W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. BACKGROUND AND BASIS OF PRESENTATION

W.W. Grainger, Inc. is a broad-line distributor of maintenance, repair and operating supplies, and other related products and services used by businesses and institutions. W.W. Grainger, Inc.'s operations are primarily in the United States and Canada, with a presence in Europe, Asia and Latin America. In this report, the words "Company" or "Grainger" mean W.W. Grainger, Inc. and its subsidiaries.

The Condensed Consolidated Financial Statements of the Company and the related notes are unaudited and should be read in conjunction with the consolidated financial statements and related notes for the year ended December 31, 2014 included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission (SEC).

The Condensed Consolidated Balance Sheet as of December 31, 2014 has been derived from the audited consolidated financial statements at that date, but does not include all of the disclosures required by accounting principles generally accepted in the United States of America for complete financial statements.

The unaudited financial information reflects all adjustments (primarily consisting of normal recurring adjustments) which, in the opinion of management, are necessary for a fair presentation of the statements contained herein.

2. NEW ACCOUNTING STANDARDS

In February 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. This ASU, which is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, changes the consolidation analysis required under U.S. GAAP for limited partnerships and other variable interest entities. Early adoption is permitted and the ASU allows for either retrospective or modified retrospective application. This ASU is not expected to have a material impact on the Company's consolidated financial statements.

In July 2015, the FASB announced a one-year delay in the effective date of ASU 2014-09, Revenue from Contracts with Customers. The standard will now be effective for interim and annual periods beginning after December 15, 2017. The standard also permits adoption as early as the original effective date, which was for interim and annual periods beginning after December 15, 2016. This ASU is not expected to have a material impact on the Company's consolidated financial statements.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs. This ASU, which is effective for fiscal years and interim periods beginning after December 15, 2015, changes the presentation of debt issuance costs in financial statements as a direct deduction from the related debt liability rather than as an asset. Early adoption is permitted and retrospective application is required. Effective June 30, 2015, the Company has adopted ASU 2015-03 and the Condensed Consolidated Balance Sheet was retroactively restated under the new presentation. The adoption of ASU 2015-03 did not have a material impact to the Company's consolidated financial statements, as existing debt issuance costs were immaterial.

In April 2015, the FASB issued ASU 2015-05, Customer's Accounting for Fees Paid in a Cloud Computing Arrangement. This ASU, which is effective for annual periods and interim periods within those annual periods beginning after December 15, 2015, provides guidance to customers about whether a cloud computing arrangement includes a software license. Early adoption is permitted and the ASU allows for either retrospective or prospective

application. This ASU is not expected to have a material impact on the Company's consolidated financial statements.

In July 2015, FASB issued ASU 2015-11, Simplifying the Measurement of Inventory, which simplifies the subsequent measurement of inventory by replacing the lower of cost or market test with a lower of cost or net realizable value (NRV) test. NRV is calculated as the estimated selling price less reasonably predictable costs of completion, disposal and transportation. This pronouncement is effective for fiscal years and for interim periods within those fiscal years beginning after December 15, 2016, and prospective adoption is required. The Company is evaluating the impact of this ASU.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

In September 2015, the FASB issued ASU 2015-16, Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 requires that an acquirer recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. ASU 2015-16 is effective for fiscal years and interim reporting periods within those fiscal years, beginning after December 15, 2015. Prospective adoption is required. This ASU is not expected to have a material impact on the Company's consolidated financial statements.

3. DIVIDEND

On October 28, 2015, the Company's Board of Directors declared a quarterly dividend of \$1.17 per share, payable December 1, 2015, to shareholders of record on November 9, 2015.

4. ACQUISITION

As previously announced, on September 1, 2015, the Company acquired all of the issued share capital of Cromwell Group (Holdings) Limited (Cromwell). With sales of approximately £285 million (\$437 million) for fiscal year ending August 31, 2015, prior to the acquisition, Cromwell was the largest independent MRO distributor in the United Kingdom, serving more than 35,000 industrial and manufacturing customers worldwide with more than 80,000 products. The initial aggregate purchase price for the acquisition under the definitive share purchase agreement was £310 million (\$476 million), subject to customary adjustment based on, among other things, the amount of cash, debt and working capital in the business as of August 31, 2015. The adjustment is expected to be finalized in the fourth quarter of 2015. The acquisition was partially funded with newly issued debt in the United Kingdom. Goodwill and intangibles recorded totaled approximately \$353 million. The purchase price allocation has not been finalized and is subject to change as the Company obtains additional information during the measurement period related to the valuation of the acquired assets and liabilities. Disclosure of pro forma results was not required.

5. SHORT-TERM AND LONG-TERM DEBT

At September 30, 2015, there was \$182 million of commercial paper outstanding, issued for general working capital needs. The commercial paper will fully mature on November 3, 2015.

On June 11, 2015, the Company issued \$1 billion of unsecured 4.60% Senior Notes (Notes) that mature on June 15, 2045. The Notes require no principal payments until the maturity date and interest is payable semi-annually on June 15 and December 15, beginning on December 15, 2015. Prior to December 15, 2044, the Company may redeem the Notes in whole at any time or in part from time to time at a "make-whole" redemption price. This redemption price is calculated by reference to the then current yield on a US treasury security with a maturity comparable to the remaining term of the Notes plus 25 basis points, together with accrued and unpaid interest, if any, to the redemption date. On or after December 15, 2044, the Company may redeem the Notes in whole at any time or in part from time to time at 100% of their principal amount, together with accrued and unpaid interest, if any, to the redemption date. Costs of approximately \$10 million associated with the issuance of the Notes, representing underwriting fees and other expenses, have been recorded as a contra-liability within Long-term debt and will be amortized to interest expense over the term of the Notes.

The approximate fair value of the Company's Notes is \$1 billion as of September 30, 2015, and approximates the carrying amount. The estimated fair value of the Company's Notes was based on available external pricing data and current market rates for similar debt instruments, among other factors, which are classified as level 2 inputs within the fair value hierarchy.

On August 26, 2015, the Company entered into an agreement for a five year term loan of £160 million and revolving credit facility of up to £20 million. Proceeds of the term loan were used to partially fund the acquisition of Cromwell and to pay certain costs related to the acquisition. Under the agreement, the principal amount of the term loan will be repaid semi-annually in installments of £4 million beginning February 29, 2016, through February 29, 2020. The remaining outstanding amount will be paid August 26, 2020. Cromwell has the right to obtain advances under the revolving credit facility which will be used for general corporate and working capital purposes. The revolver must generally be paid at the conclusion of each interest period as defined in the facility agreement. The loans will bear interest at the London Interbank Offered Rate plus a margin of 0.75% each year. The margin may be adjusted within a range of 0.75% to 3.0% each year depending on the Company's debt rating. As of September 30, 2015, there was no balance outstanding on the revolving credit facility.

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

6. DERIVATIVE INSTRUMENTS

The Company uses derivative instruments to manage a portion of exposures to fluctuations in interest rates and foreign currency exchange rates. The Company does not enter into derivative financial instruments for trading or speculative purposes. The fair values of these instruments are determined by using quoted market forward rates (level 2 inputs) and reflect the present value of the amount that the Company would pay for contracts involving the same notional amounts and maturity dates. These instruments qualify for hedge accounting and the changes in fair value are reported as a component of other comprehensive earnings (losses) net of tax effects.

As of September 30, 2015, the fair value of the Company's interest rate swap was \$1 million and included on the balance sheet as a liability under Accrued expenses. As of December 31, 2014, the fair value was \$2 million and included on the balance sheet as a liability under Employment-related and other noncurrent liabilities. The purpose of the interest rate swap is to partially hedge the future interest expense of the euro-denominated term loan entered into to fund a portion of the Fabory acquisition in 2011. The swap matures in August 2016. All remaining derivative instruments were immaterial individually and in the aggregate as of September 30, 2015 and December 31, 2014.

7. EQUITY METHOD INVESTMENT

In May 2015, the Company invested in a limited liability company established to produce refined coal, which is then sold to a utility to produce electricity. The production and sale of refined coal is eligible for renewable energy tax credits under Section 45 of the Internal Revenue Code. Under the terms of the investment, effective control lies with a co-investor who manages the day-to-day operations of the entity. The Company will fund its share of operating expenses of the entity through January 2019 and receive tax credits in proportion to its equity investment. The investment will be accounted for under the equity method of accounting. As of September 30, 2015, the investment balance was \$5 million and is included on the balance sheet under Other assets and intangibles-net. During the nine months of 2015, the Company recorded \$10 million in equity losses and the tax benefit of energy tax credits is reflected in the Company's effective tax rate. The investment contributed \$6 million to net earnings for the nine months of 2015.

8. EMPLOYEE BENEFITS - POSTRETIREMENT

The Company has a postretirement healthcare benefits plan that provides coverage for a majority of its United States employees hired prior to January 1, 2013, and their dependents should they elect to maintain such coverage upon retirement. Covered employees become eligible for participation when they qualify for retirement while working for the Company. Participation in the plan is voluntary and requires participants to make contributions toward the cost of the plan, as determined by the Company.

The net periodic benefit costs charged to operating expenses, which are valued at the measurement date of January 1 and recognized evenly throughout the year, consisted of the following components (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Service cost	\$2,532	\$2,251	\$7,596	\$6,754
Interest cost	2,412	2,637	7,236	7,911
Expected return on assets	(2,594)	(2,059)	(7,782)	(6,178)
Amortization of transition asset	—	(36)	—	(107)
Amortization of unrecognized losses	378	195	1,134	585

Edgar Filing: GRAINGER W W INC - Form 10-Q

Amortization of prior service credits	(1,700	) (1,813	) (5,100	) (5,440	)
Net periodic benefit costs	\$1,028	\$1,175	\$3,084	\$3,525	

The Company has established a Group Benefit Trust to fund the plan and process benefit payments. The funding of the trust is an estimated amount which is intended to allow the maximum deductible contribution under the Internal Revenue Code of 1986 (IRC), as amended. There are no minimum funding requirements and the Company intends to follow its practice of funding the maximum deductible contribution under the IRC. During the three and nine months ended September 30, 2015, the Company contributed \$0.9 million and \$3.0 million, respectively, to the trust.

9. SEGMENT INFORMATION

The Company has two reportable segments: the United States and Canada. The United States segment reflects the results of the Company's U.S. operating segment. The Canada segment reflects the results for Acklands – Grainger Inc., the Company's Canadian operating segment. Other businesses include Zoro, the single channel business in the United States, and operations in Europe, Asia and Latin America. Cromwell, the newly acquired business, has been included in other businesses. These other businesses individually do not meet the definition of a reportable segment. Operating segments generate revenue almost exclusively through the distribution of maintenance, repair and operating supplies, as service revenues account for less than 1% of total revenues for each operating segment. Following is a summary of segment results (in thousands of dollars):

	Three Months Ended September 30, 2015			
	United States	Canada	Other Businesses	Total
Total net sales	\$2,039,488	\$213,132	\$354,692	\$2,607,312
Intersegment net sales	(73,393)	(21)	(998)	(74,412)
Net sales to external customers	\$1,966,095	\$213,111	\$353,694	\$2,532,900
Segment operating earnings	\$359,414	\$3,587	\$14,260	\$377,261

	Three Months Ended September 30, 2014			
	United States	Canada	Other Businesses	Total
Total net sales	\$2,045,077	\$278,271	\$300,760	\$2,624,108
Intersegment net sales	(56,634)	(39)	(5,172)	(61,845)
Net sales to external customers	\$1,988,443	\$278,232	\$295,588	\$2,562,263
Segment operating earnings	\$386,499	\$27,466	\$5,162	\$419,127

	Nine Months Ended September 30, 2015			
	United States	Canada	Other Businesses	Total
Total net sales	\$6,041,576	\$687,128	\$971,389	\$7,700,093
Intersegment net sales	(201,978)	(74)	(2,915)	(204,967)
Net sales to external customers	\$5,839,598	\$687,054	\$968,474	\$7,495,126
Segment operating earnings	\$1,095,036	\$22,474	\$38,943	\$1,156,453

	Nine Months Ended September 30, 2014			
	United States	Canada	Other Businesses	Total
Total net sales	\$5,935,343	\$796,614	\$874,592	\$7,606,549
Intersegment net sales	(146,860)	(127)	(5,568)	(152,555)
Net sales to external customers	\$5,788,483	\$796,487	\$869,024	\$7,453,994
Segment operating earnings	\$1,105,286	\$67,974	\$13,180	\$1,186,440

W.W. Grainger, Inc. and Subsidiaries

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(Unaudited)

	United States	Canada	Other Businesses	Total
Segment assets:				
September 30, 2015	\$2,194,560	\$337,019	\$520,676	\$3,052,255
December 31, 2014	\$2,181,521	\$394,342	\$345,987	\$2,921,850

Following are reconciliations of segment information with the consolidated totals per the financial statements (in thousands of dollars):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Operating earnings:				
Total operating earnings for operating segments	\$377,261	\$419,127	\$1,156,453	\$1,186,440
Unallocated expenses and eliminations	(36,532)	(33,614)	(107,759)	(105,837)
Total consolidated operating earnings	\$340,729	\$385,513	\$1,048,694	\$1,080,603

	Sep 30, 2015	Dec 31, 2014
Assets:		
Total assets for operating segments	\$3,052,255	\$2,921,850
Other current and non-current assets	2,484,149	2,113,900
Unallocated assets	270,749	247,299
Total consolidated assets	\$5,807,153	\$5,283,049

Assets for operating segments include net accounts receivable and first-in, first-out inventory which are reported to the Company's Chief Operating Decision Maker. Other current and non-current assets include all other asset balances for the operating segments.

Unallocated expenses and unallocated assets primarily relate to the Company headquarter's support services, which are not part of any business segment, as well as intercompany eliminations. Unallocated expenses include payroll and benefits, depreciation and other costs associated with headquarters-related support services. Unallocated assets include non-operating cash and cash equivalents, certain prepaid expenses and property, buildings and equipment-net.

Intersegment net sales for the U.S. segment increased by \$55 million for the nine months of 2015 compared to the prior year, driven by increased sales from the U.S. business to Zoro. The U.S. business' supply chain network is Zoro's primary source of inventory.

Segment assets for Canada decreased by \$57 million at September 30, 2015 compared to December 31, 2014, primarily due to foreign exchange. The increase in segment assets for other businesses in the same period was primarily driven by the Cromwell acquisition.

Other current and non-current assets increased by \$370 million at September 30, 2015 compared to December 31, 2014, primarily due to higher goodwill and intangible balances, as a result of the Cromwell acquisition.

10. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share under the two-class method (in thousands of dollars, except for share and per share amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2015	2014	2015	2014
Net earnings attributable to W.W. Grainger, Inc. as reported	\$192,201	\$230,322	\$623,764	\$652,890
Distributed earnings available to participating securities	(676)	(788)	(2,187)	(2,350)
Undistributed earnings available to participating securities	(1,138)	(1,825)	(4,012)	(5,603)
Numerator for basic earnings per share – Undistributed and distributed earnings available to common shareholders	190,387	227,709	617,565	644,937
Undistributed earnings allocated to participating securities	1,138	1,825	4,012	5,603
Undistributed earnings reallocated to participating securities	(1,129)	(1,803)	(3,972)	(5,532)
Numerator for diluted earnings per share – Undistributed and distributed earnings available to common shareholders	\$190,396	\$227,731	\$617,605	\$645,008
Denominator for basic earnings per share – weighted average shares	64,720,037	68,296,018	66,188,236	68,481,681
Effect of dilutive securities	569,107	815,927	661,530	893,402
Denominator for diluted earnings per share – weighted average shares adjusted for dilutive securities	65,289,144	69,111,945	66,849,766	69,375,083
Earnings per share two-class method				
Basic	\$2.94	\$3.33	\$9.33	\$9.42
Diluted	\$2.92	\$3.30	\$9.24	\$9.30

11. CONTINGENCIES AND LEGAL MATTERS

From time to time the Company is involved in various legal and administrative proceedings that are incidental to its business, including claims related to product liability, general negligence, contract disputes, environmental issues, wage and hour laws, intellectual property, employment practices, regulatory compliance or other matters and actions brought by employees, consumers, competitors, suppliers or governmental entities. As a government contractor selling to federal, state and local governmental entities, the Company is also subject to governmental or regulatory inquiries or audits or other proceedings, including those related to pricing compliance. It is not expected that the ultimate resolution of any of these matters will have, either individually or in the aggregate, a material adverse effect on the Company's consolidated financial position or results of operations.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

Grainger is a broad-line distributor of maintenance, repair and operating supplies, and other related products and services used by businesses and institutions. Grainger's operations are primarily in the United States and Canada, with a presence in Europe, Asia and Latin America. Grainger uses a combination of multichannel and single channel business models to provide customers with a range of options for finding and purchasing products utilizing sales representatives, catalogs, direct marketing materials and eCommerce. Grainger serves more than 2 million customers worldwide through a network of highly integrated branches, distribution centers and websites.

Business Environment

Given Grainger's large number of customers and the diverse industries it serves, several economic factors and industry trends tend to shape Grainger's business environment. The overall economy and leading economic indicators provide general insight into projecting Grainger's growth. Grainger's sales in the United States and Canada tend to positively correlate with Gross Domestic Product (GDP), Industrial Production, Exports and Business Investment. In the United States, sales also tend to positively correlate with Business Inventory. In Canada, sales also tend to positively correlate with oil prices. The table below provides these estimated indicators for 2015:

	United States		Canada	
	2015 Forecast	2015 Forecast	2015 Forecast	2015 Forecast
	(July)	(October)	(July)	(October)
GDP	2.2%	2.5%	1.5%	1.0%
Industrial Production	1.5%	1.3%	(1.8)%	(1.0)%
Exports	2.2%	1.7%	2.9%	2.1%
Business Investment	5.3%	3.5%	(2.1)%	(2.7)%
Business Inventory	2.7%	4.2%	—	—
Oil Prices	\$55/barrel	\$46/barrel	\$55/barrel	\$46/barrel

Source: Global Insight

In the United States, exports and business investment are two major indicators of MRO spend. According to Global Insight, export volumes have slowed in 2015 and the month of August showed a sharp decline due to three factors: weak global demand, lower oil prices and the strengthening U.S. dollar. For the remainder of the year, exports are projected to grow in the low single digits. The large decline in crude oil prices over the past year has also had a significant impact on business investment in industries such as energy where companies have reduced capital spending. The United States business was negatively impacted as it has customers in these industries, but not to the extent of the Canadian business which is heavily dependent on the natural resources sector.

The light and heavy manufacturing customer end markets, which represent approximately 30% of Grainger's sales, have historically correlated with manufacturing employment levels and manufacturing output. The United States Department of Labor reported an increase of 0.9% in manufacturing employment levels from September 2014 to September 2015. According to the Federal Reserve, manufacturing output increased 1.4% from September 2014 to September 2015. Grainger's heavy and light manufacturing customer end-markets performed consistent with these indicators as sales to these customer end-markets in aggregate increased in the low single digits for the nine months of 2015.

According to Global Insight, the Canadian economy has deteriorated in 2015 as the Canadian dollar weakened relative to the U.S. dollar to new 11-year lows and as oil and commodity prices remained low. As a result, the outlook for business investment is weak, especially as companies in energy-related geographies and sectors plan to further curtail capital spending, according to the Bank of Canada. These market factors led to weaker performance in the Alberta region, which represents slightly more than one-third of sales in the Canadian business and is heavily dependent on

the oil and gas industries. Sales to the oil and gas sector for the Canadian business were down in the mid-teens for the nine months of 2015.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Outlook

On October 16, 2015, Grainger revised the 2015 sales growth guidance from a range of 0 to 2 percent to a range of -0.5 to 0.5 percent and also revised the 2015 earnings per share guidance from a range of \$12.00 to \$12.50 to a range of \$11.60 to \$11.80. The revised sales and earnings per share guidance reflects expectations of continued economic weakness.

Matters Affecting Comparability

There were 64 sales days in the third quarter of 2015 and 2014. Grainger completed the Cromwell Group (Holdings) Limited acquisition in the third quarter of 2015, the WFS Enterprises, Inc. (WFS) acquisition in the third quarter of 2014 and announced plans in the fourth quarter of 2014 to close the business in Brazil. All of these transactions were immaterial individually and in the aggregate.

Results of Operations – Three Months Ended September 30, 2015

The following table is included as an aid to understanding the changes in Grainger's Condensed Consolidated Statements of Earnings:

	Three Months Ended September 30, As a Percent of Net Sales		Percent Increase/(Decrease)	
	2015	2014		
Net sales	100.0	% 100.0	% (1.1	)%
Cost of merchandise sold	58.1	57.0	0.8	
Gross profit	41.9	43.0	(3.7	)
Operating expenses	28.4	28.0	0.5	
Operating earnings	13.5	15.0	(11.6	)
Other income (expense)	(0.8	) (0.1	) 639.5	
Income taxes	4.9	5.8	(17.9	)
Noncontrolling interest	0.2	0.1	62.0	
Net earnings attributable to W.W. Grainger, Inc.	7.6	% 9.0	% (16.6	)%

Grainger's net sales of \$2,533 million for the third quarter of 2015 decreased 1% compared with sales of \$2,562 million for the comparable 2014 quarter. The 1% decrease for the quarter consisted of the following:

	Percent Increase/(Decrease)
Volume	1
Business acquisitions	2
Foreign exchange	(3)
Price	(1)
Total	(1)%

The decrease in net sales was driven by negative growth to natural resources, contractors, resellers and heavy manufacturing customers. The sales decline was partially offset by growth to the light manufacturing, government, commercial services and retail customer end markets. Refer to the Segment Analysis below for further details.

Gross profit of \$1,062 million for the third quarter of 2015 decreased 4%. The gross profit margin during the third quarter of 2015 decreased 1.1 percentage points when compared to the same period in 2014, primarily driven by faster growth with lower margin customers, price deflation versus slight cost inflation and smaller supplier rebates tied to lower-than-expected volume.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating expenses of \$721 million for the third quarter of 2015 increased 1% from \$717 million for the comparable 2014 quarter. Operating expenses in 2015 included \$11 million in costs associated with the anticipated closing of 26 branches in the United States and other restructuring costs. Excluding these charges, operating expenses decreased 1%, driven primarily by lower payroll and benefits, partially offset by \$43 million in incremental growth and infrastructure spending.

Operating earnings for the third quarter of 2015 were \$341 million, a decrease of 12% compared to the third quarter of 2014. Excluding the charges mentioned above, operating earnings decreased 9%, driven by lower sales and gross profit margins.

Net earnings attributed to W.W. Grainger, Inc. for the third quarter of 2015 decreased 17% to \$192 million from \$230 million in the third quarter of 2014. Diluted earnings per share of \$2.92 in the third quarter of 2015 were down 12% versus the \$3.30 for the third quarter of 2014, due to lower earnings, partially offset by lower average shares outstanding.

The table below reconciles reported diluted earnings per share determined in accordance with generally accepted accounting principles (GAAP) in the United States to adjusted diluted earnings per share, a non-GAAP measure. Management believes adjusted diluted earnings per share is an important indicator of operations because it excludes items that may not be indicative of core operating results. Because non-GAAP financial measures are not standardized, it may not be possible to compare this financial measure with other companies' non-GAAP financial measures having the same or similar names.

	Three Months Ended September 30,		
	2015	2014	%
Diluted earnings per share reported	\$2.92	\$3.30	(12)%
U.S. Branch closures	0.06	—	
Restructuring	0.05	—	
Subtotal	\$0.11	—	
Diluted earnings per share adjusted	\$3.03	\$3.30	(8)%

Segment Analysis

Grainger's two reportable segments are the United States and Canada. The United States segment reflects the results of Grainger's U.S. operating segment. The Canada segment reflects the results for Acklands – Grainger Inc., Grainger's Canadian operating segment. Other businesses include Zoro U.S. and operations in Europe, Asia and Latin America.

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 9 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$2,039 million for the third quarter of 2015, a decrease of \$6 million, or flat, when compared with net sales of \$2,045 million for the same period in 2014. The drivers of net sales for the period consisted of the following:

	Percent Increase/(Decrease)
Intercompany sales to Zoro	1
Price	(1)
Total	0%

Sales to natural resource customers were down in the high teens and the heavy manufacturing and reseller customer end markets were down in the mid-single digits. Contractor customers were down in the low single digits and commercial, light manufacturing, retail and government customers were up in the low single digits. Low oil prices negatively impacted the performance of the heavy manufacturing and natural resources customer end markets. Sales to Zoro also contributed to sales growth as the U.S. business' supply chain network is Zoro's primary source of inventory.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

The gross profit margin for the third quarter of 2015 decreased 1.2 percentage points compared to the same period in 2014, primarily driven by faster growth with large customers which carry lower margins, price deflation exceeding cost deflation and higher sales to Zoro reflecting the lower transfer price used to account for these intercompany sales. Excluding sales to Zoro, the gross profit margin decreased 0.9 percentage point versus prior year.

Operating expenses were flat in the third quarter of 2015 versus the third quarter of 2014. Operating expenses in 2015 included \$9 million in costs relating to the announcement of branch closures and restructuring. Excluding these charges, operating expenses decreased 2 percent driven by lower payroll and benefits, partially offset by \$30 million of incremental spending on growth initiatives such as new sales representatives, eCommerce and inventory management solutions.

Operating earnings of \$359 million for the third quarter of 2015 decreased 7% from \$386 million for the third quarter of 2014. Excluding the charges mentioned above, operating earnings decreased 5%, driven primarily by lower gross profit margins.

Canada

Net sales were \$213 million for the third quarter of 2015, a decrease of \$65 million, or 23%, when compared with \$278 million for the same period in 2014. In local currency, sales decreased 8%. The 23% decrease for the quarter consisted of the following:

	Percent Increase/(Decrease)
Volume	(17)
Foreign exchange	(15)
Business acquisition	4
Price	5
Total	(23)%

Sales performance in Canada was driven by declines in the oil and gas, construction, commercial, transportation, retail, heavy manufacturing, government and light manufacturing customer end markets, partially offset by growth to customers in mining, utilities and forestry end markets. The Alberta region, which represents more than one-third of the sales in the Canadian business, decreased 26% versus prior year as it was negatively impacted by lower oil prices. Sales growth for the remaining regions in aggregate was down 3% in local currency.

The gross profit margin decreased 1.3 percentage points in the third quarter of 2015 versus the third quarter of 2014, partially due to lower margins from WFS. Excluding the impact of WFS, gross margins decreased 0.8 percentage point primarily due to the effect of unfavorable foreign exchange from products sourced from the United States and lower supplier rebates, partially offset by price increases.

Operating expenses decreased 5% in the third quarter of 2015 versus the third quarter of 2014. In local currency, operating expenses increased 14%, primarily due to \$6 million of incremental spending related to information technology investments, \$3 million of incremental costs from WFS and restructuring costs of \$1 million. Excluding the information technology spending and restructuring costs, operating expenses increased 3% due to higher payroll and benefits.

Operating earnings of \$4 million for the third quarter of 2015 were down \$24 million, or 87%, versus the third quarter of 2014. In local currency, operating earnings decreased by 84%. Excluding the information technology spending and restructuring costs mentioned above, operating earnings decreased by 52% driven by lower sales, lower gross profit

margins and negative operating expense leverage.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Other Businesses

Net sales for other businesses, which include Zoro U.S. and operations in Europe, Asia, Latin America, and the newly acquired Cromwell, were \$355 million for the third quarter of 2015, an increase of \$54 million, or 18%, when compared with net sales of \$301 million for the same period in 2014. The drivers of net sales for the quarter consisted of the following:

	Percent Increase/(Decrease)
Volume/Price	22
Business acquisition	12
Foreign exchange	(16)
Total	18%

Operating earnings of \$14 million for the third quarter of 2015 were up \$9 million compared to the third quarter of 2014. The earnings performance for the quarter versus prior year was primarily driven by improved earnings from Zoro U.S. and the business in Japan as well as contribution from Cromwell, partially offset by startup costs for the single channel online business in Europe.

Other Income and Expense

Other income and expense was \$21 million of expense in the third quarter of 2015 compared to \$3 million of expense in the third quarter of 2014. The increase in expense was driven by higher interest expense from the \$1 billion in long-term debt issued in June, as well as operating losses from the investment in a limited liability company established to produce clean energy. As discussed below, the operating losses in this investment were offset by energy tax credits that lowered Grainger's tax rate, which provided Grainger with positive net earnings and cash flow.

Income Taxes

Grainger's tax rates were 38.4% and 39.1% for the three months ended September 30, 2015 and 2014, respectively. The decrease in the tax rate was primarily due to energy tax credits associated with the investment in the limited liability company established to produce clean energy, partially offset by a higher proportion of earnings from the United States versus other jurisdictions with lower tax rates.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Matters Affecting Comparability

There were 191 sales days in the nine months of 2015 and 2014. Grainger completed the Cromwell acquisition in the third quarter of 2015, WFS acquisition in the third quarter of 2014 and announced plans in the fourth quarter of 2014 to close the business in Brazil. All of these transactions were immaterial individually and in the aggregate.

Results of Operations – Nine Months Ended September 30, 2015

The following table is included as an aid to understanding the changes in Grainger's Condensed Consolidated Statements of Earnings:

	Nine Months Ended September 30,		Percent	
	As a Percent of Net Sales		Increase/(Decrease)	
	2015	2014		
Net sales	100.0	% 100.0	% 0.6	%
Cost of merchandise sold	56.9	56.3	1.7	
Gross profit	43.1	43.7	(0.9	)
Operating expenses	29.1	29.2	0.1	
Operating earnings	14.0	14.5	(3.0	)
Other income (expense)	(0.4	) (0.1	) 315.2	
Income taxes	5.1	5.5	(7.7	)
Noncontrolling interest	0.2	0.1	47.6	
Net earnings attributable to W.W. Grainger, Inc.	8.3	% 8.8	% (4.5	)%

Grainger's net sales of \$7,495 million for the nine months of 2015 increased 1% compared with sales of \$7,454 million for the comparable 2014 period. The 1% increase for the period consisted of the following:

	Percent
	Increase/(Decrease)
Volume	3
Business acquisitions	1
Foreign exchange	(3)
Total	1%

The increase in net sales for the nine months of 2015 was led by growth in sales to government, light manufacturing and commercial service customers. The sales growth was partially offset by declines in the natural resources, contractors and reseller end markets. Refer to the Segment Analysis below for further details.

Gross profit of \$3,229 million for the nine months of 2015 decreased 1%. The gross profit margin during the nine months of 2015 decreased 0.6 percentage point when compared to the same period in 2014, primarily driven by faster growth with lower margin customers, price deflation versus cost inflation and smaller supplier rebates tied to lower-than-expected volume.

Operating expenses of \$2,180 million for the nine months of 2015 were flat versus \$2,179 million for the comparable 2014 period. Operating expenses in 2015 included \$15 million in costs associated with the anticipated closing of 26 branches in the United States and other restructuring costs. Operating expenses in 2014 included a \$14 million charge related to the transition of the employee retirement plan in Europe. Excluding these charges from both years, operating expenses for 2015 were flat versus the comparable 2014 period, primarily driven by \$101 million in incremental growth and infrastructure spending, offset by lower payroll and benefits.

Operating earnings for the nine months of 2015 were \$1,049 million, a decrease of \$32 million or 3%, compared to the nine months of 2014. Excluding the charges in both years mentioned above, operating earnings decreased 3%, primarily due to lower gross profit margins.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Net earnings attributed to W.W. Grainger, Inc. for the nine months of 2015 decreased by 4% to \$624 million from \$653 million in the nine months of 2014. Diluted earnings per share of \$9.24 in the nine months of 2015 were 1% lower than the \$9.30 for the nine months of 2014, due to lower earnings, partially offset by lower average shares outstanding.

The table below reconciles reported diluted earnings per share determined in accordance with generally accepted accounting principles (GAAP) in the United States to adjusted diluted earnings per share, a non-GAAP measure. Management believes adjusted diluted earnings per share is an important indicator of operations because it excludes items that may not be indicative of core operating results. Because non-GAAP financial measures are not standardized, it may not be possible to compare this financial measure with other companies' non-GAAP financial measures having the same or similar names.

	Nine Months Ended September 30,		
	2015	2014	%
Diluted earnings per share reported	\$9.24	\$9.30	(1)%
U.S. Branch closures	0.06	—	
Restructuring	0.10	—	
Retirement plan transition	—	0.15	
Subtotal	\$0.16	\$0.15	
Diluted earnings per share adjusted	\$9.40	\$9.45	(1)%

Segment Analysis

Grainger's two reportable segments are the United States and Canada. The United States segment reflects the results of Grainger's U.S. operating segment. The Canada segment reflects the results for Acklands – Grainger Inc., Grainger's Canadian operating segment. Other businesses include Zoro U.S. and operations in Europe, Asia and Latin America.

The following comments at the segment and business unit level include external and intersegment net sales and operating earnings. See Note 9 to the Condensed Consolidated Financial Statements.

United States

Net sales were \$6,042 million for the nine months of 2015, an increase of \$107 million, or 2%, when compared with net sales of \$5,935 million for the same period in 2014. The 2% increase for the period consisted of the following:

	Percent Increase/(Decrease)
Volume	2
Intercompany sales to Zoro	1
Price	(1)
Total	2%

The increase in net sales was led by mid-single digit growth to commercial service, light manufacturing and government customers and low single digit growth to retail customers. Resellers were down in the mid-single digits and the natural resources customer end market was down in the low double digits. Sales to Zoro also contributed to sales growth as the U.S. business' supply chain network is Zoro's primary source of inventory.

The gross profit margin for the nine months of 2015 decreased 0.7 percentage point compared to the same period in 2014, primarily driven by faster growth with large customers which carry lower margins, price deflation exceeding cost deflation and higher sales to Zoro reflecting the lower transfer price used to account for these intercompany sales.

Excluding sales to Zoro, gross profit margins decreased 0.4 percentage point versus prior year.

Operating expenses were up 1% in the nine months of 2015 versus the nine months of 2014, driven by \$75 million of incremental spending on growth initiatives such as new sales representatives, eCommerce and inventory management solutions and also costs related to branch closures and restructuring, partially offset by lower payroll and benefits. Excluding the charges related to branch closures and restructuring, operating expenses were flat versus prior year.

W.W. Grainger, Inc. and Subsidiaries

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Operating earnings of \$1,095 million for the nine months of 2015 decreased 1% from \$1,105 million for the nine months of 2014. Excluding the charges related to branch closures and restructuring, operating earnings were flat driven by positive operating expense leverage, offset by lower sales and lower gross profit margins.

Canada

Net sales were \$687 million for the nine months of 2015, a decrease of \$110 million, or 14%, when compared with \$797 million for the same period in 2014. In local currency, sales decreased 2%. The 14% decrease for the period consisted of the following:

	Percent Increase/(Decrease)
Foreign Exchange	(12)
Volume	(12)
Business acquisition	6
Price	4
Total	(14)%

Sales performance in Canada was driven by declines in the oil and gas, construction, commercial services, heavy manufacturing and reseller customer end markets, partially offset by growth from utilities, mining and forestry customer end markets.

The gross profit margin decreased 1.0 percentage point in the nine months of 2015 versus the nine months of 2014, primarily due to lower margins from WFS. Excluding the impact of WFS, gross margins decreased 0.3 percentage point due to the effect of unfavorable foreign exchange from products sourced from the United States, partially offset by price increases and higher freight revenue.

Operating expenses in the nine months of 2015 were down 1% versus the nine months of 2014. In local currency, operating expenses increased 13%, primarily due to incremental costs from WFS and spending related to information technology investments.

Operating earnings of \$22 million for the nine months of 2015 were down \$46 million, or 67%, versus the nine months of 2014. In local currency, operating earnings decreased by 62%, driven by lower sales, negative operating expense leverage and lower gross profit margins.

Other Businesses

Net sales for other businesses, which include Zoro U.S. and operations in Europe, Asia, Latin America, and the newly acquired Cromwell, were \$971 million for the nine months of 2015, an increase of \$96 million, or 11%, when compared with net sales of \$875 million for the same period in 2014. The drivers of net sales for the period consisted of the following:

	Percent Increase/(Decrease)
Volume/Price	22
Business acquisition	4
Foreign exchange	(15)
Total	11%

Operating earnings of \$39 million in the nine months of 2015 increased \$26 million compared to the nine months of 2014. Operating earnings in 2015 included \$5 million in costs associated with shutting down the business in Brazil and restructuring the business in Europe. Operating earnings in 2014 included a \$14 million charge related to the transition of the employee retirement plan in Europe. Excluding these charges, operating earnings increased by \$17 million versus the comparable 2014 period. The earnings performance for the period versus prior year was primarily driven by improved earnings from Zoro U.S. and the business in Japan, partially offset by startup costs for the single channel online business in Europe.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Other Income and Expense

Other income and expense was \$33 million of expense in the nine months of 2015 compared to \$8 million of expense in the nine months of 2014. The increase in expense was driven by higher interest expense from the \$1 billion in long-term debt issued in June, as well as operating losses from the investment in a limited liability company established to produce clean energy. As discussed below, the operating losses in this investment were offset by energy tax credits that lowered Grainger's tax rate, which provided Grainger with positive net earnings and cash flow.

Income Taxes

Grainger's tax rates were 37.4% and 38.4% for the nine months ended September 30, 2015 and 2014, respectively. The decrease in the tax rate was due to energy tax credits associated with the investment in the limited liability company established to produce clean energy, partially offset by a higher proportion of earnings from the United States versus other jurisdictions with lower tax rates.

Financial Condition

Cash Flow

Cash from operating activities continues to serve as Grainger's primary source of liquidity. Net cash provided by operating activities was \$736 million and \$663 million for the nine months ended September 30, 2015 and 2014, respectively. Higher cash flows from operating activities was driven primarily by lower accounts receivable balances tied to lower sales, partially offset by lower net earnings.

Net cash used in investing activities was \$720 million and \$235 million for the nine months ended September 30, 2015 and 2014, respectively. The higher use of cash was driven by the Cromwell acquisition in September of 2015. Additionally, in 2015, Grainger made a new investment in a limited liability company established to produce clean energy. The investment provided Grainger with energy tax credits that lowered the tax rate and positively impacted net earnings and cash flow.

Net cash provided by financing activities was \$37 million for the nine months ended September 30, 2015, compared to \$531 million used in financing activities for the nine months ended September 30, 2014. Financing activity for the 2015 period was primarily driven by proceeds from the issuance of \$1 billion in long-term debt in June and the £160 million term loan in August. This was partially offset by an increase in the purchase of treasury stock and dividends paid.

Working Capital

Working capital consists of current assets (less non-operating cash) and current liabilities (less short-term debt and current maturities of long-term debt).

Working capital at September 30, 2015, was \$1,836 million, an increase of \$139 million when compared to \$1,697 million at December 31, 2014. The working capital assets to working capital liabilities ratio increased to 2.5 at September 30, 2015, from 2.4 at December 31, 2014. The increase primarily related to higher accounts receivable balances from the Cromwell acquisition and lower profit sharing accruals due to the timing of annual payments and lower business performance.

Debt

Grainger maintains a debt ratio and liquidity position that provide flexibility in funding working capital needs and long-term cash requirements. In addition to internally generated funds, Grainger has various sources of financing available, including bank borrowings under lines of credit. Total debt as a percent of total capitalization was 42.6% at

September 30, 2015, and 12.8% at December 31, 2014.

On April 16, 2015, Grainger announced plans to issue \$1.8 billion in long-term debt over the next three years, to partially fund the repurchase of \$3 billion in shares. The remaining amount is expected to be funded from internally generated cash. In June 2015, Grainger issued \$1 billion in long-term debt, which is the first of three expected debt issuances. The new debt is payable in 30 years and carries a 4.60% interest rate, payable semi-annually. With the new long-term debt, Grainger expects to maintain a debt to EBITDA ratio in the 1.0-1.5x range. EBITDA, which is defined as Earnings before Interest, Taxes, Depreciation and Amortization, is a non-GAAP measure and may not be defined and calculated by other companies in the same manner. See Note 5 to the Condensed Consolidated Financial Statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

Critical Accounting Policies and Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements. Management bases its estimates on historical experience and other assumptions, which it believes are reasonable. If actual amounts are ultimately different from these estimates, the revisions are included in Grainger's results of operations for the period in which the actual amounts become known.

Accounting policies are considered critical when they require management to make assumptions about matters that are highly uncertain at the time the estimates are made and when there are different estimates that management reasonably could have made, which would have a material impact on the presentation of Grainger's financial condition, changes in financial condition or results of operations. For a description of Grainger's critical accounting policies see Grainger's Annual Report on Form 10-K for the year ended December 31, 2014.

Forward-Looking Statements

This Form 10-Q contains statements that are not historical in nature but concern future results and business plans, strategies and objectives and other matters that may be deemed to be "forward-looking statements" under the federal securities laws. These forward-looking statements include, but are not limited to, the Company's expected or forecasted sales, earnings, tax rate, share repurchases, long-term debt, or earnings per share, and any associated guidance.

Grainger cannot guarantee that any forward-looking statement will be realized although Grainger does believe that its assumptions underlying its forward-looking statements are reasonable. Achievement of future results is subject to risks and uncertainties which could cause Grainger's results to differ materially from those which are presented.

Factors that could cause actual results to differ materially from those presented or implied in a forward-looking statement include, without limitation: higher product costs or other expenses; a major loss of customers; loss or disruption of source of supply; increased competitive pricing pressures; failure to develop or implement new technologies or business strategies; the outcome of pending and future litigation or governmental or regulatory proceedings; investigations, inquiries, audits and changes in laws and regulations; disruption of information technology or data security systems; general industry or market conditions; general global economic conditions; currency exchange rate fluctuations; market volatility; commodity price volatility; labor shortages; facilities disruptions or shutdowns; higher fuel costs or disruptions in transportation services; natural and other catastrophes; unanticipated weather conditions; and Grainger's ability to realize the cost savings, synergies and other strategic benefits of the Cromwell acquisition.

Caution should be taken not to place undue reliance on Grainger's forward-looking statements and Grainger undertakes no obligation to publicly update the forward-looking statements, whether as a result of new information, future events or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For quantitative and qualitative disclosures about market risk, see “Item 7A: Quantitative and Qualitative Disclosures About Market Risk” in Grainger's Annual Report on Form 10-K for the fiscal year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Grainger carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of Grainger's disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Based upon that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that Grainger's disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in Internal Control Over Financial Reporting

There were no changes in Grainger's internal control over financial reporting that occurred during the third quarter that have materially affected, or are reasonably likely to materially affect, Grainger's internal control over financial reporting.

PART II – OTHER INFORMATION

Items 1A, 3, 4 and 5 not applicable.

Item 1. Legal Proceedings

Information on specific and significant legal proceedings is set forth in Note 11 to the Condensed Consolidated Financial Statements included under Item 1.

W.W. Grainger, Inc. and Subsidiaries

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities – Third Quarter

Period	Total Number of Shares Purchased (A)	Average Price Paid per Share (B)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs (C)	Maximum Number of Shares That May Yet be Purchased Under the Plans or Programs
July 1 – July 31	451,484	\$234.42	451,484	13,258,998
Aug. 1 – Aug. 31	1,449,225	\$223.32	1,449,225	11,809,773
Sept. 1 – Sept. 30	1,480,704	\$217.71	1,480,704	10,329,069
Total	3,381,413	\$222.35	3,381,413	

- (A) There were no shares withheld to satisfy tax withholding obligations in connection with the vesting of employee restricted stock awards.
- (B) Average price paid per share includes any commissions paid and includes only those amounts related to purchases as part of publicly announced plans or programs.
- (C) Purchases were made pursuant to a share repurchase program approved by Grainger's Board of Directors on April 6, 2015. Activity is reported on a trade date basis.

Item 6. Exhibits

- (a) Exhibits (numbered in accordance with Item 601 of Regulation S-K)

- 2.1 Share Purchase Agreement, dated as of July 30, 2015, by and among W.W. Grainger, Inc., GWW UK Holdings Limited, Gregory Family Office Limited and Michael Gregory (incorporated by reference to Exhibit 2.1 to W.W. Grainger, Inc.'s Current Report on Form 8-K filed with the SEC on July 31, 2015, File No. 001-05684)
- (10) Material Contracts
- (a) (i) Credit Agreement, dated as of August 22, 2013, by and among W.W. Grainger, Inc., the borrowing subsidiaries parties thereto, the lenders parties thereto, and U.S. Bank National Association, as Administrative Agent
- (a) (ii) Amendment No. 1, dated as of April 7, 2015, to Credit Agreement, dated as of August 22, 2013, by and among W.W. Grainger, Inc., the borrowing subsidiaries parties thereto, the lenders parties thereto, and U.S. Bank National Association, as Administrative Agent
- (31) Rule 13a – 14(a)/15d – 14(a) Certifications
- (a) Chief Executive Officer certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- (b) Chief Financial Officer certification pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- (32) Section 1350 Certifications
- Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
