Sabesp registered solid results in 2009, confirming its low exposure to the global crisis that affected the markets in 2008 and 2009. Net income in 2009 was R\$ 1.4 billion, a great difference when compared to the R\$ 63,6 million achieved in 2008. Although, this reduction in net income was mainly due to the provision for losses of the disputed amount of the benefits paid by the Company as additional retirement payments and pensions envisaged in Law 4,819/58, in the amount of R\$ 409.1 million and the respective actuarial commitment maintained with the beneficiaries, amounting to R\$ 535.4 million. Disregarding this adjustment, 2008 net income would be of R\$ 1.0 billion. Even considering this amount, 2009 result had a significant growth of 36.2%.

Net revenue was R\$ 6.7 billion, 6.0% up year-on-year, and EBITDA was R\$ 2.7 billion, 3.5% down from 2008.

2. Gross operating revenue

Gross operating revenue grew from R\$ 6.8 billion in 2008 to R\$ 7.2 billion in 2009, an increase of R\$ 397.4 million or 5.8%, mainly due to:

- The average tariff increase of 4.9% in 2009 over 2008, resulting from the tariff adjustments in September 2008, of 5.10%, and September 2009, of 4.43%; and
- The 2.1% growth in total billed volume, of which 2.1% corresponded to water and 3.2% to sewage.

This result was impacted by (i) the decline in the industrial segment's volume due to the closure and/or reduction in the production of a few industrial units and the signing of firm demand agreements; and (ii) the volume decrease in the public sector category (municipal and state governments) on account of the incentives to reduce water consumption under the Program for the Rational Use of Water (PURA).

The gross annual variation was positively impacted by 4Q09 volume performance, with billed volume growth in all customer categories.

3. Billed volume

The following tables show the billed water and sewage volume per customer category and region in 4Q08 and 4Q09, as well as in 2008 and 2009.

4.1. Payroll and Benefits

Payroll and benefits increased by R\$ 204.8 million or 15.1%, from R\$ 1,353.8 million in 2008 to R\$ 1,558.6 million in 2009, due to the following:

- Wage increase of 6.69% in May 2009;
- R\$ 82.7 million increase in the amounts paid to retiring employees, by the TAC, consisting of severance pay, FGTS penalty and benefits;
- R\$ 70.3 million increase in the payment of FGTS penalty and R\$ 6.3 million in severance pay relating to the lay-offs in 2009, especially related to TAC; and
- R\$ 5.6 million increase in the provision for social security obligations arising from the revision of the amount projected for 2009.

In the absence of TAC, this expense would be R\$ 1,412.0 million, 4.3% up in relation to 2008.

4.2. Supplies

Expenses with Supplies increased by R\$ 9.5 million or 6.5%, from R\$ 146.5 million in 2008 to R\$ 156.0 million in 2009. The main factors were expenses with materials for water and sewage networks as well as connections, due to

the increase in the volume of maintenance services under the Global Sourcing contracts in the amount of R\$ 3.3 million and data processing expenses of R\$ 2.4 million, due to the replacement and modernization of the IT equipment.

Supplies increased by R\$ 1.9 million or 4.4% in 4Q09.

4.3. Treatment supplies

Expenses with treatment supplies increased from R\$ 133.1 million in 2008 to R\$ 136.7 million in 2009, an increase of R\$ 3.6 million or 2.7%, mainly due to the increased consumption of iron chloride and aluminum polychloride, which increase the efficiency of the water treatment process, in the place of products such as aluminum and iron sulphate, the latter derived from ferric sulphate, which is harmful to the environment.

In 4Q09, there was a decrease of R\$ 1.6 million or 4.8% due to the reduced consumption of copper sulphate at the Guarapiranga dam, thanks to the improved quality of the water at the source.

4.4. Services

In 2009, this item increased by R\$ 222.5 million or 32.3%, from R\$ 688.6 million to R\$ 911.1 million, with the main factors being:

- Maintenance of water and sewage networks and connections in the amount of R\$ 41.2 million, due to the increase in demand and the contractual amounts based on the Global Sourcing contacts at the cities of the Regional Systems and the increase in the volume of maintenance services in the São Paulo Metropolitan Region, increased allocation of funds to the Water Loss Reduction Program, intensification of the operations to meet the demands of the Córrego Limpo Program of the São Paulo Municipal Government and the Canal Limpo Program in the municipality of Santos;
- Preventive and corrective maintenance at the water treatment systems in the amount of R\$ 29.6 million related to the Taiaçupeba Public-Private Partnership (PPP) and urbanization efforts as part of the agreement with the São Paulo Municipal Government;
- Advertising campaigns focused on socio-environmental initiatives, such as Onda Limpa, Soluções Ambientais, Program for the Rational Use of Water (PURA), among others, in the amount of R\$ 25.9 million;
- Expenses of R\$ 24.5 million with the implementation of the Program for the Rational Use of Water at municipal schools as a result of the agreement between Sabesp and the São Paulo Municipal Government;
- Expenses with risk contracts for the recovery of credits, in the amount of R\$ 20.1 million, due to the intensification of collection operations, which led to a R\$ 321.4 million increase in revenues in 2009;
- Hiring of consultancy, advisory and specialized services for diverse purposes in the amount of R\$ 13.2 million: sewage collection networks to depollute streams, quality management at the Regional Office Global R , communication advisory services, publicity for the Sabesp brand, equipment maintenance, modernization and maintenance of the IT environment, among others;
- Hydrometer reading and bill delivery expenses in the amount of R\$ 8.6 million as a result of increased outsourcing of the reading services, inspection of inactive connections and usage of new technologies that allow greater security and agility in the bill issue and reading system;
- Car rental expenses started in the second half of 2008, due to the replacement of the Company's own fleet, in the amount of R\$ 7.1 million;
- Accounting reclassification of the corporate software licenses in 2008, amounting to R\$ 6.9 million, non-recurring in the coming years; and
- Expenses with treatment and disposal of sludge in the amount of R\$ 6.1 million, related to the services provided by the Public-Private Partnership.

In 4Q09, there was a decrease of R\$ 18.0 million or 7.7%, mainly due to the revision of the provision for the commitments established in the agreement between Sabesp and the São Paulo Municipal Government.

4.5. Electric power

In 2009, this item increased by R\$ 25.9 million or 5.6% to reach R\$ 485.5 million, from R\$ 459.6 million in 2008. The increase was due to the following factors:· Average tariff adjustment of 7.9% in the captive market, which represents 78.0% of the installed capacity, resulting in a weighted average increase of around 8.5% between the captive and free markets; and· Weighted average increase of 5.3% in the expenses between the markets.

These increases were partly compensated by the 1.6% decrease in consumption.

	Participation (%)	Expenses Variation (%)	Weighted Average (%)
Free market	22.0	2.7	0.6
Captive market	78.0	6.1	4.7
			5.3

4.6. General expenses

General expenses increased by R\$ 32.5 million or 9.4%, from R\$ 345.0 million in 2008 to R\$ 377.5 million in 2009, mainly due to:

- R\$ 14.3 million increase in provision for legal contingencies; and
- Expenses related to program contracts in the amount of R\$ 5.6 million.

In 4Q09, the increase was R\$ 33.2 million, mainly related to the provision for contingencies.

4.7. Depreciation and Amortization

This item decreased by R\$ 57.1 million or 9.2%, from R\$ 617.8 million in 2008 to R\$ 560.7 million, mostly due to the revision of the estimated useful life of assets in 2009.

4.8. Credit write-offs

Credit write-offs declined by R\$ 28.1 million, from R\$ 336.3 million in 2008 to R\$ 308.2 million in 2009, due to the increased provision in 2008 for the overdue debt of the municipalities to which the Company supplies water on wholesale.

4.9. Tax expenses

In 2009, tax expenses increased by R\$ 6.5 million or 13.4%, due to:

- Payment of the Regulation, Control and Oversight Fee (TRCF) amounting to R\$ 3.2 million to the São Paulo State Sanitation and Energy Regulatory Agency (ARSESP); and
- Payment of the Municipal Real Estate Tax (IPTU) in the amount of R\$ 3.1 million.

5. Other operating revenues and expenses

Other operating revenues/expenses decreased by R\$ 1,013.3 million or 96.2%, mainly due to: (i) the provision for losses on the balance receivable from the GESB agreement relating to the benefits paid to retired employees and pensioners, in the amount of R\$ 409.1 million, in 2008; and (ii) recognition of liabilities related to the actuarial commitment with the beneficiaries in the amount of R\$ 535.4 million, in 2008.

8. Operating indicators

Sabesp continues to work strenuously to reduce water loss, with a continuous reduction in loss rates, which decreased 6.8% in the period, falling from 27.9% in 2008 to 26.0% in 2009. In 2009, a sum of R\$ 261 million was

invested in the Water Loss Reduction Program, with investments totaling R\$ 218 million and expenses totaling R\$ 43 million, which brought significant results in the year.

This reduction is evident from the 0.3% decline in the volume of water produced, in contrast to the 2.1% growth in the water billed volume.
