banking regulators continue to regularly provide input on and influence the compensation practices and incentive compensation at the largest financial institutions in the United States, focusing on the risks intrinsic to the design and implementation of compensation plans as well as the reasonableness of each element of compensation. While we have, for many years, focused our compensation philosophy on performance-based compensation, certain changes were made to our compensation programs over the last few years primarily as a result of regulatory guidance. Regulators influenced the following modifications of our compensation program:

Our NEOs are evaluated on individual risk performance, which has been integrated into the NEO's annual performance evaluation through use of the executive risk scorecard.

Our NEO performance-based incentive plans have changed in response to regulatory requests including:

reduced maximum payout levels for Annual Incentive Awards from 200% to 125%,

reduced maximum payout levels for LTIP awards from 200% to 125%,

reduced emphasis on stock options, and

added risk-based performance condition(s) for vesting of stock options and RSUs granted to NEOs.

The Compensation Committee continues to assess our pay practices to balance risks with our commitment to linking NEO pay to BB&T's performance while maintaining compensation programs that are market competitive and shareholder aligned.

Compensation Actions for 2016

As part of its regular review, the Compensation Committee has taken the following actions for 2016 in regards to NEO compensation. These actions are all in furtherance of the Compensation Committee's commitment to implementing a strategy to provide target compensation opportunities that are aligned with the median of the Peer Group.

No base salary increases;

No change in compensation award opportunities or payout levels;

No special awards; and

Added Wells Fargo and Citizens Financial to the 2016 Peer Group to better reflect our growth in recent years.

The Compensation Committee recognizes that executive compensation practices in the banking industry are continuing to evolve due to feedback from regulators and shareholders. The Compensation Committee intends to closely monitor changes in market compensation practices as well as feedback on our programs from our shareholders and regulators. Accordingly, the Committee may make additional changes to our program in furtherance of its commitment to provide a compensation program that is competitive, performance-based, risk-balanced and aligned with the goals of our shareholders and regulatory expectations.

Section 2 2015 Executive Compensation Program and Pay Decisions

Compensation Philosophy

The Compensation Committee structures BB&T's overall compensation program for Executive Management with an emphasis on long-term, performance-based compensation. Our executive compensation philosophy is based on the following guiding principles:

Compensation and reward systems are designed to support and drive our strategic goals and produce positive business results;

Total compensation is aligned with shareholder interests by providing a significant percentage of compensation in equity and setting stock ownership requirements for Executive Management;

Significant amounts of compensation are linked to the achievement of performance goals;

Total compensation opportunities are established relative to organizations with which we compete for both talent and shareholder investment and at levels that enable us to attract and retain executives critical to our long-term success; and

Compensation is compatible with effective controls and risk management and is supported by strong corporate governance.

Compensation Program Elements

Our executive total compensation is heavily performance-based. Below is a summary of our regular pay components, their purpose and key program features.

Incentive Type	Compensation Element	What the Element Rewards	Key Features & Purpose
FIXED	Base Salary	Scope of leadership responsibilities, years of experience, performance and contributions to BB&T.	Plays a relatively modest role in the overall pay package because we believe the significant majority of executive compensation should be variable and based on performance. Provides the only element of certain compensation for our NEOs.
	Annual Incentive Awards	BB&T's financial performance in 2015 based on achievement of specific earnings per share (weighted at 60%) and relative return on assets (weighted at 40%) performance.	Rewards annual performance based on financial results that are expected to have a meaningful bearing on long-term shareholder value. Payments are based solely on corporate performance, reinforcing our team culture.
PERFORMANCE-BASED INCENTIVES			Performance levels (threshold, target, maximum) are established relative to Board approved internal forecast EPS expectations and our ROA performance relative to our Peer Group.
	Incentive Stock Awards (20% stock options and 80% restricted stock units)	Sustainable, long-term appreciation of BB&T stock price.	Designed to align NEO compensation with the shareholder goal of stock price appreciation. Stock options and RSUs vest ratably over three years. The award vesting is subject to BB&T exceeding a performance hurdle and adjustments for any negative risk outcomes. Prior to vesting, 100% of the unvested award is subject to forfeiture if the performance criteria are not met.

	<p>LTIP Awards</p> <p>Achievement of superior three-year average return on common equity performance. LTIP Awards are typically paid in cash.</p>	<p>Dividends are not paid on unvested RSUs. LTIP awards are designed to measure relative performance over three-year cycles. Each year begins a new three-year cycle. Payments are based on BB&T performance relative to its Peer Group.</p>

(1) Reflects base salary actually received in 2015.

(2) Amounts reflect the value of the 2015 Annual Incentive Award, paid in March 2016.

(3) Amounts reflect the value the Compensation Committee sought to deliver through the restricted stock unit and stock option awards granted in February 2015. No amounts are immediately available to the officer as the options and units vest over time. The exercise price of the options was equal to the stock price on the date of grant, and therefore, there was no intrinsic value on the date of grant. The recipient will only be able to realize future value for the stock options if BB&T's stock price increases.

(4) The principal differences between this table and the Summary Compensation Table are that the Summary Compensation Table includes information on the grant date fair value of restricted stock unit awards, the change in pension value and nonqualified deferred compensation earnings as well as all other compensation. The components included in the table above are considered by the Compensation Committee when making compensation determinations.

(5) Amounts reflect value of 2013-2015 LTIP awards, paid in March 2016.

(6) Merger Incentive amounts: King - \$1,030,000; Henson - \$450,000; Brown - \$450,000; Starnes - \$335,000; Bible - \$335,000. Paid 50% in cash and 50% in RSUs.

In 2015 we continued to perform well against our Peer Group, however, our overall performance results were not as strong under the Annual Incentive Award and LTIP as compared to 2014. As a result, the payout percentages for these plans were lower for 2015 than for 2014. Increases in 2015 total compensation paid under our regular compensation program resulted primarily from payments under the 2013-2015 LTIP (the LTIP target award opportunities were increased in 2013 relative to the 2012 levels).

	2014		2015 ⁽¹⁾	
	Absolute Performance	Relative to Peer Group	Absolute Performance	Relative to Peer group

- (1) The EPS, ROA and ROCE performance presented herein includes adjustments to BB&T's GAAP net income approved by the Compensation Committee. For additional detail regarding these adjustments and a GAAP reconciliation, please refer to Annex A.
- (2) In light of the Merger Incentive, EPS performance was further reduced to \$2.66 to exclude the estimated impact attributable to the legacy Susquehanna operations.

A special, one-time Merger Incentive was provided to recognize the strategically significant Susquehanna merger and incentivize a successful integration. The Merger Incentive is not a part of our regular compensation program and is not expected to be used again. Based on shareholder feedback, the Compensation Committee

paid the award 50% in RSUs and 50% in cash. As a result of approving the Merger Incentive, the Compensation Committee removed estimated Susquehanna earnings from the EPS component of the Annual Incentive Award, reducing EPS performance to \$2.66. See the Merger Incentive discussion beginning on page 52.

Base Salary

The following table shows base salaries for each of our NEOs for 2015 as compared to 2014:

Name	2015	2014	Increase	Percentage Increase
	Base Salary	Base Salary		
	(\$)(1)	(\$)	(\$)	
Kelly S. King	1,075,000	1,000,000	75,000	7.50%
Christopher L. Henson	700,000	665,000	35,000	5.26%
Ricky K. Brown	700,000	665,000	35,000	5.26%
Clarke R. Starnes III	590,000	560,000	30,000	5.36%
Daryl N. Bible	590,000	560,000	30,000	5.36%

(1) Effective as a April 1, 2015.

In its deliberations on the 2015 base salary increases, the Compensation Committee considered the competitive analyses provided by its independent compensation consultant that base salaries for our NEOs had remained unchanged since 2013.

Annual Incentive

Our Annual Incentive Award is a cash incentive based on the achievement of corporate performance goals established annually by the Compensation Committee.

Edgar Filing: BB&T CORP - Form DEF 14A

The amount paid under the Annual Incentive Award is determined by a formula based on our: (1) EPS (against preset performance goals) and (2) ROA (as compared to our Peer Group).

In 2015, EPS was weighted at 60%, while ROA was weighted at 40%.

While EPS and ROA are independent and permit payouts under each measure ranging from 0% to 150% of the target award opportunity, when both metrics are combined under the formula, the maximum amount that may be paid under the Annual Incentive Award is 125% of the target award opportunity. If the EPS threshold was not achieved or exceeded, the executives could still receive a payment based solely on our ROA performance and vice versa.

The EPS performance level was adjusted downward (from \$2.73 to \$2.66) in light of the Merger Incentive and to avoid the appearance that NEOs were being rewarded twice for the Susquehanna merger.

The 2015 Annual Incentive Award paid out at approximately 76% of the target award opportunity based on our EPS and ROA performance and reflecting the downward adjustment to the EPS performance measure.

We have historically used EPS and ROA as the performance measures for Annual Incentive Awards because the Compensation Committee believes EPS and ROA have a meaningful bearing on long-term increases in shareholder value and are valuable barometers for our performance. EPS and ROA have a strong long-term correlation with shareholder returns. These measures also reflect the fundamental risk level and financial soundness of the business.

Table of Contents

Compensation Discussion and Analysis

Each executive has a target award opportunity (expressed as a percentage of base salary) which represents the amount of the Annual Incentive Award if we achieve the performance goals at the target performance level. The table below summarizes the Annual Incentive award opportunity for 2015 versus 2014.

Name	2015 Target Annual Incentive Opportunity	2014 Target Annual Incentive Opportunity
Kelly S. King	195%	175%
Christopher L. Henson	130%	100%
Ricky K. Brown	130%	100%
Clarke R. Starnes III	115%	100%
Daryl N. Bible	115%	100%

The Compensation Committee increased the 2015 target award opportunities to provide competitive pay to these seasoned executives and to align total target compensation with the median level of the members of the Peer Group most aligned with us in terms of asset size and market capitalization. This increase was also intended to offset some of the lost upside caused by the maximum award opportunities for the Annual Incentive Award and LTIP being reduced below the median peer practice for comparable awards as a result of regulatory feedback.

Additional changes were made to the structure of the 2015 Annual Incentive versus 2014, as outlined below.

2015 Annual Incentive Change	Rationale
The weighting of the ROA component was increased to 40% from 33% in 2014.	Given the economic environment, the Compensation Committee wanted to place greater emphasis on our performance relative to the Peer Group.
For 2015, the performance matrix for each of EPS and ROA extends to 150% of target, but the aggregate payment is capped at 125% of target. In 2014, each performance measure was capped at 125%.	The Compensation Committee wanted to reward superior performance by allowing excellent EPS or ROA performance to raise the Annual Incentive's overall payout percentage, subject to the aggregate payment cap of 125%.

ANNUAL INCENTIVE AWARD PERFORMANCE AND EPS DOWNWARD ADJUSTMENT

EPS for 2015 was \$2.73. In approving the Merger Incentive payment, the Compensation Committee decided that the estimated earnings attributable to the legacy Susquehanna operations following the merger (which occurred on August 1, 2015) should be removed from the Annual Incentive's EPS performance measure. The Compensation Committee felt this adjustment was important to avoid the perception that Executive Management was being rewarded twice for the Susquehanna merger. However, the Compensation Committee also determined that the Susquehanna merger was a differentiating event where we outperformed our peers, and accordingly, believe it was fair to include our full earnings for the compensation elements that measure our performance relative to the Peer Group. See the Merger Incentive discussion beginning on page 52.

The tables below summarize the performance matrix and payout levels under the Annual Incentive Award.

Long-Term Incentives

BB&T's long-term incentive program provides compensation awarded under the shareholder-approved BB&T Corporation 2012 Incentive Plan (the "2012 Incentive Plan"). These awards are a mix of cash and equity and include the following components:

Incentive Stock: Consists of stock options and restricted stock units (RSUs) that align executives with shareholder interests, reward stock price appreciation, and encourage retention. Stock options represent a limited component, based on feedback from regulators and shareholders.

RSUs represents 80% of incentive stock award

Stock Options represents 20% of incentive stock award

Long-Term Incentive Plan (LTIP): Provides rewards based on our ROCE performance relative to the Peer Group over the applicable three-year period.

Executives have a defined target award opportunity for each long-term component, expressed as a percentage of base salary. None of the long-term incentive award opportunities increased for 2015.

INCENTIVE STOCK PROGRAM SUMMARY

2015 Incentive Stock Awards for each NEO include nonqualified stock options (20% of award) and RSUs (80% of award).

Stock options and RSUs vest ratably over three years.

Award vesting is subject to BB&T exceeding a performance hurdle and adjustments for any negative risk outcomes.

Table of Contents

Compensation Discussion and Analysis

Up to 100% of unvested RSUs and stock options are subject to forfeiture if the Compensation Committee determines that there has been a significant negative risk outcome as a result of a corporate or individual action, or BB&T has incurred an annual operating loss for the year.

Restricted Stock Units

RSU awards are granted as a contingent share of BB&T common stock that is not earned or issued until specific conditions are met. RSUs vest 33 1/3% per year following each of the first three anniversaries of the date of grant, subject to the Compensation Committee's performance review. For retirement eligible individuals, RSU vesting is generally accelerated upon retirement. No dividends are paid on the shares underlying the RSUs until the units vest and shares are issued. The Compensation Committee determined that the three-year vesting schedule is generally consistent with Peer Group practices. The Compensation Committee believes that the retentive features and perceived value of RSUs are enhanced in a volatile stock market, which the financial services industry has experienced.

Stock Options

Stock options historically have been an important part of our equity program. The Compensation Committee believes that stock options are inherently performance-based and effectively align the interests of the recipients with those of the shareholders because stock options only have value if our stock price increases relative to the stock price on the date of the award. Stock option awards vest 33 1/3% per year following each of the first three anniversaries of the date of grant, subject to attainment of the performance criteria, and expire on the ten year anniversary of the date of grant. For retirement eligible individuals, stock option vesting is generally accelerated upon retirement. The exercise price for each stock option grant in 2015, including each award to the NEOs, was the market closing price on the date of grant. The Compensation Committee determined that the three-year vesting schedule and ten year term is generally consistent with Peer Group practices.

2015 INCENTIVE STOCK AWARDS

The 2015 Incentive Stock Awards are detailed in the following table:

Daryl N. Bible	37,565	184,069	19,264	736,270	920,339

- (1) The option exercise price for the 2015 awards is \$38.22 per share, which was the closing price on February 24, 2015, the date of the grant. For additional detail, please refer to Compensation of Executive Officers 2015 Outstanding Equity Awards at Fiscal Year-End.
- (2) The table reflects the value the Compensation Committee seeks to deliver in making the award. The 2015 stock option and restricted stock unit awards were granted on February 24, 2015. In the case of both stock options and restricted stock units, the number of options or units granted was determined by dividing the target amount of compensation by the estimated value of each equity award. For stock options, the award was valued based on the Black-Scholes value of the options (\$4.90). For restricted stock units, the number of units awarded was based on the closing price of BB&T's common stock on the grant date (\$38.22).
- (3) In accordance with SEC rules, the value of the awards reported in the 2015 Summary Compensation Table is the fair value of the awards on the grant date. For stock options, the grant date fair value was the same as the value used by the Compensation Committee to determine stock option awards (\$4.90). For restricted stock units, the grant date fair value of \$34.36 was calculated by discounting the closing price of BB&T's common stock on the grant date by the present value of the dividends that are expected to be forgone during the three-year vesting period. For the grant date fair value of the awards and a discussion of how we compute the fair value, please refer to columns (d) and (e) of the 2015 Summary Compensation Table included in the Compensation of Executive Officers section below.

LTIP PROGRAM SUMMARY

LTIP awards reward performance measured by our ROCE relative to our Peer Group over a three year performance cycle. Each year begins a new three-year performance cycle, and at the beginning of the cycle, the Compensation Committee establishes the performance measures and payout range. The Compensation Committee believes that measuring ROCE over a three-year period relative to the Peer Group provides a valuable measure of company performance over time.

LTIP awards are payable, in the Compensation Committee's discretion, in the form of shares of BB&T common stock, cash or a combination of both. LTIP awards have historically been paid in cash. The Compensation Committee believes that with approximately 64% of the NEOs long-term incentive compensation currently consisting of equity, it is appropriate to pay the LTIP awards in cash, rather than additional equity, especially in light of the substantial BB&T common stock holdings of each of the NEOs.

The LTIP award is calculated as follows:

$$\text{Target Award Opportunity (as \% of base salary)} \times \text{3-Year Average Salary} \times \text{Performance Scale Payout \%}$$

2013-2015 LTIP Cycle (Paid in March 2016)

The performance matrix for the 2013-2015 LTIP award follows. Under the matrix, our actual ROCE performance relative to the Peer Group translates to a corresponding payout percentage on a simple interpolation basis.

2013-2015 LTIP CYCLE PERFORMANCE MATRIX

Our average ROCE performance for 2013-2015 was 9.73%, which placed us in the 61st percentile of the Peer Group and generated a payout of 123% of the target award opportunity. Our ROCE performance includes adjustments to our GAAP net income approved by the Compensation Committee. Please refer to Annex A for a GAAP reconciliation.

(2) Under the approved formula, the actual payment is based on the actual average salary paid over the three-year performance cycle.

2015-2017 LTIP Cycle (Payable in 2018)

Our 2015-2017 LTIP awards use a ROCE performance hurdle in addition to assessing our average ROCE performance relative to the Peer Group. If our average ROCE performance is not at least 3%, then the hurdle is not cleared and no payout is earned. If the ROCE hurdle is cleared, then our ROCE performance relative to the Peer Group is measured per the performance matrix below. In establishing the ROCE performance hurdle, the Compensation Committee determined that 3% average three-year ROCE was the minimum level of performance where a payout would be justified, irrespective of our relative Peer Group performance.

Also consistent with LTIP awards made in 2014, the maximum payout level for the 2015-2017 LTIP awards is 125% of the target award opportunity.

Compensation Discussion and Analysis

Merger Incentive

On June 23, 2015, the Compensation Committee adopted the Merger Completion Incentive Program (the *Merger Incentive*), a unique, one-time incentive opportunity to reward significant strategic achievements related to the successful acquisition and conversion of Susquehanna, an \$18.3 billion asset bank headquartered in Central Pennsylvania. At the time the Merger Incentive was approved, the Susquehanna merger had not yet closed as regulatory approval was still pending. Successfully closing and converting the Susquehanna merger were seen as critical strategic goals representing a significant investment in BB&T's future growth and success.

While the operational conversion in November 2015 triggered the ability to pay the incentive, the Compensation Committee considered a broad review of performance and strategic considerations before approving the payout on December 31, 2015. Below we summarize the objectives, incentive features, payout considerations and resulting awards.

Objective and Purpose of Merger Incentive

Provide opportunity for a *one-time, special* recognition of significant achievements related to the successful integration and conversion of Susquehanna (BB&T's largest merger to date)

Reinforce the *strategic importance* of the acquisition to BB&T's future success and long-term shareholder value

Recognize the *difficulty* of completing significant transactions in recent years (at the time, BB&T was the only bank in its peer group to complete an acquisition of this size in three years, as bank M&A was limited largely due to uncertainty regarding the ability to obtain regulatory approval)

Award Features

One-time, special incentive, not intended to be a regular component of our compensation program

Full Compensation Committee discretion to choose the form of payment (cash and/or equity) and to reduce payments (including to zero) based on its assessment of BB&T's overall performance

Edgar Filing: BB&T CORP - Form DEF 14A

Award opportunities reflect a modest component of executives' total 2015 compensation (Merger Incentive award opportunity was set at approximately 50% of each NEO's Annual Incentive Award target award opportunity)

Award contingent on successful operational conversion, defined as the time BB&T's computer systems became the current and primary systems of record for Susquehanna's transactional and accounting data (conversion is also when Susquehanna's bank and ATM signage change to BB&T and legacy Susquehanna customers begin operating within the BB&T environment)

Award contingent on conversion occurring before June 23, 2016

Compensation Discussion and Analysis

Payout Considerations

During December 2015, the Compensation Committee conducted a thorough evaluation of the conversion results as well as BB&T's overall performance. The following factors were considered:

Successful and Well-Executed Conversion

The Compensation Committee considered in-depth reports detailing the conversion results, including but not limited to:

Conversion of nearly 900,000 deposit accounts and 140,000 loans

Conversion of 245 bank branches and 300 ATMs

Dissolution or merger of thirty-three subsidiaries and non-consolidated legal entities

Establishment of new call center in Lititz, Pennsylvania

Limited client issues that were resolved quickly

On track to achieve targeted cost savings from the merger

Based on its review of the conversion, the Compensation Committee determined that the Susquehanna conversion was successful and well executed.

Evaluation of BB&T's Overall Performance

The Compensation Committee also considered our financial performance and strategic initiatives, including, but not limited to, the following:

Edgar Filing: BB&T CORP - Form DEF 14A

BB&T's financial strength and ability to obtain regulatory approval for several acquisitions reinforced the positive impact from significant investments in people, processes, systems, capital, liquidity and risk management

We closed multiple bank acquisitions during 2015 and announced another sizable acquisition (National Penn), which is scheduled to close in 2016

The Bank of Kentucky and Susquehanna transactions were the first acquisitions by a systemically important acquirer to be approved by the Federal Reserve in over two years

The Susquehanna and National Penn regulatory approvals took only eight months and four months, respectively, from announcement, in an environment where other banks experienced significant delays (multi-year, in the instance of one peer) in achieving approval for acquisitions

Management was able to achieve virtually all strategic objectives with no delays in ongoing strategic projects (including key infrastructure investments) and strategies, or compromise of BB&T's vision, mission or values

BB&T increased its quarterly common stock dividend by 12.5% in 2015

Historical Compensation Factors

As context for the granting of this one-time incentive and the determination of whether to make payments under the incentive, the Compensation Committee considered several historical compensation issues involving Executive Management that stemmed from regulatory feedback:

In 2013, BB&T reduced the maximum payout level for the 2014 annual incentive plan from 150% to 125% (which followed a reduction to the 2013 annual incentive's maximum payout level from 200% to 150% as a result of similar regulatory feedback). A subsequent peer review made clear that the overwhelming majority of our peers all retained substantially higher payout opportunities, and that this compensation element was below market practice. Additionally, an unintended plan design feature caused reduced payouts under our 2014 annual incentive plan for Executive Management (such reductions were not applied to non-Executive Management associates).

Also in 2013, the maximum payout level for the 2014-2016 LTIP was reduced from 150% to 125% (which followed a reduction to the maximum payout level for the 2012-2014 LTIP from 200% to 150% as a result of similar regulatory feedback). A subsequent peer review made clear that the overwhelming majority of our peers granted long-term incentives with substantially higher payout opportunities, and that this compensation element was below market.

Further, the 2012-2014 LTIP used, for the first time, a performance band structure. However, the structure unintentionally did not provide interpolation between performance band levels. As a result, BB&T's ROCE performance (72nd percentile relative to peers) missed the 75th percentile maximum payout by only three percentage points, but yielded a target level payout instead of a nearly maximum payout.

Prior to its consideration of whether to establish the Merger Incentive, the Compensation Committee considered all three of these issues and debated a simple special cash bonus, as BB&T's culture strongly supports doing what is right and fair, especially in regard to compensation matters. The Compensation Committee believed that such payments would have been consistent with BB&T's corporate values of justice, but ultimately refrained from doing so because such award would not be performance based and, therefore, would have been at odds with the Compensation Committee's pay-for-performance philosophy.

Accordingly, the most important contextual point is that this special, one-time Merger Incentive is not a part of our normal compensation philosophy and is not expected to be used again, and in considering whether to payout the Merger Incentive, the Compensation Committee was mindful of these historical compensation matters.

Compensation Discussion and Analysis

Shareholder Feedback

At the Compensation Committee's direction, we conducted an expanded shareholder engagement program in the fall of 2015. The Chair of the Compensation Committee led a number of the shareholder meetings. One of the topics for discussion was the Merger Incentive. After hearing our explanation of the rationale for the Merger Incentive, shareholders were generally supportive of the award and expressed that the amounts seemed reasonable.

Shareholder Feedback	Compensation Committee Response
<p>Shareholders generally expressed that incentives like the Merger Incentive should not become a regular feature of BB&T's compensation program as M&A is part of BB&T's ordinary course historical practice.</p> <p>Some shareholders suggested that awards under the Merger Incentive be in the form of equity, preferably with a vesting or performance component.</p>	<p>The Compensation Committee agrees. The Merger Incentive is a one-time event that was designed to reward differentiating performance and is not expected to be repeated. We have never before provided an incentive tied to M&A activity.</p> <p>Based on this shareholder feedback, the Compensation Committee elected to pay awards under the Merger Incentive 50% in RSUs that vest over a three-year period and 50% in cash. The RSUs include performance features and are subject to forfeiture for any significant negative risk outcomes, which include any arising out of the Susquehanna merger. Additionally, RSU awards do not count toward pension benefits.</p>
<p>Several shareholders noted that the Merger Incentive could lead to a perception that Executive Management would be paid twice for Susquehanna in that the merger is accretive to BB&T's earnings and would therefore flow through BB&T's regular compensation program.</p>	<p>The Compensation Committee excluded the Susquehanna results from the EPS component of the 2015 Annual Incentive Award for Executive Management. The Committee also felt that the Susquehanna merger was a differentiating strategic event and, accordingly, felt it was fair to include our full earnings for the compensation elements that measure our performance relative to the Peer Group.</p>

Other Considerations

In addition, the Committee recognized several accolades about BB&T and the acquisition. *Bloomberg Markets* magazine rated BB&T as one of the top 15 strongest banks in the world and one of the three strongest in the United States. *American Banker* magazine named CEO Kelly S. King banker of the year for 2015 for steering BB&T through an extended period of industry adversity, while providing a blueprint for large-scale M&A. In addition, SNL Financial named Mr. King one of its Most Influential in banking in 2015 and 2014.

Payouts

Edgar Filing: BB&T CORP - Form DEF 14A

On December 31, 2015, after considering the above factors and reviewing year-end information, including final 2015 TSR, the Compensation Committee determined that the Susquehanna conversion was successful and BB&T's overall performance for 2015 was solid and, accordingly, decided to pay the full award opportunity under the Merger Incentive. Based on shareholder feedback and a desire to ensure that payouts would be subject to the continued success of the acquisition and BB&T as a whole, the Committee determined to pay the awards in a combination of RSUs and cash. RSU awards are subject to forfeiture if BB&T experiences a negative operating loss or a significant negative risk outcome (including any arising out of the Susquehanna merger) during the vesting period.

The RSUs ratably vest in 3 equal annual installments beginning on February 15, 2017. See Incentive Stock Program Summary for a discussion of other terms of our RSU awards.

Performance Adjustments and Considerations

The Compensation Committee retains discretion to make adjustments to our performance, as well as the reported results from members of our Peer Group, for purposes of making performance-based compensation awards.

In February, the Compensation Committee receives preliminary performance information for the prior year, and historically has made adjustments to our reported results (e.g., net income) to ensure that the applicable compensatory plans fairly compensate participants for core BB&T performance.

The Compensation Committee may also make adjustments to the reported performance of Peer Group members for awards that measure our performance relative to the Peer Group.

Reconciliation of adjustments that the Compensation Committee made for the purposes of certifying 2015 performance are included in Annex A to this proxy statement.

Unless otherwise indicated, discussions of 2015 performance for compensation purposes in this proxy statement include these adjustments made by the Compensation Committee.

Pension Plan

We provide the BB&T Corporation Pension Plan, a tax-qualified defined benefit retirement plan for eligible associates (the Pension Plan). We are among the few remaining companies that offers a traditional pension plan.

We also provide an excess benefit plan, the BB&T Corporation Non-Qualified Defined Benefit Plan (the Excess Plan), to augment the benefits payable under the Pension Plan to the extent that such benefits are curtailed by application of certain tax limitations. The Compensation Committee believes that the benefits provided by the Excess Plan assure that we will receive the executive retention benefits of the Pension Plan.

The Pension Plan and the Excess Plan are broad-based benefits and the NEOs participate in the Pension Plan and the Excess Plan on the same basis as other similarly situated associates.

The Pension Plan and the Excess Plan provide retirement benefits based on length of service and salary level prior to retirement with benefits increasing substantially as a participant approaches retirement.

Four of the five NEOs have spent substantially all of their professional careers at BB&T and have built up significant benefits under the Pension Plan. Three of the five NEOs are retirement eligible.

Table of Contents

Compensation Discussion and Analysis

We believe the retirement benefits provided by the Pension Plan are meaningful to all associates, but especially to those who devote substantial service to BB&T. Moreover, we view the Pension Plan and the Excess Plan as important retention tools for the NEOs and other highly compensated associates in the later stages of their careers because these retirement benefits could not easily be replicated upon the associate's departure from the Corporation prior to retirement. The Compensation Committee believes that while the overall retirement benefits provided to the NEOs are in line with those provided by its Peer Group, the Pension Plan and Excess Plan provide us with a competitive advantage in attracting and retaining talent in light of the high number of companies that have frozen or abandoned traditional pension plans in recent years.

Perquisites Practices

The NEOs receive limited perquisites and other personal benefits that the Compensation Committee believes are reasonable and consistent with our overall compensation program. Executive Management, including the NEOs, do not receive perquisites such as personal club memberships, corporate housing or personal travel on the company's airplane.

Other Employee Benefits

During 2015, we maintained various employee benefit plans that constitute a portion of the total compensation package available to the NEOs and all eligible associates of BB&T. These plans consist of the following:

the BB&T Corporation 401(k) Savings Plan, which in 2015 permitted associates to contribute up to 50% of their cash compensation, on a tax-deferred basis, within certain IRS compensation deferral amount limits applicable to tax-qualified retirement plans, with BB&T matching deferrals up to 6% of their compensation;

the BB&T Corporation Non-Qualified Defined Contribution Plan, which is designed to augment the benefits under the BB&T Corporation 401(k) Savings Plan to the extent such benefits are curtailed by the application of certain limits imposed by the Code (during 2015, eligible participants in the Non-Qualified Defined Contribution Plan were permitted to defer up to 50% of their cash compensation with certain participants eligible to receive a matching contribution of up to 6% of their compensation);

a medical plan that provides coverage for all eligible associates; and

certain other welfare benefits (such as sick leave, vacation, dental and vision coverage, etc.).

We also provide disability insurance for the benefit of our associates (including each of the NEOs) which, in the event of disability, pays an associate 50% of the associate's monthly compensation, subject to a cap of \$35,000 per month. Under this program, associates may select greater disability coverage with a benefit that pays 60% of their monthly compensation; however, associates are required to pay the additional premium (over that already paid by us to receive the standard 50% coverage) to receive this heightened level of coverage. If a member of Executive Management, including a NEO, became disabled and the insurance benefit was limited due to the monthly cap, we would provide supplemental payments to the member of Executive Management to bring the monthly payment up to the selected coverage level.

The employee benefits for the NEOs discussed in this subsection are determined by the same criteria applicable to all of our associates. In general, benefits are designed to provide a safety net of protection against the financial catastrophes that can result from illness, disability or death, and to provide a reasonable level of retirement income based on years of service with BB&T. These benefits help keep us competitive in attracting and retaining associates. We believe that our employee benefits are generally on par with benefits provided by the Peer Group and consistent with industry standards.

Section 3 BB&T's Executive Compensation Process

Role of Compensation Committee

The Compensation Committee administers BB&T's compensation program for Executive Management, including each of the NEOs. The Compensation Committee's authority and responsibilities are set forth in its charter and include, but are not limited to:

reviewing and approving the compensation for the Chief Executive Officer, the remaining NEOs and other members of Executive Management;

selecting and approving the performance metrics and goals for all Executive Management compensation programs and evaluating performance at the end of each performance period; and

approving Annual Incentive Award opportunities, Incentive Stock Awards and LTIP award opportunities.

In making compensation decisions, the Compensation Committee uses several resources and tools, including the services of its independent compensation consultant, Compensation Advisory Partners and, as of October 2015, Meridian Compensation Partners LLC. The Committee also considers summary analyses of total compensation delineating each compensation element (tally sheets), executive risk scorecards provided by our Chief Risk Officer, competitive benchmarking and other analyses, as further described below.

In addition, the Compensation Committee periodically receives reports from our Chief Risk Officer regarding our risk environment and risk management practices, from our Chief Compliance Officer regarding compliance and risk matters and from our General Auditor, the head of our internal audit function, regarding our internal controls and regularly reviews the minutes of the Risk Committee of the Board of Directors. The purpose of these reports is to allow the Compensation Committee to evaluate our current risk environment and internal control positions relevant to incentive compensation, and to take these issues into consideration when determining incentive compensation.

The Chief Executive Officer also is involved in compensation determinations for other members of Executive Management (including compensation for each of the NEOs) and makes recommendations to the Compensation Committee on base salary and the other compensation elements. We believe that the Chief Executive Officer is in the best possible position to assess the performance of the other members of Executive Management, and he accordingly plays an important role in the compensation setting process. However, decisions about individual compensation elements and total compensation, including those related to the Chief Executive Officer, are ultimately made by the Compensation Committee using its judgment, focusing primarily on the executive officer's performance and BB&T's overall performance, particularly in light of

the business environment in which the results were achieved.

Role of Compensation Consultant

The Compensation Committee engages an independent compensation consultant to provide market reference perspective and serve as an advisor. The independent compensation consultant serves at the request of, and reports directly to, the Compensation Committee. Further, the Compensation Committee has the sole authority to approve the independent compensation consultant's fees and other retention terms, including the authority to limit the amount of fees the independent compensation consultant may earn from other services provided to BB&T. For January to October 2015, the Compensation Committee retained Compensation Advisory

Table of Contents

Compensation Discussion and Analysis

Partners to act as the Committee's independent compensation consultant. In this capacity, Compensation Advisory Partners performed a review of our executive compensation programs, peer group analysis, advised on regulatory developments, corporate governance and best practice trends.

In keeping with its responsibilities in managing our compensation program, the Compensation Committee periodically reviews its outside advisors. Last year, the Compensation Committee met with several compensation consulting firms as part of a governance review of executive compensation providers. After considering the services offered by several firms, the Compensation Committee determined to retain Meridian Compensation Partners in October 2015 as its new independent compensation consultant.

The Compensation Committee determined that, based on an assessment of NYSE factors, the consulting firms retained were independent and that engagement of these firms did not present any conflicts of interest. In making this determination, the Compensation Committee noted that (a) the consultants provide no other services to BB&T other than compensation consulting, (b) no personal or business relationships exist between the consultants and members of our Board or executive officers, (c) the consultants do not directly own any shares of BB&T stock, and (d) the consultants retain a written policy designed to avoid conflicts of interest that may arise. Each consultant also determined that it was independent from our management and confirmed this in a written statement delivered to the Chair of the Compensation Committee.

During 2015, the compensation consultants provided the following services to the Compensation Committee:

reviewed our company's total compensation philosophy for reasonableness and appropriateness;

reviewed overall compensation levels;

reviewed our total executive compensation program and advised the Compensation Committee of plans or practices that may be changed to improve effectiveness;

provided market and peer data and recommendations on Executive Management compensation;

assisted in analyzing the risk impact of our compensation practices including with respect to the Merger Incentive;

reviewed public disclosure on compensation, including the draft Compensation Discussion and Analysis and related tables and compensation disclosures for our proxy statement; and

advised the Compensation Committee regarding the compensation of outside directors.

Edgar Filing: BB&T CORP - Form DEF 14A

In order for a compensation consultant to provide effective advice, the Compensation Committee expects them to interact with our management from time to time. These interactions generally involve, among other things:

obtaining compensation and benefits data, as well as other relevant information that is not available from public sources;

working with management to understand the scope of the various executive jobs in order to provide accurate benchmarking; and

conferring with management so that factual and data analyses are accurate and up-to-date.

This process enables the compensation consultant to identify any areas where further research or analysis may be necessary, while allowing it to discuss any changes to the compensation program or refine recommendations before finalizing its reports to the Compensation Committee.

Benchmarking and Competitive Analyses

The compensation structure for Executive Management, which includes the NEOs, emphasizes variable pay based on performance. We generally compare each element of compensation against what the Compensation Committee determines is a reasonable grouping of publicly traded bank or financial services holding companies (identified below, the Peer Group).

Throughout 2015 and continuing into 2016, the Compensation Committee has carefully considered its benchmarking practices. The Compensation Committee reevaluated the peer group for 2016 and decided to add one larger bank (Wells Fargo) and one bank closer in size (Citizens Financial). The nature of the market limits the number of larger peers with a reasonably comparable business model. During our shareholder engagement program we received feedback that shareholders preferred that compensation opportunities generally not be targeted above the median of the Peer Group, irrespective of our relative size. Accordingly, the Compensation Committee will be closely monitoring peer and market compensation practices and the Compensation Committee may make additional changes to the executive compensation program (or awards) in furtherance of its commitment to provide a compensation program that is competitive, performance-based, risk balanced and aligned with the goals of our shareholders and regulatory expectations. The Compensation Committee is committed to implementing a strategy in 2016 to provide target compensation opportunities that are aligned with the median of the Peer Group.

In evaluating our 2015 Peer Group, the Compensation Committee considered a number of factors, including that our asset size and market capitalization are in the top quartile of our Peer Group. Also considered was the independent compensation consultant's advice that the most significant correlating factors for compensation levels of financial services institutions are asset size and market capitalization. Accordingly, for 2015 the Compensation Committee considered the compensation positioning relative to the members of the Peer Group most comparable to us in terms of asset size and market capitalization (which we refer to as the Comparable Size Peers as indicated in the table below) in addition to positioning relative to the overarching Peer Group. Our asset size approximates the median asset size of our Comparable Size Peers.

v <i>Fifth Third</i>	v <i>Regions</i>
v Huntington	v <i>SunTrust</i>
v KeyCorp	v <i>U.S. Bancorp</i>
v M&T	v <i>Zions</i>

Comparable Size Peers appear in burgundy.

In considering the NEOs' total compensation opportunities for 2015, the Compensation Committee's objective was to target total compensation opportunities near the median of the Comparable Size Peers, which resulted in an overall compensation opportunity positioning above the median of the Peer Group. In making this determination, the Compensation Committee specifically considered that it was important to maintain

Edgar Filing: BB&T CORP - Form DEF 14A

the competitiveness of pay opportunities in light of the significant regulatory, competitive and economic challenges facing the financial services industry and the high demand for our talented, long-tenured and highly marketable Executive Management team. Also considered was that regulatory pressure has resulted in our executive compensation program shifting away from peer practice in several important aspects, possibly compromising the competitiveness of our compensation program.

In addition to the external Peer Group analysis, the Compensation Committee also reviews detailed tally sheets for each executive and reviews the total compensation of the Executive Management team relative to one another. This practice is consistent with our compensation philosophy of rewarding our employees based upon their level of responsibility within the Company.

Executive Risk Scorecard

We utilize an executive risk scorecard which the Compensation Committee may use to adjust, if necessary, the short-term and long-term incentive compensation of each member of Executive Management (which includes the NEOs). The executive risk scorecard:

allows for evaluation of both corporate and individual results that can be compared to stated risk appetites in all risk categories;

presents the positive and negative risk outcomes that have influenced each risk category and includes recommended actions with respect to significant negative outcomes;

is used in conjunction with the recommendations of the Chief Risk Officer, the CEO and the Committee's own insight and evaluation;

is included as part of our risk review process in which 100% of each Executive Manager's short-term and long-term compensation for 2015 is subject to potential adjustment;

was developed by our Senior Risk and Compliance Officers; and

is reviewed by the independent compensation consultant.

The Compensation Committee believes that the executive risk scorecard is an important element to ensure that incentive compensation at the Executive Management level is risk balanced. The use of this risk scorecard has been discussed with our regulators as an additional way to conform to incentive compensation guidance and best practices.

Section 4 Other Aspects of BB&T's Executive Compensation Program

In addition to the key components of our executive compensation program described in Section 2 above, other significant policies, plans and factors influence executive compensation, including the compensation of the NEOs. These items provide meaningful value to members of Executive Management, including the NEOs, while at the same time promoting the retention of these highly valued executives and aligning their interests with those of the shareholders.

Stock Ownership Guidelines for Executive Management

The Compensation Committee believes that members of Executive Management, including the NEOs, should accumulate meaningful equity stakes in BB&T over time to further align their economic interests with the interests of shareholders, thereby promoting our objective of increasing shareholder value.

The table below summarizes the stock ownership guidelines for our NEOs. Each of our NEOs currently exceeds these guidelines.

Stock Ownership		
Name	Guidelines	Approximate Stock Value to be held Under Stock Ownership Guidelines ⁽¹⁾
Kelly S. King	5x Base Salary	\$5,375,000
Christopher L. Henson	3x Base Salary	\$2,100,000
Ricky K. Brown	3x Base Salary	\$2,100,000
Clarke R. Starnes	3x Base Salary	\$1,770,000
Daryl N. Bible	3x Base Salary	\$1,770,000

- (1) Under the stock ownership guidelines, all shares of BB&T common stock held or controlled by the individual are considered in determining compliance with the ownership requirement, including, but not limited to, direct holdings, shares in qualified and nonqualified individual account plans sponsored by BB&T, and unvested restricted stock units and restricted shares (but not stock options) granted by us.

Risk Management

In establishing and reviewing the executive compensation program, the Compensation Committee annually considers whether the program encourages unnecessary or excessive risk taking. The goal of the Compensation Committee is to establish a compensation program designed to encourage prudent risk management and discourage inappropriate risk-taking by granting a diverse portfolio of compensation to the NEOs and other members of Executive Management that is expected to reward the creation of shareholder value over time. To help achieve this goal, the Compensation Committee considers the risk profile of the primary compensation elements. The Compensation Committee believes that because the base salaries of the NEOs and the other members of Executive Management are fixed in amount they do not encourage inappropriate risk-taking. In addition, a significant proportion of compensation provided to the NEOs and other members of Executive Management is in the form of equity awards that have performance and retention features that extend over a period of years. The Compensation Committee believes that these awards do not encourage unnecessary or excessive risk-taking because the ultimate value of the awards is tied to our stock price. In addition, because awards are subject to long-term vesting schedules they help ensure that the NEOs and other members of Executive Management have significant value tied to long-term stock price performance. Also, LTIP awards are based on our performance over a three-year period, which encourages the NEOs to focus on long-term performance in addition to annual results, further reducing risk-taking that is likely to produce only short-term benefits and allowing sufficient time for risk outcomes to emerge.

The Compensation Committee is responsible for exercising authority to modify payments and impose or release holdbacks from Executive Management's incentive compensation arrangements, based on a risk review or regulatory requirements. When determining incentive compensation and consistent with regulatory guidance, the Compensation Committee evaluates our current risk environment and internal control positions relevant to incentive compensation, and reviews the reports, including executive risk scorecards, provided by our Chief Risk Officer. The Compensation Committee also receives reports from our General Auditor, the head of BB&T's internal audit function, regarding the effectiveness of our overall system of internal controls. Please also refer to the below discussion of the Compensation Committee's broad clawback ability and, in Section 3, the use of an executive risk scorecard to adjust compensation, if necessary, for negative risk outcomes.

In addition, and consistent with our compensation philosophy of rewarding the NEOs based on the long-term success of BB&T, our Codes of Ethics and Insider Trading Policy prohibit all associates, including the NEOs, from speculative trading in BB&T common stock (including prohibitions on buying call options and selling put options for our common stock) and place limitations on a NEO's ability to conduct short-term trading, thus encouraging long-term ownership of common stock. Our Corporate Governance Guidelines contain a similar prohibition applicable to members of Executive Management and also prohibit members of Executive Management from entering into hedging strategies and limit pledging activity. See Pledging/Hedging of Shares below.

Compensation Clawbacks

Edgar Filing: BB&T CORP - Form DEF 14A

Our Board believes that the current structure of BB&T's incentive compensation recoupment practices is appropriate, effective, and provides a balanced approach to risk management and properly aligns the interests of our Executive Management and shareholders.

Our 2012 Incentive Plan and award agreements contain broad language regarding clawbacks and make all awards subject to recoupment to the extent determined by the Compensation Committee. Any and all amounts payable under the 2012 Incentive Plan or paid under the 2012 Incentive Plan are subject to clawback, forfeiture, and reduction to the extent determined by the Compensation Committee as necessary to comply with applicable law and/or policies adopted by BB&T.

Compensation Discussion and Analysis

Responsible Equity Grant Practices

Generally, the timing of our regular annual equity awards is determined months in advance of the actual grants in order to coincide with the regular February meetings of the Board and the Compensation Committee. The grant date is established when the grants and all key terms are approved by the Board or the Compensation Committee, as the case may be. The exercise price for each stock option grant in 2015 was the market closing price on the date of grant. For the 2015 Incentive Stock Awards, the Compensation Committee also used the closing price of our common stock on the grant date to determine the number of restricted stock unit awards. In addition, the 2012 Incentive Plan includes prohibitions on the direct and indirect repricing of stock options without shareholder approval. We are required to recognize the expense of all share-based awards (such as stock options and restricted stock units) in our income statement over the award's minimum required service period.

Pledging/Hedging of Shares

Consistent with our compensation philosophy of rewarding the NEOs based on the long-term success of BB&T, our Codes of Ethics and Insider Trading Policy prohibit all associates, including the NEOs, from speculative trading in BB&T common stock (including prohibitions on buying call options and selling put options for our common stock) and place limitations on a NEO's ability to conduct short-term trading, thus encouraging long-term ownership of common stock. Our Corporate Governance Guidelines contain a similar prohibition applicable to members of Executive Management and also prohibit members of Executive Management, including the NEOs, from entering into hedging strategies that protect against downside risk in our common stock. Furthermore, our Corporate Governance Guidelines limit pledging activity so that future share pledges by directors and members of Executive Management are limited to those shares in excess of each individual's share ownership requirements.

Employment Agreements

We use employment agreements to secure the services of key talent within the highly competitive financial services industry. Generally, the employment agreements are entered into with high-performing and long-term potential senior employees and are structured to carefully balance the individual financial goals of the executives relative to the needs of BB&T and its shareholders. All the NEOs have entered into employment agreements with BB&T. Each employment agreement with the NEOs includes provisions: (a) generally prohibiting the executive from competing against us (or working for a competitor) if the executive leaves BB&T; (b) providing for payments if the executive is terminated by us for other than Just Cause or if the executive voluntarily terminates his employment with us for Good Reason; and (c) generally providing for payments under various termination scenarios following a Change of Control. These arrangements set compensation and benefits payable to the

Edgar Filing: BB&T CORP - Form DEF 14A

NEOs in certain termination and merger and acquisition scenarios, giving them some certainty regarding their individual outcomes under these circumstances. Specifically, we believe the Change of Control provisions appropriately minimize the distraction of the NEOs in the event of a significant merger and acquisition scenario, allowing them to remain objective and focused on maximizing shareholder value.

The employment agreements for the NEOs provide that, under certain circumstances upon leaving the employment of BB&T and Branch Bank, the executive may not compete in the banking business, directly or indirectly, against the Corporation, Branch Bank and their affiliates. This prohibition generally precludes the NEO from working for a direct competitor with a banking presence within the continental United States. Additionally, the employment agreements for the NEOs prohibit the executive from soliciting or assisting in the solicitation of any of our depositors, customers, or affiliates, or inducing any of our associates to terminate their employment with BB&T or its affiliates. These noncompetition and nonsolicitation provisions generally will be effective until the one-year anniversary of the NEO's termination. These noncompetition provisions generally are not effective if the NEO terminates employment after a Change of Control.

Table of Contents

Compensation Discussion and Analysis

The employment agreements have terms of 36 months that automatically extend monthly by an additional month, absent contrary notice by either party. The term of any employment agreement ends when such NEO reaches age 65, with the exception of Mr. King, whose employment agreement does not contain that provision. Information provided by the independent compensation consultant showed that providing a three-year contract term is a common practice within the financial services industry. The Compensation Committee believes that a three-year term provides appropriate incentives for retention, protections against unjustified terminations, and is in line with other financial services companies. The employment agreements provide for reductions in payments to the extent necessary to avoid exceeding the limits established by Section 280G of the Code. Payments in excess of these limits are often referred to as excess parachute payments, and exceeding the Section 280G limits generally triggers an excise tax on the payments.

The Compensation Committee approves Executive Management's employment agreements and then reviews the agreements on an as-needed basis, based on market trends or on changes in our business environment. The employment agreements for each of the NEOs are described in greater detail under the section Compensation of Executive Officers Narrative to 2015 Summary Compensation Table and the section Compensation of Executive Officers Potential Payments Upon Termination or Change of Control.

Tax Considerations

SECTION 162(M)

In establishing total compensation for the executive officers, the Compensation Committee considers the effect of Section 162(m) of the Internal Revenue Code. Section 162(m) generally disallows a tax deduction for compensation over \$1 million paid for any fiscal year to the Chief Executive Officer and the three other highest paid executive officers other than the Chief Financial Officer (Covered Employees) unless the compensation qualifies as performance-based.

Our compensation philosophy and policies are generally intended to comply with Section 162(m) to the extent the Compensation Committee determines appropriate. In typical years, when establishing and administering our compensation programs, the Compensation Committee generally intends that performance-based compensation will be deductible under Section 162(m). However, the Compensation Committee retains the flexibility to pay compensation that is not deductible under Section 162(m) if the Compensation Committee determines it is in the best interest of the Corporation to do so. For example, vesting of the 2015 RSUs generally accelerates upon retirement for retirement-eligible grantees who are Covered Employees, including the NEOs, and therefore the awards will not be deductible under Section 162(m).

ANNUAL INCENTIVE AWARD 162(M) POOL AND 2015-2017 LTIP AWARDS

Edgar Filing: BB&T CORP - Form DEF 14A

As discussed in Section 2 Components of Executive Compensation, the Compensation Committee employed a performance-based compensation structure for the Annual Incentive Award that is sometimes referred to as a 162(m) Pool, and retained the ability to exercise negative discretion to reduce Annual Incentive Award payments to the Covered Employees.

Under the 162(m) Pool structure, the Annual Incentive Awards for the Covered Employees were paid from a 162(m) Pool equal to 1.5% of BB&T's 2015 income before taxes (pre-tax income), pursuant to a percentage of the pool assigned, within the first 90 days of 2015, to each Covered Employee (45.4% for Mr. King, 19.9% for Mr. Henson, 19.9% for Mr. Brown, and 14.8% for Mr. Starnes). Under the 2012 Incentive Plan, each Covered Employee's Annual Incentive Award payment was also subject to a \$7.5 million cap on the size of each individual payment. Under the 162(m) Pool, the Compensation Committee can exercise negative discretion (but not upward discretion) in determining the actual Annual Incentive Award payment amounts to the Covered Employees. For

Table of Contents

Compensation Discussion and Analysis

2015, the Compensation Committee approved in February 2016, through its exercise of negative discretion, actual Annual Incentive Award payment amounts to Covered Employees that were below each Covered Employee's assigned percentage of the 162(m) Pool. Because the 2015 Annual Incentive Award awards to the Covered Employees were subject only to the negative discretion of the Compensation Committee to reduce potential awards payments, such awards are expected to qualify as performance-based compensation for Section 162(m) purposes and therefore should not be subject to the \$1 million compensation deduction cap.

The 2015-2017 LTIP cycle awards similarly are expected to qualify as performance-based compensation for Section 162(m) purposes because they are subject only to the negative discretion of the Compensation Committee to reduce potential payments. The Compensation Committee expects that the amounts paid, if any, to the Covered Employees in 2018 for the 2015-2017 LTIP awards will not be subject to the Section 162(m) \$1 million compensation deduction limit. The rules and regulations promulgated under Section 162(m) are complicated, however, and may change from time to time, sometimes with retroactive effect. As such, there can be no guarantee that all amounts intended to comply with the requirements of Section 162(m) will so qualify.

Conclusion

BB&T and the Compensation Committee review all elements of our compensation program for the NEOs, including a tally sheet for each NEO delineating each element of the NEO's compensation. In designing the various elements of the total compensation program, we have taken great care to select elements that are performance-based and to use a variety of performance metrics that, on the whole, will encourage the achievement of short-term and long-term shareholder value while enabling us to retain our talented executives. We believe the total compensation for each NEO is reasonable and the components of our compensation program for the NEOs are consistent with market standards and with comparable programs of the Peer Group. The compensation program for the NEOs is based on our financial performance and links executive performance to our annual financial and operational results and the long-term financial interests of the shareholders. We further believe that the foregoing compensation philosophy is consistent with our corporate culture and objectives and has served, and will continue to serve, as a reasonable basis for administering our total compensation program, both for the NEOs and for all of our associates, for the foreseeable future.

Compensation Committee Report on Executive Compensation

The Compensation Committee is composed entirely of non-employee directors, each of whom has been determined in the Board's business judgment to be independent based on the categorical standards for independence adopted by the Board, which include the applicable NYSE standards. The Compensation Committee is responsible for oversight and review of our compensation and benefit plans, including administering our executive incentive plan, fixing the compensation for the Chief Executive Officer and reviewing and approving the compensation for the other members of Executive Management.

The Compensation Discussion and Analysis section of this proxy statement is management's report on the Corporation's compensation program and, among other things, explains the material elements of the compensation paid to the Chief Executive Officer and the other NEOs. The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis section of this proxy statement with management. Based on this review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this proxy statement and incorporated by reference into our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

- (6) The amounts listed in column (g) are attributable to changes in the present value of the benefits under the BB&T Corporation Pension Plan and the BB&T Corporation Non-Qualified Defined Benefit Plan, as applicable, for each of the NEOs. The benefits the NEOs, including Mr. King, receive are calculated in the same manner as all plan participants. Mr. King's increase in 2014 relative to the other listed years is primarily driven by his years of service, age, compensation and accounting changes regarding mortality tables and discount rates. Due to Mr. King's long tenure, he receives the maximum credit for years of service under the plans. Additionally, Mr. King would receive his retirement benefits immediately upon retirement. Consistent with all plan participants, the calculations for these benefits generally reference the highest levels of compensation over a five-year consecutive period in the ten-year period before retirement.
- (7) The detail relating to All Other Compensation for 2015 found in column (h) to the Summary Compensation Table is set forth in the Narrative to 2015 Summary Compensation Table, which follows.

NARRATIVE TO 2015 SUMMARY COMPENSATION TABLE

The following narrative focuses on NEO compensation for 2015. For a discussion that focuses on compensation for 2014 and 2013, please refer to the proxy statements for the annual meeting of shareholders that occurred on April 28, 2015 and April 29, 2014, respectively. Copies of prior years' proxy statements are available for review on the SEC's website at www.sec.gov.

All Other Compensation. The detail relating to the All Other Compensation for 2015 found in column (h) to the 2015 Summary Compensation Table is as follows:

COMPONENTS OF ALL OTHER COMPENSATION

Name	401(k) Match⁽¹⁾(\$)	NQDC Match⁽²⁾(\$)
Kelly S. King	15,900	282,529
Christopher L. Henson	15,900	120,124
Ricky K. Brown	15,900	120,124
Clarke R. Starnes III	15,900	93,404
Daryl N. Bible	15,900	93,404

- (1) BB&T's matching contribution under the BB&T Corporation 401(k) Savings Plan on behalf of the applicable NEO.
(2) BB&T's matching contribution to the BB&T Corporation Non-Qualified Defined Contribution Plan on behalf of the applicable NEO.

Compensation Program. As indicated in the 2015 Summary Compensation Table, salary as a percentage of total annual compensation (set forth in column (i) of the 2015 Summary Compensation Table) for each of the NEOs in 2015 were as follows: Mr. King 9.0%; Mr. Henson 13.7%; Mr. Brown 12.7%; Mr. Starnes 14.1%; and Mr. Bible 17.1%.

Perquisites. Pursuant to SEC rules, we have not reported perquisites to NEOs because the value of the perquisites, in aggregate, is less than \$10,000.

Change in Pension Value and Non-Qualified Deferred Earnings. For information regarding the formula for calculation of the pension values, see the discussion included in the Narrative to 2015 Pension Benefits Table below. Eligible associates are permitted to defer a percentage (up to 50% in 2015) of their cash compensation under the Non-Qualified Defined Contribution Plan. All cash compensation is eligible for deferral unless otherwise limited by Code Section 409A. Plan participants may select from deemed investment funds under the Non-Qualified Defined Contribution Plan that are identical to the investment funds offered in the BB&T Corporation 401(k) Savings Plan (the 401(k) Plan) with the exception that no deemed investments in BB&T common stock are permitted. Participants make an election upon entering the plan regarding the

Edgar Filing: BB&T CORP - Form DEF 14A

timing of plan distributions. The two allowable distribution elections are distribution upon termination or distribution upon reaching age 65. The Non-Qualified Defined Contribution Plan also allows for an in-service hardship withdrawal based on facts and circumstances that meet Internal Revenue Service guidelines.

401(k) Plan. The BB&T 401(k) Plan is maintained to provide a means for most associates of BB&T and its subsidiaries to defer and save a percentage (up to 50% in 2015, subject to IRS limitations) of their annual cash compensation on a pre-tax basis for retirement. The 401(k) Plan provides for BB&T to match 100% of a participant's deferrals up to 6% of his or her compensation. Our contributions to each of the NEOs during 2015 under the 401(k) Plan are included under the "All Other Compensation" column in the 2015 Summary Compensation Table above.

Employment Agreements. We and our wholly owned subsidiary, Branch Bank, have entered into employment agreements with each member of Executive Management, including each NEO. The employment agreements generally provide a 36 month term that is automatically extended monthly for an additional month, absent contrary

Compensation of Executive Officers

notice by either party. The employment agreements provide that the NEOs are guaranteed minimum annual salaries equal to their current annual base salaries and continued participation in incentive compensation plans that BB&T or Branch Bank may from time to time extend to its similarly situated officers. During the term of the employment agreements, each NEO is entitled to participate in and receive, on the same basis as other similarly situated officers of BB&T and Branch Bank, pension and welfare benefits and other benefits such as sick leave, vacation, group disability and health, life and accident insurance and similar non-cash compensation that BB&T or Branch Bank may from time to time extend to its officers.

For a discussion of the potential payments that would be provided to each of the NEOs under their respective employment agreements in the event of such NEO's termination, including in connection with a Change of Control, please refer to the Potential Payments Upon Termination or Change of Control section below. For a further discussion of the employment agreements of our NEOs, please see Employment Agreements within Section 4 of the Compensation Discussion and Analysis.

- (1) LTIP awards are a component of the 2012 Incentive Plan. LTIP awards may be paid in the form of cash or stock at the discretion of the Compensation Committee. However, since 1996 awards have been paid only in cash. For that reason, LTIP awards are disclosed under the Estimated Future Payouts Under Non-Equity Incentive Plan Awards columns of this table. When the threshold, target and maximum payments were established in 2015 for the LTIP, such payments were based on each executive's base salary for 2015 with assumptions made for increases in base salary for subsequent years in the performance cycle. The actual payment, if any, will be based on the actual average salary over the three-year performance cycle. For a discussion of the LTIP target award opportunities, please see the Compensation Discussion and Analysis.
- (2) The Merger Incentive was adopted on 6/23/2015 and at such time the Compensation Committee retained the discretion to pay the awards in cash, equity or a combination of the two, as well as the ability to reduce the payments, if any. The Compensation Committee met on 12/31/2015 and approved Merger Incentive payouts at the full award opportunity (no reduction was applied) in the form of 50% cash and 50% RSUs. Accordingly, the cash portion of the

Edgar Filing: BB&T CORP - Form DEF 14A

Merger Incentive amount is presented under column (d) and the RSU portion is presented under column (g). Please see the Compensation Discussion and Analysis for additional details on the Merger Incentive.

- (3) The amounts shown in column (c) reflect the minimum payment level possible under the applicable award. For the Annual Incentive Award, the minimum payment is 15% of the target amount, which is presented in column (d). For the LTIP, the minimum payment is 50% of the target amount, which is presented in column (d). Please see the Compensation Discussion and Analysis for additional details on the structure of the LTIP and Annual Incentive Award.
- (4) The amounts shown in column (d) reflect the target payment level under the applicable award. Please see the Compensation Discussion and Analysis for additional detail on the structure of the LTIP and Annual Incentive Award.
- (5) The amounts shown in column (e) reflect the maximum payment level possible under the applicable award. For the Annual Incentive Award and the LTIP, the maximum payment is 125% of the target amount, which is presented in column (d). Please see the Compensation Discussion and Analysis for additional detail on the structure of the LTIP and Annual Incentive Award.
- (6) If the performance criteria applicable to 2015 RSUs and stock option awards are not met, up to 100% of the unvested portion of the award is subject to forfeiture.
- (7) In accordance with the 2012 Incentive Plan, the option exercise price is the closing price of BB&T Common Stock on the date of grant.
- (8) This column reflects the grant date fair value, computed in accordance with SEC rules, of stock options and restricted stock units granted in 2015. Please refer to Notes (2), (3) and (4) in the Summary Compensation Table for additional detail on the grant date fair value of awards.

- (1) The 2015 Pension Benefits table shows the estimated present value of accumulated benefits payable to each of the NEOs, including the number of years of service credited to each such NEO, determined using the measurement date, interest rate and mortality rate assumptions consistent with those used in BB&T's financial statements. For these purposes, the credited years of service and present value of accumulated benefits were measured as of December 31, 2015.
- (2) Q = BB&T Corporation Pension Plan.
NQ = BB&T Corporation Non-Qualified Defined Benefit Plan.
- (3) Each plan limits the years of credited service to a maximum of 35 years. Mr. King and Mr. Brown, respectively, have 43 and 38 years of service to BB&T.

NARRATIVE TO 2015 PENSION BENEFITS TABLE

We maintain the BB&T Corporation Pension Plan (the Pension Plan) and the BB&T Corporation Non-Qualified Defined Benefit Plan (the Non-Qualified Defined Benefit Plan). For a discussion of the valuation methods and material assumptions applied in quantifying the present value of the current accrued benefit under each of these plans, as set forth in the table above, please refer to Note 13 Benefit Plans in the Notes to Consolidated Financial Statements included with the Annual Report on Form 10-K for the year ended December 31, 2015, and filed with the SEC on February 25, 2016. A discussion of each of these plans is set forth below.

Tax-Qualified Defined Benefit Plan. The Pension Plan is a tax-qualified defined benefit pension plan for eligible associates. Most associates of BB&T and its subsidiaries who have attained age 21 are eligible to participate in the Pension Plan after completing one year of service. Our contributions to the Pension Plan are computed on an actuarial basis. No participant contributions are permitted. A participant's annual normal retirement benefit under the Pension Plan at age 65 is an amount equal to 1.0% of the participant's final average compensation plus .5% of the participant's final average compensation in excess of Social Security covered compensation, multiplied by the number of years of creditable service completed up to a maximum of 35 years. A participant's final average compensation is his or her average annual cash compensation, including salary, wages, overtime, bonuses and incentive compensation, for the five consecutive years in the last ten years in which he or she receives compensation that produces the highest average.

Edgar Filing: BB&T CORP - Form DEF 14A

Non-Qualified Defined Benefit Plan. The Non-Qualified Defined Benefit Plan is an excess benefit plan designed to provide supplemental pension benefits for certain highly compensated associates, including the NEOs, to the extent that their benefits under the Pension Plan are curtailed due to IRS compensation and benefit limitations. Benefits under the Non-Qualified Defined Benefit Plan are included in the table above.

Early Retirement. Mr. King, Mr. Brown, and Mr. Starnes have met the requirements for early retirement under the Pension Plan and the Non-Qualified Defined Benefit Plan; Mr. Henson and Mr. Bible currently are not eligible for early retirement. Associates with at least 10 years of service who have attained age 55 are eligible to retire

and begin receiving a reduced pension immediately. If an associate begins pension payments prior to normal retirement age, the payments are reduced based on a plan-specified reduction schedule.

- (1) Executive contributions were based on each NEO's deferral elections and the salaries, Annual Incentive Award, LTIP and the cash Merger Incentive payments received by each NEO in 2015.
- (2) This column represents BB&T's matching contributions credited to the accounts of the NEOs during 2015 in respect of the NEO's contributions. These values are also reflected in the "All Other Compensation" column of the 2015 Summary Compensation Table.
- (3) This column reflects earnings or losses on plan balances in 2015. Earnings may increase or decrease depending on the performance of the elected deemed investment options. These earnings are not above-market or preferential and thus are not reported in the 2015 Summary Compensation Table.
- (4) This column represents each NEO's year-end balance under the Non-Qualified Defined Contribution Plan. These balances include the NEO's and BB&T's respective contributions that were included in the summary compensation tables in previous years. Amounts in this column include earnings that were not previously reported in the summary compensation table because they were not above-market or preferential earnings.

NARRATIVE TO 2015 NON-QUALIFIED DEFERRED COMPENSATION TABLE

The BB&T Corporation Non-Qualified Defined Contribution Plan (the "Non-Qualified Defined Contribution Plan") is an excess benefit plan that provides supplemental benefits to certain highly-compensated associates, including the NEOs, to the extent that their benefits under the 401(k) Plan are curtailed due to the application of certain IRS benefit and compensation limitations. During 2015, eligible associates were permitted to defer up to 50% of their cash compensation under the Non-Qualified Defined Contribution Plan, with certain participants, including each NEO, eligible to receive a matching contribution up to 6% of his or her compensation. All cash compensation is eligible for deferral unless prohibited under Code Section 409A. Plan participants may select deemed investment funds under the Non-Qualified Defined Contribution Plan that are identical to the investment funds offered under the 401(k) Plan with the exception that no deemed investments of BB&T common stock are permitted. Participants make an election upon entering the Non-Qualified Defined Contribution Plan regarding the timing of plan distributions. The two allowable distribution elections are distribution upon termination or distribution upon reaching age 65. The Non-Qualified Defined Contribution Plan also allows for an in-service hardship withdrawal based on facts and circumstances that meet Internal Revenue Service guidelines. The Non-Qualified Defined Contribution Plan also provides participants in our incentive compensation plans with an effective means of electing to defer, on a pre-tax basis, a portion of the payments that they are entitled to receive under such plans.

Potential Payments Upon Termination or Change of Control

The potential payments to the NEOs pursuant to existing plans and arrangements in the event of their termination or a change of control at December 31, 2015 are shown in the table below. BB&T has entered into employment agreements with each member of Executive Management, including each of the NEOs. Several of the important provisions of these employment agreements are discussed in the

Compensation Discussion and Analysis and the Narrative to 2015 Summary Compensation Table above, including the noncompetition and nonsolicitation conditions, which generally are a prerequisite to receiving termination payments under the employment agreements.

- (1) Following termination due to retirement, death or other than just cause or good reason, LTIP payments remain subject to the Corporation's actual performance; therefore, no amounts are shown for these scenarios. Following a change of control, the NEO is entitled to LTIP payments, prorated through the date of the change of control. The amounts shown above include actual payments for the 2013-2015 LTIP cycle and projected pro rata payments for the two outstanding three-year LTIP cycles that have not been completed as of December 31, 2015, assuming that the Corporation's performance criteria are met at 100% of the NEO's target opportunity and such payment being prorated through the date of the change of control.
- (2) Value computed for each stock option grant by multiplying (i) the difference between (a) \$37.81, the closing market price of a share of our common stock on December 31, 2015, and (b) the exercise price per share for that option grant by (ii) the number of shares subject to that option that vest. Stock options with exercise prices less than \$37.81 are not included.
- (3) Value determined by multiplying the number of RSUs that vest by \$37.81, the closing market price of a share of our common stock on December 31, 2015.
- (4) Amounts include life and medical benefits to be paid under the applicable employment agreement.
- (5) The amount reflects the reduction to the NEO's payments such that payments are not deemed as excess parachute payments under Code Section 280G, as amended. For NEOs who are retirement eligible, amounts related to LTIP and acceleration of equity are not included in the calculation of excess parachute payments.

NARRATIVE TO POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE OF CONTROL TABLE

Amounts shown in the table above assume the NEO terminates employment on December 31, 2015, and are estimates of the amounts the NEO would receive upon termination. The actual amounts to be paid can only be determined at the time of a NEO's termination of employment. The amounts reported above do not include amounts that would be provided to a NEO under plans and arrangements that are generally available to all salaried employees. The amounts listed above also do not include amounts reported in the 2015 Pension Benefits and 2015 Nonqualified Deferred Compensation tables.

Voluntary Termination or Retirement. Upon voluntary termination by a NEO, any unvested awards and benefits (that are not subject to acceleration due to the NEO's retirement eligibility) would be forfeited. Messrs. King, Brown and Starnes are over 55 years of age, have more than 10 years of service with the Corporation and are retirement eligible. Therefore, upon the end of their employment with the Corporation each would generally be entitled to accelerated vesting of outstanding unvested equity awards.

Termination for Just Cause. If the Corporation or Branch Bank terminates a NEO's employment for Just Cause, the NEO will not have the right to receive any compensation or other benefits under the employment agreement for any period after such termination other than compensation that is earned but unpaid, unreimbursed expenses, and accrued and vested benefits.

Payments Made Upon Death. In the event of the death of any of any of our NEOs, the Corporation and Branch Bank will use their best efforts to accelerate vesting of any unvested benefits to which the NEO may be entitled under any stock-based or other benefit plan or arrangement to the extent permitted by the terms of such plans.

Termination for Other than Just Cause or Voluntary Termination for Good Reason. If a NEO's employment is terminated by the Corporation or Branch Bank other than for Just Cause, the officer will be entitled to receive monthly payments of cash compensation (including salary and bonuses) equal to one-twelfth of the highest annual amount of such compensation over the past three years, for officers other than Mr. King, and the officer will also receive employee welfare benefits, including health care, and outplacement services, for the full three year term (or, for officers other than Mr. King, until age 65 if that is a shorter period). For Mr. King, the amount of severance benefits due, if any, is determined by reference to Mr. King's average annual cash compensation for the three years prior to the year of termination rather than by reference to the highest such year of cash compensation.

In addition, if any of the NEOs' employment is terminated by the Corporation or Branch Bank other than for Just Cause, the Corporation and Branch Bank will use their best efforts to accelerate vesting of any unvested benefits to which the NEO may be entitled under any stock-based or other benefit plan or arrangement to the extent permitted by the terms of such plans. The receipt by any of the NEOs of payments and other benefits under his employment agreement is subject to compliance with the noncompetition and nonsolicitation provisions of the applicable employment agreement, which are described above under the heading Narrative to 2015 Summary Compensation Table Employment Agreements and any required six-month delay. Voluntary termination by a NEO for Good Reason would result in the same payouts to the NEO as described above for a termination for other than Just Cause.

Change of Control. The employment agreements of NEOs, other than Mr. King, provide that if a NEO's employment is terminated by the NEO or the Corporation for any reason (other than for Just Cause or on account of the death of the NEO) within twelve months after a Change of Control of the Corporation, the NEO will be entitled to receive the termination compensation and the other benefits described above under column titled, Change of Control in the table above. However, in the event of a termination in connection with a Change of Control, the NEO generally will not be required to comply with the noncompetition and nonsolicitation provisions of the applicable employment agreement. Mr. King's employment agreement, as amended in

Table of Contents

Compensation of Executive Officers

December 2012, requires, in reference to **Change of Control**, that a termination by Mr. King be a termination for **Good Reason** or that a termination by the Corporation or Branch Bank be without **Just Cause** in order for Mr. King to receive such compensation and benefits.

A **Change of Control** is generally deemed to have occurred under the employment agreements if:

- (a) any person or group acquires 20% or more of the voting securities of the Corporation;
- (b) during any two-year period, persons who were directors of the Corporation at the beginning of the two-year period cease to constitute at least two-thirds of the Corporation's Board of Directors;
- (c) the shareholders of the Corporation approve any merger, share exchange or consolidation of the Corporation with another company that would result in less than 60% of the voting securities outstanding after the transaction being held by persons who were shareholders of the Corporation immediately prior to the transaction;
- (d) the shareholders of the Corporation approve a plan of complete liquidation or an agreement for the sale or disposition of substantially all of the Corporation's assets; or
- (e) any other event occurs that the Corporation's Board of Directors determines should constitute a **Change of Control**.

In addition, for the NEOs other than Mr. King, the Corporation's Board of Directors can determine, in its discretion, that a transaction constitutes a **Merger of Equals**, even though one or more of the above definitions of a **Change of Control** is met, and, upon such determination, the applicable individual will not be entitled to terminate his or her employment agreement voluntarily and receive continued salary and benefits unless **Good Reason** exists.

- (1) Kelly S. King is not included in this table because during 2015 he was an employee of the Corporation and therefore received no compensation for his service as a director. The compensation received by Mr. King as an employee of the Corporation is shown in the 2015 Summary Compensation Table and discussed in the Compensation Discussion and Analysis. Ronald E. Deal and John P. Howe III, M.D. retired from the Board, effective December 31, 2015. We have included information on Mr. Deal and Dr. Howe for 2015 in compliance with SEC rules. William J. Reuter and Christine Sears joined the Board effective August 1, 2015 and received a prorated annual retainer, as well as applicable fees for meetings attended after joining the Board.
- (2) In February 2015, each then serving non-employee director received 2,616 restricted stock units with a grant date fair value of \$37.41 for each unit. The amounts in column (c) reflect the grant date fair value for restricted stock unit awards for the fiscal year ended December 31, 2015. The assumptions used in the calculation of these amounts for awards granted in 2015 are included in Note 10 Shareholders' Equity in the Notes to Consolidated Financial Statements included within BB&T's Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Directors Sears and Reuter's stock options were converted into BB&T stock options from their pre-existing Susquehanna stock options holdings. All Susquehanna stock options were converted into BB&T stock options at the time of the Susquehanna merger.

NARRATIVE TO 2015 DIRECTOR COMPENSATION TABLE

The director compensation shown in the table above reflects total compensation paid to each director for service on the Board of BB&T and Branch Bank. Each non-management director is compensated for his or her role as joint members on the Boards of BB&T and Branch Banking and Trust Company. A director who is also an employee of BB&T or its subsidiaries is not eligible to receive any retainer or fees for service on the Board of Directors.

In 2015, each of our non-management directors received:

Compensation of Directors

Director Equity Awards. The Board of Directors provides equity awards to its non-management members as a way of further aligning the interests of the Board with those of the shareholders. Equity awards in 2015 were provided to non-employee directors as follows:

The Board approved \$100,000 in equity-based compensation, issued in the form of RSUs that 100% vest at the end of the year;

Each RSU relates to a contingent share of our common stock that is not earned or issued until the vesting criteria are met; and

The calculation for compensation to be delivered to the Board is the same as for our associates, including our NEOs.

For RSUs that were granted in 2015, if a non-employee director's Board service is terminated due to disability or death, all unvested RSUs granted to the director would fully vest as of the date of disability or death. All such RSUs would be issuable as shares of BB&T common stock. If Board service is terminated for any other reason, any RSUs granted in 2015 that are outstanding as of the date of termination would be forfeited. Upon a change of control, all unvested RSUs would become fully vested and a corresponding number of shares of BB&T common stock would be issuable to each director holding such RSUs.

Non-Employee Directors' Deferred Compensation Plan. We maintain the BB&T Amended and Restated Non-Employee Directors' Deferred Compensation Plan (the "Directors' Plan"). The Directors' Plan includes the Deferred Compensation Sub-Plan which permits participating non-employee directors to defer 50% or 100% of their retainer fees, meeting fees or both into a deferred savings account. Deferrals are credited with earnings based on the performance of certain investment funds selected by the participant. Deferrals are fully vested at all times and are payable in cash (in lump sum or in installments, at the election of the director) upon termination of the director's service on the Board (except for hardship withdrawals in limited circumstances).

Stock Ownership Guidelines. BB&T requires non-employee directors to maintain an amount of common stock equal to 5x his or her annual retainer. For purposes of calculating stock ownership, all shares of BB&T common stock held or controlled by the individual are considered. All non-employee directors are expected to meet this ownership requirement by the later of (i) five years following his or her initial appointment as a director, or (ii) such period of time as it may take to reach the ownership requirement threshold by continuously holding those shares or RSUs granted by BB&T pursuant to our equity compensation arrangements. Each non-employee director currently satisfies these guidelines.

Consulting Agreements. Mr. Deal and Dr. Qubein have executed consulting agreements with BB&T to provide business development consulting services for a period of ten years following their retirement. Each will receive a sum equal to the annual retainer paid to our directors in effect at the time they begin such service. Messrs. Deal and Qubein have agreed not to serve as directors of, or advisers to, businesses that compete with BB&T and its subsidiaries during the time they serve as our consultants. Mr. Deal retired from the Board effective December 31, 2015, and he has begun to receive payments.

TRANSACTIONS WITH EXECUTIVE OFFICERS AND DIRECTORS

Loans to Executive Officers and Directors

A number of our directors, members of Executive Management, including our NEOs, and their affiliates are customers of our bank subsidiaries. All extensions of credit made to them are made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the lender, and do not involve more than the normal risk of collectability or present other features unfavorable to the lenders.

Related Person Transactions

Pursuant to our Related Person Transactions Policy and Procedures, it is our policy to enter into or ratify Related Person Transactions only when the Board, acting through the Nominating and Corporate Governance Committee, determines that the Related Person Transaction in question is consistent with the best interests of BB&T and its shareholders. Under this written policy, any Related Person Transaction shall be consummated or shall continue only if the Nominating and Corporate Governance Committee (or the Chair, acting pursuant to delegated authority) approves or ratifies the transaction.

The term **Related Person Transaction** generally means a transaction where the amount involved exceeds \$120,000 and in which a Related Person has a direct or indirect interest. A **Related Person** generally means (a) a director, director nominee or executive officer of the Corporation; (b) a person who is known to be the beneficial owner of more than five percent of any class of the Corporation's common stock; and (c) any immediate family member of any of the foregoing persons, which means any child, stepchild, parent, stepparent, spouse, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law or sister-in-law of the director, executive officer, nominee, or more than five percent beneficial owner, and any person (other than a tenant or employee) sharing the household of such director, executive officer, nominee, or more than five percent beneficial owner. The transactions described under this caption are **Related Person Transactions** and have been approved and ratified in accordance with our Related Person Transactions Policy.

To help the Board assess whether a material relationship exists for both independence and related person transactions purposes, our Board adopted guidance with regards to charitable contributions. Under this guidance, a Related Person who serves as an executive officer, director or trustee of a charitable or non-profit organization that receives a contribution from BB&T will not be deemed to have a direct or indirect material interest in the transaction if:

Edgar Filing: BB&T CORP - Form DEF 14A

Within the past three years, the aggregate amount of all such contributions during any single fiscal year of the charitable or non-profit organization did not exceed the greater of \$1 million or 2% of the charitable or non-profit organization's consolidated gross revenues for that fiscal year; and

The charitable or non-profit organization is not a family foundation created by the Related Person or an immediate family member of the Related Person.

Consulting Resources and Services, Inc. We have entered into a consulting services contract with Consulting Resources and Services, Inc., a consulting firm owned by the children of Nido R. Qubein, a director, under which Consulting Resources and Services, Inc., formerly known as Creative Services, Inc., advises management by providing organizational development expertise, including the conceptualization and creation of integrated corporate associate training materials and programs. Consulting Resources and Services, Inc., was paid approximately \$417,000 under this contract in 2015. Management believes this contract is on terms as favorable as could have been obtained from other non-affiliated parties. Consulting Resources and Services, Inc. will continue to provide consulting services to us in 2016 under the terms of its existing contract.

See also Consulting Agreements above, under the Narrative to 2015 Director Compensation Table, each of which constitutes a Related Person Transaction.

Voting and Other Information

VOTING AND OTHER INFORMATION

Voting and Quorum Requirements

Pursuant to the provisions of the North Carolina Business Corporation Act, February 17, 2016 has been fixed as the record date for the determination of holders of BB&T common stock entitled to notice of and to vote at the Annual Meeting.

Each share of our common stock issued and outstanding on February 17, 2016 is entitled to one vote on all proposals at the meeting, except that shares held in a fiduciary capacity by Branch Banking and Trust Company (Branch Bank) and certain other of our affiliates may only be voted in accordance with the instruments creating the fiduciary capacity. As of the close of business on February 17, 2016, there were 780,470,501 shares of our common stock outstanding and entitled to vote.

In order to obtain a quorum to conduct the Annual Meeting, a majority of shares of our common stock outstanding at the record date must be present in person or by proxy. Shareholders who deliver valid proxies or vote in person at the meeting will be considered part of the quorum. Once a share is represented for any purpose at the meeting, it is deemed present for quorum purposes for the remainder of the meeting and for any adjourned meeting. Abstentions and broker non-votes (explained below) are counted as present and entitled to vote for purposes of determining a quorum.

Voting Procedures

There are four ways to vote:

Internet: You may access the proxy materials on the Internet at <http://www.envisionreports.com/BBT>

Telephone: You may call toll-free 1-800-652-VOTE (8683), and follow the instructions on the proxy card or on the Notice of Internet Availability.

Edgar Filing: BB&T CORP - Form DEF 14A

Mail: If you received voting materials by mail, you may vote by signing, dating and mailing the enclosed proxy card in the postage-paid envelope provided.

In person: A shareholder may vote in person at the Annual Meeting by filling out a ballot.

Shareholders who vote over the Internet may incur costs, such as telephone and Internet access charges, for which the shareholder is responsible. The Internet and telephone voting facilities for eligible shareholders of record will close at 11:59 p.m., EDT, on April 25, 2016. The Internet and telephone voting procedures are designed to authenticate a shareholder's identity and to allow a shareholder to vote his or her shares and confirm that his or her instructions have been properly recorded.

Shareholders who hold shares in street name, that is, through a broker, bank or other nominee, should instruct their nominee to vote their shares by following the instructions provided by the nominee. *Your vote as a shareholder is important.* Please vote as soon as possible to ensure that your vote is recorded.

We encourage you to take advantage of the options to vote using the Internet or by telephone. Voting in this manner will result in cost savings for us. *If you vote via the Internet or by telephone, please do not return your proxy card.* Three of our executives, Kelly S. King, Christopher L. Henson and Robert J. Johnson, Jr., have been designated as the proxies to cast the votes of our shareholders at the Annual Meeting.

A proxy that is signed and dated, but which does not contain voting instructions, will be voted as follows:

FOR the election of each of the 18 directors named in the proxy statement;

FOR the ratification of the appointment of PricewaterhouseCoopers LLP as BB&T's auditors for 2016; and

FOR the advisory vote to approve our executive compensation program.

Voting and Other Information

Non-Votes, Abstentions, and Revocations

A broker or other nominee may generally vote your shares without instruction on routine matters but not on non-routine matters. A broker non-vote occurs when your broker submits a proxy for your shares but does not indicate a vote for a particular non-routine proposal (Proposals 1 and 3 on your proxy) because your broker does not have authority to vote on that proposal and has not received specific voting instructions from you. Broker non-votes, as well as abstentions, are not counted as votes cast for or against any of the proposals, and therefore will not affect the outcome of the vote.

The proxy may be revoked by a shareholder at any time before it is exercised by filing with the Secretary of BB&T an instrument revoking it, filing a duly executed proxy bearing a later date (including a proxy given over the Internet or by telephone), or by attending the meeting and electing to vote in person. *Even if you plan to attend the Annual Meeting, you are encouraged to vote your shares by proxy.*

Delivering Proxy Materials

We deliver proxy materials primarily through the Internet, in accordance with SEC rules. In addition to reducing the amount of paper used in producing these materials, this method lowers the costs associated with mailing the proxy materials to shareholders. Shareholders who own shares directly in BB&T and not through a bank, broker or intermediary (record holders), will have proxy materials or the Notice of Internet Availability of Proxy Materials delivered directly to their mailing address or electronically if they have previously consented to that delivery method. Shareholders whose shares are held for them by banks, brokerages or other intermediaries (beneficial holders), will have the proxy materials or the Notice of Internet Availability of Proxy Materials forwarded to them by the intermediary that holds the shares.

If you received only a Notice of Internet Availability of Proxy Materials by mail, you will not receive a printed copy of the proxy materials unless you request a copy by following the instructions on the notice. The Notice of Internet Availability of Proxy Materials also contains instructions for accessing and reviewing the proxy materials over the Internet and provides directions for submitting your vote over the Internet.

To reduce the expenses of delivering duplicate proxy materials to shareholders, we are relying upon SEC rules that permit us to deliver only one set of applicable proxy materials to multiple shareholders who share an address, unless we receive contrary instructions from any shareholder at that address. All shareholders sharing an address will continue to receive separate proxy cards based on their registered ownership of BB&T common stock. Any shareholder sharing such an address who does not receive an individual proxy statement, our 2015 Annual Report and our Annual Report on Form 10-K, may write or call BB&T's transfer agent as specified below and we will promptly deliver the materials at no cost. For future meetings, a shareholder may request separate copies of our proxy materials or request that we only send one set of these materials if

Edgar Filing: BB&T CORP - Form DEF 14A

the shareholder is receiving multiple copies, by telephoning our transfer agent at 1-800-213-4314, or writing the transfer agent at: Computershare Trust Company N.A., P.O. Box 43078, Providence, Rhode Island, 02940-3078. If your shares are held in street name, you may contact Broadridge Investor Communication Solutions, Inc., Householding Department, 51 Mercedes Way, Edgewood, NY 11717 or by calling 1-866-540-7095.

Any shareholder may obtain a copy of our 2015 Annual Report and our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 (including the financial statements and financial statement schedules), without charge by contacting Computershare at the address above.

Proxy Costs

All expenses incurred in this solicitation will be paid by BB&T. In addition to soliciting proxies by mail, over the Internet and by telephone, our directors, officers and employees, who are also referred to as associates, may

solicit proxies on behalf of BB&T without additional compensation. We have engaged D. F. King & Co., Inc., to act as our proxy solicitor and have agreed to pay it approximately \$12,500 plus reasonable expenses for such services. Banks, brokerage houses and other institutions, nominees and fiduciaries are requested to forward the proxy materials to beneficial holders and to obtain authorization for the execution of proxies. Upon request, we will reimburse these parties for their reasonable expenses in forwarding proxy materials to beneficial holders.

Proposals for 2017 Annual Meeting of Shareholders

Under SEC Rule 14a-8, any shareholder desiring to make a proposal to be included in the notice for the 2017 Annual Meeting of Shareholders and related proxy materials must present such proposal to the following address: Secretary, BB&T Corporation, 200 West Second Street, Winston-Salem, North Carolina 27101. Proposals must be received no later than the close of business on November 17, 2016, and must comply with SEC Rule 14a-8 in order for the proposal to be considered for inclusion in the Corporation's proxy statement.

Additionally, under BB&T's bylaws, for other business to be properly brought before an annual meeting by a shareholder where such business is not to be included in the Corporation's proxy statement, the shareholder must deliver timely notice in writing to the Secretary of the Corporation at least 120 days, but no more than 150 days (no earlier than October 18, 2016 and no later than November 17, 2016), in advance of the first anniversary of the notice date of the Corporation's proxy statement for the preceding year's annual meeting. Additional time limitations apply in the event of special meetings or annual meetings that are advanced by more than thirty days or delayed by more than sixty days from the first anniversary date of the prior year's annual meeting.

Article II, Section 10 of the bylaws provides that, as to each matter, the notice must contain (in addition to any information required by applicable law): (i) the name and address of the shareholder of record who intends to present the proposal and of all beneficial owners, if any, on whose behalf the proposal is made; (ii) the number of shares of each class of capital stock of the Corporation beneficially owned by the shareholder of record and such beneficial owners and the nature of such ownership; (iii) a description of the business proposed to be introduced to the meeting of shareholders; (iv) any material interest, direct or indirect, which the shareholder or beneficial owners may have in the business described in the notice; and (v) a representation that the shareholder is a holder of record of shares of the Corporation entitled to vote at the meeting and intends to appear in person or by proxy at the meeting to present the proposal. As used above, beneficial ownership or beneficially own means the power, directly or indirectly, through any contract, understanding or other arrangement, to exercise voting or investment discretion with respect to shares of any class of capital stock, including, but not limited to, through any derivative position, hedge, swap, securities lending arrangement or other transaction or arrangement relating to any class of capital stock.

Shareholder nominations for director must comply with the notice and informational requirements described above for other shareholder proposals, as well as additional information that would be required under Article II, Section 10(b) of the bylaws and applicable SEC proxy rules. See also Corporate Governance Matters Director Nominations above. The chairman of the meeting may refuse to acknowledge or introduce any shareholder proposal or nomination if notice thereof is not received within the applicable deadlines or does not comply with the bylaws. If a shareholder fails to meet these deadlines or fails to satisfy the requirements of SEC Rule 14a-4, the persons named as proxies will be allowed to use their discretionary voting authority to vote on any such matter as they determine appropriate if and when the matter is raised at the Annual Meeting.

How will voting results be reported?

After the Annual Meeting of Shareholders, BB&T will report final voting results in a Current Report on Form 8-K filed with the SEC.

ANNEX A NON-GAAP FINANCIAL MEASURES

Adjustments to Net Income

As previously described, for the purposes of certifying BB&T's performance under BB&T's compensation plans, the Compensation Committee typically makes adjustments to BB&T's GAAP results to ensure that the participants are compensated for BB&T's core performance. For 2015, the Compensation Committee made adjustments to BB&T's GAAP net income, as set forth in the tables below (Adjusted Net Income). Typically, the Compensation Committee adjusts BB&T's GAAP net income for gains or losses on sales/purchases of business, merger-related and restructuring charges and similar non-core performance items, on a pre-tax basis, provided the adjustment is not solely a tax-related item. These adjustments are made so that participants are compensated for BB&T's core performance and are neither penalized nor rewarded for one-time charges, unusual gains, or similar non-core events. To the extent practicable, the Compensation Committee also makes similar adjustments to the reported performance of Peer Group members for awards that measure BB&T's performance relative to the Peer Group.

The adjustments for 2015 impact the Annual Incentive Award's performance metrics, earnings per share and return on assets, and the three-year average ROCE for LTIP purposes. BB&T derives each of these non-GAAP performance metrics from its Adjusted Net Income, which is a non-GAAP financial measure, and accordingly, each of these adjusted financial measures is determined by methods other than in accordance with GAAP.

The adjusted earnings per share and return on assets measures are each calculated in the same manner as their GAAP counterparts, except that Adjusted Net Income for the applicable performance metric is substituted for its GAAP counterpart in each calculation. Please refer to the adjustments table and accompanying narratives for additional detail on the ROCE calculations and GAAP reconciliation.

2015 ADJUSTED NET INCOME FOR ANNUAL INCENTIVE AWARD

	Return on Assets Measure	Earnings per Share Measure
2015 GAAP Net Income ⁽¹⁾	2,123	
2015 GAAP Net Income Available to Common Shareholders ⁽¹⁾		1,936
Compensation Committee Approved Adjustments		
FHLB debt extinguishment	172	172
Tax litigation charges ⁽²⁾	(172)	(172)
Net Loss on sale of business	21	21
Merger-related and restructuring charges, net	165	165
Adjustments Subtotal	186	186
Tax Effect of Adjustments ⁽³⁾	(51)	(51)
Adjusted Net Income	2,258	2,071

- (1) The Compensation Committee uses GAAP net income available to common shareholders to calculate earnings per share performance as this reflects income attributable to each share of common stock. The Compensation Committee uses GAAP net income for return on assets performance because the return on assets metric measures relative Peer Group performance.
- (2) Tax litigation charges are shown as pre-tax equivalents.
- (3) GAAP net income includes the effect of applicable taxes. The Compensation Committee's approved adjustments are pre-tax items, provided the adjustment is not solely a tax-related item. Accordingly, the tax effect of the adjustments has been deducted to accurately reflect the impact of the adjustments on net income.

As described in the Compensation Discussion and Analysis, in approving the Merger Incentive payment, the Compensation Committee decided that the earnings attributable to the legacy Susquehanna operations following the merger (which occurred on August 1, 2015) should be removed from the Annual Incentive's EPS performance measure as relates to Executive Management. Due primarily to the conversion of the accounting systems, it was necessary to estimate the impact of Susquehanna's earnings on BB&T's 2015 results. The methodology used pre-systems conversion results, adjusted primarily for loan accretion and merger cost savings. Using this methodology, Adjusted Net Income for EPS purposes was reduced by \$108 million and average diluted shares were reduced by 19 million.

2015 ANNUAL INCENTIVE AWARD PERFORMANCE METRICS

Performance Metrics	Performance Metric Calculated		
	GAAP Performance Metric	Using Adjusted Net Income	Performance Metric Excluding SUSQ
Earnings per share ⁽¹⁾	\$2.56	\$2.73	\$2.66
Return on assets ⁽²⁾	1.08%	1.14%	N/A

(1) Earnings per share calculated using weighted average number of diluted common shares.

(2) Return on assets calculated using daily average total assets.

BB&T's 2013-2015 LTIP award references BB&T's three-year ROCE performance. BB&T derives this non-GAAP performance metric from its GAAP net income available to common shareholders for each year of the performance period. The adjustments include the items detailed in the table below.

LTIP ADJUSTMENTS

	Return on Common Equity Measure

GAAP 3-year average ROCE	8.58%		
Adjusted ROCE	8.93%	9.58%	10.76%
Adjusted 3-year average ROCE	9.73%		

- (1) The Compensation Committee uses GAAP net income available to common shareholders to calculate return on common equity performance as this reflects income attributable to common equity.
- (2) Tax litigation charges are shown as pre-tax equivalents.
- (3) Effective January 1, 2015, BB&T retrospectively adopted new guidance related to the accounting for investments in qualified affordable housing projects. Prior periods have not been revised to reflect the adoption of this new guidance. Awards for the 2014 fiscal year were based upon operating results for BB&T as originally reported. These disclosures should not be viewed as a substitute for operating results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies.

Price/Tangible book tangible book value per share generally represents the amount of money an investor would theoretically receive for each share if a company were liquidated at the values stated on the company's balance sheet, excluding goodwill and other intangibles. The ratio of stock price to tangible book value is a non-GAAP measure. BB&T's management believes investors use this measure to evaluate the ratio of the stock price to the book value per share without the impact of intangible assets.
