Item 7.01 Regulation FD Disclosure.

On April 4, 2016, KMG Chemicals, Inc. (the “Company”) completed the acquisition of Nagase FineChem Singapore (Pte) Ltd. (“NFC”), a Singapore-based manufacturer of electronic chemicals, for a cash purchase price of \$2.8 million, including \$1.0 million of estimated net working capital. The purchase price is subject to a customary post-closing working capital adjustment.

Established in 2001, NFC manufactures wet process chemicals, including solvents, acids and custom blends for the liquid crystal display, electronics and semiconductor markets. The firm’s five-acre Singapore site comprises a manufacturing and packaging facility, warehouse, laboratory and cleanroom. In addition to its manufacturing, logistics and analytics capabilities, NFC provides recycling and refining services through the installation of on-site chemical supply and reclaiming systems at customer production facilities. For the 12-month period ending December 2015, NFC generated revenue of approximately US\$8.0 million.

Under the terms of the acquisition agreement, the Company and Nagase Singapore Ltd. have entered into a tolling arrangement under which the Company will manufacture certain electronic chemicals for Nagase Singapore Ltd. for the first year. Concurrently, the Company will integrate its existing Singapore operations with the newly acquired facility to enhance the Company’s product offering for customers in the electronics market in Asia. In addition, the Company will pursue strategic capital investments of \$8–10 million at the NFC site over the first three years to further expand manufacturing, packaging and purification capabilities to more comprehensively serve our semiconductor customers in Asia.

In the first year following the closing, the Company expects the acquisition to generate adjusted EBITDA exceeding \$500,000. By the fourth year of ownership, the Company expects the acquisition to generate adjusted EBITDA exceeding \$5.0 million per year.

The Company borrowed on its revolving credit facility to finance the acquisition of NFC, and also plans to fund the planned capital investments from that facility.

A copy of the press release announcing the acquisition is furnished as Exhibit 99.1 to this Current Report on Form 8-K.
