Item 2.01 Completion of Acquisition or Disposition of Assets

On May 1, 2015, KMG Chemicals, Inc. (the “Company”) completed the acquisition of Valves Incorporated of Texas (“Val-Tex”), a privately held Texas corporation, pursuant to the terms of a previously announced Agreement and Plan of Merger (the “Merger Agreement”). Val-Tex manufactures and distributes industrial sealants and lubricants, primarily to the oil and gas storage, pipeline and gas distribution markets, as well as related products, such as lubrication equipment and fittings. In addition to the lubricants business, Val-Tex also owned 606,875 shares of the Company’s common stock. Fred C. Leonard III was the majority shareholder, president and chief executive officer of Val-Tex. He is also a director of the Company.

The merger consideration paid to the former shareholders of Val-Tex was 606,875 shares of common stock of the Company plus \$23.7 million in cash. The 606,875 shares of the Company previously owned by Val Tex were cancelled as of the time of the merger, and no additional net shares of the Company are outstanding as a result of the merger. The cash portion of the purchase price included payment of approximately \$236,000 for the value of inventory at closing that exceeded \$1.5 million. The merger consideration was determined based on arms-length negotiation among the parties to the Merger Agreement and was based on the estimated fair value of the assets, liabilities and business involved. The Company also assumed liabilities of approximately \$0.5 million. The Company completed the acquisition by borrowing on its revolving loan under its existing credit facility with Wells Fargo Bank, National Association, Bank of America, N.A., HSBC Bank USA, National Association and JPMorgan Chase Bank, N.A.

A copy of the press release announcing the completion of the acquisition is attached as Exhibit 99.1 to this Current Report on Form 8 K and is incorporated herein by reference.
