See notes to unaudited condensed consolidated financial statements.

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

NOTE 1 - Basis of Financial Statement Presentation

The unaudited condensed consolidated financial statements presented are those of MarketShare Recovery, Inc. - Delaware (formerly Health & Leisure, Inc.) and its wholly-owned subsidiary, MarketShare Recovery, Inc.- N.Y. ("MKSR"). Collectively, they are referred to herein as the ("Company").

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial statements and with the instructions to Form 10-QSB. Accordingly, they do not include all of the information and disclosures required for annual financial statements. These financial statements should be read in conjunction with the consolidated financial statements and related footnotes included in MarketShare Recovery, Inc. and Subsidiaries (the "Company") annual report on Form 10-KSB for the year ended December 31, 2003.

In the opinion of the Company's management, all adjustments (consisting of normal recurring accruals) necessary to make the presentation of the Company's financial position as of June 30, 2004 and the results of operations and cash flows for the six month periods ended June 30, 2004 and June 30, 2003 have been included.

The results of operations for the six-month period ended June 30, 2004 are not necessarily indicative of the results to be expected for the full year ended December 31, 2004.

NOTE 2 - Business and Reverse Merger

Effective on June 13, 2003, Health & Leisure, Inc. ("HLLS"), a publicly-traded Delaware corporation, and its wholly-owned subsidiary, Venture Sum, Inc., a Delaware corporation ("Mergerco"), entered into a Merger and Acquisition agreement with MKSR, a privately-held New York corporation, in the business of providing on-line direct marketing solutions for enterprises to customers through the United States. Pursuant to the agreement, Mergerco merged with and into MKSR and MKSR became the surviving corporation. As consideration for the merger, the shareholders of MKSR received from HLLS 1,019,767 common shares of HLLS and 3,425,000 shares of its voting convertible non-cumulative preferred stock ("HLLS Preferred Stock"). 267,000 shares of the HLLS common stock issued to the MKSR shareholders were from HLLS authorized but unissued shares and 752,767 shares of the HLLS common stock were returned to HLLS by the HLLS' former chief executive officer (Mr. Feldman) and then reissued by HLLS in the merger.

NOTE 2 - Business and Reverse Merger, continued

The 3,425,000 shares of HLLS Preferred Stock are convertible into 34,250,000 post reverse stock-split shares of HLLS common stock upon approval of an increase in the shares the Company is authorized to issue. After the issuance of common stock as described above and the conversion of HLLS Preferred Stock, the shareholders of MKSR own approximately 94%

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

of HLLS. Accordingly, this transaction has been accounted for as a reverse merger with MKSR as the acquirer of HLLS. The reverse merger was accounted for as a recapitalization and the stockholders' equity was retroactively restated to January 1, 2002. The historical financial statements prior to the reverse merger are those of MarketShare Recovery, Inc. - N.Y.

Pursuant to the merger, the Company's former Chief Executive Officer cancelled all indebtedness owed by HLLS to him, except for \$12,700, and cancelled all guarantees of debt by HLLS.

In addition, as part of the merger transaction, MKSR and HLLS agreed to pay \$125,000 to H&L Concepts, Inc., a wholly-owned subsidiary of HLLS. After the execution of the promissory note, the former Chief Executive Officer purchased all of the outstanding shares of stock of H&L Concepts, Inc. for nominal consideration. The parties acknowledged that most of the trade payables and other consolidated liabilities of HLLS were liabilities of H&L Concepts, Inc., the subsidiary of HLLS, and by selling the stock of H&L Concepts, Inc. to Mr. Feldman it had the effect of removing substantially all of the trade payables and liabilities from the HLLS balance sheet and fixing the post closing liabilities of HLLS to that set forth in the promissory note, see Note 5.

NOTE 3 - Going Concern and Management's Plans

The accompanying unaudited condensed consolidated financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America, assuming that the Company will continue as a going concern. For the six months ended June 30, 2004, the Company has incurred a loss of approximately \$81,670 and has a working capital and stockholders' deficiency of approximately \$194,000 and \$214,900 respectively. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going-concern is dependent upon obtaining additional financing, restructuring its existing liabilities, and the successful completion of its business plan. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty. No assurance can be provided that the Company will be successful in locating additional financing or completing its business plan.

NOTE 4 - Summary of Significant Accounting Policies

Principles of Consolidation

The unaudited condensed consolidated financial statements include the accounts of MarketShare Recovery, Inc. - Delaware (formerly Health & Leisure, Inc.) and its wholly-owned subsidiary, MarketShare Recovery, Inc. - N.Y. All significant intercompany balances and transactions have been eliminated in consolidation.

Revenue Recognition and Related Commission Expenses

Revenues include the sale of and/or electronic delivery of email distribution lists. Revenues from the sale of email distribution lists are recognized when the seller has delivered a list to the customer and the customer has accepted the list after an up to 30-day address replacement period. Revenues from consulting services are recognized ratably over the period of the contract. Commissions due to sales consultants are initially deferred and recognized ratably over the period revenue is recognized. Deferred commission expense is netted against deferred revenue for financial reporting purposes.

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For the purposes of the statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents.

Website Development Costs

The Company recognizes the costs associated with developing a website in accordance with the American Institute of Certified Public Accountants ("AICPA") Statement of Position ("SOP") No. 98-1, "Accounting for the Costs of Computer Software Developed or Obtained for Internal Use". Relating to website development costs the Company follows the guidance pursuant to the Emerging Issues Task Force (EITF) No. 00-2, "Accounting for Website Development Costs". Internal costs related to the development of website content are expensed as incurred. As of June 30, 2004, there are no capitalized website development costs.

Advertising Costs

Advertisement costs are expensed as incurred. For the six months ended June 30, 2004 and 2003, advertising expenses were \$2,500 and \$0, respectively.

NOTE 4 - Summary of Significant Accounting Policies, continued

Income Taxes

The Company was not required to provide for a provision for income taxes for the year ended December 31, 2003, as a result of a net operating loss incurred during the year then ended.

Marketable Securities

On certain engagements, the Company receives shares of common stocks of publicly-traded corporations from its customers in lieu of cash payments for services rendered. The fair value of the common stocks received is reflected as revenue. Subsequently, these marketable securities are classified as trading securities and reported at fair value with unrealized gains or losses reported as other income (expenses) in the statements of operations except for securities related to commissions amounting to \$0 during 2004. Unrealized gains or losses related to marketable securities to be transferred to sales consultants as commissions are reflected as an increase or decrease in the accrued commission liability.

Loss or Earnings per Common Share

The Company displays earnings per share in accordance with Statement of Financial Accounting Standards ("SFAS") No. 128, "Earnings per Share". SFAS No. 128 requires dual presentation of basic and diluted earnings per share. Basic earnings per share includes no dilution and is computed by dividing the net income (loss) by the weighted average number of common shares outstanding for the period. Diluted earnings per share include the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. For the six months ended June 30, 2004, the

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

diluted number of weighted average shares outstanding was 35,269,767, which includes the dilutive effect of the convertible preferred stock.

Stock-Based Compensation

The Company follows SFAS No. 123, "Accounting for Stock-Based Compensation." SFAS No. 123 establishes accounting and reporting standards for stock-based employee compensation plans. This statement allows companies to choose between the fair value-based method of accounting as defined in this statement and the intrinsic value-based method of accounting as prescribed by Accounting Principles Board Opinion No. 25 ("APB 25"), "Accounting for Stock Issued to Employees."

The Company has elected to continue to follow the accounting guidance provided by APB 25, as permitted for stock-based compensation relative to the Company's employees. Stock and options granted to other parties in connection with providing goods and services to the Company are accounted for under the fair value method as prescribed by SFAS No. 123.

NOTE 4 - Summary of Significant Accounting Policies, continued

Stock-Based Compensation, continued

In December 2002, the Financial Accounting Standard Board ("FASB") issued SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of SFAS Statement No. 123". This statement amends SFAS No. 123 to provide alternative methods of transition for a voluntary change to the fair value-based method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based employee compensation and the effect of the method used on reported results. SFAS No. 148 also requires that those effects be disclosed more prominently by specifying the form, content, and location of those disclosures. The Company adopted the increased disclosure requirements of SFAS No. 148 during the year ended December 31, 2003. The Company has no stock-based employee compensation.

NOTE 5 - Note Payable - Stockholders

At the closing of the merger, HLLS and MKSR entered into a \$125,000 secured promissory note with H&L Concepts, Inc., a then wholly-owned subsidiary of HLLS. The loan is payable in twelve equal installments of \$11,341, commencing July 2003. Interest is included in the monthly payment at a rate of 16% per annum. In October 2003, Mr. Ray Barton and Mr. Tim Schmidt, the Company's current executive officers and directors purchased the promissory note from H&L Concepts, Inc. for the full value of the note, in accordance with the terms of the note. The terms of repayment, including the interest rate and payment schedule are the same. The Company is currently in default under the terms of the note. Accrued interest at June 30, 2004 amounted to \$16,935.

NOTE 6 - Stockholders' Deficiency

Preferred Stock

In June of 2003, HLLS amended its designation of preferred stock and designated 3,425,000 shares of HLLS Preferred Stock. Each share of HLLS Preferred Stock is automatically convertible into 10 shares of common stock upon filing of an amendment to HLLS certificate of

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

incorporation authorizing a sufficient number of shares of common stock to effect such a conversion. The HLLS Preferred Stock shall be entitled to receive when, if and as declared by the Board of Directors dividends at 6% of its par value per annum, payable in cash. Dividends on each share of the HLLS Preferred Stock shall be non-cumulative and shall not accrue if not declared. Each share of the HLLS Preferred Stock shall entitle its holders to vote in all matters submitted to a vote of the stockholders of the Company with the number of votes per Preferred share equal to the number of votes available on a converted basis.

NOTE 6 - Stockholders' Deficiency, continued

Preferred Stock, continued

As discussed in Note 2, in connection with the June 2003 merger transaction with MKSR, 3,425,000 shares of the HLLS Preferred Stock were issued to the stockholders of MKSR. In September 2003, these preferred shares were converted into 34,250,000 shares of common stock.

Changes in Capital Structure

On August 5, 2003, HLLS filed with the Securities and Exchange Commission a definitive information statement notifying the stockholders of the Company that written consents from principal stockholders who collectively hold in excess of 50% of the Company's common stock were obtained and approved a 1 for 10 reverse split of the HLLS common stock, to authorize up to 50,000,000 shares of HLLS common stock and to change the name of HLLS to MarketShare Recovery, Inc.

The 1-for-10 reverse stock split became effective on August 29, 2003 and the \$12,700 of debt owed to the former Chief Executive Officer was converted into 1,270,000 shares of common stock and the 3,425,000 shares of HLLS Preferred Stock was converted into 34,250,000 shares of common stock. All share and per share amounts in the consolidated financial statements and notes thereto, were retroactively adjusted to reflect the reverse stock split.

Stock Options

In September 2003, the Company adopted a 2003 Stock Option Plan (the "2003 Plan"). Under the 2003 Plan, up to 15,000,000 incentive stock options, or non-qualified stock options, could be granted to employees and consultants. As of June 30, 2004, no options have been granted.

Common Stock Issuances

During the six months ended June 30, 2004, the Company issued 287,650 shares of its common stock to two officers of the Company as additional compensation valued at \$42,271 charged to operations for the six months ended June 30, 2004. The Company also issued 36,000 shares of its common stock to HLLS in connection with the merger recorded at par value in the statement of stockholders' deficiency.

NOTE 7 - Concentrations of Credit Risk

Revenue from 4 customers accounted for approximately 52% and 17%, respectively for the six months ended June 30, 2004 and 2003.

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

NOTE 8 - Commitments and Contingencies

Lease Obligations

Beginning January 1, 2004, the Company entered into a sub lease agreement with Dominix Inc. and Subsidiaries ("Dominix") to share the expense of office facilities occupied by them jointly under a lease held by the Company. The agreement includes future minimum rental payments to be received amounting to approximately \$16,000 per annum through March 2008.

Rent expense charged to operations for the six months ended June 30, 2004 and 2003 amounted to \$9,376 and \$13,469, net of sub rental income from Dominix amounting to \$5,149 and \$-0-, respectively.

NOTE 9 - Related Party Transactions

Deferred Revenue

The Company entered into a database license agreement with Dominix to use and to sublicense the use of its database for a term of ten years. For financial reporting, revenue is recognized using the straight-line method, based upon the economic useful life of three years. At June 30, 2004, deferred revenue was \$0.

NOTE 10 - Terminated Proposed Merger

Dominix, Inc.

On November 25, 2003 Dominix, Inc. a Delaware corporation traded on NASDAQ electronic bulletin board (DMNX) and the Company entered into a Stock Purchase Agreement (the "Stock Purchase Agreement") under which Dominix, subject to certain conditions, would acquire all of the outstanding capital stock of MKSR. The parties have determined that it is in their mutual best interest to terminate the Stock Purchase Agreement. In March 2004, the Company entered into a database license with Jade Entertainment Group, Inc. ("Jade"), a wholly owned subsidiary of Dominix (see Note 9).

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

FORWARD-LOOKING STATEMENTS; MARKET DATA

The discussion in this report on Form 10-QSB contains forward - looking statements- that involve risks and uncertainties. The statements contained in this Report that are not purely historical are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, including statements regarding our expectations, beliefs, intentions or strategies regarding the future. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. Our actual results could differ materially from those described in our forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, our unproven business model and a limited operating history in a new and rapidly evolving industry; our ability to implement our business plan; and our ability to manage our growth, retain and grow our customer base and expand our service offerings.

We make forward-looking statements in the "Management's Discussion and Analysis

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

of Financial Condition and, Results of Operations" below. These forward-looking statements include, but are not limited to, statements about our plans, objectives, expectations, intentions and assumptions and other statements that are not historical facts. We generally intend the words "expect", "anticipate", "intend", "plan", "believe", "seek", "estimate" and similar expressions to identify forward-looking statements.

This Quarterly Report contains certain estimates and plans related to us and the industry in which we operate, which assumes certain events, trends and activities will occur and the projected information based on those assumptions. We do not know that all of our assumptions are accurate. In particular, we do not know what level of growth will exist in our industry, if any, and particularly in the foreign markets in which we operate, have devoted resources and in which we shall seek to expand. If our assumptions are wrong about any events, trends and activities, then our estimates for future growth for our business may also be wrong. There can be no assurances that any of our estimates as to our business growth will be achieved.

The following discussion and analysis should be read in conjunction with our financial statements and the notes associated with them contained elsewhere in this quarterly report. This discussion should not be construed to imply that the results discussed in this quarterly report will necessarily continue into the future or that any conclusion reached in this quarterly report will necessarily be indicative of actual operating results in the future. The discussion represents only the best present assessment of management.

Pursuant to an Acquisition Agreement and Plan of Merger dated June 13, 2003 (the "Merger Agreement"), by and among Health & Leisure, Inc (the "Registrant"); Venture Sum, Inc., a Delaware corporation and a wholly owned subsidiary of Registrant ("Mergerco"); and MarketShare Recovery, Inc., a New York corporation, ("MKSR"), Mergerco merged with and into MKSR, and MKSR became a wholly-owned subsidiary of the Registrant. The merger became effective June 13, 2003, (the "Effective Date,") however closing of the Agreement occurred on July 15, 2003. Subsequently, Health & Leisure, Inc. filed an amendment to its certificate of incorporation and thereby changed its name to MarketShare Recovery, Inc.

MarketShare Recovery the parent company's operating subsidiary similarly named MarketShare Recovery, Inc. was incorporated in New York in November 2000. The subsidiary, MarketShare Recovery, Inc. is a provider of online direct marketing solutions for enterprises. Our solutions enable corporations to create and deliver online direct marketing programs that drive revenue, influence behavior and deepen customer relationships. Our solutions provide customer insight and powerful program execution through a combination of hosted applications and technology infrastructure.

We derive our revenues from the sale of solutions that enable businesses to proactively communicate with their customers online. Primarily, these services have consisted of the design and execution of online direct marketing campaigns and additional services provided by our Professional Services organization, including the development and execution of Customer Acquisition programs. Revenue for direct marketing and acquisition campaigns are recognized when persuasive evidence of an arrangement exists, the campaign has been sent, the fee is fixed or determinable and collection of the resulting receivables is reasonably assured. Revenue generated by our professional service organization is typically recognized as the service is provided.

Currently our ability to grow is constrained by our inability to service our existing customer base and their present demands, this is due to limitations of our existing technology infrastructure. We have recently upgraded our systems and plan to continue expanding our technology infrastructure to meet our current and projected future needs. Upon said expansion We anticipate being able to execute campaigns more efficiently and expeditiously. This will enable our sales

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

associates to sell more campaigns and generate additional revenues. We also plan to launch additional product offerings which will allow our sales associates to up-sell and cross promote/sell the services we offer to our existing customers as well as to prospective customers.

Our principal customers and target market are e-commerce, consumer oriented product and service companies. We work with these customers, who are typically engaged in selling products via the internet, by driving traffic to their respective websites. This is accomplished through CPA and CPM campaigns, CPM campaigns or cost per thousand campaigns are programs which generate revenues based on service fees collected for delivering a specific pre-established number of e-mails to prospective customers, these fees vary based on the specificity of the demographic of the intended recipients. CPA campaigns are performance based campaigns, the earning potential of these type of campaigns is significant and as we expand our infrastructure we intend to allocate a certain portion of our resources to executing these performance based campaigns.

The financial information included in this 10QSB consists of MarketShare Recovery, Inc.'s (New York) results of operations for the six months ended June 30, 2004.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of our consolidated financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses and the related disclosures. A summary of those accounting policies can be found in the footnotes to the consolidated financial statements included elsewhere in this report. Certain of our accounting policies are considered critical as they are both important to the portrayal of our financial condition and results of operations and require judgments on the part of management about matters that are uncertain. We have identified the following accounting policies that are important to the presentation of our financial condition and results of operations.

Revenue Recognition

Revenue recognition. We generate revenue from the sale of solutions that enable businesses to proactively communicate with their customers online.

MarketShare Recovery applies the provisions of Staff Accounting Bulletin 104 "Revenue Recognition" and recognizes revenue when persuasive evidence of an arrangement exists, the service has been delivered, the fee is fixed or determinable and collection of the resulting receivables is reasonably assured. Customer Marketing revenues are recognized upon sending of the campaigns. Revenues attributable to one-time set-up fees for service initiation are deferred and recognized ratably over the term of the client's service agreement. Customer Acquisition revenues are derived primarily from programs that assist clients in marketing their respective products or services. Customer Acquisition programs fall into two general categories: CPM mailing programs and CPA campaign programs. CPM mailing programs involve the execution and delivery of email campaigns to a defined number of individuals based on a fixed fee per number of e-mails delivered. The CPM, which stands for cost per thousand will vary based on the specificity of the demographic to whom the campaign is delivered to. CPA campaign programs are performance based campaigns which involve the execution and delivery of email campaigns wherein we are paid either a flat fee of a percentage of a successful sale or acquisition of a customer by one of our clients.

We assess probability of collection based on a number of factors, including our past transaction history with the customer and the credit-worthiness of the

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

customer. New customers and certain existing customers may be subject to a credit review process which evaluates the customers' financial position and ultimately their ability to pay according to the original terms of the arrangement. Based on our review process, if it is determined from the outset or during the term of an arrangement that collection of the resulting receivable is not reasonably assured, then revenue is recognized on a cash-collected basis.

Results of Operations

The following table includes consolidated statements of operations data for the three months ended March 31, 2004 and 2003 expressed as dollar amounts and as a percentage of revenues.

	Six Months Ended June 30		Six Months Ended June 30	
	2004	2003	2004	2003
			%	%
Revenues				
Net Revenue	\$228,224	\$286,404	100.00	100.00
Total Net Revenue	228,224	286,404	100.00	100.00
Cost of Revenue				
Officer Compensation	42,271	0	19.00	0
Salesmen Commissions	99,743	180,947	44.00	63.00

Comparison of Quarters Ended June 30,2004 and 2003

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

Our net revenues decreased by 20% from \$286,404 for the six months ended June 30, 2003 to \$228,224 for the six months ended June 30, 2004. The decrease in revenues is due to our reduced outside sales force consisting of experienced salesmen with proven sales experience. Cost of revenues as a percent of net revenues decreased from 63% of net revenues for the six months ended June 30, 2003 to 62% of net revenues for the six months ended June 30, 2004. The decrease in cost of revenues is due to lower commission rates paid to the outside sales force.

Selling, general and administrative expenses increased by 153% from \$77,982 for the six months ended June 30, 2003 to \$119,549 for the six months ended June 30, 2004 this increase is due to professional fees incurred in connection with Marketshare Recovery being a publicly held company.

Other (expenses) income increased by 384% from \$16,844 for the six months ended June 30, 2003 to \$(47,876) for the six months ended June 30, 2004. This increase is attributed to interest accrued on amounts due to shareholders in connection with the acquisition as well as unrealized losses on marketable securities held for trading purposes.

Liquidity and Capital Resources

Cash provided by operating activities during the six months ended June 30, 2004 amounted to \$20,369 compared to \$14,629 during the six months ended June 30, 2004. The increase in cash is due to more services being performed.

Cash used in operating activities increased due to professional fees incurred in connection with Marketshare Recovery becoming a publicly traded company and for commissions paid to outside sales consultants; for bringing new clientele to the company for promotion and marketing services.

Cash used in investing activities during the six months ended June 30, 2004 amounted to \$2,108 compared to \$0 during the six months ended June 30, 2003. The company purchased computer equipment necessary for expanding our direct marketing capabilities in order to meet customer demands.

Beginning in 2004 the Company has expanded the manner in which the Company can accept payment from customers, previously we only accepted cash, like cash instruments and company check however, We can now accept payment by all major credit cards, by phone and have implemented an auto-draft system which is a billing system which allows us to directly debit funds from customers bank accounts. We anticipate that these additional payment options will allow us to sell our customers additional services and up-sell and cross-promote our different product offerings by allowing our customers the ability to extend their payment options, establish recurring billing. Although there can be no assurance, we feel that these additional payment options should positively impact revenues and cash flow.

Throughout 2003 and for the six months ended June 30, 2004 the company has made significant upgrades to its database and emailing technology. We have greatly increased capacity and can process and execute campaigns faster and more efficiently. In addition We now have the ability to evaluate the overall success of our campaigns by tracking how many people viewed the campaign. We can also generate detailed reports to show the customer how successful the campaign was, how many ads and emails were sent and received by the intended recipients and

Edgar Filing: MARKETSHARE RECOVERY INC - Form 10QSB

whether the campaign generated leads, sales or impressions. Our upgrades have also improved our ability to sort and analyze data to generate customized reports for our customers.

In view of our accumulated deficit and recurring losses, our auditors have added an explanatory paragraph to their report on our financial statements stating

that there is substantial doubt about our ability to continue as a going concern. In this regard management is adopting a plan for the development of our video and website product lines as well as seeking additional capital through the private sale of our debt or equity securities. There is no assurance that we will complete any financing or that we will achieve profitable operations. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We expect to fund development expenditures and incur losses until we are able to generate sufficient income and cash flows to meet such expenditures and other requirements. We do not currently have adequate cash reserves to continue to cover such anticipated expenditures and cash requirements. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

The discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates, including those related to income tax and marketing related agreements with our affiliates. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

ITEM 3. CONTROLS AND PROCEDURES

Marketshare Recovery, Inc is developing a business and implementing systems of internal and disclosure controls. Within the ninety-day period preceding the filing of this report, our management evaluated the effectiveness of the design and operation of its disclosure controls and procedures (the "Disclosure Controls") as of the end of the period covered by this Form 10-QSB and (ii) any changes in internal controls over financial reporting that occurred during the last quarter of our fiscal year. This evaluation ("Controls Evaluation") was done under the supervision and with the participation of management, including the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO").
