Illinois Tool Works Inc. and Subsidiaries
Notes to Financial Statements (Unaudited)

(1) Financial Statements

The unaudited financial statements included herein have been prepared by Illinois Tool Works Inc. and Subsidiaries (the “Company”). In the opinion of management, the interim financial statements reflect all adjustments of a normal recurring nature necessary for a fair statement of the results for interim periods. It is suggested that these financial statements be read in conjunction with the financial statements and notes to financial statements included in the Company’s 2014 Annual Report on Form 10-K. Certain reclassifications of prior year data have been made to conform with current year reporting.

(2) Discontinued Operations

The Company periodically reviews its operations for businesses that may no longer be aligned with its enterprise initiatives and long-term objectives. As a result, the Company may commit to a plan to exit or dispose of certain businesses and present them as discontinued operations. The following summarizes the Company’s discontinued operations.

Third Quarter 2013 Discontinued Operations - In the third quarter of 2013, the Company committed to a plan to sell the Industrial Packaging business and began classifying this business as held for sale. The Industrial Packaging business was sold in the second quarter of 2014.

In the third quarter of 2013, the Company also committed to a plan for the divestiture of a construction business previously included in the Construction Products segment. This business was classified as held for sale beginning in the third quarter of 2013 and was sold in the second quarter of 2014.

First Quarter 2013 Discontinued Operations - In the first quarter of 2013, the Company committed to a plan for the divestiture of a construction distribution business previously included in the Construction Products segment. This business was classified as held for sale beginning in the first quarter of 2013 and was sold in the second quarter of 2014.

As of the second quarter of 2014, the Company had completed the divestiture of all of the businesses previously reported as discontinued operations.

Results of the discontinued operations for the three and six months ended June 30, 2014 were as follows:

In millions	Three Months Ended June 30, 2014	Six Months Ended June 30, 2014
Operating revenue	\$212	\$798
Income before income taxes	\$1,724	\$1,796
Income tax expense	(726)	(753)
Income from discontinued operations	\$998	\$1,043

Income before income taxes from discontinued operations was income of \$1.8 billion for the six months ended June 30, 2014. The income in the first six months of 2014 included the pre-tax gain of \$1.7 billion (\$1.1 billion after tax) on the sale of the Industrial Packaging business recorded in the second quarter of 2014. Income tax expense in the first

six months of 2014 included \$175 million of U.S. income tax expense related to the repatriation of approximately \$1.3 billion of international proceeds from the sale of the Industrial Packaging business.

In April 2014, the Financial Accounting Standards Board ("FASB") issued authoritative guidance to change the criteria for reporting discontinued operations. Under the new guidance, only disposals representing a strategic shift in a company's operations and financial results should be reported as discontinued operations, with expanded disclosures. In addition, disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify as a discontinued operation is required. The Company adopted this new guidance effective January 1, 2015. The new guidance applies prospectively to new disposals and new classifications of disposal groups held for sale after such date. As a result, this guidance did not have any impact on the Company's financial statements or related disclosures upon adoption.

(3) Income Taxes

The Company files tax returns in the U.S. and various state, local and foreign jurisdictions. These tax returns are routinely audited by the tax authorities in these jurisdictions including the Internal Revenue Service ("IRS"), Her Majesty's Revenue and Customs, German Fiscal Authority, French Fiscal Authority, and Australian Tax Office, and a number of these audits are currently ongoing, which may increase the amount of the unrecognized tax benefits in future periods. The Company believes it is reasonably possible that within the next twelve months the amount of the Company's unrecognized tax benefits may be decreased by approximately \$54 million related predominantly to various intercompany transactions. The Company has recorded its best estimate of the potential exposure for these issues.

On February 18, 2014, the Company received a Notice of Deficiency ("NOD") from the IRS asserting that a non-taxable return of capital received from a subsidiary was a taxable dividend distribution. The NOD assesses additional taxes of \$70 million for the 2006 tax year, plus interest and penalties. In May 2014, the Company petitioned the United States Tax Court to challenge the NOD. The Company's petition was subsequently denied and the case will proceed to court. Although the outcome of this process cannot be predicted with certainty, the Company believes it will be successful in defending its positions. Accordingly, no reserve has been recorded related to this matter.

(4) Inventories

Inventories as of June 30, 2015 and December 31, 2014 were as follows:

In millions	June 30, 2015	December 31, 2014
Raw material	\$454	\$458
Work-in-process	142	133
Finished goods	683	677
LIFO reserve	(88)	(88)
Total inventories	\$1,191	\$1,180

(5) Pension and Other Postretirement Benefits

Pension and other postretirement benefit costs related to both continuing and discontinued operations for the three and six months ended June 30, 2015 and 2014, were as follows:

In millions	Three Months Ended June 30,				Six Months Ended June 30,			
	Pension		Other Postretirement Benefits		Pension		Other Postretirement Benefits	
	2015	2014	2015	2014	2015	2014	2015	2014
Components of net periodic benefit cost:								
Service cost	\$18	\$20	\$2	\$2	\$36	\$40	\$5	\$5
Interest cost	23	26	6	6	46	52	12	12
Expected return on plan assets	(38)	(39)	(6)	(6)	(76)	(79)	(12)	(12)
Amortization of actuarial (gain) loss	15	12	—	(1)	30	24	—	(3)
Settlement/curtailment (gain) loss	—	2	—	(9)	—	2	—	(9)
Net periodic benefit (income) cost	\$18	\$21	\$2	\$(8)	\$36	\$39	\$5	\$(7)
Amounts were included in the statement of income as follows:								
Continuing operations	\$18	\$18	\$2	\$1	\$36	\$34	\$5	\$2
Discontinued operations	—	3	—	(9)	—	5	—	(9)

Edgar Filing: ILLINOIS TOOL WORKS INC - Form 10-Q

Net periodic benefit (income) cost	\$18	\$21	\$2	\$(8)	\$36	\$39	\$5	\$(7)
------------------------------------	------	------	-----	--------	------	------	-----	--------

8

The Company expects to contribute approximately \$100 million to its pension plans and \$5 million to its other postretirement plans in 2015. As of June 30, 2015, contributions of \$89 million to pension plans and \$3 million to other postretirement plans have been made.

(6) Debt

Short-term debt as of June 30, 2015 and December 31, 2014 included commercial paper of \$805 million and \$1.4 billion, respectively.

In May 2015, the Company issued €500 million of 1.25% Euro notes due May 22, 2023 at 99.239% of face value and €500 million of 2.125% Euro notes due May 22, 2030 at 99.303% of face value. Net proceeds from the May 2015 debt issuances were used to repay commercial paper and for general corporate purposes. The Company designated the €1.0 billion of Euro notes as a hedge of a portion of its net investment in Euro-denominated foreign operations to reduce foreign currency risk associated with the investment in these operations. Changes in the value of this debt resulting from fluctuations in the Euro to U.S. Dollar exchange rate have been recorded as foreign currency translation adjustments within Accumulated other comprehensive income. Refer to the Accumulated other comprehensive income note for additional information regarding the net investment hedge.

The approximate fair value and related carrying value of the Company's total long-term debt, including current maturities of long-term debt presented as short-term debt, as of June 30, 2015 and December 31, 2014 were as follows:

In millions	June 30, 2015	December 31, 2014
Fair value	\$7,131	\$6,431
Carrying value	6,995	5,982

The approximate fair values of the Company's long-term debt, including current maturities, were based on a Level 2 valuation model, using observable inputs which included market rates for comparable instruments for the respective periods.

(7) Accumulated Other Comprehensive Income

The following table summarizes changes in Accumulated other comprehensive income for the three and six months ended June 30, 2015 and 2014:

In millions	Three Months Ended June 30,		Six Months Ended June 30,		
	2015	2014	2015	2014	
Beginning balance	\$(1,226) \$420	\$(658) \$384	
Foreign currency translation adjustments during the period	153	82	(374) 110	
Foreign currency translation adjustments reclassified to income	—	(132) —	(132)
Income taxes	16	—	(34) —	
Total foreign currency translation adjustments	169	(50) (408) (22)
Pension and other postretirement benefit adjustments during the period	—	(41) (2) (41)
Pension and other postretirement benefit adjustments reclassified to income	15	19	30	29	

Edgar Filing: ILLINOIS TOOL WORKS INC - Form 10-Q

Income taxes	(4)	11	(8)	9			
Total pension and other postretirement benefit adjustments	11		(11)	20	(3)		
Ending balance			\$(1,046)	\$359		\$(1,046)	\$359

Foreign currency translation adjustments reclassified to income are primarily related to the disposal of certain discontinued operations. Refer to the Discontinued Operations note for additional information. Pension and other postretirement benefit

adjustments reclassified to income primarily relate to the amortization of actuarial (gain) loss and prior service cost. Refer to the Pension and Other Postretirement Benefits note for additional information.

The Company designated the €1.0 billion of Euro notes issued in May 2015 and the €1.0 billion of Euro notes issued in May 2014 as hedges of a portion of its net investment in Euro-denominated foreign operations to reduce foreign currency risk associated with the investment in these operations. The carrying values of the Euro notes were \$1.1 billion and \$1.1 billion, respectively, as of June 30, 2015. Changes in the value of this debt resulting from fluctuations in the Euro to U.S. dollar exchange rate have been recorded as foreign currency translation adjustments within Accumulated other comprehensive income. The unrealized gain recorded in Accumulated other comprehensive income related to the net investment hedge was \$250 million and \$158 million as of June 30, 2015 and December 31, 2014, respectively.

The ending balance of Accumulated other comprehensive income as of June 30, 2015 and 2014 consisted of cumulative translation adjustment expense of \$673 million and income of \$652 million, respectively, and unrecognized pension and other postretirement benefits costs, net of tax, of \$373 million and \$293 million, respectively.

(8) Segment Information

The Company has seven reportable segments: Automotive OEM; Test & Measurement and Electronics; Food Equipment; Polymers & Fluids; Welding; Construction Products; and Specialty Products. See Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations for information regarding operating revenue and operating income for the Company's segments.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

INTRODUCTION

Founded in 1912, ITW is a multi-industry company with a strong portfolio of global industrial businesses including Automotive OEM, Test & Measurement and Electronics, Food Equipment, Polymers & Fluids, Welding, Construction Products and Specialty Products. The core source of value creation and competitive advantage is the ITW Business Model, consisting of the 80/20 business process, a customer-back approach to innovation and a decentralized entrepreneurial culture. Each ITW business leverages the ITW Business Model to deliver best-in-class financial performance. The Company has approximately 49,000 employees and operations in 57 countries.

THE ITW BUSINESS MODEL

The Company is built around a powerful and highly differentiated business model that comprises three elements:

80/20 Business Process - ITW's proprietary 80/20 business process focuses on what is most important (the 20% of the items which account for 80% of the value) in order to spend less time and resources on the less important (the 80% of the items which account for 20% of the value), resulting in improved financial performance.

The Company uses this 80/20 business process to simplify and focus on the key drivers of business profitability, and as a result, reduces complexity that creates unnecessary expense and disguises what is truly important. The Company utilizes the 80/20 process in all aspects of its business. Common applications of the 80/20 business process include:

- Simplifying product lines by reducing the number of products offered by combining the features of similar products, outsourcing products or eliminating low-value products.
- Segmenting the customer base by focusing on the 80/20 customers separately and finding alternative ways to serve the 20/80 customers.
- Simplifying the supplier base by partnering with 80/20 suppliers and reducing the number of 20/80 suppliers.
- Designing business processes, systems and measurements around the 80/20 activities.

Over the past three decades, the result of the application of the 80/20 business process is that the Company has improved its long-term operating and financial performance and believes that there is considerable future opportunity from the continuous disciplined application of 80/20. These 80/20 efforts can result in restructuring initiatives that reduce costs and improve profitability and returns.

Customer-Back Innovation - ITW's customer-back approach to innovation builds on the Company's 80/20 business process to help ITW businesses focus on the most profitable customers and invent solutions to solve their specific problems. ITW businesses are focused on building relationships with these major customers to develop deep knowledge and insight around their needs. These customer insights and learnings drive innovation at ITW and have contributed to a portfolio of approximately 16,000 granted and pending patents.

Decentralized Entrepreneurial Culture - At the core of ITW's culture is a desire to keep decision making and management responsibility close to customers in order to best meet their needs while rapidly adapting to changes in end markets. ITW businesses have significant flexibility within the framework of the ITW Business Model to customize their approach in order to best serve their customers. This leads to a focused and simple organizational structure that, combined with outstanding execution, delivers operational excellence adapted to their customers and end markets.

ENTERPRISE STRATEGY

In 2012, the Company embarked on a five-year Enterprise Strategy with the objective of positioning the Company to generate the maximum yield from the compelling performance potential that resides within the ITW Business Model. By doing so, the Company expects to generate solid growth with best-in-class margins and after-tax return on invested capital for the Company and sustainable long-term value creation for shareholders. With this objective in mind, the Company is committed to achieving the following performance goals by the end of 2017:

• Organic Growth: 200 basis points above global GDP
• Operating Margin: Approximately 23 percent
• After-Tax ROIC: 20+ percent
• Free Operating Cash Flow: 100 percent of net income

The Company has made significant progress toward these goals. The Enterprise Initiatives have helped build a foundation from which the Company is pivoting to a heightened focus on organic revenue growth. Since 2012, the Company has seen both operating margins and after-tax ROIC increase by approximately 500 basis points, with operating margin of 21.3 percent and after-tax ROIC of 20.3 percent in the second quarter of 2015.

KEY INITIATIVES

In conjunction with the Enterprise Strategy, the Company is in the process of implementing three key initiatives - portfolio management, business structure simplification, and strategic sourcing. These enterprise initiatives are expected to enhance the business through 2017 and are targeted at expanding organic revenue growth and improving profitability and returns to position ITW to deliver 12 to 14 percent annualized total shareholder return over the long-term, assuming global GDP of 3 percent.

Portfolio Management - The Company's portfolio management initiative aims to reposition the business portfolio to fully leverage the ITW Business Model. This initiative began with the divestiture of over 30 businesses that did not have the attributes necessary to fully leverage the ITW Business Model. As a result, the Company's divestiture activity increased in 2012, 2013 and 2014. With the sale of the Company's former Industrial Packaging segment on May 1, 2014, the divestiture element of the Company's portfolio management initiative is essentially complete.

The Company has historically acquired businesses with complementary products and services as well as larger acquisitions that represent potential new platforms. Going forward, the Company will emphasize organic growth, while acquisitions will be targeted to bolt-on acquisitions that support and accelerate organic growth in existing segments, and new platforms that expand the Company's long-term growth and earnings potential.

The focus of the portfolio repositioning efforts has now shifted from divestitures to significant efforts inside the Company's businesses to exit slower-growth product lines so that they can concentrate their efforts and resources on taking full advantage of their most compelling organic growth opportunities. Product line simplification (PLS) focuses on eliminating the complexity and overhead costs associated with smaller product lines and customers, and focuses businesses on supporting and growing their largest customers and product lines. In the short-term, product line simplification may result in a decrease in revenue and overhead costs while improving operating margin. Over the long-term, product line simplification results in growth in revenue, profitability and returns. PLS activities have resulted in approximately 100 basis points of organic revenue headwind in 2014 and 2015, as the Company strategically exits certain products and customer relationships. The impact of PLS is expected to moderate beginning in 2016.

Business Structure Simplification - The business structure simplification initiative simplifies the Company's organizational model and adds scale to the Company's operating divisions in order to fully leverage 80/20, increase organic revenue growth, enhance global competitiveness and drive operational efficiencies. This initiative focuses on consolidating the Company's operating structure from over 800 regional businesses into approximately 90 global divisions while retaining the positive attributes of a decentralized operating model. The Company expects to enhance its profitability and returns through a combination of applying its 80/20 business process to the new divisions, more focused growth investments and reduced infrastructure.

Strategic Sourcing - The Company's strategic sourcing initiative focuses on building sourcing capability in order to leverage purchasing scale to enhance profitability and global competitiveness. It incorporates both enterprise-level and segment-level purchasing that cross the Company's many businesses. The target is to reduce global spend by an average of one percent per year for the five-year period from 2013-2017. The Company has exceeded its annual targets in each of the past two years.

TERMS USED BY ITW

Management uses the following terms to describe the financial results of operations of the Company:

- Organic business - acquired businesses that have been included in the Company's results of operations for more than 12 months on a constant currency basis.
- Operating leverage - the estimated effect of the organic revenue volume changes on organic operating income, assuming variable margins remain the same as the prior period.
 - Changes in variable margins and overhead costs - represent the estimated effect of non-volume related changes in the operating income of organic businesses and may be driven by a number of factors, including changes in product mix, the cost of raw materials, labor and overhead, and pricing to customers.

Price/cost - represents the estimated net impact of increases or decreases in the cost of materials used in the Company's products versus changes in the selling price to the Company's customers. Price/cost is a component of changes in variable margins and overhead costs.

Product line simplification (PLS) - focuses businesses on eliminating the complexity and overhead costs associated with smaller product lines and customers, and focuses businesses on supporting and growing their largest customers and product lines; in the short-term, PLS may result in a decrease in revenue and overhead costs while improving operating margin. In the long-term, PLS results in growth in revenue, profitability, and returns.

Unless otherwise stated, the changes in financial results in the consolidated results of operations and the results of operations by segment represent the current year period versus the comparable period in the prior year. The discussion of operating results should be read in conjunction with Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's 2014 Annual Report on Form 10-K.

CONSOLIDATED RESULTS OF OPERATIONS

In the second quarter and year-to-date periods, the Company delivered solid earnings performance primarily driven by the execution of the Company's enterprise initiatives despite the weakening of foreign currencies against the U.S. dollar and a challenging macro environment.

The Company's consolidated results of operations for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended		Components of Increase (Decrease)							
	June 30, 2015	June 30, 2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Currency	Total		
Operating revenue	\$3,434	\$3,719	(7.6)%	0.2	%(0.3)%	—	%(7.5)%	(7.6)%
Operating income	\$730	\$763	(4.3)%	4.2	%(0.5)%	(0.1	%(7.9)%	(4.3)%
Operating margin %	21.3	% 20.5	% 80 bps	80 bps	—	—	—	80 bps		

Dollars in millions	Six Months Ended		Components of Increase (Decrease)							
	June 30, 2015	June 30, 2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Currency	Total		
Operating revenue	\$6,776	\$7,288	(7.0)%	0.4	%(0.3)%	—	%(7.1)%	(7.0)%
Operating income	\$1,427	\$1,430	(0.3)%	7.5	%(0.3)%	0.4	%(7.9)%	(0.3)%
Operating margin %	21.1	% 19.6	% 150 bps	140 bps	—	10 bps	—	150 bps		

Organic revenue increased 0.2% and 0.4% in the second quarter and year-to-date periods, respectively.

Automotive OEM, Food Equipment and Construction Products had solid worldwide organic revenue growth primarily due to product innovation, penetration gains and higher market demand. Organic revenue declined in the Welding, Test & Measurement and Electronics and Specialty Products segments as a result of the impact of a challenging

capital spending environment and lower demand in the oil and gas sector.

PLS activities associated with the portfolio management component of the Company's Enterprise Strategy reduced organic revenue growth by approximately one percentage point in both the second quarter and year-to-date periods. North American organic revenue increased 0.4% and 0.6% in the second quarter and year-to-date periods, respectively, as growth in the Automotive OEM, Food Equipment and Construction Products segments was partially offset by a decline in the Welding, Test & Measurement and Electronics and Specialty Products segments.

Europe, Middle East and Africa organic revenue increased 2.0% and 1.7% in the second quarter and year-to-date periods, respectively. Growth in the Automotive OEM, Food Equipment, and Welding segments was partially offset by a decline in the Polymers & Fluids, Test & Measurement and Electronics and Specialty Products segments.

Asia Pacific organic revenue decreased 2.5% and 0.8% in the second quarter and year-to-date periods, respectively, primarily due to a decline in the Welding and Test & Measurement and Electronics segments, partially offset by growth in the Construction Products and Polymers & Fluids segments.

Operating revenue decreased in the second quarter and year-to-date periods primarily due to the unfavorable effect of foreign currency translation as the U.S. dollar strengthened against most major currencies. In the year-to-date period, operating revenue declined \$512 million while operating income was essentially flat.

Operating margin of 21.3% and 21.1% in the second quarter and year-to-date periods, respectively, increased 80 and 150 basis points versus the prior year. The primary driver of the operating margin improvement was the benefit of the Company's enterprise initiatives related to strategic sourcing and business structure simplification that contributed 100 basis points in each respective period. Favorable price/cost of 20 basis points in both comparable periods was offset by the lower operating margin in the Specialty Products segment in the second quarter.

Diluted earnings per share (EPS) from continuing operations of \$1.30 for the second quarter increased 7.4%. The unfavorable effect of foreign currency translation decreased second quarter EPS by approximately \$0.12 per diluted share, or 10%. In the year-to-date period, EPS from continuing operations of \$2.51 increased 13.1%. The unfavorable effect of currency translation decreased year-to-date EPS by approximately \$0.21 per diluted share, or 10%.

The Company repurchased approximately 1.9 million and 18.4 million shares of its common stock in the second quarter and year-to-date periods, respectively, for approximately \$184 million and \$1.8 billion, respectively.

Free operating cash flow was \$384 million, or 80% of net income, for the second quarter. In the year-to-date period, free operating cash flow was \$743 million, or 79% of net income.

Adjusted return on average invested capital was 20.3% for the second quarter, an increase of 80 basis points, and 19.7% in the year-to-date period, an increase of 130 basis points.

RESULTS OF OPERATIONS BY SEGMENT

Total operating revenue and operating income for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended June 30,				Six Months Ended June 30,			
	Operating Revenue		Operating Income		Operating Revenue		Operating Income	
	2015	2014	2015	2014	2015	2014	2015	2014
Automotive OEM	\$649	\$671	\$159	\$158	\$1,302	\$1,339	\$322	\$314
Test & Measurement and Electronics	496	558	79	85	979	1,077	150	148
Food Equipment	518	537	114	105	1,013	1,048	226	200
Polymers & Fluids	446	506	94	99	887	985	182	179
Welding	426	470	111	124	859	933	228	243

Specialty Products	486	540	115	130	948	1,060	219	239
Intersegment revenues	(6)	(7)	—	—	(12)	(14)	—	—
Unallocated	—	—	(26)	(19)	—	—	(47)	(35)
Total	\$3,434	\$3,719	\$730	\$763	\$6,776	\$7,288	\$1,427	\$1,430

AUTOMOTIVE OEM

Businesses in this segment produce components and fasteners for automotive-related applications.

In the Automotive OEM segment, products and services include:

plastic and metal components, fasteners and assemblies for automobiles, light trucks, and other industrial uses.

This segment primarily serves the automotive original equipment manufacturers and tiers market.

The results of operations for the Automotive OEM segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended										
	June 30,		Components of Increase (Decrease)								
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total			
Operating revenue	\$649	\$671	(3.4)%	6.0 %	(0.3)%	—	%(9.1)%	(3.4)%			
Operating income	\$159	\$158	0.1 %	9.1 %	(0.1)%	—	%(8.9)%	0.1 %			
Operating margin %	24.5	% 23.7	% 80 bps	70 bps	10 bps	—	—	80 bps			
Dollars in millions	Six Months Ended										
	June 30,		Components of Increase (Decrease)								
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total			
Operating revenue	\$1,302	\$1,339	(2.7)%	6.3 %	(0.4)%	—	%(8.6)%	(2.7)%			
Operating income	\$322	\$314	2.6 %	11.5 %	(0.1)%	0.2	%(9.0)%	2.6 %			
Operating margin %	24.8	% 23.5	% 130 bps	110 bps	—	20 bps	—	130 bps			

As a result of product innovation and penetration gains, worldwide automotive organic revenue grew 6.0% and 6.3% for the second quarter and year-to-date periods, respectively, exceeding worldwide auto builds which were flat for the second quarter and grew 1% in the year-to-date period.

European organic revenue growth of 10.4% and 11.5% for the second quarter and year-to-date periods, respectively, exceeded auto builds that were flat for the second quarter and grew 2% in the year-to-date period.

North American organic revenue grew 4.9% and 4.1% for the second quarter and year-to-date periods, respectively. North American auto builds grew 2% in each respective period as auto builds for the Detroit 3 grew 1% in the second quarter and declined 1% in the year-to-date period.

Asia Pacific organic revenue was essentially flat in the second quarter and increased 2.5% year-to-date. Organic revenue growth in China of 8.0% and 11.0% in the second quarter and year-to-date periods, respectively, exceeded Chinese auto build growth of 2% and 5% versus the respective prior year periods.

Operating revenue decreased in the second quarter and year-to-date periods primarily due to the unfavorable effect of currency translation.

Operating margin in the second quarter was 24.5%, an increase of 80 basis points primarily driven by positive operating leverage of 90 basis points. In the year-to-date period, operating margin increased 130 basis points to 24.8% primarily driven by positive operating leverage of 90 basis points, the net benefits from the Company's enterprise initiatives and cost management, and lower restructuring expenses.

TEST & MEASUREMENT AND ELECTRONICS

Businesses in this segment produce equipment, consumables, and related software for testing and measuring of materials and structures, as well as equipment and consumables used in the production of electronic subassemblies

and microelectronics.

In the Test & Measurement and Electronics segment, products include:

- equipment, consumables, and related software for testing and measuring of materials, structures, gases and fluids;
- electronic assembly equipment and related consumable solder materials;
- electronic components and component packaging;
 - static control equipment and consumables used for contamination control in clean room environments; and
- pressure sensitive adhesives and components for telecommunications, electronics, medical and transportation applications.

This segment primarily serves the electronics, general industrial, industrial capital goods, automotive original equipment manufacturers and tiers and consumer durables markets.

The results of operations for the Test & Measurement and Electronics segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total		
Operating revenue	\$496	\$558	(11.0)%	(4.9)%	— %	—	%(6.1)%	(11.0)%		
Operating income	\$79	\$85	(6.0)%	(3.5)%	— %	4.2	%(6.7)%	(6.0)%		
Operating margin %	16.1	% 15.2	% 90 bps	20 bps	—	70 bps	—	90 bps		
Dollars in millions	Six Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total		
Operating revenue	\$979	\$1,077	(9.0)%	(3.0)%	— %	—	%(6.0)%	(9.0)%		
Operating income	\$150	\$148	1.7 %	5.1 %	— %	4.0	%(7.4)%	1.7 %		
Operating margin %	15.4	% 13.8	% 160 bps	120 bps	—	50 bps	(10) bps	160 bps		

Organic revenue decreased 4.9% and 3.0% for the second quarter and year-to-date periods, respectively.

Organic revenue for the worldwide test and measurement businesses decreased 6.7% and 4.2% for the second quarter and year-to-date periods, respectively, primarily due to the impact of a challenging capital spending environment.

Worldwide electronics organic revenue declined 2.6% and 1.4% for the second quarter and year-to-date periods, respectively. Weaker demand in the electronic assembly businesses was partially offset by increased revenues in the other electronics businesses, which include the pressure sensitive adhesives, contamination control and electrostatics businesses, driven by increased demand in North America and Europe.

Operating revenue decreased in the second quarter and year-to-date periods due to the unfavorable effect of currency translation and the decrease in organic revenue.

Operating margin was 16.1% in the second quarter of 2015, an increase of 90 basis points driven by the net benefits resulting from the Company's enterprise initiatives and cost management of 150 basis points, lower restructuring expenses of 70 basis points and favorable price/cost of 30 basis points, partially offset by negative operating leverage of 160 basis points.

In the year-to-date period, operating margin increased 160 basis points to 15.4% primarily driven by the net benefits resulting from the Company's enterprise initiatives and cost management of 190 basis points, lower restructuring expenses of 50 basis points and favorable price/cost of 20 basis points, partially offset by negative operating leverage of 90 basis points.

FOOD EQUIPMENT

Businesses in this segment produce commercial food equipment and related service.

In the Food Equipment segment, products and services include:

- warewashing equipment;
- cooking equipment, including ovens, ranges and broilers;
- refrigeration equipment, including refrigerators, freezers and prep tables;
- food processing equipment, including slicers, mixers and scales;
- kitchen exhaust, ventilation and pollution control systems; and
- food equipment service, maintenance and repair.

This segment primarily serves the food institutional/restaurant, food service and food retail markets.

The results of operations for the Food Equipment segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended		Components of Increase (Decrease)									
	June 30,											
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total				
Operating revenue	\$518	\$537	(3.6)%	4.2 %	—	%	—	%(7.8)%	(3.6)%			
Operating income	\$114	\$105	8.9 %	22.3 %	—	%	(5.0)%	(8.4)%	8.9 %			
Operating margin %	22.0	% 19.5	% 250 bps	340 bps	—		(90) bps	—	250 bps			
Dollars in millions	Six Months Ended		Components of Increase (Decrease)									
	June 30,											
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total				
Operating revenue	\$1,013	\$1,048	(3.4)%	4.1 %	—	%	—	%(7.5)%	(3.4)%			
Operating income	\$226	\$200	13.0 %	21.2 %	—	%	—	%(8.2)%	13.0 %			
Operating margin %	22.3	% 19.1	% 320 bps	320 bps	—		—	—	320 bps			

Organic revenue increased 4.2% and 4.1% for the second quarter and year-to-date periods, respectively. North American organic revenue increased 7.1% and 7.2% for the second quarter and year-to-date periods, respectively. North American equipment revenue increased 8.9% and 9.2% in the second quarter and year-to-date periods, respectively, primarily due to product innovation and improved market penetration in the warewash, refrigeration and cooking businesses. Service revenue in North America increased 4.6% and 4.3% in the second quarter and year-to-date periods, respectively. International organic revenue increased 1.1% in the second quarter and 0.8% in the year-to-date period primarily due to growth in Europe. International equipment revenue, which had a more challenging comparable in the prior year, increased 0.4% in the second quarter and year-to-date periods. International service organic revenue increased 2.8% and 2.0% in the second quarter and year-to-date periods, respectively. Operating revenue decreased in the second quarter and year-to-date periods due to the unfavorable effect of currency translation. Operating margin in the second quarter was 22.0%. The 250 basis point improvement was driven by the net benefits of the Company's enterprise initiatives and cost management of 210 basis points, positive operating leverage of 100 basis points and favorable price/cost of 30 basis points, partially offset by higher restructuring expenses of 90 basis points. In the year-to-date period, operating margin increased 320 basis points to 22.3%. Operating margin improved due to the net benefits of the Company's enterprise initiatives and cost management of 190 basis points, positive operating leverage of 110 basis points and favorable price/cost of 20 basis points.

POLYMERS & FLUIDS

Businesses in this segment produce adhesives, sealants, lubrication and cutting fluids, janitorial and hygiene products, and fluids and polymers for auto aftermarket maintenance and appearance.

In the Polymers & Fluids segment, products include:

- adhesives for industrial, construction and consumer purposes;
- chemical fluids which clean or add lubrication to machines;
- epoxy and resin-based coating products for industrial applications;
- hand wipes and cleaners for industrial applications;
- fluids, polymers and other supplies for auto aftermarket maintenance and appearance;
- fillers and putties for auto body repair; and
- polyester coatings and patch and repair products for the marine industry.

This segment primarily serves the automotive aftermarket, general industrial, maintenance, repair and operations or “MRO”, and construction markets.

The results of operations for the Polymers & Fluids segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$446	\$506	(11.9)%	(1.6)%	(1.6)%	—	%(8.7)%	(11.9)%		
Operating income	\$94	\$99	(5.8)%	0.5 %	(3.5)%	4.8	%(7.6)%	(5.8)%		
Operating margin %	20.9	% 19.6	% 130 bps	40 bps	(40) bps	100 bps	30 bps	130 bps		
Dollars in millions	Six Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$887	\$985	(10.0)%	(1.0)%	(0.8)%	—	%(8.2)%	(10.0)%		
Operating income	\$182	\$179	1.5 %	7.5 %	(1.9)%	3.8	%(7.9)%	1.5 %		
Operating margin %	20.5	% 18.1	% 240 bps	150 bps	(20) bps	70 bps	40 bps	240 bps		

- Organic revenue declined in both comparable periods primarily due to ongoing PLS activities and weaker demand in Europe, partially offset by product innovation. Organic revenue for the worldwide polymers businesses decreased 2.7% in the second quarter primarily driven by revenue declines in Europe and was flat in the year-to-date period. Worldwide fluids and hygiene businesses decreased 2.3% in the second quarter primarily driven by a decline in North America and 3.7% in the year-to-date period primarily due to softness in Europe. Organic revenue for the worldwide automotive aftermarket businesses was flat in both comparable periods.
- Operating revenue decreased in the second quarter and year-to-date periods primarily due to the unfavorable effect of currency translation and the decrease in organic revenue.
- Operating margin in the second quarter was 20.9%, an increase of 130 basis points primarily driven by lower restructuring expenses of 100 basis points and changes in variable margins and overhead costs of 80 basis points, driven by the net benefits of the Company's enterprise initiatives and cost management and favorable price/cost of 30 basis points, partially offset by negative operating leverage of 40 basis points.
- In the year-to-date period, operating margin increased 240 basis points to 20.5% primarily due to changes in variable margins and overhead costs of 160 basis points, driven by the net benefits of the Company's enterprise initiatives and cost management and favorable price/cost of 20 basis points, and lower restructuring expenses and favorable currency translation, partially offset by negative operating leverage of 30 basis points.

WELDING

Businesses in this segment produce arc welding equipment, consumables and accessories for a wide array of industrial and commercial applications.

In the Welding segment, products include:

- arc welding equipment;
- metal arc welding consumables and related accessories; and
- metal jacketing and other insulation products.

This segment primarily serves the general industrial market, which includes the fabrication, shipbuilding and other general industrial markets, energy, maintenance, repair and operations, or "MRO", construction and industrial capital goods markets.

The results of operations for the Welding segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$426	\$470	(9.4)%	(6.0)%	(0.1)%	—	%(3.3)	(9.4)%		
Operating income	\$111	\$124	(10.0)%	(8.3)%	—	%(0.2)	%(1.5)	(10.0)%		
Operating margin %	26.1%	26.3%	(20) bps	(60) bps	—	(10) bps	50 bps	(20) bps		
Dollars in millions	Six Months Ended									
	June 30,		Components of Increase (Decrease)							
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$859	\$933	(8.0)%	(4.6)%	(0.1)%	—	%(3.3)	(8.0)%		
Operating income	\$228	\$243	(6.1)%	(5.3)%	—	%(0.9)	%(1.7)	(6.1)%		
Operating margin %	26.5%	26.0%	50 bps	(20) bps	—	30 bps	40 bps	50 bps		

Worldwide organic revenue decreased in the second quarter and year-to-date periods due to lower demand in the oil and gas end markets, the impact of a soft capital spending environment and continued PLS.

North American organic revenue declined 4.8% and 2.3% for the second quarter and year-to-date periods, respectively, primarily due to decreases across the oil and gas sector and industrial end markets.

International organic revenue decreased 9.1% and 11.1% for the second quarter and year-to-date periods, respectively, primarily due to weak oil and gas end markets in Asia Pacific and Brazil.

Operating revenue decreased in the second quarter and year-to-date periods primarily due to the decrease in organic revenue and the unfavorable effect of currency translation.

Operating margin in the second quarter of 2015 was 26.1%, a slight decline of 20 basis points, primarily driven by negative operating leverage of 100 basis points and higher restructuring expenses, partially offset by favorable price/cost of 50 basis points and favorable currency translation of 50 basis points.

In the year-to-date period, operating margin was 26.5%. The 50 basis point improvement was primarily due to favorable currency translation of 40 basis points, lower restructuring expenses, favorable price/cost of 30 basis points and the net benefits of the Company's enterprise initiatives and cost management of 30 basis points, partially offset by negative operating leverage of 80 basis points.

CONSTRUCTION PRODUCTS

Businesses in this segment produce construction fastening systems and truss products.

In the Construction Products segment, products include:

fasteners and related fastening tools for wood and metal applications;

- anchors, fasteners and related tools for concrete applications;
- metal plate truss components and related equipment and software; and
- packaged hardware, fasteners, anchors and other products for retail.

This segment primarily serves the residential construction, renovation construction, and commercial construction markets.

The results of operations for the Construction Products segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended		Components of Increase (Decrease)							
	June 30, 2015	June 30, 2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$419	\$444	(5.7)%	5.8 %	(0.4)%	—	(11.1)%	(5.7)%		
Operating income	\$84	\$81	3.2 %	18.3 %	(0.2)%	(3.4)%	(11.5)%	3.2 %		
Operating margin %	19.9 %	18.2 %	170 bps	210 bps	—	(40) bps	—	170 bps		
Dollars in millions	Six Months Ended		Components of Increase (Decrease)							
	June 30, 2015	June 30, 2014	Inc (Dec)	Organic	Acquisition/Divestitures	Restructuring	Foreign Exchange	Total		
Operating revenue	\$800	\$860	(7.0)%	4.2 %	(0.9)%	—	(10.3)%	(7.0)%		
Operating income	\$147	\$142	2.9 %	18.6 %	(0.4)%	(4.3)%	(11.0)%	2.9 %		
Operating margin %	18.3 %	16.5 %	180 bps	220 bps	10 bps	(50) bps	—	180 bps		

Organic revenue increased 5.8% and 4.2% for the second quarter and year-to-date periods, respectively. North American organic revenue increased 14.9% and 10.1% for the second quarter and year-to-date periods, respectively, due to an increase in demand across all end markets, particularly renovation and residential. International organic revenue increased 1.0% in both respective periods. Asia Pacific organic revenue increased 2.8% and 2.1% for the second quarter and year-to-date periods, respectively, primarily due to growth in Australia and New Zealand. European organic revenue decreased 0.7% for the second quarter and was flat in the year-to-date period as strength in the United Kingdom was offset by ongoing PLS activities. Operating revenue decreased in the second quarter and year-to-date periods primarily due to the unfavorable effect of currency translation.

Operating margin in the second quarter was 19.9%. The 170 basis point improvement was driven by positive operating leverage of 150 basis points and the net benefits of the Company's enterprise initiatives and cost management of 90 basis points, partially offset by higher restructuring expenses of 40 basis points and unfavorable price/cost of 30 basis points.

In the year-to-date period, operating margin improved 180 basis points to 18.3% primarily due to the net benefits of the Company's enterprise initiatives and cost management of 140 basis points and positive operating leverage of 100 basis points, partially offset by higher restructuring expenses of 50 basis points and unfavorable price/cost of 20 basis points.

SPECIALTY PRODUCTS

Diversified businesses in this segment produce beverage packaging equipment and consumables, product coding and marking equipment and consumables, and appliance components and fasteners.

In the Specialty Products segment, products include:

- line integration, conveyor systems and line automation for the food and beverage industries;
- plastic consumables that multi-pack cans and bottles and related equipment;
- foil, film and related equipment used to decorate consumer products;
- product coding and marking equipment and related consumables;
- plastic and metal fasteners and components for appliances;
- airport ground support equipment; and
- components for medical devices.

This segment primarily serves the food and beverage, consumer durables, general industrial, printing and publishing and industrial capital goods markets.

The results of operations for the Specialty Products segment for the second quarter and year-to-date periods were as follows:

Dollars in millions	Three Months Ended		Components of Increase (Decrease)									
	June 30,											
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total				
Operating revenue	\$486	\$540	(9.9)%	(3.4)%	—	%	—	%	(6.5)%	(9.9)%		
Operating income	\$115	\$130	(12.2)%	(4.8)%	—	%	(0.9)%	(6.5)%	(12.2)%			
Operating margin %	23.5	% 24.2	% (70) bps	(30) bps	—		(40) bps	—		(70) bps		
Dollars in millions	Six Months Ended		Components of Increase (Decrease)									
	June 30,											
	2015	2014	Inc (Dec)	Organic	Acquisition/Divestiture	Restructuring	Foreign Exchange	Total				
Operating revenue	\$948	\$1,060	(10.6)%	(4.5)%	—	%	—	%	(6.1)%	(10.6)%		
Operating income	\$219	\$239	(8.8)%	(1.0)%	—	%	(1.5)%	(6.3)%	(8.8)%			
Operating margin %	23.1	% 22.6	% 50 bps	80 bps	—		(30) bps	—		50 bps		

Organic revenue declined 3.4% and 4.5% in the second quarter and year-to-date periods, respectively. North American organic revenue declined 4.7% and 6.0% in the second quarter and year-to-date periods, respectively. International organic revenue decreased 1.3% and 2.2% in the second quarter and year-to-date periods, respectively. The decrease in organic revenue was primarily driven by the impact of a challenging capital spending environment and ongoing PLS activities.

Operating revenue decreased in the second quarter and year-to-date periods due to the unfavorable effect of currency translation and the decrease in organic revenue.

Operating margin in the second quarter was 23.5%, a decline of 70 basis points. Negative operating leverage of 70 basis points and higher restructuring expenses were partially offset by changes in variable margins and overhead costs of 40 basis points primarily driven by the net benefits of the Company's enterprise initiatives and cost management and favorable price/cost of 30 basis points.

In the year-to-date period, operating margin improved 50 basis points to 23.1%. Changes in variable margins and overhead costs improved operating margin by 180 basis points primarily due to the net benefits of the Company's enterprise initiatives and cost management and favorable price/cost of 30 basis points, partially offset by negative operating leverage of 100 basis points and higher restructuring expenses.

OTHER FINANCIAL HIGHLIGHTS

Interest expense of \$55 million and \$109 million for the second quarter and year-to-date periods, respectively, decreased due to 2014 and 2015 debt issuances at lower interest rates compared to prior debt obligations.

Other income (expense) was income of \$21 million for the second quarter, an increase of \$14 million primarily driven by a \$9 million increase in equity income related to an existing equity investment. Year-to-date, other income

(expense) was income of \$42 million, an increase of \$26 million, which included a \$15 million gain on the sale of a business in the first quarter of 2015.

•The effective tax rate for the year-to-date period in 2015 was 31% compared to 30% for 2014.

DISCONTINUED OPERATIONS

The Company periodically reviews its operations for businesses that may no longer be aligned with its enterprise initiatives and long-term objectives. As a result, the Company may commit to a plan to exit or dispose of certain businesses and present them as discontinued operations. Refer to the Discontinued Operations note in Item 1 - Financial Statements for discussion of the Company's discontinued operations.

NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board ("FASB") issued authoritative guidance to change the criteria for revenue recognition. The core principle of the new standard is that revenue should be recognized to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, several new revenue recognition disclosures will be required. This guidance is effective for the Company beginning January 1, 2018. The Company is currently assessing the potential impact the guidance will have upon adoption.

In April 2015, the FASB issued authoritative guidance to simplify the balance sheet presentation of debt issuance costs. Under the new guidance, debt issuance costs will be presented as a reduction of the carrying amount of the debt liability. The guidance is effective for the Company beginning January 1, 2016 and will be applied retrospectively for all periods presented. As of June 30, 2015, the Company had \$44 million of deferred debt issuance costs. The Company does not expect adoption of this guidance to have a material impact on the Company's financial statements.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary sources of liquidity are free operating cash flows and short-term credit facilities. In addition, the Company had \$2.9 billion of cash on hand at June 30, 2015 and also maintains strong access to public debt markets. Management believes that these sources are sufficient to service debt and to finance the Company's capital allocation priorities, which include:

- investment in existing businesses to fund internal growth;
- payment of an attractive dividend to shareholders;
- share repurchases; and
- acquisitions.

The Company believes that, based on its revenues, operating margin, current free operating cash flow, and credit ratings, it could readily obtain additional financing if necessary.

Cash Flow

The Company uses free operating cash flow to measure cash flow generated by operations that is available for dividends, share repurchases, acquisitions and debt repayment. The Company believes this non-GAAP financial measure is useful to investors in evaluating the Company's financial performance and measures the Company's ability to generate cash internally to fund Company initiatives. Free operating cash flow represents net cash provided by operating activities less additions to plant and equipment. Free operating cash flow is a measurement that is not the same as net cash flow from operating activities per the statement of cash flows and may not be consistent with similarly titled measures used by other companies.

Summarized cash flow information for the second quarter and year-to-date periods of 2015 and 2014 was as follows:

In millions	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Net cash provided by operating activities	\$448	\$573	\$890	\$887

22

Stock Repurchase Programs

On August 2, 2013, the Company's Board of Directors authorized a stock repurchase program which provided for the buyback of up to \$6.0 billion of the Company's common stock over an open-ended period of time (the "2013 Program"). Under the 2013 Program, the Company repurchased approximately 18.5 million shares of its common stock at an average price of \$80.94 in the first quarter of 2014, approximately 17.2 million shares of its common stock at an average price of \$86.01 in the second quarter of 2014, approximately 5.8 million shares of its common stock at an average price of \$85.35 in the third quarter of 2014, approximately 8.9 million shares of its common stock at an average price of \$90.81 in the fourth quarter of 2014, and approximately 14.9 million shares of its common stock at an average price of \$96.84 in the first quarter of 2015. The 2013 Program was completed in the first quarter of 2015.

On February 13, 2015, the Company's Board of Directors authorized a new stock repurchase program which provides for the buyback of up to \$6.0 billion of the Company's common stock over an open-ended period of time (the "2015 Program"). Under the 2015 Program, the Company repurchased approximately 1.6 million shares of its common stock at an average price of \$97.19 in the first quarter of 2015 and approximately 1.9 million shares of its common stock at an average price of \$97.19 in the second quarter of 2015. As of June 30, 2015, there were approximately \$5.7 billion of authorized repurchases remaining under the 2015 Program.

Adjusted Return on Average Invested Capital

The Company uses adjusted return on average invested capital ("adjusted ROIC") to measure the effectiveness of its operations' use of invested capital to generate profits. Adjusted ROIC is a non-GAAP financial measure that the Company believes is a meaningful metric to investors in evaluating the Company's financial performance and may be different than the method used by other companies to calculate ROIC. Adjusted average invested capital represents the net assets of the Company, excluding cash and equivalents and outstanding debt, which are excluded as they do not represent capital investment in the Company's operations, as well as the Company's net investment in the former Industrial Packaging segment and the equity investment in the Wilsonart business (formerly the Decorative Surfaces segment). Average invested capital is calculated using balances at the start of the period and at the end of each quarter.

Adjusted ROIC for the second quarter and year-to-date periods of 2015 and 2014 was as follows:

Dollars in millions	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2015	2014	2015	2014
Operating income	\$730	\$763	\$1,427	\$1,430
Tax rate	31.0	% 30.0	% 31.0	% 30.0
Income taxes	(226)) (229)) (443)) (429)
Operating income after taxes	\$504	\$534	\$984	\$1,001
Invested capital				
Trade receivables	\$2,412	\$2,598	\$2,412	\$2,598
Inventories	1,191	1,305	1,191	1,305
Net plant and equipment	1,636	1,700	1,636	1,700
Goodwill and intangible assets	6,222	6,780	6,222	6,780
Accounts payable and accrued expenses	(1,680)) (1,961)) (1,680)) (1,961)
Other, net	480	(69)) 480	(69)
Total invested capital	\$10,261	\$10,353	\$10,261	\$10,353

Edgar Filing: ILLINOIS TOOL WORKS INC - Form 10-Q

Average invested capital	\$ 10,062		\$ 11,504		\$ 10,138		\$ 11,815	
Adjustment for Wilsonart (formerly the Decorative Surfaces segment)	(120)	(157)	(127)	(159)
Adjustment for Industrial Packaging	—		(409)	—		(771)
Adjusted average invested capital	\$9,942		\$10,938		\$10,011		\$10,885	
Annualized adjusted return on average invested capital	20.3	%	19.5	%	19.7	%	18.4	%

23

The annualized adjusted ROIC increase of 80 basis points for the quarter ended June 30, 2015 compared to 2014 was primarily the result of a 9.1% decrease in adjusted average invested capital. Additionally, the annualized adjusted ROIC increase of 130 basis points for the year-to-date period ended June 30, 2015 compared to 2014 was primarily the result of an 8.0% decrease in adjusted average invested capital.

Working Capital

Management uses working capital as a measurement of the short-term liquidity of the Company. Net working capital as of June 30, 2015 and December 31, 2014 is summarized as follows:

Dollars in millions	June 30, 2015	December 31, 2014	Increase/ (Decrease)
Current assets:			
Cash and equivalents	\$2,858	\$3,990	\$(1,132)
Trade receivables	2,412	2,293	119
Inventories	1,191	1,180	11
Other	572	613	(41)
	7,033	8,076	(1,043)
Current liabilities:			
Short-term debt	819	1,476	(657)
Accounts payable and accrued expenses	1,680	1,799	(119)
Other	247	258	(11)
	2,746	3,533	(787)
Net working capital	\$4,287	\$4,543	\$(256)

The decrease in net working capital as of June 30, 2015 was primarily driven by lower cash and equivalents, which were used to fund share repurchases and lower short-term debt resulting from repayments of commercial paper.

Cash and equivalents totaled approximately \$2.9 billion as of June 30, 2015 and \$4.0 billion as of December 31, 2014, primarily all of which was held by international subsidiaries. The reduction in cash on hand was primarily driven by the share repurchases discussed above. Cash and cash equivalents held internationally may be subject to U.S. income taxes and foreign withholding taxes if repatriated to the U.S. Cash balances held internationally are typically used for international operating needs, reinvested to fund expansion of existing international businesses, used to fund new international acquisitions, or used to repay debt held internationally. In the U.S., the Company utilizes cash flows from domestic operations to fund domestic cash needs, which primarily consist of dividend payments, share repurchases, acquisitions, servicing of domestic debt obligations and general corporate needs. The Company also uses its commercial paper program, which is backed by long-term credit facilities, for short-term liquidity needs. The Company believes cash generated domestically and liquidity provided by the Company's commercial paper program will continue to be sufficient to fund cash requirements in the U.S.

Debt

Total debt as of June 30, 2015 and December 31, 2014 was as follows:

In millions	June 30, 2015	December 31, 2014
Short-term debt	\$819	\$1,476
Long-term debt	6,994	5,981
Total debt	\$7,813	\$7,457

Short-term debt as of June 30, 2015 and December 31, 2014 included commercial paper of \$805 million and \$1.4 billion, respectively.

In May 2015, the Company issued €500 million of 1.25% Euro notes due May 22, 2023 at 99.239% of face value and €500 million of 2.125% Euro notes due May 22, 2030 at 99.303% of face value. Net proceeds from the May 2015 debt issuances were used to repay commercial paper and for general corporate purposes.

Total Debt to EBITDA

The Company uses the ratio of total debt to EBITDA to measure its ability to repay its outstanding debt obligations. The Company believes that total debt to EBITDA is a meaningful metric to investors in evaluating the Company's long term financial liquidity and may be different than the method used by other companies to calculate total debt to EBITDA. EBITDA and the ratio of total debt to EBITDA are non-GAAP financial measures. The ratio of total debt to EBITDA represents total debt divided by income from continuing operations before interest expense, other income (expense), income taxes, depreciation, and amortization and impairment of goodwill and other intangible assets on a trailing twelve month basis.

Total debt to EBITDA for the trailing twelve month periods ended June 30, 2015 and December 31, 2014 was as follows:

Dollars in millions	June 30, 2015	December 31, 2014
Total debt	\$7,813	\$7,457
Income from continuing operations	\$1,906	\$1,890
Add:		
Interest expense	231	250
Other income	(87) (61
Income taxes	835	809
Depreciation	247	262
Amortization and impairment of goodwill and other intangible assets	240	245
EBITDA	\$3,372	\$3,395
Total debt to EBITDA ratio	2.3	2.2

Stockholders' Equity

The changes to stockholders' equity during 2015 were as follows:

In millions

Total stockholders' equity, December 31, 2014	\$6,824
Net income	938
Cash dividends declared	(356
Repurchases of common stock	(1,786
Stock option and restricted stock activity	76
Foreign currency translation adjustments, net of tax	(408
Other	18
Total stockholders' equity, June 30, 2015	\$5,306

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may be identified by the use of words such as "believe," "expect," "plans," "intends," "may," "strategy," "prospects," "estimate," "project," "target," "anticipate," "guidance," "forecast," and other similar words, including, without limitation, statements regarding the expected acquisition or disposition of businesses, economic conditions in various geographic regions, the timing and amount of share repurchases, the Company's Enterprise Strategy and its ability to manage its strategic business initiatives and the timing and amount of benefits therefrom, the adequacy of internally generated funds and credit facilities, the ability to fund debt service

obligations, the cost and availability of additional financing, the Company's portion of future benefit payments related to pension and postretirement benefits, the availability of raw materials and energy, the expiration of any one of the Company's patents, the cost of compliance with environmental regulations, the likelihood of future goodwill or intangible asset impairment charges, the impact of failure of the Company's employees to comply with applicable laws and regulations, the impact of foreign currency fluctuations, the outcome of outstanding legal proceedings, the

impact of adopting new accounting pronouncements, and the estimated timing and amount related to the resolution of tax matters. These statements are subject to certain risks, uncertainties, and other factors, which could cause actual results to differ materially from those anticipated. Important risks that may influence future results include (1) weaknesses or downturns in the markets served by the Company, (2) changes or deterioration in international and domestic political and economic conditions, (3) the timing and amount of benefits from the Company's 2013 - 2017 enterprise initiatives and their impact on organic revenue growth, (4) market conditions and availability of financing to fund the Company's share repurchases, (5) the risk of intentional acts of the Company's employees, agents or business partners that violate anti-corruption and other laws, (6) the unfavorable impact of foreign currency fluctuations, (7) a delay in, or reduction in, introducing new products into the Company's product lines or failure to protect the Company's intellectual property, (8) negative effects of divestitures, including retained liabilities and unknown contingent liabilities, (9) potential negative impact of impairments to goodwill and other intangible assets on the Company's profitability and return on invested capital, (10) increases in funding costs or decreases in credit availability due to market conditions or changes to the Company's credit ratings, (11) raw material price increases and supply shortages, (12) unfavorable tax law changes and tax authority rulings, (13) financial market risks to the Company's obligations under its defined benefit pension plans, (14) potential adverse outcomes in legal proceedings, and (15) negative effects of service interruptions, data corruption, cyber-based attacks or network security breaches. A more detailed description of these risks is contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2014 and updated in Part II - Other Information - Item 1A - Risk Factors below. These risks are not all inclusive and given these and other possible risks and uncertainties, investors should not place undue reliance on forward-looking statements as a prediction of actual results.

Any forward-looking statements made by the Company speak only as of the date on which they are made. The Company is under no obligation to, and expressly disclaims any obligation to, update or alter its forward-looking statements, whether as a result of new information, subsequent events or otherwise.

The Company practices fair disclosure for all interested parties. Investors should be aware that while the Company regularly communicates with securities analysts and other investment professionals, it is against the Company's policy to disclose to them any material non-public information or other confidential commercial information. Shareholders should not assume that the Company agrees with any statement or report issued by any analyst irrespective of the content of the statement or report.

Item 4 – Controls and Procedures

The Company carried out an evaluation, under the supervision and with the participation of the Company's Chairman & Chief Executive Officer and Senior Vice President & Chief Financial Officer of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of June 30, 2015. Based on such evaluation, the Company's Chairman & Chief Executive Officer and Senior Vice President & Chief Financial Officer have concluded that, as of June 30, 2015, the Company's disclosure controls and procedures were effective.

In connection with the evaluation by management, including the Company's Chairman & Chief Executive Officer and Senior Vice President & Chief Financial Officer, no changes in the Company's internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f)) during the quarter ended June 30, 2015 were identified that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

Part II – Other Information

Item 1A - Risk Factors

The Company's business, financial condition, results of operations and cash flows are subject to various risks which could cause actual results to vary materially from recent results or from anticipated future results. The following is an update to the Company's risk factors and should be read in conjunction with the risk factors previously disclosed in Part I - Item 1A - Risk Factors in the Company's 2014 Annual Report on Form 10-K.

If the Company is unable to protect its information technology infrastructure against service interruptions, data corruption, cyber-based attacks or network security breaches, there could be a negative impact on operating results or the Company may suffer financial or reputational damage.

The Company relies on information technology networks and systems, including the Internet, to process, transmit and store electronic information, and to manage or support a variety of business processes and activities, including procurement, manufacturing, distribution, invoicing and collection. These technology networks and systems may be susceptible to damage, disruptions or shutdowns due to failures during the process of upgrading or replacing software, databases or components;

power outages; hardware failures; or computer viruses. In addition, security breaches could result in unauthorized disclosure of confidential information. If these information technology systems suffer severe damage, disruption, or shutdown, and business continuity plans do not effectively resolve the issues in a timely manner, there could be a negative impact on operating results or the Company may suffer financial or reputational damage.

Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds

On August 2, 2013, the Company's Board of Directors authorized a stock repurchase program which provided for the buyback of up to \$6.0 billion of the Company's common stock over an open-ended period of time (the “2013 Program”). As of June 30, 2015, there were no authorized repurchases remaining under the 2013 Program.

On February 13, 2015, the Company's Board of Directors authorized a new stock repurchase program which provides for the buyback of up to an additional \$6.0 billion of the Company's common stock over an open-ended period of time (the “2015 Program”). As of June 30, 2015, there were approximately \$5.7 billion of authorized repurchases remaining under the 2015 Program.

Share repurchase activity under the Company's share buyback programs for the second quarter of 2015 was as follows:

In millions except per share amounts

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Value of Shares That May Yet Be Purchased Under Program
April 2015	1.9	\$97.19	1.9	\$5,662
May 2015	—	\$—	—	\$—
June 2015	—	\$—	—	\$—
Total	1.9		1.9
