Employee Stock Ownership Plan
Notes to Financial Statements
December 31, 2004 and 2003
(Dollars in Thousands)
1. Plan Description
The Pacific Telesis Group Employee Stock Ownership Plan (the Plan) was established by the Pacific Telesis Group (PTG) under the provisions of the Tax Reduction Act of 1975 as amended by the Tax Reform Acts of 1976 and 1986, to provide shares of PTG s common stock to eligible employees. PTG was subsequently acquired by and became a wholly owned subsidiary of SBC Communications Inc. (SBC). PTG remains the plan sponsor, but due to the acquisition, the Plan is now invested in SBC shares.
The following description of the Plan provides only general information. The Plan text and prospectus include complete descriptions of Plan provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
Contributions for years prior to the 1987 plan year were in amounts equal to the credit claimed by PTG on its consolidated federal income tax return pursuant to Section 41 of the Internal Revenue Code of 1954 (IRC). This credit was one-half of one percent of compensation paid or accrued for all participants during the plan year up to a maximum of \$100 per participant.
The Tax Reform Act of 1986 repealed the income tax credit on employee stock ownership plan contributions for compensation paid or accrued after December 31, 1986. No contributions were made to the Plan beginning with the 1987 plan year. Employees with a balance in the Plan on December 31, 1986 and whose accounts have not been totally distributed in accordance with the terms of the Plan are eligible for participation in the Plan and continue to maintain a balance in the Plan. Employees who did not have a balance in the Plan at that time are not eligible to participate.
Although it has not expressed any intent to do so, SBC has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event that the Plan is terminated, subject to the conditions set forth by ERISA, the Plan provides that the net assets be distributed to participants in amounts equal to their respective interests in such assets.

2. Summary of Significant Accounting Policies
The fair value of SBC common stock is determined on the basis of the closing price per share on the valuation date as reported at the official close of the New York Stock Exchange. Temporary cash investments are valued at cost, which approximates fair value. Purchases and sales of securities are reflected as of the trade date. Dividend income is recognized on the ex-dividend date. Interest earned on investments is recognized on the accrual basis.
The Plan provides for investments in investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participant account balances.
Expenses incurred to administer the Plan are paid by SBC. A portion of these expenses, up to \$100 per year, is reimbursed by the Plan to SBC.
The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.
3. Allocations and Distributions to Participants
The Plan maintains an account for each participant. Distribution of the shares allocated to a participant s account is generally made to a participant after termination of employment but no later than April of the plan year following the plan year in which the participant attains age 70 1/2, or to a beneficiary as soon as practicable after the participant s death. For each distribution, the participant or beneficiary may elect to

receive stock or cash, but if no election is made, the distribution will be made in cash.

(Dollars in Thousands)
All quarterly dividends for a year earned on shares held in participants—accounts are held in an interest-bearing account until paid to participants on an annual basis in November of each year. Effective January 1, 2002, the Plan was amended to allow participants the option to reinvest dividends on SBC common stock held in their accounts. Reinvested dividends are used to purchase SBC common stock. Earnings attributable to dividends pending distribution, which exceed administrative expenses paid by the Plan, are used to purchase additional shares of SBC common stock. These shares are proportionately allocated to each participant—s account.
4. Tax Status
The Internal Revenue Service (IRS) issued a determination letter on May 11, 1998, stating that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since the determination letter was received. The Plan Administrator believes that the Plan is currently designed and is operating in compliance with the applicable requirements of the IRC.
On February 28, 2002, the Plan filed for, but has not yet received, a new tax determination letter from the IRS to reflect legally required changes and other changes made to the Plan since the previous determination letter was issued.
