mPHASE TECHNOLOGIES, INC.

PROXY STATEMENT
FOR THE ANNUAL MEETING OF SHAREHOLDERS
TO BE HELD WEDNESDAY FEBRUARY 12, 2014

This Proxy Statement is furnished to the shareholders of mPhase Technologies, Inc. in connection with the solicitation of proxies by our Board of Directors to be voted at the Annual Meeting of Shareholders and at any adjournments thereof. The Annual Meeting will be held at our offices at 587 Connecticut Avenue, Norwalk, CT 06854, at 10:00 a.m. Eastern Time on February 12, 2014.

The Company has been unable to hold five Annual Meetings of Shareholders for the fiscal years ended June 30, 2008, 2009, 2010, 2011 and 2012 owing to financial considerations as a result, in part, of the global financial crisis that began in 2008. It is the intent of the Company to use its best efforts to hold its next Annual Meeting for the fiscal year ended June 30, 2014 no later than November 1, 2014. The Company, as a New Jersey Corporation, is subject to the provisions of Section 14A:5-2 of the New Jersey Business Corporation Law that provides as follows:

Annual Meeting of Shareholders

An annual meeting of shareholders shall be held at such time as may be provided in the bylaws, or as may be fixed by the board pursuant to authority granted in the by-laws, and, in the absence of such a provision, at noon on the first Tuesday of April. Failure to hold the annual meeting at the designated time, or to elect a sufficient number of directors at such meeting or any adjournment thereof, shall not affect otherwise valid corporate acts or work a forfeiture or dissolution of the corporation. If the annual meeting for election of directors is not held on the date designated therefor, the directors shall cause the meeting to be held as soon thereafter as convenient. If there is a failure to hold an annual meeting for a period of 30 days after the date designated therefor, or if no date has been designated for a period of 13 months after the organization of the corporation or after its last annual meeting, the Superior Court may, upon the application of any shareholder, summarily order the meeting or the election, or both, to be held at such time and place, upon such notice and for the transaction of such business as may be designated in such order. At any meeting ordered to be called pursuant to this section, the shareholders present in person or by proxy and having voting powers shall constitute a quorum for the transaction of the business designated in such order.

For each of the five fiscal years from the one ended June 30, 2008 through and including the one ended June 30, 2013, the Company continued to function with the same Board of Directors elected at the last Annual Meeting of Shareholders on August 27, 2008. Auditors elected or approved at its last Annual Meeting continued to serve until July 22, 2010. On July 22, 2010, the Board of Directors appointed Demetrius & Company, L.L.C. as its independent auditors for the 2010 fiscal year, replacing Rosenberg Rich Baker Berman & Company, as set forth in the Company's Form 8-K filing of July 23, 2010. The Board of Directors remains unchanged except that Anthony Guerino is not running for reelection to the Board resulting in the recommended Board consisting of 5 rather than 6 directors.

For the information of its shareholders, the Company has included its most recent Annual Report on Form 10-K for the fiscal year ended June 30, 2013. Officers of the Company will be present at this Annual Meeting of Shareholders to answer all questions regarding information about the Company.

The approximate date on which this Proxy Statement and the accompanying proxy card are first being sent or given to shareholders is December 23, 2014.

VOTING

General

The securities that may be voted at the Annual Meeting consist of our common stock, with each share entitling its owner to one vote on each matter submitted to the shareholders. The record date for determining the holders of our shares who are entitled to notice of and to vote at the Annual Meeting is December 12, 2013. On the record date, _____ shares were outstanding and eligible to be voted at the Annual Meeting.

Quorum and Vote Required

The presence, in person or by proxy, of a majority of the outstanding shares of our shares is necessary to constitute a quorum at the Annual Meeting. Abstentions and broker non-votes shall be counted for purposes of determining a quorum, but not have the effect of votes for or against any proposal. Therefore, abstentions and broker non-votes will not affect the outcome of such matter. At a meeting where a quorum is present, with respect to Proposal I for the election of directors, nominees who receive a plurality of the votes cast will be elected to serve until the next Annual Meeting of Shareholders, and with respect to Proposal II for the ratification of appointment of Independent Accountants for the Company, the affirmative vote of a majority of the shares represented at the Annual Meeting will be required to approve such proposal and broker non-votes will be counted as an vote in the affirmative. With respect to Proposal III for the amendment of the Company's certificate of incorporation to authorize an additional 6 billion shares of common stock for a total number of 18 billion authorized shares of common stock, the affirmative vote of a majority of the shares of the Company represented at the meeting or by proxy is required for approval.

Brokers holding shares of record for customers generally are not entitled to vote on certain matters unless they receive voting instructions from their customers. "Broker non-votes" means the votes that could have been cast on the matter in question if the brokers had received their customers' instructions, and as to which the broker has notified us on a Proxy form in accordance with industry practice or has otherwise advised us that it lacks voting authority. However, Brokers may vote on certain "routine" matters in the Proxy Statement at the broker's discretion when they have not received timely voting instructions from their customers. The three matters to be voted upon are each a routine matter.

Voting by Proxy

Shares represented by properly executed proxies received at or before the Annual Meeting that have not been revoked will be voted at the Annual Meeting in accordance with the instructions contained therein. Shares represented by properly executed proxies for which no instruction is given will be voted "FOR" approval of the proposals described in this Proxy Statement. If any other matters properly come before the Annual Meeting, the persons named as proxies will vote upon such matters according to their judgment. Our shareholders are requested to complete, sign, date and promptly return the enclosed Proxy Card in the postage-prepaid envelope provided for this purpose to ensure that their shares are voted. A shareholder may revoke a proxy at any time before it is voted by signing and returning a later-dated proxy with respect to the same shares, by filing with our corporate secretary, a written revocation bearing a later date or by attending and voting in person at the Annual Meeting. Mere attendance at the Annual Meeting will not in and of itself revoke a proxy.

If the Annual Meeting is postponed or adjourned for any reason, at any subsequent reconvening of the Annual Meeting, all proxies (except for any proxies that have theretofore effectively been revoked or withdrawn) will be voted in the same manner as such proxies would have been voted at the original convening of the Annual Meeting,

notwithstanding that such proxies may have been effectively voted on the same or any other matter at a previous meeting.

Prior to joining Steven Institute of Technology Dr. Lawrence was Vice President, Advanced Communications Technology, Bell Laboratories, Lucent Technologies. He led the development of technologies that go into the most innovative, reliable, and cost-effective communications networks for the leading telecommunications service providers. He has supported Lucent's businesses with a staff of about 500 leading technologists and a budget of about \$100M. Major projects included gigabit, photonic, and wireless networking developments and services. He was responsible for a team of engineers that worked on performance analysis, simulations and development of broadband access and backbone networks for many national and international service providers. All of Lucent's R&D organizations relied on his high-technology support of computer-aided hardware design, physical and thermal design, systems compliance testing and certification, and design for high performance network control, signaling, and management. For his scientific achievements, Dr. Lawrence has received numerous awards, including the 2004 IEEE Award in International Communication and a 1997 Emmy Award for the HDTV Grand Alliance Standard. He was also Special Rapporteur on Coding (1982-1984) and on Transmission Impairments (1984) for CCITT (now ITU). Dr. Lawrence has been a key proponent of R&D globalization and is championing the effort to bring fiber optic connectivity to Africa. Over the past several years at Bell Labs, he managed a worldwide R&D organization, with branches in Beijing and Shanghai in China and in Hilversum and Twente in the Netherlands, as well as four states in the US. Before joining Bell Labs in 1974, he taught at Kumasi University of Science and Technology in Ghana, and was employed as a research engineer at the General Electric Company in the UK. In accordance with New Jersey law, the proposed amendment to the Amended Certificate of Incorporation is subject to shareholder approval.

In the event that shareholder approval of the proposed amendment is obtained, the Company expects to file a Certificate of Amendment to the Amended Certificate of Incorporation with the New Jersey Secretary of State on or about the close of business on the date of the Special Meeting.

As of November 8, 2013, Mr. Smiley returned 295 million restricted shares of common stock previously granted to him to the Company for cancellation. As of December 3, 2013, Messrs. Durando and Dotoli each returned 295 million restricted shares of common stock previously granted for cancellation. The purpose of these cancellations is to ensure that the Company will have enough shares to continue financing the Company operations pending shareholder approval of the proposed increase in authorized shares pursuant to this Proxy.

As of December 3, 2013, of the 6,000,000,000 shares of common stock currently authorized for issuance under the Amended Certificate of Incorporation, a total of 5,174,226,649 shares were issued and outstanding and 264,951,983 shares were reserved for issuance upon exercise of the Company's stock options, warrants and other convertible debt securities that are currently outstanding and funded based upon the closing stock price of \$.0017 per share on such date. In addition if all convertible debt (including those amounts in dispute or the subject of litigation) were converted into common stock based upon an adverse outcome of such litigation the Company could be required to issue as many as 1,347,948,157 shares of its common stock based upon the stock price of \$.0017 per share on December 3, 2013. Indebtedness for unpaid compensation and loans of officers is also convertible into common shares as described below provided such shares are available for issuance after satisfaction of all other convertible debt, option and warrant obligations of the Company. Based on the conversion feature of \$.0040 for such officer indebtedness, conversion would require the issuance of an aggregate of approximately 343,072,031 shares. An increase in the number of shares of common stock authorized for issuance under the Company's Amended Certificate of Incorporation is necessary to permit the Company to have additional shares available for issuance in furtherance of the Company's business purposes, as more fully set forth below under "Reasons for and Effects of the Proposal."

Reasons for and Effects of the Proposal

Due to the limited number of shares of common stock available to be issued, the Board of Directors has unanimously approved, and recommends that the shareholders approve, an amendment to the Company's Amended Certificate of Incorporation pursuant to which the number of shares of common stock which the Company would be authorized to issue would be increased from 6,000,000,000 shares to 18,000,000,000 shares. As of December 3, 2013, the Company had 5,172,226,649 outstanding shares of common stock as well as convertible securities that could be converted into 1,347,948,157 additional shares of common stock. In addition, the Company anticipates the need for significant additional shares in connection with future private placements of equity and issuances of convertible instruments as well as its equity line of credit to raise a minimum of \$5 million in order to sustain minimal operations over the next 3 years.

The Company traditionally financed its operations from inception to late 2007 through equity private placements with retail investments of its common stock and warrants. The equity market for the Company's common stock contracted significantly in December of 2007. As a result, in order to finance its operations thereafter, the Company has issued convertible debentures and convertible notes to a number of hedge funds. Such transactions are highly dilutive since the conversion price of the convertible debt into common stock is at a discount ranging from 20-30% of the market price of the stock. In the case of more recent convertible securities, the Company has had to accept discounts of from 40-45% of the market price of its common stock.

From June 30, 2011 through December 3, 2013 the Company's shares of common stock outstanding increased from 1,628,502,264 shares to 5,172,226,649. The substantial increase in shares is attributable to the decline in the Company's common stock value from \$.0073 per share on June 30, 2011 to \$.0017 per share on December 3, 2013. This decline was attributable, in large part, to a "chill" imposed on the Company's common stock by the Depository Trust Company from June 17, 2011 until September 16, 2013. The DTC Chill eliminated electronic trading of the Company's common stock and required certificates to be delivered in connection with all purchases and sales of the Company's common stock. The Chill resulted in many brokers refusing to execute transactions for customers in the Company's common stock and accept deposit of newly issued shares of such stock. This made financing very expensive for the Company wherein it had to offer significant discounts from the market price of such stock in order to raise money during such period. This had the effect of further increasing the supply of shares in the market dramatically causing a significant erosion of the stock price. The Company will continue to require substantial funds to be raised in the capital markets until it has achieved profitable operations. The Company is unable to predict when its operations may become profitable and therefore finds it necessary to increase its authorized shares in order to continue to finance for operations. The need for the substantial increase in authorized shares for the Company is especially critical at this time given the continuing volatility of the Company's stock price and global uncertainty in the capital markets.

The Company also currently plans to reserve not more than three billion shares of the additional authorized common stock for issuance in connection with benefit, option or stock ownership plans or employment agreements, as the case may be. In particular, substantial awards may be made in connection herewith to the Company's key executives, Messrs. Durando, Dotoli and Smiley. At this time, no determination has been made that any such awards will be made or the terms or quantities thereof. The determination to make any awards will be subject to the discretion of the Company's Board of Directors which will consider such factors as the performance of the executives, the Company and relevant market and economic conditions.

The Board of Directors believes that an increase in authorized common stock would provide the Company with increased flexibility to issue and/or sell common stock from time to time at the discretion of the Board of Directors, and without further authorization by the shareholders, for one or more of the following business purposes: (i) in public or private offerings as a means of obtaining additional capital for the Company's business; (ii) as part or all of the consideration required to be paid for the acquisition of ongoing businesses or other assets; (iii) to satisfy any current or future financial obligations of the Company; (iv) in connection with the exercise of options, warrants or rights, or the conversion of convertible securities that may be issued by the Company; or (v) pursuant to any benefit, option or stock ownership plan or employment agreement.

The Company plans to issue a total of 7,734,753,163 shares of common stock during the next two years to raise additional funds. Based upon the current stock price of \$.0017 per share this would provide \$13,120,457 of additional gross proceeds to the Company. The Company plans to use such funds to continue operations of the Company and to enable the Company to market and sell its automotive jump starter product and continue research and development of its SmartNano Battery. The Company plans to use a combination of equity private placements, its equity line of credit and the issuance of convertible debt securities. In addition the Company may need to reserve a portion of shares in order to establish a new class of convertible preferred stock that could be used to raise a large block of additional capital. Since the Company uses its stock as its main source of currency to sustain operations and fund further product development and commercialization, management believes that the additional number of authorized shares will enable it to continue development of the Company into an enterprise with revenue in the future.

The proposed increase in the number of authorized shares of common stock will not change the number of shares of common stock outstanding or the rights of the holders of such stock. The Company will be required to issue new shares of common stock upon the exercise of options, warrants, convertible securities, both currently outstanding as well as issuable in the future on such terms as may be determined from time to time based on, among other factors, market conditions and the needs of the Company. The Company does anticipate that it will need to raise additional equity capital in the near future through the issuance of common stock or securities convertible into common stock or that otherwise grant the holder the right to purchase common stock. The records of the Company's transfer agent indicated that as of November 1, 2013 the Company had 5,768,726,649 shares of common stock outstanding. As of December 3, 2013 the Company had 5,174,226,649 shares of common stock outstanding as a result of the cancellation of shares of common stock held by Messrs. Durando, Dotoli and Smiley as described on page 14.

As of December 3, 2013 the Company's outstanding convertible debt instruments were immediately convertible into 1,347,948,157 shares of common stock at a price discounted from the market price of \$.0017 per share for \$1,276,500 of funding already received by the Company. The shares that would be issued under the convertible debt would increase in cases where the price of the Company's common stock decreased. The Company may experience requests for conversions exceeding the total shares it has available over the life of the convertible debt agreements should its stock price decrease; in such case the Company believes it would not have a greater liability than that recorded on its Financial Statements, as amended, for convertible notes payable and the corresponding derivative liability. The Company also has outstanding officer notes for amounts owed that have limited conversion features effective through April of 2014 that could be convertible into approximately 343,072,031 shares of common stock provided that such shares are available at the time of conversion.

Long Term Convertible Debentures / Notes Receivable / Debt Discount

The Company had 12 separate convertible debt arrangements with independent investors that were in effect at various times during the two fiscal years ended June 30, 2013, 3 of which were still active as of December 3, 2013.

During the fiscal year ended June 30, 2012, \$1,814,368 of debt was converted into 716,962,140 shares of common stock by holders of Convertible Securities.

During the fiscal year ended June 30, 2013, \$ 39,000 of debt including \$1,500 accrued interest thereon was converted into 40,451,179 shares of common stock by holders of Convertible Securities.

During the period from June 30, 2013 through December 3, 2013 \$96,026 of debt including accrued interest thereon was converted into 141,761,066 shares of common stock by holders of Convertible Securities.

These transactions are intended to provide liquidity and capital to the Company and are summarized below.

Arrangement #1 (JMJ Financial, Inc.)

1a.) On November 17, 2009, the Company received a total of \$186,000 of proceeds in connection with a new financing agreement with JMJ Financial. This transaction consisted of the following: 1) a convertible note in the amount of \$1,200,000 plus a one-time interest factor of 12% (\$144,000) and a maturity date of September 23, 2012 and (2) a secured promissory note in the amount of \$1,100,000 plus a one-time interest rate factor of 13.2% (\$144,000 each) and a maturity date of September 23, 2012 due from the holder of the convertible note. Conversion of outstanding principal into shares of common stock is at the option of the holder. The number of shares into which this note can be converted is equal to the dollar amount of the note divided by 75% of the lowest trade price during the 20 day trading period prior to conversion. To date the Company has received a total of \$639,500 in cash and has issued 322,187,500 shares of common stock to the holder upon conversions of \$325,440 of principle and \$994,766 of conversion fees. The remaining \$604,600 of cash which was to be received from the holder plus accrued and unpaid interest was to be convertible into shares of common stock at the option of the holder. Advances under this agreement ceased in April 2011.

Based upon the price of the Company's common stock on June 30, 2011 of \$.0073 per share the holder could convert the remaining principal amount plus interest of this convertible note into approximately 222,142,857 shares of common stock at the full contract value; of which the derivative liability associated with this arrangement is calculated.

At June 1, this note was combined with arrangement #1 JMJ Financial, Inc. During the year ended June 30, 2011 the holder converted \$33,750 of principal into 10,000,000 shares of common stock and amortization of debt discount amounted to \$412,332, reducing the debt discount balance to \$100,000. During the year ended June 30, 2012, the Company reduced the note payable and debt discount by \$42,000 in proportion with the amount funded to the total original funding commitment and amortization of debt discount amounted to \$27,067 reducing the balance to \$30,933. Also during the year ended June 30, 2012, the Company had incurred \$994,766 of conversion fees which together with \$291,690 of principle was converted into 322,187,500 shares of common stock.

At June 30, 2012 this convertible note had \$372,060 outstanding which was combined with arrangement #1 JMJ Financial, Inc.

1b.) On December 15, 2009 the Company entered into a new financing agreement with JMJ Financial that consists of the following: a convertible note issued by the Company in the amount of \$1,500,000 plus a one-time interest factor of 12% (\$180,000) and a maturity date of December 15, 2012 and (2) a secured promissory note in the amount of \$1,400,000 plus a one-time interest rate factor of 13.2% (\$180,000) and a maturity date of December 15, 2012 due from the holder of the convertible note. To date the Company has received a total of \$300,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,280,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Advances under this agreement ceased in April 2011.

The number of shares into which this convertible note can be converted is equal under substantially same terms as 1a. Based upon the price of the Company's common stock on June 30, 2011 of \$.0073 per share the holder could convert the remaining principal amount plus interest of this convertible note into approximately 285,714,286 shares of common stock.

The Company and the holder are presently negotiating potential amendments to this agreement, and funding and conversions have not occurred since April, 2011. For accounting purposes the note receivable has been fully reserved, and the liability is recorded, when netted against the debt discount and cumulative conversions, at the amount funded. Based upon the price of the Company's common stock on June 30, 2011, the net liability of this note is convertible into approximately 38,095,238 shares of common stock. At the commitment date, the derivative value of the embedded conversion feature of such security was \$542,714 and the debt discount was valued at \$642,714. As of June 30, 2011, this value was calculated to be \$607,994. During the year ended June 30, 2011, amortization of debt discount amounted to \$418,552, reducing the balance to \$100,000. During the fiscal year ended June 30, 2012, the Company reduced the note payable and debt discount by \$79,000 in proportion with the amount funded to the total original funding commitment and amortization of debt discount amounted to \$8,573 reducing the balance to \$12,427.

As of June 30, 2012, this convertible note had \$321,000 outstanding which was combined with arrangement #1 JMJ Financial, Inc.

1c.) On April 5, 2010, the Company entered into a new financing agreement with JMJ Financial that consists of the following: 1) a convertible note issued by the Company in the principal amount of \$1,200,000 plus a one-time interest factor of 12% (\$144,000) and a maturity date of December 15, 2012, and (2) a secured promissory note from the holder of the convertible note in the amount of \$1,100,000 plus a one-time interest rate factor of 13.2% (\$144,000 each) and a maturity date of December 15, 2012. To date the Company has received a total of \$100,000 cash and has issued no shares of common stock to the holder upon conversions. The remaining \$1,144,000 of cash to be received from the holder plus accrued and unpaid interest is convertible into shares of common stock at the option of the holder. Advances under this agreement ceased in April 2011.

The number of shares into which this convertible note can be converted is equal under substantially same terms as 1a. Based upon the price of the Company's common stock on June 30, 2011 of \$.0073 per share the holder could convert the remaining principal amount plus interest of this convertible note into approximately 228,571,429 shares of common stock.

For accounting purposes the note receivable has been fully reserved, and the liability is recorded, when netted against the debt discount and cumulative conversions, at the amount funded. Based upon the price of the Company's common stock on June 30, 2011, the net liability of this note is convertible into approximately 19,047,619 shares of common stock. At the commitment date, the derivative value of the embedded conversion feature of such security was \$421,891 and the debt discount was valued at \$521,891. As of June 30, 2011, this value was calculated to be \$486,795. During the year ended June 30, 2011, amortization of debt discount amounted to \$378,761, reducing the balance to \$ 100,000.

During the fiscal year ended June 30, 2012, the Company reduced the note payable and debt discount by \$91,000 in proportion with the amount funded to the total original funding commitment and amortization of debt discount amounted to \$3,674 reducing the balance to \$5,326. As of June 30, 2012, this convertible note has \$109,000 outstanding, which when combined with arrangements 1a.) and 1b.) totaled \$802,060, which the Company entered into an amended agreement on June 1, 2012 whereby the Company agreed to make payments of principle and interest of \$37,018 per month commencing October 1, 2012 through September 1, 2014 at 8% interest and so long as the payments are not in default then no conversions into the Company's common stock would be available to the holder.

As of June 30, 2012 and June 30, 2013, the combined arrangements with JMJ in this note would be convertible into 200,515,000 and 219,050,990 at the conversion floor price of \$.004; and only so if the Company does not make the scheduled payments pursuant to the June 1, 2012 amended agreement.

The Company has not made any payments of the \$37,018 installment payments commencing October 1, and the holder has continued to accrue interest on the outstanding balance.

As of September 30, 2013 and December 3, 2013, the combined arrangements with JMJ in this note would be convertible into 203,100,550 and 226,655,865 respectively at the conversion floor price of \$.004; and only so if the Company receives a demand from the note-holder which could cause the company to incur conversion charges; the company estimates it can settle this combined amended note together with accrued interest at the December 3, 2013 price of the Company's common stock of \$.0017, without incurring incremental conversion charges, into approximately 711,077,224 shares of common stock.

Arrangement #2 (John Fife dba St. George Investors)

On September 13, 2011, the Company issued a second Convertible Note to John Fife founder and president of St. George Investments, in a Private Placement pursuant to Section 4(2) of the Securities Act of 1933. The initial principal amount of the first funded tranche of the Convertible Note was \$357,500 and the Company received cash proceeds of \$300,000.

A second tranche of the Convertible Note in the amount of \$200,000 cash is funded upon the filing by the Company of a Registration Statement on Form S-1 with the Securities and Exchange Commission providing for the registration of 185,400,000 shares of common stock that may be converted into from time to time by the holder of the Convertible Note.

The instrument is convertible into the Company's common stock at 75% of the volume weight average price of the stock based upon the average of the three lowest trading days in the 20 day trading period immediately preceding such conversion. Absent an effective Registration Statement, the holder of the Convertible Note may not sell any common stock prior to 6 months from the date of funding of each of the respective tranches of such instrument under Rule 144 of the Securities Act of 1933.

All proceeds received in connection with the above financing have been used by the Company as working capital.

At the time of the transaction, the embedded conversion feature of this security and the warrant was calculated to be \$137,481 and the loan discount totaled \$194,981 for the initial tranche and the embedded conversion feature of this security and the warrant for a second tranche of the Convertible Note was calculated to be \$46,379. On June 30, 2012, given the changes in the Company's stock price during the 20 day look-back period for June 30, 2012 and conversions during the period this estimated liability had increased from \$183,860 to \$771,079, an increase this period of \$587,219, creating a non-cash charge to earnings for the twelve months ended June 30, 2012 of that amount.

During the twelve month period ended June 30, 2012 amortization of debt discount amounted to \$185,456 reducing the combined balance to \$55,903. On June 30, 2013, given the changes in the Company's stock price during the 20 day look-back period for June 30, 2013, this estimated liability had decreased to \$138,696, a decrease this period of \$689,007, creating a non-cash credit to earnings for the year ended June 30, 2013 of that amount. During the year ended June 30, 2013, amortization of debt discount amounted to \$55,903, reducing the combined balance to \$0.

As of September 30, 2012 this note would be convertible into 789,645,351 shares of common stock at the original terms. The Company has not made any payments of the \$33,238 installment payments commencing October 1, and the holder has continued to accrue interest on the outstanding balance (see note 4). On November 20, 2012, mPhase Technologies, Inc. (the "Company") formally received an Event of Default and Redemption Notice dated November 16, 2012 with respect to an 8% Convertible Note dated September 13, 2011 issued by the Company to St. George Investments LLC and assigned to John Fife. The notice included alleged defaults with respect to payments owed by the Company under the Convertible Note and the failure to convert the Note into shares of the Company's common stock. The alleged amount owed according to the notice is approximately \$902,279. The Company believes it has affirmative defenses to the actions of the holder of the Convertible Note as well as counterclaims against the Holder. As of June 30, 2013 and September 30, 2013, this note would be convertible into 700,806,707 and 1,224,139,360 shares of common stock at the original terms. Any issuance of additional shares of common stock could reduce the current shareholders' proportionate interests in the Company, depending on the number of shares issued and the purpose, terms and conditions of the issuance. Moreover, the issuance of additional shares of common stock could discourage attempts to acquire control of the Company by tender offer or other means. In such a case, shareholders might be deprived of benefits that could result from such an attempt, such as realization of a premium over the market price of their shares in a tender offer or the temporary increase in market price that could result from such an attempt. Also, the issuance of stock to persons supportive of the Board of Directors could make it more difficult to remove incumbent management and directors from office. Although the Board of Directors intends to issue common stock only when it considers such issuance to be in the best interest of the Company, the issuance of additional shares of common stock may have, among others, a dilutive effect on earnings per share of common stock and on the equity and voting rights of holders of shares of common stock. The Board of Directors believes, however, that the benefits of providing the flexibility to issue shares without delay for any business purpose outweigh any such possible disadvantages.

Ownership of shares of common stock entitles each shareholder to one vote per share of common stock. Holders of shares of common stock do not have preemptive rights to subscribe to additional securities that may be issued by the Company, which means that current shareholders do not have a prior right to purchase any new issue of capital stock of the Company in order to maintain their proportionate ownership. Shareholders wishing to maintain their interest, however, may be able to do so through normal market purchases.

The increase in the authorized common stock will be implemented by effecting an amendment to the Company's Amended Certificate of Incorporation, replacing the current Article 4 with a new Article 4 that states as follows:

“The aggregate number of shares of common stock which the Corporation shall have authority to issue is 18,000,000,000 shares, par value \$.001 per share.”

Assuming the increase in authorized common stock is approved by the shareholders at the Annual Meeting, an amendment to the Company's Amended Certificate of Incorporation will be filed with the Secretary of State of the State of New Jersey, and the increase in authorized common stock will become effective as of 5:00 p.m. Eastern Time on the date of such filing. The Company expects that such filing will take place on or shortly after the date the Annual Meeting is held. The increase in authorized common stock may be abandoned by the Board of Directors at any time before or after the Special Meeting.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” APPROVAL OF THE AMENDMENT TO THE AMENDED CERTIFICATE OF INCORPORATION, THEREBY INCREASING THE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK FROM 6,000,000,000 SHARES TO 18,000,000,000 SHARES, AS SET FORTH ABOVE. THE AFFIRMATIVE VOTE OF HOLDERS OF A MAJORITY OF THE SHARES OF COMMON STOCK REPRESENTED AT THE MEETING IN PERSON OR BY PROXY IS REQUIRED TO APPROVE THE AMENDMENT TO THE AMENDED CERTIFICATE OF INCORPORATION. SHARES OF COMMON STOCK REPRESENTED AT THE MEETING BY EXECUTED BUT UNMARKED PROXIES WILL BE VOTED “FOR” APPROVAL OF THE PROPOSAL.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The members of the Compensation Committee are Messrs. Biderman, Dotoli and Lawrence. Neither Messrs. Biderman nor Lawrence has been an officer or employee of mPhase. None of the Company's directors or executive officers served as a member of the Compensation Committee (or other board committee performing equivalent functions or, in the absence of such committee, the entire Board of Directors) of another entity during fiscal year 20011, 2012, or 2013 that has a director or executive officer serving also as a director on mPhase's Board of Directors.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

As indicated above, our Compensation Committee consists of Messrs. Dotoli, Biderman and Lawrence. The committee determines all compensation paid or awarded to our executive officers and approves our overall compensation policies.

The committee's goals are to attract and retain an executive management team that is capable of taking full advantage of our opportunities, and to provide incentives for outstanding performance. In arriving at an initial compensation offer to an individual, the committee considers determinants of the individual's market value, including experience, education, accomplishments and reputation, as well as the level of responsibility to be assumed, in relation to the market value of such qualifications and industry standards. When determining subsequent adjustments to an individual's compensation package, the committee also evaluates the importance to stockholders of that person's continued service. This is a judgment process, exercised by the committee with the advice of our management and a compensation consultant.

The executive officers' compensation structure consists of: (i) base salary, (ii) cash bonus and (iii) stock options.

Base Salary. Each individual's base salary is determined by the committee after considering a variety of factors that make up our market value and prospective value, including the knowledge, experience and accomplishments of the individual, the individual's level of responsibility, and the typical compensation levels for individuals with similar credentials. The committee may change the salary of an individual on the basis of its judgment for any reason, including our performance or the performance of the individual, changes in responsibility, and changes in the market for executives with similar credentials. Salaries for 2011, 2010, and 2012 were set based on the above factors and after review of industry comparable.

Cash Bonus. Bonuses are awarded for accomplishments during the past year. Bonuses are determined by the committee with advice from our management, based upon the committee's assessment of the individual's contributions during the year, compared to, but not limited to, a list of individualized goals previously approved by our management and the committee.

Stock Options . Stock options are prospective incentives, aimed at keeping and motivating key people by letting them share in the value they create for stockholders. They are awarded at times deemed appropriate by the committee in amounts calculated to secure the full attention and best efforts of executives on whose future performance our success will depend.

Compliance with Section 16(a) of the Exchange Act

Section 16(a) of the Exchange Act requires our executive officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership with the SEC and to provide us with copies of such reports. mPhase has reviewed the report copies filed in 2010 and, based also on written representations from its directors and executive officers, the Company believes that there was compliance with Section 16(a) filing requirements for 2013.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

Material Related Party Transactions

The Company has material related party transactions. The Company incurs costs for engineering, design and production of prototypes and certain administrative functions from Microphase Corporation.
