NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

BASIS OF PRESENTATION

The accompanying interim unaudited consolidated financial statements have been prepared by Movado Group, Inc. (the “Company”), in a manner consistent with that used in the preparation of the annual audited consolidated financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended January 31, 2018 (the “2018 Annual Report on Form 10-K”). The unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, which require the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the dates of the unaudited consolidated financial statements and the reported amounts of revenues and expenses during the periods reported. Actual results could differ from those estimates. In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting of only normal and recurring adjustments, necessary for a fair statement of the financial position and results of operations for the periods presented. The consolidated balance sheet data at January 31, 2018 is derived from the audited annual financial statements, which are included in the Company’s 2018 Annual Report on Form 10-K and should be read in connection with these interim unaudited financial statements. Operating results for the interim periods presented are not necessarily indicative of the results that may be expected for the full year.

NOTE 1 – RECLASSIFICATIONS

As discussed below in Note 2 Accounting Pronouncements Recently Adopted, certain reclassifications were made to prior years’ financial statement amounts and related note disclosures to conform to fiscal 2019 presentation.

NOTE 2 – ACCOUNTING PRONOUNCEMENTS RECENTLY ADOPTED

Revenue

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, Revenue from Contracts with Customers (Topic 606) which supersedes nearly all existing revenue recognition guidance. Subsequent to the issuance of Topic 606, the FASB clarified the guidance through several Accounting Standard Updates; hereinafter, the collection of revenue guidance is referred to as “ASC 606”.

On February 1, 2018, the Company adopted ASC 606 using the modified retrospective method and the Company recognized a reduction of \$0.7 million to opening retained earnings as the cumulative effect of adopting the new revenue standard. This adjustment did not have a material impact on the Company's Consolidated Financial Statements. (See Note 17 - Revenue for additional disclosures required by ASC 606).

Statement of Cash Flows

In November 2016, the FASB issued ASU 2016-18, "Statement of Cash Flows (Topic 230) — Restricted Cash," which requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash and restricted cash equivalents. With this standard, amounts generally described as restricted cash or restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning of period and end of period total amounts shown on the statement of cash flows. The Company adopted this guidance on February 1, 2018, and the guidance has been retrospectively applied to all periods presented. The changes to the beginning of period balances presented in the consolidated statement of cash flows are as follows (in thousands):

	January 31, 2018		January 31, 2017	
	As adjusted	As previously reported	As adjusted	As previously reported
Cash and cash equivalents	\$214,811	\$214,811	\$256,279	\$256,279
Restricted funds included in other non-current assets	600	—	600	—
Beginning of period balance presented in the statement of cash flows	\$215,411	\$214,811	\$256,879	\$256,279

NOTE 3 – FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy which prioritizes the inputs used in measuring fair value into three broad levels as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly.

Level 3 – Unobservable inputs based on the Company's assumptions.

The following tables present the fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis (in thousands) as of October 31, 2018 and 2017 and January 31, 2018:

		Fair Value at October 31, 2018

Hedge derivatives	Accrued liabilities	—	685	—	685
Total		\$35,532	\$685	\$ —	\$36,217

The fair values of the Company's available-for-sale securities are based on quoted prices. The fair value of the short-term investment, which is a guaranteed investment certificate, is based on its purchase price plus one half of a percent calculated annually. The assets related to the Company's defined contribution supplemental executive retirement plan ("SERP") consist of both employer (employee unvested) and employee assets which are invested in investment funds with fair values calculated based on quoted market prices. The SERP liability represents the Company's liability to the employees in the plan for their vested balances. The hedge derivatives are entered into by the Company principally to reduce its exposure to Swiss franc and Euro exchange rate risks. Fair values of the Company's hedge derivatives are calculated based on quoted foreign exchange rates and quoted interest rates.

The fair value of the Level 3 contingent purchase price liability related to the acquisition of MVMT Watches, Inc. owner of MVMT, a global aspirational lifestyle brand, is measured using a Monte Carlo simulation with key assumptions that include revenue and brand EBITDA, (as defined in the acquisition agreement) of the acquired business during the earn-out period, volatilities, estimated discount rates, risk-free rate, and correlation. The liability is revalued each reporting period after the acquisition and increases or decreases in the fair value of the liability are recorded in the Consolidated Statements of Operations. Changes in fair value can result from the estimated achievement of the revenue and brand EBITDA performance hurdles, and movements in discount rates, volatilities, and the other key assumptions. The inputs and assumptions are not observable in the market but reflect the assumptions we believe would be made by a market participant.

The following table presents the change in the Level 3 contingent purchase price liability during the three and nine months ended October 31, 2018:

	Three Months Ended October 31, 2018	Nine Months Ended October 31, 2018

Payments	—	—
Adjustments included in earnings	100	100
Ending Balance	\$ 16,600	\$ 16,600

There were no transfers between any levels of the fair value hierarchy for any of the Company's fair value measurements.

- (1) Each share of common stock is entitled to one vote per share on all matters submitted to a vote of the shareholders.
- (2) Each share of class A common stock is entitled to 10 votes per share on all matters submitted to a vote of the shareholders. Each holder of class A common stock is entitled to convert, at any time, any and all of such shares into the same number of shares of common stock. Each share of class A common stock is converted automatically into common stock in the event that the beneficial or record ownership of such shares of class A common stock is transferred to any person, except to certain family members or affiliated persons deemed "permitted transferees" pursuant to the Company's Restated Certificate of Incorporation as amended. The class A common stock is not publicly traded, and consequently, there is currently no established public trading market for these shares.
- (3) The currency translation adjustment is not adjusted for income taxes to the extent that it relates to permanent investments of earnings in international subsidiaries.

NOTE 5 – SEGMENT AND GEOGRAPHIC INFORMATION

The Company follows accounting guidance which requires disclosure of segment data based on how management makes decisions about allocating resources to segments and measuring their performance.

As of October 31, 2018, the Company's two operating segments, formerly named Wholesale and Retail, are now referred to as Watch and Accessory Brands and Company Stores, respectively. There is no change to how the Company conducts its business within these two operating segments. The Company's Watch and Accessory Brands segment includes the designing, manufacturing and distribution of watches of quality owned brands and licensed brands, in addition to revenue generated from after-sales service activities and shipping. The Company Stores segment includes the Company's retail outlet locations in the United States and Canada.

The Company divides its business into two major geographic locations: United States operations, and International, which includes the results of all non-U.S. Company operations. The allocation of geographic revenue is based upon the location of the customer. The Company's International operations in Europe, the Americas (excluding the United States), Asia and the Middle East accounted for 34.3%, 8.3%, 6.1% and 6.0%, respectively, of the Company's total net sales for the three months ended October 31, 2018. For the three months ended October 31, 2017, the Company's International operations in Europe, the Americas (excluding the United States), the Middle East and Asia accounted for 35.7%, 8.4%, 6.5% and 4.5%, respectively, of the Company's total net sales.

The Company's International operations in Europe, the Americas (excluding the United States), the Middle East and Asia accounted for 33.5%, 9.3%, 8.2% and 7.0%, respectively, of the Company's total net sales for the nine months ended October 31, 2018. For the nine months ended October 31, 2017, the Company's International operations in Europe, the Americas (excluding the United States), the Middle East and Asia accounted for 31.7%, 9.4%, 7.8% and 5.2%, respectively, of the Company's total net sales.

NOTE 7 – DEBT AND LINES OF CREDIT

On October 12, 2018, Movado Group, Inc. (the “Company”), together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the “U.S. Borrowers”), each a wholly owned domestic subsidiary of the Company, and Movado Watch Company SA and MGI Luxury Group S.A. (collectively, the “Swiss Borrowers” and, together with the U.S. Borrowers, the “Borrowers”), each a wholly owned Swiss subsidiary of the Company, entered into an Amended and Restated Credit Agreement (the “Credit Agreement”) with the lenders party thereto and Bank of America, N.A. as administrative agent (in such capacity, the “Agent”). The Credit Agreement amends and restates the Company’s existing credit agreement dated as of January 30, 2015 and extends the maturity of the \$100.0 million senior secured revolving credit facility (the “Facility”) provided thereunder to October 12, 2023. The Facility includes a \$15.0 million letter of credit subfacility, a \$25.0 million swingline subfacility and a \$75.0 million sublimit for borrowings by the Swiss Borrowers, with provisions for uncommitted increases to the Facility of up to \$50.0 million in the aggregate subject to customary terms and conditions.

As of October 31, 2018, there were 50.0 million in Swiss francs with a dollar equivalent of \$49.6 million in loans drawn under the Facility. Additionally, approximately \$0.3 million in letters of credit, which were outstanding under the Borrower’s existing credit agreement, are deemed to be issued and outstanding under the Facility. As of October 31, 2018, availability under the Facility was approximately \$50.1 million.

Borrowings under the Facility bear interest at rates selected periodically by the Company at LIBOR plus 1.00% per annum (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of LIBOR plus 1.75% per annum) or a base rate plus 0% (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of a base rate plus 0.75% per annum). The Company has also agreed to pay certain fees and expenses and to provide certain indemnities, all of which are customary for such financings.

The borrowings under the Facility are joint and several obligations of the Borrowers and are also cross-guaranteed by each Borrower, except that the Swiss Borrowers are not liable for, nor do they guarantee, the obligations of the U.S. Borrowers. In addition, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the U.S. Borrowers' assets other than certain excluded assets. The Swiss Borrowers do not provide collateral to secure the obligations under the Facility. The security agreement under the Company's existing credit agreement remains in place in connection with the Facility and contains representations and warranties and covenants, which are customary for pledge and security agreements of this type, relating to the creation and perfection of security interests in favor of the Agent over various categories of the U.S. Borrowers' assets.

The Credit Agreement contains affirmative and negative covenants binding on the Company and its subsidiaries that are customary for credit facilities of this type, including, but not limited to, restrictions and limitations on the incurrence of debt and liens, dispositions of assets, capital expenditures, dividends and other payments in respect of equity interests, the making of loans and equity investments, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates (in each case, subject to various exceptions).

The Borrowers are also subject to a minimum consolidated EBITDA (as defined in the Credit Agreement) test of \$50.0 million, measured at the end of each fiscal quarter based on the four most recent fiscal quarters and a consolidated leverage ratio (as defined in the Credit Agreement) covenant not to exceed 2.50 to 1.00, measured as of the last day of each fiscal quarter. As of October 31, 2018, the Company was in compliance with its covenants under the Credit Agreement.

The Credit Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default with material indebtedness, material judgments, material ERISA liability, bankruptcy events, asserted or actual revocation or invalidity of the loan documents, and change of control.

As of October 31, 2018, Bank of America, N.A. issued two irrevocable standby letters of credit in connection with operating facility leases to the landlord, and for Canadian payroll to the Royal Bank of Canada. As of October 31, 2018, the Company had outstanding letters of credit totaling \$0.3 million with expiration dates through May 31, 2019.

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified maturity with a Swiss bank. As of October 31, 2018, and 2017, these lines of credit totaled 6.5 million Swiss francs for both periods, with a dollar equivalent of \$6.4 million and \$6.5 million, respectively. As of October 31, 2018, and 2017, there were no borrowings against these lines. As of both October 31, 2018 and 2017, two European banks had guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the dollar equivalent of \$1.1 million in various foreign currencies, of which \$0.6 million was a restricted deposit as it relates to lease agreements.

NOTE 8 – EARNINGS PER SHARE

The Company presents net income per share on a basic and diluted basis. Basic earnings per share are computed using weighted-average shares outstanding during the period. Diluted earnings per share are computed using the weighted-average number of shares outstanding adjusted for dilutive common stock equivalents.

The weighted-average number of shares outstanding for basic earnings per share was approximately 23,254,000 and 23,079,000 for the three months ended October 31, 2018 and 2017, respectively. For the three months ended October 31, 2018 and 2017, the number of shares outstanding for diluted earnings per share increased by approximately 444,000 and 194,000, respectively, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans and SERP.

For the three months ended October 31, 2018 and 2017, approximately 2,000 and 798,000, respectively, of potentially dilutive common stock equivalents were excluded from the computation of diluted earnings per share because their effect would have been antidilutive.

The weighted-average number of shares outstanding for basic earnings per share was approximately 23,200,000 and 23,080,000 for the nine months ended October 31, 2018 and 2017, respectively. For the nine months ended October 31, 2018 and 2017, the number of shares outstanding for diluted earnings per share increased by approximately 424,000 and 181,000, respectively, due to potentially dilutive common stock equivalents issuable under the Company's stock compensation plans and SERP.

For the nine months ended October 31, 2018 and 2017, approximately 77,000 and 803,000, respectively, of potentially dilutive common stock equivalents were excluded from the computation of diluted earnings per share because their effect would have been antidilutive.

NOTE 9 – COMMITMENTS AND CONTINGENCIES

The Company has minimum commitments related to the Company's license agreements and endorsement agreements with brand ambassadors. The Company sources, distributes, advertises and sells watches pursuant to its exclusive license agreements with unaffiliated licensors. Royalty amounts under the license agreements are generally based on a stipulated percentage of revenues, although most of these agreements contain provisions for the payment of minimum annual royalty amounts. The license agreements have various terms and some have additional renewal options, provided that minimum sales levels are achieved. Additionally, the license agreements require the Company to pay minimum annual advertising amounts.

Due to the enactment of the Tax Cuts and Jobs Act ("2017 Tax Act"), the Company estimated a provisional obligation associated with the Transition Tax to be \$28.2 million, which will be paid in installments over eight years. This provisional amount, as well as the current estimated timing of payments, is subject to change based on additional guidance from and interpretations by U.S. regulatory and standard-setting bodies and changes in assumptions.

The Company believes that its income tax reserves are adequate; however, amounts asserted by taxing authorities could be greater or less than amounts accrued and reflected in the consolidated balance sheet. Accordingly, the Company could record adjustments to the amounts for federal, state, and foreign liabilities in the future as the Company revises estimates or settles or otherwise resolves the underlying matters. In the ordinary course of business, the Company may take new positions that could increase or decrease unrecognized tax benefits in future periods.

During the three months ended July 31, 2017, the Company released to cash \$1.0 million in restricted cash deposits that were previously recorded in other current assets on the Company's Consolidated Balance Sheet, related to a certain vendor agreement.

In December 2016, U.S. Customs and Border Protection ("U.S. Customs") issued an audit report concerning the methodology used by the Company to allocate the cost of certain watch styles imported into the U.S. among the component parts of those watches for tariff purposes. The report disputes the reasonableness of the Company's historical allocation formulas and proposes an alternative methodology that would imply approximately \$5.1 million in underpaid duties over the five-year period covered by the statute of limitations, plus possible penalties and interest. The Company believes that U.S. Customs' alternative duty methodology and estimate are not consistent with the Company's facts and circumstances and is disputing U.S. Customs' position. On February 24, 2017, the Company provided U.S. Customs with supplemental analyses and information supporting the Company's historical allocation formulas and thereafter provided additional information for U.S. Customs' review. Although the Company disagrees with U.S. Customs' position, it cannot predict with any certainty the outcome of this matter. The Company intends to

continue to work with U.S. Customs to reach a mutually-satisfactory resolution.

On October 23, 2018, Swiss Time Watch & Jewellery GmbH (“ST Germany”) filed a lawsuit against the Company in the Superior Court of California for the County of Los Angeles. The lawsuit primarily alleges that the Company, as legal successor to MVMT Watches, Inc., has failed to perform its obligations under the parties’ August 1, 2018 distribution agreement (the “ST Germany Agreement”) pursuant to which ST Germany was granted the right, subject to certain limitations, to distribute a curated collection of MVMT watch styles in Germany. ST Germany also alleges various related torts and statutory violations and seeks specific performance of the ST Germany Agreement as well as unspecified monetary damages. The Company believes that ST Germany’s tort and statutory claims are without merit and that ST Germany is not entitled to specific performance. In addition, the ST Agreement caps the Company’s liability to the aggregate amounts paid by ST Germany thereunder. The Company intends to defend the lawsuit vigorously and does not expect it to materially affect the Company’s financial condition or future results of operations.

The purchase consideration for the MVMT business includes two future contingent payments that combined could total up to \$100 million. Although the Company has established appropriate reserves for this liability based on its current estimate of the amounts that will eventually become payable, the exact amount of the future payments will be determined by MVMT’s financial performance through the end of fiscal 2023. The Company expects to recognize gains/losses, as the case may be, as the Company’s estimate of the amount payable is updated from time to time. See Note 16 (Acquisition).

The Company is involved in legal proceedings and claims from time to time, in the ordinary course of its business. Legal reserves are recorded in accordance with the accounting guidance for contingencies. Contingencies are inherently unpredictable and it is possible that results of operations, balance sheets or cash flows could be materially and adversely affected in any particular period by unfavorable developments in, or resolution or disposition of, such matters. For those legal proceedings and claims for which the Company believes that it is probable that a reasonably estimable loss may result, the Company records a reserve for the potential loss. For proceedings and claims where the Company believes it is reasonably possible that a loss may result that is materially in excess of amounts accrued for the matter, the Company either discloses an estimate of such possible loss or range of loss or includes a statement that such an estimate cannot be made. As of October 31, 2018, the Company is party to legal proceedings and contingencies, the resolution of which is not expected to materially affect its financial condition, future results of operations beyond the amounts accrued, or cash flows.

NOTE 10 – INCOME TAXES

On December 22, 2017, the 2017 Tax Act was signed into law, which significantly changed U.S. corporate income tax laws by, among other things, lowering the corporate tax rate from 35.0% to 21.0%, limiting the deductibility of interest expense and executive compensation, establishing a territorial tax system, and imposing a one-time mandatory deemed Transition Tax on undistributed foreign earnings which have not been previously taxed.

During the three months ended October 31, 2018, the Company recorded a provisional benefit of \$3.9 million related to foreign withholding taxes recorded in the fiscal year ended January 31, 2018 in connection with unremitted earnings which were earmarked for repatriation. This change in estimate of the deferred tax liability related to unremitted earnings and all other amounts recorded in the fiscal year ending January 31, 2018 related to the 2017 Tax Act remain provisional. These estimates are subject to revision due to changes in the Company's analysis and assumptions related to certain matters, such as updates to estimates and amounts related to the earnings and profits and tax pools of certain subsidiaries and the Company's indefinite reinvestment assertion, including the measurement of deferred withholding taxes on foreign unremitted earnings. The estimated impact of the 2017 Tax Act is also subject to change as a result of additional guidance from, and interpretations by, U.S. regulatory and standard-setting bodies, as well as state tax conformity to federal tax law. The Company expects to complete its assessment of these items within the measurement period, and any adjustments to the provisional amounts initially recorded will be included as an adjustment to income tax expense or benefit in the period in which the amounts are determined.

The Company continues to evaluate the impact of the global intangible low-tax income ("GILTI") provision within the 2017 Tax Act which would require the current inclusion in federal taxable income, earnings of certain foreign controlled corporations. GILTI is subject to continuing regulatory interpretation by the U.S. Internal Revenue Service ("IRS") and while the Company has included an estimate of GILTI in its estimated effective tax rate for the fiscal year ending January, 2019, it has not yet elected a policy as to whether it will recognize deferred taxes for basis differences expected to reverse as GILTI or whether the Company will account for GILTI as period costs when and if incurred. Adjustments related to the amount of GILTI recorded in its consolidated financial statements may be required based

on the outcome of this election. The Company will continue to evaluate these provisions and elect an accounting policy within the measurement period.

The Company recorded an income tax benefit of \$2.8 million and income tax expense \$7.5 million for the three months ended October 31, 2018 and 2017, respectively.

The effective tax rate was -11.7% and 30.1% for the three months ended October 31, 2018 and 2017, respectively. The change in the effective tax rate was primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and the impact of other discrete items.

The Company recorded income tax expense of \$0.7 million and \$10.3 million for the nine months ended October 31, 2018 and 2017, respectively.

The effective tax rate was 1.5% and 35.6% for the nine months ended October 31, 2018 and 2017, respectively. The change in the effective tax rate was primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and changes in jurisdictional earnings.

The effective tax rate for the three months ended October 31, 2018 differs from the U.S. statutory tax rate of 21.0% primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and the impact of other discrete items.

The effective tax rate for the three and nine months ended October 31, 2017 differs from the U.S. statutory tax rate of 35.0% primarily due to foreign profits being taxed in lower taxing jurisdictions and the impact of discrete items, partially offset by no tax benefit being recognized on losses incurred by certain foreign operations. The effective tax rate for the nine months ended October 31, 2017 also includes an increase primarily due to the adoption of ASU 2016-09 and acquisition costs related to the acquisition of the Olivia Burton brand.

NOTE 11 – DERIVATIVE FINANCIAL INSTRUMENTS

As of October 31, 2018, the Company's entire net forward contracts hedging portfolio consisted of 38.0 million Swiss francs equivalent, 16.7 million Euros equivalent, 4.6 million British Pounds equivalent, and 22.2 million Chinese Yuan equivalent, with various expiry dates ranging through April 24, 2019.

As of October 31, 2018, and 2017, the balance of deferred net gains on derivative financial instruments and the associated tax benefits for cash flow hedges included in accumulated other comprehensive income (“AOCI”) were immaterial. The maximum length of time the Company hedges its exposure to the fluctuation in future cash flows for forecasted transactions is 24 months. For the three and nine months ended October 31, 2018, the Company reclassified from AOCI to earnings \$0.1 million and \$0.4 of net gain, net of immaterial tax expense for each period, respectively. For the three and nine months ended October 31, 2017, the Company reclassified from AOCI to earnings \$0.4 million and \$0.9 million of net loss, net of tax benefit of \$0.1 million and \$0.2 million, respectively.

NOTE 13 – TREASURY STOCK

On August 29, 2017, the Board of Directors approved a share repurchase program under which the Company is authorized to purchase up to \$50.0 million of its outstanding common stock from time to time, depending on market

conditions, share price and other factors. The Company may purchase shares of its common stock through open market purchases, repurchase plans, block trades or otherwise. This authorization expires on August 29, 2020, and replaced a prior share repurchase program approved by the Board on March 31, 2016 under which the Company was authorized to purchase up to \$50.0 million of its outstanding common stock from time to time and under which approximately \$5.5 million had been repurchased. During the nine months ended October 31, 2018, under the current share repurchase program, the Company repurchased a total of 99,191 shares of its common stock at a total cost of approximately \$3.9 million, or an average of \$39.64 per share. During the nine months ended October 31, 2017, under both the current and previous share repurchase program, the Company repurchased a total of 120,507 shares of its common stock at a total cost of approximately \$3.0 million or an average cost of \$24.93 per share, which included 20,000 shares repurchased from the Movado Group Foundation at a total cost of approximately \$0.5 million or an average of \$22.90 per share.

There were 19,003 and 36,843 shares of common stock repurchased during the nine months ended October 31, 2018 and 2017, respectively, as a result of the surrender of shares in connection with the vesting of certain stock awards. At the election of an employee, shares having an aggregate value on the vesting date equal to the employee's withholding tax obligation may be surrendered to the Company to fund the payment of such taxes.

NOTE 14 – RECENT ACCOUNTING PRONOUNCEMENTS

On October 25, 2018, the FASB issued ASU 2018-16, "Inclusion of the Secured Overnight Financing Rate (SOFR) Overnight Index Swap (OIS) Rate as a Benchmark Interest Rate for Hedge Accounting", which permits use of the OIS rate based on SOFR as a U.S. benchmark interest rate for hedge accounting purposes under Topic 815 in addition to the UST, the LIBOR swap rate, the OIS rate based on the Fed Funds Effective Rate, and the SIFMA Municipal Swap Rate for Derivatives and Hedging (Topic 815). Early adoption is permitted in any interim period upon issuance of this update if an entity already has adopted Update 2017-12. The amendments should be adopted on a prospective basis for qualifying new or redesignated hedging relationships entered into on or after the date of adoption. The adoption of this guidance is not expected to have a material impact on the Company's consolidated financial statements or related disclosures.

On August 28, 2018, the FASB issued 2018-13, “Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement”, which modifies the disclosure requirements in ASC 820, Fair Value Measurement. This guidance is effective for fiscal years beginning after December 15, 2019, which will be the Company’s first quarter of fiscal 2021, with early adoption permitted. The Company is currently evaluating the impact of the adoption of this standard on its related disclosures.

On June 20, 2018, the FASB issued ASU 2018-07, which simplifies the accounting for share-based payments granted to nonemployees for goods and services. Under the ASU, most of the guidance on such payments to nonemployees would be aligned with the requirements for share-based payments granted to employees. For public companies, the standard will be effective for the first interim reporting period within annual periods beginning after December 15, 2018, with early adoption permitted. The new standard must be adopted using a modified retrospective transition with a cumulative effect adjustment recorded to opening retained earnings as of the initial adoption date. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements.

On August 28, 2017, FASB issued ASU 2017-12, “Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities,” which expands an entity’s ability to apply hedge accounting for nonfinancial and financial risk components and allows for a simplified approach for fair value hedging of interest rate risk. The new guidance eliminates the requirement to separately measure and report hedge ineffectiveness and generally requires the entire change in fair value of a hedging instrument to be presented in the same income statement line as the hedged item. The new guidance also simplifies the hedge documentation and effectiveness assessment requirements. For public companies, the standard will be effective for the first interim reporting period within annual periods beginning after December 15, 2018, with early adoption permitted. The new standard must be adopted using a modified retrospective transition with a cumulative effect adjustment recorded to opening retained earnings as of the initial adoption date. The adoption of this guidance is not expected to have a material impact on the Company’s consolidated financial statements or related disclosures.

On February 25, 2016, FASB issued ASU 2016-02, “Leases,” which requires lessees to recognize most leases on the balance sheet. This change is expected to increase both reported assets and liabilities. For public companies, the standard will be effective for the first interim reporting period within annual periods beginning after December 15, 2018, although early adoption is permitted. The requirements of this standard include a significant increase in required disclosures and will result in a material increase to the Company’s total assets and liabilities through recognition of right-of-use assets and related lease liabilities.

In July 2018, the FASB issued ASU No. 2018-10, “Codification Improvements to Topic 842, Leases” to clarify the implementation guidance and ASU No. 2018-11, “Leases (Topic 842) Targeted Improvements.” This updated guidance provides an optional transition method, which allows for the initial application of the new accounting standard at the adoption date and the recognition of a cumulative-effect adjustment to the opening balance of retained earnings as of the beginning of the period of adoption. The Company will adopt the new standard on February 1, 2019 and intends to elect certain practical expedients, including the optional transition method that allows for the application of the new standard at its adoption date with no restatement of prior period amounts. The Company has identified its significant lease contracts by geography and by asset type and is in the process of implementing a global lease management and accounting system. The Company is in the process of finalizing its assessment of the impact of the new standard on its Consolidated Financial Statements and is evaluating its processes and internal controls to identify any necessary changes.

NOTE 15 – COST SAVINGS INITIATIVES

As a result of actions taken by the Company in fiscal 2018 to better align its global infrastructure with the current business environment by consolidating certain operations and streamlining functions to reduce costs and improve profitability, the Company recorded \$13.6 million of pre-tax expenses primarily for severance and payroll related, other and occupancy charges, predominantly impacting the Company's North American and Swiss operations.

A summary roll-forward of costs related to the cost savings initiatives is as follows (in thousands):

	Balance at	Cash	Foreign	Balance in
	January 31,	payments	exchange	Accrued Liabilities at
	2018			October 31, 2018
Severance and payroll related	\$ 931	\$ (601)	\$ (1)	\$ 329
Other	919	(192)	(61)	666
Occupancy charges	74	(30)	(4)	40
Total	\$ 1,924	\$ (823)	\$ (66)	\$ 1,035

NOTE 16 – ACQUISITION

On October 1, 2018, the Company acquired MVMT Watches, Inc., owner of MVMT, a global aspirational lifestyle brand for an initial payment of \$100.0 million and two future contingent payments that combined could total up to an additional \$100.0 million before tax benefits. The exact amount of the future payments will be determined by MVMT's future financial performance with no minimum required future payment. After giving effect to the closing adjustments, the purchase price was \$108.4 million, net of cash acquired of approximately \$3.8 million. The acquisition was funded with cash on hand, and adds a new brand with significant global growth potential to the Company's portfolio.

The results of the MVMT brand have been included in the consolidated financial statements since the date of acquisition within the U.S. and International locations of the Watch and Accessory Brands segment. For the three and nine months ended October 31, 2018, consolidated operating income included \$10.9 million and \$11.9 million, respectively, of expenses primarily related to integration and transaction costs and adjustments in acquisition accounting, as a result of the Company's acquisition of MVMT.

The acquisition was accounted for in accordance with FASB Topic ASC 805 ("Business Combinations"), which requires that the total cost of an acquisition be allocated to the tangible and intangible assets acquired and liabilities assumed based upon their respective fair values at the date of acquisition.

The following table summarizes the fair value of the assets acquired and liabilities assumed as of the October 1, 2018 acquisition date (in thousands):

Assets Acquired and Liabilities Assumed	Fair Value
Cash and cash equivalents	\$3,848
Trade receivables	370
Inventories	14,552
Prepaid expenses and other current assets	2,325
Property, plant and equipment	179
Other non-current Assets	6,500
Goodwill	77,542
Trade name and other intangibles	28,928
Total assets acquired	134,244
Accounts payable	5,982
Accrued liabilities	9,018
Other non-current liabilities	7,064
Total liabilities assumed	22,064
Total purchase price	\$112,180

Inventories include a step-up adjustment of \$0.7 million, which is being amortized over 5 months. The components of Trade name and other intangibles include a trade name of \$24.7 million (amortized over 10 years), and customer relationships of \$4.2 million (amortized over 10 years).

Other non-current assets and other non-current liabilities each include \$6.5 million related to escrow amounts established under the acquisition agreement, associated with certain contingencies that existed at the date of acquisition. Upon settlement of the contingencies, the excess funds in escrow, if any will be returned to the selling group. If the costs to settle the contingencies exceed the escrowed balances, the additional cost shall be borne by the Company.

The acquisition agreement also includes a contingent consideration arrangement based on the MVMT brand achieving certain revenue and EBITDA targets. In connection therewith, the Company recorded a non-current liability of \$16.5 million as of the date of acquisition to reflect the estimated fair value of the contingent purchase price. Approximately \$14.5 million is allocated to purchase price and \$2.0 million to deferred compensation expense based on future employee service requirements.

The estimated fair value of the contingent consideration was determined using a Monte Carlo simulation that includes key assumptions regarding MVMT's projected financial performance during the earn-out period, volatilities, estimated discount rates, risk-free interest rate, and correlation. Each reporting period after the acquisition, the Company will revalue the contingent purchase price liability and record increases or decreases in the fair value of the liability in its Consolidated Statements of Operations. Changes in fair value will result from changes in actual and projected financial performance, discount rates, volatilities, and the other key assumptions. The inputs and assumptions are not observable in the market but reflect the assumptions the Company believes would be made by a market participant. The possible outcomes for the contingent consideration range from \$0 to \$100 million on an undiscounted basis.

As of the October 31, 2018 re-measurement date, the contingent purchase price liability has been accreted to \$16.6 million. The \$0.1 million increase in the liability is included as a reduction in operating income in the Consolidated Statement of Operations. Refer to Note 3 for further discussion of fair value measurements.

The Company recorded goodwill of \$77.5 million based on the amount by which the purchase price exceeded the fair value of the net assets acquired. As the structure of the acquisition allowed for a step up in basis for tax purposes, the full amount of the goodwill balance will be deductible for federal income tax purposes over approximately 15 years.

Preliminary estimates of the fair value of identifiable assets acquired and liabilities assumed are subject to revision, which may result in adjustments to the preliminary values discussed above.

MVMT's operating results have been included in the Company's Consolidated Financial Statements beginning October 1, 2018. Net sales of the acquired MVMT brand since the date of acquisition through October 31, 2018 were \$5.0 million. The MVMT brand's operating income since the date of acquisition was \$0.3 million. These operating results exclude certain activity of the Company or its wholly owned subsidiaries in support of the MVMT brand.

The following table provides the Company's unaudited pro forma net sales, net income and net income per basic and diluted common share as if the results of operations of the MVMT brand had been included in the Company's operations commencing on February 1, 2017, based on available information relating to operations of the MVMT brand. This pro forma information is not necessarily indicative either of the combined results of operations that actually would have been realized by the Company had the MVMT brand acquisition been consummated at the beginning of the period for which the pro forma information is presented, or of future results.

Estimated amortization expense for the next five years is: \$0.7 million for the remaining three months of fiscal 2019, \$14.5 million in fiscal years 2020 through 2024 and \$13.5 million in total in the years thereafter.

NOTE 17 – REVENUE

On February 1, 2018, the Company adopted ASC 606 using the modified retrospective method and recognized the cumulative effect of initially applying the new revenue standard as an adjustment to opening retained earnings.

Under the modified retrospective method, the Company recognized a reduction of \$0.7 million to opening retained earnings as the cumulative effect of adopting the new revenue standard. This adjustment did not have a material impact on the Company's Consolidated Financial Statements. Results for reporting periods beginning after February 1, 2018 are presented under Topic 606, while prior period amounts are not adjusted.

The impact of the adoption of the standard on the Company's October 31, 2018 Consolidated Balance Sheet and for the three and nine months ended October 31, 2018 Consolidated Statement of Operations were as follows (in thousands):

	As of October 31, 2018

The above adoption impact relates principally to timing of the recognition of markdowns and returns in the Watch and Accessory Brands segment.

Revenue Recognition

As presented in the disaggregated revenue table below, wholesale revenue is recognized and recorded when a contract is in place, obligations under the terms of a contract with the customer are satisfied, control is transferred to the customer and is measured as the ultimate amount of consideration the Company expects to receive in exchange for transferring goods including variable consideration. Direct to consumer and after-sales service revenue is recognized at time of register receipt or delivery to customer. The Company records estimates of variable consideration, which includes sales returns, markdowns, volume-based programs and sales and cash discount allowances as a reduction of revenue in the same period that the sales are recorded. These estimates are based upon the expected value method considering all reasonably available information including historical analysis, customer agreements and/or currently known factors that arise in the normal course of business. Returns, discounts and allowances have historically been within the Company's expectations and the provisions established. The future provisional rates may differ from those experienced in the past. The Company considers transfer of control to take place either when the goods ship or when goods are delivered depending on the shipping terms in the contract. Factors considered in the transfer of control include the right to payment, transfer of legal title, physical possession and customer acceptance of the goods and whether the significant risks and rewards for the goods belong with the customer. Taxes imposed by governmental authorities on the Company's revenue-producing activities with customers, such as sales taxes and value added taxes, are excluded from net sales.

The Company's sale of smart watches contains multiple performance obligations. The Company allocates revenue to each performance obligation using the relative standalone selling price method. The Company determines the standalone selling prices based on the prices charged to customers. Amounts allocated to the delivered smart watch collections and the related essential software are recognized at the time of sale. Amounts allocated to the cloud service and app updates are deferred and recognized on a straight-line basis over the estimated two-year period the updates are expected to be provided. The Company's smart watch collections were available in limited quantities and in limited distribution, and, as a result, these deferred amounts were immaterial to all periods presented.

The Company has considered each transaction to sell goods as separate and distinct, with no additional promises made. The Company uses the understanding of what the customer expects to receive as the final product to determine whether goods or services should be combined and accounted for as a single performance obligation. The Company does not incur significant costs to obtain or fulfill its contracts.

Practical Expedients and Exemptions

The Company does not consider the effects of a financing component for contracts because the length of time is one year or less, between when the Company transfers goods and when the customer is expected to pay.

The Company's shipping costs are sometimes paid by the customer, while other times the shipping costs are included in the sales price for the watches. The Company does not deem shipping as a promised service to the customer because shipping is a fulfillment activity as part of the sale of goods.

Revenue

The following table presents the Company's net sales disaggregated by customer type. Sales and usage-based taxes are excluded from net sales (in thousands).

Customer Type	Three Months Ended October 31,2018	Nine Months Ended October 31,2018
Wholesale	\$ 180,490	\$ 404,199
Direct to consumer	27,124	72,236
After-sales service	1,335	3,756
Net Sales	\$ 208,949	\$ 480,191

The Company's revenue from contracts with customers is recognized at a point in time. The Company's net sales disaggregated by geography are based on the location of the Company's customer, (see Note 5 Segment and Geographic Information).

Wholesale Revenue

The Company's wholesale revenue consists primarily of revenues from independent distributors, and from department stores, and chain and independent jewelry stores. The Company recognizes and records its revenue when obligations under the terms of a contract with the customer are satisfied, and control is transferred to the customer. Wholesale revenue is measured as the amount of consideration the Company ultimately expects to receive in exchange for transferring goods. Wholesale revenue is included entirely within the Watch and Accessory Brands Segment (see Note 5 Segment and Geographic Information), consistent with how management makes decisions regarding the allocation of resources and performance measurement.

Direct to Consumer Revenue

The Company's direct to consumer revenue primarily consists of revenues from the Company's outlet stores, concession stores, ecommerce, and consumer repairs. Revenue is recognized as the end consumer obtains delivery of the merchandise. Direct to Consumer revenue derived from concession stores and ecommerce is included within the Watch and Accessory Brands Segment; revenue derived from outlet stores is included within the Company Stores Segment (see Note 5 Segment and Geographic Information). Direct to Consumer revenue is determined based on the type of customer and may be included in either the Watch and Accessory Brands or Company Stores Segments based on how the Company makes decisions about the allocation of resources and performance measurement.

After-sales service

All watches sold by the Company come with limited warranties covering the movement against defects in material workmanship. The Company does not sell warranties separately.

The Company's after-sales service revenues consists of out of warranty service provided to wholesale customers and authorized third party repair centers, and sale of watch parts. The Company recognizes and records its revenue when obligations under the terms of a contract with the customer are satisfied, control is transferred to the customer and is measured as the amount of consideration the Company ultimately expects to receive in exchange for transferring goods. Revenue from after sales service, including consumer repairs, is included entirely within the Watch and Accessory Brands Segment, consistent with how management makes decisions about the allocation of resources and performance measurement.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

Statements in this Quarterly Report on Form 10-Q, including, without limitation, statements under Item 2 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and elsewhere in this report, as well as statements in future filings by the Company with the Securities and Exchange Commission (the “SEC”), in the Company’s press releases and oral statements made by or with the approval of an authorized executive officer of the Company, which are not historical in nature, are intended to be, and are hereby identified as, “forward-looking statements” for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. These statements are based on current expectations, estimates, forecasts and projections about the Company, its future performance, the industry in which the Company operates and management’s assumptions. Words such as “expects”, “anticipates”, “targets”, “goals”, “projects”, “intends”, “plans”, “believes”, “seeks”, “estimates”, “may”, “will”, “should” and v words and similar expressions are also intended to identify such forward-looking statements. The Company cautions readers that forward-looking statements include, without limitation, those relating to the Company’s future business prospects, projected operating or financial results, revenues, working capital, liquidity, capital needs, plans for future operations, expectations regarding capital expenditures, operating efficiency initiatives and other items, cost savings initiatives, and operating expenses, effective tax rates, margins, interest costs, and income as well as assumptions relating to the foregoing. Forward-looking statements are subject to certain risks and uncertainties, some of which cannot be predicted or quantified. Actual results and future events could differ materially from those indicated in the forward-looking statements, due to several important factors herein identified, among others, and other risks and factors identified from time to time in the Company’s reports filed with the SEC, including, without limitation, the following: general economic and business conditions, which may impact disposable income of consumers in the United States and the other significant markets (including Europe) where the Company’s products are sold, uncertainty regarding such economic and business conditions, trends in consumer debt levels and bad debt write-offs, general uncertainty related to possible terrorist attacks, natural disasters, the stability of the European Union (including the impact of the June 23, 2016 referendum advising that the United Kingdom exit from the European Union) and defaults on or downgrades of sovereign debt and the impact of any of those events on consumer spending, changes in consumer preferences and popularity of particular designs, new product development and introduction, the ability of the Company to successfully implement its business strategies, competitive products and pricing, the impact of “smart” watches and other wearable tech products on the traditional watch market, seasonality, availability of alternative sources of supply in the case of the loss of any significant supplier or any supplier’s inability to fulfill the Company’s orders, the loss of or curtailed sales to significant customers, the Company’s dependence on key employees and officers, the ability to successfully integrate the operations of acquired businesses (including the Olivia Burton and MVMT brands) without disruption to other business activities, the possible impairment of acquired intangible assets including goodwill if the carrying value of any reporting unit were to exceed its fair value, the continuation of the company’s major warehouse and distribution centers, the continuation of licensing arrangements with third parties, losses possible from pending or future litigation, the ability to secure and protect trademarks, patents and other intellectual property rights, the ability to lease new stores on suitable terms in desired markets and to complete construction on a timely basis, the ability of the Company to successfully manage its expenses on a continuing basis, information systems failure or breaches of network security, the continued availability to the Company of financing and credit on favorable terms, business disruptions, disease, general risks associated with doing business outside the United States including, without limitation, import duties, tariffs, quotas, political and economic stability, changes to existing laws or regulations, and success of hedging strategies with respect to currency exchange rate fluctuations.

These risks and uncertainties, along with the risk factors discussed under Item 1A. “Risk Factors” in the Company’s 2018 Annual Report on Form 10-K, should be considered in evaluating any forward-looking statements contained in this report or incorporated by reference herein. All forward-looking statements speak only as of the date of this report or, in the case of any document incorporated by reference, the date of that document. All subsequent written and oral

forward-looking statements attributable to the Company or any person acting on its behalf are qualified by the cautionary statements in this section. The Company undertakes no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date of this report.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the dates of the consolidated financial statements. These estimates and assumptions also affect the reported amounts of revenues and expenses. Estimates by their nature are based on judgments and available information. Therefore, actual results could materially differ from those estimates under different assumptions and conditions.

Critical accounting policies are those that are most important to the portrayal of the Company's financial condition and the results of operations and require management's most difficult, subjective and complex judgments as a result of the need to make estimates about the effect of matters that are inherently uncertain. The Company's most critical accounting policies have been discussed in the Company's 2018 Annual Report on Form 10-K and are incorporated by reference herein.

Under the MVMT acquisition agreement, the estimated fair value of the contingent consideration was determined using a Monte Carlo simulation with key assumptions that include revenue and brand EBITDA of the acquired business during the earn-out period, volatilities, estimated discount rates, risk-free rate, and correlation (see Note 16 – Acquisition).

See Note 2 – Accounting Pronouncements Recently Adopted for updates to the critical accounting policies disclosed in the Company's 2018 Annual Report on Form 10-K.

Recent Developments

On October 1, 2018, the Company acquired all of the outstanding equity interests of MVMT Watches, Inc., the owner of the MVMT global aspirational lifestyle brand ("MVMT"), for an initial payment of \$100.0 million, subject to adjustments for cash, debt and working capital, and up to an additional \$100 million in earnout payments. The exact amount of the future payments will be determined by MVMT's future performance with no minimum required future payment. The acquisition was funded through the Company's cash on hand, although the Company replenished approximately \$50 million of such cash through borrowings under its revolving credit facility in October 2018.

The securities purchase agreement is attached as an Exhibit to this Quarterly Report on Form 10-Q. The results of the MVMT brand's operations have been included in the Consolidated Financial Statements since the date of acquisition within both the United States and International locations of the Watch and Accessory Brands segment.

On December 4, 2018, the Board of Directors approved the payment of a cash dividend in the amount of \$0.20 for each share of the Company's outstanding common stock and class A common stock. The dividend will be paid on December 28, 2018 to all shareholders of record as of the close of business on December 14, 2018. The decision of whether to declare any future cash dividend, including the amount of any such dividend and the establishment of record and payment dates, will be determined, in each quarter, by the Board, in its sole discretion.

Overview

As of October 31, 2018, the Company's two operating segments, formerly named Wholesale and Retail, are now referred to as, Watch and Accessory Brands and Company Stores, respectively. There is no change in how the Company conducts its business within these two operating segments. The Company's Watch and Accessory Brands segment includes the designing, manufacturing and distribution of watches of owned and licensed brands, in addition to revenue generated from after-sales service activities and shipping. The Company Stores segment includes the Company's retail outlet locations in the United States and Canada. The Company also operates in two major geographic locations: United States operations and International, the latter of which includes the results of all non-U.S. Company operations.

The Company divides its watch business into two principal categories: the owned brands category and the licensed brands category. The owned brands category consists of the Movado®, Olivia Burton®, MVMT®, Ebel®, and Concord® brands. Watches in the licensed brands category include the following brands manufactured and distributed

under license agreements with the respective brand owners: Coach®, HUGO BOSS®, Lacoste®, Tommy Hilfiger®, SCUDERIA FERRARI® and Rebecca Minkoff® and Uri Minkoff®.

Gross margins vary among the brands included in the Company's portfolio and also among watch models within each brand. Watches in the Company's owned brands category generally earn higher gross margin percentages than watches in the licensed brands category. The difference in gross margin percentages within the licensed brands category is primarily due to the impact of royalty payment obligations in respect of the licensed brands. Gross margins in the Company's outlet business are affected by the mix of product sold and may exceed those of the wholesale business since the Company earns margins on its outlet store sales from manufacture to point of sale to the consumer.

Net Sales	\$208,949	\$190,693

Net sales for the three months ended October 31, 2018 were \$208.9 million, above the prior year period by \$18.3 million or 9.6% which included an unfavorable impact of \$1.0 million, as a result of adoption of ASC 606. For the three months ended October 31, 2018, fluctuations in foreign currency exchange rates unfavorably impacted net sales by \$0.9 million when compared to the prior year period.

Net sales for the three months ended October 31, 2018 in the Watch and Accessory Brands segment were \$189.4 million, above the prior year period by \$17.1 million or 9.9%. The increase in net sales was attributable to increases in net sales in both the International and United States locations of the Watch and Accessory Brands segment.

Net sales for the three months ended October 31, 2018 in the United States location of the Watch and Accessory Brands segment were \$75.0 million, above the prior year period by \$7.7 million or 11.5%, resulting from net sales increases in both the owned and licensed brands categories. The net sales increase recorded in the licensed brands category was \$5.6 million, or 35.6%. The net sales recorded in the owned brands category increased by \$2.8 million

or 5.7% and was attributable to the addition of the MVMT brand.

Net sales for the three months ended October 31, 2018 in the International location of the Watch and Accessory Brands segment were \$114.3 million, above the prior year by \$9.3 million or 8.9%, which included fluctuations in foreign currency exchange rates which unfavorably impacted net sales by \$0.9 million when compared to the prior year period. This increase was driven by net sales increases in both the licensed brands and owned brands categories. The net sales increase in the licensed brands category was \$7.1 million, or 8.9%, primarily due to net sales increases in Europe and Asia. The net sales increase recorded in the owned brands category was \$2.1 million, or 8.6%, primarily due to sales increases in Europe. The net sales increase in the owned brands category was primarily attributable to the addition of the MVMT brand.

Net sales for the three months ended October 31, 2018 in the Company Stores segment were \$19.6 million, above the prior year period by \$1.2 million, or 6.5%, driven by the addition of new store openings. As of October 31, 2018, and 2017, the Company operated 44 and 41 retail outlet locations, respectively.

Gross Profit. Gross profit for the three months ended October 31, 2018 was \$113.4 million or 54.3% of net sales as compared to \$104.1 million or 54.6% of net sales in the prior year period. The increase in gross profit of \$9.3 million was due to higher net sales partially offset by a lower gross margin percentage. The decrease in the gross margin percentage of approximately 30 basis points for the three months ended October 31, 2018, resulted primarily from the unfavorable impact of sales mix of approximately 30 basis points, fluctuations in foreign currency exchange rates of approximately 20 basis points, and the impact of the adoption of the new revenue recognition standard of approximately 20 basis points, partially offset by the net favorable impact of accounting adjustments related to the inventory step-up recorded in connection with the acquisition of the MVMT and Olivia Burton brands in the current and prior year, respectively of approximately 20 basis points and the increased leveraging of certain fixed costs as a result of higher sales of approximately 20 basis points.

Selling, General and Administrative (“SG&A”). SG&A expenses for the three months ended October 31, 2018 were \$89.3 million, representing an increase from the prior year period of \$10.4 million or 13.1%. The increase in SG&A expenses was attributable to higher costs of \$11.3 million, principally associated with the integration and acquisition of the MVMT brand, a \$6.5 million increase in marketing expenses, a \$0.6 million increase in payroll and performance-based compensation, \$0.6 million increase in occupancy costs associated with the opening of new retail outlet locations and \$0.3 million higher distribution costs. These increases were partially offset by the non-recurrence of approximately \$7.0 million of expenses associated with the Company’s cost savings initiative in the prior year, lower costs of \$1.8 million as a result of the Company’s decision to no longer participate in the Basel Fair and lower expenses associated with the acquisition of the Olivia Burton brand in the comparable period in the prior year.

Watch and Accessory Brands Operating Income. In the three months ended October 31, 2018 and 2017, respectively, the Company recorded Watch and Accessory Brands segment operating income of \$21.2 million and \$22.2 million, respectively, which includes \$23.8 million and \$15.8 million, respectively, of unallocated corporate expenses as well as \$17.9 million and \$15.7 million, respectively, of certain intercompany profits related to the Company’s supply chain operations. The \$1.0 million decrease in operating income was the net result of a higher SG&A expenses of \$9.6 million when compared to the prior year period, partially offset by higher gross profit of \$8.6 million. The increase in SG&A expenses was attributable to higher costs of \$11.3 million, principally associated with the integration and acquisition of the MVMT brand, marketing expenses of \$6.5 million, payroll and performance-based compensation of \$0.6 million, payroll and occupancy costs associated with the opening of new retail outlet locations of \$0.6 million and higher distribution costs of \$0.3 million. These increases were partially offset by the non-recurrence of approximately \$7.0 million of expenses associated with the Company’s cost savings initiative in the prior year, lower costs of \$1.8 million as a result of the Company’s decision to no longer participate in the Basel Fair and lower expenses associated with the acquisition of the Olivia Burton brand in the comparable period in the prior year.

U.S. Watch and Accessory Brands Operating Loss. In the United States location of the Watch and Accessory Brands segment, during the three months ended October 31, 2018 and 2017, respectively, the Company recorded an operating loss of \$7.2 million and a breakeven, which included unallocated corporate expenses of \$23.8 million and \$15.8 million, respectively. The increase in operating loss of \$7.3 million was the net result of a \$8.4 million increase in gross profit, offset by \$15.7 million increase in SG&A expenses. The increase in gross profit of \$8.4 million was due to higher net sales and a higher gross margin percentage. The increase in SG&A expenses was attributable to a \$11.3 million increase in costs, principally associated with the integration and acquisition of the MVMT brand, a \$3.7 million increase in marketing expenses, a \$0.4 million increase in payroll and performance compensation expenses and a \$0.4 million increase in distribution costs.

International Watch and Accessory Brands Operating Income. In the International location of the Watch and Accessory Brands segment, during the three months ended October 31, 2018 and 2017, respectively, the Company recorded operating income of \$28.4 million and \$22.2 million, respectively, which included \$17.9 million and \$15.7 million, respectively of certain intercompany profits related to the Company’s International supply chain operations.

The increase in operating income of \$6.2 million was primarily due to higher gross profit of \$0.2 million and lower SG&A expenses of \$6.0 million. The increase in gross profit of \$0.2 million was primarily due to higher net sales, partially offset by a lower gross margin percentage. The decrease in SG&A expenses was primarily attributable to the non-recurrence of approximately \$6.9 million of expenses associated with the Company's cost savings initiative in the prior year, and a decrease in costs of \$1.6 million as a result of the Company's decision to no longer participate in the Basel Fair. The decreases in SG&A expenses were partially offset by an increase in marketing expenses of \$2.8 million.

Company Stores Operating Income. Operating income of \$2.9 million was recorded in the Company Stores segment for each of the three months ended October 31, 2018 and 2017. The current period operating income consisted of higher gross profit of \$0.7 million, offset by higher SG&A expenses of \$0.7 million as compared to the same period in the prior year.

Income Taxes. On December 22, 2017, the 2017 Tax Act was signed into law, which significantly changed U.S. corporate income tax laws by, among other things, lowering the corporate tax rate from 35% to 21%, limiting the deductibility of interest expense and executive compensation, establishing a territorial tax system, and imposing a one-time mandatory deemed Transition Tax on undistributed foreign earnings which have not been previously taxed.

During the three months ended October 31, 2018, the Company recorded a provisional benefit of \$3.9 million related to foreign withholding taxes recorded in the fiscal year ended January 31, 2018 in connection with unremitted earnings which were earmarked for repatriation. This change in estimate of the deferred tax liability related to unremitted earnings and all other amounts recorded in the fiscal year ended January 31, 2018 related to the 2017 Tax Act remain provisional. These estimates are subject to revision due to changes in the Company's analysis and assumptions related to certain matters, such as updates to estimates and amounts related to the earnings and profits and tax pools of certain subsidiaries and the Company's indefinite reinvestment assertion, including the measurement of deferred withholding taxes on foreign unremitted earnings. The estimated impact of the 2017 Tax Act is also subject to change as a result of additional guidance from, and interpretations by, U.S. regulatory and standard-setting bodies, as well as state tax conformity to federal tax law. The Company expects to complete its assessment of these items within the measurement period, and any adjustments to the provisional amounts initially recorded will be included as an adjustment to income tax expense or benefit in the period in which the amounts are determined.

The Company continues to evaluate the impact of the global intangible low-tax income ("GILTI") provision within the 2017 Tax Act which would require the current inclusion in federal taxable income, earnings of certain foreign controlled corporations. GILTI is subject to continuing regulatory interpretation by the U.S. Internal Revenue Service ("IRS") and while the Company has included an estimate of GILTI in its estimated effective tax rate for the fiscal year ended January 31, 2019, it has not yet elected a policy as to whether it will recognize deferred taxes for basis differences expected to reverse as GILTI or whether the Company will account for GILTI as period costs when and if incurred. Adjustments related to the amount of GILTI recorded in its consolidated financial statements may be required based on the outcome of this election. The Company will continue to evaluate these provisions and elect an accounting policy within the measurement period.

The Company recorded an income tax benefit of \$2.8 million and income tax expense of \$7.5 million for the three months ended October 31, 2018 and 2017, respectively.

The effective tax rate was -11.7% and 30.1% for the three months ended October 31, 2018 and 2017, respectively. The change in the effective tax rate was primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and the impact of other discrete items.

The effective tax rate for the three months ended October 31, 2018 differs from the U.S. statutory tax rate of 21.0% primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and the impact of other discrete items.

The effective tax rate for the three months ended October 31, 2017 differs from the U.S. statutory tax rate of 35.0% primarily due to jurisdictional earnings and the impact of discrete items, partially offset by no tax benefit being recognized on losses incurred by certain foreign operations.

Net Income Attributed to Movado Group, Inc. The Company recorded net income attributed to Movado Group, Inc. of \$26.9 million and \$17.4 million, for the three months ended October 31, 2018 and 2017, respectively.

Net sales for the nine months ended October 31, 2018 were \$480.2 million, above the prior year period by \$61.5 million or 14.7%, which included a favorable impact of \$0.1 million as a result of the adoption of ASC 606. For the nine months ended October 31, 2018, fluctuations in foreign currency exchange rates favorably impacted net sales by \$6.7 million when compared to the prior year period.

Net sales for the nine months ended October 31, 2018 in the Watch and Accessory Brands segment were \$424.6 million, above the prior year period by \$54.1 million or 14.6%. The increase in net sales was attributable to increases in net sales in both the International and United States locations of the Watch and Accessory Brands segment.

Net sales for the nine months ended October 31, 2018 in the United States location of the Watch and Accessory Brands segment were \$147.0 million, above the prior year period by \$3.0 million or 2.1%, resulting from the net sales increase in the owned brands category, partially offset by a decrease in the licensed brands category. The net sales increase recorded in the owned brands category was \$4.5 million, or 4.3%, primarily due to increased sales in chain store customers and sales attributable to the addition of the MVMT brand. The decrease in net sales in the licensed brands category was \$1.0 million or 3.0%, as the U.S. fashion watch market has been challenging when compared to the prior year.

Net sales for the nine months ended October 31, 2018 in the International location of the Watch and Accessory Brands segment were \$277.5 million, above the prior year by \$51.1 million or 22.6%, which included fluctuations in foreign currency exchange rates which favorably impacted net sales by \$6.7 million when compared to the prior year period. This increase was primarily driven by net sales increases in both the licensed brands and owned brands categories. The net sales increase in the licensed brands category was \$35.4 million, or 20.3%, primarily due to net sales increases in Europe, the Middle East and Latin America. The net sales increase recorded in the owned brands category was \$14.2 million, or 28.1% and is primarily due to sales increases in Asia and Europe. The net sales increase in the owned brands category also included sales attributable to the addition of the MVMT brand.

Net sales for the nine months ended October 31, 2018 in the Company Stores segment were \$55.6 million, above the prior year period by \$7.4 million, or 15.3%, driven by higher sales in comparable stores, the addition of new store openings and a better product mix combined with higher conversion rates as products resonated well with customers. As of October 31, 2018, and 2017, the Company operated 44 and 41 retail outlet locations, respectively.

Gross Profit. Gross profit for the nine months ended October 31, 2018 was \$258.7 million or 53.9% of net sales as compared to \$219.3 million or 52.4% of net sales in the prior year period. The increase in gross profit of \$39.4 million was primarily due to higher net sales and a higher gross margin percentage. The increase in the gross margin percentage of approximately 150 basis points for the nine months ended October 31, 2018, resulted primarily from the favorable impact of sales mix of approximately 60 basis points, the impact of fluctuations in foreign currency exchange rates of approximately 30 basis points, the non-recurrence of costs incurred from the Company's prior year cost savings initiative of approximately 30 basis points, the increased leveraging of certain fixed costs as a result of higher sales of approximately 20 basis points and the impact of accounting adjustments related to inventory step-up recorded in connection with the acquisition of the MVMT and Olivia Burton brands in the current and prior year, respectively of approximately 20 basis points, partially offset by the adoption of the new revenue recognition accounting standard of approximately 10 basis point.

Selling, General and Administrative (“SG&A”). SG&A expenses for the nine months ended October 31, 2018 were \$213.6 million, representing an increase from the prior year period of \$24.1 million or 12.7%. The increase in SG&A expenses was attributable to higher marketing expenses of \$17.2 million, higher distribution costs of \$2.6 million, payroll and performance based compensation of \$2.5 million, costs of \$13.8 million, principally associated with the integration and acquisition of the MVMT brand, \$2.0 million of payroll and occupancy costs associated with the opening of new retail locations, \$1.0 million higher bad debt expense, principally due to the non-recurrence of a \$0.8 million customer recovery in the prior year and higher rent expenses of \$0.5 million SG&A expenses also included the unfavorable effect of foreign currency translation of \$1.1 million and transaction losses of \$1.6 principally related to the non-recurrence of \$1.1 million of transactional gains in the comparable period in the prior year as well as \$0.5 million of transaction losses in the current year. These increases were partially offset by the non-recurrence of \$12.0 million of expenses related to the Company’s cost savings initiative in the prior year, the non-recurrence of \$2.9 million in expenses related to the acquisition of the Olivia Burton brand in the prior year and lower costs of \$3.4 million as a result of the Company’s decision to no longer participate in the Basel Fair.

Watch and Accessory Brands Operating Income. In the nine months ended October 31, 2018 and 2017, respectively, the Company recorded Watch and Accessory Brands segment operating income of \$35.8 million and \$22.6 million, which includes \$44.5 million and \$29.2 million of unallocated corporate expenses as well as \$40.2 million and \$31.2 million, respectively, of certain intercompany profits related to the Company’s supply chain operations. The \$13.2 million increase in operating income was the net result of a higher gross profit of \$34.9 million when compared to the prior year period, partially offset by higher SG&A expenses of \$21.6 million. The increase in SG&A expenses was attributable to higher marketing expenses of \$17.2 million, higher distribution costs of \$2.6 million, payroll, and performance-based compensation of \$2.5 million, costs of \$13.8 million, principally associated with the integration and acquisition of the MVMT brand, and \$1.0 million higher bad debt expense, principally due to the non-recurrence of a \$0.8 million customer recovery in the prior year. SG&A expenses also included the unfavorable effect of foreign currency translation of \$1.1 million and transaction of \$1.6 principally related to the non-recurrence of \$1.1 million of transactional gains in the comparable period in the prior year as well as \$0.5 million of transaction losses in the current year. These increases were partially offset by the non-recurrence of \$12.0 million of expenses related to the Company’s cost savings initiative in the prior year, the non-recurrence of \$2.9 million in expenses related to the acquisition of the Olivia Burton brand in the prior year and lower costs of \$3.4 million as a result of the Company’s decision to no longer participate in the Basel Fair.

U.S. Watch and Accessory Brands Operating Loss. In the United States location of the Watch and Accessory Brands segment, during the nine months ended October 31, 2018 and 2017, respectively, the Company recorded an operating loss of \$21.8 million and \$12.7 million, which included unallocated corporate expenses of \$44.5 million and \$29.2 million. The increase in operating loss of \$9.1 million was the net result of higher gross profit of \$9.7 million offset by higher SG&A expenses of \$18.8 million. The increase in gross profit of \$9.7 million was due to higher sales of \$3.0 million and a higher gross margin percentage. The increase in SG&A expenses of \$18.8 million was attributable to higher marketing costs of \$7.5 million, higher costs of \$13.1 million, principally associated with the integration and acquisition of the MVMT brand, higher payroll, and performance-based compensation of \$1.0 million, higher distribution expenses of \$0.9 million and higher bad debt expense of \$0.6 million, principally due to the non-recurrence of a \$0.8 million customer recovery in the prior year. These costs were partially offset by the non-recurrence of \$3.7 million in charges related the Company’s cost savings initiative and lower trade show expenses of \$0.5 million as a result of the Company’s decision to no longer participate in the Basel Fair.

International Watch and Accessory Brands Operating Income. In the International location of the Watch and Accessory Brands segment, during the nine months ended October 31, 2018 and 2017, respectively, the Company recorded operating income of \$57.6 million and \$35.3 million, which included \$40.2 million and \$31.2 million of certain intercompany profits related to the Company’s International supply chain operations. The increase in operating income of \$22.3 million was primarily due to higher gross profit of \$25.1 million, partially offset by higher SG&A

expenses of \$2.8 million. The increase in gross profit of \$25.1 million was primarily due to higher net sales, partially offset by a lower gross margin percentage. The increase in SG&A expenses of \$2.8 million was attributable to higher marketing expenses of \$9.7 million, higher distribution costs of \$1.7 million, higher payroll and performance-based compensation expenses of \$1.5 million, higher legal and consulting fees of \$0.6 million, bad debt expense of \$0.3 million and higher rent of \$0.3 million. SG&A expenses also included the unfavorable effect of foreign currency translation of \$1.1 million and transaction losses of \$1.6 million, principally related to the non-recurrence of \$1.1 million of transactional gains in the comparable period in the prior year as well as \$0.5 million of transaction losses in the current year. These increases were partially offset by the non-recurrence of \$8.3 million of expenses related to the Company's cost savings initiative in the prior year, the non-recurrence of \$2.9 million in expenses related to the acquisition of the Olivia Burton brand in the prior year and lower costs of \$2.9 million as a result of the Company's decision to no longer participate in the Basel Fair.

Company Stores Operating Income. Operating income of \$9.3 million and \$7.3 million was recorded in the Company Stores segment for the nine months ended October 31, 2018 and 2017, respectively. The increase in operating income of \$2.0 million was the result a higher gross profit of \$4.5 million partially offset by higher SG&A expenses of \$2.5 million. The higher gross profit was the result of higher net sales and a higher gross margin percentage. The increase in SG&A expenses of \$2.5 million was primarily due to rent and payroll related costs associated with the opening of new outlet locations.

Income Taxes. On December 22, 2017, the 2017 Tax Act was signed into law, which significantly changed U.S. corporate income tax laws by, among other things, lowering the corporate tax rate from 35.0% to 21.0%, limiting the deductibility of interest expense and executive compensation, establishing a territorial tax system, and imposing a one-time mandatory deemed Transition Tax on undistributed foreign earnings which have not been previously taxed.

During the nine months ended October 31, 2018, the Company recorded a provisional benefit of \$3.9 million related to foreign withholding taxes recorded in the fiscal year ended January 31, 2018 in connection with unremitted earnings which were earmarked for repatriation. This change in estimate of the deferred tax liability related to unremitted earnings and all other amounts recorded in the fiscal year ended January 31, 2018 related to the 2017 Tax Act remain provisional. These estimates are subject to revision due to changes in the Company's analysis and assumptions related to certain matters, such as updates to estimates and amounts related to the earnings and profits and tax pools of certain subsidiaries and the Company's indefinite reinvestment assertion, including the measurement of deferred withholding taxes on foreign unremitted earnings. The estimated impact of the 2017 Tax Act is also subject to change as a result of additional guidance from, and interpretations by, U.S. regulatory and standard-setting bodies, as well as state tax conformity to federal tax law. The Company expects to complete its assessment of these items within the measurement period, and any adjustments to the provisional amounts initially recorded will be included as an adjustment to income tax expense or benefit in the period in which the amounts are determined.

The Company continues to evaluate the impact of the global intangible low-tax income ("GILTI") provision within the 2017 Tax Act which would require the current inclusion in federal taxable income, earnings of certain foreign controlled corporations. GILTI is subject to continuing regulatory interpretation by the U.S. Internal Revenue Service ("IRS") and while the Company has included an estimate of GILTI in its estimated effective tax rate for the fiscal year ended January 31, 2019, it has not yet elected a policy as to whether it will recognize deferred taxes for basis differences expected to reverse as GILTI or whether the Company will account for GILTI as period costs when and if incurred. Adjustments related to the amount of GILTI recorded in its consolidated financial statements may be required based on the outcome of this election. The Company will continue to evaluate these provisions and elect an accounting policy within the measurement period.

The Company recorded income tax expense of \$0.7 million and \$10.3 million for the nine months ended October 31, 2018 and 2017, respectively.

The effective tax rate was 1.5% and 35.6% for the nine months ended October 31, 2018 and 2017, respectively. The change in the effective tax rate was primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and changes in jurisdictional earnings.

The effective tax rate for the nine months ended October 31, 2018 differs from the U.S. statutory tax rate of 21.0% primarily due to a change in estimate of the Company's provisional deferred withholding tax liability on unremitted foreign earnings, the release of valuation allowances against certain foreign deferred tax assets and the impact of other discrete items.

The effective tax rate for the nine months ended October 31, 2017 differs from the U.S. statutory tax rate of 35.0% primarily due to changes in jurisdictional earnings and the impact of discrete items, partially offset by no tax benefit being recognized on losses incurred by certain foreign operations, as well as an increase primarily due to the adoption of ASU 2016-09 and acquisition costs related to the acquisition of the Olivia Burton brand.

Net Income / (Loss) Attributed to Movado Group, Inc. The Company recorded net income attributed to Movado Group, Inc. of \$44.2 million and \$18.7 million, for the nine months ended October 31, 2018 and 2017, respectively.

LIQUIDITY AND CAPITAL RESOURCES

At October 31, 2018 and October 31, 2017, the Company had \$142.7 million and \$155.5 million, respectively of cash and cash equivalents, of which, \$123.1 million and \$143.9 million, respectively consisted of cash and cash equivalents at the Company's foreign subsidiaries. The Company has recorded a provisional deferred tax liability for foreign withholding and U.S. state income taxes of \$6.5 million related to \$131.3 million of foreign earnings. A deferred tax liability has not been recorded for the remaining undistributed foreign earnings of approximately \$134.5 million. In light of the 2017 Tax Act, the Company continues to evaluate its assertion related to the indefinite reinvestment of earnings in its foreign operations. In accordance with Staff Accounting Bulletin 118, if the Company revises its assertion during the measurement period, the change, and any corresponding adjustment, would be recorded as part of the 2017 Tax Act enactment in the period in which the revision is determined.

Cash provided by operating activities was \$26.8 million as compared to \$9.4 million used in operating activities for the nine months ended October 31, 2018 and 2017, respectively. The \$26.8 million of cash provided by operating activities for the nine months ended October 31, 2018, was primarily due to net income for the period of \$44.2 million and favorable non-cash items of \$5.1 million, partially offset by the change in working capital of \$24.8 million. The \$9.4 million of cash used in operating activities for the nine months ended October 31, 2017, was primarily due to an unfavorable change in working capital as presented on the Consolidated Statements of Cash Flows of \$56.1 million, partially offset by favorable non-cash items of \$28.7 million, which included a \$13.4 million charge related to the Company's cost savings initiatives, and net income of \$18.7 million. The unfavorable change in working capital of \$56.1 million was primarily due to the increases in accounts receivable as a result of the seasonality of sales and the normal building of inventory in anticipation of the holiday selling season in the fourth quarter, as well as inventory build related to the acquisition of the Olivia Burton brand, partially offset by higher accrued liabilities. Included in the change in working capital for the nine month ended October 31, 2017 were \$5.4 million of payments related to the Company's cost savings initiatives. The year over year improvement in working capital is primarily due to improvement in accounts receivable collection and higher accounts payable, partially offset by higher inventory on strong sales.

Cash used in investing activities was \$101.4 million and \$82.0 million for the nine months ended October 31, 2018 and 2017, respectively. The cash used in investing activities for the nine months ended October 31, 2018 was primarily for the acquisition, net of cash acquired, of the MVMT brand and capital expenditures related to the opening and renovations of the Company's retail outlet locations and capital expenditures related to office improvements. The cash used in investing activities for the nine months ended October 31, 2017 was primarily for the acquisition, net of cash acquired, of the Olivia Burton brand and capital expenditures primarily related to the opening and renovations of the Company's retail outlet locations and capital expenditures related to the construction of shop-in-shops at some of the Company's wholesale customers.

Cash provided by financing activities was \$12.4 million as compared to \$12.6 million used in financing activities for the nine months ended October 31, 2018 and 2017, respectively. Cash provided by financing activities for the nine months ended October 31, 2018 include proceeds from bank borrowings and the exercise of certain stock awards, partially offset by the repayment of bank borrowings, the payment of dividends and the repurchase of shares of the Company's common stock. Cash used in financing activities for the nine months ended October 31, 2017 included the payment of dividends, the repurchase of shares of the Company's common stock, and the surrender of shares in connection with the vesting of certain stock awards.

On October 12, 2018, Movado Group, Inc. (the "Company"), together with Movado Group Delaware Holdings Corporation, Movado Retail Group, Inc. and Movado LLC (together with the Company, the "U.S. Borrowers"), each a wholly owned domestic subsidiary of the Company, and Movado Watch Company SA and MGI Luxury Group S.A. (collectively, the "Swiss Borrowers" and, together with the U.S. Borrowers, the "Borrowers"), each a wholly owned Swiss

subsidiary of the Company, entered into an Amended and Restated Credit Agreement (the “Credit Agreement”) with the lenders party thereto and Bank of America, N.A. as administrative agent (in such capacity, the “Agent”). The Credit Agreement amends and restates the Company’s existing credit agreement dated as of January 30, 2015 and extends the maturity of the \$100.0 million senior secured revolving credit facility (the “Facility”) provided thereunder to October 12, 2023. The Facility includes a \$15.0 million letter of credit subfacility, a \$25.0 million swingline subfacility and a \$75.0 million sublimit for borrowings by the Swiss Borrowers, with provisions for uncommitted increases to the Facility of up to \$50.0 million in the aggregate subject to customary terms and conditions.

As of October 31, 2018, there were 50.0 million in Swiss francs with a dollar equivalent of \$49.6 million in loans drawn under the Facility. Additionally, approximately \$0.3 million in letters of credit, which were outstanding under the Borrower’s existing credit agreement, are deemed to be issued and outstanding under the Facility. As of October 31, 2018, availability under the Facility was approximately \$50.1 million.

Borrowings under the Facility bear interest at rates selected periodically by the Company at LIBOR plus 1.00% per annum (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of LIBOR plus 1.75% per annum) or a base rate plus 0% (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of a base rate plus 0.75% per annum). The Company has also agreed to pay certain fees and expenses and to provide certain indemnities, all of which are customary for such financings.

The borrowings under the Facility are joint and several obligations of the Borrowers and are also cross-guaranteed by each Borrower, except that the Swiss Borrowers are not liable for, nor do they guarantee, the obligations of the U.S. Borrowers. In addition, the Borrowers' obligations under the Facility are secured by first priority liens, subject to permitted liens, on substantially all of the U.S. Borrowers' assets other than certain excluded assets. The Swiss Borrowers do not provide collateral to secure the obligations under the Facility. The security agreement under the Company's existing credit agreement remains in place in connection with the Facility and contains representations and warranties and covenants, which are customary for pledge and security agreements of this type, relating to the creation and perfection of security interests in favor of the Agent over various categories of the U.S. Borrowers' assets.

The Credit Agreement contains affirmative and negative covenants binding on the Company and its subsidiaries that are customary for credit facilities of this type, including, but not limited to, restrictions and limitations on the incurrence of debt and liens, dispositions of assets, capital expenditures, dividends and other payments in respect of equity interests, the making of loans and equity investments, mergers, consolidations, liquidations and dissolutions, and transactions with affiliates (in each case, subject to various exceptions).

The Borrowers are also subject to a minimum consolidated EBITDA (as defined in the Credit Agreement) test of \$50.0 million, measured at the end of each fiscal quarter based on the four most recent fiscal quarters and a consolidated leverage ratio (as defined in the Credit Agreement) covenant not to exceed 2.50 to 1.00, measured as of the last day of each fiscal quarter. As of October 31, 2018, the Company was in compliance with its covenants under the Credit Agreement.

The Credit Agreement contains events of default that are customary for facilities of this type, including, but not limited to, nonpayment of principal, interest, fees and other amounts when due, failure of any representation or warranty to be true in any material respect when made or deemed made, violation of covenants, cross default with material indebtedness, material judgments, material ERISA liability, bankruptcy events, asserted or actual revocation or invalidity of the loan documents, and change of control.

As of October 31, 2018, Bank of America, N.A. issued two irrevocable standby letters of credit in connection with operating facility leases to landlord and for Canadian payroll to the Royal Bank of Canada. As of October 31, 2018, the Company had outstanding letters of credit totaling \$0.3 million with expiration dates through May 31, 2019.

A Swiss subsidiary of the Company maintains unsecured lines of credit with an unspecified maturity with a Swiss bank. As of October 31, 2018, and 2017, these lines of credit totaled 6.5 million Swiss francs for both periods, with a dollar equivalent of \$6.4 million and \$6.5 million, respectively. As of October 31, 2018, and 2017, there were no borrowings against these lines. As of both October 31, 2018 and 2017, two European banks had guaranteed obligations to third parties on behalf of two of the Company's foreign subsidiaries in the dollar equivalent of \$1.1 million in various foreign currencies, of which \$0.6 million is a restricted deposit as it relates to lease agreements.

The Company paid dividends of \$0.60 per share or approximately \$13.9 million for the nine months ended October 31, 2018 and paid dividends of \$0.39 per share or approximately \$9.0 million for the nine months ended October 31, 2017.

On December 4, 2018, the Board of Directors approved the payment of a cash dividend in the amount of \$0.20 for each share of the Company's outstanding common stock and class A common stock. The dividend will be paid on December 28, 2018 to all shareholders of record as of the close of business on December 14, 2018. The decision of whether to declare any future cash dividend, including the amount of any such dividend and the establishment of record and payment dates, will be determined, in each quarter, by the Board, in its sole discretion.

On October 1, 2018, the Company acquired MVMT Watches, Inc. owner of the MVMT a global aspirational lifestyle brand (“MVMT”), for an initial payment of \$100.0 million, or approximately \$85 million net of tax benefits that are anticipated to be generated from the acquisition, and two future contingent payments that combined could total up to an additional \$100 million before tax benefits. The exact amount of the future payments will be determined by MVMT's future financial performance with no minimum required future payment. After giving effect to the closing adjustments, the purchase price was \$108.4 million, net of cash acquired of approximately \$3.8 million. The acquisition was funded with cash on hand, although the Company replenished approximately \$50 million of such cash through borrowings under its revolving credit facility in October 2018. The acquisition adds a new brand with significant global growth potential to the Company's portfolio.

Management believes that the cash on hand, availability under its credit facility and the expected cash flow from operations and the Company's short-term borrowing capacity will be sufficient to meet its working capital needs for at least the next twelve months.

Off-Balance Sheet Arrangements

The Company does not have off-balance sheet financing or unconsolidated special-purpose entities.

Accounting Changes and Recent Accounting Pronouncements

See Note 2 and 14 to the accompanying unaudited consolidated financial statements for a description of certain accounting changes and recent accounting pronouncements, which may impact our consolidated financial statements in future reporting periods.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Foreign Currency Risk

The Company's primary market risk exposure relates to foreign currency exchange risk. A significant portion of the Company's purchases are denominated in Swiss francs and, to a lesser extent, the Japanese Yen. The Company also sells to third-party customers in a variety of foreign currencies, most notably the Euro and the British Pound. The Company reduces its exposure to the Swiss franc, Euro, British Pound and Japanese Yen exchange rate risk through a hedging program. Under the hedging program, the Company manages most of its foreign currency exposures on a consolidated basis, which allows it to net certain exposures and take advantage of natural offsets. In the event these exposures do not offset, from time to time the Company uses various derivative financial instruments to further reduce the net exposures to currency fluctuations, predominately forward and option contracts. Certain of these contracts meet the requirements of qualified hedges. In these circumstances, the Company designates and documents these derivative instruments as a cash flow hedge of a specific underlying exposure, as well as the risk management objectives and strategies for undertaking the hedge transactions. Changes in the fair value of hedges designated and documented as a cash flow hedge and which are highly effective, are recorded in other comprehensive income until the underlying transaction affects earnings, and then are later reclassified into earnings in the same account as the hedged transaction. The earnings impact is mostly offset by the effects of currency movements on the underlying hedged transactions.

From time to time the Company uses forward exchange contracts, which do not meet the requirements of qualified hedges, to offset its exposure to certain foreign currency receivables and liabilities. These forward contracts are not designated as qualified hedges and, therefore, changes in the fair value of these derivatives are recognized in earnings in the period they arise, thereby offsetting the current earnings effect resulting from the revaluation of the related foreign currency receivables and liabilities. To the extent that the Company does not engage in a hedging program, any change in the Swiss franc, Euro, British Pound and Japanese Yen exchange rates to local currency have an equal effect on the Company's earnings.

As of October 31, 2018, the Company's entire net forward contracts hedging portfolio consisted of 38.0 million Swiss francs equivalent, 16.7 million Euros equivalent, 4.6 million British Pounds equivalent, and 22.2 million Chinese Yuan equivalent, with various expiry dates ranging through April 24, 2019 compared to a portfolio of 23.0 million Swiss francs equivalent, 12.8 million Euros equivalent and 11.3 million British Pounds equivalent, with various expiry dates ranging through April 10, 2018. If the Company were to settle its Swiss franc forward contracts at October 31, 2018 and 2017, the net result would be a loss of \$0.3 million, net of tax benefit of \$0.1 million and a loss of \$0.4 million, net of tax of \$0.3 million, respectively. If the Company were to settle its Euro forward contracts at October 31, 2018 and 2017, the net result would be a nil and an immaterial gain, respectively. As of October 31, 2018, and 2017, the Company's British Pound forward contracts had no value. The Company had no Swiss franc, Euro or British Pound option contracts related to cash flow hedges as of October 31, 2018 and 2017, respectively.

Commodity Risk

The Company considers its exposure to fluctuations in commodity prices to be primarily related to gold used in the manufacturing of the Company's watches. Under its hedging program, the Company can purchase various commodity derivative instruments, primarily futures contracts. Contracts that meet the requirements of qualified hedges are documented as qualified cash flow hedges, and the resulting gains and losses on these derivative instruments are first reflected in other comprehensive income, and later reclassified into earnings, partially offset by the effects of gold market price changes on the underlying actual gold purchases. Changes in the fair value of contracts that are not qualified hedges are recognized in the period they arise. The Company did not hold any future contracts in its gold hedge portfolio as of October 31, 2018 and 2017; thus, any changes in the gold purchase price will have an equal effect on the Company's cost of sales.

Debt and Interest Rate Risk

The Company has certain debt obligations with variable interest rates, which are based on LIBOR plus a spread of 1.00% per annum (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of LIBOR plus 1.75% per annum) or a base rate plus 0% (subject to increases based on the Company's consolidated leverage ratio that could increase the rate up to a maximum of a base rate plus 0.75% per annum). The Company does not hedge these interest rate risks. As of October 31, 2018, the Company had 50 million in Swiss franc debt equivalent to \$49.6 million dollars. The Company estimates that a 1% increase in interest rates would decrease the Company's annual income by approximately \$0.4 million. For additional information concerning potential changes to future interest obligations, see "Management's Discussion and Analysis of Financial Condition and Results of Operations – Liquidity and Capital Resources."

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

The Company's disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. However, it should be noted that a control system, no matter how well conceived or operated, can only provide reasonable, not absolute, assurance that its objectives will be met and may not prevent all errors or instances of fraud.

The Company, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, has evaluated the effectiveness of the Company's disclosure controls and procedures, as such terms are defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective at a reasonable assurance level as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

As of February 1, 2018, the Company implemented ASC 606, Revenue from Contracts and Customers and the Company designed and implemented new internal controls related to the recognition, measurement and disclosure of the Company's revenues under ASC 606.

On October 1, 2018, the Company acquired MVMT Watches, Inc, the owner of the MVMT brand ("MVMT"). In conducting its evaluation of the effectiveness of internal controls over financial reporting as of October 31, 2018, the Company excluded MVMT Watches, Inc. from that evaluation in accordance with the rules relating to

recently-acquired entities.

There have been no other changes in the Company's internal control over financial reporting during the three months ended October 31, 2018 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in legal proceedings and claims from time to time, in the ordinary course of its business. Legal reserves are recorded in accordance with the accounting guidance for contingencies. Contingencies are inherently unpredictable and it is possible that results of operations, balance sheets or cash flows could be materially and adversely affected in any particular period by unfavorable developments in, or resolution or disposition of, such matters. For those legal proceedings and claims for which the Company believes that it is probable that a reasonably estimable loss may result, the Company records a reserve for the potential loss. For proceedings and claims where the Company believes it is reasonably possible that a loss may result that is materially in excess of amounts accrued for the matter, the Company either discloses an estimate of such possible loss or range of loss or includes a statement that such an estimate cannot be made. As of October 31, 2018, the Company is party to legal proceedings and contingencies, the resolution of which is not expected to materially affect its financial condition, future results of operations beyond the amounts accrued, or cash flows.

In December 2016, U.S. Customs and Border Protection (“U.S. Customs”) issued an audit report concerning the methodology used by the Company to allocate the cost of certain watch styles imported into the U.S. among the component parts of those watches for tariff purposes. The report disputes the reasonableness of the Company’s historical allocation formulas and proposes an alternative methodology that would imply approximately \$5.1 million in underpaid duties over the five-year period covered by the statute of limitations, plus possible penalties and interest. The Company believes that U.S. Customs’ alternative duty methodology and estimate are not consistent with the Company’s facts and circumstances and is disputing U.S. Customs’ position. On February 24, 2017, the Company provided U.S. Customs with supplemental analyses and information supporting the Company’s historical allocation formulas and thereafter provided additional information for U.S. Customs’ review. Although the Company disagrees with U.S. Customs’ position, it cannot predict with any certainty the outcome of this matter. The Company intends to continue to work with U.S. Customs to reach a mutually-satisfactory resolution.

On October 23, 2018, Swiss Time Watch & Jewellery GmbH (“ST Germany”) filed a lawsuit against the Company in the Superior Court of California for the County of Los Angeles. The lawsuit primarily alleges that the Company, as legal successor to MVMT Watches, Inc., has failed to perform its obligations under the parties’ August 1, 2018 distribution agreement (the “ST Germany Agreement”) pursuant to which ST Germany was granted the right, subject to certain limitations, to distribute a curated collection of MVMT watch styles in Germany. ST Germany also alleges various related torts and statutory violations and seeks specific performance of the ST Germany Agreement as well as unspecified monetary damages. The Company believes that ST Germany’s tort and statutory claims are without merit and that ST Germany is not entitled to specific performance. In addition, the ST Agreement caps the Company’s liability to the aggregate amounts paid by ST Germany thereunder. The Company intends to defend the lawsuit vigorously and does not expect it to materially affect the Company’s financial condition or future results of operations.

Item 1A. Risk Factors

As of October 31, 2018, there have been no material changes to any of the risk factors previously reported in the Company’s 2018 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On August 29, 2017, the Board of Directors approved a share repurchase program under which the Company is authorized to purchase up to \$50.0 million of its outstanding common stock from time to time, depending on market conditions, share price and other factors. Under the program the Company is authorized to purchase shares of its

common stock through open market purchases, repurchase programs, block trades or otherwise. This authorization expires on August 29, 2020. During the three months ended October 31, 2018, the Company repurchased a total of 46,791 shares of its common stock in the open market at a total cost of approximately \$1.9 million or an average cost of \$40.07 per share.

There were 1,024 shares of common stock repurchased during the three months ended October 31, 2018 as a result of the surrender of shares in connection with the vesting of certain stock awards. At the election of an employee, shares having an aggregate value on the vesting date equal to the employee's withholding tax obligation may be surrendered to the Company to fund the payment of such taxes.

The following table summarizes information about the Company's purchases for the three months ended October 31, 2018 of equity securities that are registered by the Company pursuant to Section 12 of the Securities Exchange Act of 1934, as amended:

Issuer Repurchase of Equity Securities
