REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Retirement Plans Committee
Colfax Corporation 401(k) Savings Plan Plus
Annapolis Junction, Maryland

We have audited the accompanying statements of net assets available for benefits of the Colfax Corporation 401(k) Savings Plan Plus (the Plan) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in conformity with accounting principles generally accepted in the United States of America.

The accompanying supplemental Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2014 has been subjected to audit procedures performed in conjunction with the audit of the Plan's financial statements. The supplemental schedule is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental schedule reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental schedule. In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
NOTES TO FINANCIAL STATEMENTS

1. Description of the Plan

The following description of the Colfax Corporation 401(k) Savings Plan Plus (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, as amended and restated as of January 1, 2013, is a defined contribution plan covering substantially all employees of Colfax Corporation and participating affiliates (collectively, "Colfax," the "Company"). Non-resident aliens, leased employees, temporary employees who are not 21 years of age and have not completed at least 1,000 hours of service during an eligibility period (except for those temporary employees covered by the IUE-CWA AFL-CIO Local 81250 collective bargaining agreement (the "Collective Bargaining Agreement")), employees not on U.S. payroll or who would be leased employees that have not yet satisfied the service requirements (except for those covered by the Collective Bargaining Agreement) were not included in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2015, the Company merged the Victor Technologies International, Inc. 401(k) Retirement Plan ("Victor Plan") and American Fan Company 401(k) Plan ("American Fan Company Plan") with the Plan resulting in an increase of additional assets of approximately \$70.1 million. See Note 10, "Subsequent Event" for further discussion.

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of contributions into various investment options offered by the Plan. As of December 31, 2014, the Plan offered 29 mutual funds, one common collective trust fund and Colfax Corporation common stock as investment options for participants. Employees covered under collective bargaining agreements may receive employer nonelective and/or matching contributions based on the terms of their bargaining agreement. For the year ended December 31, 2014, these employer contributions range from 0% to 3% of eligible compensation. For eligible employees under the Plan that are not covered by collective bargaining agreements, the Plan provides for a safe harbor employer match of up to 4% of eligible compensation contributed to the Plan. Discretionary employer contribution rates range from 2% to 4% of eligible compensation for the year ended December 31, 2014, based upon eligibility requirements as detailed in the Plan document. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of the investment earnings and losses. Allocations of investment earnings and losses are based on account balances as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants vest immediately in their contributions and nonelective safe harbor contributions plus actual earnings thereon. Vesting in discretionary employer contributions is based on years of continuous service. A participant is 20% vested after two years of service are completed, 40% vested after three years, 60% vested after four years, and 100% vested after five years of service are completed in the discretionary matching contribution. Discretionary employer

contributions for participants subject to the Collective Bargaining Agreement vest 20% after two years of service are completed and vest an additional 20% per year until full vesting after six years. Different vesting schedules may apply to certain employees as described in the Plan document due to prior Plan provisions.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled \$125,539 and \$94,573, respectively. These amounts will be used to pay administrative expenses and then to reduce future employer contributions. During the year ended December 31, 2014, \$25,586 and \$143,984 of forfeited nonvested funds were used to pay administrative expenses and reduce employer contributions, respectively.

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
NOTES TO FINANCIAL STATEMENTS – (Continued)

Payment of Benefits

Benefits are payable upon retirement at age 65, disability, death, or termination of employment. Hardship withdrawals and in-service withdrawals at age 59 1/2 are also permitted, subject to the provisions in the Plan document and applicable law. Benefits are payable in lump sum or installment payments.

Notes Receivable from Participants

Active participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Loan terms range from one to five years or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 1%, which was between 4.25% and 7.50% for outstanding loans at December 31, 2014, and between 4.25% and 8.25% for outstanding loans at December 31, 2013. Principal and interest are paid through payroll deductions.

Administrative Expenses

Certain expenses of administering the Plan are paid indirectly by the Plan through a service based pricing arrangement with the Trustee. Under this arrangement, revenue paid to the Trustee by mutual funds in which participant accounts are invested is used to pay for Plan services at rates the Company has negotiated with the Trustee. During the year ended December 31, 2014, the Plan received credits from the Trustee in the amount of \$37,500 which was used to pay administrative expenses. Certain other administrative expenses associated with maintaining the Plan may be paid by the Company and are excluded from the financial statements. See Note 1, "Description of the Plan - Forfeited Accounts" for further discussion regarding the order of use of forfeited nonvested accounts to pay for administrative expenses. Investment related expenses are included in Net appreciation in fair value of investments in the Statement of Changes in Net Assets Available for Benefits.

Voting Rights

Each participant is entitled to exercise voting rights for shares of Colfax common stock credited to their account at all times that Colfax Corporation shareholders vote. The participant is notified by the Trustee prior to the time such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee shall vote shares for which it has not received direction in the same proportion as directed shares were voted.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States ("GAAP").

Investment Valuation and Income Recognition

The investments of the Plan are stated at fair value. The Colfax Corporation Retirement Plans Committee determines the Plan's valuation policies, utilizing information provided by the investment advisors and Trustee. See Note 4, "Fair

Value Measurements” for further discussion of investment valuation inputs.

Investment contracts held by a defined contribution plan either directly or indirectly through a common trust fund must be reported at fair value. However, contract value is the relevant measurement attribute for that portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits at December 31, 2014 and 2013 present the Morley Stable Value Fund at fair value as well as the adjustment of the fund to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
 NOTES TO FINANCIAL STATEMENTS – (Continued)

Notes Receivable from Participants

The notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Fair Value Measurements

The Plan performs fair value measurements in accordance with Financial Accounting Standards Board (“FASB”) Accounting Standards Codification 820, Fair Value Measurements and Disclosures. Refer to Note 4, “Fair Value Measurements” for related disclosures associated with the Plan’s investments.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and the additions and deductions to net assets available for benefits for the periods presented. Actual results may differ from those estimates.

Recently Issued Accounting Pronouncement

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, “Fair Value Measurement (Topic 820)- Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (Subtopic 835-30)” (“ASU No. 2015-07”). ASU No. 2015-07 aims to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU No. 2015-07 is effective for fiscal years beginning after December 15, 2015, and is to be applied retrospectively, with early adoption permitted. The Company plans to early adopt ASU No. 2015-07 in the Notes to Financial Statements during the year ending December 31, 2015.

3. Investments

During the year ended December 31, 2014, the Plan's investments appreciated (depreciated) in value, as follows:

	December 31, 2014
Net appreciation (depreciation) in fair value of investments	
Mutual funds	\$2,386,522
Common collective trust fund	423,328
Common stock	(432,084)
Net appreciation	\$2,377,766

Edgar Filing: Colfax CORP - Form 11-K

The fair values of individual investments that represented 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013, were as follows:

	December 31, 2014	December 31, 2013
Morley Stable Value Fund	\$33,492,325	\$36,558,224
Fidelity Contrafund K	32,795,778	32,472,122
Spartan 500 Index Fund - Institutional Class	16,785,211	15,734,971
American Funds American Balanced Fund Class R-4	13,037,983	13,359,722
Hartford Dividend & Growth Fund Class R5	12,512,927	12,542,264
PIMCO Total Return Fund Administrative Class	11,823,172	12,474,135

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
NOTES TO FINANCIAL STATEMENTS – (Continued)

4. Fair Value Measurements

The Plan performs fair value measurements defining fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan reports its investments at fair value based on a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level One measurements) and the lowest priority to unobservable inputs (Level Three measurements). The three levels of the fair value hierarchy are described below:

Level One: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level Two: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level Three: Inputs to the valuation methodology are unobservable and significant to the fair value measurement. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

A summary of the Plan's assets that are measured at fair value for each fair value hierarchy level for the periods presented is as follows:

	December 31, 2014			Total
	Level One	Level Two	Level Three	
Common stock:

There were no transfers in or out of Level One, Two or Three during the year ended December 31, 2014.

Colfax Corporation common stock is valued at the closing price reported on a national securities exchange.

Mutual funds are valued at the daily closing prices as reported by the fund. Mutual funds held by the Plan are open ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investments in the common collective trust fund can be redeemed immediately at the current net asset value which is based on the fair value of the underlying assets in the trust, net of adjustments from fair value to contract value for each investment deemed fully benefit responsive. The underlying assets of the common collective trust fund include conventional investment contracts, synthetic investment contracts, wrap contracts and other investments. The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year end. Underlying investments of synthetic investment contracts are generally valued as follows: domestic and foreign fixed income securities are valued at fair value based on market values obtained from independent pricing services, quotes by dealers who are market makers in these securities, or by a methodology approved by the trust. Commercial paper and other investment securities with less than 60 days to maturity when purchased are valued at amortized cost, which approximates fair value. Investments in regulated investment companies or collective investment trusts are valued at the net asset value per share/unit on valuation date. Accrued interest, if any, on the underlying investments is added to the fair value of the investments for presentation purposes. The fair value of wrap contracts is determined using the market approach discounting methodology which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of year end. There are no withdrawal limits, redemption frequency limits or redemption notice periods. There were no unfunded commitments for these investments as of December 31, 2014 or 2013. The net asset value as reported by the trustee, is used as a practical expedient to estimate fair value, which is based on the fair value of the underlying assets in the trust, as discussed above, less its liabilities.

The Plan's investment in the Morley Stable Value Fund seeks to provide low-risk, moderate-yield investment and is managed to earn a consistent level of return while providing for preservation of capital, high credit quality and

liquidity. Withdrawals for benefit payments and participant directed transfers to noncompeting options are made to plan participants promptly, to the extent possible, but within 30 days after notification has been received. The Morley Stable Value Fund reserves the right to delay plan sponsor initiated redemptions for up to 365 days, subject to certain conditions.

5. Risks and Uncertainties

The Plan provides for investments in various securities that are exposed to risks, such as interest rate, credit and overall volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in future statements of net assets available for benefits.

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
NOTES TO FINANCIAL STATEMENTS – (Continued)

6. Tax Status

The Plan is a prototype plan of the Trustee which received an opinion letter on March 31, 2008, in which the Internal Revenue Service stated that the form of the Plan document was acceptable under the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving that letter. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. Therefore, no provision for income tax has been included in the Plan's financial statements.

7. Party-in-Interest Transactions

Certain Plan investments consist of units of common collective trust funds managed by affiliates of the Trustee. Plan investments also include Colfax common stock. Colfax is the administrator of the Plan. Certain fees of administering the Plan are paid to the Trustee by the Plan. For the year ended December 31, 2014 total fees paid to the Trustee were \$47,077. Audit fees for the Plan are paid to the independent registered public accounting firm by the Plan. For the year ended December 31, 2014, total fees paid to independent registered public accounting firms were \$25,586. These transactions qualify as exempt party-in-interest transactions.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

9. Reconciliation to Form 5500

The following is a reconciliation of amounts in the financial statements to Form 5500 as of December 31, 2014 and 2013 and for the year ended December 31, 2014:

	December 31, 2014	2013
Net assets available for benefits per the financial statements	\$232,749,150	\$229,385,208
Transfers in ⁽¹⁾	70,148,516	—
Adjustment from contract value to fair value for fully benefit responsive investment contracts - current year	305,984	208,046
Total net assets per Form 5500	\$303,203,650	\$229,593,254
		Year Ended December 31, 2014
Total additions per the financial statements		\$33,813,832
Adjustment from contract value to fair value for fully benefit responsive investment contracts		97,938
Total income per Form 5500		\$33,911,770
Net increase in net assets available for benefits per the financial statements		\$3,363,942

Edgar Filing: Colfax CORP - Form 11-K

Transfers in ⁽¹⁾	70,148,516
Adjustment from contract value to fair value for fully benefit responsive investment contracts	97,938
Net income per Form 5500	\$73,610,396

⁽¹⁾ The Victor Plan and the American Fan Company Plan were merged with the Plan effective January 1, 2015. Transfers in from the plans were recorded as a receivable to the Plan as of December 31, 2014 on the Form 5500.

COLFAX CORPORATION 401(k) SAVINGS PLAN PLUS
NOTES TO FINANCIAL STATEMENTS – (Continued)

10. Subsequent Event

On January 1, 2015, the Company merged the Victor Plan and American Fan Company Plan with the Plan resulting in an increase in assets of approximately \$70.1 million.
