FORWARD LOOKING STATEMENTS

Statements made in this Form 10-Q that are not historical or current facts are forward-looking statements. These statements often can be identified by the use of terms such as “may,” “will,” “expect,” “believe,” “anticipate,” “estimate,” “approximate” or “continue,” or the negative thereof. We wish to caution readers not to place undue reliance on any such forward-looking statements, which speak only as of the date made. Any forward-looking statements represent management’s best judgment as to what may occur in the future. However, forward-looking statements are subject to risks, uncertainties and important factors beyond our control that could cause actual results and events to differ materially from historical results of operations and events and those presently anticipated or projected. Among the factors that could cause actual results to differ materially from the forward-looking statements are the following: the Company’s ability to obtain necessary capital, the Company’s ability to meet anticipated development timelines, the Company’s ability to protect its proprietary technology and knowhow; the Company’s ability to identify and develop a network of physicians, the Company’s ability to establish a global market, clinical trial results, the Company’s ability to successfully consummate future acquisitions and such other risk factors identified from time to time in the Company’s reports filed with the Securities and Exchange Commission, including those filed with this Form 10-Q quarterly report. We disclaim any obligation subsequently to revise any forward-looking statements to reflect events or circumstances after the date of such statement or to reflect the occurrence of anticipated or unanticipated events.

CREATIVE WASTE SOLUTIONS, INC. & SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
FOR THE NINE MONTHS ENDED JUNE 30, 2017 AND 2016

NOTE 1 – ORGANIZATION AND BASIS OF PRESENTATION

Creative Waste Solutions, Inc. (formally Silverstar Resources, Inc.) (the "Company") was incorporated under the laws of the State of Nevada on December 5, 2003. On June 23, 2016, the Company's Board of Directors approved of a change of name from Silverstar Resources, Inc. to Creative Waste Solutions Inc. The Company operates in the waste management industry.

On March 10, 2015, the Company formed 1030029 Ltd, an Alberta numbered company as a wholly owned subsidiary to meet the requirements of holding working interest of Alberta producing oil and gas properties.

On April 7, 2016, the Company entered into a membership purchase agreement with Creative Waste Solutions, LLC, a Florida limited liability corporation ("Creative") whereby the Company purchased 100% of the membership interest for \$25,000 (see Note 12).

On May 22, 2016, the Company entered into a stock purchase agreement with Florida based, Integrated Waste Transportation Services, Inc. ("Integrated"). Pursuant to the agreement, the Company acquired 100% of the outstanding equity of Integrated in exchange for \$300,000 and 50,000 Shares of common stock of the Company (see Note 12).

On August 26, 2016, the Company purchased certain assets of Easy Disposal, Inc. ("Easy"), for an aggregate amount of \$396,500 which includes 50,000 shares of common stock of the Company, valued at \$2.19 per share and the remainder in cash (see Note 12).

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the balance sheet. Actual results could differ from those estimates.

Presentation

The accompanying unaudited interim financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission (SEC), and should be read in conjunction with the audited financial statements and notes thereto contained in the Company's September 30, 2016 Annual Report filed with the SEC on Form 10-K. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year ended September 30, 2016 as reported on Form 10-K, have been omitted.

Principles of Consolidation

The consolidated financial statements of the Company include the Company and its wholly-owned subsidiaries, 1030029 Ltd., Creative and Integrated. The operations of Creative and Integrated have only been consolidated since their respective dates of acquisition of April 7, 2016 and May 22, 2016. All material intercompany balances and transactions have been eliminated.

Table of Contents

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

Accounts Receivable

The Company grants credit to customers under credit terms that it believes are customary in the industry and does not require collateral to support customer receivables. The Company evaluates its provision for an allowance for doubtful collections, which is based upon a review of outstanding receivables, historical collection information, and existing economic conditions. Delinquent receivables are written off based on individual credit evaluation and specific circumstances of the customer. At June 30, 2017 and September 30, 2016, the Company's allowance for doubtful accounts was \$0.

Revenue Recognition

The Company recognizes revenue from waste removal services it provides to its customers. The Company's revenue recognition policies comply with FASB ASC Topic 605. Revenue is recognized at the time the waste removal services is completed, when a formal arrangement exists, the price is fixed or determinable, the service is completed, no other significant obligations of the Company exist and collectability is reasonably assured.

Equipment

Equipment are carried at the cost of acquisition and depreciated over the estimated useful lives of the assets. Costs associated with repair and maintenance is expensed as incurred. Costs associated with improvements which extend the life, increase the capacity or improve the efficiency of our property and equipment are capitalized and depreciated over the remaining life of the related asset. Gains and losses on dispositions of equipment are reflected in operations. Depreciation is provided using the straight-line method over the estimated useful lives of the assets.

Stock-Based Compensation

The Company records stock-based compensation in accordance with FASB ASC Topic 718, “*Compensation – Stock Compensation*.” FASB ASC Topic 718 requires companies to measure compensation cost for stock-based employee compensation at fair value at the grant date and recognize the expense over the employee’s requisite service period. The Company recognizes in the statement of operations the grant-date fair value of stock options and other equity-based compensation issued to employees and non-employees. There were no options outstanding during the periods presented.

Related Parties

The Company follows ASC 850, *Related Party Disclosures*, for the identification of related parties and disclosure of related party transactions.

Long-lived Assets

The Company assesses long-lived assets, including intangible assets, for impairment in accordance with the provisions of FASB ASC 360 Property, *Plant and Equipment*. A long-lived asset (or group of assets) shall be tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The carrying amount of a long lived asset is not recoverable if it exceeds the sum of the undiscounted net cash flows expected to result from the use and eventual disposition of the asset. The amount of impairment loss, if any, is measured as the difference between the net book value of the asset and its estimated fair value. For purposes of these tests, long-lived assets must be grouped with other assets and liabilities for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities. The Company follows ASC Topic 350 in accounting for intangible assets, which requires impairment losses to be recorded when indicators of impairment are present and the undiscounted cash flows estimated to be generated by the assets are less than the assets’ carrying amounts. During the nine months ended June 30, 2017 and 2016, the Company did not sustain any impairment loss.

Table of Contents

Goodwill

Goodwill represents the excess of purchase price over the underlying net assets of businesses acquired. Under accounting requirements, goodwill is not amortized but is subject to annual impairment tests. The Company recorded goodwill of \$149,500 related to its August 2016 acquisition of Easy. As of June 30, 2017 and September 30, 2016, the Company performed the required impairment review and concluded that the goodwill was not impaired.

Basic and Diluted Earnings Per Share

Earnings per share is calculated in accordance with ASC Topic 260, *Earnings Per Share*. Basic earnings per share (“EPS”) is based on the weighted average number of common shares outstanding. Diluted EPS is based on the assumption that all dilutive convertible instruments were converted. The Company had outstanding convertible notes during the three and nine months ended June 30, 2017 and 2016, however, the Company had an operating loss during the three and nine months ended June 30, 2017 and the three months ended June 30, 2016, accordingly, the potential convertible shares were not considered in the EPS calculation for those periods due to their anti-dilutive effect.

Income Taxes

Income taxes are provided in accordance with ASC Topic 740 *Accounting for Income Taxes*. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carry forwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

Under ASC 740, a tax position is recognized as a benefit only if it is “more likely than not” that the tax position would be sustained in a tax examination, with a tax examination being presumed to occur. The amount recognized is the largest amount of tax benefit that is greater than 50% likely of being realized on examination. For tax positions not meeting the “more likely than not” test, no tax benefit is recorded. The adoption had no effect on the Company’s consolidated financial statements.

Reclassifications

Certain amounts in the prior year financial statements have been reclassified to conform to the current year presentation. These reclassifications had no effect on the previously reported net loss or stockholders' deficit.

Recently Issued Accounting Pronouncements

No new accounting pronouncements were issued during the nine months ended June 30, 2017 that would have a material effect on the Company's consolidated financial statements.

NOTE 3 -- GOING CONCERN

As shown in the accompanying financial statements, the Company has an accumulated deficit of \$5,111,228 as of June 30, 2017 and incurred a loss from operations of \$146,405 for the nine months then ended. Unless the Company is able to attain profitability and increases in stockholders' equity, these conditions raise substantial doubt as to the Company's ability to continue as a going concern. The consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company continues to review its expense structure in an attempt to reduce operating costs. The Company's expenses are planned to decrease, which would result in an improvement to its results of operations.

Table of Contents

NOTE 4 -- EQUIPMENT

Equipment at June 30, 2017 consisted of the following:

Equipment	\$ 90,000
	90,000
Less accumulated depreciation	(15,000)
Equipment, net	\$ 75,000

Depreciation expense for the nine months ended June 30, 2017 and 2016 was \$13,500 and \$0, respectively.

NOTE 5 – INTANGIBLE ASSETS

Intangible assets at June 30, 2017 consisted of the following:

Customer lists	\$ 375,000
Licenses	150,000
	525,000
Less accumulated amortization	(205,208)
Intangible assets, net	\$ 319,792

The customer lists are being amortized over 24 months and the licenses are not being amortized.

Amortization expense for the nine months ended June 30, 2017 and 2016 was \$140,625 and \$17,708, respectively.

Future amortization of intangible assets is as follows:

Years ending September 30,	
2017	\$ 46,875

2018	122,917
	\$ 169,792

NOTE 6 -- ASSET HELD FOR SALE

On April 14, 2015, the Company acquired the working interest of two producing oil and gas properties in Alberta Canada for US \$80,000. The Company has determined that the asset does not fit the future plans of the Company. Under the guidelines of ASC 360 *Newly Acquired Asset Classified as Held for Sale*, the Company is actively seeking to dispose of the asset through a sale. During the year ended September 30, 2015, the Company determined that this asset had become impaired and took a charge to earnings of \$80,000 (see Note 15).

NOTE 7 – CONVERTIBLE DEBENTURES - RELATED PARTY

On January 15, 2015, the Company amended the convertible debenture with the principal of \$75,754 of a related party so that the debenture became anti-dilutive with a conversion price set at \$0.35 regardless of any forward or reverse splits in the Company's common stock.

Table of Contents

On February 23, 2015, a shareholder holding a debenture with a principal balance of \$75,754 and other advances to the Company of \$149,142 of which \$24,328 was borrowed during September 30, 2015 and \$124,814 was the outstanding balance at September 30, 2014 made demand for payment of the total amounts owed including interest. The Company was not able to pay the outstanding balances. The Company and shareholder came to an agreement that the shareholder could convert his \$75,754 convertible note payable and interest at \$0.15 and the advances of \$149,142 plus further advances up to \$150,000 at a 15% discount to the closing price as of date of the agreement or \$0.15 per share. The shareholder agreed to advance an additional \$50,000 to the Company to acquire assets for the Company. The \$50,000 is not convertible and is accounted for as advances due to related party see Note 10.

The change in terms of the \$75,754 convertible note created derivative liability and required the Company to record fair value at the inception of the derivative and for each subsequent reporting period. The fair value of the embedded derivatives at June 30, 2017 was determined using the Black Scholes based on the following assumptions: (1) dividend yield of 0%; (2) expected volatility of 282%, (3) weighted average risk-free interest rate of 0.26%, (4) expected life of 0.31 years, and (5) estimated fair value of the Company's common stock is \$2.19. The fair value calculated as of June 30, 2017 was \$1,533,817. During the six months ended June 30, 2017 the increase in fair value of \$26,540 resulted in a loss reflected in the statement of operations. During the six months ended June 30, 2016 the decrease in fair value of \$2,707,329 resulted in a gain reflected in the statement of operations.

The addition of a conversion feature for the advances of \$149,142 created a beneficial conversion feature as of September 30, 2015 of \$149,142. Due to the advances having no terms and being due on demand, this amount was expensed as interest expense for the year ended September 30, 2015.

As of June 30, 2017 and September 30, 2016, the amount due under the convertible debentures to related party was \$224,896 and \$224,896, respectively.

NOTE 8 -- NOTES PAYABLE

On June 2, 2014, the Company issued a long term note payable for \$81,989 to an entity for advances on work completed on the Company's Ahbau Lake mining property in British Columbia, Canada. The note is unsecured, and bears interest at 10% per year and matures in one year at which time all principal and interest is due and payable. On April 6, 2017 the outstanding balance of \$81,989 plus accrued interest of \$23,242 was converted to 152,509 shares of the Company's common stock.

On April 2, 2015, the Company issued a \$60,000 one-year note bearing interest of 9% as part of the acquisition of the working interest in the Alberta oil and gas property. On April 6, 2017 the outstanding balance of \$60,000 plus accrued

interest of \$8,107 was converted to 98,705 shares of the Company's common stock.

On December 29, 2015, the Company issued a \$17,500 note payable bearing interest of 6% to an unrelated party. The proceeds of the note were used for working capital.

On April 4, 2016, the Company issued a \$29,000 note payable bearing interest of 10% to an unrelated party. The proceeds of the note were used for working capital.

On August 16, 2016, the Company issued a \$17,000, 10% annual interest, demand note payable to a related party.

On August 26, 2016, the Company issued two notes payable to unrelated parties for \$300,000 that bear interest at 10%. The proceeds of the note were used to purchase Easy.

NOTE 9 – ADVANCES - RELATED PARTIES

The Company received advances from two related parties totaling \$76,546 and \$76,546 as of June 30, 2017 and September 30, 2016, respectively. The advances are unsecured, do not have a term and carry no interest rate.

Table of Contents

NOTE 10 – DERIVATIVE INSTRUMENTS

During the year ended September 30, 2016, the Company changed the conversion features on a convertible instrument that require liability classification under ASC 815. These instruments are measured at fair value at the end of each reporting period. (See Note 7).

As defined in FASB ASC 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). The Company utilized the market data of similar entities in its industry or assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable. The Company classifies fair value balances based on the observability of those inputs. FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurement).

The three levels of the fair value hierarchy are as follows:

- Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Level 1 primarily consists of financial instruments such as exchange-traded derivatives, marketable securities and listed equities
- Level 2 - Pricing inputs are other than quoted prices in active markets included in level 1, which are either directly or indirectly observable as of the reported date and includes those financial instruments that are valued using models or other valuation methodologies. These models are primarily industry-standard models that consider various assumptions, including quoted forward prices for commodities, time value, volatility factors, and current market and contractual prices for the underlying instruments, as well as other relevant economic measures. Substantially all of these assumptions are observable in the marketplace throughout the full term of the instrument, can be derived from observable data or are supported by observable levels at which transactions are executed in the marketplace. Instruments in this category generally include non-exchange-traded derivatives such as commodity swaps, interest rate swaps, options and collars.
- Level 3 - Pricing inputs include significant inputs that are generally less observable from objective sources. These inputs may be used with internally developed methodologies that result in management's best estimate of fair value.

Edgar Filing: Creative Waste Solutions, Inc. - Form 10-Q

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value as of June 30, 2017 and 2016:

Recurring Fair Value Measures	Level 1	Level 2	Level 3	Total
Derivative liabilities at June 30, 2017	\$ -	\$ -	\$ 1,848,106	\$ 1,848,106
Derivative liabilities at June 30, 2016	\$ -	\$ -	\$ 1,467,799	\$ 1,467,799

The following table represents the change in the fair value of the derivative liabilities during the six months ended June 30, 2017 and 2016:

Fair value of derivatives, September 30, 2015	\$ 4,152,164
Change in fair value of derivative liability - gain	(2,684,365)
Fair value of derivatives, June 30, 2016	1,467,799
Fair value of derivatives, September 30, 2016	1,507,277
Change in fair value of derivative liability - loss	340,829
Fair value of derivatives, June 30, 2017	\$ 1,848,106

Table of Contents

NOTE 11 – EARNINGS (LOSS) PER SHARE

Earnings (loss) per share is calculated using the weighted average number of shares of common stock outstanding during the applicable period. Basic weighted average common shares outstanding is computed using the weighted average shares outstanding during the period. Diluted earnings (loss) per share is computed using the weighted average number of common shares outstanding and if dilutive, potential common shares outstanding during the period. Potential common shares consist of the additional common shares issuable upon the conversion of convertible debentures. The effect on the number of common shares outstanding assuming conversion of the convertible debentures as of June 30, 2017 would result in an increase of approximately 1,838,592 shares. The Company incurred an operating loss for the nine months ended June 30, 2017, accordingly, the convertible shares were not used to calculate EPS for that period due to their anti-dilutive effect.

NOTE 12 – ACQUISITIONS

On April 7, 2016, the Company entered into a membership purchase agreement with Creative whereby the Company purchased 100% of the membership interest for \$25,000.

On May 22, 2016, the "Company entered into a stock purchase agreement with Integrated. Pursuant to the agreement, the Company acquired 100% of the outstanding equity of Integrated in exchange for \$300,000 and 50,000 shares of common stock of the Company. The common stock was valued at \$1.00 per shares which was the closing price of the Company's common stock on May 22, 2016.

On August 26, 2016, the Company purchased certain assets of Easy for an aggregate amount of \$396,500 which includes 50,000 shares of common stock of the Company and \$287,000 in cash. The common stock was valued at \$2.19 per shares, which was the closing price of the Company's common stock on August 26, 2016.

The Company purchased Creative, Integrated and Easy to integrate itself in the waste management business in southeastern region of the United States.

The transactions are accounted for as business combinations in accordance with ASC 805. A summary of the purchase price allocations at fair value is below.

	Creative		Integrated		Easy	
Furniture and equipment	\$	-	\$	-	\$	90,000
Deposit		-		-		7,000
Customer list		25,000		350,000		-
License		-		-		150,000
Goodwill		-		-		149,500
Purchase price	\$	25,000	\$	350,000	\$	396,500

The customer lists are being amortized over 24 months and licenses are not being amortized.

The unaudited pro forma information showing the operating results as if all the acquisitions took place on October 1, 2014 is not currently available.

NOTE 13 -- EQUITY

During the nine months ended June 30, 2017 the Company issued 251,214 shares of common stock for the settlement of debt.

Table of Contents**NOTE 14 – INCOME TAXES**

The Company has losses carried forward for income tax purposes through June 30, 2017. There are no current or deferred tax expenses for the nine months ended June 30, 2017 and 2016 due to the Company's loss position. The Company has fully reserved for any benefits of these losses utilizing a statutory federal income tax rate of 34%. The deferred tax consequences of temporary differences in reporting items for financial statement and income tax purposes are recognized, as appropriate. Realization of the future tax benefits related to the deferred tax assets is dependent on many factors, including the Company's ability to generate taxable income within the net operating loss carry-forward period. Management has considered these factors in reaching its conclusion as to the valuation allowance for financial reporting purposes.

The deferred income tax asset for the nine months ended June 30, 2017 and 2016 consists of the following:

	2017	2016
Deferred income tax asset attributed to:		
Current operations	\$ 64,496	\$ 33,714
Less: Change in valuation allowance	(64,496)	(33,714)
Net refundable amount	\$ -	\$ -

The composition of the Company's deferred tax assets as at June 30, 2017 and September 30, 2016 are as follows:

	June 30,	Sept. 30,
	2017	2016
Income tax operating loss carryforward	\$ 2,671,162	\$ 2,596,494
Statutory federal income tax rate	34%	34%
Effective income rate	0%	0%
Deferred tax assets:		
Net operating loss carryforward	\$ 908,195	\$ 882,808
Amortization of intangible assets	69,771	18,747
Total deferred tax assets	977,966	901,555
Less: valuation allowance	(977,966)	(901,555)
Net deferred tax asset	-	-

The potential income tax benefit of these losses has been offset by a full valuation allowance.

As of June 30, 2017, the Company has an unused net operating loss carry-forward balance of approximately \$2,671,000 that is available to offset future taxable income. This unused net operating loss carry-forward balance expires between 2025 and 2036.

The issuance of 2,532,054 shares of common stock during the year ended September 30, 2014 affected a change in control of the Company. Due to the change in control, the tax loss carryforward may only be used on a formula basis under IRS section 382 which will affect the benefit the Company can gain from the tax loss.

NOTE 15 – DISCONTINUED OPERATIONS

Prior to the business acquisitions referred to in Note 12, the Company operated in the oil and gas industry. The Company discontinued operating in the oil and gas industry and operates in the waste management industry. Accordingly, the financial statements for the nine months ended June 30, 2016 reflect a loss from discontinued operations from the oil and gas operations. The Company wrote-off an asset consisting of two oil and gas properties located in Alberta Canada in the September 30, 2015 fiscal year as disclosed in Note 6. The Company is actively seeking to dispose of the asset through a sale and will account for the disposition of this property as a discontinued operation.

Table of Contents

NOTE 16 – COMMITMENTS AND CONTINGENCIES

Lease

The Company leases operations facility located in Hollywood, FL under a long-term operating lease expiring in January 2018, with the option to renew for an additional five years. For the twelve months ended January 31, 2017 the base monthly rent was \$4,650 plus sales tax. For the twelve months ended January 31, 2018 the base monthly rent is \$4,850 plus sales tax. The lease was acquired with the acquisition of Easy. Rent expense was \$45,421 and \$44,361 for the nine months ended June 30, 2017 and 2016, respectively.

As of June 30, 2017, future minimum annual payments, including sales tax, under operating lease agreements for fiscal year ending September 30 are as follows:

2017	\$ 30,634
2018	-0-
	\$ 30,634

NOTE 17 -- SUBSEQUENT EVENTS

In accordance with SFAS 165 (ASC 855-10) management has performed an evaluation of subsequent events through the date that the financial statements were issued and has determined that there are no material subsequent events that would require an adjustment to the financial statements. The following subsequent event is the sole disclosure that is required.

On August 2, 2017, the Company entered into a “Membership Purchase Agreement” with a Florida based Limited Liability Company (LLC). Pursuant to the agreement, the Company will acquire 100% of the membership interests of the LLC for a \$2,600,000 purchase price. The acquisition is contingent on the Company’s raising of the funds needed to consummate the transaction. The Company is required to make non-refundable deposits of \$50,000, pay an additional \$950,000 at closing and the seller will provide \$1,600,000 of financing.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

The following discussion of our financial condition and results of operations should be read in conjunction with our financial statements and the related notes, and other financial information included in this Form 10-Q.

Our Management's Discussion and Analysis contains not only statements that are historical facts, but also statements that are forward-looking. Forward-looking statements are, by their very nature, uncertain and risky. These risks and uncertainties include international, national, and local general economic and market conditions; our ability to sustain, manage, or forecast growth; our ability to successfully make and integrate acquisitions; new product development and introduction; existing government regulations and changes in, or the failure to comply with, government regulations; adverse publicity; competition; the loss of significant customers or suppliers; fluctuations and difficulty in forecasting operating results; change in business strategy or development plans; business disruptions; the ability to attract and retain qualified personnel; the ability to protect technology; the risk of foreign currency exchange rate; and other risks that might be detailed from time to time in our filings with the Securities and Exchange Commission.

Although the forward-looking statements in this Report reflect the good faith judgment of our management, such statements can only be based on facts and factors currently known by them. Consequently, and because forward-looking statements are inherently subject to risks and uncertainties, the actual results and outcomes may differ materially from the results and outcomes discussed in the forward-looking statements. You are urged to carefully review and consider the various disclosures made by us in this report as we attempt to advise interested parties of the risks and factors that may affect our business, financial condition, and results of operations and prospects.

Overview

The address of our principal executive office is located at 1440 NW 1st Court, Boca Raton, FL 33432. Our telephone number is (561) 757-3585. Our company was incorporated in the State of Nevada on December 5, 2003 under the name Computer Maid, Inc. Our company was inactive until February 2006, when we changed our name to Rose Explorations Inc. and became engaged in the exploration of mining properties.

On March 4, 2008, our company completed a merger with our wholly-owned subsidiary, SilverStar Resources, Inc., which was incorporated solely to effect the name change of our company to SilverStar Resources, Inc.

On March 4, 2008, we affected a 3 for 1 forward stock split of our authorized, issued and outstanding common stock. As a result, our authorized capital increased from 75,000,000 shares of common stock with a par value of \$0.001 to 225,000,000 shares of common stock with a par value of \$0.001.

On April 13, 2011, we incorporated a wholly owned subsidiary, Silverstar Mining (Canada) Inc., under the federal laws of Canada. The subsidiary's main purpose is to hold title to mineral property rights situated in Canada as the laws of that country require that only local entities can hold title to mineral property rights situated within its borders.

Effective September 26, 2011, we affected a reverse split our common stock on a 1,000 for 1 basis. As a result of the foregoing, we reduced the number of authorized shares of our common stock from 225,000,000 to 225,000.

On February 29, 2012, we filed a Certificate of Amendment to our company's Articles of Incorporation with the Nevada Secretary of State increasing the number of authorized shares from 225,000 to 225,000,000 shares of common stock \$0.001 par value.

On July 22, 2013 we entered into settlement agreements with four debt holders of our company pursuant to which we restructured outstanding demand loans payable in the aggregate amount of \$175,028 (inclusive of accrued interest) as convertible debentures.

Table of Contents

On February 15, 2013, we closed a Share Exchange Agreement pursuant to which we intended to acquire a wholly owned subsidiary, Arriba Resources Inc. However, effective November 13, 2013 our Board of Directors approved the cancellation and reversal of the Share Exchange Agreement due to a failure of consideration on the part of the seller. As a result of the cancellation and reversal of the Share Exchange Agreement, 2,139,926 shares of our common stock and warrants to acquire 2,078,477 shares of our common stock which were previously authorized (but not issued from treasury) have been cancelled with immediate effect. Consequently, the change of control announced in our current report on Form 8-K filed on May 21, 2013 has been reversed.

As a result of the cancellation and reversal of the Share Exchange Agreement with Arriba, the consolidated financial statements of our Company for the quarterly periods ended March 31, 2013 (filed with the SEC on August 14, 2013) and June 30, 2013 (filed with the SEC on May 20, 2013) may no longer be relied upon owing to their inclusion of the financial information of Arriba. We informed our independent accountants of the cancellation and reversal of the Share Exchange Agreement and intend to file amendments to our Quarterly Reports on Form 10-Q for the periods ended March 31 and June 30, 2013 to reflect our financial condition without consolidation of the financial information of Arriba. The financial statements contained in this current report accurately reflect the deconsolidation of the financial information of Arriba.

On January 23, 2015 the board of directors with the consent of a majority of its shareholders approved amended articles of incorporation to include a change of name to Silverstar Resources, Inc. and a reverse split of its common stock resulting in shareholders receiving one share for every five shares (5 to 1) they hold as of record of that date. In addition, the amendment set the authorized shares of common stock at 220,000,000 and preferred stock at 5,000,000 shares both at a par value of \$0.001.

On March 10, 2015 the Company formed 1030029 Ltd, an Alberta numbered company as a wholly owned subsidiary to meet the requirements of holding working interest of Alberta producing oil and gas properties

On June 23, 2016, the Company's Board of Directors approved of a change of name from Silverstar Resources, Inc. to Creative Waste Solutions Inc.

Results of Operations

The following summary of our results of operations should be read in conjunction with our condensed consolidated financial statements for the three and nine months ended June 30, 2017, which are included herein.

Sales

Sales for the three months and nine months ended June 30, 2017 were \$253,020 and \$707,832 as compared to \$88,378 and \$88,378 for the same periods in 2016. The increase in sales is due to the acquisitions of Creative and Integrated and assets of Easy Disposal.

Cost of Goods Sold

Cost of goods sold for the three months and nine months ended June 30, 2017 were \$167,400 and \$536,338, as compared to \$65,526 and \$65,526 for the same periods in 2016. The increase in cost of goods sold is due to the increase in sales.

Operating Expenses

Operating expenses for the three months and nine months ended June 30, 2017 were \$105,755, and \$317,899 as compared to \$73,987 and \$73,987 for the same periods in 2016. This represents an increase over the 2016 period balances of \$31,768 and \$243,912 for the three and nine months ended June 30, 2017. The increase for the three months and nine months periods is a result of the additional operating costs associated with the acquisitions of Creative, Integrated and Easy, and corresponding increases in filing fees, insurance, legal and accounting, and office expense.

Table of Contents

Net Income (Loss)

Our net loss for the three and nine months ended June 30, 2017 was \$346,523 and \$530,521, respectively, compared to a net loss of \$81,936 for the three months ended June 30, 2016 and net income of \$2,585,206 for the nine months ended June 30, 2016. The increase of \$264,587 in the 2017 three month period net loss compared to the 2016 period net loss is primarily due to an increase in the derivative loss of \$291,325 which resulted due to an increase in the expected term of the convertible note liability which is the underlying derivative related instrument. The difference in operating results for the nine months ended June 30, 2017 as compared to the same 2016 period is primarily due to an increase in loss from operations of \$95,270 in the 2017 period caused by increased costs incurred as a result of the acquired operating companies offset by a derivative gain of \$2,684,365 in the 2016 period while the 2017 period had a derivative loss of \$340,829. The 2016 period derivative gain was primarily a result of a decrease in the stock price on the 2017 measurement date compared to the 2016 measurement date.

Liquidity and Capital Resources

At June 30, 2017 we had cash of \$14,325 as compared to \$5,124 at September 30, 2016. Our accounts receivable at June 30, 2017 were \$34,867 compared to \$30,891 at September 30, 2016. Our accounts payable and accrued expenses at June 30, 2017 were \$181,040 compared to \$163,645 on September 30, 2016. On June 30, 2017 and September 30, 2016 we had convertible debentures and notes payable to related parties of \$241,896 in each period. On June 30, 2017 and September 30, 2016 we had \$76,546 in advances to related parties. On June 30, 2017 and September 30, 2016, we had notes payable to non-related parties of \$346,500 and \$488,489, respectively. Our total liabilities were \$2,694,088 (including a derivative liability of \$1,848,106) on June 30, 2017 as compared to \$2,477,853 (including a derivative liability of \$1,507,277) on September 30, 2016. Excluding the derivative liability, we have a working capital deficit of \$796,790 as of June 30, 2017 as compared to our working capital deficit, excluding the derivative liability, of \$934,561 as of September 30, 2016. The decrease in the working capital deficit of \$137,771 is primarily attributable to common stock issued for debt of \$173,338 on April 6, 2017.

Our auditors have issued a going concern opinion on our financial statements for the year ended September 30, 2016. Unless we secure equity or debt financing, of which there can be no assurance, or identify an acquisition candidate, we may not be able to continue as a going concern operation.

Working Capital

See “Liquidity and Capital Resources” above for a discussion of our working capital position.

Cash Flows

Operating Activities

Cash provided by operating activities was \$9,201 for the nine months ended June 30, 2017 compared to cash used by operations of \$80,599 for the nine months ended June 30, 2016. The improvement in the 2017 period to a positive cash flow from operating activities as compared to the 2016 period is primarily attributable to an increase in accounts receivable of \$41,574 in the 2016 period and a reduction in the operating burn rate in 2017 as a result of sales generated from the business acquisitions.

Investing Activities

Cash used in investing activities was \$0 for the nine months ended June 30, 2017. In the comparable 2016 period the Company used \$325,000 of cash for business acquisitions.

Table of Contents

Financing Activities

There was no cash provided by financing activities for the nine months ended June 30, 2017, however, the Company issued common stock to pay \$173,338 of debt. Cash of \$406,500 was provided by financing activities for the nine months ended June 30, 2017 comprised of \$360,000 from the sale of common stock and \$46,500 from note payable proceeds.

Income & Operation Taxes

We are subject to income taxes in the U.S.

We incurred no income tax liability for the nine months ended June 30, 2017 and 2016 due to the net operating losses incurred during those periods and the net operating tax loss carryforwards that are available to the Company.

Cash Requirements

We will require additional funds to meet our budgeted expenses over the next 12 months. These funds may be raised through equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares. There is still no assurance that we will be able to maintain operations at a level sufficient for investors to obtain returns on their investments in our common stock. Further, we may continue to be unprofitable. We need to raise additional funds in the immediate future in order to proceed with our budgeted expenses.

Specifically, we estimate our operating expenses and working capital requirements for the next 12 months to be as follows:

Professional and Legal Expense of \$25,000

Auditing, Accounting and general administrative of \$125,000

Working Capital requirements of \$50,000

We intend to meet our cash requirements for the next 12 months through a combination of debt financing and equity financing by way of private placements. We currently do not have any arrangements in place to complete any private placement financings and there is no assurance that we will be successful in completing any such financings on terms that will be acceptable to us.

Going Concern

The financial statements accompanying this report have been prepared on a going concern basis, which implies that our company will continue to realize its assets and discharge its liabilities and commitments in the normal course of business. Our company is not generating income from operations, has never paid any dividends, and is unlikely to pay dividends or generate earnings from operations in the immediate or foreseeable future. The continuation of our company as a going concern is dependent upon the continued financial support from our shareholders, the ability of our company to obtain necessary equity financing to achieve our operating objectives, and the attainment of profitable operations. As of June 30, 2017, our company has accumulated losses of \$5,111,228, of which \$1,848,106 is attributable to a derivative liability. We do not have sufficient working capital to enable us to carry out our stated plan of operation for the next twelve months.

Due to the uncertainty of our ability to meet our current operating expenses and the capital expenses noted above, in their report on the financial statements for the year ended September 30, 2016, De Leon & Company, P.A., our independent auditors included an explanatory paragraph regarding concerns about our ability to continue as a going concern. Our financial statements contain additional note disclosures describing the circumstances that lead to this disclosure by our independent auditors.

Table of Contents

The continuation of our business is dependent upon us raising additional financial support. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

Future Financings

We will require additional financing of \$200,000, excluding funds for acquisitions, in order to enable us to proceed with our plan of operations over the next 12 months to pay for our ongoing expenses. These expenses include legal, accounting and audit fees as well as general and administrative expenses. These cash requirements are in excess of our current cash and working capital resources. Accordingly, we will require additional financing in order to continue operations and to repay our liabilities. There is no assurance that any party will advance additional funds to us in order to enable us to sustain our plan of operations or to repay our liabilities.

We anticipate continuing to rely on equity sales of our common stock in order to continue to fund our business operations. Issuances of additional shares will result in dilution to our existing stockholders. There is no assurance that we will achieve any additional sales of our equity securities or arrange for debt or other financing to fund our planned business activities.

We presently do not have any arrangements for additional financing for the expansion of our operations, and no potential lines of credit or sources of financing are currently available for the purpose of proceeding with our plan of operations.

If we are unable to raise the funds that we require to execute our plan of operation, we intend to scale back our operations commensurately with the funds available to us.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information required by this Item.

ITEM 4. CONTROLS AND PROCEDURES

This report includes the certifications of our Chief Executive Officer and Chief Financial Officer required by Rule 13a-14 under the Securities Exchange Act of 1934 (the "Exchange Act"). See Exhibits 31.1 and 31.2. This Item 4 includes information concerning the controls and control evaluations referred to in those certifications.

Table of Contents

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in SEC rules and forms and that such information is accumulated and communicated to management, including the Principal Executive Officer and the Principal Financial Officer, to allow timely decisions regarding required disclosures.

In connection with the preparation of this report, our management, under the supervision and with participation of our Principal Executive Officer and Principal Financial Officer (the “Certifying Officers”) conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures as of June 30, 2017. Based on that evaluation, our management concluded that there is a material weakness in our disclosure controls and procedures over financial reporting. The material weakness results from a lack of written procedures which effectively documents the proper procedures and descriptions of the duties of all persons involved in the disclosure controls of the Company. The Company hopes to implement plans to document the procedures and internal controls of the Company. A material weakness is a deficiency, or a combination of control deficiencies, in disclosure control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company’s annual or interim financial statements will not be prevented or detected on a timely basis. This does not include an evaluation by the Company’s registered public accounting firm regarding the Company’s internal control over financial reporting.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Exchange Act Rules 13a-15 or 15d-15 that occurred during our most recent quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Our management believes that the Unaudited Financial Statements included herein present, in all material respects, the Company’s financial condition, results of operations and cash flows for the periods presented.
