¹ All debt investments are income-producing, unless otherwise noted. Equity investments are non-income producing, unless otherwise noted.

² All of the Company's investments, unless otherwise noted, are encumbered as security for the Company's senior secured credit facility.

³ The majority of investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR" or "L") or Prime ("P") and reset daily, monthly, quarterly, or semiannually. For each the Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at December 31, 2017. Certain investments are subject to a LIBOR or Prime interest rate floor. Certain investments, as noted, accrue payment-in-kind ("PIK") interest.

- ⁴ Investments are carried at fair value in accordance with the Investment Company Act of 1940 (the “1940 Act”) and Financial Accounting Standards Board (“FASB”) Accounting Standard Codification (“ASC”) 820, Fair Value Measurements and Disclosures. We determine in good faith the fair value of our Investment portfolio pursuant to a valuation policy in accordance with ASC 820 and a valuation process approved by our Board of Directors. See Note 4 to the consolidated financial statements.
- ⁵ Non-Control/Non-Affiliate investments are generally defined by the 1940 Act as investments that are neither control investments nor affiliate investments. At December 31, 2017, approximately 64.8% of the Company’s investment assets are non-control/non-affiliate investments. The fair value of these investments as a percent of net assets is 79.6%.
- ⁶ Affiliate investments are generally defined by the 1940 Act as investments in which between 5% and 25% of the voting securities are owned and the investments are not classified as control investments. At December 31, 2017, approximately 1.7% of the Company’s investment assets are affiliate investments. The fair value of these investments as a percent of net assets is 2.1%.
- ⁷ Control investments are generally defined by the 1940 Act as investments in which more than 25% of the voting securities are owned or where greater than 50% of the board representation is maintained. At December 31, 2017, approximately 33.5% of the Company’s investment assets are control investments. The fair value of these investments as a percent of net assets is 41.2%.
- ⁸ The investment is structured as a first lien last out term loan.
- ⁹ Indicates assets that are considered “non-qualifying assets” under section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of total assets at the time of acquisition of any additional non-qualifying assets. As of December 31, 2017, approximately 17.9% of the Company’s investment assets are non-qualifying assets.
- ¹⁰ The investment has approximately \$3.2 million unfunded commitment as of December 31, 2017.
- ¹¹ Income producing through dividends.
- ¹² As of December 31, 2017, the cumulative gross unrealized appreciation for federal income tax purposes is approximately \$51.2 million; cumulative gross unrealized depreciation for federal income tax purposes is \$4.2 million. Cumulative net unrealized appreciation is \$47.0 million, based on a tax cost of \$320.3 million.
- ¹³ LGM Pharma, LLC Class A common stock, Tax Advisors Group, LLC Class A units and Chandler Signs, LP Class A-1 common stock are held through a wholly-owned taxable subsidiary.
- ¹⁴ The investment is structured as a first lien first out term loan.
- ¹⁵ The investment has approximately \$2.0 million in an unfunded revolving commitment as of December 31, 2017.
- ¹⁶ As of December 31, 2017, the investment is paying default interest at a rate of 3.0% per annum.

Total Control Investments

TOTAL
INVESTMENTS¹²

-
- ¹ All debt investments are income-producing, unless otherwise noted. Equity investments are non-income producing, unless otherwise noted.
 - ² All of the Company's investments, unless otherwise noted, are encumbered as security for the Company's senior secured credit facility.
 - ³ The majority of investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate ("LIBOR" or "L") or Prime ("P") and reset daily, monthly, quarterly, or semiannually. For each the Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at March 31, 2017. Certain investments are subject to a LIBOR or Prime interest rate floor.
 - ⁴ Investments are carried at fair value in accordance with the Investment Company Act of 1940 (the "1940 Act") and Financial Accounting Standards Board ("FASB") Accounting Standard Codification ("ASC") 820, Fair Value Measurements and Disclosures. We determine in good faith the fair value of our Investment portfolio pursuant to a valuation policy in accordance with ASC 820 and a valuation process approved by our Board of Directors. See Note 4 to the consolidated financial statements.
 - ⁵ Non-Control/Non-Affiliate investments are generally defined by the 1940 Act as investments that are neither control investments nor affiliate investments. At March 31, 2017, approximately 61.3% of the Company's investment assets were non-control/non-affiliate investments.
 - ⁶ Affiliate investments are generally defined by the 1940 Act as investments in which between 5% and 25% of the voting securities are owned and the investments are not classified as control investments. At March 31, 2017, approximately 2.5% of the Company's investment assets were affiliate investments.
 - ⁷ Control investments are generally defined by the 1940 Act as investments in which more than 25% of the voting securities are owned or maintains greater than 50% of the board representation. At March 31, 2017, approximately 36.2% of the Company's investment assets were control investments.

11

Table of Contents

- ⁸ The investment is structured as a first lien last out term loan and earns interest in addition to the stated rate.
- ⁹ Indicates assets that the Company believes do not represent “qualifying assets” under section 55(a) of the 1940 Act. Qualifying assets must represent at least 70% of total assets at the time of acquisition of any additional non-qualifying assets.
- ¹⁰ The investment has approximately \$7.2 million unfunded commitment as of March 31, 2017.
- ¹¹ Income producing through dividends on distributions.
- ¹² As of March 31, 2017, the cumulative gross unrealized appreciation for federal income tax purposes is approximately \$40.1 million; cumulative gross unrealized depreciation for federal income tax purposes is \$3.4 million. Cumulative net unrealized appreciation is \$36.7 million, based on a tax cost of \$250.1 million.
- ¹³ Chandler Signs, LP Class A-1 common stock is held through a wholly-owned taxable subsidiary.

Notes to Consolidated Financial Statements

1.ORGANIZATION AND BASIS OF PRESENTATION

References in this Quarterly Report on Form 10-Q to “we,” “our,” “us,” “CSWC,” or the “Company” refer to Capital Southwest Corporation, unless the context requires otherwise.

Organization

Capital Southwest Corporation is an internally managed investment company that specializes in providing customized financing to middle market companies in a broad range of industry segments located primarily in the United States. Our common stock currently trades on The Nasdaq Global Select Market under the ticker symbol “CSWC.”

CSWC was organized as a Texas corporation on April 19, 1961. Until September 1969, we operated as a Small Business Investment Company (“SBIC”) licensed under the Small Business Investment Act of 1958. At that time, CSWC transferred to its then wholly-owned subsidiary, Capital Southwest Venture Corporation (“CSVC”), certain assets including our license as an “SBIC.” CSVC was a closed-end, non-diversified investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). Effective June 14, 2016, CSVC was dissolved and its SBIC license was surrendered. All assets held in CSVC were transferred to CSWC upon dissolution. Prior to March 30, 1988, CSWC was registered as a closed-end, non-diversified investment company under the 1940 Act. On that date, we elected to be treated as a Business Development Company (“BDC”) subject to the provisions of the 1940 Act, as amended by the Small Business Incentive Act of 1980. In order to remain a BDC, we must meet certain specified requirements under the 1940 Act, including investing at least 70% of our assets in eligible portfolio companies and limiting the amount of leverage we incur.

We are also a regulated investment company (“RIC”) under Subchapter M of the U.S. Internal Revenue Code of 1986 (the “Code”). As such, we are not required to pay corporate-level income tax on our investment income. We intend to maintain our RIC status, which requires that we annually qualify as a RIC by meeting certain specified requirements.

Capital Southwest Management Company (“CSMC”), a wholly-owned subsidiary of CSWC, is the management company for CSWC. CSMC generally incurs all normal operating and administrative expenses, including, but not limited to, salaries and related benefits, rent, office expenses and other administrative costs required for its day-to-day operations.

CSWC also has a direct wholly-owned subsidiary that has been elected to be a taxable entity (the “Taxable Subsidiary”). The primary purpose of the Taxable Subsidiary is to permit CSWC to hold certain interests in portfolio companies that are organized as limited liability companies, or LLCs (or other forms of pass-through entities) and still allow us to satisfy the RIC tax requirement that at least 90% of our gross income for federal income tax purposes must consist of qualifying investment income. The Taxable Subsidiary is taxed at normal corporate tax rates based on its taxable income.

We focus on investing in companies with histories of generating revenues and positive cash flow, established market positions and proven management teams with strong operating discipline. We target senior debt, subordinated debt, and equity investments in lower middle market (“LMM”) companies, as well as first and second lien syndicated loans in upper middle market (“UMM”) companies. Our target LMM companies typically have annual earnings before interest, taxes, depreciation and amortization (“EBITDA”) between \$3.0 million and \$15.0 million, and our LMM investments generally range from \$5.0 million to \$20.0 million. Our UMM investments generally include syndicated first and second lien loans in companies with EBITDA generally greater than \$50.0 million, and our UMM investments typically range from \$5.0 million to \$10.0 million. We make available significant managerial assistance to the companies in which we invest as we believe that providing managerial assistance to an investee company is critical to its business development activities.

Basis of Presentation

The consolidated financial statements have been prepared in accordance with Generally Accepted Accounting Principles in the United States of America (“U.S. GAAP”). We meet the definition of an investment company and follow the accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 – Financial Services – Investment Companies (“ASC Topic 946”). Under the rules and

Table of Contents

regulations applicable to investment companies, we are generally precluded from consolidating any entity other than another investment company subject to certain exceptions. One of the exceptions to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Accordingly, the consolidated financial statements include CSMC, our management company, and the Taxable Subsidiary.

The consolidated financial statements are presented in conformity with U.S. GAAP for interim financial information and pursuant to the requirements for reporting on Form 10-Q and Article 10 of Regulation S-X. Accordingly, certain disclosures accompanying annual consolidated financial statements prepared in accordance with U.S. GAAP are omitted. In the opinion of our management, the unaudited consolidated financial results included herein contain all adjustments, consisting solely of normal recurring accruals, considered necessary for the fair presentation of consolidated financial statements for the interim periods included herein. The results of operations for the three and nine months ended December 31, 2017 are not necessarily indicative of the operating results to be expected for the full fiscal year. Also, the unaudited consolidated financial statements and notes should be read in conjunction with the audited consolidated financial statements and notes thereto for the fiscal years ended March 31, 2017 and 2016. Consolidated financial statements prepared on a U.S. GAAP basis require management to make estimates and assumptions that affect the amounts and disclosures reported in the consolidated financial statements and accompanying notes. Such estimates and assumptions could change in the future as more information becomes known, which could impact the amounts reported and disclosed herein.

Portfolio Investment Classification

We classify our investments in accordance with the requirements of the 1940 Act. Under the 1940 Act, “Control Investments” are generally defined as investments in which we own more than 25% of the voting securities or have rights to maintain greater than 50% of the board representation; “Affiliated Investments” are generally defined as investments in which we own between 5% and 25% of the voting securities, and the investments are not classified as “Control Investments”; and “Non-Control/Non-Affiliated Investments” are generally defined as investments that are neither “Control Investments” nor “Affiliated Investments.”

Under the 1940 Act, a BDC must meet certain requirements, including investing at least 70% of our assets in qualifying assets. As of December 31, 2017, the Company met the requirements under the 1940 Act for a BDC. The principal categories of qualifying assets relevant to our business are:

(1) Securities purchased in transactions not involving any public offering from the issuer of such securities, which issuer (subject to certain limited exceptions) is an eligible portfolio company, or from any person who is, or has been during the preceding 13 months, an affiliated person of an eligible portfolio company, or from any other person, subject to such rules as may be prescribed by the SEC.

(2) Securities of any eligible portfolio company that we control.

(3) Securities purchased in a private transaction from a U.S. issuer that is not an investment company or from an affiliated person of the issuer, or in transactions incident thereto, if the issuer is in bankruptcy and subject to reorganization or if the issuer, immediately prior to the purchase of its securities was unable to meet its obligations as they came due without material assistance other than conventional lending or financing arrangements.

(4) Securities of an eligible portfolio company purchased from any person in a private transaction if there is no readily available market for such securities and we already own 60% of the outstanding equity of the eligible portfolio company.

(5) Securities received in exchange for or distributed on or with respect to securities described in (1) through (4) above, or pursuant to the exercise of warrants or rights relating to such securities.

(6) Cash, cash equivalents, U.S. government securities or high-quality debt securities maturing in one year or less from the time of investment.

Additionally, in order to qualify as a RIC for U.S. federal income tax purposes, we must, among other things meet the following tests:

Table of Contents

- (1) Continue to qualify as a BDC under the 1940 Act at all times during each taxable year.
- (2) Derive in each taxable year at least 90.0% of our gross income from dividends, interest, payments with respect to certain securities, loans, gains from the sale of stock or other securities, net income from certain "qualified publicly traded partnerships," or other income derived with respect to our business of investing in such stock or securities (the "90% Income Test").
- (3) Diversify our holdings such that at the end of each quarter of the taxable year at least 50% of the value of our assets consists of cash, cash equivalents, U.S. Government securities, securities of other RICs, and other securities if such other securities of any one issuer do not represent more than 5% of the value of our assets or more than 10% of the outstanding voting securities of the issuer; and no more than 25% of the value of our assets is invested in the securities, other than U.S. government securities or securities of other RICs, (i) of one issuer, (ii) of two or more issuers that are controlled, as determined under applicable Code rules, by us and that are engaged in the same or similar or related trades or businesses or (iii) of certain "qualified publicly traded partnerships" (collectively, the "Diversification Tests").

The two Diversification Tests must be satisfied quarterly. If a RIC satisfies the tests for one quarter, and then, due solely to fluctuations in market value, fails to meet one of the tests in the next quarter, it retains RIC status. A RIC that fails to meet the Diversification Tests as a result of a nonqualified acquisition may be subject to excess taxes unless the nonqualified acquisition is disposed of and the tests are satisfied within 30 days of the close of the quarter in which the tests are failed.

This quarter we satisfied all RIC tests and have 14.9% in nonqualified assets according to measurement criteria established in Section 851(d) of the Internal Revenue Code (as amended, the "IRC").

2.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of the consolidated financial statements of CSWC.

Fair Value Measurements We account for substantially all of our financial instruments at fair value in accordance with ASC Topic 820 – Fair Value Measurements and Disclosures ("ASC Topic 820"). ASC Topic 820 defines fair value, establishes a framework used to measure fair value and requires disclosures for fair value measurements, including the categorization of financial instruments into a three-level hierarchy based on the transparency of valuation inputs. ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. We believe that the carrying amounts of our financial instruments such as cash, receivables and payables approximate the fair value of these items due to the short maturity of these instruments. This is considered a Level 1 valuation technique. The carrying value of our credit facility approximates fair value (Level 3 input). See Note 4

below for further discussion regarding the fair value measurements and hierarchy.

Investments Investments are stated at fair value and are reviewed and approved by our Board of Directors as described in the Notes to the Consolidated Schedule of Investments and Notes 3 and 4 below. Investments are recorded on a trade date basis.

Net Realized Gains or Losses and Net Change in Unrealized Appreciation or Depreciation Realized gains or losses are measured by the difference between the net proceeds from the sale or redemption of an investment or a financial instrument and the cost basis of the investment or financial instrument, without regard to unrealized appreciation or depreciation previously recognized, and includes investments written-off during the period net of recoveries and realized gains or losses from in-kind redemptions. Net change in unrealized appreciation or depreciation reflects the net change in the fair value of the investment portfolio and financial instruments and the reclassification of any prior period unrealized appreciation or depreciation on exited investments and financial instruments to realized gains or losses.

Cash and Cash Equivalents Cash and cash equivalents, which consist of cash and highly liquid investments with an original maturity of three months or less at the date of purchase, are carried at cost, which approximates fair value. Cash and cash equivalents includes deposits at financial institutions. We deposit our cash balances in financial institutions and, at times, such balances may be in excess of the Federal Deposit Insurance Corporation ("FDIC") insurance limits. At December 31, 2017 and March 31, 2017, cash balances totaling \$19.2 million and \$19.6 million, respectively, exceeded FDIC insurance limits, subjecting us to risk related to the uninsured balance. All of our cash deposits are held at large

Table of Contents

established high credit quality financial institutions and management believes that the risk of loss associated with any uninsured balances is remote.

Segment Information We operate and manage our business in a singular segment. As an investment company, we invest in portfolio companies in various industries and geographic areas as discussed in Note 3.

Consolidation As permitted under Regulation S-X and ASC Topic 946, we generally do not consolidate our investment in a portfolio company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to CSWC. Accordingly, we consolidated the results of CSWC's wholly-owned Taxable Subsidiary and CSWC's wholly-owned management company, CSMC. Prior to its dissolution, we consolidated the results of CSWC's wholly-owned subsidiary, CSVC. All intercompany balances have been eliminated upon consolidation.

Use of Estimates The preparation of consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates. We have identified investment valuation and revenue recognition as our most critical accounting estimates.

Interest and Dividend Income Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. Dividend income is recorded as dividends are declared by the portfolio company or at the point an obligation exists for the portfolio company to make a distribution. Discounts/premiums received to par on loans purchased are capitalized and accreted or amortized into income over the life of the loan using the effective interest method. In accordance with our valuation policy, accrued interest and dividend income is evaluated quarterly for collectability. When we do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against interest income receivable, thereby placing the loan or debt security on non-accrual status, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding its ability to service debt or other obligations, it will be restored to accrual basis. As of December 31, 2017 and March 31, 2017, we did not have any investments on non-accrual status.

To maintain RIC tax treatment, non-cash sources of income such as accretion of interest income may need to be paid out to shareholders in the form of distributions, even though CSWC may not have collected the interest income. For the three and nine months ended December 31, 2017, approximately 2.3% of CSWC's total investment income was attributable to interest income for the accretion of discounts associated with debt investments, net of any premium reduction. For the three and nine months ended December 31, 2016, approximately 1.8% and 1.9%, respectively, of CSWC's total investment income was attributable to interest income for the accretion of discounts associated with debt investments, net of any premium reduction.

Payment-in-Kind Interest The Company currently holds, and expects to hold in the future, some investments in its portfolio that contain payment-in-kind (“PIK”) interest and dividend provisions. The PIK interest and dividends, computed at the contractual rate specified in each loan agreement, are added to the principal balance of the loan, rather than being paid to the Company in cash, and are recorded as interest and dividend income. Thus, the actual collection of PIK interest and dividends may be deferred until the time of debt principal repayment or disposition of the equity investment. PIK interest and dividends, which are non-cash sources of income, are included in the Company’s taxable income and therefore affect the amount the Company is required to distribute to stockholders to maintain its qualification as a RIC for federal income tax purposes, even though the Company has not yet collected the cash. Generally, when current cash interest and/or principal payments on a loan become past due, or if the Company otherwise does not expect the borrower to be able to service its debt and other obligations, the Company will place the investment on non-accrual status and will generally cease recognizing PIK interest and dividend income on that loan for financial reporting purposes until all principal and interest have been brought current through payment or due to a restructuring such that the interest and dividend income is deemed to be collectible. The Company writes off any accrued and uncollected PIK interest and dividends when it is determined that the PIK interest and dividends are no longer collectible. As of December 31, 2017 and March 31, 2017, we did not have any investments on non-accrual status and have not written off any accrued and uncollected PIK interest and dividends. For the three and nine months ended December 31, 2017, approximately 0.8% and 0.9%, respectively, of CSWC’s total investment income was attributable to non-cash PIK interest and dividend income. For the three and nine months ended December 31, 2016, none of CSWC’s investment income was attributable to non-cash PIK interest and dividend income.

Table of Contents

Debt Issuance Costs Debt issuance costs include commitment fees and other costs related to CSWC's senior secured credit facility and its notes (as discussed further in Note 5). The costs in connection with the credit facility have been capitalized and are amortized into interest expense over the term of the credit facility. The costs in connection with the notes are a direct deduction from the related debt liability and amortized into interest expense over the term of the notes.

Federal Income Taxes CSWC has elected and intends to comply with the requirements of the IRC necessary to qualify as a RIC. By meeting these requirements, we will not be subject to corporate federal income taxes on ordinary income distributed to shareholders. In order to qualify as a RIC, the company is required to timely distribute to its shareholders at least 90.0% of investment company taxable income, as defined by the IRC, each year. Investment company taxable income generally differs from net income for financial reporting purposes due to temporary and permanent differences in the recognition of income and expenses. Investment company taxable income generally excludes net unrealized appreciation or depreciation, as investment gains and losses are not included in investment company taxable income until they are realized.

In addition to the requirement that we must annually distribute at least 90.0% of our investment company taxable income, we may either distribute or retain our realized net capital gains from investments, but any net capital gains not distributed may be subject to corporate level tax. We may decide to retain some or all of our long-term capital gains in excess of the amount required to be distributed. If we retain the capital gains, they are subject to a corporate tax rate of 35.0% and are classified as a "deemed distribution" to our shareholders. With the tax reform legislation enacted on December 22, 2017 ("the Tax Reform"), deemed distributions will be subject to a corporate tax rate of 21.0% as of January 1, 2018. As an investment company that qualifies as a RIC, federal income taxes payable on security gains that we elect to retain are accrued only on the last day of our tax year, December 31. Any capital gains actually distributed to shareholders are generally taxable to the shareholders as long-term capital gains. See Note 6 for further discussion.

CSMC, a wholly-owned subsidiary of CSWC, and the Taxable Subsidiary are not RICs and are required to pay taxes at the corporate rate of 34% as of December 31, 2017. Due to the Tax Reform, CSMC and the Taxable Subsidiary will be required to pay taxes at the corporate rate of 21% as of January 1, 2018. For tax purposes, CSMC and the Taxable Subsidiary have elected to be treated as taxable entities, and therefore are not consolidated for tax purposes and are taxed at normal corporate tax rates based on taxable income and, as a result of their activities, may generate income tax expense or benefit. The taxable income, or loss, of each of CSMC and the Taxable Subsidiary may differ from its book income, or loss, due to temporary book and tax timing differences and permanent differences. This income tax expense, or benefit, if any, and the related tax assets and liabilities, are reflected in our consolidated financial statements.

Management evaluates tax positions taken or expected to be taken in the course of preparing the Company's consolidated financial statements to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax positions with respect to tax at the CSWC level not deemed to meet the

“more-likely-than-not” threshold would be recorded as an expense in the current year. Management’s conclusions regarding tax positions will be subject to review and may be adjusted at a later date based on factors including, but not limited to, on-going analyses of tax laws, regulations and interpretations thereof. The Company has concluded that it does not have any uncertain tax positions that meet the recognition of measurement criteria of ASC 740 for the current period. Also, we account for interest and, if applicable, penalties for any uncertain tax positions as a component of income tax expense. No interest or penalties expense was recorded during the three and nine months ended December 31, 2017 and 2016.

Deferred Taxes Deferred tax assets and liabilities are recorded for losses or income at our taxable subsidiaries using statutory tax rates. A valuation allowance is provided against deferred tax assets when it is more likely than not that some portion or all of the deferred tax asset will not be realized. See Note 6 for further discussion.

Stock-Based Compensation We account for our stock-based compensation using the fair value method, as prescribed by ASC Topic 718, Compensation – Stock Compensation. Accordingly, we recognize stock-based compensation cost on a straight-line basis for all share-based payments and awards granted to employees. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the requisite service period of the related stock options. For restricted stock awards, we measured the grant date fair value based upon the market price of our common stock on the date of the grant. For restricted stock awards, we amortize this fair value to share-based compensation expense over the vesting term. The unvested shares of restricted stock awarded pursuant to CSWC’s equity compensation plans are participating securities and are included in the basic and diluted

Table of Contents

earnings per share calculation. On October 26, 2010, we received an exemptive order from the SEC permitting us to issue restricted stock to our executive officers and certain key employees. On August 22, 2017, we received an exemptive order that allows us to withhold shares to satisfy tax withholding obligations related to the vesting of restricted stock granted pursuant to the 2010 Restricted Stock Award Plan (the “2010 Plan”) and to pay the exercise price of options to purchase shares of our common stock granted pursuant to the 2009 Stock Incentive Plan (the “2009 Plan”).

At the three and nine months ended December 31, 2017, weighted-average basic shares were adjusted for the dilutive effect of stock-based awards of 71,631 and 67,427, respectively. At the three and nine months ended December 31, 2016, weighted-average basic shares were adjusted for the dilutive effect of stock-based awards of 62,524 and 57,007, respectively. For individual cash incentive awards, the option value of the individual cash incentive awards is calculated based on the changes in net asset value (“NAV”) of our Company. In connection with the Share Distribution, we entered into an Employee Matters Agreement (the “Employee Matters Agreement”) with CSW Industrials, Inc. (“CSWI”). Under the Employee Matters Agreement, the value of individual cash incentive awards was determined based upon the net asset value of CSWC as of June 30, 2015. See Note 9 for further discussion.

Shareholder Distributions Distributions to common shareholders are recorded on the ex-dividend date. The amount of distributions, if any, is determined by the Board of Directors each quarter.

Presentation Presentation of certain amounts on the Consolidated Statements of Operations and Consolidated Statements of Cash Flows for the prior year comparative consolidated financial statements is updated to conform to the current period presentation. This mainly includes disclosure of amounts at a more disaggregated level.

Recently Issued or Adopted Accounting Standards In February 2016, the FASB issued ASU 2016-02, Leases, which requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. The new guidance is effective for annual periods beginning after December 15, 2018, and interim periods therein. Early application is permitted. CSWC is currently evaluating the impact the adoption of this new accounting standard will have on its consolidated financial statements, but the impact of the adoption is not expected to be material.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 supersedes the revenue recognition requirements under SAC Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the ASC. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. Under the new guidance, an entity is required to perform the following five steps: (1) identify the contract(s) with a customer;

(2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance will significantly enhance comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. Additionally, the guidance requires improved disclosures as to the nature, amount, timing and uncertainty of revenue that is recognized. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606)—Narrow-Scope Improvements and Practical Expedients. This ASU clarified guidance on assessing collectability, presenting sales tax, measuring noncash consideration, and certain transition matters. The FASB tentatively decided to defer the effective date of the new revenue standard for public entities under U.S. GAAP for one year. The new guidance will be effective for the annual reporting period beginning after December 15, 2017, including interim periods within that reporting period. Early adoption was permitted for annual reporting periods beginning after December 15, 2016. CSWC completed its initial assessment in evaluating the potential impact on its consolidated financial statements and based on its initial assessment, determined that its financial contracts are excluded from the scope of ASU 2014-09. As a result of the scope exception for financial contracts, the Company's management has determined that there will be no material changes to the recognition timing and classification of revenues and expenses; additionally, the Company's management does not expect the adoption of ASU 2014-09 to have a significant impact to pretax income or on its consolidated financial statement disclosures upon adoption. The Company will continue to evaluate the impacts of ASU 2014-09 through the date of adoption to ensure that its initial assessment continues to remain accurate.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230), which is intended to

Table of Contents

reduce the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, and interim periods therein. Early application is permitted. The impact of the adoption of this new accounting standard on the Company's consolidated financial statements is not expected to be material.

3.INVESTMENTS

The following table shows the composition of the investment portfolio, at fair value and cost (with corresponding percentage of total portfolio investments) as of December 31, 2017 and March 31, 2017:

	Fair Value (dollars in millions)	Percentage of Total Portfolio		Percentage of Net Assets		Cost	Percentage of Total Portfolio	
December 31, 2017:								
First lien loans ¹	\$ 179.2	48.8	%	60.0	%	\$ 177.9	55.6	%
Second lien loans	28.4	7.7		9.5		28.0	8.7	
Subordinated debt	18.8	5.1		6.3		18.9	5.9	
Preferred equity	26.8	7.3		9.0		15.4	4.8	
Common equity & warrants	46.7	12.8		15.6		15.1	4.7	
I-45 SLF LLC ²	67.2	18.3		22.5		64.8	20.3	
	\$ 367.1	100.0	%	122.9	%	\$ 320.1	100.0	%
March 31, 2017 ³ :								
First lien loans	\$ 107.8	37.6	%	37.8	%	\$ 106.8	42.6	%
Second lien loans	47.2	16.5		16.6		46.9	18.7	
Subordinated debt	12.5	4.3		4.4		12.4	4.9	
Preferred equity	18.3	6.4		6.4		14.8	5.9	
Common equity & warrants	37.7	13.1		13.2		8.8	3.6	
I-45 SLF LLC ²	63.4	22.1		22.2		60.8	24.3	
	\$ 286.9	100.0	%	100.6	%	\$ 250.5	100.0	%

¹ Included in first lien loans are loans structured as first lien last out loans. These loans may in certain cases be subordinated in payment priority to other senior secured lenders. As of December 31, 2017 and March 31, 2017, the fair value of the first lien last out loans are \$26.9 million and \$21.8 million, respectively.

² I-45 SLF LLC ("I-45 SLF") is a joint venture between CSWC and Main Street Capital Corporation ("Main Street"). This entity primarily invests in syndicated senior secured loans to the UMM. The portfolio companies held by I-45 SLF represent a diverse set of industry classifications, which are similar to those in which CSWC invests directly. See Note 15 for further discussion.

³ Presentation of March 31, 2017 disclosure is updated to conform to the current period presentation.

Table of Contents

The following tables show the composition of the investment portfolio by industry, at fair value and cost (with corresponding percentage of total portfolio investments) as of December 31, 2017 and March 31, 2017:

4. FAIR VALUE MEASUREMENTS

Investment Valuation Process

The valuation process is led by the finance department in conjunction with the investment team. The process includes a monthly review of each investment by our executive officers and investment teams. Valuations of each portfolio security are prepared quarterly by the finance department using updated financial and other operational information collected by the investment teams. Each investment valuation is then subject to review by the executive officers and investment teams. In conjunction with the internal valuation process, we have also engaged multiple independent consulting firms specializing in financial due diligence, valuation, and business advisory services to provide

third-party valuation reviews of certain investments. The third-party valuation firms provide a range of values for selected investments, which is presented to CSWC's executive officers and Board of Directors.

CSWC also uses a standard internal investment rating system in connection with its investment oversight, portfolio management, and investment valuation procedures for its debt portfolio. This system takes into account both quantitative and qualitative factors of the portfolio company and the investments held therein.

There is no single standard for determining fair value in good faith, as fair value depends upon the specific circumstances of each individual investment. While management believes our valuation methodologies are appropriate and consistent with market participants, the recorded fair values of our investments may differ significantly from fair values that would have been used had an active market for the securities existed. In addition, changes in the market environment and other events that may occur over the life of the investments may cause the gains or losses ultimately realized on these investments to be different than the valuations currently assigned. The Board of Directors has the ultimate responsibility for reviewing and approving, in good faith, the fair value of CSWC's investments in accordance with the 1940 Act.

Table of Contents

Fair Value Hierarchy

CSWC has established and documented processes for determining the fair values of portfolio company investments on a recurring basis in accordance with the 1940 Act and ASC Topic 820. As required by ASC Topic 820, when the inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value measurement is categorized is based on the lowest level input that is significant to the fair value measurement in its entirety. For example, a Level 3 fair value measurement may include inputs that are observable (Levels 1 and 2) and unobservable (Level 3). Therefore, unrealized appreciation and depreciation related to such investments categorized within the Level 3 tables below may include changes in fair value that are attributable to both observable inputs (Levels 1 and 2) and unobservable inputs (Level 3). CSWC conducts reviews of fair value hierarchy classifications on a quarterly basis. We also use judgment and consider factors specific to the investment in determining the significance of an input to a fair value measurement.

The three levels of valuation inputs established by ASC Topic 820 are as follows:

- Level 1: Investments whose values are based on unadjusted quoted prices in active markets for identical assets or liabilities.
- Level 2: Investments whose values are based on quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Investments whose values are based on unobservable inputs that are significant to the overall fair value measurement.

As of December 31, 2017 and March 31, 2017, 100% of the CSWC investment portfolio consisted of debt and equity instruments of privately held companies for which inputs falling within the categories of Level 1 and Level 2 are generally not available. Therefore, CSWC determines the fair value of its investments (excluding investments for which fair value is measured at NAV) in good faith using Level 3 inputs, pursuant to a valuation policy and process that is established by the management of CSWC, with assistance from multiple third-party valuation advisors, which is subsequently approved by our Board of Directors.

Investment Valuation Inputs

ASC Topic 820 defines fair value in terms of the price that would be received upon the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date excluding transaction

costs. Under ASC Topic 820, the fair value measurement also assumes that the transaction to sell an asset occurs in the principal market for the asset or, in the absence of a principal market, the most advantageous market for the asset. The principal market is the market in which the reporting entity would sell or transfer the asset with the greatest volume and level of activity for the asset. In determining the principal market for an asset or liability under ASC Topic 820, it is assumed that the reporting entity has access to the market as of the measurement date.

The Level 3 inputs to CSWC's valuation process reflect our best estimate of the assumptions that would be used by market participants in pricing the investment in a transaction in the principal or most advantageous market for the asset.

The fair value determination of each portfolio investment categorized as Level 3 required one or more of the following unobservable inputs:

- Financial information obtained from each portfolio company, including unaudited statements of operations and balance sheets for the most recent period available as compared to budgeted numbers;
- Current and projected financial condition of the portfolio company;
- Current and projected ability of the portfolio company to service its debt obligations;
- Type and amount of collateral, if any, underlying the investment;
- Current financial ratios (e.g., fixed charge coverage ratio, interest coverage ratio and net debt/EBITDA ratio) applicable to the investment;
- Current liquidity of the investment and related financial ratios (e.g., current ratio and quick ratio);
- Indicative dealer quotations from brokers, banks, and other market participants;

Table of Contents

- Market yields on other securities of similar risk;
- Pending debt or capital restructuring of the portfolio company;
- Projected operating results of the portfolio company;
 - Current information regarding any offers to purchase the investment;
- Current ability of the portfolio company to raise any additional financing as needed;
- Changes in the economic environment which may have a material impact on the operating results of the portfolio company;
- Internal occurrences that may have an impact (both positive and negative) on the operating performance of the portfolio company;
- Qualitative assessment of key management;
- Contractual rights, obligations or restrictions associated with the investment; and
- Other factors deemed relevant.

CSWC uses several different valuation approaches depending on the security type including the Market Approach, the Income Approach, the Enterprise Value Waterfall Approach, and the NAV Valuation Method.

Market Approach

Market Approach is a qualitative and quantitative analysis of the aforementioned unobservable inputs. It is a combination of the Enterprise Value Waterfall Approach and Income Approach as described in detail below. For debt investments recently originated or where the value has not departed significantly from its cost, we generally rely on our cost basis or recent transaction price to determine the fair value, unless a material event has occurred since origination.

Income Approach

In valuing debt securities, CSWC typically uses an Income Approach model, which considers some or all of the factors listed above. Under the Income Approach, CSWC develops an expectation of the yield that a hypothetical market participant would require when purchasing each debt investment (the “Required Market Yield”). The Required Market Yield is calculated in a two-step process. First, using quarterly market data we estimate the current market yield of similar debt securities. Next, based on the factors described above, we modify the current market yield for each security to produce a unique Required Market Yield for each of our investments. The resulting Required Market Yield is the significant Level 3 input to the Income Approach model. If, with respect to an investment, the unobservable inputs have not fluctuated significantly from the date the investment was made or have not fluctuated significantly from CSWC’s expectations on the date the investment was made, and there have been no significant fluctuations in the market pricing for such investments, we may conclude that the Required Market Yield for that investment is equal to the stated rate on the investment. In instances where CSWC determines that the Required Market Yield is different from the stated rate on the investment, we discount the contractual cash flows on the debt instrument using the Required Market Yield in order to estimate the fair value of the debt security.

In addition, under the Income Approach, CSWC also determines the appropriateness of the use of third-party broker quotes, if any, as a significant Level 3 input in determining fair value. In determining the appropriateness of the use of third-party broker quotes, CSWC evaluates the level of actual transactions used by the broker to develop the quote, whether the quote was an indicative price or binding offer, the depth and consistency of broker quotes, the source of the broker quotes, and the correlation of changes in broker quotes with underlying performance of the portfolio company and other market indices. To the extent sufficient observable inputs are available to determine fair value, CSWC may use third-party broker quotes or other independent pricing to determine the fair value of certain debt investments.

Fair value measurements using the Income Approach model can be sensitive to significant changes in one or more of the inputs. A significant increase (decrease) in the Required Market Yield for a particular debt security may result in a lower (higher) fair value for that security. A significant increase (decrease) in a third-party broker quote for a particular debt security may result in a higher (lower) value for that security.

Enterprise Value Waterfall Approach

In valuing equity securities (including warrants), CSWC estimates fair value using an Enterprise Value Waterfall valuation model. CSWC estimates the enterprise value of a portfolio company and then allocates the enterprise value to the portfolio company's securities in order of their relative liquidation preference. In addition, CSWC assumes that any

Table of Contents

outstanding debt or other securities that are senior to CSWC's equity securities are required to be repaid at par. Additionally, we may estimate the fair value of non-performing debt securities using the Enterprise Value Waterfall approach as needed.

To estimate the enterprise value of the portfolio company, CSWC uses a weighted valuation model based on public comparable companies, observable transactions and discounted cash flow analyses. A main input into the valuation model is a measure of the portfolio company's financial performance, which generally is either earnings before interest, taxes, depreciation and amortization, as adjusted ("Adjusted EBITDA") or revenues. In addition, we consider other factors, including but not limited to (1) offers from third parties to purchase the portfolio company and (2) the implied value of recent investments in the equity securities of the portfolio company. For certain non-performing assets, we may utilize the liquidation or collateral value of the portfolio company's assets in our estimation of its enterprise value.

The significant Level 3 inputs to the Enterprise Value Waterfall model are (1) an appropriate multiple derived from the comparable public companies and transactions, (2) discount rate assumptions used in the discounted cash flow model and (3) a measure of the portfolio company's financial performance, which generally is either Adjusted EBITDA or revenues. Inputs can be based on historical operating results, projections of future operating results or a combination thereof. The operating results of a portfolio company may be unaudited, projected or pro forma financial information and may require adjustments for certain non-recurring items. CSWC also may consult with the portfolio company's senior management to obtain updates on the portfolio company's performance, including information such as industry trends, new product development, loss of customers and other operational issues. Fair value measurements using the Enterprise Value Waterfall model can be sensitive to significant changes in one or more of the inputs. A significant increase (decrease) in either the multiple, Adjusted EBITDA or revenues for a particular equity security would result in a higher (lower) fair value for that security.

NAV Valuation Method

Under the NAV valuation method, for an investment in an investment fund that does not have a readily determinable fair value, CSWC measures the fair value of the investment predominately based on the NAV of the investment fund as of the measurement date. However, in determining the fair value of the investment, we may consider whether adjustments to the NAV are necessary in certain circumstances, based on the analysis of any restrictions on redemption of our investment as of the measurement date, recent actual sales or redemptions of interests in the investment fund, expected future cash flows available to equity holders, or other uncertainties surrounding CSWC's ability to realize the full NAV of its interests in the investment fund.

The tables below present the Valuation Techniques and Significant Level 3 Inputs (ranges and weighted averages) used in the valuation of CSWC's debt and equity securities at December 31, 2017 and March 31, 2017. The tables are not intended to be all inclusive, but instead capture the significant unobservable inputs relevant to our determination of fair value.

Type	Valuation Technique	Fair Value at December 31, 2017 (in millions)	Significant Unobservable Inputs	Range	Weighted Average
Equity Investments	Enterprise Value Waterfall Approach	\$ 73.5	EBITDA Multiple Weighted Average Cost of Capital Required Market	4.7x - 9.4x 14.2% - 34.6% 6.4% -	7.20x 19.6%
Debt Investments	Income Approach	179.4	Yield Third Party Broker Quote	14.0% - 94.4 - 100.5	11.0%
	Market Approach	47.0 226.4	Recent Transaction		
Total Level 3 Investments		\$ 299.9			

Table of Contents

Type	Valuation Technique	Fair Value at March 31, 2017 (in millions)	Significant Unobservable Inputs	Range	Weighted Average
	Enterprise Value				
Equity Investments	Waterfall Approach	\$ 56.0	EBITDA Multiple	4.1x - 9.3x	7.80x
			Weighted Average Cost of Capital	14.1% - 27.8%	17.5%

Common equity & warrants	46.7	—	—	46.7
Investments measured at net asset value	67.2	—	—	—
Total Investments	\$ 367.1	\$ —	\$ —	\$ 299.9

Fair Value Measurements

Asset Category ²	Total	at March 31, 2017 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
First lien loans	\$ 107.8	\$ —	\$ —	\$ 107.8
Second lien loans	47.2	—	—	47.2
Subordinated debt	12.5	—	—	12.5
Preferred equity	18.3	—	—	18.3
Common equity & warrants	37.7	—	—	37.7
Investments measured at net asset value ¹	63.4	—	—	—
Total Investments	\$ 286.9	\$ —	\$ —	\$ 223.5

¹ Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in Consolidated Statements of Assets and Liabilities. For the investment valued at net asset value per share at December 31, 2017 and March 31, 2017, the redemption restrictions dictate that we cannot withdraw our membership interest without unanimous approval. We are permitted to sell or transfer our membership interest and must deliver written notice of such transfer to the other member no later than 60 business days prior to the sale or transfer.

² Presentation of March 31, 2017 disclosure updated to conform to current period presentation.

Table of Contents

Changes in Fair Value Levels

We monitor the availability of observable market data to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model based valuation techniques may require the transfer of financial instruments from one fair value level to another. We recognize the transfer of financial instruments between levels at the end of each quarterly reporting period. During the three and nine months ended December 31, 2017 and 2016, we had no transfers between levels.

The following tables provide a summary of changes in the fair value of investments measured using Level 3 inputs during the nine months ended December 31, 2017 and 2016 (in millions):

	Fair Value	Realized & Unrealized Gains (Losses)	Purchases of Investments ¹	Repayments	PIK Interest Earned	Divestitures	Fair Value at 12/31/2017
First lien loans	\$ 107.8	\$ 1.1	\$ 109.9	\$ (39.6)	\$ —	\$ —	\$ 179.2
Second lien loans	47.2	0.6	9.8	(29.2)	—	—	28.4
Subordinated debt	12.5	—	14.4	(8.1)	—	—	18.8
Preferred equity	18.3	7.9	0.5	—	0.1	—	26.8
Common equity & warrants	37.7	2.8	6.1	—	0.1	—	46.7
Total Investments	\$ 223.5	\$ 12.4	\$ 140.7	\$ (76.9)	\$ 0.2	\$ —	\$ 299.9

	Fair Value	Realized & Unrealized Gains (Losses)	Purchases of Investments ¹	Repayments	Divestitures	Conversion of Security from Debt to Equity	Fair Value at 12/31/2016
First lien loans	\$ 39.5	\$ 1.3	\$ 65.1	\$ (15.4)	\$ —	\$ —	\$ 90.5
Second lien loans	38.2	0.4	17.2	(5.3)	(2.0)	—	48.5
Subordinated debt	15.1	—	—	—	—	(2.7)	12.4
Preferred equity	13.2	2.8	—	—	—	2.7	18.7
Common equity & warrants	36.1	6.6	—	—	(4.4)	—	38.3
Total Investments	\$ 142.1	\$ 11.1	\$ 82.3	\$ (20.7)	\$ (6.4)	\$ —	\$ 208.4

¹ Includes purchases of new investments, as well as discount accretion on existing investments.

The total net unrealized gains (excluding reversals) included in earnings that related to assets still held at the report date for the nine months ended December 31, 2017 and 2016 were \$5.4 million and \$13.6 million, respectively.

5.BORROWINGS

The Company had the following borrowings outstanding as of December 31, 2017 and March 31, 2017 (amounts in thousands):

	December 31, 2017	March 31, 2017
Credit Facility	\$ 35,000	\$ 25,000
December 2022 Notes	\$ 57,500	\$ —
Less: Unamortized debt issuance costs and debt discount	(2,264)	—
Total Notes	\$ 55,236	\$ —

Credit Facility

In August 2016, CSWC entered into a senior secured credit facility (the “Credit Facility”) to provide additional liquidity to support its investment and operational activities, which included total commitments of \$100.0 million. The Credit Facility contained an accordion feature that allowed CSWC to increase the total commitments under the facility up

Table of Contents

to \$150.0 million from new and existing lenders on the same terms and conditions as the existing commitments. In August 2017, we increased our total commitments by \$15 million through adding an additional lender using the accordion feature.

On November 16, 2017, CSWC entered into Amendment No. 1 (the “Amendment”) to its Credit Facility. Prior to the Amendment, borrowings under the Credit Facility accrued interest on a per annum basis at a rate equal to the applicable LIBOR rate plus 3.25% with no LIBOR floor. CSWC paid unused commitment fees of 0.50% to 1.50% per annum, based on utilization, on the unused lender commitments under the Credit Facility. The Amendment (1) increased the total borrowing capacity under the Credit Facility to \$180.0 million, with commitments from a diversified group of eight lenders, (2) increased the Credit Facility’s accordion feature that allows for an increase in total commitments of up to \$250 million under the Credit Facility from new and existing lenders on the same terms and conditions as the existing commitments, (3) reduced the interest rate on borrowings to LIBOR plus 3.00%, with a step-down to LIBOR plus 2.75% at the time the Company’s net worth exceeds \$325 million, (4) reduced unused commitment fees to a range from 0.50% to 1.0% per annum based on utilization, and (5) extended the Credit Facility’s revolving period that ended on August 30, 2019 through November 16, 2020. Additionally, the final maturity of the Credit Facility was extended from August 30, 2020 to November 16, 2021.

The Credit Facility contains certain affirmative and negative covenants, including but not limited to: (1) certain reporting requirements, (2) maintaining RIC and BDC status, (3) maintaining a minimum shareholders’ equity, (4) maintaining a minimum consolidated net worth, (5) maintaining a regulatory asset coverage of not less than 200.0%, (6) maintaining a consolidated interest coverage ratio of at least 2.5 to 1.0, and (7) at any time the outstanding advances exceed 90.0% of the borrowing base, maintaining a minimum liquidity of not less than 10.0% of the covered debt amount.

The Credit Facility also contains customary events of default, including, without limitation, nonpayment, misrepresentation of representations and warranties in a material respect, breach of covenant, bankruptcy, and change of control, with customary cure and notice provisions. If the Company defaults on its obligations under the Credit Facility, the lenders may have the right to foreclose upon and sell, or otherwise transfer, the collateral subject to their security interests. There are no changes to the covenants or the events of default in the Credit Facility as a result of the Amendment.

The Credit Facility is secured by (1) substantially all of the present and future property and assets of the Company and the guarantors and (2) 100.0% of the equity interests in the Company’s wholly-owned subsidiaries. As of December 31, 2017, substantially all of the Company’s assets were pledged as collateral for the Credit Facility.

At December 31, 2017, CSWC had \$35.0 million in borrowings outstanding under the Credit Facility. CSWC recognized interest expense related to the Credit Facility, including unused commitment fees and amortization of deferred loan costs of \$1.1 million and \$2.7 million, respectively, for the three and nine months ended December 31, 2017. For the three and nine months ended December 31, 2016, CSWC recognized interest expense of \$0.3 million

and \$0.4 million, respectively. The weighted average interest rate on the Credit Facility was 4.75% and 4.67%, respectively, for the three and nine months ended December 31, 2017. Average borrowings for the three and nine months ended December 31, 2017 were \$58.6 million and \$44.5 million, respectively. As of December 31, 2017, CSWC was in compliance with all financial covenants under the Credit Facility.

Notes

In December 2017, the Company issued \$57.5 million in aggregate principal amount, including the underwriters' full exercise of their option to purchase additional principal amounts to cover over-allotments, of 5.95% Notes due 2022 (the "December 2022 Notes"). The December 2022 Notes mature on December 15, 2022 and may be redeemed in whole or in part at any time, or from time to time, at the Company's option on or after December 15, 2019. The December 2022 Notes bear interest at a rate of 5.95% per year, payable quarterly on March 15, June 15, September 15 and December 15 of each year, beginning on March 15, 2018. The December 2022 Notes are an unsecured obligation, rank pari passu with our other outstanding and future unsecured unsubordinated indebtedness and are effectively subordinated to all of our existing and future secured indebtedness, including borrowings under our Credit Facility.

As of December 31, 2017, the carrying amount of the December 2022 Notes was \$55.8 million. As of December 31, 2017, the fair value of the December 2022 Notes was \$59.9 million. The fair value is based on the closing price of the security of The Nasdaq Global Select Market, which is a Level 1 input under ASC 820. The Company recognized interest expense related to the December 2022 Notes, including amortization of deferred issuance costs of \$0.2 million for each of the three and nine months ended December 31, 2017.

Table of Contents

The indenture governing the December 2022 Notes contains certain covenants including but not limited to (i) a requirement that the Company comply with the asset coverage requirement of the 1940 Act or any successor provisions, after giving effect to any exemptive relief granted to the Company by the Securities and Exchange Commission (“SEC”), (ii) a requirement that the Company will not declare any cash dividend, or declare any other cash distribution, upon a class of its capital stock, or purchase any such capital stock, unless, in every such case, at the time of the declaration of any such dividend or distribution, or at the time of any such purchase, the Company has an asset coverage (as defined in the 1940 Act) of at least 200% after deducting the amount of such dividend, distribution or purchase price, as the case may be, giving effect to any exemptive relief granted to the Company by the SEC and (iii) a requirement to provide financial information to the holders of the December 2022 Notes and the trustee under the indenture if the Company should no longer be subject to the reporting requirements under the Securities Exchange Act of 1934, as amended. The indenture and supplement relating to the December 2022 Notes also provides for customary events of default. As of December 31, 2017, the Company was in compliance with all covenants of the December 2022 Notes.

6.INCOME TAXES

We have elected to be treated as a RIC under Subchapter M of the IRC and have a tax year end of December 31. In order to qualify as a RIC, we must annually distribute at least 90% of our investment company taxable income, as defined by the IRC, to our shareholders in a timely manner. Investment company income generally includes net short-term capital gains but excludes net long-term capital gains. A RIC is not subject to federal income tax on the portion of its ordinary income and capital gains that is distributed to its shareholders, including “deemed distributions” as discussed below. As part of maintaining RIC status, undistributed taxable income, which is subject to a 4% non-deductible U.S. federal excise tax, pertaining to a given fiscal year may be distributed up to 12 months subsequent to the end of that fiscal year, provided such dividends are declared on or prior to the later of (1) the filing of the U.S. federal income tax return for the applicable fiscal year and (2) the fifteenth day of the ninth month following the close of the year in which such taxable income was generated. We intend to distribute to our stockholders, after consideration and application of our ability under the Code to carry forward certain excess undistributed taxable income from one tax year into the next tax year, substantially all of our taxable income.

As of December 31, 2017, CSWC qualified to be taxed as a RIC. We intend to meet the applicable qualifications to be taxed as a RIC in future periods. However, the Company’s ability to meet certain portfolio diversification requirements of RICs in future years may not be controllable by the Company.

The determination of the tax attributes for CSWC’s distributions is made annually, based upon its taxable income for the full year and distributions paid for the full year. Therefore, any determination made on an interim basis is forward-looking based on currently available facts, rules and assumptions and may not be representative of the actual tax attributes of distributions for a full year.

During our tax year ended December 31, 2017, CSWC declared quarterly dividends of \$0.45 (\$0.26 in regular dividends and \$0.19 in special dividends) in March 2017, \$0.21 in June 2017, \$0.24 in September 2017, and \$0.26 in December 2017, with such dividends totaling \$18.3 million, or \$1.16 per share. For tax purposes, the 2017 dividends total \$1.16 per share and were comprised of (1) ordinary income totaling approximately \$0.643 per share, (2) long term capital gains totaling approximately \$0.324 per share, and (3) qualified dividend income totaling approximately \$0.193 per share. For the tax year ended December 31, 2016, we paid total dividends of \$6.0 million, or \$0.38 per share. For tax purposes, the 2016 dividends were comprised of (1) ordinary income totaling approximately \$0.065 per share, (2) long term capital gains totaling approximately \$0.28 per share, and (3) qualified dividend income totaling approximately \$0.035 per share.

Ordinary dividend distributions from a RIC do not qualify for the 20.0% maximum tax rate (plus a 3.8% Medicare surtax, if applicable) on dividend income from domestic corporations and qualified foreign corporations, except to the extent that the RIC received the income in the form of qualifying dividends from domestic corporations and qualified foreign corporations. The tax attributes for distributions will generally include both ordinary income and capital gains, but may also include qualified dividends or return of capital.

Table of Contents

The tax character of distributions paid for the years ended December 31, 2017 and 2016 was as follows:

	Twelve Months Ended December 31,	
	2017	2016
Ordinary income	\$ 13,149	\$ 1,565
Distributions of long term capital gains	5,101	4,429
Distributions on tax basis	\$ 18,250	\$ 5,994

The following reconciles net increase in assets resulting from operations to estimated RIC taxable income for the nine months ended December 31, 2017 and 2016:

	Nine Months Ended December 31,	
	2017	2016
Reconciliation of RIC Taxable Income ¹		
Net increase in net assets from operations	\$ 24,330	\$ 17,500
Net change in unrealized appreciation on investments	(10,843)	(9,093)
Income/gain (expense/loss) recognized for tax on pass-through entities	(341)	(797)
Gain recognized for tax on dispositions	643	2,337
Net operating loss - management company and taxable subsidiary	205	1,434
Non-deductible tax expense	120	348
Other book/tax differences	(62)	(750)
Estimated taxable income before deductions for distributions	\$ 14,052	\$ 10,979

¹ The calculation of taxable income for each period is an estimate and will not be finally determined until the Company files its tax return each year. Final taxable income may be different than this estimate.

A RIC may elect to retain all or a portion of its long-term capital gains by designating them as a “deemed distribution” to its shareholders and paying a federal tax rate of 35% on the long-term capital gains for the benefit of its shareholders. Shareholders then report their share of the retained capital gains on their income tax returns as if it had been received and report a tax credit for tax paid on their behalf by the RIC. Shareholders then add the amount of the “deemed distribution” net of such tax to the basis of their shares. As a result of the Tax Reform, the federal tax rate for deemed distributions will be 21% as of January 1, 2018.

CSMC, a wholly-owned subsidiary of CSWC, is not a RIC and is required to pay taxes at the current corporate rate. For tax purposes, CSMC has elected to be treated as a taxable entity, and therefore is not consolidated for tax purposes and is taxed at normal corporate tax rates based on its taxable income and, as a result of its activities, may generate income tax expense or benefit. The taxable income, or loss, of CSMC may differ from its book income, or loss, due to temporary book and tax timing differences and permanent differences. This income tax expense, or benefit, if any, and

the related tax assets and liabilities, are reflected in our consolidated financial statements. CSMC records individual cash incentive award and bonus accruals on a quarterly basis. Deferred taxes related to the changes in the qualified defined pension plan, restoration plan, individual cash incentive award and bonus accruals are also recorded on a quarterly basis. A valuation allowance is provided against deferred tax assets when it is more likely than not that some portion or all of the deferred tax asset will not be realized. Establishing a valuation allowance of a deferred tax asset requires management to make estimates related to expectations of future taxable income. Estimates of future taxable income are based on forecasted cash flows from CSMC's operations. As of December 31, 2017, CSMC had a deferred tax asset of approximately \$2.1 million. During the three months ended December 31, 2017, the deferred tax asset increased by approximately \$0.3 million as a result of the Tax Reform. The deferred tax asset decreased by \$1.0 million due to the reduction of the corporate tax rate to 21.0% and was offset by an increase of \$1.3 million due to the release of the valuation allowance on our deferred tax asset. Our estimated taxable income increased due to the repeal of 162(m) qualified performance-based pay exemptions and the expansion of the definition of a "covered employee." As of December 31, 2017, we believe that it is more likely than not that we will be able to utilize all \$2.1 million of our deferred tax assets. We will continue to assess our ability to realize our existing deferred tax assets. As of March 31, 2017, CSMC had a deferred tax asset of \$2.0 million.

Based on our assessment of our unrecognized tax benefits, management believes that all benefits will be realized and they do not contain any uncertain tax positions. As a result of the Tax Reform, the corporate tax rate of CSMC will be 21% as of January 1, 2018.

Table of Contents

The following table sets forth the significant components of the deferred tax assets and liabilities as of December 31, 2017 and March 31, 2017 (amounts in thousands):

	December 31, 2017	March 31, 2017
Deferred tax asset:		
Net operating loss carryforwards	\$ 1,045	\$ 1,571
Compensation	524	1,110
Pension liability	441	722
Other	70	76
Total deferred tax asset	2,080	3,479
Less valuation allowance	—	(1,325)
Total net deferred tax asset	2,080	2,154
Deferred tax liabilities:		
Other	(190)	(137)
Total deferred tax liabilities	(190)	(137)
Total net deferred tax assets (liabilities)	\$ 1,890	\$ 2,017

The above referenced Net Operating Loss was generated in 2015 and expires in 2035.

In addition, we have a wholly-owned taxable subsidiary, or the Taxable Subsidiary, which holds a portion of one or more of our portfolio investments that are listed on the Consolidated Schedule of Investments. The Taxable Subsidiary is consolidated for financial reporting purposes in accordance with U.S. GAAP, so that our consolidated financial statements reflect our investments in the portfolio companies owned by the Taxable Subsidiary. The purpose of the Taxable Subsidiary is to permit us to hold certain interests in portfolio companies that are organized as limited liability companies, or LLCs (or other forms of pass-through entities) and still satisfy the RIC tax requirement that at least 90.0% of our gross income for federal income tax purposes must consist of qualifying investment income. Absent the Taxable Subsidiary, a proportionate amount of any gross income of a partnership or LLC (or other pass-through entity) portfolio investment would flow through directly to us. To the extent that our income did not consist of investment income, it could jeopardize our ability to qualify as a RIC and therefore cause us to incur significant amounts of corporate-level U.S. federal income taxes. Where interests in LLCs (or other pass-through entities) are owned by the Taxable Subsidiary, however, the income from those interests is taxed to the Taxable Subsidiary and does not flow through to us, thereby helping us preserve our RIC status and resultant tax advantages. The Taxable Subsidiary is not consolidated for U.S. federal income tax purposes and may generate income tax expense as a result of their ownership of the portfolio companies. The income tax expense, or benefit, and the related tax assets and liabilities, if any, are reflected in our Statement of Operations. As a result of the Tax Reform, the corporate tax rate of the Taxable Subsidiary will be 21% as of January 1, 2018.

The income tax expense, or benefit, and the related tax assets and liabilities, generated by CSWC, CSMC and the Taxable Subsidiary, if any, are reflected in CSWC's consolidated financial statements. For the three months ended

December 31, 2017, we recognized a net income tax benefit of \$0.4 million, principally consisting of a benefit for current U.S. federal income taxes of \$0.5 million and a \$0.1 million accrual for excise tax on our estimated undistributed taxable income. For the nine months ended December 31, 2017, we recognized a net income tax benefit of \$0.1 million, principally consisting of a benefit for current U.S. federal income taxes of \$0.2 million and a \$0.1 million accrual for excise tax on our estimated undistributed taxable income. For the three months ended December 31, 2016, we recognized a net income tax expense of \$0.5 million, principally consisting of a provision for current U.S. federal income taxes of \$0.1 million, a \$0.3 million accrual for excise tax on our estimated undistributed taxable income, and \$0.1 million relating to the Taxable Subsidiary. For the nine months ended December 31, 2016, we recognized a net income tax expense of \$1.5 million, principally consisting of a provision for current U.S. federal income taxes of \$0.9 million, a \$0.3 million accrual for excise tax on our estimated undistributed taxable income, and \$0.3 million relating to the Taxable Subsidiary. Regarding the Tax Reform, the Company has completed all accounting and there are no items reported as provisional amounts.

Although we believe our tax returns are correct, the final determination of tax examinations could be different from what was reported on the returns. In our opinion, we have made adequate tax provisions for years subject to examination. Generally, we are currently open to audit under the statute of limitations by the Internal Revenue Service as well as state taxing authorities for the years ended December 31, 2013 through December 31, 2016.

Table of Contents

The following table sets forth the significant components of income tax expense as of December 31, 2017 and 2016:

Components of Income Tax Expense	Nine Months Ended December 31,	
	2017	2016
Statutory federal income tax	\$ (73)	\$ (223)
162(m) limitation	531	446
Excise tax	120	270
Valuation allowance	(1,324)	686
Tax related to Taxable Subsidiary	-	306
One time expense for Federal rate change	966	-
Prior year deferred tax true-up	(56)	-
Other	(248)	10
Total income tax expense	\$ (84)	\$ 1,495

7. ACCUMULATED undistributed Net Realized Gains on Investments

Distributions made by RICs often differ from aggregate U.S. GAAP-basis undistributed net investment income and accumulated net realized gains (total U.S. GAAP-basis net realized gains). The principal cause is that required minimum fund distributions are based on income and gain amounts determined in accordance with federal income tax regulations, rather than U.S. GAAP. The differences created can be temporary, meaning that they will reverse in the future, or they can be permanent. In subsequent periods, when all or a portion of a temporary difference becomes a permanent difference, the amount of the permanent difference will be reclassified to “additional capital.” During the quarter ended December 31, 2017, we reclassified for book purposes amounts arising from permanent book/tax differences as follows (amounts in thousands):

	Nine months ended December 31, 2017
Additional capital	\$ (337)
Accumulated net investment income (loss)	\$ 4,062
Accumulated net realized gains	\$ (3,725)

The Company may retain some or all of its realized net long-term capital gains in excess of realized net short-term capital losses and may designate the retained net capital gain as a “deemed distribution.” For the tax year ended December 31, 2017, the Company did not elect to designate retained net capital gains as deemed distributions. “Deemed distributions” are generally reclassified from accumulated undistributed net realized gains into additional capital after our tax year ends each December 31.

8.SPIN-OFF COMPENSATION PLAN

On August 28, 2014, our Board of Directors adopted a compensation plan (the “Spin-off Compensation Plan”) consisting of grants of nonqualified stock options, restricted stock and cash incentive awards to certain officers of the Company at the time. The plan was intended to align the compensation of the Company’s key officers with the Company’s strategic objective of increasing the market value of the Company’s shares through a transformative transaction for the benefit of the Company’s shareholders. Under the plan, Joseph B. Armes, former CEO of the Company, Kelly Tacke, former CFO of the Company, and Bowen S. Diehl, former CIO and current CEO of the company, in aggregate, were eligible to receive an amount equal to six percent of the aggregate appreciation in the Company’s share price from August 28, 2014 (using a base price of \$36.16 per share) to 90 days after the completion of a transformative transaction (the “Trigger Event Date”). The first plan component consisted of nonqualified options awarded to purchase 259,000 shares of common stock at an exercise price of \$36.60 per share. The second plan component consisted of awards of 127,000 shares of restricted stock, which, prior to their vesting, have voting rights but do not have cash dividend rights. See Note 9 for further discussion on the first two components of the Executive Compensation Plan. The final plan component consisted of cash incentive payments awarded to each participant in an amount equal to the excess of each awardee’s allocable portion of the total payment amount over the aggregate value as of the Trigger Event Date of the awardee’s restricted common stock and nonqualified option awards under the plan.

On September 8, 2015, the Board of Directors designated the Share Distribution as a transformative transaction for purposes of the Spin-off Compensation Plan and amended the award agreements granted under the plan to provide for

Table of Contents

accelerated vesting of the awards held by a participant in the event of a termination of that participant's service effected by the participant for good reason, by the employer without cause, or as a result of the disability or death of the participant. On September 30, 2015, we completed the Share Distribution.

Effective immediately with the Share Distribution, both Joseph B. Armes and Kelly Tacke became employees of CSWI and Bowen Diehl, our President and Chief Executive Officer, continued to be an employee of our Company. The Company entered into the Employee Matters Agreement with CSWI as discussed above. Under the Employee Matters Agreement, we retained the cash incentive awards granted under the Spin-off Compensation Plan, and all liabilities with respect to the cash incentive awards remained liabilities of CSWC. The equity based awards vesting terms are as follows: (1) one-third on December 29, 2015; (2) one-third on December 29, 2016; and (3) one-third on December 29, 2017, subject to accelerated vesting as described above.

The total value accretion was six percent of the aggregate appreciation in the Company's share price from \$36.16 to the combined volume-weighted average prices of both CSWC and CSWI stock as of December 29, 2015. The cash component of the Spin-off Compensation Plan was the difference between the total value accretion and the aggregate value of the awardee's restricted common stock and non-qualified option awards under the plan. The total cash liabilities for three participants under the plan totaled \$6.1 million. The final payment of \$1.4 million was fully vested on December 29, 2017, and was subsequently paid out in January 2018. As of December 31, 2017, there is no remaining unrecognized expense related to the Spin-off Compensation Plan.

During the three and nine months ended December 31, 2017, we recognized the cash component of spin-off compensation expense of \$0.2 million and \$0.5 million, respectively, which represented the cash component of spin-off compensation for our current employee. During the three and nine months ended December 31, 2017, we also recorded \$0.2 million and \$0.5 million, respectively, directly to additional capital for the cash component of the spin-off compensation related to the employee who transferred to CSWI. During the three and nine months ended December 31, 2016, we recognized the cash component of spin-off compensation expense of \$0.2 million and \$0.5 million, respectively, which represented the cash component of spin-off compensation for our current employee. During the three and nine months ended December 31, 2016, we also recorded \$0.2 million and \$1.7 million, respectively, directly to additional capital for the cash component of the spin-off compensation related to the two employees who transferred to CSWI, of which \$1.2 million was paid to Kelly Tacke upon her separation from CSWI.

9. Employee Stock based Compensation plans

Stock Awards

Pursuant to the Capital Southwest Corporation 2010 Plan, our Board of Directors originally reserved 188,000 shares of restricted stock for issuance to certain of our employees. At our annual shareholder meeting in August 2015, our

shareholders approved an increase of an additional 450,000 shares to our 2010 Restricted Stock Award Plan. A restricted stock award is an award of shares of our common stock, which generally have full voting and dividend rights but are restricted with regard to sale or transfer. Restricted stock awards are independent of stock grants and are generally subject to forfeiture if employment terminates prior to these restrictions lapsing. Unless otherwise specified in the award agreement, these shares vest in equal annual installments over a four- to five-year period from the grant date and are expensed over the vesting period starting on the grant date.

On August 28, 2014, our Board of Directors amended the 2010 Plan, as permitted pursuant to Section 14 of the 2010 Plan (the “First Amendment to the 2010 Plan”). The First Amendment to the 2010 Plan provides that an award agreement may allow an award to remain outstanding after a spin-off or change in control of one or more wholly-owned subsidiaries of CSWC. In addition, on August 28, 2014, the Board of Directors granted 127,000 shares of restricted stock under the Spin-off Compensation Plan.

On August 22, 2017, we received an exemptive order from the SEC that allows us to withhold shares to satisfy tax withholding obligations related to the vesting of restricted stock granted pursuant to the 2010 Plan.

On September 30, 2015, we completed the Share Distribution. Each holder of an outstanding Capital Southwest Restricted Stock Award immediately prior to the Share Distribution received, as of the effective date of the Share Distribution, a CSWI Restricted Stock Award for the number of CSWI Shares the holder would have received if the

Table of Contents

outstanding Capital Southwest Restricted Stock Award comprised fully vested Capital Southwest Shares as of the effective date.

The vesting terms for restricted stock awards previously granted under the Spin-off Compensation Plan are as follows: (1) one-third on December 29, 2015; (2) one-third on December 29, 2016; and (3) one-third on December 29, 2017, subject to accelerated vesting as described above. As of December 31, 2017, there is no remaining unrecognized expense related to the Spin-off Compensation Plan.

The following table summarizes the restricted stock available for issuance for the nine months ended December 31, 2017:

Restricted stock available for issuance as of March 31, 2017	190,502
Additional restricted stock approved under the plan	—
Restricted stock granted during the nine months ended December 31, 2017	(185,725)
Restricted stock forfeited during the nine months ended December 31, 2017	5,000
Restricted stock available for issuance as of December 31, 2017	9,777

We expense the cost of the restricted stock awards, which is determined to equal the fair value of the restricted stock award at the date of grant on a straight-line basis over the requisite service period. For these purposes, the fair value of the restricted stock award is determined based upon the closing price of our common stock on the date of the grant. Due to the Share Distribution, the Company evaluated (1) the value of the CSWC stock awards prior to the Share Distribution and (2) the combined value of CSWC and CSWI stock awards following the Share Distribution and recorded additional incremental stock based compensation expenses.

For the three months ended December 31, 2017 and 2016, we recognized total share based compensation expense of \$0.5 million and \$0.3 million, respectively, related to the restricted stock issued to our employees and officers. For the nine months ended December 31, 2017 and 2016, we recognized total share based compensation expense of \$1.2 million and \$0.7 million, respectively, related to the restricted stock issued to our employees and officers.

As of December 31, 2017, the total remaining unrecognized compensation expense related to non-vested restricted stock awards was \$5.6 million, which will be amortized over the weighted-average vesting period of approximately 3.2 years. Subsequent to the Share Distribution, the compensation expense related to non-vested awards held by employees who are now employed by CSWI is recorded by CSWI.

The following table summarizes the restricted stock outstanding as of December 31, 2017:

Restricted Stock Awards	Number of Shares	Weighted Average Fair Value Per Share at grant date	Weighted Average Remaining Vesting Term (in Years)
Unvested at March 31, 2017	294,043	\$ 14.99	3.1
Granted	185,725	16.79	—
Vested	(101,230)	15.04	—
Forfeited	(5,000)	14.48	—
Unvested at December 31, 2017	373,538	\$ 15.88	3.2

Stock Options

On July 20, 2009, shareholders approved the 2009 Plan, which provides for the granting of stock options to employees and officers and authorizes the issuance of common stock upon exercise of stock options for up to 560,000 shares. All options are granted at or above market price, generally expire up to 10 years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five annual installments.

On August 28, 2014, our Board of Directors amended the 2009 Plan, as permitted pursuant to Section 18 of the 2009 Plan (the “First Amendment to the 2009 Plan”). The First Amendment to the 2009 Plan provides that an award agreement may allow an award to remain outstanding after a spin-off or change in control of one or more wholly-owned subsidiaries of the Company. In addition, on August 28, 2014, options to purchase 259,000 shares at \$36.60 per share were granted under the 2009 Plan, as amended. On September 8, 2015, the Board of Directors designated the Share Distribution a transformative transaction for purposes of the 2009 Plan and amended the award agreements granted under the 2009

Table of Contents

Plan to provide for accelerated vesting of the awards held by a participant in the event of a termination of such participant's service effected by the participant for good reason, by the employer without cause, or as a result of the disability or death of the participant. A third of these options were vested on December 29, 2015, a third vested on December 29, 2016 and a third on December 29, 2017, subject to accelerated vesting as described above.

On August 22, 2017, we received an exemptive order from the SEC that allows us to withhold shares of our common stock to satisfy the exercise of options to purchase shares of our common stock granted pursuant to the 2009 Plan.

At December 31, 2017, there are options to acquire 206,364 shares of common stock outstanding. The Compensation Committee does not intend to grant additional options under the 2009 Plan or request shareholders' approval of additional stock options to be added under the 2009 Plan.

At September 30, 2015, in connection with the Share Distribution, we entered into the Employee Matters Agreement, which provided that each option to acquire CSWC common stock that was outstanding immediately prior to September 30, 2015, would be converted into both an option to acquire post-Share Distribution CSWC common stock and an option to acquire CSWI common stock and would be subject to substantially the same terms and conditions (including with respect to vesting and expiration) after the September 30, 2015. Certain adjustments, using volumetric weighted-average prices for the 10-day period immediately prior to and immediately following the distribution, were made to the exercise price and number of shares of CSWC subject to such awards, with the intention of preserving the economic value of the awards immediately prior to the distribution for all CSWC employees. We compared the fair market value of our stock options on the day of the Share Distribution with the combined fair value of our stock options and CSWI stock options the day after the completion of the Share Distribution. The distribution-related adjustments did not have an impact on compensation expense for the three and nine months ended December 31, 2017.

The following table summarizes activity in the 2009 Plan as of December 31, 2017, including adjustments in connection with the Share Distribution:

	Number of Shares	Weighted Average Exercise Price
2009 Plan		
Balance at March 31, 2016	362,513	\$ 11.21*
Granted	—	—
Exercised	(131,252)	11.48
Canceled/Forfeited	(24,897)	10.56
Balance at March 31, 2017	206,364	11.12
Granted	—	—
Exercised	—	—

Canceled/Forfeited	—	—
Balance at December 31, 2017	206,364	\$ 11.12

	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
December 31, 2017 Outstanding	5.8 years	\$ 1,120,838
Exercisable	5.8 years	\$ 1,025,296

* Certain adjustments were made to the exercise price and number of shares of Capital Southwest awards using volumetric weighted-average prices for the 10-day period immediately prior to and immediately following the distribution with the intention of preserving the economic value of the awards immediately prior to the distribution for all Capital Southwest employees.

We recognize compensation cost using the straight-line method for all share-based payments. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the requisite service period of the related stock options. Accordingly, for both the three months ended December 31, 2017 and 2016, we recognized stock option compensation expense of \$48.0 thousand related to the stock options held by our employees

Table of Contents

and officers. For both the nine months ended December 31, 2017 and 2016, we recognized stock option compensation expense of \$0.1 million related to the stock options held by our employees and officers. As of December 31, 2017, the total remaining unrecognized compensation cost related to non-vested stock options was \$0.1 million, which will be amortized over the weighted-average vesting period of approximately 1.0 years.

At December 31, 2017, the range of exercise prices was \$7.55 to \$11.66 and the weighted-average remaining contractual term of outstanding options was 5.8 years. The total number of shares of common stock exercisable under the 2009 Plan at December 31, 2017 was 188,439 shares with a weighted-average exercise price of \$11.11. During the quarter ended December 31, 2017, 57,322 options became exercisable and no options were exercised. During the quarter ended December 31, 2016, 57,321 options became exercisable and 85,981 options were exercised with an average exercise price of \$11.53.

Individual Incentive Awards

On January 16, 2012, our Board of Directors approved the issuance of 104,000 individual cash incentive awards with a baseline for measuring increases in NAV per share of \$36.74 (NAV at December 31, 2011) to provide deferred compensation to certain key employees. Under the individual cash incentive award agreements, awards vest on the fifth anniversary of the award date. Upon exercise of an individual cash incentive award, the Company pays the recipient a cash payment in an amount equal to the NAV per share minus the baseline NAV per share, adjusted for capital gain dividends declared.

In connection with the Share Distribution, we entered into the Employee Matters Agreement with CSWI. Under the Employee Matters Agreement, the individual cash incentive award agreements were amended to provide that the value of each individual cash incentive award was determined based upon the NAV of CSWC as of June 30, 2015. The remaining terms of each individual cash incentive award agreement, including the vesting and payment terms, will remain unchanged. After the effective date of the Share Distribution, CSWC retains all liabilities associated with all individual cash incentive awards granted by CSWC.

There are currently 48,000 individual cash incentive awards outstanding as of December 31, 2017 and the liability for individual cash incentive awards was \$0.3 million at December 31, 2017. As of December 31, 2017, there is no remaining unrecognized compensation expense related to individual cash incentive awards.

There were no individual cash incentive awards vested or granted during the nine months ended December 31, 2017.

	Number of	Weighted	Weighted
Individual Cash Incentive Awards	Shares	Average Grant	Average
Unvested at March 31, 2017	48,000	Price Per Share	Remaining
Granted	—	\$ 47.03	Vesting Term
Vested	—	—	(in Years)
Forfeited or expired	—	—	
Unvested at December 31, 2017	48,000	\$ 47.03	0.9

10. OTHER EMPLOYEE COMPENSATION

We established a 401(k) plan (“401K Plan”) effective October 1, 2015. All full-time employees are eligible to participate in the 401K Plan. The 401K Plan permits employees to defer a portion of their total annual compensation up to the Internal Revenue Service annual maximum based on age and eligibility. During the quarter ended December 31, 2017, we made contributions to the 401K Plan of up to 4.5% of the Internal Revenue Service’s annual maximum eligible compensation, all of which is fully vested immediately. During the three months ended December 31, 2017 and 2016, we made matching contributions of approximately \$15.9 thousand and \$19.3 thousand, respectively. During the nine months ended December 31, 2017 and 2016, we made matching contributions of approximately \$89.8 thousand and \$88.0 thousand, respectively.

Table of Contents

11.Commitments AND CONTINGENCIES

Commitments

In the normal course of business, the Company is a party to financial instruments with off-balance sheet risk, consisting primarily of unused commitments to extend financing to the Company's portfolio companies. Since commitments may expire without being drawn upon, the total commitment amount does not necessarily represent future cash requirements.

The balances of unused commitments to extend financing as of December 31, 2017 and March 31, 2017 were as follows:

Portfolio Company	Investment Type	December 31, 2017	March 31, 2017
I-45 SLF LLC	Equity Investment	\$ 3,200,000	\$ 7,200,000
Clickbooth.com, LLC	Revolving Loan	2,000,000	—
Zenfolio Inc.	Revolving Loan	2,000,000	—
Total unused commitments to extend financing		\$ 7,200,000	\$ 7,200,000

Contingencies

We may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. To our knowledge, we have no currently pending material legal proceedings to which we are party or to which any of our assets is subject.

12.RELATED PARTY TRANSACTIONS

As a BDC, we are obligated under the 1940 Act to make available to our portfolio companies significant managerial assistance. "Making available significant managerial assistance" refers to any arrangement whereby we provide significant guidance and counsel concerning the management, operations, or business objectives and policies of a portfolio company. We are also deemed to be providing managerial assistance to all portfolio companies that we control, either by ourselves or in conjunction with others. The nature and extent of significant managerial assistance provided by us will vary according to the particular needs of each portfolio company. During both the three months ended December 31, 2017 and 2016, we received management and other fees from certain of our portfolio companies

totaling \$0.1 million, which were recognized as Fees and other income on the Consolidated Statements of Operations. During both the nine months ended December 31, 2017 and 2016, we received management and other fees from certain of our portfolio companies totaling \$0.3 million, which were recognized as Fees and other income on the Consolidated Statements of Operations. Additionally, as of December 31, 2017 and March 31, 2017, we had dividends receivable from I-45 SLF of \$2.3 million and \$2.1 million, respectively, which were included in dividends and interest receivables on the Consolidated Statements of Assets and Liabilities.

13.SUBSEQUENT EVENTS

On January 2, 2018, CSWC paid quarterly dividends declared on November 30, 2017 in the amount of \$4.2 million, or \$0.26 per share.

Table of Contents

I-45 SLF LLC

In September 2015, we entered into an LLC agreement with Main Street to form I-45 SLF. I-45 SLF began investing in syndicated senior secured loans in the upper middle market during the quarter ended December 31, 2015. The initial equity capital commitment to I-45 SLF totaled \$85.0 million, consisting of \$68.0 million from CSWC and \$17.0 million from Main Street. Approximately \$81.0 million was funded as of December 31, 2017, relating to these commitments, of which \$64.8 million was from CSWC. As of December 31, 2017, CSWC has unfunded equity commitments outstanding of \$3.2 million. CSWC owns 80.0% of I-45 SLF and has a profits interest of 75.6%, while Main Street owns 20.0% and has a profits interest of 24.4%. I-45 SLF's Board of Managers makes all investment and operational decisions for the fund, and consists of equal representation from CSWC and Main Street.

As of December 31, 2017, I-45 SLF had total assets of \$238.9 million. I-45 SLF currently has approximately \$218.0 million of credit investments at fair value as of December 31, 2017. The portfolio companies in I-45 SLF are in industries similar to those in which CSWC may invest directly. As of December 31, 2017, approximately \$17.5 million of the credit investments were unsettled trades. During the three months ended December 31, 2017, I-45 SLF declared a total dividend of \$3.0 million of which \$2.3 million was paid to CSWC in January 2018.

Additionally, I-45 SLF closed on a \$75.0 million 5-year senior secured credit facility (the "I-45 credit facility") in November 2015. This facility includes an accordion feature which will allow I-45 SLF to achieve leverage of approximately 2x debt-to-equity. Borrowings under the facility are secured by all of the assets of I-45 SLF and bear interest at a rate equal to LIBOR plus 2.5% per annum. During the year ended March 31, 2017, I-45 SLF increased debt commitments outstanding by an additional \$90.0 million by adding three additional lenders to the syndicate, bringing total debt commitments to \$165.0 million. In July 2017, the I-45 credit facility was amended to extend the maturity to July 2022. Additionally, the amendment reduced the interest rate on borrowings to LIBOR plus 2.4% per annum. Under the I-45 credit facility, \$134.0 million has been drawn as of December 31, 2017.

Table of Contents

Below is a summary of I-45 SLF's portfolio, followed by a listing of the individual loans in I-45 SLF's portfolio as of December 31, 2017 and March 31, 2017:

¹ Represents the interest rate as of December 31, 2017. All interest rates are payable in cash, unless otherwise noted. The majority of investments bear interest at a rate that may be determined by reference to London Interbank Offered Rate (“LIBOR” or “L”) or Prime (“P”) which reset daily, monthly, quarterly, or semiannually. For each the Company has

provided the spread over LIBOR or Prime in effect at December 31, 2017. Certain investments are subject to a LIBOR or Prime interest rate floor.

- ² Represents the fair value determined utilizing a similar process as the Company in accordance with ASC 820. However, the determination of such fair value is determined by the Board of Managers of the Joint Venture. It is not included in the Company's Board of Directors' valuation process described elsewhere herein.
- ³ The investment has approximately \$0.3 million in an unfunded delayed draw commitment as of December 31, 2017.
- ⁴ The investment has approximately \$2.1 million in an unfunded delayed draw commitment as of December 31, 2017.
- ⁵ The investment has approximately \$1.6 million in an unfunded delayed draw commitment as of December 31, 2017.
- ⁶ The investment has approximately \$0.5 million in an unfunded delayed draw commitment as of December 31, 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our consolidated financial statements and the notes thereto included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017 as filed with the SEC on June 1, 2017, (the "Form 10-K").

The information contained herein may contain "forward-looking statements" based on our current expectations, assumptions and estimates about us and our industry. These forward-looking statements involve risks and uncertainties. Words such as "believe," "seek," "estimate," "expect," "intend," "potential," "target," "plan," "will," "would," "continue" and other similar expressions identify forward-looking statements. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements that are subject to risks, uncertainties and assumptions. Our actual results could differ materially from those we express in the forward-looking statements as a result of several factors more fully described in "Risk Factors" and elsewhere in our Form 10-K for the year ended March 31, 2017 and in this Form 10-Q. The forward-looking statements made in this Form 10-Q relate only to events as of the date on which the statements are made. You should read the following discussion in conjunction with the consolidated financial statements and related footnotes and other financial information included in our Form 10-K for the year ended March 31, 2017. We undertake no obligation to update publicly any forward-looking statements for any reason, whether as a result of new information, future events or otherwise, except as required by law.

OVERVIEW

We are an internally managed investment company that specializes in providing customized debt and equity financing to lower middle market, or LMM, companies and debt capital to upper middle market, or UMM, companies in a broad range of investment segments located primarily in the United States. Our principal investment objective is to produce attractive risk-adjusted returns by generating current income from our debt investments and capital appreciation from our equity and equity related investments. Our investment strategy is to partner with business owners, management teams and financial sponsors to provide flexible financing solutions to fund growth, changes of control, or other corporate events. We invest primarily in senior debt securities, secured by security interests in portfolio company assets, and in secured and unsecured subordinated debt securities. We also invest in equity interests in our portfolio companies alongside our debt securities.

We focus on investing in companies with histories of generating revenues and positive cash flow, established market positions and proven management teams with strong operating discipline. We target senior debt, subordinated debt, and equity investments in LMM companies, as well as first and second lien syndicated loans in UMM companies. Our target LMM companies typically have annual earnings before interest, taxes, depreciation and amortization, or EBITDA between \$3.0 million and \$15.0 million, and our LMM investments generally range from \$5.0 million to

\$20.0 million. Our UMM investments generally include syndicated first and second lien loans in companies with EBITDA generally greater than \$50.0 million, and our UMM investments typically range from \$5.0 million to \$10.0 million.

We seek to fill the financing gap for LMM businesses, which, historically, have had more limited access to financing from commercial banks and other traditional sources. The underserved nature of the LMM creates the opportunity for us to meet the financing needs of LMM companies while also negotiating favorable transaction terms and equity participations. Our ability to invest across a company's capital structure, from secured loans to equity securities, allows us to offer portfolio companies a comprehensive suite of financing options. Providing customized financing solutions is important to LMM companies. We generally seek to partner directly with financial sponsors, entrepreneurs, management teams and business owners in making our investments. Our LMM debt investments typically include first lien senior debt, secured by a first lien on the assets of the portfolio company, as well as subordinated debt. Our LMM investments typically have a term of between five and seven years from the original investment date. We also often seek to invest in equity securities in our LMM portfolio companies.

Our investments in UMM companies primarily consist of direct investments in or secondary purchases of interest bearing debt securities in privately held companies that are generally larger in size than the LMM companies included in our portfolio. Our UMM debt investments are generally secured by either a first or second priority lien on the assets of the portfolio company and typically have an expected duration of between three and seven years from the original investment date.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND USE OF ESTIMATES

The preparation of our consolidated financial statements in accordance with U.S. GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses for the periods covered by the consolidated financial statements. We have identified investment valuation and revenue recognition as our most critical accounting estimates. On an on-going basis, we evaluate our estimates, including those related to the matters below. These estimates are based on the information that is currently available to us and on various other assumptions that we believe to be reasonable under the circumstances. Actual results could differ materially from those estimates under different assumptions or conditions. A discussion of our critical accounting policies follows.

Valuation of Investments

The most significant determination inherent in the preparation of our consolidated financial statements is the valuation of our investment portfolio and the related amounts of unrealized appreciation and depreciation. As of December 31, 2017 and March 31, 2017, our investment portfolio at fair value represented approximately 91.1% and 88.1%, respectively, of our total assets. We are required to report our investments at fair value. We follow the provisions of Accounting Standards Codification, or ASC 820, Fair Value Measurements and Disclosures ("ASC 820"). ASC 820 defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and enhances disclosure requirements for fair value measurements. ASC 820 requires us to assume that the portfolio investment is to be sold in the principal market to independent market participants, which may be a hypothetical market. See Note 4 — "Fair Value Measurements" in the notes to consolidated financial statements for a detailed discussion of our investment portfolio valuation process and procedures.

Due to the inherent uncertainty in the valuation process, our determination of fair value for our investment portfolio may differ materially from the values that would have been determined had a ready market for the securities actually existed. In addition, changes in the market environment, portfolio company performance, and other events may occur over the lives of the investments that may cause the gains or losses ultimately realized on these investments to be materially different than the valuations currently assigned. We determine fair value of each individual investment and record changes in fair value as unrealized appreciation or depreciation.

Our Board of Directors has the final responsibility for reviewing and approving, in good faith, our determination of the fair value for our investment portfolio and our valuation procedures, consistent with the Investment Company Act of 1940, as amended, requirements. We believe our investment portfolio as of December 31, 2017 and March 31, 2017 approximates fair value as of those dates based on the markets in which we operate and other conditions in existence on those reporting dates.

Revenue Recognition

Interest and Dividend Income

Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. Dividend income is recognized on the date dividends are declared by the portfolio company or at the point an obligation exists for the portfolio company to make a distribution. Discounts/premiums received to par on loans purchased are capitalized and accreted or amortized into income over the life of the loan. In accordance with our valuation policy, accrued interest and dividend income is evaluated periodically for collectability. When we do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against interest income receivable, thereby placing the loan or debt security on non-accrual status, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due. If a loan or debt security's status significantly improves regarding ability to service debt or other obligations, it will be restored to accrual basis. As of December 31, 2017, we did not have any investments on non-accrual status.

Recently Issued Accounting Standards

In February 2016, the FASB issued ASU 2016-02, Leases, which requires lessees to recognize on the balance sheet a right-of-use asset, representing its right to use the underlying asset for the lease term, and a lease liability for all

Table of Contents

leases with terms greater than 12 months. The guidance also requires qualitative and quantitative disclosures designed to assess the amount, timing, and uncertainty of cash flows arising from leases. The standard requires the use of a modified retrospective transition approach, which includes a number of optional practical expedients that entities may elect to apply. The new guidance is effective for annual periods beginning after December 15, 2018, and interim periods therein. Early application is permitted. CSWC is currently evaluating the impact the adoption of this new accounting standard will have on its consolidated financial statements, but the impact of the adoption is not expected to be material.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606). ASU 2014-09 supersedes the revenue recognition requirements under SAC Topic 605, Revenue Recognition, and most industry-specific guidance throughout the Industry Topics of the ASC. The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which an entity expects to be entitled in exchange for those goods or services. Under the new guidance, an entity is required to perform the following five steps: (1) identify the contract(s) with a customer; (2) identify the performance obligations in the contract; (3) determine the transaction price; (4) allocate the transaction price to the performance obligations in the contract, and (5) recognize revenue when (or as) the entity satisfies a performance obligation. The new guidance will significantly enhance comparability of revenue recognition practices across entities, industries, jurisdictions and capital markets. Additionally, the guidance requires improved disclosures as to the nature, amount, timing and uncertainty of revenue that is recognized. In May 2016, the FASB issued ASU No. 2016-12, Revenue from Contracts with Customers (Topic 606)—Narrow-Scope Improvements and Practical Expedients. This ASU clarified guidance on assessing collectability, presenting sales tax, measuring noncash consideration, and certain transition matters. The FASB tentatively decided to defer the effective date of the new revenue standard for public entities under U.S. GAAP for one year. The new guidance will be effective for the annual reporting period beginning after December 15, 2017, including interim periods within that reporting period. Early adoption was permitted for annual reporting periods beginning after December 15, 2016. CSWC completed its initial assessment in evaluating the potential impact on its consolidated financial statements and based on its initial assessment determined that its financial contracts are excluded from the scope of ASU 2014-09. As a result of the scope exception for financial contracts, the Company's management has determined that there will be no material changes to the recognition timing and classification of revenues and expenses; additionally, the Company's management does not expect the adoption of ASU 2014-09 to have a significant impact to pretax income or on its consolidated financial statement disclosures upon adoption. The Company will continue to evaluate the impacts of ASU 2014-09 through the date of adoption to ensure that its initial assessment continues to remain accurate.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230), which is intended to reduce the existing diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance is effective for annual periods beginning after December 15, 2017, and interim periods therein. Early application is permitted. The impact of the adoption of this new accounting standard on the Company's consolidated financial statements is not expected to be material.

INVESTMENT PORTFOLIO COMPOSITION

Our LMM investments consist of secured debt, subordinated debt, equity warrants and direct equity investments in privately held LMM companies based in the United States. Our LMM portfolio companies generally have annual EBITDA between \$3.0 million and \$15.0 million, and our LMM investments typically range from \$5.0 million to \$20.0 million. The LMM debt investments are typically secured by either a first or second priority lien on the assets of the portfolio company, generally bear interest at floating rates, and generally have a term of between five and seven years from the original investment date.

Our UMM investments consist of direct investments in or secondary purchases of interest-bearing debt securities in privately held companies based in the United States that are generally larger in size than the LMM companies included in our portfolio with EBITDA generally greater than \$50.0 million. Our UMM investments typically range from \$5.0 million to \$10.0 million. Our UMM debt investments are generally secured by either a first or second priority lien on the assets of the portfolio company and typically have a term of between three and seven years from the original investment date.

Table of Contents

The total value of our investment portfolio was \$367.1 million as of December 31, 2017, as compared to \$286.9 million as of March 31, 2017. As of December 31, 2017, we had investments in 29 portfolio companies with an aggregate cost of \$320.1 million. As of March 31, 2017, we had investments in 28 portfolio companies with an aggregate cost of \$250.5 million.

As of December 31, 2017 and March 31, 2017, approximately \$207.6 million, or 91.7%, and \$155.0 million, or 92.6%, respectively, of our debt investment portfolio (at fair value) bore interest at floating rates, all of which were subject to contractual minimum interest rates. As of December 31, 2017 and March 31, 2017, approximately \$18.9 million, or 8.3%, and \$12.4 million, or 7.4%, respectively, of our debt investment portfolio (at fair value) bore interest at fixed rates.

The following tables provide a summary of our investments in LMM and UMM companies as of December 31, 2017 and March 31, 2017 (excluding our investment in I-45 SLF LLC, or I-45 SLF):

	As of December 31, 2017	
	LMM (a)	UMM
	(dollars in thousands)	
Number of portfolio companies	17	11
Fair value	\$ 229,889	\$ 70,074
Cost	\$ 185,821	\$ 69,449
% of portfolio at cost - debt	83.6%	100.0%
% of portfolio at cost - equity	16.4%	-
% of debt investments at cost secured by first lien	73.4%	59.7%
Weighted average annual effective yield (b)(c)	11.5%	10.2%
Weighted average EBITDA (c)	\$ 8,900	\$ 88,100
Weighted average leverage through CSWC security (c)(d)	3.4x	4.3x

(a) At December 31, 2017, we had equity ownership in approximately 70.6% of our LMM investments.

(b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost as of December 31, 2017, including accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status. As of December 31, 2017, there were no investments on non-accrual status. Weighted-average annual effective yield is higher than what an investor in shares in our common stock will realize on its investment because it does not reflect our expenses or any sales load paid by an investor.

(c) Weighted average metrics are calculated using investment cost basis weighting.

(d) Includes CSWC debt investments only. Calculated as the amount of each portfolio company's debt (including CSWC's position and debt senior or pari passu to CSWC's position, but excluding debt subordinated to CSWC's position) in the capital structure divided by each portfolio company's adjusted EBITDA. Management uses this metric as a guide to evaluate relative risk of its position in each portfolio debt investment.

Table of Contents

	As of March 31, 2017	
	LMM (a)	UMM
	(dollars in thousands)	
Number of portfolio companies	10	17
Fair value	\$ 126,305	\$ 97,180
Cost	\$ 93,822	\$ 95,918
% of portfolio at cost - debt	74.8%	100.0%
% of portfolio at cost - equity	25.2%	-
% of debt investments at cost secured by first lien	61.5%	51.2%
Weighted average annual effective yield (b)(c)	11.4%	9.6%
Weighted average EBITDA (c)	\$ 7,400	\$ 101,300
Weighted average leverage through CSWC security (c)(d)	3.1x	4.0x

- (a) At March 31, 2017, we had equity ownership in approximately 70.0% of our LMM investments.
- (b) The weighted-average annual effective yields were computed using the effective interest rates for all debt investments at cost as of March 31, 2017, including accretion of original issue discount but excluding fees payable upon repayment of the debt instruments and any debt investments on non-accrual status. As of March 31, 2017, there were no investments on non-accrual status. Weighted-average annual effective yield is higher than what an investor in shares in our common stock will realize on its investment because it does not reflect our expenses or any sales load paid by an investor.
- (c) Weighted average metrics are calculated using investment cost basis weighting.
- (d) Includes CSWC debt investments only. Calculated as the amount of each portfolio company's debt (including CSWC's position and debt senior or pari passu to CSWC's position, but excluding debt subordinated to CSWC's position) in the capital structure divided by each portfolio company's adjusted EBITDA. Management uses this metric as a guide to evaluate relative risk of its position in each portfolio debt investment.

As of December 31, 2017 and March 31, 2017, our investment portfolio consisted of the following investments:

	Fair Value	Percentage of	Cost	Percentage of	
	(dollars in millions)	Total Portfolio		Total Portfolio	
December 31, 2017:					
First lien loans ¹	\$ 179.2	48.8	% \$ 177.9	55.6	%
Second lien loans	28.4	7.7	28.0	8.7	
Subordinated debt	18.8	5.1	18.9	5.9	
Preferred equity	26.8	7.3	15.4	4.8	
Common equity & warrants	46.7	12.8	15.1	4.7	
I-45 SLF LLC ²	67.2	18.3	64.8	20.3	
	\$ 367.1	100.0	% \$ 320.1	100.0	%
March 31, 2017:					
First lien loans	\$ 107.8	37.6	% \$ 106.8	42.6	%

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Second lien loans	47.2	16.5	46.9	18.7	
Subordinated debt	12.5	4.3	12.4	4.9	
Preferred equity	18.3	6.4	14.8	5.9	
Common equity & warrants	37.7	13.1	8.8	3.6	
I-45 SLF LLC2	63.4	22.1	60.8	24.3	
	\$ 286.9	100.0	% \$ 250.5	100.0	%

¹ Included in first lien loans are loans structured as first lien last out loans. These loans may in certain cases be subordinated in payment priority to other senior secured lenders. As of December 31, 2017 and March 31, 2017, the fair value of the first lien last out loans are \$26.9 million and \$21.8 million, respectively.

² I-45 SLF, LLC is a joint venture between CSWC and Main Street Capital. This entity primarily invests in syndicated senior secured loans in the UMM. The portfolio companies held by I-45 SLF represent a diverse set of industry classifications, which are similar to those in which CSWC invests directly. We own 80.0% of I-45 SLF and have a profits interest of 75.6%, while Main Street Capital owns 20.0% and has a profits interest of 24.4%. I-45 SLF's Board of Managers makes all investment and operational decisions for the fund, and consists of equal representation from our Company and Main Street. The Company does not guarantee or otherwise obligate itself to make payments on debts owed by I-45 SLF.

³ Presentation of the March 31, 2017 disclosure is updated to conform to the current period presentation.

Table of Contents

Portfolio Asset Quality

We utilize an internally developed investment rating system to rate the performance and monitor the expected level of returns for each debt investment in our portfolio. The investment rating system takes into account both quantitative and qualitative factors of the portfolio company and the investments held therein, including each investment's expected level of returns and the collectability of our debt investments, comparisons to competitors and other industry participants and the portfolio company's future outlook. The ratings are not intended to reflect the performance or expected level of returns of our equity investments.

- Investment Rating 1 represents the least amount of risk in our portfolio. The investment is performing materially above underwriting expectations and the trends and risk factors are generally favorable.
- Investment Rating 2 indicates the investment is performing as expected at the time of underwriting and the trends and risk factors are generally favorable to neutral.
- Investment Rating 3 involves an investment performing below underwriting expectations and the trends and risk factors are generally neutral to negative. The portfolio company or investment may be out of compliance with financial covenants and interest payments may be impaired, however principal payments are generally not past due.
- Investment Rating 4 indicates that the investment is performing materially below underwriting expectations, the trends and risk factors are generally negative and the risk of the investment has increased substantially. Interest and principal payments on our investment are likely to be impaired.

The following table shows the distribution of our debt portfolio investments on the 1 to 4 investment rating scale at fair value as of December 31, 2017 and March 31, 2017:

Investment Rating	As of December 31, 2017		
	Debt Investments at Fair Value Percentage of Debt Portfolio (dollars in thousands)		
1	\$ 8,194	3.6	%
2	207,798	91.8	
3	10,450	4.6	
4	-	-	
Total	\$ 226,442	100.0	%

As of March 31, 2017
Debt
Investments at Percentage of

Investment Rating	Fair Value (dollars in thousands)	Debt Portfolio	
1	\$ 12,173	7.3	%
2	155,276	92.7	
3	-	-	
4	-	-	
Total	\$ 167,449	100.0	%

Interest and dividend income is recorded on an accrual basis to the extent amounts are expected to be collected. When we do not expect the debtor to be able to service all of its debt or other obligations, we will generally establish a reserve against interest income receivable, thereby placing the loan or debt security on non-accrual status, and cease to recognize interest income on that loan or debt security until the borrower has demonstrated the ability and intent to pay contractual amounts due.

As of December 31, 2017 and March 31, 2017, we did not have any investments on non-accrual status.

Table of Contents

Investment Activity

During the nine months ended December 31, 2017, we made new debt investments in 12 portfolio companies totaling \$127.4 million, follow-on debt investments in two portfolio companies totaling \$6.2 million, and equity investments in one existing and five new portfolio companies totaling \$6.6 million. We also funded \$4.0 million on our existing equity commitment to I-45 SLF. We received contractual principal repayments totaling approximately \$9.3 million and full prepayments of approximately \$67.6 million from 12 portfolio companies.

During the nine months ended December 31, 2016, we made new debt investments in 11 portfolio companies totaling \$75.4 million and follow-on debt investments in three portfolio companies totaling \$6.6 million. We also funded \$20.0 million on our existing equity commitment to I-45 SLF. We received contractual principal repayments totaling approximately \$2.9 million and full prepayments of approximately \$17.9 million from 16 portfolio companies. We received proceeds related to the sales of certain debt and equity securities totaling \$6.4 million and recognized net realized gains on such sales totaling \$3.2 million.

Total portfolio investment activity for the nine months ended December 31, 2017 and 2016 was as follows (dollars in thousands):

	First Lien	Second Lien	Subordinated	Preferred & Common	I-45 SLF, LLC	Total

Table of Contents

RESULTS OF OPERATIONS

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned “Net increase in net assets from operations” and consists of three elements. The first is “Net investment income,” which is the difference between income from interest, dividends and fees and our combined operating and interest expenses, net of applicable income taxes. The second element is “Net realized gain on investments before income tax,” which is the difference between the proceeds received from the disposition of portfolio securities and their stated cost, net of applicable income tax expense based on our tax year. The third element is the “Net change in unrealized appreciation of investments, net of tax,” which is the net change in the market or fair value of our investment portfolio, compared with stated cost. It should be noted that the “Net realized gain on investments before income tax” and “Net change in unrealized appreciation of investments, net of tax” are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being “unrealized” to being “realized.” Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Comparison of three months ended December 31, 2017 and December 31, 2016

	Three Months Ended December 31,		Net Change		
	2017	2016	Amount	%	
	(in thousands)				
Total investment income	\$ 9,019	\$ 6,865	\$ 2,154	31.4	%
Total operating expenses	(4,718)	(3,456)	(1,262)	36.5	%
Income before taxes	4,301	3,409	892	26.2	%
Income tax (benefit) expense	(362)	536	(898)	(167.5)	%
Net investment income	4,663	2,873	1,790	62.3	%
Net realized gain on investments before income tax	617	72	545	756.9	%
Net change in unrealized appreciation on investments, net of tax	4,963	4,940	23	0.5	%
Net increase in net assets from operations	\$ 10,243	\$ 7,885	\$ 2,358	29.9	%

Investment Income

Total investment income consisted of interest income, management fees, dividend income and other income for each applicable period. For the three months ended December 31, 2017, Capital Southwest reported investment income of \$9.0 million, a \$2.2 million, or 31.4%, increase as compared to the three months ended December 31, 2016. The increase was primarily due to a \$2.0 million, or 55.3%, increase in interest income generated from our debt investments due to a 49.9% increase in the cost basis of debt investments held from \$151.0 million to \$226.4 million year over year in addition to an increase in the weighted average yield on debt investments from 10.32% to 10.95%

year over year.

Operating Expenses

Due to the nature of our business, the majority of our operating expenses are related to interest and fees on our borrowings, employee compensation (including both cash and share-based compensation) and general and administrative expenses.

Interest and Fees on our Borrowings

For the three months ended December 31, 2017, our total interest expense was \$1.3 million, an increase of \$1.0 million as compared to the total interest expense of \$0.3 million for the three months ended December 31, 2016. The increase was primarily attributable to an increase of \$43.6 million in average borrowings on our Credit Facility during the three months ended December 31, 2017, as well as the addition of the December 2022 Notes.

Salaries, General and Administrative Expenses

For the three months ended December 31, 2017, our total employee compensation expense (including both cash and share-based compensation) was \$2.5 million, an increase of \$0.5 million, or 26.7%, as compared to the total employee compensation expense of \$2.0 million for the three months ended December 31, 2016. The increase was primarily due to an increase in headcount. For the three months ended December 31, 2017, our total general and administrative expense

Table of Contents

was \$0.9 million, a decrease of \$0.2 million, or 18.4%, as compared to the total general and administrative expense of \$1.1 million for the three months ended December 31, 2016. The decrease was primarily due to a decrease in legal fees.

Net Investment Income

For the three months ended December 31, 2017, income before taxes increased by \$0.9 million, or 26.2%. As a result of the \$2.2 million increase in total investment income and a \$0.9 million decrease in income tax expense primarily due to the Tax Reform, offset by a \$1.3 million increase in operating expenses, net investment income increased from the prior year period by \$1.8 million to \$4.7 million.

Increase in Net Assets from Operations

During the three months ended December 31, 2017, we recognized realized gains totaling \$0.6 million, which consisted of gains on the partial repayments of three non-control/non-affiliate investments and full repayments of four non-control/non-affiliate investments.

In addition, during the three months ended December 31, 2017, we recorded a net change in unrealized appreciation of investments totaling \$5.0 million, consisting of net unrealized appreciation on our current portfolio of \$5.4 million, the reversal of \$0.3 million of net unrealized appreciation recognized in prior periods due to realized gains noted above, and net unrealized depreciation related to deferred tax associated with the Taxable Subsidiary of \$0.1 million. Net unrealized appreciation on our current portfolio included unrealized gains on TitanLiner, Inc. of \$4.5 million. These unrealized gains and losses were due to changes in fair value based on the overall EBITDA performance and cash flows of each investment.

During the three months ended December 31, 2016, we recognized realized gains totaling \$0.1 million, which consisted of net gains on the partial repayments of 11 non-control/non-affiliate investments, full repayment on one non-control/non-affiliate investment, the sale of one equity investment, and the conversion of one investment from debt to equity. In addition, during the three months ended December 31, 2016, we recorded a net change in unrealized appreciation of investments totaling \$5.0 million, consisting of net unrealized appreciation on our current portfolio of \$5.6 million and the reversal of \$0.6 million of net unrealized appreciation recognized in prior periods due to realized gains noted above. Net unrealized appreciation on our current portfolio included unrealized gains on Media Recovery, Inc. of \$2.7 million, Hygea Holdings of \$1.6 million and Deepwater Corrosion Services of \$1.0 million.

Comparison of nine months ended December 31, 2017 and December 31, 2016

	Nine Months Ended December 31,		Net Change

Investment Income

Total investment income consisted of interest income, management fees, dividend income and other income for each applicable period. For the nine months ended December 31, 2017, Capital Southwest reported investment income of \$25.3 million, a \$9.5 million, or 60.4%, increase as compared to the nine months ended December 31, 2016. The increase was primarily due to a \$6.9 million, or 82.4%, increase in interest income generated from our debt investments due to a 49.9% increase in the cost basis of debt investments held from \$151.0 million to \$226.4 million year over year in addition to an increase in the weighted average yield on debt investments from 10.32% to 10.95% year over year. Additionally, there was an increase of \$2.5 million in dividend income due to dividends received from I-45 SLF LLC and Media Recovery, Inc.

Table of Contents

Operating Expenses

Interest and Fees on Borrowings

For the nine months ended December 31, 2017, our total interest expense was \$2.9 million, an increase of \$2.5 million as compared to the total interest expense of \$0.4 million for the nine months ended December 31, 2016. The increase was primarily attributable to an increase in interest expense incurred on the Credit Facility due to an increase in average borrowings outstanding of \$29.5 million.

Salaries, General and Administrative Expenses

For the nine months ended December 31, 2017, our total employee compensation expense (including both cash and share-based compensation) was \$6.9 million, an increase of \$1.0 million, or 17.5%, as compared to the total employee compensation expense of \$5.9 million for the nine months ended December 31, 2016. The increase was primarily due to a \$0.4 million increase in share-based compensation due to additional restricted stock grants, as well as a \$0.6 million increase in cash compensation due to an increase in headcount. For the nine months ended December 31, 2017, our total general and administrative expense was \$3.5 million, an increase of \$0.2 million, or 4.6%, as compared to total general and administrative expense of \$3.3 million for the nine months ended December 31, 2016. The increase was primarily due to individually immaterial items including valuation services, software fees and insurance expense offset by a decrease in legal expenses.

Net Investment Income

For the nine months ended December 31, 2017, income before taxes increased by \$5.8 million, or 95.8%. As a result of the \$9.5 million increase in total investment income and a decrease in income tax expense of \$1.6 million primarily due to the Tax Reform, offset by a \$3.7 million increase in operating expenses, net investment income increased from the prior year period by \$7.4 million to \$12.0 million.

Increase in Net Assets from Operations

During the nine months ended December 31, 2017, we recognized realized gains totaling \$1.5 million, which consisted of gains on the partial repayments of five non-control/non-affiliate investments, full repayment on 12 non-control/non-affiliate investments, and the sale of one non-control/non-affiliate equity investment.

In addition, during the nine months ended December 31, 2017, we recorded a net change in unrealized appreciation of investments totaling \$10.8 million, consisting of net unrealized appreciation on our current portfolio of \$11.2 million, the reversal of \$0.6 million of net unrealized appreciation recognized in prior periods due to realized gains noted above, and net unrealized appreciation related to deferred tax associated with the Taxable Subsidiary of \$0.2 million. Net unrealized appreciation on our current portfolio included unrealized gains on TitanLiner, Inc. of \$12.9 million, Media Recovery, Inc. of \$2.3 million and Vistar Media of \$1.6 million, partially offset by unrealized losses on Deepwater Corrosion Services of \$5.3 million. These unrealized gains and losses were due to changes in fair value based on the overall EBITDA performance and cash flows of each investment.

Table of Contents

During the nine months ended December 31, 2016, we recognized realized gains totaling \$3.8 million, which consisted of net gains on the partial repayments of 12 non-control/non-affiliate investments, full repayment of two non-control/non-affiliate investment, the sale of certain equity securities, the conversion of one investment from debt to equity and the write down of one escrow receivable. In addition, during the nine months ended December 31, 2016, we recorded a net change in unrealized appreciation of investments totaling \$9.1 million, consisting of net unrealized appreciation on our current portfolio of \$13.6 million, the reversal of \$4.0 million of net unrealized appreciation recognized in prior periods due to realized gains noted above, and net unrealized depreciation related to deferred tax associated with the Taxable Subsidiary of \$0.5 million. Net unrealized appreciation on our current portfolio included unrealized gains on Media Recovery, Inc. of \$6.1 million and Deepwater Corrosion Services of \$5.3 million, partially offset by unrealized losses on TitanLiner, Inc. of \$3.4 million.

FINANCIAL LIQUIDITY AND CAPITAL RESOURCES

Management believes that the Company's cash and cash equivalents, cash available from investments, and commitments under the Credit Facility are adequate to meet its needs for the next twelve months.

Cash Flows

For the nine months ended December 31, 2017, we experienced a net decrease in cash and cash equivalents in the amount of \$1.9 million. During that period, our operating activities used \$51.5 million in cash, consisting primarily of new portfolio investments of \$144.2 million, partially offset by \$75.5 million of repayments received from debt investments in portfolio companies. In addition, our financing activities increased cash by \$49.6 million, consisting primarily of proceeds from the issuance of the December 2022 Notes of \$55.8 million and net borrowings under the Credit Facility of \$10.0 million, partially offset by cash dividends paid in the amount of \$14.4 million. At December 31, 2017, the Company had cash and cash equivalents of approximately \$20.5 million.

For the nine months ended December 31, 2016, we experienced a net decrease in cash and cash equivalents in the amount of \$63.3 million. During that period, our operating activities used \$72.3 million in cash, consisting primarily of new portfolio investments of \$102.0 million, partially offset by \$22.0 million of sales and repayments received from debt investments in portfolio companies and \$4.4 million in proceeds from sales of equity investments in portfolio companies. In addition, our financing activities increased cash by \$9.0 million, consisting primarily of proceeds from the Credit Facility of \$15.0 million, partially offset by cash dividends paid in the amount of \$3.3 million and debt issuance costs paid of \$2.5 million. At December 31, 2017, the Company had cash and cash equivalents of approximately \$32.7 million.

Financing Transactions

Credit Facility

In August 2016, CSWC entered into a senior secured credit facility (the “Credit Facility”) to provide additional liquidity to support its investment and operational activities, which included total commitments of \$100.0 million. The Credit Facility contains an accordion feature that allows CSWC to increase the total commitments under the facility up to \$150.0 million from new and existing lenders on the same terms and conditions as the existing commitments. In August 2017, we increased our total commitments by \$15 million through adding an additional lender using the accordion feature.

On November 16, 2017, CSWC entered into Amendment No. 1 (the “Amendment”) to its Credit Facility. Prior to the Amendment, borrowings under the Credit Facility accrued interest on a per annum basis at a rate equal to the applicable LIBOR rate plus 3.25% with no LIBOR floor. CSWC paid unused commitment fees of 0.50% to 1.50% per annum, based on utilization, on the unused lender commitments under the Credit Facility. The Amendment (1) increased the total borrowing capacity under the Credit Facility to \$180.0 million, with commitments from a diversified group of eight lenders, (2) increased the Credit Facility’s accordion feature that allows for an increase in total commitments of up to \$250 million under the Credit Facility from new and existing lenders on the same terms and conditions as the existing commitments, (3) reduced the interest rate on borrowings to LIBOR plus 3.00%, with a step-down to LIBOR plus 2.75% at the time the Company’s net worth exceeds \$325 million, (4) reduced unused commitment fees to a range of 0.50% to 1.0% per annum based on utilization, and (5) extended the Credit Facility’s revolving period that ended on August 30, 2019 through November 16, 2020. Additionally, the final maturity of the Credit Facility was extended from August 30, 2020 to November 16, 2021.

Table of Contents

The Credit Facility contains certain affirmative and negative covenants, including but not limited to: (1) certain reporting requirements, (2) maintaining RIC and BDC status, (3) maintaining a minimum shareholders' equity, (4) maintaining a minimum consolidated net worth, (5) maintaining a regulatory asset coverage of not less than 200.0%, (6) maintaining a consolidated interest coverage ratio of at least 2.5 to 1.0, and (7) at any time the outstanding advances exceed 90.0% of the borrowing base, maintaining a minimum liquidity of not less than 10.0% of the covered debt amount.

The Credit Facility also contains customary events of default, including, without limitation, nonpayment, misrepresentation of representations and warranties in a material respect, breach of covenant, bankruptcy, and change of control, with customary cure and notice provisions. If the Company defaults on its obligations under the Credit Facility, the lenders may have the right to foreclose upon and sell, or otherwise transfer, the collateral subject to their security interests. There are no changes to the covenants or the events of default in the Credit Facility as a result of the Amendment.

The Credit Facility is secured by (1) substantially all of the present and future property and assets of the Company and the guarantors and (2) 100.0% of the equity interests in the Company's wholly-owned subsidiaries. As of December 31, 2017, substantially all of the Company's assets were pledged as collateral for the Credit Facility.

At December 31, 2017, CSWC had \$35.0 million in borrowings outstanding under the Credit Facility. CSWC recognized interest expense related to the Credit Facility, including unused commitment fees and amortization of deferred loan costs of \$1.1 million and \$2.7 million, respectively, for the three and nine months ended December 31, 2017. For the three and nine months ended December 31, 2016, CSWC recognized interest expense of \$0.3 million and \$0.4 million, respectively. The weighted average interest rate on the Credit Facility was 4.75% and 4.67%, respectively, for the three and nine months ended December 31, 2017. Average borrowings for the three and nine months ended December 31, 2017 were \$58.6 million and \$44.5 million, respectively. As of December 31, 2017, CSWC was in compliance with all financial covenants under the Credit Facility.

Notes

In December 2017, the Company issued \$57.5 million, including the underwriters' full exercise of their option to purchase additional principal amounts to cover over-allotments, in aggregate principal amount of 5.95% Notes due 2022 (the "December 2022 Notes"). The December 2022 Notes mature on December 15, 2022 and may be redeemed in whole or in part at any time, or from time to time, at the Company's option on or after December 15, 2019. The December 2022 Notes bear interest at a rate of 5.95% per year, payable quarterly on March 15, June 15, September 15 and December 15 of each year, beginning on March 15, 2018. The December 2022 Notes are an unsecured obligation, rank pari passu with our other outstanding and future unsecured unsubordinated indebtedness and are effectively subordinated to all of our existing and future secured indebtedness, including borrowings under our Credit Facility.

As of December 31, 2017, the carrying amount of the December 2022 Notes was \$55.8 million. As of December 31, 2017, the fair value of the December 2022 Notes was \$59.9 million. The fair value is based on the closing price of the security of The Nasdaq Global Select Market, which is a Level 1 input under ASC 820. The Company recognized interest expense related to the December 2022 Notes, including amortization of deferred issuance costs of \$0.2 million for each of the three and nine months ended December 31, 2017.

The indenture governing the December 2022 Notes contains certain covenants including but not limited to (i) a requirement that the Company comply with the asset coverage requirement of the 1940 Act or any successor provisions, after giving effect to any exemptive relief granted to the Company by the SEC, (ii) a requirement that the Company will not declare any cash dividend, or declare any other cash distribution, upon a class of its capital stock, or purchase any such capital stock, unless, in every such case, at the time of the declaration of any such dividend or distribution, or at the time of any such purchase, the Company has an asset coverage (as defined in the 1940 Act) of at least 200% after deducting the amount of such dividend, distribution or purchase price, as the case may be, giving effect to any exemptive relief granted to the Company by the SEC and (iii) a requirement to provide financial information to the holders of the December 2022 Notes and the trustee under the indenture if the Company should no longer be subject to the reporting requirements under the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The indenture and supplement relating to the December 2022 Notes also provides for customary events of default. As of December 31, 2017, the Company was in compliance with all covenants of the December 2022 Notes.

We anticipate that we will continue to fund our investment activities through existing cash and cash equivalents,

Table of Contents

cash flows generated through our ongoing operating activities, utilization of available borrowings under our Credit Facility and future issuances of debt and equity on terms we believe are favorable to the Company and our shareholders. Our primary uses of funds will be investments in portfolio companies and operating expenses.

In order to satisfy the Internal Revenue Code requirements applicable to a RIC, we intend to distribute to our stockholders, after consideration and application of our ability under the Internal Revenue Code to carry forward certain excess undistributed taxable income from one tax year into the next tax year, substantially all of our taxable income. In addition, as a BDC, we generally are required to meet a coverage ratio of total assets to total senior securities, which include borrowings and any preferred stock we may issue in the future, of at least 200%. This requirement limits the amount that we may borrow.

CONTRACTUAL OBLIGATIONS

As shown below, we had the following contractual obligations as of December 31, 2017.

	Payments Due By Period (In thousands)				
	Total	Less than 1 Year	1-3 Years	3-5 Years	More Than 5 Years
Contractual Obligations					
Operating lease obligations	\$ 1,080	\$ 245	\$ 790	\$ 45	\$ -
Credit Facility (1)	40,342	1,388	38,954	-	-
December 2022 Notes (2)	74,701	3,469	6,947	64,285	-
	\$ 116,123	\$ 5,102	\$ 46,691	\$ 64,330	\$ -

(1) Amounts include interest payments calculated at an average rate 4.56% of outstanding credit facility borrowings, which were \$35.0 million as of December 31, 2017.

(2) Includes interest payments.

OFF-BALANCE SHEET ARRANGEMENTS

We may be a party to financial instruments with off-balance sheet risk in the normal course of business to meet the financial needs of our portfolio companies. These instruments may include commitments to extend credit and fund equity capital and involve, to varying degrees, elements of liquidity and credit risk in excess of the amount recognized in the balance sheet. At December 31, 2017, we had a total of approximately \$7.2 million in currently unfunded commitments, consisting of \$3.2 million in equity capital commitments to I-45 SLF that had not been fully called, a \$2.0 million revolver to Clickbooth.com, LLC, and a \$2.0 million revolver to Zenfolio Inc. The Company believes its

assets will provide adequate coverage to satisfy these commitments. As of December 31, 2017, the Company had cash and cash equivalents of \$20.5 million and \$145.0 million in available borrowings under the Credit Facility. At March 31, 2017, we had a total of approximately \$7.2 million in outstanding commitments related to equity capital commitments to I-45 SLF that had not been fully called. At March 31, 2017, the commitment to I-45 SLF was our sole unfunded obligation.

RECENT DEVELOPMENTS

On January 2, 2018, CSWC paid quarterly dividends declared on November 30, 2017 in the amount of \$4.2 million, or \$0.26 per share.

With the tax reform legislation enacted on December 22, 2017, there will be several impacts to the Company including the following: (1) the federal tax rate for deemed distributions for CSWC will be 21% effective January 1, 2018; (2) the federal tax rate for the Taxable Subsidiary will be 21% effective January 1, 2018; (3) the deferred tax asset held at CSMC was remeasured and will continue being measured at the federal tax rate of 21% (4) the valuation allowance on the deferred tax asset was released as of December 31, 2017 due to an increase in our projection of taxable income as further discussed in Note 6. Income Taxes in the Notes to the Consolidated Financial Statements; and (5) the federal tax rate for CSMC will be 21% effective January 1, 2018.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are subject to market risk. Market risk includes risk that arise from changes in interest rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. The prices of securities held by us may decline in response to certain events, including those directly involving the companies in which we invest; conditions affecting the general economy; overall market changes; legislative reform; local, regional, national or global political, social or economic instability; and interest rate fluctuations.

Interest Rate Risk

We are subject to interest rate risk. Interest rate risk is defined as the sensitivity of our current and future earnings to interest rate volatility, variability of spread relationships, the difference in re-pricing internals between our assets and liabilities and the effect that interest rates may have on our cash flows. Changes in the general level of interest rates can affect our net interest income, which is the difference between the interest income earned on interest earning assets and our interest expense incurred in connection with our interest-bearing liabilities. Changes in interest rates can also affect, among other things, our ability to acquire and originate loans and securities and the value of our investment portfolio. Our net investment income is affected by fluctuations in various interest rates including LIBOR and prime rates. However, the interest rates on our December 2022 Notes are fixed for the life of such debt. Our risk management systems and procedures are designed to identify and analyze our risk, to set appropriate policies and limits and to continually monitor these risks. We regularly measure exposure to interest rate risk and determine whether or not any hedging transactions are necessary to mitigate exposure to changes in interest rates. As of December 31, 2017, we were not a party to any hedging arrangements.

As of December 31, 2017, approximately 91.7% of our debt investment portfolio (at fair value) bore interest at floating rates, all of which were subject to contractual minimum interest rates. A hypothetical 100 basis point increase in interest rates could increase our net investment income by a maximum of \$2.4 million, or \$0.15 per share, on an annual basis. A hypothetical 100 basis point decrease in interest rates could decrease our net investment income by a maximum of \$1.2 million, or \$0.08 per share, on an annual basis. As of December 31, 2017, none of our idle fund investments bore interest at floating rates. Our Credit Facility bears interest on a per annum basis equal to the applicable LIBOR rate plus 3.00%. We pay unused commitment fees of 0.50% to 1.00% per annum, based on utilization.

Although we believe that the foregoing analysis is indicative of our sensitivity to interest rate changes, it does not adjust for potential changes in the credit market, credit quality, size and composition of the assets in our portfolio. It also does not adjust for other business developments, including borrowings under our Credit Facility and the December 2022 Notes that could affect the net increase in net assets resulting from operations, or net income. It also does not assume any repayments from borrowers. Accordingly, no assurances can be given that actual results would not differ materially from the statement above.

Because we currently borrow, and plan to borrow in the future, money to make investments, our net investment income is dependent upon the difference between the rate at which we borrow funds and the rate at which we invest the funds borrowed. Accordingly, there can be no assurance that a significant change in interest rates will not have a material adverse effect on our net investment income. In periods of rising interest rates, our cost of funds would increase, which could reduce our net investment income if there is not a corresponding increase in interest income generated by our investment portfolio.

Item 4.Controls and Procedures

As of the end of the period covered by this report, an evaluation was performed under the supervision and with the participation of our management, including the President and Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15 of the Securities Exchange Act of 1934). Based upon this evaluation, management, including our President and Chief Executive Officer and our Chief Financial Officer, concluded that our current disclosure controls and procedures are effective as of December 31, 2017.

Table of Contents

During the three months ended December 31, 2017, there have been no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our internal control over financial reporting.

62

Table of Contents

PART II. – OTHER INFORMATION

Item 1. Legal Proceedings

We may, from time to time, be involved in litigation arising out of our operations in the normal course of business or otherwise. Furthermore, third parties may try to seek to impose liability on us in connection with the activities of our portfolio companies. We have no currently pending material legal proceedings to which we are party or to which any of our assets is subject.

Item 1A. Risk Factors

Other than as disclosed in this section, there have been no material changes to the risk factors as previously disclosed in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017 that we filed with the SEC on June 1, 2017, and as updated in our registration statement on Form N-2 (No. 333-220385) declared effective on November 1, 2017 and as supplemented. Risks and uncertainties not presently known to us, or not presently deemed material by us, may also impair our business, financial condition or results of operations. If that happens, the trading price of our common stock could decline, and you may lose all or part of your investment.

Previously proposed legislation may allow us to incur additional leverage.

As a BDC, under the 1940 Act we generally are not permitted to incur indebtedness unless immediately after any borrowing we have an asset coverage for total borrowings of at least 200.0% (i.e. the amount of debt may not exceed 50.0% of the value of our assets). Legislation recently passed by the U.S. House of Representatives Financial Services Committee, if it becomes law, would modify this section of the 1940 Act and increase the amount of debt that BDCs may incur by modifying the asset coverage percentage from 200.0% to 150.0%. As a result, we may be able to incur additional indebtedness in the future and therefore your risk of an investment in us may increase.

Changes relating to LIBOR may adversely affect the value of the LIBOR-indexed, floating-rate debt securities in our portfolio.

In July 2017, the head of the United Kingdom Financial Conduct Authority announced the desire to phase out the use of LIBOR by the end of 2021. As of December 31, 2017, approximately 91.7% of our debt investment portfolio (at fair value) bore interest rates indexed upon LIBOR. Additionally, our Credit Facility accrued interest at the applicable

LIBOR rate plus 3.00%. The use of a new index could reduce our interest income or increase our interest expense and therefore have an adverse effect on our results of operations. Management continues to monitor the status and discussions regarding LIBOR.

New tax reform could have a negative effect on us, our investors or our portfolio companies.

Recently enacted tax reform legislation has made substantial changes to U.S. tax law, including new tax rates, immediate expensing of certain capital expenses and significant limitations on deductibility of interest. We expect this legislation will impact us, an investment in our shares and the companies we invest in, some of which may be adverse. The magnitude of the net impact remains uncertain at this time and is subject to any other regulatory or administrative developments, including any regulations or other guidance promulgated by the U.S. Internal Revenue Service.

Item 2.Unregistered Sales of Equity Securities and Use of Proceeds.

Sales of Unregistered Securities

None.

Table of Contents

Issuer Purchases of Equity Securities

The following table provides information for the three months ended December 31, 2017.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly	Maximum Number of Shares that May Yet Be Purchased
			Announced Plans or Programs	Under the Plans or Programs
October 1 through October 31, 2017	-	\$ -	-	-
November 1 through November 30, 2017 (1)	5,040	16.97	-	-
December 1 through December 31, 2017	-	-	-	-
Total	5,040	\$ 16.97	-	-

(1) During the three months ended December 31, 2017, there was withholding of shares of common stock upon vesting of restricted stock to cover tax withholding obligations.
