

PATRIOT NATIONAL BANCORP INC  
Form 10-Q  
August 15, 2016  
**UNITED STATES**

**SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

**FORM 10-Q**

**QUARTERLY REPORT UNDER SECTION 13 OR 15(d)  
OF THE SECURITIES EXCHANGE ACT OF 1934**

For the Quarter Ended June 30, 2016

Commission file number 000-29599

**PATRIOT NATIONAL BANCORP, INC.**

**(Exact name of registrant as specified in its charter)**

Connecticut                      06-1559137  
(State of incorporation)    (I.R.S. Employer Identification Number)

**900 Bedford Street, Stamford, Connecticut 06901**

**(Address of principal executive offices)**

**(203) 324-7500**

**(Registrant's telephone number)**

Check whether the registrant (1) filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the past 12 months (or for such shorter period that the registrant was required to file such reports),

and (2) has been subject to such filing requirements for the past 90 days:

Yes   X   No       

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes   X   No       

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company in Rule 12b-2 of the Exchange Act:

Large Accelerated Filer        Accelerated Filer        Non-Accelerated Filer        Smaller Reporting Company   X  

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act):

Yes        No   X  

State the number of shares outstanding of each of the registrant's classes of common equity, as of the latest practicable date.

Common stock, \$0.01 par value per share, 3,958,486 shares outstanding as of the close of business August 12, 2016.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

**Notes to consolidated financial statements (Unaudited)**

**Note 1: Basis of Financial Statement Presentation**

The accompanying unaudited condensed consolidated financial statements of Patriot National Bancorp, Inc. (the “Company”) and its wholly-owned subsidiaries including Patriot National Bank (the “Bank”), have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted. The accompanying unaudited condensed consolidated financial statements presented herein should be read in conjunction with the previously filed audited financial statements of the Company and notes thereto for the year ended December 31, 2015.

The Consolidated Balance Sheet at December 31, 2015 presented herein has been derived from the audited financial statements of Patriot National Bancorp, Inc. (the “Company”) at that date, but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

Effective June 30, 2016, the Company has reclassified loans secured by 1-4 Family Non-owner occupied real estate to “Residential” from the “Commercial Real Estate” classification. Amounts presented for prior periods have been reclassified for consistency with the current period. See Note 3: Loans Receivable and Allowance for Loan Losses for additional information. Certain additional other prior period amounts have been reclassified to conform to current year presentation.

The information furnished reflects, in the opinion of management, all normal recurring adjustments necessary for a fair presentation of the results for the interim periods presented. The results of operations for the three and six months ended June 30, 2016 are not necessarily indicative of the results of operations that may be expected for the remainder of 2016.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)****Note 2: Investment Securities**

The amortized cost, gross unrealized gains and losses and approximate fair values of available-for-sale securities at June 30, 2016 and December 31, 2015 are as follows:

<i>(in thousands)</i>	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
<b>June 30, 2016:</b>				
U. S. Government agency mortgage-backed securities	\$ 12,170	\$ 21	\$ (52)	) \$12,139
Corporate bonds	9,000	-	(102)	) 8,898
Subordinated Notes	2,000	-	-	2,000
	\$ 23,170	\$ 21	\$ (154)	) \$23,037
<b>December 31, 2015:</b>				
U. S. Government agency bonds	\$ 5,000	\$ -	\$ (46)	) \$4,954
U. S. Government agency mortgage-backed securities	13,625	-	(212)	) 13,413
Corporate bonds	9,000	71	(61)	) 9,010
Subordinated Notes	2,000	-	-	2,000
	\$ 29,625	\$ 71	\$ (319)	) \$29,377

The following table presents the gross unrealized loss and fair value of the Company's available-for-sale securities, aggregated by the length of time the individual securities have been in a continuous loss position, at June 30, 2016 and December 31, 2015:

<i>(in thousands)</i>	<b>Less Than 12 Months</b>		<b>12 Months or More</b>		<b>Total</b>	
	<b>Fair</b>	<b>Unrealized</b>	<b>Fair</b>	<b>Unrealized</b>	<b>Fair</b>	<b>Unrealized</b>

	Value	Loss	Value	Loss	Value	Loss
<b><u>June 30, 2016:</u></b>						
U. S. Government agency mortgage - backed securities	\$-	\$ -	\$7,136	\$ (52 )	\$7,136	\$ (52 )
Corporate bonds	2,985	(15 )	5,913	(87 )	8,898	(102 )
Totals	\$2,985	\$ (15 )	\$13,049	\$ (139 )	\$16,034	\$ (154 )

**December 31, 2015:**

U. S. Government agency bonds	\$4,954	\$ (46 )	\$-	\$ -	\$4,954	\$ (46 )
U. S. Government agency mortgage - backed securities	2,863	(42 )	10,550	(170 )	13,413	(212 )
Corporate bonds	-	-	5,939	(61 )	5,939	(61 )
Totals	\$7,817	\$ (88 )	\$16,489	\$ (231 )	\$24,306	\$ (319 )

At June 30, 2016, six of ten available-for-sale securities had unrealized losses with an average depreciation of 0.7% from the total amortized cost. At December 31, 2015, nine out of eleven available-for-sale securities had unrealized losses with an aggregate depreciation of 1.3% from the total amortized cost.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The Company performs a quarterly analysis of those securities that are in an unrealized loss position to determine if those losses qualify as other-than-temporary impairments. This analysis considers the following criteria in its determination: the ability of the issuer to meet its obligations, management's plans and ability to maintain its investment in the security, the length of time and the amount by which the security has been in a loss position, the interest rate environment, the general economic environment and prospects or projections for improvement or deterioration.

Management believes that none of the unrealized losses on available-for-sale securities noted above are other than temporary due to the fact that they relate to market interest rate changes on U.S. Government agency debt, corporate debt and mortgage-backed securities issued by U.S. Government agencies. Management considers the issuers of the securities to be financially sound, the corporate bonds are investment grade and the Company expects to receive all contractual principal and interest related to these investments. Because the Company does not intend to sell the investments, and it will not be required to sell the investments before recovery of their amortized cost basis, which may be at maturity, the Company does not consider those investments to be other-than-temporarily impaired at June 30, 2016.

The amortized cost and fair value of available-for-sale debt securities at June 30, 2016 by contractual maturity are presented below. Actual maturities of mortgage-backed securities may differ from contractual maturities because the mortgages underlying the securities may be prepaid without any penalties. The actual maturities will also differ from contractual maturities because issuers of certain securities retain early call or prepayment rights.

*(in thousands)*

	Amortized Cost	Fair Value
Maturity:		
Due after five years through ten years	\$ 11,000	\$10,898
U.S. Government agency mortgage-backed securities	12,170	12,139
Total	\$ 23,170	\$23,037

At June 30, 2016 and December 31, 2015, securities of \$4.9 and \$5.5 million, respectively, were pledged with the Federal Reserve Bank of New York primarily to secure municipal deposits.

There were no sales of available-for-sale securities in during the six-month periods ended June 30, 2016 or June 30, 2015.

**Note 3: Loans Receivable and Allowance for Loan Losses**

Loans that the Company has the intent and ability to hold for the foreseeable future or until maturity generally are reported at their outstanding unpaid principal balances adjusted for unearned income, the allowance for loan losses, and any unamortized deferred fees or costs.

Interest income is accrued based on the unpaid principal balance. Loan application fees are non interest income while, other certain direct origination costs, are deferred and amortized as a level yield adjustment over the respective term of the loan and reported in interest income.

The accrual of interest on loans is discontinued at the time the loan is 90 days past due for payment unless the loan is well-secured and in process of collection. Consumer installment loans are typically charged off no later than 180 days past due. Past due status is based on contractual terms of the loan. In all cases, loans are placed on nonaccrual status or charged off at an earlier date if collection of principal or interest is considered doubtful.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

All interest accrued but not collected for loans that are placed on nonaccrual status or charged off are reversed against interest income. The interest on these loans is accounted for on the cash-basis method until qualifying for return to accrual status. Upon receipt of cash, the cash received is first applied to satisfy principal and then applied to interest unless the loan is in a cure period and Management believes there will be a loss. Loans are returned to accrual status when all the principal and interest amounts contractually due are brought current and future payments are reasonably assured.

A summary of the Company's loan portfolio at June 30, 2016 and December 31, 2015 is as follows:

<i>(in thousands)</i>	June 30,	December 31,	Inc	Inc/(Dec)	
	2016	2015	(Dec)	%	
Commercial and Industrial	\$71,658	\$59,752	\$11,906	19.9	%
Commercial Real Estate	270,003	245,828	24,175	9.8	%
Construction	26,094	15,551	10,543	67.8	%
Construction to permanent- CRE	4,229	4,880	(651 )	(13.3 )	
Residential	104,746	110,837	(6,091 )	(5.5 )	
Consumer/Other	51,924	47,521	4,403	9.3	
Total Loans	528,654	484,369	44,285	9.1	
Allowance for loan losses	(5,250 )	(5,242 )	(8 )	0.2	
Loans receivable, net	\$523,404	\$479,127	\$44,277	9.2	%

Amounts presented at December 31, 2015 include \$28.2 million of loans secured by 1-4 Family Non-owner Occupied real estate in the Residential category, reclassified from Commercial Real Estate for consistency with the June 30, 2016 presentation. Net unamortized purchase loan premiums aggregated \$0.8 million and \$0.9 million as of June 30, 2016 and December 31, 2015, respectively. Net deferred loan costs aggregated \$0.3 million as of June 30, 2016 and December 31, 2015.

The Company's lending activities are conducted principally in Fairfield and New Haven Counties in Connecticut and Westchester County in New York, and the five Boroughs of New York City. The Company originates commercial real estate loans, commercial business loans, and a variety of consumer loans. In addition, the Company previously had originated loans on residential real estate. All residential and commercial mortgage loans are collateralized primarily

by first or second mortgages on real estate. The ability and willingness of borrowers to satisfy their loan obligations is dependent to some degree on the status of the regional economy as well as upon the regional real estate market. Accordingly, the ultimate collectability of a substantial portion of the loan portfolio and the recovery of a substantial portion of any resulting real estate acquired is susceptible to changes in market conditions.

The Company has established credit policies applicable to each type of lending activity in which it engages, by which it evaluates the creditworthiness of each customer and, in most cases, extends credit of up to 75% of the market value of the collateral for commercial real estate at the date of the credit extension depending on the Company's evaluation of the borrowers' creditworthiness and type of collateral and up to 80% for multi-family real estate. In the case of construction loans, the maximum loan-to-value is 75% of the "as completed" appraised value. The appraised value of collateral is monitored on an ongoing basis and additional collateral is requested when warranted. Real estate is the primary form of collateral. Other important forms of collateral are accounts receivable, inventory, other business assets, marketable securities and time deposits.

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

Risk characteristics of the Company's portfolio classes include the following:

*Commercial and Industrial Loans* – The Company's commercial and industrial loan portfolio consists primarily of commercial business loans and lines of credit to businesses and professionals. These loans are usually made to finance accounts receivable, the purchase of inventory or new or used equipment and for other short or long-term working capital purposes. These loans are generally secured by business assets, but are also occasionally offered on an unsecured basis. In granting this type of loan, the Company primarily looks to the borrower's cash flow as the source of repayment with collateral and personal guarantees, where obtained, as a secondary source. Payments on such loans are often dependent upon the successful operation of the underlying business involved. Repayment of such loans may therefore be negatively impacted by adverse changes in economic conditions, management's inability to effectively manage the business, claims of others against the borrower's assets which may take priority over the Company's claims against assets, death or disability of the borrower or loss of markets for the borrower's products or services.

*Commercial Real Estate Loans* – In underwriting commercial real estate loans, the Company evaluates both the prospective borrower's ability to make timely payments on the loan and the value of the property securing the loans. Repayment of such loans may be negatively impacted should the borrower default or should there be a substantial decline in the value of the property securing the loan or decline in general economic conditions. Where the owner occupies the property, the Company also evaluates the business ability to repay the loan on a timely basis. In addition, the Company may require personal guarantees, lease assignments and/or the guarantee of the operating company when the property is owner occupied.

*Construction Loans* – Construction loans are short-term loans (generally up to eighteen months) secured by land for both residential and commercial development. The loans are generally made for acquisition and improvements. Funds are disbursed as phases of construction are completed. Included in this category are loans to construct single family homes where no contract of sale exists. These loans are based upon the experience and the financial strength of the builder, the type and location of the property and other factors. Construction loans are generally personally guaranteed by the principal(s). Repayment of such loans may be negatively impacted by the builders' inability to complete construction, by a downturn in the new construction market, by a significant increase in interest rates or by decline in general economic conditions.

*Construction to Perm-CRE* – One time close of a construction facility converting to an amortizing mortgage loan typically upon an event which would include a certificate of occupancy as well as stabilization, defined as cash flow sufficient to support a pre-defined minimum debt coverage ratio, as well as other conditions and covenants particular to the loan type. The construction facility would typically carry a floating rate, then upon conversion to amortization

would reset at a predetermined spread over FHLB with a minimum interest rate.

*Residential Real Estate Loans* – Home equity loans secured by real estate properties are offered by the Company. The Company no longer offers residential mortgages, having exited this business in 2013. Repayment of residential real estate loans may be negatively impacted should the borrower have financial difficulties, should there be a significant decline in the value of the property securing the loan or should there be decline in general economic conditions.

*Consumer/ Other Loans* – The Company also offers installment loans, credit cards, and consumer overdraft and reserve lines of credit to individuals. Repayments of such loans are often dependent on the personal income of the borrower which may be negatively impacted by adverse changes in economic conditions. The Company does not place a high emphasis on originating these types of loans.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The Company does not have any lending programs commonly referred to as subprime lending. Subprime lending generally targets borrowers with weakened credit histories typically characterized by payment delinquencies, previous charge-offs, judgments, bankruptcies, or borrowers with questionable repayment capacity as evidenced by low credit scores or high debt-burdened ratios.

The following table sets forth activity in our allowance for loan losses, by loan type, for the three and six months ended June 30, 2016. The following table also details the amount of loans receivable that are evaluated individually and collectively for impairment, and the related portion of the allowance for loan losses that is allocated to each loan portfolio segment, as of June 30, 2016.

The Company monitors the credit quality of its loans receivable in an ongoing manner. Credit quality is monitored by reviewing certain credit quality indicators, including loan to value ratios, debt service coverage ratios and credit scores.

The Company has a risk rating system as part of the risk assessment of its loan portfolio. The Company's lending officers are required to assign a risk rating to each loan in their portfolio at origination, which is ratified or modified by the Loan Committee to which the loan is submitted for approval. When the lender learns of important financial developments, the risk rating is reviewed accordingly, and adjusted if necessary. Similarly, the Loan Committee can adjust a risk rating. The Company employs a loan officer whose responsibility is to independently review the ratings annually for all commercial credits over \$250,000.

The Company uses an independent third party loan reviewer who performs quarterly reviews of a sample of loans, validating the Company's risk ratings assigned to such loans. Any upgrades or downgrades to classified loans must be approved by the Management Loan Committee.

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

When assigning a risk rating to a loan, management utilizes the Company's internal eleven-point risk rating system. An asset is considered "special mention" when it has a potential weakness based on objective evidence, but does not currently expose the Company to sufficient risk to warrant classification in one of the following categories:

An asset is considered "substandard" if it is not adequately protected by the current net worth and paying capacity of the obligor or the collateral pledged, if any. Substandard assets have well-defined weaknesses based on objective evidence, and are characterized by the "distinct possibility" that the Company will sustain "some loss" if the deficiencies are not corrected.

Assets classified as "doubtful" have all of the weaknesses inherent in those classified "substandard" with the added characteristic that the weaknesses present make "collection or liquidation in full," on the basis of currently existing facts, conditions, and values, "highly questionable and improbable."

Charge-off generally commences after the loan is classified "doubtful" to reduce the loan to its recoverable balance. If the account is classified as "loss", the full balance is charged off regardless of the potential recovery from the sale of the collateral. That amount is recognized as a recovery after the collateral is sold.

In accordance with FFIEC ("Federal Financial Institutions Examination Council") published policies establishing uniform criteria for the classification of retail credit based on delinquency status, "Open-end" credits are charged off when 180 days delinquent and "Closed-end" credits are charged off when 120 days delinquent.

Included in loans receivable are loans for which the accrual of interest income has been discontinued due to deterioration in the financial condition of the borrowers. The unpaid principal balances of loans on nonaccrual status and considered impaired were \$4.8 million at June 30, 2016 and \$1.6 million at December 31, 2015.

The \$4.8 million of non-accrual loans at June 30, 2016 is comprised of five relationships, for which a specific reserve of \$0.3 million has been established. The non-accrual increase of \$3.2 million from December 31, 2015 is related to a single commercial loan and is not indicative of a credit quality trend within the portfolio. As this relationship moved to non-accrual status, the loan loss allocation tied to other loans that were no longer considered criticized were then reallocated to this new non-accrual relationship.

If non-accrual loans had been performing in accordance with their contractual terms, the Company would have recorded the following amounts of additional income:

*(dollars in thousands)*

<b>Total</b>	\$ -	\$ -	\$ 1,593	\$ 1,593	\$ -	\$ 1,593

Generally, loans are placed on non-accruing status when they become 90 days or more delinquent, and remain on non-accrual status until they are brought current, have at least six months of performance under the loan terms, and factors indicating reasonable doubt about the timely collection of payments no longer exist. Therefore, loans may be current in accordance with their loan terms, or may be less than 90 days delinquent and still be on a non-accruing status.

At June 30, 2016, five loans were on non-accrual status totaling \$4.8 million. For these five loans a specific reserve of \$1.0 million has been established.

December 31, 2015 loan balances have been reclassified to be consistent with the June 30, 2016 presentation.

## Impaired Loans

Impaired loans consist of non-accrual loans, Troubled Debt Restructurings (“TDRs”), and loans previously classified as TDRs that have been upgraded. As of June 30, 2016, the Company’s impairment analysis resulted in identification of \$14.8 million of impaired loans, for which specific reserves of \$1.0 million were required at June 30, 2016, compared to \$12.9 million of impaired loans at December 31, 2015, for which specific reserves of \$3,000 were required. Loans that did not require specific reserves have sufficient collateral values, less costs to sell, supporting the carrying balances of the loans. In some cases, there may be no specific reserves because the Company already charged off the specific impairment. Once a borrower is in default, the Company is under no obligation to advance additional funds on unused commitments.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

**Notes to consolidated financial statements (Unaudited)**

**Troubled Debt Restructurings**

On a case-by-case basis, the Company may agree to modify the contractual terms of a borrower's loan to assist customers who may be experiencing financial difficulty. If the borrower is experiencing financial difficulties and a concession has been made, the loan is classified as a troubled debt restructured loan.

For the three and six months ended June 30, 2016 and 2015, there were no loans modified as a "troubled debt restructuring". At June 30, 2016 and December 31, 2015, there were no commitments to advance additional funds under troubled debt restructured loans.

Substantially all of our troubled debt restructured loan modifications involve lowering the monthly payments on such loans through either a reduction in interest rate below market rate, an extension of the term of the loan, or a combination of these two methods. These modifications rarely result in the forgiveness of principal or accrued interest. In addition, we frequently obtain additional collateral or guarantor support when modifying commercial loans. If the borrower had demonstrated performance under the previous terms and our underwriting process shows the borrower has the capacity to continue to perform under the restructured terms, the loan will continue to accrue interest. Non-accruing restructured loans may be returned to accrual status when there has been a sustained period of repayment performance (generally six consecutive months of payments) and both principal and interest are deemed collectible. All troubled debt restructurings are classified as impaired loans, which are individually evaluated for impairment.

The following table summarizes impaired loans by loan portfolio class as of June 30, 2016:

**Note 4: Other Real Estate Owned**

At June 30, 2016, Other Real Estate Owned (“OREO”) consisted of a single property which consists of raw land and is suitable for multi-use construction. The following table presents a summary of OREO activity for the six months ended June 30, 2016:

<i>(in thousands)</i>	<b>OREO</b>
Balance at December 31, 2015	\$ -
Transfers from loans	840
Gain recognized in acquisition	11
Balance at June 30, 2016	\$ 851

The recognized gain represents the amount by which fair market value of the property, net of estimated liquidation costs, exceeded the remaining loan balance as of the date possession was taken of the property.

As of and for the six months ended June 30, 2015, there was no OREO activity.

**Note 5: Deposits**

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

**Notes to consolidated financial statements (Unaudited)**

**Note 6: Share-Based Compensation and Employee Benefit Plan**

The Company maintains the Patriot National Bancorp, Inc. 2012 Stock Plan (the “Plan”) to provide an incentive to directors and employees of the Company. Grants under the Plan may take the form of stock options, restricted stock and phantom stock units. Up to three million shares of the Company’s common stock and one million phantom stock units may be issued under the Plan, subject to certain limitations. As of June 30, 2016, 2,819,216 shares of common stock and one million phantom stock units are available for issuance under the Plan.

Restricted stock grants are available to directors and employees and generally vest in annual installments over a three, four or five year period from the date of grant, as determined by the Compensation Committee of the Company’s Board of Directors. Vesting may be accelerated under certain circumstances. The Company expenses the grant date fair value of all share-based compensation over the requisite vesting periods on a prorated straight-line basis. During the three and six months ended June 30, 2016, the Company recorded \$0.2 million and \$0.3 million of total stock-based compensation, respectively. During the three and six months ended June 30, 2015, the Company recorded \$0.1 million and \$0.2 million of total stock-based compensation, respectively.

During the six months ended June 30, 2016, the Company issued 5,884 shares of restricted stock to directors and 52,200 shares of restricted stock to employees under the 2012 Stock Plan.

The following is a summary of the status of the Company’s restricted shares as of June 30, 2016, and changes therein during periods indicated.

		<b>Weighted Average</b>
<b><u>Three months ended June 30, 2016:</u></b>	<b>Number of Shares Awarded</b>	<b>Grant Date Fair</b>
		<b>Value</b>

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The following is a summary of the status of the Company's restricted shares as of June 30, 2015, and changes therein during periods indicated.

	<b>Number of Shares</b>	<b>Weighted Average Grant Date Fair Value</b>
<b><u>Three months ended June 30, 2015:</u></b>	<b>Awarded</b>	
Non-vested at March 31, 2015	81,923	\$ 12.93
Granted	-	-
Vested	(225 )	17.25
Non-vested at June 30, 2015	81,698	\$ 12.92
<b><u>Six months ended June 30, 2015:</u></b>		
Non-vested at December 31, 2014	79,208	\$ 12.79
Granted	2,940	17.00
Vested	(450 )	17.25
Non-vested at June 30, 2015	81,698	\$ 12.92

Expected future stock award expense related to the non-vested restricted awards as of June 30, 2016, is \$1.3 million, which is expected to be recognized over an average period of 2.56 years.

The Company had no outstanding stock options at June 30, 2016.

The Company offers a 401K retirement plan (the "401K"), which provides for tax-deferred salary deductions for eligible employees. Employees may choose to make voluntary contributions to the 401K, limited to an annual maximum amount as set forth periodically by the Internal Revenue Service. The Company matches 50% of such contributions, up to a maximum of six percent. During the three and six months ended June 30, 2016, compensation expense under the Plan aggregated \$0.04 million and \$0.08 million, respectively. During the three and six months ended June 30, 2015, compensation expense under the Plan aggregated \$0.03 million and \$0.09 million, respectively.

**Note 7: Income Taxes**

For the three and six months ended June 30, 2016, the Company recorded income tax expense of \$0.4 million and \$0.8 million, respectively. This compares to income tax expense of \$0.5 million and \$0.7 million, respectively, for the three and six months ended June 30, 2015.

Deferred tax assets decreased \$0.7 million from \$13.8 million at December 31, 2015 to \$13.1 million at June 30, 2016. This decrease was due to deferred taxes being applied to the tax liability arising from current year taxable income.

The Company will continue to evaluate its ability to realize its net deferred tax asset. If future evidence suggests that it is more likely than not that a portion of the deferred tax asset will not be realized, the valuation allowance may be increased.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

**Notes to consolidated financial statements (Unaudited)**

**Note 8: Income per share**

The Company is required to present basic income per share and diluted income per share in its consolidated statements of operations. Basic income per share amounts are computed by dividing net income by the weighted average number of common shares outstanding. Diluted income per share reflects additional common shares that would have been outstanding if potentially dilutive common shares had been issued, as well as any adjustment to income that would result from the assumed issuance. Potential common shares that may be issued by the Company relate to outstanding restricted stocks and would be determined using the treasury stock method. The Company is also required to provide a reconciliation of the numerator and denominator used in the computation of both basic and diluted income per share.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**
**Notes to consolidated financial statements (Unaudited)**

The Company had no outstanding stock options as of June 30, 2016 or December 31, 2015. The following is information about the computation of income per share for the three and six months ended June 30, 2016 and 2015:

<b>Three months ended June 30, 2016</b>	<b>Net Income</b>	<b>Weighted Average Common Shares Outstanding</b>	<b>Amount</b>

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

#### **Note 9: Borrowings**

##### Federal Home Loan Bank borrowings

The Company is a member of the Federal Home Loan Bank of Boston ("FHLB"). The Company has the ability to borrow from the FHLB based on a certain percentage of the value of the Company's qualified collateral, as defined in the FHLB Statement of Products Policy, comprised mainly of mortgage-backed securities and loans segregated as collateral for the FHLB.

At June 30, 2016 and December 31, 2015, outstanding advances from the FHLB aggregated \$128.0 million and \$132.0 million respectively. The advances outstanding at June 30, 2016 had maturities ranging from one day to sixty months with rates ranging from 2.7 basis points to 57 basis points. The FHLB borrowings are collateralized by a mixture of real estate loans and securities with a book value of \$131.3 million as of June 30, 2016.

##### Junior subordinated debt owed to unconsolidated trust

The subordinated debentures of \$8.2 million are unsecured obligations of the Company and are subordinate and junior in right of payment to all present and future senior indebtedness of the Company. These obligations qualify as Tier 1 capital. The subordinated debentures, which bear interest at three-month LIBOR plus 3.15% (3.79% at June 30, 2016), mature on March 26, 2033. Beginning in the second quarter of 2009, the Company deferred quarterly interest payments on the subordinated debentures for twenty consecutive quarters as permitted under the terms of the debentures. The Company made a payment of approximately \$1.6 million in June 2014, which brought the debt current as of that date. Interest payments since June 2014 have been deferred at the Company's option, however interest expense continues to be accrued and charged to operations. At June 30, 2016, interest owed for the subordinated debt was \$0.6 million.

##### Note Payable

In September 2015, the Company executed a \$2.0 million Note Payable for the purchase of its Fairfield, CT branch, which had formerly been leased by the Company. The note has a ten-year term and bears interest at a fixed rate of 1.75%. The Company makes interest and principal payments monthly. The note is secured by a first Mortgage Deed and Security Agreement on the property purchased.

#### **Note 10: Financial Instruments with Off-Balance Sheet Risk**

In the normal course of business, the Company is a party to financial instruments with off-balance-sheet risk to meet the financing needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit and involve, to varying degrees, elements of credit and interest rate risk in excess of the amounts recognized in the balance sheet. The contractual amounts of these instruments reflect the extent of involvement the Company has in particular classes of financial instruments.

The contractual amount of commitments to extend credit and standby letters of credit represents the total amount of potential accounting loss should the contracts be fully drawn upon, the customers default, and the value of any existing collateral become worthless. The Company uses the same credit policies in approving commitments and conditional obligations as it does for on-balance-sheet instruments and evaluates each customer's creditworthiness on a case-by-case basis. Management believes that the Company controls the credit risk of these financial instruments through credit approvals, credit limits, monitoring procedures and the receipt of collateral as deemed necessary.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

**Notes to consolidated financial statements (Unaudited)**

Financial instruments whose contractual amounts represent credit risk at June 30, 2016 are as follows:

Commitments to extend credit:	<i>(in thousands)</i>
Future loan commitments	\$ 15,186
Home equity lines of credit	21,464
Unused lines of credit	22,684
Undisbursed construction loans	20,204
Financial standby letters of credit	1,262
	<b>\$ 80,800</b>

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments to extend credit generally have fixed expiration dates, or other termination clauses, and may require payment of a fee by the borrower. Since these commitments could expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The amount of collateral obtained, if deemed necessary by the Company upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies, but may include residential and commercial property, deposits and securities. The Company has established a reserve of \$5,000 as of June 30, 2016 for these commitments which is included in accrued expenses and other liabilities.

Standby letters of credit are written commitments issued by the Company to guarantee the performance of a customer to a third party. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. Guarantees that are not derivative contracts are recorded on the Company's consolidated balance sheet at their fair value at inception. Any instruments deemed to be derivatives would be accounted for as a fair value or cash flow hedge as appropriate.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)****Note 11: Regulatory and Operational Matters**

The Company's and the Bank's capital and capital ratios at June 30, 2016 and December 31, 2015 were:

	Actual		Minimum		Capital Requirements Minimum with Capital Buffer		Well Capitalized	
<i>(dollars in thousands)</i>	Amount	Ratio	Amount	Ratio	Amount	Ratio	Amount	Ratio

**June 30, 2016****The Company:**

Tier 1 Leverage Capital (to Average Assets)	\$61,113	9.97 %	\$24,522	4.00 %	N/A	N/A	N/A	N/A
Common Equity Tier 1 Capital (to Risk Weighted Assets)	53,113	9.56 %	25,011	4.50 %	N/A	N/A	N/A	N/A

**December 31, 2015****The Company:**

Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10-Q

Total Capital (to Risk Weighted Assets)	\$59,595	9.77 %	\$24,401	4.00 %	N/A	N/A	N/A	N/A
Common Equity Tier 1 Capital (to Risk Weighted Assets)	51,595	10.04 %	23,119	4.50 %	N/A	N/A	N/A	N/A
Tier 1 Capital (to Risk Weighted Assets)	59,595	11.60 %	30,826	6.00 %	N/A	N/A	N/A	N/A
Tier 1 Capital (to Average Assets)	64,845	12.62 %	41,101	8.00 %	N/A	N/A	N/A	N/A

The Bank:

Total Capital (to Risk Weighted Assets)	\$59,958	9.83 %	\$24,393	4.00 %	N/A	N/A	\$30,491	5.00 %
Common Equity Tier 1 Capital (to Risk Weighted Assets)	59,958	11.72 %	23,029	4.50 %	N/A	N/A	33,265	6.50 %
Tier 1 Capital (to Risk Weighted Assets)	59,958	11.72 %	30,706	6.00 %	N/A	N/A	40,941	8.00 %
Tier 1 Capital (to Average Assets)	65,207	12.74 %	40,941	8.00 %	N/A	N/A	51,177	10.00 %

Under the final capital rules that became effective on January 1, 2015, there was a requirement for a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets which is in addition to the other minimum risk-based capital standards in the rule. Institutions that do not maintain this required capital buffer will become subject to progressively more stringent limitations on the percentage of earnings that can be paid out in dividends or used for stock repurchases and on the payment of discretionary bonuses to senior executive management. The capital buffer requirement is being phased in over three years beginning in 2016. We have included the 0.625% increase for 2016 in our minimum capital adequacy ratios in the table above. The capital buffer requirement effectively raises the minimum required common equity Tier 1 capital ratio to 7.0%, the Tier 1 capital ratio to 8.5%, and the total capital ratio to 10.5% on a fully phased-in basis on January 1, 2019. Management believes that, as of June 30, 2016, the Company would meet all capital adequacy requirements under the Basel III Capital Rules on a fully phased-in basis as if all such requirements were currently in effect.

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

#### **Note 12: Fair Value and Interest Rate Risk**

The Company uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures. A fair value hierarchy has been established that prioritizes the inputs used to measure fair value, requiring entities to maximize the use of observable inputs. Observable inputs reflect market data obtained from independent sources, while unobservable inputs generally require significant management judgment.

The three levels within the fair value hierarchy are as follows:

Level 1- Unadjusted quoted market prices for identical assets or liabilities in active markets that the entity has the ability to access at the measurement date (such as active exchange-traded equity securities and certain U.S. and government agency debt securities).

Level 2- Observable inputs other than quoted prices included in Level 1, such as:  
quoted prices for similar assets or liabilities in active markets (such as U.S. agency and government sponsored mortgage-backed securities)  
quoted prices for identical or similar assets or liabilities in less active markets (such as certain U.S. and government agency debt securities, and corporate and municipal debt securities that trade infrequently)  
Other inputs that are observable for substantially the full term of the asset or liability (i.e. interest rates, yield curves, prepayment speeds, default rates, etc.)

Level 3- Valuation techniques that require unobservable inputs that are supported by little or no market activity and are significant to the fair value measurement of the asset or liability (such as pricing and discounted cash flow models that typically reflect management's estimates of the assumptions a market participant would use in pricing the asset or liability).

A description of the valuation methodologies used for assets and liabilities recorded at fair value, and for estimating fair value for financial and non-financial instruments not recorded at fair value, is set forth below.

***Cash and due from banks, federal funds sold, short-term investments and accrued interest receivable and payable:***  
The carrying amount is a reasonable estimate of fair value and accordingly these are classified as Level 1. These

financial instruments are not recorded at fair value on a recurring basis.

***Available-for-Sale Securities:*** The fair value of securities available for sale (carried at fair value) and held to maturity (carried at amortized cost) is determined by obtaining quoted market prices on nationally recognized securities exchanges (Level 1), or matrix pricing (Level 2), which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted market prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted prices.

***Other Investments:*** The Bank's investment portfolio includes the Solomon Hess SBA Loan Fund totaling \$4.5 million. This investment is utilized for the purposes of the Bank satisfying its CRA lending requirements. As this fund operates as a private fund, shares in the Fund are not publicly traded and therefore have no readily determinable market value. An investment in the Fund is reported in the financial statements at cost, as adjusted for income, losses, and cash distributions attributable to the investment.

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

**Loans:** For variable rate loans, which reprice frequently and have no significant change in credit risk, carrying values are a reasonable estimate of fair values, adjusted for credit losses inherent in the portfolios. The fair value of fixed rate loans is estimated by discounting the future cash flows using the period-end rates, estimated by using local market data, at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities, adjusted for credit losses inherent in the portfolios. As estimates are dependent on management's observations, loans are classified as Level 3. The Company does not record loans at fair value on a recurring basis. However, from time to time, nonrecurring fair value adjustments to collateral-dependent impaired loans are recorded to reflect partial write-downs based on the observable market price or current appraised value of collateral. Fair values estimated in this manner do not fully incorporate an exit-price approach to fair value, but instead are based on a comparison to current market rates for comparable loans.

**OREO:** The fair value of other OREO properties the Company may obtain is based on the estimated current property valuations less estimated selling costs. When the fair value is based on current observable appraised values, OREO is classified within Level 2. The Company classifies the OREO within Level 3 when unobservable adjustments are made to appraised values.

**Deposits:** The fair value of demand deposits, regular savings and certain money market deposits is the amount payable on demand at the reporting date. The fair value of certificates of deposit and other time deposits is estimated using a discounted cash flow calculation that applies interest rates currently being offered for deposits of similar remaining maturities, estimated using local market data, to a schedule of aggregated expected maturities on such deposits. The Company does not record deposits at fair value on a recurring basis.

**Junior Subordinated Debt:** Junior subordinated debt reprices quarterly and as a result the carrying amount is considered a reasonable estimate of fair value. The Company does not record junior subordinated debt at fair value on a recurring basis.

**Federal Home Loan Bank Borrowings:** The fair value of the advances is estimated using a discounted cash flow calculation that applies current Federal Home Loan Bank interest rates for advances of similar maturity to a schedule of maturities of such advances. The Company does not record these borrowings at fair value on a recurring basis.

**Off-balance sheet instruments:** Fair values for the Company's off-balance-sheet instruments (lending commitments) are based on interest rate changes and fees currently charged to enter into similar agreements, taking into account the

remaining terms of the agreements and the counterparties' credit standing. The Company does not record its off-balance-sheet instruments at fair value on a recurring basis.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The following table details the financial assets measured at fair value on a recurring basis as of June 30, 2016 and December 31, 2015, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine fair value:

<i>(in thousands)</i>	<b>Quoted Prices in Active Markets</b>	<b>Significant Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Balance as of June 30, 2016</b>
<b>June 30, 2016</b>	<b>for Identical Assets (Level 1)</b>			
U.S. Government agency mortgage- backed securities	\$ -	\$ 12,139	\$ -	\$12,139
Corporate bonds	-	8,898	-	8,898
Subordinated Notes	-	2,000	-	2,000
Securities available for sale	\$ -	\$ 23,037	\$ -	\$23,037

	<b>Quoted Prices in Active Markets</b>	<b>Significant Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>	<b>Balance as of June 30, 2016</b>
<b>December 31, 2015</b>	<b>for Identical Assets (Level 1)</b>			
U.S. Government agency bonds	\$ -	\$ 4,954	\$ -	\$4,954
U.S. Government agency mortgage- backed securities	-	13,413	-	13,413

Securities available for sale	\$	-	\$ 29,377	\$	-	\$29,377
-------------------------------	----	---	-----------	----	---	----------

The Company regularly monitors significant market inputs and assumptions used in its fair value measurements and evaluates the level of the valuation input according to the fair value hierarchy. This may result in a transfer between levels in the hierarchy from period to period. There were no transfers of assets between levels 1, 2 or 3 during the six months ended June 30, 2016 or 2015. Certain financial assets and financial liabilities are measured at fair value on a nonrecurring basis; that is, the instruments are not measured at fair value on an ongoing basis but are subject to fair value adjustments in certain circumstances (for example, when there is evidence of impairment).

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The following table reflects financial assets measured at fair value on a non-recurring basis as of June 30, 2016 and December 31, 2015, segregated by the level of the valuation inputs within the fair value hierarchy utilized:

<u>Asset Description</u>	Quoted Prices in	Significant	Significant	Balance
	Active	Observable	Unobservable

December 31, 2015

		Appraised Value of	Liquidation		
Impaired loans	\$363	Collateral (1)	Costs (2)	8%	(8%) (3)

- (1) Fair value is generally determined through independent appraisals of the underlying collateral (in the case of impaired loans) or property (in the case of OREO), which include Level 3 inputs that are not identifiable.
- (2) Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated liquidation expenses.
- (3) The range and weighted average of qualitative factors such as economic conditions and estimated liquidation expenses are presented as a percent of the appraised value.

The Company discloses fair value information about financial instruments, whether or not recognized in the consolidated balance sheet, for which it is practicable to estimate that value. Certain financial instruments are excluded from disclosure requirements and, accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Company.

**PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY****Notes to consolidated financial statements (Unaudited)**

The estimated fair value amounts have been measured as of June 30, 2016 and December 31, 2015 and have not been reevaluated or updated for purposes of these financial statements subsequent to those respective dates. As such, the estimated fair value of these financial instruments subsequent to the respective reporting dates may be different than amounts reported on those dates.

The information presented should not be interpreted as an estimate of the fair value of the Company since a fair value calculation is only required for a limited portion of the Company's assets and liabilities. Due to the wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Company's disclosures and those of other bank holding companies may not be meaningful.

The following is a summary of the carrying amounts and estimated fair values of the Company's financial instruments not measured and not reported at fair value on the consolidated balance sheets at June 30, 2016 and December 31, 2015:

<i>(in thousands)</i>	Fair Value Hierarchy	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value

The Company assumes interest rate risk (the risk that general interest rate levels will change) as a result of its normal operations. As a result, the fair values of the Company's financial instruments will change when interest rate levels change and that change may be either favorable or unfavorable to the Company. Management attempts to match maturities of assets and liabilities to the extent possible to mitigate interest rate risk. However, borrowers with fixed rate obligations are less likely to prepay in a rising rate environment and more likely to prepay in a falling rate environment. Conversely, depositors who are receiving fixed rates are more likely to withdraw funds before maturity in a rising rate environment and less likely to do so in a falling rate environment. Management monitors rates and maturities of assets and liabilities and attempts to minimize interest rate risk by adjusting terms of new loans and deposits and by investing in securities with terms that mitigate the Company's overall interest rate risk.

## **PATRIOT NATIONAL BANCORP, INC. AND SUBSIDIARY**

### **Notes to consolidated financial statements (Unaudited)**

#### Off-balance sheet instruments

Loan commitments on which the committed interest rate is less than the current market rate were insignificant at June 30, 2016 and December 31, 2015. The estimated fair value of fee income on letters of credit at June 30, 2016 and December 31, 2015 was also insignificant.

### **Note 13: Recent Accounting Pronouncements**

#### *Recently Issued Accounting Standards Updates*

*ASU 2014-09:* In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers*. This update will replace all current U.S. GAAP related to revenue recognition and will eliminate all industry-specific guidance. During 2016, the update was further clarified by ASU 2016-08 *Revenue from Contracts with Customers: Principle versus Agent Considerations*; ASU 2016-10, *Revenue from Contracts with Customers: Identifying Performance Obligations and Licensing* and ASU 2016-12 *Revenue from Contracts with Customers: Narrow-Scope Improvements and Practical Expedients*. In July 2015, the FASB affirmed its proposal to defer the effective date of this new standard. As a result, public companies will apply the new revenue standard to annual reporting periods beginning after December 15, 2017. The Company is currently assessing the impact that this guidance will have on its consolidated financial statements, but does not expect a material impact on its financial condition or results of operations.

*ASU 2016-01:* In January 2016, the FASB issued ASU 2016-01, *Financial Instruments - Overall*. ASU 2016-01 requires cost-method equity investments to be measured at fair value with changes in fair value recognized in net income. The ASU simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment, and a measurement of the investment at fair value only when an impairment is qualitatively identified to exist. The standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is not permitted. The Company is currently assessing the potential impact ASU 2016-01 will have on its financial statements, but does not expect a material impact on its financial condition or results of operations.

*ASU 2016-02:* In February 2016, the FASB issued Accounting Standards Update ("ASU") No. 2016-02, *Leases*. This update increases transparency and comparability among organizations by requiring the recognition of leased assets and lease liabilities on the balance sheet, and the disclosure of key information about leasing arrangements. The new standard is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the impact of the pending adoption of the new update on its consolidated financial statements.

*ASU 2016-13:* In June 2016, the FASB issued ASU 2016-13, *Financial Instruments-Credit Losses: Measurement of Credit Losses on Financial Instruments*. The standard changes the methodology for measuring credit losses on financial instruments and the timing of when such losses are recognized. ASU 2016-13 is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years, with early adoption permitted for fiscal years beginning after December 15, 2018. The Company is currently evaluating the impact that the standard will have on its consolidated financial statements.

***Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations***

**"SAFE HARBOR" STATEMENT UNDER PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995**

Certain statements contained in the Company's public statements, including this one, and in particular in "Management's Discussion and Analysis of Financial Condition and Results of Operations," may be forward looking and subject to a variety of risks and uncertainties. These factors include, but are not limited to: (1) changes in prevailing interest rates which would affect the interest earned on the Company's interest earning assets and the interest paid on its interest bearing liabilities; (2) the timing of repricing of the Company's interest earning assets and interest bearing liabilities; (3) the effect of changes in governmental monetary policy; (4) the effect of changes in regulations applicable to the Company and the Bank and the conduct of its business; (5) changes in competition among financial service companies, including possible further encroachment of non-banks on services traditionally provided by banks; (6) the ability of competitors that are larger than the Company to provide products and services which it is impracticable for the Company to provide; (7) the state of the economy and real estate values in the Company's market areas, and the consequent effect on the quality of the Company's loans; (8) recent governmental initiatives that are expected to have a profound effect on the financial services industry and could dramatically change the competitive environment of the Company; (9) other legislative or regulatory changes, including those related to residential mortgages, changes in accounting standards, and Federal Deposit Insurance Corporation ("FDIC") premiums that may adversely affect the Company; (10) the application of generally accepted accounting principles, consistently applied; (11) the fact that one period of reported results may not be indicative of future periods; (12) the state of the economy in the greater New York metropolitan area and its particular effect on the Company's customers, vendors and communities and (13) other such factors, including risk factors, as may be described in the Company's other filings with the SEC.

Although the Company believes that it offers the loan and deposit products and has the resources needed for continued success, future revenues and interest spreads and yields cannot be reliably predicted. These trends may cause the Company to adjust its operations in the future. Because of the foregoing and other factors, recent trends should not be considered reliable indicators of future financial results or stock prices.

**CRITICAL ACCOUNTING POLICIES**

The preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses, and to disclose contingent assets and liabilities. Actual results could differ from those estimates. Management has identified the accounting for the allowance for loan losses, the analysis and valuation of its investment securities and the valuation of deferred tax assets, as the Company's most critical accounting policies and estimates in that they are important to the portrayal of the Company's financial condition and results of operations.

They require management's most subjective and complex judgment as a result of the need to make estimates about the effect of matters that are inherently uncertain. Refer to the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission on March 31, 2016 for additional information.

## Summary

The Company reported net income for the second quarter of 2016 of \$0.614 million (\$0.16 basic and diluted income per share) compared to net income of \$0.689 million (\$0.18 basic and diluted income per share) for the quarter ended June 30, 2015, a decrease of 10.9%. On a pre-tax basis, the Company earned \$1.011 million for the three month period ended June 30, 2016, a decrease of \$0.13 million, or 11.4% over the second quarter of 2015.

For the six months ended June 30, 2016, the Company reported net income of \$1.267 million (\$0.32 basic and diluted income per share) compared to net income of \$0.978 million (\$0.25 basic and diluted income per share) for the six months ended June 30, 2015; an increase of \$0.289 million, or 29.6%.

Total assets decreased \$0.5 million, or 0.07%, from \$653.5 million at December 31, 2015 to \$653.1 million at June 30, 2016.

Cash and cash equivalents decreased \$38.9 million from \$85.4 million at December 31, 2015 to \$46.5 million at June 30, 2016.

The net loan portfolio increased \$44.3 million, or 9.2%, from \$479.1 million at December 31, 2015 to \$523.4 million at June 30, 2016.

Total liabilities decreased \$2.1 million from \$592.1 million at December 31, 2015 to \$589.9 million at June 30, 2016.

Deposits increased \$1.7 million from \$444.7 million to \$446.3 million.

Following historical seasonal trends, non-interest bearing deposits declined by \$9.8 million.

Interest bearing deposits increased \$11.5 million, mostly relating to a \$19.3 million increase in savings and a \$9.0 million increase in brokered deposits, partially offset by a \$14.5 million decrease in time certificates.

Equity increased \$1.6 million, from \$61.5 million at December 31, 2015 to \$63.1 million at June 30, 2016 due to year-to-date 2016 net income of \$1.3 million and equity compensation of \$0.3 million.

## **FINANCIAL CONDITION**

### ***Cash and Cash Equivalents***

Cash and cash equivalents decreased \$38.9 million, or 45.6%, to \$46.5 million at June 30, 2016 compared to \$85.4 million at December 31, 2015. The Company funded a \$45.1 million increase in loans during the period, reduced FHLB borrowings by \$4.0 million, and invested \$1.2 million in premises and equipment. The effect of these outlays was partially offset, primarily by \$2.6 million generated by operations, \$6.4 million of proceeds from the reduction of available for sale securities and a \$1.7 million increase in deposits.

**Investments**

The following table is a summary of the Company's available-for-sale securities portfolio, at fair value, at the dates shown:

<i>(in thousands)</i>	June 30, 2016	December 31, 2015	Inc/ (Dec)	Inc/(Dec) %
U.S. Government Agency bonds	\$-	\$ 4,954	\$(4,954)	(100.0%)
U.S. Government Agency mortgage- backed securities	12,139	13,413	(1,274)	(9.5 )
Corporate bonds	8,898	9,010	(112 )	(1.2 )
Subordinated Notes	2,000	2,000	-	-
Total Available-for-Sale Securities	\$23,037	\$ 29,377	\$(6,340)	(21.6% )

Available-for-sale securities decreased \$6.3 million, or 21.6%, from \$29.4 million at December 31, 2015 to \$23.0 million at June 30, 2016. This decrease was primarily due to \$5 million face amount of government-sponsored agency bonds, which were called in April of 2016, as well as paydowns of \$1.2 million on mortgage-backed securities.

**Loans**

The following table is a summary of the Company's loan portfolio at the dates shown:

<i>(in thousands)</i>	June 30, 2016	December 31, 2015	Inc (Dec)	Inc/(Dec) %
Commercial and Industrial	\$71,658	\$59,752	\$11,906	19.9 %
Commercial Real Estate	270,003	245,828	24,175	9.8 %
Construction	26,094	15,551	10,543	67.8 %
Construction to permanent- CRE	4,229	4,880	(651 )	(13.3 )
Residential	104,746	110,837	(6,091 )	(5.5 )
Consumer/Other	51,924	47,521	4,403	9.3

Edgar Filing: PATRIOT NATIONAL BANCORP INC - Form 10-Q

Total Loans	528,654	484,369	44,285	9.1	
Allowance for loan losses	(5,250 )	(5,242 )	(8 )	0.2	
Loans receivable, net	\$523,404	\$479,127	\$44,277	9.2	%

Certain amounts presented for prior periods have been reclassified for consistency with the current period.

The Company's net loan portfolio increased \$44.3 million, or 9.2%, from \$479.1 million at December 31, 2015 to \$523.4 million at June 30, 2016. The increase was achieved across the Company's loan portfolio, with the exception of consumer loans which have not been aggressively marketed since 2013. As of June 30, 2016, the loan pipeline is strong, and management expects continued growth.

At June 30, 2016, the net loan to deposit ratio was 117% and the net loan to total assets ratio was 80%. At December 31, 2015, these ratios were 108% and 73%, respectively.

***Allowance for Loan Losses***

The allowance for loan losses remained materially the same between December 31, 2015 and June 30, 2016. An increase in specific reserves within our Commercial and Industrial category was offset by reductions in collective reserves within our Commercial and Industrial, and Construction categories, which resulted from improved underwriting standards and payoffs of certain loans.

The overall credit quality of the loan portfolio continues to be strong and stable. Based upon the overall assessment and evaluation of the loan portfolio at June 30, 2016, management believes the allowance for loan losses of \$5.2 million, which represents 1.0% of gross loans outstanding, is adequate under prevailing economic conditions to absorb existing losses in the loan portfolio.

***Non-Accrual, Past Due and Restructured Loans***

The following table presents non-accruing loans and loans past due 90 days or more and still accruing:

	June 30,  2016	December 31,  2015		
<i>(dollars in thousands)</i>				
Loans past due over 90 days and still accruing	\$ 1,491	\$ 2,046		
Non-accruing loans	4,800	1,593		
Total	\$6,291	\$ 3,639		
% of Total Loans	1.20 %	0.75 %		
% of Total Assets	0.96 %	0.56 %		

The \$4.8 million of non-accrual loans at June 30, 2016 is comprised of five relationships, for which a specific reserve of \$1.0 million has been established. The non-accrual increase of \$3.2 million from December 31, 2015 is related to a single commercial loan and is not indicative of a credit quality trend within the portfolio. As this relationship moved to non-accrual status, the loan loss allocation tied to other loans that were no longer considered criticized were then reallocated to this new non-accrual relationship.

The Company has obtained appraisal reports from independent licensed appraisal firms and discounted those values for estimated selling costs to determine estimated impairment.

The \$1.6 million of non-accrual loans at December 31, 2015 was comprised of three borrowers, for which a specific reserve of \$3,000 had been established.

### ***Other Real Estate Owned***

At June 30, 2016, other real estate owned ("OREO") aggregated \$0.9 million, and consisted of a single property which consists of raw land and is suitable for multi-use construction. There was no OREO at December 31, 2015. The Company recognized a \$0.01 million gain upon taking possession of the property in May of 2016. During the twelve months ended December 31, 2015, there was no OREO activity.

### ***Deferred Taxes***

Deferred tax assets decreased \$0.7 million, from \$13.8 million at December 31, 2015 to \$13.1 million at June 30, 2016. This decrease was primarily due to net operating loss carry forwards applied to the tax liability on current year taxable income, in addition to a reduction in the deferred taxes on net unrealized security losses.

The Company will continue to evaluate its ability to realize its net deferred tax asset. If future evidence suggests that it is more likely than not that a portion of the deferred tax asset will not be realized, the valuation allowance may be increased.

**Deposits**

The following table is a summary of the Company's deposits at the dates shown:

<i>(in thousands)</i>	June 30, 2016	December 31, 2015	Inc/(Dec)	Inc/ (Dec) %	
Non-interest bearing	\$75,244	\$85,065	\$ (9,821 )	(11.5%)	
Interest bearing					
NOW	28,745	28,684	61	0.2	%
Savings	124,196	106,291	17,905	16.8	%
Money market	18,486	19,522	(1,036 )	(5.3%)	
Time certificates, less than \$250,000	125,668	139,455	(13,787 )	(9.9%)	
Time certificates, \$250,000 or more	16,812	17,509	(697 )	(4.0%)	
Brokered Deposits	57,185	48,154	9,031	18.8	%
Total interest bearing	371,092	359,615	11,477	3.2	%
Total Deposits	\$446,336	\$444,680	\$ 1,656	0.4	%

Deposits increased \$1.7 million from \$444.7 million at December 31, 2015 to \$446.3 million at June 30, 2016. Decreases in non-interest bearing deposits were caused by typical seasonal decline. Regarding interest-bearing deposits, decreases in time certificates and money market accounts were more than offset by increases in savings and brokered deposits. The Company continues to implement deposit growth initiatives.

**Borrowings**

Total borrowings were \$138.1 million at June 30, 2016 and were comprised of \$128.0 million in Federal Home Loan Bank ("FHLB") advances, \$8.3 million in junior subordinated debentures and a \$1.8 million note payable.

The FHLB advances had a weighted average interest rate of 0.33%. All had remaining maturities ranging between one days to five years.

The subordinated debentures of \$8.2 million are unsecured obligations of the Company and are subordinate and junior in right of payment to all present and future senior indebtedness of the Company. These obligations qualify as Tier 1 capital. The Company has entered into a guarantee, which together with its obligations under the subordinated debentures and the declaration of trust governing the Patriot National Statutory Trust I (an unconsolidated affiliate), provides a full and unconditional guarantee of the capital securities. The subordinated debentures, which bear interest at three-month LIBOR plus 3.15% (3.79% at June 30, 2016), mature on March 26, 2033.

The trust has an early redemption feature at the Company's option, exercisable on a quarterly basis.

In the third quarter of 2015, the Company entered into a note payable in the amount of \$2.0 million for the purchase of its Fairfield, CT branch which was formerly leased. The note has a ten-year term and bears interest at a fixed rate of 1.75%. As of June 30, 2016, the principal balance on this note was \$1.8 million.

### ***Equity***

Equity increased \$1.6 million from \$61.5 million at December 31, 2015 to \$63.1 million at June 30, 2016 due to net income of \$1.3 million and equity compensation of \$0.3 million. Book and tangible book value per share aggregated \$15.94 at June 30, 2016, as compared to \$15.53 at December 31, 2015.

### ***Off-Balance Sheet Arrangements***

The Company's off-balance sheet arrangements, which primarily consist of commitments to lend, decreased by \$5.4 million from \$86.2 million at December 31, 2015 to \$80.8 million at June 30, 2016.

**RESULTS OF OPERATIONS****Net Interest Income**

Net interest income	\$30	\$(97 )	\$(67 )	\$(4 )	\$285	\$281

For the quarter ended June 30, 2016, interest income decreased \$0.1 million, or 1.4%, as compared to the quarter ended June 30, 2015. An increase of \$3.9 million in average loan balances was more than offset by lower loan prepayment fees as the trend of fewer loan prepayments continues. Interest expense decreased slightly as compared to the year-ago period, mostly as the result of a decrease in average deposit balances since that time. Together, these changes produced a slight decrease in net interest income during the second quarter as compared to the second quarter of 2015. The Company's loan portfolio as of June 30, 2016 actually increased \$44.3 million compared to December 31, 2015. The loan pipeline remains strong and continued growth is expected.

For the six-month period ended June 30, 2016, interest income increased \$0.3 million. Most of this increase related to the achievement of a higher rate of return on loans and investments as compared to the six months ended June 30, 2015, partially offset by reductions in average loan and average investment balances of \$1.0 million and \$6.3 million, respectively.

Interest expense for the six-month period decreased slightly. Lower average deposit balances were offset by an increase in the average rate of FHLB borrowings and a note payable for the purchase of the Company's Fairfield CT property entered into during the third quarter of 2015.

Net interest margin for the quarter ended June 30, 2016 was 3.78% as compared to 3.73% for the quarter ended June 30, 2015. For the six months ended June 30, 2016, net interest margin was 3.77% as compared to 3.61% for the year-ago period. The improvement results primarily from a .74% increase in the average yield on investments.

***Provision for Loan Losses***

No addition to the allowance for loan losses was recorded in the six months ended June 30, 2016. Provision for loan losses of \$0.25 million was recorded in the six months ended June 30, 2015. Overall, the credit quality of the loan portfolio is strong as the overall risk rating for the portfolio has improved. This, combined with continued improvement in regional economic trends, has enabled the Company to maintain its loan loss reserve level with no additional provision requirements for the six months ended June 30, 2016.

***Non-interest income***

Non-interest income decreased \$0.1 million from \$0.5 million for the quarter ended June 30, 2015 to \$0.4 million for the quarter ended June 30, 2016. Fewer loan fees during the second quarter of 2016 was the primary cause of this decrease.

***Non-interest expense***

Non-interest expense remained materially the same during the quarter ended June 30, 2016 as compared to the year-ago period, as a result of continued cost control.

**LIQUIDITY**

The Company's liquidity ratio was 9.9% at June 30, 2016 compared to 16.4% at December 31, 2015. The liquidity ratio is defined as the percentage of liquid assets to total assets. The following categories of assets, as described in the accompanying consolidated balance sheets are considered liquid assets: cash and cash equivalents (which includes federal funds sold), and unpledged available-for-sale securities. Liquidity is a measure of the Company's ability to generate adequate cash to meet financial obligations. The principal cash requirements of a financial institution are to cover downward fluctuations in deposit accounts and increases in its loan portfolio. Management believes the Company's short-term assets provide sufficient liquidity to satisfy loan demand, cover potential fluctuations in deposit accounts and to meet other anticipated and unanticipated cash requirements.

**CAPITAL**

The following table illustrates the Company's regulatory capital ratios at June 30, 2016 and December 31, 2015:

**Patriot National Bancorp, Inc.**

	June	December
	30, 2016	31, 2015
Tier 1 Leverage Capital	9.97%	9.77%
Common Equity Tier 1 Capital	9.56%	10.04%
Tier 1 Risk-based Capital	11.00%	11.60%
Total Risk-based Capital	11.94%	12.62%

The following table illustrates the Bank's regulatory capital ratios at June 30, 2016 and December 31, 2015:

**Patriot Bank, N.A**

	June	December
	30, 2016	31, 2015
Tier 1 Leverage Capital	10.13%	9.83%
Common Equity Tier 1 Capital	11.21%	11.72%
Tier 1 Risk-based Capital	11.21%	11.72%
Total Risk-based Capital	12.16%	12.74%

The implementation of the Basel III final framework commenced on January 1, 2015, for both the Company and the Bank. The new regulations have changed the ratio calculations, resulting in an initial decline upon adoption. Among other provisions, Basel III increased some asset risk weightings, introduced a new capital measure "Common Equity Tier 1" and will increase capital ratio requirements during a phase-in period from January 1, 2015 to January 1, 2019. Under the final capital rules, there was a requirement for a common equity Tier 1 capital conservation buffer of 2.5% of risk-weighted assets which is in addition to the other minimum risk-based capital standards in the rule. Institutions that do not maintain this required capital buffer will become subject to progressively more stringent limitations on the percentage of earnings that can be paid out in dividends or used for stock repurchases and on the payment of discretionary bonuses to senior executive management. The capital buffer requirement effectively raises the minimum required common equity Tier 1 capital ratio to 7.0%, the Tier 1 capital ratio to 8.5%, and the total capital ratio to 10.5% on a fully phased-in basis on January 1, 2019. The minimum required ratios per Basel III for 2016 and 2019 are:

	January 01,	January 01,
	2016	2019
Tier 1 Leverage Capital	5.00%	5.00%
Common Equity Tier 1 Capital	6.50%	7.00%
Tier 1 Risk-based Capital	8.00%	8.50%
Total Risk-based Capital	10.00%	10.50%

Both the Company's and the Bank's current capital ratios exceed the fully phased in minimum capital ratios of Basel III. The Bank maintained its "well capitalized" regulatory status through the second quarter of 2016.

## **IMPACT OF INFLATION AND CHANGING PRICES**

The Company's consolidated financial statements have been prepared in terms of historical dollars, without considering changes in the relative purchasing power of money over time due to inflation. Unlike most industrial companies, virtually all of the assets and liabilities of a financial institution are monetary in nature. As a result, interest rates have a more significant impact on a financial institution's performance than the effect of general levels of inflation. Interest rates do not necessarily move in the same direction or with the same magnitude as the prices of goods and services. Notwithstanding this, inflation can directly affect the value of loan collateral, in particular, real estate. Inflation, deflation or disinflation could significantly affect the Company's earnings in future periods.

## **MANAGEMENT CHANGES**

### **Departure and Appointment of Certain Officers**

In connection with its executive transition plans, on July 28, 2016 the Bank retained Kaplan Partners, an outside consulting firm, to assist with the search for a permanent Chief Executive Officer and the succession planning process of the Company and the Bank.

On August 4, 2016, Kenneth T. Neilson delivered notice of his resignation as Chief Executive Officer and President of the Company and the Bank (together, "Patriot"), effective August 19, 2016. Also, on August 4, 2016, Susan Neilson delivered notice of her resignation as Chief Operating Officer and Executive Vice President of the Bank, effective August 19, 2016. On August 10, 2016, the Board appointed Peter D. Cureau to serve as the interim Chief Operating Officer and President of the Company, effective as of August 19, 2016. Mr. Cureau has over 25 years of banking experience, culminating most recently in his role as the President and Chief Executive Officer of Capital Bank and Trust Company in Troy, New York. He has experience in all aspects of commercial banking, including operations and management. Also on August 10, 2016, the board of directors of the Company (the "Board") appointed Michael A. Carrazza to serve as interim Chief Executive Officer, effective as of August 19, 2016. Mr. Carrazza has been the Chairman of both boards of directors of Patriot since leading its turnaround recapitalization in October 2010. Mr. Carrazza will not receive additional compensation for his service as interim officer, and has agreed to serve as an interim officer until the Board's appointment of a new, permanent Chief Executive Officer.

For additional information, refer to the Company's Current Report on Form 8-K, filed with the Securities and Exchange Commission on August 10, 2016.

On January 5, 2016, Christina L. Maier resigned, for personal reasons, as Chief Financial Officer of Patriot, and as of April 30, 2016, from her position as Executive Vice President of Patriot. Also on that date, Neil M. McDonnell was appointed as Chief Financial Officer of Patriot. Mr. McDonnell had been serving as Executive Vice President, Finance of Patriot since December 9, 2015, and was a consultant to Patriot from October 5, 2015 through December 8, 2015.

### **Stock Repurchase Program**

On July 26, 2016, the Company authorized a stock repurchase program under which it may repurchase up to 500,000 of its outstanding shares of common stock. The program will terminate on July 31, 2017, unless suspended, discontinued or replaced at any time without prior notice. Under the program, the Company may repurchase shares in open-market purchases or in private transactions in accordance with applicable securities laws and regulations, including Rule 10b-18 of the Securities Exchange Act of 1934. The specific timing and amount of repurchases will be determined by the Company's chairman, in his discretion, and will vary based on market conditions, securities laws limitations and other factors. The repurchases will be funded using available cash on hand.

### ***Item 3: Quantitative and Qualitative Disclosures about Market Risk***

Market risk is defined as the sensitivity of income to fluctuations in interest rates, foreign exchange rates, equity prices, commodity prices and other market-driven rates or prices. The Company's market risk is primarily limited to interest rate risk.

The Company's goal is to maximize long term profitability while minimizing its exposure to interest rate fluctuations. The first priority is to structure and price the Company's assets and liabilities to maintain an acceptable interest rate spread while reducing the net effect of changes in interest rates. In order to accomplish this, the focus is on maintaining a proper balance between the timing and volume of assets and liabilities re-pricing. One method of achieving this balance is to originate variable rate loans for the portfolio and purchase short-term investments to offset the increasing short term re-pricing of the liability side of the balance sheet. In fact, a number of the interest-bearing deposit products have no contractual maturity. Therefore, deposit balances may run off unexpectedly due to changing market conditions. Additionally, loans and investments with longer term rate adjustment frequencies can be matched against longer term deposits and borrowings to lock in a desirable spread.

The exposure to interest rate risk is monitored by the Management Asset and Liability Committee (the "Committee") consisting of senior management personnel. The Committee reviews the interrelationships within the balance sheet to maximize net interest income within acceptable levels of risk. This Committee reports to the Board of Directors. In addition to the Management Asset and Liability Committee, there is a Board Asset and Liability Committee ("ALCO"), which meets at least quarterly. ALCO monitors the interest rate risk analyses, reviews investment transactions during the period and determines compliance with the Company, ALCO and Liquidity policies.

Management analyzes the Company's interest rate sensitivity position to manage the risk associated with interest rate movements through the use of interest income simulation and GAP analysis. The matching of assets and liabilities may be analyzed by examining the extent to which such assets and liabilities are "interest sensitive." An asset or liability is said to be interest sensitive within a specific time period if it will mature or reprice within that time period.

Management's goal is to manage asset and liability positions to moderate the effects of interest rate fluctuations on net interest income. Interest income simulations are completed quarterly and presented to ALCO. The simulations provide an estimate of the impact of changes in interest rates on net interest income under a range of assumptions. Changes to these assumptions can significantly affect the results of the simulations. The simulation incorporates assumptions regarding the potential timing in the repricing of certain assets and liabilities when market rates change, and the changes in spreads between different market rates.

Simulation analysis is only an estimate of the Company's interest rate risk exposure at a particular point in time. Management regularly reviews the potential effect changes in interest rates could have on the repayment of rate-sensitive assets and funding requirements of rate-sensitive liabilities.

The table below sets forth examples of changes in estimated net interest income and the estimated net portfolio value based on projected scenarios of interest rate increases and decreases. The analyses indicate the rate risk embedded in the Company's portfolio at the dates indicated should all interest rates instantaneously rise or fall. The results of these changes are added to or subtracted from the base case; however, there are certain limitations to these types of analyses. Rate changes are rarely instantaneous and these analyses may therefore overstate the impact of short-term repricings. As a result of the historically low interest rate environment, the calculated effects of the 100 and 200 basis point downward shocks cannot absolutely reflect the risk to earnings and equity, since the interest rates on certain balance sheet items have approached their minimums. Therefore, it is not possible for the analyses to fully measure the true impact of these downward shocks.

***Item 4: Controls and Procedures***

**Disclosure Controls and Procedures**

The Bank maintains disclosure controls and procedures that are designed to provide reasonable assurance that information, which is required to be disclosed timely, is accumulated and communicated to management in a timely fashion. In designing and evaluating such controls and procedures, we recognize that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Our management is necessarily required to use judgment in evaluating controls and procedures.

An evaluation of the effectiveness of the Company's disclosure controls and procedures was performed by the Company's management, with the participation of the Company's Chief Executive Officer and its Chief Financial Officer, as of the end of the period covered by this report. As used herein, "disclosure controls and procedures" means controls and other procedures of the Company that are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to the Company's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. Based on the evaluation, the aforementioned officers concluded that, as of June 30, 2016, the Company's disclosure controls and procedures were not effective as a result of the material weakness in internal controls over financial reporting detailed below.

During the second quarter of 2016, management identified the following deficiency in the operating effectiveness of controls relating to the process of estimating the allowance for loan losses that was determined to be a material weakness: i) controls over recording eligible collateral when calculating specific reserves on impaired loans; and ii) controls over the development and monitoring of qualitative factors used in calculating the general component of the loan loss reserve in accordance with the approved allowance for loan losses policy. The Company's Chief Executive Officer and Chief Financial Officer have determined that the Company's financial reporting controls and procedures with respect to the allowance for loan losses were not operating effectively for the quarter ended June 30, 2016 to ensure that credit quality information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. The material weakness did not result in any material misstatement of the Company's consolidated financial statements for any period presented.

In response to the material weakness identified above, the Company is in the process of implementing changes to its internal control over financial reporting, including changes to the allowance for loan losses process and control procedures, and enhancements to internal controls over the review process. The material weakness will not be considered remediated until the applicable remedial controls operate for a sufficient period of time and management has concluded, through testing, that these controls are operating effectively. We expect that the remediation of the material weakness will be completed prior to the end of fiscal year 2016.

### **Internal Control Over Financial Reporting**

A material weakness in the Company's internal control over financial reporting was disclosed in Item 9A, Controls and Procedures, of the Company's annual report on Form 10-K, for the year ended December 31, 2015. The Company did not have an effective policy, procedure and review controls over the accounting for loan prepayment fees receivable which resulted in improper revenue recognition in December 2015 related to one non-routine transaction. No restatement of prior period financial statements and no change in previously released financial results were required as a result of this finding, as the error was corrected prior to the issuance of the Company's annual financial statement.

The Company committed to remediate the control deficiency that constitutes a material weakness by implementing changes to the internal control process over financial reporting by the end of the first quarter 2016. The following changes to improve the overall effectiveness of internal control over financial reporting have been implemented as of March 31, 2016:

1. Management modified the review process to include additional accounting staff with the experience to support the financial reporting requirements of non-routine transactions, and
2. Accounting procedures have been modified and internal controls have been added to record loan prepayment fee receivables on a cash basis.

Based on the actions taken by management, the Company successfully completed the assessment necessary to conclude that the material weakness identified on Form 10-K for the year ended December 31, 2015 has been fully remediated as of March 31, 2016.

Other than what is described above, there were no other changes in the Company's internal controls over financial reporting that occurred during the Company's fiscal quarter ended June 30, 2016 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

## PART II - OTHER INFORMATION

### **Item 1: Legal Proceedings**

Neither the Company nor the Bank has any pending legal proceedings, other than ordinary routine litigation incidental to its business, to which the Company or the Bank is a party or any of its property is subject.

### **Item 1A: Risk Factors**

During the six months ended June 30, 2016, there were no material changes to the risk factors relevant to the Company's operations, which are described in the Annual Report on Form 10-K for the year ended December 31, 2015, except as follows.

*Our stockholders may experience dilution upon the repurchase of common shares.* On July 26, 2016, our Board of Directors authorized a stock repurchase plan permitting the Company to repurchase up to 500,000 shares of its common stock. The Company may repurchase shares of its common stock in the open market, including block purchases, at prices that may be above or below the net asset value as reported in the most recently published financial statements. The share repurchase program will be in effect until July 31, 2017, or until suspended, discontinued or replaced. If the Company were to repurchase shares at a price above net asset value per share, such repurchases would result in an immediate dilution in net asset value per share to existing common stockholders.

### **Item 6: Exhibits**
